VOL. XXXIII—No. 11,955

PEOPLE BENEFIT BY NEW LAWS PASSED

Legislation Enacted During the Past Two Months Will Prove to the Advantage of Public Interest and Will Increase Confidence in Principle of Public Ownership.

With the royal assent to two hundred bills following the prorogation of the legislature in May and the recording of another milestone in the progress of the Whitney Government the confidence of the province will be once again vindicated thru the enactment of much constructive and helpful legislation. The session now drawing to a close has proved one of the most lengthy in the constitutional history of Ontario and has witnessed many a closely-fought debate. At the present time its termination is delayed in order to receive the report of the special committee on privileges and elections which is sitting in enquiry on the charges preferred at the conclusion of regular business by a member of the opposition.

The measures which have received the endorsement of the house embrace a very large area. In addition to dealing with the host of problems affecting the different sections represented, the year will stand forth as placing upon the statutes legislation of an interest peculiar to the conditions of the province today. Matters which have demanded a more or less universal interest through the past year and which have inspired various delegations have been dealt with to the advance of public interest. Many of these appear under the term of social legislation and others not less important concern the increasing confidence placed in the principle of public ownership.

The only bill which came into force upon its adoption was that of Hon. Adam Beck which ordained that municipalities entering into power contracts with corporations should have them approved by the ratepayers, thus applying the same conditions as those under which the Hydro-Electric Commission now operates.

Toronto Benefited.

The city of Toronto benefited to a large extent in the passage of half a dozen bills. These included the enfranchisement of the Forest Hill Electric Railway to operate as a suburban line in the north, the acquisition of the power to take over the Toronto Railway Company, bag and basket, the double tracking of Yonge street by the Toronto and York Radial Railway Company, and the operation of Sunday cars on the same, the removal of certain sale restrictions on University property in the vicinity of College street, and assistance in the handling of some local institutions.

Electric Radials.

Undoubtedly the measure creating most public interest was that introduced by Hon. Adam Beck with a view of establishing in the future a network of electric radials thruout the province, utilizing hydro power. This entails a system of contracts with municipalities and the use of the high power transmission lines now built or planned. Further legislation provided for the sanction of a host of contracts with municipalities during the year.

The work of Hon. W. J. Hanna is noticeable in all the session in important and far-reaching amendments to bills classed as social legislation. The Marriage Act of these has been subjected to careful change, and the practice of carelessly issuing licenses

Continued on Page 7, Column 3.

Business and Politics

Our business and our politics are mixed up, and neither is in the best of shape at this moment. But improvement in both may be in sight.

As to politics: the government have now a chance of finishing the main items and winding up parliament. Closure is available to put the naval vote thru the house with speed. People and business men are tired of the long uncertainty. Let it end, as we believe it will, with one other short and sharp encounter in the house.

Legislation like the budget, the good roads grant, the farming betterment grant, any railway relief that may be contemplated, ought to be finished with despatch.

If the Liberals dare to take the risk of further obstruction, let them have the opportunity outside of the popular chamber. The government's duty to the country and the empire is finished when they've got their bills passed by the commons. Once there, we believe they will go the rest of the journey.

As to business: it is certainly better than a short time ago, and orders are coming along. The banks must soon lumber up, for they, more than others, make the prolonged stringency. It's the money that's hung up, the parliamentary disquiet, that do most to hold things back. Business men and farmers, employers and laborers, are all asking for a chance to get busy. One more week should straighten out Ottawa and mark a little further ease in money.

CATHOLICS NOT FAIRLY TREATED

Archbishop Langevin Says Representation in Roblin Cabinet Is Exceedingly Small Consolation.

ST. BONIFACE, Man., April 25.—(Can. Press)—His Grace Archbishop Langevin has issued in French and English the following pronouncement on the entrance into the Manitoba cabinet of Hon. Joseph Bernier:

"The nomination of a Catholic as a member of the Roblin cabinet is an act of justice due to the Catholics of the Province of Manitoba, who have a right to be represented in the cabinet as well as other groups less numerous who have many representatives, and this is the reason why the archbishop has not considered it his duty to oppose the nomination of Hon. Mr. Bernier, who alone assumes responsibility for it.

"However, it must be clearly admitted that under the present circumstances this nomination seems to be a gift rather fatal and embarrassing, made to appease Catholics who, in spite of the Caldwell school, amendments, which are only a soothing draught, are dissatisfied because nothing has been done to relieve the situation, so painful in mixed centres, particularly since the transfer of the territory of Keewatin to Manitoba; therefore, the archbishop has not intended by his abstention to approve the present nomination, which will not be either a consolation or a compensation for the Catholics, who have always been victims of politics."

AUTO TURNED TURTLE—ONE DEAD, TWO HURT

Eden Grove Hotelman Killed and Companions Receive Severe Injuries.

PAISLEY, Ont., April 25.—(Can. Press)—Daniel Conners, proprietor of an hotel at Eden Grove, was killed this afternoon when his automobile turned turtle. A Mr. McKenna was badly injured and J. H. Hunter is still unconscious from hurts received.

THE NEW PROGRESSIVE MOVEMENT

The men who have been steadily working toward public ownership of public franchises in this Province of Ontario begin to see a great light in the distance which may spell success. At all events, it is a beacon well worth steering for. They have their greatest hope in the City of Toronto and the other cities and towns that have supported the Hydro-Electric policy. That has been a success; and other things are soon to follow.

Toronto is now about to seek to recover control of her street railway and to extinguish in a fair way the local electric light company. The railway to be the centre of radials running to the east, the north, the west, and to link up with other municipal lines in existence or about to be constructed under the guidance of the Hydro-Electric Commission, as by the legislation of this session provided. Guelph is a leader in the field. If Toronto succeeds, Hamilton will follow. Winnipeg and Montreal will not stand silent spectators.

Bigger still is the dream that may soon also be realized that the Hydro-Electric will take over one of the power companies at Niagara and perhaps the Cataract Company; and that Hamilton and Toronto, thereby controlling all the local lines of railway and radial entrances and power distribution, will be the seats of two great municipalities that will be able to offer power and traction at cost, where service to the public, not profit to shareholders, will be the predominating guide.

Those who seek these things need not fear the little Apollons of the wayside.

CLASH OF VIEWS ON POLICY IN PANAMA

Contention of Richard Olney, Former Secretary of State, That United States Is Not Repudiating Obligations Is Opposed by Other Authorities on International Law.

WASHINGTON, April 25.—(Can. Press)—Divergent views regarding the right of the United States to exempt its coastwise vessels from the payment of Panama Canal tolls were expressed today in papers read before the seventh annual meeting of the American Society of International Law. Most of the principal speakers, however, agreed with Richard Olney, former secretary of state, who held this country was entirely within its rights, as the owner of the canal, to make whatever rules it desired concerning the canal.

Equally divergent views were expressed as to whether the payment by the government of a subsidy equal to the amount of tolls to American ships would be a violation of existing treaties. The right to grant subsidies, when not expressly prohibited by treaty, was not controverted.

In the discussions that followed, many of the extemporaneous speakers opposed the idea that the United States had a right to exempt its vessels from tolls, and contended that such an act would be contrary to all existing treaties and would bring dishonor upon the country.

Not included in "All Nations." In his address, which was read, because of his inability to attend the meeting, Mr. Olney declared that "the all nations" clause of the Hay-Pauncefote treaty meant only the "customers" of the canal, and that since a nation could be both customer and owner, the United States was not supposed to be included in the words "all nations." He expressed himself as opposed to referring the matter to The Hague, because all nations were interested in the outcome, but advocated an independent arbitration tribunal.

This view was opposed by Cranford Kennedy of Washington, who maintained that existing treaties must be kept, and only changed with the mutual consent of the high contracting parties.

Great Britain, he said, would pay nearly one-half of the total revenue of the canal, and therefore had the right to be consulted, especially in view of treaty obligations.

Chandler P. Anderson, former counselor of the state department, insisted that all discussion of the toll question "must be limited to any discrimination against English shipping," and that the "fundamental question is whether the rules adopted by the United States, under article 3 of the Hay-Pauncefote treaty, as a basis of the neutralization of the canal, were intended to apply to the United States as well as to all other nations."

Lewis Nixon of New York was among those to agree with Mr. Olney.

Prof. Wambaugh Contends Otherwise. During the afternoon Prof. Eugene Wambaugh of the Harvard Law School declared that there were many reasons for the belief that the United States was included within the meaning of the clause.

Horace G. Macfarland of Washington maintained that a subsidy to American ships of an amount equal to their canal tolls would be a discrimination prohibited by the treaty.

The night session was given over to a discussion of the coastwise exemption on canal tolls, and whether the United States had the right to exclude from the use of the canal any class of foreign vessels. The speakers were Emory R. Johnson, special commissioner on Panama Canal tolls and traffic; D. Dwight Harris of Northwestern University, Chicago; James W. Garner of the University of Illinois and John Foster Dulles of New York.

"THE MARKET CART" HUNDRED THOUSAND

Record Price Paid For Gainsborough Painting at London Art Sale.

Special Cable to The World, LONDON, April 25.—(Copyright.)—All records were beaten today at Christie's when the well known dealer, Lockett Agnew, who acted for J. Pierpont Morgan in some of his biggest art purchases, paid \$100,000 for Gainsborough's "The Market Cart," at a sale of the works of art belonging to the South African magnate, Sir Lionel Phillips.

The last big price paid in an auction room here for a Gainsborough was the portrait of the Duchess of Gloucester at the Duke of Cambridge's sale, which brought \$65,000.

THE LAOCOON OF TORONTO

Or How Malevolence and Jealousy May End

While he spoke, a fearful scene presents itself, and strikes terror and confusion into our minds. Laocoon, chosen by lot to act as a priest of Neptune, was sacrificing a bull at the old customary altar, when two huge serpents (Malevolence and Jealousy) with fiery eyes and blood-stained crests, sped across the sea from Tenedos. With undeviating course they make straight for Laocoon, and, first enveloping in their coils his two sons and burying their poisonous fangs in the hapless lads, they seize the priest himself, when he comes to their aid, in deadly embrace—Viri!

POWERS PREFER MORAL SUASION

They're Unwilling to Fall Into Line With Austria's Aggressive Designs Toward Montenegro.

LONDON, April 25.—(Can. Press.)—The ambassadorial conference met again today. Premier Asquith and Viscount Morley, lord president of the council, were present and discussed the Scutari problem.

It is understood the conference adheres to its decision that Montenegro must evacuate Scutari, but is indisposed to acquiesce in Austria's demand that the powers undertake to compel evacuation by force of arms. No demand has been formally sent to the Cettinje Government and probably nothing will be done in this respect until after the next meeting of the conference, Monday, when Sir Edward Grey, the British foreign minister, who has been absent from London this week, again will preside over the deliberations.

The Montenegrin Crown Prince Danilo made his formal entry into Scutari yesterday. Gen. Vokutitch has been appointed military governor of the city and M. Plamenatz, former charge d'affaires at Constantinople, civil governor.

King Nicholas will make his triumphal entry into Scutari today and, it is reported, he will proclaim his intention to move his court there.

NATURAL GAS FOUND ON DUPONT STREET

Dan Sinclair Located a Strong, Steady Flow Twelve Hundred Feet Down.

