Technical and Bibliographic Notes / Notes technique et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / Le reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modifications dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant de colorations variables ou des décolorations sont filmées deux fois afin d'obtenir le meilleur image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

	10X		14X		18X		22X		26X		30X
	12X		16X		20X		24X		28X		32X

The copy filmed here has been reproduced thanks to the generosity of:

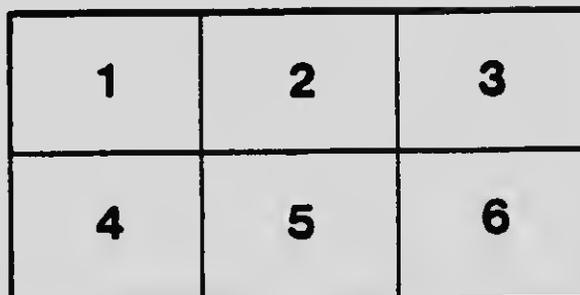

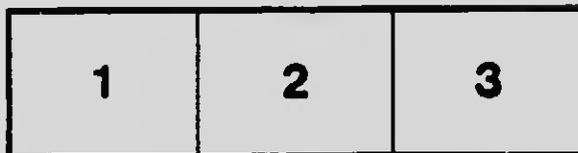

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

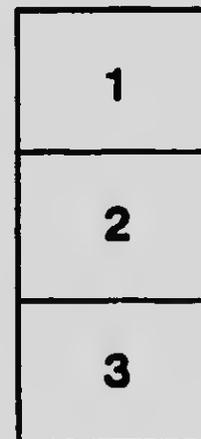

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par la seconde plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

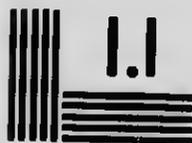

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

HEATON'S PROVINCIAL BOOKLETS

Are published for the Canadian Provincial Governments, are revised every year, are absolutely reliable, contain no unnecessary words, have been designed to fit easily into a pocket or an envelope, can be mailed with ordinary correspondence and give precisely the information wanted by intending settlers, travellers, investors, manufacturers and others who wish to extend their business. Together they form the only uniform series of publications covering each Province in Canada. For free copies apply to the Agents of the Provinces in London or to the Minister of Agriculture of each Province as follows:

<i>Heaton's Alberta Booklet</i>	at	<i>Edmonton, Alta.</i>
" <i>Brit. Columbio Booklet</i>	"	<i>Victoria, B.C.</i>
" <i>Manitoba Booklet</i>	"	<i>Winnipeg, Mon.</i>
" <i>New Brunswick Booklet</i>	"	<i>Fredericton, N.B.</i>
" <i>Nova Scotia Booklet</i> ..	"	<i>Halifax, N.S.</i>
" <i>Ontario Booklet</i>	"	<i>Toronto, Ont.</i>
" <i>Pr. Ed. Island Booklet</i>	"	<i>Charlottetown, P.E.I.</i>
" <i>Quebec Booklet</i>	"	<i>Quebec, Que.</i>
" <i>Saskatchewan Booklet</i>	"	<i>Regina, Sask.</i>

H **HEATON'S ANNUAL**, Sixteenth Edition, contains official and other directories, postal and commercial information, the Canadian Customs Tariff, complete summary of Canadian natural resources, descriptions of all commercial towns, etc. Price 7/6.

Publishers: HEATON'S AGENCY, Toronto

**London Agents: Thomas Skinner & Co.
Gresham House, Old Broad Street, London.**

Opportunities in Ontario

Land Settlement 1920 Industrial Opportunities

Containing Extracts from
Heaton's Annual

This booklet is part of Heaton's Canadian Provincial Booklet Series, the only uniform series of booklets covering every Province in Canada. Free copies can be obtained by writing to the Minister of Agriculture of each Province at the Provincial Capital.

Land Settlement

BEEKEEPING. The Dominion census of 1911 gives the province a total of 124,237 colonies. This census however only took account of bees owned on farms, and as there are a number of persons making their living from beekeeping and residing in towns and cities, the total number of colonies is much greater than the census shows, being estimated at about 300,000. The majority of bees are wintered on their summer stands with special protection, those not so wintered being placed in cellars. Small apiaries of from 20 to 50 colonies on farms, properly cared for, give good returns, and specialists keeping from 200 to 500 colonies average 50 lbs. per colony. Numbers of farmers' wives and daughters make good money from a few hives. The Ontario Beekeepers' Association has about 1,250 members. Light honey is made from White Dutch and Aisike clover, and in some parts Basswood and Willow Herb. Dark honey is made in the Fall from Buckwheat, Golden Rod, Spanish Needles, Boneset and asters. The output in 1919 was estimated worth \$3,000,000.

GOVERNMENT ASSISTANCE. Winter and summer schools in beekeeping are held at the Agricultural College, and the subject is taught in the Agricultural Short Courses throughout the province. The Provincial apiarist lectures to the students, conducts experiments and generally gives advice to beekeepers.

DAIRYING. The annual output of cheese, butter, condensed milk and milk powder, together with the milk and cream used for city trade, amounts to about sixty-five million dollars. Increasingly large quantities of milk and cream are being shipped to large centres, and ice cream absorbs an increasing quantity of cream. There is a marked improvement in dairy cattle, and the average production per cow has considerably increased during the past few years. Jersey, Ayrshire and Holstein are the leading dairy breeds, with the milking Short-horns gaining in prominence in some sections of the Province.

GOVERNMENT ASSISTANCE. The province supports 2 dairy schools, one at Kingston and one at Guelph, where cheese and butter-makers receive a thorough training in the theory and practice of butter and cheese making. Thirty-one instructors are employed to visit the factories and creameries throughout the season of manufacture and instruct the makers in up-to-date methods. A high standard of quality and uniformity has thus been established in Ontario cheese, and Ontario butter

has commanded high prices in the home markets. There is a model creamery and cheese factory at Finch and a model creamery at Brome.

Butter. While a considerable quantity of butter is manufactured on the farm, the number of creameries, especially in the large centres of population is rapidly increasing. 30,289,028 pounds of butter, valued at \$13,630,063, were manufactured in Ontario by 172 creameries during 1918. A recent development is the making of whey butter.

Cheese. Ontario produces more than half the cheese manufactured in Canada, and exports in large quantities to Great Britain. The output of 970 Ontario cheese factories for 1918 was 107,886,724 lbs., valued at \$24,356,019.

Condensed Milk. There are 16 factories manufacturing condensed milk.

POWDERED MILK. This industry is advancing in Western Ontario. There are now 4 factories which have absorbed several cheese factories.

FARM VALUES.

	1901	1918
Land.....	\$585,354,294	\$819,164,298
Buildings.....	226,575,228	380,244,880
Implements.....	59,897,513	109,896,874
Live Stock.....	129,496,261	324,107,476
	<u>\$1,001,323,296</u>	<u>\$1,633,413,528</u>

FLAX. In 1915, Ontario had 4,000 acres in flax; in 1916, 5,200; in 1917, 7,372; in 1918, 15,925; in 1919, 13,717 acres. Following the visit of Commissioners from the War Office in 1918 to procure flax for the British aeroplanes the Provincial Government acquired idle land near Toronto to cultivate flax for demonstration purposes.

Linseed Oil. There are large oil mills in Western Ontario, the flax seed being obtained from the Prairie Provinces. The quantity of oil produced varies from 15,000 to 20,000 barrels yearly, all marketed in the Dominion.

Linen and Fibre Manufacture. 33 flax mills are operated, and 1 linen mill at Guelph. Other mills are being equipped with linen machinery. With the development of new methods and machinery the industry promises to become permanent. Ontario water retted flax is considered equal to the best Irish.

FODDER CROPS. The area of pasture is about 3,490,802 acres. Write for pamphlet on Dairying to Department

of Agriculture, Toronto. The figures quoted below are taken from the Dominion Government estimates.

Alfalfa (Lucerne) is grown more or less in practically every county, but chiefly in Haldimand, Lincoln, Welland, Brant and Lambton Counties. In some parts the production of alfalfa seed is becoming quite an industry.

Barley. Formerly grown for malting, now grown for feeding. In 1919 the crop was 13,133,757 bushels from 569,183 acres.

Clover. Red clover and alsike are grown extensively, both for hay and for seed. Alfalfa or lucerne is being more extensively grown than formerly.

Hay. The area of hay is about 3,547,638 acres, yielding on an average 1.47 tons per acre, and nearly 2 tons in more favorable years. Hay forms in value about one-third of all the field crops.

Indian Corn. Most farmers grow a few acres of Indian corn which is stored in the silo. It grows from six to ten feet high. Crop averages 10 to 15 tons per acre, with occasionally much larger yields. Half of the corn produced is grown in the counties of Essex and Kent. It is used partly for distilling, partly for production of fat hogs.

Oats. Next to hay the most valuable field crop, worth thirty-five to forty millions annually. In 1919, 78,388,018 bushels were harvested from 2,674,341 acres. Write for pamphlet on Dairying to Department of Agriculture, Toronto.

Peas. In 1919, 127,593 acres of peas were grown, yielding 1,816,517 bushels. Ontario peas are considered the best in the world.

Rye. In Europe is used extensively for bread, but in Canada principally as a feed for farm stock. In 1919 2,219,042 bushels of rye were grown on 140,072 acres. Average yield for past 35 years—16.5 bushels.

FRUIT GROWING. The total orchard acreage in 1919 was 257,006 acres; small fruits, 25,244 acres; vineyards, 11,136 acres. The bulk of the fruit is consumed by local consumption. The Western markets, for Ontario tender fruits are of growing importance. Previous to the embargo of 1916 apples and pears to the value of several million dollars were exported to Great Britain. The industry is developing rapidly. It is estimated that \$80,000,000 is invested in the Ontario fruit industry. The Ontario Fruit Growers' Association, founded in Hamilton in 1859, has since 1904 held an annual show in Toronto. See Fruit Districts on page 15.

EXPERIMENTAL FARM. An experimental fruit farm of 100 acres has been established in the Niagara District at Vineland, one object being to develop varieties suitable for long shipment. The station is equipped with laboratories, greenhouses, cold storage, canning factory, packing houses, etc., and extensive commercial orchards for testing purposes.

CO-OPERATIVE ASSOCIATIONS. Over 50 Co-operative Fruit Growers' Associations do a good work in producing packing and marketing fruits.

JAM AND CANNING FACTORIES, ETC. Ontario has 33 jam and jelly factories, 117 fruit and vegetable canning factories, 53 cider mills, and 98 fruit evaporators, a total of over 300 factories utilizing the by-products of the fruit industry. The greater proportion of the canneries and jam and jelly factories are situated in the Niagara peninsula, the Essex peninsula, and in Prince Edward County. The cider mills and evaporators are fairly evenly distributed through the province.

Apples. According to the Dominion Census of 1911, there were in Ontario 7,766,257 apple trees, with a total production of 6,305,462 bushels of fruit. These figures are low, as the year 1910 was one of comparative failure of the apple fruit. The province produces 60% of the total crop of apples in Canada. The bulk of the crop is sold within the Province. During the past 10 years Ontario has exported more apples to Great Britain than any other province or state on the continent. The Western Provinces take annually about 1,000,000 bushels. This market is growing. The principal commercial apples in order of ripening are: Duchess, Wealthy, Snow, Ribston-pippin, McIntosh, King, Greening, Baldwin, Golden Russett, Spy, Stark, Ben Davis. The Fameuse and St. Lawrence varieties are grown in the St. Lawrence and Ottawa Valleys.

Cherries. Sour (or pie) cherries are grown in all parts of Southern Ontario. Sweet cherries are grown commercially from the Niagara District to the Essex peninsula.

Grapes. The counties Lincoln, Wentworth and Welland produce 95% of grapes grown. In these counties there were, in 1915, 10,850 acres of vineyard. The vine begins to bear at four years, and continues a lifetime. The Ontario Temperance Act was expected to hurt grape growers seriously by destroying the wine industry, which absorbed 700 cars of grapes annually, and used sour and unripe grapes. In 1918 Niagara grapes sold at \$60 a ton, a high record.

COST OF CULTIVATION. A grower in Niagara District estimates maintenance and profit per acre as follows:

Cost of bringing into bearing, \$75; annual outlay when bearing (pruning and tying, cultivation, spraying three times, packing and packages), \$58.50. Average yield 3 tons, or 700 baskets, at average price, 15c., \$112.50. Net returns, \$54. Markets, Toronto, Hamilton, and other neighboring cities; Western and Eastern Provinces. Good grape land costs from \$80 to \$125 per acre.

GRAPE JUICE. The bottling of unfermented grape juice has been started on a large scale. It is chiefly manufactured by E. D. Smith & Son, Winona, and Welch Grape Juice Co., St. Catharines, T. G. Bright Co., and The Marsh Grape Juice Co., Niagara Falls. Grape Juice requires a higher grade of fruit than the wine industry and it must be well matured and sweet.

WINE. It is estimated one-third of annual vintage is manufactured into wine. Approximate annual output, 275,000 gals. Chief varieties made: Dry Catawba, Sweet Catawba (a communion wine), Isabella, St. Augustine, Port, Sherry, Claret, Golden Diana, Rhine Wines, Champagne. Chief manufacturers: T. G. Bright & Co., Niagara Falls; Pelee Island Wine Co., Brantford; Hillrust Wine Mfg. Co., St. Catharines; Ontario Wine Co., St. Catharines; St. David's Wine Growers Co., Toronto; Niagara Falls Wine Co., Niagara Falls; S. Allen, Norwich; G. Girardot Wine Co., Sandwich; M. Guindon, Sandwich; La Compagnie Robinet Frères, Sandwich; A. Tournier, Sandwich; Marsh & Co., Sandwich. Market chiefly in Canada.

Peaches. Peaches are grown commercially in the Niagara District and certain localities in Essex, Lambton, Elgin, Kent and Norfolk counties on Lake Erie. The best varieties are the Yellow St. John, Crawford, Elberta and New Pacific. Peach trees, 100 to the acre, produce fruit when 4 years old, and yield profitably till about the 15th year. Annual output about 2 million baskets of 11 quarts.

