## GOOD RACING AT MOOSEPATH

### Belfry Chimes Carried Off 2.22 Class

#### Burling a Winner in the 2.30 Class and

#### Dr. Band Was First in the

#### 2.15 Event

(From Friday's Daily Sun.)

In spite of the inclemency of the weather nearly one thousand people yesterday afternoon witnessed some of the finest racing ever seen at the Moosepath race course. Dr. Band won the 2.15 class, and Burling in these straight heats, was the winner of the 2.30 class.

In the 2.22 class, Belfry Chimes won in three straight heats. The last heat in this race was probably the most exciting, as Daisy Wilkes was right after Belfry Chimes, which horse only finished a neck ahead. While in the 2.15 class the time was exceedingly fast, considering the conditions. The weather was too cold for good racing, while the track was exceedingly heavy. In this race every heat was uncertain until the finish.

In the 2.15 class there were only four starters. In the first heat Lady Bingen was a winner, stepping the distance in 2.27 1/4. This heat was noticeable, as were the others in this class, for the fact that the horses got away on the first starting. On the start, Lady Bingen took the pole and held it throughout that heat. At the half pole, Ada Mac was a close second, but lost this position on the home stretch to Dr. Band, a strong second. In the second heat, Lady Bingen, who took the pole, was racing very strong until the quarter-pole was reached, when she made a bad break, and Will Be-Sure, who was a close second, pulled ahead into the lead, with Ada Mac a close second. This heat was decided back to fourth place. This heat on the second half was easily Will Be-Sure's heat, while the fight was between Ada Mac and Dr. Band for second place. Ada Mac was a close second, while Ada Mac and Dr. Band were separated by a few lengths.

The third heat was probably the prettiest heat in the whole race, as the time was very pretty. Practically no horse had the advantage. They continued to stay in a bunch around the first half, but in the second half Dr. Band pulled ahead, with Lady Bingen following him a head length. Ada Mac and Will Be-Sure were having the fight for third place. The heat resulted in Dr. Band coming in a winner, while Lady Bingen finished a strong second, with Ada Mac third.

The fourth heat was Dr. Band's from start to finish, but Lady Bingen, who again carried off second honors, put up a stiff fight. The fifth heat was where the real interest was shown. In this heat Dr. Band had no rival, while the fight was between Lady Bingen and Will Be-Sure for second place. Lady Bingen was, however, again successful and won second place by half her length.

The racing in the 2.22 class was exceedingly fast, considering conditions. In this class there were five starters. Belfry Chimes was the winner in this race, winning in three straight heats.

The last heat in this race was an exceedingly exciting one, the finish being very well done. In this heat Belfry Chimes took the pole, and had at the first half a large lead, but Daisy Wilkes pulled up from third place and on the home stretch gave Belfry Chimes the race of his life, as he only finished a few inches ahead. The driver of Daisy Wilkes protested this race, as he claimed that Belfry Chimes broke during the race and should have been set back, but the judges claimed that although the finish was very close, Belfry Chimes was the winner, as they said Daisy Wilkes broke within fifteen feet of the wire.

In the 2.30 class there were six starters. This race was won in three straight heats by Burling, the Fredericton horse. In this race it was seen

from the first heat that Burling was sure to be the winner, but interest was none the less, as an exceedingly hard fight was put up for second place. The fight was between Little Egypt, the winner of second, and Frank Khron, who came in third. The different heats were all very closely contested between these horses, and popular opinion favored Frank Khron the race, but Little Egypt could not be downed. On the first heat of this race there was a considerable difficulty in starting, and after a great deal of scoring, the horses got away with a very poor start. Alice H. was away behind in the start, and continued to lose until finally detached.

The following is a summary of the races:

## WEDDING

### SACKVILLE, N. B., Sept. 6.—

The marriage of Percy K. Atkinson and Miss Jane Bowser was solemnized last evening at the home of the bride's parents, Mr. and Mrs. John Bowser, Salem street. Rev. B. N. Nobles was the officiating clergyman. About fifty invited guests witnessed the ceremony. The bride, who was given in marriage by her father, was handsomely gowned in white silk, wore a veil and orange blossoms, and carried a shower bouquet. She was attended by Miss Milne Atkinson, sister of the groom, who wore a white organdy with lace trimmings. Mrs. Victor Dixon played the wedding march. After the ceremony and congratulations, a wedding supper was served, after which the happy pair took the train for St. John. The bride's going-away gown was green broadcloth, with hat to match. Mrs. Atkinson received many handsome wedding gifts.

The home of Mr. and Mrs. S. E. Jones, Point de Bute, was the scene of an interesting event Wednesday evening, when their daughter, Jeanette Juana, was united in marriage to Edward D. Bodah of Boston. Rev. R. Colpitts was the officiating clergyman. The bride was gowned in white crepe de chene, with a large, elaborate and handsome bouquet. She was attended by her sister, Miss Sarah Jones, who wore champagne voile with lace trimmings. Miss Ivy Main played the wedding march. Many valuable presents were received by the bride. Mr. and Mrs. Bodah will leave on the 10th for their future home, Boston, Mass.

Mr. and Mrs. A. W. Atkinson have issued invitations to the marriage of their sister, Mrs. Clara Bell, and James Doncaster of Amherst, to take place on the 11th inst.

### TORONTO, Sept. 6.—

Miss Mary Connor and Frank Cook, who were to have been married within a few weeks, came from their home in Marmora, Ont., Tuesday to attend the fair. They spent the day at the exhibition and then returned to their boarding house. Miss Connor requested the cook to call her in the morning, but when her door was opened, she was lying lifeless on the bed, having been asphyxiated by the gas. It is believed she accidentally turned the gas jet on. Miss Connor was 22 years old.

## GOVERNMENT TROOPS ROUTED BY INSURGENTS AND MANY KILLED

General Montenegro

### CIENFUEGOS, Sept. 6.—

A detachment of fifty government troops from this city today encountered a band of General Guzman's insurgents near Carrizosa. In the fight which ensued the government force was routed, many being killed or wounded.

### HAVANA, Sept. 6.—

There is a faint glimmer of peace. Important interests, thoroughly alarmed at the serious situation into which the material interests of Cuba have been brought by politics, are making every effort to rescue them from impending ruin. Men representing millions of invested capital are working along various lines, none of which contemplate the armed intervention of the United States, although some are urging President Roosevelt to intervene peacefully by assuring the rebels they must lay down arms before the United States which means an order being immediately restored. The struggle is made to adjust the differences that have arisen. This is a distant, would be sufficient to end the revolution.

All talk of negotiation is capriciously avoided, as in the present temper of the Cuban people any suggestion of that kind would render the hope of favorably influencing the leaders of either contending party impossible of realization. The strongest and most important business men say that the situation is exceedingly dangerous and critical. The disposition toward a feeling of pacific increment.

