German Public's Attitude Towards Reparations

Effort to Unite All Parties in Stand Against Allies—Hope for U. S. Intervention—Conference in Brussels Postponed.

London, Feb. 4.—Steps are being taken to draft counter proposals to the Allied reparations demand as a result of a cabinet council held yesterday at which it is reported the demands were discussed, according to a despatch to the London Times from Berlin. Dr. Karl Bergmann, head of the German reparations commission, is expected to remain in Berlin until the work is completed.

The general view is that the Brussels conference must be postponed until after the London meeting, the despatch continues. "Agitation is going on for a national coalition of all the political parties to present a united front to the Allies, but there is opposition to this from the Conservative and Majority Socialists."

A Comparison.

Paris, Feb. 4.—A comparative table of taxation in Germany and three of the allied countries, Great Britain, France and Italy, is used to show Germany's ability to bear a greater burden, in a joint statement issued by the various delegations of experts who participated in the Brussels conference. It says that the per capita taxes, except local charges, for the current fiscal year in Germany are 699 marks, in France 890 francs, in Italy 900 lire and in Great Britain £22. On the basis of Thursday's New York exchange rates the per capita tax in dollars in Germany is \$7.50, in France \$22.00, in Italy \$7.25 and in Great Britain \$28.57. This is a table given of wages and prices, showing that the purchasing power of the various monies is, so that exactly what proportion of the average man's earnings is taken for taxation is not shown.

Tax receipts for the current year in Germany amount to \$8,496,000 marks; in France 15,471,000,000 francs; in Italy, \$4,000,000 lire and in Great Britain £1,083,160,000.

Paris, Feb. 4.—A conference of experts which was to have been held in Brussels, has been postponed because Charles Bergmann, German under secretary of state for the treasury, and chief of the German mission to the reparations committee in Paris, informed the French foreign office that the German government would not send delegates to the conference in view of the changed circumstances.

A RED CROSS PROBLEM.

An interesting subject is up for discussion at the tenth international conference of the Red Cross, in Geneva next month. It is the question of the relation between the newly organized League of Red Cross Societies and the old International Red Cross Committee.

Sir David Henderson points out that when the late war broke out the Red Cross Societies in every belligerent country became the centre of voluntary activity.

This action was taken with the approval of the International Red Cross Committee, for the latter was a neutral body and could only deal with all Societies.

It appears, however, that since the League was formed with the approval of the International Committee, the latter has contended that the duties of dealing with matters of public health, epidemics, and the co-ordination of efforts of national Red Cross Societies in case of grave calamities are within its field.

It is now necessary to define more clearly the respective duties of each central organization. The whole matter will therefore be brought up at the March convention in Geneva.

It is obvious that they must not conflict. The objects of the League of Red Cross Societies are thus set forth in a resolution to which the International Committee agreed.

To encourage and promote in every country of the world the establishment and the development of the duly authorized voluntary national Red Cross organization, having as purposes the improvement of health, the prevention of diseases, and the mitigation of suffering throughout the world.

If the farmers are opposed, as they assert, to class legislation, they should not seek to tie the hands of their representatives in the house, and the latter are quite right in entering a protest.

THE BACHELOR TAX.

Commodore Stewart of the Chatham World is restored to health, and its readers and his friends everywhere will rejoice. None but he could thus snuff out a would-be contributor.

"O. S.—No, we have no use for the literature you offer us. We have no time to study it, no personal need of it, and no desire to promote the growth of still another sect in the country."

In the last issue of the World, also, the Commodore dons his theological armor and wants to know why a certain minister should have pulpit surrendered to him, thrusting him upon the congregations, when he "should hire a hall and advertise in the usual way—not in the pulpits—when he wants to expound his views in regard to religious dogmas."

But it is when he comes to the bachelor tax that Bachelor Stewart proves his worth. After consulting his bank book he seizes his pen and writes:—"Paris has levied a tax on bachelors for bonuses to mothers of three or more children. It is a righteous tax. It should be levied in Canada. Every bachelor should pay enough to support one child, and the money should be given to the mothers who need it. We hope that our country members will introduce such a bill at the coming session of the legislature."

The journalistic profession may well entertain a feeling of the deepest pride that it may claim a man who thus nobly throws himself upon the altar of self-sacrifice. If he will but enlist the sympathy of his friend the ex-attorney-general, the measure respecting bachelors might be enacted at the coming session of the legislature.

