THORO INVESTIGATION ORDERED INTO CAUSE OF WALL COLLAPSE

Coroner Elliott Will Open an Inquest To-day and Adjourn For a Week in Order to Allow Time For Calling Scores of Witnesses

Two lives were instantly crushed and 15 people were more or less seriously injured on Saturday morning when the south wall of the Wm. Nelson Company's factory on Gladstone ave., south of College-st., collapsed, and carried timbers, lumber and human beings with it.

As told in the late editions of The Sunday World—the early editions containing a full account of the disaster—the falling on Friday of what is estimated as ninety tons, of hardwood flooring upon the top floors of the building is believed by the city's building inspector to have caused the collapse. Mr. Nelson, sr., would not make a statement, altho he did say that the last addition had not been delivered to him by the contractors. Asked by The World if this would be taken as an admission that he would not take responsibility for the accident, he just shook his head.

The wall broke first at its eastern end and pitched down toward the west where it was met by the wreckage from that section. A score of employees were caught in the avalanche and carried into the basement, where the crumbled ruins closed over them.

First to the Rescue.

F. C. Collins (75) was standing at the corner of Brock and Dundas-st., when he heard a crash like thunder and turning saw the wall tumbling to the ground. He promptly turned in an alarm to the fire department and then rushed to a nearby house and called for the police ambulances. Owing to it being a private phone the policeman was unable to once secure connection with the station, but as soon as he succeeded, he ran to the scene of the accident and plunged into the work of rescue with the fireman from Brock-ave. All the timbers were lying at different angles across a pit which had been torn thru the basement, and this wreckage had to be removed before any of the victims could be released. When more police and firemen arrived, the constable gave water to those who were pinned under the bricks, and who were pinned under the bricks and timbers.

Chief Thompson arrived soon and took charge of the work, but Collins will work on tonight at the almost impassable barrier, which for 30 minutes defied the efforts of the rescuers.

Two Taken Out Dead.

Mrs. Eva Anderson, a newly-married young woman, was the first to be freed. She was dead. Louis Shine, an Italian, was also dead when the men reached him, but 15 others owe their lives to the valiant efforts of firemen, police and workmen on the building.

Dr. Lawson, a young doctor of College-st., was on the scene shortly after the accident happened, and attended nearly all of the patients. The doctor worked until his hands and face were bleeding and his first aid to the injured undoubtedly saved the lives of more than one person.

William Lemmy, a carpenter, who was working on a fifth story, noticed the wall start to bulge, and jumped three stories at the back of the building to a two-story annex. Both of his legs are broken, but if he had remained on the roof where he was he would have been quite safe.

Several of the workers fainted in the pit but were revived with water and whiskey and went back to the task with renewed vigor. The men tore frantically at the wreckage as feeble groans issued from the bottom of the black hole. Chief Thompson encouraged the men to great efforts and had great difficulty in preventing other willing people from throwing bricks on the workers. Motor and horse ambulances from every quarter of the city rushed the patients to the Western Hospital where H. C. Tomlin, superintendent, had a large staff of doctors and nurses waiting to treat them.

Last night the Western Hospital, where all the maimed victims of the disaster were taken, said all were doing as well as could be expected.

Dr. J. E. Elliott opens an inquest at the morgue at 10 o'clock this morning, which will probably be adjourned for a week so that full evidence of all the circumstances surrounding the disaster may be secured.

Examined Entire Structure.

Men, the city's inspector, took a third man over the Nelson building Saturday afternoon, explaining the deductions which lead to his belief.

ELLIS TO PLEAD SELF-DEFENCE AT HEARING

Minden Murderer is Confident That Magistrate and Coroner Will Accept His Statement, That He Killed Porter After Porter Had Fired Two Shots at Him.

By a Staff Reporter.
MINDEN, May 5.—Arthur Ellis is confident that his plea of self-defence will be accepted when he is arraigned before Magistrate Fielding at Lindsay on Thursday or Friday for the murder of Lewis Porter. The inquest will be concluded here on Monday night, and at its conclusion Ellis will be taken to Lindsay by Constable Welch. Provincial Detective Reburn will remain for the inquest and will be at the preliminary hearing before the magistrate.

Ellis stated in his cell at the lockup here today that he had faith in his plea of self-defence. He denied that the shooting was a result of a family feud, and also denied that he had said to anyone that he expected to be hanged for the crime.

