VOTE FOR THE

Wednesday, Sept. 2nd,

The city needs better sewerage to improve its sanitary condition and make it the cleanest and healthiest city in the Dominion.

The city is compelled to improve its sewerage by the civil courts, which have pronounced judgment, and forbid us emptying sewage into the river.

The plan proposed is the work of three of the best sanitary engineers in Canada and the United States, and has the approval of the Provincial Board of Health.

Should the future requirements of the city demand other means of sewage disposal, the proposed system will simply have to be extended further, and the proposed works utilized as far as they go. Not a dolar of the present expenditure will be wasted.

Under the act, which provides the most just and equitable methods of meeting the cost, the annual rate of taxation will only be acreased half a mill on the dollar. The man who pays \$10 taxes will only have to pay 25 cents more.

Let every ratepayer who desires to improve the city, and who wishes to save it from serious annoyance, as well as law costs and fines that will eventually amount to more than the expense of sewer construction, vote for the bylaw of Wednesday, the 2nd September, and then take a neighbor to the polls and see that he votes.

Ottawa, Aug. 30.-Lord Russell of Killowen, Lord Chief Justice of England, accompanied by Lady Russell, Sir Frank and Lady Lockwood, Mr. M. Crackenthorpe, Q.C., and Mr. Jas. Fox, arrived in the city yesterday afternoon from Montreal. They reached Ottawa by the C. P. R. Winnipeg train, at 1:50, traveling in a special car attached. The distinguished visitors were met by Capt. Wilberforce, aide-de-camp to his Excellency Lord Aberdeen, and the party drove to Rideau Hall. Accompanied by his Excellency, Lord Russell and party went to witness the lacrosse match at Lansdowne Park between the Capitals and the Tecumsehs. Lord Russell will remain in the city until probably next Thursday evening, when he will return to Montreal. Parliament will not likely sit on Monday evening, so as to give all the lawyers in the Legislature opportunity to attend the bar banquet at American dynamiter, recently released the Rideau Club in honor of the dis-

tinguished visitors. A PROHIBITION CONFERENCE. The Dominion Government has arranged to receive the prohibition dele gation appointed at the Dominion Alliance Council meeting last month, at

Ottawa at noon on Thursday, Sept. 3. The deputation is under instruc-tions to plead for prohibition, but if the Government gives assurance of early action in the plebiscite policy, to prepare for a Dominion plebiscite cam-paign, oherwise to arrange for the eariest pssible re-introduction of a resolution in favor of the immediate enact-ment of a prohibitory law. POLITICAL CIVIL SERVANTS. At a meeting of the debates committee recently charges were preferred against Messrs. Lesalle (Montreal), McLeod (Three Rivers), and Vanasse (Sorel), three French translators, of having taken part in the late election contest. Wednesday next was appointed as the day on which the translators will appear before committee and make an explanation of their alleged conduct. The circumstances of the complaint recall similar charges preferred against Messrs. R. Trembley, E. Trembley, and A. E. Poirier some years ago, when their services were dispensed with at the instance of Hon. J. A. Chapleau. They were Liberals.

This season is to see a continuance of the low water troubles in the St. Lawrence River Canal system. From information received on the subject yesterday at the Department of Railways and Canals it seems that the water has already fallen very low, and complaints have been received of boats of nine feet draught being injured by running aground in the Cornwall Canal.

It is not so bad as last year. Reports from the "Soo" Canal all go to show that there has been a falling off in the lake transportation this season. Business is much poorer on both the Canadian and American sides and many vessels that ran to the end of the season last year are already laid up in their winter quarters.

Major McGillivray, who was declared elected for North Ontario, took his seat in the House last evening for the hrst time. He still expresses his intention of retiring from politics.

Messrs. Blair, Mulock and Paterson, the three Ministers who have not yet taken their seats in Parliament. probably all enter the House together tomorrow. They will likely receive demonstrations from their friends. Everybody, on both sides of the House, is speaking enthusiastically of the quiet, dignified, modest way which Mr. Laurier receives all the congratulations and good wishes that

are showered upon him.
Sir Henri Joly will accompany Li Hung Chang in his tour of Canada, on behalf of the Government Solicitor-General Fitzpatrick and A. S. Hurd, of Sherbrooke, have been appointed Queen's counsel.

FELL A HALF MILE.

Woman Killed by an Awful Drop From a Balloon.

St. Louis, Aug. 31.-Mrs. C. W. Hibbard, known professionally as Vic-toria Leroy, fell from her balloon Saturday evening at Clayton, St. Louis county, a distance of 2,500 feet. She had ascended about 60 feet, when her parachute became detached and fell to the ground. The balloon shot up rapidly. The woman in an effort to catch the parachute had partly fallen and was hanging with one arm hooked over the trapeze bar. When the balloon was almost in the clouds, a dark speck was seen to drop from it, and the 3,000 spectators groaned in unison. The frantic husband rushed into his tent, and seizing a pistol, attempted to shoot himself. He was seized and disarmed. The woman fell one mile norm of the fair grounds, first striking a tree. Fragments of the were left in the tree. The Hib-"I have eight children, every one in good health, not one of whom but has taken Scott's Emulsion, in which my wife has boundless confidence."