The February bulletin of the Canadian Bank of Commerce says that careful surveys of business made at the close of last year indicate that spending generally, the turnover of retailers in 1920 was equal to that of the previous year.

The bulletin notes a slackening of the demand for credit in January, but adds that manufacturers and merchants are still seeking to realize on their stocks, and it would appear that this process must continue for some time. The point is made that the marketable wealth of the country is greater in volume, and even at reduced prices is greater in value than a year ago.

It is the case of commodities other than agricultural products, further declines appear to be inevitable. Buying by the public cannot be expected to become normal until the prices demanded of the actual consumer are more in line with the reduced costs of raw material.

Canada the general fall in prices, has been slower than elsewhere. The decline in wholesale prices in Canada during 1920 was 10 per cent, as against 25 per cent in the United States.

The bulletin says that in large centres the unemployment problem is becoming less acute, and the readjustment process is going on with improving prospects.

Toronto makes a vigorous protest against the increase in express rates. The president of the Wholesale Grocers' Association characterizes it as an "outrageous imposition."

MANY SEEK DIVORCE Applications to Parliament 121, Mostly From Toronto. Ottawa, Feb. 4.—To date the number of divorce applications to parliament is 121, so far seventeen short of last year's record.

GIBBS CRITICIZED Mrs. Pankhurst Objects to Novel Writer's Attack. New York, Feb. 4.—Mrs. Emmeline Pankhurst, English suffragist, criticized her countryman, Sir Philip Gibbs, for his attack on the Allies' reparations demands, and said that "fiction writers" could speak with no special authority upon international affairs.

NOT ON DUTY.

I called on Dentist Bacon to have my teeth half-soled; the way said teeth were achin' caused agonies untold, and I, by peace forsaken, had feet supremely cold.

WINTER WALK.

Brown trees, brown river, and a waning moon Disputing with a dying day; the croon Of melancholy waters surging sheer.

Flat, flooding meadows, half drowned willows, gleams Of milky whiteness laid along the stream's.

Far bank (the newly sanded hearts of trees; Beauty down—youth, ecstasy that fees).

One voice in moon and daylight, tree and grass; "We perish and come to naught; we perish and pass."

Strange, strange how now the heart at heavy flood, The wounded spirit and the bitter mood.

That sought relief in work, love, friendly cheer, And all was vanity—find healing here! Here sorrow's overplus is written in sound.

Of falling, musical waters; some prophetic Loveliness laps this desolate, drowning shore— A spirit too proud, too noble to weep more.

Enough to breathe with moon, trees, "We perish and come to naught; we perish and pass."

Modern garage, which is conducted by Vincent McGraw, it had gained considerable headway, but was quickly checked by the fire department. There were forty-two cars in the garage. HE IS MISTAKEN.

(Victoria Times.) Premier Meighen told the electors of West Peterboro' yesterday evening that the mandate given to the government by the election of 1917 was the same as that given to no government and, therefore, there was no obligation upon the government to resign at the end of the war.

The mandate given to the government in the election certainly was not the same as that given to any government in ordinary occasions. The government appeared to the country on its war policy with the Military Service Act as the chief plank. One of the conditions underlying the formation of the Union Government was that it would introduce no legislation of a controversial character which had no application to the war effort. Not five per cent. of the electors regarded the government in any other way than as an exclusively war-time government, and in that guise it was elected.

KING OF SIAM TO WED MISSION SCHOOL STUDENT

The Presbyterian Board of Foreign Missions in the United States has just authorized an official letter of congratulations to the King of Siam, on the announcement received of his betrothal to Princess Yialabala Devi, daughter of Prince Naradhip, and for several years a student in the Harriet House School, operated in Bangkok by the Presbyterian Board. The news of the engagement of the King of Siam, following its announcement to his privy council, was published throughout the kingdom, and following the announcement of the betrothal, the father of

Princess Yialabala Devi sent to the Presbyterian Harriet House Mission School, an invitation for the pupils and teachers to attend a reception to the princess, at his home. This invitation was accepted and all the Presbyterian pupils and teachers congratulated the future queen, who, according to Siamese advice, is "a young woman of culture, with intense interest in forward movements, which with her sympathy for all that makes for amelioration and progress, peculiarly fits her to be the consort of a democratic and progressive king."  
The present King of Siam is considered the best-informed man in his realm and abreast of the times, in his work and thought. The announcement of his betrothal to a student at a Christian school was hailed with great satisfaction. The Presbyterian Church has in Siam 141 mission stations and out-stations, 109 American Presbyter-

ian missionaries and 409 native workers. There are thirty-one organized Presbyterian churches having a membership of nearly 8,000. Sixty-four Presbyterian schools minister to the educational needs of Siam and nine hospitals care for nearly 44,000 patients annually.

