Waves of Infantry Cleared German Front in Short Time.

### FIGHT FOR TUNNEL

Remarkable Underground Position Now in Hands of the French.

By ASHMEADE BARTLETT. With the French Army on the Somme Front, Oct. 3, via Chantilly, France, Oct. 3.—How the Village of Chilly was taken from the Germans in one brilliant dash by French regiments was related today by participants in the action to the correspondent of the Canadian Press when he visited that position, which is one of the most important on the allied line.

The artillery preparation was unrelenting, the shower of projectiles of all calibres lasting for two days. Everything in the Village of Maucourt was razed. Scarcely even the foundation of the wall remained standing a Chilly, where the Germans had massed

Then the French, who had assembled in the most advanced dugouts, dashed out. The first wave reached and cleared the Germans had retaken their places after the artillery had ceased to fire, and they were able to emerge from their burrows. They were all killed or captured. ### Win in Transylvania.

Altho opening their campaign against Bulgaria with a series of violent actions brought on after the withdrawal of some divisions from the Dobrudja, the Roumanians are prosecuting their offensive in Transylvania with vigor. In successful actions in the Ghurgill and Hargitta mountains they made prisoner 33 officers and 300 men, besides capturing some wagons and war material. Further south in their drive towards Saneni the Rounanians took 300 prisoners and five machine guns in the Altui valley.

They report that the Teutons are roceeding with a violent attack in the Mount Oboroca region, near Petroseny. Asphyxiating gases are being used by the enemy.

The engagement in the Dobrudja has extended along the whole front, with the Bulgarians offering stubborn resistance to the Roumanian assaults.

Thereupon they were sorted in groups until more than 400 men and 10 officers were

Mrs. Harry Sifton Makes Presentation and Fine Program is Given.

Torrens Avenue School in Todmorden never held a happier throng than last night when the prizes won in the recent "held day," held a fortnight ago, were presented to the winners. The big athletic rooms were crowded to the doors, and from the first to the last there was not a dull moment in the proceedings. Amos Alpress was in the chair and the prizes were presented to the winners in turn by Mrs. Harry Sitton, John A. Macdonald and George Davies, the two lajtier members of the Torrens Avenue School Board. W. F. Maclean, M.P., was present during the evening, and warmly congratulated the committee which had charge of the sports, and the children for the splendid success of the undertaking. Others who spoke briefly were George Davies, John Galbrath and J. A. Macdonald. George Moses gave a number of patriotic songs in fine style, and Miss Pranks delighted the big crowd with her vocal and musical selections. The gathering was voted the best over held in Todmorden and will be an annual event. More than \$400 was raised in cash for the purchase of prizes for the children.

York Township Council to Inspect Route of Spur Line

On Thursday afternoon the members of the York Township Council in company with the engineer and a number of interested parties, whose farms are more or less affected by the proposed new Canadian Northern spur line from Duncan to the C.P.R., will go over the routes surveyed, meeting for this purpose at the home of Joseph White at 3.30. A number of road crossings are affected by the spur line, and the idea of the inspection is to arrive at the best means of overcoming the crossing. Farmers interested along the route are invited to join the party.

similar to that enjoyed by other parts of the city.

The following is a copy of one of the many communications from the North Toronto district sent by H. E. Ewing, chemist, 2247 Yonge street, which reads: "As a resident of North Toronto, and deserving better facilities for delivery of express in this district, which up to the present time we have not had, I write this letter in the interest of myself as well as the other 15,000 residents who I persume are in the same frame of mind as I am. doors the same as it is now in other parts of the city."

E. Claver, drygoods, 1224 West St. Clair avenue, writes: "As a merchant outside of the express delivery districts I take the liberty of asking you to use your influence in persuading the companies to deliver parcels to the outlaying districts of this city. The roads are as good in the new districts as in the old, and as taxes are as high here as in the heart of the city you can readily see the injustice. To allow the companies to continue as they are is a liberty that they unjustly take advantage of, and a hindrance to growing and prospering communities. Your influence in this matter will be not only a help, but an assertion of our rights."

Horticultural Society Wanted In North Riverdale District

In spite of the vagaries of the weather man thruout the season, North Riverdale garden enthusiasts have had a fairly good summer. Increased interest is yearly being taken in utilizing the back yards, either for growing flowers or useful vegetables, and considerable pride is taken by householders in general in the result of their efforts along this line.

As a natural outcome of this growth of garden work a demand for a horticultural society for the district has arisen, and, as this is the proper time to got arrangements made for next season, a meeting to this end was held on Saturday. A number of enthusiasts got together, and it was agreed to proceed with the formation of such an association, the district to be served being from Broadview to Woodbine avanue, and from Don Mills road to Gorrard street. There is every indication that suc ha society will de well in this area, and a further meeting will be held in a week or so, when all interested in this movement will be invited to attend. # The Problem of The Rug

TWENTY to six hundred knots per inch in the rug itself and possibly as many twists of uncertainty in the mind of her who sets out to choose it! Shall it be a Kirmanshah, delicately love y, boasting a neutrality of tone that permits the adoption of any color scheme? Or a Tabriz, vivid with rose red and ivery white, or a Bokhara rich with coppery brown? Or should heed be paid to economy and search be restricted to the Wilton and Axminster weaves—to the clever copy of the Oriental carpet or to the plain velvet-like square with the floral or band border? Or does the simplicity of the room demand a Scotch Art square or a Brussels square in quaint little lattice effect? The sketches below are published with the hope of converting such question marks into exclamations of satisfaction, and full stops of decision. They represent a few typical designs and values featured at the present time in the magnificent assemblage in the Rug Department.

