TORE GREAT HOLE IN ROOF
Storm Did Much Damage Around Brockville.

BROCKVILLE, April 8.—(Special.)—The aftermath of the great windstorm shows that the damage inflicted to property throughout this section will amount to several thousands of dollars. The pupils of a public school at Glen Buel were being dismissed when the roof was scattered in all directions, leaving a hole in the roof 12 by 23 feet.

At the Brockville Hospital for the insane the chimney on one cottage was blown down, the bricks falling on the roof, shattering the slate covering and snapping the rafters, covering the apartments of the cottage with debris.

Along the river havoc was made of boat-houses and small craft contained therein. The water raised over three feet and reached within ten inches of the record high mark of last summer.

A coal shoveler named Brobeau was seriously hurt at the Shields sheds today. He missed his footing in the

tramway and went headlong to the ground. His jawbone was terribly fractured.

JACK NEVILLE ARRESTED FOR SHOOTING CONSTABLE

Police Allege He Was Burglar Who Shot Smith, But Friends Claim an Alibi.

HAMILTON, April 8.—(Special.)—The police sprang a surprise this evening and arrested Jack Neville, 17 Harriet-street, on the charge of shooting Constable Harry Smith. The shooting took place on March 4, at the home of W. Kapelle, Northar and Ray-streets. The house was unoccupied at the time and the constable hearing a noise in the cellar, after surrounding the house with neighbors, went into the alleyway in the rear and found a man crouching in the shadows of the wall. In answer to the constable's shouts, two of which struck the constable and the burglar fired several shots, a good look at the man and it appeared as tho the authorities were up against a difficult case.

This afternoon Constables Brannan and Tuck arrested Neville, who has been employed as a marker and porter at William Carson's pool room, Merrick and MacNab-streets, on a warrant charging him with shooting the constable with intent to kill. The prisoner was one of the first to reach the newspaper offices after the shooting took place, and he stood about discussing the bulletins, according to several of his pals.

The authorities absolutely decline to give out any of the details of the case against the prisoner. About the only clue they secured at the time was a knife that was dropped by the burglar when disturbed in the house. The police are seeking to prove that the knife belongs to the prisoner, but his wife and father and mother declare that he never carried a knife. They also say that he did not carry a revolver. The constable and the prisoner had some trouble several weeks before the shooting and the Neville family think this is what led to the arrest.

William Carson, for whom Neville works, said to-night that he remembered the night of the shooting and was positive that Neville was working at the time. When the news reached the pool room, Neville remarked, "It's a good job that I was working to-night or they might have thought it was me." Neville then hurried over to a newspaper office to read the bulletins. This prisoner is about 21 years of age.

Lunatic's Suicide.
An elderly inmate of the asylum threw himself under a passing wagon at the institution to-night and was killed. Coroner McNicol was notified and is awaiting instructions from the crown attorney as to an inquest.

Capt. William Gilbert of the central fire station has been appointed chief of the fire department at Saskatoon. The finance committee of the city council this afternoon gave the Tigers a grant of \$250, on condition that the use of it in the purchase of permanent grounds. The library board was authorized to sell the present library building, to purchase a new site for the Carnegie library and to occupy the new building subject to the approval of the city council. The council will meet at 7:30 Tuesday evening. T. M. Wright and F. P. Dalley were re-appointed to the library board.

Board of Education.
Trustee C. G. Booker this evening gave the board of education notice that at the next meeting he would introduce a motion prohibiting members of the board from dipping into the miscellaneous account for expenses for deputes by the chairman of the board. Trustee Thomas W. Wilkins also gave notice of motion to rechristen the Scotia-street School. He wants to name it Strathcona. E. D. Cahill will be offered \$3800 for his property adjoining the Stinson-street School, to provide more playgrounds. The Daughters of the Empire wrote offering to give a rifle to the boy who proved himself to be the best shot in the city. Wilton was appointed principal of the technical school at a salary of \$2000.

Dr. Grenfell delivered an address this evening in Association Hall in aid of his project to establish a sailor's home. P. Soyceck's house of Whitfield-avenue was burned to the ground this evening.

Brevities.
Charlie Robbins was fined \$10 this morning for selling tobacco on Sunday and Thomas Fretel was sent down for six months for robbing a drunken man. Sol Mintz's race horse, Cloten, sired at a woman, while being exercised in the east end of the city this morning, and ran against the curb, breaking his leg. He was shot.

William Smith, the workman killed by falling 300 feet from a C.P.R. bridge at Lethbridge, was the eldest son of Robert Smith, 14 Tiffany-street. He resided with his wife and four children at 188 East Wood-street.

This morning Judge Snider, the official arbitrator, ordered an inspection of the books of the Cataract Power Co. and its plant in connection with the city's claim that it is entitled to a reduction in the price of street lighting under the present contract.

THREE MONTHS FOR READE
Switch Foreman Acquitted on Charge of Negligence.
COBBOURG, April 8.—(Special.)—Brakeman Charles Julien Reade, who was found guilty last night by a jury on a charge of criminal negligence of duty in connection with the Sandbank wreck, was to-night sentenced by Justice Britton to three months in the county jail here.

William Bradshaw was acquitted to-night on a charge of criminal negligence and neglect of duty. He was the section foreman on the C.P.R. at the point where the wreck occurred. It was his duty to have the switch lamps supplied with oil and he was alleged to have neglected this. D. Burke Simpson, K.C., Bowmanville, defended the prisoner.

Albert Ambrose, an Englishman who tried to commit suicide by taking laudanum, was sentenced to six months in the Central Prison. Steps may be taken to have him deported.

To Reduce Insurance Rates.
The Underwriters' Fire Association have for some time been considering the question of a general reduction of fire insurance rates throughout Ontario, and if the present intention is adhered to there will be a general reduction in all places outside of the big centres, where risks are now carried on small premiums.

Cream of Bean Soup, Broiled Lamb Steak, Baked Potatoes, Radishes, Asparagus on Toast, Tomato Jelly Salad, Apple Tapioca Pudding, Wafers, Coffee.

Recipes For Saturday.

CHEESE SOUFFLE. Put one tablespoonful butter into a saucepan, add one tablespoonful flour and blend over the fire, add half a cupful milk, stir till it boils. Remove pan from the fire and add one teaspoonful salt and few grains of cayenne; mix well. Add three yolks of eggs, one by one, mixing each thoroughly. Add now three ounces grated cheese; mix well. Then beat four whites of eggs stiffly, stir them in gently. Pour into buttered tin, and bake in hot oven for 20 minutes. Serve instantly.

APPLE TAPIoca PUDDING.

Cook half a cupful pearly tapioca in four cupfuls water till transparent; add half teaspoonful salt, grated rind and juice of one lemon. Core and pare eight apples, arrange in deep baking dish, fill the cavity with strawberry jam, cover with tapioca, bake in moderate oven until the apples are tender, adding two teaspoonfuls of butter before taking from the oven.

GOING TO NEW YORK

The Delaware and Lackawanna Affords the Best Route. The annual Easter season excursion to New York by the Delaware & Lackawanna promises to be the very largest patronized yet. This popular trip, in which many Torontonians often combine business with pleasure, will have a number of features which will appeal strongly to those contemplating a visit to New York at this season. Arrangements have been made to run a special train from Toronto right thru to New York without change. The special will include Pullman sleepers and standard high top coaches. A dining car will be attached, serving breakfast before arrival at New York.

SIXTY PER CENT. INTEREST

That Was the Amount Which Borrower Agreed to Pay. In the non-jury court yesterday Justice Meredith awarded Robert Evans \$500, in his suit against Henry Davies to recover on a loan. Davies said he had agreed to pay 60 per cent. interest on a loan of \$500, giving a chattel mortgage, but had not only \$700. Afterwards Evans had put the bailiff in and claimed \$1107, while Davies paid \$515 into court. The amount he thought was due.

THE CRUCIFIXION.

