CENTRAL SCHOOL.—The closing exercises of Mrs. McCord's department, Central school took place on Monday 29 ult., when a large number of visitors was present. The sweet faces of the children, and the cheerful voices of the scholars did admirably well in school work as well as in recitation and singing. They showed most careful training on the part of Mrs. McCord, and proved to be an efficient and capable set of scholars. Some of the parents and friends of the children kindly provided prizes. Two prizes were awarded to the four girls of the first class, and were won by Clarence Towse for best attendance, by Boyette Wiggins for high-class average, and by Mary Crocker for deportment. The girls of the second class were won by very little votes and their bright faces glowed with pride as their names were called.

Assurance is thus given that no pains will be spared to keep up the high standard of instruction that has hitherto obtained in the department of physical culture.

MISS ADA F. AYER has been engaged as teacher of violin and theory. She is a pupil of C. N. Allen and Wolf Priests both celebrated in Boston musical circles. Miss Ayer is well known in Mass., as a successful teacher, soloist, and orchestral leader. Mr. Currie who so acceptably filled the position last year will not return.

There is some doubt as to whether he will accept. In case he declines a temporary president will probably be appointed to conduct affairs. Dr. Smith's name is mentioned in this connection.

THE NEW Calendar of the University has been issued. The most notable change is the shortening of the year by three weeks; the college not opening until the latter part of September. This move has been thought advisable in order to make the year of the same length as in other colleges. The Board in the college has raised the shortening of the year will make the expenses the same as before.

ENCOURAGE HOME INDUSTRY.

To the Editor of the Post.

Sir:—The members of the Sackville Cornet Band feel that they are very much indebted to the Methodist Sabbath School for the generous spirit that has been shown in selecting a Band for their excursion.

Such consideration did they show that, fearing the trip would be a heavy one, they suggested the Pughwash Band, and knowing the band had absolutely no use for money and being aware of the present state of the band's finances, did not trouble them by asking their terms. The boys have great admiration for public spirited citizens and know how to appreciate a good thing when they see it. But they are completely overcome this time. They will however probably recover before the next Sabbath school excursion.

Yours etc.

ONE SURPRISED.

Harry Wilkes

Will any parties in the county and of the county who want to patronize Harry Wilkes correspond with me and if a few names can be promised, I will be brought over to Sackville for a few days. J. A. McQueen.

Meeting of Maritime Provincial Grange.

(Reported for Post by F. A. Dixon.)

The Maritime Provincial Grange assembled in Grange hall at Nappan on Tuesday, June 30th. Nappan Master, Ed. L. Sellers of River John called the Grange to order at 3 p. m.

The afternoon session was devoted to routine business including appointment of committees, etc.

At the evening session, the committee on state of the order reported that order stands fairly well in Colechester Co., where four granges are in good standing and hold regular meetings, but in Kings, Pictou, Westmorland and Cumberland Co. few Granges meet regularly. In York Co., N. S. the Granges are doing good work in the way of co-operative business which increases from year to year but that the Division Grange there is not met for some time.

It was felt that the comparatively low state of the order is owing to non-success in respect to the working of co-operative societies and report at the next meeting.

The secretary's financial report showed receipts for the year to be \$182.02, expenditures, 128.34, leaving a balance of \$53.68.

Considerable discussion took place as to the state of the order, and the fact was clearly brought out that the Grange had not been working out the co-operative idea with one or two exceptions. Sixteen pieces of Nappan read an eloquent and spirited address of welcome from Aurora Grange to Prov. Grange.

The Worthy Master made a suitable reply followed by a well written and encouraging report. The programme for Dominion day was announced as follows: A session of the Grange in the morning, a visit to the Experimental Farm, followed by a farmer's picnic in the afternoon, which will be addressed by A. E. Bell of New Glasgow, Prof. Smith of Banana, and others. Speaking will commence at 2.30 and refreshments served at 5.30. Col. Blair announced the picnic had been widely advertised and that printed programmes had been prepared and would be distributed in the morning and that a large gathering of farmers was expected.

July 1st.—The morning session was devoted largely to a discussion of ways and means for the propagation and flourishing of the order and the following resolutions were adopted:

Resolved that the Executive Committee be authorized to take immediate steps for the propagation and re-organization of the order and that the Executive Committee be authorized to make use of the funds on hand for the above purpose.

After considerable discussion the resolution was unanimously passed. It was decided to leave the place of meeting of next Prov. Grange with the Executive Committee. Adjourned.

A large deposit of tin has been discovered in Lunenburg county, N. S., 25 miles north of Bridgewater, which shows a value of from \$16 to \$20 per ton.

River Hebert.

A serious accident occurred here last week by which Caleb Fanny had a narrow escape from death. A raft on River Hebert upon which he was working dragged its anchor and ran against a vessel lying near by. Fanny was endeavouring to prevent the accident when he was struck in the face by a deal which was hurled by the force of the collision and seriously injured. He is slowly recovering.

Shipping is quiet just now. Two vessels are loading deals for the other side.

A strawberry festival under the auspices of the Methodist church will be held in the drill shed on Wednesday evening July 15th. Everything is being done to ensure the success of the enterprise and all who attend will enjoy the evening.

Tidnish.

A number of ships have been in here since early spring loading with deals from Tidnish, Baie Verte and Port Elgin. Less than ten at a time.

The crops before the late rains were looking unfavorable, but since we have been favored with those beneficial showers things are looking up and coming on finely, the probabilities are we will have a good harvest.

The basket social held at the residence of Mr. Howard Brundage one evening of last week proved very successful, twenty-eight dollars and fifty cents realized proceeds go towards the support of Rev. L. S. Johnson, our esteemed minister, who has been faithfully laboring among us during the past year. The gathering was somewhat small but thanks to some of those noble hearted gentlemen who were present.

The word has gone out to-day that the Ship Railway has closed up entirely for the present, with the exceptions of the Brick engine house which Rhodes Curry & Co., has contracted for the Tidnish dock, that will continue on for a short time we understand. A very little work has been done on this end for some time.

The merchants harvest of late has not been very abundant, although it is said they are doing a fair business.

Mr. G. King is building a fine house, and Squire Ouley a fine barn. Building operations are rather dull this summer.

G. A. Copp, who has had a severe attack of grippe is said to be around again.

Dorchester.

It is said that Mr. H. R. Emmerson is contemplating the removal of himself and family to Yarmouth, Washington Territory, some time during the coming autumn, provided that he can dispose of his Dorchester property. Such a step would be nothing short of a calamity to this place.

A meeting of the gun club was held on Tuesday evening, to reorganize for the season's shooting. Mr. G. E. Wallace was elected President, and Mr. W. E. Lawrence, Vice-President. Mr. J. Hickman, Captain and Mr. C. S. Hickman, Secy.—treasurer. The club now has on hand several improved traps and a liberal supply of birds. With new shooting ground, increasing membership and decreasing liabilities there is no doubt of a successful season's shooting.
