BRITAIN WILLING TO MODIFY THE TURKISH TREATY

Hope of Stabilizing Far East Situation

Grand Vizier is at Versailles with Peace Delegation—Negotiations re Armenia—Viscount Grey on Situation.

LONDON, June 18.—It is learned there is no intention of scrapping the Turkish treaty, as has been reported, so far as the British government is concerned, but it was intimated that Great Britain is willing to make important modifications in the hope of stabilizing the Near East situation.

Conditions in that part of the world are rapidly becoming worse from a British standpoint, and the British ministers are declared to be willing to change some clauses of the treaty most objectionable to the Turks if steps to relieve the situation are promised.

It is said in authoritative quarters that Italy doubtless would be willing to tear up the treaty and start all over again.

Paris, June 18.—Turkey's peace delegation headed by Danas Ferid Pasha, grand vizier, arrived in Paris yesterday afternoon and was escorted to Versailles.

LONDON, June 18.—Negotiations between the Turkish Anatolian republic and Armenia are proceeding favorably and an agreement is expected soon, says a Moscow despatch to the Herald, which says the Russian Soviet government is acting as a mediator between the two countries.

The question of guaranteeing Armenia against Turkish attacks will probably be solved, the despatch says, by a clause in the treaty binding Turkey from keeping an army within a specified distance from the Armenian frontier. All Armenia's aspirations relative to boundaries cannot be realized, it is stated, and a compromise will probably be reached.

LONDON, June 18.—The League of Nations had mixed feelings regarding the Anglo-Persian agreement, Viscount Grey declared, and he gave an impression that England was seeking her own interests in Persia. That, he said, had done great harm and the only remedy now was to submit the agreement to the League of Nations for approval.

Paris, June 18.—The repulse of important groups of Bolsheviks on the River Dnieper, which flows into the Black Sea, north of Kiev, is reported in an official Polish communiqué. Further north, in the Bolshevik section of the Ukraine, the fifteenth and eighteenth Bolshevik infantry brigades were completely destroyed. Along the Beresina River all the Bolshevik attacks were repulsed.

LONDON, June 18.—General Bristolf's recent arrest was caused by the fear that he would initiate a big defeat on the Polish front to overthrow the Soviet and form a new government, according to a Heisingford despatch to the Central News, quoting a Russian newspaper.

TALK NOW OF BAN ON LABOR CHIEF

Report Relative to Toronto Exhibition and A. F. L. Irish Resolution.

TORONTO, June 18.—Withdrawal of the invitation to Samuel Gompers, president of the American Federation of Labor, to attend the Canadian National Exhibition on Labor Day, may be considered by the directors of the Canadian National Exhibition Association, because of the action of the federation in Montreal in pressing for the recognition of the Irish republic, according to reports in circulation at the city hall here.

WALSH IS TO RUN FOR GOVERNORSHIP

Boston, June 18.—State Senator John J. Walsh of Boston announced yesterday his candidacy for the emacrotic nomination for governor.

New York, June 18.—State Senator George Thompson of Niagara county announced himself a candidate for the Republican nomination for governor in a statement issued last night.

SINN FEIN HAS 41 COURTS IN 24 OF COUNTIES

LONDON, June 18.—Patriotic Sinn Fein courts were operating in twenty-four counties during the first thirteen days of June, and during that period eighty-four persons were arrested, according to a Dublin despatch to the Exchange Telegraph Co., which says Sinn Fein headquarters has issued a report on the workings of these tribunals.

New York, June 18.—It is announced that 100 daily newspapers of the country "without print paper supply and largely dependent on open market purchases" have arranged to organize the Publishers' Purchasing Corporation, under the laws of the state of Delaware, for co-operative buying of print paper and paper mills.

Women's Platform Was Under Discussion By National Council Today

Important Features Bring Spirited Expression of Views

Qualification for Franchise—The Matter of Divorce Laws—Reports from New Brunswick and Nova Scotia—Luncheon at Y. M. C. I.

At this morning's session of the National Council of Women held in the Baptist Institute, the interim report on the women's platform was taken up and gone into section by section. There were many live issues and reforms brought out in the platform and lengthy and at times spirited discussions took place, especially with regard to two of the sections; suggesting that men and women before receiving the franchise have a knowledge of either the English or French language; and that for uniform Dominion marriage laws. In regard to the former an amendment was passed and the latter it was decided to bring back to the committee to be a special committee.

A section which brought forth a lengthy discussion, had to do with uniform Dominion divorce laws, with no financial barrier, it was emphasized, suggested that the greatest care should be exercised before action was taken. Ladies from all parts of the Dominion were heard, and the subject was dealt with in every phase. It was brought out that the men only had to pay for divorce while it was said women must have several causes.

Mrs. Murray of Halifax asked that the plank be changed to read: Equality of cause for divorce in all divorce courts without any financial barrier.

To raise the age of consent to eighteen years was also considered important and this was dealt with at some length. With regard to the section for compulsory registration and cure of venereal diseases, the wording was changed to read: That we support every effort by Dominion and provincial governments in combating venereal disease, and endorse the establishment of free clinics.

Technical training for women brought another interesting discussion, in which many participated. After various phrases were brought out the section was unanimously passed.

When the section dealing with the principal of co-operation and profit-sharing was taken up, many of the delegates showed that they had given the subject careful consideration. It was proposed to show why the plan had been put in some length on her personal experience and practical knowledge, and advocated a change in the wording of this plank.

It was finally moved for adjournment. All of the sections in the women's platform were passed, with the exceptions above mentioned. At the conclusion of the morning session, a luncheon was brought to the delegates were driven to the Y. M. C. I., where luncheon was served.

Today's Luncheon. The St. Monica's Catholic Ladies' Benevolent Society, of which Mrs. D. P. Chisholm is president, entertained the delegates to a luncheon in the gymnasium of the Young Men's Club, at 130, Cliff street, at 1:30 p.m.

Mrs. Richard O'Brien was convener of the luncheon committee and was ably assisted by the following ladies: Mrs. M. Bohen, Mrs. Atkinson, Mrs. Fox, Mrs. Henry Sullivan, Mrs. P. J. Fitzpatrick, Mrs. D. W. Harper, Mrs. J. D. Maher, Mrs. P. Foster, Mrs. R. Cotter, Mrs. J. H. Doody, Mrs. Frank J. McConerty, Mrs. Frederick Lynch, Mrs. A. J. Mulcahey, Mrs. Andrew McDonald, Mrs. P. J. Corr, Mrs. Stack, Mrs. Peters, Mrs. D. J. Barrett, Mrs. Robert Murphy and the Misses Hogan, Maher, Cripps, Haley and Driscoll.

About 150 ladies were present and greatly enjoyed the delightfully served luncheon. Every detail looking to the comfort of the guests was carefully attended to. The rest room was in charge of Mrs. Geo. D. McCloskey and Mrs. R. H. Callahan. The prettily appointed tea and coffee tables were presided over by Mrs. Richard Sullivan, Mrs. Michael Coll and Mrs. W. G. Winslow. Members of the society served the guests. The large room in which the luncheon was held was decorated for the occasion by Captain and Mrs. A. J. Mulcahey. The walls were draped with flags which completely covered the balcony running around the four sides of the room. The tables were adorned with white lilacs and at each place was a place card consisting of colored views of St. John tied with ribbons of light blue and dark blue, the colors of the National Council. Excellent music was discussed during the luncheon by the Misses Loretta Connell, Lynch and Hogan. Altogether the affair was most pleasant one and reflected much credit upon the ladies in charge, to whose efforts its success was due.

