PARK COMES TO CITIZENS

Enterprise and Energy of Mayor Cowan Secures Splendid Result

The Successful Co-operation of H. S. Clements, M. P.—The Government Correspondence.

Through the energy and enterprise of his worship Mayor Cowan Tecumseh Park will shortly be handed over to the city by the Government for the use of the citizens, with certain precedence to the militia.

The Mayor has earnestly applied his energies to this outcome and is to be congratulated upon the result. Notwithstanding the fact that Geo. Stephens informed him that nothing could be done, he did not give up. He sought out Herbert S. Clements, West Kent's popular young member, who at once tendered his co-operation. Mr. Clements arranged with the Minister of Militia for an interview with the Mayor and the following satisfactory correspondence ensued:

Chatham, Ont., June 10, '05.
Sir Frederick Borden, M. P.,
Ottawa:

Dear Sir,—Referring to our casual conversation on the 6th instant about the extensive improvements to be made by the Government in Tecumseh Park and the desirability of not only maintaining, but even improving its present appearance and usefulness for the citizens of Chatham, I beg to say that I can assure for the hearty co-operation of the City Council. The advantage of a beautiful park and play ground in the heart of Chatham is fully appreciated and I shall do all in my power to assist in and carry out what may be in the interest of the Government and the city. I might suggest, however, for your consideration, that if the grounds are to be beautified and maintained at our joint expense then a definite mode of selecting a commission or number of men to manage them, ought to be agreed upon, but if Chatham is to bear the whole expense as heretofore then the City Council ought to have the sole control of the Park and its care, so long as the grounds be not injured and the Militia have precedence for all purposes for which they might require them.

This was the state of affairs for 20 years or more until but a few years ago, and then a change was made rather to the dissatisfaction of the citizens of Chatham. I would be much pleased to have some definite suggestions upon these matters.

Believe me, Sir Frederick,
Yours sincerely,
GEO. W. COWAN.

Ottawa, June 12, '05.

I am in receipt of your letter of the 10th inst., with reference to the Park at Chatham, and will at once take the matter up with my Deputy Minister and let you have an answer as soon as possible.

Yours very truly,
F. W. BORDEN.

Chatham, Ont., July 17, 1905.
The Honorable Sir Frederick Borden,
Minister Militia, Ottawa:

Dear Sir,—I am sorry to once more encroach upon your time, but I feel the matter is an important one to our city; that is, in regard to my communication to you, concerning the management of Tecumseh Park. The season is passing on, and I would be very glad if you could find time to take action upon this matter.

Trusting to have an early reply, I am,
Sincerely yours,
GEO. W. COWAN, Mayor.

DEPARTMENT OF MILITIA AND DEFENCE.

Ottawa, July 31, 1905.
Re Tecumseh Park.

Sir,—With reference to your letter to the Minister of Militia and Defence, relative to this matter, I have the honor to inform you that the Minister is prepared to recommend that your Corporation be given a 99 years' lease of the property at a nominal rent, under the following conditions, viz:—

- 1—Your Corporation to be permitted to plant trees and otherwise make improvements.
- 2—The parade ground to be kept free and accessible to the militia at all times.
- 3—The department to have the right to resume possession of the property at any time if required for military purposes and without paying any indemnity.
- 4—The portion to be reserved as a parade ground to be selected and defined by the officer commanding Western Ontario.

I have the honor to be, Sir,
Your obedient servant,
L. J. PINAULT,
Colonel,
Deputy Minister of Militia and Defence.
His Worship, G. W. Cowan, Mayor,
Chatham, Ont.

THE CHAIRMAN SUCCUMBED

The Charming Young Lady Book Agent Secured an Order From Library

How it Was Dealt with Last Night—Other Business of Library Board.

J. W. Humphrey, Chairman of the Public Library Board, wore a hunted look when he walked in to the Board meeting last evening. He was evidently worried over something and acted like a man who had committed some act and was not sure whether he had done right or wrong. The other members around the Board noticed it and wondered, because generally it seems to be the proudest and most pleasant moment of his life when he is presiding over a Board meeting. Not so last evening, however, and his colleagues at once suspected that a woman was at the bottom of it—and they were not far astray.

Mr. Humphrey gave a little startled jump when under the head of donations, Mr. Stone asked if the chairman did not have a book donation for the library. An awkward silence ensued which was broken only by the heavy breathing of the chairman.

Mr. Stone continued smilingly: "I understood that Mr. Humphrey had purchased a book from two lady book agents and intended to donate it for the use of the public."

Mr. Humphrey who up to this time had been busying himself with a number of papers in front of him, now raised a pair of sheepish looking eyes, heaved a deep sigh and offered an explanation.

"You see," said he, as he glanced around the Board, "I was sitting in my office one day when a couple of ladies came in and informed me they were going to sell a book to the library. I told them I was only the chairman of the Board and referred them to Mr. Stone, chairman of the Book committee. They came back later with an order from Mr. Stone and I—well, I signed for a book," and as he made this confession he looked considerably relieved.

Dr. Charteris (dreamily)—They are good looking girls.

Mr. Humphrey (jealously)—Yes, but the best looking one didn't come back after I referred them to Mr. Stone.—Laughter.

Mr. Stone—I understand Mr. Twohey and Dr. Charteris also surrendered.

Dr. Charteris (resignedly)—Yes, of course I fell down. Who wouldn't?

Mr. Humphrey (nervously)—Mr. Stone ordered the book and I signed for it.

Mr. Sheldrick—Then you can pay for it between you.

At this Mr. Humphrey's face blushed and he was about to say something when Mr. Anderson said: "Considering the great temptation and the extraordinary force that was brought to bear upon the two members I think the Board should pay for the books."

"Carried!" declared Chairman Humphrey before any other member had a chance to raise one dissenting word.

There were present at the meeting Chairman Humphrey and Messrs. Stone, Sheldrick, Anderson, Dr. Charteris and S. M. Smith.

Miss E. Taekaberry thanked the Board on behalf of the teachers of the Central school for a donation of magazines.

Miss E. Barassin, librarian, asked for the last two weeks in August. Carried.

An account from Leonard Scott & Company for \$8 was referred. One from the Library Bureau for 56 cents was paid.

The Roof committee, consisting of Messrs. Humphrey, Charteris and Sheldrick, reported that the necessary repairs to the roof of the library were two new decks, on the north and south sides, covered with galvanized iron, enlarged conductors, new slate shingles and a lot of soldering work. The committee was empowered to have the work done at once.

The following was the librarian's report for July, which was read and received:

LIBRARIAN'S REPORT.

New borrowers, 35.
Books given out, 1,638.
A supply of postal cards is required for notifying persons for whom books are retained.
The magazines that have been bound by The Planet have been received and will be placed in circulation as soon as possible.
Cash received for fines, \$6.97.
Cash received for cards, \$1.75.

PRaises OUR MAPLE CITY

Editor of the London Free Press has Many Kind Words for Chatham

Much Impressed by Mayor Cowan—City of Development and Progress.

Yesterday W. H. Greenwood, managing editor of the London Free Press, was a Maple City visitor. Mr. Greenwood made a fraternal call on The Planet and was enthusiastic in his praise of Chatham.

In to-day's Free Press he gives his views as follows:—

Chatham, Aug. 2.—(Staff special).—This city is leading the broad life, thinking in futures, laying firm foundations, assured of municipal progress and an era of merited prosperity.

There is a tradition that the citizens pretty much slept up to about four years ago. They are certainly wide-awake now, and piloted by as sturdy a mayor as was ever given to a Canadian town they are bidding for success, even at the expense of an increased tax rate.

Miles of pavements are down or planned; \$50,000 has been loaned to the Wallaceburg, Chatham and Lake Erie Electric Railway, payable 30 years hence; an underground street, franchise has been let to a subsidiary company of the Electric Railway for the purpose of installing a steam heating service; capital from across the line has taken a fancy to the city, and it is no unusual thing to have half a dozen Yankee millionaires pointed out to you in the hotel corridors.

MERCHANTS NOT SHOCKED.

The business men are not shocked by the fact that the Wallaceburg Electric Railway has a 50-year franchise that enables it to run freight cars over the city streets, excepting the main thoroughfares.

They consider that it is not so bad for the city, excusing the long term by the fact that the franchise is exclusive only for twenty-five years. They have another excuse, and it spells welfare for Chatham, but is making outside towns tremble.

The Electric Railway proposes to run north to Wallaceburg and south to Lake Erie. The small towns on the line see business going from them to Chatham, and they are making vociferous terms with the railway.

However, the promoters have the right of way bought, most of the track laid, and are prepared to side track some of the more obstreperous towns till the line is appreciated. Chatham sees itself the shopping centre of Kent.

HOPES TO BE COUNTY HUB.

With its factories given the reduced freight rate that is promised by the electric competition, it hopes to be the distributing centre also, and, in short, the hub of the fine agricultural county of Kent.

Present, though all the details of the \$50,000 loan to the company are settled and gone forever, there is going on through the press and on the streets a dog's days' controversy over how much the city will really have to pay the electric line.

Dr. Thornton, a worthy citizen, believes the municipality is due to pay as \$70,000 before the deal is settled.

The company agrees after five years to pay back the \$50,000 by 25 yearly instalments of \$2,000 each. The best opinion is that the city will be out not more than \$35,000.

NEVER LIVED IN CHATHAM.

And the man who said figures never lie, never lived in Chatham in the year of our Lord 1905.

A new thing, has entered Canada by way of Chatham in the steam heating plant. A company closely allied to the Wallaceburg Electric line is now laying pipes under the streets to carry steam to whomsoever will have it.

It is on the same principal of gas supply. The steam is got from the electric line's power plant, and all you have to do is to turn on the tap in your office or home, and presto! it is heated to any temperature you desire.

It is claimed that it will cut a fellow's fuel bill in two. The franchise for this is exclusive for 25 years.

In common with London, Chatham has its troubles with paving agents. Where there are paving agents there is always trouble, and the paving agents "we have always with us."

But Chatham is the wrong city to tinker with.

MAYOR COWAN IS FIGHTER.

Mayor Cowan has the reputation of a fighter, and when he really makes up his mind to silence the paving agents they will have to become human oysters. His clash with Manager Warburton, of the Electric Railway, shows what he can do.

Warburton, with his army of Italians, good people, mind you, but badly led this time, attempted to steal across a municipal bridge that, according to the agreement between the city and the railway, should not be crossed till the railway had its plans passed on by the Council.

Warburton disregarded a polite notice from the City Hall couched in the form of a policeman. His watchword was, "The bridge for mine." He

THURSDAY, AUGUST 3, 1905.

THE RIGHT COURSE.

The Ottawa Journal is an independent newspaper, and it is quite without bias when it says this:

The report that the Whitney Government "will use the axe freely" on the Ontario civil service finds ventilation in the Toronto Globe.

The story is poppycock, a mere ferment of hot weather and partisanship.

The Globe can predict just one thing safely, or at least truthfully, with regard to the Ontario civil service, namely, that whenever the Whitney Government's axe falls on any office-holder, there will be a good reason.

SENATE OF HOPELESS POLITICAL WRECKS.