Five shots were fired, he says, of which he fired three after Porter had fired at him twice. He was sure that Porter had gone out on the day of the murder with the intention of getting a shot at himself. He said he did not know why he carried the body so far from the road after he had killed Porter, as he could have taken it and sunk it in Gull Lake, nearby. He admitted that he and Porter had had several arguments, but stated that he and his victim were on speaking terms till the last.

Several witnesses have been subpoenaed for the inquest to-morrow night, and Dr. T. A. White will give the result of the post mortem examination. Charles Wood also has been summoned to tell at what time he heard five shots fired.

HAMILTON STRIKE IS UNSETTLED

Bricklayers Are Still Out, With Little Assurance That an Agreement Will Be Reached.

HAMILTON, May 5.—(Special)—The bricklayers' strike remains unsettled, and there is little assurance that a settlement will be reached on Monday. The strike committee sought a conference with the contractors on Saturday, which was denied, and no meeting between the parties has been arranged for to-morrow. Thomas Bower, president of the International Union, is expected to arrive in the city to endeavor to settle the strike, and if he comes a conference will likely be held.

20,000 WOMEN IN SUFFRAGETTE PARADE

Several Thousand Men Also Took Part in New York's Huge Demonstration—Society Leaders Marched in Line With Humble Sisters—Heartily Cheered by Crowds.

NEW YORK, May 5.—With more than twenty thousand women and several thousand men in line the Women Suffrage parade which started up Fifth-avenue at a late hour yesterday afternoon was not finished when darkness fell. At the last moment the parade, which was expected to have about 15,000 marchers, was found to be growing rapidly all along the line.

Preparations had been made for the assignment of additional marchers, but not for the number who joined the movement in the last hour of the formations of the various divisions.

There were suffragettes—militant and non-militant—score workers in the campaign and those who were merely sympathetic who marched to combat the idea that "only a handful of women want the ballot."

Line of March Crowded.

The line of march from Washington-square to Carnegie Hall was packed. From the windows, of Fifth-avenue, there flew flags in honor of the occasion, and every window that gave a view of the avenue was a grandstand that applauded as the women passed in review.

The personnel of the parade, aside from the various shades of suffrage belief represented, presented a perfect democracy embracing women from almost every walk of life.

Women from the farming districts marched side by side with women whose names are widely known, and representative of great wealth and proud social distinction, under the banner of sympathetic interest of the New York State Suffrage Association, headed by Miss Harriet May Mills, president, and Miss May Morrison, acting as grand marshal.

Women who represent the riches and the old Knickerbocker aristocracy of New York City marched with the same degree of enthusiasm as the long line of working women and the hosts from the east side.

From Six Suffrage States.

Delegations from the six suffrage states and good sized bodies from ten other states where women are asking for the vote, lent to the parade a national aspect.

From the time the big suffrage army moved from under the arch at Washington-square at 5 o'clock until nearly 8:30 when the army reached Carnegie Hall, after its two and a half mile walk, Fifth-avenue presented a moving picture of brilliant color.

The new-suffrage flag, yellow background with six black stars, representing the suffrage states, flattered gaily beside the Stars and Stripes.

The delicate pale blue silk and silver banners of Mrs. Clarence Mackay's suffrage organization followed behind the hundreds of purple, white and green pennants, banners and flags of the Women's Political Union, under whose direction the parade was arranged.

The deep blue silk and gold banners of Mrs. O. H. P. Belmont's Suffrage Society, led by herself, preceded the flags and banners of the East Side women, representing as they did the colors of all nations.

Cheered by Thousands.

In spite of being late Saturday afternoon, Fifth-avenue was thronged the entire marching district with crowds who cheered the suffragettes and the brilliant spectacle they presented.

Delegations of Norwegian, Swedish, Greek and Chinese women, garbed in native costume, added to the brilliancy of the march.

From the moment the parade got under way stirring military music accompanied the white-robed army every minute. There were twenty regimental bands and three life and drum corps.

BISHOP OF TRURO DEAD.

PULLING DOWN A HIGH ONE

BABY FOUND AT MIDNIGHT

Three-Year-Old Child Either Wandered From Home or Was Deserted by His Parents.