The St. John Council is one of the oldest in Federation with the National, and through the work of the Federated Societies is doing excellent work. The women of Moncton met us at the train, and had everything arranged for organization. At the time we were in Moncton last March, and snow and ice were having twenty-four. They are certainly going forward in the work. We have a very energetic minister of welfare work, and also tried to get a Home for the feeble minded. Now that we have a very energetic Minister of Health, Dr. Roberts, who is working on the subjects of mental hygiene and child welfare—we hope to see our aims materialize in the near future. We are told there is to be a survey of the province in the fall, by the government for the feeble minded.

Our Y. O. N. Board has purchased a home in which our nurses live and we are having a training home for nurses, and child welfare clinic; also lecturers for mothers.

Another of our societies has added an addition to their home and are now taking in infants for the first time.

We also have medical inspection in our schools. During the winter we have had vocational training, one of our vice-presidents being the convener.

One of our members has been appointed an assistant food inspector; another has been appointed on the board of health.

The St. John Council has worked very hard for many years on these problems, and now that so much has been accomplished we can thank God, and take courage for there is yet—So much to do that is not yet begun. So much to hope for that we cannot see. Respectfully submitted,

PANNIE B. McLELLAN, Provincial vice-president, N. B. (Continued on Page 9, sixth column)

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I shook the dust of the city off my feet last evening, I left the noise and smoke and frivolity behind me, and went forth and commune with nature. I wandered in the leafy paths of the park, gazed on the placid surface of the tiny lakes, inhaled the odor of the blossoms in quiet nooks, and was soothed by the evening of birds. It was very delightful. I do not forget it. It was the firmament that of the day, the greed and selfishness, the wrangling, the insincerity, the grossness of the city. Around me were peace and beauty, and the sweet harmonies of nature. My soul exulted. I grew to be a part of that which was around me—free, joyous, untrammelled."

The reporter paused. Hiram gazed at him for some moments without speaking. "Thee must-a-had a good night's sleep after that. It must-bee-very-soft."

"It would have been," said the reporter, "but for one thing. I lingered the money. I remained until the darkness fell, because I desired to commune with the stars. When I did raise my eyes to the firmament what do you suppose I saw?"

"A crow?" queried Hiram.

"No, sir," said Hiram, "if you say any more to me about milk I'll buy you a goat—By Hen!"

For the last two days, there have been skirmishes along the north shore of the Gulf of Ismed, and British wounded are arriving here. Guecho, near the Gulf and half way between Constantinople and Ismed, is occupied by Nationalist forces, which also hold the mountains north of the Gulf but a short distance from Constantinople.

DOMINION STEEL INJUNCTION WAS NOT GRANTED

Five of Directors Sought to Block Meeting

Interesting Changes in Personnel of Board Looked for at Session to be Held in Montreal Today.

(Canadian Press.) Montreal, June 18.—Five members of the board of directors of the Dominion Steel Corporation, J. H. Plummer and E. H. Wood of Toronto and George Caverhill, William McMaster and Senator Dandurand, of Montreal, yesterday afternoon as shareholders applied for a writ of injunction to restrain the executive of the corporation from holding the adjourned annual meeting of shareholders here today.

Chief Justice Archibald, who heard the application, held that no grounds were disclosed for interfering with the meeting and dismissed the application. Among other grounds for the judgment was that the application represented only a very small proportion of the shares of the company.

Interesting changes in the personnel of the board are looked for at the meeting today.

Roy M. Wolvin, president of the Dominion Steel Corporation, expressed great surprise at the action of the directors. He said he had entered into a gentlemen's agreement with these directors to give ample time for consideration and for submission to the shareholders of the points at issue and was therefore not prepared to have the matter ventilated in the courts.

The man then grabbed Mr. Dunlap's wallet and made his getaway before he could be recognized. As soon as he recovered himself, Mr. Dunlap gave the alarm and immediately reported the matter to the police. The robber secured two hundred dollars in cash and some checks.

## SHOOTING GIRL IN MISTAKE FOR THIEF

Jersey City Man Fires Through Door, Wounding Morning Caller.

(New York Times.)

Mistaking fifteen-year-old Viola Panucci, of 44 Sixth street, Jersey City, for a thief, Louis Dilco, of 467 Grove street, Jersey City, early yesterday morning fired a shot through the door of the apartment and so badly injured the girl that she is dying in the Jersey City Hospital, with a bullet in her back. Before she became unconscious she told the police that she had called to borrow money from Dilco. Dilco explained the shooting by saying that he had heard someone at the door, and suspecting that it might have been a thief, fired. He denied that he had heard the girl call out to him. He also denies that he had any reason to suspect that the girl would visit his home at that hour of the morning. "If the girl recovers, a charge of involuntary manslaughter will be made against her," the police say, and that in the meantime they are holding Dilco at the station house.

This report was gone into fully and plans were made for carrying on the work of furnishing the home. Mrs. W. W. White reported on the work done by the furnishing committee up to the present time. She said that enquiries as to prices had been made of all the local firms and some outside ones, and she gave a very gratifying list of contributions towards the furnishing.

Mr. Moran, son of a former St. John resident, offered to furnish one bedroom in the hospital. Dr. White expressed a willingness to furnish the living room and Dr. G. A. B. Addy asked to be allowed to furnish the graduate nurses' rooms as a memorial to his father who was associated with the general public hospital for many years. A hearty vote of thanks was tendered Mrs. White and her committee for excellent work.

A resolution of sincere sympathy was extended to Dr. Thomas Walker, who has pressing deep regret at his illness which had necessitated his retirement from the chairmanship of the board of hospital commissioners. His long and valued services to the hospital were referred to with most appreciative remarks.

Mrs. W. W. White reported for the committee which has charge of arrangements for a luncheon to be given to the delegates to the annual meeting of the National Council of Women. ## GROCCERS CUT THE PROFIT AND FOOD IS LOWER

New York Retailers Generally Observe Agreement to Keep Within 25-35 Per Cent. Maximum.

(New York Times.)

The agreement made by the New York Retail Grocers' Association, Peter H. Almer, president, to limit the gross profits of its members to 25 per cent. on dry groceries and 35 per cent. on green groceries has done much to stabilize market conditions, according to Special Agent J. J. Price of the Flying Squadron of the Department of Justice. There has been a tendency by dealers, he said, to bring their gross profits well within the maximum fixed, with the result that the consumer is now getting greater benefit when wholesale prices show a drop.

For the last two or three weeks Special Agent Price has had a squad of men combing the city for food profiteers and a number of merchants have been called to squadron headquarters, where they promised to lower prices.

"In the average case," Mr. Price told a Times reporter last night, "it has been found that the retailer has been speculating with the market to the extent of going up with the rise, but seldom reducing with the fall. Take, as an ex-

ample, the case of a retailer who buys a barrel of potatoes for \$16 and sells them at thirteen cents a pound, then falls to make a reduction when his next barrel costs him only \$15.

