Bolsheviki Prepare to Do Battle for Just Peace Terms.

STRENGTHEN RUSS LINES

German Socialists Declare Against Militarist Demands for Annexations.

London, Jan. 7.—The situation arising from the disagreement between the Teutonic allies and the Bolshevik leaders in Russia still remains clouded owing to lack of definite information concerning the trend the negotiations are taking, or whether they have entirely ceased. An unofficial despatch from Petrograd quotes M. Radek, one of the Bolshevik delegates who has been treating with the Austrians and Germans in Petrograd, as declaring that the Bolsheviki are definitely strengthening the fighting front, but that the Russians will accept no help from the entente allies if they are forced to fight again, as the Russians are fighting for an ideal and not for conquest. The Bolsheviki, like the German Working classes, added M. Radek, stand for a democratic peace, and if the German Government attacks the Russians "It was possible to be got right away, not only from the north, but from the east and west. Nor to be got right away, not only from the north, but from the east and west. Nor did we say, to quote The Telegram:

"Negotiations for the purchase of the electric and traction properties represented by the Toronto Railway group of interests are epened to The Toronto World's clamor to the effect that the city must secure these properties immediately or have its whole future blighted. The effect of The Toronto World's chatter is to persuade the Mackenzie leadership that its interests have the city by the throat."

We have always said that it was not absolutely necessary to admit anything of the kind; and if Toronto was bent-on fighting that interest it could fight it by build-self to its own people in its true. cerning the trend the negotiations self to its own people in its true

# WAR AIMS STATEMENT

British Statesmen and Newspapers Almost Unanimous in Approval of Premier's Speech.

London, Jan. 7 .- The utterances of the newspapers and of public men of all parties and shades of opinion show that the statement of the British war sims made by David Lloyd George, the premier, has drawn together to unexpected degree tht divergent threads. Supporters of a war to the finish on one hand, and out-and-out pacifists on the other, endorse the government's platform, while the opponents of the "knock-out blow" "no peace with the Hohenzollerns" battle cries also have come in-

The Morning Post, which has been the most consistent disbeliever in the possibility of any league of nations plan, gives a half-hearted protest, but stands almost alone in that position. The Northcliffe newspapers, The Times and The Daily Mail, which have pursued the same policy, endorse the premier's statement. The Marquis of Lansdowne, the Labor leaders and two hitherto have opposed pacifists who hitherto have opposed government, James Ramsay Macdonald and Philip Snowden, give quali-fied support to the premier's utter-

### HIGH CASUALTY TOTAL

Week's War Losses of British Virtually Double Those of Last Week.

London, Jan. 7.-British casualties reported during the week ending to-day totaled 18,998. The losses were divided as follows: Officers killed, or died of wounds 113; men, 3832.

For the virtual doubling of British casualties over the previous week when the total was 9951, the sharp fighting just before New Year's Day the vicinity of Welsh Ridge, or the Cambrai front south of Marcoing may have been largely responsible. It is possible also that belated reports on casualties in the l'alestine, Italian and other war theatres may have gone to swell the total considerably.

### Toronto's Local Transportation and The Chattergram.

The Toronto World the other day gave an invitation to the city papers and the ty leaders in municipal and public affairs to play their part and give the people ome leadership or advice in the matter of the street railway transportation problems onto, but we did not say exactly that it was by the Toronto Railway Co. The Toronto Telegram accepted the invitation, but, as usual, misrepresents what we

What we said, in substance, was that somebody, including the Toronto Railway, had a strangle hold on the citizens, and that they were paying two fares to get endured at times; that the service was inefficient and poor; that the number of cars was below what the railway board had ordered as necessary; and that these condiion would have to be endured for four years more; and if not interfered with before four years, at the end of four years it would have to be endured until the city took steps to improve the service and to consolidate the municipal and old franchise under one administration and one management and put on new equipment and all the things that go with complete public ownership!

Apparently The Telegram has not much to suggest on the subject. It prefers to abuse everyone in general and no one in particular—except it be The Toronto World. who succeeds Sir Cecil Spring-Rice as It says, for instance, that the Metropolitan franchise on Yonge street is not worth \$50,000. We did not say it was; but it is there and has to be dealt with. Nor did The World say the Metropolitan was necessary for Sir Adam Beck's hydro-radials;

ing the tubes and bringing the municipal lines of the suburbs to the centre of the city underground, and by making a service to compete with the Toronto Railway during the remainder of its franchise. But we have said that one of the things the States. Besides taking over the work city could do was to try and get the Toronto Railway at a fair price, and that it of the British embassy in Washingconference, and in a resolution has declared that a lasting peace is only possible if the democratic principle of self-determination is honestly carried out. The resolution added that the party is resolved resolutely to combat the misuse of the right of self-determination for the purpose of disguising annexations.

And we think the people would like to see some leadership in the matter and would like some advice from the dity papers and from Sir Adam Beck and from Sir William Hearst and from the dozen members the city has in the Ontario Legislature.

And somehow we think the people of Toronto take a good deal of advice from The Toronto World, and rather more from The World than from The Telegram; and especially has this been the case within the last few months; and had our advice septicially has this been the case within the last few months; and had our advice send taken some two or three years ago and the Toronto Rallway System bought out or a new system inaugurated, the city would have saved thousands and thousands of dollars a year to its people and have given them better service.