Something of a sensation was caused near the corner of Dupont and Brunswick avenue last night, when Dan Sinclair, who lives at 282 Dupont, struck natural gas. For several months Mr. Sinclair has been boring for gas, as he was convinced that it would be located. He was rewarded last evening when he struck it at a depth of 1200 feet. A steady flow was found, and after stopping it with a stopcock, Mr. Sinclair regulated it, and the illumination could be seen for several blocks in the northern end of the city.

Last Time Today.

With the matinee this afternoon and tonight's performance, the local engagement of the quaint and delightful musical comedy, "The Quaker Girl," which has pleased vast audiences during the week, will close at the Princess Theatre. You had better see it than wish you had.

Rome in Toronto

Grand-standers at the next Canadian National Exhibition will be treated to a program featured with the spectacle called "The Destruction of Rome." Chariot races, gladiator contests, and other sports of the Roman period will be introduced. John Henderson of London, England, has been engaged by Dr. Orr to manage the spectacular number.

WOULD RETAIN OLD HOSPITAL

Six Physicians Form New Corporation to Take Over and Control Riverdale General Hospital.

For the purpose of retaining the old General Hospital for use of east end residents of Toronto, six physicians have formed a corporation, to be known as the Riverdale General Hospital Corporation, to take over and maintain the present buildings on Gerrard st. when the new College st. buildings are occupied. They are: Dr. John Noble, Dr. W. J. Greig, Dr. C. R. Sneath, Dr. A. J. Fraleigh, Dr. J. L. Burns and Dr. O. A. McNichol. This action would do nothing on its own initiative if the Toronto General Hospital Trust will relinquish control of the Gerrard street institution, a new trust will be formed. If not, it is probable that a new hospital will be built on one of the several available sites on Gerrard street and in Withrow Park.

HOUSE COLLAPSED, TWO KILLED.

PARIS, April 25.—(Can. Press.)—The residence of Emile Froment-Meurice, 46 Rue d'Anjou, in one of the most aristocratic quarters of Paris, collapsed tonight, killing M. Froment-Meurice and his wife. M. Froment-Meurice was one of the most celebrated goldsmiths in Europe.

Saturday is Matter's Day.

Saturday is men's hat day. It is just the day before Sunday, and Sunday is the day when an old hat looks shabbiest and a new hat looks its nicest.

There is just one particular style of a hat that will set most comfortably on a man's head, and suit his face better than any other style of hat, and it is only at the store where there is a great variety of hats that a man will be perfectly suited.

That's Dineen's. Dineen's price is three dollars. That is really the normal price of a good hat. The prices range from one to five dollars, but three dollars is recommended as the best value. Dineen's, 140 Yonge street, corner Temperance.

PROROGATION AT EARLY DATE PROBABLE

Special Session of House May Be Called in September—Hon. Mr. Cochrane Wants Wide Powers to Acquire Branch Lines as Intercolonial Railway Feeders.

OTTAWA, April 25.—(Special.)—The house despatched a good deal of business today, advancing every government bill brought up for consideration, including the highway act, which now stands for a third reading. So zealous indeed were the Liberals in expediting the business of the house that the government found time to consider public bills introduced by private members, something almost without precedent at this stage of the session. Beginning Wednesday the house will sit in the forenoon, which is one of many signs to combine with the hot weather in foreshadowing an early prorogation.

Session in September.

Perhaps it is on this account that the talk is revived of a special session to be called in September, which will deal with redistribution, the rules of the houses, and the naval aid bill, in case the latter is thrown out at this session by the senate.

The senate, by the way, returns on Tuesday, when a joint caucus will be held composed of Liberal senators and M.P.'s. The house will not sit on Thursday as it is Ascension Day, and the naval aid bill may therefore not pass thru the commons until week after next. The bank bill is pretty well thru committee and Finance Minister White stated today that it would be reported to the house by Wednesday next.

Power to Acquire Railways.

Hon. Frank Cochrane this afternoon presented a resolution authorizing the minister of railways and canals, subject to the majority of the government-in-council, to construct, purchase, lease or otherwise acquire, in whole or in part, any railway, railway bridge, railway station, railway terminal, railway ferry or other railway works and that any such railway or other work shall become a part of the government railway system.

Hon. George P. Graham said the resolution was a most remarkable one. Under its terms the minister of railways might purchase the entire Canadian Northern Railway system, and there was a rumor to the effect that the Canadian Northern might be absorbed by the government.

Applies Only to the I.C.R.

Mr. Cochrane said that the resolution was intended only to authorize him to acquire, improve and operate branch lines of the Intercolonial.

Mr. A. K. Maclean (Halifax): "You might contract to buy or build a railway from Ottawa to Edmonton."

Mr. Cochrane: "I might, but where would I get the money?"

The prime minister said that it was not an unusual thing for the Dominion government to enter into contracts involving huge sums of money without first consulting parliament.

For instance, the Grand Trunk Pacific scheme, the Drummond County Railway agreement and other contracts. The house holding the purse strings would in any event have the final say.

The resolution was considered for some time without being finally passed upon, and a number of other government bills were then advanced.

At the evening session the highway bill was taken up and reported from

Buy Your Lot Now—

And You Will Always Have A Place to Build Your Home

If you are a rent-payer make a start now towards owning your new home.

The money you have paid in rent would have bought the house you live in. If you can afford to pay rent you can afford to own your own home.

Buy the lot for your homesite now. A small payment will hold it, and it will always increase in value. Land is increasing in value so fast in Toronto that next year you may have to go much farther out to get a lot at anything like a reasonable price.

The lots in the northwestern section of the city are being bought up rapidly, as Toronto's amazing growth is towards the north-west. Population follows the factories—and West Toronto is our biggest factory district.

Beechborough Grange

is right in line of Toronto's growth—almost at the intersection of two of Toronto's main thoroughfares—Keele and Eglinton. It is within walking distance of 28 of Toronto's largest factories. The property is being developed and improved—being put into proper shape for the building of nice homes of light restrictions.

Beechborough Grange should have an efficient car service, as the Woodbridge line, on which grading has already commenced, and the Forest Hill line, which has already got its charter, are projected to pass within a few minutes' walk of our property.

The end we had in view in putting this property on the market was to give the employes in the factories of West Toronto a high, healthful, level site for their homes, at a low price, and within walking distance of their work.

Lots \$10 per Foot—\$1 per Foot Down

To a limited number we will sell one piece of this land at the very low figure of \$10.00 per foot, \$1.00 per foot down. This is the same price at which undeveloped land adjoining this section is selling in bulk. Some even is higher. You will find the price per acre of adjoining land is \$2,500, which does not allow for loss in cutting streets.

Aside from its homesite advantages this land is an excellent investment, and should show purchasers good profits.

Come out and examine the property. Our motors will meet you at the cars this afternoon. Take the Dundas car to the junction of the Weston road and Dundas street. This is right at the C.P.R. station of West Toronto, where Royce avenue crosses Dundas street.

VETS GRADUATE

Seventy-One Have Completed Their Course in Ontario College

Seventy-one graduates of the Ontario Veterinary College were presented with diplomas along with science certificates at Convocation Hall yesterday afternoon.

E. A. A. Grange, principal of the college, called the student's name, then giving the roll to Hon. James S. Duff, minister of agriculture, it was handed to the graduate with a hearty handshake and congratulations for his

future success. In speaking to the students, Hon. Mr. Duff gave them good advice as to the life to lead in the future, and congratulated them on choosing such a worthy career.

After the presentation of diplomas W. W. Forsyth, president of the class, presented to the college a large and well mounted picture of the class, also thanked Principal Grange for his trouble and sincere kindness throughout the past term. Mr. Grange made a fitting reply, and after showing his appreciation for same, wished the boys godspeed in their new profession.

FIRST UNDERGROUND RAILROAD.

London recently celebrated the fiftieth anniversary of the first underground railway built to facilitate passenger transportation in a city. The first section of the London "underground" was opened to the public in 1863. The locomotive was a six-wheeled tank engine designed to bottle up its steam and smoke, so as to keep the air in the tunnel clear. Steam locomotion did not give way to electricity in the London subway until 1906.

NEW ADVERTISING OFFICES.

F. Albany Rowlett Occupies Handsome Suite in Tanner-Gates Bldg.

Business expansion is always a pleasant subject to deal with, especially when it concerns some one with whom people are well acquainted. F. Albany Rowlett has been compelled by increase of business to take the entire rear half of the fourth floor in the Tanner & Gates Building, 26-28 Adelaide West, and the offices have been specially fitted up to suit the requirements of a high-class advertising business. Every device or arrangement which will save time and ensure efficiency in handling the mass of exacting detail which has to be disposed of daily is included in the equipment. Mr. Rowlett specializes in financial and commercial advertising and his clients will appreciate the comfortable and tastefully furnished reception room which has been prepared for them.

The checking department occupies the entire west section of the floor, and also it is three times the size of the old office it is none too large for the ever-increasing quantity of publications that have to be handled in checking up advertisements.

The copy writing and art departments are well provided for and, generally speaking, the new offices are characteristic of the energetic and original advertising expert who is the motive power of the business.

SCHOOL HYGIENE AND CHILD LAWS

Will Be Discussed at Big Convention of International Congress.

AT BUFFALO IN AUGUST

Eight Thousand Delegates Will Be Present From All Countries.

BUFFALO, N.Y., April 25.—(Special.)—Canadian delegates to the fourth International Congress on School Hygiene, which will be held in Buffalo, Aug. 25-30, will advocate a revision of certain laws relative to children and school hygiene.

The fact is brought out in the preliminary program issued by Dr. Thos. A. Storey of the college of the City of New York, secretary-general of the congress. The names of many of the foremost scientists and educators in the Dominion provinces are included in the list of 280 men and women who have promised to present papers at the sectional meetings.

His Royal Highness the Duke of Connaught, governor-general of Canada, patron of the Canadian delegation, will meet President Woodrow Wilson of the United States, patron of the American delegation, at the opening session of the forthcoming gathering, and it is planned to make this one of the features of the congress. Sir James Grant, M.D., K.C.M.G., of Ottawa, is president of the Canadian delegation. Prof. H. J. Silver of Montreal, Canada, will represent the Protestant Board of Montreal at the congress. Among the foremost speakers will be Dr. D. P. Stokes, surgeon-general of the U. S. navy; Dr. Shepard I. Franz, pathologist in the government hospital for the insane at Washington; Dr. Chantemesse, inspector-general of the sanitary service of Paris, France, and scores of others.

Nine from England. Nine of England's most prominent educators will represent that country at the meeting in Buffalo. Cloudeley Breerton of London will head the English delegation.

Advance acceptances indicate that fully 8000 of the foremost scientists and educators will attend the sessions of the forthcoming gathering. Every country in the world will be represented, and every state and territory in the United States and Canada will have delegates.

In connection with the congress, there will be a scientific and commercial exhibit of international interest. European countries are planning to spend as high as \$2,000 on individual exhibits in the great exhibition hall. The United States Government will have a grand exhibition under the direct charge and supervision of Dr. Fletcher E. Dressler of Washington, specialist in school sanitation in the bureau of education.

The Trans-Atlantic Association, whose members are officials of the great railway systems operating in the United States, Canada, and Mexico, have sent broadcast throughout the world, notices to the effect that the rate of a fare and three-fifths will be made to members attending the congress.

LARGE MERGER OF GREAT LAKES BOATS

Seven Companies Join Hands—Most Important Consolidation in Years.