"It has been made plain to dealers that this practice must stop and that the consumer must receive the benefit of even such a small reduction. By means of a follow-up system we have been able to ascertain whether or not the dealer who has been reprimanded has rectified his fault. Practically all of them have."

"Recently the market has been fluctuating considerably and often a merchant has been selling stuff at what appears high prices, but this in many cases is because the particular commodity was bought when the market was high. A small merchant is often a poor buyer, believing that the market will rise, he buys more of a certain commodity than he can handle and when the market falls

he finds himself with a large stock on hand bought at a high price, hence his prices will be higher than competitors who bought better.

"A strict watch is being kept by the squadron to see that this practice is not a bluff used to cover profits. The costs, including shrinkage, loss and overhead are taken into consideration before action is begun against the merchant. The squadron agents are not working with the idea of disrupting business, but with a motive to clean the industry of food pirates."

Ample notice has been given to merchants and violations will be severely dealt with. It is hoped that the legitimate merchants and the public will aid the department in stamping out illicit trade. Again the public is asked to send complaints to the Flying Squadron and assurance is given that complaints will be investigated at once."

### WILSON AND THE NATIONS LEAGUE

Interview on Forthcoming Convention of Democrats

Raps Republicans for "Cloudy and Ambiguous" Terms in Statement on Issues of the Campaign.

New York, June 18—President Wilson, in a special interview given to the New York World, to be published today, said he was "extremely confident that the Democratic convention at San Francisco will welcome the acceptance by the Republican party of my invitation to make the League of Nations the issue in this campaign."

"I am even more confident," the president is quoted as saying, "that such referendum will confirm my faith that the American people desire it above anything else that a political party now may provide, and that they will condemn the Republican policy of denying them the consummation of their hopes. No one will recommend a referendum on that issue more than I."

The president declined to discuss candidates for the Democratic presidential nomination. "I hope and believe that the platform to be adopted at San Francisco will be more progressive and clearer in understanding than that enunciated by the Republicans at Chicago. The character of the men who will sit as delegates in the San Francisco convention should be sufficient guarantee that the issues upon which the campaign is to be fought will be met with definite and concrete statements and not cloudy and ambiguous terms as was the case in the Chicago convention."

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep safe. All the people use it. HARLIN FULTON.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JUNE 18, 1920

## LADIES HEAR GOVERNOR AND CHIEF JUSTICE

Addresses at Evening Session of Women's Council

Canadianization Discussed — Women's Votes — Reports and Resolutions of Interest Discussed — Mrs. Cummings Speaks of Council Work.

Two interesting meetings in connection with the National Council of Women were held yesterday afternoon and last evening.

A large audience filled the hall for the council's first open night. Mrs. Sanford was supported on the platform by Lieutenant-Governor and Mrs. Justice McKewen, Mrs. H. Parsons, Mrs. George Watt, Mrs. David McLellan, Mrs. E. Atherton Smith and Mrs. Willoughby Cummings.

Mrs. Cummings in presenting her crisp "word snapshots" of the council set out to answer the perennial question, "What does the national council do?" She explained that the national council was simply a federation of societies and was not organized for any one propaganda. It represented fifty-one local councils whose federated societies varied in number from seven to seventy, and nineteen nationally organized societies. Its work was done through nineteen standing committees with members in every county. She touched upon some outstanding achievements of a few of the committees in obtaining legislation. In mentioning supervised playgrounds Mrs. Cummings recalled Miss Mabel Peters' pioneer work with special commendation. Having referred briefly to the standing committees she related how a prominent politician had said of them that they were really unpaid royal commissions.

In turn, she told of the varied activities of each of the local councils the scope of which so summed up made an amazingly big record. She then spoke of what had been accomplished by the provincial committees which had been granted large concessions by the provincial governments.

Miss Katherine Gullivan sang, first, Dreams and, as an encore, All of You. Miss Hogan played the accompaniment.

His Honor the Lieutenant-Governor expressed his appreciation of the privilege of welcoming so important a body of ladies to the province and conveyed to the convention Premier Foster's regrets at being prevented from extending a personal greeting. In referring to Mrs. Cummings' remark that the council's delegations to the legislature had met with greater success than was anticipated, he ventured to suggest that the fact that women had the vote had something to do with this compliance.

Within his experience of public affairs woman's status had advanced from that of the chattel of her husband to her present enfranchisement. He was proud to bring about that change, and he assured the women that the government would always give a sympathetic hearing to their appeals.

In speaking of the agenda of the national meeting he said he noticed material as well as social matters were to be considered and he thought it would be out of place to suggest that when the council considered conservation of natural resources it should also look into the matter of development of natural resources. There were water powers not utilized which could be made to provide cheap electricity. It seemed unbelievable that the St. Lawrence rapids which could supply light and heat and power to Montreal had not been developed simply because their beauty would be spoiled and summer tourists would not come to view them. The resolution to be brought before the meeting favoring government development of coal mines he said was a splendid one. Nova Scotia had coal to supply the dominion for one hundred years yet Ontario last year put \$20,000,000 in the United States for coal. There was oil shale in Westmorland, Albert and Kings counties of New Brunswick sufficient to give the equivalent of 2,000,000,000 tons of coal in heat. Natural resources should not be dormant in these

times of reconstruction when their development would give employment and be an inestimable boon to the country. If private capital was not available, government assistance should be sought.

**Women and Offices.**  
Of the appointment of women to offices he said it was a natural sequence of the franchise that women should demand the right to senate appointments. Queen Victoria was the greatest sovereign the empire had ever known and experience should lead to the conclusion that there should be no difference in office between men and women. He saw Mrs. Ralph Smith in the audience and he would refer to the fine career of his former friend, her husband, whose place she had taken in the British Columbia house. Mrs. Smith, too, was making good. Men and women should be proud of her and find in her an inspiration. In concluding he paid tribute to the war work of the women of Canada and urged that efforts be continued, that those who came after might see the glorious record and build upon the firm foundation.

Miss Valde Fenton sang with her usual charm. Come, Come Away and as an encore, the Blackbirds' song.

**Canadianization.**  
Judge McKewen who had been asked to speak on Canadianization problem said to the women, now shouldering an equal responsibility with the men in considering the problems of Canadianization, that the first thing to seek for was a standard to measure duties and privileges. Local conditions in different provinces made many differences in the people. A common ground must be sought for in which all provinces united. These things were found in loyal devotion to the British empire, in the desire for liberty in the Christian faith, and in the insistent demand for honesty in public life. Having established this foundation there were problems to solve before the citizenship could be led into harmony. There was the need to bring back that spirit of industry and thrift which had made Canada twelve years ago, next to the Japanese, the most industrious people in the world, as a comparison of export trade and population at that time had shown. Work which produces wealth must save the country. Workers were alive to the responsibility. The women in endeavoring to do their part as legislators and the choicest of legislators should remember that those who produced wealth were entitled to a substantial part of what they produced. Judge McKewen went on to point out that social relationship was one of the most important factors in the unrest of today. The world would never be what it was six years ago and the changes demanded an adjustment. Women it must be admitted, were not half as democratic as men and they must widen their view point, calling into their social relations

the breadth of charity which animated their households. It was in their power to make or mar the civilization of today. Barriers must be taken down and as a sisterhood and brotherhood the nation must proceed along the way.