So notwithstanding The Telegram's talk about The World's "chatter," and The System with Sir Wilfrid Laurier and his racialism and other choice morsels of that nature, the people will get some better leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and would like to see some leadership in the matter and the will be reliaved of the Justice, and he will be reliaved of the Justice, and one of the Orionto Reading's werk will, according the war office announces. nature, the people will get some better leadership from The World. The day has passed when the public of Toronto are to be clubbed into abandoning all efforts at improving their own affairs by discussion and the publication of information and by genuine effort to mitigate bad conditions. In fact, one of The Telegram's nvariable resorts in dealing with a public question is to cry out "chatter" to an argument which it cannot answer. If anyone likes to turn back to The Telegram's editorial pages for some years now you will find this word "chatter" in nearly

. . . . . . . . In the meantime The World intends to continue this discussion and to ask the aldermen where they stand, and other city newspapers where they stand, and whether they believe that Toronto is under a strangle hold of some kind on it at this very moment. And a way must be found to get rid of it.

In the meantime The World sent out a reporter yesterday to ask the new controller, Mr. Samuel McBride, what he had to say in regard to the street railway situation, and as far as could be gathered from his short statement it is that he does not agree with The World, but he thinks that Toronto ought to remain under the stranglehold and that it should not do anything to relieve itself; and at the Artillery Activities Indicate expiry of the franchise four years hence it ought to do something. In other words, that the citizens should stand for everything: for the bad service they have had for the last six years and for the bad service they will receive during the next four years! Or in other words, that it is better to submit and do nothing than attempt to improve things, even if you have to fail. We are rather sorry to note that the net result of this is that Controller McBride will be a very docile follower of the local kaiser. And apparently that other Samuel, who heard our call, Alderman Sam Ryding, is anxious to be in the class that has no "chatter."

And yet somehow The World thinks that the people of Toronto are going to Big Battles Soon Due in get, in a very short time, public ownership of her street railways; a single fare service thruout the city with universal transfer; better equipment, more cars, more seats and lots of other things that the ordinary citizens and cities are entitled to; but the will get it by reason of leadership and by discussion, and perhaps even by "chatter," the perhaps not of that kind of "chatter" that ridiculed the entrance of the United States into the war as the ally of Britain and her associates, or trying its best to block Union government in this country before the late election, and that helps to leave the Bloor street viaduct—a half a mile of steel and concrete, finished at a cost of \$2,000,000-hung up idle in the air and no use being made of it because Mayor Church and Mr. Rolly Harris had received orders that there was no hurry and not to "chatter" too much. What Rolly does, Tommy can't. In other words, the same policy of paying and suffering and standing all the inconvenience in connection with the street railway is the only thing the people of Toronto deserve! And that to wait four years more for better street railway service and months more for the use of the Bloor street viaduct is the only thing that is coming to them because they refused to be buil-dozed by a city newspaper into following its commands!

### The German Revolt

All questions are finally moral questions. This fact has not been los sight of in the war. Great Britain would never have been in the war but for the moral compulsion that forced the issue. Premier Lloyd George's last speech makes the same appeal.

The Germans, however, have never recognized the moral side of the problems of war. Their rulers do not understand morality. They have eliminated the moral faculty from their consciousness. That is why they must be eliminated themselves from civilized society. They had convinced the German people, however, that they had a substitute for morality, just as good. Until the rest of the world has been persuaded to accept the substitute, it will not effect its object.

The turning point of the war is not in any military action nor in any great victory. It must be a moral pivot. The 25,000 Germans who revolted on the Russian front have grasped the idea. They have recognized the true character of the German leaders. The truth is not in them. They made a bargain with the Russian Bolsheviki, who agreed to the terms in all good faith. The German soldiers were aware of the terms. They discovered in their violation the characteristic perfidy of the German high command. They know now why no civilized nation will trust the German

The military policy of the allies has always been the encouragement of the enemy to waste his forces by attacking them. The British army excels in fighting defensive battles. It is immensely stronger in men and material than it was in the autumn of 1914 or the spring of 1915, when the enemy tried to break thru to the chantel ports. Only the utmost necessity would compel the enemy to undertake an attack against such a formidable opponent. The German program alse suits the allies because it eases the pressure from Rumania and the Balkans. The promise of France to protect

the pressure from Rumania and the Balkans. The promise of France to protect Rumania conveys a suggestion of co-operation in the Balkans. General Sarrail has gone and the Greek army is fully mobilized and well trained, so that the allies probably have sufficient forces to guarantee them success against Bulgaria. The municipal elections in West Gwillimbury esterday were very keenly contested, great interest centring, around the reeveshin, where Horace D. Ramsden was opposed by John Smith, a former reeve of the municipality. The vote was one of the largest polled in some years, Ramsden being re-elected by a large majority. J. H. Proctor was re-elected for first deputy, and the council will consist of C. Richardson, J. A. Cole, and C. H. Halnes. While a strong fight will be put up in the county council, the impression is that Mr. Ramsden will this year make a strong bid for the wardenship.

### GALT ELECTIONS.

Special to The Toronto World.

Galt, Jan. 7.—Dr. William S. Dakin was today elected mayor of Galt by a majority of 187 over Ald. Alfred Taylor. The election was one of the quietest in recent years, and only a small vote was polled. The mayor-elect, while not a member of council for the past couple of years, has served as alderman, and was for two and a half years a member of the hydrocommission. The defeated candidate was a member of council for the past four years. H. O. Hawke, for the second successive time, was defeated at ALMONTE.—Mayor—W. H. Scott. four years. H. O. Hawke, for the second successive time, was defeated at the polls today for hydro commissioner, G. Hancock, jr., being elected in a keen contest by a majority of 52.