COST OF CULTIVATION. An expert peach grower estimates cost of maintenance and profit per acre as follows: Spraying, manuring, pruning and cultivation, \$28; picking, packing and packages, \$53; hauling to station, say \$5; total cost, \$86. Returns, 700 baskets (11 quarts), at 50c.—\$350. Net return, \$264. The average orchard will yield less than the above figures.

Melons. Large quantities of musk melons are shipped from Leamington to all parts of Canada. Other sections grow for local markets. A number of varieties of the Rockyford variety are cultivated.

Pears. Pears net the grower from \$65 to \$100 per acre. The Bartlett, Anjou, Duchess and other varieties are

Ontario produces 60 per cent of the total apples in Canada
See Fruit Growing, pages 5 to 9

grow. Pears are exported to Great Britain. From the Burlington district about 1 million baskets are marketed to Ontario and Quebec.

Plums. The Burbank, Bradshaw, Moorarch and Aojou are the leading varieties. The average net profit is \$40 to \$75 per acre. Over 300,000 baskets are grown annually. The acreage has decreased owing to the importation of dried plums and prunes from the U.S.

Other Fruits. Cherries, strawberries, raspberries, blackberries, gooseberries and currants yield from \$60 or \$100 up to \$500 an acre in some cases. If the tree is well covered in winter, figs will ripen in the Niagara District. Citrons do well in Southern Ontario. Watermelons do well, but the market is chiefly supplied from the U.S.

GRAIN CROPS. In 1919 the total yield and average yield per acre by bushels, as shown by the Dominion January estimate, was as follows:

	Area	Per Acre	Total Yield
Spring Wheat.....	361,150	15.6	5,646,544
Winter Wheat.....	619,494	24.3	15,051,703
Oats.....	2,674,341	29.3	78,388,018
Barley.....	569,183	23.1	13,133,757
Rye.....	140,072	15.8	2,219,042
Peas.....	127,253	14.3	1,816,517
Buckwheat.....	178,569	22.8	4,071,959
Mixed Grains.....	628,761	31.4	19,735,287
Corn for husking....	221,004	68.6	15,152,475

LIVE STOCK. The value of the live stock on the farms has increased by over \$80,000,000 in the past ten years. 53 Associations hold co-operative sales of stock through a central company.

RANCHING. In Ontario, from a line drawn from Brockville to the mouth of the Severn River on Lake Huron, running north up to the National Transcontinental Railway, there lies an immense tract of practically waste rocky land covered with second growth timber, interlaced by lakes and streams, peat bogs and beaver meadows, with here and there a pocket of arable land. Recent successful experiments have shown that this land can be used for cattle ranching. In summer the cattle browse through the scrub and second growth trees free from flies. In winter open shelters are provided for use as required. Beyond this the cattle do not require housing or care, as they feed around the hay-ricks and drink from dammed streams of running springs. In selecting a ranch the requisites are a never-freezing stream, beaver meadows from which hay can be cut and a rocky shelter for the

horns in winter. The ranch may also serve as a big game and fishing preserve.

Cattle. Dominion returns for 1919 show that in Ontario there were 1,141,016 milch cows and 1,786,175 other cattle. For dairy cattle the Holstein, Ayrshire and Jersey are the favorites, yielding about one-third more milk than the corresponding grades. The Shorthorn has its champions, especially as a dual purpose cow. For beef cattle the Shorthorn, Hereford and Polled Angus are most popular. There is a large export trade with the North-West. Large shipments are made from Toronto to Great Britain. As a consequence of the remission of the duty upon cattle exported to the United States, the high price of beef and the increasing cost of fodder, there are fewer cattle in Ontario than there were 5 years ago, but there is a marked improvement in the quantity and the quality of the dairy stock.

Goats. There are very few good breeders. A number are kept as pets. Many milch goats could be kept in the towns and pleasure resorts. Angora goats would be useful for the production of mohair in North Ontario.

Horses. Ontario is the leading province for the breeding of horses. Numbers are shipped from the province in every direction every week. The Ontario Stallion Act provides for the enrolment of grade and pure-bred stallions, and for an annual inspection. The Act effectively prohibits the service of grade stallions subject to certain diseases and malformations. Motor cars notwithstanding, the demand is good. In 1919 there were 719,569 horses in the province. The heavy draft, 1,600 lbs. up, brings \$250 to \$375; the agricultural horse, 1,250 to 1,400 lbs., \$150 to \$200; the general purpose horse, 15.3 to 16.2 hands, \$175 to \$225; the carriage horse, \$200 to \$500.

Sheep. The climate and soil conditions of Ontario are particularly adapted to sheep raising. This has been demonstrated by Ontario breeders winning a large number of the prizes at the large American Expositions, such as the World's Fair at Chicago, the Pan-American at Buffalo, the Exposition at St. Louis, and the annual International Show at Chicago. Of pure-bred sheep there are about 20,000 head in the province of the following breeds: Shropshire, Leicester, Oxford, Lincoln, Cotswold, Southdown, Dorset, Hampshire and Suffolk. The home consumption of mutton and lambs has greatly increased during the last few years. The American cities afford a profitable market for the surplus stock, especially if the animals are of high quality. The abolition of the duty on wool by the new U.S. Tariff

Act has given an impetus to sheep breeding. In 1919 there were 1,101,740 sheep in the province.

Wool. In 1913 wool sold at 12c. to 15c. per lb.; in 1914, at 20c.; in 1915, at 27c.; in 1916, at 32c., and in 1917, for the first time wool was sold co-operatively. Farmers make shipments to the Winter Fair building at Guelph, where the wool is graded by an expert. In 1919, 775,316 lbs. were banded, fetching 45c. for coarse wool, to 67c. for medium and fine medium combing.

Swine. Ontario cannot compete with the U.S. in the fat hog, because for competitive marketing it must be fed on large quantities of cheap corn, not here obtainable and Canada has comparatively little home demand for lard. The weight limits of the bacon hog are fixed at 160 to 200 lbs. live weight. Success depends upon close adherence to type by the farmer, buying on a quality basis and regular production each month. For the production of bacon the Yorkshire hog is considered best, though the Tamworth and Berkshire are also suitable. Pork factories are established at Toronto, Hamilton, Ingersoll, Stratford, Peterboro and Ottawa. The yearly output from 5 Toronto plants alone is estimated at \$60,000,000. In 1919 there were 1,695,487 swine in the province.

Poultry. The farmers of the province are each year realizing more and more the large profits that may be made from a flock of poultry. A large number of poultry associations have been organized throughout the province for the purpose of raising the standard of poultry breeding, and the Provincial Government is helping this object by the distribution of pure-bred eggs for hatching, to the rural schools. Ontario breeders have for many years been winning a large number of the principal prizes at the leading American Shows. At the Provincial Winter Fair held at Guelph, Ontario, each December, there is one of the greatest annual poultry shows on the continent. Last year there were over 5,000 entries. There are in the province nearly 100 specialized poultry farms keeping 500 or more birds. There are 60 poultry associations.

BABY CHICKS. This business is developing. Most of the utility varieties can be obtained, shipping safely when one day old.

EGG CIRCLES have been established in the province for the stimulation of production and efficient handling. By this means the farmer has been enabled to secure several cents per dozen more for his eggs. Outside of egg circles the growing tendency of dealers is to buy eggs on a quality basis.

MAPLE SUGAR AND SYRUP. The average annual sugar output of Canada was about 19,600,000 lbs. during

the decade 1901-1911; of this, Ontario contributed 5,000,000 lbs.. The average selling price is now about 22 cents per lb. Canada supplies three-sevenths of the world's output. The trees are generally tapped in the latter part of March and April. Moderately warm days followed by freezing nights are ideal conditions to promote flow. Seasons vary, but the cost of fitting up a modern sugar camp is a paying investment even at low market prices. A stringent Act has been passed by the Dominion Government to prevent adulterated imitations. Maple sugar is found on the Royal Table and in most hotels and large stores in London.

ROOTS AND VEGETABLES. About 350,000 acres are devoted to root crops. The production of early vegetables under glass is increasing, especially near Toronto, Hamilton and in Essex County. The industry is in operation chiefly near the larger cities and south of a line drawn from Toronto to Guelph and Goderich. The output of truck farms is valued at over \$6,000,000 annually. There are 20 vegetable growers' associations.

DESSICATED VEGETABLES. This industry has been greatly stimulated by the war. R. J. Graham Co., Belleville, handled contracts for the British and French War Offices, particularly in dried potatoes and Julienne (mixed dried vegetables). This is said to be the largest establishment of the kind on the continent.

Beans. Wax (hutter) beans are commonly grown for local markets. Pole (French) beans do not thrive, owing to the climate. Field beans are grown in all countries, the greatest acreages are in Kent, Huron, Elgin, Welland, Middlesex and Norfolk Counties. The varieties grown are white-skinned shelled beans. Soya beans have not been extensively grown.

Celery. The demand is practically unlimited. The largest celery-growing district is at Thedford (Lamhton Co.) where over 70 acres are grown every year.

Lettuce is a most popular and extensively-grown crop.

Mangolds. Of all the root crops, mangolds show the largest increase in the past 30 years. The market value of the crop is now about 2½ million dollars.

Onions. The total acreage planted is over 1,000 acres. Average yield about 450 bushels per acre, chiefly the yellow variety, although large quantities of red are grown in Eastern Ontario. Leamington district is noted for onions. Around Hensall many acres are planted in onion sets which are shipped to all parts of Canada. Importations from Egypt, Bermuda and Spain are large. From the U.S., about 78,000 bushels are imported annually over export trade.

Potatoes. The best potato growers average over \$100 per acre. Toronto alone consumes over 3,000 90-lb. bags per day, and other cities in proportion. There are great opportunities, for the demand far outdistances the local supply. An average crop is 200 bushels per acre. Potatoes are grown in every county and many parts of New Ontario produce excellent crops. Six co-operative associations have been formed for handling potatoes: 1 in Wellington, 2 in Lambton Co., 2 in Nipissing, and 1 in Rainy River District.

Pumpkins are grown commonly as a companion crop for corn. There is an increasing demand for canning purposes.

Radishes. Grown in most vegetable gardens. The Ojibway District in Essex County is famous for its large acreage of radishes, which are marketed in nearby cities of the State of Michigan.

Sugar Beets. The sugar beet industry started in 1901, with 4 factories, 2 lapsed while gaining experience. The Dominion Sugar Co. now owns factories at Chatham, Wallaceburg and Kitchener, the only factories in Ontario. The farmer's net profits per acre are estimated at from \$35 to \$100 in exceptional cases. Prices paid growers have increased from \$3.50 to \$5.50 per ton. The finest quality of sugar is manufactured. No crop so effectually cleans the land or so well fits it for barley, oats or wheat. The average sugar content of Ontario beets is 12%. In 1919, 19,000 acres were devoted to beets intended for sugar production. Total yield, 178,000 tons, average $9\frac{1}{4}$ tons per acre; average price in 1919, \$12 per ton.

By-Products. The tops are rich in fertilizing contents, are plowed into the soil, and sometimes fed green or as silage. Beet pulp is dried and sold as stock feed: it contains about 5% of sugar and is very beneficial for milk cows. A limited amount has been fed fresh to stock near the factories. The lime used in manufacturing sugar is at present wasted. The molasses is burned to potash.

Tomatoes. Average yield is 250 bushels per acre. As high as 600 bushels has been reached. Large quantities are grown for canning factories in Prince Edward County and the Niagara district. Leamington annually ships early tomatoes as far west as Calgary and east to Halifax.

Other Vegetables and Roots. Asparagus, cabbage, cauliflower, cucumbers, peas and rhubarb find a ready market in the canning factories. Cabbage average ten tons per acre, cucumbers (small) 5 tons; mangolds, 432 bushels; carrots, 254 bushels; turnips, 394 bushels;

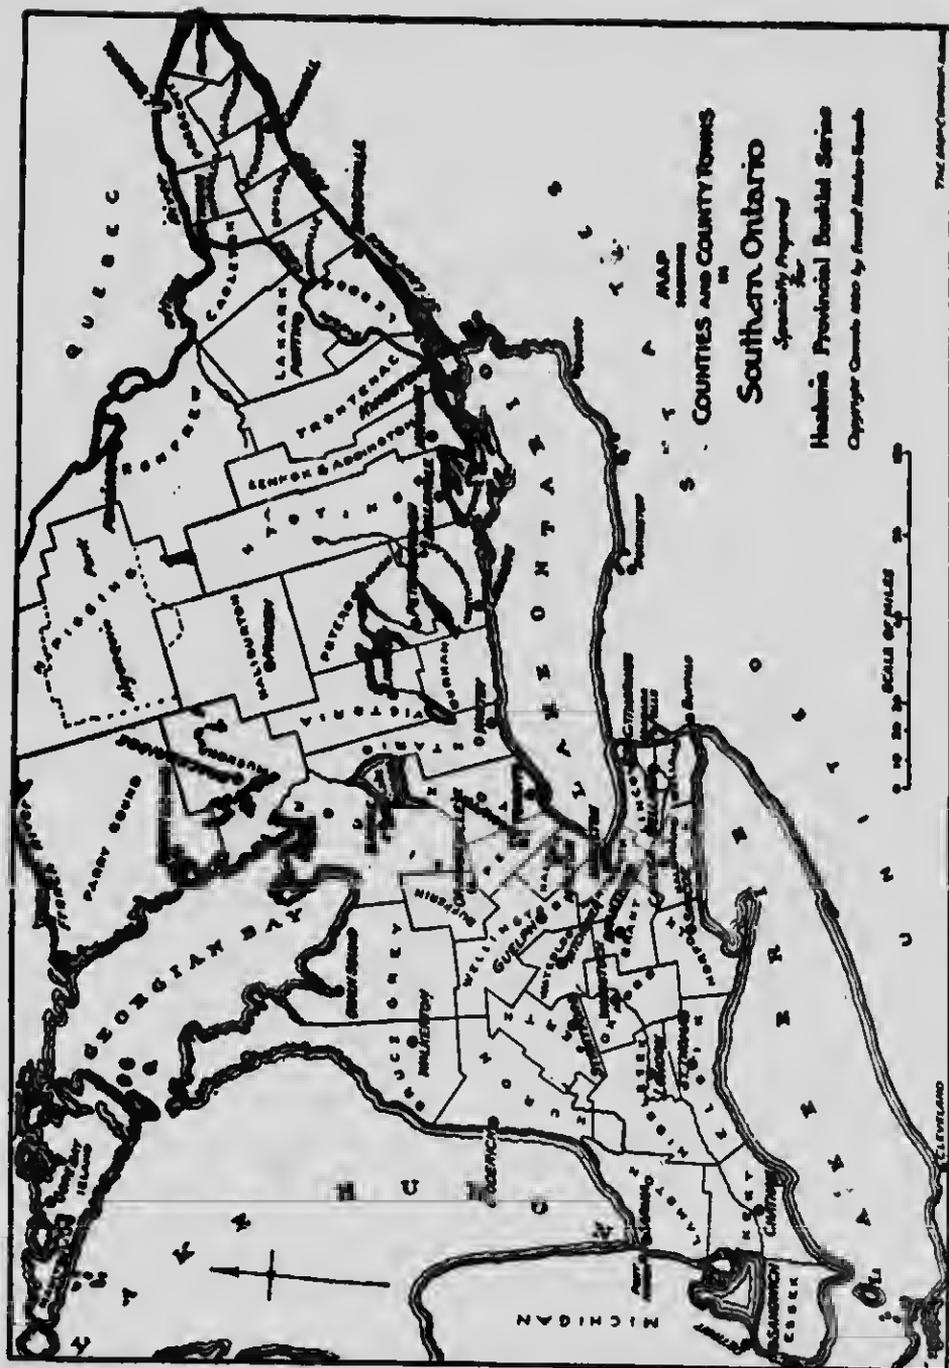

War prices for wool have stimulated sheep raising.— See *Live Stock*, pages 9, 10, 11

artichokes are grown to a limited extent; beets do well generally; brussels sprouts are easily grown in S. Ontario; sweet corn is grown very largely by all vegetable growers; egg plant succeeds where late and early frosts are not prevalent; parsnips are an important crop; peppers are grown in some counties for local markets and for pickling; rhubarb is found on nearly every farm; calsify (vegetable oyster) is hardy and used by many; spinach is grown almost entirely for greens; squash is grown with corn.