St. James' Cathedral was filled to the doors last night by a congregation eager to hear Stainer's beautiful passion music composed to Sparrow-Simpson's text, "The Crucifixion," described as "a meditation on the sacred passion of the Holy Redeemer." Dr. Ham was at the organ and with a well drilled and melodious voiced choir rendered this so appropriate composition for Easter-tide with all the spiritualizing beauty its music contains. The tenor and bass recitatives and solos were sung in a thoroughly sympathetic and unusticly way, while the chorus of boys' voices rose above the aisles of the cathedral with a sort of ethereal loveliness. A feature of the text of "The Crucifixion" is the Leon Bodley, consisting of church hymns. And in these the congregation were asked to join their voices along with the singing of the choir. This was a pleasant and helpful innovation, and lent much to the general effectiveness of the ensemble. Dr. Ham is always in his right place as chorister and organist, and last night's performance of "The Crucifixion" clearly put him in the forefront of this class of musicians. J. D. L.

The "Redemption" in Parkdale To-

The choir of Parkdale Methodist Church will render Gounod's "Redemption" in the church, corner Duns-avenue and King-street, to-night. This is the first time in Toronto that a choir has attempted this great oratorio in its entirety. Mr. Hartwell, baritone, and Mr. George Dixon, tenor, will assist the choir, and Mr. E. R. Bowles, choir-master, will conduct the production.

BAPTISTS PLAN PROGRAM TO COVER NEW ONTARIO

Work Among the Foreign Residents of Cities Will Also Be Extended—Home Mission Report

Reports presented at the semi-annual meeting of the Baptist Home Mission Board for Ontario and Quebec held at the board room, 27 West Beaver-street, last night, indicated that satisfactory progress was being made in nearly all the fields now being operated by the board. The number of baptisms for the quarter was 125. Superintendent Dr. Norton reported that the home mission churches were now mostly supplied with pastors, but that more men would be required for the new districts in New Ontario. Appropriate reports were reported that receipts for the six months ending in March were nearly \$3000 more than last year for the same period, but that expenses were proportionately larger, so that there was a deficit of \$10,000, about the same as last year. Appropriately for the quarter amounting to about \$6000 were passed. Applications for the six months being reported April 1, amounting to about \$15,000 were also passed. Special consideration was given the work among the foreign population of Ontario. It was decided to extend the work already being done among the Russians in Toronto, and the Scandinavians at Deer Lake, Port Arthur and Kenora, and to begin other work among the foreigners in Toronto, Montreal and Port William. A decision was also made among the English-speaking people in Montreal, in the Annex, and in Verdun was also reached. The New Ontario problem was discussed, and it was practically decided to begin work in Charlton, Thessalon, Gowanda, Elk Lake and Melick. A committee was appointed to formulate a policy for New Ontario, and to act as a special committee with Superintendent Norton.

"The Redemption" To-Night.

More than two hundred trained singers with a full orchestra of competent musicians and a quintette of specially selected soloists will present this evening at the Massey Hall under the direction of Dr. F. H. Torrington the "Redemption" written for the Birmingham Festival 1892. The libretto is by G. H. Gounod. In addition to the complete orchestra there will be a sextet of vocal soloists, Misses Helen Heales Keating, Mrs. Arthur Cav-thera, Miss Muriel Foster and Mrs. Stanley. The organ will be played by Miss Douille Blair at the piano. Gounod has a dramatic effect to illustrate the various phases and scenes through the oratorio. In the prolog an instrumental introduction of the organ, played by Miss Douille Blair, depicts the various phases and scenes through the oratorio. BRITAIN READY TO SLOW UP

But Germany Declined to Consider Limitation of Armament. NEW YORK, April 8.—W. T. Stead cables The American: There has been a good deal of mystification about the overtures which are alleged to have been made by England to Germany for a slowing up of the competition in ship building. I happen to know that the facts are very simple. England in 1899 and again in 1907 and more recently in 1909 intimated to Germany her readiness to enter into an arrangement for terminating the competition on the basis of the acceptance by Germany of the existing conditions. To this Germany has uniformly returned an emphatic negative. For England the perpetuation of the status quo meant a permanent three-to-one superiority of the British navy over Germany. As Germany is determined never to rest until she has reduced that superiority to two to one or less, all such overtures naturally fell to the ground. At the Hague in 1899 and in 1907, the Germans scoffed at the idea of any abandonment by them of their design to alter their relative naval strength to their advantage.

The Why of the Slate

WHEN you see a Slate mark Like this On a Shoe sole or Shoe lining, Just sit up and take notice—Because—

This Slate mark certifies that You are then looking at a genuine Old-time "1869" Slater Shoe.

There are other Shoes sold aplenty By the taking-in-vain of the mere Name "Slater". That Name "Baker's Cocoa" With risk Be sold by any man named Baker. But, it is not the name alone That makes a Shoe worth money. It is what that name stands for In Workmanship, Fit, Quality, And Wear.

Ergo—The mere name "Slater" Has no significance in Shoe Annals Unless—That Name be coupled with The "Slater" Trade-mark which Gives it meaning.

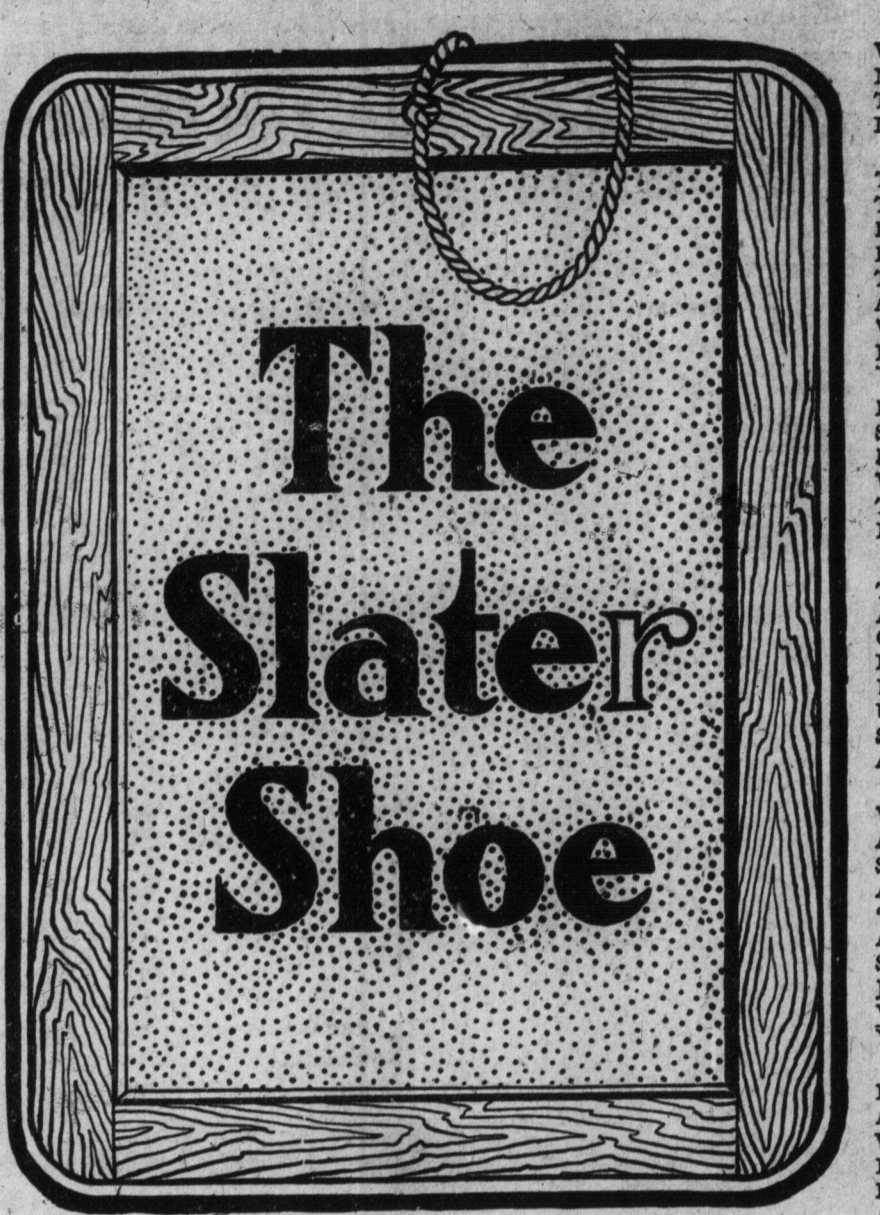

"The Shoe with the Slate" therefore Is the Shoe you mean when You ask the shrewd Shoe Merchant for "A pair of Slater Shoes."