The failure yesterday of a prominent house, agents for one of the leading lines of foreign steamships, dealers in tobacco, sugar and honey, has added to the general crash. The liabilities are \$200,000, of which \$300,000

are due to one bank here, to be another and the balance to France. The refusal of its foreign companies to extend the firm's credit on account of the unsettled condition of the island is the cause of the failure. There is expressed a fear that this is merely the forerunner of similar settlements if the insurrection is not quickly stopped.

## TRADE COMMISSIONER TO CHINA AND JAPAN

### OTTAWA, Sept. 6.—

An order in council has been signed appointing W. T. Preston, former immigration agent at London, Canadian trade commissioner to China and Japan.

Negotiations between Canada and the British naval board have about reached a stage at which Canada can enter into possession of the dockyards at Halifax and Esquimaux.

## STEAM THRESHER STARTS A FIRE

### OTTAWA, Sept. 6.—

A steam thresher yesterday started a fire which destroyed the double barn, cow barn, drive shed, horse stable, granary pigery, work shed and brick house of Thomas Boyne and the house and barns of Thomas Ready, across the road. The buildings are at Black Rapids, near Ottawa. Boyne's loss is five thousand and Ready's four thousand. Twenty men were engaged in working about the premises, and some barely escaped with their lives.

Failure of an air brake to work today resulted in a Grand Trunk train backing into the Central depot and smashing the fine parlor car Pekin.

## TWO HUNDRED MUTINEERS ON TRIAL AT CROSTADT

### CROSTADT, Russia, Sept. 5.—

The trial of two hundred participants in the recent mutinous outbreak including M. Onipko, one of the present leaders in the outlawed parliament, and fifty other civilians, began here today before a military court. These are over a thousand witnesses and therefore the proceedings are expected to be protracted.

### SEVASTOPOL, Russia, Sept. 5.—

In answer to the publication of a notice from the terrorists that a sentence of death had been imposed on Col. Dumadze, commander of a rifle regiment here, the officers of that corps in an open letter have announced that in case of an attack being made on the Colonel they will exact vengeance on the leaders of the progressive parties.

## COLLINS INTERESTED IN PRIZE FIGHTS

### Wanted to Know How Nelson and Gans Made Out—Gives Officials No Trouble.

### HOPEWELL CAPE, Sept. 6.—

Collins, the murder suspect, who has been confined in the county jail for one week, got a breath of outside air today. In the custody of Constable Coonan, the prisoner was taken from the jail at ten o'clock this morning to the office of Clerk of the Peace Dixon, and further remanded till ten o'clock on Monday morning, when the examination will open. Physically at least, Collins' confinement seems to have done him no harm, and as he walked briskly along the side of the constable, he appeared in the pink of health. On his way back to the jail he inquired of the constable the result of the Nelson-Gans prize fight, saying he was considerably interested, and that his sympathies were with Nelson. The constable not having posted himself along sporting lines, was unable to impart the desired information.

Jailer Porter has not had the slightest trouble with the prisoner, his deportment so far, being quiet and orderly. He is an inveterate reader, and spends the greater part of his time perusing the magazines, etc., sent him by the officials. He is allowed a light in the evening, and lies on the bed hour after hour reading. The other day he asked for a Church of England hymn book, being satisfied, however, with one of another kind, the book he requested not being available. He sings occasionally, and although not inclined to open a conversation talks freely when spoken to. The Salvation Army captain sent him some War Crises today, but he told the constable his reading matter was getting low.

### NEW YORK, Sept. 6.—

Paul Pletjan, a 30-year-old man, and Louis Zochel, his helper, fell five stories to the basement through an elevator shaft and were killed. They fell from a swinging scaffold.

## MONTREAL SHIP LABORERS STRIKE FOR MORE PAY

### Wanted to Know How Nelson and Gans Made Out—Gives Officials No Trouble.

### MONTREAL, Sept. 6.—

One hundred and fifty ship laborers working for the Canadian Pacific Steamship and Donaldson lines are out on strike. They have been receiving twenty cent an hour for day work, thirty for night work and forty for Sunday. They demand twenty-five, thirty-five and fifty cents an hour. This the companies do not feel they should pay, as the men are only laborers. Their work is chiefly building cast-iron hulls of steamers and kindred work. They are not carpenters, and almost any man who can drive a nail can ship labor.

The demands met with a prompt refusal. The greater number of the strikers were employed by the Canadian Pacific. The company at once put fifty sailors at work and several carpenters and this afternoon a good sized crowd is going from the railway to the steamers. With these the company claims the work can be done, and meanwhile men are being hired to permanently replace those who are out. The Donaldson line is also filling vacancies and business is not suffering, according to the statement of the officials.

## SALOON KEEPER CHARGED WITH ARSON

### MONTREAL, Sept. 6.—

Alphonse Daigneau, an east end saloon keeper, was charged with arson in the police court today and pleaded not guilty. With him was Mrs. Perron. Constable Gratton saw them leave Daigneau's saloon at an early hour this morning, and a few minutes later noticed the smoke coming from the building. He called and extinguished the blaze in a few minutes, but was compelled to rescue Daigneau's wife and children, who were asleep upstairs, by means of ladders, their escape being cut off. Lighted candles and coal oil were used to start the fire.

## WINSTON CHURCHILL ON IMPERIAL UNITY

### Letter Read at Banquet Tendered to Havana Greenwood M. P. at Toronto

### TORONTO, Sept. 6.—

At a banquet tendered to Hamar Greenwood, M. P., tonight by directors of the exhibition, Greenwood read a letter written by Winston Churchill, under secretary of colonies in the nature of an official greeting to Canada.

After referring to the fact that the Conservative party in England had for so long been identified with the imperial idea, that the name synchronized the imperial unity, he went on to say that the change did not imply any weakening in the affection of the British people for both and kin across the seas, or in earnest and vigilant efforts of the colonies to render every legitimate service to the colonies. The colonies had nothing to fear from Liberal principles, for it was upon them they had built up their greatness. It is by Liberal imperial principles of colonial autonomy of a lofty humanity and above all that of a peaceful foreign policy that the structure and cohesion of the British Empire has alone been achieved and will alone be maintained.

## HOULTON POLICE LOOKING FOR BURLY ST. JOHN MAN

### HOULTON, Me., Sept. 6.—

The other night Jack Nichols, a burly chap who hangs from St. John, and a Frenchman employed as cook in the jail here, got into a row about midnight on the Main street. The quarrel was over a bottle of whiskey. Nichols struck the Frenchman over the head with the bottle and fell him; then beat and choked him into insensibility. The Frenchman, when he came to, made complaint to the police, but a rigorous search has failed to locate the assailant.

The night police was at the lock-up engaged with another case at the time of the assault.