Sidelights on Titled Women In Stories Told By Repington

Cossipy Colonel Likes Princess Patricia, But Not Queen Alexandra—Lady Cunard Says "Romance for a Woman, Humor for a Man"—Lady Headfort Only Successful Actress-Peeress.

LIEUTENANT-COLONEL C. A. COURT REPINGTON'S book, "The First World War," is really a transcription of his diary...

Princess Patricia of Connaught, now Lady Ramsey, is compared to Lady Juliet...

Queen Alexandra did not please him so well. Of her he says: "Went down to Coombe this afternoon. Had an interesting talk about the command in France, when Queen Alexandra was announced, and I was caught and could not get away."

Lady Ridley is one of those Colonel Repington most admires, as witness the following comments on her: "Lady Ridley looking more like a Hopper portrait than ever."

A Joke on Lady Carson "THE Prime Minister telephoned me that he would lunch with me to-day. So I invited Lady Ridley and Mrs. Astor to join, but at the last moment the P. M. could not turn up."

GAVE THEMSELVES AWAY "THE visit of the Queen of Norway to England serves to recall an amusing story of a child's escapade of hers, in which her brother, King George, also figured."

A Good Reason "YOU refused him?" "Why?" "He didn't impress me as a man that I could go to the end of the lake to avoid the deputation. When Prince C. told Mrs. Leeds of the offer."

Lenine Surrounded by Soldiere and Disinfectants and Exerts Iron Rule "The Inner Cabinet of Six Men, Including Trotsky, Have Autocratic Power in Russia."

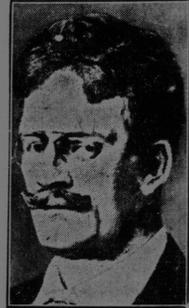

Slow Pay "COLLECTIONS can't be very good." "What makes you think so?" "I noticed your rubber-stamped my last bill 'please remit.' There must be a lot of slow-pay fellows on your books if you've had to have a rubber stamp made for 'em."

MRS. CAMPBELL MET WRONG MR. WELLS "IT has been noticed that the hero of 'The Outrageous Mrs. Palmer' has been suggested by Mrs. Patrick Campbell, which brings to mind a new story from England concerning the famous star."

Writhing Horde of Toronto Newsboys Made Things Lively for Rev. R. E. Knowles "I don't pay to fool with Toronto newsboys, particularly if you intend trying to make an address to them. This Rev. R. E. Knowles, author of 'Sunburnt,' found out one night recently in a letter to a Galt friend he thus describes his experience."

"Menziez of Comox" Is Clerical M.P.P.

The Way He Gives Away Spare Tires Is Sure Indication of His Big Heart.

REV. THOS. MENZIES, B.A., is his orthodox designation, but for a long time in British Columbia he has been called him "Menziez of Comox."

I recall an incident which indicates that he thinks of others first and himself last. Being over on the island, Menziez, for whom I was to take service on Sunday, was showing me the country a bit in his rather rickety flivver. We were some miles away, but when we came upon two spare tires, Menziez, who knew them only slightly, handed over his own spare tire and took risks in getting home himself, and it was just a "people's candidate," so he could no doubt, keep to his work in the church.

A ROUNDABOUT WAY "LORD ALLENBY, who commanded the British forces in Palestine during the war, tells an amusing story illustrative of the Oriental ingrained habit of going the longest way round in order to achieve any desired end."

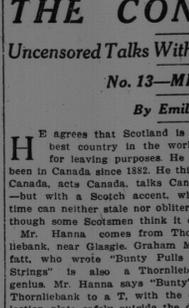

A Good Reason "YOU refused him?" "Why?" "He didn't impress me as a man that I could go to the end of the lake to avoid the deputation. When Prince C. told Mrs. Leeds of the offer."

MILL-GIRL MAGISTRATE "THE English factory girl of to-day may be a magistrate to-morrow. She can follow the example of Mrs. Elizabeth A. Higson, who works in a Lancashire mill and sits on the bench to administer justice. The wife of a tram-driver, Mrs. Higson is extremely popular with her fellow-workers and neighbors."

