Failure of the Pro-Boer Meeting in Trafalgar Square.

Speakers Were Hissed, Hooted and Hgged.

Transvaal Has No Use for Cecil Rhodes -Britain's New Terms Give the the Jingoes.

London, Sept. 25.-The Transvaal situation presents no new features. Dispatches from Johannesburg this morning report a complete union of the Rand interests. The Boemfontein correspondent of the Manchester Guardian, a pro-Boer organ, says: Both President Steyn and Mr. Fischer (of the Orange Free State executive) inform me that the volksraad is absolutely unanimous that the two republics should stand or fall together. President Steyn said: "Suppose we remained neutral and the Transvasi was conquered. It is not likely that we would long be permitted to stand outside British control. A FIZZLE.

The attempt to hold a pro-Boer antiwar demonstration at Trafalgar Square, London, Sunday afternoon, reulted in failure. Thousands assembled, but not to support the speakers. On the contrary, the crowd waved Union Jacks and sang the National Anthem and "Rule, Britannia" like mighty invocations.

The speakers, who were quite inau-dible, were received with groans, decayed apples, eggs and other missiles. There were cheers for Mr. Chamber-lain, secretary of state for the colonies, COAL! COAL! COAL!

THE NEW TERMS.

With reference to the new terms of the British Government, the London Chronicle says that they will be of a much more far-reaching character than the previous ones. They may even aim at the consolidation of the whole of South Africa into a dominion, in which there shall be no room for doubt as to the authority of the paramount power and the solidarity of interests without regard to conventions. The Chronicle market throughout the week has puradds that the cabinet will probably allow the Transvaal a week to consider its proposition. If an answer is not received, Gen. Sir Redvers Buller will embark for South Africa, and an army corps will be put in motion. The Canadian offers of troops, and

especially a private offer to insure the lives of a thousand men in the event of their serving, attract wide notice and elicit the warmest expressions of approval.
The cabinet's decision Friday will

give the South African Republic chance of accepting the old terms within five days. The Daily News' information is almost identical with the foregoing. The paper says that an ad intermin dispatch was cabled to Pretoria Friday afternoon.

> Dreyfus Joins His Children After Five Years Separation.

> Letter From Lady Henry Somerset to

Mme. Dreyfus. Constantinople, Sept. 25. - The district of Aiden, in Asia Minor, was visited by an earthquake on Sept. 20, and, according to the latest advices, over 200 persons perished. The chief cities of the villayet or province of Aiden are simply ruined. The city of Aiden is 80 miles south of Smyrna. It is the residence of the pasha, and a focus of a flourishing trade in grain,

carpets, figs, opium and sponges. Carpentras, Sept. 25.-Alfred Dreyfus' cup of happiness was filled to the brim Saturday. During the afternoon he clasped in his arms his two young children, whom he had not seen for five years. The little ones came from Paris in charge of a relative. Their arrival made complete the happy family reunion. It was a charming picture. Dreyfus seated in a large wicker chair, in a glass-inclosed shelter in front of the house, his children at his knees, and Mme. Dreyfus by his side, while gathered around him were his brother Mathieu and various other relatives. Dreyfus, for the first time since 1894, enjoys the full happiness of domestic life. The attendance of buyers has continued on a small scale. The demand, as a result, has shown no appreciable increase, being for the main part confined to immediate wants. Supplies have been wholly adequate, adhered to a steady range of currensales passing have partaken of a re-tail character. Foreign sorts have also received a slow support, with no essential variation in current prices. The wheat average for the cereal year has been 26s 1d, while the mean difference is seen to be 2s 71/2d. This gives us (says the Mark Lane Express) something of a measuring rod by which the respective positions of the farmer and the miller can be gaug-ed from time to time. The prices cur-rent in Mark Lane being for wheat 26s 8d a quarter, and for flour 21s 9d per sack; the difference is 3s 11d. On this basis it will be seen that wheat commands a rather better price than usual, or at least that millers are weaker than usual in their attitude

toward the bakers. From the present prices on the continent France is clearly out. They run as follows: Paris, 33s 9d; Marseilles, 18s 9d; Antwerp, 27s 6d; Bodapest, times again. Aside from this, there is 31s 3d; Amsterdam, 26s 9d; St. Peters-

In these two small boats they started for Yakutat Bay, 45 miles away. The first night they made camp on a large moraine, one and a half miles from the mountain, but an earthquake during the night loosened a landslide that covered not only the one and a thalf miles of plains, but also their tent. Digging out the tent and provisions, they again took to their boats. On the second night they were terrified by strange noises that issued from the earth and their tent was blown to shreds by the strange winds that seemed to blow from every point of the compass, and as clouds were pouring down torrents of water they fled to

forcing their boats for twelve miles through fields of fresh-forming ice, and thirteen miles of rough sea, they at length reached Yakutat in safety. Rumore are affoat that a portion of Cape St. Elias and Khantiak Island have disappeared in the sea. Without doubt, when scientific exploration of the Mount St. Ellas region is had there will be found many physical changes

THRILLING EXPERIENCE. 'Near Hubbard Glacier, on Disenchantment Bay, were encamped three miners, A. Fleur, W. Rock and J. W. Johnson, and a mile from them, at an elevation of 64 feet above the sea, Messrs. T. Smith, Cox and son, J. Falls and D. Stevens. When the heavy shock of Sunday, the 10th, was experienced, the Fleur party had rigged a machine and were taking the oscillation of the ers who have tried noxious nostrums earthquake's waves, when, without a will probably be skeptical, but skeptiviolently across the fact. violently across the tent. At the same moment a large fresh water lake back of their camp, and about 40 feet above it, was eplit open and the waters were thrown upon the camp, and before the miners could regain their feet they were being swept out to sea.

CARRIED OVER A HILL FORTY FEET HIGH.

There, almost at the same instant, they were met by a tidal wave which picked them up and not only washed them ashore, but over a hill 40 feet high, landing them on the crest of a divide Registrer their feet they ran divide. Regaining their feet they ran along the crest with the tidal wave boiling and seething at their feet along-side of the bill. Afterwards one of the party found his baggage and clothes one and one-half miles upon a moun-tain side, where the wave had left it. Spruce forests for miles along the shore were uprooted, breaking to pieces and massing into great piles with a roar that was deafening. Large rocks weighing 40 tons or more were rolling over one another down the mountain like so many pebbles.

MOUNTAINS THROWN DOWN. Hubbard Glacier, with two and onehalf miles of sea front thousands of feet thick extending for miles back to the summit of the mountain, broke from its moorings, and with a grinding, indescribable roar that shook the surrounding hills, moved bodily from half three-quarters of a mile into the Mountains were thrown down, the sea opened and portions of islands disappeared. The earth opened in many places after the great shock had passed away, and the miners commenced preparations to get away. A boat with oers was found a mile up the mountain side, where it had been carried by the waves. With this another boat was secured that was floating on the bay.

IMMENSE WALL OF WATER. "Panic stricken, the inhabitants re-gained their feet and attempted to flee to the hills, only to be again and again thrown to the earth, all the while breaking. Rolling and running they sought safety. Gaining the hills and looking eastward, they were transfixed with horror as they saw a great tidal wave. apparently a wall of water, 30 feet high, approaching with the speed of a race horse that would engulf their village and sweep away their homes.

SAVED BY ALMOST A MIRACLE. Before the shore was reached, the earth opened in the bottom of the harbor and into this chasm the tidal wave spent it force, and around it the sea swirled like a great maelstrom. This saved the village from destruction. The the would rise in the space of four or five minutes and in an equality short time go down again. These sudden fluotuations were frequently repeated. Tents were pitched on the hills back of village, and nearly the whole population is camping out, fearing that another tidal wave may come. From the tenth to the present there have been frequent shocks, one having occurred this forenoon.

BUSINESS BRISK IN THE DOMINION

Pall Trade Continues to Expand, Says Bradstreet's Weekly Review.