## PROF. C. C. JONES IS CHANCELLOR

### Was Appointed Mathematical Professor Yesterday.

### He Was Only Applicant for Both Positions—Will Immediately Accept—Prof. Murray Not Heard From

(Special to the Sun.)  
FREDERICTON, N. B., Sept. 6.—The University senate, which this afternoon appointed Prof. Cecil C. Jones professor of mathematics, considered the short time it was in session four names—J. W. Clawson, Dr. Philip Cox, Dr. Bradford and Prof. Jones. The

PROF. CECIL C. JONES

first three were applicants for the mathematical professorship, while Mr. Jones applied for both the professorship and chancellorship. As the appointment, however, carries with it both positions, the only applicant for both received the appointment. A number of the senate strongly urged that action should be delayed in the matter, but the opinion of the majority favored settling the matter up at once. Up to a late hour tonight Mr. Jones had not been heard from, but it is pretty likely he will take for granted that as he was an applicant he will accept. The position of chancellorship is a most important one for besides being the head of the University, he is also a member of the senate and of the board of education. The salary is \$2,000, with residence and light and fuel supplied. Former chancellors also held the position of superintendent of the meteorological system worth about \$400, and this no doubt will also go to Mr. Jones. The senate is not at present in Halifax no answer was received. Probably Prof. Murray has been heard from his name might have been considered along with the others today.

Mr. appointment of chancellor was made, as this appointment is made by the government, but the appointment of professor of mathematics today was clearly made, with the understanding that the government would also make Prof. Jones chancellor if Mr. Jones will accept. Premier was present at the senate meeting this afternoon.

## MOTORISTS STONED BY ANGRY PEASANTS.

### GENEVA, Sept. 4.—

The crusade against motor cars in Switzerland continues, despite the warning of the Swiss Automobile Club and many hotel proprietors that the tourist season is seriously affected thereby. It is understood, today considered to be a serious side of the applicants, though it is understood that Prof. Walter Murray, of Halifax, was telegraphed to last evening, but as Dr. Murray is not at present in Halifax no answer was received. Probably Prof. Murray has been heard from his name might have been considered along with the others today.

While traveling from Lucerne to Interlaken a party of English and American motorists were stoned by a gang of young hooligans, all the glass and lamp in the car being smashed.

H. Evans, of New York, who crossed the Brunig Pass at the rate of six miles an hour—two friends in the car timed him—was fined \$10 on his arrival at Sarnen for excessive speed.

One young American, who has been unjustly fined a number of times, is now dashing about the country in a fifty-horsepower car at the rate of forty miles an hour, trusting to luck and to the cloud of dust which envelops him to prevent the number of the car being taken.

"It may as well have my money's worth," he explained yesterday.

### FREDERICTON, Sept. 6.—

The New Brunswick telephone directors concluded their session this afternoon. The board arranged all preliminaries for the meeting of the shareholders for the meeting of the shareholders for the confirming of taking over the Central Company.

Dr. Stockton and other directors left for St. John by this evening's train.

# THE EXHIBITION.

## Judges Made Partial Awards in Cattle, Horse and Horticultural Departments — Dog Show a Popular Feature — The Prize Winners — Excellent Exhibits of New Brunswick Fruit from Several Counties.

10,000 people passed the turnstiles at the Exhibition grounds Monday. This is in excess of the number on Citizens' Day two years ago, when the number present was 7,516.

The weather man with a sublime disregard of management, has conducted the Exhibition with a very disagreeable variety of atmosphere, there being a drizzling rain all the forenoon, which increased in volume in the afternoon to a steady down-pour, rendering the grounds sticky and making it decidedly unpleasant to venture beyond the confines of the buildings. Despite these inconveniences, however, the buildings were thronged with afternoon and evening, and once inside the people abandoned themselves to the Exhibition spirit, and eagerly inspected the various exhibits, and later traversed their way to the Pike or the other places of amusement.

Although the city people turned out in gratifying numbers, it is probable that they were not equally aided by the strangers. Every train and boat that arrived here yesterday poured forth a stream of humanity, that swelled the grand total to the splendid figures mentioned.

Manager Milligan during the forenoon heard someone say it was raining, but it was not until the shades of evening had fallen that he found time to look out, and then it was beautifully clear, and a smile of satisfaction stole over Mr. Milligan's features, and he distributed cigars among the scribes with a reckless prodigality. He thought that the bad weather which prevailed during the day, in consideration, the attendance was very large, and augured well for the remaining days.

Many of the people who came in the early part of the day remained until closing time at night. Emerald-hued youths, with the hands of their staid mothers, with sticky fingers, and children, and grey bearded farmers sat around on platform edges and ate their lunch, prudently brought with them. They looked into the space set apart for the dog show, and occupied every possible space that afforded an opportunity to sit or recline. Several cases of straggle children were reported. One lady who declines to give her name missed her twelve-year-old boy shortly after noon and was nearly distressed.

"You will know him as soon as you see him, as he wears a brown coat and a dark suit, and is a remarkably intelligent looking child." He was located eventually, having been mesmerized by the eloquence of one of Meyer Cohen's workers.

Little Willie Bennett, the son of Capt. Bennett, of the steamer Rhoda, also gave his step-mother some anxious moments, when he was seen in the evening, wearing his leather leggings.

A prominent figure on the Pike yesterday was Detective Kellen, who was induced by one of the newspaper friends to visit the "laughing stock" booth. When the detective saw his main proportions distorted alternately dwarfish and elongated he exclaimed, "Say, boy, if I thought I looked like that, I would jump over the wharf."

A visitor to the press room last night was Gustaf Svensson, of Sweden. When Gustaf unveiled himself, he measured six feet nine inches. The reporters were all very civil to him, and asked him questions which he could not understand, not because of their rudeness, but because of Gustaf's unfamiliarity with the English language. The blond giant was taken to the Pike, and introduced to Prince Tiny, whom he held in the palm of his hand, to the amusement of the spectators.

Another of the spectacles was released from his cage yesterday. His chief trouble was a hallucination that he was running the whole show. This idea was expelled in a rude but effective manner by the hippodrome at the large Amusement Hall. Dids at the small hall, and Meyer Cohen's moving picture show were all well patronized.

The attractions at the hippodrome were Wormwood's monkey circus and Montague's cockatoo circus. The stunts in the dogs and the funny antics of the monkeys greatly amused the children, while the older people marvelled at the ready and accurate solution by a large Newfoundland dog of problems in addition, subtraction and division. This remarkably intelligent canine answered correctly several questions in simple arithmetic put by people in the audience to their amusement.

The cockatoo circus was also an interesting feature. The birds performed many acrobatic feats, such as are seen in the sawdust ring, and will no doubt be a great drawing card for the remainder of the week.

"Dids" the mysterious creation of a woman out of nothing, was claimed for by the persistent advertisements. It is one of the cleverest and most baffling illusions ever seen here. The observer sees a tank half filled with water, which is a few seconds concealed from view by a siltken covering. Then the professor slowly draws it away, and the form of a shapely female is seen in the water. She slowly comes up under the face and jumps over the side of the tank.

Two ladies were created yesterday in about fifteen minutes, and the audience went away entirely satisfied. Hallman, H. Campbell, Jas. Litteney and Arthur Hector, also caught the crowd with his clever feats of legerdemain.

