More Than 300 War Vessels in Coronation Event—Anarchists Arrested in Turin—More Than Million Germans in Great War Manoeuvres

(Canadian Press)

London, April 24.—The Morning Post, Belfast, states that \$200,000 has been subscribed to pay the expenses of the anti-home rule campaign and that the United Association of Ireland will meet in Dublin on Thursday to put the finishing touches on the arrangements for the campaign.

There would be thirty-three battleships, twenty-six armored cruisers, seven protected cruisers, fourteen unarmored cruisers, thirty-one auxiliaries, 116 destroyers, thirty-six torpedo boats and five submarines. The battleships are all less than ten years old, except seven of the Maestri class.

Rome, April 24.—Two anarchists, arrested in Turin, are suspected of designs on the life of the king when he opened the exhibition of industry. Both men are Italians who had lived a long time in America and belonged to the anarchist group in Turin.

Berlin, April 24.—Germany will have under arms in connection with the field manoeuvres this summer, practically one million men. In addition to the regular army strength of 625,000 more than 375,000 reserves will be called to the colors, making a total effective strength of 1,000,000 for the army.

The new firing regulations for the field artillery just published contain, in addition to former directions for the use of gas balloons, a new set of instructions governing the use of artillery against dirigibles and aeroplanes. It is admitted, however, that artillery fire against aeroplanes offers slight chances of success without enormous use of ammunition.

Toronto, April 24.—(Canadian Press)—If the strongly expressed views of President Falconer, as laid before the senate of the University of Toronto are carried out, the standard entrance to that institution, the passing of the junior matriculation, will be raised to that of the senior matriculation.

A statement issued under the authority of the senate indicates sympathy with the president's views, but it is stated will not take action until next fall.

Well pleased with the success of their first attempt at reforestation, the water conservators will continue the work, and will this spring plant 100,000 more young trees, making a grand total of 148,000 trees planted on the land purchased to ensure the purity of springs by which the city acquires its water supply.

A few cases have been discovered under the observation of a local veterinary who is conducting a post mortem on a dog from Parkdale, which died last night.

MILLIONS IF HE PROVES MAN IS DEAD

Niagara Falls Doctor Must Establish Death of Ancestor in 1756, in Order to Get \$60,000,000

New York, April 24.—In the hope of establishing the fact that one Francis Glover, an Englishman, who died about the year 1756, according to his understanding, is in fact dead and buried at Hanover, N. J., Dr. J. R. Cook, of Niagara Falls, Canada, is in that place searching the records and examining headstones in the old graveyard. His interest in the matter hangs on the fact that if he can prove the death of Glover he will inherit a matter of about \$60,000,000 now on deposit in the Bank of England to the credit of the Glover estate.

Dr. Cook says that the Bank of England is willing enough to pay over the money to him as the legal heir, and hesitates only because the proof that Glover is dead is lacking. Dr. Cook claims to be a descendant in the direct line of Glover, and to be the only one. He says it is only too easy to prove that, but to prove that a man who would have lived an ordinary span about the middle of the eighteenth century is not alive in the beginning of the twentieth century is much harder. He has not completed his search, however, and still hopes that he will find a marker on some hitherto forgotten grave, or some musty record that will show conclusively that Glover cannot rise to claim the millions.

Glover, according to the story, as Dr. Cook tells it, was a Mason. He owned vast tracts along the Thames River, but sailed for the colonies, leaving the land in the hands of agents. Years afterwards these agents sold the property and placed the proceeds on deposit. The Bank of England has had the money ever since, and it has been piling up until now the fortune in a vast.

CORONER WILL HOLD INQUIRY

Death of Wm. McArthur Subject of Investigation Into Jail and Hard Labor Squad Treatment—Twenty Witnesses or More

Coroner Berryman will empanel a jury and hold an inquest into the death of William McArthur, a member of the hard labor squad of jail prisoners, who died yesterday morning in the General Public Hospital a few hours after he had been taken there from the jail. It is alleged by the parents of McArthur that his death was caused indirectly or was hastened by cruel treatment received in the jail.

The inquiry, it is said, is likely to be one of the most important that has been held in St. John for some time, and it is probable that twenty or more witnesses will be called, among them being the fourteen or fifteen members of the chain gang, Doctors James Christie and Wm. Warwick, members of the hospital staff, guards for assaulting a man named Danguard, but escaped and on being recaptured was sentenced to an additional term, which would not have expired until May.