EDISON NEARLY FAINTED "FIFTY years ago Mr. Thomas Edison was so stranded financially in New York that he had to coin with which to buy food. It was at most starving, and begged his breakfast in the city. Three days later he was watching the tape machine in a certain telegraph office during a big stock exchange rush, when the machine broke down. Edison calmly told the 'boss' that he thought he could fix it, and proceeded to do so."

**ALL ON MINISTER  
OF LABOR TO QUIT**

Toronto Trades and Labor Council and the Collingwood Wages Trouble.

Toronto, Feb. 4.—A resolution calling for the resignation of Hon. Gordon Roberson, dominion minister of labor, for a "lack of backbone" in the matter of wages for men employed by the Collingwood Shipbuilding Co. in the construction of two ships for the government in the Dominion Shipbuilding Company's yards here, was passed by the Toronto district Trades and Labor Council last night.

It was decided that steps should be taken to bring pressure upon the gov-

ernment to force the company to pay the union rate, ninety cents an hour, instead of seventy-five cents offered. It was said that 250 men are working in the shipyards at present.

Suggestions of a strike if the matter is not adjusted amicably were made but not generally accepted with favor.

**UNIDENTIFIED BODY  
TO BE RETURNED**

Will Be Brought From Flanders Field and Buried at Arlington Cemetery.

The return from Flanders fields of the body of an unidentified American soldier for interment in the new amphitheatre at Arlington National cemetery was approved this week by Secretary Baker, General Pershing and Major-General John A. Lejeune, commandant of the marine corps, and a one-time commander of the famous Second Division of marines and regulars.

In a letter read to the house military committee considering a resolution for this purpose, Secretary Baker said he could conceive of no more fitting inauguration of the use of the amphitheatre "than to place there the body of a soldier whose name and identity are lost, but who will typify and represent the imperishable part of the sacrifice which he and his comrades made for their country and their country's cause."

Predicting that ultimately the Arlington amphitheatre would become the "Westminster Abbey of America's heroic dead," Mr. Baker said no place could be more suitable than it for "this significant and symbolic interment." Being dissociated from the name of any individual, it would become a "common possession of all who contributed to the victory."

George H. Waring has received official notification of his appointment as surveyor here of British Corporations, an organization similar to Lloyd's. Mr. Waring's duties will be in connection with the survey of hulls and machinery of shipping.

**GENERAL ELECTION  
NOT APPETIZING**

Toronto, Feb. 3.—Sir George Foster, who today addressed the Empire Club on the League of Nations, said in an interview that he did not care to make "rash prophecies" regarding the probable outcome of West Peterboro election.

As to the coming session of parliament, Sir George foresaw very interesting proceedings, with a "lively" grouping of parties. He remarked that he did not find the subject of a general election "appetizing" at the present time.

**SAYS HE WAS HIRED  
TO MURDER WOMAN**

Milford, Conn., Feb. 4.—John Karamanias, thirty-eight years old, was arrested in his bed in a room in Bridgeport and is charged by the police with the murder of Mrs. Joseph Chernock in her home here yesterday.

The officials said the accused man admitted killing Mrs. Chernock by hitting her with a cobbler's iron after he searched the house until he found \$110

**which the woman's husband had saved to pay the interest on his home.**

According to his story he was hired by two other men to get the money. These men, he said, drove him from Bridgeport yesterday in an automobile and waited till he killed the woman and got the cash. The police started an investigation to find these two men.

The woman was the mother of six children, the oldest twelve years and the youngest one month.

A fund was started to help the children.

**HOME BURNS WHILE  
PARENTS AT CHURCH**

Four Young Children Are Rescued Without Injury.

Trenton, Feb. 4.—The home of Fred McQuaid, west of Trenton and adjoining the village of Smithfield, was totally destroyed by fire while the parents were at church. Four small children ranging from five to twelve years were in the house in bed when the alarm was given. They were all rescued without injury. The origin of the fire is uncertain. The property was insured.

The Thorne Lodge Dramatic Club presented in St. Mary's school room last evening the three-act drama, "Willowdale," in aid of the St. Mary's Band instrument fund. A packed house witnessed the performance, which was very well received. Between the acts last evening St. Mary's Band played and Miss Rita McMahon gave several piano selections.

Large acre yields and profit

or Small acre yields and loss

The difference between the two wheat sheaves at the left (reproduced from an actual photograph) shows how small yield and loss can be changed to large yield and profit by the use of Gunns "Shur-Gain" fertilizer. These sheaves were cut from the same field on the same day. The larger one was fertilized with Gunns "Shur-Gain," the smaller one unfertilized.