Picked up on Queen-st. early yesterday morning, a three-year-old boy is in the Children's Shelter on Simcoe-st., and all day yesterday not one enquiry was made for the child. He was wandering aimlessly on West Queen-st. about midnight on Saturday when found by two policemen, who made enquiries in the vicinity, but could not find the child's parents. They then took him to the shelter, where he arrived at 1:30 a.m. It was thought that his parents would enquire for him yesterday morning, but no enquiries were received all day.

The boy, who looks to be three or four years old, is a stout child, well nourished and healthy. He has a full face, brown eyes and wore a grey sweater edged with blue, black knickerbockers and black shoes and stockings.

The baby cannot talk, and all that the authorities at the shelter can get him to say is "Fadder."

RHODES FALLS TO ITALIANS

Capital of Island Yielded, and Later Turks Were Put to Rout.

ROME, May 5.—(Can. Press).—According to official despatches from Rhodes, capital of the island of Rhodes, which Italian forces seized yesterday, troops were landed some distance from the city. They immediately advanced, driving the Turkish troops before them at the point of the bayonet.

In the meantime Admiral Viale summoned the governor of the city to surrender. The latter replied that he had no means of resistance, and accordingly abandoned the control of the city under protest. He added that he had no power to issue orders to the garrison, which, however, shortly afterwards, retired to a position outside the city.

The warships promptly shelled the Turkish soldiers, who withdrew and the Italian colors were eventually hoisted over Rhodes.

The Italians lost five wounded in the brief engagement. The Turks are believed to have suffered heavily. Fifty of them were made prisoners.

LIFEBOATS FOR ALL.

Judge Mabee's Condition

Dr. W. P. Caven, with Dr. J. E. Elliott and Dr. Herbert Bruce, issued the following bulletin at 4 o'clock yesterday:

"Judge Mabee has held his own for the last 24 hours. His condition is still critical."

At midnight Dr. Bruce and Dr. Elliott made the following statement:

"At midnight Judge Mabee's condition is somewhat improved, and the outlook is slightly more hopeful."

PRAYED FOR HIS RECOVERY

Rev. W. B. Caswell and His Congregation Joined in Supplication for Judge Mabee.

"Let us pray that Judge Mabee may recover his health. The country can ill afford to lose such a man."

In these words Rev. W. B. Caswell, pastor of Parkdale Methodist Church, in the opening prayer last night, asked the congregation to join in supplication that the doctors and nurses ministering to Judge Mabee might be blessed in their efforts.

Rabbi Took Bodies Other Than Hebrews

HALIFAX, May 5.—(Can. Press).—A new development has transpired regarding the bodies taken from the Fairview Cemetery by Hebrews while the bodies were there awaiting interment.

The Hebrews were required by the authorities to return them to the morgue. This was done. It now appears that the bodies taken were not all Hebrews. Since the order for interment some of them have been identified and it is held that they are not those of Hebrews.

The attorney-general, it is understood, will take steps to secure payment for damages to the coffins in the changes to which they have been subjected. The matter will come up again to-morrow.

A TALISMAN OF LOVE.

Charlotte Walker has a fairy talisman which was sent her by Mrs. John Fox, Jr., who in public life is Fritz Scheer, and which she wears in "The Trail of the Lonecrows Pine." John Fox, Jr., first drew attention to these fairy stones in the pages of his book, and Eugene Walter took the symbol, which has the form of a cross, and applied it as the talisman of love.

TORONTO NEEDS GREAT MORAL ALLIANCE

City's Morality is in Danger, Says Rev. C. O. Johnston, on Account of Men and Women Ready to Betray Innocent, Mislead the Ignorant and Defile the Pure.

"Toronto's Morality" was discussed from the pulpit before a large congregation last night at West Queen Methodist Church, by Rev. C. O. Johnston. "Toronto's morality is in danger," said the preacher. "Toronto is at present, I believe, the best city in the world, but it will have to look carefully after its character, or it will not only become like other cities, but worse."

"Toronto has been highly favored with many moral privileges, but it is in danger thru abusing its privileges.

"In the multitude of people pouring into the city there are men and women who are ready to betray the innocent, mislead the ignorant, and defile the pure; to buy and sell virtue as a merchandise.

Moral Degenerates.