TOBACCO. Is grown in the Counties of Essex, Welland, Brant, Norfolk, Kent, Prince Edward, Elgin and Lincoln. The total crop in 1919 is estimated at 10,609,400 lbs. from 9,226 acres. The Burley variety, suitable for chewing, is grown in 8 counties. Havana, Gold Seal and dark types in Essex County; Snuff in Kent County; and Conn. Havana in Lincoln County. Maryland tobacco has been introduced into Prince Edward County with some success. During the last few years the growing of bright tobacco (flue cured) has extended rapidly, invading the light sandy loams near the shores of Lake Ontario and some gravelly hills with good drainage. The annual production of this variety is nearly 1,000,000 lbs. with the demand yearly increasing. A limited amount of Seed Leaf and Fire cured leaf of the heaviest type is grown under contract. Average annual yield about 1,300 lbs. per acre. In 1919, the whole crop was bought in less than a week by competing manufacturers. White Burley averaged 50c. per lb., flue cured 55c. to 65c. Total value of crop at average 52c., estimated at \$5,561,730, the most valuable crop ever produced. It is estimated that the British preferential duty will materially help the industry. The Dominion Government has an experimental farm in Essex County.

Descriptions of Counties

FRUIT DISTRICTS. The commercial cultivation of peaches and grapes extends from Hamilton on Lake Ontario through the Niagara District to the Niagara River, thence westerly along Lake Erie, Lake St. Clair, the southern part of Lake Huron, a district embracing nine counties and over 300 miles in length. Pear and plum orchards are found everywhere in the counties bordering on the Great Lakes and the Georgian Bay. The belt in which apples and berries are grown for market extends 400 miles east and west and 50 to 150 miles north from the southern boundary.

IMPROVED FARMS. Fifty to a hundred acres can be purchased in the older portions of Ontario at from \$30 to \$100 per acre, the larger price including cost of buildings. List of Farms for sale may be had on application to the Director of Colonization, at the Parliament Buildings, Toronto.

South-Western Ontario

SOUTH-WESTERN ONTARIO is bounded on the north by Lake Huron and the Georgian Bay; on the west by the St. Clair River, Lake St. Clair and the Detroit River; on the south by Lake Erie; on the east by the East boundary of the County of York and Lake Simcoe. The climate is modified by the proximity to the Great Lakes, and is well adapted to fruit culture. It is the most southerly and most thickly populated section, and includes the following Counties: (a) ON LAKE ERIE—Elgin, Essex, Haldimand, Kent, Norfolk and Welland. (b) ON LAKE HURON AND GEORGIAN BAY—Huron, Lambton, Bruce, Grey, Simcoe. (c) ON LAKE ONTARIO—Halton, Lincoln, Peel, Wentworth and York. (d) IN CENTRE—Brant, Dufferin, Middlesex, Oxford, Perth, Waterloo and Wellington.

BRANT CO. Generally undulating to hilly. Soil in centre and west sandy to clay loam, with gravelly subsoil; in east heavy clay. Watered by Nith, Grand and Whiteman Rivers and small creeks. Mixed farming, dairying and beef raising. Leading crops and acreage, 1919, wheat, 18,968; barley, 9,632; oats, 27,292; rye, 5,064; corn, 11,946; orchards, 4,657. In 1919 there were 9,804 horses, 33,828 cattle, 9,390 sheep, 20,434 swine. 3 cheese factories, 6 creameries, 2 canneries. Chief centres: Brantford, 28,725; Paris, 4,866. Farms cost \$40 to \$125 per acre. Pop. 19,250—Scotch, English, Irish and some Penn. Dutch.

BRUCE CO. Land is rolling. Soil, 6 in. mostly good clay loam, part sandy and heavy clay; subsoil of limestone in parts, clay in others. Watered by 3 rivers and many creeks. Wells 20 to 100 ft. Served by G.T.R., C.P.R. and branches. Leading crops and acreage, 1919, wheat, 30,079; barley, 22,877; oats, 110,815; peas, 6,802; corn, 8,588; potatoes, 4,039; turnips, 3,080; mangels, 2,090; hay and clover, 136,652; alfalfa, 10,454; orchards, 7,886. In 1919 there were 25,706 horses, 113,997 cattle, 42,695 sheep, 54,448 swine. 5 cheese factories, 9 creameries. Chief centres: Walkerton, 3,000; Kincardine, 2,139; Chesley, 1,703; Wiar-

ton, 1,500; Southampton, 1,500. Water power in all sections supplying towns with electric light and power. Heavy woods and good hunting in north. Farms cost \$40 to \$110 per acre. Pop. 50,032—Irish, German, Scotch and English.

DUFFERIN CO. In east part rolling, hilly and dry; in west, flat, swampy in parts. Soil, sandy loam and clay loam; sandy subsoil. Wells 20 to 100 ft. Served by C.P.R. (2 branches) and G.T.R. Leading crops and acreage, 1919, wheat, 12,753; barley, 14,605; oats, 65,994; rye, 6,978; peas, 1,966; potatoes, 4,481. In 1919 there were 12,481 horses, 49,425 cattle, 29,847 sheep, 31,005 swine. 2 cheese factories, 2 creameries. Chief centres: Orangeville, 2,173; Shelburne, 970; Grand Valley, 558. Farms cost \$30 to \$100 per acre. Pop. 17,740—British.

ELGIN CO. On Lake Erie. Fairly flat. Soil, sandy and clay loam; subsoil, clay. Wells 20 to 100 ft. Good roads, 6 lines of railway. Hydro-elec. power from Niagara used by many farmers for light and power. Fruit growing includes apples, peaches, grapes, cherries, plums, melons, small fruits. Dairying is well developed; annual milk production over \$2,000,000; 16 cheese factories, 5 creameries, 3 combined factories. Leading crops and acreage, 1919: wheat, 38,581; barley, 7,226; oats, 52,409; rye, 3,581; peas, 1,434; beans, 3,224; corn, 35,774; orchards, 8,364. In 1919 there were 18,056 horses, 70,091 cattle, 23,705 sheep, 46,421 swine. Tobacco successfully cultivated. Chief centres: St. Thomas, 17,209; Port Stanley, 732; Rooney, 656; West Lorne, 700; Dutton, 858; Springfield, 426, and Ayimer, 2,177. Summer resort at Port Stanley. Farms average \$120. Pop. 44,312—Scotch, Irish and English.

ESSEX CO. Between Lakes Erie and St. Clair. Most southerly portion of Ontario. Slightly rolling at south; elsewhere flat, with a slight ridge running n. and s. Soil, generally clay loam, with clay sub-soil: well drained and on ridges sandy loam, with gravelly subsoil, suitable for peaches. At base of Point Pelee, near Leamington, are 2,800 acres of reclaimed marsh land, with black muck, 1 to 10 ft., and clay subsoil. Well watered with rivers, creeks and some artesian wells. Served by C.P.R. main line, M.C.R., Pere Marquette and Wabash Rys., and 3 elec. lines. Lake steamers call at Windsor, Kingsville and Leamington. Natural gas in common use. Climate is free from early and late frosts. Leading crops and acreage, 1919: wheat, 55,301; barley, 14,715; oats, 60,554; rye, 2,681; corn, 71,089; sugar beets, 1,730; orchards,

6,670. In 1919 there were 21,755 horses, 46,297 cattle, 29,020 sheep, 91,317 swine. 3 creameries. Chief centres: Sandwich, 3,448; Windsor, 20,344; Walkerville, 5,914; Leamington, 3,907; Ford City, 3,138; Amherstburg, 2,386; Essex, 1,753; Kingsville, 1,567. Average price of land per acre: Good peach land, \$125 to \$150; peach land in bearing, \$500; apple land, about \$100; corn land, \$65 up; vegetable land, from \$100 to \$500; sugar beet land, \$65 up; tobacco land, \$100 up; mixed farming land, \$70 to \$125. Pop. 67,500—British and French.

Pelée Island. The extreme southerly point of Canada, half way, 20 m. between Canadian and U.S. shores of Lake Erie. Area, 30,000 acres; about 140 farms cultivated; produces tobacco, grapes, peaches, etc., potatoes, corn, grain. Large canals have been dredged running e. and w. and to n. Fisheries are valuable. Pop. 680, all British.

GREY CO. Rolling, flat in parts. Soil chiefly clay loam, subsoil varies. Watered by springs and creeks; wells 70 ft. Mixed farming and fruit. 7 creameries. Served by C.P.R., G.T.R. and Lake S.S. Line. Famous for Northern Spy apples. Hydro-electric power from Eugenia Falls. Leading crops and acreage, 1919: wheat, 32,811; barley, 31,020; oats, 160,341; peas, 8,945; corn, 11,183; potatoes, 5,949; turnips, 4,730; mangels, 1,922; alfalfa, 10,549; hay and clover 165,758; orchards, 10,929. In 1919 there were 30,731 horses, 136,932 cattle, 66,462 sheep, 71,718 swine. Chief centres: Owen Sound, 11,768; Meaford, 2,417; Hanover, 3,225; Durham, 1,500; Thornbury, 773. 9 creameries. Farms average \$75 per acre. Pop. 66,000—English, Irish, Scotch.

HALDIMAND CO. Mostly rolling, one-third flat, 12,500 acres marshy, balance fairly dry. Soil, generally very fertile, mostly clay loam, 7 inches; about 13,000 acres black loam, 8 to 9 inches, with hard clay subsoil. Wells, 40 ft. Served by G.T.R., N.C.R., Wabash Ry. Grain and dairy farming. 1 cheese, 9 hutter and 1 combination factories. Leading crops and acreage, 1919: wheat, 20,221; barley, 7,076; oats, 32,803; corn, 5,400; alfalfa, 17,057; orchards, 5,138. In 1919 there were 11,980 horses, 40,810 cattle, 18,926 sheep, 23,625 swine. Live stock is marketed at Buffalo and Toronto, dairy produce at Toronto and Hamilton. Chief centres: Dunnville, 3,402; Caledonia, 1,150; Hagersville, 1,058; Cayuga, 737. 2 active gypsum mines. Beautiful scenery along Grand River and lake front. Farms

average \$85 per acre. Pop., 21,560—German, Irish and English.

HALTON CO. On Lake Ontario. Flat from lake for 2 miles, to an escarpment; on the e. generally rolling; on the w. hilly. Soil to north, sandy loam; in centre to escarpment, clay loam to heavy clay; between escarpment and lake, sandy to sandy loam. Running n and s. is a range of low clay hills used for brick and terra cotta. Well watered by Grand River and numerous streams. Wells average 25 ft. Served by G.T.R. main line and branches, and C.P.R.; Electric Ry. to Hamilton. Cement road from Toronto to Hamilton. Southern part devoted to fruit farming. Leading crops and acreage, 1919: wheat, 16,160; barley, 8,771; oats, 26,930; orchards, 6,508. In 1919 there were 2,724 horses, 35,103 cattle, 15,152 sheep, 20,335 swine. 2 creameries, 2 canneries. Chief centres: Georgetown, 2,010; Oakville, 2,728; Burlington, 2,161; Milton, 1,750; Acton, 1,563. Farms average \$100 per acre. Pop. 22,200—English, Scotch, Irish, a few Indians.

HURON CO. Undulating to comparatively level. About 85% cultivated. Soil deep rich clay loam, occasional sandy loam near lake. Subsoil deep clay mixed in places with limestone gravel. Watered by Maitland, Bayfield and Aux Sable rivers. Served by C.P.R. (2 lines), G.T.R. (2 lines), and very good roads. Leading crops and acreage, 1919: wheat, 34,941; barley, 32,020; oats, 140,157; peas, 3,948; beans, 3,282; corn, 12,876; potatoes, 3,903; turnips, 4,416; mangels, 2,882; hay and clover, 139,713; orchards, 11,673. In 1919 there were 32,615 horses, 132,124 cattle, 28,461 sheep, 72,582 swine. 5 cheese factories, 10 creameries. Apples, pears, peaches, plums, cherries, grapes and small fruit grow to perfection. Chief centres: Goderich, 4,563; Brussels, 875; Blyth, 660; Clinton, 1,948; Exeter, 1,431; Seaforth, 2,027; Wingham, 2,358; Hensall, 715. Lake Huron (60 m. frontage) tempers climate nearby. Farms cost \$40 to \$100 per acre. Pop. 52,983—British stock, Germans in some townships, a few French.