Bradstreet's weekly review of Canadian trade says: Fall trade continues to expand at Montreal, and shipping circles are very busy receiving and forwarding freight in large quantities. Fall orders are plentiful with the wholesale trade now, and all look for a very large increase in business the coming season. There is a very active temand for lumber and other building material. Labor is well employed and the factories and mills are busy orders that will keep them going for many weeks. Values are very firm for all staple goods. The money ket is firmer in sympathy with the stringency in New York, where a good deal of money is being loaned by Canadian banks, taking advantage of the

Wholesale trade at the coast is brisk. Atlin and Dawson are buying

liberal supplies. Trade at Winnipeg continues active, the large crops harvested having induced many retailers throughout the province to buy liberally for the fall and winter trade. There is a big de-mand for drygoods and clothing. Boots and shoes, hardware and groceries and provisions are selling freely, and values are generally firm. The building operations are still causing a good demand for lumber, and the mills are all very busy and fully a month behind on orders. The shipments of cattle have been fair lately. There is a good demand for money at Winnipeg, and rates are well maintained. Collections in the country are fair, but they are a little slow in the city.

Husiness at Toronto has been better for lumber, and the mills are all very

Business at Toronto has been better. More orders from the country trade have been received, and the movement shows a considerable increase over the previous week. The movement in drygoods, millinery, clothing, boots and shoes has been larger and considerable inland water shipments have been made. There is a better demand for groceries and provisions and values continue very firm for most staple goods. It is evident that the trade of the province as well as the demand from the west will be much larger this season than last year.

STOMACHS THAT WON'T WORK

That Retain the Food and Refuse to Digest It, Make the Head Heavy and the Nerves Weak, Need Stuart's Dyspepsia Tablets.

There is a cure for dyspepsia. Suffercism vanishes when Stuart's Dyspepsia Tablets are tried. Whether the trou-ble is dyspepsia of long standing, or merely a simple case of indigestion, relief is prompt and pronounced. The less the trouble the fewer tablets need be taken.

Heaviness after eating, sour stomach, as indicated by belching, fatigue with slight exertion, or with no exertion at all, disturbed sleep, nervousness, constipation, depression, "blues," these things can commonly be set down as symptoms of dyspepsia. And dyspepsia is merely indigestion in an aggravated form.

By promoting perfect digestion, Stu-art's Dyspepsia Tablets produce strong nerves, restful, refreshing sleep, pure blood and good, sound, healthy fiesh. They make the skin clear, the eyes bright, the mind cheerful.

Stuart's Dyspepsia Tablet are a medicine, and more than a medicine. They digest the food and make it easy of assimilation, and they relieve the in-flamed, diseased condition of the membraneous linings and the glands of the stomach and bowels. They help the di-gestive organs over the hard places, and put them into a healthy, active condition. They effect a quick and per-manent cure. You don't have to continue taking them forever, still it is well to have a box handy and take one at the first return of the trouble.

Perfectly well people are made sick by eating too much, or unwholesome food, but not if they take a tablet af-ter eating. Treatment with Stuart's Dyspepsia Tablets does not necessi-tate dieting or any change of habits. They digest the proper food and act upon the other kind in such a way as to make it pass off quickly and harmless-You may eat and drink what you like, and as much as you like if you take a tablet afterwards.

Stuart's Dyspepsia Tablets are sold by all druggists at 50c for full-sized

The Kansas Populist Leader Said He "Admired Aguinaldo's Spunk."

Wichita, Kansas, Sept. 25. - Jerry Simpson, ex-congressman from the seventh district of Kansas and leader of the Populist party in this state, candidate for United States senator, and the champion of anti-imperialism, was hooted off the platform here while addressing a local reunion of the G.A.R.

Referring to the war in the Philip-pines, Mr. Simpson said: "I glory in the spunk of Aguinaldo's men. They are simply fighting to regain the land the Catholics took from them. A local the Catholics took from them. A local paper has asked, 'Who is John Brown's citizens. Young Englishmen Who Stole \$50,000 Worth of Bonds.

One Returned Sick and Was Arrested, Second Goes Back With a Policeman.

Montreal, Sept. 23.—Inspector Abbott, of Scotland Yard, has been in Canada during the past few months, and was to leave Montreat this morning on the Cambroman for London, England, in charge of Wm. Crib, 24 years of age, who is wanted in the old country on a charge of stealing \$50,000.

Crib was employed in a large brokerage office in London, and some time early in May left his employer under pretense of illness. He showed a doctor's certificate ordering him to take a sea voyage, and resigned his position in consequence. Crib belonged to a most respectable family in London. and no suspicions were raised until a few weeks after his departure, the large vault was emptled, and it was discovered that stock coupons and bonds amounting to about \$50,000 were missing. Search was made for Crib, and it was learned that he was in Canada.

The coupens were recovered from small brokers in London. Part of the money was found in the cloak-room at a railway station near London. On leaving London Crib was acom-companied by a friend named Summers. They traveled together through Western Canada, and as Summers took sick he returned to England about a month ago, and is now under arrest

in London. Inspector Abbott, on the slight description given of Crib, undertook to find him. His only clue was that Crib was in the Northwest. Following this clue, the inspector traveled from place to place, and located Crib on the Ed-

The Famous Composer, Who Was the Pather of Mrs. Francis J. Moore, of London.

The Musical Times (London, England) for September, contains an interesting sketch of the first visit to America of Mr. J. L. Hatton, father of Mrs. Frances J. Moore, of this city. Extracts are given from many of Mr. Hatton's letters to his family. These letters, telling frankly of his reception by the American public, filled with bright, racy description of the people and places, and bubbling over with humor in every line, make most delightful reading. Introducing the letters, the Musical Times says: "In the autumn of 1848 the genial and popular composer, John Liptrot Hatton first set foot on American soil. He remained in the States for nearly two years, making friends everywhere, and delighting large audiences with his fine pianoforte playing, his excellent sing-ing, and his humorous songs. He crossed the Atlantic for the second time in the year of his return to England-1850, and again in 1866.

Hatton made many songs while in America, "entirely for my own amuse-ment," he explains in a prefatory note to one volume containing nineteen songs, among them "To Anthea," his best song. During his first sojourn in America, Hatton visited New York, Boston, Bangor, Cincinnati, Dedham, Detroit, Louisville, Portsmouth, Philadelphia, Pittsburg, Salem, and St. Louis, being everywhere received with

President of Astrological Society Died in Accordance With Horoscope

New York, Sept. 25 .- Dr. Luke D. Broughton, president of the Astrologi-cal Society of America, died on Saturday. He cast this horoscope many years ago, and predicted that the critical periods of his life were the 15th. 16th and 21st days of the present month and present year. His death, he pre-dicted, would occur early on Sept. 22. Dr. Broughton died at 4 a.m. on Saturday. His health was good all winter. He returned from the country Aug. 22.

An evil influence, he said, was exerting a power over him. This he had read in his horoscope. On his evil days, Sept. 15 and 16, he was very 11, but rallied. As Sept. 21 appeared he made all pre-parations for death.

On Friday he thought he would die at 4 p.m.; when that hour passed he said it would be early Sept. 23. Dr. Broughton was born at 10 a.m., April 20, 1828, in Leeds, Yorkshire, England. He came from a family of astrologers, and early began the study of astrology. He made many successful

On his advice his eldest son did not marry, as his father had predicted the exact time of his death in 1885. Mrs. Broughton also died as predicted in 1891. Among the spectators the ladies were rather in the majority. It was a fashionable crowd, too, the junior portion of London society being well represented. Too much praise cannot be given the ladies of London for the hearty encouragement they always give to every form of amateur sport.