The Liberals have succeeded in packing the Senate with hopeless political wrecks selected from their most incorrigible partisans. The body which the Liberals, in Opposition, proposed to reform, is now but the registry office of the Premier's will. Twenty-four members, it is understood, have been added to it as representatives of the two new provinces. The indemnities have been raised from \$1,000 to \$2,500, and it is obviously to be made the asylum for the coarctation from the English-speaking provinces who cannot be re-elected to the Commons, thus fastening French-Canadian views upon the "Upper House." The Government, no doubt, promised those who voted in fear and trembling for the Coercion bill, not only seats in the Senate, but this preposterously increased indemnity. Surely enough, we are starting to pay the bill incurred by the apostate Premier when he started out to bully through Parliament a bill opposed to both the spirit of his party and the constitution of the country.—Toronto Saturday Night.

CARDINAL GIBBONS'S TRIBUTE TO THE PRESS.

In testifying to the value of the press in its exposure of corruption in high places, Cardinal Gibbons has no more than recognized the magnitude of our public evils and the value of publicity as an eradicant, remarks the Detroit News. It is the conviction of an able observer. But it requires no penetration to see how within the past few years the mighty doers of wrong have fallen one after another from their pedestals, and almost without exception every downthrow can be attributed to the newspapers.

Cardinal Gibbons holds a man's good name to be his dearest possession, and while it is good to contemplate the shattering of a good reputation no other force than publicity can accomplish the defeat of graft. Within the past few years the lime-light of publicity has exposed many a cancer that would no doubt have gone on eating unobserved into the nation's vitals. The utter unmasking of men like Rockefeller, Rogers, Hyde and their consorts, and of corrupt officials in city governments, acts as a purge. It is the incalculable power of the press and the unmeasured force of publicity that form the total defenses of society against organized corruption.

So great has become the volume of graft exposures that not even the chosen organs of the corruptors can remain silent. The time was when one newspaper might fight single-handed against those who would hide graft, but few publications are today so indifferent to decent public opinion that they refuse to aid in the exposure. Nor are the magazines to be denied a share in the credit for some of the most notable of recent assaults on organized dishonesty. Some of the magazines have constituted themselves prime exponents of publicity, and their achievements have practically forced upon the more treacherous newspapers the necessity of taking a hand in the fight against graft. The newspapers to-day are so well owned that they dare hold their peace when they should speak out, and none is so useless that it cannot contribute some light to the fierce blaze of publicity where there is dishonesty to be exposed.

WHEAT CROP OF THE WEST.

It is only a few years since Sir Charles Tupper's prediction that the Canadian Northwest would yet produce 200 million bushels of wheat was laughed to scorn by men who not then being in office—had no faith in Canada or the Canadian people. Sir Charles has been privileged to see his prophecy all but realized. We shall this year, it is generally believed, pass the 100 million mark. A hundred million bushels in round

DANGEROUS GERMS IN SUMMER

STRENGTHEN THE STOMACH WITH MI-O-NA AND KEEP WELL

A wealthy philanthropist in New York spends thousands of dollars every summer providing milk for the babies, with the result that the mortality is greatly decreased. He appreciates the fact that disease germs are common in the summer and that the stomach must be kept healthy to resist their attacks.

Older people do not live on a milk diet to insure health, but they can so strengthen the stomach and digestive organs by the use of Mi-o-na that they too, will be free from sickness in the summer season.

Take a Mi-o-na tablet before each meal, and it will soothe and heal any inflammation that may be present in the lining of the stomach, give tone and strength to the whole digestive

system, and aid you in naturally and easily digesting the food. It is the only remedy known that cures indigestion and stomach troubles by strengthening the digestive system. It is guaranteed to make a complete and permanent cure in all diseases of the stomach excepting cancer.

Mi-o-na restores complete health to the whole system and cures headaches, backache, sleeplessness, pains and distress after eating, vertigo, heart burn, and the general debility which result from a weak stomach and imperfect digestion.

A guarantee to refund the money if Mi-o-na does not show help given with every 50 cent box. Ask C. H. Gunn Co. to show you the guarantee.

figures would be a proud showing for the population that is now settled between the Great Lakes and the Rocky Mountains. Never before was so large a crop returned to so few farmers. A hundred million bushels would surpass by 60 per cent. the largest wheat harvest ever before taken off the same soil. Nor is it by any means beyond the bounds of the present year's possibilities. Manitoba has 2,643,588 acres under wheat, which is 231,353 acres more than it had last year. The Territories increased their wheat area this year by 17 or 18 per cent. On 4,000,000 acres, which is slightly less than the total area the West has under wheat this year, 1,000,000 bushels could be grown without raising the average yield per acre to high record figures. In 1895 and in 1901 the 25-bushel rate of yield was maintained. Of course, these were banner years, but 1905 bids fair to be a banner year also.

Some surprise has been expressed the seeming disparity between the population increase and the acreage increase. Recruited as the Territories have been the last three years, it seems to have been thought that wheat cultivation should have expanded more than it has done, especially as so large a proportion of the newcomers was made up of farmers from the Western States, the most efficient that could be placed on the lands of Assiniboia and Alberta.

It is to be remembered, however, that immigrants from the Dakotas and neighboring States do not apply themselves to wheat-raising with all their might the first year. They usually put in a crop of flax at the outset, having found that product very remunerative in their own country. This year, however, the flax acreage shrank in the Territories. It is to be considered, too, that as population thickens live stock will increase, and more of the land will have to be used for the growing of feed grains. This year, while Manitoba added 433,177 acres to the area under grain, roots, etc., only 231,353 acres of the increase went to wheat, the remaining 201,824 acres of the increase going to other crops. While the Territories increased their wheat area this year 17-1/2 per cent., they increased their oat area 18 per cent., and their barley area nearly 11 per cent. The North-West Grain Dealers' Association computes the area under the various grains in Manitoba and the Territories as follows: Wheat, 4,018,000 acres; oats, 1,423,000 acres; barley, 433,800 acres; flax, 34,000 acres.

THEIR THANKS

Mayor Cowan has received a letter from the P. M. picnic committee, returning thanks for the hospitality extended them. In the course of the letter it is stated, "The many acts of kindness will always recall pleasant remembrances of our first annual picnic."

THIRDS AGROUND

The City of Chatham carried out over three hundred people Tuesday morning on the Victoria Avenue Epworth League excursion. The day was a splendid one for an outing, albeit a trifle cold. The lake was quite turbulent and, as a consequence, many of the merry-makers were sick. One gentleman while taking a deep, prolonged sigh near the side of the boat parted with an expensive set of artificial molars.

On the downward trip two hours were lost owing to the steering gear of the boat refusing to work. The boat was grounded by reason of this no less than three times. While in Detroit the vessel was put in dry dock and repairs effected.

Arriving in Detroit about 2 p. m., four hours were spent in the city, the boat leaving again about 6 p. m., and arriving here at 11.30. A small sum will be cleared.

You can trust the goodness of an H. & A. S. gold-filled Watch Chain, which is positively guaranteed for 10, 15 or 25 years, according to the thickness of the gold casing.

Your jeweler sells H. & A. S. Chains. Send for the H. & A. S. Chain Book. H. & A. SAUNDERS, King & John Sts., Toronto.

FINE WHEAT

Mr. Glenn of Harwich Grew Wheat this Year that Weighed 65 Pounds to the Bushel.

Mr. Glenn, who owns a farm up the river in Harwich, near Edward McKerrall's, has a field of some of the finest wheat ever grown in Kent County.

This wheat is a special variety, "The Kent King," and was sent to Mr. Glenn from Indiana. It is a round red sample and weighs 65 pounds to the bushel. Mr. Glenn has about 100 bushels of it and every bushel has already been spoken for by neighbors who will use it for seed this fall. Mr. Glenn purchased it at \$1.25 per bushel.

It is very rarely that wheat is found growing in Kent weighing 65 pounds to the bushel. Chief Holmes who for a large number of years was foreman in the Kent Mills grain elevator, says the only wheat he remembers that weighed 65 pounds to the bushel was a sample of Manitoba wheat received at the mill three or four years ago. Mr. Glenn sowed this wheat one bushel to the acre.

BAD SMASH

Last night about 12.30 the large engine which operates the T. H. Taylor flour mills in this city, broke down while running at a high rate of speed. The two-inch steel piston rod snapped owing to the presence of a flir and before the machinery could be stopped considerable damage was done.

It is particularly unfortunate that the accident occurs at this time when wheat is beginning to come in. To add to the embarrassment the firm has a large number of orders to fill on a falling market. It will be fully a month before repairs are effected.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand knows this to be a fact. For sale by all druggists.

WERE ORDERLY

Chief of Police Holmes remarked this morning that there was very little rowdiness in connection with the emancipation day celebration held in Chatham Tuesday. The crowd was quite orderly all day and the policemen were not called upon to make any arrests. As far as the drinking was concerned, there were five white men drunk to every one drunken colored man.

At the Police Court yesterday morning Matthew Donnelly was fined \$1 and costs, \$5 in all, for being drunk and disorderly. Chas. Sheffield was also up on the same charge but as he had no money he was confined in the cells.

A WARNING TO MOTHERS.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipient stage and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

A Day In Bed.

To spend a day in bed when one is not ill seems at first mention rather a waste of time, yet there is profit in it for a tired woman. The majority of women, who must study economy very closely, cannot make a change of climate at will. For them the rest must be secured at home. Every one knows that the sequence of a brief illness is often a great gain in strength. This is because the patient has had the rest afforded by staying for a short period in bed. Just one day every week or every fortnight thus passed by a tired woman, who is only tired, not really ill, will prove very profitable to her. Try it. Let yourself be waited on and a little missed downstairs.

The Northway Ltd. Co., The Busy Cash Store, The Northway Co., Ltd.

HAVE YOU Visited Our August... CLEAN Sale?

Hundreds of women of thrift and shrewdness are coming, bargain intent, to this store, and are ever most pleased and gratified at the results. This sale event is more of a social function than any occasion we know of. So much good will—happy smiles and pleasant nods are observed all over this helpful store amid the crowds of people, characterizes this as different from any of our other sales.

It's different in more ways than one—assortments are larger, goods are better, and prices are lots lower.

Come, if you haven't been here; if you have we are sure you will come again.

WORLD OF SPORT

BOWLING

Two or three rinks are being picked to compete in Bothwell and Thamesville.

BASEBALL

The Tammy Healers play in Tilbury to-day. In the previous game, played on the park here, they defeated Tilbury 15-5.

ORIOKET

The Chatham team is playing in Detroit to-day against the eleven of that place. The members of the Chatham team are Aitken, Kenny, Dennis, Brundage, F. Richardson, Pritchard, Taylor, Miller, Sullivan, Northwood, Anderson, Lindsay and T. Richardson.

In order to boom cricket and develop players to feed the senior eleven it is proposed to organize at least three elevens among the younger players in the city. These players will represent North Chatham, South Chatham and over the Creek respectively. There is plenty of splendid material among these boys and, if properly developed, they will make good cricketers. Only in this way can the game be kept up.

J. W. Aitken will donate a cup for competition among the teams and thus intensify the excitement. Practices are being indulged in both before and after supper without the net so that the boys may become proficient in fielding.

Word has been received from Secretary Hall of the Toronto Association that a team representing the Western Cricket Association, which was formed recently in Pittsburgh, will be supplied with at least three days cricket some time during the summer. The association includes the Chatham, Pittsburgh, Cleveland, Detroit and Chicago teams. It is likely that Chatham will have three or four representatives on the team.

Ask for Minard's and take no other.

THE MARKETS.

Wheat Higher at Liverpool, Lower at Chicago—Live Stock Markets—The Latest Quotations.

Tuesday Evening, Aug. 1.
Liverpool wheat futures closed to-day 3/4 higher than yesterday and corn futures 3/4 lower.

At Chicago Sept. wheat closed 1/2 lower than yesterday; Sept. corn 1/2 lower and Sept. oats 1/2 higher.

TORONTO PRODUCE MARKET.

Wheat, white, bush \$1.00 to \$1.05
Wheat, red, bush 0 95
Wheat, spring, bush 0 90
Wheat, goose, bush 0 75
Barley, bush 0 40
Oats, bush 0 45
Beans, bush 0 90
Rye, bush 0 75
Peas, bush 0 75
Buckwheat, bush 0 50

CATTLE MARKETS.

Cables Steady—U. S. Cattle Markets Are Barely Steady.

London, Aug. 1.—Cattle are quoted at 10c to 11 1/2c per lb.; refrigerator beef, 8 1/2c per lb.; sheep, 13c to 14c per lb.

TORONTO LIVE STOCK.

Receipts of live stock at the city market were 65 car loads, composed of 708 cattle, 773 hogs, 1745 sheep and lambs and 100 calves.

Prices for exporters ranged from \$4.25 to \$4.50 and one extra choice, well finished load, sold by Crawford & Munro, brought \$4.75, which was the highest quotation given. The bulk of sales were from \$4.40 to \$4.60 per cwt.

The best loads sold at \$4 to \$4.30 and one or two picked lots brought \$4.50. Medium lots sold at \$3.75 to \$4; common at \$3.25 to \$3.50; inferior at \$2.50 to \$3 per cwt.

Stockers and Feeders. There was little doing in feeders and stockers. One lot of 14 feeders, 1050 lbs. each, sold at \$3.50 per cwt.

About 20 milk cows and springers sold at \$25 to \$45 each.

Veal Calves. About 100 veal calves sold at \$8.50 to \$9 per cwt.

Sheep and Lambs. Export ewes sold at \$4 to \$4.15 per cwt.; bucks at \$3 to \$3.25 per cwt.; lambs at \$4.50 to \$4.75 per cwt.

Hogs. Mr. Harris quotes selects at \$6.25 per cwt. and lights and fats at \$6.00, with market firm.

The man who sings well gives most of his attention to the women in an audience.

PASSED MANY A SLEEPLESS NIGHT

Will He Used Dodd's Dyspepsia Tablets—They Set H. S. Barnes Right On His Feet.

Hot weather and indigestion travel hand in hand, each helping to make the other more disagreeable. For when the stomach lags in its work the body grows weak, and weakened bodies cannot stand inconveniences of any kind.

The remedy is to help the stomach and the help the stomach needs is contained in Dodd's Dyspepsia Tablets. Those who have used them will tell you that. H. S. Barnes, of Rat Portage, has used them and he says:

"I was a victim of Dyspepsia and reading of Dodd's Dyspepsia Tablets led me to try them. The effect was marvellous. They set me right on my feet after having spent many a sleepless night suffering from a disordered condition of the stomach." Dodd's Dyspepsia Tablets cure all stomach ailments. One or two Tablets taken after a hearty meal is an insurance policy against discomfort of any kind.

Many men get an idea they know a great deal through women's flattery.

TOWNSHIP COUNCILS

RALEIGH COUNCIL.

The above Council met, pursuant to adjournment, in the Town Hall, on the 31st of July, with all members present.

Minutes of last meeting were read and adopted.

Communication from Co. Clerk, that county rate for 1905 is \$4.4, 635.70, the same as 1904.

From Edw. Randall, that he had paid Alex. Baird, C. E., \$7.25 for inspection of the Martin drain.

From Lewis & Richards, solicitors for Perry Dolsen, objecting to the township draining part of the 4th Con. road into his tile drain.

From Geo. T. Crow, complaining that Mr. Thomas, who is operating the free ferry, will not allow him to take 3-ton loads of coal across on the ferry.

From Clerk of Tilbury East, a copy of resolution appointing A. McDowell to act with an engineer appointed by Raleigh to report on the improvement of the Town Line, north of Jeannette's Creek.

Moved by Sykes and Wellwood, that J. W. Shackleton, C. E., be appointed to act with A. McDowell, C. E., to examine the Town Line, north of Jeannette's Creek, and to examine the Dauphin and Pike Drainage Works, and report, with plans, specifications and estimates of whatever works are necessary for the improvement of the road and for the better maintenance of the Drainage Works, and to allow each municipality compensation for work already done, and to make an assessment upon all lands and roads liable therefor.—Carried.

A petition was received from John Pepper to extend the Wright drain along the south side of the 15th Con. road to lot 12.

Referred to J. W. Shackleton, C. E., to examine and report.

A petition was received from D. and S. Orr, to repair the Hooper King drain.

Referred to J. W. Shackleton, C. E., to examine and report on from lot 12 to the Drake road.

A petition was received from John Houston and other ratepayers on the Graham drain, to place a dam in the 11th Con. road ditch in front of lot 8, to prevent the waters from the lot 75 acres of lot 8 flowing into the Graham drain.

Messrs. F. Sutor and J. Houston waited on the Council and asked for a grant to the West Kent Agricultural Society.

Moved by Irwin and Sykes, that the W. K. Agr. Society be granted \$50.—Carried.

A. Broadbent informed the Council that the Pere Marquette Ry. Co. had a small pipe on the ground ready to place in the Wright drain, and that the pipe was not of sufficient size to carry the water.

Moved by Sykes and Irwin, that the Clerk notify the P. M. Ry. Co. that the Council objects to the placing of a small pipe under their road-bed in the Wright drain, and request that an opening of sufficient size to allow the free passage of water be constructed by the company.—Carried.

R. D. Payne waited on the Council in reference to the opening up of La-robe street to the 6th Con. road, petitioned for in May, 1904, by 75 ratepayers, and asked that steps be taken to have the road opened, that the city was willing to procure one-half of road from the Robertson-of-Inches estate.

Moved by Sykes and Wellwood, that the Reeve and Mr. Irwin be a committee to wait on the owners of the Fairbanks property and report on what arrangements could be made with them.

The Reeve reported that he had submitted the treasurer's bond to J. G. Kerr, who informed him that the same was useless and that he instructed Mr. Kerr to draw a new bond and enter the lands of the treasurer and T. B. Harvey in the same. The Reeve submitted the new bond and the treasurer expressed his willingness to execute the same.

Moved by Wellwood and Sykes, that the resolution of Feb. 6th in reference to the treasurer's salary be rescinded and the said treasurer be paid \$325 per year.—Carried.

James Wellwood reported that he had built the bridge at the corner of the 13th concession and Drake road for \$60.61 and charged same to the Larabee drain.

W. J. Shreeve reported that he had repaired the bridge for John Kearns for \$107.74, and the one crossing the Drake road for \$84.01, and charged to Government Drain No. 2; and bridge over the tap to the Phipps drain for \$47.75.

The Reeve reported that he had paid the costs of Wilson & Co. re: Bailey vs. Raleigh, \$173.74, and the costs re: Houghson vs. Raleigh, \$260.

Edward Dillon reported that he had omitted to report in 1904 allowing Wm. Larabee two years roadwork for levelling the grade on the 14th concession road.

Moved by Sykes and Wellwood, that the Clerk notify the commissioner of the Lewis drain to have said drain completed at once, and to report on the Millar, Puce and Waddick drain.

Moved by Wellwood and Shreeve, that whereas complaint has been made to this Council that the tile culvert in the Wright drain at the 15th concession was not put down to the proper depth, be it resolved that the matter be referred to the commissioner of Division No. 5 to have said culvert lowered at the earliest convenience.

Moved by Sykes and Wellwood, that whereas Alexander Baird, C. E., has been appointed engineer under the D. & W. C. Act, the Clerk be instructed to notify W. G. McGeorge of the same.

Moved by Irwin and Sykes, that the following parties be paid for sheep killed by dogs, viz.: A. Broadbent, two sheep and one lamb killed, \$13.33; James Millar, one sheep and one lamb killed, \$7.33; Edgar Lark, three sheep killed, \$12.50; Wellwood, three sheep and one lamb killed and three sheep and three lambs damaged, \$32.33; Walter Bennett, one sheep and two lambs killed and one sheep injured, \$14.66.

It is just a common cold, people say, there's no danger in that. Admitting their statement, then there are uncommon colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

At the first symptoms the careful person will heed the warning by taking a mild laxative; some vegetable pill that will not disturb the system or cause griping. About the best is "Dr. Pierce's Pleasant Pellets." If the cold starts with a cough, and it persists then some local treatment for the throat should be taken. A well known extract, which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of only the extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated and poisoned blood.

It contains no alcohol to shiver up the blood corpuscles, but makes pure rich red blood.

Dr. Pierce's two-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 31 one-cent stamps to pay cost of customs and mailing only. For 50 stamps the cloth-bound volume will be sent. 1008 pages. It was formerly sold for \$1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Moved by Irwin and Shreeve, that the treasurer's half yearly report be adopted.—Carried.

Moved by Wellwood and Irwin, that the complaint of Geo. T. Crow re: ferry be referred to Mr. Shreeve to investigate and report.—Carried.

Moved by Wellwood and Irwin, that the Clerk advertise for applications for collector of rates to be in by next meeting.—Carried.

Moved by Irwin and Sykes, that the commissioner of Division No. 5 be instructed to build a bridge over the Shadd drain for Henry Parson and the Clerk notify Alex. Parson to return the money received for same.—Carried.

Moved by Sykes and Shreeve, that the Clerk notify James Ross that this Council has received a petition to place a dam in the 11th concession ditch at the line between the west 25 acres and the east 75 acres of lot 8, but if he will agree to pay the assessment to the Graham drain placed on him by the Court of Revision then no action be taken, but if he refuses to pay said assessment then steps will be taken to have the dam constructed.—Carried.

The report of J. W. Shackleton, C. E., for the proposed extension of the Bradley drain was laid over.

Moved by Wellwood and Irwin, that the Court of Revision on the Merin sidewalk be held on Aug. 28 at 10 a. m., and the Clerk serve a copy of the assessment, etc., on each owner in accordance with section 671 of the Municipal Act.—Carried.

J. W. Shackleton submitted his reports for the repair of the Slaggs and the Crow drains, which will be considered at next meeting.

Council adjourned.
A. E. ROBINSON,
Clerk.

JAPANESE WHALERS.

The Curious Way They Do Their Work With Nets and Knives.

Whales are captured in nets by the Japanese. The whalers put off from the shore as quietly as possible, and when they come within the proper distance of their objective the boats, which have hitherto worked in couples, separate and, dropping their nets as they go, work around to the rear and flanks of their expected kill. The nets are made in large squares, each side being about forty feet long. One net is composed of six squares in line, and the squares are fastened to each other lightly. When all is ready the boats which have been worked around to the rear of the whale then commence to drive him gently toward the nets. Moving along lazily at first, the whale soon realizes that something untoward is happening and, hurrying forward, dashes on to one of the nets. This is the critical moment, and when the fishermen see that the whale is well in the center of one of the squares they raise a great shout and charge in upon him.

When the whale is about spent a man chosen for his strength, activity, pluck, coolness and general fitness for his work then leaps upon his back and with a great triangular shaped knife proceeds to cut two great gashes in his body just back of his head. Through the underlying blubber and these two gashes he passes a rope and, knotting it, makes a loop of it. He then repeats the same operation as far back on his body as he can. When the tight has been completely knocked out of the whale, boats range alongside of him, and by the help of the loops already mentioned the hapless cetacean is slung between them in such a manner as to minimize the danger of his carcass sinking.

Then the boats form in procession, and, making for the shore, there commences the most curious part of the whole affair. The whalers, with real fervor and in the most solemn manner possible, begin a chanting prayer for the ease of the departing spirit by calling out "Joraku! Joraku! Joraku!" in low, deep tones. Upon the third day after the kill a memorial service is held in the village temple, and prayers are offered for the repose of the dead whale's soul.

POINTED PARAGRAPHS.

How many men work too hard? How many do you know?

Every good husband is henpecked. That's all there is to it.

Classical music is like some people—very hard to understand.

It is said that a farmer gets the best work out of a farm hand who is aspiring to be his son-in-law.

Perhaps one reason why a poor man lives longer than a rich one is that the doctors don't take so much interest in him.

When an economical man suffers a ten dollar loss he cuts out expenditures reaching to \$50 before he feels right about it.

If you have faults the idea is not to humiliate yourself by acknowledging them to your enemies, but to get over them if possible for your own good.

Leaping Treason.

King William III. of England was passionately fond of the chase and made it a point never to be outdone in any leap, however perilous. A Mr. Cherry, who was devoted to the exiled family, took advantage of this to plan the most pardonable design which was ever formed against a king's life. He regularly joined the royal hounds, put himself foremost and took the most desperate leaps in the hope that William might break his neck in following him. One day, however, he accomplished one so imminently dangerous that the king when he came to the spot shook his head and drew back. It is said that Mr. Cherry at length broke his own neck and thereby relieved the king from further hazard.

Rossini's Jealousy.

Rossini was intolerably jealous of all his musical contemporaries and particularly of Meyerbeer. In 1836 he heard "The Huguenots," and on listening to the performance from the beginning to the end he made up his mind that Meyerbeer had excelled him and determined to write no more. He lived until 1868, but produced nothing for the lyric stage. His thirty-two years of retirement were spent in the pleasures of a voluptuary. He was particularly fond of good eating and drinking and assembled about him the youngest and gayest society he could attract to his house.

A Roumanian Custom.

A strange custom is still observed in Roumania which reminds one strongly of Robinson Crusoe. When a servant has displeased his or her master the offender takes his boots in his hands and places them before the bed-room door of his master. It is a sign of great submission, and the boots are either kicked away as an intimation that the fault will not be forgiven or else the servant is told to place them on his feet, which shows that he is forgiven.

Inherited.

Settlement Worker—What a well behaved little boy he is! The Burglar's Wife—And he comes by it natural, mum. His poor father never failed to have a sentence reduced owing to good behavior.

Shattered Ideal.

"Paw, what does it mean where it says here that the girl's ideal was shattered?"

"Why, it means she found that she could marry a wealthier man."—Detroit Tribune.

Better Than Ever

and Still the Best

"SALADA"

Ceylon Tea is the original sealed lead packet tea of America. It has many imitations but no equals. Black, Mixed or Green.

25c, 30c, 40c, 50c, 60c. By all Grocers. Highest award St. Louis, 1904.

For the Nerves.

Mere stroking, used in varying degrees of swiftness and pressure, is very soothing to an excited nervous system. The gentler and slower the stroke the more marked is its sedative action. In some way not quite clear it promotes mental peace and nerve rest. Soft fingers, ungloved, are the best implements, and no adjunct of any kind is needed. The stroking may be confined to the forehead, the head or may engage the entire body. A sympathetic mind will communicate itself to the touch. Try this for nervous headache and hysteria.

PURGATIVES ARE DANGEROUS.

They gripe, cause burning pains and make the constipated condition even worse. Physicians say the ideal laxative is Dr. Hamilton's Pills of Man-drake and Butternut; they are exceedingly mild, composed only of health-giving vegetable extracts. Dr. Hamilton's Pills restore regular movement of the bowels, strengthen the stomach and purify the blood. For constipation, sick headache, biliousness and disordered digestion no medicine on earth makes such remarkable cures as Dr. Hamilton's Pills. Try a 25c. box yourself.

A Young Wife's Duties.

Perhaps there is nothing more important to a young wife or more calculated to make home happy than a proper knowledge of her duties and a due regard for household expenditure. Yet many a young girl entering upon life is wholly unqualified for her duties and has to pick up, as it were, her knowledge instead of exercising it. A thorough knowledge therefore of domestic economy is an important part of the requirements of a young girl and as much a moral obligation on her part as it is on that of a man to have that professional information and tact which enables him to provide for the wants of a wife and family.—London Observer.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, of the glands, palms of the hands, swellings, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 5 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every Method Treatment for four months and at the end of that time every disease since. My boy, three years old, is sound and healthy. I refer any person to me privately, but you can use this testimonial as you wish."

Ald. Harry Westman is spending the day in the City of the Straits.

Harry Dodson, of Montreal, is spending a couple of days with his many Chatham friends.

G. K. Atkinson returned last evening from Detroit, where he has been spending a short visit.

Miss Gertrude Somerville and Mrs. Claude Briggs left to-day on a trip up the lakes to Duluth.

Mr. and Mrs. Hodgins and daughter, Dorothy, have returned from a ten days' visit in Seaford and Goderich.

Miss Aggie Phillimore, of Erieau, is spending a couple of days in town the guest of Miss Bell, Stanley Ave.

Miss Bert Hogan left this morning on an extended visit with friends in Detroit, Cleveland and Crestline.

A delightful trip is the K. O. T. M. excursion by Pere Marquette to Port Lambton, str. O. D. Conger to Port Huron. Remember date, Civic Holiday, Aug. 14.

First Presbyterian Sunday school excursion is the only excursion to Walpole this season. Better come along.

Will Sutherland, of the Merchants' Bank staff, leaves to-day on a couple of weeks' vacation. He will take a boat trip to Duluth.

Misses Helen Thomas, Edith Holmes and Nan Battisby leave to-day for Erieau, where they will be the guests of Miss Susie Taylor.

One of the most pleasant one day outing trips is a sail along the St. Clair. Come with the Presbyterian excursionists on Tuesday, Aug. 8th.

The Rev. A. H. and Mrs. Brace, of the Park St. Baptist Church, Peterborough, are visiting their daughter and her husband, Mr. and Mrs. I. S. Black, Grey St.

Miss Muriel Fraser, who has been the guest of Miss Helen Thomas for the past two weeks, returned home to-day. Miss Fraser has been a very popular girl during her visit in Chatham.

On Civic Holiday, Monday, August 14th, 1900, the steamer City of Chatham will make her regular round trip from Chatham to Detroit and return, at the reduced rate of 50c, for adults, children half price, for that day only. John Rorke, Master.

B. W. Reddick, P. H. G., of Detroit, returns home to-day after a three weeks' vacation. Mr. Reddick and his mother, Mrs. Reddick, of this city, have just returned from a trip through Kingston, Belleville and the Thousand Islands.

Work is progressing very favorably on the new Defiance Iron Works building. The structure for the roof of the power house and the crane is being put into place. This crane will move an eight ton casting from one end of the factory to the other.

On Wednesday morning very early the dwelling house on the lake shore near Cedar Springs, occupied by Mr. J. Follard, was burned to the ground. It is thought the fire was caused by an explosion of a lamp. The house and all its contents were completely destroyed.

Dennis Lambe, a farmer up the Creek, appeared in the Police Court charged with fighting on William street a few nights ago. He pleaded guilty but claimed that he had provoked for everything he did. The case was adjourned until next week.

Over two hours at Port Lambton Monday night.

WILL PROSECUTE

J. E. Thomas, who, a couple of days ago, was run down on King St. by a reckless driver, has signified his intention of prosecuting the men who were directly responsible for the accident.

The affair has caused considerable comment on the street and it is the general opinion that there is too much recklessness and carelessness exhibited by horsemen on the public highways of the city. This action on the part of Mr. Thomas is welcomed and commended by citizens generally, as it may serve as an example to others.

Mr. Thomas is still confined to his home as a result of injuries received, but his many friends hope to see him around again in the course of a few days.

BASE DROWN IN TUB.

Children Saw Little One's Feet Protruding and Discovers Body—Mother Was From Home.

Cornwall, Aug. 3.—A fatality took place here yesterday afternoon when the little fifteen-months-old daughter of F. Fountain was drowned in a tub of water. The mother was away and the little tot, playing around the yard, fell into a tub of water alongside the well. Little girls passing on the street saw the child's clothes and feet sticking up and pulled her out. An effort was made to resuscitate the child, but without avail.

Both Legs Mangled.
Yarker, Aug. 3.—Augustus Montgomery, a section hand on the B. of Q. Railway, was struck by the train coming in the yard here from Napanee about 5 o'clock last evening. Both legs and one hand were fearfully mangled. He was taken to Kingston Hospital by special train.

Body Found at Manotick.
Ottawa, Aug. 3.—The body of W. A. Bangs, clerk in the city postoffice here, was discovered yesterday morning at Manotick, where he was drowned Tuesday evening. Bangs was 45 years of age and unmarried.

Tourists Drive Over Precipice.
Cody, Wyo., Aug. 3.—Word has just been received here that a driver with a six-horse coach, loaded with tourists, drove over a precipice in Yellowstone Park, killing three passengers and injuring seven.

Floods Cause Death.
Milan, Aug. 3.—Disastrous floods are ravaging the Aosta valley and 12 persons have been drowned.

DARK AGES' METHODS.

Horrible Tale From Chicago—Labor Sluggers Torture a Man in Their Prison For Three Weeks.

Chicago, Aug. 3.—Evidence came to light yesterday showing that the professional labor sluggers maintain a victims' hospital, where men are kept prisoners and subjected to the most terrible tortures. The grand jury, which just adjourned, had a strong hint of the existence of such a place where the victims were maimed and sometimes killed, but out of the mutterings and half crazed cries for mercy of William H. Wilder, express messenger and veteran of the Spanish war, there is found clear clues to this modern inquisition and torture chamber.

Knocked down on the street by three men, chloroformed and dragged up three flights of stairs to a darkened room, where he was stripped naked, Wilder was kept for three weeks. Every day and night his tormentors would visit him, prick him with brandy, burn his feet with matches and his mouth with acid, force open his throat until he was unconscious, until when he was finally flung out upon the street, he was a mental and physical wreck.

His feet and arms bear the terrible marks where the drawn ropes cut into his flesh. His tongue is one solid blister, seared by acid and red hot irons, while over his body are burns inflicted by lighted candles. Yesterday his condition was extremely critical, and he will probably die without being able to throw any further light upon his case, denounced by the authorities as the most outrageous since the dark ages.

Wilder, who is claim agent for the Johnson Express Co., had incurred the bitter enmity of the unions because of his fearless attitude.

By courtesy of the management of Hotel Sanita, the Citizens' Band will give a concert this evening at eight p. m. on the piazza of Hotel Sanita under the direction of H. C. Philip.

March, "Horse Marines," Allen.
Scene, Arabic, "Under the Palm Trees," Haack.

Waltz, "Poetica," Tobani.

A SWELL WEDDING

Means rich and handsome gifts for the bride presents, and handsome table silver is among the most acceptable as well as the most useful of anything that can be offered. My fine array of flat and hollowware, gold silver spoons, knives, forks, ladies, tea sets, as well as many other odd pieces, also an exceptional fine line of cut glass, which will pay you to call and inspect before purchasing elsewhere.

The Leading Jeweler and Optician.

DULMAGE TELLS HIS OWN STORY

Serious Aspect of Wheatley Whitecapping Affair Revealed in County Court

Witnesses Who Have Weak Eyesight—Mr. Lewis Offering Vigorous Defence.

The preliminary investigation of the Wheatley whitecapping affair—so far as it has proceeded—goes to corroborate the first and most serious story which was given to the public. Dulmage, who is a tall, slight man of rather prepossessing appearance, under the solicitation of Crown Attorney Smith, told an apparently straight story of the attack upon him and stuck to it throughout a vigorous cross-examination by Mr. Lewis. That the man was seized and soused and then whipped by four or five masked individuals and in the presence of quite a gathering seems established, but the Crown is apparently going to have some difficulty in getting at the guilty parties. Witnesses were woefully blind and seem totally unable to locate the identity of those who assisted in what the Crown Attorney sarcastically designated "the Dulmage celebration."

The case opened before Judge Houston in County Court at 11.30 this morning. Crown Attorney Smith prosecuting and O. L. Lewis defending the accused.

The information charges that Wm. J. Martin, Wm. Tremblay (constable), James McDonald, Wm. Mills, Ewart Gibson, Wm. Curtis and Oscar Lounsbury did assemble with intent to do bodily harm to one Thomas Dulmage and conducted themselves in such a manner as to disturb the peace tumultuously.

The defendants had all pleaded not guilty.

Evidence given that on the night in question about ten o'clock he was jumped on by a number of men who carried him over behind the blacksmith's shop and gave him "a good ducking." They first threw two or three pails of water over him, then tied a rope round his chest and lowered him into the well. By seizing the side of the well he was prevented from going in head first. They pulled him up and let him down three times. He was then hauled out and the men went at him with several whips and he was struck all over the body 50 or 60 times. He sought to protect his face, but it was struck too. After they got him down behind the blacksmith's shop and gave him "a good ducking," they first threw two or three pails of water over him, then tied a rope round his chest and lowered him into the well. By seizing the side of the well he was prevented from going in head first. They pulled him up and let him down three times. He was then hauled out and the men went at him with several whips and he was struck all over the body 50 or 60 times. He sought to protect his face, but it was struck too. After they got him down behind the blacksmith's shop and gave him "a good ducking," they first threw two or three pails of water over him, then tied a rope round his chest and lowered him into the well. By seizing the side of the well he was prevented from going in head first. They pulled him up and let him down three times. Port Lambton, the beautiful, Monday night.

Smoke Quail on Toast Cigars—5c. Clear Havana filled.

Thomas E. Roden, of Blenheim, was in the city yesterday.

Lots of good ten cent Cigars, but only one best—the Lord Lake.

Mr. and Mrs. Isaac E. Simpson, of Merlin, were visitors in the city yesterday.

Mrs. D. S. Paterson and son, Murray have returned from a visit to St. Thomas.

The Oxford Gas Stove for finish and design it has no equal. Drew & McCallum.

D. Weber, of Bates' cigar store, has returned from a two weeks' trip to several American cities.

Mrs. A. R. Coltart and Mrs. I. L. Nicol are at the Bau, the guests of Mrs. Manson Campbell.

Mrs. A. McGarvey and two sons, Harold and Charles, are the guests of Mrs. Nelson, Stanley avenue.

D. McAlpine, Robt. Fox and John Garvey, of London, are spending a few days in this district on business.

Reserve Aug. 22nd for your holiday to Detroit, and join the members of the I. O. F. on their annual excursion.

Mrs. Turnbull, of Petrolia, is the guest of her grandmother, Mrs. White, Elgin street. — St. Thomas Times.

Only a limited number of scholars will be on board on August 8th. Every comfort will be provided. No over crowding. Come and enjoy the sail.

Mr. and Mrs. W. H. Taylor desire to express their deep appreciation to their many friends and neighbors for their sympathy and kindness in their late bereavement.

No fat man's race at Walpole on August 8th, but the St. Paul's church Sunday school football club will compete with the First Presbyterian boys for a silver cup.

The Sons of England excursion to Niagara Falls August 14th is without a doubt the most interesting that leaves Chatham, in fact you have three days of sight-seeing never to be forgotten. Take it in. You will be delighted. Civic Holiday.

The Non-Coms. and Bugle Band of the 24th Regiment will give an excursion to Port Lambton on Monday evening, August 7. The train will leave Chatham at 7.30, fare 50 cents; Dresden at 8 o'clock, Tupperville 8.10, and Wallaceburg at 8.20, giving over two hours at the Port. Music for dancing will be provided.

The most delightful trip of the season—the First Presbyterian Sunday school excursion to Walpole on Tuesday, August 8th.

TO OPEN FAIR

The directors of the West Kent Agricultural Society are making a strong effort to secure the services of Hon. Nelson Monteith, Ontario's Minister of Agriculture, to open the Peninsular Fair. Secretary Robinson is now in communication with him and is fully expected that arrangements will be made for his coming. The fair will be held on Sept. 26, 27 and 28 this year.

KAISER'S CANDIDATE.

Charles of Denmark For Norway's Throne, Otherwise Republic. Copenhagen, Aug. 3.—Since his arrival at the Danish court, Emperor William appears to have become convinced that there is no hope of a Prince of the house of Bernadotte becoming King of Norway. His Majesty now favors Prince Charles of Denmark, and he is quoted as saying: "If Prince Charles does not become King, Norway will become a republic. Of course I prefer a Monarchy and therefore shall hereafter support the candidacy of Prince Charles."

King Christian and some of the Danish Princes lunched with Emperor William on the Hohenzollern yesterday.

New Swedish Cabinet Formed. Stockholm, Sweden, Aug. 3.—A coalition Ministry was formed yesterday with Herr Lundberg as Premier. He was largely responsible for the conditions framed by the special committee of the Riksdag for the dissolution of the union, and King Oscar selected him for the Premiership.

His Majesty considered it desirable that the influence, which dominated the work of the committee should prevail during the negotiations for the carrying out of its program.

JUST RIPE

The holiday season is just ripe—a new Outing Suit will help to make yours more pleasant.

All our Summer Suitings at greatly reduced prices. Come and see and be convinced.

MORLEY & CO.

Mill ends of Embroidery and Insertion, sample 4 1/2 yd. lengths, per yd. from—3 to 10c

THESE OPPORTUNITIES IF NEGLECTED ARE LOST

WILLIAM GORDON

MILD TYPE

Light Outbreak of Small Pox Reported in Chatham Tp., Near Dresden.

It appears that there is an outbreak of small-pox in Chatham township, near Dresden. The authorities are extremely reticent concerning the matter, so that very little light can be obtained on the subject.

Dr. Charteris, accompanied by Dr. F. W. Hall, visited the town in question yesterday morning and discovered ten or eleven cases, which were immediately quarantined.

After a searching investigation it was decided that the cases are of a very mild type.

Strikers Attack Workers.

Montreal, Aug. 3.—A lively fracas occurred at the Grosvenor Flats, now building on Sherbrooke street, yesterday morning in connection with the carpenters' strike. A large number of strikers assembled around the building and attacked the non-union men going to work. A lively fight ensued, but was soon ended. The police had been expecting trouble, and a strong detachment was on hand, which immediately charged the strikers with drawn batons. A number of broken heads and bruises resulted, but after a lively struggle all strikers except two avoided arrest. Further trouble is expected, especially as the bricklayers refuse to work if the building is kept under police guard.

Britain's Big Bills.

London, Aug. 3.—According to a Parliamentary return issued, Great Britain grants \$540,000 in annuities to the Royal family and pensions for judicial services to the amount of \$245,000, the total of which is \$785,000 more than the pensions paid for naval, military, political and civil services together. The sum of \$305,000 is spent on the maintenance of Royal palaces, \$510,000 on Royal parks and \$145,000 on the secret service. Broadmead Asylum, for criminal lunatics, cost \$170,000 yearly; the Irish Constabulary \$6,620,000; the British Museum \$445,000, and the National Gallery \$82,500.

Unskilled Increase of Pay.

London, Aug. 3.—Fifty employees of the Grand Trunk car shops have been informed that they may expect an increase in wages when their July pay is due. To many of the men the increase comes unasked and is unexpected. It is understood the increase was brought about through the good offices of the superintendent, Thomas Treleven. Just now the shops are being worked to full capacity with plenty of work in prospect.

Type Foundry Sues.

Montreal, Aug. 3.—The Toronto Type Foundry Co. has entered an action for \$300,000 against the Mergenthaler Co. The Toronto Co. claims that the Mergenthaler Co. illegally transferred patents and rights to the Mergenthaler Co., and that the latter, though knowing this, has used them.

Yellow Fever Cases.

New Orleans, La., Aug. 2.—The yellow fever record up to 6 p.m. is as follows: New cases, 32; total cases to date, 878; deaths to-day, 11; total deaths to date, 79; new foci, 4; total foci, 84.

BOOKBINDING.

Orders for bookbinding should be left at this office. It is surprising how nice a volume can be made of these magazines, even though they are somewhat soiled from much handling. Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day-books with any kind of ruling, made to order. All work warranted first class.

Minard's Liniment Cures Colds, etc.

O. A. C. APPOINTMENTS.

Three New Men For Professorships at Guelph Model Farm.

Guelph, Aug. 3.—The following appointments have been made at the Model Farm: Dr. J. B. Dandeno, of the Michigan Agricultural College; professor of botany; Frank Schumann, North Carolina, professor of entomology and zoology; and Dr. F. S. Edwards, professor of bacteriology.

Previously the departments of entomology, zoology and botany were combined under the direction of Prof. Loehle. Prof. Dandeno is a former Guelphite and received his earlier education at the college here. He is also a graduate of Queen's and Harvard. He has been assistant to the professor of botany at the Michigan Agricultural College.

Prof. Schumann is an American, and a graduate of Cornell. For five years he has held the office of State Entomologist for North Carolina.

Dr. Edwards has been assistant to the professor of bacteriology at the Michigan Agricultural College.

BLAMES WOMAN.

Montreal Express Clerk Arrested in New York—Stole \$4,000.

New York, Aug. 3.—Frederick W. Story, 22 years of age, of Montreal, was arrested last night by private detectives on a charge of grand larceny. He was taken to police headquarters and the police of Montreal were notified.

Story was a clerk employed by the Dominion Express Co. Between April 14 and 17 last, it is alleged, he stole \$2,000 in cash and \$2,000 in cheques. He left suddenly on July 16, it is alleged, arriving in New York the next day.

Story is said to have been traced through a woman with whom he was friendly.

The police say he admitted the theft, exonerating anyone else from blame.

WEDDING STATIONERY

H. MACAULAY - Sole Agent
CHATHAM

They Have Finished.
Ryer—Country people haven't the
Sake of city people.
Ryer—And yet they have been done
officer.

A Sure Way.
If you would have a thing well done,
As Franklin would declare,
There's one sure way, and only one:
Tell cook you like it rare.

Rapid.
"His yacht is quite fast, isn't it?"
"Very fast. You ought to see how
it is going through his money."

Those Tomcats.
"Each dog has his day."
Is a proverb of our time.
So we add, if we may,
Each cat has his night!

In Sweeter Summer.
"Well, the Lord made the weather."
"Yes, but the devil set a match to
it."

Properly Seasoned.
It made the young recruit hot;
No wonder he was flustered.
The foeman peppered him with shot
Right after he was mustered.

Minard's Liniment Cures Distemper

One of Her Caprices.
The Fiancee—You are so capricious.
The Fiancee—That is what my
friends said when they heard of our
engagement.

Beet Too Far.
Now listen to my sad lament;
With this no foolish joke.
When I go off on pleasure bent
I always come back broke.

Not an Epilogue.
"Do you like caviare?"
"No. It tastes to me a great deal
like the Russian language sounds."

Not So Fastidious.
My appetite is poor and proud—
With food it can't agree.
Yet I would rather eat a shark
Than have a shark eat me.

Pretty Fierce.
"I never knew buildings could see."
"Didn't, eh? Well, did you ever hear
of a building without a site?"

The Telling of It.
"The proudest moment of my life,"
He said it was. We doubt it.
His proudest moments are the ones
In which he tells about it.

At the Court of Rex

By FANNIE REASLIP LEA

Copyright, 1905, by Fannie Reaslip Lea

"I am lost!" said the pretty maiden with a quality tragic air.
She stood back against the window of a big department store on Canal street and scanned the surging crowd before her. It was Mardi Gras day in New Orleans, and the pretty maiden had been in town only three hours, two of which had been spent in a hotel.
"I have lost my mother," she said again as if to impress the fact upon herself—"and my father"—then she added as an afterthought, "and my purse."

In the street the people crowded each other for more room, and there was a constant stream of maskers, gay domineers with tinkling bells and snapping whips, and the pretty maiden watched them from the entrance to the department store, and her ideas quite lost their balance and toppled over into the mad whirl of carnival.
"I'm glad I'm lost," she said to herself, "they'll know I was separated from them by the crowd and they'll be fearful they'll find me, but after awhile they'll find me, and meantime I feel as if something were going to happen—a wild adventure perhaps. Oh, I love carnival. I'm glad I came."

A drum throbbed subtly in the distance, the crowd surged to the edge of the banquet, then surged back again with easy laughter, for no parade appeared.
"Ah," said some one at the pretty maiden's elbow. "I beg your pardon, but I thought I was never going to find you. The crowd is so thick."
The pretty maiden stared. A young man, clean shaven and eminently prepossessing, was regarding her, hat in hand.

"I'm afraid you don't remember me," he suggested, a trifle crestfallen. "Isn't this Miss Preston?"
The pretty maiden's eyes widened. To herself she cried, "The adventure!" but aloud she said coolly:
"I'm afraid the advantage is yours."
"I'm sorry," he answered stiffly. "But please don't think me an impatient stranger. My cousin wrote me to meet you here, you and your sister. She asked me to show you around for the parade. I—my name is Robert Randolph, he finished awkwardly.

The pretty maiden hesitated a bare moment, but the carnival spirit was strong within her, and the trick that in her natural environment would have been impossible unfolded itself like magic in this atmosphere.
The moment was a bare one—then—"Oh," she said, with the friendliest smile imaginable, "you are Bobby Randolph?"

"Of course," he agreed cheerfully. "It's been a great while since we saw each other, but still—"
"So it has," said the pretty maiden cunningly. "Let me see, just how long exactly?"

"Just ten years," said Mr. Randolph; "ten years, three months, seven days, two hours and, I think, twenty-seven minutes."

"Dear me," she murmured breathlessly.
"And, by the way, where's your sister? Didn't she come?"
"My sister? said the pretty maiden, quite astonished. "My sister? Oh—yes, of course she came. But she had a fearful headache, and she decided to stay at the hotel, and I hate to miss the parade, you see."

"Of course. Too bad she won't see it," said Mr. Randolph regretfully. "The trip was so long and tiresome," said the pretty maiden incautiously.

"Two hours' long! I like that. Why, it's only forty-eight miles between here and Pass Christian."

"Distance," said the pretty maiden sentimentally, "is not a matter of miles—with me, at least," she added prudently.

"Well, we can have a jolly time by ourselves, anyhow," Mr. Randolph assured her.

The pretty maiden hesitated—that is, she would have hesitated, but Mr. Randolph's cheerful confidence left her no room to do so.

They walked on rather slowly, for the crowd was dense, and Mr. Randolph's shoulders acted as a buffer more than once.

"We'll have time to go and get some hot chocolate here to get some here," he calculated cheerfully. "Look out there, will you?" This last to a line of college boys who were going through the crowd like an animated wedge.

The pretty maiden laughed deliciously.
"You looked so angry," she explained between gasps, then stopped suddenly because a small red devil, with battered mask, aimed a shower of confetti at her laughing face.

There was a blare of trumpets down the street and the long roll of a drum. A wave of excitement submerged the people. Randolph and his shoulders and elbows with a skill that bespoke long experience on the football field, and the pretty maiden found herself in the front of the crowd. Mounted policemen paced slowly past her, a band shrilling forth "If Ever I Cease to Love," and then Rex and his cohorts.

The pretty maiden dimpled and blushed from sheer delight at the gorgeous spectacle, and the capering maskers on the fantastic floats repaid her interest. One threw her a great fragrant bunch of violets, which she clasped with both hands like an excited child; another tossed an armful of brass; a third a box of French sweets, until young Randolph was hugely proud of her. Then, when the last silver tower and shim-

Free Gifts of Toilet Soaps

A gift is of little value if it consists of something you have no use for.

In exchange for **Sunlight Soap Coupons** you can get something you need and use every day.

LEVER BROTHERS LIMITED, TORONTO, CANADA.

mering veil had melted down the street, he swung her into the crowd again, her cheeks pink with excitement and the great purple violets nestling in the turs under her pretty chin.
"Now let's have that chocolate," said Mr. Randolph. They found a corner in a pretty tea room, and he dispatched a waiter for their order, while the room filled steadily.

"Do you know," he said, "you've changed somehow?"
The pretty maiden came back with a start to the fact that Mr. Randolph was not a lifelong friend.

"Have I?" she asked safely.
"Yes," he repeated, "somehow you've changed. You always were pretty, you know, and I always was your abject slave, but now—"

"I've changed?" asked the pretty maiden mournfully.
"You're so—so much more so," he explained lucidly.

"You remember," asked Mr. Randolph presently, "how we used to love each other when you were ten and I was fourteen?"

"We didn't," she said, with a start.
"Oh, nonsense! You cried your eyes out when I left for school. And you said you'd marry me when you grew up—and when we said goodbye—you kissed me."

"I did nothing of the sort," cried the pretty maiden, very pink and furious.
"You've forgotten," said Mr. Randolph. "There's no reason why you should be ashamed of it. A childish affection is the most sincere—and you certainly were fond of me," he finished tamely.

"I've changed very much," said the pretty maiden, thoughtfully selecting a macaroon from the plate of cakes.
"I'm sorry," said Mr. Randolph simply, "because you're even nicer than you used to be."

"I want to tell you something," she said. "I'm not Miss Preston—I never saw you before. I'm here for the carnival, and I lost my people in the crowd this morning; and then you came—and I know it was horrid of me."

"Well," said Mr. Randolph stiffly. "Well, it was just a lark," she pleaded defiantly, "and won't you please go—now—hurry, please." The pretty maiden had seen her mother and father across the room.

"If you wish it, of course," said Mr. Randolph with most unreasoning dignity.
"I think you better," she said, and fairly pushed him away, and in a moment she turned to her father and mother with indignation in her eye.

"Well, you lost me," she said with hypocritical anger, "for two whole hours, and I'm nearly starved."
The pretty maiden and her parents dined with friends that night, and the pretty maiden went in to dinner with Mr. Randolph, to her unbounded surprise. Mr. Randolph looked a similar feeling. Then they both laughed.

"The world isn't so large after all," she said.
"My world," said Mr. Randolph, "comes only just up to my shoulder."

A Malay Water Slide.
In Perak, a state in the Straits Settlements, the Malays have one form of amusement which is probably not to be enjoyed anywhere else in the wide world.

There is a huge granite slope in the course of a mountain river, down which the water trickles about two inches deep, the main stream having carved out a bed by the side of the bowlder. This rock, the face of which has been rendered as smooth as glass by the constant flow of water during hundreds of years, the Malays—men, women and children—have turned into a toboggan. Climbing to the top of the rock, they sit in the shallow water with their feet straight out and a hand on each side for steering and then slide down the sixty feet into a pool of water.

This is a favorite sport on sunny mornings, as many as 200 folks being engaged at a time and sliding so quickly one after another or forming rows of two, four or even eight persons that they tumble into the pool a confused mass of screaming creatures. There is little danger in the game, and, though some choose to sit on a piece of plantain, most of the tobogganers are content to squat on their haunches.

Love's Queer Ways.
Mme. Myrion Harry, the Parisian novelist, who traveled about the world a good deal, described what evidences of affection are prized by men and women in different countries. In Jerusalem she once met a young Arab woman who had not a tooth left in her head. Mme. Harry's native servant said: "Lucky woman! Her husband knocked all her teeth out. He does love her!" In Cochinchina Mme. Harry was told that there a husband was not believed to love his wife properly until he had made a present to her of a coffin. In Galicia, among the sect of Masochists, a man values his wife's affection by the degree of suffering which she causes him to endure. Mme. Harry there once heard a betrothed youth say to his affianced bride, "If you really loved me you would consent to blind me and flop me with this whip." At Stockholm a woman sued her husband for divorce on the ground that he did not love her soulfully.

Eat Slowly.
The propriety of eating slowly ought always to be remembered. Mr. Gladstone's thirty-two bites are historical. Napoleon was a terribly fast eater, and this habit is supposed to have paralyzed him on two of the most critical occasions of his life, the battles of Leipzig and Borodino, which he might have converted into decisive and influential victories by pushing his advantages as he was wont. On each of these occasions he was known to have been suffering from indigestion.—*London Standard.*

He Will Cure You First Then You Pay Him

The physician, who has not sufficient confidence in his own ability to cure his patients first and receive his pay after-

ward, is not the man to inspire confidence in those who are in search of honest treatment.

Dr. Goldberg's acceptance of a case for treatment is equivalent to a cure, because he never accepts incurable cases. He is satisfied to receive the money for the cure he expects to give his patients, and he expects to give his patients a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. All patients for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. Address him simply, Dr. S. Goldberg, 206 Woodward Ave., Suite 511, Detroit, Michigan.

Panama Works Suspended.

New York, Aug. 2.—The executive committee of the Isthmian Canal Commission have decided to suspend any attempt at digging the canal until better prepared for the work. The present sanitation will be replaced by vigorous reforms.

Sir Ambrose Shea Dead.

London, Aug. 2.—Sir Ambrose Shea, Speaker of the Legislative Assembly of Newfoundland, 1855 to 1861, and Governor of the Bahama Islands from 1867 to 1894, is dead. He was born in 1818.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Walding, Kinnear & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free.

Price 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

New Indian Agent.

Winnipeg, Aug. 2.—Neil McDougall, Commissioner of Colonization Roads, will be the new Indian agent at Port Arthur succeeding the late L. U. Beaulieu.

Fever Suspects Released.

New York, Aug. 2.—All but two of the yellow fever suspects were released yesterday.

YOU ARE AILING.

Not quite sick—but robbed of ambition to work—find it hard to think of doing, but bad enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious, but Ferrozone makes you feel good; it sharpens the dulled appetite, makes it keen as a razor.

BLOOD? Ferrozone makes lots of it, the rich nourishing kind that vitalizes the whole body. You'll be wonderfully quickened, immensely strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve energy—all come from this great restorative. Fifty cents buys a box of fifty tablets at all dealers.

Three Years For Stealing.

London, Aug. 2.—At the police court yesterday morning, Chas. Prosser was sentenced to three years in the penitentiary for stealing bond wire from the Springfield line of the street railway. Prosser has already received three years for a similar offence.

Mrs. John Tukey, wife of Conductor Tukey of the street railway, committed suicide yesterday morning by drinking carbolic acid.

THROW MEDICINES TO THE DOGS.

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctors would call it bronchitis, asthma or catarrh. The common root of these diseases is germ or microbial irritation. Catarrh is not only destroys disease germs, it does more, it heals disease and inflamed tissue. The disease is not only cured, but its return is forever prevented by using Catarrhine, which is splendid also for colds, coughs and irritable throat. Remember, you inhale Catarrhine—Nature's own cure—use no other but Catarrhine—it's the best catarrh cure made.

Borbon Baskets.

Baskets of drawn sugar make an exceedingly dainty ornament, with darning edges and a long handle. They are woven from strands of variegated color or they are entirely of satiny white strands, with perhaps a ribbon of plaid or blue sugar fastened at the top. These baskets are employed to hold bonbons or petit fours, no other receptacles appearing on the table. A hostess tells the caterer the color scheme for her dining room, and he furnishes the sugar decorations in accordance.

I bought a horse with a supposedly incurable ringbone for \$30. Cured him with \$1.00 worth of MINARD'S LINIMENT and sold him in four months for \$85.00. Profit on Liniment, \$54.00.

MOISE DEROSIE, Hotel Keeper.

St. Philippe, Que., Nov. 1, 1901.

A sudden fit of anger may have an influence in many directions.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant.

It is easy to reform a bad habit when the effort really is honest.

Minard's Liniment for sale Everywhere.

FOR YOUNG FOLKS

SINGING FLAMES.

Two Little Experiments That Are Curious and Interesting.

Did you ever hear of "singing" flames? Here are two little experiments showing how sensitive a flame may be to sharp sounds and how it may be made to "sing."

Nail together two blocks of wood, A and D, as shown in the picture, and at the top of A fasten a piece of wire, B, with a ring about five inches in diameter at its other end. Over this ring place a piece of wire gauze, C.

Get a piece of glass tubing about a quarter of an inch in its outside diameter and have a jet made at one end, as

shown in the cut. It can then be fastened to the block of wood, B, with a little wax so that its tip is about two inches under the gauze. To the other end of the glass tubing fasten a piece of rubber tubing and connect it with a gas jet.

Turn on the gas and light it above the wire gauze, and it should burn there with a thin conical flame about four inches long. Let it burn a moment steadily, and then if you suddenly make a hissing sound the flame is so sensitive that it will shrink at once to a small blue flame.

Again let it burn up quietly and then suddenly whistle or clap your hands or jingle some coins or make a rattling noise. Again the flame will shrink, and it will act in the same way at any sudden loud noise.

Now get a glass tube, T, if possible, twelve inches long and an inch and a quarter in diameter, but any size will do from seven inches to two feet in length and from three-quarters of an inch to an inch and a half in diameter.

Rest the tube lightly on the gauze, covering the flame with it. If now you will lift the gauze and the tube from the ring and raise them very carefully the flame will shorten and then suddenly begin to "sing." Now lower the gauze and tube to just the point where the flame ceases to sing, and it will be so sensitive that the slightest high, sharp sound will set it to singing, but it will cease the moment the sound stops.

The flame responds very quickly, as you may prove by saying a word like "secede" or "sensitive." The flame will sing twice in each case—in the first word for the hissing of the s and c, in the second for each s.

Make these experiments. They are very curious and interesting.

Name of Castle King.

Choose your king by some counting out rhyme. Then he must stand on a high place and shout defiance to his foes. He taunts them with abusive epithets as:

I'm the king of the castle; Get down, you cowardly rascal!

He is then assailed by the other players, every one a claimant for his position of eminence, and alone he must try to maintain it.

Fair pulls and pushes are allowed, but the clothes must not be pulled under penalty of being set aside as a prisoner of war, which really means expulsion from the game.

Sometimes the king is permitted to have an ally, who merely stands by, to see fair play and to capture any one breaking the rules.

The odds against the king, beset by so many enemies, are so great that he does not long retain his position, and the one who dethrones him takes his place and possession of the "castle."

Conundrums.

Why should a housekeeper never put the letter M into her refrigerator? Answer—Because it would change ice into mice.

How many soft boiled eggs could a giant eat on an empty stomach? Answer—One, for after that his stomach wouldn't be empty.

Which would you rather, that a lion ate you or a tiger? Answer—Why, you would rather that the lion ate the tiger, of course.

Your Doll's Head.

If the new head of the doll is filled with cotton before being attached to the body the eyes will not fill in, and the danger of breakage from falls will be reduced.

Good Hints.

Here is a hint for every girl. Who hopes to be a belle: Don't let your tongue too loudly ring and learn to chime in well.

Small boys who think that some fine day they will be rich and wise. Must read their book and must not spend their cents for cakes and pies.

ASK YOUR GROCER

—FOR—

RED FEATHER TEA.

Heliotrope Satchet.

Heliotrope satchet is one of the best that is made, and it imparts a delicious fragrance to clothing. Make it thus: Mix well together and pass through a coarse sieve half a pound oforris root, a quarter of a pound of ground rose leaves, two ounces of powdered tonquin beans, half a grain of musk and two drops of essence of almonds.

Patting food into diseased stomach is like putting money into a pocket with holes. The money is lost. All its value goes for nothing. When the stomach is diseased, with the allied organs of digestion and nutrition, the food which is put into it is largely lost. The nutriment is not extracted from it. The body is weak and the blood impoverished.

The pocket can be mended. The stomach can be cured. That sterling medicine for the stomach and blood, Dr. Pierce's Golden Medical Discovery, acts with peculiar promptness and power on the organs of digestion and nutrition. It is a positive cure for almost all disorders of these organs, and cures also such diseases of the heart, blood, liver and other organs, as have their cause in a weak or diseased condition of the stomach.

Peeled.

A regiment of soldiers was drawn up for church parade in the barracks square, but the church was being repaired and could only hold half of them.

"Sergeant-major," shouted the colonel, "tell all the men who don't want to go to church to fall out on the reverse flank."

Of course a large number quickly and gladly availed themselves of the privilege.

"Now, sergeant-major," said the colonel, "dismiss all the men who did not fall out and march the others to church; they need it most."—London Standard.

STRAINED BACK AND SIDE.

"While working in a saw mill," writes O. E. Kenney, from Ottawa, "I strained my back and side so severely I had to go to bed. Every movement caused me torture. I tried different oils and liniments, but was not helped. I used Nerviline. Even the first application gave considerable relief. In three days I was at work again. Other men in the mill use Nerviline with tremendous benefit, too." An honest record of nearly fifty years has established the value of Polson's Nerviline.

Why?

Why do we always talk of putting on our coats and vests when we always put on first our vest and then our coat?

Why do we refer to the coverings of our feet as shoes and stockings when the stockings are first put on?

Why do we invite people to wipe their feet when we mean their shoes?

Why, in the olden times, did a father tell his son he would warm his jacket when every one knew he meant his pantaloons?

GRAND TRUNK RAILWAY SYSTEM.

Second bowler personally conducted excursion to California and Lewis Clark Exposition, Portland, Oregon, August 29th to September 24th, 1905. \$150.00 including transportation, meals in dining car, sleeping car accommodation on train and at hotels for above period.

As party will be limited to 125 early reservation is necessary.

For full particulars call on Grand Trunk agents or address E. C. Bowler, room 308 Union Station, Toronto.

THE FAST TRAINS

To California are run over the Union Pacific, via Omaha, 16 hours quicker to San Francisco than any other line. No change of roads, no detours. "The Overland Route" all the way. Be sure your ticket reads over the Union Pacific. Inquire of H. F. Carter, T. P. A., 14 James Building, Toronto, Canada, or F. B. Choate, G. A., 126 Woodward avenue, Detroit.

PACIFIC COAST EXCURSIONS.

During June, July, August and September the Chicago and North Western Railway will sell from Chicago round trip excursion tickets to San Francisco, Los Angeles, Portland, Ore., (Lewis & Clark Exposition), Seattle, Victoria and Vancouver at very low rates. Correspondingly cheap rates from all points in Canada. Choice of routes, best of train service, favorable stopovers and liberal return limits. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King Street, Toronto, Ont.

CANADA

A Premium in every Package

FLAKES

JINGLES AND JOIGS.

Love's Messengers.

My love and I have messengers. Though we are far apart. Which every evening comfort bring Each lonely, waiting heart.

The moon and stars do act for us In messages like this: "Thy love is true," each moonbeam says.

And every star's a kiss. —Beatrice Sturges in New York Press.

In Hard Luck.

The Judge—Have you anything to offer the court before sentence is passed on you?

The Prisoner—Your honor. I had \$13, but my lawyer appropriated it.

A Tip.

Every boy should reflect that he has only four limbs, two eyes and one life; that July 4 comes every year and lasts about three weeks, and govern himself accordingly.

One Omission.