These Slate marked "Slater Shoes" Are made in a factory which For Ten years has not Made a Shoe Of lower grade than \$3.50 to \$5.00.

They are made by Specialists, Trained and developed Through long Years of Practice and Perfecting In the niceties of Fit, Finish, Style and Workmanship, Which constitute The vital differences between A regular "Hand-made-down" and A High-grade "Custom-made."

A Blacksmith might try hard to Make Watches in his smithy, But—His good intentions could not Compensate for Lack of Training, Material or Equipment.

So—Shoe Factories that make Shoes "of all kinds and 1 Description" Can't make Fine Shoes

Everything that enters the making of Slater Shoes is carefully selected. Only the best is used. They are made by that wonderful manufacturing process—the Goodyear Welt, insuring comfort and durability.

THE SLATER SHOE STORES: Chas. C. Cummings, Limited, 117 Yonge St. J. H. Wood, 528 Queen Street West. **THE SLATER SUB-AGENCY—Thomas Powell, West Toronto.**

Well enough, Nor poor Shoes cheaply enough To meet the Specialist In either grade.

This is why The Slate-mark "Slater Shoe" Is a Shoe worth watching-out for. Because, it is—The only brand of Shoe made in A Canadian Shoe Factory Which makes No other than \$4 to \$6 grades.

It is the only Shoe which is Stamped-on-the-Soles or Linings, By the Makers, With the Retail price at which These Slate-marked Shoes must Be sold to Shoe Wearers.

That Price protects Consumers Against possible or probable Overcharge, and It guarantees to them Full measure of value—Up-to-the-Makers-price Stamped on each Shoe in A Slate frame.

When, therefore—Any Shoe Dealer, or Shoe Salesman, Answers your inquiry for "A pair of Slater Shoes" with A pair without a Slate mark Stamped clearly on them—Just look him in the Eye and Watch his Let he take Your watch.

Because—A Dealer cannot be trustworthy Who intends to trick you into Buying something he has Ready-cooked And tied up in an evasive, Incidental and misleading Way With the mere name of "Slater."

Remember—It is not the Slater name, alone—But the Slate brand, which stands For what you seek, And are entitled to secure. When you ask a Merchant for "The Slater Shoe."

HISTORICAL SOCIETIES W.C.H. Society and U. E. Loyalists Hold Regular Meetings.

A large audience attended the last of this season's monthly meetings of the Women's Historical Society. Mrs. Forsyth Grant presided over the gathering, while Miss FitzGibbon was secretary. The members were then informed that the outline for the proposed excursion to Niagara was before the officers. It was their intention to hold it on Saturday, June 26, and to entertain about 200 out of town guests, with Lady Aberdeen as the guest of honor.

ITALIAN TOUCHES BROKEN ELECTRIC WIRE and is Killed. BRANTFORD, April 8.—(Special.)—J. Milone, an Italian sectionman of the Grand Trunk, 20 years old, was electrocuted at the Elgin-street subway. In view of a score of his fellow employees. A wire carrying 2200 volts was broken off an arc lamp and was left hanging about six feet from the ground. Out of curiosity, Milone reached out to touch it and in a minute was dead. Only the tip of his little finger was burned.

Planet Bicycles Are Popular

because of their unrivaled mechanism. No feature of a bicycle holds a greater relation to it—for good or for evil—than the chain. The Planet chain is unquestionably a good feature, proven by the fact that the Roller Chain was adopted by its manufacturers in 1898, and is still used because it has been tried and found perfect in pitch and superior to other chains in running and wearing qualities. This is why it is being adopted by other manufacturers who have recognized its good qualities of the Planet.

Some Folks Filter Their Drinking Water

Thereby showing a praiseworthy consideration for family health. Filtering alone, however, will not, and does not, produce pure drinking water. Even those promoting the sale of filters quote authorities to prove that ordinary filters are dangerous. Then there are some

Other Folks Boil It

And-by so doing endeavor to rid the water of its varied impurities, but even boiling will not make water absolutely pure. Tests made by the Massachusetts Board of Health show that a few hours after cooling, boiled water will contain millions of bacteria, which thrive on the bodies of those killed by boiling.

"HYGELA" DISTILLED WATER

Is first filtered, then converted into steam. The steam is then filtered and afterwards forced through pipes forty feet high, then aerated, then condensed back to water, which is once again filtered, cooled, and then bottled in sterilized bottles. Can you imagine any impurities or germs remaining after this process?

NEW YORK PUBLIC SERVICES.
Important amendments to the New York City Rapid Transit Act were introduced this week in both houses of the legislature of the State of New York. The bill containing them has been prepared to carry out the recommendations of the public service commission in the first district and was drawn under its direction. Apart from the local features the amendments are notable because they show that the determination to secure a square deal from public service corporations is as strong as ever. The bill just introduced, as explained by Commissioner Barabba, who has it in charge, is intended to accomplish these among other things:
It makes city construction more economical.
It facilitates city construction by making operation by private parties attractive instead of prohibitive.
It preserves and renders workable all the good features of city construction under the present law.
It affords a method whereby the city can obtain and own a subway on capital furnished by private parties with an assurance to the investor that he will get back his principal, interest and a fair rate of profit.
It provides also that private capital can construct, own, and operate, but by a division of profits with the city share and share alike, and the ultimate owner of the city without payment after a period suitable for authorization of the cost; and the city can at any time terminate any franchise or operating contract by making fair payment exclusive of franchise value.
As framed the bill contemplates the granting of franchises for fixed periods only, with the provision, however, that at any time after ten years the city may become the absolute owner by making payment for the property taken, but without any payment for the franchise. If the city does not buy after ten years and before the expiration of the period fixed in the contract, the railroad becomes the property of the city free and clear at the end of the period fixed. So long as the railroad remains in the hands of the company the net profit must be divided equally between company and city. It is also recommended that the borrowing power of the City of New York be extended by excluding from the computation of the debt self-sustaining bonds issued for rapid transit and docking facilities. This latter proposal draws the clear distinction between productive and unproductive expenditure. Money borrowed for profitable public service purposes cannot be classed as part of the ordinary debt of a city. It is quite as much the capital of the enterprise as are the bonds and stock of a private company.

the last year he has attended her several times for attacks of a nervous character, and considers that an examination would be sufficient to bring on one of these attacks, any one of which might end fatally. The only order that can be made is that such arrangements be made as will allow the examination to be taken at plaintiff's house and in the presence of her physician, who is to be at liberty to stop the examination whenever he thinks that the condition of the plaintiff renders it advisable to do so. The costs will be in the cause, except those of the cross-examination of the physician, which examination will be at the risk of the attacking party.
Barber v. Willis and Kemerer-S. Denison, for plaintiff, on motion to add Stewart and Lockwood as plaintiffs. A. R. Ballantyne and M. P. Vander Voort, for defendants, judgment (G). The defence has been raised that as the assignment was only executed by Stewart, it is invalid and that therefore plaintiff has no status to maintain this action. The only consent to the assignment is that of the defendant. It seems clear that this is not a compliance with C. R. 206 (3), and especially as the firm was dissolved orally as it has ceased to carry on any business since Feb. 5 last. The motion fails and must be dismissed. Costs to the defendants in the cause.

Single Court.
Before Latchford, J.
Hazelton v. Consolidated Mines Co.-W. R. Wadsworth, for plaintiff, J. R. Hollis, for defendant, judgment (G). Liberty to file further material on return of motion.
Barrington v. McLaughlin-F. Aylesworth, for plaintiff, J. M. Ferguson, for defendant. Action dismissed without costs and without certificate of costs pursuant to terms of settlement.