A feature of the voting was the unanimity of the electors in the endorsation of the bylaw to form a public utilities rommission by uniting the

ilc utilities commission by uniting the waterworks and hydro-electric commissions, which carried by a majority of 760. The only other bylaw voted on, that to raise \$18,500 for extensions to the waterworks system, was also carried by a majority of 185.

### AT KINGSTON.

Kingston, Jan. 7.—There was only contest in one ward today, that of rontenac Ward, and aldermen elected were ex-Ald. Wm. H. Peters, Ald. J. Wriley Smith and Ald. S. S. Corbett. Peters, defeated in the contest a year ago, headed the poll, with Corbett second and Smith last. Wm. Holder, er. Ward Three—E. T. Tyrar R. W. ago, neaded the second and Smith last. Wm. Finley (accla.) held in the city.

Ward Six—Alex Clark, W. J. Gracey.

### BRANTFORD CONTEST.

Special to The Tcronto World. Brantford, Jan. 7.—By a plurality of 1093 in a fourcornered fight, Ald. M. MacBride, recently dent Labor party nomineo in the federal arena, won out in the mayoralty contest here today. The victory was the most clean-cut ever staged here with so many candidates entered, parso because of the standing of the others, Mayor Bowlby, who has completed two terms; Ald. J. S. Dowling, chairman of finance for Grand Trunk crosses on the level, was carried by a vote of 1279 to 984, and a referendum calling for a civic fuel and food depot if an emergency arises, was carried by 2681 to 904. This bylaw largely helped MacBride to win, as he had been a consistent advocate and fighter for a civic coal

For water commissioner John Fair, present chairman, defeated Peter Noble 2467 to 1205, and for street railway commissioner F. J. C. Calbeck won out from two others who contested his present position.

For the board of education Miss Colter, for many years principal of the Victoria School, headed the poll with 1826, her running mate Mrs. P P. Ballachev, widow of Major Dr. P. P. Ballachey, for many years a memer of the board, who was killed in The aldermanic vote was as fol

## WRECK ON BRIDGE TIES UP TRAFFIC

Broken Journal on Special Wabash Freight Derails Care Near Chatham.

Special to The Toronto World.

Chatham, Jan. 7.—Traaffic on the G.
T. R. In this district was tied up this afternoon for several hours as a result of a wreck which occurred at twelve-thirty this afternoon, when a broken journal on a special Wabash freight derailed a portion of the train, utterly demolishing three or four cars and badly damaging several other cars of merchandise. The train was proceeding east across a bridge when the accident happened, and the damaged cars were totally destroyed by being smashed against the steel girders of the bridge. Two of the cars were turned up on and on the bridge, while severth others were smashed to matchwood, on the banks of the creek.

The cars destroyed were filled with cans of corn syrup, which poured thruthe bridge into the creek below. Both the east and west bound tracks will be blocked until later this evening owing to the fact that a special derrick and wracking crew will have to be brought from Hamilton to clear the lines. The tracks were torn up for some distance by the derailed cars, which were only prevented from dropping into the deep ravine below by the strong girders of the bridge. The engine and several of the cars had passed over the bridge before the car with the broken journal precipitated the remainder of the track.

The passengers from the westbound train, due in this city at 1.33 p.m., were The passengers from the westbound train, due in this city at 1.33 p.m., were taken to the depot in taxies, where the eastbound train, which leaves here at 2 o'clock, was held and subsequently sent back to Windsor.

### Lloyd George's Three Principles.

Such general approval as the press of the world outside Kaiserdom has accorded to Premier Lloyd George's speech has only been met before by some of the greatest utterances since the war began. President Wilson's great deliverances since the United States entered the conflict have had the same stamp of approval. There is a growing unanimity as to the

had the same stamp of approval. There is a growing unanimity as to the aims of the war, and it would be well to consider what Mr. Lloyd George has to say with this in view.

Three points are set forth as of cardinal importance. In the first place the sanctity of treattes must be re-established. In other words the wations must learn to speak the truth to each other. There has grown up in Germany a theory that lying is a fine art and one to be cultivated to one's own advantage. It is the most deadly teaching that any nation or individual can adopt. It is to the eternal shame of Germany that she has allowed her rulers to attempt to overthrow the bulwarks of truth which the world generally had set up. Truth is a spiritual principle and Germany sold her soul to the devil of materialism, which is negation and falsehood. No one who realizes the absoluteness of law will dare to venture to palter with the truth. The reaction is certain. It separates the liar from the mass. It becomes a festering corruption within himself. It is the which in very fact has overthrown Germany. She stands alone among the nations. Her own allies only serve her by compulsion. The fester of revolution is gathering in the national organism. All this is involved in the restoration of the sanctity of treaties. The nation must reach the sanctity of truth if it is to be trusted to be a party to a treaty.

There must be territorial settlements based on the consent of the soverned. The fact is that our railway situation and comparatively efficient transportation. No we he fact is that our railway situation and comparatively efficient transportation. When the fact is that our railway situation and comparatively efficient transportation. When the fact is that our railway situation and comparatively efficient transportation.