The Bostonian ladies' orchestra, of which Belle Weston-Tenfrey is leader, arrived yesterday at noon and gave their first concert at three o'clock. The gallery was lined with spectators to watch the novel band, and they made an instantaneous hit. There are quite a number of stringed instruments in the band, which tends to keep the music soft and sweet. The playing of these ladies was indeed an innovation

and upon the completion of each piece they received hearty applause, easily giving credit for their conduct. By request the ladies played Carmen, and this piece along with the Light Cavalier Overture was the biggest hit of the afternoon. The ladies took the most difficult parts of the various pieces very easily, and in showing her complete mastery over the instrument which she played. The members of the band were introduced to Lieutenant Governor Snowball by President Skinner of the Exhibition Association. This band is to give concerts every afternoon and evening during the remainder of the week, and the management department is doing everything possible to procure such a strong attraction for the exhibition.

The first performance of the Miles Bros. moving pictures, under the direction of Meyer Cohen, giving the scenes of the San Francisco disaster scene, was greatly appreciated by a large crowd yesterday afternoon. Mr. Cohen has created a large tent at the head of the Pike, near the Carriage Building. The tent is black, so that when the electric lights are turned on the tent is perfectly dark, a condition which is necessary for a good picture show. The films used in the show are in first class condition, and the inventor of the scene depicted, and at the philosophical way in which the sufferers bore the calamity, one does not notice the same. It is with great reluctance that the crowd files out when the lights are turned on again, and after the trip to the stricken city for the appearance of the different pictures are very realistic—some finds himself again on the spot, pondering over the inventive genius of man and of the great art of photography. The moving pictures will run show constantly during the week, and anyone who leaves without paying a visit to the most interesting show will return home having missed one of the most attractive features of the fair.

The following is a list of the judges of the horses, cattle, poultry and dog shows: Horses—Dr. J. Standish, Walderton, Ont.; dairy cattle—W. E. Stevens, Huntingdon, Quebec; beef cattle and sheep—C. M. MacRae, Ontario; swine, T. H. Mason, Starfordville, Ont.; poultry, Shary Campbell, Windsor, Ont.; dogs, W. H. Lacy, Boston.

In charge of each department of the exhibition are superintendents. It is their duty to see that everything in their division is being carried on properly, and that the Exhibition Association were desirous of placing the best reliable persons in these positions.

In regard to the following list of superintendents: Mrs. David McLellan—superintendent of the ladies' department. John J. Frost—superintendent of live stock. S. Wetmore—superintendent horse and cattle ring. W. Taylor—superintendent Industrial Hall. Thomas McCullough—superintendent of the dog show.

**POULTRY SHOW.**

The poultry show this year is far ahead of all previous exhibitions. Never before have so many and so well qualified entries been received. The superintendent of the poultry show, Dr. J. Standish, has a great deal to say in regard to the quality of the birds. He says that the quality of the birds is of a high standard, and that the show is one of the best he has ever seen. The following is a list of the prize winners:

**White Plymouth Rock class.** Hiram Lemon, C. Campbell, Hugh Campbell, Dr. Grant, W. H. Jackson, Seth Jones and Wm. Mullin have entries. In the buff Plymouth Rock class, E. C. Campbell, Seth Jones and Dr. Grant have entries. In the light Brahma class, Seth Jones, E. C. Campbell, Hiram Lemon and Arthur Hector are the chief exhibitors.

**Black Langshans class.** John Riley is the chief exhibitor. In the light Brahma class, John Riley is the chief exhibitor. In the black Brahma class, John Riley is the chief exhibitor.

**CATTLE AND HORSES PARTIALLY JUDGED.**

Dr. J. Standish, W. F. Stevens, and C. M. MacRae, the judges of the horses and cattle, were unable to judge yesterday. The judges expressed themselves as greatly pleased with the quality of the live stock, the competition being very keen and the stock of very good quality.

A large crowd was on hand watching the cattle being judged outside the Agricultural Building. During the whole day the seats in front of the ring were crowded and the interest taken in the decisions was general. It was a great surprise to many uninitiated persons to learn that such fine grades of cattle are kept in the province, and many of the classes were keenly contested.

**HORTICULTURAL EXHIBIT.**

The New Brunswick is progressing in apple culture is plainly shown by the creditable exhibits from Queens, Kings, York, Sunbury and Victoria counties. Not so many exhibits are shown as two years ago, but the fruit is of excellent quality, and remarkably clear from blemishes, being the cleanest fruit shown at the exhibition. Queens county undoubtedly leads the province, both in size and quality of the fruit, although Kings and Sunbury make an excellent showing.

Donald Innes of Tobique River, Victoria county, has an excellent exhibit of apples, demonstrating that even though the soil is a heavy one, apples can be grown almost as successfully as in some of the other counties, more fortunately situated in respect to soil.

On account of the exhibition having been much earlier this year than two years ago, a fair comparison in size cannot be made.

The Queens county competition there were two exhibitors, George McAlpine and James P. Bell, both of Lower Gasquetown. Both show several varieties, including the Wealthy, Golden Russet, Transparent, McMahon's White, and in the prize list, F. W. Hatheway & Sons and Isaac Stephenson are the only exhibitors from York county, while J. M. Collette and W. A. Collette are the sole representatives from West county.

A. R. Gorham of Upper Sheffield, Kings county, also shows a fine collection of apples, and is a sole collector of apples only to the Queens county hills.

The principal exhibitors of apples from Nova Scotia are C. B. Harris of Churchville, H. D. Harris of Canimung, and H. D. Ainslie of Westville. While Nova Scotia apples are larger than those shown by the New Brunswick exhibitors, they are not so clean.

The following is a list of the prize winners:

**ATTRACTIONAL EXHIBITS.**

The Hewson Woolen Co. has one of the finest booths in the building. They have 150 different samples of wool in stock, suitable for ladies' and gentlemen's suitings for ladies' coats and men's suitings for ladies' coats. The goods are nicely matched, and the price is also very reasonable. The factory is at Amherst, N. S., and on account of the increased amount of business, they have made an extensive purchase of the latest styles of suits in addition to their already large stock. Mr. Thompson, one of the Hewson Co.'s travellers, will be in charge of the exhibit during the week, and he is in town for part of the fair. All visitors intending to purchase clothes this fall or next winter should visit the Hewson Woolen Co.'s booth, and it is quite a revelation to the visitors who have not paid a great deal of attention to the advances made in the manufacture of cloth and the extent to which the different processes of weaving the cloth may be had at the booth.