With an alluring rose color ground, and a border and medallion of midnight blue, daintily patterned with ivory, bink and tan this seamless Wilton rug is a clever understudy, indeed to a fine Persian carpet, and offers very confidently to play the part of floorcovering in any daintily, well-furnished drawing-room or bedroom If preferred, it may be had with a soft wood green or light blue ground. Prices on the most-wanted sizes are as fallows:

Ready for any scheme the artistic-minded householder may have in view, the plain rug with the seif-tone band bordering its outer edge may well be deemed a general favorite. As though to the manner torn it will grace the floor of the bedroom or boudoir furnished in the periol of Louis XV., or with equal facility play its part in equipping the Jacobean living-room. The rug above is a seamless Axm nster of beautifully velvetty pile, the choice of colors including an enchanting French blue, a soft wood green, and a rice golden brown. Famous as Devonshire cream or Limerick lace is the Kirmanshah rug famous for the feathery delicac of its patterning and the exquisite daintiness of its coloring, the most usual combination of tints bein fink green and tale blue on creamy ivory ground. For drawing room or other ceremoticus apar ment the Kirmanshah is the rug par excellence. It is obtainable in a range of sizes running from 6/t 11 in. by 6ft. 3 in. at \$200 to 18 ft by 11 ft. 2 in at \$350. A characteristic design is that tillus, rated 2 in at \$550. Chinese and charming are synonymous terms just now in the realm of a tistic house-furnishing. In New York there is a positive craze for the Chinese rug. And this seamless Axm nater square above is a happy example of the decorative trend. The ground is a dark, clear amber, and the little formal medall ons and informal flowers are worked out in willow blue and brown with a touch of ivory. The border is a combination of all shades mentioned. By way of variety you may have the same design on a gray or blue background. Prices are:

For its dainty coloring and simple design, the Scotch art square is dear to the heart of her who knows how to to evolve a charming bedroom. The square illustrated above is one of the most winsome of its kind-tinted in a cool clear blue of a deep Wedgwood tinge. The tiell's effect in the centre and the conventional border are worked out with an under-tone of white. The same attrac ive design may be had in green, blue or gray, in these sizes and at

7 feet 6 inch by 9 feet 7 " 6 " " 10 " 6 inch 9 " " 10 " 6 "

The glow of warm rose red tones radiates from this beauteous Melas rug. It is the coloring of the background and provides a spendid foil for the lace-like medallions and flowery motifs which pattern it with ivory, tan and bine The Melas i a faithful copy of the old Persian Meshed, bu being woven in Asia Minor t is immeasu eaby les expensive its prices ranging from \$18000 for a rug size 10 ft. 1 in by 8 ft. 2 in., to \$490.00 for one sized 17 to 9 in. ty 12 ft 3 in A Melas of this type lends itself delightfully to dining-room criving-room furnishing.

For a living-room or a dining-room boasting the popular brown and green color scheme, here is an admirable rug at a moderate price—a seamed Wilton square, faithfully reproducing an Oriental carpet of the warm-toned, bold-patterned Kazak design, the "all-over" medallion effect being carried out in a soft medley of tan, deep blue, and terra cotta. Representative sizes and prices are as follows:

Here is another attractive rug at an attractive price for her who wants a covering for sitting room o dining room floor. It shows the Oriental influence in its pattern, and its coloring is the popular blending of brown, tan and olive green. It is a seamed Wiston square, and may be had in sizes ranging from 6 ft. 9 in. by 9 ft., priced at \$35.00, to 9 ft. by 12 ft. at \$62.00.

### BURGUNLY, BOLIVIA AND BROCADE SPELL THE **FASHION VERB "TO BE"**

The First a Color, The Second a Cloth, and The Third a Silk or Satin.

EW YORK. Oct. 2nd. 1916.—When you come down here to learn the mind of Fifth Avenue concerning the modes you meet with no difficulty in obtaining her opinion. If she approves a boot or a bonnet, she tells you so in manner emphatic. Every woman wears it, from the slimmest sweet "flapper" to the portly dame whose chin is vanishing into her throat. And previous to this actual wearing of it, the shops and little inner shrines of style are showing it with an unanimity of enthusiasm that leaves no doubt as to its ultimate vogue.

Thus you are assured of the fact that Burgundy red is one of the smartest of all colors for Fall—a rich deep, lusclous tone that has almost as much purple in it as red. For suits and top coats, especially, it is immensely in favor, while the afternoon gown of Burgundy velvet is the very embodiment of fashion.

top coats, especially, it is immensely in favor, while the afternoon gown of Burgundy velvet is the very embodiment of fashion.

You learn furthermore that the fabric of first choice for the sil-conquering separate coat is Bolivia cloth, first cousin to the familiar duvetyn, only thicker, and deeper and softer. Clothe yourself in a dress of navy blue serge or satin topped by a wide swirling, full-length coat of Burgundy Bolivia cloth and you may rest assured that for walking or motoring you are garbed according to the latest correct idea of this city whose synonym is "chic." For suits, too, Bolivia shares with wool velours the place of first favor

As for the brocades which offer themselves for evening gowns and opera wraps, they are radiant as a Georgian Bay sunset in color, and sumptuous as an Eastern fairy tale in pattern, the design consisting generally of great spidery medallions embroidered in gold or silver threads. To look down on the ball-room of a certain fashionable hotel the other night was to imagine a small Durbar in progress.

If the matter of styles might be reduced to a formula, thus it would read: Suits are in long-coated Russian effects, collared, cuffed and banded with fur. Afternoon dresses show the long, straight lines of the Moyen Age, Evening dresses reflect the modes of the periods of Louis XV. and Louis XVI., with characteristic fondness for handsome silks, sparkling itsues, lovely laces, sportive ribbons, naive flounces and Danniers a la Watceau. As for the top coat which mist be counted in any wardrobe pretending to completeness, it is of the same wide-sleeved, full-skirted species as the swager English coaching coat. And, as stated above, it is at its smartest when composed of the new Bolivia cloth—in Burgundy, nigger brown, Russian green, or pla. purple. It should be full length.