There must be territorial settlements based on the consent of the

There must be territorial settlements based on the consent of the governed. This is the second great principle. It means that a large part of the earth must go in the melting pot. War has always been caused by the lust of conquest or the revolt of the conquered. When all men are left free to follow their own will, provided that will does not lead to like a second reverse the conquest of the provided that will does not lead to like a second reverse when the condition in which perfection may be expected are attained that perfection will immediately follow. It is not so in practice. The unconsidered factor was the complaints were sets all calculations, and in this imperfect earth we must for a long time to come provide the compensation balances, the emergency remedees which our Jack-is-the-box human nature constantly makes necessary.

But we must have freedom. The poople of tribes, nations, kindreds and tongues, who what to dwell together under their own laws and crime must see that the weaker folk are given their chance. Whater hand the must see that the weaker folk are given their chance. Whater chance when the condition of the work of the search one of the search one of the search one whose are tribed for the search of the search one whose authority with power to assure the observance of treaties, and diminist the probability of war. This implies an international arrangement of the condition of the work of the search one known will be an authority with power to assure the observance of treaties, and diminist the probability of war. This implies an international arrangement to the search one known will be international organization to limit the burden of armaments and diminist the probability of war. This implies an international arrangement to the condition of the work of the work of

Whatever be the immediate outcome of the war situation citizens must prepare themselves for a period of careful management until the war is over and for some time afterwards. The food situation alone is a menace of grave social significance. The fuel situation is equally alarming, and nothing but the most careful economy in both these departments will pull us thru the crisis. The financial situation is the third material situation which must be considered, and it rests on the citizens themselves whether they can maintain the comparative prosperity which has been enjoyed for some time past by such retrenchment in personal outlays and such expenditure on well-advised national undertakings as will contribute to our credit as a nation and our commercial activity as a people.

The city administration is already beginning to talk about the tax rate. There will probably be no unreasoning desire to reduce the tax-rate God's word does not contain any such contradictory rubbish as that advanced beyond what is necessary to do what is required. There never was more loose cash in Toronto than for two years past. When people have money they are wise to pay for what is wanted. In the matter of the taxes this should not be forgotton. It would be much better to pay 30 mills on the dollar when we can afford it for necessary expenditures, than to starve the administration and be compelled to do later at greater expense what we should then not so well be able to afford. This has been our experience in the past. We kept down the tax-rate beyond what we should, and now we are paying 25 1/2 mills.

Ald, Honeyford has a motion dealing with exemptions which will probably open up a question which everybody has been afraid to touch. There is no doubt that the principle has been used in a way detrimentar to the interests of all the municipalities which suffer from it. In the long run the abolition of exemptions would be no hardship to the bodies which

now enjoy the privilege. It is the people finally who pay.

When the people thoroly understand this they will be glad to turn over the sum gained from the reduction of their taxes to those bodies they desire to support which have been assessed at their proper value. If in conjunction with the cessation of exemptions the land tax was also adopted there would be less complaint. Buildings would be exempted, but the land on which they stand should be assessed at its true and proper value.

The Journal, however, attempts to point out that conditions are not the same in the United States and Canada. In the Wilson has merely followed British precedent.

The Journal, however, attempts to point out that conditions are not the same in the United States and Canada. In the United States we are told, there are a great many small reads with state charters, but there is no transcontinental rallway. In the United States there is no government ownership, while in Canno government ownership was a designated for auvernment was patently designed for auvernment to know if his lordship's deliverance to know if his lordship's delivera

The Globe, The Recorder and other papers may answer that it is quite customary for the daily press to run reading notices for the raliways in exchange for transportation. But these "readers" all relate to the service of the road, changes of time and other more or less important information. True, they often extol the superior service rendered by the road making the announcement; but the subscriber is never for a moment deluded into believing that he is not reading an advertisement. A different question presents itself when papers like The Toronto Globe and The Brockville Recorder publish at great length the views of a railway magnate on a question of government policy. To publish these views without comment is to commend them to its readers. That is certainly true if such publications be gratuitous. Is the situation greatly improved by the plea that the publication was paid for?

the learned divine.

The gullibility of some of these ministers is amazing, and the varied battle area. tenets they are able to assimilate is indeed astounding.

Paul, the Apostle, admonished that we "prove all things," but where can born the particle of proof that dead men are alive, and can see, hear and actually participate in the events of the war after they have been "killed," as the account states? Certainly not in the Bible, for the local and New Tests went are both account that me and account that me alive, and the states are both account to the states.

In the field there is little of interest to report. Our patrols have been unusually active against the alert enemy, who had been sweeping and New Tests went are both account that me alive, and the states are both account that me alive, and the states are been unusually active against the alert enemy, who had been sweeping not account that me alive, and the states are been unusually active against the alert enemy. have been "killed," as the account states: Certainly not in the basic, tot old and New Testaments are both agreed that man can die, does die, and cannot live again apart from resurrection of the dead.

Old and New Testaments are both agreed that man can die, does die, and cannot live again apart from resurrection of the dead.

Were I not so seriously deaf, I would gladly challenge Dr. Robertson to open debate. I am, however, quite willing to meet him thru the columns his argument be from a scientific viewpoint or a Biblical one, and that 4s, Biblical or other quotations that are open to more than one legitimate inters.

Something of the splendid nature of the work being done by the C.A. S.C. can be gathered from the fact that proof must be absolute, not in any way obtained by inference, or from Biblical or other quotations that are open to more than one legitimate inters. Biblical or other quotations that are open to more than one legitimate interpretation. I trust you will publish this, so that such a subject of interest and importance in these times, may be fairly faced, and not bolstered up by the "cloth" that a man wears on the deek that I am sorrer to say too often the "cloth" that a man wears, or the desk that, I am sorry to say, too often deserves the name of "Cowards' Castle."