The Empire Tobacco Co. have a large booth in the centre of the main building, to push their well known "Ivy" brand. This tobacco is grown in Essex Co., Ontario, and is shown in the natural state. After the tobacco has been prepared a certain amount of Virginia tobacco is mixed with it, the blending of the two giving a most delicious flavor. The booth is very tastefully decorated, and is fitted up as a resting place for the users of Ivy tobacco. During the week 50,000 sample tins of Ivy tobacco will be given away at the booth, and those who have not yet tried the tobacco would do well to do so now, as it is the best Canadian tobacco on the market, and is second to no other grades of the high priced American tobacco. In fact, the leaf grown in Essex county, Ontario, is said by experts to be more valuable and better than any other tobacco, and is in every respect than the Virginia leaf. The Canadian climate does not, however, allow of the full ripening of the tobacco, which has to be done by artificial means, and this costs a large amount of money. Any visitor to the fair, who is at all interested in manufacturers should visit the Empire Tobacco Co.'s booth and have the process of turning the tobacco leaf into the finished product explained to them. A very pretty exhibit is that of P. G. McLean, proprietor of the National Department Store. He has a booth alongside that of Robert S. Craig, and has a number of fancy articles on hand, many of his novelties being entirely new to St. John.

Mr. McLean has a large staff employed selling his notions, and that he has caught the popular fancy is seen from the crowd of purchasers all ways surrounding his booth.

Tuesday's attendance at the exhibition was 11,384, or about one thousand less than Tuesday's record two years ago. The morning crowd was lighter than on Monday, but during the afternoon people were constantly streaming in. Even now come at night, and the sides of the buildings, the Pike and the grounds were a seething mass of jostling, struggling but good-natured humanity. The scene after nightfall was one of unusual brilliancy and animation. The Pike barkers became enthused and redoubled their efforts to secure a share of the money, and they succeeded. They seemed, however, to be plenty of people to go round, as all the booths were thronged, while in the Amusement Hall the domestic department and Dids were well patronized. People even went to see the six-headed calf, a monstrosity which has hitherto been somewhat neglected, notwithstanding the persistence and eloquence of the barker. The fireworks last evening proved a great drawing card. The grounds were black with people during the show, and the display, which was really very fine and brilliant, pleased the spectators. The Siege of Gibraltar was a closing piece, and was effectively carried out.

The Ladies' Band was as before a popular attraction, and only on account of their excellent music, but because of their personal charms, which are enhanced by natty costumes. The general expression of opinion is that the band is the best of the year is fully up to the mark in every respect, and nothing has occurred to mar the pleasure of those attending.

One serious complaint has been made of pocket knives, and the staff of special police under the vigilant eye of Serjt. Ross, who commands them, maintain excellent order.

The show is scheduled for today and Thursday at Moosepass, and postponed until Thursday and Friday. This was decided on as nearly all the entries entered remained over at Moosepass, and the races which should have taken place yesterday, had to be deferred until today on account of the bad weather.

The Ladies' department is one of the most up-to-date departments in the whole exhibition. The display of practical demonstrations of a professional, Miss Margaret Black, assistant, Miss Healee Seely. The last will be given on Friday afternoon. These demonstrations have proved very popular among the visiting ladies. The made hats and dishes which have been made here on the Pike, and were in great demand. A demonstration of kindergarten will be given this morning and also Thursday morning. On both of the afternoon of these days Miss Elizabeth Scott will give practical talks on nursing.

**CHILD CAN CLEAN HOUSE WITH "SURPRISE" SOAP.**

It loosens up the spots and dirt and fly-specks on woodwork and paint so that no hard rubbing is necessary.

Simply take a cloth and some hot water, make lather of "SURPRISE" soap, and then rub the doors and window-sash very lightly. It will surprise you to see how quickly and easily the dirt comes off.

"SURPRISE" Soap is the best to clean everything washable. It never injures any thing or makes the hands sore or harsh. It is a pure, hard soap, and costs no more than common kinds.

and upon the completion of each piece they received hearty applause, easily giving credit for their conduct. By request the ladies played Carmen, and this piece along with the Light Cavalier Overture was the biggest hit of the afternoon. The ladies took the most difficult parts of the various pieces very easily, and in showing her complete mastery over the instrument which she played. The members of the band were introduced to Lieutenant Governor Snowball by President Skinner of the Exhibition Association. This band is to give concerts every afternoon and evening during the remainder of the week, and the management department is doing everything possible to procure such a strong attraction for the exhibition.

The first performance of the Miles Bros. moving pictures, under the direction of Meyer Cohen, giving the scenes of the San Francisco disaster scene, was greatly appreciated by a large crowd yesterday afternoon. Mr. Cohen has created a large tent at the head of the Pike, near the Carriage Building. The tent is black, so that when the electric lights are turned on the tent is perfectly dark, a condition which is necessary for a good picture show. The films used in the show are in first class condition, and the inventor of the scene depicted, and at the philosophical way in which the sufferers bore the calamity, one does not notice the same. It is with great reluctance that the crowd files out when the lights are turned on again, and after the trip to the stricken city for the appearance of the different pictures are very realistic—some finds himself again on the spot, pondering over the inventive genius of man and of the great art of photography. The moving pictures will run show constantly during the week, and anyone who leaves without paying a visit to the most interesting show will return home having missed one of the most attractive features of the fair.

The following is a list of the judges of the horses, cattle, poultry and dog shows: Horses—Dr. J. Standish, Walderton, Ont.; dairy cattle—W. E. Stevens, Huntingdon, Quebec; beef cattle and sheep—C. M. MacRae, Ontario; swine, T. H. Mason, Starfordville, Ont.; poultry, Shary Campbell, Windsor, Ont.; dogs, W. H. Lacy, Boston.

In charge of each department of the exhibition are superintendents. It is their duty to see that everything in their division is being carried on properly, and that the Exhibition Association were desirous of placing the best reliable persons in these positions.

In regard to the following list of superintendents: Mrs. David McLellan—superintendent of the ladies' department. John J. Frost—superintendent of live stock. S. Wetmore—superintendent horse and cattle ring. W. Taylor—superintendent Industrial Hall. Thomas McCullough—superintendent of the dog show.

**POULTRY SHOW.**

The poultry show this year is far ahead of all previous exhibitions. Never before have so many and so well qualified entries been received. The superintendent of the poultry show, Dr. J. Standish, has a great deal to say in regard to the quality of the birds. He says that the quality of the birds is of a high standard, and that the show is one of the best he has ever seen. The following is a list of the prize winners:

**White Plymouth Rock class.** Hiram Lemon, C. Campbell, Hugh Campbell, Dr. Grant, W. H. Jackson, Seth Jones and Wm. Mullin have entries. In the buff Plymouth Rock class, E. C. THE SEAS' TOLL.

In spite of modern methods of navigation, in spite of all the canals and all the buoys and light-houses, in spite of the steady improvement in naval architecture, the grim old sea continues to take its toll of ships and of men who sail in them.

Great as this sacrifice seems when taken by itself, the sea's demands look their exorbitant appearance when the immensity of the fleet continually at its mercy is taken into consideration.

As to the causes of disaster, wrecks are most numerous, 41 per cent. of the loss of steamers as well as sailing ships being placed under this category.

both Liberals and Conservatives. "Labor must go on fighting for its own hand, careless of whether its enemy wear one or two heads, for all who oppose a Labor candidate are enemies of labor whether they are known as Liberal or Conservative," says Mr. Hardie.