And speaking of first things last, the English walking boot of tan Russian calf is basking in the sunlight of American approval. Sometimes it has the low sports heel, sometimes the slightly higher millita

So many returned soldiers in need of medical treatment were attached to this hospital that it was necessary to allow the neathnest patients to live at home and attend daily for treatment. For this reason the opening of the old Knox College was hurried. It has been proposed that the out patients will be called in and cetained at the spadina Hospital until they have fully recovered. Senator Lougheed will be one of the chief speakers, and the music will be furnished by the Queen's Own Regiment Band. A number of first-class engineers who have been rejected as medically unfit for overseas are needed for the new hospital at once.

All of those who saw the picture when it was presented to the appeal board were intensely interested; and all of them, including Sir John Headrie, heartily approve their exhitition. Both Lady Guinness and Mrs. Fergu-son saw the entire picture and de clare that women can witness the film without hesitation. Both of these

without hesitation. Both of these ladies approve the picture.

The "Battle of the Somme" pictures represent the first film depicting actual warfare on the British front which has been shown in theatres without British censorship. Sir Douglas Haig, the British commander-inchief, edited the wording of the film, but changed only a few sub-titles.

War films have become a familiar feature in picture house programs, but never before has the tragic reality of this war been depicted with such grim fidelity and fulness of detail as the Somme battle pictures, which were photographed by permission of the war office by the British Topical Committee for war films,

The picture omits little of the horrors and nothing of the heroism and the sustained endeavor of the scenes upon the inematograph gaze. Those upon the cinematograph gaze. Those who argue that the ghastliness of the war should not be so forcefully brought home to the public mistake the purpose of the film. It is intended as an education, not an entertainment The abiding impression of those who witness it is one of horror and repulsion, not so much from war in genera but from the action of those who brought this terrible cataclysm on

The picture has been described by Lloyd George, British secretary of state for war, as "an epic of self-sac-rifice and gallantry, and if the exhibition of this picture does not end war God help civilization. Mothers, wives sisters and affianced ones your hearts will hear," he said, "your voices speak in honor and glory of the living and the dead. ### SIR HAMAR GREENWOOD ARRIVES IN TURONTO

Says Industries Will Not Accept Orders for Other Than War Purposes.

Sir Hamar Greenwood, Bart., M.P., and Lady Greenwood arrived in Toronto and are staying at the King Edward Hotel, previous to continuing their trip to Winnipeg. Sir Hamar will return to England about the middle of the month where he intended will return to England about the middle of the month, where he intends to remain as a champion of imperialism. Yesterday he told of how the old country, as one man, was devoting itself to the war. No industry, speaking generally, he said, would accept an order unless that industry was not required for war purposes. The whole maritime fleet was under the control of the admiralty committee of shipping and business men and at the outbreak of the war the railways went under government control.

To smash the German Empire was the common objective for which the people, as a whole, are organized. Work proceeds with a fierceness and a grimness never before seen in Britain.

"There is no doubt if the prices go much higher in Britain, the govern-ment will be compelled to control absolutely the food, and some raw material products. The whole trend in Great Britain is toward government control of the necessaries of life and industry," said Sir Hamar.

### **EVOLUTION OF LIFE IS** THEOSOPHICAL THEORY

Evolution as the unfolding of creation, under the spiritual guidance of God, or the divine power of nature, was a theory set forth by Charles Lazenby, B.A., in a theosophical lecture last night in Canadian Foresters' Hall, at which 200 were present. All life was divine energy manifesting itself in outer and constantly-changing forms, and humanity, in association with those forms, gathered the experience of the ages by assisting the upward trend of lower forms of life, from mineral to vegetable, thence to animal and human levels, and surpassing that to the realization of Godhood. All occultists were servants of the great law, pledged to minister to those of lower levels. No one could be forced into such servitude, which was voluntary, and every man had to decide for himself when the time had come. Some must pass thru many lives on earth, yet before they could respond to the call of the Master of Galilee, "If any man would come after Me. let him take up his cross daily and follow Me." Men reaped exactly as they sowed, each life on earth being the result in character and circumstances of thought and action in previous lives. Once knowing this, any man could control his own future and attain the level of the highest types of manhood, and know the Masters.

# Are We Becoming Hysterical?

OWE THINK that the markets of the world can be upset by a war involving nearly the whole Caucasian race without its having its effect on the food costs of Canada?

It is not British Fair Play to stir up the people against any industry before the facts are known. Investigate if you like but reserve your judgment until you complete your investigation and know your facts.

The basis of success is Service.

The law of Price is Supply and Demand. The law that curbs Industries is Competition-not By-Law.

With the above natural laws operating constantly and a law on the statute books prohibiting combination in restraint of trade or to unduly enhance prices, the loose talk that is going on in some quarters seems uncalled for. If the law is being broken, convict the offender and apply the penalty.

We have introduced the subject in this manner because we are going to be the next large distributor to raise the price of a necessary article of food.

We ask you to give heed to our statement regarding some of the conditions that make the advance necessary. For the past five winters we have sold 21 Pints of Milk for \$1.00, and during this time milk has steadily increased in price, until an amount of milk that at the beginning of the period cost \$11.90, at the end of the period cost \$13.23, or over 11% more, and on a basis of contracts made for milk this winter the same amount of milk will cost \$16.97, or over 42% more than it did five years ago-this is the principal reason for the in-

Labor has increased as well. It cost us \$17.07 for labor in 1912 to handle the same amount of product that in 1915 cost \$20.37—an increase of 19%. This item alone amounted in 1915 to over \$48,000.00, and was a legitimate cost to add to the selling price, but we hoped th 1916 would be more favorable. Instead, labor conditions are worse, and to add to the complexity of the situation, our farmers have had a bad season, averaging about half a crop, and they are demanding a price that figures 28% above last winter's price.