A friend and myself were discussing the doctors words, and we presumed they would apply equally to Saxon or Teuton. We thought of the possibility of Dr. Robertson going to the front (as so many brave ministers already have done, all nonor to them), and handling a gun. He shoots a German, and says: "I have killed him, but he is not dead." Quick as a flash the prompt retort comes: "What did you kill him for, then?" Lindsay, Ont., Jan. 7.—Skip Alex. Keith of Toronto Lakeviews and his rink visited Lindsay this afternoon, and succeeded in carrying off the Carew Chalelage Cup. It was one of the prettiest games of the season, the visitors catching Lindsay napping from lack of practice, but at that it took sixteen ends and an extra to do the trick, At the ninth end Skip Keith was six up on Lindsay, and it was in the closing ends that the best curling was witnessed. Larry O'Connor scored on the fourteenth, fifteenth and sixteenth ends, and had a chance of scoring in the extraend, until Vice-Skip Williams punched in a Lakeview rock to the inner circle. Kitchener, Jan, 6.—The loss of Klachn, one of Kitchener's star senior hockeyists, who has joined the soldier team in London, will be keenly felt here. Klachn is a strong man. He was drafted under the M.S.A., and was one of the first to report in London from Kitchener. In recognition of the fact that Klachn had answered the call to the colors, the local senior club canceled Klachn's certificate, in order to enable him to sign up with the soldier aggregation.

The soldiers will take on the seniors in a league game here on Wednesday night, and considerable gossip is passing among the fans as to how Klachn will show up against his home lineup.

The seniors are working out hard in preparation for the game in Sarnia at the end of the week. The local aggregation realize that they have a difficult proposition on hand, but the fans are behind them backing them up with assurances of victory. It is expected the local boys will be in Al shape for the game.

## LAMBTON GOLF CLUB WAS SUCCESSFUL

As Shown by Report at Annual Meeting, When Officers Were Elected.

At the annual meeting of the Lambton Golf Club, the report for the year just ended showed a very satisfactory financial condition, as, in spite of the heavy advance in operating costs, the club finished the year with a small gain to its credit. In view of the strenuous times thru which we are passing, and which, of course, have a marked effect on club activities, this is certainly a very good showing, and elicited most favorable comment from the members at the annual meeting, just held. During the year there was also a nominal increase in the membership, tho, having regard to the large number of members who are serving at the front, the number actually using the club showed a marked decrease from normal. The following officers and committees were elected for the year 1918:

President—C. H. Willson.
Vice-president—W. A. Kemp.
Greens committee—C. L. Wisner (chairman), H. H. Williams, J. A. Fraser.
House committee—R. J. Dilworth (chairman), Geo, M. Clarke, T. A. Brown.
Executive committee—W. A. Kemp (chairman), C. L. Wisner, R. J. Dilworth.

"I know how you can stop drinking," it he lean leader confided. "I got a sure system."

"Spring it," responded Rube.

"It like this," Connie continued: "A friend of mine told me a fellow can uit drinking if he will eat an apple whenever the desire for whiskey grows pressing."

"Waddell considered. The scheme looked good. He had had enough to drink in the past week, so that he didn't exactivy long for more just then. He agreed with Mack that if, was a fine scheme.

Rube departed, but an hour later rushed back into the Athletics office. He was all excited and out of breath.

"Say, Connie." he shouted, "that was a fine scheme to work at home, but who can carry a barrel of apples with him on the road?"

There was no answer.

An Obscure little news item out of St.

An obscure little news item out of St. Louis yesterday announced that Chief Wilson, former Pirate, had been released by the Cardinals to the Houston club. The passing from the big show of a famous slugger and truly great outfielder was almost as quiet and unpretentious es the tall Texan himself, but the sunkissed passengers of Barney Dreyfus' "two-bit" bieachers will never forget the savage drives that came their way while Chief was in the heyday of his baseball prowess. Wilson was too methodical, too mechanical, for his own good, but he was a perilous man for any pitcher to tamper with.

Another thing, don't you feel that, you are still almost strangers? Wait until you know the young man better and then see how you feel about it.

Men hate to realize they are being coaxed or driven to proposing, you know. As a rule, they like to feel that it is a surprise to a girl when they ask the wonderful question.

So be patient—wait a while and then see how you feel and if the young man's interest has not subsided he will ask the question when he feels he can afford to do so. If he should cease to care it would be best to find it out before the ceremony is performed, wouldn't it?

I want to get a number of ladies to help me in doing in a short time hundreds of pairs of socks, wristlets, sweaters, scarfs, etc.; in fact, anything that can be done to help our soldiers. I saw in a paper the other day that several societies are asking for socks. Now, I am an expert at knitting and crocheting, and have made numerous pairs of socks and sweaters, etc. I will give two evenings or more a week to teach anyone or work with anyone, to get out some hundreds of articles in six weeks' time. My daughter and I are very quick workers. If I could get the names of some ladies, I will ask societies for wool. Will you help me? We cannot find a reason for it—yet; but perhaps some day we may see clearer, and know. Remember, tho, our name has changed, our heart hasn't. We shall always listen gladly.

DEAR ROSALIND: DEAR ROSALIND:

I am a girl 17 years old. I am the oldest daughter in the family. My dad and mother always scold at me and are never satisfied with anything I ever do. I have been tempted to leave home, for fussing is, of all things, what I can't stand. For instance, they, in fact, everybody, say I talk too much, but I can't help it, for I've tried.

for I've tried.