Re McGarry Estate-H. R. McLeod, Welland, for McGarry, stated that the parties wish motion enlarged. Enlarged until 19th inst.
Toronto General Trusts Co. v. Ontario Sugar and Cattle Co., for plaintiff, F. C. L. Jones, for defendant. Order made confirming report, discharging the receiver, vacating order of court purporting to findings of report.
Parker v. Parker-F. Aylesworth, for plaintiff, Grayson Smith, for widow. E. W. Harcourt, for infant. By consent of parties order made discharging the receiver, and the parties have agreed upon, to be tried at Peterboro.

Re Joseph Hall Estate-J. Harley, K. C., for administrator, moved for the cancellation and vacation of subscription of plaintiff, Edgar G. Brown, for 300 shares of the capital stock of the plaintiff by the plaintiff.
Pelle v. West Toronto-A. G. Gray, West Toronto, moved to set aside the judgment of J. M. Godfrey, for plaintiff, contra. Enlarged for a week to come before Mr. Justice Riddell, the trial judge.

Trial.
Before MacMahon, J.
Harmer v. Brantford Gas Co.-Holstock v. Brantford Gas Co.-Williams v. Brantford Gas Co.-Dehl, for plaintiffs, Harmer v. Holstock, A. L. Baird, Brantford, for plaintiff, Williams v. Brantford Gas Co.-C. S. McInnes, K.C., for the defendant. Judgment (G) these three actions were tried together at Brantford, and after out of damages caused as alleged by an explosion of gas on 11th September, 1908, which destroyed a building called the Theatricals, and injured the plaintiff, Holstock, and destroyed the fixtures, furniture and stock in trade of Williams, a restaurant keeper at No. 31 Colborne-street, charged by plaintiffs to be due to the negligence of their defendants in not properly caring for gas pipes running in front of the plaintiff's premises. The explosion seems to have been caused by plaintiff Holstock striking a match to light a cigar. Blanking being killed and Holstock severely injured. I cannot find any negligence of the Gas Co. in connection with its main or service pipes, and they are not responsible for the gas pipes of the consumers which are absolutely under the consumer's control. The place which they failed to do, judgment dismissing the actions, but under the circumstances without costs.

Divisional Court.
Before Muilock, C.J., Clute, J., Latchford, J., and MacMahon, J.
Cornell v. South Western Traction Co.-J. Meredith, for plaintiff, stated that he had been injured by the defendant's car. Order made that this appeal, and he asked to have it dismissed. Appeal dismissed with costs.
Ludlow v. Wood, for defendant, on appeal from the judgment of Britton, J., of 17th December, 1908. R. J. Towers, Sarnia, for plaintiff, contra. Argument of appeal resumed from yesterday. Reserved.
Paquette v. Rideau-M. L. Gord, for plaintiff, on appeal from the judgment of Anglin, J., of 12th January, 1909. W. Green, Ottawa, for defendant, contra. Judgment v.v. on motion argued yesterday. Appeal allowed and new trial ordered. Costs of former trial and of appeal to be costs in the cause. (Clute, J., dissenting).
Cuthbert v. Michael-W. Laidlaw, K. C., for the defendant and the Methodist Church, appealed from the judgment of the court in the case of Cuthbert v. Michael, of 25th January, 1909. J. Bicknell, K.C., for plaintiff, contra. This was an action to enforce a mechanic's lien for 21228. The defendant referred to the lien and defendants appeal therefrom. Reserved.

County Court.

EATON'S DAILY STORE NEWS

Store closed all to-day (Good Friday). Ready for big business bright and early to-morrow (Saturday).

We consider a good, early, animated starting of business well worth an extra effort in value giving, so we've gathered these good "specials"—goods you'll most likely require—and have priced them in a manner you can't resist if you've thought for economy. If you would avoid the crush of the afternoon—if you would get the store's best service—if you would choose best—help us and help yourself BY SHOPPING IN THE MORNING.

We Pay Freight on Your Purchase

On orders of \$25.00 and over, going forward in one shipment, we prepare freight or express to your nearest railway station in Ontario, Quebec or the Maritime Provinces on all goods except furniture, stoves, pianos, baby carriages, salt, sugar and cereals.

Men, Here's Your Easter Suit, \$11.00

At this late hour you won't have a chance to see these until it's time to buy them, but if you're to have a new suit for Easter you must decide quickly anyway, and we'd like to say about these suits—

You can see and feel the good quality material of which they're made—you can examine and see the good workmanship and good style—but the part you DON'T see—perhaps the most IMPORTANT part in the life of your suits, good appearance, is what we take particular pride in making the very best way, using the best materials that could be put into a suit at the price.

Another good thing is the excellent fit—a very big consideration when buying a suit Easter Saturday—in all probability you can put it on and wear it home without a thought of alteration: made of Spring weight worsteds, black ground with shadow stripes, very dressy and stylish, single-breasted, sack design, good Italian cloth linings. Sizes 35 to 44. Extra good value, each, \$11.00.

Another Special That Needs But a Description to Bring You Early

Men's Cravenet Rainproof Coats, imported English cloths, in dark color, long single-breasted style, nicely shaped lapels and close fitting collars. Sizes 35 to 42 inch chest measure. Price \$8.39.

Turbans for the Little Fellows, 19c
A neat little hat the boy can wear to school or at play; they're light and good looking. Colors are navy, cardinal and tweed; some have close-fitting band in cardinal and navy; unlined, with taped seams. "Come early" price, each, 19c.

Men—What Ho! An Easter Hat for 79c
Not a 79c hat by any means—(don't let that for a LOW price make you miss the chance)—but an EASTER hat for 79c—a hat you could wear any day, anywhere—hang it on a rack beside the best looking derbies you've seen—a hat man could tell the difference, YOU couldn't—nor could the average man. And stylish? Well you'll look far before you beat it—not extreme, mind you, but a little curve here, a little fullness there—those mysterious little changes so small in themselves, but which go to make the fashionable hat of the season. All have leather sweatbands. Twenty dozen in this lot, and there should be twenty dozen men waiting at the door to-morrow morning. Each only 79c.

and this noise, it is believed, was
caused by a can of ignitable stuff being
thrown through the kitchen window.
A window was found shattered when the
brigade arrived on the scene.

Mr. Cook, Jr., Miss Norris, sister-in-
law, and the hired man were awak-
ened by the noise. Two slept upstairs
and one down in the front part of
the house. Mr. Cook hurried down and
found the whole side of a wall in
flames from the floor up and the fire
was spreading along the ceiling.

He closed the door and the family
started to remove the more valuable
furniture from the front of the house.
There is an acetylene plant in the
house, but there could have been no
explosion from this, as Mr. Cook lit a
light in the front of the house, by the
light of which they hustled the furni-
ture.

Lost Burns Last August.
It is rather coincident, the people
are not connecting the two cases, that
Mr. Cook, Sr., had his stable and barn
burned on Aug. 3 last. He heard a noise
in the barn the evening before, and
found two men lying smoking in his
hay-loft. He told them to vacate and
they refused, threatening him the
while that if he gave the alarm they
would burn the shack down. He sum-
moned the constables, but the men
fled. The next evening, however, short-
ly after church, the barn went up in
smoke.

CHARGE OF FALSE PRETENCES

Parole Man From Illinois Kuss Foul
of Toronto Slight.

Samuel Goldberg, alias Pickett, a
paroled prisoner from the South Il-
linois Penitentiary, was arrested yester-
day afternoon by Detectives Ken-
nedy and Newton, charged with at-
tempting to obtain \$200 from Charles
Suddard, 275 Crawford-street, by false
pretence.

Suddard went to the police and told
them the story of the man who had ad-
vertised for a manager of a vaude-
ville company, and Goldberg had of-
fered him a salary of \$15 a week and
expenses, but demanded a deposit of
\$200.

Detective Kennedy visited Goldberg
at his office, room 115, National Life
Chambers, where under the name of
Pickett he had an office as president
and treasurer of the Canadian Ad-
vertising Company of Montreal and
Toronto, of which his brother,
A. J. Goldberg, is the eastern man-
ager and Myer Wolf, soliciting man-
ager. The same proposition was also
put to the detective and Pickett also
explained the business of the Ad-
vertising Company's office. Pickett
went out and by phone mes-
sage came to W. H. Marsh, his clerk, while
the officers were waiting. The clerk
went out and he followed. Marsh
met Pickett opposite the Grand Opera
House, and the arrest was made.

