tion bigger than that of rates. Everybody agrees that we have more extensive facilities to accommodate the mail ships than Halifax. The C. P. R. itself is our authority for the assertion that the general population of Canada would be better served by a direct Liverpool-St. John service than by a service to and from Halifax...

dent Wilson should have a noticeable effect on the next annual report of the Department of Trade and Commerce. Judging by current comments a remarkable point of view would appear to prevail in Canada regarding imports and exports and the policy of protective tariffs...

editor of the Montreal Daily Telegraph a few weeks hence. Particularly will Liberals, from coast to coast, be delighted by the news. Before he became Premier, Minister, indeed before he was Premier of Nova Scotia, Mr. Fielding as editor of the excellent Liberal journal, the Halifax Chronicle, had won the esteem and respect of a big public by his force, range and clarity of his writing on political and general topics...

ment of the land that it is approaching a question that all Liberals feel to be fundamental. Most of the other measures were palliative rather than remedial. Their effect was to adjust the burden on the back of the workers, without relieving the suffering of poverty; old people obtain a pension of five shillings a week, and almost the whole working population is insured against sickness; but the question as to why parents are unable to give their children enough food, or lay aside funds to provide against sickness and old age has not been touched...

"The Last Thing a Government Wants is Issues"

(From the Montreal Daily Mail, Ind.) Chateaugay was a politician's light and a good angry people will regard the return of Mr. James Morris as a politician's victory. Organization, aided by the personal popularity of the government candidate, was undoubtedly a governing influence in bringing the constituency for the first time into the Conservative column...

THE DAILY TELEGRAPH THE SEMI-WEEKLY TELEGRAPH THE EVENING TIMES New Brunswick's Independent Newspapers These newspapers advocate British connection Honesty in public life Measures for the material progress and moral advancement of our great Dominion.

THE TRUE CANADIAN POLICY. The Toronto Globe, in a timely editorial, reminds this country that Canada once set out, by agreement of both our political parties, to do as Australia is doing and establish a navy of its own, to be built, manned and maintained by Canadians...

THE EMPIRE OF THE KNOUT. Describing it as an "imposing shell," Mr. George Alexian writes a book on the Russian Empire which cannot fail to dispel some of the myths that persist regarding that country. The Russian people have been broken by the weight of material luxuries in the capital...

THE DIRECT STEAMERS. While St. John is awaiting the action of the government in response to the resolution adopted by an exceptionally representative meeting of our citizens, daily reports from Halifax tell of the activity of representatives of the Allan Line and the C. P. R., who together with Mr. Gutelius and Mr. Brady of the Intercolonial, have been inspecting and checking the plans in Halifax at which come to St. John's shall be accommodated...

NOTE AND COMMENT. Why had freight not its natural destination? It isn't business to do so, and as it isn't business it must be discrimination. In pointing out the result in Chateaugay the Standard ought not to forget to give thanks that the contest was there and not in St. John at this particular time...

MUNICIPALITIES UNION IN SESSION

Delegates Present from All Sections of New Brunswick. W. D. Lighthall Discussed What the Unions Have Done for Canada. L. E. Fenwick Dealt with the Value of Good Roads and How to Get the Best Results.

the first work accomplished after the Union of Canadian Municipalities was established in 1901 as a necessary protective movement, and pointed out that the charter which was framed in 1901 was a masterpiece of compromise and expediency...

A DEMAND FOR JUSTICE. There was some plain speaking at Monday night's great meeting in the Nickel theatre, but there will be more, and in the grey light of the morning after it may be well to remind citizens that the resolutions adopted may soon be hearing the old familiar cry that "it is too late to do anything this year"...

THE NEW FREEDOM. One of the most influential Conservative newspapers in Canada, the Ottawa Citizen, started the standard of its party a few days ago by an editorial in favor of reciprocity and a great increase in the British navy...

RE-ENTER MR. FIELDING. Canadian newspapermen will hail with pleasure the announcement, made in our despatches this morning, that Hon. W. S. Fielding is coming back to editorial work, and will become president and editor of the Montreal Daily Telegraph...

THE LAND QUESTION. The Asquith government has passed many acts with the view of improving the condition of the working people. The most important of these would fill a column, but it is only when it attacks the problem of the land that it is approaching a question that all Liberals feel to be fundamental...

AGRICULTURE

Some Important Poultry Diseases—Prevention the Important Thing—When it is Better to Kill Ailing Birds.

A sick hen is a poor investment! A healthy hen for poultry is almost a necessity.

Prevention is the important thing in dealing with disease. Keeping with healthy birds a flock may be built up...

Some of the diseases common on many poultry farms are here enumerated:

Roup. The disease called "roup" by poultrymen is a contagious catarrh closely resembling the more malignant forms...

Gapes. Gapes is a disease of chickens which attacks during the first few weeks of their lives and is made evident by frequent gaping.

It is a disease of chickens which attacks during the first few weeks of their lives and is made evident by frequent gaping.

The worms which cause this disease is sometimes called the red worm or the feather worm because of its color...

may be much increased; the composition of the grain greatly changed; better and harder varieties created and the truth established that corn is decidedly plainer in the hands of man and that great improvement is still possible when energy is rightly directed.