The boys all seem to like me, and every fellow I like they forbid me to go with. Why do they act so funny?

The boys I like are all nice, and are from 17 to 23 years old. They want me to go with one only, and until I'm engaged I will not do it.

Is it proper for a girl to give her best boy friend a kodak picture?

Is it right for a girl to go to a dance with a young man in a car alone?

BLACK-EYED JACK.

BLACK-EYED JACK.

BLACK-EYED JACK: Yes, you can help yourself, dear; once you learn that you must help yourself it will be easy. You just think you cannot stop talking so much. And when you talk you may say things you really don't mean, and that is why your parents seem to scold you. When you prove that you are worthy of their trust they will not "fuss" at you so much. A girl of 17 is too young to be out among the boys so much, and it isn't wise for her to go to many dances. If she does go, her mother or some older member of the family should accompany her, and she should return at an early hour.

But the primary cause of chorea is probably a species of germ, a strain of streptococcus, which gains entrance to the system via the tonsils or throat and happens to have an affinity for nerve tissue, thus lodging in he spinal cord or some of its structures. Dear Madame,—I enclose herewith a cheque for twenty-five dollars (\$25), which amount is given for the blind soldiers in France from the Mayflower Chapter, I.O.D.E. Our contribution is a very small drop in the bucket. We are glad to give it to the Franco-British, which we know is doing such noble work for the blinded heroes, and we hope for your success always. your success always.

### Are You Fat? Just Try This

Thousands of overfat people have become slim by following the advice of doctors who recommend Manmola Prescription tablets, those harmless little far reducers that simplify the dose of the famous Marmola Prescription.

If too fat, don't wait for the doctor's advice. Go now to your druggist or write to the Marmola Co.. 864 Woodward Ave., Detroit, Mich., and for 75c procure a large case of these tablets.

They reduce two, three or four pounds a week without exercise, dieting or any unpleasant effect whatever. If too fat, try this today.

# Now, when a little one develops chorea, there is usually irritability, peevishness and unusual nervousness, and gradually a noticeable twitching and jerking, with emotional disturbance, crying over trifles. Here, it would seem, is a state of affairs which ought to inspire tender solicitude on the part of parents, at least. On the contrary, it too often seems to inspire the opposite feeling. All over the land are parents right now inflicting cruel and harnaful treatment on little victims of St. Vitus' dance. Not wilfully, but carelessly. For some reason this particular disease inspires in any but intelligent or educated parents a desire to experiment upon the alling child with anything and everything the neighborhood pleases to recommend. Worse than that, some parents are so lost to all sense of responsibility that they write off to some rascally cnarlatan who purports to have a Polly and Her Pals

vomen" was the subject of a very interesting address by A. H. Leake, provincial inspector of manual training and household science. The speaker held that because of its great importance the problem required serious consideration. It was a traditional feeling, he said, that women ought not to be in the industries, but he quoted

for both home making and industry. "Today the woman is the spender of the world's money," he said. "She buys 95 per cent. of the world's goods."

The following extract from a letter from the firing line shows one reason for the great need of sox:

Formerly Self-Contained.
Formerly the home was self-contained, but now times and ways have changed, so that instead of producing, were capable physically and intelligently of doing work that previously was thought impossible. The importance of learning practical things such as mending and cooking at school was emphasized and in Mr. Leake's opinion cooking in "microscopic quantities" was useless.

which rubs sores in all like time. The men would rather keep on wetting their feet than letting the sox dry on them. Another pair cach would enable me to keep one pair per man in the wash and two pairs with him, thus giving him a change every day, which is not too much under the circumstances. The importance of learning practical things such as mending and cooking at school was emphasized and in Mr. Leake's opinion cooking in "microscopic quantities" was useless.

In regard to the rearing of children he said. "If there's one thing needed in this country it is good plain talk on the rearing of children," and he quoted figures to show that scores of girls in the United States are married at its years of age, and thousands at 16 and they knew nothing of the responsibilities of home making. "A soldier in the trenches has seven times a better chance of living that a new-born baby in the United States," he said.

He spoke of factory conditions and unskilled labor which could be eliminated to a great extent by more strict truncy laws and by the raising of the good and the plain and the age limit at which a girl may leave we had, were as follows: Invalid labors. Plans Made to Have Classes for Soldiers' Families.

**AUXILIARY ACTIVE** 

The bazaar now in progress at Oddfellows' Hall, Bathurst street, under the auspices of Company C, Great War Veterans, was formally opened last night by Alderman McBrien. The ceremony was to have been on Saturday, but circumstances prevented this until last night.

In preparation for the event the women's auxiliary of the company and Sergt.-Major Gustar had spent some busy hours arranging the various booths which comprise, among other a tractions, a general store, toys, toilet goods, fancy goods, candies, soft drinks, a totacco store and a prettily decorated tea-room. The bazaar will continue during the week and the platronage of the many friends of the soldier is hoped for by the com-mittee, who are working hard to make the affair a success.

The proceeds are in the interest of a club house, which it is the expec-tation of the war veterans of the district to obtain for the west end.
The district is one of five into which
the city is divided, all working in A. H. Leake and J. J. Kelso Carlton with the main club on Carlton street. It is hoped eventually to be able to erect a club house wi.h recreation rooms, shower baths and swimming tank, reading-room and other equipment. Meantime, if a house can be rented for immediate service, the veterans will be pleased. Meantime, if a

MANY SOLDIERS COMING,

Military Authorities at Atlantic Port Fail to Forward Names to Officials in Toronto.