WARNING TO THE SULTAN. Constantinople, Aug. 31.—The foreign diplomats, after holding a somewhat protracted conference, have wired a strongly-worded note to the Yildiz Palace, appealing to the Sultan directly in the name of the countries they represent, to put a stop to the horrors which are being enacted, and to which, in some instances, members of the various embassies had been eye-witnesses The foreign representatives in their note mentioned the violation and pillage of the homes of foreigners and the massacre of Armenians and warned the Sultan of the grave consequences which would ensue if a stop were not put to the killing and pillage. ANTI - CHRISTIAN CRUSADE IN

CHINA. London, Aug. 31.-An anti-Christian outbreak is now going on at Shan-Tung, China. The rioters are members of a society originally formed for the purpose of mutual protection against bandits, but it is said now it has become the bandit organization itself For some time there has been a feud between this society and the native Catholics, culminating recently in the society sending out 1,000 men to deyet known whether any lives were lost, but 30 Catholic stations are said to have been destroyed. Four thousand soldiers have been dispatched against the insurgents.

TROUBLE FOR SPAIN.

Rebels Tried to Bring About a Revolu tion in the Philippine Islands.

Madrid, Aug. 31.-Official telegrams received here from Capt.-Gen. Blanco, Governor of the Philippine Islands, announce that 1,000 rebels took the field cars, and are holding indignation against the Spanish forces for the purpose of bringing about a revolution. The insurgents were badly arm-ed and easily defeated. The troops are now in pursuit of the fugitives. Gov. Blanco, however, estimates, that the Separatists number at least 4,000. He has asked the Government to send reinforcements. The Spanish Ministry today decided to send 2,000 troops to the Philippine Islands without delay.

Brutal Work in Constantinople Europeans Take Refuge in Their Cellars.

Berlin, Aug. 31.-The Tageblatt's Constantinople correspondent, describing the riots at Constantinople, says that he saw bands of Turks, 30 or 40 in number, armed with clubs and cudgels, crouching in the various street carners, planning to kill any single Armenian on sight. He adds that their methods were full of cruelty, such as one could scarcely apply to the killing of a mad dog. He saw an Armenian priest hacked into a shapeless mass with cudgels in the hands of Turks, whom he denominates "sav-ages." He claims to have witnessed twenty instances of a similar character, and never in a single instance did the troops or the police disturb the assassins. Later he met six manure wagons which were being driven from

CHARGED TO BICYCLES. Falling Off in Street Car Traffic at Chicago.

Chicago, Aug. 31.—Bicycles are knocking out the street cars of Chicago. During the last 60 days 100 cars have been laid off by the West Chistroy the Catholic property. It is not cago street railway, and 200 employes are without employment except as extras. The street car authorities say this action was made necessary by the growing use of bicycles. Thousands of men who live in the outskirts and formerly spent a nickel with the company morning and evening now go to work and return to their homes on wheels. The result is a disastrous falling off in the street car companies' receipts, and it was found necessary to take off 100 cars. Patrons of the cars are painfully aware of the increase of waiting time now lost by reason of the heavy withdrawal of meetings.

BASEBALL.

LONDON BEATS GUELPH. Say, Mr. Clark, take off your hat and stay awhile! You're the third of the Michigan pitchers that have blazed like meteors across the troubled sky of local baseballdom and helped to dissipate the gloom for a time. The other two have vanished, but it is to be hoped you'll stay, and try to brighten the darkness until the end. It isn't very far off. Only four more games and the agony will be over. The Alerts have one foot in the grave, so far as their pennant chances are concerned. Perhaps you can yet pull it out, or prevent them being buried too deeply. At any rate, they ought to have a respectable funeral. So, please don't go away until it's all over. This is a real nice place to live in, and if you stay until the season

couldn't have made it more auspiciously than by thrashing the Maple Leafs—and he did. If you don't befleve it, ask Roberts. Roberts is the 'sassiest" player in the league-when he's winning; but no man loses heart quicker than he when things do not come his way. He was away down in the mouth Saturday. He could not endure the guying of the grand stand, and finally chased himself into the outfield to get away from it, Dark going behind the bat. Clark's only difficulty was in locating the plate. That may have been due to nervousness or want of practice. But when he did get the balls over, the Leafs could not connect with them very Clark was very effective tight boxes. He began by giving two Leafs bases on balls in succession, but no runs were scored. the eighth there were three men on bases at one time, but no one tallied. In the ninth the first two men at bat reached first, but only one got across the plate. The new pitcher has great speed and good curves. Better control will come with practice. He is a likely looking fellow, and looks

something like Fisher.
Gallagher, Guelph's importation,
who wears long hair and a wide grin,
pitched a capital game, as he usually does. A little wildness in the third and fourth was his only fault, but the Alerts, aided by errors, took the fullest advantage of it.

The fielding on both sides was magnificent, as the score shows. Sippi played one of the games of his life, accepting every one of his eleven chances, and covering heaps of ground. Strowger's work at short was brilliant, his one error being excusa-ble. He always shows his best form on the home diamond. Not a base was stolen on Snyder. Every Leaf darkness. who attempted it was wilted, and finally they gave up trying.

For five innings the Leafs were whitewashed, making only two hits off Clark. In the sixth Lauer got four balls, Cockman a single, and Dark a sacrifice, which brought Lauer home. McElroy and Hanley could do nothing. In the seventh Gallagher's single, a base on balls by Congalton, and Lauer's double scored the Leafs' only earned run. In the eighth things looked bad. Dark got a charity, McElroy struck out, and Hanley's hit forced Dark out at second. Then Sullivan singled, and Gallagher filled the bases by knocking a wee one between the pitcher and catcher, who both ran for it and fum-Congalton failed to rise to the occasion, hitting an easy one to

The Alerts had a stroke of luck in the third. With one man out, Strow-ger hit a hot one to Gallagher, and reached first, taking second on laney's sacrifice. Sippl hit to McEl-roy, who threw to first. The ball went through Lauer, and Strowger scored. So did Sippi a moment later on a wild pitch. Gallagher had the Alerts at his mercy until the eighth, when they stupidly lost a run. Strowger struck out, and Delaney made a single, reaching third on a passed The catcher was away from the plate, and Delaney thought he could reach it first. He made for home, but Gallagher got there before him. Just then Sippi made a three-bagger, but Snyder failed to score The score:

TISITORS to the above who are musically inclined should carefully inspect the Mason & Risch Piano exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our ware-

One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the great pianist, Frank Lizst, which was painted at his command by Baron Joukovsky, the great Russian artist, and presented to Messrs. Let us look at a few examples:

Three years ago Mr. A. E. Emory of Salt Lake City, purchased onefourth interest in the Silver King Mine for \$4,000. That mine had \$50,-000 worth of ore reserves in sight at the time of purchase, but required about \$15,000 worth of machinery to work the property at a profit. With this expense the mine was accordingly developed and brought to such a high state of perfection that Mr. Emory was able to realize \$300,000 for part of his holding, leaving a balance from which he derives an income of \$12,000 a month. ALL THIS FROM AN ORIGINAL INVESTMENT OF

During the panic of 1893 Mr. Delamar, of New York City, was able to purchase a mine with a million dollars worth of ore reserves in sight for \$250,000 in cash. Mr. David Moffet, the richest man in Colorado, had an option on this property, but was unable to make it good, because of requiring his money to protect his bank. Mr. Delamar took a million llars from this mine and then sold to an English syndicate for \$2,165,-They capitalized it at \$5,000,000,

AGAINST THE BYLAV. To the Editor of The Adverser: It is certainly to be regreted that a question involving the exenditure of a quarter or perhaps a lalf mil-lion dollars should be hustle through with such unseemly haste. It is unfair to ask the ratepayers to vote blindly on the expenditure o so much money. I say blindly, for even the Iowa State institution for feeble-minded at Otenwood Saturday, Loss, \$150,000. Washington, Aug. 31.—The President has decided to send a warship to Constantinople, and the little cadet practice. tice ship Bancroft has been selected as the first American national vesse since the ratification of the treaty of Paris to pass the Bosphorus and an-chor in the Golden Horn, opposite the

gardens of the Seraglio.

The Navy Department is in a state of suppressed excitement on account of the preliminary orders to fit the vessel for a foreign cruise. Within a day or two, under peremptory orders, a new complement of officers will man the ship, and she will go to the Nor-folk or New York navy yard to make

ready for duty. The Administration having reached the decision that the presence of a perform duty similar to that of the land and France and other European powers, and the Turkish laws forbidding a vessel of over six guns to enter the Bosphorus, the Bancroft alone was found available for the service She has four guns, and therefore is under no obligation to secure permission to pass the forts, as would be the case of other American warships.

The tax rate of New York has been fixed at 2.14. This is 23 points higher than last year, and the highest since

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children." DR. G. C. OSGOOD,

" Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves.

"Castoria is so well adapted to children than recommend it as superior to any prescription known to me." H. A. ARCHER, M. D.,

111 So. Oxford St., Brooklyn, N. Y.

Castoria.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the nerits of Castoria has won us to look with favor upon it."

The agents of the Red Cross Society often purchased cattle from the Kurds, who never made any raids after being visited by representatives of the society. Everything was simply loaned to the peasants, and each article so loaned bears the Red Cross stamp, so it could be recovered if it should be stolen by the Kurds. Miss Barton directed the work of her agents from Constantinople. Sir Philip Currie, the British Ambassador, and all of the Ministers, called upon Miss Barton, who is held in the highest esteem in Turkey. Miss Barton has received the decoration of an Armenian order, founded in the twelfth cen-tury, but has not heard of the decoration conferred upon her by the Sultan. An interesting scene occurred at Bu-da Pesth, where Miss Barton stopped on her way back to London. The new envoy will have direct relations with the Colonial Office, instead of acting through the High Commissioner at the Cape, and will have a salary of, it is said, \$7,500 per annum, paid from the imperial exchequer. The appointment of such a minister is a kind of recognition of independence of the Transvaal, and is obviously designed to conciliate the Boers. But it is not likely to induce the party of independence, headed by Dr. Leyds, to abate their demands a jot. Adcording to some leading English pa-pers there is really no such party. The Transvaal Government coincides in the maintenance of the London convention, and will allow Great Brit-ain to retain its veto on treaties conciuded by the Transvaal, and finally the Boers are not arming and don't want to fight. The British agent at Pretoria will prove himself a better man than his predecessor, Sir Jacobus A. Dewet. The details of the Boer armaments imply that they mean a prolonged campaign with a strong power. If the British Government adopts the plan of sending gradual reinforcements they will strike at once. Probably within a year the matter will be settled by British recognition of Trans-vaal independence.

ANGRY DISCUSSION EVORED. Gallagher, the released dynamiter, was conveyed yesterday morning from Winchester prison to the railway station in a closed carriage, accompanied by a warder, who took him to the steamship purser's office at Southampton, where he was met by Mr. Hodson, an official of the American embassy, and Dr. McBride, of the London Amnesty Association. The warder handed to Gallagher the

The Liberal Government, under Glad-stone and Rosebery, doubtless for fear of political consequences, refused to liberate them, notwithstanding the great pressure from Ireland and the United States. The Conservative Gov-ernment does so, however, on the ground that it is the universal policy of prison departments to release a convict sentenced for life when it is duly certified that his life is endangered by further confinement—that is, if the peril is in consequence of imprisonment. The controversy in the newspapers over the release is very angry, it being pointed out by objectors that it is strange that four of the dynamiters should suddenly be found to be in that condition, while the prison records show that many ordinary life convicts are allowed to die in

CRISIS IN EASTERN AFFAIRS. The main subject of the discussion between the Russian Minister for Forsky, and Prince Hohenlohe, the Imperial Chancellor, and between the Czar and Emeror William, will, the correspondent of the Associated Press is informed, be the Eastern question. especially its Armenian and Cretan atures. A thorough entente between Russia and Germany is probable, and it is expected that Prince Lobanoff-Rostovsky will arrive at Gorlitz with the entente of Austria on this subject in his pocket. During the past week there has been a lively exchange of notes between Berlin, St. Petersburg and Vienna, and Thursday, when the stantinople was received, Prince Hohenlohe was communicated with on his estate at Worki. The opinion pre vails in diplomatic circles here that the eastern question has now reached a point requiring vigorous and conrted action upon the part of Europe, and that such action is operative.

GERMAN ARMY MANEUVERS. All the preparations are now made for the army maneuvers which will begin on Sept. 4 and last until Sept. The most extensive precautions have been taken for the safety of the Czar. The chief of the Berlin political police, with 130 picked men, will guard his Majesty, and mounted police from Berlin will accompany the Emperor everywhere. In addition a special corps of detectives from St. Petersburg is coming down to take maneuvers. The police of Berlin and Selicia during the past fortnight have expelled a number of Russians suspected of nihilism, and a number of others are under strict surveillance.

MILITARY SUPREMACY. During the progress of the army

pended, and the public will be excluded from the depots of both cities. The general plan of the maneuvers is that the east army will meet the west army near Hochkirk, where a battle was fought in 1758 between the Prussians and the Saxons and the Austrians. The battle will be reproduced to some extent. There will also be a night attack with search lights. Prince George of Saxony and Gen. Count Von Waldersee will oppose each other near Breslau, and an enormous cavalry engagement will occur. cavalry engagement will occur.

AUTOCRATIC BILLY. A number of letters were exchanged between Emperor William and Prince Hohenlohe before the former decided to consent to the introduction of a military reform bill. The amendments make the principle of publicity at the trials illusory and retain the Emperor's right of confirming the sentences If the Reichstag rejects the bill, it is stated that the Emperor will dissolve that body.

TO ANNEX SAMOA. The German papers continue to discuss the Samoan question. The Vossische Zeitung says: "A tripartite agreement providing for the abnormal arrangement and revision of the Berto one of the treaty powers will probably be the best solution of the rid-dle."

CABLE NOTES. Emile Zola has achieved one of his ambitions. His novel "Rome" has been placed on the index expurgatorius. Edwin Harlan, a son of the former American consul of that name, who is residing at Dresden, has been serving as first lieutenant in the Seventh Uhland regiment. After winning a long distance ride during the week he was thrown from his horse near Saarburg, and died shortly afterwards. The Catholic Congress at Dresden was less sensational than usual. The agrarian question was lightly touched upon, but the restoration of the temporal power of the Pope, the readmission of the Jesuits into Germany, and the equality of Catholics in public offices was demanded.

The owner of the Hotel Schwan, at Frankfort-on-Main, has sued the city for the sum of 12,000 marks, claiming that amount as his bill for housing Emperor William and his suite during the peace festival in June. It was decided that the city must pay the hotel-keeper.

According to the Deutscher Handels Archiv Germany's import of American cattle and meat products during the past year was much smaller than during the preceding year. The importation of butter, it seems, virtually disappeared, and lard was the chief item, footing up 8,488,653 marks.

## Jingoes Dutyoted

At the Closing Meeting of the American Science Association.

Its Members Will Join the Canadians in Welcoming the British Body.

Buffalo, N. Y., Aug. 31.-The American Association for the Advancement of Science has concluded its labors and departed. The next session will order that the members of the association might be enabled to attend th meeting of the British Association, which is to be held in Toronto, immediately after the Detroit convention. It is the purpose of the American Association to go in a body to To-ronto and join with the Canadians in welcoming the British Association to this continent

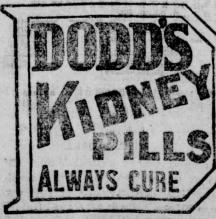

This determination, however, was not reached without a cry of jingoism being raised, and the agitation of the usually serene councils into a maelstrom of debate. It was first recommended that a formal meeting next year be abandoned altogether in order to co-operate with the Canadians. Dr. Hale, of Brooklyn, quite tartly moved to hold a regular meeting at Seattle, Washington, beginning Sept. 1. The abandonment of next year's meeting, he said, would mark the in-

sitial disintegration of the associa-Then it was moved that the regular meeting be held in Toronto. Prof. Robinson said it would be sufficent to extend a cordial invitation to the British scientists to visit the A. A. A. S. meeting. He proposed that the meeting be held at Detroit. Prof. Mendenhall made a long and

forcible plea in support of Prof. Rob-inson's resolution. "The British As-sociation," he said, "would meet at Montreal, Aug. 15, 1897, and proceed to Toronto, remaining there ten days. There will be an excursion to Niagara Falls, and, following that, a three weeks' excursion to the Pacific Coast. It was unlikely that many of the foreign scientists would attend the meeting of the A. A. A. S., and the invitation to the American body was extremely cordial. The invitation to meet in Detroit is not from a scientific source, but from a conventionseeking organization of a commercial sort. There should be no jingoism in science and a week spent in close touch with the eminent scientists from abroad would be a rare opportunity."

AFTER TEN YEARS SUFFERING

Two Box Cure MILVERTON, 28TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

### SERIOUS LOSS.

### Large Mines Abandoned and Filling With Water-Results of a Strike.

Leadville, Col., Aug. 31.-The pumps in the Bon Air and Penrose mines, two of the largest properties in this district, have been stopped, and the mines are rapidly filling with water. Moffatt & Smith, owners of these and several deep mines here, announce that they shall stop the pumps in all of them. This will cause the flooding of nearly every mine in the richest part of the district, entailing a loss of hundreds of thousands of dollars in damage to the workings. Some of the mines will be abandoned permanently. This action is the result of the strike which was inaugurated five weeks ago, and seems no nearer a settlement than when it began.

has sent to the clergy of the diocese, to be used in the Episcopal churches, a prayer which is specially appropriate to the conditions existing in this country at the present time. It is as follows:

"O Almighty Lord, who fashionest the hearts of all men and considerest all their works, grant, we beseech Thee, to us and to all the people of this land, the spirit of obedience to Thy commandments: that, walking only in Thy fear, we may, under Thy mighty protection, continue to dwell in righteousness and peace. Defend our liberties, preserve our unity, save us from dishonesty, lawlessness, and violence, from discord and confusion, from pride and arrogancy, and from every evil way. Continue Thy goodness to us, that the heritage received from our fathers may be preserved in our time and transmitted unimpaired to the generations to come: that all the nations of the earth may know that Thou, O Lord, art our Saviour and mighty Deliverer and our King Grant this, we beseech Thee, through Jesus Christ our Lord. Amen.'

Mr. D. D. Campbell made the presentation address, and said in part that
it was a very unusual thing for so
large a family to be settled comfortably in life without an unbroken tie;
that the children had not only been
well provided for, but were reared in
the fear of the Lord, and now, in their
older years, were all professors of reolder years, were all professors of reolder years, were all professors of religion, showing spiritual as well as temporal interest that was taken in bringing up their children.

After Mr. Campbell had concluded he called upon their son James to present the gifts, which were, appropriately of gold. Mrs. Gray replied that

sent the gifts, which were, appropriately, of gold. Mrs. Gray replied that the presents were greatly appreciated. Afterward Mr. Malcolm Gray entertained the assemblage with reminiscences of earlier years. He said it took nineteen weeks for his father to reach New Glasgow, this country, from the time he left Greenock, Scotland. They first settled in Aldhoro. land. They first settled in Aldboro, where he was born. Mr. Gray is now 76 years of age, and has lived on the farm where he now resides for 70 years. The farm was purchased for \$150, part of which was paid in cattle. In these early days neighbors were few and far between: the nearest was two miles away. On one occasion Mr. Gray was accompanying his mother on a visit to one of their neighbors when they heard a pig squealing. On going to ascertain the cause they found him in the clutches of an enormous black bear. The bear had dragged the pig, weighing over 200 pounds, across a large log. On another occasion his father was prevented from making a call on a neighbor by the wolves. It was no uncommon thing to see the ings were being made. A snap-shot was taken by Mrs. J. E. Gray, who has become quite an expert amateur artist, of the whole company.

Emile Ollivier Rehearses a Long List of Fatel Blunders.

Paris Dispatch to the London Times M. Emile Ollivier has been interviewed in behalf of a morning paper on the occasion of the 26th anniversay of his fall. He refuses to admit that his Ministry committed any blunders, and declares that it was

simply very unfortunate.

"France," he says, "was assured of the alliance of Austria and Italy, and this alliance we should have had except for the disaster and the unpardonable mistake of Sedan. Yes; we had their support even after Reichshofen.
"So certain were these alliances that

the plan of campaign for which the Emperor had been so much blamed the parceling out, that is, of the army corps along the frontier—was imposed upon us by the Austrian military staff. Our troops were even disposed according to the plans of the Archduke Albert, that we might the more easily support him when he should ar-rive at the head of the army.

"But there was something better than this, for, even if the alliance failed us, even if we were abandoned by first victory would have sufficed to decide the final hesitation of Austria and Italy, then intimidated by the support that Russia gave to Ger-

Our infantry was superior to that of Germany at this moment; we had only to crost the Sarre, and we should have found opposing us only the Eighth corps, still in formation.

"We might have come down upon it like a torrent and crushed the first Prussian corps issuing from the defiles of Kaiserstein. The Emperor did not wish it. At Saarbrucken he had not been able to stay on his horse, and had fallen fainting into the arms of his aide de camp. He suffered from an internal disease. Ollivier, was Froissard, who became frightened at Forbach and retired, while Bazaine said to himself as he hesitated whether to go to his rescue: "The maitre d'ecole is in the thick of it; leave him to ex-tricate himself alone." The fourth blunder, which M. Ollivier describes as a crime, was the action of Bazaine at Metz on the 14th, 16th and 18th, at Borny, Grave-

Potatoes.-If I buy potatoes on the market at so much a bag, does the seller require to give me 90 pounds in each bag, or are potatoes only sold by the bushel of 60 pounds? There was nothing said as to how much was in the bag. Ans.-The seller should legally give you 90 pounds for each bag, because by custom each bag contains a bushel and a half, and without such custom the sale would be void, and the seller liable to penalty. Potatoes can only be lawfully sold by the bushel of 60 pounds, or some multiple or part thereof, unless the bushel measure is specially agreed upon; and no lawful sale can be made of a given quantity, except according to the Dominion weights and measures.

We have no hesitation in saying that Dr. J. D. Police Clerk Moule Makes His Usual Statement.

The Amount of Fines Imposed and Those Collected-The Cases Recorded.

Mr. John Moule, Police Court clerk, has just completed his quarterly return for the quarter ending Aug. 31. Great credit is due to Mr. Moule for the thoroughly systematic method employed in the recording of cases. Anything can be looked up with little trouble. The papers have been forwarded to Mr. Fleming at Osgoode Hall, Toronto, and the county crown attorney.

During the quarter there have been 125 summary convicitions, and the amount of fines imposed totals up to \$556 85. Of this amount only \$253 65 appointed assistant engineer, in charge the bylaw, including one of selling liquor against Frank Campbell, who was fined \$20 for selling liquor on election day. There have been 30 drunks, three of whom have been women. Only two charges of keeping disorderly houses have been sustainnew car shops at London. The plans ed. There were seven cases of comomn assault, four of vagrancy, three of drunkenness and vagrancy, two of cruelty to animals, four of drunk and disorderly. Five drunks went to jail for twenty days, five for ten days, and one for four days. Edward Daly went to the Central for two months for assault. The longest term given was given two years in the Mercer Reformatory for vagrancy.

The summary trials have been fourteen in number, but only seven convictions have been secured. These include stealing, fraud, assault with intent, indecent assault, etc. Alf. Johnston was given the most severe sentence. He is the young man who stole the night dresses from Mrs. Hemmell's yard, and got nine months Charles Gates comes next. For assault and wounding he is now doing six

months. The others are doing three months each, either at the county jai or the Central. During the year up to the present time there have been 55 juvenile cases heard by Magistrate Parke.

AQUATIC. LONDON'S COMING REGATTA. Capt. Huff, of the London Rowing Club, and the numerous aquatic en-thusiasts look forward to Saturday next with a great deal of vim and expectation. More interest is being taken in the regatta this year than ever before, and a larger number of medals and prizes are being offered. The chief interest is centered in the interclub fours race between London and Hamilton. The teams in this race will be: London—H. Dinnen, stroke; E. Morris, 3; N. Dinnen, 2; D. Rechnitzer, bow. Hamilton—D. M. Cameron, stroke; L. Lee, 3; W. B. Champ, 2; E. Wark, bow. The one mile single scull

race between Dinnen and Wark of Hamilton, is also being talked about, and the boys look to Dinnen to beat Wark. There are four crews entered in the London Club fours, and a day of good amusement may be looked

successful career.

With the advent of Bram and Neil the consultation ended. The Elder, grumbling at the chill and mist, wrapped himself in his plaid, and leaning on his son's arm cautiously picked his way home by the light of a lantern. Bram drew his chair to the hearth, and sat silently waiting for any question his father might wish to ask But Van Heemskirk was not inclined to talk. He put aside his pipe, nod-ded gravely to his son, and went thoughtfully upstairs. At the closed door of his daughter's room he stood still a morent. There was a murmur still a moment. There was a murmur of conversation within it, and a ripple of quickly smothered laughter. How well his soul could see the child with her white, small hands over her mouth, and her bright hair scattered

upon the white pillow. "Ach myn kind! Myn kind! Myn liefste kind!"* he whispered; "God Almighty keep thee from sin and sorrow!'

-*"Oh, my child! My child! My lit-tle child!"

CHAPTER II. Joris Van Heemskirk had not thought of prayer, but in his vague fear and apprehension his soul beat at his lips, and its natural language had been that appeal at his daughter's closed door. For Semple's words had been like a hand lifting a curtain in a dark room—only a clouded and uncertain light had been thrown, but in it even familiar objects looked portentous. In these days the tendency is to tone down and assimilate; deprecate everything positive and de-monstrative. But Joris lived when the great motives of humanity stood out sharp and bold, and surrounded by a oreligious halo.

Many of his people had begun to associate with the governing race, to sit at their banquets, and even to worship in their church; but Joris, in his heart, looked upon such "indifferents" as renegades to their God and their fatherland. He was a Dutchman, soul and body; and no English duke was prouder of his line or of his royal quarterings than was Joris Van Heemskirk of the race of patriots from which he had sprung.

Through his father he cleaned hands

Through his father he clasped hands with men who had swept the narrow seas with De Reytur, and sailed into arctic darkness and ice-fields with Van Heemskirk. Further back, among that mysterious, legendary army of patriots called "The Beggars of the Sea," he could proudly name his foregoers, rough, austere men, covered scars, who followed Willemsen to the succour of Leyden.

BABY IN AN ASH BARREL

(To be Continued.)

Put Out to "Board" With a Woman Who Got Drunk.

New York, Aug. 29.-The wail of an infant from an ash barrel Tuesday evening in Seventy-third street, near Second avenue, attracted the attention of a policeman, who found a girl 14 months old in the barrel and saw a well dressed woman staggering along the street, hopelessly drunk. He arrested the woman, who acknowledged having left the baby in the barrel. She gave the name of Bridget Cashin. of 211 East Seventy-third street.

The baby was intrusted to the Gerry society, and Agent Schmidt, of the society, reported to Magistrate Kudlich, in the Yorkville Police Court, yesterday, that it was the child of Mrs. Kate Sehring, of 1,072 Third avenue, who had intrusted the baby to Mrs. Cashin to board. The magistrate sent Mrs. Cashin to the workhouse, gave the baby back to its mother, and admonished her to take care of it.

She further says that from the third day after commencing to use these pills, she was free from all pain; and, that now she feels as well as ever before in her life.

Some time ago Mr. W. W. Ball, of Hespeler, fell and broke his leg, and a few nights ago while turning in bed he broke the same leg at the thigh. As Mr. Ball is a very old man it is not expected that he will recover. During the week one of the win-

dows in the east side of the English Church at Delhi was replaced by a handsome stained glass window, which bears the following inscription: "Presented by Miss E. A. Lawson, 1896." At a recent meeting of the Dresden W. C. T. U. officers for the coming year were elected as follows: Mrs. W. Ward, president; Mrs. J. Peate, vice-president; Mrs. W. A. McKim, secretary; Mrs. Wallace, recording secretary;

his left hand. While assisting at the threshing of his son-in-law, Mr. John Fyfe, and using the hay fork, Mr. Tracey's hand was pulled into one of the pulleys and terribly mangled.

A large company of friends assembled at the residence of Mr. and Mrs. David Perrin, Mount Vernon, to celebrate with them the 50th anniversary of their wedding, Mrs. Perring, when a girl 15 years old was married to Mr. Perrin, at Mount Vernon, on Aug. 27, 1846. She was a Miss Daniels. The bride of 1846 came to the table on Wednesday dressed in a beautiful figured silk nurchased dur. beautiful figured silk, purchased during her honeymoon 50 years ago.

A shocking accident occurred to Robert Chambers, who was engaged threshing on a farm at Oakland on Thursday. Chambers was operating a threshing machine, and while doing so had occasion to alter the belt. He caught the belt as it flew around and had his hand drawn in among the machinery. He gave a scream of pain, and the engine was at once stopped, but the hand was completely wrenched

Alfred Mann, Chatham, has in his garden a pear tree, an apple tree and a cherry tree growing so close that the limbs intermingle. Thursday he picked from the pear tree a bunch of fruit. There were mine specimens in the bunch, and they were formed like the bunch, and they were formed like aples, garbed like pears, and clustered like cherries. The skin has a taste like that of a pear, but the fruit itself is like acid, resembling the taste of a green cherry. The best evidence of the hybrid nature of the fruit was found in the goods which has a second and the second residence. Mr. L. Tracey, of Wingham, met with a painful accident, which caused the amputation of three fingers of cherry-pear-apple seems to have been

produced by intermingling of the blossoms of the three trees.
In South Essex the late peach crop is much better than the early crop was. It cannot be remembered when there was such an abundant crop of apples, and a peculiar feature is that the older orchards are bearing much more than the young orchards. The prices are extremely low, being hardly enough to make it worth while to pick them. The grape crop of Essex is not as abundant as other fruit.

The storms have caused great destruction to oat fields. Hundreds of acres were blown level to the ground, and were rotting, and the farmers have had to burn the crops in the field.

Earnings of the C. P. R. - Severe Test for Color Blindness. C. Case, agent of the Blue and Canada Southern freight lines in Buf-

falo, has also been appointed com-mercial agent of the Michigan Central in that city. Hereafter the Wabash will build its mail cars ten feet longer than those now in use, and as fast as the older

cars can be put through the shops they will be lengthened ten feet. The Philadelphia and Reading has begun work tunneling through the Broad Mountain. When the tunnel is completed it will lessen the distance between points above the mountain and Philadelphia 25 miles. The tunnel will be three miles long and wide enough for a double track. Its estimated cost is \$3,500,000, and it is to be completed within three years.

C. P. R. statistics show gross earn-

ings for July, 1896, \$1,803,575; working expenses, \$1,104,340; net profits, \$699,-235; in July, 1895, the net profits were \$558,027, and for the seven months ending July 31, 1896, the figures are as follows: Gross earnings, \$10,955,227; working expenses, \$7,147,055; net profits, \$3,308,171. For seven months ending July 31, 1895, there was a net profit of \$3,096,851. The gain in net profits over the same period last year is therefore for July,\$141,208; and from

Jan. 1 to July 31, \$711,321. A severe test for color blindness has been going on with engineers and firemen of the New York Central, and it has resulted in numbers of engineers being taken off their en-gines and the promotion of as many firemen. These engineers have been put in the shops or yards, where they can perform their work without danger to the company's interests. It is stated that one of the engineers on the Empire State express was of the number whose eyesight was deficient. It is related of one engineer that he earned many years \$156 per month, living up to every cent of it; two weeks ago he was suspended on ac-count of color blindness, and is now wiping engines in West Albany for \$6 per week. Two Mohawk division engineers who failed to pass the color test are running shifting engines in the Albany yard.

A Lively Meeting at the City Hall.

The Mayor, Sir John Carling and Dr. Campbell Speak For,

And Ald. Pritchard and Wm. Scarrow Against the Bylaw.

Mr. Bartram Also Speaks - Some Questions Asked and Replied To.

The meeting at the City Hall Saturday for the purpose of discussing the sewerage question was the liveliest of the series, because spirited opposition was developed for the first time. The debate was quite warm. Had not the mayor and the chairman of the Board of Health shown perfect control of themselves, the occasion might have

been still warmer. At eight o'clock, when the meeting was to have been called, very few were present, and it was not for nearly half an hour that a sufficient number had gathered to warrant the op-

ening of the meeting. THE MAYOR SPEAKS. On the platform were Sir John Carling, who came from Ottawa expressiy to address the electors on this ques tion; the mayor, Dr. Campbell, Ald. Powell and Armstrong, and Mr. Murray Anderson. The mayor took the chair, and made the first speech. He dealt with the matter, as on previous occasions. The step was not an optional one, as the judgments of the courts were imperative that sewage This was especially the case in parts of wards four, five and six. He called

on Dr. Campbell to explain the proposed plan.

DR. CAMPBELL. The doctor then clearly and carefully described the scheme, as he had done at the previous meetings. He pointed out that the courts twelve or thirteen years ago decided that the city should not empty sewage into the river. It was only after urgent communications from the Provincial Board of Health that the present action was taken. People might say the system would be offensive, but that such would not be the case could be learned by examining the plan in operation at the Asylum. Referring statement was untrue. I did not see appetite, and give sweet, refreshing to the cost the speaker said: "Does the city want to fight the courts when the judge has the power to fine us more in one year than the whole

scheme would cost?" SOME CONTROVERSY.

Ex-Ald. Robert Pritchard asked why the courts had not prevented St. Marys, Stratford and other places from emptying sewage into the river? He thought the plan well conceived, but not well carried out. The people did not understand it. Dr. Campbell asked for other questions the ratepayers might wish to ask, so they might all be answered at the same time, and Mr. Bartram

Mr. Bartram said the preliminary ar-Campbell that the courts compelled the city not to put sewage into the river was untrue. The suit against the city had been commenced by London West, with the end in view of forcing the city to remove the waterworks dam. He had had the pleasure of drawing up the indictment, which read that sewage should not be put in the stagnant pond formed by the waterworks dam. The way to remove the indictment was to put gates in the dam or remove it altogether. He had refused to be a witness against the

city when the indictment was being tried, because he knew from personal experience, as he lived by the river, that the emptying of the sewage into the river was not a nuisance.

The mayor said he would not have replied had not Mr. Bartram said, The mayor's statement is untrue." He should not have said that. It was not customary for gentlemen to make such statements. Mr. Bartram protested that he said

the mayor was wrongly informed, and that the mayor should not have accused him of being ungentlemanly. The Mayor-You said the mayor's the indictment. I knew that London sleep. West had concocted some schemes to worry the city, but I take the word of the secretary of the Provincial Board of Health. I can vouch for the statement that the courts decided that sewage should not be put into the river. In answer to Mr. Pritchard:

The intercepting sewers will reach all parts of the city. Ald. Pritchard-Did you or did you river and empty the sewage into the

river there? The Mayor—Certainly not. I told you that the Provincial Board of Health would give the city permission to Telephone 997. empty the sewage into the river during Mr. Bartram said the preliminary ar-gument of both the mayor and Dr. but I did say that I did not believe say that I did not believe the river to be much contaminated by the sewage.

> Ald. Pritchard-I most emphatically state that you did tell me. The Mayor—There must be some misunderstanding. I do not think Ald. Pritchard would make any statement he did not believe to be true, but positively state that I made no such statement.

Dr. Campbell rose to answer ex-Ald Robert Pritchard, but that gentleman had decamped. The doctor then said that no action had been brought against the places mentioned, or, as the w is general, they would have been decided against.

Wm. Scarrow-I understand that many ratepayers are under the impression that storm water would be provided for, whereas it would not. The mayor explained that the cellars would be drained, but that the large flood of surface water in the spring could not be provided for.

Mr. Scarrow—It is not correct to at tempt to delude the people.

The Mayor-I will not sit here and permit you or any other gentleman to state we are attempting to deceive the people. It has been explained thoroughly that the cellars to the depth of eleven feet would be drained. Dr. Campbell corroborated the mayor. Ample accommodation had been provided for the surface water, but not for the large flood of storm water coming down Carling's Creek.

SIR JOHN CARLING. The mayor then introduced Sir John Carling. Sir John said that all large cities secured a good sewage system, Ottawa having spent between \$300,000 and \$400,000. London had only to keep on making improvements as they had been doing to make the city the most attractive in the Dominion for people to reside in. He then spoke of the most prominent recent improvements-the electric railway, the asphalt pavement, the securing of the G. T. R. car shops, "Which," said he, "I am glad to say, are to be built im-

mediately."
The Mayor—Tenders will be here

getting good drainage when the Asylum was established. It was the first thing to be considered in erecting great institutions here. He said the mayor and chairman of the Board of Health deserved great credit. London was a healthy city, but how long would it remain so, as it grew, if it had inefficient sewage? Money was cheap at the present time. The carrying out of the scheme would give employment to a great many people in