CLEVELAND, O., April 25.—(Can. Press)—The biggest merger of Great Lakes steamship companies since the formation of the Pittsburgh Steamship Co. took place here today when the stockholders of the Lackawanna Steamship Co., Inc. and organized the Inter-Lake Steamship Co. Thirty-nine freighters owned by the Mesaba Steamship Co., the Lackawanna Steamship Co., the Huron Berge Co., Provident Steamship Co., Acme Steamship Co. and Standard Steamship Co. were combined with seventeen vessels belonging to the old Lackawanna which was under a receivership until lately, when its vessels were sold and the receivership dissolved.

The new company is capitalized at \$6,500,000, with bonds of \$3,000,000.

New Treatment Now Advocated For Bronchitis

Is Having Wonderful Success, and is Making Most Remarkable Cures.

For bronchitis a different form of treatment is now advocated. It consists of a scientifically devised vapor that penetrates to the uttermost recesses of the lungs and bronchial tubes. Every spot that is sore, every surface that is irritated is at once bathed with soothing balsams and healing essences that make chronic bronchitis an impossibility.

This treatment, now so universally employed in bronchitis, throat troubles, colds, etc., is called CATARRHOZONE. It acts just as air of the pine woods acts, as a healing antiseptic remedy for all diseases of the breathing organs.

Just think of it—a remedy that can be carried with the very air you breathe! Carthozone is truly a wonderful remedy. In many lands it has won its way, and is affording grand results to sufferers from colds, bronchitis, throat weakness, asthma, and grippe. There is no other remedy so powerful enough to kill germ life and yet so healing that disease flees before it. Carthozone is truly a wonderful remedy. In many lands it has won its way, and is affording grand results to sufferers from colds, bronchitis, throat weakness, asthma, and grippe. FOR MANUAL TRAINING.
Earl Grey School is to have a separate building erected for manual training and domestic science. This is owing to all the class rooms in the present building being required for the regular work.

Anaemic Condition or Bloodlessness

A peculiar pallor or even ghastliness of the skin is the marked symptom of anaemia. The eyelids, gums and lips appear to be almost bloodless. The cause of this condition is the absence of red corpuscles from the blood.

The anaemic patient is usually thin and weak, but may be fleshy and inclined to dropsy. Stomach troubles and weakness of the bodily organs are accompaniments.

Red corpuscles must be added to the blood, and this can best be accomplished by using Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food
50 cents a box, 6 for \$2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

"RAGGS" WRITES FROM NEW YORK

New York, April 25, 1913.

Dear Toronto-Ontarians:
I don't know when "Joseph and His Brethren" will finally go "on the road," but sooner or later, it is sure to play Toronto, so I hereby poke a "written word" in the eye of the fond parents of Toronto, Ont., who would like to make the Old Testament figures ever a wonderful reality to his children. Even if it necessitates some enormous personal sacrifice (such as giving up cigars for a week), take the whole family to see this beautiful and reversible drama of Bible history.

Louis N. Parker, the dramatist, has set forth the old story with the tenderest sympathy of the most sensitive feelings of Christian, Jewish, and alleged-Christian audiences. "Not at all for my own sake," he says, "but for the sake of the art to which I have devoted my life, of the artists whom I love and admire, and of the stage which I hold in reverence and honor." I know that all engaged in the production, managers, actors and stage hands, are working with keen enthusiasm, whole-hearted devotion, and above all, with deepest reverence.

"Joseph" is wonderfully portrayed by Brandon Tynan. His work is a joy and his technic significant of the art which concedes art. James O'Neill's readings as "Jacob," of the old familiar verses were musically beautiful, and a lesson not only in voice-production and diction, but in reverence to persons of all denominations the world over. Pauline Frederick is a ravishing "Zuleika" (Potiphar's wife). Her acting was very fine, in spite of a bad cold, which rendered rather unconvincing an off-stage shriek. As "The Lamb" said, "Bet you anything they hardly touched her!"

Of Dorothy Parker in the part of "Asenath" I could write columns, but why annoy the British Toronto-Ontarians by stating that the one English person in the cast had a voice of metallic twang and disagreeable lilt? A beautiful English voice is a joy forever—but as much can be said of a mellow voice produced in any country, in any language. And I don't think that anything in the world is quite so aggravating as the affected, high-pitched monotone of the average Englishwoman's voice. And—ye gods!—when that voice reads blank verses on the stage! I heard the Barker players in "The Winter's Tale," in London, last autumn. The beautiful words of Shakspeare were ruined. "Dear old thing," you knew they were soliloquizing. "This is getting pretty thick—were quite fed up with Shakspeare—wish I might toddle along to my downy."

A Voice Like Music.
One of the sweetest English ladies it has ever been my pleasure to meet married the man of her choice last Saturday. Miss Polly made herself very popular in Canada. Thousands of loving little thought-waves, I know, chased each other furiously across the Atlantic, to carry happiness to her. Now there is an English woman with a voice like music, not reminiscent of a parrot—nor yet some indescribable thing between a gurgler and a squeaker!

Rising Pianist and Prominent Composer.
Martine Valborg Zoellner who, I see by Toronto papers, gave a concert at Foresters' hall last Monday evening, was the subject of a talk I had with Clarence Lucas last Sunday. Mr. Lucas, as everybody Canadian should know, is the country's foremost composer.

Just in how far Canada may congratulate herself upon the art and genius of this man who went abroad as a mere boy, achieved his success in Paris and London, and returning to Canada received such instantaneous and appreciative recognition of his work that he came to New York after a year or two in Toronto, is not for "Raggs" to say. However, Canada (musical Canada) recognizes him now with the eyes of Europe and the United States, a composer of the highest artistic ideals and a brilliant writer upon all musical subjects.

Mr. Lucas is a sincere admirer of the art of little Miss Zoellner—and his admiration is a concession indeed, for one who so firmly and frequently states that no "female of the species" is capable or ever will be capable of artistic greatness.

"The art of a woman is emotional—and therefore, fleeting." I have heard him say, time and again. I timidly (for Raggs) reminded him of his words, which, however, he refused to "test."

"She's the exception," he said. "She's not emotional—certainly not—she's temperamental, as her idiotic advertisements so blatantly announce to a misunderstanding public. But her temperament is undoubtedly a legacy from her father or her grandfather. It is not a feminine trait," he babbled on.

Personally, I have known so many weakly emotional men and strongly temperamental women that I did not find it necessary to argue with his comership to convince myself on the point.

Up to the present there have been no great women composers? Well, Mme. Gabrielle Ferrar, who has written three operas, has had her latest, "The Cobzar," successfully produced at the Grand Opera. And there are a few others. A beginning has been made. It is only within the last generation, you know, that there have been great women pianists and violinists. Perhaps there will be great composers among the next generation of women. "Maybe" many a woman, full to overflowing with musical genius, has died with her work unaccomplished because the world did not permit a woman the privilege of devoting her creative instinct to making music.

The singers whose memories are sweetest in history have been women. Why? Because men's voices are created baritone, tenor and bass. If male throats produced soprano and contralto tones, something tells me that Jenny Lind would have been an "inferior person, spring her better, in grasping for artistic honors beyond the reach of weakly feminine hands."

Perhaps we shall yet live to see and hear a music expressive of something beyond man's spiritual capabilities—more essentially human, than the music of man's day dreams, the love of man for woman, of nature in all its moods—music of humanity that is the outcome of thousands of years of suffering and the transcendence of happiness of womanhood, of the temperamental (not emotional!) that has existed that is fundamentally, spiritually human than the world has heard in the voice or art of the greatest male singer who has lived.

A Woman Sang.
Have you read one Canadian, Arthur Stringer's poem, "A Woman Sang"? His poet's insight has taught him much wisdom. Listen.

"For not in your rapt breast and body warm,
This song was born, nor of your spirit grew.
Deep in each note the ache of ages sleeps,
A thousand voices faltered and paled for it;
A thousand bosoms grieved and sobbed for it;
A thousand decades aged and died for it."
"A thousand hungers and a thousand tears
Have schooled it,
And happiness, thru music, closer leaved,
And life, and all that we had thought that life
Should mean, because of music, deeper grew."

"And Love, with all its tear-bewildered heart,
And weariness of joy, found voice again,
And seemed to walk with God!"
Doesn't he express it all wonderfully in those few lines—the meaning of music expressed thru the medium of a woman's voice?

So will a woman express all womanhood in composition some day, and prophetic soul says the day is not far off.

By-the-way, Mr. Lucas is the proud parent of five (5) daughters, so perhaps he is a first-rate judge, after an of whether women are emotional or temperamental. The eighteen months old lady of the family struck me as having emotional leanings when dinner drew near—but then on second thoughts, I don't think that proves anything, for the baby inherits it from her papa, whom I have seen very much disturbed when dinner was late.

Miss Yaw's Double High C.
Have you heard Ellen Beach Yaw sing? She is popularly supposed to have the highest voice in the world. A little friend of hers expressed it to me thusly: "You know the C that you can sing? Well, you know the C higher'n that?" I thought, "High C, they call it, Nellie." "Well," he swallowed hard, "would you believe it, she can sing the C above that!"

And sure enough, she can! With mine own ears have I heard it! "Your voice is lovely," I told her. "It's like—well, it's like the music of a baby forest at dawn, of all the life awakening among the branches of young trees!"

"Oh, I like you," said the dear little lady. "You wouldn't call it a freak voice, would you?"
"Heaven forbid!"

"Do you know that singers often say that of my voice, that I've worked with and prayed over since I was a child? But it's not a freak, I tell you. It's growing all the time, and each newly-developed note, expression and tone-coloring is an answer to prayer—and God doesn't create freak voices!"

No. I didn't kiss her.
Yours hastily,
"RAGGS."

LOTS FOR GARDENING.
W. J. Gage has offered Inspector Hughes two lots on Alcona avenue to be used for gardening purposes by the children of the city.

Humber Valley Surveys BABY POINT SUBDIVISION

This property, a short distance north of Bloor street and extending from Jane street to the river, is at an elevation of about one hundred feet above the river.
The views from the bank lots up and down the Humber Valley and over Lake Ontario are not equalled in or about the city.

PRICES:
Bank Lots, \$40 and \$50 per foot
Inside Lots, \$25 to \$40 per foot

For plans, particulars, etc., or appointments to be shown over the properties, apply

A DELIGHTFUL SUMMER RESORT

The new log cabin camp hotel in Algonquin Park is located on the easterly shore of Smoke Lake, one of the largest and most picturesque of the park lakes, and is known as "Nominigan Camp." The world is Ojibway for balsam, and is most appropriate, for the region is rich in this aromatic growth. Here, on a point facing the south, and furnishing glorious sunset pictures across the lake to the west, has been built a log-cabin hotel enterprise, similar to those of Maine of world-wide fame. There is a large central lodge or meeting-place and in close proximity to it there are a series of individual log cabins, all built of cedar logs with the bark on, chinked with cement and moss and thoroly in keeping with the natural beauty of their location. The central lodge and the cabins are simply, comfortably furnished and have modern conveniences, with bath rooms and hot and cold water. The large lodge is used for general rendezvous and dining-room, and the log cabins furnish privacy for families or parties. This arrangement has proved a real success in many of

THE BEST SIMILAR RESORTS OF THE EAST

This camp on Smoke Lake is the first of a series of camps which will be established in the park by the Grand Trunk Railway System under arrangement with the Provincial Government. The high standards set in the new and magnificent Chateau Laurier at Ottawa, owned and operated by the Grand Trunk Railway System, will be maintained, although in very different fashion, in these rustic caravansaries. The rates are exceedingly reasonable, \$14.00 to \$18.00 per week. Write to the Manager, "Nominigan Camp," Algonquin Park Station, for descriptive literature free from Grand Trunk agents.