Another charge of obtaining a \$20
diamond ring and \$10 from W. W.
Beatty, 149 Simcoe-street, was also
laid. He had pawned the ring for \$15,
to pay his hotel bill, and the officers
on him were found one cent and his
last parole report, in which was set
out the fact that he had worked hard,
earned \$20 and spent \$27 of it.

WILL ISOLATE PATIENTS.

WILLBRIDGE, April 8.—(Special.)—
Following the outbreak of smallpox
diagnosed, as such by the medical
health officer, a few days ago, no less
than six well defined cases are known
to exist in the town to-night. A pro-
vincial health officer was in town this
morning and a strict quarantine will
be instituted. It is supposed that
securely a large tent and isolate all the
affected patients on the fair grounds.

PROF. ORR'S CRITICISM FOR NEW THEOLOGY

Goes After the Radical Critics—
Proceedings at Knox Col-
lege Convocation.

Rev. Dr. Orr was again somewhat
straitened last night at Knox College
convocation by the necessary addresses
and ceremonies, but the large audience
gathered in Convocation Hall waited
patiently for his speech and evidently
enjoyed it.

He did not in the least trench up-
on the positions occupied in the recent
controversy. His address made it clear
that it was not historical criticism in
Rev. George Jackson's sense that he
was attacking, but what is known in
England as the "New Theology." He
explicitly stated that he was only
speaking of radical criticism. He must
not be misunderstood as being an ap-
ponent of any sane and sober and ra-
tional criticism of either the Old or
New Testament.

Dr. Orr was very happy in his refer-
ence to the relations between Knox
College and the United Presbyterian
College in Glasgow.

The theme of his address was the
greatest that could appeal to the young
generation. It was impossible not to
question, "What think ye of Christ?"
The faces of many of the young men
as it did in every age of the world. Af-
ter Jesus there was either religion or
no religion. The task was laid on men
of explaining Christ, of understanding
Him. There was no getting away from
Him.

Who was He and what was His re-
ligion? were questions requiring serious
consideration. It was impossible to ad-
mit the Old Testament as being
recognize that it was the faith of the
early church regarding Him, and that
the church "that was based on that faith."
The new scholarship, in extreme
position he quoted from a German au-
thor who said that "Jesus never under-
any circumstances made the slightest
claim to sinlessness—much less to God-
hood." He would have positively shud-
dered to think men would honor Him
as they honored the Godhead.

These views did not explain Jesus.
The storm of criticism that had assailed
the New Testament. But the radical
criticism had declined to admit the
supernature of the claims of Christ.
These had to be brought within the
limits of the humanitarian view. He
was not speaking merely of a few ex-
tremists, but of the great radical move-
ment with which in a hundred ways
they would be brought in contact.

ACCIDENTS OF A DAY

Woman Run Over by Auto—Car Hits a
Wagon.

While trying to dodge a water wagon
on King, near Bay-street, yesterday af-
ternoon Mrs. W. J. Tow, 820 Brun-
swick-avenue, was knocked down and
run over by C. W. Mac's automobile.
The car had to be lifted to get the
woman out. She was severely bruised.

W. Speers, 342 West King-street, 38
years of age, while trying to step from
the front step of a trailer to the rear
step of a motor on King-street missed
Queen-street just east of Yonge, struck
Fred Uden, aged 15, of 115 Cooper-
avenue, on the head. He was taken to St.
Michael's Hospital. His head has a
large laceration on it, but the doctors do
not think the skull is fractured.

While fooling with a number of boys
with a hammer in a hole at Beck's Box
Works at the foot of Parliament-street,
Lorne Brown, aged 18, of 191 1-2 East
King-street, was struck on the upper
lip. The lip was sewn up at St. Mi-
chael's Hospital.

In a collision between his wagon and
a Yonge-street car, while crossing
Yonge-street at Louisa, Bert Roberts,
aged 34, of 155 Simcoe-street, a driver
for the Standard Chemical Co., was
thrown to the pavement and his left
arm dislocated at the elbow. He was
removed to St. Michael's Hospital.

SWEETNAM PRESIDENT

I.P.B.S. Elect Officers—May Increase
the Membership Fee.

The 28th annual meeting of the Irish
Protestant Benevolent Society was
held last evening in the Temple Build-
ing.

Five persons were proposed for mem-
bership, among whom were: D. L. Mc-
Carthy, K.C. and W. R. Johnston. The
new members enrolled were: J. P.
Sowden, Alex. Douglas, Robert Black,
George Good, P. G. Might, Charles
Rollison, Richard W. Connor.

The various annual reports presented
were most encouraging. The total amount
received during the year was
\$226.10.

The new president in a vigorous ad-
dress advocated doubling the annual
fee, and pointed out that the society was
not distinctively religious or a moral
reform association. He preferred hand-
picked members to influx of members
and promised that the monthly meet-
ings in future would partake of a
highly educational character. Mr. Sweet-
nam believes that the society is doing
a great work and in the best way.

The election of officers and for coun-
cillors resulted as follows:
President—George B. Sweetnam.
First vice-president—George W. St.
Leger.
Second vice-president—David Spence.
Treasurer—Samuel Crane.
Secretary—George C. Ross.
Assistant secretary—John A. Living-
stone.

A TORONTO PROVERB.

They Know of It in Far-Off Cuba
"81, senor," said the smiling and
quiet-voiced manager of a Cuban
plantation, and translated into English,
the version of his compliment to his
visitor was: "We have heard that in
Canada it is a proverb among smokers
who to be the best, at the end of the
cigar, it is a 'Quiet Hour,' the only
gaining vogue in Toronto
years ago. Mr. Muller has extended his
trade all over Canada, and there is
not a city in the Dominion for which
he does not ship the rare Havanas and
Manillas of which he is the sole im-
porter.

LAWYER GETS APOLOGY

Bill Miner Episode Basis of Ibbel
Action.

NEW WESTMINSTER, B. C., April
8.—(Special.)—The Ibbel suit of A. D.
McIntyre, lawyer of Kamloops, against
D. D. Bourke, former deputy warden of
the penitentiary, started this morning.
The suit is instituted because of
Bourke's published statement that Mc-
Intyre called at the penitentiary to ar-
range the release of Bill Ibbel, who
McIntyre's only sensational feature was
the disclosure that there now exists a fund
of \$150 to the credit of Ibbel at the
penitentiary, sent by some unknown
outsider after Ibbel had for some time
been a prisoner.

This afternoon Bourke apologized and
agreed to pay the next week \$400.
McIntyre, who brought up this matter
in the house.

Good news for homekeepers who happen to be in the market for a Brass Bed. The makers of "Quality" Beds whom we represent, being specially anxious to rapidly advance the sale of their beds for advertising reasons, have made us a proposition that will be welcome both to our patrons and ourselves.

The plan in brief is that we contract to place in a stated number of homes in Toronto, one, or more, of their excellent beds, and for our part of the work we will receive a substantial discount off the regular prices. Thus we are enabled to give our patrons an opportunity to buy elegant Brass Beds at close to factory prices.

We have arranged with the Manufacturers to demonstrate the making of "Quality" Beds, and a skilled operator will show in our window Saturday how these brass beds are put together. The assembling of parts and setting up will all be done where you can see the material and the careful construction of "Quality" Beds.

To show how much can be saved on the regular price of these beds, we quote these four examples of the usual prices and reductions:

\$23.50 All Brass Beds for \$15.90

Some Reasons Why You Should Have a "Hoosier" Kitchen Cabinet

The illustrations on both sides of this reading matter show how many, many steps are saved the busy housewife in preparing the three daily meals by a "Hoosier" Kitchen Cabinet. Besides saving useless walking about a hot kitchen, a "Hoosier" Cabinet saves a lot of waste in cooking materials, etc., it keeps a neat orderly kitchen, having a place for everything, always just where it is wanted. "Hoosier" Kitchen Cabinets are sold at very moderate prices and you can arrange to buy one by making a very small down-payment, arranging to pay us balance in convenient amounts after you get the Cabinet into your home. We are always glad to show these Cabinets at any time.