The game itself, while not particularly exciting, had its interesting and amusing features. Mildness, however, was its chief characteristic. The Seventh Battalion Band generously furnished music for the occasion, and escorted the teams from the Teoumseh House to the rink. Lieut. LONDON LADIES TO PLAY IN DE-

TROIT. Detroit Free Press: This week the London radies are to play a return golf match on the Detreit links, and on Saturday the Country Club ladies on saturday the Country Club ladies contested for a place on the team that is to represent the club in the coming match. The first eight finished in the order named: Miss Barbour, Mrs. Muir, Mrs. Burtenshaw, Misses Winting. Russell, McGraw, Colburn and Ethel Lowis Ethel Lewis.

LACROSSE.

AT SHERBROOKE. QUE. In the Cornwall and Sherbrooke match on Saturday, the Cornwalls carried off four games in succession. The match ended in favor of Cornwall 6 goals to 1.

AT MONTREAL. Owing to the result of Saturday's match between the Nationals and Shamrocks the lacross championship of 1899 is still in the balance. The Nationals, by defeating the Stamrocks,

tie them for the championship, and Cornwall, too, is still in the game, as the Shamrocks, Nationals and Cornwalls each have lost an equal number of matches. WHEEL.

FAST TIME ON MOTOR CYCLES. Danbury, Conn., Sept. 25.—At the fair grounds track Henshaw and Stone, on a motor cycle, made a mile in 1:45%, which is said to be a world's record on a half-mile dirt track. THE CHAMPIONS.

Baltimore, Md., Sept. 25.—Charlie Miller and his riding mate, Joe Judge, Friday defeated Fournier and Steenson, at the Hartford avenue track, in a 25-mile motor race for the Championship of America. Miller and Judge won their race by the length of a motor, doing the distance in 39 minutes, 461/2 seconds, which is 1% seconds better than the previous American record made by Miller and Judge London 230122956-29 can record made by Miller and Judge at Manhattan Beach track, New York, several weeks ago.

> FISTIC AFFAIRS. FIGHTERS FORM A UNION.

Chicago, Sept. 25.-Local boxers have formed an association for mutual pro-tection and benefit. A meeting held Saturday afternoon was largely attended by the fighters and the following certificate at the expense of the association, those fighters who are unable to pass a satisfactory physical examition to be barred from all contests; the finding of satisfactory substitutes in case a man is unable to fulfill his engagements; the creation of a fund to help fighters who may be injured in the ring, each member to subscribe a small portion of the winning end of purses.

O'BRIEN IS A QUITTER. Buffalo, Sept. 25.—The bout between Jack O'Brien, of Philadelphia, and John Ferns, the "Kansas Rube," booked for Wednesday last at the Hawthorne Club, and which was postponed until the 29th, at O'Brien's request, has been declared off, O'Brien claiming his arm is broken. Bobby Dobbs or Owen Zeigler will be substituted for O'Brien.

LAWN BOWLING. Detroit, Sept. 25.-One week ago the Windsor bowlers came over to the D. A. C. and gave the local teams a severe drubbing. In Saturday's game the Detroiters redeemed themselves by winning a handsome victory by two points on the beautiful lawn in front of Hiram Walker & Sons' offices in Walkerville. The following is the score: WINDSOR D. A. C.

every department. Stuart was the star druggists or sent by mail. T. Milburn at bat, as his innings of 82 was made off good bowling, and his hitting was a treat. Three times he lifted the ball over the fences. Duffus, Rohns and Barr all got into double figures and materially assisted in compiling the total of 165. The home team made a good score, too—73 in all, to which French and Wilkinson were liberal contributors. While they were together they played "tip and run" on everything, to the confusion of the D. A. C. fielders. The day's sport was thoroughly enjoyed by all, and the utmost good feeling prevailed throughout.

BEAT HIS OWN RECORD. Prince Ranjitsinjih has already beaten the record for run-getting in single year at cricket by making 3,076 runs before the close of the season. The previous record was his own of 2,780 runs made three years ago. Be-fore that W. G. Grace's record of 2,739 runs had stood for 25 years.

A DESERONTO LADY Speaks Highly of Milburn's Heart and Nerve Pilks.

They Cured Her of Fluttering of the Heart and Feeling of Smothering After Doctor's Prescription and Other Remedies Failed.

If all the suffering women of this country who are troubled with heart palpitation rush of blood to the head, dizzy and faint spells, nervousness, pale and sallow complexion, pain in the back or side, headache and feeling of tiredness, would only read the testimony of those who were similarly af-fected and follow their advice, what a change there would be in the homes of the land. Pale pinched faces would glow with the hue of health, the dragging step would become elastic, the sunken lusterless eye bright, the pains and aches would disappear, weakness be replaced by strength, and drooping dispirited, worn out women would become transformed into perfect pictures of health by the magic influence of this

Peace or War Rests With Oom Paul-Stead's Latest: 'Shall I Slay My Brother Boer?"--South Africa Must Be British or Dutch.

Snow Mantles the Hills of Scotland—Burial Earth Brought From the Mount of Olives-Gray Is Fashion's Color.

war rested so entirely within the hands of President Kruger. The longer ne delays precipitating a definite issue, the better are the chances for peace.

He now knows to what extent he can rely on sections of South Africa to uphold him, he realizes that the British of weeks. The whole press devotes conwill, if possible, avoid a conflict until the last transport lands her men, and military advantage that comes to the

etter opportunity than at present. It is such reasoning which is upper-most in the minds of the thinking British, and which prompts them to tear that before this week's cabinet meeting the Boers will have passed over Natal's border. If they have not, there will be much ground for believing Presidenit Kruger intends an ultimate backdown, though whether he is strong enough to carry his people with him in such a course is open to grave doubts.

BOERS WILL NOT SUBMIT. The cabinet council merely verified the logical supposition that Great Britain will issue no hostile ultimatum until she is in a position to back it up. The impression that war is inevitable, which is now fairly general, is based almost solely upon the belief that the Boers will not submit, while it is impossible for Great Britain to recede from the position which the secretary of state for the colonies, Mr. Joseph Chamberlain, brought about. The recent negotiations upon the part of the colonial secretary have not tended to appease the peace party in England. The Speaker declares that "to fight over a question of etymology is, naturally, impossible," by which the paper refers to the suzerainty being the whole base of the dispute. The Speaker, and some of the other Liberal papers. takes the view that Mr. Cham-berlain has made it as hard as possible for President Kruger to accept his

MR. STEAD'S LATEST. W. T. Stead, Mr. Chamberlain's bit-

ter opponent, is bringing out a pumphlet, entitled, "Shall I Slay My Brother Boer: An Appeal to the Consciences of Great Britain," in which he reiterates his accusation of Mr. Chamberiain's complicity in the Rhodesian conspiracy of 1895 and declares that var should be a stain on Great Britain's escutcheon as foul as that by which the Drevfus case has sullied the fair fame of France." He compares Mr. aberlain to Gen. Mercier, and the South African committee which tried the Jamesson raiders to the Rennes court-martial. But such diatribes do not represent the popular feeling. President Kruger decides to hold his ground with the only means at his disposal, i. e.. almost immediate hostili-ties, he will find he has but small sympathy from any class of British. The Transvaal negotiations are now so long drawn out that though the papers devote great space to them, popular interest seems flagging. The government organs, while regretting the attitude of the Orange Free State. point out that its open hostility will eventually prove advantageous in ridding Great Britain of the annovance of having a presumably neutral but really hostile power so close to the scene of action and enabling Great Britain to add the free state to her possessions without encountering foreign protests or accusations of inhuman aggrandizement.

DREYFUS DROPS.

Dreyfus and Guerin have practically passed out of the public mind here, but echoes of the case, congratulations and otherwise, of the French Government, appear with English weeklies, Excepting these topics and the Transvaal, there is a dearth of interesting matters.

THE CHURCH FIGHT. The church fight drags along. The bishops' issuing of orders to their episcopate enforcing the archbishop's decision is meeting with compliance, except in a few cases, and none of these being very prominent ritualists. The clergy will probably be rediscose clergy win product be tried. But apparently the majority of the high churchmen have made up their minds to swallow the pill rather than

pitate disestablishment. BAILWAYS CAMPARED.