KENT CO. Mostly flat, a little marshy ground in Dover, Tilbury and Chatham Townships. An elevated ridge runs along Lake Erie, where all kinds of fruits and vegetables do well. Soil varies, sandy to black loam and clay. Sub-soil of various kinds. Good water supply from numerous springs and artesian wells, 60 to 140 ft. Natural gas is largely used. Good local markets. Served by M.C.R., P.M.R., G.T.R., C.P.R. and Elec. Ry. Leading crops and acreage, 1919: wheat, 85,405; barley, 15,959; oats, 65,730; rye, 2,874;

peas, 1,426; beans, 7,539; corn, 61,921; potatoes, 3,419; sugar beets, 12,851; orchards, 5,417; In 1919 there were 26,435 horses, 76,832 cattle, 32,825 sheep, 90,720 swine. 7 creameries. Chief centres: Chatham, 15,030; Wallaceburg, 3,992; Tilbury, 1,623; Ridgetown, 2,180; Dresden, 1,413; Blenheim, 1,533; Bothwell, 700. Farms cost \$50 to \$150 per acre. Pop. 55,995—English, Scotch, Irish, French and a few Germans.

LAMBTON CO. At the s. end of Lake Huron. Generally level. Watered by a number of streams. Soil in n. varies from a loam with gravelly subsoil to straight sand and gravel; in s., a deep, heavy clay loam. Served by G.T.R., M.C.R. and P.M.R., with branches. Mild winters owing to influence of Lake Huron to the n. Leading crops and acreage, 1919: wheat, 61,050; barley, 14,423; oats, 76,191; flax, 1,580; corn, 30,660; potatoes, 3,239; sugar beets, 3,181; hay and clover, 102,766; orchards, 12,146. In 1919 there were 24,753 horses, 107,108 cattle, 28,511 sheep, 58,711 swine. 2 cheese, 7 butter, 2 combination factories. Chief centres: Sarnia, 12,178; Petrolia, 2,954; Forest, 1,418. Farms average \$60 per acre. Pop. 51,332—mostly British.

MIDDLESEX CO. Fairly level with a little marsh. Watered by Thames River and small streams. Soil uniformly good, varies from deep clay loam, producing grain, to sandy soil suitable for corn, fruit and vegetables. Served by C.P.R., G.T.R., M.C.R., P.M.R. and Wabash Ry., and 2 electric lines. Good roads, telephones and rural mail delivery. Leading crops and acreage, 1919: wheat, 63,998; barley, 16,987; oats, 108,058; peas, 1,000; flax, 1,337; corn, 33,430; potatoes, 5,906; sugar beets, 1,033; hay and clover, 125,496; orchards, 12,299. In 1919 there were 33,633 horses, 148,287 cattle, 28,065 sheep, 60,648 swine. 23 cheese, 8 butter and 2 combination factories. Apples and all kinds of small fruits and vegetables thrive. Beekeeping is carried on extensively. Caradoc Tp. is a great potato growing section. Around Ailsa Craig and Parkhill is a famous beef growing section. There are several fox ranches. Chief centres: London, 58,421; Strathroy, 2,687; Parkhill, 1,202; Glencoe, 865; Lucan, 640. Farms average \$75 per acre. Pop. (excluding London) 50,765—mostly British.

NIAGARA DISTRICT includes parts of the Counties of Welland, Lincoln and Wentworth. Lies along the s.w. shore of Lake Ontario, extending from Niagara to Hamilton, 44 miles. It varies in width from 1 mile at Hamilton to 14 miles from Niagara Falls to the mouth of the river. Winters mild owing to the low altitude

Ontario exports more cheese than the whole of the United States.—See *Dairying*, page 3

above sea level (320 to 350 ft.), the shelter of the escarpment, which runs from end to end of the district, and the influence of Lake Ontario, open all the year round. About 12,000 acres are planted to grapes; 3,000 acres to apples and pears; 11,000 acres to peaches; 1,500 acres to plums and 3,000 acres to other fruits. About 50,000 acres of fruit land as yet unplanted. Served by the G.T.R., T.H. & B. Ry., elec. railways from Hamilton to Grimsby, and from St. Catharines to Port Dalhousie, Niagara and Niagara Falls, and a good auto road from Queenston and Niagara to Hamilton. S.S. connections with Toronto at Hamilton, Grimsby, Port Dalhousie and Niagara-on-the-Lake. The Ontario Government has an experimental farm at Vineburg. All fruits are successfully marketed in the Northwest and apples and pears in Europe. Peaches have been shipped to Great Britain. One-third of the grape crop is made into grape juice and wine. Total output of fruit in 1915 was valued at over 5½ million dollars. There are 3 co-operative fruit growers' associations. In the 3 counties there are 2 cheese and 12 butter factories, several jam, grape juice, wine and canning factories. Peach orchards in bearing cost according to age, from \$400 to \$1,000; apple orchards, \$300 to \$500; vineyards, \$150 to \$300; unplanted land, sandy loam with clay subsoil suitable for peaches, \$300 to \$400; unplanted apple land, \$100 to \$150; unplanted land suitable for grapes, \$100 to \$200 per acre. Social conditions are ideal. Pop. chiefly British, some Germans, a few Dutch.

LINCOLN Co. Leading crops and acreage, 1919: wheat, 12,880; oats, 19,021; corn, 6,476; alfalfa, 10,040; orchards, 14,903. In 1919 there were 8,698 horses, 21,110 cattle, 8,585 sheep, 14,453 swine. Chief centres: St. Catharines, 19,189; Merritton, 2,358; Niagara, 2,014; Port Dalhousie, 1,391; Grimsby, 1,765; Beamsville, 1,164. Pop. of County, 43,533.

WELLAND Co. Leading crops and acreage, 1919: wheat, 15,387; oats, 19,643; corn, 10,515; orchards, 7,292. In 1919 there were 9,455 horses, 92,616 cattle, 8,054 sheep, 15,396 swine. Chief centres: Welland, 9,876; Niagara Falls, 12,434; Thorold, 4,325; Port Colborne, 2,987; Bridgeburg, 2,195. Pop. of County, 56,633.

WENTWORTH Co. Leading crops and acreage, 1919: wheat, 15,676; barley, 8,332; oats, 37,050; rye, 1,285; corn, 8,587; potatoes, 4,359; orchards, 7,991. In 1919 there were 12,448 horses, 36,197 cattle, 12,526 sheep, 25,407 swine. Chief centres: Hamilton, 110,137.

Dundas, 5,078; Waterdown, 790. Pop. of County, 143,319.

NORFOLK CO. Undulating. Soil is similar to that in Niagara peach belt, sandy loam, some clay loam, generally clay or gravelly subsoil. Watered by numerous streams. Served by G.T.R. (3 lines), Wabash Ry., Michigan Central, T.H. & B. Ry. Leading crops and acreage, 1919: wheat, 24,196; oats, 39,739; rye, 17,583; peas, 2,435; corn, 23,745; potatoes, 3,172; orchards, 9,187. In 1919 there were 14,377 horses, 41,540 cattle, 17,079 sheep, 30,172 swine. 8 cheese, 6 butter factories. Chief centres: Simcoe, 3,818; Port Dover, 1,319; Waterford, 985; Delhi, 554; Port Rowan, 618. Toronto within 85 miles. The Norfolk County Fruit Growers' Association has over 400 members. Chestnut, oak and pine are the prevailing commercial timber. Natural gas throughout the county. On shores of Lake Erie are 2 famous duck and snipe preserves and good bass fishing. Farms cost \$50 to \$150 per acre; bearing apple and peach orchards, \$300 to \$500. Pop. 27,100—British.

OXFORD CO. Mostly rolling, hilly in parts. Soil mostly clay loam with gravelly subsoil. S. Norwich Tp. inclined to be sandy. Hydro-Elec. power commonly used for light and power on farms. Served by G.T.R., C.P.R. and several elec. lines. Leading crops and acreage, 1919: wheat, 22,490; barley, 12,788; oats, 70,639; rye, 3,103; corn, 33,106; turnips, 4,179; mangels, 1,557; orchards, 8,582. In 1919 there were 20,880 horses, 93,733 cattle, 10,351 sheep, 52,620 swine. Produces more milk to the acre than any other county. 22 cheese factories, several co-operative farmers' clubs. 5 creameries, 12 combination factories. Chief centres: Woodstock, 10,051; Ingersoll, 5,278; Tillsonburg, 2,788; Norwich, 1,262; Tavistock, 917; Embro, 481. Farms average \$40 per acre. Pop. 47,371—all of British or German descent.

PEEL CO. On Lake Huron. Land hilly in North, comparatively flat in south. Soil, sandy along lake shore, fairly heavy clay in one township; clay loam and sandy loam in north. Watered by Credit, Etobicoke and Humber Rivers. Wells from a few ft. to 200 ft. Served by G.T.R., C.P.R., 2 elec. railways and good roads. Leading crops and acreage, 1919: wheat, 19,516; barley, 21,452; oats, 49,646; rye, 5,302; peas, 1,411; corn, 7,544; potatoes, 4,441; alfalfa, 15,107; orchards, 5,803. In 1919 there were 13,433 horses, 47,926 cattle, 18,032 sheep, 29,966 swine. Chief centres: Brampton, 4,238; Port Credit, 1,109; Bolton.

675; Streetsville, 475. Farms cost \$70 to \$100 per acre. Pop. 22,102—Scotch and English.

PERTH CO. Rolling in south, level towards north. Soil, sandy loam, black loam and clay loam. Subsoil clay with small areas of gravel. Watered by springs and creeks; wells 25 to 170 ft. Served by G.T.R., C.P.R. Good gravel roads. Leading crops and acreage, 1919: wheat, 21,542; barley, 28,527; oats, 103,550; peas, 2,151; flax, 1,153; corn, 12,601; turnips, 3,545; mangels, 2,578; hay and clover, 108,736; orchards, 6,139. In 1919 there were 24,254 horses, 100,434 cattle, 13,656 sheep, 67,515 swine. 13 cheese, 8 butter, 8 combination factories. Farmers' clubs for buying and selling. Northeasthope is a well known sheep section. Chief centres: Stratford, 17,143; St. Marys, 3,807; Listowel, 2,437; Mitchell, 1,672; Milverton, 929. Pop. 49,182—English, Irish, Scotch and German.

SIMCOE CO. Between Lake Simcoe and Georgian Bay. Mostly rolling; western section hilly, Floss Tp. flat. Soil mostly clay loam, sandy in centre. Subsoil mostly gravelly, stiff clay in parts. Well watered by streams; wells 10 to over 100 ft. Leading crops and acreage, 1919: wheat, 70,508; barley, 57,097; oats, 144,524; rye, 18,803; peas, 8,731; corn, 11,681; potatoes, 10,851; turnips, 5,222; mangels, 2,315; hay and clover, 115,325; orchards, 9,119. In 1919 there were 34,505 horses, 123,321 cattle, 66,213 sheep, 87,095 swine. 3 creameries. Served by G.T.R. and C.P.R. Good lake transportation. Nottawasaga apples have won highest prizes at many exhibitions. Chief centres: Collingwood, 7,949; Barrie, 6,775; Orillia, 8,058; Midland, 7,339; Penetang, 3,664; Alliston, 1,224; Stayner, 870; Victoria Harbour, 1,496; Bradford, 866. Summer resorts on Lake Simcoe and Georgian Bay. Farms cost about \$75 per acre. Pop. 85,053—all of British descent.

WATERLOO CO. Rolling. Soil, gravelly loam and clay loam, with subsoil mostly gravelly. Watered by Grand and Nith Rivers, and springs; wells, 50 to 200 ft. A great beef cattle district. Served by C.P.R., G.T.R., and 2 elec. lines. Leading crops and acreage, 1919: wheat, 20,992; barley, 12,104; oats, 53,043; rye, 2,643; peas, 1,572; corn, 10,965; turnips, 4,102; mangels, 1,804; sugar beets, 1,128; orchards, 4,650; In 1919 there were 13,715 horses, 46,784 cattle, 10,145 sheep, 44,525 swine. 1 cheese, 4 butter factories and 1 combined factory. Chief centres Galt, 12,558; Kitchener, 19,767; Waterloo, 5,160; Preston, 4,966; Hespeler, 2,929; Elmira, 2,238; New Hamburg, 1,356. Farms cost \$60 to \$100 per acre. Pop., urban, 62,607—Penn. Dutch, Mennonites, Germans and Scotch.

WELLINGTON CO. Area, approx. 652,578 acres. Mostly rolling with 2 or 3 townships quite flat. Soil varies from sandy loam to heavy clay. The Grand, Speed, Connestoga and Maitland Rivers find a source here. Wells from 25 to 200 ft. From main lines C.P.R. and G.T.R. crossing south end branches run north and south. Leading crops and acreage, 1919: wheat, 18,871; barley, 20,172; oats, 105,397; rye, 1,137; peas, 5,592; flax, 1,211; corn, 8,810; potatoes, 4,788; turnips, 9,130; mangels, 2,464; hay and clover, 122,880; orchards, 5,712. In 1919 there were 24,513 horses, 92,616 cattle, 40,267 sheep, 69,441 swine. At Guelph Winter Fair, half of fat stock prizes for Herefords, Shorthorns and Angus Cattle were won by Wellington Co. farmers. 6 creameries, 1 cheese and 1 combined factory. Most of milk is marketed in cities. Chief towns: Guelph, 16,974; Fergus, 1,609; Elora, 1,122; Mt. Forest, 1,716; Palmerston, 1,815; Harriston, 1,381; Fergus, 1,609; Drayton, 622. Farms average \$30 to \$100 per acre. Pop. 55,646—English, Irish, Scotch, and Germans.

YORK CO. Mostly rolling, some level land in south, some marshy in north. Soil, mostly clay loam, some sand and some very heavy clay, $\frac{1}{2}$ ft. Subsoil mostly clay, some gravel. Well watered with springs; wells, some artesian, others 15 to over 200 ft. Leading crops and acreage, 1919: wheat, 44,913; barley, 33,786; oats, 93,335; rye, 7,226; peas, 4,153; corn, 13,337; potatoes, 7,335; turnips, 5,192; mangels, 2,734; orchards, 7,991. In 1919 there were 25,558 horses, 69,177 cattle, 32,112 sheep, 61,529 swine. 8 creameries. Served by C.P.R., G.T.R., C.N.R. and several elec. lines. Chief centres: Toronto, 499,278; Aurora, 2,185; Mimico, 2,490; Newmarket, 3,487; New Toronto, 2,551; Stouffville, 1,025; Richmond Hill, 974; Markham, 813. Farms average \$100 per acre. Pop. (including part of Toronto suburbs) 116,521—English, Scotch, Irish and Dutch.