The Adams Furniture Company, Limited, City Hall Square

York County and Suburbs

PROPOSAL IS TO START MARKET IN NORTH END

Committee Will Talk Over Matter With Metropolitan Officials—County News.

York County farmers and business men generally are thoroughly out of contact with Property Commissioner Harris, the city council in general and the St. Lawrence Market in particular. At a meeting of the legislative committee of the York County Council, held in their chambers yesterday with Reeve W. H. Pugsley of Richmond Hill in the chair, a resolution looking toward some relief from the present intolerable conditions, was unanimously adopted. It is proposed to ask the Toronto and York Radial Railway Co. to establish a market or storehouse near the terminus of that line at the C. P. R. crossing, to assist in making the project a success. The committee present were: Reeve Pugsley, Reeve Laop of Whitecourt, Reeve William Keith of Newmarket, Reeve Bull of West, Reeve Arthur Pugsley of Sutton, Reeve Knowles of the disinclination of the citizens generally to go down to the St. Lawrence Market to trade, and the hearty support that the project would generally receive from the farmers living up north, tributary to Yonge-street, it is believed that the venture would be a great success.

"The city council has never catered to the farming trade, provided little or no adequate accommodation, and, anyway, a good live market on the north, one on the west, and another on the east, would be infinitely better," said a leading citizen yesterday. Mr. Pugsley and Mr. Knowles will wait on the Metropolitan management as soon as a meeting can be arranged.

DAMAGE IN COUNTRY.
Immediate District Around the City Felt Force of Storm.

Belated reports of the damage caused by the windstorm of Wednesday continue to come in from all parts of the country. At Schonberg a limb of a tree fell on a butcher shop, smashing the roof and causing considerable damage. No one was in the shop at the time. James Smith, living on Yonge-street, a short distance north of Curtis' Corners, had the roof of his barn blown off. Hiram Hamilton of Leasky also mourns the loss of his barn roof. The wind carried the roof of Dave Foster's barn on lot 14, concession 5, Whitechurch, away, while three silos and a windmill near Gormley collapsed during the gale. Robert Welch of the third concession of Whitechurch had his windmill wrecked. George Farr and Henry Barker, two York County farmers, both had their barn roofs blown off and smashed, while fences and small outbuildings in all parts of the county were blown over and damaged. The fact that the frost is not out of the ground tended to lessen the damage to the woods, which are thought to have suffered to no great extent.

RICHMOND HILL.
RICHMOND HILL, April 8.—The Brown Betty china sale, tea and entertainment by the W. M. S., was held today in the Temperance Hall and proved a very pronounced success. Mr. Teffy, our esteemed veteran postmaster, still remains in a very critical condition. Mr. Michael is entering upon his duties as mine host of the Palmer House. A great evening is looked for on Friday. By special request the choir of the Methodist Church are rendering the oratorio cantata, "The Eternal City." Some additional choruses, solos and duets will make the whole ensemble a most appropriate Good Fri-

day program. Doors open, at 7.30, to begin at 8 o'clock sharp on Saturday. Two of our little fellows, Albert Hill and Jimmie Cowie, had a very narrow escape from death to-day. Crossing the street car tracks they did not get clear in time and were struck. It is hoped that the injuries received, tho' severe, will soon permit their usual activity.

WEST TORONTO.
WEST TORONTO, April 8.—In the garden of George Mitchell, 50 Vernon-street, may be seen a fine row of potatoes, well imbedded in the ground all winter only emphasizes the fact. On June 22 of last year Mr. Mitchell harvested new potatoes and it looks as tho' he would do equally well this year.

Ex-Mayor Jesse Smith this morning signified his intention to be a candidate for aldermanic honors in Ward Seven against all-comers. So far rumor credits Mayor Baird, A. J. Anderson, Jesse Smith, Aid. Byding, Aid. Ford, Aid. Hain and Trustee Bell with aldermanic ambitions. Police Magistrate Robt. Hughes was today taken to Grace Hospital in Speers' private ambulance suffering from typhoid fever. Great interest locally centres in the forthcoming rendition of Stainer's "Crucifixion" by the choir of St. John's Anglican Church to-morrow (Good Friday) evening, in the church at 8 o'clock. In collegiate institute circles to-night not a little disappointment was caused by the receipt of the news that the property committed of the Toronto Board of Education had thrown down the proposal to appropriate \$50,000 toward increasing the efficiency of the present collegiate institute here.

CREDIT SALE.
Saturday, April 10.—An extensive credit sale of high-class horses, cattle, pigs, fowls, implements, furniture, etc., belonging to the estate of the late Richard Trick, will take place on lots 7 and 8, concession 6, Markham Township (half mile south of Unionville), on Saturday, April 10, at 12 o'clock noon. The horses are an especially good lot, among them being four registered Cleveland mares and fillies, as well as geldings. There are also eleven fresh milch cows, Holsteins and Durhams, and a Durham bull. The implements, pigs and fowls, hay,

Similarly, Hon. A. G. MacKay, offered an amendment when the bill to grant 1000 acres per mile to the Bruce Mines and Algoma Railway, Ontario and Western Railway and the Seaboard Kewatin and Kenora Railway, all of which are small projects, claiming that it was distinctly stated before the last election that further aid to railways would not be given by the province. The amendment provided that protection to railways for short distances for colonization purposes, land should not be given, and there was a great deal of talk before the committee and a suitable cash subsidy be substituted in lieu thereof. This amendment was also declared out on the former division.

A Concession to Labor.
E. E. Fraser (Welland) directed attention to the necessity for protection to railway employes who were injured in the discharge of their duties, and were not guilty of wilful negligence. He hoped that the house would see its way another session to extend the provisions of the act giving compensation to them. A. E. Phipp (West Ottawa) withdrew his bill fixing the hours and wages of working men, and in doing so disclaimed any desire to use this for political advantage. He knew the bill was radical, and had been deliberate in making it so in order that the attention of hon. members and the country might be drawn to it. Allan Studholme (East Hamilton) took an hour to protest that such legislation should have been left so late in the session. There was a great need for regulating the hours of labor and the wages paid to women and children in factories. The speaker may be criticized for his leniency in permitting Mr. Studholme to speak when he was distinctly out of order, and it must be regarded as a concession to the Labor party that the member for East Hamilton was allowed to proceed. He was withdrawing a bill to amend the Ontario Election Act to provide votes for women. A. E. Phipp (East Ottawa) said he did so with the consent of the parties at whose instance it had been introduced.

Auto Restrictions.
A bill to amend the act regulating the speed of motor vehicles provoked a storm of protest from the country members who claimed that their constituents wished automobiles excluded from the highways on certain days in the week. D. C. Ross (North Middlesex) moved in amendment to the bill that automobiles be excluded from the highways in townships and police villages from 6 a.m. to 9 p.m. on Satur-

DR. WOOD'S NORWAY PINE SYRUP

Is without an Equal for COUGHS, COLDS, BRONCHITIS and all Affections of the THROAT and LUNGS.

All the most serious affections of the throat, the lungs and the bronchial tubes, are in the beginning but colds or coughs. Too much stress cannot be laid on this fact, and neglect to cure the cold very often causes years of suffering and in the end some "Consumption." Dr. Wood's Norway Pine Syrup combines all the lung healing virtues of the Norway pine tree with other absorbent, expectorant and soothing medicines of recognized worth, and is absolutely harmless, prompt and safe.

Mr. J. L. Pardy, Millvale, N.S., writes:—"I have been troubled with a hard, dry cough for a long time, especially at night, but after having used Dr. Wood's Norway Pine Syrup, for a few weeks, I find my cough has left me. To any person, suffering as I did, I can say that this syrup is well worth a trial. I would not be without it in the house."

So great has been the success of this wonderful remedy, it is only natural that numerous persons have tried to imitate it. Don't be humbugged into taking anything but "Dr. Wood's." Put up in a yellow wrapper; three pine trees the trade mark price 25 cents.

BONDS STILL FIRM MONEY REMAINS EASY

Pessimists Still Predict a Drop in Prices, But Optimists Are in Majority.

