HAMILTON, Oct. 9 .- (Special.) -- Gordon C. Wilson, M.P. for Wentworth, in plaint in the matter. Cochrane, who is slated for a portfolio in the Borden cabinet. Mr. Wilson denied that any influence whatever had been brought to bear upon him in the matter, and stated that he had made the offer to Hon. Mr. Cochrane, simply out of personal regard for the minister of forests and mines in the Whitney government. Mr. Wilson's offer is made, of course, on the assumption that Mr. Cochrane is included in the Borden cabinet, and it cannot be known whether the offer will be accepted until the new federal cabinet is announced.

While it has been taken for granted that Mr. Cochrane would be allowed the seat by acclamation, it is doubtful if the Liberals would concur in that course and it is considered more than likely that if the proposed change is made, W. O. Sealey, the defeated Liberal candidate at the last election, would again enter the field and contest

There has been considerable speculation as to Gordon Wilson's political toture, in case he relinquishes his present seat, and the opinion has been freely expressed that he would run in North Wentworth in the provincial elections against Dr. McQueen, Mr. Wilson stated to-night that he had no intention of doing this, but could not say definitely what course he might

Express Robbery.

Neither of the men was charged with the \$8000 theft to-day, and the matter was not even mentioned in court. Kennough, however, was committed for trial on the charge of stealing the sum of \$15 from the, express company. It is alleged that he colected this sum from the Hamilton Gaslight Co., and that he falled to turn it over to his employers. CHATHAM, Oct. 9.—(Special.)—At the fall assizes which opened here to-day before Hon, Mr. Justice Falconbridge, the grand jury brought in a true bill for murder against Charles Hurst, the colored porter, who is charged with slaying of Thos. Brown (white) on August 1 last, Hurst's trial will proceed at 9 o'clock to-morrow morning. O. L. Lewis, K.C., will act for the defence, and William Meredith, K.C., of London, will be crown counsel. The killing of Brown came as a tragic climax to the last emancipation celebration held in Chatham by colored people from Windsor and Chatham. At the inquest witnesses testified that Hurst beat the white man over the bead with his fists till he fell to the ground. Brown afterwards died from fractures of the skull.

JUST A FISH STORY.

Boston Transcript: Henrik Dahl of Aziesund was a reader and follower of Darwin. Wishing to apply his theory of the limit of daptability of a species to environtment, Henrik procured a herring from a neighboring fiord and carried it home in a tub of sea water. He renewed the water dally for some time and gradually reduced the quantity, with so little inconvenience to the herring that he concluded that the fish might, in time, learn to breathe air.

and the water was finally emptied out of the tub, never to be replaced.

Henrik next removed the fish from its tub and placed it on the ground, where it flopped about very awkward-ly at first, but soon learned to move freely and rapidly. In a little while the herring was able to follow its master without difficulty, and then it became his constant companion about the streets of the city.

On a certain unfortunate day Hen-rik had occasion to cross a dilapidated bridge which spanned an arm of the harbor. The herring, coming gracefully along, heedless of danger, now and again spring ing at files, for which it had acquired a great fondness, missed its footing—slipped thru a crack into the water and was drowned.

## Dunlop 18th Annual Bicycle Race, Toronto Exhibition Track, Monday, Oct. 30th (Thanksgiving Day)

It having been found necessary to transfer the 18th Annual Dunlop Bicycle Race from the road to the track, on account of the improvement of the York County Roads, the Dunlop Company have decided this year to divide the event into two races as follows:

1. For the Dunlop Team Trophy.

This trophy, which formerly went for one year to the team with the best average in the road race, will be offered as a prize in a team race of fifteen miles, four men to the team. All riders will start on scratch. There will be individual prizes for the first five men to finish, as well as medals for the winning team.

2. For the Dunlop Individual Trophy.

There will be a ten-mile repechage with the usual handicap heats. The winners of these heats will go into the final and the winner of the final will hold the trophy for one year.

Entry blanks obtainable from all Bicycle Dealers and Dunlop Tire and Rubber Goods Co., Limited, 86 Adelaide St. W. and 244 Booth Ave.

Scores of staunch friends will sincerely regret the untimely death of Walter Dick, a most ardent follower of Rugby football. That the assailant was provoked to land the blow that caused his death is inconceivable, for no more moffensive man ever lived than Walter Dick. He sure bad opinions on football, but also always had respect for the ideas of others.

The late Walter Dick was best known in Rughy in '83. '94 and '55, when he managed the Toronto Football Club. He was a vice-president of the Ontario close game in the eastern senior section Rugby Union in its palmy days and was of the High School Rugby League on often associated with Ed. Lord, Oldring and Murphy, I have greater confidence in the base pilfering, speedy fro, Julray, Smodgrass and Devore of New York, with full regard for the athlettes. I see in Big Chief Meyers a harder hitter, as equally god, if not betton, thrower, and a cool and steady seneral.