South-Eastern Ontario

SOUTH-EASTERN ONTARIO. Is bounded on the north by the Ottawa River, on the south by Lake Ontario and River St. Lawrence, and includes the following Counties: (a) ON LAKE ONTARIO—Durham, Frontenac, Hastings, Lennox and Addington, Northumberland, Ontario and Prince Edward. (b) ON ST. LAWRENCE RIVER—Dundas, Glengarry, Grenville, Leeds and Stormont. (c) ON THE OTTAWA RIVER—Carleton, Lanark, Prescott, Renfrew and Russell. (d) IN CENTRE—Victoria, Peterborough and Haliburton.

DURHAM CO. Mostly rolling. Soil, clay and sandy loam. A strip 1 to 7 miles wide of blow sand runs through county. Watered by several streams. Served by G.T.R., C.P.R., and C.N.R. Leading crops and acreage, 1919: wheat, 22,120; barley, 8,882; oats, 49,128; rye, 7,953; peas, 10,664; corn, 10,506; turnips, 3,038; orchards, 8,667. In 1919 there were 14,610 horses, 52,475 cattle; 30,413 sheep, 29,368 swine. 3 creameries, 2 cheese factories. Chief centres: Port Hope, 4,311; Bowmanville, 2,853; Millbrook, 746; Newcastle, 552. Farms average \$60 to \$150 per acre. Pop. 26,411.

FRONTENAC CO. Land is rolling, about 40% rocky, 5% marshy, 55% tillable and pasture. Soil, chiefly clay loam and sandy loam, 2 to 3 feet. Well watered: wells 12 to 80 feet. Leading crops and acreage, 1919: barley, 6,215; oats, 36,038; corn, 6,110; potatoes, 3,375. In 1919 there were 10,541 horses, 57,919 cattle; 18,961 sheep, 22,846 swine. 65 cheese factories. Rocky areas are dotted with small lakes. Good fishing. Feldspar, mica and lead mines. Farms cost \$20 to \$70 per acre. Chief centres: Kingston, 23,737; Portsmouth, 737. Pop. 21,944—British, Penn. Dutch, a few Germans and Norwegians.

HASTINGS CO. Mostly rolling. Soil mostly sandy loam, some clay, clay loam and sand. Well watered by springs and creeks. Wells 30 to 200 ft. Served by G.T.R., C.P.R. and C.N.R. Leading crops and acreage, 1919: wheat, 12,053; barley, 18,254; oats, 78,185; rye, 4,865; peas, 2,466; flax, 3,235; corn, 13,064; potatoes, 5,501; hay and clover, 108,239; orchards, 7,967. In 1919 there were 18,940 horses, 93,094 cattle, 40,392 sheep, 51,097 swine. 75 cheese factories, 4 creameries, 4 canneries. Chief centres: Belleville, 12,345; Deseronto, 2,117; Trenton, 6,107; Tweed, 1,292; Madoc, 1,146; Marmora, 858; Stirling, 823. Elec. power from Trent and Moira Rivers. Farms average \$50 to \$100 per acre. Pop. 40,366—all of British descent.

HALIBURTON DISTRICT. Area over 1,000,000 acres; hilly with streams and lakes, mostly covered with virgin forest. A few settlers engaged in mixed farming. Served by G.T.R. and I.B. & O. Pop. approx. 4,000. Canadians, British, some Germans and Indians.

LENNOX & ADDINGTON COS. Gently rolling, with valleys running e. and w., some of which are farmed, others are stoney and used as pastures. Many natural springs. Good wells, 6 to 20 ft. Served by C.P.R., G.T.R. and C.N.R. Leading crops and acreage, 1919: barley, 7,256; oats, 30,128; rye, 1,111; corn, 6,008. In

Pumpkins in Lambton County.—See page 21

1919 there were 10,883 horses, 51,382 cattle, 14,221 sheep, 23,236 swine. Good poultry section. 31 cheese factories, 1 creamery, 2 canneries. Chief centres: Napanee, 2,864; Newburg, 426. Farms cost \$40 to \$100 per acre. Pop. 20,386—all English-speaking.

†NORTHUMBERLAND CO. On Lake Ontario. Level along lake, rises rapidly 3 miles back. Intervening district to Rice Lake is composed of hills and valleys. Many springs and streams; wells 10 to 20 ft. Served by G.T.R., C.P.R., C.N.R. and Trent Valley Canal. Leading crops and acreage, 1919: wheat, 20,107; barley, 11,123; oats, 55,581; rye, 12,299; peas, 4,853; corn, 11,022; potatoes, 3,631; turnips, 3,498; orchards, 15,665. In 1919 there were 16,775 horses, 62,807 cattle, 28,065 sheep, 36,878 swine. 36 cheese factories, 3 creameries. Chief centres: Cobourg, 4,835; Campbellford, 2,866; Brighton, 1,387; Colborne, 939; Hastings, 667. Picturesque scenery and summer resorts. Farms cost \$50 to \$100 per acre. Pop. 32,992—chiefly British.

THE OTTAWA VALLEY, on south bank of Ottawa River, includes parts of the Counties of Prescott, Russell, Carleton, Lanark and Renfrew. Served by G.T.R., C.P.R., C.N.R. and N.Y.C. Rys., navigation on Ottawa River and Rideau Canal. Watered also by several smaller rivers. Fine scenery. Good dairying section. The 5 counties have 231 cheese, 11 butter, 6 combination cheese and butter factories. Apple growing extends from L'Orignal on e. to Pembroke on w.; leading varieties are yellow transparent, Duchess, Wealthy, MacIntosh. Cities of Ottawa and Montreal provide large local markets. Farms cost from \$30 to \$200 per acre near Ottawa. Pop. of 5 Counties (excluding Ottawa City, 104,007), 176,512—Scotch, English, Irish, French Canadians and Poles.

CARLETON CO. Generally rolling, a few hilly sections, several flat areas. Soil generally of clay loam with sandy areas. Wells 10 to 100 ft. Leading crops and acreage, 1919: barley, 9,053; oats, 76,897; rye, 1,768; peas, 1,696; corn, 18,146; potatoes, 4,659; hay and clover, 103,606. In 1919 there were 18,358 horses, 89,642 cattle, 30,229 sheep, 32,302 swine. Chief centres: Ottawa, 104,007; Eastview, 4,598. Pop. of County (excluding Ottawa), 28,406.

LANARK CO. Includes rolling, flat, dry and marshy lands. Soil sandy, and black and clay loams. Watered by many streams. Wells up to 100 ft. Leading crops and acreage, 1919: barley, 5,699; oats, 42,617; rye, 1,219; peas, 1,184; corn, 9,541. In 1919 there were 11,499

horses, 70,052 cattle, 39,187 sheep, 23,019 swine. Chief centres: Smiths Falls, 6,356; Perth, 3,545; Carleton Place, 3,844; Almonte, 2,556. Pop. of County, 34,375.

PRESCOTT Co. Rolling, flat in parts. Soil sandy and sandy loam, clay. Subsoil heavy clay and gravelly. Watered by Nation River, Ottawa River and Rideau Canal. Leading crops and acreage, 1919: barley, 5,077; oats, 44,584; corn, 9,980. In 1919 there were 8,550 horses, 49,833 cattle, 4,444 sheep, 18,235 swine. Chief centres: Hawkesbury, 3,276; Vankleek Hill, 1,411; L'Orignal, 1,048. Pop. of County, 26,968.

RENFREW Co. In a. generally rolling, in w. dry and hilly. Soil varies, much clay mixed with clay and sandy loam. Well watered by rivers and creeks. Abundant water power. Leading crops and acreage, 1919: wheat, 37,385; barley, 5,326; oats, 71,866; rye, 4,313; peas, 12,229; potatoes, 4,018; hay and clover, 100,842. In 1919 there were 14,985 horses, 82,417 cattle, 61,666 sheep, 26,909 swine. Chief centres: Pembroke, 7,600; Renfrew, 6,334; Arnprior, 4,102; Eganville, 1,069; Cobden, 755. Pop. of County, 51,469.

RUSSELL Co. Mostly flat, rolling in some sections along Ottawa River. Much marshy land and low flat areas. Soil largely a kind of clay marl, some very sandy areas. Watered by Ottawa, Casteau and Natlon Rivers. Wells 20 to 40 ft. Leading crops and acreage, 1919: barley, 5,108; oats, 32,422; corn, 6,992. In 1919 there were 7,732 horses, 39,039 cattle, 6,404 sbeep, 18,091 swine. Chief centres: Rockland, 3,328; Casselman, 925. Pop. of County, 35,294.

ONTARIO CO. Mostly rolling, part flat, part sandy and hilly; marshy in centre, rocky at north. Soil, mostly loam to clay loam, 12 to 18 ins. Subsoil mostly clay, some sandy and gravelly. Watered by a few small lakes and several creeks. Wells 12 to 90 ft. served by C.P.R., C.N.R., G.T.R. (Toronto Elec. Ry. building). Hydro-elec. power in north and south. County has international reputation for pure-bred short-born cattle, Clydesdale horses and sheep. 6 creameries. The south is well adapted to fruit growing, market gardening and mixed farming, for nearby Toronto market; in centre, to mixed farming and stock raising; in north, to mixed farming, ranching and sheep raising. Leading crops and acreage, 1919: wheat, 25,459; barley, 17,313; oats, 72,353; rye, 10,245; peas, 4,287; corn, 14,979; potatoes, 5,289; turnips, 7,430; mangels, 2,120; orchards, 6,357. In 1919 there were 20,455 horses, 77,322 cattle, 37,322 sheep, 49,038 swine. Chief centres: Oshawa, 9,748; Whitby, 3,471; Uxbridge,

1,346; Port Perry, 1,084; Beaverton, 932; Cannington, 818. Farms average \$60 per acre. Pop. 41,006—mostly British.

PETERBOROUGH CO. Generally hilly. All kinds of soil found. A quantity of well-wooded rocky land unfit for agriculture, except sheep and cattle grazing. Watered by many streams and lakes. Numerous artesian wells. Usual depth of wells about 40 ft. Served by C.P.R., G.T.F. and Trent Valley Canal. Leading crops and acreage, 1919: wheat, 18,243; barley, 9,111; oats, 49,738; rye, 3,445; peas, 5,166; corn, 6,975. In 1919 there were 11,668 horses, 54,778 cattle, 17,108 sheep, 21,554 swine. 30 cheese factories, 3 creameries, 2 combined factories. Chief centres: Peterborough, 20,904; Havelock, 1,356; Lakefield, 1,195; Norwood, 652. Water power on Otonabee River. Farms cost \$40 to \$80 per acre. Pop. 41,651. English, Irish and Scotch.

PRINCE EDWARD CO. Practically an island on north shore of Lake Ontario, connected by an isthmus 5 miles broad, which is served by the Murray Canal. Low rolling hills with considerable woodland and deeply indented bays, make county very beautiful. Soil chiefly clay loam and clay gravel, considerable sandy loam and some clay loam. There is land well adapted for growing berries near Picton and Bloomfield and in the western section. Leading crops and acreage, 1919: barley, 9,121; oats, 19,690; rye, 3,228; peas, 10,349; corn, 9,124; orchards, 9,724. In 1919 there were 9,431 horses, 28,255 cattle, 13,007 sheep, 17,247 swine. C.N.R. traverses the county, connecting with C.P.R., G.T.R. and main line of C.N.R. at Trenton. Chief centres: Picton, 3,257; Wellington, 802; Bloomfield, 500. 24 canneries, 22 cheese factories, 1 creamery. Farms cost \$50 to \$125 per acre. Pop. 17,150—Irish, English and Scotch.

ST. LAWRENCE VALLEY. Includes parts of Counties of Leeds, Grenville, Dundas, Stormont, Glengarry. Is famous for beautiful scenery with "the Thousand Islands." Served by G.T.R., C.F.R., C.N.R., and water transportation on St. Lawrence and Rideau Canal. Dairying district, with mixed farming. In the 5 Counties there are 2 creameries, 307 cheese and 3 combined factories. Crops are practically all fed on the farm to cattle and hogs. Large acreage planted to beans. Gasoline engines are generally used for power. Good markets at Montreal and Ottawa. Farms cost \$35 to \$75 per acre. Pop. of the 5 Counties, 100,966—English, Scotch, Irish, U.E. Loyalists, French-Canadians and some Germans.