The controversy as to the comparative merits of British and American good American features yet unappre-ciated in England, laying stress on American punctuality and speed, and instancing, especially the splendid service between New York and Philadelphia, comparing so unfavorably with the London and Brighton service.

WILLIAM PENN'S COFFIN. The discovery under the nave of an dd church at Penn, Buckinghamshire, the subject of England's relations with the Dutch Republic and the door will liam Penn, caused the circulation of a report that it contained the body of the founder of Pennsylvania, buried there, according to several English papers, in 1638, or 80 years prior to an decease. It is probably one of Penns's ancestors. Similar instances are not uncommon in the Lendon papers. Only the other day the Westminster Gazette referred to the "State of Philipse Distriction of the door will not be closed againsts pacific diplomacy, if President Kruger wishes to make fresh overtures. The ministers are determined not to provoke a declaration of war. especially when they are not in readiness for hostilities, but they are not will not modify the terms of the last communication sent out by Mr. Chamberlain. GERMANS FEAR WAR. Benlin, Sept. 25.-An outbreak of war in the Transvaal is regarded here as a question of a few days, or, at the most, siderable space to the matter.

Neither the attitude of the people or he is too wily a leader not to know the press has changed materially. Without exception, they disapprove of such a war, and blame Great Britain of padgering the Transvaal beyond endurance. The Liberal press also blames His appeals to the foreign powers to intervene, have, apparently, been hopeless, but his efforts to drag in one Orange Free State, however, have been success, and, if he honestly intends to dety Great Britain,he will never nave and making thereof a casus hells (Property of the Intervence of a casus hells). and making thereof a casus belli. Thus argues the Vossiche Zeitung, Cologne Gabette, Tagblatt and others. whole Conservative, jingo, anti-Semite, agrarian, ultra-montane and center press sides with the Boers.

The Kreuz Zeitung says: "No mat ter how things may develop, it is certain England is preparing another act of brutal coercion The National Zektung doubts wheth-

WILL BE WIPED OUT. "Of course, it is in no sense to our interest to have Britain and the Transvaal to go to war. That little Boer nation will finally succumb, and, probthe belilgerents, we shall not inter-fere."

The informant of the correspondent refused to say whether it was a distinct formal understanding with Great Britain or whether the agreement of a year ago, on the subject of South Atrica, included German neutrality in the event of war with the Transvaal.

OUTCOME OF A WAR. Experts are beginning to speculate on the probable outcome of the war and the losses on both sides. The Kreuz

"The British plan is an invasion on three sides, simultaneously from Rho-desia. Natal and Mafeking, or Kimberiey. The best and most effective part of the English forces will probably be the volunteers raised in South Africa. There are 7,000 mounted men already in Rhodesia, who, with other volunteers, will be the real corps of the expedition.'

In the Frankfort Zeitung, Gen. Von Boguslawski, a military, writer of note, predicts that the British will sustain enormous losses in the Transvaal, owing. mainly, to the inferiority of their officers and their "inability to understand or apply modern tactics."

BLOW TO THE SPY SYSTEM. The Dreyfus excitement has largely subsided here since the pardon, though many papers express the belief that the mystery surrounding the case will be one day removed. Others say the end is wholly unsatisfactory. In military and diplomatic circles the opinion seems to prevail that Dreyfus was indeed a spy, but for Russia. This has found utterance in many papers. An interesting outcome of the case is the fact that the emperor, who has been deeply stirred by the revelations made at Rennes of the espionage system between France and Germany of the extent and elaborateness of which he has hitherto been ignorant, has in-structed Gen. Von. Hahnke, chief of his private military cabinet, to thoroughly investigate how and to wnat extent the system can be abolished or

reduced to a minimum. The correspondent of the Associated Press learns reliably that his majesty above all was startled by the fact that the military attaches of both countries, while personally men of the nicest sense of honor, had been so deeply involved in the scandal, and he instructed Gen. Von Hahnke to ascertain if it were possible for Germany to take the initiative in abolishing extra territorfalty for attaches and other members of the embassies, thus abolishing the most heinous and dangerous form of espionage.

One correspondent sums up the situtions with the Transvaal on former lines is not considered desirable, and a fresh start will be made as soon as the ministers have leisure for a delibenate review of the whole situation. Meanwhile the military forces in South Africa will be increased by 10,000 or 20,000 men, the Transvaal Government will be courfeously informed that the Gray is the fashionable color just now. ministers require time for reconsidering the subject of England's relations with

that parliament may be summoned in October unless temporary arrangements can be made with the great financiers for bridging over the crisis. The drift of affairs this week has been strongly in the direction of war, although no one in authority is willing to admit that the last word has been said in favor of peace. Military experts complain that the ministers have been too plain that the ministers have been too optimistic, and that Kruger now has a chance of striking Natal before the British garrison is prepared to defend the frontier adequately.

BRITAIN BOUND TO WIN. Another correspondent says: Nobody doubts the British Government's ability to subdue both the South African republics if it seriously undertakes the task, and perhaps a majority of Englishmen would like a see the job put through at once. The most belifcose among them see in the delay in dis-patching an ultimatum only a tactful military maneuver to enable the war office to assemble the greater force made necessary by the Orange Free State's espousing the Transvaal's cause. They are right in one sense. State's The British arms in South Africa are inadequate at the present moment to deal with the hostile Boers of the two republics, and a month must elapse before a sufficient force can be massed there to enable Great Britain to undertake a successful campaign.

EITHER BRITISH OR DUTCH. must either be English or Dutch. As the Dutch have been, in the opinion of Englishmen, too strenuous in their efforts to make it Dutch, they must be taught a lasting lesson. The task may take more time than is expected, like the pacification of the Philippines; but, like the latter, it must be accomplished. Meanwhile, the Boers may not wait. That is the ever-present fear here, That is the cause of the panic in and exodus from Johannesburg and other points. The ferocious cruelties of the Boers in the last war are not forgotten, and there is little hope that they will not be duplicated next time, if the opportunity occurs. The English people have an unpleasant sensation of sitting on a mine, which may explode er it is still possible to adjust things at any moment. They would like to in South Africa except by force of manage the fuse, but are aware they are not yet in a position to do so. Ultimatums that result in rebuffs are not satisfying. A war that may be inaugurated on the other side is lacking in glamor.

GOLD IN DEMAND.

The Statist, commenting on the financial position brought about by the Transvaal crisis and the New York stringency, says: The competition for gold during the next few weeks promises to be great. No gold is available in Australia for export, ably, will be wiped out of existence. Cape, instead of receiving it, and It is only too likely that this will also meet the demand for Egypt, to diminish our prestige in South Africa pay for the cotton, as well as South and injure our not inconsiderable material interests there, for our trade with the Boer states is increasing, and is only next to that of England. Still, there is further advance the official minimum. no occasion and no political or moral right for us to interfere. So long as our undoubted rights are respected by a considerable loan, probably by the issue of treasury bills. Such a loan would, of course, give the Bank of England control, enabling it to keep its rate effective whatever it might be

SEPTEMBER SNOW! What a change! Before we have had time to recover from the sultry breath of a prolonged summer, soft, white messengers of winter are upon us. Snow, yes, snow, and nothing uncertain about it, either. Not a few flakes, merely, but a regular storm, changing the blue purple hills of Scotland to white and laying a thick carpet upon the Yorkshire wolds. Then the snow was followed by a storm of wind and rain, creating havoc on land and sea. We are having some sunshine again in London, but summer undoubtedly feels over. It is growing colder every day. Overcoats and furs are making their appearance again. The weather has sadly spoiled sport in the Highlands, to the great disappointment of crowds of society people there. The weather also spoiled what had been looked forward to as one of the great fashionable events of the Scottish season next to the Braemar gathering. All the royal house-hold were to be there. Lords, knights, and ladies were expected to drive over by the hundred from their houses in the neighborhood of Balmoral. The crowd was there. The Prince of Wales, the Duke of York, and the Duke of Conaught were there, but not the Queen or the royal ladies. It was a

TATUER RLACK HEARD FROM.