### Vancouver Again Defeat Tecumseh By Decisive Score

VAXCOUVER, B.C., Oct. 9,-Vancouver, Minto Cup holders, came to life gave the Athletics plenty of practice for to-day, and again demonstrated that the Tecumsehe are not in their class, world's champions by a score of 5 to 2 beating the Toronto team by 9 goals to 

Vancouver's home worked well today, while the fielders held their end
up. The defence was the weak end
of the team, but the Tecumsehs did
not have enough opportunities to pile
up a scere. Micky Ions was off color,
and Harry Murton registered a couple
of goels by bearing Ions in, once taking the ball on a pass frem behind the
net, and scoring with nobody in the
net, and scoring with nobody in the
net to block him, and again driving
the ball in outside or Ions. Dolly Durkin registered the other goal for the
losers on another long shot.

Wolgast v. Weils, Oct. 28.

NEW YORK, Oct. 9.—Ad Wolgast, the
champion lightweight of the world, and
Matt Wells, the English champion, meet
in a ten-round bout here on Oct. 28. Announcement that the bout had been arrauged several days ago, followed by a
calling-off of the bout because of an insufficient guarantee for Wolgast, was remade to-night by George McDonald, manager, for Wells. McDonald announced
that Wolgast had been guaranteed \$22,000,
to be placed in his hands before the fight.

Question of Pitchers and Luck," Says Connie.

"In my opinion," says Connie Mack, "the world's series will be entirely a question of pitchers and luck. I don't think the base running will cut much figure. The Giants are very fast, but you must remember we also have some speed merenants. Really, I think it will be a question as to whether Mathewson and Marquard are more effective than Bender and Coomie. This also applies to the other pitchers. I am awful 'slad to see the Giants win the pennant, as it will mean the most successful world's series that has ever been played. I believe it will be by far the biggest money-maker."

## EATON'S

The Extreme Popularity of the Soft Hat

The soft hat has a sure hold on fashion this season, for men have realized its splendid qualities, lightness and perfect ease on the head and they'll be worn wherever stern formality is not demanded. For business, travelling, driving, motoring; for fine weather and stormy weather the soft hat is not only suitable but real serviceable and economical. The scratch is very popular with young men (one of which is illustrated here), being a nice dark shade of grey with silk band in darker hue, made from fine fur felt, silky texture, and comes in a medium height crown and moderate brim with stitched edge, and may be worn as shown or in the fedora style. The price is

By Breathing the Rich, Balsamic Yapor of Catarrhozone You Prevent and Cure All Head, Nose, and Throat Disease.

Remember this: You don't take drugs when using Catarrhozone; you simply inhale a healing vapor that cures every type of catarrh, bronchitts, asthma, throat and nose soreness and irritation. No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrhozone." Doctors, hospitals, sanitariums, all say that for those who suffer from changeable weather, for those who are predisposed to catarrh, lung trouble, deafness or bronchitls, no treatment is so indispensable as "Catarrhozone."

FIELDING'S VICTOR HERE The M. P. for Hallfax, Hon. W. S. Fielding's Late Riding, in Town.

F. B. McCurdy, M.P., of Halifax, the vanquisher of Hon. W. S. Fielding, late minister of finance, in the recent elections, was in Toronto yesterday, on a

business trip.

As to the defeat of Mr. Fielding, Mr. McCurdy had little to say. He declared that the fight had been purely on the reciprocity question. Down in Nova Scotia they had decided it would be harmful to their interests and had voted accordingly. The fishermen of that province, who sell their boneless and a far west as Vancouver, which is cod as far west as Vancouver, which is in the heart of the salmon country, saw that they had a better market in Canada than they would have in the States. The Canadian fishermen were more prosperous than the United States dishermen, so seeing that the Canadian market was their best market, the Nova Scotians in Mr. McCurdy's riding voted against Mr. Fielding.

## SPEED-MAD MOTORISTS SHOULD GO TO PRISON

Coroner's Jury, Reporting on Mrs. Salter's Death, Urges Prastic Regulations.

"That deceased, Mrs. Elizabeth Salter, died in the General Hospital on Thursday Oct. 5, from injuries received at the corner of Yonge and Louista-streets by an automobile driven by Roy Brintnell at a high rate of speed.

"We would recommend that the city pass an ordinance compelling all persons driving autos to pass an examination and take out a license, and we also recommend that the police be given full authority to regulate the traffic on the streets.

"We are also under the impression that a term in prison would be preferable to a fine for fast and reckless driving."

Jury Debated Long. The above verdict was returned by oroner J. M. Cotton's jury after weighng the evidence taken at the morgue yesterday afternoon and at the previous

sitting. It was nearly an hour and a half after the jury retired when the

sitting. It was nearly an hour and a half after the jury retired when the verdict was returned.