The value of the estate was about \$25,000, and, under the terms of the will it is divided between the Sisters of the Hotel Dieu at Chatham and the Roman Catholic Bishop of Chatham, the bequest to the latter being as trustee for educational purposes. George M. McDade was executor.

**WHY ESMONDE WAS HELD UP.**

A Sydney, Australia, despatch to the London Times later than the message sent to St. John, explains why there was so much fuss over the arrival of young Osmond Grattan Esmonde at Sydney. Mr. Esmonde stated, according to the Times despatch: "The whole trouble has arisen through some passengers taking exception to a song I gave aboard ship about Lord French. It was a song written by myself. I had sent a copy to Lord French, and he enjoyed it immensely. The passengers afterwards wired to the Australian authorities."

**AN UNJUST IMPRESSION.**  
 Halifax Echo: James Belmont, the man of whom there have been reports to the effect that his wife was in St. John, N. B., was read by M. Ryan in a letter, said yesterday to the mayor that he was surprised to see the report about him and that he would immediately communicate with his wife. He has been out of work for some time and has been looking for employment. The publication of the report created an unjust impression of his character.

**DR. SPANGLER THE SPEAKER.**  
 Halifax Echo: A speaker of rare charm, Dr. H. L. Spangler, vice-president of the St. John Rotary Club, who was the headline performer of the "All Rotary" luncheon at the Green Lantern yesterday. Dr. Spangler spoke about the spirit of Rotary, and his eloquence gave animation and interest to a subject that sometimes verges upon being hackneyed. He said that the true Rotarian must place service before self, must put away ancestors and posterity, must know his neighbor and look always for goodness and gladness. He warned his hearers not to waste time waiting for an opportunity to do something, when the sum of little things was what made life worth living.

It was decided that the society should provide for the local military hospitals any requirements in the nature of made up garments.

Wiesel, and also stealing a pair of gloves, valued at \$3, the property of Harry Earle, pleaded not guilty to the first charge, guilty to the second. Robert Green and Carl Bassen, both in the employ of W. J. Wiesel, identified the shoes and said the accused was a furnace man in the store. Max Lambert and Maurice Fines told of the purchase of the shoes from the accused in their second-hand store. Detective Biddiscombe gave evidence also. The accused was sent up for trial.  
 William J. Merritt pleaded not guilty to being drunk and resisting the police. Detective Saunders told of arresting the accused and said the man struck him in the eye and in the mouth. He was fined \$5 or two months for being drunk, \$5 or two months for being out late, and \$50 or ten months for resisting the police.

Hebrew Boy Who Rose To Be The Viceroy of India

The Story of Young Isaacs, Now Earl Reading—Lord Milner's Future—Topics of a Week in the Empire Metropolis.

(From Our Own Correspondent) London, Jan. 18.—It would have been a great blow to dramatic propriety if the Lord Chief Justice had not, as everybody hoped and expected, become the new Indian Viceroy, because it will well round off one of the most adventurously dazzling careers in our English history since the specious days of Sir Walter Raleigh. Earl Reading is the son of an essentially middle-class family, his father Joseph Isaacs, having been a merchant in the city. We have to say that the earl's brief political phase, that young Isaacs was "a bad boy," not in any vindictive sense, however, but simply in the fact that he was of an incurably adventurous spirit always, and his brilliant oratorical and political talents were not in any way lessened by his inordinate spirit in that rough school. At twenty-four his enormous spirit had encountered failure in his stock exchange—after he had rejected, with grim abhorrence, all proposals for a midrange office in the paternal Fenchurch Street Station in London for yet another adventure in the Americas. At the last moment, his mother's persuasion detained him in London, and on his sagacious advice directed his energies to the bar.

Earl Reading's genius fits Carlyle's famous definition. He has an infinite capacity for taking emotional pains, and he devoted himself to legal studies with a cosmopolitan feeling of real democracy, and then suddenly Rufus Isaacs leapt into fame and property by sheer merit. After ten years at the bar as the busiest junior there, he was forced to take silk by pressure of briefs, and as a K. C. he soon had the finest and most successful practice on record, and stood out as the dominant figure among the great leaders of the bar. His next adventure was in politics, as M. P. for Reading, and he seemed at first one of the House of Commons' innumerable special agents, to get a seat in the cabinet, and duly received the Lord Chief Justice's support, and the physique of an athlete and the face of a dark-haired Apollo, was utterly out of tune with the sedate tenor of the House of Commons, but thoroughly at home in the quick informal tussles of cabinet business discussions.