Local houses this week report that the bond market is, if anything, firmer than last week, and that the demand for the higher yield municipal and industrial bonds continues good. There are still some pessimists who predict a drop in prices, but optimists who are looking for a small rise, appear to be in the majority. Money is still plentiful and with the English bank rate at 2 1/2 per cent, there seems no likelihood of any firming tendency locally. Local houses report the following purchases this week: A. Stinson & Co. have purchased \$20,000 Avymer, Quebec, debentures, \$14,000 5 per cent, due 1917 for sewerage purposes; \$6000 5 per cent, due 1917 for local improvements. \$1400 La Plaine, S.D., Sask., issued at 3 3/4 per cent, and payable in 10 instalments. \$5000 Embro, Ont., 4 per cent, 18 instalment debentures. This is to cover a loan to the St. Mary's and Western Ontario Railway. \$1000 Kinley, S.D., debentures; these bear interest at 2 1/2 per cent, and mature in 10 instalments. Their tender was also the highest for the East Missouri issue of \$3367.95. W.C. Brent Co. have purchased \$12,000 Town of Barrie, Ont., 4 1/2 per cent, 20 instalment debentures, guaranteed by the County of Simcoe and issued for various purposes. Also \$5000 Town of Tillsonburg, Ont., 5 per cent, 20 and 30 instalment bonds. The same firm has also been awarded \$12,000 Town of Hespeler 5 per cent, 20 instalment debentures, issued for fire protection. The British American Securities Corporation have purchased \$25,310.88 4 and 4 1/2 per cent, 10, 15 and 20 year debentures, issued for local improvements. The Dominion Securities Corporation purchased \$1500 Clay Hill School District 5 3/4 per cent, 10 instalment bonds. Also, \$1400 Birds-Eye-View School District 5 1/4 per cent, 10 instalment bonds. And \$1000 Slepner, S.D., 6 per cent, 10 instalment bonds.

MAKE REPAIRS AT MINES

Advantages of Machine Shop at Gow Ganda. A unique feature of the plant which is now being installed by H. T. Pemberton at the Bartlett Mines at Gow Ganda, is the machine shop, which will render the company entirely independent of outside help for repairs. This consists of blacksmithing outfit, drill and everything that may be necessary to meet any ordinary emergency. The importance of this will be understood for the distance from the railroad as at present would entail long delays, should any breakdown occur. Where mining operations are carried on the scale that is planned and with a staff of 60 men on the pay roll, the value of a machine shop may be appreciated by shareholders of the company throughout Canada.

FIVE LIVES WERE LOST IN FURY OF THE STORM

Young Woman Crushed Under Debris, Farmer Killed By Tree, Three Men Drowned.

IRENE McCAULEY, stenographer, Norwich, crushed. WM. TUNKS, farmer, Westminster Township, killed by tree. JACK JAMESON, of Hamilton, drowned. W. D. STRONG, of Pakenham, drowned. JAMES RENNY, of Pakenham, drowned.

Five deaths in Ontario directly due to Wednesday's storm are reported. Miss Irene McCauley, stenographer at Oxford Flour Mills, Norwich, was instantly killed by the collapse of a mass of brick, weighing some tons, which crashed thru the passage leading from the elevator to the office. It appears she was in the passage at the time, and was buried under the debris. She was found dead under seven feet of brick.

At Hamilton, a young man named Jack Jameson took a boat from the foot of John-street to go out to fetch a man's hat which had blown into the water. He got out and found that he could not return. The wind carried the boat with its occupant down the bay. Jameson was last seen doing his best to pull into the shore. The boat was found yesterday morning badly smashed up at Burlington Beach. Jameson was well known as a member of the Intermediate Tiger football team, and as a wrestler.

Bridge Washed Away. W. D. Strong, aged 31, and James Renny, aged 17, were drowned near Pakenham. Thru heavy rains a bridge over the Mississippi was loosened when the men drove across it. It collapsed and they were then thrown in the water, as well as horses and wagon. A little later John Groves went to cross the bridge and drove off into the water. His horse succeeded in swimming ashore, however, saving Groves, who, realizing the disaster, rushed to Pakenham for help.

William Tunks, a Westminster farmer, died yesterday morning from injuries received when a large tree fell on him. Tunks' skull was fractured, and he sustained internal injuries. About 10,000 dollars worth of property at Stratford last night, R. P. Delaramer, photographer, was hurried to the market square pavement and his car terribly damaged. The car was crushed thru the feet in several places. At Guelph, Mrs. Shannon of Eden Mills, was thrown off her feet and fractured her hip by the tree falling on the children injured in the wreck of the London school will recover.

About \$10,000 damage was done to the oil derricks in the Tilbury district. A brick school house in Mount Settlement, near Dunnville, was wrecked. Fishermen abandoned nets worth thousands of dollars.

BRITISH WHEAT AWAY UP

Price Reaches the Highest in Quarter of a Century. LONDON, April 8.—The British wheat market, which has been rising for some time past, yesterday touched 43 1/2, the highest price in London for a quarter of a century, except momentarily at the time of the Letter corner.

British farmers' stocks are now only 20 per cent. of the average for this time of year, a good price having induced them in many cases to market their stocks, mainly to Germany and Italy, soon after the harvest.

According to the best authorities here, stocks throughout the world are at low ebb.

SEVEN YEARS FOR BURGLARY

OTTAWA, April 8.—James Murray was sentenced to seven years in Kingston Penitentiary and Thomas McKay five, on two separate charges of burglary and sneak thieving. The men broke into Pratt's shoe store a week ago, and stole \$100 worth of goods, and a few days later stole a trunk of samples at a local hotel.

Nine Tenders For Bridge

OTTAWA, April 8.—(Special.)—Nine tenders have been received for the National Transcontinental Railway bridge at Windsor. The tenders are: J. J. Collins, V. W. Geroux, T. Kelly & Sons, Faulkner, MacDonald and Bender, Haney, Quinlan & Robertson, Toronto Construction Co., Wm. Newman & Co., Limited, J. D. McArthur, Canada Foundry Co., Limited, and Dominion Bridge Co., Limited. The award will not be made for probably a week.

The Soul of a Piano

Clear spruce selected by an expert, culled and reculled by a man who knows lumber when he sees it, is used for the sounding boards of the "Gourlay" pianos. That is why the tone is so delicious, for the sounding board is the soul of the instrument and the best of good workmanship. Too often, even in pianos of standard make, no care is taken in the selection of the wood, and therefore all the finer vibrations are lost. The method adopted by the firm of Gourlay, Winter & Leeming is an expensive one, but it's worth has been proven in every instrument they have turned out.

OIL! OIL! OIL!

THE CANADIAN TWIN CITY OIL CO., Limited

Head Office—248 Jasper Avenue, Edmonton, Alta.

DIRECTORS—N. Bell, Pres.; E. Dickman, Vice-Pres.; J. A. Might, Director; T. H. Wilson, J.P., Secretary.

This Company is incorporated under the Laws of the Province of Alberta, with a capitalization of \$200,000. The purpose for which this Company was formed are to buy, sell, own, lease, operate, develop and otherwise deal in Oil Lands. This Company now holds 20-year leases on 960 acres of Oil Land right in the heart of the Morinville, or Egg Lake Oil District. The capital stock of the Company is divided into 4,000,000 shares of a par value of 5 cents each.

Did you know that in the Province of Alberta, near Edmonton, there is being developed one of the largest oil fields north of California, the largest supply of natural gas west of Pennsylvania, and one of the largest beds of asphaltum on this continent. Well, whether you know it or not, these are the facts; this is being done by the American-Canadian Oil Co. The Canadian Twin City Oil Land adjoins the A.C. Co.'s Oil Land and is in the heart of the oil district. You cannot buy one share in the American-Canadian Oil Co. to-day.

The American-Canadian Oil Co. are down 1,300 feet, and are in oil formation, and expect to strike oil any day. When this happens, the shares now selling at 5 cents will go to dollars or be called off the market. We want money to develop the Canadian Twin City Oil, and, as we are just as sure to get oil, gas and asphalt as the A. C. Co. are. The man or woman that has the pluck and get in them to move out of the old rut and invest a little money in the Canadian Twin City Oil Co. is the one that will win. Of course, we cannot guarantee oil, but it must be there as far as the best experts can see.