**Child Life.**  
In the care and conservation of child life another serious problem must be dealt with also. His honor brought his address to a fitting close in calling on the women to aim at a spirit of harmony and tolerance, forgetting the little things and remembering the big ones. The attitude of the returned soldiers had been criticized, he said. It was well to remember that they had stood as a protection from the shadow. If a vision of their self-sacrifice could be caught it would surely lead to the fulfillment of the highest hopes.

Mrs. Sanford asked if it was possible that all men in St. John were as eloquent as the two who had been listened to with such appreciation and thanked both speakers for paying their audience the compliment of earnest and thoughtful speech.

**Resolutions.**  
The following resolution was then moved by Mrs. L. A. Hamilton and seconded by Mrs. Horace Parsons: "Be it resolved that councils be urged to call conferences on Canadianization in their localities or organizations of men and women who shall discuss and aim towards a nation-wide programme of Canadianization and that the finding of such conferences be reported back to the national council." While speaking to the resolution, in a well worded and pleasing address, Mrs. Hamilton expressed thanks to the speakers of the evening.

Mrs. McLaughlin, representing the Grain Growers' Association of Saskatchewan, thought that the wording of the resolution implied that this would be agreed in the west among the non-English. Mrs. Robson asked if something more definite than the wording of the resolution suggested would not be required by the local councils and she recommended that the resolution should be amended to advocate closer acquaintanceship with women of other nations. Mrs. Hamilton said that she was aware long established women of other nations. Mrs. Hamilton suggested efforts at Canadianization in various parts of the dominion and that the resolution as drawn up was intended to bring full cognizance of these efforts and afterwards to strengthen them. The matter was finally left to be dealt with by a committee of three to report to the council.

**Afternoon Session.**  
The afternoon session opened with the president in the chair and the provincial reports were heard. In the absence of Mrs. H. W. Dayton, Mrs. Parsons and the Manitoba report, which told of the

Mrs. Robson moved an amendment, which Mrs. Dewey seconded, and which was carried. The amendment was to the effect that the national council obtain more definite information as to the establishment of citizenship committees and should arrange for a supply of literature on the subject. The proposed automobile drive and tea for which the council members were to have been the guests of the automobile association was cancelled, owing to the lateness of the hour of adjournment.

Mrs. David McLellan read the two new business reports telling of two new councils formed, one in Sackville and one in Moncton. The latter had already several affiliated societies was active in child welfare work and was awaiting a police matron and a juvenile court. The St. John Council was one of the oldest in the Dominion was doing good work in child welfare and considering the care of the feeble-minded. A survey of the province was to be made for mental hygiene and the minister of health, Hon. Dr. F. Roberts, was taking a personal interest in the work. **Nova Scotia.**  
Mrs. Charnie, reporting for the province of Nova Scotia, said that two new councils had been formed, one at New Brunswick and one at North Sydney. A council conference had been held at Turro. Child welfare work had been undertaken and in view of the coming survey a resolution asking the government to establish an institution for the feeble-minded had not been pushed. Baby clinics, girls clubs and circulating libraries had been inaugurated.

Mrs. Willoughby Cummings, for the credential committee, reported the registration of a possible 219 voters.

**The Right to Vote.**  
Mrs. Murray spoke of men and women having had equal franchise for the last civic election in Halifax. Mrs. Goodall Taitley said that by civic charter, married women who were property owners were entitled to vote and had exercised this privilege for seven years. These two statements were incorporated in the citizenship report.

Mrs. Edwards said that in Alberta a married woman might vote on property owned by her husband or her children. Mrs. Taitley said that Montreal was striving after such legislation for the benefit of the poorer French women in the population of elections.

The following resolution was then moved by Mrs. L. A. Hamilton and seconded by Mrs. H. W. Dayton: "In view of that fact that women citizens urgently need the fullest information as to their citizenship and that this information should reach all women so that they, as an electorate, should

According to Roy Hill of London, Ont., when a woman attempts to throw a stone at anything, get behind her, but when she tries to shoot a dog, jump down a well.

Hill is a driver for the Neal Bohne Company. When he called at the home of Edward Gorrich to deliver urea, a vicious dog broke its leash and attacked him. He kept the animal away with his basket, but all the efforts of Mrs. Godrich to calm the brute failed. Fearing to get into the house and returned with a shotgun.

Taking careful aim, she fired. Hill received nineteen birdshot in the right leg.

The dog fled, unhurt, at the report of the gun.

### OPPOSITION TO ESTIMATES FOR MILITIA

In the House of Commons at Ottawa yesterday the militia estimates met with strong opposition. The opposition on the part of the members of the opposition seemed to take the ground that the war was over and no more money should

be spent on things military when the country was saddled with such a huge debt. An item of \$300,000 for cadet services started the trouble. D. D. McKenzie of North Cape Breton, said that he feared that this was encouraging a militaristic spirit, aside from the expense involved. He was supported by A. R. McMaster of Brnoe. Hon. Hugh Guthrie and Sir Sam Hughes defended the item, which finally passed without a division, but a vote

of 845,670 was not so fortunate. Hon. Mackenzie King moved an amendment to cut the amount down, but it was lost by 41 to 56. Another amendment moved by Hon. Mr. King suffered the same fate the vote standing 40 to 39. This was an amendment providing for a decrease in the total vote for the Quebec and Lindsay arsenals. The house decided to sit on Saturdays until the end of the session.

### PLOTS AGAINST THE BRITISH

Washington Hears Details from Far East

Uprising of the Mohammedan World in Favor of Turkish Nationalists and the Bolsheviks — Egyptian Situation Serious.

Washington, June 18—Details of much-bred uprisings in the Mohammedan world against British rule and in favor of the Turkish Nationalists and Bolsheviks were received yesterday in official advices. The reports confirm advices as to Moscow and Munich conferences received some time ago by the United States state department. Enver Pasha, Djemal Pasha and Talaat Pasha, Turkish Nationalist leaders, were reported to have conferred with Spartacists and Bolsheviks at Munich, while representatives from India, Egypt, Afghanistan, Persia, Azerbaijan and Georgia met Turkish Nationalists and Lenin, Bolshevik leader, at Moscow. Plans for uprisings in the Mohammedan world coincident with a Bolshevik thrust on Persia and India are said to have been laid at these meetings. It was reported that a force of 150,000 troops, commanded by General Kurovskiy, was promised the Mohammedan world by Lenin at Moscow.

Enver Pasha, chief of the Turkish Nationalist conspirators, it was reported yesterday, arrived in Berlin for a second visit last week, acting as the chief liaison officer between the Bolshevik German revolutionists and "Young Turk" Djemal Pasha was reported to be in Moscow and Talaat Pasha for the present is making Switzerland his headquarters. According to the official reports, the Turkish Nationalists and Bolshevik propaganda has been particularly effective among the fanatical Egyptian tribesmen, the Senussi, in the Libyan desert. The situation there is reported to be critical.

Generally, the plans of the Bolsheviks are said to include the diversion of British attention from Mesopotamia to Egypt by the uprising of the Senussi and then sweep eastward at the moment when the Bolsheviks were prepared to push into Persia.