His Great Opportunity. His sagacity, abundant common sense, and perfect diplomatic instinct united with a cosmopolitan feeling of real democracy, gave him his great opportunity. He was not more than other men to winning that epic struggle, it may fairly be said to be Earl Reading's special mission to the Allies when the very wisest of their statesmen were in a momentary quandary as to whether to negotiate with anybody else, eventually, on the question of high finance, and hence the second visit to Wall Street and Washington in 1917, the brilliant success of which brought him that rare honor of a Lord Chief Justice's British peerage.

Now that he goes to India as viceroy, the last of his adventures in the empire or the least spectacular in big history, because the payment of a million and a half to the Indian people, by the Indian people, and the side of accepting the viceroyalty, she is the devoted wife of an equally devoted husband, and she loves the glamour and the circumstances of the larger role on the great stage of life. Lord Reading has other recreations besides his main one of hard work and plunging bravely into public affairs, the most favored being quietly mediocre golf, and a few strenuous tennis, even at the age of three-score, and good music, of which he is particularly and critically fond.

Lord Milner's Future. Lord Milner intends to take a prolonged holiday abroad so soon as Lloyd George finds it possible to release him from the Colonial Office. His general health has been bad for some time, and added to this, he suffers from car trouble, which obstinately refuses to yield to treatment. This has already become a rather severe handicap upon his leisure once more to literature. His own recollection when he comes to write them, should prove fascinating reading, both in respect of the period covered by the South African War and in respect of his labors on the war cabinet. You cannot imagine Lord Milner spending an idle life, even if his circumstances permitted it. As a matter of fact, he has anything but a poor man, "honorably poor," as Mr. Churchill finely expressed it in the House of Commons.

Aviation Subsidy. Sixty thousand pounds is not a very large sum according to our post-war ideas, but there will probably be some objections raised when parliament is asked to sanction a subsidy up to this amount for civil aviation. Opposition to this sort would be inevitable, what the sum, and it is extremely difficult to justify state subsidies to any in-

The funeral of William McLaughlin, Jr., who was killed while coasting near Johnville, Carleton county, on Saturday, was held on Tuesday morning in the residence of his father, William McLaughlin. The lad, who was thirteen years of age, went with his father to work on the coasting boat, and while his father was working the boy went to a hill and was enjoying himself coasting. Not seeing the boat for some time the father went in search of him and found him dead. The marks of the sled indicated that it had been thrown over the lad against a tree causing a wound over his left eye, which was broken and no other injuries. Beyond his parents, the lad leaves a sister, of Johnville, a grandmother, Mrs. Edward Riley of Brimley street, and two aunts, Mrs. Lahey and Mrs. Travis, both of this city.

Hilton Belyea To Lake Placid; St. John Gets Championships

West Side Speeder Expected to Leave Tomorrow—Y. M. C. I. Awarded Big Meet and Will Hold it on February 19.

Hilton Belyea, local skater and organizer, is expected to leave tomorrow night for Lake Placid to compete in the international championships next week. It is felt that with his wonderful stamina and endurance and his heart-breaking stroke he would wear down such skaters as Moore, Jewtrak and McWhirter, and with an even break of luck should place in all the distance events. If he succeeded in doing this and cut some of the leaders out of the point column on these events it is felt that he would not only be winning laurels for himself, but might prove a factor in bringing the international championship to St. John by thus assisting Charles Gorman. Local fans who conceived this idea are arranging about Belyea's entry, transportation, etc. News that Hilton was to go to Lake Placid to join Gorman was issued yesterday at Saranac Lake, and that of Jewtrak, who won the championship and McWhirter, who finished second, follows:

220 Yards. 1st, Jewtrak ..... Points. 2nd, Gorman ..... 20. 3rd, McWhirter ..... 10. 440 Yards. 1st, Jewtrak ..... 30. 2nd, Gorman ..... 20. 3rd, McWhirter ..... 10. THE Y. M. C. I. GETS MARITIMES

This morning Frank White, secretary of the Maritime Branch of the Amateur Skating Association of Canada, granted the privilege of holding the Maritime Skating Championships here to the Y. M. C. I. They had previously received sanction to hold the New Brunswick championships and Halifax was awarded the maritimes championships, but as the latter are unable to arrange for the big meet it will be held in St. John. The races will be held on the East End Improvement rink on February 19 and entries are to close on February 16. The rink will be regulation size, eight laps to the mile. Negotiations are under way to bring Wheeler, Canadian champion, and Jewtrak, National champion, here to compete in the senior events. There will be the following events: 220 yards, 440 yards, 80 yards, 1 mile and three miles for the seniors and 440 yards for the boys under thirteen and under fifteen; and 880 yards for boys under seventeen.