According to the young man's father, William T. McArthur, of 139 King street, west St. John, he was put to work with the other prisoners breaking stone, and one day when a man named McDonald was giving some trouble to the guards, Arthur interfered and in consequence the guards tied him to a post or tree and left the father to search for him. He was found and when released, the father contends, he was numb with the cold and after reaching home he was put into a cell in his wet clothes; that he became ill and was visited by Dr. James Christie, the jail physician; that he became so seriously ill that he was taken to the hospital and died within a few hours. The father says he was put into a cell beside and arrived there just before he passed away. His last words, according to the father were: "Give money on me; they have murdered me."

The body was placed in the morgue, and the father, acting on the advice of friends, engaged Daniel Mullin, K. C., to look after his interests. The young man was twenty-one years of age, besides his father and mother, one sister at home, another sister in Manchester, N. H., and a brother in Waterbury, Conn. Mr. Guard Beckett speaks of case.

William Beckett, one of the guards of the chain gang, when seen by a Times reporter this morning expressed his regret that the father were not in regard to having been treated brutally while in the jail. "The man was very sickly boy and that whenever he complained of being ill he was put into a cell," said Beckett, "and on one occasion," said Mr. Beckett, "we were only for a few minutes, however, as we removed him to the shed."

"I feel very sorry for the boy's parents, but it will be proved at the investigation that the boy received the best of attention. He was wayward at some times, but then again he was a good worker. The reports which I make out every night relative to the working of the gang will show that McArthur was allowed to knock off on a good many occasions on account of sickness. One night after returning from work he collapsed in the jail, but during the day he had not complained. Of course we have to keep discipline among the prisoners but we use them with as much courtesy as is possible."

NATURAL HISTORY ITEM. "Who are all thin flags flyin?" demanded Mr. Patrick O'Flanagan, when he met the Times' new reporter on the street yesterday.

"What?" cried the new reporter. "Don't you know that this is St. George's Day—the day of days for Englishmen?"

"Show me wans," said Mr. O'Flanagan. "Do you desire to offer him your congratulations?" asked the new reporter. "I do not," said Mr. O'Flanagan, with emphasis on the last word.

"Why, then?" queried the new reporter. "I want to say to him," said Mr. O'Flanagan, "that maybe I'll wear a rose with him next year, if Ireland gets Home Rule."

"And if not," said the new reporter. "This," said Mr. O'Flanagan, "shall be done! the dragon act and I'll be St. George, 4's mind. The Irishman was a natural snake-killer, and what the rest of them know they learned it from us."

A REAL PIANO BARGAIN. Low prices do not always mean bargains, but a real bargain always means a low price for the real thing. So, when we offer a new, unused piano, fresh from the factory, at \$175, we are sure that we are offering a real bargain. This is not a made-over instrument, but absolutely new in every detail. Can you afford to miss seeing it at the rooms of the St. John Piano Co., Limited, 168 Union street?

THE LATE THOMAS YOUNG. Coroner Berrymann has not yet decided what will be done in connection with the death of Thomas Young, who was killed at Sand Point on the 14th inst. The steamer Lake Champlain, on which he was working at the time, sailed before the coroner had interrogated the captain or members of the crew, and although the C. P. R. furnished the coroner with a copy of the statements made by a number of officials, he is not yet satisfied that an inquiry should not be held. A jury was sworn and the body viewed, and a judgment made until such time as the coroner should decide to again take up the case. Much depends on testimony that might be given by fellow-workmen, and also as to the time when the steamer would return here.

ATTRACTIVE WIDOW SAYS HOCKEY PLAYER ROBBED HER OF JEWELS

Robt. J. Davidson, Formerly of Ottawa, Under Arrest in Philadelphia Charged by Mrs. Fannie Caldwell

(Canadian Press) Philadelphia, Pa., April 24.—Robt. J. Davidson, a former Ottawa Hockey player, has been arrested at the instance of Mrs. Fannie Caldwell on the charge of robbing her of \$4,000 in jewels. She says she first met the man last winter in the St. Nicholas rink. Davidson was a member of the New York Hockey Club and his ability on the ice first attracted the widow. It is said there was not a game last winter in which Davidson participated. He was not witnessed by her. Mrs. Caldwell is an expert skater herself. She is a handsome brunette about forty-five years old, and has a son of 25, which is also Davidson's age.