SUIT OVER MINING STOCK.

In the non-jury assize court yesterday an action brought by Playfair, Martens & Co. against Dr. M. Steele and Dr. J. H. McCormack for recovery of a loss of \$4000 sustained by the plaintiffs on the sale of stock in the Swastika Mining Company was heard. Dr. Steele was president of the mining company and on Dr. McCormack

SNAP OF A LIFETIME

Absolute ownership of a lot in Welling for what is usually made as a first payment.
For quick sale for a party who needs the money, the price for five lots is \$55 each. Take one or all.
Those in search of a real estate bargain should see us at once.

going into partnership with him he

was offered 10,000 shares of the stock. Dr. McCormack was only receiving \$50 a month from the concern and could not pay for the shares, but he negotiated with Playfair, Martens & Co. to take over the stock for him, which they consented to do without liability, but they would advance the market price of the stock to one dollar a share. The plaintiffs subsequently sold the stock at a loss of \$4000. Judgment was reserved.

SOCIETY

The I.O.D.E. Preventorium will be opened on May 7 by His Honor the Lieutenant-Governor at 4 o'clock.

Lady Borden gave a luncheon in Ottawa this week.

General Cotton is in town from Ottawa.

Mrs. Charles Sheard gave a supper last night for some of the performers in the Vaudeville and a few others.

Mr. and Mrs. C. S. Harding and Miss Blossom Harding of Montreal are at the Chamberlain, Old Point Comfort.

Mr. and Mrs. Willie Hope of Montreal are in Paris.

Mrs. Charles Cambie, who has been at Glenedyth, with the Misses Nordheimer, has returned to Ottawa.

Mrs. W. K. George and her daughters returned home on Tuesday, after spending seven or eight months abroad. Miss Dorothy Sheild, who had been travelling with them, is remaining abroad for a few months longer.

Mrs. Lyons Biggar, who spent a week in town with her mother, Mrs. Elliott, has returned to Ottawa.

A luncheon was given at "The Battlefield," Hamilton, by Miss Violet Barnes, who, with her parents, will arrive in town today for a stay of some length.

Mr. Gerald MacLean was in town from Parry Sound for the Vaudeville last night.

Mr. and Mrs. F. Plummer are motoring in England and France.

The Toronto Garrison Sergeants' Association are giving an act at home on Friday evening, May 2, in Canadian Foresters' Hall, College street.

Mrs. W. W. Pope will be the tea hostess at the Arts and Crafts Exhibition at the new galleries this afternoon.

The annual meeting of the Women's Musical Club was held in the lecture hall of the Conservatory. After hearing the various reports, and dealing with business of the club, the election of officers for the season, 1912-14, took place, and resulted as follows: Honorary president, Mrs. Austin (by acclamation); president, Mrs. Arthur Pepler (by acclamation); first vice-president, Miss Grace Boulton; second vice-president, Mrs. Wallace Barrett; third vice-president, Miss Grace Smith.

Mrs. O'Neill and Miss O'Neill, 53 Wellesley street, will receive on Monday for the last time.

The annual meeting of the Women's Canadian Club takes place at 2nd this afternoon. Hon. Mr. Hearst will give a lecture at 4.30.

By special permission of the manager of the Strand Theatre, Mr. Nelson Waring, "The Wizard of the Piano" will play a couple of numbers in the Queen Alexandra Tea Rooms this afternoon between 5 and 6.

The Nuwara Eliya plateau in Ceylon (6200 feet) has the finest tea estates in the world. The "Salada" Tea Company import their tea direct from this district. The delightful flavor and absolute purity of "Salada" will please you. Your grocer sells it.

COMPACT WILLOW TABLE AND CHAIRS.

A willow table with four specially constructed chairs, which are so designed that they may be slipped under the table in an upright position, thus enlarging the floor space and improving the general appearance of the room. It is being manufactured for use in restaurants, summer gardens, lawns or porches. The seats of the chairs are brought to a point in front instead of being square-bottomed, and the backs are made low enough to be pushed beneath the top of the table.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Cheese

CHEESE used to be considered particularly indigestible and was avoided by many, but opinions have changed and now it ranks as one of the most important and useful of food products.

It is only when a quantity is eaten after a heavy repast that the stomach makes known its inability to make use of it by certain uncomfortable and unmistakable symptoms.

The variety of cheese is bewildering when one remembers that it is the proper caper to serve a certain one with certain courses, and a breach of culinary lore to ignore these prescribed customs.

The Neufchatel cheese, similar to our domestic cottage cheese, is made into little balls and sent to the table as an accompaniment to fruit and vegetable salads. Gruyere is like Neufchatel cheese, except that it is made from cow's milk skimmed, instead of from goat's cream, and is flavored with herbs.

Roquefort cheese is from France. The little green lines that run thru it are bits of rye bread that the peasant makers add to it for flavor. It is made from sheep's milk. The animals are pastured upon the richest herbage and the flow of milk is stimulated by the shepherdesses in every possible way.

It is a picturesque sight to American tourists to watch the maidens in the fields, with their pails, milking their favorite animals.

Brie, Camembert and Gorgonzola each have their friends; the processes of ripening them is not approved by all, tho' the veins of green mold that run thru them may not be harmful, as they are so rich only a trifle is eaten at a time.

The English cheese, called Stilton, is also molded and cannot be equalled for mellow mildness. Formerly this particular cheese was a most expensive article, but recently so many have entered upon its manufacture that its price is reduced.

For macaroni cooked and all "au gratin" dishes no cheese equals the real Parmesan. This is made in Parma, Italy. A very little will season a great dish of material, so it is not an expensive luxury.

A delightful way to buy it is to go direct to an Italian settlement and purchase it from the dark-eyed storekeeper. Then you will be sure you have the real article and you will have enlightened ideas of how part of the "other half" live, for you cannot make a trip like this without learning a great deal about foreign cookery.

Having secured this splendid cheese, use it carefully, grating just what you need for seasoning and hanging up what remains until needed again. It improves as it ages and the harder it gets the better it is.

Edam cheese is approved by French chefs for cooking.

For rarebits and chafing dish cookery no cheese is better than high, old Canadian cream cheese.

Edam cheese is a favorite after-dinner article; so far we have not been able to imitate the Hollanders in making it, tho' our attempts are creditable.

There is no article of diet more universally used than cheese, and the variety and modes of its manufacture is an intensely interesting subject, for it takes one to every country on the globe.

Cheese straws, cheese souffles, canapes and golden bick are a few forms in which it will be liked aside from the usual cheese combinations.

The Daily Hint From Paris

EFFECTIVE DRAPING

One of the most pleasing gowns seen this season was made the subject of this sketch. In some ways it suggests the American Indian, for the embroidery around the neck opening is decidedly of that character.

The yoke is of ecrú cloth and the tinted portions are of deep burnt orange over a skirt of black satin. The embroidered buttons and tabs are made of the ecrú material, the stitchings being taken in Indian colors.

TRANSPORTING A REGIMENT BY MOTOR TRUCKS.

Plans for transporting a regiment of soldiers from Fort Benjamin Harrison, near Indianapolis, to the Pacific coast and back again on motor trucks next year have been perfected, and will be submitted to congress for approval. The journey, if made, will be the largest experiment of the kind ever undertaken by the war department, and will cost approximately \$450,000.

Drunkenness Can Be Cured

Alcure, the widely-known treatment for Alcoholism, can now be obtained at our stores. It is guaranteed to cure or benefit, or money refunded. Remedy that has been tried by thousands and found to do just as it claims.

Drunkenness is a disease. Those who are afflicted with the craving for liquor have to be helped to throw it off. Alcure No. 1 can be given secretly in coffee or food. Alcure No. 2 is the voluntary treatment.

Help your loved ones to restore themselves to lives of sobriety and usefulness, and to regain the respect of the community in which you live. Only \$1 per box. Ask for free booklet. G. Tamblin, Limited, Stores.

Sensational Prices to Clear an Over-Heavy Stock of Grand and Upright PIANOS

With the season advancing, pianos that have been out on rental and in music studios, and grand pianos out for concert use are coming back to us in large numbers. Added to these are the many pianos we are constantly taking in exchange when selling our own high-grade pianos. The whole make up a stock covering more space than we can afford to give to second-hand pianos. Only one course is open, and that is to sacrifice prices. That we have done, as the list that follows proves.

Bargains in Upright Pianos

BOUDOIR Upright Piano, in handsome mission wax finished case, full swing desk, Boston fallboard, three pedals. This piano is just the thing for summer cottage, and should be seen at once before the season opens. It is brand new, and a snap at \$200

THOMAS Upright Piano, in dark rosewood case, three panels in top door, centre swing desk, two pedals. This is a very nice piano, and has been refinished and thoroughly overhauled; it is exceptionally good value at \$215

WILLIAMS Upright Piano, nice burr walnut case, three panels in top door, centre swing desk, two pedals. This is a large size Cabinet Grand and in splendid condition, one of our best bargains, at \$225

TECHNICAL SCHOOL CONTRACTS AWARDED

Work Will Commence as Early Next Month as Possible.

Work is to be begun on the two million dollar central technical school, as early as possible. A special meeting of the board of education was held yesterday afternoon to expedite the execution of the contracts.

AUTO SERVICE ACROSS THE ALPS

An electric automobile service has been established across the Alps at a cost of approximately \$500,000. The line, which is about 85 miles in length, extends from Airolo, Switzerland, thru the Bedretto Valley and the Nufenen Pass, and ends at Ulrichen, in the Valais region, on the Italian side of the Alps. The automobiles have a capacity for twenty-two passengers, and make the trip in one and three-quarter hours on express service, running at the rate of 12 to 22 miles an hour. The company has ten stations along the route and three trips are made daily in each direction when there is no snow on the road to interfere with the passage of the vehicles.

A WINDSOR LADY'S APPEAL.

To All Women: I will send free with full instructions, my home treatment which positively cures Leucorrhoea, Uterian Displacements, Falling of the Womb, Painful or Irregular Periods, Uterine and Ovarian Tumors or Growths, also Hot Flushes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, Kidney and Bladder troubles, where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write today. Address, Mrs. M. Summers, Box H, 65, Windsor, Ont.

IF THIS IS YOUR BIRTHDAY

Be careful of your relations with others. Some unpleasant complications loom on your horizon and especially guard your health. You will have much to enjoy in the coming year, and your best judgment will show you how to make it a successful one.

Liquor and Tobacco Habits

Violet Luncheon for the Infants' Home

A violet luncheon for the furnishing fund of the new wing of the Infants' Home is to be held at 120 Bay street from Tuesday next to Friday, inclusive, from 12 to 2 p.m. every day. Tickets may be obtained from members of the board or at the door.

The ladies of the board request the support of the general public in aid of this deserving charity, for which funds are much needed.

GOOPS

By GELETT BURGESS

Levi Boing

Are you a Goop, like Levi Boing? He never looks where he is going; He's always bumping into chairs. And stumbling, when he goes upstairs; He tips things over, bumps his nose. He can't be careful, I suppose!