Ulster's First Premier

The election of Sir James Craig as the first premier of the new Ulster parliament means the virtual retirement of Sir Edward Carson from his long standing leadership of "the loyal people of the six counties." Sir James has been in the imperial parliament since 1906. He was the right hand man of Sir Edward Carson during the home rule crisis, which was suspended by the dramatic intervention of the war. Sir James, who was made a baronet in January, 1918, for war services, was born at Stranstown, County Down, January 8, 1872. He served in both the South African war and the European war. Three ministerial posts have been occupied by him. He was treasurer of the Royal Household in 1917-18, retiring with Sir Edward Carson from the coalition when it was understood a home rule policy had been decided on. In 1919-20, he was parliamentary secretary to the ministry of Pensions, and later succeeded to the financial secretaryship of the admiralty, which post he still holds. Physically, Sir James is big, bluff and cheery, and is extremely popular in social circles.

IRON, STEEL, METAL AND MACHINERY MARKET. In its summary of the iron, steel metal and machinery markets for the week ending Jan. 27, Canadian Machinery and Manufacturing News, Toronto, makes the following comment: Now and then one finds a dealer who has become an optimist. It is not claimed that this class is by any means large, but it is on the increase. A dealer handling supplies, new and used, for builders and contractors, reports that he is going to have the best season in his history. There is more consistent work being done right now in the selling business

than has been witnessed in the Canadian field for months, if not in years. Whenever there is any business showing up there is certain to be a small army of salesman. A certain amount of hanging fire business is being closed up in this way now. Prices of machine tools remain unchanged and a New York buyer having a fairly good list in the market withdrew it because the dealers had made no change in their prices. There are no indications that makers are going to depart from their present schedule of prices. In this district there have been some reductions in the steel and iron warehouses. Sheets are down a little and there is a tendency to give pretty close prices on this item in order to get cleared out of present stocks. It cannot be claimed that there is anything in the nature of a price-cutting policy being carried out. Buying is still being done in very small quantities and stocks are very light in manufacturers' warehouses. A certain amount of business is being given out by automobile makers and the volume of this is likely to increase as time goes on. The principal thing, according to the trade, is that a start shall be made toward operating the plants. The scrap metal trade is still very flat, but there seems to be a pretty well-grounded feeling that the bottom of the price list has been reached and that any kind of a buying movement would result in prices becoming firmer almost instantly.

An engine was sent out from the city and most of the passengers arrived here on a freight train. The track was cleared about 9.30, but the derailed engine was left on the side of the track.

A Scottish concert under the auspices of the Young People's Association of St. Andrew's church was given last evening in the school room of the church, with Charles Robinson in the chair. The feature of the evening was the presentation of a scout flag, as a prize for the boy selling the most tickets, to Everett Robinson, who in turn presented it to St. Andrew's Boy Scouts, of which troop he is a patrol leader. The presentation was made by Mrs. E. A.

SOUTH END BOYS' CLUB IS OFF TO A FINE START

The South End Boys' Club opened last evening under the most auspicious conditions. Frank White, president of the South End Improvement League, occupied the chair and Miss Tynner was at the piano.

A large delegation from the Rotary Club, led by DeWitt Cairns, sang several choruses. Norman Magnusson contributed a recitation and a vocal solo and DeWitt Cairns was heard in vocal solos.

Mr. White welcomed the several hundred citizens present in a short address and appealed to them to come to the aid of the new club. He also expressed thanks to all those whose kindness had rendered the purchase of equipment for the club possible.

Mr. Belding paid a tribute to Rev. H. A. Cody, C. M. Lingley, Thos. Kilgus, A. H. Ellis, Alex. Wilson, G. N. Hatfield, R. E. Armstrong, W. K. Halsey and others who had been faithful to the South End Improvement League and referred especially in connection with the Boys' Club to the splendid work of James H. Hamilton.

Commissioner Fink, who was the next speaker, presented to representatives of the Nashwaak baseball teams of the Industrial League, the large cup, donated by Spalding & Co. through their agents, W. H. Thorne & Co., Ltd.

Commissioner Jones made a short address and presented to the Pirates, winners of the South End League, the cup which the club was located no longer was Sheffield street but had been renamed several years ago and now was Broadview avenue.