Toronto citizens will have an opportunity this morning of welcoming home a party of 287 returned soldiers one of the largest contingents of warveterans received since the war started. The party is due to reach North North Toronto station about 8.30 o'clock via C.P.R., but not before that time. These returned men were landthat the contingent to arrive this morning contains a large number of

No list of the names of the returned men was available last night, the explanation being that the arrangements for returned soldiers have been transferred from the Military Hospital Commission to the military authorities and the military authori ties at the coast point failed to make provisions for the forwarding of the names. The Toronto military authorities state the names should have been ties state the names should have been sent one day ahead of the soldiers' arrival. The lack of the names and other particulars, they point out, will handleap them in making plans for the soldiers' reception.

## **CORN HOLDS FIRM OWING TO STORM**

Arrivals of Grain Small at Chicago, Because of Train Blockade.

Chicago, Jan. 7 .- Storm conditions affecting the railroads tended today to uphold the corn market. Prices closed steady, at the same as Saturday's finish to %c off, with January \$1.27% and May \$1.25%. Oats gained %c to %c, and provisions 15c to 42c.

Corn prices hardened a little at times as a result of the fact that owing to train blockades, the arrivals of corn here showed a much smaller total than had been looked for. It was the general bebeen looked for. It was the general be-lief, however, that a material quicken-ing of the crop movment would not be long delayed, and there were numerous reports that empty cars were being furnished freely to rural shippers. A further handicap to bulls was the know-leage that to comply with the views of the food administration, the board of tade directors had refused to disturb the trade directors had refused to disturb the present maximum price limit on future deliveries. Under such circumstances any decided show of strength was out of the question, but on the other hand, the market proved stubborn against the least important decline. Curtailment of receipts helped to lift the oats market. Besides, a falling off in seaboard stocks counted against the bears.

Provisions advanced because the sup-ply of hogs was much less numerous than had been expected.

MONTREAL PRODUCE MARKET

Forty Years Since So Much Snow Has Been Seen in One Place.

Everywhere yesterday the fairy touch of winter had transformed the world into a place of whiteness. The trees, massed with snow against the background of the buildings or the grey sky, stood fouth in beauty. The tower of the city hall was for the time being a structure of white marble. An old resident paused before the city hall steps and, looking around with curious eyes, sald to a bystander: "Wonderful scene, this, for Toronto. It is forty years since I have seen so much show here. This surely is a winter of surprises for us all."

Lambs—Choice at \$18 to \$13.75.
Sheep—Choice at \$12.50 to \$14.
Calves—Choice veal at \$15 to \$16; medium at \$12.50 to \$14.

Hogs—Fed and watered at \$18.50.

Dunn & Levack
Dunp & Levack sold 20 cars of stock With a moderately light run of cattle for a Monday, about 2500 head in all, with a good strong demand, yesterday's trading may briefiy be characterized as steady to strong with last week's best prices. While better prices were undoubtedly realized for some of the extra choice butcher steers and heifers than shown in last week's sale, this was undoubtedly due to the better quality of the offerings. Choice butcher cattle sold at from \$11.50 to \$11.75, and up to \$12 per cwt., while even these prices were topped by a few odd sales at \$12.50, and from that down to \$12.30.

These figures, it must be understood, were for extra quality and could not be regarded as representative sales. But the market was steady to strong thruout.

Stockers and feeders were in strong demand and light supply with not nearly enough to go round. One local commission man with orders booked ahead for more than 300 head was unable to pick up anything yesterday. More stockers and feeders would command ready sale at the market.

There was an active enquiry for carners and cutters at steady prices with last week.

Milkers and springers.—There was not very much do.ng in the minkers and

week's quotations.

Hogs.—The bulk of the hogs sold yesterday at 18½c fed and watered, but reports were current on the exchange that packers' prices for today would be a good deal easier. The market feeling for hogs was weak, and the trade generally unsettled.

Total Receipts.

Receipts today 141 loads, with 2510 cattle, 138 calves, 1270 hogs, and 954 sheep and lambs.

Market Notes. Market Notes.

A feature of the market yesterday was the sale of one steer, weighing 1500 lbs.. by the Corbett, Hall & Coughlin Co. to the Swift Canadian Co. at \$12.50 per cwt. The firm sold one heifer, 1580 lbs.. also at \$12.56, and 2 other cattle, weighing 1200 lbs. each, at \$12.50.

J. B. Shields & Sons were another firm that touched the \$12 mark for one or two odd lots, and there were others as the representative sales published in The World will show. # IS REACTIONARY

TUESDAY MORNING JANUARY 8 1918

Hargraves is Firmer.

The reaction in the local mining market, which began in the Saturday session, was carried further yesterday, but the declines were kept well within bounds by the steady support given, Newray, it which the trading was brisk, receded point, to 44, and McIntyre also lost against 9.50 on Saturday. Schumache was weaker, at 38, the recent reports of valuable finds having failed to be morthan a temporary stimulus. Teck-Hughe was better, at 38, and West Dome at 144, while Wasapika held its gains, at 27½. In the Cobalist, there was a better demand for Hargraves, the stock selling us again to 11½. Adanac was firmer, a 12½. The inactivity in Mining Corporation and McKinley continues, despit highly favorable analytical reports dealing with their present condition and proporation was offered at 3.70, and McKinley at 58½. Niplssing, in which their has been fair activity of late, was no traded in yesterday, but was on offer a 8,40, with 8.20 bid.

the present time.