It was apparent from the first that the coalition between the government and these radicals could not be permanent, but the separation is commensurate than was expected.

The Fredericton city council has appealed to the Lieutenant-Governor-in-Council from the decision of the Provincial Board of Health forbidding the discharge of the city's raw sewage into the St. John river.

The news that Australia is her new tariff has refused to give Canada preferential privileges accorded to the rest of the empire is surprising in view of the fact that it was generally understood that the Canadian government had been for some time in negotiation with Australia with the idea of arranging a system of reciprocity.

HAVANA, Sept. 4.—As days and weeks pass with no appreciable diminution of the revolution, apprehension increases. The most conservative testimony from the country districts of the provinces of Pinar del Rio, Matanzas and Santa Clara is to the effect that two-thirds of the people in the country are imbued with a sentiment of violence as regards the present government.

General Mario Menocal, whom the people trust as one capable of bringing the warring factions together if such a thing is possible, came to Havana today and held a conference with President Palma. General Menocal declined to discuss the conference. General Cebalco, who has been prominent in recent efforts to negotiate with the insurgent leaders, and a few merchant and planter men, tonight reviewed the proposal to make an attempt to open negotiations with the insurgents, and the two generals named in fact tomorrow to call upon the leaders of the Liberal and Moderate parties individually and see what it is possible to do.

BANGOR, Me., Sept. 4.—Rev. Michael Walsh, pastor of St. Mary's Catholic church, died at a late hour tonight in the Russell Hospital, Bangor.

NEW YORK, Sept. 4.—Edward C. Paul, a broker of Taunton, Mass., was arrested tonight on a warrant issued by Justice of the Peace Wm. H. Alvin of Portsmouth, N. H., August 27th, at the request of William H. Kilburn & C., claimants of Portsmouth.

BREAKING A COMPACT.

By Belle Mantles.

Tom Dalton peered the blue-traveling road in front of the palatial hotel waiting for Dorothy. Waiting for Dorothy had been his normal condition this summer.

"He was a man, whose well made shoulders alone marked him as man of action. This new role of his was not consistent with his principles and habits.

"I don't know of a fellow anywhere I think as much of as I do of you, Tom. He has been one no one else to whom I would like to refer for a recommendation, but you haven't said anything to her yet?"

"I am dreadfully unpunctual," she added with a little sigh. "It's inconvenient for my friends, but I can't help it. I get up late in the morning, and everything has begun. I've never seen the first act of a matinee yet!"

"Do you, Tom?" she asked delightedly. "He doesn't know—he can't imagine how he has done it. It would be for me!" she thought. "It would be for me!"

A WOMAN'S SYMPATHY

Are you discouraged? Is your doctor's bill a heavy financial burden? Do you know what a relief it would be to you if you could stop the doctor's bill? I can do this for you. All you have to do is write for a free box of the remedy, which has been placed in my hands to be given away.

POOR FELLOW.

**HOPEWELL HILL, Sept. 1.**—James H. Atkinson of New York arrived at Albert on Thursday on short visit to his family. Mr. Atkinson was formerly a well known merchant of Albert, and for some years has been one of the most successful insurance men in New York. He was accompanied here by his daughter, who has been living in New York for some time.

The Scott Act case against Dr. Carnwath for alleged improper giving of certificates opened before Justices Rhodes and Fullerton yesterday and was adjourned until next Thursday for the court to decide whether the doctor should be put on his defence. Stipendiary Stuart also considers whether Druggist Jones shall be put on his defence. There appeared to be no evidence against Mr. Jones except as to the legality of the physician's certificates, which the court is considering as a matter of legal precedent, and the doctor's initials only appearing.

Mr. and Mrs. Edward Cole left today to attend the St. John exhibition.

Edward Kinnin of Epsom, Cape, has been appointed customs collector in the place of Capt. A. G. Dickson, resigned.

Orin A. Reed, bookkeeper for C. E. Prescott, has been very ill in a critical condition. Dr. Burnett of Sussex, who was here in consultation with the local doctor, returned home yesterday. Although very sick, he considered the patient should recover.

Miss Blanche Sloat of New York and Miss Bishop of Wolfville, N. S., are the guests of Miss Margaret Lynds at the Cape. Miss Sloat is a prominent instructor in the Brooklyn schools, and at one time was on the teaching staff at Acadia. Miss Bishop is at present a teacher at Wolfville institutions.

Mrs. Saphrona Rogers is visiting friends here.

# TRUE BILL FOUND AGAINST CLARK

The supreme court opened Tuesday morning at 11:25 o'clock, his honor Judge Landry presiding.

The evidence in the Clark-Train case was placed before the grand jury in the afternoon and true bill was found against Clark on both counts of the indictment. Court was then adjourned until 10 o'clock this morning, when the Clark case will probably come up.

The grand jury was composed of the following: Harold O. Turner, D. H. Merritt, Louis Green, Chas. K. Cameron, Fred Sullivan, J. W. Vanwart, J. Reid, Horace Brown, Isaac Erb, R. F. Morrison, E. J. Armstrong, E. C. Elkin, J. B. Ham, James Jack, A. M. Rowan, J. McSherry, W. A. Munroe, S. E. Wilson, Porter, Chas. Damerly, J. E. Wilson, foreman.

The docket was as follows:

# FAMOUS FAMILIES OF EARLY CANADA

(Monreal Star.)

Preparations are already in progress for the celebration of the tercentenary of the founding of Quebec in 1608.

On Monday next at the Windsor Hotel will gather representatives of the families of the founders of the Ancient and Honorable Company of the City of Quebec for the celebration.

From present indications the fetes at Quebec will be memorable. Descendants of the nobles of France, of the seignours of the barons of Scotland, of the Chevaliers of St. Louis, now scattered all over the world will return to celebrate the deeds of their ancestors.

M. Vicomte de Frontac, marshal of the College of Hereditary of Canada, is acting as the centre of the gathering of the descendants of these ancient families and has received notification already of the coming of representatives of many of the founders of New France.

It is expected that England will be represented by the Seligneurs of Longueuil, Italy by the Seligneurs of Carignan and Scotland by the Barons of Nova Scotia. The Ancient and Honorable Artillery Company of Boston, founded in 1630; the Foot Guards of the Marquis of Rhode Island, founded under Sir Edmund Andrews; the Hussar Regiment of Albany; the Boston Cadets, founded under Sir William Shirley; all will be invited to take part in the programme.

Among the French families who are expected to have representatives present to celebrate the founding of the city by Sir Samuel de Champlain, are such names as d'Entremont, Latour, Frontac, who form the Council of the Seligneurs of Canada, as well as de Salaberry, de Montigny, de Martigny, de Lillie, de Guise and du Tremblay.

The anniversary of the founding of the city, which is to be celebrated, will be on a scale commensurate with the greatness of the anniversary which is to be celebrated.