C. M. Lingley presented pins to the members of the baseball team which had won the junior league in the South End. He complimented the boys on the gentlemanly manner in which they had accepted defeat several times during the summer.

David Ramsay, president of the East End Improvement League, conveyed greetings and congratulations to the South End club. He gave an interesting account of the work which was being done in their section and said that the East End League was looking for a building similar to that which the South End now had for the benefit of the boys of their section.

Some people get a nasty cough and don't pay much attention to it, saying "Oh, it will wear away in a short time," but while it may wear off, serious injury may have been done to the lungs and respiratory organs by the prolonged, harsh, racking coughing.

On the first sign of a cough or cold get a bottle of Dr. Wood's Norway Pine Syrup. It will stop that nasty, troublesome cough, ease the tightness across the chest and loosen the phlegm.

Mrs. Wm. Barnshaw, Apsley, Ont., writes: "Last winter I caught a bad cold, had a sore throat and terrible hacking cough that I could not get rid of. I could not sleep at night. I tried quite a few remedies, but they did not do me much good until I got Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles, my cough was all gone. I feel that "Dr. Wood's" has no equal."

When you get Dr. Wood's Norway Pine Syrup, you are not experimenting with new and untried remedies, but one that has a reputation extending over thirty years.

Millions in Glittering Gold Passed Through Canada During the War

Canada Handled Tons of Precious Coins and Bars—Sir Thomas White's Story of Mint.

How Canada during the war made the custodian of masses of glittering gold... Sir Thomas White, Minister of Finance, tells in the Mint and Enquirer.

Canada The Channel. Canada during the war was made the channel of the golden flood that Britain poured into the United States...

Flood From U. S. During the first few months of the war the flood of gold flowed from the United States through Ottawa to Britain...

Then the tide turned, the purchases of Britain in the United States became so enormous that the Americans demanded gold in payment and security for the American loans.

The U. S., before and after entering the war, became the banker of and loaned immense sums to the allies for the purpose of their purchases.

From All the World. It came packed in boxes of \$10,000 and \$50,000. Of the total of \$1,200,000,000 of gold handled by the Department of Finance from the beginning...

British cruisers brought the South African and British gold to Halifax. Work of the Mint. Sir Thomas tells of the Herculean task the officials at the mint had in handling his wealth.

SUICIDES INCREASE ALL OVER WORLD

Save-a-Life League Reports 3,567 Women and 2,605 Men in United States in 1920—Many Children Cases

Prohibition, politics, divorce and the extension of women's activities are attributed as some of the causes of a world-wide increase in suicide during 1920 by the Save-a-Life League in a report issued yesterday by its president, Dr. H. M. Warren.

"Possibly the increase in women suicide may be due to the fact that so many have recently entered business and political life," says the report.

"This destruction of human life is confined to no particular class or locality. A man distressed because his new clothes were unsatisfactory, a woman peevish because her husband refuses to eat the pie she had made, a couple because of the expenditure of nine cents for a slate for their child—these are some of the foolish reasons why people committed suicide.

"Last year in the United States seventy-five presidents and managers of business concerns, thirty-six millionaires and twenty-three rich women became weary of life. A dozen writers, including two or three editors, help to make up the list. The lawyers number twenty-four, with eight judges. Fifty-one doctors were reported to us.

"Suicide among children has reached an alarming situation in this country. In 1919 there were 477 children who ended their lives in the United States. In 1920 the number increased to 707, 223 boys and 484 girls. The causes include fear of punishment, school troubles, unhappiness home environment, cruelty, revenge and love affairs.

"All over the world reports show a marked increase in suicide since the war ended. During the war the rate fell the lowest in many years. From London, Paris and other European cities starvation, it is said that entire families in China have poisoned themselves.

The contents weighed to the hundredth part of an ounce. Thirteen millions arrived one Saturday at noon in 2,600 bags and on Monday morning cables were sent telling the exact amount received.

The Rich Americans. And all this mass of money, he points out, went to the United States. The people of the republic made money beyond calculation, their bank deposits increased by ten billions and the Allies over them ten billions more.

Dr. Robert Yarnell, who recently returned from Germany, is reported as having said that there is an alarming increase of suicide there. From India comes the good news of the abolishing of sati, or the suicide of a child widow on the husband's funeral pyre.

The Southwest Museum in Los Angeles is situated on a high hill-top and to save the visitors the climb, a tunnel 224 feet long was bored into the hill at the street level and ended under the museum in a waiting room, down to which there was built an elevator.