It has been shown that the best seed corn for any one locality is that particular seed that has been grown there for many years, other things being equal.

PRINCE ARTHUR WEDS DUCHESS OF FIFE

PRINCE ARTHUR OF CONNAUGHT AND HIS BRIDE, THE DUCHESS OF FIFE.

Royalty in Force at the Ceremony—Lady Guests Glittered With Diamonds and Pearls—A Simple Ceremony—Great Array of Presents—Duke of Connaught, Duchess and Princess Patricia Sail for Canada Tomorrow.

London, Oct. 14—Prince Arthur of Connaught, Governor-General of Canada, and Princess Alexandra Victoria, Duchess of Fife, eldest daughter of Louise, the widow of Prince Royal, were today made husband and wife in the ancient chapel of St. James Palace, when both of them were baptised.

The ceremony was performed by the Archbishop of Canterbury, the Bishop of London and Canon Edgar Sheppard, sub-dean of the Chapel Royal, before an altar embellished with red candles.

The bride, who entered the chapel before King George and her mother, looked charming in a dainty dress of white tulle, embroidered with pearls and diamonds, and adorned with exquisite Brussels applique lace, of which the bride veil also was made.

The bride and other ladies were in beautiful costumes dazzling with jewels. The ceremony was extremely simple. It was performed by the Archbishop of Canterbury, the Bishop of London and Canon Edgar Sheppard, sub-dean of the Chapel Royal, before an altar embellished with red candles.

Presentations have been showered upon the Duchess of Fife. Prince Arthur's gifts include jewelry in abundance, gold and silver plate, and ancient and modern furniture. One estimate places the total at \$150,000. Lord Strathcona's gift is an automobile.

Gifts are now laid out in the Queen Anne chamber in the centre of which stands a wedding cake six feet high, made by the king's chef at Buckingham Palace.

Princess Patricia, the king's youngest daughter, is the bride's bridesmaid. The bride's bridesmaid is the bride's bridesmaid. The bride's bridesmaid is the bride's bridesmaid.

BUMPER CROP OF GRAIN IN CANADA

Ottawa, Oct. 14—A bulletin issued yesterday by the Census and Statistics office of the Department of Trade and Commerce gives a provisional estimate of the yield of the principal grain crops...

During the month ended September 30, ideal weather for the ingathering of the grain crops prevailed over all Canada. In the greater part of Ontario and in the western provinces harvesting operations were well completed by the middle of September, and only in parts of Quebec and the maritime provinces, where the spring opened later, was harvesting carried on during the latter end of the month.

The estimates given a month ago are slightly greater than those now issued, which may be presumed to be based more or less on results of threshing. The final estimates, based altogether on threshing results and calculated in corrected areas, will be issued as usual on December 15.

For spring wheat, the estimate for the end of September is 188,400,000 bushels, as compared with 182,240,000 bushels last year, an increase of 6,160,000 bushels, or four and one-quarter per cent. The yield per acre for all wheat is 9.15 bushels, as compared with 9.04 bushels last year.

Oats show a total yield of 391,618,000 bushels, as compared with 301,720,000 bushels and an average yield of 40.57 bushels in 1914. For this year the total production of oats is 3,539,000 bushels of oats, 2,974,000 bushels of buckwheat, 7,000,000 bushels of flax, 14,918,000 bushels of mixed grains, 17,178,000 bushels of corn for husking, 14,086,000 bushels of beans, 290,400 bushels, as compared with a total yield last year for oats of 3,030,000 bushels; for peas of 3,770,000 bushels; for buckwheat of 10,198,000 bushels; for mixed grains of 21,081,000 bushels; for corn for husking of 16,569,000 bushels; for beans of 1,040,000 bushels.

For the three northwest provinces the total yield of spring wheat is estimated at 158,892,000 bushels; of fall wheat at 2,964,000 bushels; of oats at 289,800,000 bushels; of barley at 27,904,000 bushels; of rye at 886,000 bushels; of flax at 14,908,000 bushels.

The average quality of these crops measured upon a per cent basis of 100, as representing grain well headed, well filled, well-saved, and unaffected to any appreciable extent by frost, rust, etc., is as follows: Spring wheat, 89.17; oats, 80.89; barley, 88.25; rye, 85.81; peas, 81.71; beans, 78.81; buckwheat, 78.40; mixed grains, 80.50; flax, 82.68; corn for husking, 75.16. Of these, wheat, oats, barley and rye are above the average quality for either of the two last years.

The potato and root crops continue to show good figures, as representing average condition during growth. The conditions of potatoes is 83.89; turnips, 82.82; mangolds, 88.54; sugar beets, 82.68.

MORGAN ESTATE DEATH DUTIES IN BRITAIN \$950,000. London, Oct. 14—The will of the late J. Pierpont Morgan was probated today. His estate in the British Isles amounted to a total of \$3,899,156.

Send your Raw FURS to John Hallam. FREE HALLAM'S TRAPPER'S GUIDE. A book of 98 pages, fully illustrated. Gives every detail of the trapping business, from the selection of the animal to the disposal of the skin.