The new equipment consists of two of horse power boilers, a six-drill compressor plant with drills, etc., and an 8 x 10 Rand hoist. The buildings to house the new plant have been constructed and all preparations made for the immediate installation of the new machinery. When this has been done, the development of the property will be pushed with much greater speed than can be attained with the present equipment. Work on the sinking of the shaft on No, one vein is continuing with very satisfactory results, according to Manager Rogers. The showings at

cars, containing 655,000 pounds, was the heaviest shipper. The McKinley-Darragh, Coniagas, and Buffelo each shipped four cars. The following is a summary: Dominion Reduction, 655,000; McKinley-Darragh, Canada and Say, 204; Coniagas, 330,295; Buffalo, 229,358; Nipissing, 175,077; La Rose, 167, 317; Kerr Lake, 120,396; Aladdin, 87,000; National, 67,179; Penn-Canadian, 65,761; Treihewey, 41,521. Total, 2,377,708 pounds. The shipments compare with previous months of the year as follows:

Power opened at 31% and sold off to 31% against 32 Saturday.

Laurentide was the most active feature of the market, 255 shares changing hands at 162, unchanged. Steel of Canada scored an advance of half a point, to 51%. Steamships was fractionally firmer. Dominion Iron was 53%.

Brazilian led in volume of transactions, the price holding around 82%. Cement weakened to 56%. Dominion Steel was unchanged, and Emelters and Maple Leaf firm.
Steamships common was not traded ir, but the bid fell to 39%, while the

Creek has been closed down, due to the difficulty to secure water. Underground operations were also suspended during the Christmas and New Year's holidays. About Saturday the underground work will be resumed, but milling operations will perhaps be suspended until early spring. Water from an abandoned shaft was depended upon to supply the needs in the mill. The supply gave out, thus forcing curtailment of production.

C.P.R. EARNINGS FOR YEAR.

**NEW YORK STOCKS MOVE SLUGGISHLY** 

General Rally by Industrials in Final Hour of Trading.

New York, Jan. 7 .- The sluggish course of today's stock market doubtless re-sulted mainly from adverse weather conditions, which materially reduced business with important western and south-

mess with important western and southwestern centres.

Happenings, over the week-end received favorable interpretation in the main, especially the war aims of Great Britain as defined by Lloyd George, Advices regarding the Russian situation offered fresh encouragement.

The order of the interstate commerce commission requesting railroads to file estimates of their financial requirements was in accord with pending legislation by congress, but railway shares were often reactionary, when not heavy.

Additional statements of railroad earnings proved disappointing and reports from leading terminals disclosed less than normal movement of traffic for such important commodities as grains, live stock and lumber.

Industrials moved within narrow limits until the final hour, when fairly large buying of steels, coppers and shippings effected a general raily. United States Steel rose almost three points from its maximum at 94%.

Special stocks, notably those owing their activity to pools, were irregular, but ended with railles, including Pullman, which had registered an extreme loss of over six points. Sales amounted to \$20,000 shares.

Sound investment conditions were denoted by the speedy absorption of \$40,000 American Telephone bonds. The only feature of the irregular bond market was the further decline in Liberty four's from 96.80 to the new minimum of 94.52, the 3½ seeling at 98.64 to 94.72.

Total sales of bonds, par value, \$4,235,000.

**DECREASE IN EARNINGS** OF CANADIAN NORTHERN mary steps to curtail the use of sugar

The Canadian Northern's earnings for the last ten days of December were \$865,100, a decrease of \$4100, were \$855,100, a decrease of \$4100, which is a disappointing showing in view of the substantial increase recorded for the same period by the C.P.R. and G.T.R.

C.N.R. earnings from July 1, 1917, to the end of the year, half the fiscal year of the company, total \$21,856,800, an increase of \$225,800.

In dry goods the woolen mills have accepted so many government orders that the trade expects difficulty in the filling and delivery of requirements. Many lines of linens, laces and cottons are scarce, and some are out of the market.

TRADE OUTLOOK IN U. S.

General trade in the United States continues very active, and prosperity is running at high tide in the west and orders for spring trade are being re-

**BULLISH ON MARKET** 

Full appreciation of the beneficial effects of the United States Government's action affecting railroad securities has not yet been realized, and we ties has not yet been realized, and we believe these securities to be selling still below real value under the new conditions of stability thrown around them. Considerable optimism is developing in industrial stocks. The purchases by railroads for needed improvements will stimulate manufactures in a widely extending radius, adding to activity in those industries not immediately connected with war work.—J. S. Bache & Co.

LLOYD GEORGE'S SPEECH **CHEERS LONDON 'CHANGE** 

London, Jan. 7.—The stock market developed a firm undertone today. Premier Lloyd George's speech was well received, and its results, it is believed, will be seen in the near future. Home funds and allied bonds were firm under the lead of consols, mining shares were stronger and diamonds were the leading features. Rubber, oil and shipping stocks were steadily supported. Money was in good supply, and discount rates were quiet.

**Output of Precious Metals** Decreases in United States

Washington, Jan. 7 .- Mint Director Washington, Jan. 7.—Mint Director Baker announces that for the calendar year 1917 production of gold was 4,-085,589 fine ounces, valued at \$84,456,600, and 74,244,500 fine ounces of silver. Compared with 1916 these figures indicate a reduction in gold output of 8,133,700 and in silver output of 170,-302 fine ounces.