### WELFARE EXHIBIT AT ST. JOHN FAIR

The outline of a programme for a public welfare exhibit in connection with the St. John exhibition, was discussed yesterday afternoon at a meeting in the office of the mayor, City Hall, which was attended by representatives of the provincial department of public health, the provincial Red Cross, the Victorian Order of Nurses, the Anti-Tuberculosis Society, St. John Ambulance Association, the St. John Ambulance Brigade, and the Child Welfare Exhibit Committee of the Local Council of Women.

Mrs. G. A. Kuhring, the chairman, explained the purpose of the meeting. Horace A. Porter, secretary of the Exhibition Association; Miss Lillian Hazen and Miss Dorothy Jones also addressed the meeting.

Hon. W. F. Roberts, M.D., minister of health for the province, said the Red Cross, at the close of the great war, had formed a peace policy even more exacting than that of wartime, and he thought that the other societies which are interested directly in the matter of public health should give the matter of a welfare exhibit their guidance and assistance. Outlining his plan, he said that he had intended to say last to have a child welfare exhibit brought to the city, but later he found that one or two organizations had the same idea in mind, and when the Victorian Order of Nurses began its programme for a well-baby exhibit he decided to have the exhibit in the autumn.

To make this exhibit the success it would be, he wanted the co-operation of all societies and organizations interested directly in public health and he would be thankful for any suggestions and opinions regarding the matter. He referred at length to the public welfare exhibit at Montreal, which comprises some twenty or more different booths or sections, devoted to all phases of health, sanitation, hygiene and home affairs, from pre-natal influence to mother's persians. He suggested that something along similar lines would be the nature of the St. John show and asked all the societies directly interested in the matter to appoint one representative, who will report to him at a later date.

### USE STAMPS TO COLLECT LUXURY TAX

Revenue stamps, instead of the present method, will be used by Ottawa in the collection of luxury taxes after July 1. The stamps will be issued in denominations of one to ten cents, all multiples of ten cents to a dollar, thirteen cents, fifteen cents, one, two, three, four, five and ten dollars. Collections on the new taxes are being made slowly at Ottawa and in certain cases the returns are not more than a fifth of what was expected. Sir Henry Drayton says there will be no refunds.

### AMHERST HAS CASE THAT MAY MEAN MURDER

While walking along the Nappan road, just outside Amherst, on Wednesday evening, a man named Noles discovered the dead body of a mile child about a month old, concealed in the hedge bordering the Holmes farm. It was said that a fairly stout, dark complexioned woman was seen about the place. The coroner said that death was due to unnatural causes.

Only routine business was considered at the regular meeting of the Teachers and Chauffeurs Union, held in the Odd Fellows Hall, Union street, last night under the chairmanship of Herbert Winchester.

### SHORT OF BREATH Could Hardly Walk Without Resting

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?" Now when the heart becomes affected there comes a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking all-gone feeling of oppression and anxiety. On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system. Mr. Stephen Crouse, East Clifford, N. S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

### Alkali in Shampoos Bad For Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain unperfumed coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

### QUEER CAUSE FOR THIS SUICIDE

Business Man Worried Over Future of America.

Syracuse, N. Y., June 18.—Melancholia, due to worry over America's future and the fear that the country faces ruin is held responsible for the suicide of George Timmins, banker and steel tube manufacturer.

Mr. Timmins, apparently in excellent health, sent a bullet into his brain at his home here. He was lying on the floor before a mirror with the revolver still in his hand when members of the household rushed into his bedroom.

Mr. Timmins was one of the organizers and for many years the active head of the Syracuse Tube Works. A few years ago, when a national organization bought out his interest, Mr. Timmins retired. Since that time he has not engaged in any active work and devoted most of his time to his collection of art objects.

For many years Mr. Timmins was a director of the Onondaga County Savings Bank, which position he held at the time of his death. He was also president of the Syracuse public library.

### The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

During the evening Mrs. Rogers was made the recipient of a handsomely embossed breast pin with the inscription, "L. O. B. A. No. 18." Mrs. Sweet, a charter member, made the presentation. Mrs. Rogers replied in a few well chosen words. Games, music and a general good time were enjoyed by all present. After the refreshments were served the gathering dispersed after singing God Be With You Till We Meet Again and the national anthem. Mr. Rogers, who was guardian of the lodge, was unable to be present, as he has left for Amherst.

## MILK SHORTAGE

The Situation in St. John Today

Receipts Lower Than Yesterday but Hope for Island Supply — Conference — Board of Health Action.

The milk situation this morning, according to a local milk dealer, had become more serious so far as any agreement with the Kings county farmers was concerned. Some farmers, he said, declared they would not only shut off the milk supply but would not sell anything to the infants and young children in St. John. This information was received last night during a trip through the county in search of milk, but very few cans were secured.

It was hoped that tomorrow a sufficient supply of P. E. Island milk would be on hand to supply all customers. About 391 cans arrived this morning compared with 460 yesterday. A delegation of the milk dealers met P. F. Brady this morning with reference to the situation and said the railway would not be a "scape goat" and the only solution of the problem was to put on another train and this they would not do. He said the only course open to the dealers was to confer with the mayor and arrange a settlement through him. A conference was held this afternoon in the mayor's office.

## Board of Health Action.

At a special meeting of the board of health at noon today the following resolution was passed:

"Whereas during the present shortage the supply of milk coming into St. John the most important consideration is the provision of an adequate supply to the infants and young children and those who are ill; therefore be it resolved that:

(1) The milk dealers be requested to use their utmost endeavor to see that the above mentioned persons not only be supplied with milk in private families supplied directly or through retail shops but be given first consideration in the distribution of the available supply.

(2) That householders generally be requested to limit the use of ice cream as much as possible, substituting therefore condensed milk and milk products and so on a greater supply for those in need of fresh milk, and

(3) That manufacturers and others using fresh milk for various purposes such as making ice-cream, soda fountain confections and drinks be requested to curtail the mixing of same insofar as is possible while the milk shortage exists."

This was moved by Dr. W. L. Warwick and seconded by George Blakes. It was passed unanimously and was considerably discussed. Chairman John Kelly said it was incumbent upon the health authorities to conserve as much as possible the milk supply in necessitous cases, hence the action of today.

The board is first making a request for good citizenship in trying to curtail the non-essential use of milk. Mrs. R. B. Hooper inquired if ice cream people were not suffering as well as others, in answer to which Dr. F. P. Johnston, food inspector, said that one concern today received one can of cream instead of twenty-five.

It was moved by Mr. Blake and seconded by W. H. Golding, that a communication be sent to ice cream and soda fountain concerns, asking them to defer the manufacture of milk and cream products until Monday of next week, to guard against an acute condition of the milk shortage.

Dr. Johnston said that 319 cans of milk came in from the Sussex district today instead of the usual supply of 400, but the supply from P. E. Island was not affected as the dealers there use the maritime express, a regular train on the railway.

Mr. Golding urged that a public appeal be made to householders to curtail the use of milk and cream for desserts, so that this supply could be diverted to needy cases such as small children and invalids should the shortage continue.

Mrs. John McGillivray, a delegate to the National Council of Women, and a member of the board of health of Kingston, Ont., was introduced through introduction by Mrs. R. J. Hooper.