There was excitement at the morning service in the old church of St. Clement Danes, in the Strand, last Sunday. It was caused by a voice from the gallery forbidding the banns of a couple desirous of getting married on the ground that the woman had a canonical husband living. It was a voice well known — Father Black, who takes every opportunity he can of protesting publicly against the remarriage of divorced persons. It is a subject he has made peculiarly his own. He holds most extreme views on the subject and has crossed swords at various times with church dignitaries, from the Arch-bishop of Canterbury downward. Father Black is also well known in society. His friendship is much courted. is rather below average height, has a decidedly clever, mobile face, and lives in chambers in Gray's Inn Square, but as often as not is away staying at the country houses of his aristocratic friends, of whom no one can boast more. Amazing Increase in the Sales of the Canadian Product

To Great Britain-Cheese Also Going

Ahead.

Ottawa, Sept. 25.—Canada's butter and cheese makers should be in difluence this year, and, in addition to thanking themselves for keeping their goods up to the standard, they owe gratitude to the minister of agriculture for his energy in facilitating the increase of our cheese trade with Great Britain. It is not so many years since our cheese trade amounted to very little, while that in butter was absolutely nil. Business with Great Britain in both lines has increased with rapidity, but the advance for the eight months ending Aug. 31 is simply amazing. Figures prepared by the British board of trade show an increase in the importation of Canadian butter and cheese that is unprecedented in any line. The export to Great Britain of Canadian butter for the first eight months of the years 1897.1898 and 1899 is shown to have been: 1897, 28,668 cwt.; 1898, 45,450 cwt.; 1899, 117,850 cwt. For the month of August, 1897, the quantity of Canadian butter shipped to Great Britain was 10,888 cwt. In August, 1898, this figure was increased to 15,736 cwt., but in August, 1899, the amount had jumped to the tremendous figure of 60,957 cwt., or something over 150 tons per day. In cheese the increase was not so large as that in butter, but it is only by comparison that it would seem small. Up to Aug. 31 the quantity of Canadian cheese sent to Great Brit-ain since Jan. 1 was 781,080 cwt., as

People who suffer from dyspepsia or indigestion soon lose flesh, become weak and run down. The food they take instead of being converted into blood, bone and flesh, goes undigested through the system, poisoning the body, instead of nourishing it.

Those who desire a permanent cure of dyspepsia-who want their stomach made right so that their food will give them strength, should take Burdock Blood Bitters.

Miss Emily Howard, Port Hope, Ont., writes: "I have used Burdock Blood Bitters for indigestion and it worked with me like a charm.

Insurgents' Cannon Blown Up With Gun-Cotton-Americans Had One Man Wounded.

Manila, Sept. 25 .- The United States cruiser Charleston, the monitor Mon-terey and the gunboats Concord and Zafiro with marines and blue jackets from the cruiser Baltimore, left Ca-vite Sept. 18, and proceeded to Subig Bay to destroy an insurgent cannon Owing to the bad weather the operation was postponed until Saturday, when the warships for three hours bombarded the town of Olangapo and the entrenchments where the gun was Men on the Charleston. Concord and

Zafiro were then landed under a heavy insurgent fire, proceeding to the cannon, which was utterly destroyed by gun-cotton. The men then returned to the warships.

At 7:25 a.m. the Monterey opened fire with her secondry and main bat teries, the Charleston and Concord joining immediately. At 7:38 the insurgent cannon answered, the first shot passing close to the Monterey's smokestack. The gun was fired twice

The American bombarding then became general. At 9:30 the Monterey advanced to a range of 600 yards, using the main battery. Two hundred and fifty men were landed about 800 yards east of the cannon at 11 o'clock under a severe Mauser fire. The men from the Charleston were the first to reach the beach, but the Concord's men were the first at the gun. The cannon was found to be a 16-centimeter Krupp gun, presumably obtained from the Spaniards. Meanwhile the war-ships continued to shell the shelving beach on the east and west side to silence the insurgent fire upon the sailors from the trenches skirting the

THE TRIAL IN

Adjourned Until Oct. 4-London Witnesses Whose Hands Were Clean. Berlin, Sept. 24.-The North Waterloo election trial was adjourned on Sat-

urday until Oct. 4.

Daniel Wylie, shoe worker, of London, said he was in North Waterloo during May on business in connection with the shoe strike. He was in Berlin and Waterloo in connection with the London shoe strike. He saw Lewis in Waterloo. He knew him slightly in London. He did nothing in connection with the election. He came to Waterloo pecause two members of the firm of Laidlaw & Watson, for which he had been working, were here to get hands to take the places of the strikers, and he tried to prevent them securing work. He could not remember talking with Lewis in Waterloo. He went to the Liberal committee room in Waterloo, as was perfectly natural, having been a Liberal all his life. His expenses were paid by the strikers, who sent him from London. He transacted no business in the Liberal committee rooms. The only conversation he had with Lewis about the election was once when Lewis told him there was a bye-election on in the riding. He registered at the Zimmerman House as E. Carling, Strathroy, to hide his identity, but in Berlin he registered under his own name. The reason he registered as Carling was that he did not want the two members of the firm to know that he was still in the neighborhood.

Sam Stewart, of London, when asked his occupation, replied: "I am a gen tieman at present." He came to Berlin the Saturday before the election to collect some money that a man named Styles owed him. He dropped into the committee room and was asked to act as scrutineer. He acted as scrutineer and was present when the ballots were emptied on the table and helped to arrange them, but left immediately, as he had to catch a train. He did not mark any of the ballots. He did not spend any money on the election. J. A. Scellen, barrister, said that Bos sard, the hotelkeper, who was a chief witness for the petitioner, told him the Grits had used him (Bossard) badly, and he wanted \$400 as reparation for damage done to his business. This was

Married According to Rites of the Russian Church,

And To Be Married Again at Noon Today.

Newport, R. I., Sept. 24 .- In accordance with the rites of the Russian orthodox church, Miss. Julia Dent Grant, baughter of Brig.-Gen. and Mrs. Frederick Grant, and granddaughter of Gen. Ulysses S. Grant, and Prince Cantacuzene, Count Speransky, of Russia, were married last night. Simple and impressive ceremonies were conducted by Father Hotovisky, of the Russian Church, New York, in the parlor of Beaulien, the summer residence of Mr. and Mrs. Potter Palmer. The American statutes are yet to be confirmed to before the distinguished couple will go forth into the world as husband and wife, and it is that cere-mony in All Saints' Episcopal Church tomorrow noon to which the summer colony here as well as numerous friends, diplomatic, military and civil, are looking forward to with eager

expectancy. A SPECIAL ALTAR

had been raised in the parlor by Father Hotovitsky and his assistant. After the room had been formally conse-crated at half past eight o'clock, the bride appeared at the head of the grand staircase, leaning on the arm of her brother, Ulysses S. Grant, third. At the altar, before which stood the Russian priest, waited Prince Canta-cuzene, clad in the full uniform of the lette. who will also create the characchevalier garde.