KNEW OUR LANGUAGE BETTER 300 YEARS AGO

(Boston, April 24.—Canadian Press) Speaking at a Bible tercentenary meeting in Trinity church last night President Wm. H. P. Farnham of Brown University said the men who had translated the King James Bible 300 years ago knew how to use the English language better than any body of scholars that could be gathered in the whole world today.

ALDERMEN IN CAUCUS THIS WEEK OVER THE CHAIRMANSHIPS

A caucus will very likely be held sometime this week to decide upon the chairmanship and membership of the boards and committees of the new common council.

There is considerable rivalry for the position of chairman of the safety board, which is rendered vacant through the enforced retirement of Ald. Vanwart.

Alderman Christie is said to be anxious to succeed to the position, with Alderman J. B. Jones and Ald.-elect G. H. Green are also mentioned as desirous of undertaking the duties.

There does not appear to be a very strong desire on the part of any of the aldermen to assume the responsibilities of the water and sewerage department, left vacant through the retirement of Ald. Lacey. Nor do any of the members seem to be scrambling for the post of chairman of the appeals, and bills and by-laws committees.

It is probable that Ald. McGoldrick will remain in charge of the board of works; Ald. Potts is head of the ferry, and Ald. Hayes in command of the finance department. Alderman Elkin is said to be resigning the harbor board, and that he will be given the chairmanship over that body, which was merged last year with the board of works.

There has been little talk as to the position of deputy mayor, but it is thought that Alderman Russell or Seely might be given the honor. The indications are that the caucus will not be by any means satisfactory to all, however it turns out.

CLEAN UP THE CITY The house fly will soon be with us. In every stable and alley and backyard are breeding places of this pest, which carries disease into the homes of the people.

Senator Beveridge of Indiana is amazed at "the tremendous and almost unbelievable advance of Canada in the world's progress." There are still some Canadians who do not realize the greatness of their country.

There are too many small outbreaks of smallpox in portions of New Brunswick. The Canadian Courier points out that there is not a case of smallpox in Montreal. A child cannot attend school in that city until successfully vaccinated.

Some Conservative papers seek to convey the impression that Sir Wilfrid Laurier is afraid to face the people on the reciprocity question. Nothing could be farther from the truth.

THE TORONTO TELEGRAM calls upon the people of Ontario to stay home from the people and develop the rich resources of the northern part of their own province.

WHAT PUBLICITY DOES The rapid growth of Winnipeg is inevitable, because it is the gateway of the rich western provinces, but another reason is set forth by the Canadian Courier, which says:

EVIDENCE OF HATTIE
LOBLANC DECLARED TO BE VERY STRIKING

Direct accusations against another from the burden of Hattie Loblanc's evidence given with great secrecy before John Kerr, commissioner for the Supreme Court of Massachusetts, in the Royal Hotel here Saturday, and express in some measure the far-reaching effects which the sealing of her deposition in the hearing of the Glover will raise may have. On Saturday Samuel D. Elmore, counsel for the respondents in the case, asked about 350 questions bearing, it is said, on the murder, and after a re-direct examination by Hon. E. P. Barry, counsel for the appellants, the hearing was concluded about 5 o'clock in the afternoon.

Saturday, the girl is understood to have made direct accusations in connection with the murder case. The lawyers appearing in the interests of the appellants appear to be delighted with the matter recorded in the deposition and L. F. Smith, the Boston criminal investigator and relative of the Glovers, said that the whole purpose of the will case was to bring the slayer of Clarence Glover to justice.

On the other hand after the hearing was concluded Mr. Elmore said that he would give anything on earth to have Hattie Loblanc tell her story before the jury which will decide the will case, and Melvin W. Johnson, Hattie's counsel, was considering an offer of Mr. Elmore's to take the whole party at his expense. Mr.

CONFESSES HER SHAME TO SAVE MAN'S LIFE

Sensational Turn Given in Trial of Doctor for Murder of His Wife

St. Louis, Mo., April 24.—The St. Louis Star publishes the following:
Crushed by the action of the Illinois supreme court, which refused Wednesday to grant him a new trial on the charge of having murdered his wife the night of May 30, 1909, Dr. Haldison Cleminson admitted to a Star correspondent in Chicago that he had deliberately shielded proof of his innocence and committed perjury in his trial in order to protect the name of Mrs. Anna Schmidt of St. Louis.