"Among this multitude are also moral degenerates in whom there is no element of moral decency left. They are morally insane and should be confined with more care than the mentally insane. There are sodden people who have fallen from virtue themselves, who seem to delight most in the fall of others. They use specious arguments, bribes and flattery, make light of marriage, or promise it falsely. They are ready to move earth and heaven in their determination to destroy their victims. Such men are more than thieves.

Who Steals Character.

"The man who steals character is a worse criminal than the common thief. The remedy does not lie alone with the authorities, but also with all citizens who love their homes and their neighbors' welfare. Toronto requires a great moral alliance of all good men and true to wield the Sword of Gideon to maintain her present bright character."

ROOSEVELT LAID "BIGSTICK" ASIDE

Colonel's Handling of Harvester Suit Showed He Wished to Be "Benevolent Despot," Says Taft.

BALTIMORE, May 4.—(Can. Press).—In the closing speech of a fourteen hour campaign trip thru Maryland, President Taft added a new chapter to the history of the Harvester Trust here to-night. Speaking to an audience that filled the Lyric Theatre to the doors, he declared that Col. Theodore Roosevelt did prevent the prosecution of the trust after Geo. W. Perkins, one of its directors, and now a Roosevelt supporter, asked that the trust be not taken into the courts; intimated that Charles J. Bonaparte, attorney-general under Mr. Roosevelt, "was mistaken," when he said that he (Mr. Taft), was present at a cabinet meeting which decided against prosecution, and said that the diary of Herbert Knox Smith, head of the bureau of corporations, proved that at the time referred to, he was on a trip around the world.

A Benevolent Despot.

He said that his predecessor's attitude toward the trusts showed clearly that he wished to perfect a benevolent "despotism" that would discriminate between the good and the bad trusts, pointing out how Mr. Roosevelt had changed from his attitude of regarding his entrance into the presidential race as a calamity to that of being an active campaigner for the nomination and insisted that Mr. Roosevelt was striving to make this campaign one in which the man who had little should be arrayed against him who had more.

NO SUCCESSOR CHOSEN.

LONDON, May 5.—(Can. Press).—A. W. Smithers said to-day that no successor to the late C. M. Hays, president of the Grand Trunk, will be appointed until after he arrives in Montreal. Mr. Smithers will leave here to-day for that city next week.

Bosses Will Get Teddy's Scalp If the People Don't Watch Out

Democratic Moguls as Well as Republican Nabobs Are in Conspiracy to Down Him, Roosevelt Tells Good Folk of Maryland—Test in Primaries To-day.

CUMBERLAND, May 4.—(Can. Press.)—"Bosses" in the Democratic party and in the Republican party, Col. Roosevelt charged to-day, have combined to defeat him. He asserted that Democratic "bosses" saw their own downfall if he should win. It was the last day of his Maryland campaign, the final shot of which was fired here to-night. The colonel made a number of speeches as he traveled across the state, and in Cumberland to-night he spoke his last appeal for support in the primaries on Monday. From Cumberland he started back for Oyster Bay for a week's rest.

The Democrats are almost as much concerned in the outcome as we are," he said in his speech at Hagerstown. "If we overthrow our own bosses, the example will be catching. That's why the Democratic bosses are furiously trying to defeat us in our own party to defeat us. When one boss is thrown down the other bosses shake on their feet. If we shake down our own bosses, the others are not going to stand very long."

FURTHER SEARCH FOR "TITANIC" VICTIMS

Premier Borden Authorizes the Use of Government Steamer Montigny, Which Will Undertake Quest Along the Edge of Gulf Stream—Few Bodies on Minia.

HALIFAX, May 5.—(Can. Press.)—The search for Titanic bodies is to be continued and the government steamer Montigny will sail to-morrow, relieving the Minia, which is expected to arrive with less than twenty bodies to-morrow. The White Star officials tried to get another steamer but failed. The two cable ships are required for their regular work, the French cable ship, the Mackay-Bennett, while the Minia is also needed elsewhere.

Mississippi Valley Flood Grows Worse; Hundreds Homeless

Flood Rises Foot Higher Than Hitherto—Special Train Arrives at New Orleans With Refugees.

NEW ORLEANS, La., May 4.—Flood conditions in the lower Mississippi Valley continue to-day to grow worse; and at New Orleans to-day the former record was broken by almost a foot. The water at Torres is pouring thru that levee crevasse with an ever widening gap, and another breach is threatened there.