A pear orchard in the Niagara District.—See pages 21, 23, 24

- ‡**DUNDAS Co.** Flat, with some swampy areas; Mountain Tp. and w. part of Matilda Tp. contain large sand areas; rest of county dark clay loam, 3 to 4 ft., with clay subsoil. Leading crops and acreage, 1919: barley, 5,893; oats, 23,950; corn, 11,979. In 1919 there were 8,891 horses 44,911 cattle, 6,464 sheep, 23,476 swine. Chief centres: Morrishurg; 1,318; Winchester, 1,047; Chester-ville, 925; Iroquois, 818. Pop. of County, 18,165.
- GLENGARRY Co.** Land rolling, flat in parts. Soil varies, sandy loam, gravel, clay and heavy clay. Well watered with streams. Wells 10 to 100 ft. Leading crops and acreage, 1919: barley, 5,720; oats, 39,468; corn, 7,842. In 1919 there were 9,657 horses, 48,667 cattle, 10,139 sheep, 19,212 swine. Chief centres: Alexandria, 2,270; Markville, 687; Lancaster, 574. Farms average \$100 per acre. Pop. of County, 21,259.
- ‡**GRENVILLE Co.** Generally rolling. Soil, about 10 in., mostly sandy loam, with large areas of clay loam flats. Leading crops and acreage, 1919: oats, 34,896; corn, 7,953. In 1919 there were 7,679 horses, 35,465 cattle, 11,512 sheep, 18,145 swine. Chief centres: Prescott, 2,660; Cardinal, 1,147; Kemptville, 1,127; Merrickville, 792. Pop. of County, 17,545.
- ‡**LEEDS Co.** Rolling, in parts rough and hilly, marshy near small lakes. Soil, clay, clay loam and black loam to good depth, in parts sandy, shallow loam and gravelly. Well watered by creeks and streams. Leading crops and acreage, 1919: barley, 5,527; oats, 44,928; corn, 12,741. In 1919 there were 11,344 horses, 64,238 cattle, 15,901 sheep, 27,030 swine. Chief centres: Brockville, 9,418; Gananoque, 3,434; Westport, 704; Athens, 597. Pop. of County, 18,222.
- STORMONT Co.** Flat, small areas of marsh, mostly comparatively dry. Soil 2 to 3 ft. clay loam, with large areas gravelly. Subsoil, clay. Wells, 20 to 30 ft. Leading crops and acreage, 1919: oats, 27,083; corn, 8,067. In 1919 there were 7,567 horses, 39,957 cattle, 5,959 sheep, 19,495 swine. Chief centres: Cornwall, 6,918; Finch, 336. Pop. of County, 24,775.
- ‡**VICTORIA Co.** Mostly rolling, some parts hilly, large areas marshy and swampy. North half shallow, limestone and hilly granite. Soil, generally clay loam, some sand. Subsoil mostly hard clay and some gravel. Watered by streams and Kawartha chain of lakes. Served by C.P.R. and C.T.R. Leading crops and acreage, 1919: wheat, 16,768; barley, 13,275; oats, 63,618; rye, 1,418; peas, 4,920; corn, 7,735; turnips, 3,175. In 1919 there were 13,631 horses, 62,960 cattle, 30,627

sheep, 31,106 swine. 8 cheese factories, 6 creameries. Chief centres: Lindsay, 7,880; Bobcaygeon, 844; Fenselon Falls, 857. Farms average \$70 per acre. Pop. 36,499—English, Scotch and Irish.

Northern Ontario

NORTHERN ONTARIO. This name has been given to that part of Ontario lying north of the French River and Lakes Huron and Superior. Area, 147,000 sq. miles, of which 60 million acres is covered with spruce, black pine and poplar. North Ontario has been made world-famous by the nickel deposits at Sudbury, the Cobalt Silver Mines and the Porcupine Gold Fields. Only the fringe of the mineral belt has been touched. Moose, caribou, bear, beaver, wild duck and partridge are plentiful.

Cities and Towns. The principal cities and towns in New Ontario are Fort William, Port Arthur, Sudbury, North Bay, Cobalt, Porcupine, Sturgeon Falls, Sault Ste. Marie, Dryden, Fort Frances, Kenora, Englehart, Haileybury, New Liskeard, Charleton, Matbeson and Cochrane.

Colonization. In some districts free grants of Crown Lands (single man 100 acres, head of family 200 acres) can be obtained. In others, lots of 160 acres may be purchased at 50c. an acre—settlement duties in both cases. Provision has been made for loaning of money to settlers by the Provincial Government. An experimental farm with over 800 acres has been established at Monteith. 100 acres have been secured for a demonstration farm and agricultural High School at New Liskeard. A plant breeding station is run at Fort William in connection with the Jail Farm there to study plant life suitable for northern agriculture.

Transportation. Easy transportation is afforded by a net-work of rivers and lakes which are full of fish. The region is traversed by the Can. Nat. Ry., T. & N.O.R., and C.P.R. There are colonization roads in the districts which are open for settlement.

CLAY BELT. From the shores of James Bay, flat, swampy land extends for about 150 miles. Thence the "Clay Belt" rises abruptly several hundred feet higher, the benches being similar to those in the Niagara Peninsula, near Hamilton. The soil is mostly a rich friable clay, with vegetable mould of varying depth. In part (e.g. at Englehart), sandy loam prevails suitable for fruit growing. Around Iroquois Falls the soil is browner towards the western end. In most places some drainage

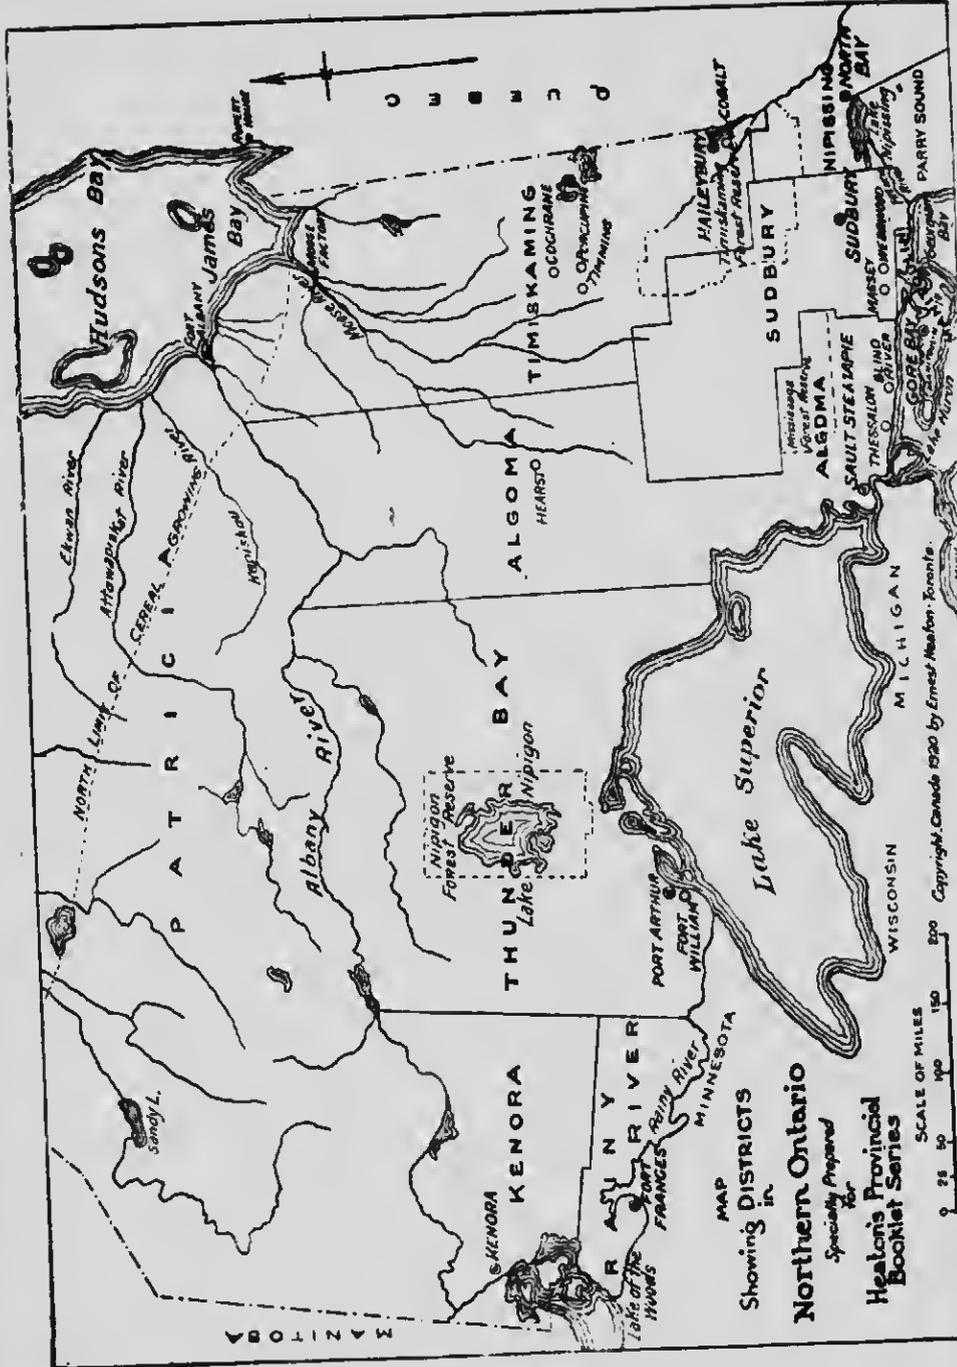

will be required, but the large number of runs affording natural outlets makes this easy. In the south, the Clay Belt begins about North Cobalt and Haileybury, and extends some 40 miles north, bounded by the Quebec frontier on the east, and the Montreal River to the west. Here it is broken by 25 miles of mining country, containing the Dane and Swastika Districts. Thence the land is nearly all good to Cochrane, the most northerly railway point. Beyond this a tract of good agricultural land, of about 100 miles, reaches all the way to the benches. Mr. T. B. Speigh, President of the Association of Ontario Land Surveyors, estimates that, after making deduction for sandy and gravelly areas in certain localities, from 65% to 75% of the clay belt is good farm land, and that comprehensive draining will make a considerable addition. The whole area is estimated at over 16 million acres.

Climate. The summers are hot and the winters cold, but dry. Summer frosts are rare. The crops ripen more rapidly than in the south, owing to longer hours of sunlight. South of Cochrane, the average date of last frost is June 1st; first frost, September 11th. The mean annual temperature at Haileybury, on the Quebec Boundary, is 36.8°. Average annual precipitation, 31.77 inches. At Kenora, on the Manitoba Boundary, mean annual temperature 35.5°. Average annual precipitation, 22.14 inches.

LATITUDE. Cochrane, the present northern terminus of the T. & N.O. Railway, lies on the 49th parallel, i.e., almost the same latitude as the boundary between the United States and the Western provinces of Canada. Haileybury, on the southern limit of the Clay Belt, lies between the 47th and 48th parallels, or further south than any part of Manitoba, Saskatchewan, Alberta or British Columbia, and on a level with the northern part of France, Austria and the Chinese Empire. Winnipeg, Man., is about 50 miles further north than Cochrane.

GRAIN CROPS. Barley, oats and wheat are grown, for which early sowing is necessary. At Monteith Farm fall wheat has for 3 years in succession averaged 30 bushels; of spring wheat, Marquis and Prelude have grown to maturity, the former yielding 20 bushels; of barley, O.A.C. No. 21 has yielded 40 bushels; of oats, O.A.C. No. 3 has matured in 90 days and yielded 60 bushels per acre.

ROOTS AND VEGETABLES. Potatoes, peas, parsnips, carrots and beets thrive everywhere. Cabbage does well. Tomatoes and pumpkins ripen in some parts. At Monteith Demonstration Farm, in 1917, 6 varieties of pota-

THE M.S.O. COMPANY, TORONTO

toes produced 230 bushels per acre; the varieties best adapted to the district went away beyond this. North Ontario is so far free of the Colorado beetle and fairly free of potato diseases. Of turnips, over 1,000 bushels per acre were harvested, turnips 8 and 10 lbs. being common.

FODDER CROPS. Fodder grasses, white and red clover do exceedingly well; alfalfa is cultivated.

FRUITS. Wild strawberries, raspberries, plums, currants. Of cultivated fruits, gooseberries, cranberries and blueberries grow profusely. Melons ripen, but occasionally need to be covered at night. Rhubarb does as well here as anywhere. Herbert raspberries promise well, Victoria have proved hardy; promising experiments are being made in plums, cherries and crab apples.

DAIRYING. There are great possibilities. In 1918 22 cheese factories and 3 creameries made 750 lbs. of cheese and nearly 250,000 lbs. of butter. The Clay Belt is pre-eminently a stock-raising country.

CROWN LANDS, REGULATIONS. Agricultural lands open for disposal in Northern Ontario may be obtained by:

- (1) **PURCHASE.** 160 acres may be sold to each applicant, who must be a male or sole female head of a family, or a single man of 18 years. The price is 50c. an acre, payable $\frac{1}{4}$ cash, balance in three annual instalments with interest at 6%. Purchaser must go into actual residence within 6 months of date of purchase; erect a habitable house at least 16 x 20 feet; clear and cultivate 10 per cent. of the area, and reside on the land for three years before patent issues. After the issue of patent another 160 acres may be purchased on like conditions. Proxy regulations permit a purchaser to place a representative on the land to perform settlement duties, but require double the amount of clearance and cultivation.
- (2) **FREE GRANT.** Except in the Temiskaming District, certain lands considered suitable for cultivation and not valuable chiefly for pine timber or minerals may be located as Free Grants. A single man over 18, or head of a family, may locate 160 acres, and the latter may purchase an additional 80 acres at 50c. per acre cash. In St. Joseph's Island and the Townships of Bonfield, Calvin, Cameron, Ferris, Mattawan and Papineau in Nipissing District, and Paipoonge in Thunder Bay, a single man may secure 100 acres free, a head of a family may locate 200 acres and buy an additional 100 acres; a single man may locate 100 acres and may swear off for rock and swamp up to 100 acres.

The conditions entitling a Locatee to patent are: (a) Clearing and cultivating 15 acres, of which at least 2 acres must be done each year; (b) erection of a habitable house at least 16 x 20 ft.; (c) continuous residence and cultivation for 3 years after location and thence to the issue of patent. Absence for not more than 6 months altogether in any one year may be allowed if sufficient reason is shown. For full information, forms, etc., write the Agents in the various districts, or Minister of Lands and Forests, Parliament Buildings, Toronto.

ALIENS. To enemy aliens no farm lands will be sold or located unless naturalization has been applied for and the attitude of the applicant during war period has been above reproach. To neutral and friendly aliens lands may be sold or located, but a promise in affidavit form must be given that steps will be taken as early as possible to secure naturalization papers; a sale or location is then allowed; but under no circumstances will patent issue for farming purposes until absolute proof is filed that the applicant is a British subject.

RETURNED SOLDIERS. Returned Soldiers may secure in any township opened for sale a Free Grant location, subject in every respect to the performance of settlement duties. Where Returned Soldiers already hold unpatented land against which arrears are due to the Crown, these arrears are remitted. The time spent by a soldier settler in service from his overseas enlistment until his discharge shall not be deemed a cessation of residence as required by the ordinary regulations, but full settlement duties must nevertheless be performed in respect of clearance, cultivation and building before patent issues.