Roy Brintnell, when in the witness box, said he put the emergency brakes on immediately he recognized the danger of an accident, but he would not say whether or not he threw the clutch off. When asked regarding the rate of speed he was traveling. Brintnell said his car was possibly going at sixteen miles an hour.

Fred McMullen, the man who was with brintnell, said that they were not travelling above ten miles an hour. McMullen is employed by the same firm as Brintnell, and also in the capacity of salesman, but claimed to know nothing whatever about motor cars when questioned by Crown Attorney Monahan. He refused to talk on technicanties.

Rod Was Displaced.

Arthur C. Visick examined the car and found it to be in the condition Brintnell had claimed when examined a few days ago. He said the rod running from the carburetor was out of place. He coul dnot say whether the car was in this condition at the time of the accident or not, as it had been operated in the meantime.

Policeman Ernest Hobson was on duty at the corner of Queen and Yongestreets when Mrs. Salter was struck, and was summoned to the scene by a citizen. When in the witness stand he produced a diagram drawn from measurements he had taken at the time, and showed how the motor had mounted the sidewalk two feet from the curb, and after going for about 11 feet further struck a telegraph pole.

at that time he was going at amoderate speed.

Herman S. Johnston said he saw the car coming down Yonge-street at about thirty-five miles an hour. He thought its speed slackened when about five or six car lengths from Louisa-street, but did not think the driver was triing to bring the car to a full stop. T. C. Robinette, who appeared for the prisoner, asked Mr. Johnston if it was the fact of turning to the west to avoid a street car that caused the accident. Witness thought it was.

Charles S. Cressler said he was with Mr. Johnston on Yonge-street land, noticing the rate of speed Brintmell was traveling, said to his companions: "He'll kill someone if he keeps that speed up." Hardly had the words been uttered before the ratal accident occurred.

Mr. Cressler hurried to the scene and helped carry Mrs. Salter into a drug store and then rendered first aid.

SHORTER HOURS WANTED Grozers Declare That They Work Teo Long Now.

A largely attended meeting of the grocers' section of the Retail Merchants' Association was held last night in their rooms, and the question of early closing of the grocery stores in Toronto was considered. Rev. Dr. Turnbull was present and he discussed the subject from the standpoint of the outsider, the churchgoer. It was pointed out that there was a necessity for an educational campaign so that the public would recognize that the grocers were working too long hours. Committees were appointed to wait on the ministerial association and the trades and labor organizations to call their attention to the subject.

Legislation was favored to amend the Peddling Act, and this was sent on to the Ontario provincial board. J. F. Holloway was in the chair.

## ARRESTED AFTER CHASE ACROSS THE CONTINENT

Alleged Head of Counterfeiting Gang Captured as He Was About to Sail From New York.

WASHINGTON, Oct. 9.-After 8 search across the continent and up into British Columbia, the secret service operatives to-day captured Albert Leon a Russian Jew and political refugee as he was about to leave New York for South America. Leon is alleged to be the head of an extensive counterfelting gang which has flooded the Pacific coast with spurious \$10 bank notes during the past year.

The secret service was to-day advised that Leon was alleged to have perfected a process by which he photo-graphed the face of a note that looked so much like surface printing that many experts declared it to have been p inted from etched plate.

Two of Leon's alleged confederates, Rudolph Swanson and Fred Marneek, were arrested in Chicago two weeks ago. These two men are charged with passing some of the counterfelt money. Leon arrived in this country about three years ago. He took up a section of land near Beaumont, near Los Angeles, where it is believed the first spurious notes were made. In December, 1910, he went to Nootka Island in British Columbia, and it was charged that most of his counterfeit work came out of his plant there.

One can hardly conceive of a selling idea which somebody hasn't worked out to the finish.

Your problems have all been solved somewhere. Your possible pitfalls have all been discovered. And there isn't a road to merchandising success which somebody hasn't traveled.

There lies the value of qualified advisers. A value that amounts to necessity.

Their lives have been lived in a vortex of experiments utterly unknown to you. They have learned what you need to know.

For instance, Lord & Thomas. We have been the advisers of a thousand concerns, al' 'eaders in their lines. We know all of their problems, and how they were solved. We know all their successes, and to what they were due. We know their mistakes, and how you can avoid them.

NORWAY.

NORWAY. Oct. 9.—(Special). — The annual harvest thanksgiving services were held in St. John's Church, Norway, on Sunday. Morning prayer and holy communion were at 11 o'clock and Smart's Communion service and the anthem, "The Eyes of All Wait Upon Thee," were sung by the choir. There was a crowded attendance at evensong and extra seats had to be placed down the aisles. The service was fully choral and the following pieces were rendered by a splendid choir of about 50 voices: Mark's "Magnificat and Nunc Dimittis," anthems "Elessed Be the Name of the Lord" and "The Eyes of All Wait Upon Thee," The solos were taken by Master Fred Tighe and Mr. Harry Booth, while the choir was led by Mr. Rayner Gray, the organist and choirmaster. The preacher at the forencon service was the Rev. J. B. Fotheringham, MA., St. Matthew's Church, and in the evening, the Rev. D. Boyle, Trinity College. The church was beautifully decorated.