Don't Be A Goop

NURSERY

CONDUCTED BY Elinor Murray

THE NERVOUS BABY

In this age of fuss and hurry, it is inevitable that we have nervous babies, simply because we have nervous parents. And when one considers the increasing rapidity of the pace we are running and the multiplying number of duties we are assuming, one does not feel overly confident as to the elimination of the nervous woman.

A nervous parent tends to produce nervous children. The defect does not appear in every child; it may not take the same form in parent and child, nor in two children of the same parent. A nervous mother, for instance, who knows that her baby's convulsions are a result of nervousness, does not understand that the sick headachings of her ten-year-old girl are from the same cause. The agitation of an excessively nervous mother will react to such an extent upon the young baby that he will very soon acquire the habit, and begin to fret, sleep badly and jump at every sound.

Take the baby calmly, little woman, follow the rules of hygiene in caring for him; then if he should become ill, call in your doctor. Do not listen to the increasing rapidity of the pace we are running and the multiplying number of duties we are assuming, one does not feel overly confident as to the elimination of the nervous woman.

Second to heredity, among causes of nervous diseases in children, is malnutrition. Malnutrition tends both to starve and poison nerve centres. Therefore an ill-nourished child, or one with weak digestion, should be given the healthiest food, should be looked on as liable to nervous disorders. It is a great mistake to think that children who are "only nervous" need no attention. They need very special attention to help them "grow out of it."

As nervous troubles are most easily detected in their first stages, mothers should be able to detect the earliest and mildest symptoms. There are five classes of children who need watching: Children of nervous parentage; under-sized or poorly nourished children; children who are made delicate by slight illness, or those subject to convulsions; exceptionally bright or precocious children; children who exhibit extreme restlessness, irritability, nervousness, twitching or other nervous habit, headaches or attacks of indigestion and illness after excitement.

Eye-strain is one of the commonest causes of nervous irritation, adenoids and enlarged tonsils are others. These should all be attended to. The possibility that circumcision is called for should not be ignored.

A wise mother never speaks before a child of his nervousness. Remark that Johnny looks as if he were going to have one of his attacks, and the chances are that Johnny will. Self-control is of supreme importance. Help him to acquire that, and pay the strictest attention to his general health. These children need all the sleep and outdoor life they can get, and carefully prepared, nourishing food.

MITCHELL SLIDE-EASY NECKWEAR QUALITY STYLE VARIETY

The Wallflower.

A plant that is not so well known (especially among city gardeners) as it should be, is the old-fashioned wallflower, loved of old by our grandmothers, but almost forgotten by their grand-children, some of whom are woefully lacking in their powers of perception.

The idea became prevalent some few years ago, that the wallflower was not hardy, here in Canada, but the truth is that, given the same careful wintering that we accord our other perennials, it will not only grow, but grow well, and bloom profusely. The colors are so delightfully out of the ordinary, turning, as they do, thru all the shades of golden-brown, browns, apricot and orange, that if any plant on earth should be strictly in the present fashion, certainly that plant should be the wallflower. The rage for barbaic color should remind us that the wallflower can vie successfully with the most outre shades, and come out easily the winner.

By careful selection, some unusual strains have been evolved, especially noticeable for richness of color and earliness of bloom. The plants are best raised from seeds, sown in one's own garden, early in May. When the seedlings have attained a fair size they may be transplanted, choosing for this work a dull, cloudy day, preferably just before a stretch of wet weather. The continuing dampness just after moving makes for success as nothing else will. Train the plants to grow stocky and bushy, nipping off any straggling branches and keeping the earth bedded up well.

It will thrive in most soils, but always does well in soil containing limestone, which it loves. Rocky walls, rockeries, sandy banks and such spots are especially well liked. Do not forget to have a good large patch near some favorite window, so that you may enjoy the delicate perfume. Do not spare the flowers. The more you cut, the more will be produced, and they do make lovely flowers for the table. For much maulching with manure will give coarse, heavy plants, not at all desirable.

Daily World Pattern Service.

9561—A New and Popular Blouse—

Misses' and Ladies' Blouse.

This unique design is appropriate for all waist materials. It will develop well in corduroy, linen or flannel, in chambray, gingham, flannel, voile, or crepe. It is very desirable for sport or outing purposes. The fullness at the lower edge is confined by a hip belt, an entirely new style feature. The neck edge is cut low and finished with a flat collar. Turn-back pocket finishes the front. The pattern is cut in 5 sizes: 10, 12, 14, 16, and 18 years. For misses, and in 3 sizes for ladies: 36, 38, and 40 inches bust measure. It requires 3 3/4 yards of 27-inch material for a 36-inch size. A pattern of this illustration mailed to any address on receipt of 15c. in silver or stamps.

The Gourlay an Heirloom

Only a treasured possession that will not deteriorate with time is worthy of consideration to become an heirloom in the family. It must have a binding association of pleasant memories in the home—the enjoyment of which is recalled and lived over again by its very presence. The Gourlay piano is made with a solidity of construction that gives those wearing qualities, absolutely necessary in a piano that is to be used constantly for years.

A Gourlay for that reason is a gilt edge investment which repays itself a thousand times in life-long pleasure and joy derived from its never-failing appeal to refinement, beauty and character.

Quality is the first and last thought throughout the whole course of its fine construction. The materials used are of the highest grade procurable regardless of the cost. Only when the

Gourlay Piano

becomes the finished product of the most thorough artistic workmanship that scientific knowledge can devise—then only is the price figured.

This Gourlay standard of quality first and price second is universally approved in musical centres. The fact that the Gourlay is constructed to weather the severest test of time and to hold its beauty of tone with reliable strength and character renders it a highly valued heirloom for any refined home.

The purchaser of a piano should carefully consider this important feature and investigate the Gourlay. You will find its claims substantiated beyond your expectations.

committee with some verbal amendments which were accepted by the government. It now stands for third reading.

By order of the house public bills and orders were then called, and Mr. Bradbury (Selkirk) moved the second reading of his bill to prohibit the pollution of navigable streams of waters.

After some discussion, during which the Ottawa water supply was vigorously denounced, the bill was given its second reading and referred to a special committee, together with the bill of similar import which recently passed the senate.

This committee is composed of Hon. J. D. Hazen, Hon. Martin Burrell, Hon. Dr. Beland, Chas. Murphy, Baker, Bradbury, Crockett, Kyte, McCole, McCrany, McCurdy, Malloy, Northrup, Severyn, Warnock and H. Wilson (Wentworth).

An organization has been formed of the architectural, ornamental iron, brass, bronze and wire workers of this city, obtaining its charter on April 23 from the International Labor Congress. The organization has affiliated itself with the Bridge and Structural Iron Workers' Union, under the leadership of Mr. Platt. The newly formed union held its second meeting at the Labor Temple last night to discuss better labor conditions and higher wages.

Regular meetings will be held on the second and fourth Fridays in each month at 8 p.m.

Fred Koenig is educating Billy Crane, a 3-year-old brown pacing gelding, by F.M. Binkin, 2134, that is owned by Charles Snow, secretary of the Toronto Driving Club, and the youngster shows improvement with each succeeding work.

HYDRO'S FRIENDS BACK UP HOCKEN

Church and Foster "Two Astonishing Misfits," Comments Galt Paper.

G.A.T. Ont., April 25.—Galt regards itself as cradle of the Hydro-Electric movement, being the scene of initiatory steps to organize the powerful union of municipalities which forced the movement on the public and compelled the serious attention of the government. Necessarily the town takes keen interest in all matters in which the interests of Hydro-electric and public ownership are concerned, hence the following editorial observations of The Galt Reporter on the situation in Toronto:

"We beg to differ from the Hon. Adam Beck and those two astonishing misfits who serve on Toronto's Board of Control, in the opinion expressed re the action of Mayor Hocken in approaching the legislature for permissive legislation for the purchase of the Toronto Street Railway and the Toronto Electric Light Co. We don't believe Mayor Hocken, W. K. McNaught and the men working with them meant to play the Hydro municipalities a shabby trick. Some of the gentlemen who now profess to be anxious to save Toronto from itself would joyfully kill the public ownership movement were it possible to do so. The Churches and Fosters are mere flies on the wheel."

Funeral private on April 26th, to St. John's Church, York Mills.

PEOPLE BENEFIT BY NEW LAWS PASSED

Continued From Page 1.

is henceforth tabooed under severe penalty. Both the clergyman and the issuer of the license are held responsible in the hands of parties who are not mentally responsible or under the influence of liquor, and the reputation of border towns as small Greena Greens is discouraged by restrictions as to time of residence and the publishing of marriage notices.

Mousing Problem.
In a somewhat different field an important measure granting to municipalities the right to guarantee the holder housing companies up to eighty-five per cent, is expected to solve the problem which is facing many cities today. Children, too, come in for consideration in the Neglected Children's Act amendment. The curfew is revised in spirit, and young girls in the habit of accompanying street pianos are to be kept off the streets. Newsboys and others under the age of ten also are prevented from peddling papers and other material on the streets, and neglected children by an order of the court may be made wards of a children's aid society.

Not least in importance are the new amendments to the Liquor License Act, which cut out two hours of the time of sale in the morning and prohibit the sale of liquor in bottles across the bars of hotels. This latter was especially designed to protect local option districts from annoyance proceeding from taverns in the proximity. Further, every stable and lounging places are included under the restrictions now placed on boarding houses in the matter of containing liquor, and penalized in a similar manner.

Telephone Systems.
Telephones are considered in a bill of Hon. L. B. Lucas, which grants additional powers to municipalities extending a local franchise for a year without appeal to the voters on the understanding that it be considered at the following regular elections. Municipalities also have the right to cooperate in the forming of a telephone system.

Under the caption of public health, the board of health is empowered to enforce certain orders without appeal to the people. If sanitary conveniences are thought necessary by the inspectors for private homes, they may be ordered, and the same applies in a larger fashion to sewage systems. The carrying of regulations of automobiles brought some advanced legislation in the form of reciprocity between provinces of license on agreement, and conditions under which cars must be used on highways. Geo. H. Gooderham of Toronto, and Mayor J. A. Ellis of Ottawa, sponsored bills in this regard. The carrying of regulations, the issuance of alarms and the regulation of traffic for ordinary vehicles and motors were all dealt with hereafter.

Municipalities in control of their streets may regulate the use of sidewalks after nightfall, and legislation was introduced to ease the congestion and prevent accidents where cars are discharged or taken on passengers. In addition, every driver of a motor car must have a license, and chauffeurs pass an examination before employment.

Eight Hour Day Bill.
The long-expected eight-hour day bill was brought in by Hon. W. H. Hearst and applies to miners in the province. All those who work underground are included in the scope of the measure, which on account of the many changes to be arranged for, will not be enforced until January, 1914. It is understood that there may be minor exceptions if discovered necessary.

The problem which is occasioning difficulty in large growing cities which are spreading beyond their limits by the restrictive action of real estate men is handled by a measure requiring the submission of all boundary strips with suburban plans. Often it had been the case that a road was desired to be extended the land in front was held at an exorbitant figure and improvement was held up in that way.

The fact that in the future Ontario may have a fire marshal was evidenced by the submission of a bill on probation for a year by the attorney-general. On its appearance next year it is expected to provide for a number of such officials in all sections, to have control over building constructions, the removal of firetraps and all things to reduce the danger of conflagration. The bill is now printed for distribution and will be circulated for suggestions.

For Civil Servants.
Another of the withdrawals concerned the formation of a pension fund for civil servants, and this too is expected to assume a workable form by next session.