## C. N. R. MEN AT CITY HALL

Want More Tracks in Water Street — May Build Berths Near Site of Old Trestle Next Year.

An important conference was held at City Hall this morning when Acting Mayor Bullock and the commissioners talked over the matter of enlarged C. N. R. facilities here with Superintendent Brady, and Messrs Devenish and Brown of the government railways.

The C. N. R. wants room for two additional tracks in Water street in order to give room for more cars and facilitate quicker dispatch of export and import freight.

The C. N. R. evidently is preparing for the construction of additional berths in the vicinity of the old trestle, but it is not expected that these will be undertaken this year as the expenditure would be heavy. If the railway secures the additional room required for tracks in Water street it is understood that would be a step preparatory to the construction of the extra berths. The commissioners were told that the improvements under consideration would permit of much more freight being handled at this port and that the plans when complete would enable the C. N. R. to hold considerable business which now goes to other ports. The acting mayor and the commissioners have the matter under consideration, and they seemed to be favorably impressed by the arguments of the railway men.

## The Modern Way of Cleaning House--More so in Summer!

Electricity has done much to simplify a woman's work. And the Vacuum Cleaner has given millions of American women several extra hours of leisure each day.

Not only is a Vacuum Cleaner a time saver and a labor conservator; it is also a health saver, because it removes all dust from rugs, carpets, upholstered furniture and walls and prevents this dust from being inhaled into the lungs.

Women with children should be especially careful about dusty rugs. Mere sweeping won't remove the dust, it only stirs it up. A Vacuum Cleaner actually cleans by sucking the dust from the rug, carpet or upholstered furniture, permitting you to deposit this dust outdoors.

We carry the EUREKA Vacuum Cleaner which is admitted to be the most powerful Vacuum Cleaner on the market. We shall be glad to demonstrate to you how this device will help you to save time each day and preserve the health of your family.

 Use of "sally" one day, 8 cents.  
 For ordinary labor the prices seem to have ranged from 35 to 60 cents per day, and for skilled labor from 50 cents to one dollar per day. It is doubtless

true that people lived comfortably in those days on what they received. The purchasing power of money was much greater than now that the size of the income was less important.  
 In the entire book which seems to have covered all the financial transactions of a busy man, we find not one entry of money paid out for entertainment or pleasure and about the only luxury indulged in appears to have been cider.

**RECENT DEATHS**  
 Mrs. Henry Lowe,  
 Mrs. Martha Lowe, wife of Henry Lowe, a highly respected citizen of North End, passed away last evening at her late residence, 81 Sheriff street, aged sixty-two years. Besides her husband, she is survived by three sons, Frank W. Spragg, Herbert V. Spragg and Arthur S. Spragg, all of this city; also two daughters, Mrs. G. B. Taylor, also of this city, and Mrs. Louis M. Dwyer, wife of a missionary in West Africa. One brother, William A. Clark, of this city, and one sister, in Boston, are also left. The funeral will take place at 2:30 on Saturday afternoon from her late residence.  
 James W. Henderson.  
 Moncton, June 17.—James W. Henderson, a well known Monctonian, and former conductor on the Canadian Government Railways, was found dead in bed at his home here this morning. Although he had been in failing health for the last few weeks he was apparently in good condition yesterday, feeling so well that he went on a fishing trip. He was seventy-one years of age.  
 Mrs. Martha A. McDermott died at her home in Calais on Monday at the age of sixty-three years. Mrs. McDermott was prominent in musical circles, having served as organist at St. Stephen's church, Milltown, for several years, and at different times supervised a number of operettas put on by local talent. She is survived by her husband, M. A. McDermott, one son, Harry, of this city, and three daughters, Mrs. Henry Regan of St. John, Mrs. Mark Horton of New York, and Mrs. M. Teresa Convent of Mercy, Des Moines.  
 Miss Annie R. Ferguson.  
 They are many who learned with regret today of the death of Miss Annie R. Ferguson, which occurred last evening at her home, 46 Garden street. She had been ill for a long time, but only recently had been out a little. Within the last few days, however, a set-back was encountered and she passed peacefully and happily away last evening. Of high character, charitable and of refined mind, she led a most exemplary life and will be mourned by many, who will have deep sympathy for the bereaved ones in their loss. These are her sister, Mrs. James Gerow and her brother, John C. Ferguson of the Inland Revenue department. Miss Ferguson was a devout member of the Cathedral congregation. She was the second daughter of the late Philip and Catherine Ferguson and had lived all her life in St. John.  
 The death of Peter Bourgeois, aged seventy-nine years, occurred yesterday morning at the home of his sister, Mrs. William Babin, Moncton. The body was taken to Grand Digue where interment will take place on Saturday morning with service in the Catholic church.  
 The death of Mrs. W. C. Corey, relict of Rev. W. T. Corey, occurred in Havlock on June 10. She had reached the advanced age of eighty-four years. The funeral was held on June 12 at Havlock and services were conducted by Rev. W. H. Hatfield, pastor of the Baptist church.  
 Melbourne Hicks.  
 Moncton friends have received word of the death of Melbourne Hicks, in Nebraska. He was a former I. C. R. trainman, a native of Middle Sackville. He had lived in the states since 1887.

**GREAT FLOUR MILLS ON THE MARNE BURNED**  
 Meaux, France, June 18.—The great flour mills on the Marne just outside Meaux took fire early yesterday and all hope of saving them was abandoned. The celebrated water mills were built at least a century ago. They were filled with wheat and flour valued at several million francs, which will be a total loss.  
**A PLEBISCITE.**  
 Moncton, N.B., June 17.—Moncton's electors will be called upon to cast their ballots on July 8, next, to approve or disapprove of the city taking over the street railway owned and operated by the Moncton Tramways Electricity and Gas Company, Limited, as well as the lighting system now under the control of that company. This agreement was reached at a conference between E. B. Reeser of New York, general manager of the company and members of the city council at a meeting this morning in city hall.  
**REFUSES OFFER.**  
 Paris, June 17.—Dr. Mayer von Gauburen, German Charge D'Affaires here, has refused the offer of the German chancery tendered him by Karl Trimborn, leader of the German Center Party, who is trying to form a new German ministry to be organized as a result of the recent election. Dr. Mayer explained his refusal to do by declaring he considered the mission he has to fulfill in Paris as too important for him to give up at this juncture.

**An Income the Tax Collector can't touch**  
 The two outstanding features of the Budget are—  
 1.—There will be no more Tax Free War or Victory Bonds.  
 2.—There is an increase in the Income Tax.  
 The effect will be to increase the price of Government Bonds because further supply has stopped while the demand is constant and increasing, particularly for tax-exempt issues.  
 The Income Tax is here to stay, and it is quite possible that the present rate will be increased.  
 In order fully to realize the value of tax exemption, study carefully the following table showing what interest yield you would have to secure from any other form of investment to equal the 5.55% net return now obtainable from 1933 maturity Government Bonds at present prices.

Income	Interest Return Required	Income	Interest Return Required
\$5,000	5.85%	\$20,000	6.75%
8,000	6.27%	25,000	6.93%
10,000	6.35%	30,000	7.20%
12,000	6.42%	40,000	7.74%
14,000	6.50%	50,000	8.35%
16,000	6.59%	75,000	10.31%
18,000	6.67%	100,000	15.00%

After careful consideration we have come to the conclusion that we should recommend the purchase of tax-exempt Government Bonds at present prices to investors of substantial income

## FOR ONE BIG ASSOCIATION

Tourist Bodies to Be Amalgamated

Important Action Taken at Convention in Dalhousie—Some of the Suggestions for Development of the Work.