ALGOMA DISTRICT. Area, about 36,500 sq. miles. Character of land and kinds of soil are varied. The southeastern portion contains the Mississaga Forest Reserve. The district is bounded on the south by the north channel of Lake Huron, on the southwest by Lake Superior, and on the west by the Thunder Bay District. Good roads in the neighborhood of the towns. The proposed Georgian Bay Canal route from Lake Nipissing to the Ottawa River passes through the middle of the district. (See under Georgian Bay Ship Canal.) Some grain is grown, but the district generally is better suited to mixed farming, dairying and grazing. Hay, oats, peas and roots thrive well. There are several popular summer resorts on Lake Temagami, and the Highland Inn, Algonquin Park, is open all the year round. Write Dept. of Lands, Forests and Mines, Toronto.

RAINY RIVER DISTRICT. Extends 200 miles westwards from Thunder Bay District to Manitoba boundary, and 80 miles south from Kenora District to Rainy River, the boundary of State of Minnesota. The Lake of the Woods, Rainy River and Rainy Lake form an international waterway to the south and west. The district is traversed by Can. Nat. Ry., C.P.R. The Government is building a macadamized trunk road from Fort Frances to Rainy River; 22 roads north and south will be added afterwards. The northern part is hilly with rocky ridges, lakes and rivers. The arable land at present being developed extends north 15 to 20 miles from the C.N.R. track and is about 70 miles from east to west. In some parts there are 5 to 6 miles of country south of the C.N.R. The area is estimated at about 1,000,000 acres and is covered generally with spruce, jack pine, poplar, and white birch. Cost of clearing land averages \$20 per acre. In the Rainy River valley the land is level. The soil varies from clay to sandy loam, with clay subsoil. There are occasional swamps, timbered with cedar, spruce and tamarack. Muskeg swamps covered with moss, shrub balsams, spruce and tea weed are easily cleared and are ideal for celery, cranberries, etc. Running wells can be obtained at 50 ft. The principal crop is oats. Fall wheat yields 40 to 50 bushels. Spring wheat, peas, beans and buckwheat are grown. The early varieties of corn do well. The Rainy River Potato Growers' Association, with over 150 members, specializes in seed potatoes. All kinds of wild berries, plums and crabapples thrive. Abundant clover affords the finest pasture for cattle. There are some fine flocks of sheep. The Quetico Forest Reserve contains 1,560 sq. miles. There are many choice tracts of timber with adjacent water powers. The lumber industry gives employment to over 3,000 men. Gold is found near Lake Manitou, Sturgeon Lake, Seine River and the Lake of the Woods. Iron is mined around Atikokan; hematite and bog iron are found near Fort Frances. There are many deposits of copper. See under "Mining." An important supply of caviar comes from sturgeon caught in the Lake of the Woods. The principal markets for farm produce are Fort William and Port Arthur to the east, Winnipeg and Brandon to the west, Kenora and Keewatin to the north, St. Paul, Minneapolis, Duluth and Chicago to the south. Local markets are afforded by the lumbering and mining camps, and at Fort Frances, Emo and Rainy River. Free Crown Lands are obtainable, with additional land at 50c. per acre. Improved farms at \$25 to \$50 per

North Ontario—A fishing camp

acre. Partly improved, \$10 to \$50. Population of district includes English, Irish, Scotch, Canadians, Americans, Swedes, Norwegians and Danes. Write Sec. Fort Frances Bd. of Trade for pamphlet "Rainy River District."

SUDBURY DISTRICT. A large part of the district is rocky, and in the nickel mineral belt the arable land is scattered. Land varies from rolling to flat, with sandy and clay loam, about 25 in. deep. Is marshy in parts. The timber consists of white and red pine, jack pine, spruce, balsam and poplar. Abundance of water supplied by creeks, springs, rivers and lakes. Good wells at 20 ft. The Can. Nat. Ry. and C.P.R. traverse all townships open for settlement. Oats average 35 bushels. A little wheat is grown. Hay, grain and all kinds of roots and vegetables find a ready market at high prices in the lumber camps. There are over 20 lumber companies operating in the district. The principal towns are Sudbury, Copper Cliff and Chapleau. Part of Timagami Forest Reserve lies in the eastern section. 74 per cent. of the world's nickel output comes from this district. See under "Mining." Crown lands can be obtained at 50c. per acre. Improved farms up to \$20. Write Dept. of Lands, Forests and Mines, Toronto, and Sec. Bd. of Trade, Sudbury, Ont.

TEMISKAMING DISTRICT. Extends along the western boundary of the Province of Quebec on James Bay, to Sudbury and Nipissing Districts at the south. The height of land between North Bay and New Liskeard is rock, with lakes and pine and spruce forests. The Clay Belt begins at Haileybury and New Liskeard. Land suitable for settlement is generally rolling and is mostly covered with spruce and jack pine, and, in some localities, with cedar. The soil is invariably a clay loam, with clay subsoil. In some parts, best results are obtained with under draining; cost of clearing averages \$20 per acre. Oats have produced 60 to 75 bushels, running 37 to 40 lbs. per bushel; barley, 50 bushels. Timothy and clover grow in profusion. A little wheat is grown. For peas, potatoes, turnips, onions, cabbages, cucumbers and other garden stuff the country is ideal. Dairying is carried on and is capable of great development. Part of the Timagami Forest Reserve, 5,900 sq. miles lies in the southern portion. The principal towns are Cobalt, Haileybury, Englehart, Cochrane, Porcupine, New Liskeard, and Latchford. The district has been made world-famous by the silver mines at Cobalt, and the Porcupine gold mines. The mining camps afford a sure local market

at high prices. Population of district includes English, Scotch, French, Canadians and Irish. Crown lands obtainable at 50c. per acre. Improved farms at \$10 per acre. Write Dept. of Lands, Forests and Mines, Toronto.

THUNDER BAY DISTRICT. The soil of various kinds, including gravelly soil, sandy loam, loam, clay loam and heavy clay. Clay and clay loam predominate and produce good crops without artificial aid. The sandy and gravelly portions are not so rich, but give good results with a small amount of fertilizer. Certain crops must be sown as early as possible, owing to the shortness of the summer. In Slate River Valley (i.e., the part south of the Kaministiquia River), and in the Dorion neighborhood (about 40 miles e. of Port Arthur), barley often yields from 60 to 70 bushels per acre, oats from 70 to 75 bushels, wheat sometimes as much as 40 bushels. Peas, and other leguminous crops, are grown successfully. The district in general is especially suitable for potatoes, often producing 350 to 400 bushels per acre, and seldom less than 225. Turnips, carrots, beets, mangolds, parsnips, cabbages, cauliflowers, rhubarb and asparagus are profitable crops. Dairy farming and stock raising are easily carried on, owing to abundance of good water and grass crops in all parts. All kinds of clover and timothy thrive naturally as soon as land is cleared and yield from 3 to 4 tons per acre. Milk will fetch \$2 per 100 lbs. and cream \$1.25 per gallon in the Fort William and Port Arthur markets. Beekeeping and poultry raising can be developed. Large fruits can hardly be grown on a commercial scale, but small fruits, especially strawberries, give good returns. The district is principally timbered with jack pine, spruce, cedar, tamarack, birch and poplar. Cost of clearing ranges from \$5 to \$20 per acre. Vast iron deposits occur at Atikokan, between Port Arthur and Fort Frances. There are innumerable lakes and streams, many of which are navigable. The largest body of water is Lake Nipigon, in the Nipigon Forest Reserve, about the centre of the district. It drains into Lake Superior by the Nipigon River, which is famous for its speckled trout fishing. Transportation is afforded by the Can. Nat. Ry. and C.P.R. at the south. In addition, the Canadian Nat. Ry. has a branch line from Superior to Port Arthur. The South-western Section is well served by the Can. Nat. Ry. and by the Can. Nat. Ry. at the north. Write G. R. Duncan, Fort William.

DISTRICT OF PATRICIA. This district was added to the province in 1912. Its area is about 157,400 sq.

miles, bounded on the west and northwest by the Province of Manitoba; south and southeast by the English and Albany Rivers; east and northeast by Hudson Bay and James Bay, with a coast line of 400 miles. The greater part of the district is still unexplored and uninhabited.

Industrial Opportunities

(Official Boards of Trade Register)

NATURAL RESOURCES. For detailed information of the Natural Resources of Ontario as well as other provinces, see Heaton's Annual (Heaton's Agency, Toronto).

Agriculture. The value of agricultural production in 1919 was \$757,773,500, i.e., field crops, \$373,507,500; live stock, \$384,266,000. For particulars, see under Agriculture, pages 3 to 17.

Fisheries. In 1918 the total value of Ontario fisheries was \$3,175,111, the product of fisheries included herring, trout, whitefish, pickerel, pike, perch, carp, catfish, caviar, eels, sturgeon, tullibec. The Great Lakes contribute the bulk of the catch. Lakes Nipigon, Nipissing, Abitibi, are large contributors.

Forests. The productive forest area is estimated from 70,000,000 to 90,000,000 acres, containing about a hundred and fifty billion feet of merchantable timber. The total stand of white and red pine still vested in the Crown on unlicensed land is about twelve billion ft., b.m. The pulpwood stand on Crown lands undisposed of is estimated at 350,000,000 cords. Of this, 250,000,000 are spruce pulpwood and tributary to present railways and waterways leading to them.

Mining. The production of the Province for the past four years was as follows:—

1916	\$65,303,822	1918	\$94,694,093
1917	89,666,600	1919	65,841,826

The minerals recorded include cobalt, copper, corundum, feldspar, gold, mica, mineral pigments, natural gas, nickel, petroleum, platinum, salt, silver talc.

PROSPECTING. There are tempting opportunities for acquiring wealth in the mineral lands situated in the Eastern, Northern, and Northwestern districts of Ontario. Valuable discoveries are constantly being made. A prospector is required to pay \$5.00 for a license fee.

Water Power. A report of the Dominion Waterpower Branch in 1915 gives the potentiality of the water powers of the Province as 4,029,000 h.p., and the total developed waterpower 702,000. Practically all the towns and larger villages are equipped with electric light and power. The Hydro-Electric Commission, created in 1898 by Act of Parliament, operates ten distinct transmission stations and delivers power to about 200 municipalities. Price ranges from \$14 to \$85 per h.p., according to the distance from the source of power, the longest distance of transmission is 242 m., from Niagara Falls to Windsor. (For full details, see Heaton's Annual.)

MANUFACTURING. Ontario is the manufacturing centre of Canada. Here are situated the basic industries upon which other industries are built. Since the war great numbers of American manufacturers have been establishing branch industries in the Province. The main reasons for this influx are the proximity of Ontario to the manufacturing districts of the United States, the wealth of natural products, the ample supply of water power, the high purchasing power of its agricultural population, and favorable labor conditions, especially in the small centres. In addition to this, the British Imperial Preferential Tariff is a strong inducement to Americans to manufacture in Ontario for the British Empire market.

Free Location Service. Manufacturers wishing to locate an industry in Ontario are invited to consult the Industrial Department of Heaton's Agency, 32 Church Street, Toronto. Full local information can be obtained here, and advice and detailed reports on every phase of the situation which has to be considered in connection with the establishment of Canadian plants. A complete personal advisory service is given in each case. Plans and full details of available factories are registered here.

Local Opportunities. The descriptions given below of the leading commercial towns in Ontario are reprinted from the official Boards of Trade register contained in the current edition of Heaton's Annual, which is the first book consulted by manufacturers seeking a location in Canada. The information is carefully revised annually by the local Boards of Trade.

ACTON (Halton Co.), 35 miles w. of Toronto, on G.T.R. and Toronto Suburban ry. (elec.). Hotel, Station. 5 churches, public and high schools, park, 2 banks. Industries, 2 large tanneries, belting, 2 gloves, boot and shoe factory. Niagara electric power. Alt. 1,198. Pop. 1,563.

SPECIAL OPPORTUNITIES.—Cheap elec. power Good sites with railway trackage. Liberal inducements on application. Write Manager, Merchants Bank.

ALEXANDRIA. (Glengarry Co.), on G.T.R., 52 miles e. of Ottawa; (C.P.R. at Green Valley Sta., 3 miles). Hotels, Ottawa, Grand Union \$2. County Registry Office, 2 banks, 3 churches (2 R.C. and Pres.). Waterworks and electric light and sewer systems (owned by town). Carriage factory, office furniture factory, coupling factory. Neighborhood supplies hardwood. Centre of fine dairy district. Alt. 256. Pop. 2,220.

SPECIAL OPPORTUNITIES.—Manufactures requiring hardwoods; foundry, first-class hotel. Exemption from taxes and other privileges to new industries according to payroll. Write Sec. Bd. Trade.

ALLISTON (Simcoe Co.), on G.T.R., C.P.R., 45 miles n.w. of Toronto. Hotels, Windsor, Dominion. 4 churches (Ang., Meth., Pres., R.C.), public and high school, park, 2 chartered banks, 1 private. Industries, 3 sash and door factories, woollen mill, 2 flour mills, Vat Specialty Co., lumber yard, brick yard, waterworks. Hydro light and power. Alt. 723. Pop. 1,224.

SPECIAL OPPORTUNITIES.—Nursery garden. To manufacturers town offers free sites, free water, and fixed assessments. Write Pres. Bd. Trade.

ALMONTE (Lanark Co.), on Mississippi River, 30 miles w. of Ottawa, on C.P.R. Hotels, Davis, Belmont. 5 churches, town hall, 3 banks, park. Town owns elec. light system. Water power, 3,500 h.p. available. Industries include woollen, shoddy and knitting mills, soap works, iron works. Alt. 399. Pop. 2,556.

SPECIAL OPPORTUNITIES.—Steam laundry, shoe repairing shop, textile factory, stove and furnace foundry. Inducements on application. Write Chairman Publicity Committee.

AMHERSTBURG (Essex Co.), on M.C.R., at head of Lake Erie, on Detroit River. D.B.I. ferries to Detroit, 18 m. Essex Terminal ry. from Brunner-Mond plant (1 m.) to Sandwich. Hotels, Amherst, Lakeview, Union. Two banks, auto factory, knitting factory. Limestone quarries and soda ash plant in neighborhood. Alt. 593. Pop. 2386.

SPECIAL OPPORTUNITIES.—Lumber and planing mill, dentist, manufactures of all kinds. Reasonable encouragement offered to new industries. Write Town Clerk.