Mrs. Schmidt, wife of James Schmidt, a saloon keeper, of 3701 North Broadway, St. Louis, admitted to Star reporter she was with Dr. Cleminson practically all the time the night the murder was committed, and that she knew him to be absolutely innocent. She said:

"Dr. Cleminson and I were together from 8 o'clock in the evening until 4 o'clock in the morning. We were in his office together, and we have proof of it. If the crime was committed at or near midnight, as the coroner says, Dr. Cleminson is entirely innocent.

"I am willing to go to Chicago, and re-peat my statement before any judge or jury. I would have declared myself long ago, but Dr. Cleminson forbade it, saying he could get out of the trouble without dragging my name into it. Since all his efforts have failed and the supreme court has refused to give him a new trial, I have persuaded him to let me tell everything, and prove his innocence.

"When asked why she gave her name as Anna Schmidt, while Dr. Cleminson referred to her as Anita, Mrs. Schmidt said her name is Anita, but that she chose Anita because it was more euphonious. She said she "was generally known in Chicago as Anna. Mrs. Schmidt's statement was made in a room at the Hotel Hamilton, and created the greatest interest. There is a hope that Cleminson may be freed. Affidavits have been obtained from eight witnesses "and will be presented to the supreme court in an effort to have the case reopened.

The woman's testimony, if not shaken, will establish Dr. Cleminson's innocence, and set him free. At the same time it will give the Chicago police another mystery to unravel. Mrs. Schmidt left for Chicago. Her husband furnished her with all the funds necessary for her journey, and it was while he was highly incensed with Cleminson, he did not think he should die for a murder he did not commit.

"I will do anything the court at Chicago may order me to do in order to obtain his freedom," Mrs. Schmidt said. "I have all the proof necessary and will place myself absolutely in the hands of Dr. Cleminson's lawyers to use me as they will.

AN EVENING WITH HYMNS

The services in St. Andrew's Presbyterian church yesterday were very interesting. In the morning the pastor, Rev. David Lang, preached a sermon appropriate to St. George's Day and in the evening a special song service was held. A number of familiar hymns were sung and the pastor told the story of the life of the writer. Among the hymns were: My Faith Looks up to Thee, Rock of Ages, Abide with Me, Eternal Father Strong to Save, and Lead Kindly Light.

After telling the story of each of these hymns, the pastor delivered an address from let Corinthians, 14:15: "I will sing with the spirit and I will sing with understanding." He spoke of hymns as a means of expressing sentiment, as an aid to the spiritual life and as a sacrifice of praise. There were large congregations at both services.

MORNING LOCALS

A successful temperance meeting was held Saturday night in the Seaman's Institute under the auspices of the W. C. T. U. Rev. William Lawson gave a fine address to the sailors. The Sunday evening services were conducted by Rev. Dr. Campbell.

Two accidents occurred on Saturday and yesterday to men working on the C. P. R. steamer Montezuma at Sand Point. Walter Keefe, of Clarence street, sprained his ankle, and after falling off a staging on which he was working into the harbor, contracted pneumonia, and is now in a precarious condition in the hospital. Stephen McDonald, of Sheriff street had his foot and ankle crushed when a heavy case of goods fell upon him.

Prof. Leacock, of McGill University, will address the Women's Canadian Club on Friday next.

Rev. Mr. Johnson, of Dipper Harbor, gave an interesting address last night before the members of Granite Rock Division, S. of T. E. S. Heppner presided and Miss Mullin acted as organist.

Percy Hatfield sustained a fractured leg yesterday in Main street in a fall from his bicycle. He was taken to the hospital for treatment.

While a train of the Louisville & Nashville railroad was crossing the trestle between Drakeboro and Elk Valley, Tenn., the fireman saw a bird on the trestle in front of the train. It was too far for the dog to get to the end of the trestle before the train struck it and it was no way of getting off without leaping to the ground. To the surprise of the fireman, the dog, instead of making the leap to the ground, crouched down flat in the middle of the track and waited for the train. Since there is on a trestle considerable space between the locomotive and the ties, the train passed over the dog, and the fireman looking back saw the animal calmly continuing its way to the end of the trestle.