# YOUNG BURGLAR LIVES IN THE LAP OF LUXURY

**PARIS, Sept. 3.**—A Parisian Raffles has been uncovered in the person of Henri Duval, a young man, who was caught today red-handed while burgling a house.

Duval is only twenty-one years of age, and the police found that he occupied two luxuriously furnished apartments, decorated with many expensive pictures and other works of art.

With the proceeds of his burglaries he kept a housekeeper and valet, had servants to look after a motor car and dog cart, and gave every one the impression that he was a wealthy young man about town.

Duval was surprised today while "working" in a flat which the occupants had left unprotected through his absence for the holiday. He made a daring leap from the window of the fifth floor to the ground, fifty feet below.

The police rushed down, expecting to find him a shapeless mass, but he had meantime jumped to his feet, vaulted over a garden wall and raced down the street.

He gave the police a very smart chase before he was captured.

**ALLEN DOONE AND KERRY GOV.**

A witty Irishman is the finest humorist in the world, and as Dan O'Hara, the central figure in "Kerry Gov," which was produced last evening at the Opera House, is a fine sample of the witty Irishman, laughter reigned supreme. A splendid audience greeted the company, and although the final curtain did not fall until past eleven o'clock, it was with a feeling of regret that the end was reached.

Allen Doone, who is no stranger to this city, gave a good reading of the full spirited Dan O'Hara; his singing was much appreciated and he was ably supported by a strong and well-balanced company. The splendid production was complete with perfect settings and grand scenery; the first and last acts chiefly notable for the introduction of the doves in a nice garden scene. The great force of the scenes and the horse shoeing by Allen Doone were the chief features. The company made an excellent impression and a return engagement would mean the capacity of the Opera House. Adv.

# PASSED RESOLUTION OF CONDOLENCE

The St. John Law Society held a meeting in the equity court rooms yesterday afternoon, with Daniel Mullin, K. C. presiding, to pass resolutions of regret on the death of George C. Coster. A very large number of members were present, and the different speakers spoke in a most feeling manner of the loss which the society had sustained.

After the president had spoken shortly, the reason for the calling of the meeting, "Dr. A. A. Stockton, K. C. moved, and Recorder Skinner seconded, a resolution of regret at the death of Mr. Coster, one of the founders of the society and for upwards of twenty years secretary-treasurer, and who was by his retirement elected a life member—an unique distinction—in recognition of his unremitting exertions on its behalf."

Dr. A. O. Earle then moved, and Judge Trueman seconded, a resolution that the society should attend the funeral in its body. The funeral will be held today at 2:30. Services at St. John's (Stone) church.

# VIOLENT DEATHS OF CAPE BRETON MEN.

**SYDNEY, N. S., Sept. 4.**—Labor Day was marked at Sydney by three sudden deaths that within little more than twenty-four hours Sunday night an inter-suburban electric car running full speed from Grace Bay, struck and instantly killed John McNeill at Grand Lake, about four miles from this city. He was in the car with his wife and two children, but they were not injured. The car was horribly crushed and mangled.

Last night John Morrison, a carpenter, aged 44, while on his way home, stepped on a wire charged with 2200 volts, and was instantly electrocuted. A gas was raging at the time and the wire was broken and thrown across the sidewalk.

Just after the ferry had left the wharf at North Sydney, at 3:30 last night, a young man fell over into the water and was drowned. There was a heavy rain storm on the time, and the wharf being in utter darkness it is thought the unfortunate man slipped and went overboard. Efforts to rescue him were fruitless, but he was recovered, but has not been identified.

# COMPARISONS OF WORLD-WIDE WAGES

The third "Abstract of Foreign Labor Statistics" has just been published in England, and its numerous tables provide an extremely interesting survey of various aspects of labor in the world over. The subjects dealt with in statistical form are six in number: wages and hours of labor, trade unions, labor disputes, conciliation and arbitration, workmen's insurance, and co-operation. Fourteen countries are passed in review, France and Germany being represented in all six sections; Denmark, Holland, Belgium, Austria-Hungary, Italy and the United States in five; while at the other extreme are Japan and Spain appearing in only one section each.

The compiler refers to the difficulty experienced in attempting to secure uniformity in the presentation of results, and in the presentation of figures in comparing the figures of one country with those of another. The difficulty arises in part from the fact that the classes of work people included under a given heading are not identical in different countries, but the bricklayer, the mason, the carpenter, and other artisans, being the same in all countries, comparisons can be made with safety in their case.

**HIGH RATES IN THE STATES.**

And taking the bricklayer, the first thing that impresses one is the high rate of remuneration he receives in the United States. In 1904, in New York, for a working week of 44 hours he received close on £4 a week, while in San Francisco he was paid £3 17s 6d for the same term of labor.

In London, on the other hand, for a 50-hour week £2 3s 9d was paid; in Berlin, for 53 hours, £1 17s 1d; Paris,

# INVERNESS RAILWAY AND COAL COMPANY

**CHATHAM, Sept. 4.**—The Inverness Railway and Coal Co. are now filling a large order for the Miramichi Pulp Mill Company, no less than 20,000 tons of coal being brought here for the local concern. The steamer Renwick, Capt. H. M. Walker, finished discharging cargo at the Canada dock on Wednesday and will return again this week. The coal company has an order of 100,000 tons for the I. C. R., to be delivered during the month of October, and are experiencing some difficulty in getting enough miners to keep their output up to the demand.

# PRESIDENT WON'T KEEP STILL

**WASHINGTON, D. C., Sept. 4.**—Twenty minutes is too long a time for President Roosevelt to yield for the making of a life mask of his face. E. Garet, a life mask maker of this city, is desirous of getting a plaster impression of the President's face, but has not yet succeeded. According to a current report the matter was broached to Mrs. Roosevelt by a family friend, whereupon she asked:

"How long would it take to make the cast?"

"About twenty minutes."

"Then that settles it," replied Mrs. Roosevelt. "No human power could induce my husband to remain still twenty minutes."

Mr. Garet desires after obtaining this President's life mask to place it with the collection of life and death masks of famous Americans in the National Museum.

# A \$4,000 FIRE IN THE NORTH END LAST NIGHT; ONE HORSE BURNED

**McInclair McKiel's Bakery Totally Destroyed—Houses of S. Corbett and Mrs. T. Phipps Badly Damaged—Mrs. McKiel and Four Children Had Narrow Escape From Death.**

McInclair McKiel's bakery was totally destroyed by fire last evening, and Mrs. McKiel and four of her children narrowly escaped being burned to death. Mrs. McKiel and one of her sons were at the bakery at the time the first start of the fire, which was caused by a gas stove in the kitchen. The fire spread to the main floor of the bakery, and the McKiel family was obliged to leave the house. The fire was extinguished by the fire department, but the damage was extensive. The bakery was back from Metcalf street and was situated on the second floor from the corner of Metcalf and Adelaide streets. Mr. McKiel's bakery and stables were totally destroyed together with all they contained, including a valuable horse and \$100 in cash. To the left of the alley leading from Metcalf street, quite close to the bakery, is S. Corbett's stables. His house is joined to the stables and fronts on Adelaide street. The flames spread to the left of Mr. Corbett's house, which was practically destroyed. Mr. Corbett estimated his loss at about \$1,000 with only \$100 insurance. The horses, four in number, were taken into the kitchen of his house and through the fire escape. They were quite badly singed. His carriage was also badly damaged.