Dalhousie, N.B., June 17.—The main business transacted at the session of the convention this morning was the decision to merge the All-New Brunswick Tourist, Game and Resources League with the New Brunswick Tourist Association. Chairman C. H. Lablinois opened the meeting.

The secretary, C. B. Allan, then read his annual report. He mentioned the work of Dr. Thomas Travis of Field and Stream in advertising the province by means of articles and pictures in his magazine. The growth of membership only increased from sixty to sixty-seven paid members since last year. It was decided on account of the high cost of publication and difficulty of obtaining reliable information not to issue a provincial booklet. The question of amalgamating with this association was not favorably considered by the Fredericton Tourist Association. The facilities of the association had been made use of by many tourists. He recommended that something should be done to pay the bill of \$887 due Charles Cremin, incurred on the trip of Dr. Travis. He drew attention to the fact that the fish and game laws were being infringed. The trip of Irving Cobb and associates was an opportunity of much advertising for the province. Letters expressing satisfaction with the trip had been received.

### For Old Home Week.

H. C. Crowell had asked that New Brunswick organize a similar movement of Old Home Week, which is to be held in Nova Scotia in 1924.

A discussion of the report was commenced but action was postponed.

L. P. D. Tilley, M.P.E., St. John, suggested that a reliable road map of the province be added to the booklet as an aid to automobile tourists.

Hon. P. J. Veniot said that if the New Brunswick Tourist Association was recognized by the convention as the provincial body then it only will get the government aid. It was the government's policy that no branch bodies would get grants. The government received many requests for information that they would be pleased to hand over to somebody. A resolution should go on record as making the New Brunswick Tourist Association the one body.

C. C. Ayard moved that the All-New Brunswick Tourist Game and Resources League be merged with the New Brunswick Tourist Association.

L. P. D. Tilley seconded the motion. P. M. Shannon thought that the name should be changed to the New Brunswick Tourist and Resources Association.

The resolution was unanimously carried after the name had been changed. At the afternoon session N. R. DesBrisay took the chair, in the absence of C. H. Lablinois. The report of the ways and means committee was received. The report recommended that a committee of three, one each from St. John, Fredericton and North Shore, be appointed to wait on the provincial government and ask for a grant of \$2,000 for the purpose of carrying on the aims of the association. It was suggested that each county vice-president should start a campaign for funds and get financial aid from different municipalities. It also recommended better protection for game and fish and natural resources. Each vice-president should be granted funds to pay his legitimate expenses.

Mr. Schofield was of the opinion that if real efforts to get members were made by the county officers a considerable sum could be raised. It was possible to get 2,000 to 2,500 members at \$1.00 each. Eventually it may not be necessary to ask government aid. The report was adopted.

The resolutions committee reported and resolutions as follows were passed: that a committee be appointed to revise by-laws of the association in order to provide for broadening and provincializing of its activities; that the executive of the association be requested to petition the legislature to change the name of the association to New Brunswick Tourist and Resources Association; that all communities in New Brunswick be urged to promote their attractions, beautify their surroundings and reform the sanitary equipment of their respective localities, also to cultivate an enthusiastic boosting spirit; that the larger provincial communities be urged to form local branches to co-operate and advise with the central office operating through the local boards of trade or otherwise as they deem advisable; that provision be made in the constitution of the association for the holding of annual conventions at different points in the province so as to secure a more general interest in its objects; that a provincial tourist booklet be published by the provincial office from time to time and that arrangements be made by the executive with the Busy West magazine so as to provide for its recognition as the official organ of the association; that the thanks of the association be extended to the provincial government for the financial assistance it has extended in the past and that the government be requested to increase the provincial grant to the association so as to enable it to better attain its objects; that the hearty thanks of the association be extended to W. Harry Allen and the New Brunswick Guides' Association for the assistance so willingly and effectively rendered by them in the entertainment of the National Editorial Association; that the thanks of the association be extended to the management of the C.N.R. for their courtesy and helpful co-operation in connection with the holding of the present convention; that the newspapers throughout the province be requested to devote one issue nearest to a date to be set by the executive, to special articles covering the attractions and resources of its particular locality or of the province at large so as to better attract and centralize public thought in the direction of tourist development. The resolutions were unanimously adopted.

The nominating committee recommended that the present officers of the association be continued until the next annual meeting, which was adopted. It was moved and adopted that the executive of the All-New Brunswick Association be added to the executive of the New Brunswick Tourist Association.

The First Day's Intensive Selling Proves Our Prediction That This is the Greatest Men's Suit Sale in the History of St. John

The tremendous sacrifice of men's clothing in United States during the past few weeks—due entirely to purely domestic causes—has caused uneasiness among some of our Canadian merchants, who cancelled many orders they had placed with manufacturers.

Canadian conditions do not foreshadow any permanent lowering of prices. Our cloths come from England. The English woollen mills are now booked up for more than twelve months—cannot accept any more orders. They are not dependent on the American or Canadian field. They have tremendous demands from Australia, South America, Scandinavia, as well as the entire European continent. They can't begin to meet this demand—consequently there will be no drop in woollen prices. There are many other causes to support this statement.

Our buyer, knowing the actual conditions, and hearing of these many cancellations, saw an opportunity to help his customers hold down their clothing expenses. He made offers and finally procured 765 suits of these cancellations at such special price concessions that following our usual motto of Large Volume at Minimum Profit we are able to offer them at these great savings.