The latest move of the government in regard to colonization is the granting of four thousand acres to the Lake Huron and Northern Ontario Railroad at a fixed purchase price and under certain colonization conditions. This, it is expected, will be the means of bringing a host of capable settlers into the new land, the wealth of which is only beginning to be appreciated. A junction with the Transcontinental will help matters not a little.

Assessment Act.
The amendment to the Assessment Act follows closely the recommendations of the special committee which

BABY'S OWN TABLETS USED FOR TEN YEARS.

When one medicine is used in a home for a number of years it is the strongest testimony as to the value of that particular remedy. Thousands of mothers have been benefited by other medicine but Baby's Own Tablets for years—in fact, many of them say they would have no other medicine in the house than Baby's Own Tablets for ten years, and would not be without them as long as there are children in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Briar Hill Park

Briar Hill Park has the same charming situation that has made Alexandra Gardens one of the most desirable of residential properties.

It is directly north of Upper Canada College, and practically adjoins the site of the new McMaster University. It is situated at one of the highest points in Toronto, away from the smoke and noise of the city, and is acknowledged to be one of the choicest sections of this ideal residence district.

Briar Hill Park is one of the most reasonably priced of the high-class residential properties being offered to-day. As an investment, it promises to repeat the success that has attended our selling of the "Gardens."

Lots Now at \$18 Per Foot Upwards

The property is but a few steps from Stops 16 and 19 on the Metropolitan Railway. The Metropolitan is now authorized to run on Sundays, and it is expected that additional car lines will be constructed, which will give further service to this district.

Our motors are at your service to show you over the property.

Get This, Men!

It's handed out fair and square by those whose business it is to test and judge. They have sworn that there is no tobacco grown on the island of Cuba that could be better than the filler that goes into MARLBOROUGH, and this we improved greatly by our old-fashioned seasoning method, which matures the leaf naturally and sweetly to a perfect mellow mildness. Ask any expert in tobacco and he will gladly tell you that you could not get better value. MARLBOROUGH tastes moreish every time you light one up; it's just kind of lingers with you; it's so fresh and friendly-like; it's the one cigar that's got everything that any man who knows the delight of a really good smoke ever dreamed of. Just try one, and the first thing you'll do next is to light up another one; that's the surest thing you know. Get this thought, there never was a cigar at any price like

MARLBOROUGH

and when dealers offer you something just as good, remember there's two things that are never counterfeited, plugged nickels and ordinary cigars. Men all over the country send for MARLBOROUGH, because it's always sweet, delicious and fragrant.

Marlborough 5c each. Box of 50, \$2.50. Per 100, \$5.00. Per 1,000, \$50.00.

Men's Fashions for this Season. . . .

Our Spring Showing of Semi-ready Clothes

"EVERYTHING is 50 per cent higher in price except Semi-ready and Postage Stamps!" said a Western man who wished to put point to the higher cost of living.

By closer, cleaner organization, by a multitudinous saving and by constant study of efficiency, the cost of Semi-ready Clothes has been kept at the same standard during the Seven Long Years of Advancing Prices in every product.

The Clever Work starts right in the wool market, and ends right here at this store, where we know that Good Clothes can be sold at closer profits than cheap clothes, because there is less time and talk required in the selling—and none of the after-worry from the unfortunate buyer of cheap stuff.

No man buys cheap clothes—who knows the first point in good clothes.

The power and prestige of Semi-ready clothes did not come to it by chance. When you see the Semi-ready label in the pocket you know that it tells the straight story of good value.

CADETS' TOURNEY A WEEK MONDAY Keen Competition Promised in Various Events at the Armories. Entries closed on Tuesday last for the Canadian Cadet tournament. Over one hundred teams will compete in the different events, and a large number of the young soldiers are coming in from outside points. The tournament will open at the armories on Monday evening, May 5, and the first night's program will include competitions in drill, rifle exercises, physical training, signalling and tug-of-war as well as a number of attractive displays, including a short review, lantern tattoo, cavalry melee and machine gun firing. The various corps in the Toronto district have been working hard to hold the prizes against the teams from other points and some excellent performances are assured.

BRYAN IN SACRAMENTO FOR ONE WEEK ONLY WASHINGTON, April 25.—(Can. Press.)—Secretary Bryan is not expected to spend more than a week at Sacramento conferring with Governor Johnson and the state legislators of the proposed anti-alien land laws. From semi-official sources today it was said that Mr. Bryan expected to present the views of President Wilson and do all that was possible to remove friction between the United States and Japan over that particular legislation in time to be back in Washington May 7. DYNAMITE INJURES TWO ITALIANS KINGSTON, April 25.—(Special.)—By a premature blast of dynamite in a C. P. R. construction camp at Christie's Lake two Italians, Salvatore Piles and Giovanni Vigna, received serious injuries, but it is expected will recover. In loading a hole with dynamite they hammered it too tight, causing the explosion.

NO DIVERSION FOR EGLINTON Works Committee Refused to Allow Avenue to Be Altered. THE PAVING OF LANES Sewers and Pavements Will Be Laid All Thru the City. Diversion of Eglinton avenue in Leaside was refused by the committee on works. The plan of Leaside shows Eglinton avenue not only circling down to Soudan avenue at the westerly limits, but also circling there in its easterly course across the townsite. By a good majority the committee would not stand for any job in Eglinton, but also a request for a diversion to a circling street connecting Eglinton with Soudan. There was a heated debate over whether the sewer and paving of lanes should be inaugurated before the leading roadways are put in better condition. Engineer Powell stated that since the committee had passed a resolution to have lanes paved, the department had been selecting lanes that should be the first ones paved, and already 50 per cent of the lanes selected have been petitioned against. A resolution to sewer and pave lanes was sustained. The Anderson post thru a motion that the works commissioner report upon the advisability of widening Bloor street from Sherbourne street to Spadina avenue. It was determined to formally notify property owners on Yonge street north of Bloor street that the street is to be widened.

TRAIN STRUCK WAGON FARMER WAS KILLED WOODSTOCK, April 25.—(Special.)—Alfred Laycock, a retired farmer, residing in this city, was instantly killed at an early hour this morning, when a light wagon in which he was riding, was hit by the G. T. R. "flying post." Laycock's body was hurled nearly 75 feet, while the horse was thrown a considerable distance and killed. Coroner McEay has opened an inquest. The level crossing at which Laycock was killed, is a dangerous one. The "Post" was traveling at about 40 miles an hour when the accident occurred.

THE NAVY QUESTION. The Yonge street monthly meeting of the Religious Society of Friends at Forum Hall, on Saturday evening, April 13, in respect of the question of a gift of three Dreadnoughts to England and the maintenance of a Canadian navy, recorded its belief that no emergency or necessity of defence exists which may not be met by the application of the Christian principles which the two nations profess. A resolution adopted declared that in the matter of so great a departure in the policy of the country as is involved in the proposed gift or in the extension of the navy beyond the limitations herein designated, they are of the opinion that no action should be taken without a direct mandate from the people.

RELY ON HOCKEN SAYS AID. WESTON

His Opponents Should Get Wise and Join Band Wagon.

SATISFACTORY TERMS

Sir William Mackenzie Will Meet Any Reasonable Proposition.

"Toronto engaged experts to tell her the best transportation policy to pursue, paid out a lot of money for the information, and learned that the best policy is to unify the Toronto Railway Co. and the civic lines' services," said Aid. Weston. "Mayor Hocken then quietly undertook to negotiate the purchase of the Toronto Railway Co. property, and received an offer so satisfactory to him that he promptly submitted it to the council, and the council as promptly supported his request for an immediate appeal to the legislature for permission to submit the proposition to the ratepayers. The only hitch so far is caused by a certain amount of opposition to the city purchasing the T. E. L. Co., and any difficulty there is over this friction may be removed by Sir William Mackenzie agreeing to complete negotiations, notwithstanding his original stipulation that there must be an undivided purchase of the two properties. He is willing, possibly anxious, to sell, and will therefore meet any reasonable conditions affecting the negotiations.

Desirable Proposition. "The T. E. L. acquisition will most probably be eventually regarded by the ratepayers as desirable. It has the cream of the business in Toronto, its local stockholders are vigorously supporting it and it blocks the advance of the hydro business. Having the cream of the business, it is a going concern of considerable value, and must in all fairness be so regarded by the ratepayers. To believe it to be a falling concern is to be unnecessarily gullible. Its acquisition by Toronto would simply mean that the city would have all the revenue from light and power services, instead of only a small portion, and that in stiff competition with a well-entrenched and established concern. "Mayor Hocken is doing good work for Toronto, he is strongly supported by the city council, and I earnestly hope that he will succeed in multiplying the Toronto Railway Company property and the T. E. L. Co. His opponents should get wise and climb on to the band wagon."

YOU'LL notice in almost any gathering of well dressed, successful business men many of them wearing Brockton Shoes.

The conservative, stylish lines of the shoe, illustrated below, satisfy such men; and its comfort and fit relieve them of foot worries.

We are always glad to put a customer into this shoe; it's the most sensible and scientifically perfect shoe shape in years. Just the shoe for young men, for up-to-date business men. We have it in all sizes and all leathers.

ST. MATTHEW'S CLUB HOCKEY TEAM BANQUET

Juvenile Champions of Beaches and Anglican Leagues Are Presented With Medals.

The St. Matthew's Boys' Club, in conjunction with the George Wibby Bible Class, held their annual banquet last night in the club rooms, which were crowded with friends and family members. The club members and their friends celebrated the hockey team that secured two championships in the season just closed.

In the juvenile section of the Beaches League they won the championship, and Secretary Smith presented the team, on behalf of the league, with a beautiful silver cup and each member with a silver medal. Fred Washburn, the president of the Beaches League, made a lengthy speech and pointed out the necessary characteristics to make a good hockey player.

The junior section of the Anglican A.A. also saw the black and red returned victors and the Rev. Mr. Fowell of St. Barnabas presented them with a shield.

After a very substantial repast a series of toasts were tendered and President Charles Wilson was given some well-deserved praise for his untiring efforts in developing the team. Commissioner Forman, the rector and several other prominent members of the parish spoke.

Hotel Krausmann, ladies and gentlemen's grill, with music. Imported German Beer. Open till 12 a.m. Corner Church and King Streets, Toronto.

PRO. SOCCERISTS SECURE GROUNDS

Will Most Likely Locate at Dufferin Park—Ball League Is Considering Project.

The soccer question has reached a final point so the local pro managers claim and they state that it is only a mere detail of regarding the sum of money to be paid that is keeping them from securing grounds. The soccer officials have been taken up seriously by contemplating getting the matter straightened up and they were to have everything fixed up at a meeting last night.

During the week overtures have been made to Secretary Fraser of the Wood-Club Jockey Club, and also to Mr. Orpen of the Dufferin race track. The latter, it is learned from good authority, was offered \$200 for the use of the grounds for the season, but as he had already leased them to the City Amateur Baseball League he was unable to consider the offer.

A move has been made, however, to get the ball players to split with the pros and thereby draw double gates, the pros to play on one part of the field with the ball players on the other. This idea has been taken up seriously by the ball players, so it is said, and that only a few details regarding the gates and other money matters are still to be decided.

The managers assert that they will secure grounds at any price, however, and will begin practice early next week. Meanwhile they have been busy signing up the cream of the T. & D. players, and will have the boys all ready when the league opens. Most of the players have been getting in shape by playing with the amateurs and will continue doing so until the grounds are ready.

