Over five thousand people were assembled here to day for the purpose of witnessing the execution of Martin Baynard, one of the murderers of Silas Weston and his three children, but they were doomed to be wofully disappointed. It will be remembered that two criminals have been already executed for this crime, the details of which were fully reported in the papers all those places both at the time of its occurrence and at the time of the execution of George Baynard and Goven Adair. Martin Baynard

was also to have suffered THE EXTREME PENALTY OF THE LAW when the other two were hanged, but he was respited from time to time, to be used as a witness against the elder Baynard and another, who were also implicated in this horrible murder, under a statute of this State which provides that a condemned felon can testify as a witness against other parties to the same crime. She walked slowly off with a feeble gait, bewed figure, and wailing pitifully giving vent to her great grief, and she was soon lost to the sight of the gaping guards and morbidly curious spectators. Breakfast time came at eight o'clock, and the compassionate jailer, with a meal—the last the doomed man was to have eaten—comprised entirely of tempting delicacies, repaired to the cell. The bars were removed and the heavy iron door was swung back, and the jailer entered, when a sight that made him shake like an aspen leaf met his astonished gaze. CAMP BILLIARD HALL,

ST. JOHN, N. B.

The Springfield Republican says:—

AMUEL JOHNSON'S remarkable work on titled "Oriental Relivious," is devoted wholly to the religious and civilization of India: is the result of twenty years' study and reflection of one of the soundest scholars and most acute thinkers of New England, and must be treated with all respect, whether we consider its thoroughness, its logical reasoning, or the conclusion, unacceptable to the majority no doubt, at which it arrives. This conclusion, briefly stated in the introductory chapter, is this: "The mission of Christianky to the heathen is not only for the overthrow of many of their religious peculiarities, but quite as truly for the essential modification of its own."