**PRaises GROUNDS AT WOODSTOCK**  
(American Horse Breeder.)  
It would be hard for any turf scribe to paint a word picture that would do justice to the beautiful exhibition grounds and racing plant at Woodstock, N. B., located on an island in the St. John river and within a stone's throw of the business centre of the city. The island contains 100 acres as level as a billiard table, and not a stone on the whole surface as large as a marble is to be found. Along the water's edge on all sides is a growth of shrubbery which gives an artistic finish to the whole. There is a fine grandstand, seating over 2,000 people, a beautiful exhibition building, electric-lighted stables that accommodate about 100 race horses and plenty of other buildings to house the exhibition stock.  
Horse interests are very much on the boom at the N. B. city. The Woodstock Driving Club wanted a representative horse for the free-for-all pacing classes in lower Canada, so Ooro Fimo, 2:08 1/2, was purchased to carry the Woodstock colors. The stallion has been placed in charge of the capable young New England trainer, John J. ("Red") Hanafin, who will train and race the stock of Ooro Fimo through the Maritime and Maine Short Ship Circuit.  
The Northern Maine trainer, J. J. ("Lion") DeWitt is located at Woodstock with a useful looking stable, the members of which are the seven-year-old trotting gelding, Old Glory, 2:22 1/2, by Bingara, dam; The Gaiety Girl, 2:15 3/4, Peggy Hal, pacer, bay mare, seven, by Walter Hal, 2:04; Cassie W. pacer, 2:30, bay mare, eight, by Aroostook Vassar; Northern Lilly, pacer, black mare, four, by The Northern Man, 2:08 1/2; Vera North, pacer, black mare, four, also by the Northern Man; and Colorado Rose, trotter, bay mare, six, by Colorado E., 8, 2:04 3/4. "Lion" DeWitt is a reliable trainer, and in Old Glory (an own brother to Millie Irwin, 2:09 3/4), he has a trotter that will, no doubt, race very profitably.  
Tom Vincent is at Woodstock with Bettina, 2:18 1/2, trotter, by Bingara, and the pacing gelding, Dusty Dan, 2:08 1/2, by Galubator, 2:11 1/2, both owned by Pope D. McKinnon, formerly of Bangor, Maine, but now a resident of Woodstock.  
James Gallagher, one of the best known horsemen in the country, "just across the border," is an enthusiastic as ever, and has a stable of five that look to be good enough to give their owner-entrainer a lot of pleasure and, incidentally, enlarge his bankroll. The stable consists of three pacers and two trotters as follows: The Money Man, 2:14 1/2, four-year-old gelding, by Alto Dewey, 2:24 1/2, dam, Irene D., 2:10 1/2, that looks and acts the part of a real racer; Six Peters, a no-record six-year-old pacing mare, by the Newport Stock Farm (Vermont) sire, Peter Binastion, 2:14 1/2; Myrtle Rysdyk, 2:22 1/2, black mare, trotter, ten years old, by Royal Rysdyk, 2:28 1/2; Togo M., trotting gelding, six years old, by Togo, 2:17 1/2.  
Most of the members of the Woodstock Driving Club own horses. C. A. of Lady E., 2:24 1/2; George Nicholson has a handy-going black pacing gelding book that is a conundrum to his fellow horse-

**FATHER AND SON ARE RESTORED**  
The Way Tanlac Helped us is Simply Wonderful, States Weeks.  
"Nobody except those who have been through it can understand what I have suffered," said Richard H. Weeks, of 18 Cabot Place, Halifax, Nova Scotia. Mr. Weeks is a carpenter by trade and has lived in Halifax for a number of years. He is very emphatic in his declaration that a better medicine than Tanlac has never been made.  
"My stomach has been out of order for the past year or two," said Mr. Weeks. "My appetite got so poor that I had to force down whatever I ate. I was troubled with knowing pains in the pit of my stomach and had sharp pains around my heart. After every meal I had a heavy feeling, like a dead weight in the pit of my stomach and felt miserable for hours. I had sick headaches, with attacks of dizziness, so bad that sometimes I fell to the floor. I lost weight continually and hardly had strength and energy to drag my feet of entirely for over a month. I went for doctors at a time without eating scarcely anything and sometimes even the sight of anything to eat made me sick. I could not eat anything like cakes, meat or pastries, and even plain, light food gave me indigestion.  
"After talking with a number of people who had taken Tanlac, I decided to try it, as they all recommended it to me so earnestly. Well, sir, whether you believe it or not I began to improve before I had taken half a bottle of the medicine. I am now on my fourth bottle and from the time I began taking it I have been improving by leaps and bounds. I now eat my three square meals a day, like any other healthy man. There is no looking about the table now for something I can eat. Anything agrees with me, cakes, meats, pastry, just anything I want, and I never have a touch of indigestion. I am not bothered by constipation or diarrhoea; I have gained ten pounds in weight and am working every day. Tanlac had done me so much good that I decided to try it on my little boy, who had been puny for years, and the way it has helped him has been certainly wonderful. From now on, Tanlac is the medicine for me."  
Tanlac is sold in St. John by the Ross Drug Co. and company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, High-land, and by the leading druggists in every town.—(Advt.)

### Lively Ball in Moncton.

Times, Wednesday: More than 2,000 wildly enthusiastic fans saw the Estonians go down to defeat at the hands of the Veterans' nine after one of the most thrilling games that has been witnessed on the local field in many years.

For six innings the game went on without a single tally, or even the semblance of a score, until in the first half of the seventh and last inning. The fighting Veterans grimly laid on the ball and when the smoke of battle had cleared away had put four runs across the plate.

The Estonians were unable to retaliate and the game ended with a 4-0 score. The game was to a considerable extent a pitchers' battle for six innings. Fryers and McLellan each had lots on the ball and were pretty evenly matched, with McLellan having the edge if anything.

## QUIJAS FAIL AS "DOUG" AND MARY FAIRBANKS COME TO TOWN

### Newly-wed Screen Favorites Fairbank Into New York Unheralded, Bringing Smile, Pickford Lashes and Curls—Join Hopi Tribe.

(N. Y. Evening Post)

Quijas boards, and all forms of subliminal revelations have suffered a discount today, for Mary Pickford and her husband, Douglas Fairbanks, arrived in New York this morning unheralded and unannounced, without a single psychological vibration or soul urge for the public. Otherwise, how account for the fact that industrious young men remained behind counters, bent over tomes and ledgers or shovelled the coals of the rain through the wickets of banes? Would one of them have stayed at his post had he known that Mary Pickford and her husband were in town? Would one of them have been possible for those flying fingers that have been manipulating typewriters all morning with the indifference born of skill to have continued to write business letters for an unappreciative and inartistic public had the young women to whom those fingers belonged known that the Douglas Fairbanks smile was being shown not on a film but on the roof of the Hilton-Carlton Hotel at the behest of a small army of photographers?

No, bands and flags and formal processions are all well enough to mark festive days and the triumphs of heroes, but such an event as the arrival of these two moving picture stars would require a popular uprising to express the enthusiasm and admiration of the movie fan for these two favorites of film land. Miss Pickford, arrayed in a tailor-made of fawn color which displayed a pair of fingers which displayed a pair of pink and white checked vest and collar, which some way reminded one of child-gingham and added a note of youth to her already decidedly youthful appearance, in company with Mr. Fairbanks, proceeded to the roof of the hotel to stand the attack of camera men. Standing in front of a camera named a novel experience for these seasoned veterans, and they seemed to regard the ordeal as the most normal proceeding possible, and when told to look pleasant, Miss Pickford showed that even now of teeth and that arch expression of deep blue eyes under long lashes that have already found the populace to her in chains that seem impossible to weaken. Miss Pickford offered to take off the becoming brown satin and straw tailored hat and stood for a moment with all the wealth of her golden curls gleaming in the sunlight. But the consensus of opinion was that the hat suited the outdoor costume better after all and Miss Pickford resumed it.

Says She Is "Grown Up."

"It is a little more formal, isn't it?" she queried, "and I am grown up." But naturally, no one credits that last statement; she was too obviously a mere child beside Mr. Fairbanks' size and stature. Mr. Fairbanks, well tanned and showing the advantages of continuous filming in the open, seems to have lost a bit of the tendency to embellish in his citizen's clothes of decidedly undish cut, did not reveal himself at all as the dashing hero of frontier life and hairdressed escapes. Mrs. Pickford was also in the party, posed in some of the pictures and seemed to have the same professional disregard for the camera as displayed by her daughter. Of course, such picture making must be a bit tiring for these experienced artists, and when they were asked to pose for a picture, they were not exhausted by standing in correct attitudes and looking in desired directions at gazing lenses. When told to sit down on a glass-covered projection he did so with a forceful contract to fulfill before he was told to stand.