Be Well and Properly Gloved at the Horse Show

THOSE WHO WILL PARTICIPATE IN THIS, the banner horse event of the year, will find our Glove Section ready to attend to their wants, so far as appropriate hand coverings are concerned. Several lines are given mention here, whose usefulness, however, does not end with the show event, for all drivers or riders should count Driving Gloves as part of their necessary equipment.

A Well Made Gauntlet Glove at \$3.00
Is made from selected capeskins, strong and pliable, and yet with a wearing quality far beyond usual. These are in black only, finished with prix seams, gusset fingers, Bolton thumb and strap, dome fastener or elastic wrist, and have a large, well-fitting cuff, with gusset at side. Pair 3.00

At \$2.25 a Tan Capeskin Glove
Also in gauntlet style. Splendid wearing and very comfortable fit; made with prix seams, gusset fingers, Bolton thumb and strap dome fastener. Pair 2.25

An English Made Cape Glove at \$1.50
Is of good quality cape, in tan finish; made with a reinforced palm, grill fingers and one dome fastener, Bolton thumb, prix seams, gusset fingers and spear pointed backs. Pair 1.50

Fringed Gauntlet Gloves at \$1.00
One of our best values and with a much better finish than the low price would indicate; is a glove that will give lasting and satisfying wear; it is half pique sewn, with stitched points, and is in colors tan, natural and gray. Pair 1.00

E.Q. EXTRA QUALITY RYE WHISKY hotels and stores

GOSSIP OF THE HORSES

By Ed. Baker.

With a bright sun and a fast-drying track to favor them, the trainers at the Woodbine were in a joyful mood yesterday morning, and the scores of horses there were idle. The footing, while good, was not fast, and the time made by some of the horses was very encouraging to their trainers.

Harry Giddings, jr., worked his King's Plate candidates, Hearts of Oak and On-granda, together, and the pair rolled off a half in 52.2-5. The four-year-old, Ondrum, accompanied her to the quarter, which was run in 24.2-5 seconds. The latter was pulled up at that stage, as it was his first effort of the season.

The three-year-old Widow Wise worked a half in 52.2-5. The four-year-old, Ondrum, accompanied her to the quarter, which was run in 24.2-5 seconds. The latter was pulled up at that stage, as it was his first effort of the season.

One of the features of the morning's work was a trial between Doc Simpson's plate candidate, Coriamba, and the Giddings filly, Sarolta, in a half-mile dash, with the latter leading by several lengths at the finish. They broke at the eighth and the filly, always in front, covered the distance in 52.2-5 seconds.

John Nixon had the Davies horses out in three sets, but they were cantored only.

Mike Gorman's plate candidate, Aurora Jassy, showed good form by stepping a quarter in 25 seconds, in company with Tom Sayers, from the same stable.

Eddie Whyte worked several members of his stable, including his plate candidates, and they performed to his entire satisfaction.

Rock Spring and White Caps went together, and ran a quarter in 24.4-5 seconds comfortably. Tandard and Mico-ski ran a half in 51.2-5 seconds, the fastest work of the day. The two-year-olds, Looesia, Slipperday and Martina were breezed a quarter, the first named with a lot of weight up, running splendidly.

Johnny Flynn's filly, Auster, one that many srewd judges think has a royal chance to win the King's Plate this year, was galloped, and created a very favorable impression.

The local horseman, William Walker.

The trainers of the harness horses are beginning to step their horses along at Dufferin Park and while no fast miles have been recorded as yet, a lot of speed was spilled during the past week.

The Ward stable of pacers, which went to Cleveland on Tuesday, made room for Jack Nevill's horses from Ottawa, and when Nat Ray vacates the main barn, his horses occupy each year, Ed. Sunderlin of Lebanon, N.H., will move in with seven head from the covered track at East Aurora, where he has wintered and where the horses have been given their early work.

In Sunderlin's list are Auctioneer, 2.09%, a classy half-mile track pacer of last year; Susie M., 2.12%, and Larabee Gyp, 2.17%, besides some no-record horses in his stable.

Sunderlin, it will be remembered, drove the champion Canadian bred pacer, Angus Roubert, to his record of 2.01% and he also drove the mare Jennie W., 2.04%, for State Senator George Whitney of Vermont.

Nat Ray gave all the members of his stable useful work during the week, working the trotters and pacers on alternate days.

His stake trotters, Black Cat, 2.16%.

and Ceresote are doing nicely and the green trotter, Dan G., also shows great improvement, while the Futurity candidate, the 3-year-old Jay Worthy, looks decidedly good.

Naturally most interest was commanded by Nat's Chamber of Commerce representative, Royal Grattan, and this horse's final work at the track Thursday, was most encouraging. In company with Vera B., 2.15%, the son of Grattan was given a number of slow repeaters with the last end of each mile at something like top speed. That this horse has terrific speed was shown by him stepping the final eighth of a slow mile in 14.3-5 seconds. This, over the notoriously slow track, was little short of a phenomenal performance.

The old hero of a hundred battles, John McEwen, 2.08%, owned by Nat himself, is again training sound after an absence from racing for a couple of years and he led the little lion, Knight Onward, 2.05%, in a number of work-out miles.

The Mackenzie pacer, Bay Cura, has rounded into form and now looks like he will prove a winner.

James Smith uncovered a smart pacer on Thursday in Brown Hal, a brown gelding, by Star Hal, sire of Darkey Hal, 2.02%, etc. This one resembles the famous Canadian-bred mare considerably, both in looks and action and when he stepped the final eighth of a 2.50 mile, in 15.5 seconds Thursday, he created some surprise among the onlookers, of whom there were many.

John Meade worked his pacers Richard S., 2.13%, Blanche B., 2.08%, and Charlie Brino, a green 3-year-old by Wild Brino, but none of them anywhere near at top speed.

Richard S. had an alling leg, the result of a cut, when coming into Meade's hands, but is rapidly rounding into form and he will win a race one of these days when the boys are not looking. What Meade did with the cast-off Harry Hill, 2.17%, is likely to be repeated with Richard S. Blanche B. looks good and paced several miles in 2.50, with the last end of each one at top speed.

(Under New Management). Will serve a Business Man's Lunch for 50c every day from 12 to 2. A Special 75c Dinner will be served on Sundays from 5.30 to 8.00. Geo. A. Spear, Prop.

ABERDEEN PUPS WANTED
Box 75, World

hand at 2 p.m. The Vermont League will hold a meeting on Monday, April 28, at 8 o'clock. All managers and officers of the league are requested to be present. The umpire question will be settled, as there are several applications.

The Belmonts would like to see a good crowd of supporters out today at Dufferin Park when they line up for their first game against the Royal Edwards. Both teams will have a strong line-up, and a good, fast game can be expected. The game will start at four o'clock, with Dutch Falconer as umpire.

The National Cash Register B.B. Club play the Crescent B.B. Club of the Toronto Senior League this afternoon at Stanley Park at 2.30. All players are requested to be on hand early.

The Mechanics' League would like to hear from a few more teams to join this fast league. Send applications to Secretary A. W. Burt, 200 College street.

The Belmonts will practice on the east side of the Don Flats on Friday evening. It is most important that all players should be on hand.

The St. Pauls of the Don Valley Senior League will practise this afternoon on the Don Flats (west side) at two o'clock. All last year's players and anyone wishing to join a fast senior team are requested to be on hand.

The St. Josephs of the Don Valley League will meet at the Riverside High School grounds at four o'clock this afternoon for practice. As the season opens in a week, all players are urged to turn out. The intermediates are also requested to be out at this time.

The Uno players are requested to be at Bayside Park this afternoon at 2 o'clock for their game with the Arlingtons.

Leafs Hand One to Grays Newark Still Heads List

LEAFS BOOTED A WAY OPENER GRAYS BEAT JOHNNY LUSH

Holly and Shaw Make Disastrous Errors - Sensational Catches in the Outfield Stopped Toronto Scores - Kelley Men Hit Well.

PROVIDENCE, R.I., April 25.—(Special) Toronto's opening game with the Grays this afternoon, the slips coming when least expected and all on comparatively easy chances. Holly was the chief offender as both his misplays were made when the bases were choked in the sixth and cost at least three runs.

Lush started badly. He was off his stride during the first two innings and was hit rather freely, but settled wonderfully and with proper support would have captured the engagement. Mitchell was a mark for the Leafs all the time, and was hit much harder than the score shows.

CUBS MADE ERRORS PIRATES VICTORS

Ritchie Tossed His Own Game Away With Boots—The Details.

PITTSBURG, April 25.—Loose fielding by the Chicago team in the second inning today and a pair of bunts that were poorly handled gave Pittsburgh three runs, that stood them in good stead when Robinson weakened in the ninth. Alex. Leach shut-out ball for eight innings, the left-hander weakened. Leach's triple, Schulte's single, Zimmerman's double, and a lead of one run off Doehner in the first and maintained it until the Skeeters' last whack at the ball.

SKEETERS KEEP ON APPLYING STING

New Outfielders Bang the Ball and Jersey City Wins in the Ninth.

JERSEY CITY, April 25.—Strengthened in the acquisition of Perry and McCabe, the outfielders secured in a trade with Buffalo, Jersey City rushed thru a garrison finish in the win-up of today's game and nosed out a victory by the score of 2 to 1 in the ninth. Rochester gained a lead of one run off Doehner in the first and maintained it until the Skeeters' last whack at the ball.

Whitewashed Frank Chance's Highlanders Won the Game Yet Were Not Credited with a Win

WHITEWASHED FRANK CHANCE'S HIGHLANDERS WON THE GAME YET WERE NOT CREDITED WITH A WIN

NEW YORK, April 25.—New York and Philadelphia played an eleven inning tie game here today, neither side scoring. Both Demaree and Alexander pitched great ball, McGraw's recruit doing the cleaner work and holding the visitors to three hits. An unusual incident that deprived New York of a victory occurred in the tenth inning when the Giants apparently won the game. Merkle bunted for a sacrifice, but Merkle, who was not in position when the ball was hit, Klem had his face turned to the stand and was announcing that McCormick was batting for Demaree. He agreed with Manager Doolan that he was not in position and called for the game to go on. Many of the players had started to change their clothing, and it took more than a quarter of an hour to clear the field.

Giants and Phillies in a Tie Boston Back in Rut Again

GIANTS AND PHILLIES IN A TIE BOSTON BACK IN RUT AGAIN

PHILADELPHIA, April 25.—Philadelphia and Boston played a tie game here today, neither side scoring. Both Demaree and Alexander pitched great ball, McGraw's recruit doing the cleaner work and holding the visitors to three hits. An unusual incident that deprived New York of a victory occurred in the tenth inning when the Giants apparently won the game. Merkle bunted for a sacrifice, but Merkle, who was not in position when the ball was hit, Klem had his face turned to the stand and was announcing that McCormick was batting for Demaree. He agreed with Manager Doolan that he was not in position and called for the game to go on. Many of the players had started to change their clothing, and it took more than a quarter of an hour to clear the field.

RELIGIOUS SERVICES. THE UPPER CANADA RELIGIOUS TRACT AND BOOK SOCIETY

Eightieth Anniversary

Special anniversary sermons will be preached at the morning service, Sunday, April 27, as follows: Church of the Messiah, by Rev. R. A. Sims. Walmer Road Baptist Church, by Rev. John MacNeill, B.A. Broadview Congregational Church, by Rev. J. Schofield, Ph.D. Broadway Tabernacle, Methodist, by Rev. W. H. Hicks, D.D. West Presbyterian Church, by Rev. H. R. Horne, B.A., LL.B., General Secretary.