THE BRIDE'S DRESS was severely cut, and was a simple gown of richest white satin, sweeping train and veil of tulle. She carried a boquet of stephanotis and lilies of the valley and wore the gifts of the bridegroom-a corsage ornament of diamonds and enamel and a rope of

pearls. TONY USHERS. The ushers who preceded Miss Grant and her mother to the altar were: Potter Palmer, jun., cousin of the bride; Lockwood Honore, uncle of the bride; Capt. Sartoris, cousin of the

bride; Robert L. Gerry, of New York; Roger Winthrop, of Newport, and John Prentiss, of New York. In accordance with the Russian custom, Miss Grant had two garcon de noce, her brother, Ulysses S. Grant, third, and her uncle, Adrian Honore; those of Prince Cantacuzene being Honore Palmer and Potter Palmer, jun., while the parents d'honeur were Grand Duke Vladimir and Mrs. Potter

Palmer. THE WITNESSES. Mr. Grant conducted his sister to the altar. Besides the immediate family there were present Mrs. Ulysses S. Grant, grandmother of the bride; H. H. Honore, Edwin C. Honore, Mr. and Mrs. Harry Honore, jun.; Mrs. Sartoris, wife of Capt. Sartoris; Major-General Wesley A. Merritt, and Major Moot, of his staff; Adjutant-General Corbin, Col. and Mrs. Hein and Bishop Potter. The picturesque ritual, inter-spersed with frequent music by a local quartet, was lengthy. The services closed with singing the Russian national hymn, after which the couple received congratulations while the orehestra discoursed music. The ceremony consumed an hour, and it was nearly midnight before the guests de-

THE SECOND CEREMONY. Newport, R. J., Sept. 26.-The Episcopal marriage service, supplementing that of the Russian Orthodox Church that was observed yesterday, which made Prince Catacuzene and Julia Dent Grant husband and wife, was celebrated at All Saints' Chapel here at noon today. The assembly of invited guests, notable for social and military distinction, made the ceremony one of the most brilliant ever witnessed at Newport. The family and social connections of the bride gave to the wedding a military as well as a diplomatic character, and the little church in which it took place was BRIGHT WITH BLUE AND GOLD, the bridegroom's uniform outshining those of the American officers'. A large unmber of the Newport summer colony had delayed their departure to attend the wedding, which came as the climax of a gay season. The Right Rev. Bishop Potter, of New York, officiated, in accordance with the laws of the State of Rhode Island. Rev. Dr. Porter, of the Emanuel Church, of this city, read that por-tion of the service which legally unit-

ed the distinguished pair.

A reception followed the wedding ceremeny at the Palmer residence, and date this afternoon the prince and princess left for New York and St. Petersburg. Rev. T. Leggette, Congregational minister, has resigned the pastorate of Edgar and Dalston congregations, Sim-

coe county, on account of ill-health. He leaves in November.

AMUSEMENTS

"Quo Vadis" is to be dramatized, Stanislaus Strange having undertaken the work of adapting Sienkiewicz's popular novel,

Siegfried Wagner is considering an offer made him to conduct forty con-certs of his father's works in America. The figure mentioned is \$20,000. Miss Maud Adams will begin her season in "The Little Manister" on Oct. 18. She is soon to put in rehearsal the new play written for her by J. M.

"The Ameer," the comic opera in which Frank Daniels is to appear this season, and of which Victor Herbert is writing the score, is said to contain some of the popular composer's best

work Mrs. Langtry, who is coming to New York in January, will bring with ner most of the company now playing in "The Degenerates," to take part in the American production of the same play. Mrs. Langtry will be accompanied by her daughter, and it is more that probable that Mrs. Langtry's nusband. Mr. Hugo de Bathe, will also accompany her. At present "The Degenerates" is doing the biggest business in London.

The novel that escapes the drama-

tist after this may consider itself a back number. These are being dramatized this season: "When Knighthood Was in Flower," in which Julia Mar-lowe is to play the part of Mary Tudor; Zangwill's "Children of the Chet-to," with Blanche Bates as Hannah and Wilton Lackaye as Reb Shemuel, the father of Hannah; "Beside the Bonnie Brier Bush," with J. H. Stoddart as Lachlan Campbell and Reuben Fax as Posty; "The Gadfly," in which Stuart Robson will impersonate the hero; Conan Doyle's "Sherlock Holmes," "Ben Hur." which is being dramatized by Wm. Young, and which will be one of the great spectacular shows or the season; and the new play that Chyde Fitch is dramatizing from Daudet's "Sapho" for Olga Nethersole. Thackeray and Dickens will both be represented on the New York stage through the dramatizations, respectively, of "Vanity Fair" and "A Tale of Two Cities." The latter version is called "The Only Way." and has been very successful in London: in America Edward Morgan and Henry Miller will take prominent parts in the play. Finally, a dramatization of W. D. Howells' "A Hazard of New Fortunes," by F. C. Drake, is now in preparation under the supervision of Emilanton express, had he right of Its author. "LONDON LIFE" TONIGHT.

"London Life," a new drama, which won an immediate triumph in New York last season, will open a three-performance engagement tonight. A happy inspiration was manifest in the choosing of the title, "London Life." It prepares the audience for an atmosphere at once new, strange and fascinating. No city in the world possesses so many elements of dramatic interest as London. The new play, "London Life," is interwoven with diverse and characteristic threads of human interest. Some of the stage pictures portray the life of the English aristocracy, where high breeding and wealth are found to entail the same poignant sorrows as in the homes of the poor. The play is said to reflect all types of English society, as emphatically and dramatically as in the novels of Charles Dickens. Quite a vein of comedy runs through the play; genial humor of scene and character; and many pleasant touches of rough and ready fun kept within the bounds which the mainly serious arms of the play necessitates.

"THE CORNER GROCERY."

"The Corner Grocery" at the Grand drew good houses at both matinee and evening performances. "The Corner Grocery" is funny every minute, and its humorous situations are brought into strong relief by unusually artistic shading. While not aiming to be anything but funny, the plot has much more consistency than is usual in such efforts. Miss Daisy Chaplin as "the bad kid" was a great success, and her medleys, songs and dances made a very good vaudeville performance by them

SUCCESSFUL SHOWS

Close of the Aylmer Exhibition-A Good Record.

EAST ELGIN.

The last day of the East Elgin Agricultural Exhibition saw one of the largest crowds ever gathered together in Elgin county. It is said there were over 10,000 people on the grounds. The I. O. O. F. band of Aylmer, furnished fine music during the day. The management this year has been particularly energetic. To Mr. A. A. Leslie, president, and M. D. P. Price, secretary, much of the success of the exhibition is due. A special feature was the offer of a special prize for sprayed apples. The sports and amusements were excellent, and kept the large crowd in the best of humor.

BAYHAM CENTRAL. The Bayham Central Fair was held at Straffordville on Wednesday. The aggregate of entries was up to the society's average, but a few of the stock classes were not filled. A large number of very fine horses were exhibited. The ladies' department showed no deterioration in either quality or quantity of the exhibits from the high standard set in other years, and their dainty handiwork was displayed to even better advantage than formerly. The gate receipts amounted to \$102 85.

The society's membership is about 300. LAMBETH

ONLY SEVEN WIVES

Twenty-Three-Year-Old Harry Clair-All Appear Before the Grand Jury.

Rochester, Sept. 25.—A seventh wife of Harry Frank St. Clair, the bigamist, has been discovered in this city. The last wife was discovered by accident. Deputy Sheriff Pollock was in Ithaca looking up one of St. Clair's wives to subpoena her before the grand jury, and he got on the track of another. The clew led him back to this city. Hattle French, whose home is at the corner of Allen and Sophia streets, in this city, is the name of St. Clair's latest victim. She is 22 years of age, and extremely pretty. She knew nothing of St. Clair's matrimonial record when she became engaged to marry him. Like all the other marriages, this one was contracted in a hurry. St. Clair lived with her a short time and then deserted her. Every one of the seven wives went before the grand jury today when the case was called. Their stories were similar in almost all respects. St. Clair is only 23 years of age, and the marriages all took place within four years. He came to Rochester from Toronto, but gives Butte, Montana, as his home. The list of St. Clair's other wives has been given.

Gives Financial Business a Bad Set back in England.

New York, Sept. 25 .- The New York Times' London financial London correspondent cables: We are suffering from an acute spasm of military dementia, a disease to which modern empires seem peculiarly liable. The consequence is that financial business of all kinds is suffering from a bad

Whereas, during the seven first months of the year new joint stock undertakings were poured on the market every week in scores, now none at all appears of the slightest importance. Probably their absence is but a slight misfortune, for they are mostly jerry-built, like London houses, but the stock exchange business is just as bad. Not since the months following the crisis of 1890 has there been such stagnation as now exists all over our mar-The public simply refuses to deal, and what the jobbers and bankers occupy their time with is trying to shift load on another's back. threw the whole of these treasures out of the window with inde-cribable disgust, and, feeling something like a purse in a side pocket, opened it eagerly.