Just as expected, the Washington figures regarding spring wheat turned out to be slightly bullish. The fact was not definitely known, however, until trading hal come to an end. Indeed, for the greater part of the day, a heavy tone prevailed, the result largely of hedging sales from the northwest. During the session December fluctuated between 973-8c and 973-4c, losing firm at 973-4c, a gain of 1-8c.

In corn guesses about the governal in the session closing firm at 97 3-4c, a gain of 1-8c.

In corn guesses about the government report went wrong, the actual exhibit being in favor of the bulls, as a condition percentage better than 71 had been tooked for, whereas the news from Washington said 70.4. Bettter weather and larger offerings from the country controlled the market and bent prices down. December ranged from 63 34c to 64 1-8c to 64 1-4c, closing steady 1-4c to 3-8c net lower at 64 1-3c.

Cash grades were steady.

In account of erroneous belief that the government figures regarding eats would be practically the same as a month ago, the market was steady.

High and low levels touched by December were 47 3-4c and 47 1-2c, with the close a shade net higher at 47 5-8c.

Minneapolis and Duluth-Brokers' Comment.

J. P. Bickell & Co. received the fol-

lowing from Logan & Bryan; Wheat-First prices for wheat were cable news. Statistics were on the side of the wheat sellers all day, Northwest markets, 178 cars, about double the run last year, and Winnipeg had over 1150 cars. Cables brought rumors of trouble between klussia and Turkey over grain shipments from the Black Sea. Loudon became a buyer of wheat at Liverpoon, and confirmed the news late in the day that Turkey has made grain contraband of war. Ordinarly this sort of news would create a bullish feeling and excited buying of wheat, but the news had but little effect.

Finley Barrell wired:

Finley Barrell wired:

Wheat—Market very dull to-day.

Domestic news bearish, but firm capies and possibilities of political complications and possibilities of political complications and possibilities of political complications and calred contraband of war by Turkey received little credence. The principal depressing influences were the swe, ling of the visible, bringing total up to 56,88,00; wired:

Erickson, Perkins & Co. (J. G. Beaty), wired:

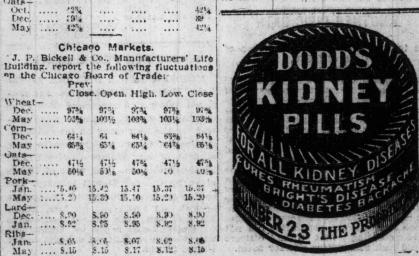

Wheat—The market opened steady, but ruled easier, with a light trade, largely of a professional character. Spring wheat receipts were heavy, and those markets were weaker than our own. The market soud fairly steady at the decline, and may rally a little from this point.

Corn—Favorable weather conditions prevailed over the entire corn best since Saturday, resulting in further scattered liquidation, and causing a decline of ½c per bushel, the December delivery being the weaker. While country orferings showed no marked increase there were more offers of small jots for quick shipment. We are inclined to wait a little ionser to see what effect continued good weather will have on country offerings before advising purchases.

Oats—The market held very firm, in view of the easier tone of other grains. Local grain dealers' quotations are as follows:
Oats-Canadian western oats, No. 2, 464c: No. 3, 45c, lake ports; Ontario, No. 2, 41c; No. 3, 45c, track, Toronto.

The main shaft is being sunk alongsid of a vein 32 feet wide, known as the Ancher vein, which samples from \$25 to \$82 to the ton. The main shaft will now be sunk rapidly and the velo will be cut at depth in the near future.

It is the expectation that the cutting of this vein at the 450 and 200 foot levels will bring into sight ore to the value of double the capital of the property. References to our advices will verify our claim that we called the turn on the winning markets three weeks ago. Those who bought at that time have good profits to their credit, but these will increase. We are more than ever convinced that as judgment, rather than sentiment, is exercised, prices for several of the gold stocks will shortly be much higher than they are now. A statement of the HOLLINGER will be forthcoming which will tend to create a great demand for these shares. Results of the diamond drill test on DOME EXTENSION, when known, are likely to produce a marked rise in the price of these shares. Announcements of importance may be made any day in connection with CROWN CHARTERED, and the same will occur in ELDORADO.

Knowing these facts and the condition of the market, in justice to our clients we want them to get in before the good news has been discounted. Every day's delay means a loss of profits, and we suggest that buying orders be sent in at once.
