The Value of Land Grasse. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. "A series of charming Essays. . . . Each chapter branches out into innumerable topics of a secondary and collateral nature, giving to the work a boundless diversity enriched with stores of chical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the noblest lessons for practical guidance. Our author's style is remarkable for its free, unconstrained flow, almost collequial at times, but invariably signalized by elegance, force, adaptation to the subject, and not seldom by originality of thought in combination with terseness and beauty of expression. . . There is about it a freehness, as well as a fullness of practical teaching, rarely to be met with in ordinary Biblical commentaries."—Londonderry Standard, Feb. 15, 1871. Chest Protectors. "The writer is evidently well acquainted with the literature of his subject, and that acquaint mee reveals itself almost unconsciously in every page. There is no estentation of reading or learning, but there is everywhere the gleaming forth of light which cannot be hid.

The style is simple, intelligible, graceful. It shows at once that Mr. Bennet is a man of literary culture, who can express his thoughts with scholarly chasteness and good taste. We could not open a page without meeting some thought vigorously expressed. The work is eminently fresh and readable."—Pres. Witness, Haitfax.

"He reveals in the treatment of his themes strong common sense, a firm grasp of thought, a logical acumen and a clear insight into human character. Even when dealing with trite ideas he imparts to them a novelly and interest by which they are lifted into an importance they scarcely deserve. The style throughout is lucid, pure, compact, forcible,—and it is his own—the garb of his own thinking. We have met in our perusal of the book with numerous paragraphs of finished and brilliant rhetoric—fine specimens of pulpit oratory. He is never tame nor tiresome. "This is a remarkably thoughtful, solid book! Mr. Bennet is evidently at home in Metaphysics and Ethics, and he is a shrewd observer of human nature in its ordinary manifestations; consequently he ranges over the lessons of the Preacher with a power of illustration which shows his mastery of the subject. The style is close and direct and yet so lucid, that sny reader may understand every sentence in the volume. It will, we doubt not, take its place, as it ought to do, among our household expositions of this treatise of observation and Jewish wisdom."—The Presbyterian (Philadelphia), May 20, 1871. "The lessons to be learned are drawn with a master's hand, and are expressed with a combined force and beauty that we have rarely seen surpassed in the production of any author. The ordinary reader will find noth ng that is above his comprehension, and yet it would be difficult to find a common-place thought or foum of expression. A combination of these requisites we deem the highest merit a writer can possess.

"We will be much disappointed if the book do not command a wide circulation. Wherever a sound literature is felt to be a deside atum, THE WISDOM OF THE KING has but to be known to be prised as a work that the world will not willingly let die."—Saint John Telegraph and Journal.