These are the main reasons why we are obliged to raise the price of milk this Fall. But even at 11c or 12c per quart, any dietician will tell you that milk is still the cheapest food you can put on your table, especially when you consider that "Milk, in itself, is a perfect food, containing all the materials necessary for the nutrition and repair of the human body."-(Department of Public Health, Toronto.)

There are no abnormal profits in our business, as our annual audited and published statements show. When an industry is making big profits it attracts capital and more go into the business-when conditions are unattractive it has the opposite effect. In 1911 there were 175 milk dealers serving Toronto, in 1916 only 99, according to statistics furnished by the Department of Public Health.

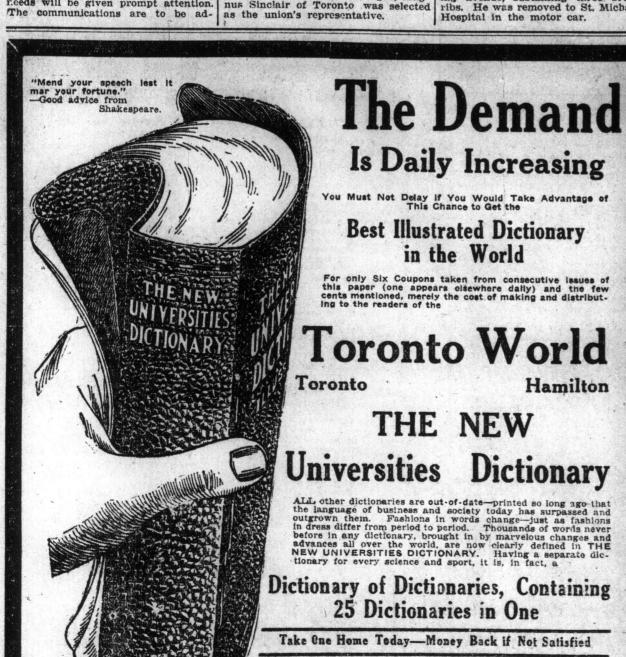

We have gone into this lengthy announcement because we want the confidence of the public. We set a standard for Toronto when there was no standard-we could carry on our business on a much lower plane and still be able to get a license. Only half of the dairies doing business in Toronto to-day are designated as "First Class Dairies" by the Health Department—visit some of the worse ones and you will understand the difference in the cost of operating the City Dairy-but to lower our standard is to trifle with the health of our customers, particularly the babies, and must not be considered.

We want a margin of profit that will enable us to maintain our plant, equipment and service up to the high standard that has always been our aim.

It is the "Pertiklar Peeple" who have gained for Toronto the reputation of having the best milk of any City of its size on the Continent—and we believe that the "Pertiklar Peeple" don't want us to serve them at a loss or on a margin of profit that will endanger the permanence of the service.

Dear Annie Laurie: I have had no cause to write to you before, but after reading the letter of that broken-hearted girl printed in The Sunday World I felt I just must write to you, as I feel deep down in my heart for her and would like to be a friend to her all thru her trouble. I am an English girl out in this country alone earning my own living, and would dearly love to have a girl friend whom I could treat like a sister. Magdalene is in no condition to go to work, but I think we could come to some conclusion which would put matters right in that respect, as I am sure she would be independent rather than ask for assistance. ### Conscription

Sir William Peterson, president of McGill University, recently returned from France, endorses conscription with a whole heart. In England he says everybody is glad that conscription is in force there.

"And that," he continues, "is what we have to get into our heads over here, because it would be a most glorious thing for Canada to help to supply perhaps the last half million men that are needed to win this war."

The appointments of directors in recruiting announced yesterday were not made with undue haste or precipitation. We trust the directors will not follow the policy of the government in over-deliberation. Months ago we suggested Hon. Mr. Mason as the best man to handle the recruiting situation, but nothing was done then. It is almost obvious, and it is difficult to avoid the belief, that the government is not as eager to enroll men as Sir William Peterson would be. As in many other things the government appears to be out of touch with popular opinion and with intelligent convic-

We trust Col. Brock will find a way to transcend the efforts of the government, and do something effective for the maintenance, if not for the increase, of the Canadian forces. It was the announced intention of Sir Robert Borden to have 500,000 men enrolled. This was generally understood to mean 500,000 effective men on service. Until we realize this expectation Col. Brock and his colleagues have their work cut out for them.

### Prof. Riethdorf's Experience

Prof. Riethdorf's letter elsewhere is an interesting comment on a phase of not long survive in Ontario. We have probably learned to discriminate more justly in two years between the man aim and policy, and the man who has our boys and girls to read them. a German name or speaks German on account of his surroundings. Some of the most patriotic French speak German in Alsace and Lorraine. It is to be a British subject, as millions of our co-citizens can testify in all parts of the world.

Prof. Riethdorf has had an unpleasant experience, but as a loyal Briton he has returned to the land of his adoption, and the birthplace of his children. He has resolved "to stick It out," and it will be strange if a way does not open up for him to do his bit as he has done before for his Can-

### Fewer Books in the Future

Of the making of books, we are told on high authority, there is no end, but the rise in price of paper is liable to set a limit to their publication. Book paper has gone up one hundred per cent., and the publishing trade is already affected. The paper-novel, we are told, will disappear, and the price of bound volumes will go up. Some of the magazines are likely to fall by the wayside, and it is observed that the news dealers buy sparingly, for they can no longer return unsold numbers The rise in the price of news-print is

felt by the newspapers everywhere. The general public is most keenly interested in the newspaper end of the subject. Everyone reads the daily paper, and many read nothing else. The rise in the price of book paper will affect a smaller number of people, including mature students and the parents of school children. But the novelreader will be the hardest hit.

For the falling off in the output of fiction few will openly express regret. English-speaking people read novels as they write poetry-in a shamefaced way, and as tho it were a weakness to be hidden from their fellow-men.

Dickens with the novel brought about great reforms in England, and writers in the United States, to some extent, have molded public opinion and stirred public sentiment in se manner. We are not sure but that the novelist, with a purpose, might find a good field in Canada. We mean of course some higher purpose than describing the scenery along one of our transcontinental railways.

But if fewer books are published. they will be more carefully selected and more carefully read by those who purchase them. As it is, people fond of reading read too much. Reading with many is a mere dissipation, like chewing gum or smoking a cigar. A book worth reading is worth reading slowly and pondering over. ### Physicians and Alcohol

On grounds of health and efficiency The Canadian Journal of Medicine and not really necessary to speak English Surgery devotes its leading editorial to an appeal of physicians to support the Prohibition Act.

> "Let us hope," says the article, "that they will unitedly stand shoulder to shoulder with the government, which is the people, whose love and confidence is reposed in them, and put this thing thru in a thoro and satisfying manner, to save the province before it stumbles into the pitfall it has already digged for itself in an annual disbursement of millions of dollars for drink."

The journal bases its views on the experience of the medical practitioner. He has recognized, it is said, that all habits such as late hours, over-eating, inactivity, or gambling, control men's and women's health and efficiency.

"He knows full well that alcoholism, whether treating or solitary drunkenness, dulls the perceptions and moral sense, making the tippler and drunkard unsafe. nay, dangerous in any scientific engineering or business ventures." The journal includes the medical

During the signing of the register Mr. Frank Blackford played a violin solo in his usual artistic manner, Mrs. Massey afterwards holding a reception for the immediate relations and friends, when she was wearing a handsome and becoming gown of black satin meteor embroidered with jet, and carried a bouquet of mauve orchids. Mrs. Tovell, the bride's sister, wore mauve Georgette crepe over white satin, trimmed with bands of mauve satin and Brussels point lace, a large mauve hat and carried sunburst roses. After the reception Mr. and Mrs. Goulding left for a few days' trip to Boston and New York, and will leave for England this week. The bride traveled in a gown of delft blue velour, the coat trimmed with chinchilla squirrel with muff to match and a black panne hat trimmed with squirrel and French flowers. Mr. William Goulding, the father of the groom, was present and Mrs. Goulding, the latter wearing a very becoming frock of fine black Chantilly lace over a pink petticoat velled with black tulle, the correspondent.

LAYS EGG ALMOST EVERY DAY FOR YEAR, THEN DIED

Ontario Agricultural College Has Just Lost Remarkable Hen.

Ontario Agricultural College produced a record-breaking hen this year. It was a barred rock and laid 310 eggs in ten days less than a year. The

meat and egg production.

The production of this hen is the highest recorded in Canada for any nen, and is believed to be the highest in the world for a barred rock. The world's record for laying is believed to be 314 eggs in a year. The champion hen died ten days before the end of its year. There can be no doubt that it would have surpassed the champion had it lived, for it was producing an egg a day with the utmost regularity. A number of the hens in the keeping of the poultry department are pro-

ducing well over 200 eggs a year.

Three years ago the record hen laid 282 eggs in a year, so tha tthe O.A C. has beaten its own record. Cepartment is in charge of Prof. W.R. Graham, one of the ablest poultry men in the country.

Long nburg. N. S., Oct. 3—The fishing schooner Leta J. Schwartz arrived here today and reported having lost five of her crew in a gale enwas on her way home from the banks. The crew were engaged in taking in the riding sail when a heavy sea wash-ed the deck from end to end, washing thive men overboard.

The marriage took place very quietly yesterday afternoon at 2.80 o'clock at Dentonia Park of Dorothy, youngest daughter of the late Mr. Walter E. H. Massey and of Mrs. Massey, to Mr. Arthur M. Goulding, Royal Flying Corps, son of Mr. William Goulding, St. George street. The Rev. A. I. Tetryberry, pastor of Hope Methodist Church, officiated, assisted by the Rev. Dr. W. T. Perrin (Boston), uncle of the bride. The whole house was beautifully decorated with Ophelia roses and ferns in profusion. The pretty, graceful young bride, who was brought into the room and given away by her uncle, Mr. Chester Massey, wore a lovely gown, the corsage and train being of white satin, the petticoat of tulle was hand-embroidered with seed pearls and draped with beautiful antique Brussels point de gaze. Her veil, arranged in Cleopatra fashion, square across the forehead, was of Brussels applique, fastened with a small wreath of orange blossoms, both veil and lace being an heirioom. Her shoes were embroidered with mother of pearl and she carred a small shower bouquet of sweetheurt roses and lilles and wore the gift of her mother, a pearl necklace (the groom's present being a silver mesh bag). Miss Madeline Massey was her sister's bridesmaid, wearing a very pretty gown of apricot crepe de chine and a bronze hat with roses to match the gown, bronze shoes and stockings, and carried Ophelia roses. THIS WILL BE SIXTH

New York, Oct. 3.—The Boston American League Club and the Brooklyn Nationals will meet in the 1916 world's series, the opening game of which will be played on Braves' field at Boston next Saturday, Oct. 7. The teams will remain in Boston over Sunday and play the second game of the series there on Monday, Oct. 9, weather permitting, after which they will return to Brooklyn for two games at Ebbets Field on Tuesday and Wednesday, Oct. 10 and 11. The fifth and sixth games, if necessary, will be played on Thursday, Oct. 13, and Friday, Oct. 13, at Boston and Brooklyn respectively. Should a seventh game be necessary to decide the series, the location of the contest will be decided by the toss of a coin as in past years.

The meeting of the National Commission, which arranged these details, was held here tonight and was attended by President Tener of the National League, Chairman Garry Herrmann of the commission, President Johnson of the American League, President Club, and President J. J. Lannin of the Boston Americans.

President Lannin suggested that the series be opened at the park of the Boston Nationals, where the American Leaguers will stage all their games, owing to its immense seating capacity, instead of deciding the place of the initial game by the customary toss of a coin. This plan was adopted in view of the fact that the Brooklyn Club will require several days in which to install additional seats and boxes to accommodate the large crowds which will attend the series.

The commission dismissed the proposal to alternate the games between the contending cities, but decided that in case more than four games were necessary, the fifth and sixth would be alternated with the place of the seventh decided by the flipping of a coin.

Two American and two National League arbiters will work in the series at a stipend of \$1000 each.

J. G. Taylor Spink of St. Louis was named as the official scorer for the National Commission and the Baseball Writers' Association Chapters of Boston and Brooklyn were given the right to

any official capacity while away from home.

The commission announced the eligible players as follows:

Boston Americans—W. F. Carrigan, manager; Agnew, Barry, Cady, Foster, Gainor, Gardner, Gregg, Henriksen, Hoblitzel, Hooper, Janvrin, Jones, Leonard, Lewis, Mays, McNally, Ruth, Scott, Shore. Shorten, Thomas, Wagner, Walker, Walsh and Wyckoff.

Brooklyn—W. Robinson, manager; Appleton. Cutshaw, Coombs, Cheney, Daubert, Dell, Getz, Johnston, Miller, Malls, Myers, Merkle, Marquard, Moyers, Mowrey, Olson, O'Mara, Pfeffer, Rucker, Smith, Stengel, Wheat.

The urppires were announced as follows: American League—Dineen and Connolly. National League—O'Day and Quigley.

the National League Pennant, While Phillies Lost.

Brooklyn, Oct. 3.—Brooklyn cinched the National League pennant today by defeating New York, 9 to 6. The victory gave the leaders an advantage of 2½ games. They can lose their two remaining games, and Philadelphia can win the two it yet has to play, without changing the position of Brooklyn. Pitcher Smith's poor work in the field gave New York an early lead. Pleffer relieved Smith and pitched a fine game. Brooklyn batters pounded Perritt and George Smith hard. The batting and fielding of Mowrey featured. Robertson led in batting for New York with four hits in as many times at bat. Score;

RUSSELL AND DUNN MEET NEXT MONDAY

Frankie Russell and Johnnie Dunn have been matched for a fifteen-round go at the Star Theatre after the evening performance Monday (Thanksgiving) night. When they last met at Camp Borden in an eight-round bout, it was said by those at the ringside that a draw was the only decision possible. The coming mill is seven rounds longer than the other, and it should be possible for a decision to be reached.

Russell was never in better shape than he is just now. Accompanied by his trainer. Tommy Daly, he arrived in town Monday night for his final work-outs, and Daly says he never had a man in better condition than Russell. The other boy has been training hard and consistently, and from reports just received, will be ready for Russell when the gong sounds.

The fact that the prize for which they will scrap is a handsome silver loving cup presented by the Hon. George P. Graham, will be an added inducement for each boxer to display all the cleverness of which he is capable.

It is a certainty that Russell's admirers will attend in large numbers, since this will be the last appearance on this side of the ocean until after the war, owing to the departure soon overseas of the Sportsmen's Battalion.

Brooklyn, Oct. 3.—Declaring that he was disgusted with the playing of his team, Manager John J. McGraw of the New York National League (Dub left the innings of today's game between Brooklyn and New York, and retired to the Clubhouse. Manager McGraw did not appear on the field after that innings.

In a statement after the game, in which Brooklyn clinched the National League pennant. McGraw asserted that, altho he did not believe any of the players deliberately tried to favor Brooklyn, they had refused to obey orders and had disregarded signals.

Word comes from Camp Borden to the effect that the Tigers will be ig great shape for the openling western game of the Soldiers' League, the game with the Toronto soldiers in Hamilton. The boys work out each afternoon at the camp, the officers having excused the members of the team from military duty until the big game. A rooters' club of 100 voices being formed, and there promises to be a big vocal struggle, as well as a football struggle, for the Toronto battalions also have a rooters' club.

Next Saturday the first game of the Overseas Rugby League will be staged at Lansdowne Park, Ottawa, when the 207th of that city meet the 244th of Montreal, better known as Kitchener's Own. This will be the first of the homeand-home series between the two teams in the east to decide entry in the final for the game with the winners of the Hamilton. Soldier Teams Preparing for Opening Games—Football at Varsity.

The City Rugby League completed its organization at a special meeting in the Central Y.M.C.A. Nine clubs decided to play—two senior, four funior and three its pounds. The teams are: Senior—Capitals and Beaches. Junior—Capitals, Beaches, Excelsiors and Riverdales.

115 pounds—Capitals, North Toronto and Parkdale.

The seniors will play a double-schedule and the juniors and juveniles home-and-home games.

Hamilton's Sportsmen's Battalion, better known as the Tigg's, will play an exhibition Rugby game in Ottawa on Saturday, Oct. 28, with the 207th Battalion, coached by Frank Shaughnessy. Captain Bobby Kerr received the invitation to go east, and promptly accepted. Jim McCuaig and a large number of Ottawa's best footballers are with the 207th Battalion, and the game should prove a big drawing card. Even tho it will not be a league fixture, there is bound to be the same old rivalry that has always existed between the famous yellow and black and the Capital City representatives.

Committee Appointed to Dis- Hon. and Mrs. T. W. Crothers cuss Matter and Make Report.

At the meeting called by the lieutenant-governor in the parliament buildings yesterday, to discuss methods of raising money for the British Red Cross Society on Oct. 19. Kenneth Dunstan, chairman of the Toronto branch of the Canadian Red Cross Society, led the movement which received much support to make the Special to The Toronto World.

Ottawa, Ont., Oct. 3.—"The employment of women in the munition factories in Toronto has been a splendid success." said Hon. T. W. Crothers, minister of labor, today on his return from Toronto. While there he and Mrs. Crothers visited a number of factories to be witten.

rectived much support to make it a joint campaign for the British and Canadian funds and for the Patriotic Fund also. After discussion, the lieutenant-governor named a representative committee to meet in the parliament buildings on Friday evening to go into the matter and report.

Mr. Dunstan said that the Torontobranch were determined to get \$250,000 this year. They had stood asidalast year for the two other great societies. He thought they should make a joint campaign for \$2,000,000 and share the money between them. Hon. T. W. McGarry pointed out that whatever the city might decide to do, the campaign thruout the province would go on with every assistance which the government could give it. Those who wished for a joint campaign must remember that the government had promised to pay for the expenses and the advertising of the British Red Cross campaign, and that if the campaign were postponed, the province could not make such a showing as had been made last year. It would be a pity to lose the sentimental weight that attached to a collection for imperial purposes on Trafalgar Day.

The committee named comprised: The lieutenant-governor, Kenneth Dunstan, Mayor Church. Sir William Mulock, E. R. Wood. W. P. Gundy, A. H. Campbell. W. C. Noxon, Col. Noel Marshall, Col. Frederic Nicholis, A. E. Ames, Arthur Hewitt. J. W. Woods, G. C. Marriott, Controller O'Neill, Ald. Ramsden, R. J. Copeland, President Falconer, Professor Baker, Mrs. H. D. Warren, Mrs. Willeughby Cummings and Miss Church.

Well-Known Barrister is Dead of Heart Failure

Charles H. Ritchie, K.C., died suddenly yesterday morning at his home, 141 Avenue road, from heart failure. He was bern in Quebec in 1851, but had spent his life in Toronto, where he was a well-known barrister. In 1872 he was called to the bar and later became a bencher of the Ontario Law Society of Upper Canada. As counsel for the Province of Ontario, the Dominion Government and Senate he appeared in many important actions.

The parks committee yesterday referred to the commissioner an offer of the Royce property in Earlscourt for five years for park purposes, at a rental of \$1 per acre. Assessment Commissioner Forman is against the deal because the owners want a remission of taxes, while the city has the use of the land. The city, he says, really will have to pay \$284 an acre per year rental. Under the rule of the monarchs of old Peru the birds were rigorously protected and the guano deposits carefully guarded. Three centuries later these protective measures materialized in a source of revenue to the country. Generation after generation of sea-birds had placed on their breeding grounds deposits of guano which, in 1853, were estimated by the Peruvian authorities to be worth \$620,000,000. per year rental.

# An Open Leiter to Office Managers and Purchasing Agents

THE OFFICE MANAGER and Purchasing Agent of a large firm said to one of our representatives :

"Johnson, why don't your people sell a complete line of office supplies in addition to Underwood typewriters?

'Among their connection they could place unlimited quantities of high-grade lines. You know, really good stuff-inks, desks, paste, filing cabinets, and so forth.

"I am tired of seeing itinerant office supplies salesmen-you know the type, forlorn chap that comes in and asks you to try some unknown brand of carbon paper, or pencils, or rubber stamps, even unto the little printer who begs for a chance to quote on one's

"I would much rather order all my supplies from a house like your's. Then, when I wanted something, I could be sure of getting

"If I could do this, I would put a sign in the outer office: 'All applications for the purchase of office supplies should be made through the United Typewriter Co.'

"In other words, your company would be the clearing house for my buying."

As the result of this conversation we have developed the most comprehensive business of its kind in Canada.

-To wit, the assembling for sale of the best of every conceivable kind of thing that goes into the equipment of an office.

No matter what it is you need in office supplies, you can buy it from us: Account books, adding machines, almanaes, art gum, aluminum loose leaf holders, bodkins, bevels, binders, innumerable carbon papers, chairs, chair pads, cuspidors, coupon systems—anything and everything that was ever thought of in the equipment of the office.

What's more, we sell them at the lowest market price.

We have assembled into a catalogue details and prices of all of the things we sell. It is a useful catalogue and cost quite some money to produce. But if you would like to use our organization as a clearing house for buying office supplies, we will send you a copy gratis.

It is made to slip into the lower left-hand corner of your desk.

You are probably aware of the service we give to buyers of Underwood type-

Well, the quality of the office equipment we sell, and the service we give to customers, is as good as the Underwood typewriter and the service that goes

We suggest, therefore, that you write us on your business letterhead for a copy

N. W. Rowell Tells Story of His Recent Visit to Trenches.

Special to The Toronto World.

Woodstock, Oct. 8.—The story of
his visit to the South African, Australian and New Zealand troops in War," were features of the address given by Mr. N. W. Rowell, K.C., M. L. A., at a public meeting held in the armories here last evening under the auspices of the Canadian Club. Mr. Rowell also described again his visit to the Canadian front.

In regard to the other Dominions. Mr. Rowell first mentioned the South Africans. "You will remember." he said, "that the South African Brigade was in the thick of the early fighting

was in the thick of the early fighting on the Somme. On the ship on which I crossed to France, were their reenforcements on their way to the Somme to take the place of the men who had fallen in the fight. One could not wish to see a finer body of soldiers. Nearly every man was a veteran. One could not but feel that a special place of honor should be accorded South Africa, the youngest of the Dominions in this struggle."

As to Australia, Mr. Rowell told of an incident most pleasing to Canadians. When he congratulated one of the Australian troops at Gallipoli, the answer was: "It was the work of the Canadians at the second battle of ypres which set the pace for us. We were then in Egypt and when we read how 'the Canadians had saved the situation we said to ourselves that Australia could not be behind Canada, and that when the time came we would have to acquit ourselves equally well."

Goderich, Ont., Oct. 3.—The men of the 161st (Huron) Battalion will arrive here from Camp Borden on Thursday for their last leave. Considerable surprise was expressed when the orders became known, as it was thought that the battalion would be encamped here for the winter. In fact, officials of the government were in the town inspecting buildings when the order for overseas arrived.

TERMINATES MARA LEASE Judgment on Application is Announced-Decision in Other

Cases Reserveu. Liquor men are taking advantag Section 145 of the Ontario Temperance Act, which empowers them to act as arbitrators for the termination of leases to formerly licensed property after the advent of prohibition. Two cases were heard yesterday and judgment was given in the case of the application of the William Mara Company, Ltd., for termination of the lease to the primises at 94 Yonge street, where there was a shop license. The application was granted. Anna Celosta Crowthra was named as the lessor.

The cases heard yesterday were those of Messrs, Hanna and Hassard, lessor, and James Fawcett, lessee, with regard to the ficensed premises at 260 Queer street west, where there was a shop license, and John Powell, regarding the Board of Trade Hotel premises, 59 Yonge street. In the latter case a claus in the lease provided for the cancellation of the lease the tenant on May 1. He is applying for release in the three months granted by the act.

Judgment in these cases was reserved. Section 145 of the Ontario Temperance

Judge Declares Reasonable Precautions Were Taken to Prevent Loss of Life.

On the ground that they had taken reasonable precautions to prevent loss of life while fumigating the Beverley Apartments, Judge Winchester in the criminal sessions yesterday dismissed the case against the Unceda Exterminating Company without hearing any evidence for the defence. It was alleged by the crown that G. H. Webb and Mrs. Margaret McBain, the proprietors of the company, did not take enough care in warning tenants of the apartments to keep out of their rooms while the fumigation was being conducted. John English, who was an occupant was overcome by the fumes and died almost immediately. The evidence showed that the young man had received sufficient warning.

### ACTIVITY ON LARGE SCALE.

Heron & Co., had the following at the close:

Montreal, Oct. 3.—Today's market was irregular, the paper issues being the only strong features, while yesterday's reaction in Dominion Steel was carried further. Wayagamack made a conspicuous advance of over six points and there was some demand for Spanish. There seems to be a real foundation for the purchase of the paper issues and the best of them particularly Laurentide are well worth attention. The general market has assumed a waiting attitude and this is only natural after recent activity. While a reaction would be only natural, we think and believe that market activity will continue on a large scale, at any rate for the balance of this year.

Kirkland Lake, Oct. 3.—Tough Oakes' 120 ton mill ran three 3450 tons in August, and a little more in September. Returns averaged \$23 at ton, or around \$175,000 for the last three months. Yearly dividend requirements are a trifle more than this. Dividend payments on the Tough Oakes, in which real mining operations began less than four years ago, already total \$333.187.50. Porcupine is not the north's only paying gold camp.

### WINNIPEG WHEAT MARKET.

Winnipeg, Oct. 3.—Winnipeg wheat closed 3 to 3%c higher, with October at \$1.674. November at \$1.65, December at \$1.60% and May at \$1.61. Oats were %c to %c higher, with October at 53%c, December at 52% to 52%c and May at 54°c. Barley closed %c higher, with October at 72%. Flax closed 2 to 2%c higher, with October at \$2.25, November at \$2.24½ and Degember at \$2.23½.

All previous records were broken when October sold at \$1.68½. The previous high mark had been when May sold at \$1.66½. None of the business of the day was back, spreading between Winnipeg May and Chicago December, and when a break from the high came near the end; it was mainly profit taking, tho some of it was naturally reaction from a top-heavy market.

Newray displayed a firmer undertone, and on some good buying advanced ½ point above its recent high at 70. Vacuum Gas made ground, selling up a couple of points to 42, closing at this figure bid. A good demand sprang up for Dome Lake, which sold higher to 59. Apex opened higher at 91.3 and closed fractionally lower at 2. Hollinger Consolidated held at \$6.98.

McIntyre opened at 147, reacted to 146, recovered the loss and closed at 146. It is rumored on the strect that something of importance will be announced in connection with this property. In the meantime everything is going along nicely, and, according to an official of the company, the September production will be a little larger than for August. The report from the engineers on the proposed merger of the McIntyre group is expected at any time, but whether or not the findings will be made public depends largely on what action the directors decide to take in the matter.

A small lot of McIntyre Extension sold at 45. There seemed to be a good demand for Imperial, over eleven thousand shares changing hands at 3 7.8. Trading revived a little in Teck-Hughes, which advanced again to 39. West Dome Consolidated weakened fractionally, selling at 37.

In the silver stocks Adanac appeared again, and it is rumored that this issue will be made active again. The treasury of the company is reported to have been enriched by a considerable sum, and the property will be energetically developed. The stock sold at 30.

Beaver held steady at 42 to 42½, and Chambers-Ferland reappeared, selling at 19. McKinley-Darragh property is more important than the officials of the company care to give out.

Ophir, among the smaller ones, was active around 9, and Peterson Lake came in for some trading at 24½. Right-of-Way advanced on good buying to 6½. Seneca sold between