A telephone message from Lettsworth early to-day said the town was deep under water and hundreds of persons in the surrounding country are marooned in their homes. Motor-boats have been sent to Lettsworth for rescue work. A special train arrived at New Orleans last night with several hundred refugees from the deluged country. Most of them were negro women and children, who were picked up all along the line of the river where they had taken refuge from the flood.

Provisions for Ten Days. The Montigny is about two knots faster than either of the cable ships and is well adapted for the job she will have in hand. Ten days' supply of provisions will be taken on board. The government steamer in prosecuting her search will cruise along the edge of the Gulf stream, and it is expected that the bodies will be found in cold water as far north and perhaps as 100 miles from the place where the Titanic went down.

VICKSBURG, Miss., May 4.—There has been a great amount of suffering among the flood refugees and of the Black River district in Louisiana. Reports reaching here say that of the hundreds of persons from the Black River country who have gone to the concentration camps at Harrisonburg, great numbers were at the point of starvation and many were dying.

CITY TO RUN MOTOR BUSES

According to Mayor Geary, the city will likely operate a small line of passenger buses for experimental purposes. City Engineer Rust is at present preparing a report upon the matter, which, when completed, will be brought before the council. The mayor thought that if the city would undertake to run a small line of four or five buses it would be a sufficient experiment, and if the enterprise were found successful the idea could be developed on a larger scale.

LONDON, May 4.—(Can. Press.)—At the annual banquet of the Royal Academy to-night, the president, Sir Edward J. Poynter, paid a warm tribute to the late Edward A. Blythe, referring to H. C. Frick's purchase of a Rembrandt from Lord Feversham for \$2,000,000. Sir Edward recommended the passage of a law requiring owners of valuable art works before selling to outsiders.

LARGE INCREASE IN WARD SEVEN

In the last year ward seven has had an increase in population of 2024, and an increase in the assessments of \$24,388, according to the new assessor's report for Ward seven which was submitted to the city clerk Saturday morning. The population of the ward is given as 17,196. According to the police census the population was 15,295. However, on the basis of the most recent assessment figures would show that the sale of great paintings abroad, the millions of the world.

CHARLOTTE WALKER. The distinguished actress in the character of June, coming to the Princess Theatre this week in "The Trail of the Lonesome Pine" by Eugene Walter.

AT THE THEATRES

"The Trail of the Lonesome Pine." Eugene Walter's new play, "The Trail of the Lonesome Pine," which comes here to the Princess Theatre all this week, with matinee Wednesday and Saturday, is not a fanciful creation, but a heart-throbbing story, exquisitely embellished with scenic effects of the Virginia hills. A mountain girl, uncouth, primitive, almost savage in her likes and dislikes, but womanly withal, meets in Jack Hale a type of man she never imagined existed. He, on the other hand, is enthralled with the gray-like qualities of the wild lass of the hills, and he becomes interested in her, without at first imagining that she will ever love him.

GOOD ROADS GETS SOME CRITICISM

Say Material is Not of the Best Quality—Fatal Accident in North Toronto—Big Grist of County Doings.

UNIONVILLE, May 3.—(Special).—A good deal of diversity of opinion prevails in the village and district over the work of the "good roads" commission and the style of roadway now under construction on Main-street from the Langstaff side road northward to the G. T. R. station. A week has elapsed since the work was started and so far less than 40 rods have been built, and this 12 feet wide instead of 14, as the villagers hoped would be.

The slow progress made is due not to the non-arrival of the grader and other accessories which, when on the ground will greatly facilitate work. The material too, in use is the subject of criticism, some charging that it is all limestone and will rapidly be ground up and blown off the roads. That the cost will be heavy is admitted, but if any alleviation of the dreadful conditions prevailing in the spring is found, the money will be well spent. At the same time the ratepayers want the best value obtainable for the outlay.

It was at first intended, after completing Main-street north to the G. T. R. to build on to Markham village, but the condition of the first bridge on the side road between the two places will not permit of the passage over of the big road engine, and this may have to be strengthened before the work is done on with. Instead of the sixth concession north or south will likely be completed first.

Mr. John Hemlingway has purchased the Queen's Hotel and will decorate and otherwise improve this well-known and popular old hotel.