THE ANNUAL MEETING will be held on Tuesday, April 29, in Bloor Street Baptist Church, at 8 o'clock p.m. Rev. Frank J. Day, M.A., B.D., of Northern Congregational Church, will speak, and Missionaries from the field will tell of the work.

ST. ALBAN'S CATHEDRAL BUILDING FUND.

Dioesan Sunday. Rev. Canon Morley will preach tomorrow in Trinity Church, 11 a.m., and St. George's, Kingston, 7 p.m. If as a Diocesan we "set our affection to the House of our God," if we forget our differences, our jealousies, our prejudices, our personal predilections, and are glowing in love, in the great and strong current of love to God, which sets towards glorifying Him by building a holy and beautiful House for His Sanctuary, faith and love will triumph over every difficulty, and ultimate success is sure. And when we pass away, and our place knows us no more, what are behind the beginnings, at any rate, of a noble life, which by its impressive grandeur, will witness for God, and which by its manifold uses, will help to spiritualize the life of a great Community, and to preserve "the Faith as it is in Jesus," to our children's children.

CHURCH OF THE HOLY TRINITY TRINITY SQUARE.

April 27th. 8 a.m.—Holy Communion. 11 a.m.—Matins and Holy Communion. Rev. John Hodgkinson, "The New World." 7 p.m.—Evensong. Rev. Derwin T. Owen. All seats free. Strangers Welcome.

Labrador Medical Mission

Contributions of clothing, etc., will be received during the week beginning May 5, and should be sent to "Labrador Medical Mission, care of University Library, Toronto University." 62

Victoria University CLOSING EXERCISES, 1913

Baccalaureate Sermon to the graduating classes in Arts and Theology, Sunday, April 27, at 11 a.m., in the Convocation Hall of the University of Toronto by Rev. Professor Jackson. Addresses by the Hon. W. H. Hearst and Dr. W. Flavell. A men address will be given by Rev. Deaa Wallace. Public admitted without ticket.

ACCIDENTAL DEATH.

Edward Dixon came to his death in the C.E.R. yards at West Toronto on the morning of April 18 by being run over by three freight cars, and no blame can be attached to anyone. This was the gist of a verdict returned by Coroner Dr. McCollum's jury at the city morgue last night. Dixon was yard foreman.

Evil of Substitution Exposed

A dealer substitutes because he makes more profit on an inferior article. A local citizen was induced to take a substitute for Putnam's Corn Extractor, with the result that the substitute burnt his toes and failed to cure. Putnam's contains no acid and is guaranteed. Always get Putnam's Extractor, 25c at all dealers.

THEATRES

Profitable Real Estate

MONEY—lots of it—that's what you want—that's what you must have if you are to keep in the swim—if the wife and children are to be properly cared for, the house paid for, or any other of the numberless ambitions of man are to be fulfilled.

THE BEST WAY to make money comparatively quick is to invest in Real Estate—good, solid value Real Estate—**THAT CAN BE TURNED OVER QUICKLY.**

THERE'S THE SECRET OF SUCCESS in Real Estate Investments—quick turn-overs mean good profits, and then you have more money at your disposal to invest over again and reap further profits.

HOWEVER, to turn property over quickly it must have real value, must be situated in a district of rising prices, must be in the path of municipal growth, and lastly, must be cheap.

MONARCH PARK

OFFERS YOU A CHANCE to buy land—the closest-in land in Toronto—at lowest prices. You can buy lots in Monarch Park now and turn them over at a profit in a short time.

MONARCH PARK is situated just east of Greenwoods Ave. on Danforth Ave. The south-end of the property is just two minutes' walk from the existing car lines.

MONARCH PARK does not depend for its transportation upon future street railway service, but is served by the present street railway. Also the civic car lines, which are expected to be running this summer, will almost completely circle the property, thus giving it unequalled transportation service.

WHAT'S MORE, Monarch Park is NOT just a surveyed field with roughly graded roads—it is improved property. Part of it is already built up, sidewalks have been laid and are completely paid for. That means an appreciable slice off the local improvement tax.

WATER has been laid, and sewers will be completed this fall. Gas and electric light may be had upon application. Altogether about \$15,000 has been spent by the owners upon improvements in Monarch Park.

THE FUTURE OF MONARCH PARK is exceptionally bright. Danforth Ave., widened to 86 feet, will, with the Bloor Street Viaduct when completed, form one of the most important streets in Toronto.

WE ARE NOT OFFERING an entire survey, but only the balance, 260 lots, having an average frontage of 20 feet by 110 feet in depth. Each one of these lots will represent to its purchaser a considerable profit in very short time.

OUR AUTOMOBILES WILL BE AT THE END OF GERRARD STREET CAR LINES (Take Parliament St. car) TO MEET ALL THOSE DESIROUS OF SEEING THE PROPERTY. Our salesmen will be on the property Saturday afternoon, and you are assured of courteous attention. There is absolutely no obligation to buy if the property is not suitable.

Another Dip in New York Market—Canadians Firm Up Again

MARKED DECLINES IN MANY STOCKS

Talk of Reduction in Dividends Exercises Distinctly Depressing Influence.

LEADING ISSUES WEAK

While Less Stable Industries Sank to Lowest Point of Year.

NEW YORK, April 25.—Pronounced weakness developed today among a number of the leading stocks. A score of new low records for the year were made, and in some cases prices approached the low points touched during the panic of 1907. The principal losses were sustained by the less stable industries and by shares of railroad, the maintenance of whose dividend rates has become a matter of doubt. Rumor issues were conspicuously weak. The preferred, which closed yesterday at 65, opened eleven points lower today and subsequently sold under 52. The common broke to 25. Illinois Central, Northwestern Southern Railway preferred, Chesapeake and Ohio and the American Tobacco were others of the long list which touched new low figures for 1913.

Standard Stocks Irregular. The market leaders held up well during the greater part of the day in spite of the frequent declines of two to five points among the less conspicuous shares. Movements in such stocks as Reading, Union Pacific, Steel and Amalgamated were irregular until late in the session when they lost a point or so. Sentiment was bearish and talk of dividend reductions and other unfavorable developments was common enough, but there was little in the way of concrete new influences to which the course of the market could be ascribed. The chief lack of a genuine demand for either stocks or bonds is the depressing feature of the situation, even the recent lowering of bond prices having failed to bring about buying.

FIRMER UNDERTONE IN LONDON MARKET

Political Situation in Europe is Less Alarming—Americans Score Advances.

LONDON, April 25.—Rather better political news gave the stock market a firmer tone today and prices were harder in most sections. Foreign shares and specialties were supported by Americans. The settlement of the coal tonnage was satisfactory and consols advanced an eighth in the afternoon. American securities opened steady and about unchanged. Trading was light during the forenoon, but a slight uptrend prevailed and the list advanced under the lead of Canadian Pacific. The latter was supported by Berlin in the afternoon and continued to gain. Wall street offerings depressed the other shares and made the closing easy. The supply of money was shorter and discount rates were easy.

HOW THE BANKS FINANCE PROGRESS

Remarkable Record of Expansion in Loan Account of Chartered Institutions.

Back in 1867 the loans of the Canadian chartered banks amounted to only \$54,460,221, and as recently as December, 1900, they aggregated only \$362,000,000. Witness the expansion since the year last named. In December, 1910, the item stood at \$880,357,520, an increase of 142 per cent. during the decade, and 63 per cent. within the period 1900 to 1910. From December, 1910, to December, 1912, an increase of 25 per cent. occurred. The growth of the loans of the Canadian banks is shown in the following table, which gives the current and call discounts in Canada and elsewhere of all the banks as at the end of each year:

NEW LOW RECORDS

The dip in the New York market yesterday carried half a dozen issues down into new low ground for the year, and left practically the whole list at a new low record for the present movement. The stocks making new lows for the year were Chesapeake and Ohio, Illinois Central, San Francisco 2nds, Interboro, Southern Railway preferred, Delaware and Hudson and Pressed Steel Car. Many of the newer industrial shares on the toborgan thrived today, with big declines evidenced.

EUROPE TO DRAIN AMERICA'S WHEAT

Grain Prices Bid Up at Chicago on Export Talk.

CHICAGO, April 25.—Expert talk today over wheat a net uplift of 1/4 to 1/2 c. Corn at the close was unchanged to 1/4 c. off, oats suffered a net decline of 1/4 to 1/2 c., and provisions closed 1/4 to 1/2 c. lower.

Renewal of discussion concerning large needs for wheat in Europe and estimates that a great part of it must with the European situation as it is, come from America, was accompanied with specific statements that more than a million and a half bushels had been worked in the last few days for export from New York. Fears that some harm to growing wheat had come from frosts last night in Nebraska, Kansas and Western Iowa and Missouri, added to bullish sentiment, as did the unsettled European political situation brought about by the Scutari incident. The market showed strength nearly all day, temporary depressions on profit-taking being followed by good rallies. July showed a bit of weakness just at the close, but May held steady. The Argentine situation was a feature in the day's influence. A cut of 8,000,000 bushels in the Argentine visible was noted.

Primary receipts of wheat today were 324,000 bushels against 289,000 bushels last year.

Declines at Kansas City and Omaha depressed corn here. Expectation of larger offerings also had a weakening tendency. Oats eased off on a large increase in receipts.

Selling pressure wiped out the small advance scored by provisions at the start and the entire list closed weak.

ST. LAWRENCE MARKET.

Receipts of farm produce were light, owing to the farmers being busy seeding. There were 13 loads of hay, which sold readily.

Hay—Eighteen loads sold at \$16 to \$18 per ton.

| | |
|-----------------------|--------------|
| Wheat, bushel | 95 to 97 1/2 |
| Wheat, coarse, bushel | 90 to 92 |
| Barley, bushel | 88 to 90 |

CORNWALL CHEESE BOARD.

CORNWALL, April 25.—(Special)—The annual meeting of the Cornwall Cheese Board was held this afternoon with a fairly good attendance of sellers and buyers. A resolution was passed expressing the regret of the board at the death of John P. McGregor, of Alexandria, buyer for Lovell and Christmas, Montreal. The officers were all re-elected as follows: President, A. Denno, Cornwall; vice-president, S. J. McDonnell, Strathmore; secretary-treasurer, W. McLeod, South Branch. One hundred and forty-one boxes were boarded, and sold to Mr. Wieland at 10 1/2c.

PICTON, April 25.—At our cheese board today 175 boxes, all colored, sold at 10 1/2c.

NAPANEE, April 25.—Two hundred and sixty boxes of cheese were boarded today, all selling at 10 1/2c.

Are You Ready for "Horse Show Week?"

The announcement of the opening of the Big Spring Show is of interest outside the circle of horse lovers; for it marks the height of the spring season—a sort of a reckoning day for each one of us who has been putting off the buying of his spring outfit.

The Simpson Store is ready to supply from an abundant stock, correctly made, beautifully finished clothing, hosiery and gloves, hats, shirts and all the furnishings necessary for the array of the perfectly groomed man at the horse show or on the street; for evening, morning, business or pleasure.

Your measurements are included somewhere in the comprehensive stocks of our ready-to-wear departments, and the ranges of cut and materials give ample opportunity to meet your preferences perfectly.