It held 5 shillings exactly, the coins

corresponding to those he had pushed across to his son such a little while ago! It did not seem to him quite such a magnificent sum now as it had done then; he had shifted his point of view. It was too clear that the stone must have carried out his thoughtiess wish with scrupulous and conscientious exactness in every detail. He had wanted, or said he wanted, to be a boy again like Dick, and accordingly he had become a perfect duplicate, even to the contents of the pockets. Evidently nothing on the face of things showed the slightest diffierence. Yet-and here lay the sting of the metamorphosis-he was conscious under it all of being his old original self, in utter discordance with the youthful form in which he was an

unwilling prisoner.

By this time the cab had driven up the sharp incline, and under the high, pointed archway of St. Pancras ter-minus, and now drew up with a jerk against the steps leading to the book-

ing office.

Paul sprang out at once in a violent passion. "Here, you, Clegg!" he said, "why the devil didn't you puli up when I told you, eh?"

Clegg was a bunly, red-faced man, with a husky voice and a general man-ner which conveyed the impression that he regarded tectotalism as a principle, with something more than dis-

Paul saw the uselessness of arguing "Then, ah-drive me back at once. Let those boxes alone. I—I've important business at home which I' forgotten."

Clegg gave a vinous wink. 'Lor', yer at it again," he said, with admiration.
"What a artful young gent it is! But it ain't what yer may call good en-ough, so to speak, it ain't. Clegg don't do that no more.

"Don't do what?" asked Paul. "Don't drive no young gents as is a-bein' sent to school agin into their family's bosims," said Clegg, senten-"You was took ill sudden in my cab the larst time. And with much cursing and growling. Clegg gathered up his reins and drove off into the fog, Boaler hav-ing apparently prepaid his fare. Where for, sir, please?" said a porter, who had been putting the play-box and portmanteau on a truck during

the altercation. "Nowhere," said Mr. Bultitude. "I—
I'm not going by this train—find me a
cab with a sober driver."
The porter looked round. A moment

before there had been several cabs dis-charging their loads at the steps; now the last had rolled away empty. "You might find one inside the sta-tion, by the arrival platform," he sug-gested; "but there'll be sure to be one

coming up here in another minute, sir, if you like to wait."

Paul thought the other course might be the longer one, and decided to stay where he was. So he walked back into the lofty hall in which the booking offices are placed, and waited there by the huge fire that blazed in the stove until he should hear the cab arrive which could take him back to Westbourne Terrace.

and the place was full. There were several Cambridge men "going up" af-ter the Christmas vacation, in every variety of ulster; some tugging at refractory white terriers, one or two in-trusting tall bright bicycles to dubious porters with many cautions and direc-tions. There were burly old farmers going back with the prestige of a successful stand under cross-examination in some witness-box at Lincoln's Inn; and dale, in the market place and the ber parlor, every week for the rest of their honest lives. There was the usual pantomime rally on a mild scale, with real frantic passengers, and por-ters, and trucks, and trays of lighted

Presently, out of the crowd and confusion a small boy, in a thick, pilotjacket, and an immensely tall hat, whom Paul had observed looking at him intently for some time, walked up to the stove and greeted him familiar-

Paul walked away from him with marked coolness. He was not going to trouble himself to talk to his son's schoolfellows.

"Ain't you well?" said the boy, not at all discouraged by his reception, fol-lowing him and taking his arm. "Down in the mouth? It is beastly, isn't it having to go back to old Grimstone's? The snow gave us an extra week though-we've much to be thankful for. I wish it was the first day of the holidays again, don't you? What's the mat ter with you? What have I done to put you in a wax?"

"Doctors failed to reach my case and advised me to try a higher air."

There is no greater irony than a recommendation of change of climate to those whose circumstances make change of climate impossible. How many a sufferer in such a case has wistfully watched the flight of the south-seeking birds, and cried with the Psalmist, "Oh that I had wings." But suppose you can fit the lungs to the climate instead of fitting the climate to the lungs. That is what has been found possible by those who have used Dr. Pierce's Golden Medical Discovery. It so purifies the blood, removing the clogged and poisonous conditions favorable to disease, that the whole body is strengthened. With new strength comes new power, and disease is resisted

"I feel that I owe a debt of gratitude to you for preparing such grand remedies, for chrome diseases especially, which the doctors failed to reach," writes I. B. Staples, Esq., of Barclay, Osage Co., Kans. "I am a railroad agent, and four years ago my work keeping me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep scated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend also advised me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking about four hottles my cough was entirely gone. This was a year ago last winter; and again last winter I took about three bottles to prevent a return of the trouble. I have found no necessity for seeking another climate."

Six Passengers Killed and Five Badly Hurt.

Two Deaf Mutes Struck and Killed by a Train-Head-On Collision-Score of Passengers Injured.

Denver, Col., Sept. 25.—Six passengers were killed and five injured, one perhaps fatally, in a collision on the Denver and Rio Grande Railroad at Reno siding, near Florence, at 4:08 o'clock Saturday evening. The trains in collision were the Phillips-Judson excursion from the east and an east-bound fast freight.

THE KILLED.

F. Salter, manager of the excursion; Eva M. Walker, aged 12, of Westford, Mass.; Eugenia Judkins, aged 12, Spo-kane, Wash.; Addie J. Judkins, aged 10, Spokane; George H. Judkins, aged 6, Spokane; — Willis, boy, aged 6, Los Angeles, Cal.

THE INJURED. Mrs. F. A. Wills, Los Angeles, badly hurt; Harry Walker, aged 19, Westford, Mass., internally injured, not serious; Mrs. Grant Biddle, Coal Camp, Mo., internally injured; Mrs. Elia Biddle, aged 21, Coal Camp, Mo., bruises; C. R. Cook, aged 25, Millers, Indiana, bruises.

They had nearly reached Brocton, when at 10:50 a freight train approached behind them. The engineer sounded the whis-tle, but the two women walked on in utter unconsciousness of the terrible

faite in store for them.

The train was too near them to be checked. The locomotive struck the women and hurled their bodies fifty feet

through the air.
Mrs. Smith was instantly killed. Miss Lutgen was still alive when the train was brought to a standstill, and the crew ran back to the scene of the fatality. Both women were placed on board the train and taken to Brooton, where Miss Lutgen was removed to the Vineyard Hotel and attended by a physician. There was no hope of saving her life, however, and at 3:50 o'clock she

THE DEAD-HEAD ADVERTISER.

Newburg newspaper men are considering the plan of shutting out "dead-head" advertising of concerts, excursions and various entertainments by church and other organizations, who go to job printers for tickets, handbills, etc., where they pay cash, and who visit the newspaper offices and request the publication (several times, in some cases) of "notices" of the events, for which they pay nothing. Touly the Newburg newspaper men have good cause to oriticise the methods of some people, who should be more businesslike than they are. If they expect "free notices" the least they can do is to patronize newspaper offices where job printing is done also. And it isn't only organizations. business (?) men and firms work the same methods.-Newburg, N. J., Journal.

WM. ROBINSON'S WILL

Judgment has been delivered by Mr. Justice R. M. Meredith in the matter of the construction of the will of the late William Robinson. The principal point to be decided was as to the disposition of the residue of the estate. Seven charitable institutions in the city claimed to be entitled to the whole residue, namely: The Protestant Orphans' Home, the Aged Men's Home, the Aged Women's Home, the Women's Christian Temperance Union, the Young Women's Christian Temperance Union, the Convalescent Home and the City Hospital. Other institutions, chartable and otherwise, also claimed to be entitled to share in the surplus. The opinion of Mr. Justice Meredith, however, is that only the seven charities mentioned were entitled to the restduary estate and he has given judg-ment accordingly. The successful suitors were all represented by Mr. J. H. Flock.