Workmen are engaged in building a small tram railway from the station south out to the old "park grounds," to the west of the village, from which the rods on ten acres will this season be removed, drawn on cars to the G. T. R. and shipped to the city. The owner of the land, Mr. Skelton, has secured the contract for sodding certain park lands in the city.

Real estate transfers, while not very numerous, are sufficiently so to warrant the assertion that a healthy boom is on in the village.

Reeve W. D. Annis, accompanied by Mrs. Annie and little daughter, was in the village on Friday, visiting the latter's parents, Mr. and Mrs. Harding. Reeve Annis has just secured a handsome McLaughlin car and the ease and dexterity with which the reeve navigates it thru the highways and byways is only equaled by his good work in the council, and his native township.

The "good roads" system is furnishing work for a lot of villagers these days. While spring seeding is pretty well advanced, considerable yet remains to be done. Grass has begun its growth and fall wheat, while backward, is thought for the most part to be living well, with the rain of Sunday evening, soon show marked improvement.

The Unionville planing mills are pushed with work, not alone locally, but from over a wide area. The high quality of work, for which the local firm is well-known is the reason.

One of the most refreshing sights in this village is the magnificent green sward surrounding the residence of Dr. Charles Harrington. It would make Parkmount's Chambers' grounds, and is a credit to the town.

WEST TORONTO. Big Western Ward Now Have Hydro-Electric Lights. WEST TORONTO, May 3.—(Special).—Excitement of a quiet, restrained brand met with an outlier last evening when West Toronto emerged from the "darkness" of badly-lighted streets into the sunlight of hydro-electric illumination. When the lights came on heads were put off doors in a laughing chorus, and the "At last!" exclaimed hundreds of long-suffering citizens.

Promptly at eight o'clock the lights were turned on and the streets of West Toronto, which heretofore have presented a gloomy and dismal blackness, only accentuated by the glare of gas lamps, were turned into brilliant avenues, lit by long converging double rows of twinkling lights. The merchants of Dundas-street bewailed the absence of counter lights from their business thoroughfare, but the merchants are alone responsible for this absence. West Toronto citizens welcome the new lighting with nothing but the highest praise.

YORK TOWNSHIP COUNCIL.

The regular meeting of the York Township Council will take place this afternoon for the transaction of general business. The contract for the carrying out of its share of the contract in connection with the Mount Pleasant road, by the Rural Trust has not, and some light may this afternoon be shed on the latter conduct in this matter.

EX-REEVE DUNCAN BUYS FARM.

Ex-Reeve, Henry Duncan of York Township has purchased Dobson T. H. and shipped to the city. The owner of the land, Mr. Skelton, has secured the contract for sodding certain park lands in the city.

NORTH TORONTO.

Chairman Palmer Would Like to See Municipal Line.

NORTH TORONTO, May 3.—(Special).—Interest in the pending negotiations between the town council and the railway company continues to increase, and Tuesday night will see a stirring meeting in the council chamber if, as is contemplated, the agreement is brought down. The solicitor for the town has stated that he does not think the agreement will be far enough advanced to submit to Tuesday night's meeting. If the matter has to go over to an indefinite period there will be even greater dissatisfaction than before. So much doubt exists, notwithstanding the apparent knowledge of the terms by a sweeping paper, that the people want to learn from first-hand and reliable sources just what the terms really are.

In a matter so vitally important to the future of North Toronto as the extension of any further franchise to the Metropolitan Railway, the people most assuredly ought to have the full details before passing upon it," said Mr. Palmer, chairman of the school board, tonight, when the public company this private company any before I do the school who can consider the sound financial position of the town, and the fact that, when the city and town are one, the will be made to work together. This question of giving increased privileges to a private company is a dangerous business.

Mr. Palmer is a busy man, a prominent building contractor, and knows something whereof he speaks.

Standing room was at a premium at the Board of Park officers' concert on Friday night in the schoolhouse, and it was a delighted audience throughout. Chairman Palmer of the school board presided, and among the artists were conductor G. Lawrence, in two fine tenor selections, "Miserere" and "The Flight of Agnes." He was accompanied by his daughter, Miss Winifred Lawrence. Among others who contributed were Miss Grundy and Miss W. Boudreau, in selections from "Sylvia," and which evoked an encore. Miss Conlee, H. P. Bromley and E. Parks also assisted. The platform was beautifully decorated by the willing hands of the ladies of the district. A garden party will be the next feature.