The following indications are all present at the American-Canadian well: Oil is oozing to the surface, large deposits of oil sands, heavy flow of oil gas, 400 lb. rock pressure, the cretaceous shale is growing darker with increased depth and smelling stronger of petroleum, the drillings from the bore showing oil color. We know the foregoing to be never-failing signs of oil, and no reason for failure here is known to us. Our manager and drillers are all practical oil men, of many years' experience.

We have the same indications as they had in California, where the shares went from 10 cents to \$460.00 each. Would you like some of this Sure! Well, get in with us and get your share. Shares sell at 5 cents each, are fully paid up and non-assessable. Send your money and your certificate will be sent you at once.

We have put our own money into this Company and we believe that its stock offers one of the safest, strongest and most profitable investments obtainable. We think that those who purchase some of these shares will have only one regret about it in the future—and that will be that they did not buy more while the opportunity was as theirs. The richest men in the world to-day made their money out of oil. This may be the chance of a lifetime. Get in for all you can, as this is a ground floor chance. Write us.

All stock must be in on or before the 21st day of April, '09. This ad. will not appear again; keep it for future reference. So get in at once. Be alive to your interest.

Some Examples of What \$100 Invested in Oil Returned

\$100 in the Reid Oil Co. grew to over \$3,000,000 in one year. \$100 in the Union went to \$150,000. \$100 in the Home went to \$50,000. \$100 in the N. Y. Oil Co. \$40,000, and still this is a low quotation. Appointments made for evenings.

Montreal River Consolidated, LIMITED

Our advertisement of a block of this stock has met with a success which we scarcely anticipated. The offering, however, has undoubtedly appealed to investors who are looking for a square deal in Ontario mines promotion. As previously pointed out, we have never offered a stock in which we thought there was so much intrinsic merit or such immense possibilities to investors.

The total capitalization of this company is only \$500,000, in 500,000 shares, \$1.00 par value. Of this amount there is left in the treasury the large number of 300,000 shares, with which to undertake a thorough development of all the company's claims. Although the capitalization is so modest it really becomes insignificant when it is considered that the company has ten properties of forty acres each, all well situated in the Montreal River district, in the townships of Willett and James.

Each one of these properties has been proven, and on no less than seven has native silver been taken from the surface. On M.R. 700, which is in close proximity to the Lucky Godfrey and the Devil and Enright mines, a calcite vein has been uncovered nearly three feet in width, and trenching is now being gone on with this wonderful showing.

The eight claims in Willett are all immediately adjoining one another, while the two in James are also immediately adjacent. It will, therefore, be seen that the development of the properties can be economically undertaken. It may be that when the properties have been developed that it will be thought advisable to increase the capital of this company to at least \$3,000,000, thereby giving present shareholders six shares for one, and, if the claims come up to the expectations of the present shareholders, and the reports which have been made on the properties, the capitalization will then be only of a conservative character.

As these properties have been paid for in full, and the company is free from debt, it is in a position to devote the sale of its treasury stock to development purposes. We hold 60,000 shares of the treasury stock, and are now offering it for sale at 50 cents per share.

These are the directors of the company, and their names stand out as a guarantee of honest administration of the company's affairs:

R. H. C. BROWNE, ex-police magistrate of Cobalt, President.
R. K. SPROULE, Toronto, Vice-President.
J. M. ROWLAND, Toronto, Secretary-Treasurer.
A. F. SPROTT, Esq., Toronto, and
DONALD C. HOSSACK, Barrister, Toronto.

We cannot urge too strongly on our friends to participate in this exceptional chance to make money in the Montreal River District, and as the offering of the stock is so small we advocate immediate application for reservations.

CYPRUS AND PREHISTORIC AGE OF MEDITERRANEAN

Noted English Archaeologist Gives Interesting Lecture Before a Toronto Audience

A distinguished lecturer delighted a large audience in the physics building last evening with an illustrated address on 'Cyprus and the Prehistoric Age of the Mediterranean.' No one knows that interesting country better than Prof. John Linton Myers, M.A., F.S.A., of the University of Liverpool, England, whose visit to Toronto is part of his tour of several American cities under the auspices of the Archaeological Institute of America, the Toronto branch of which is being organized here in Hamilton, thence to New York and Washington. While in Toronto he is the guest of Prof. O. B. Smith, Crawford street.

A BROADER SPECULATION.

The looked-for upward movement in the speculative stocks at the Toronto market developed somewhat unexpectedly this morning with the inauguration of a minor boom in Mackay common. The manipulative movement in Mackay started in New York, and was encouraged by pool operations from the same individuals who inaugurated the speculation in American Telegraph and Telephone shares. Otherwise than this there was only about the ordinary amount of business transacted, but the sentiment created by the boom in Mackay premeated the balance of the market, and, with a few exceptions, prices of speculative securities all ranged fractionally higher. With the initiation of a speculative movement, the investment business in the market dropped into its usual channel of inactivity. The outlook is for a broader speculation.

Pre-Holiday Speculation Shows Bullish Confidence

New York and Toronto Stock Exchanges Close With a Good Under-tone to Prices.

World Office, Thursday Evening, April 8. There was much broader trading at the Toronto Stock Exchange to-day, occasioned largely by a movement which started in New York. This concentrated itself principally on the Mackay shares, the price of which advanced four points before the boom subsided.

The movement in Mackay was precipitated by the rise in American Telegraph and Telephone stock, which constitutes part of the holdings of the Mackay Company. The rise in Mackay stimulated speculation in other parts of the market and a generally firm undertone pervaded all the other speculative issues. Sao Paulo, Rio, General Electric and Twin City came into much better enquiry.

Beaty & Glasco received the following: Stocks closed generally higher, with relatively small recessions at the close, considering that two holidays are ahead. We had expected a little more of a setback. But the buying power to-day was very good and public interest in increasing which was largely responsible for the broader character of the market. The feature was sharp advances in many intermediate and low priced issues, showing evidently popular taste. We think that a good many low priced issues will go higher, if the market continues to advance. Indications point to a higher market next week. Barrer unexpected developments, stocks should be bought on all weak days.

Chicago grain prices the highest since the latter corner. Iron and Steel outlook poor with product of blast furnaces slowing down. Stock Exchange will close to-day to reopen Monday. Dry goods trade reported better. Earnings of Erie for March show an increase over 1907.

It is rumored that the Canadian Pacific Railway Company will make an extra dividend of one per cent. on the land sales during the present fiscal year. This will bring the dividend from that source from one to two per cent., and consequently will increase the total dividend payment from the present rate of seven per cent. to eight per cent. per annum.

Bank of England Statement. LONDON, April 8.—The weekly statement of the Bank of England shows the following changes: Total reserve decreased £2,839,000; circulation, increased £60,000; bullion decreased £2,238,000; other securities decreased £2,700,000; other deposits increased £630,000; public deposits decreased £4,906,000; notes, reserve decreased £2,656,000; government securities increased £576,000. The proportion of the bank's reserve to liability this week is 47.22 per cent. last week it was 48.52 per cent. The rate of discount of the bank remained unchanged to-day at 2 1/2 per cent.

For Professional Men

Habit is often another name for inertia—a lack of resourceful adaptation to changing conditions.

Semi-ready Tailoring is the way of today—scientifically correct, it is wholesale tailoring in a big way, and a suit of clothes can be selected, finished and delivered in an hour.

Shaped in the various physique types to overcome all figure of physique peculiarities—the Semi-ready system permits of better fitting garments than any of the most talented tailors can produce. None can do better.

For the man who thinks we can't, we stand ready to prove we can fit him—and we assume all risk.

Easter Saturday in the Cloak Department

WHEN YOU read this announcement of our plans for Saturday make up your mind to shop early. You know what Easter week is in this department. You know that the last day before Easter is always the very busiest. This Easter is unique in that we have vastly increased the department's popularity over all former periods. We have doubled the space with stock in due proportion, we have made the department palatial in its appointments, and increased our power of serving you comfortably.

The way to take the fullest advantage of our facilities for equipping you for Easter is to come during the first two hours of the business morning. We can give you more personal attention then than after the full tide of shopping commences, as it does at 10 o'clock. The special morning emphasis for Saturday follows:
