THEY'RE BETTING SIX TO FIVE THAT JOHNSON WINS

Thousands Early on Hand For Places at Ring Side

GIANTS IN BATTLE

No Pair Ever in Prize Ring Has Matched These Two—Willard's Men Say He Wins if Fight Goes Over 10 Rounds

Havana, April 5.—Although Jack Johnson and Jess Willard were not to meet till 12:30 o'clock this afternoon, Havana time, for the heavy weight championship of the world, the early hours of the forenoon saw thousands on the way to the Mariano race course, where the fight is to be staged.

Willard's backers were certain that their man would win if the fight went beyond ten rounds. Willard himself asserted that he was not in the least nervous over the result.

It was the old story of skill and strength against youth and strength, with the betting odds at six to five on Johnson's skill.

Johnson, one of the largest men who ever stepped into a prize ring faced an opponent measurably larger and ten years younger than himself.

Mighty Russian Roller Operating At Its Full Power

Czar's Forces Being Hurlled at Defences of Uzok Pass, After Which it is "On to Budapest"

Petrograd, April 5.—With Russian forces holding the Beskid and the Austrian forces in retreat southward, the mighty forces of the Czar are being hurled at the defences of Uzok Pass today, to clear away the last obstacle to a general advance into the plains of Hungary.

Night and day the Russian troops are assailing the Uzok positions of their foes. No rest is given to the Austro-German forces at this point. With its great resources in men, Russia is able to replace wearied troops with fresh men.

The Russian "Steam-Roller" was never operating with greater force than in the battle raging just north of Uzok Pass. War office officials assert that it is not within the power of the Teutonic troops to withstand the attacks they are undergoing, from the corps massed along their front.

"On to Budapest" is the battle cry of the Russian legions, when Uzok Pass is captured.

GOREN HAS BEEN HARD HIT

London, April 5.—A Saloniki despatch to the Daily Mail says that refugees from Constantinople confirm the report that the cruiser Goeben, now a Turkish warship, was badly damaged by striking a mine in the Bosphorus, and returned to her dock with a seventeen foot hole, which the German workmen have not been able to repair properly on account of lack of steel plates.

Berlin, April 5.—A despatch from Constantinople says the following statement has been issued by the Turkish War Office:—

"Our fleet yesterday sank two Russian ships, the Provident, of 2000 tons, and the Vastochana, of 1500 tons, at Odessa.

"Our batteries of Kum Kale sank an enemy mine sweeper which attempted to approach the entrance to the Dardanelles.

Neither the Provident nor Vastochana are mentioned in the last shipping records.

Text: "Rourke, one of Willard's advisers, thought that in the first ten rounds the advantage would be with Johnson, because of his superior skill. After this, O'Rourke thought, Willard would wear the champion down. In thirty rounds, or less, he thought Willard would win.

Both Confident.

The day broke with overcast skies and a decidedly cool wind blowing in from the sea.

Johnson and Willard both were up early. Johnson chatted and laughed with the men about him during his preparations for the trip to the ring, as if he had not a care in the world.

Willard said Johnson, ably assisted by a boxer would give him opportunity to make a better showing in the early rounds of the fight, but never in his ring career had Willard felt any discomfort from any blow delivered on his body, and he did not fear Johnson's jabs.

Willard seemed very fit indeed when he left his quarters for the park. Inflammation to his eye from a splash of chloroform liniment last night has yielded rapidly to treatment, and it is not believed it will have any ill-effects.

TO LOCATE HERE

A party of five boys from the Royal Masonic Home, London, arrived in St. John on the steamer Metegana yesterday and will be placed in homes arranged for them in various parts of the province. Another party is expected later.

THE GERMAN Bulgars Now Have Invaded Greece

Latter Rushes Reinforcements to Frontier—Second Band Defeated By Serbians—Field and Machine Guns Sent to Border

London, April 5.—A Daily Mail despatch from Salonika says: "The Bulgarian irregulars who were driven back from the Serbian border later descended upon the Greek town of Doiran (about thirty-five miles north of Salonika), and Greece is rushing reinforcements thither and to other frontier points, prepared for any eventualities.

"Another band of 200 Bulgarian irregular troops, which tried to cross the Greek frontier, was dispersed with the aid of a machine gun and left numerous dead or wounded on the field.

"It is alleged that in the Serbian villages through which they passed, the Bulgarians committed atrocities. The Serbian frontier guards have now been armed with field guns and machine guns."

BLAME GERMAN FOR INTRIGUE

London, April 5.—The roving band of Bulgarians, driven out of Serbia after its sudden raid, has penetrated Greece at three points, according to Saloniki despatches. The English press sees in this episode the possibility of developments which may mean a flare-up in the smouldering Balkan situation.

reaching London by way of Rome, however, assert that Bulgaria has agreed to give full satisfaction to Serbia. If this is true, probably the only sequel will be to Bulgaria a definite statement as to the policy she purposes to pursue.

All the Balkan nations, as well as Italy, are awaiting the outcome with interest.

Meanwhile Greece is massing troops along the Bulgarian frontier and Bulgarian reservists, according to advices from Saloniki, have received orders to join the colors. In the countries allied against Germany, Austria and Turkey, these recent developments are blamed upon German intrigue.

EFFORT TO MINIMIZE

Paris, April 5.—The Bulgarian irregulars who raided Strumitsa, Serbia, are estimated to have numbered about a regiment and a half, says a despatch to the Matin from its Nish correspondent. The total Serbian losses in the fighting are estimated at 125 killed and wounded, including five officers.

A Bulgarian diplomat interviewed by the newspaper "Osjik," declared that the raiders were disintegrated Bulgarian irregulars, wearing old uniforms. He explained the fact that part of their equipment was of recent manufacture, by saying that several regimental armories near the frontier recently had been entered by burglars.

More Than \$2,500 From Violet Day

Magnificent Response to Appeal For The Playgrounds Work

The receipts of Violet Day will be more than \$2,500. Just how much more it is not possible to say this afternoon, as the task of counting had not been completed and checked over. It is certain, however, that the public response on Saturday was magnificent, and the success of the Violet Day Playgrounds Association are profoundly grateful, as well as happy.

Mrs. H. C. Grout and Miss Alice Margaret Patterson, Edith Nae and Ethel Jarvis. Mrs. Emily Appleby went to headquarters and gave valuable assistance during the day, besides making a generous contribution to the fund.

DUFFY MAKES NEW RECORD ON BLACK'S

Never in the history of bowling in this city has there been such exceptionally fine rolling as lately. A few days ago on Black alleys, Thomas Wilson broke two records, and at noon today Urie Duffy succeeded in setting a new mark for five strings—117, 118, 100, 111, 145-84. The previous record was made by Thomas Wilson, 579.

TO ATTEND WEDDING

Mr. and Mrs. W. P. McDonald have left for Montreal to attend the wedding of their son, Louis McDonald, formerly of this city to a popular local young woman, Miss Jennie Fitzgerald. The groom has been residing in Port Colborne, Ont., where he has been doing well as a civil engineer since his graduation from McGill. Best wishes will be extended to Mr. McDonald and his bride.

FEARED MORE THAN 80 LIVES LOST IN STORM THAT LASHED SOUTH ATLANTIC COAST

Norfolk, Va., April 5.—Every possible effort was being made today to learn the fate of the Royal Dutch West Indies Company's steamer Prinz Maurs, believed to have foundered off Hatteras with a loss of about fifteen persons, in a great storm that lashed the south Atlantic coast Saturday.

Coast guard cutters, warships, and other craft, searching for the Maurs, found no trace of the vessel, near the spot from where she sent out wireless calls for aid, and it was feared crew and passengers shared the fate of fifteen of the crew of the tug Edward Luckenbach, drowned off False Cape, when the storm claimed the tug as a victim. No news of the Maurs had come early today.

Barges fared worse than other vessels in the storm. Many broke away from tugs, and were driven ashore. Lightships were torn from their moorings and driven before the wind, shore resorts were swept by wind and waves, and beaches were strewn with wreckage of small craft. In shipping circles it was feared thirteen men aboard the barge Timpico, which slipping circles it was lost Tuesday were lost.

Many thrilling rescues are reported. The captain and crew of six of the schooners Alice Murphy were taken from their waterlogged vessel by the steamer Lenape's crew, after they had been lashed to the mizen-mast for thirty-six hours.

AT FERNHILL

Work of Year in Cemetery Told at Annual Meeting

FINANCES VERY SATISFACTORY

Better Drainage to Creek Secured—Labor Bill Large—Assistant Superintendent Appointed—Gain of \$6,000 in Perpetual Care Fund

Steady progress in improvement to the property and provision for further progress in the future mark the annual report of the directors of the Fernhill Cemetery Company presented at the annual meeting, which was held this afternoon in the Board of Trade rooms, No. 1, J. G. Forbes presiding. The receipt of reports and the election of officers for the coming year formed the business of the meeting.

The directors' report is as follows:—St. John, N. B., March 31, 1916. To the Lot Owners of Fernhill Cemetery Company:

Your board of directors beg to submit for your information this thirty-sixth annual report with the report of your secretary-treasurer duly audited, containing a statement of the receipts and expenditures and also the report of the superintendent.

The board congratulates the lot owners on the satisfactory condition of the finances and the improved condition of the cemetery.

During the year the rock-cutting and back-filling in the section east of south avenue and south of Carnation avenue was completed and laid out in lots, the paths thoroughly drained and concrete walks laid throughout the section. The demand for lots fully justified this outlay.

The cost of preparing and laying concrete walks will eventually be found profitable, saving the constant weeding and purchasing of gravel. This method of path-making will be followed in all new sections and wherever found desirable. The steel forms bought this year for concrete setting have proved very satisfactory, saving the cost of lumber and making more symmetrical walks.

The directors have been for several years endeavoring to secure better drainage to the creek, which this year they have succeeded in doing. The expense in connection with the work was considerable, but the necessity was imperative. The capped part of the drain is lined with 800 sleepers to guard against falling in of earth, terracotta pipe is laid under the main road and brought into the cemetery grounds, where it can be extended as time requires.

The matter of securing a better supply of water for use on the grounds during the winter engaged the attention of your board. One year's supply was placed during the year, and we hope during the summer to put in additional pipes and hydrants.

Considerable attention has been devoted to the section lying between Victoria, Central and Elm avenues, and some 21,000 cubic feet of rock removed and earth filled in the place.

The cost of labor, tools and supplies having materially advanced, has caused a considerable increase in our expenditures, while an extra force of laborers to the number of forty-five in busy months, has been necessary. The labor bill this year amounted to over \$8,000, of which is absolutely necessary for the work on the grounds.

Your board have thought it necessary to appoint J. B. Clayton as an assistant to the superintendent, thus dividing the work and ensuring more efficiency. The company is to be congratulated on having the continuous services of our efficient superintendent for over thirty years. His position is not an easy one.

By the secretary-treasurer's report you will observe that the perpetual care fund has risen to \$85,000.25, an increase of \$6,000 for the year, which, considering the stringency in the money market, is most satisfactory. This has been invested in \$1,000 municipal bonds.

There are outstanding bonds for \$7,300 which must be provided for, but this will be nearly covered by amount due on sale of part of the Tuxton property.

The receiving total is demonstrating the importance of the reports this year having increased 97 per cent over last year. Improvements made during the year in "Winifred" have already mentioned include a new section for cheap lots in "Winifred" section, thoroughly drained, which will be purchased from the "Winifred" section, 100 Russian willows planted on 100 ft. strip in place of the old wooden fence, and thirty new trees in South avenue frames and other covers have been purchased to erect on lots facing "Winifred" to give weather the bridge over Silver Falls property has been repaired, and a new roof placed on the large barn on the grounds.

We cannot conclude this report without referring to the admirable service rendered by our secretary-treasurer, published with patience and faithful discharge of duty.

Respectfully submitted on behalf of the directors,

J. G. FORBES, President.

BENEFIT OF ST. JOHN AMBULANCE ASSOCIATION

The offering at the Easter Musical Service in Centenary church tomorrow (Tuesday) evening is to be devoted to the St. John Ambulance Association to help secure a motor for Dr. Murray MacLennan's base hospital in France. Besides several anthems which will be sung by the large chorus of the united Methodist choir, there will be solos by Mrs. A. P. Crockett, Mrs. B. L. Gerow, Miss Minnie Myles, O. B. Skelton, Eric Dickson, and J. Simhouse, also selections for two violins by Mrs. T. J. Gunn and Mrs. H. H. Macmillan. Miss A. G. Hira will be the accompanist and W. H. Brownfield conductor of the chorus. A crowded church is anticipated.

WAR STARTS SERIOUS ROW AT GARD GAME

Quebec, April 5.—A row in which Australian and Russian soldiers engaged in a knife struggle caused serious injuries to three men and the arrest of twelve participants Saturday afternoon in a game of cards at St. Anne De La Poudre near Three Rivers.

They engaged in a friendly game of poker, but incidentally, talk on the war was started and the fight ensued.

Johnson First At Ringside But Fight Not Started on Time

Ringside, Oriental Park, Havana, April 5.—The sun broke through a dark overcast sky as the crowds began to arrive at the scene of the world's heavy-weight championship fight. Ringside box seats for \$25, slope seats \$20, while \$15 was paid for grand stand seats. From 8 to 10, the price of other seats fell to 85 for general admission, but in addition to the fight prices, all spectators were required to pay \$1 for the privilege of witnessing the reading at the conclusion of the fight.

When ropes were reached the track at half past ten o'clock. The race course with green hills, some of which topped the towering palms. The fight management, seeing the possibility of moving picture machines, equipped with telescopic lenses, operating from the hills, had Guards stationed at all the vantage points.

Bob Vernon, official stakeholder and timer for the fight, took his place at the ringside at noon. Otto Pilot, timer for the fight, sat on either side of Vernon. President Menocal of Cuba arrived a few minutes after noon and took a seat in a box about 100 feet from the ring. At twenty minutes past twelve it was apparent that the fight might not begin until one o'clock. Johnson arrived at the track at 12:25, but did not appear until one o'clock.

At one o'clock neither of the fighters had appeared in the ring.

ONLY TWELVE, BUT GIRL CAN SPEAK EIGHT LANGUAGES

Winifred Stoner Able to Read in Seventeen "NATURAL TEACHING" METHOD

New York, April 4.—Winifred Stoner, 12, age 12, teacher of Latin, French, higher mathematics and geography, who reads seventeen languages and speaks eight fluently, can beat almost any one she meets in a spelling contest as well as Annette Kellerman and intends to be a cow-boy and an editor when she grows up.

Her mother, Mrs. Winifred Stoner, who is a real girl, she dresses in blue serge with a sash, wears her hair tied with two bows at the sides, romps, plays in a regular manner, in fact, and prefers not to show off if she can help it. But at the solicitation of her mother she will play the Latin oration, Cicero's "Contentment" rattled off poetry in Japanese and Chinese, and she has been known to play a game with a small boy of four who she has known since she was a baby.

This is Miss Winifred's first appearance in New York since she was twelve and she is to assist her mother in giving a free demonstration of natural education for the child at the Court Hotel, showing the methods and materials used in the natural education of which Mrs. Stoner is the founder.

She is a school teacher. "Winifred" taught in the Shaw National Education School, Pittsburg. Her pupils were children younger than her own. But if they didn't know a thing about their letters when they came to her they learned to write in ten days.

"I have simply taught her by the natural method, which is to learn something in English, and then to learn it in another language, in fact, the history of the world, the bones of the body, arithmetic in English, and what she learns that way, or what any child learns that way, she never forgets."

"I take a child who does not know how to read or write and teach him on the typewriter. We begin our education with the typewriter so that she can keep time as she plays four musical instruments, and can sing, dance and play the violin simultaneously. She has a 'toy' piano, and she plays it by her fingers. She brought the piano with her from the Hotel from Pittsburg, where she and her parents have lived up to their home temporarily."

The "toy" piano has also been taught by natural education methods, and can jump rope, all on the typewriter's strings, while when she makes a mistake at violin and whips its eyes.

Winifred is a healthy, strong and active young person. She swims, rides a horse like a cowboy, walks miles with out getting tired and enjoys the "movies," loves a machine—she plays it in a funny, and doesn't care especially about autographs, although she has made extensive speeches for the "cause," and has written pamphlets for equal suffrage societies.

Mrs. Stoner said that her daughter could recite 1000 classical poems when only five years of age. Dr. M. V. O'Shea, of the University of Wisconsin, said of the learned girl: "The typical college graduate knows less and can do less than this girl knows and can do."

She has had the equivalent of the college course at Leland Stanford Jr. University, but was barred on account of her youth from entering the college or receiving her degree.

IN 27TH YEAR MEETS WITH SEVERE INJURY Sussex Record.—One of Penobscot's oldest residents, Mrs. Edwin J. Fessenden, met with a very painful accident on Saturday afternoon last. Mrs. Fessenden, who is in her 86th year, has always enjoyed good health and attended to her household duties herself, while going out the door of her home she slipped and fell, breaking her hip bone. Doctor Fessenden, of Sussex, was summoned and relieved her suffering, but it will be some time before she will be able to walk again.

Mrs. Fessenden, who came to this country from England when eight years of age, remembers being in Scarborough, a sea-side town which was lately attacked by the German navy. She is 55 years of age, three brothers and one sister.

NOTICE TO IMPERIAL PATRONS The Imperial Patron of the Order of the Holy Shrine would do well to be on hand promptly at the commencement of each program of the Order of the Holy Shrine, 50 Douglas St. The program will contain the Heart-Scig Weekly; a three-part Vite-graph story, featuring Edith Storey and Henry Meade; a comedy and a very minute Song Festival by a quartet of colored gentlemen and dames. This latter attraction will be very entertaining, and it is expected their engagement will be highly successful throughout the week.

FUNERALS The funeral of Thomas Kyffin took place yesterday afternoon from his late residence, 25 Queen street, to Holy Trinity church, where burial services were conducted by Very Rev. J. J. Walsh, V. G. Interment took place in the new Catholic cemetery. The funeral was attended by many, and many beautiful floral tributes were received.

The funeral of Mrs. John Magee took place this afternoon following funeral services conducted in Trinity Church by Rev. J. J. Walsh.

THE CALL IS TO ALL WOMEN IN PROVINCE Mrs. E. Atherton Smith, regent of Royal Standard Chapter, Daughters of the Empire, hopes that individual women and women's societies all over the province will send in socks to be forwarded to the soldiers in the trenches. Societies should send in with the names of the individuals contributing them, so that all may be properly acknowledged through the press. It is desired to have a universal response from all parts of the province, so that New Brunswick's contribution may be not only very large but thoroughly representative.

THE RIGHT GLASSES at a Fair Price Glasses are either ALL RIGHT or they are wrong. You wear glasses to correct the defect in your sight, and glasses which are "almost right" don't correct. Sixty-three is "almost right," but it is not eight times eight, and you wouldn't accept it as such.

Glasses purchased at Sharpe's are "ALL RIGHT"—they're ground perfectly to correct the defect in your sight, and held in the scientifically correct position by perfect fitting frames which look well on you and are comfortable.

Sharpe's ALL RIGHT glasses are never expensive. You always save money, time and trouble by buying glasses here.

THE WAR NEWS

A raid into Serbian territory by Bulgarian irregulars, and a fight in which more than a hundred Serbians are said to have been killed, has caused a sensation, but it is asserted that the Bulgarian government was not responsible and desires to observe neutrality.

One of today's cables says that the Bulgarians who had been driven back by the Serbs made an attack on a Greek town. If the report is well founded further complications of a serious nature are likely to arise in that quarter.

The heaviest fighting continues to be in the Carpathian region, where it is claimed the Russians are steadily advancing and forcing the Austro-German forces to retire from point to point. The official news from Petrograd announces continued success for the Russian arms, with the capture of many prisoners and munitions of war. It is admitted, however, that the Russians have retired from Mervel in East Prussia, although the movement was executed without serious loss.

There are no new developments in the Dardanelles, except that a Turkish projected cruiser was sunk by a mine. The task of the allied fleets is apparently a very difficult one, and they need to be supported by land forces operating from the south.

German submarines are still inflicting some damage to ships in British and French waters, but on the other hand it is reported that three German vessels have been sunk by floating mines in the Baltic.

There are no new developments of importance in Belgium and France. The efforts of the British are still confined to trench fighting. The Germans are reported to have taken a village from the Belgians, but it was not a position of any importance. The French farther south claim to be making gains at some points, and successfully repulsing German attacks at other points.

CAUSE FOR THANKFULNESS

The people of St. John have much cause to be thankful in view of the general condition of business in this city and province. A number of the large stores report a larger business this year than last, and doubtless all the stores had a similar experience, for in some cases the increase was very marked. When we consider the very large number of demands of an unusual nature made upon the people this spring, the remarkably healthy state of business is certainly a source of great satisfaction.

Not only are the people contributing to the Patriotic and Red Cross and Belgian funds, but many other funds being raised because of the war are receiving contributions from our people. Practically every evening there is an entertainment, if not several of them, in aid of some of these funds. Because of the reduction of the civic grants, there are also larger demands in connection with local organizations, and these are being generously met, as is shown by the splendid response to the Violet Day campaign on Saturday. Because of special conditions the churches have had larger demands upon their funds, but they have not been disappointed in their appeals. Such a condition of affairs could not exist if industrial and general labor conditions were not really healthy. With regard to the province at large, it is certainly a source of great satisfaction. Not only are the people contributing to the Patriotic and Red Cross and Belgian funds, but many other funds being raised because of the war are receiving contributions from our people.

THE VANWART PETITION

A citizen who refused to sign the Vanwart petition, because he is in favor of the present form of city government, was greatly surprised to find that his name had been signed without his consent, and he writes to The Times indignantly repudiating the signature. How many names have been forged? We shall not hear from the dead men whose names are also said to appear, nor from those whose names are not found in the city directory. Since neither The Globe nor The Standard has had the courage to print the complete list they evidently are not greatly impressed by it, although they are grieved and apparently horrified because The Times and Telegraph invite the people to study the list and ask themselves whether St. John would have any better government than the present if the reins of authority were handed over to the gentlemen whose names appear. Nobody questions the right of all those who signed the petition to entertain what views they please regarding forms of city government, but it may fairly be contended that, unless a more formidable petition can be secured, the legislature, remembering how recently the city adopted the commission plan of government by an overwhelming vote, would not be justified in giving serious attention to the present agitation, when it is so perfectly obvious that the influences behind it are the same that were so utterly defeated in the former campaign.

The plan to send socks to the soldiers, and to send them straight to the front, is one that ought to appeal to every friend of the men in the trenches. Friends of the provincial government had a talk-fest at Gardiner's Creek Saturday night. Whether in deference to the agitation to close the saloons or for some other reason the orators are said to have gone out on the water-wagon.

It will probably take some days to straighten out the tangle caused by irregular Bulgarian troops on the Serbian border, but it is difficult to believe that Bulgaria would be so foolish as to enter the war on the side of Austria and Germany.

It is a mistake to assume that everybody was disappointed by the Easter snow storm. The citizen who has been saying all along that we would get the winter good and plenty before the first of May wore all day the joyous smile of a prophet whose prediction had been verified.

The agitation in favor of closing the saloons in this province until after the war has had a vigorous beginning. With regard to soldiers and drink, a cable from Paris says it is the testimony of surgeons and nurses that the temperate wounded recover quickly, while the intemperate recover slowly or not at all.

The financial stringency caused by the war had such an effect on the minister of justice at Ottawa that he refused to pay more than \$200 for a rug for his office, or \$185 for a desk, or \$9 for a waste paper basket. We fear, however, that such habits of economy will not be practiced by the ordinary citizen. There are families which have to live for a year on very little more than the cost of the rug for the feet of the minister of justice.

The British lumber market continues in a very healthy condition. Stocks of spruce in Liverpool at the end of March were 8,600 standards, compared with 6,000 standards a year before, and at Manchester 2,000 standards, compared with 11,500 a year before. On the other hand the consumption for the month of March was less than half what it was in March of last year. Fully 75 per cent of the demand is for lumber to be used for war material. It is evident that Canadian lumber will not meet with any serious competition from the Baltic this season. By far the greater part of the advance in the price of the deals, however, has been absorbed by the advance in freights. It is impossible to get steamers, and the last charter of a sailing vessel was at 125s.

EASTER SUNDAY IN THE CITY CHURCHES

Easter Sunday was observed with the usual ceremony in the churches of the city yesterday. In addition to the special Easter music, sermons and offerings, several of the churches marked the day by the reception of new members. The weather was not what is usually expected at Easter. After an unusually mild and snowless winter one of the biggest snow storms of the season commenced on Saturday evening and continued until Sunday morning, thus preventing any display of Easter millinery. In German street church yesterday special decorations in green and white formed a setting for the Easter services at which thirteen new members were received into the church. Twenty-four persons were received into communion at St. Matthew's Presbyterian church at the morning service yesterday.

Rev. Wellington Camp baptized five candidates in the Leinster street Baptist church yesterday morning. St. Andrew's Presbyterian church was formally declared vacant last evening by the interim moderator, Rev. Gordon Dickie. Rev. Dr. G. M. Campbell preached at the morning service in St. Andrew's and in St. Stephen's in the evening.

The Easter services in the Main street Baptist Church were largely attended yesterday. The pastor, Rev. Dr. Hutchinson declared a eloquent sermon at the morning services, after which he baptized ten new members. In the evening the church was packed to its capacity and the choir rendered a very pleasing programme of Easter selections. After the communion service the pastor received eighteen new members into the church. At the communion service a standing vote was taken and it was unanimously resolved that the Provincial Government prohibit the sale of intoxicating liquors during the war.

It was announced yesterday that Rev. W. C. Kierstead, Ph.D., of the U. N. B., will occupy the pulpit of the Carleton Presbyterian church during the summer months. At a special service in the Tabernacle church yesterday afternoon seven candidates were baptized by the pastor, Rev. F. P. Dennison. The congregation at the evening service and the Brotherhood in the afternoon adopted resolutions in favor of provincial prohibition during the war.

Mens' Button Boots

Button Boots for Men are gaining in popularity. The fact that heretofore they were not much in existence is simply because men are so slow to change from one thing to another. They are ready enough to take up the latest design in a hat or a suit, but having worn laced boots since childhood, they imagine they must continue laced boots all the time. And yet a Button Boot is neater, smarter and just as easily adjusted.

We are showing Button Boots in all leathers—Patent, Gun Metal and Tan, in a variety of shapes and designs.

"OUR JIM" APPEALS TO THE PEOPLE OF ST. JOHN

Both in Quality and Object Opera House Performances Deserve Large Patronage

"Our Jim," a rural comedy-drama, sweet as a breath of new mown hay, replete with good, wholesome humor and with a theme that is both heart-interesting and patriotic, will be presented tonight at the Opera House by a strong cast under the auspices of the Loyal Order of Moose. The laughable rural country barn dance, the eccentric comedy of "John Henry Tidd" the rough-graff, old South African veteran, "Major Mudge"—grasping mercenary, "Deacon Tidd" the gossipy old man, "Caroline Antwerp"—the sweet, lovable school teacher, Grace and the brave soldier lad, "Jim" are all characters that the audience will like and enjoy. The play is in four acts and written by one of the leading dramatic authors.

In addition to the play there will be number of good vaudeville specialties between acts, including Miss Florence Halpin, Charlie McFadden, Robert Butler, in Irish songs and dancing; Louis Dougherty, a sweet voiced boy singer; and the big patriotic musical number, "The Allies," which scored such a success at the recent St. Patrick's day entertainment under the direction of Miss Alice Dillon.

The entire net proceeds of the performance tomorrow night will be given to Royal Standard Chapter, I. O. O. F., for patriotic work in aid of wounded Canadian soldiers and sailors at the hospital front. Royal Standard Chapter is to attend the performance tomorrow night in a body.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe To Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur restores its appearance a hundredfold.

Don't bother to prepare the tonic you can get from any drug store a 50-cent bottle of "Weyl's" Sage and Sulphur Compound, ready to use. This is an always be depended upon to bring back the natural color, thickness and lustre of your hair and removes dandruff, stops scalp itching and falling hair.

Everybody uses "Weyl's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen your hair with water, brush it dry and draw this through the hair, taking one small strand at a time; by morning the faded hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

Hints for the Cook

Coffee Cream Into a double boiler put 2-3 of a quart of strained coffee, add milk until a quart of the mixture is obtained, sweeten to taste. Place over hot water and bring to boiling point. Add 4 level tablespoons of cornstarch dissolved in milk. Cook ten minutes, stirring constantly until thick. Chill and serve with sugar and cream.

Pineapple Dessert One can shredded pineapple, pour over 1-2 pound marshmallows cut in quarters, let stand overnight. When ready to serve whip a jar of cream and stir into the mixture.

Ad's Hoptoads Very nice for breakfast with coffee. One cup milk, 1 egg, 1-2 teaspoon salt, 1 of soda and four enough to make a stiff batter; drop from spoon into hot lard and fry.

Brownies One-third cup butter, one-third cup powdered sugar, one-third cup molasses, one egg well beaten, 1-8 cup pastry flour, one cup pecan nuts chopped fine. Mix ingredients in order given. Bake in small fancy penny cake tins. Garnish top of each with nuts.

Date Tapioca Stir frequently for 15 minutes in a double boiler, 1 quart of boiling milk, 2 large tablespoons of minute tapioca, and 1 cup of sugar. Add the beaten yolks of 8 eggs about 8 minutes before removing from stove. Then stir in 1 cup of chopped dates, cover with the well-beaten whites of the eggs and brown quickly in a hot oven.

Raisin Puffs Two eggs, 1/2 cup sugar, 1/2 cup milk, 1 teaspoon baking powder; now put in 1 cup raisins, seeds removed. Steam in individual moulds three-quarters of an hour. Serve whipped cream or jelly on top. It is a quick dessert.

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements which affect the whole system, as well as pimples, boils and other eruptions and are responsible for the readiness with which many people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. Get Hood's. No other medicine can do it.

ROYAL STANDARD CHAPTER IN CHARGE FOR PROVINCE

Receipt of a telegram yesterday by Mayor Frink from the national headquarters of the Canadian Red Cross Society places the responsibility so far as New Brunswick is concerned, for the collection and forwarding of socks for our soldiers at the front on the shoulders of Royal Standard Chapter, Daughters of the Empire, who originated the plan for New Brunswick and who are now making the necessary arrangements to carry it out successfully.

The telegram received by Mayor Frink follows: Toronto, April 3. James H. Frink, Mayor, St. John N. B. Repeating to your telegram, the Red Cross Society will waive their call for April 20, as requested. Extremely sorry conflict of dates. Best wishes for success of Royal Standard Chapter, I. O. O. F.

NOEL MARSHALL, Hon. Secretary. Covering Whole Province.

The preliminary work having been done before any announcement was made by the Canadian Red Cross of a national day, the Royal Standard Chapter is now prepared to accept the responsibility for the whole province and are looking forward to a whole-hearted response from the women of the province to their invitation for completing and sending gifts of socks for our soldiers at the front on April 20, as requested.

It will be held in April, the 21st day. You'll miss some fun if you stay away. A pair of socks is the admission fee. Tied up neatly—and inside you see your name and address should be written plain.

With a note to your Soldier across the Main.

So kindly come and help the good work. This is no time that any should shirk. We know our lads they duty will do. Let's do our part in the admission fee. "The cry is for socks, socks, socks," said Mrs. Smith, and let us hope this cry will be answered!

LUDLOW STREET CHURCH OBSERVES ANNIVERSARY

The Ludlow street Baptist church, which is celebrating the 74th anniversary of its organization, held memorable services yesterday in carrying out the Easter exercises. Rev. W. R. Robinson, pastor of the church, preached in the afternoon on "The Duties of Church Membership, and later baptised three candidates.

In the evening, Rev. W. R. Robinson presided at roll-call, and during the course of the service, Rev. Dr. Kierstead of the University of New Brunswick, delivered an eloquent and helpful sermon on "The Education of Our Church Members."

Work in the Sabbath school was conducted by Superintendent R. H. Pappeter, assisted by Honorary Superintendent J. F. King.

At the evening service the congregation unanimously by a standing vote, affirmed the resolution of the New Brunswick branch of the Dominion Temperance Alliance in the matter of prohibition for the province during the period of the war and the church clerk, Rev. W. R. Robinson were requested to forward the vote of the church to the premier of the province.

WHAT GERMANY DOES TO CONSERVE ITS GASOLINE

Benzine and Benzol Being Mixed With Petroleum as Well as Alcohol—No Motor Change Needed

Washington, April 5.—A detailed account of the efforts of the Germans to economize in the use of gasoline and rubber, now necessary for their military automobiles, is set forth in a report from Vice-Consul Daniel J. Waters, at Berlin, dated March 16. Mr. Waters, in his report, states that the German scientists to provide a substitute for gasoline. The report is in part as follows:

"On March 15, in accordance with a recent order of the Bundesrat, about 26,000 automobiles will cease operating in and about Berlin. This step has been taken to conserve the supply of benzine, benzol and rubber."

"Much interest has been taken in the subject of mixing the materials now available in reasonably large quantities. The use of pure petroleum or pure alcohol is not considered, as the supply of benzine and benzol is limited. The following information has been obtained regarding the use of mixtures of benzine, benzol and alcohol as well as with alcohol, and four different homogeneous fuels are produced by such mixing, namely: (1) benzine-petrol; (2) benzine-spirit; (3) benzine-benzol; (4) benzine-alcohol. As benzine and benzol may also be mixed, the four mixtures mentioned may also be mixed—one with three or two with four. In this way fuels can be obtained that are composed with three of the original fuels—benzine-benzol-petrol and benzol-benzine-alcohol. These two liquids, as well as the four first named, are perfectly homogeneous."

"Tests have been made with the mixtures of benzine and petroleum and it was found that no change in the ordinary motor was required. When alcohol was added, a perforated lead disc was attached to the float and an especially effective warning mechanism was attached."

"The benzine-spirit petrol can be used up to the last drop with the motor always working well. Mixtures of half benzol and half alcohol (and of one-fourth benzol and three-fourths alcohol) have been tested with less satisfactory results, although with some changes, including the elimination of the ventilator, real progress is being made."

"A note explains that the word benzine is used in the continental sense and refers to the motor fuel known everywhere in the United States as gasoline."

WAR FREES WOMAN FROM FREAK OF DRESS

Paris Turns to Full Skirt and Sober Colors—Business Recovering

Paris, April 5.—Freak fashions as well as other eccentricities have been unable to withstand the serious spirit of war.

In the opinion of competent authorities fashionable women will never again be imprisoned in the narrow gowns of the last few years. It requires from six to ten yards of material to make the full flowing, waisted, reactionary skirt that is coming into vogue.

The skirt is very serious black, dark blue and dark gray, but frequently set off by the original fantasies in collars, lapels, vests, stripes and belts in lively colors, "like a ray of hope among the somber thoughts that beset us," said a Rue de la Paix dressmaker.

The shortsness as well as the fullness of the new skirt affords added physical relief and at the same time lends itself to the increased elegance in style of footwear. It is predicted that it will also deal a hard blow to the handbag since the opportunities for pockets are increased.

A mysterious law of fashion seems to require a wide hat with a narrow skirt and a narrow hat with a full skirt, in consequence the broad brims are going out and toques, bloomers and the popular military "bonnets de police" (felig caps) are the rule.

"The great trouble with all this," says an important tradesman of the Rue de la Paix, "is that one hat and one gown now do the service of from six to ten, instead of ordering reception gowns, evening gowns, dinner gowns and gowns for all sorts of special social functions, the Parisienne orders one simple costume."

The industry, however, is recovering from the stagnation of the summer and fall seasons. The foreign trade is very good and has made up largely for the loss of private trade, Italy and America particularly having bought freely for spring.

MUSIC IN ST. JOHN

To the Editor of The Times-Star—Sir,—It is a remarkable and deplorable fact that in a city the size of St. John, with so many church choirs and such a large number of good singers, there is no singing society here. Such a condition of musical indifference would be hard to duplicate anywhere, and it is difficult to understand the reason for it.

Perhaps some of your readers might be able to throw some light on the subject. In the old country you will find three or four musical societies in every town or city of any size—a greater number in large cities—and there is, been, but bringing rivalry, resulting in the "Widdow's", or competitions, such as I read of in your paper recently and in which Walter H. Belding, a St. John man, was so successful.

About four years ago the St. John Choral Society came into existence and gave promise of great things; their concerts met with general approval and were apparently, successful in point of attendance. But this season this society has not been heard from at all. Why? Is it on account of the war?

Recently another society—the Harmony Male Glee Club—has made its appearance, and, judging from the list of well-known singers of which it is composed, should give a very creditable performance at its first concert on Wednesday next. Its advent is being looked forward to with much interest by music lovers, and it is hoped the young men will meet an encouraging reception by a crowded house. The concert is, moreover, being given for a most worthy purpose—the Associated Charities, which look after the needs of our deserving poor. I understand that none of the members of the glee club receive any remuneration, not even the director or the accompanist—all of them cheerfully giving their time and energies to the cause of art, musical education and charity. Should these causes not appeal to the general public and command an enthusiastic response? Let us hope they will.

Sincerely thanking you for your valuable space, I am  
Yours very truly,  
MUSIC LOVER.

LINCOLN'S ADVICE

Do not worry; eat three square meals a day; you say your prayers; be courteous to your creditors; keep your digestion good; exercise; go slow and go easy. . . . Maybe there are other things your special care requires to make you happy, but my friend, these Lincoln will give you a good life.—A. Lincoln.

SOCIAL BETTERMENT

"The intelligence required for the solving of social problems is not a mere thing of the intellect. It must be animated with the religious sentiment and warm with sympathy for human suffering."—Henry George.

GERMANY, TOO, TAKES HOLD ON THE LIQUOR PROBLEM

Authorities in Each State Given Power to Stop Sale Entirely

Amsterdam, April 5.—According to German newspapers received here the German Federal Council has passed an order strengthening the regulations regarding the sale of liquor in Germany. The order permits the central authorities of each state, at their discretion, to give the sale of alcohol a complete prohibition by a fine of \$2500, or imprisonment for a year.

DAYS OF RHEUMATISM NOW OVER!

WONDERFUL MIRACLES WORKED BY "NERVILINE"

Its Strange Power is the Marvel of Thousands it Has Cured.

You will welcome the good news that "Nerviline" rapidly relieves the most excruciating pains.

Nerviline penetrates deeply into the tissue, and possesses pain-subduing power at least five times greater than anything heretofore discovered. Its curative influence upon rheumatic pains is really wonderful.

Nerviline is offered to the people of this community under a positive guarantee of its reliability.

As a curative agent of severest pain, every rheumatic should test this great remedy.

Rheumatism is the greatest test Nerviline has to meet. It cures pain, big and little, but to rheumatics especially it is a great blessing, just as it is to those who suffer from neuralgia, sciatica, lumbago, stiffness or enlarged joints.

Remember this: There is nothing harmful in Nerviline.

You can use it freely on your children for their aches and pains. It is dependable, reliable, safe. Nothing to equal good old Nerviline as a general family remedy.

Get the large 50 cent family bottle; it is far more economical than the 25 cent trial size. Sold by dealers everywhere, or direct from The Cataract Co., Kingston, Canada.

### A GERMAN DEFENCE OF BRITISH POLICY

Berlin Socialist Paper Quotes Pamphlet With Approval - Never Worked For War

Amsterdam, April 4.—The Vorwarts publishes an eulogistic review of a pamphlet published in Vienna by Dr. George Landauer entitled "England An Investigation." The Journal says: "Against the unproved allegations that English diplomacy desired a world war and had systematically worked for it, Dr. Landauer recalls that a whole series of crises threatening war which arose under the last three ministries terminated peacefully owing to English efforts."

At least of all at the moment when it broke out, just when the fear of a German attack had diminished. "Whoever has made the acquaintance of this people in the intimacy of its homes and observed how it works and pleases it knows how to preserve order as its own policeman, whoever is convinced of the dignity which this people displays in bearing national adversity, such a one can never possibly believe that this people has become criminal against itself and the human race."

## War Summary From Night Cables

London, April 4, 10.35 p.m.—Stubborn battles are still being fought for the passes in the Carpathian Mountains, but elsewhere comparative calm appears to prevail. The Austrians, in their official message this morning, admitted that they had been forced to retreat in the Beskid Mountains, while tonight they claim to have repulsed many Russian attacks and to have taken more than 2,000 prisoners.

Nevertheless, it is the opinion of British military experts that the Austro-German forces will have to retire to the mountains south of the Carpathian range and make another effort there to present the Russian armies, and particularly the Cossacks, from swarming over the plains of Hungary.

The Germans have made a slight advance on the Yser front, where they have taken a village from the Belgians, but it is not believed that any big attempts will be made in this region, as floods, which can be brought about at any time by opening the sluices, offer an impenetrable barrier to a general advance.

Fighting also continues in the forest of Le Pretre, which has been the scene of a long and sanguinary battle. The Dardanelles. Nothing new has been received from the Dardanelles, or the other Turkish fronts, although a Russian semi-official report says that the Turkish protected cruiser Medjidieh struck a mine and sank.

So far as the Balkans are concerned, interest centres in the raid by Bulgarian irregulars into Serbia, which has been successfully combated by the rearmaments are being included in the

## IN PARLIAMENT

Ottawa, April 4.—Mr. Just, Canada's trade commissioner in Germany when the war broke, was held there for several months by the Germans before he was exchanged for a German captive in the hands of the British. It was not until February that he was enabled to leave Hamburg for Rotterdam, and it was not until then that he heard that Canada had sent her troops across the Atlantic to aid the Motherland. Sir George Foster told this to the commons on Saturday, as an illustration of the close censorship on war news in Germany.

Another interesting bit of information for Canada with Great Britain's new ally, Mr. Just will go to Petrograd and visit all parts of the Russian empire, including a tour of Siberia. He will come home via Vladivostok and the Pacific, and will, on his return to Canada, confer with boards of trade and business men as to trade openings for Canada in Russia.

Questioned by Mr. Turriff as to whether the government was doing anything in the way of encouraging the refining of nickel in Canada, the minister of trade and commerce said that while he was in favor of the "Made in Canada" idea, the government as yet had not come to any conclusion with regard to the prohibition of the export of nickel matte or any measure of government restriction.

On a vote \$628,000 for the administration of the Canada Grain act, the minister of trade and commerce said that three large internal elevators, under government operation, would be in use for next year's crops. Two of these at Saskatoon and Moose Jaw are already in operation, and the new one at Calgary is expected to be ready by August next.

The evening sitting was taken up with the estimates of the department of public works. "We have a clean bill of health," said Hon. Robert Rogers, "no increase."

A vote of \$200,000 for repairing the famous clock tower of the Victoria Memorial Museum at Ottawa was explained by the minister. Experts had examined the tower, which was parting from the rest of the building, and had reported that the cost of making the structure safe would be about \$200,000.

During the discussion of the Nova Scotia estimate for public works, E. N. Rhodes paid a tribute to the 22nd French-Canadian Regiment, located in the town of Amherst. He said that they had made a splendid impression upon the people of Amherst.

Mr. Prouty went into detail. Just \$885 had been paid for a rug for the minister of justice office. "I'd like to see that rug," commented Mr. Prouty. "It must make one think he is in Windsor palace. Three new chairs had cost \$78.80 and a deerskin had cost \$60; a desk, \$135, and a waste paper basket had cost \$6. Then there were two diners, a number of clocks, bookcases and couches, all at figures, Mr. Prouty characterized as 'recklessly extravagant.'"

Mr. Prouty's criticism of governmental extravagance by pointing out specific cases, Mr. Prouty pointed out some of them at Saturday night's sitting of parliament. He did it with directness and careful attention to detail, and he gave the cabinet ministers in the house a very uncomfortable half hour.

"I have been going over the auditor general's report," said he, "and I have found a great many extravagances, for which I think the people who are in charge deserve increased taxation are entitled to a full explanation. Why did it cost over \$900 to furnish the office of the minister of justice? Why did it cost over \$800 to furnish the office of the secretary of state? Why are big bills presented from newly appointed ministers for furniture and fixtures? Were not furnishings that were good enough for their predecessors good enough for them? What has been done with the old furniture? Was it thrown out or given away to some favorite?"

### THE STAY-AT-HOME GERMAN IS CERTAIN OF FINAL VICTORY

Ridicules Very Idea of Successful Joffre Offensive—Where Austria Differs

London, April 4.—The Daily Chronicle's correspondent of a neutral nationality, in a dispatch from Praelon, on the Hungarian-Rumanian frontier, says: "I arrived here after a leisurely journey through Germany and Austria-Hungary. My impressions of both countries are necessarily somewhat on the surface. As a result of my observations, they possess reality as being founded first, upon conversations with all sorts of people, and, secondly, upon my own personal observations."

As yet, there seems to be no trace of popular discouragement in Germany. The man in the street expects the war to end victoriously in three months. Perfect confidence is expressed in the while, in the ability of the western line to hold its ground and the possibility of a successful offensive by General Joffre is simply ridiculed. It is expected that a large number of new recruits will be called up in April as emergency reinforcements are being sent to the Russian front, where a very serious offensive is pending.

There is a widespread belief in Germany that France and Russia are tired of the war. There is also a general hope that the Chino-Japanese trouble will involve America and thus cut the Allies' supplies in food and ammunition, and, as far as I can judge, to talk of a food famine in this country is certainly premature, to say the least.

"But on passing from Germany into Austria the change is remarkable. The public feeling is more nervous; people talk of the war lasting another twelve months, and women who were once able to stand it financially and economically. Food prices have risen at least thirty per cent; beef at 2s. a pound; there are no bread cards, as in Germany, but only rye bread can be obtained, and that in limited quantities. Magyars Backbone of Empire.

"Rumors of Hungary's disaffection are nonsensical. The Magyars have been bought by the gift of political power, and they now form the backbone of the Dual Monarchy. The indomitable racial pride buoy them up and the energy of this rather grim people is infecting other races."

"To keep up public opinion, resort is made to all manner of deception. Thus I bought in Budapest an illustrated postcard that is widely distributed depicting the mythical entrance of the Germans into Paris. In Vienna and Budapest, as in Berlin, life is normal save that places of amusement close at 11 o'clock."

"In Austria-Hungary all men up to forty-two have been called up, and the portion of reserves is greater than in Germany. Their training is longer, but is infinitely less stringent. Forces are plentiful in the Dual Monarchy and in excellent condition. All petrol has been commandeered and inferior substitutes are being used for commercial purposes. Trenches and lines are being dug and fortified around Vienna and Graz. On the main line between the two capitals there are strongly prepared positions mounted with heavy guns. Kerner and Vace command the crossing of the Danube above Budapest."

"There is a noticeable concentration of first line troops in and about Brasov, or Kronstadt, a fortified town at the railway frontier. Fervent efforts are being expended in fortifying the passes from Rumania. The Austrians declare that central European powers can afford to laugh at Rumania. All railway lines leading from Rumania are positively blocked with petroleum cars and grain waggons. Rumania, I need hardly say, is one of the granaries of Europe and has vast oilfields. I was told that thirty thousand waggons of foodstuffs had recently gone through into Austria-Hungary."

"The frontier roads are choked up with convoys miles long of horses and bullock carts piled up high with bags of maize and flour. Railway sidings and roadside villages have mountains of such sacks. I estimated the quantity here at Praelon alone at about 200,000 sacks. Rumania has now stopped the transit of Austro-German munitions to Turkey, only after, however, large quantities had gone through."

### GRAND PRIZE FOR THE AVIATION CORPS

Paris, April 5.—Acting on the suggestion of Gen. Joffre the French command-in-chief, the Academy of Sports has awarded the grand prize of 10,000 francs to the military aviation corps. Minister of War Millerand has undertaken to distribute the money among the families of the French aviators who have been killed during the war.

### PROPOSES HOME FOR NEWSPAPER MEN

John Brisben Walker Offers Forty Acre Estate in Colorado as a Start

New York, April 5.—John Brisben Walker, who retired to a six thousand acre estate in Colorado after selling the Cosmopolitan magazine to W. R. Hearst in 1907, now proposes to give a forty-acre tract at Mount Morrison, Colorado, to establish a home for newspaper men. He has already set aside an estate for a summer home for the Presidents of the United States.

In an open letter published in the current issue of the Editor and Publisher Mr. Walker says: "Although no profession makes more serious demands upon the health and vitality of the members than that of journalism, no attempt has been made up to this time to establish a colony home where those who have been giving their best efforts to the press may find a retreat in the event of a temporary or a permanent breakdown."

"After conferences with some New York journalists, I have determined to offer as a gift a site of forty acres at Mount Morrison in Colorado, as a contribution towards a movement looking to the establishment of such a home."

### Don't Let Your Skin Absorb Dirt

Many women think their complexions are clean when their skin still contains dust and grime in all its pores. To demonstrate your best of some other cleanser besides soap and water, make a test of Nyl's Face Cream. Get a 25c or 50c jar and their Free Booklet entitled "Your Complexion" telling how to apply it with proper methods of massage. Wash your face thoroughly and then apply the Cream. After properly working it in wipe your face with a clean soft white cloth and see how soiled the cloth is with the accumulations of grime that have sunk into the pores. How refreshed, soft, clean and delicately fragrant your complexion now is. How free from irritation.

Nyl's Race Cream is graceless, oxygenated and refreshing, leaving no shine. Nyl's Race Cream Soap is a delightful preliminary cleanser. ### "If I could only get well"

If you are sick the most important thing in all the world to you is how to get well.

What you need is physical strength, a new supply of rich, red blood and the vigor and stamina which flow from perfect health.

These you can find in Wincarnis.

For over thirty years Wincarnis has been famous in England. Over ten thousand physicians have recommended Wincarnis—in writing.

Wincarnis acts quickly. Nearly all who try it say they feel better and stronger from the day they begin to take it.

Wincarnis does this because it is a scientific combination of three valuable food elements: Extract of Beef, Extract of Malt and a specially selected wine from one of Portugal's most noted vineyards. These three ingredients are combined by an original process which retains and enhances their health-giving properties in an agreeable and digestible form.

### WINGARNIS

To the Sporting Editor of Times-Star:—  
The mild weather of the last few days suggests that summer is coming on apace. This is what we have heard very little about baseball prospects in St. John. There are no indications of a league being organized in the city, and it is a pity that the city should not have a baseball team of its own. I would much like to hear your opinion on this matter, and also the opinions of the city members of the legislature who are interested in the game. Perhaps some of them would put up some money for a team, and I would much like to see them do so.

When the blood becomes impure the first symptoms which manifest themselves are a breaking out of the various forms of skin trouble such as boils, pimples, abscesses, ulcers, etc., and the only treatment you can use is some sort of good blood cleansing remedy which will purify the blood into a perfect condition, and thus eliminate all the different poisons from the system which cause these different eruptions to occur.

The best blood cleansing remedy on the market to-day is Burdock Blood Bitters. All we ask you to do is to try it and be convinced. Thousands have used it during the past forty years, and have nothing but praise for its curative powers.

Mrs. John Fitzgerald, Plantagenet, Ont., writes: "I am a woman who cannot count the number of Burdock Blood Bitters. I was covered with boils, and could not get rid of them. I was advised by a friend to try Burdock Blood Bitters, and I can truthfully say that it completely cured me. I have never had a sign of a boil since."

See that our name appears on both the label and wrapper as there are many imitations placed on the market which are said to be "just as good."

College Graduate at Work  
A college graduate applied for work in a lumber camp. He was told to get busy on one end of a cross-saw, the other end being in charge of an old and experienced lumber man. At first all went well, but by the second day the young man's strength proved flimsy. Suddenly, the old man stopped the saw.  
"Sonny," he said, "unkindly, I don't mind yer ridin' on this saw, but it's jest the same to 'ou, I wish you'd keep yer feet off the ground."

Fan Suggests One Team Each From City, North End, Carleton and Fairville

To the Sporting Editor of Times-Star:—  
The mild weather of the last few days suggests that summer is coming on apace. This is what we have heard very little about baseball prospects in St. John. There are no indications of a league being organized in the city, and it is a pity that the city should not have a baseball team of its own. I would much like to hear your opinion on this matter, and also the opinions of the city members of the legislature who are interested in the game. Perhaps some of them would put up some money for a team, and I would much like to see them do so.

Could Not Get Rid of Them Until She Used **BURDOCK BLOOD BITTERS.**

When the blood becomes impure the first symptoms which manifest themselves are a breaking out of the various forms of skin trouble such as boils, pimples, abscesses, ulcers, etc., and the only treatment you can use is some sort of good blood cleansing remedy which will purify the blood into a perfect condition, and thus eliminate all the different poisons from the system which cause these different eruptions to occur.

The best blood cleansing remedy on the market to-day is Burdock Blood Bitters. All we ask you to do is to try it and be convinced. Thousands have used it during the past forty years, and have nothing but praise for its curative powers.

Mrs. John Fitzgerald, Plantagenet, Ont., writes: "I am a woman who cannot count the number of Burdock Blood Bitters. I was covered with boils, and could not get rid of them. I was advised by a friend to try Burdock Blood Bitters, and I can truthfully say that it completely cured me. I have never had a sign of a boil since."

See that our name appears on both the label and wrapper as there are many imitations placed on the market which are said to be "just as good."

**GREAT WRESTLING MATCH**  
Wrestling enthusiasts are in for a rare treat next Saturday when Jim Proctor, the well known Greek wrestler, will meet Emil Pons, of Boston, in the Opera House. These mat-artists are in the pink of condition and the match should be one of the best ever staged in the city.

Pons has been in the wrestling game for fifteen years, during which time he has toured throughout Europe and the United States. He is an Italian by birth and weighs 180 pounds. He stayed thirty-five minutes with Gutch when the latter was in his prime. He has met and defeated some of the best middleweights in the world and expects to defeat Proctor.

For backache, lame or weak back, one of the commonest and most distressing symptoms of kidney inaction, there is no remedy so equal to Doan's Kidney Pills for taking out the stiches, twinges and twinges, limbering up the stiff back and giving perfect relief and comfort to all poor, suffering women who suffer so much from a weak lame back.

Mrs. Brockburn, R.R. No. 1, Plattsburgh, N.Y., writes: "I take pleasure in writing you stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not even sweep my floor. Before I had used one box there was a great improvement as my back was much better. However, I kept on taking them until my back was completely cured. I highly recommend these pills for lame back."

St. John, N. B., April 5, 1915.  
To the Editor of The Times—  
Sir—In Saturday, April 3rd issue of your paper, I read with interest the list of names recorded on the Vanwart petition. After reading several columns, I was surprised as well as very indignant to find my own name on that list. Now, Mr. Editor, I was approached on this matter of signing the above mentioned petition and emphatically refused to sign it, as I explained that I was in favor of the prime movement for commission form of government and was still convinced that it was more successful than the old aldermanic system. Now would one not think that my explanation was satisfactory without taking such a mean advantage in trying to check me out of my franchise by getting my name on that list without my signing myself. I certainly intend to look into this matter.

Thanking you for your valuable space, I am respectfully yours,  
GEO. F. HOLDER,  
178 Millidge Ave.

The General Public Hospital wishes to acknowledge Easter gifts of a box of oranges from Dr. and Mrs. Thomas Walker and of cut flowers from Mrs. Charles Peters, Mrs. Thomas Walker and Lady Barker, representing the ladies of the Church of England Institute, called at the hospital on Saturday and treated the patients to fruit. The ladies also sent generous donations of home made bread and cake.

**St. John Can Not Complain Of  
Business Conditions In War Time**

**Cheery Easter Trade Reports Made To  
Times Today Indicate That This City  
More Than Holds Its Own**

"Has the war had any effect on your Easter business this year," a King street merchant was asked this morning.

"Not unless the war is responsible for the increase in our sales" was his reply.

This conversation is a fair indication of business conditions in St. John this year. Wholesalers and retailers alike had a most encouraging story of business conditions as indicated by the ante-Easter rush. Money was plentiful, business up to the normal standard and there was no evidence of hard times. This is a summary of the remarks of merchants spoken to today. While conditions all over Canada have been improving since the first slump which followed the decision to send the army to Europe, in many cases the business has been so satisfactory as in this city and the records of the business houses must indicate that the people of the city are enjoying their usual prosperity.

Among the wholesalers, the reports given showed that in many cases the totals for March were ahead of the same month last year; others said that the business compared favorably with other years and no one expressed any dissatisfaction with their share of the trade.

The retail merchants had the same story to tell. The business earlier in the week was excellent and Saturday brought a big rush of orders until the snow storm the evening put a damper on shopping expeditions.

One of the prominent shoe houses said that their business was so large on Saturday that they were hardly able to keep pace with it and at one time were planning to close the doors until they could catch up with the demands of their customers. They had been advocating early buying and the sales earlier in the week also had passed their expectations.

Another dry goods store said that their business was excellent and that, if it had not been for the storm on Saturday evening, they would have set a new record.

A King street clothing and furnishing store announces good business with a very heavy rush on Saturday. They believe the total sales to be up to, if not beyond, last year's.

A prominent milliner said that business was perfectly satisfactory. Not only in the lines which are regarded as necessities but also in the luxuries the demand was perfectly normal. One of the furriers reports that their business was away ahead of any other year and was limited only by their inability to serve their customers fast enough. A confectioner says that the demand for Easter candies was better than usual.

Evidently St. John has nothing to complain about. The showing is particularly good in view of the many demands made upon the people's generosity these times—and all well met. These also include special Easter collections in many of the churches.

**WORK OF VALUATION TO  
TAKE LONG TIME YET**

Now Well Along in City Limits  
But July Before Finished

The board of valuers appointed by the municipal council to make a revaluation of the city and county are now well along with the work inside the city limits. There is a large amount of work involved in this portion of the work, however, and the earliest date on which they expect to complete the work is some time in July.

This will merely be the completion of the field work and after that a long time will be required to tabulate the information collected and to put it in shape for use. When the work is completed and it is finished it is expected that it will give a very complete record of the affairs of every tax-payer in the county.

**Beston Families Receive News  
That They Are Heirs to The  
Mullen Fortune**

(Boston Globe)

In East Boston this morning there were several men, women and children who felt that they had extra reason for saying a prayer of thanksgiving at Easter. They comprise the Mullen and McDonald families, mentioned in a despatch from St. John, N. B., as being sought as heirs to an estate in Ireland.

For many years James Mullen has gone to his daily toil at small wages in John Elm's livery stable. He and his wife, the latter now dead, used to grow over the fact that they had a rich uncle—John Casey—in Ireland, but since "mother"—as they called Mr. Mullen's mother—died little had been heard about him.

Mr. Mullen's mother frequently related how smart her brother was, and what a lot of money he was making, and how "the Lord forbid" she should die before her she would get a good bit of it. She left Ireland when a child and landed in New Brunswick, where she grew up she was married to Patrick Mullen.

Throughout the years she kept in touch with her brother. She had some children, one of them James Mullen, another Mrs. Mary McDonald. They came to "the States" a long time ago and settled in East Boston, where each was married. Some seventeen years ago the mother died in St. John. Then the father came here to live. He, too, died some years ago.

With the passing of both parents the thoughts of Uncle John in Ireland almost passed out of their minds.

One day last week Capt. Brickley, acting upon a request from Chief Simpson of St. John, N. B., sought out James Mullen. He had no trouble finding him for every one in the district knew the honest toiler, who, with his family, was a credit to the place. After a few questions Captain Brickley was satisfied that Mr. Mullen was the man Chief Simpson sought.

The neighborhood could not help wondering what the police were making inquiries about. Before any questions could be answered the news leaked out about the uncles in Ireland having died.

Then there were many congratulations expressed in the neighborhood where the family live. And it became known, too, that Mrs. McDonald of Bennington street whose husband is a ship carpenter is also an heir.

That made the rejoicing all the greater, for the McDonald family too, is held in esteem in the streets today, and in school, the children were being congratulated, so it was with the parents and the boys at work. And amid the congratulations were not a few words of sympathy that "the good wife" could not have lived to know it.

Mr. Mullen has five children, Theresa, who is the housekeeper; Albert, John, Francis and Marion. Mrs. McDonald has two children, Francis and William. At both homes today, while they are pleased they are not over enthusiastic, for they have no particulars.

TO TRIPLE MURDER**

Proprietor of New York Restaurant and Two Employees Killed by Burglars

New York, April 5.—Otto Zinn, a restaurant keeper, and two of his employees, a porter and a cook, were killed early today in Zinn's restaurant, supposedly by burglars. Zinn and his wife who slept over the restaurant, were awakened by a crash downstairs, and the proprietor went down to investigate. When he failed to return his wife called a policeman, who found the restaurant keeper and his two employees dead in the cellar.

In the cellar was found also a safe which had been moved from the floor above and evidently thrown down stairs. It had not been broken open. Beside the dead man lay three bloody cleavers with which the burglars had battered in their victims' heads. The police found also a revolver and a set of burglars' tools.

The porter and the cook had been surprised and killed when they came down to get coal. The proprietor apparently had surprised the thieves at work trying to open the safe.