George McDowell, a young man 25 years of age, and living with his parents on Broadway-avenue, has been missing for a day or so, and last night his body was discovered in a well on the premises. The young man was deaf and dumb, and mentally deficient, and little is known of how the accident occurred. The body was removed to R. M. Vreese's undertaking parlors, Yonge-street, from which place the funeral will take place on Tuesday afternoon to Mount Pleasant Cemetery. No inquest will be held.

Mr. Vetch and Mrs. Vetch, who reside alone in a house on Sherwood-avenue, were the victims of a murderous attack at a late hour Friday night, which might have been followed by fatal results. Mr. Vetch was called to the door by a loud knocking, and on opening it a vicious blow was aimed at him by a powerfully-built man, who carried in his hand a short piece of scimitar. The assailant miscalculated his distance, however, and the full force of the blow did not reach the intended victim, its force being broken by striking the door-post. Mr. Vetch, however, received an ugly wound over the forehead. The man then ran away in the darkness, but Mr. Vetch says he knows the guilty party.

RUN OVER BY WAGON.

BRAMPTON, May 4.—(Special).—Edward Groves, a driver for the Bell Telephone Co., was injured rather severely at Meadowvale this afternoon. Mr. Groves' team started and he made a jump to catch the team, but in some way slipped and the wagon, with a load of poles, ran over his hip. He was brought to Brampton and his injuries attended to by Dr. Higgins.

WHEAT SOARING AGAIN ON ADVERSE CROP NEWS

Expectations of Sensational Report on Wheat This Week and Crop Damage Advises From the West Inspired Another Bullish Demonstration.

CHICAGO, May 4.—Statements from experts that crops had deteriorated rapidly in Northwest Kansas led wheat traders to-day into a lively movement to buy. There was also fear that the government report next Tuesday would count against the bears. The market closed at a net advance of 1/8c to 1/4c. All other leading staples, too, advanced a gain—corn 3/8c to 1/2c, oats 1/4c to 3/8c, and provisions 3/8c to 1/2c.

The finish in wheat was almost at the top point of the best bugle of the week. May delivery sold for \$1.14 1/2, a new price this year. Most of the day's business, however, was in later options, which failed to equal former extreme prices. Offerings of wheat were scanty from the start. It was said that half the crop in the northwest part of Kansas had been destroyed by winds, which were drifting the dust like snow. What wheat remained would not, according to the reports, yield more than half the normal average per acre. The upturn in other grains tended to improve prices.

Purchasing for European account helped the provision market. A heavy order of the amount of grain. Trade as a whole, however, was not heavy. Pork showed the chief increase in cost—10c to 12 1/2c.

DORMANT SPECULATION IN THE MINING MARKETS

Porcupine List Maintains the Same Dull Attitude That Has Characterized Its Existence of Late—No Price Changes of Consequence Recorded.

World Office, Saturday Evening, May 4.—The mining market maintained the same appearance of dullness at the west-end that it had evidenced practically without interruption through the week. Speculation was even more inactive than usual, though that might be easily explained on account of the shorter season. Price changes were also without interest, running into decidedly small volume in every instance.

The public participation in the day-to-day dealings has fallen away considerably during the week, and pending the morning of a new line of trading there seems to be a musty likelihood of any material change in the price range. Liquidation is by no means burlesque, but on the other hand there is no great demand for stocks, and the market in consequence is not able to do anything more than hang along in an extremely quiet manner.

The greatest activity, if such it could be called, to-day occurred in the United States, Dome Extension, Crown Chartered and some of the cheaper issues. The first mentioned closed about a par with last night's closing. The other two, however, showed a fractional change in market values, accomplished by a fair amount of buying. The latter two continued to be in demand, and considerably above that established on the recent reaction.

There was little of interest in the Cobalts, and outside of about the usual small amount of trading, that consisted of the list was absolutely without feature.

Vein Series in Pearl Lake Belt.

Porcupine, May 4.—(From Our Man Up North.)—No one in the Pearl Lake district questions for a moment but that the series of veins being opened on the Jupiter at the east end of the lake, on the north bank, are those now opened on the McIntyre, as the latter are apparently the main veins in the trough of the great mineralized belt, an ore zone, as indicated on the McIntyre, open from 40 to 50 chains in length.