The fire originated in the hay loft over the stable, but how it started is clouded in mystery. Mrs. McKiel said that no one had been in the stable prior to the fire and she could not imagine how it could have caught there. When the smoke and flames rose the stairs she found the heat and smoke so intense that she was forced to go back. A second attempt was equally futile. By this time a young man by the name of Clark, who is in the employ of Mr. McKiel, came to her assistance and she sought refuge in the house of her mother-in-law, who lives just across Adelaide street opposite the scene of the fire.

The horses, four in number, were taken into the kitchen of his house and through the fire escape. They were quite badly singed. His carriage was also badly damaged.

Adjoining Mr. Corbett's house is one owned by Mrs. Tilley M. Phipps. Her house is damaged to the extent of \$400. Mrs. Phipps has six tenements in her house, the top one being occupied by Arthur Clark. Mr. Clark's loss will be about \$600, with no insurance, he having taken his insurances off only last week.

The total loss is estimated at something over \$4,000, with less than \$1,500 insurance. It is understood that Mr. McKiel had \$300 insurance in the Quebec Fire Insurance Co.

# NEW CHIEF OF THE MONCTON POLICE FORCE

**MONCTON, N. B., Sept. 4.**—At a meeting of the city council tonight Leslie Chappel of the Moncton police force received the appointment of chief of police, the city position made vacant by the resignation of A. J. Tinley. There were a number of applications for the position, but the only two considered by the council were those of James McInnis, Ann of Moncton and Officer Chappel. The latter being appointed. Among other applicants were Policeman Rideout of the Fredericton force, Harris T. Cusack, a former Moncton police, and Edward Scott, also formerly of the Moncton force. Applications for the appointment as policeman were also received.

S. N. Grass, a son of Rev. Z. B. Grass, a city clergyman, applied for the position of Scott's inspector.

# DROWNED OFF GRAND MANAN.

**Bedford Moses, of Grand Manan, was knocked overboard from the sardine packet "She Said No," on Saturday morning last, a short distance off the island. Moses was managing the boat alone and on board with him were a number of young ladies. When he reached North Head a sudden gust of wind came, and the boom which was lying loose in the crutch swung around and struck Moses, knocking him overboard. The young man was an able swimmer, but it is said that he sunk immediately after touching the water. He was the youngest son of John Moses, of Grand Manan, and was twenty-one years of age.**

# Collins' Preliminary To Be Held Monday.

## Crown Has New Evidence and Will Call Many Witnesses

### The Accused Murderer Still Protests His Innocence and Lives Very Comfortably in Albert County Jail—He Eats and Sleeps Well and Seems to be in Good Spirits.

MISS McAULAY, The murdered woman.

HOPEWELL CAPE, N. B., Sept. 7.—There is very little news concerning the murder case, which of course continues to excite widespread interest. M. B. Dixon, clerk of the peace, is getting everything in readiness for the preliminary examination, which, Sheriff Lyndale told the Sun representative today, would be held at the shiftrout on the 10th inst. Every title of evidence available will be produced at the examination, and there will be a very large number of witnesses. Stipendiary Magistrate Stuard will preside. Collins' daily life at the county jail furnishes nothing of special interest, being up largely of the ordinary routine of prison life. He eats and sleeps well, is supplied with reading matter which he peruses with considerable avidity, and enjoys an occasional smoke. His reading matter consists largely of magazines, newspapers, not yet being given him. He seems to be in fair spirits, and still maintains his innocence.

### SERIOUS OUTBREAK OF CHOLERA INFANTUM

CHATHAM, N. B., Sept. 4.—A serious outbreak of cholera infantum has taken place here in the last two weeks, and deaths among infants have amounted to twenty. Undertakers Hackett and McDonald burying two and three a day. The disease generally though is more largely among the poorer classes and ages range from a few weeks to several years. Several adults have also taken the disease, and deaths have occurred among three or four. Dr. Logan said today that the outbreak is due to the prevalence of germs in the water in addition to sanitary conditions. Mr. Hackett says the death rate has been the heaviest he has ever known.

### GRAPPLING IRONS HAVE BEEN SECURED

FREDERICTON, Sept. 4.—An increase of \$25 has been granted to each band for open air band concerts for the season. A. J. Kelly's resolution at the council meeting tonight that D. J. Mayor McNally stated that grappling irons had been placed by the city at the Star Line wharf, City Hall and the water works to meet cases of necessity.

### WILL APPEAL FROM DECISION OF PROVINCIAL BOARD OF HEALTH

FREDERICTON, N. B., Sept. 4.—At the meeting of the city council held this evening a resolution was passed that the city appeal from the decision of the Provincial Board of Health refusing permission to dump sewage into the river to the Governor in Council, and that the city clerk prepare the necessary appeal. The council also decided to put new heating appliances in the almshouse and the contract for doing the same was granted to Edward Hurley at \$500. The way the trees have been recently destroyed and mutilated throughout the city by the several companies stringing wire, brought forth some very indignant speeches from members of the council, and a resolution was finally passed to the effect that the chairman of roads and streets prosecute any persons who cut or ring any tree in the city without first getting permission. The human consolations placed in our power consist almost entirely in the absolute and sincere sharing of the burdens of others.

When great misfortunes fell upon those you love, misfortunes that you can neither understand nor remove...

There is no greater power on this earth, whatever may be the resources and marvels displayed; there is no greater power than the power of love...

But that does not suffice, my brethren. There are some who like to weep with those who weep; but we are not rich in this earth to weep only. Joy is real. Believe in happiness, and then, even though you may be crippled, even though you may be blind, even though you may be deaf, even though you may be dumb, even though you may be lame, even though you may be blind, even though you may be deaf, even though you may be dumb, even though you may be lame...

Light requires a dark background to be better seen. There are no pictures without shadows, just as there are no pictures without light, and to be complete, the picture of human life must be mingled with shadow and light.

I had with me that little child who as yet made no distinction between me, and to whom all were alike. Some confetti had been bought for his amusement...

The crowd present at the exhibition grounds Wednesday were inspiring in their volume. The weather was ideal, and the people took advantage of it. Wednesday's record for 1904, was exceeded by about 700, the total attendance being 3,000 ahead of 1904's figures...

The children from the free kindergarten attended the exhibition yesterday afternoon. They were in number and went through a physical drill. They were in connection with the Women's Local Council department. The children went through many and various evolutions very successfully and were loudly applauded upon the completion of their performance.