ARNPRIOR (Renfrew Co.), on C.P.R., G.T.R., 32 miles w. of Ottawa, at confluence of the Madawaska and Ot-

tawa Rivers. Hotels, Campbell, McPhee. 3 hanks, 2 cheese factories, bricks and tiles, woollen mill, 2 lumber mills, builders' factory, 2 planing mills, mineral water factory, felt mill, Arnprior Cabinet Co. Electric power. Lead mines at Gaietta, 5 m. Good bass fishing on river known as Lac des Chats. Alt. 301. Pop. 4,102.

AURORA (York Co.), 25 miles n. of Toronto, on G.T.R. and Toronto and York Radial Ry., connecting with Can. Nat. Ry. Hotels, Queen's \$2, Royal, Wellington. 5 churches, public and high schools, 2 hanks. Town owns elec. light and water systems. Power from Niagara. Industries, planing mill, flour mill, tannery, hoots and shoes (2), pulleys and clutches, agricultural implements, office furniture. Alt. 886. Pop. 2,185.

SPECIAL OPPORTUNITIES.—Cheap power. Good labor conditions. Write Sec. Bd. Trade.

AYLMER (Elgin Co.), 25 miles from London, on G.T.R., Wahash, M.C.R. Hotels, Brown, Mansion, Central. 6 churches, public school, collegiate institute, 2 hanks. Industries include canning factory, foundry, saw mills, bricks and tiles, butter and cheese, 3 builders' factories, condensed milk, shoes, pumps, and scales, machine shops, electric light, domestic water and fire plant owned by town. Hydro elec. power. Surrounded by rich farming, dairying and fruit country. Alt. 700. Pop. 2,177.

SPECIAL OPPORTUNITIES.—Shoe factories, pork factories, creameries, woodenware, canoing and evaporating plants. Liberal inducements offered in taxation, water, light, etc. Natural gas, 15c. to factories, 30c. to consumers. Write Sec. Bd. Trade.

BARRIE (Simcoe Co.), on n. side of Kempenfeldt Bay, Lake Simcoe, county town on G.T.R. (Camp Borden 10 miles.) Steamboats to Orillia, Jackson's Point, Peninsular Park, etc. Hotels, Barrie, Simcoe and 6 others. 11 churches, 4 pub., 1 sep. school, collegiate institute, Carnegie library, 3 parks, armoury, hospital, 1 loan and savings co., 4 chartered hanks, 1 private bank. Industries, 2 builders' factories, tannery, 3 machine shops and hoiler works, bricks, carriages, flour mill, gas producers and gas engines, wicker works, shingle mill, hoots and shoes, excelsior, creamery. Govt. hydro power. Surrounded by rich mixed farming and dairying district. Splendid summer resort. Sailing, boating, canoing, bathing, etc. Alt. 726. Pop. 6,775.

SPECIAL OPPORTUNITIES.—First-class summer hotel, clothing, whitewear, furniture, woodenware, woollen mill. To bona-fide industries town offers free sites.

free water and fixed assessments. Other liberal inducements on application. Write Sec. Bd. Trade.

BELLEVILLE (Hastings Co.), on Molra River, on n. shore of Bay of Quinte, Lake Ontario, on G.T.R., Can. Nat. R. and C.P.R., on line of R. & O., Lake Ontario Nav. Co. and other lake S.S. Hotels, Quinte \$2.50 up and others. 10 churches, high school and 6 others, Albert College, Ontario Business College, St. Agnes' School. Large Y.M.C.A. building with baths. Club. Prov. School for Deaf. Public library, armoury, 2 parks, 8 banks. City owns gas and waterworks. Govt. Hydro-elec. light and power. Industries, 40, include cement works, locks and hardware specialties (2), nuts, bolts and horseshoes, canning, mining and hoisting machinery, foundry and boiler works (2), flour mills, stoneware, pottery, corsets, distillery, shingle machines, soda water, shirts, furniture, paper, vinegar, and jams, creameries, evaporator, fruit machinery, cold storage (2), Cheese Board, limestone quarries, ferro-molybdenum, talc and fluorspar mines nearby. Alt. 251. Pop. 12,345.

NOTE.—In construction, new Albert College, Catholic Hospital, bridge over Bay of Quinte. Rubber company being organized.

SPECIAL OPPORTUNITIES.—Smelter, concentrated milk products, textile manufacture, canning, bricks, road material, radial railways. Cheap power. Good labor conditions, cheap living. Write Sec. Bd. Trade.

BLenheim (Kent). Junction pt. of Pere Marquette Ry. Coal distributing pt. for Rondeau Harbor on Lake Erie 5 m. Hotel Sheldon \$2. 2 banks, elevators, bricks and tile. Nat. gas 25c. per M. Hydro-Elec. power. Good boating, fishing and bathing at Rondeau Provincial Park, 10 m. Surrounded by fine agricultural country, producing tobacco, beans, seed corn, peaches, etc. Alt. 651. Pop. 1,533.

BORDER CITIES. Comprising Ford, Walkerville, Windsor, Sandwich and Ojibway, located on the Detroit River, just opposite and only 800 yards from the city of Detroit; on C.P.R., M.C.R., G.T.R., Wabash and Pere Marquette, with a terminal railway connecting the five trunk lines and absorbing switching charges. Elec. ry. to Leamington (39 m.), Tecumseh (7 m.), Amherstburg (18 m.). On route of all Canadian steamships on Great Lakes. Hotels, Crawford, British-American, King George. All leading denominations represented. 25 schools, splendid collegiate institute, technical school, 27 banks, including branches. Municipally-owned street railway. Hydro power, nat. gas for domestic purposes, 206 operating industries. Canadian centre

LONDON - -

COMMERCE—All civic records show progress, materially increased in past 2 years. Population 60,000. Home market 1,000,000 people. Dominion centre for economic distribution. Educational and ecclesiastical centre. Presents to-day unlimited opportunities for money and enterprise.

RESIDENTIAL—A City of Homes, where life is worth living. Has all the conveniences of a modern city, and attractions peculiarly its own. Picturesque surroundings. Farmers' market three times a week. 80 per cent. of industrial workers own their homes.

Read description of London on pages 70 and 71

any line of industry, write

COMMISSIONER, LONDON, ONTARIO

of the automobile business, 36 plants manufacturing autos, trucks and accessories. Salt, heavy drug, chemical and pharmaceutical industries. Bridge building, machines and tools, forgings and stampings, scales, adding machines, buttons, crucible steel, rules and measures, drills, overalls, clothing, textiles, paints and varnishes, distillery (said to be the largest in the world), 2 breweries, cereals, electric machinery, etc. Total pop. of municipalities, 52,500, an increase of over 10,000 in 3 years. Alt. 580 ft.

At Ojibway the Canadian Steel Corporation (subsidiary of the U.S. Steel Co.) has a 2,000-acre site upon which all work preliminary to actual plant construction is already completed at cost of about \$7,000,000. This includes huge docks extending half-a-mile inland and capable of handling at one time 8 of the largest steamers. Foundations of blast furnaces and wire mill now going on. Total appropriation exceeds \$75,000,000.

NOTE.—\$1,200,000 hotel arranged for. In 1919, 44 American industries established here.

SPECIAL OPPORTUNITIES.—Automobiles, trucks, accessories, internal combustion engines, heavy drugs and chemicals, pharmaceutical preparations, metal industries, and practically any other industry that may be successfully conducted elsewhere in Canada. Write Border Chamber of Commerce, Windsor, Ont.

BOWMANVILLE (Durham Co.), on Lake Ontario, 42 miles e. of Toronto, on main lines of G.T.R., C.P.R., Can. Nat. Ry. Terminus of Toronto & Eastern Elec. Ry. Hotels, Bowman, Balmoral, Goodyear, \$2. 5 churches, 2 public schools, 1 high school, hospital, 3 banks. Gravity system supplies pure spring water. Sewerage plant. Govt. Hydro-elec. power. Industries include Goodyear Tire and Rubber Co. (750 hands), Dominion Piano and Organ Co. (200 bands), Bowmanville Foundry Co. (100 hands), glove factory, canning works, barley mill, flour mill, 2 cooperages, containers, scales and meat slicers. Fine natural harbor, capable of accommodating largest lake vessels. The centre of a very rich apple-growing, mixed farming and dairying district. Popular summer resort. Good boating of all kinds on lake and in harbor and lagoon, extending $\frac{3}{4}$ mile inland. Good bathing; safe, sandy beach. Many fishing streams in vicinity. Alt. 150. Pop. 2,853.

SPECIAL OPPORTUNITIES.—Brick yard, saw mill, canning factory. Abundant elec. power available at \$12 to \$25 per h.p. Labor conditions excellent, low cost of living, cheap rents. Town offers liberal concessions to

new industries. Write C. E. Rehder, Chairman, Industrial Committee.

†**BRACEBRIDGE** (Muskoka District), on Muskoka River, 120 miles n. of Toronto, on G.T.R., daily boats from lake points in summer. Hotels, Queen's, Alhion, British Lion. Court house, library, 2 parks, 2 banks. Town owns light and water systems. Industries include tanneries (2), woollen mills, launches, sashes and doors (2), foundry, lumher mills (3). District supplies tanbark and all kinds of wood. Alt. 817. Pop. 2,293.

SPECIAL OPPORTUNITIES.—Cheap elec. power and raw material at door for wood-working factories. Town offers tax exemptions, and in some cases free sites. Write Town Clerk.

†**BRAMPTON** (Peel Co.), 21 miles w. of Toronto, on G.T.R. and C.P.R. Hotels, Royal, Victoria, Queen's. 9 churches, high and public schools, public library, park, 3 banks. Town owns electric light, waterworks and sewerage. Niagara Hydro elec. power. All main streets paved with asphalt hlock. Industries include 5 cut-flower growing concerns—one covering 24 acres and employing 250 hands, hoots and shoes (3), paper hoxes, hosiery, loose leaf factory (largest in Canada), knitted goods, Pease Foundry Co. (furnaces), 2 planing mills, 2 flour mills, gummed paper, pressed hrick. jam factory, dextrine products. Neighborhood supplies hrick clay and sand. The centre of a rich dairying and apple-growing district. Large horse, cattle and hog centre. Alt. 712. Pop. 4,238.

NOTE.—\$70,000 high school heing erected. Factory heing erected by Hercules Ruhher Co., Ltd.

SPECIAL OPPORTUNITIES.—Steel store-front foundry, automohiles, automohile tops and tires, brlcks and tiles, hoots and shoes, chairs, carriages, leather and wood-working industries, textiles, cigars. To manufacturers excellent shipping facilities. Town offers cheap water and power, tax exemptions and other liberal inducements on application. Write Sec. Bd. Trade.

†**BRANTFORD** (Brant Co.), on Grand River, 60 miles s.w. of Toronto, 80 miles w. of Buffalo, N.Y. On G.T.R. main line and 3 branches; T.H. & B.R., connecting with C.P.R. and Mich. Cent. Ry.; L. Erie & N.R., operating with C.P.R. at Galt; Lakeport at Pt. Dover, on Lake Erie, 25 miles s. Elec. rys. to Hamilton (20 miles), Paris and Galt. Hotels, Kerhy, Bodega, Belmont and 4 others. 26 churches, 7 public schools, 2 separate, collegiate institute, school for

blind, Indian Institute, \$160,000 Y.M.C.A. and Y.W. C.A. bldg., Soldiers' home, public library, large parks (115 acres), 11 banks. City owns water and sewerage works, hydro-electric system. Niagara Hydro-elec. power available at \$15 to \$28 per b.p. Nat. gas by private co. Industries, over 80 factories, including large agric. implement factories, iron and wooden industries, clothing, clay and cement products, automobiles, electrical fittings, silk mills, steel plant, automatic scales, motor trucks; 22 wholesale houses. Centre of a mixed farming district. Neighborhood supplies shale, brick clay and sand. Social, golf and country clubs. Alt. 691. Pop. 28,725.

SPECIAL OPPORTUNITIES.—Industries making goods to sell direct to consumer. Steady demand for mechanics, expert machinists, builders, domestic servants and laborers. Cheap elec. power. Special industrial water rate. Fixed tax rate for 10 years. Some free sites available. No labor troubles. Write Sec. Chamber of Commerce.

BRIDGEBURG (Welland Co.), on Niagara River, opposite Buffalo, N.Y., on C.P.R., G.T.R., Mich. Central Ry., N.Y. Central Rys., Wahash, T.H. & B. and Pere Marquette. On route of S.S. lines on Niagara River. International car service to Buffalo every 40 min. Hotels, Spain's, Barnea, Royal and 2 others. 5 churches (Epis., Meth., Pres., R.C.), park, library. Town owns water and sewerage systems. Niagara Elec. power., Gas Co. Nat. gas at 40c. per M. cuh. ft.. Fire dept., bank. Industries include foundry, steel works, telephone construction co., display fixtures, skirt supporters, account registers, stoves, varnish, shaving powder, hot-air registers, patent medicines, typewriters, caskets, shipbuilding. A fruit-growing district. Good scenery and fishing. Alt. 587. Pop. 2,195.

BRIGHTON (Northumberland Co.), on Presque Isle Bay, on Lake Ontario, 24 miles e. of Cobourg, 20 miles w. of Belleville; on Can. Nat. Ry., G.T.R., C.P.R. Steamers of R. & O. Nav. Co. and Lake Ontario and Bay of Quinte S.S. Co. to Toronto, Montreal, Rochester and principal U.S. and Canadian ports. Fine natural harbor, with 18 ft. of water. Hotels. Clarendon, \$2, Presque Isle (summer only), \$1.50, 5 churches, high and public schools, town ball, elec. light. Town owns gravity waterworks system. Govt. Hydro-elec. power. Bank. Industries include hoats, canneries (3), sprays, foundry, machinery, evaporators (2), flour and feed mills (2), cooperage. Centre of an agricultural and

fruit and vegetables. Neighborhood supplies pine, hemlock and spruce. Popular summer resort at Presque Isle Point, 3 miles across the bay, with good fishing, boating and bathing. Duck shooting in season. Alt. 303. Pop. 1,387.

BROCKVILLE (Leeds Co.), on Lake Ontario, at outlet to St. Lawrence River, on Can. Nat. Ry., G.T.R., C.P.R., 73 miles from Ottawa, 126 miles from Montreal. Hotels, Revere, Central and others.