EVERETT-GRIMES.

Detroit Free Press: Tuesday evening the residence of Mr. and Mrs. M. Grimes, No. 401 Third avenue, was the scene of a very pretty wedding, when Miss Mae Grimes, formerly of Brigden, Ont., and Mr. Fred R. Everett, of Ovid, were united in marriage. The bride was attired in a gown of white organdy, and carried white roses. The maid of honor, Miss Cassie Grimes, sister of the bride, wore pink mousseline de ray and carried pink and white asters. The groom was attended by Mr. S. R. Smith, of Johns: Misses Laura Stevenson, of Fletcher, Ont., and Magell High, Ovid, were flower girls. They wore blue and pink, respectively, and each carried a basket of red and white roses, in which the wedding ring was hidden. The bridal party entered the parlor to the music of Mendelssohn's wedding march, rendered by Miss Mabel Lincoln, and stood under an arch of green. The bride was given away by her brother, Mr. John R. Grimes, of Brigden, Ont. Rev W. J. ncent, D. D., of the First United Presbyterian Church, performed the ceremony. The house was handsomely decorated with palms, pink and white asters. The guest numbered about twenty-five, and included only the relatives and intimate friends. The presents were numerous and beau-tiful. After a wedding supper the tiful. After a wedding supper the couple left for Cleveland, thence to Niagara Falls and Toronto.

A DINNER PILL - Many persons suffer excruciating agony after par-taking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healing nutriment, it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

Back to Wolseley After Seventeen Months in Klondike.

Warmly Welcomed by Their Fellow Soldiers and Civilians-Escorted From the Station to the Barracks by the Seventh Band.

After an absence of nearly seventeen onths, eight members of the Klondike contingent of No. 1 Company, R. C. R. I., are in their old quarters at Wolseley Barracks. They are Sergt. Beaumont, Bugler Beales, Ptes. Evans, Yeo, Mullens, Tansley, Faryon and Harry Taylor. They arrived in the city on the C. P. R. at 11:30 yesterday morning, and were escorted from the depot to the barracks by the Seventh Band. They marched along Piccadilly street, and were joined by a large number of civilians on foot and on bicycles. As the procession entered the barracks square, the band played "Home, Sweet Home," and cheer after cheer rent the air. It was a memorable reunion. The first greetings over, the travelers were dined. Lieut. Lister, who is in com-mand of the company during the ab-sence of Lieut.-Col. Holmes and Lieut.-Col. Buchan, delivered a short speech, expressing the pleasure felt by the members of No. 1 Company at the return of the detachment from the Klon-dike. Cheers were given for the Queen and the Yukon contingent

The men just returned left Dawson City about a month ago, and remained for four or five days at Fort Selkirk, where they were joined by four officers and 80 men from the artillery, cavalry and infantry, also under orders to re-turn to their former depots. They took the boat for Skaguay, and on the way had to march five miles to pass a rapids. From Skaguay they traveled by water to Vancouver, and the rest of the distance by rail. The London-ers left the artillery and cavalry at Toronto. They are all, with the exception of Pte. Evans, who has been ill with stomach trouble for some weeks, in good health, and report that the other members of the contingent, who left here May 3, 1898, and are mostly doing military and police duty at Fort Selkirk and Dawson City, were also in good health at the time of their departure. Ptes. Smith. Nash and Baldwin purchased their discharges recently, and the two latter have gone into business in Dawson City.

THE CITY CHURCHES

Harvest Festival at the Memorial and St. James'-Other Services.

Harvest home services were held vesterday in the Memorial Church, and were largely attended. Rev. Archdeacon Davis, of St. James' Church. South London, occupied the pulpit in the morning, and preached from the words, "Enter into his gates with thanksgiving, enter into his courts and bless his name." Special music was rendered by the choir, under the direction of Mr. J. W. Fetherston, The edifice was decorated with grain, fruit flowers and vegetables, and presented a very pretty scene to the eye. The altar and organ were literally covered with flowers. Huge squashes and pumpkins, stalks of corn, grapes, peaches, pears and apples, and sheaves of wheat, oats and barley were among he decorations. The walls were also decorated with floral scripture mot-

flower service was held in the church proper, and every pupil took a bunch of cut flowers or a plant. These floral offerings were set about the church in the evening, and made it a veritable green-house. Rev. C. C. Owen and Sabbath School

Superintendent Armitage addressed the scholars. The church was crowded in every part at the evening service, when the pastor, Rev. C. C. Owen, spoke from the subject: "Bless the Lord, O my soul, and all that is within me bless his holy name, bless the Lord: O my soul, and forget not all his benefits. The flowers and plants taken by the children will be presented to the hospital, the jail, and the different city

charitable institutions.

The fruit and vegetable decorations will also be given away to the poor. ST. JAMES' CHURCH.

At St. James' Episcopal Church, South London, yesterday, beautiful harvest home services were held. The interior of the church was profusely and effectively decorated with foliage. flowers and fruits. The choir, under the talented leadership of Mr. Vivian Reeve, led the special song services, and gave a splendid rendering of several beautiful anthems. Miss Fox, mezzo-soprano, taking the solo parts in excellent voice. Rev. C. C. Owen, of the Memorial Church, preached in the morning and Rev. Canon Dann in the evening. The congregations at both services were large and the discourses able and appropriate.

ADELAIDE STREET BAPTISTS. At Adelaide Street Baptist Church yesterday morning the Sunday school scholars and teachers occupied the center of the auditorium, and listened to an earnest address by the pastor Rev. Thomas S. Johnson, who took for his theme the boyhood and early training of Timothy, who afterward became the companion of the great Apostle Paul. Sunday school hymn books were used, and the singing was de-cidedly "congregational" and good. Miss Nellie Rendell presided at the organ.

In the afternoon an open meeting of the Sunday school was held, when able addresses were given by Mr. R. A. Little, B.A., of the London Collegiate Institute, and Dr. Anthur Woodburne. In the evening the ordinance of bap-tism was administered to three candi-dates. During the services Miss Edythe Johnson sang a solo, which was given with excellent effect.

ST. ANDREW'S.

Yesterday was children's day at St. Andrew's Church, and special services were held. The edifice was prettily decorated with plants and flowers. Mr. John McKay, B.A., preached at both services, and addressed the scholars at a raily in the afternoon. All the services were largely extended. vices were largely attended.

KING STREET PRESBYTERIAN. King Street Presbyterian Church was beautifully decorated with fruits, flowers and grain at the Harvest Home services yesterday. The pastor, Rev. Thomas Wilson, was assisted in the services by Rev. A. J. MoGillivray. The ladies of the church who did the artis-

RALLY AT DUNDAS CENTER. Yesterday was the annual rally day of the Dundas Center Methodist Sunday school. This Sunday school, which in size is third in Canada, has a membership, including the home department, of over 900. In spite of the unfavorable weather the roll call yesterday was answered by 700 members. The home department, which is one or the special features of this most successful school, was represented yesterday by 75 members. The quarterly board was represented on the platform by Messrs. Isaac Webster, Richard Hopbs, Gubert Glass, Frank Cooper and J. G. Shuff. The first 15 minutes of the service was occupied by orchestral numbers by the large school orchestra, under the leadership of Mr. R. Pococke. The printed programme, including hymns, responsive readings, prayer and reresponsive singing was carried out on schedule time. The responsive reading was conducted by Mr. Isaac Webster. After an address of welcome by Rev. J. B. Saunders, D.D., came the piecesantest features of the day—a song of welcome composed by Mr. Hewiett, to the members of the home department, which was sung by the school, and which brought forth a happy response from Mr. R. Hobbs. Mr. C. E. German, superintendent of the home department, gave an address on "The Book We Study." A talk to the visitors oy Master Wilkins Shuff was much appre-