We've magazines that tell us "What to Eat," "What to Wear," "What to Buy," "What to Drink," "What to Do," and it is any wonder 'mid such literary plunder People never really know just "What to Think?"

Not Well Acquainted With Him.

"Who's that man I see here mornings, ma?"

"That's your father."

"How long has he been my father?"

Idle at 74, Takes His Life.

London, Aug. 3.—Because he was out of work and despondent, William Ironsides, aged 74, last night committed suicide at his home on King street.

For years he had been in the employ of the city as inspector of sewers, but recently had nothing to do. He worried over it and the end came. He leaves two daughters and one son, the latter being ex-assistant city engineer.

THE FAST TRAINS

To California are run over the Union Pacific, via Omaha, 16 hours quicker to San Francisco than any other line. No change of roads, no detours, "The Overland Route" all the way. Be sure your ticket reads over the Union Pacific. Inquire of H. P. Carter, E. P. A., 14 James Building, Toronto, Canada, or F. B. Choate, G. A., 126 Woodward avenue, Detroit.

LONGS TO BE FRIENDS

Witte, Russian Peace Envoy, Praises Brave Fee.

Before, However, Russia Can Proceed to Formal Negotiations With Japan for Peace, the Terms Offered Must First Be Ascertained, Weighed and Judged Admissible—Denies Canada Sent by Wireless From His Ship.

New York, Aug. 3.—Sergius Witte the Russian peace plenipotentiary on his arrival here yesterday afternoon, emphatically denied having said that Japan's peace terms were intolerable, as reported by wireless from the Kaiser Wilhelm Der Grosse. He also denied positively that he had predicted that the conference would break up in a week.

When the Kaiser Wilhelm Der Grosse arrived at the pier M. Witte handed to Prof. De Maartens, the following statement, which Prof. De Maartens read aloud:

"For the friendly greetings of the American newspapers upon my first

visit to the hospital shores of the United States I offer my heartfelt thanks. This kind attention touches me all the more profoundly because I realize the vastness of the power wielded by the press of the United States and admire the keen intelligence with which it is uniformly directed. I am glad to be able to add that I also appreciate the ethical worth of the aims for the attainment of which that power is so often so successfully employed. One of the noblest of these aims is the establishment of peace and friendship among nations and it is to the praiseworthy efforts of the people of the United States in this direction that my visit to the new world is attributable. For it is in compliance with the American people's desire for peace, of which President Roosevelt is the authorized exponent, that His Majesty the Czar has empowered me to come hither and ascertain the conditions which our gallant adversary deems necessary and adequate as a basis for peace negotiations.

Longs To Be Friends.

"I need hardly point out that it is my ardent desire, that the two chivalrous, who first became acquainted on the field of battle, may now be found in each other's sterling qualities motives powerful enough to cultivate that acquaintance until it ripens into lasting friendship. Meanwhile, however, the terms offered must first be ascertained, weighed and judged admissible by Russia before she can proceed to formal negotiations. Hitherto, as you are aware, it was customary in cases like this to settle all such preliminary before the meeting of the plenipotentiaries, whose task it was to come to a final agreement on the matters under discussion. Now, the very fact that His Majesty the Czar consented to take a course involving departure from this ancient diplomatic usage and to appoint a mission to learn the nature of our brave enemy's terms is an eloquent token of the friendly feeling which he and his subjects cherish towards the people of the United States, who may consider this as a mark of honor and a mark of honor because at no epoch in our history have our traditional relations with this great republic been other than cordial. And now I would like to say, yes, and to prove to your people who live less in the past than in the future, that it is the fervent wish of the Emperor and the people of Russia further to strengthen the ties of friendship which have hitherto subsisted between the two nations.

Proof of Friendship.

"It is in virtue of that sincere desire that His Majesty the Czar, among all other considerations, has unhesitatingly accepted the cordial invitation of your first citizen and genial leader. And if my mission should prove in all other respects barren and the endeavor to find a common basis for peace negotiations should fail for the time being, the signal proof of friendship given by His Majesty the Czar and the Russian nation would still stand out as a memorable event fraught, I trust with far reaching and beneficent results to the two great peoples of the West and East."

Russians Unable to Retreat.

Seoul, Aug. 3.—The heaviest rains in thirty years have occurred and the Tumen river is flooded. The Russians, who have been holding semi-permanent work south of the river, have been cut off from Vladivostok and are unable to retreat.

Customs Collector Skipped.

Montreal, Aug. 3.—Customs authorities here confirm the report of the flight of the sub-collector of customs, Parre, at Drummondville, who left with some \$1,100 of Government money. He was gone a week before suspicion was aroused. The Government is fully protected, as Parre was guaranteed by the British American Guarantee Co.

Deserted Captured.

Brookville, Aug. 3.—Thomson, a deserter from the Engineer Corps, Stanley Barracks, Toronto, was arrested here yesterday at the request of the officer commanding. Thomson skipped Tuesday night and was found at his home here.

Job For Brockville Man.

Brookville, Aug. 3.—Robert Laidlaw of The Brockville Recorder staff and a newspaper man well-known throughout the Province for the last 25 years, has been appointed a position in the railways department, Ottawa. He will enter upon his new duties about September 1. Mr. Laidlaw comes originally from Guelph, and has done newspaper work in Winnipeg, Guelph, Woodstock and Brockville.

The Telegraphers Strike.

Helena, Mont., Aug. 3.—Despatches from Montana points indicate that the telegraphers on the Northern Pacific and Great Northern. The men claim the walkout is absolutely perfect. Train No. 6 known as the Burlington Flyer, was tied up as a result of the telegraphers strike Tuesday night.

Section Man Run Over.

Kingston, Aug. 3.—Gus Montgomery, section man at Yarker, was struck by the rear end of a Bay of Quinte train last evening and terribly injured. His left foot, his right hand and his left toes were taken off. He was brought to Kingston by a special train and taken to the General Hospital.

Snap For Quebec Lawyer.

Quebec, Aug. 3.—On Saturday next the bar of the Province of Quebec will meet in this city to elect a chief compiler of judicial reports for the Province. The position represents a revenue of \$5,000 a year.

Charged With Arson.

Stoughton, N. W. T., Aug. 3.—Duncan McNabb is under arrest here, charged with arson. On Saturday, it is alleged, he set fire to the Stoughton Hotel, in which he had an interest, and which was damaged to the extent of \$300.

Misplaced Sympathy.

Quebec, Aug. 3.—The first lashing of Goldsberry, the Lemon circus employee, is scheduled for Friday. A movement is on foot in some quarters, however, to have this part of the sentence cancelled.

Premier as Earl's Guest.

Quebec, Aug. 3.—Sir Wilfrid Laurier will be the guest of the Governor-General while in the city next week.

REFORM IS IMPERATIVE

Commissioners at Peterhof Freely Discuss Situation.

Trepoff and Others Who Favor Russian Reforms Say Firm Measures Against Agitators Must Be Maintained While Instituting Them—Czar Listens to Five Hours of the Freest and Frankest Discussion He Ever Heard.

St. Petersburg, Aug. 3.—There was no session Tuesday of the commission, which has under consideration the national assembly scheme. Emperor Nicholas presided at the second meeting, which was held yesterday afternoon.

At the first meeting on Tuesday the Imperial Palace at Peterhof was the battle ground of the contending forces, in the matter of reform. For five hours, taking advantage of the Emperor's request, there was the freest and frankest discussion of the situation and the needs of Russia.

Almost a score of the members of the conference took an active part in the discussion. Boulligne, Minister of the Interior, and Gen. Trepoff, assistant Minister of the Interior, were among the leading advocates of immediate reform and the convocation of the representatives of the people, while under the banner of the old order, M. Pobiedonosteff, procurator general of the Holy Synod, faithful to the traditions of a lifetime, had arranged Count Lamsdorf, Minister of Foreign Affairs, and others, who insisted that the present, with the war abroad, and the disorders at home, was no time to summon a popular assembly or institute sweeping changes in the Government of the Empire.

Reformers Lead.

The partisans of reform were in the majority, including, besides the leaders already mentioned, many members of the Council of State.

The feature of the meeting is said to have been a sensational speech delivered by Count Ignatieff, who had been sent by the Emperor to investigate the situation in the south after the mutiny on the battleship, the Potemkin, and who declared plainly that the condition there made immediate and extensive reforms imperative. At the same time, he declared, order must be preserved and the agitators kept within bounds, with a firm hand.

Firmness Needed.

Gen. Trepoff, Minister Boulligne and Count Solesy, also emphasized the necessity of adopting firm measures while instituting reforms. Other progressiveists dwelt more upon the necessity of the immediate convocation of the people.

When the speechmaking was finally ended and the attitude of the council manifested, conversation of the Boulligne proposition was taken up, and this discussion was continued at yesterday's meeting at Peterhof.

Will Soon Locate To G. T. P.

Telegraphing Railway Commissioners So Announce From Montreal.

Montreal, Aug. 3.—The Telegraphing Railway Commission sat here yesterday, the chairman, C. B. Smith, and D. Murphy, ex-M. P. P., being present.

At the conclusion of the meeting the statement was made to the effect that the line would soon be located to its proposed junction with the Grand Trunk Pacific, a distance of 275 miles.

The finest possible timber land has been found, as well as an extensive clay bed. The engineering difficulties will not be insuperable.

By next year 200 miles of track will have been completed, about 113 miles being now operated by the commission.

The statement was also made that the traffic in the completed section had exceeded the most optimistic calculations of the commissioners and that the tourist travel had also been very large.

Job For Brockville Man.

Brookville, Aug. 3.—Robert Laidlaw of The Brockville Recorder staff and a newspaper man well-known throughout the Province for the last 25 years, has been appointed a position in the railways department, Ottawa. He will enter upon his new duties about September 1. Mr. Laidlaw comes originally from Guelph, and has done newspaper work in Winnipeg, Guelph, Woodstock and Brockville.

THE CHAIRMAN SUCCUMBED

Continued from Page 1.

Coming of the King.

Translations of Homers, Iliad and Odyssey—Pope.

EDITH M. BARASSIN, Librarian.

The matter of steam heating then came up for discussion. All of the members of the Board were in favor of signing a contract with the new steam heating company providing a reasonable bargain can be made.

Mr. Lilley was to have been present to submit an estimate to the Board but he did not come and so the matter was laid over.

After the salaries had been ordered paid and the treasurer instructed to draw on the City Treasurer for \$113.53, the Board adjourned.

THE "ALL RED" CABLE.

Press Co-operation Big Aid in the Aims of the Empire.

London, Aug. 3.—(C. A. P.)—The Morning Post, referring to the "All Red" cable system, says a mutual understanding is the basis of successful co-operation amongst the partner nations of the Empire. It can only exist through the agency of the press. Take for example the crisis of 1899. Australians and Canadians felt themselves unable to form an independent judgment of the situation in South Africa because their press failed to supply them with adequate information. This deficiency was the result of prohibitive cable rates not only from England to the Colonies but from South Africa to Canada and Australia.

Again at the time when efforts were being made to bring questions of Imperial commerce and defence into the sphere of practical politics it was important that the utterances of prominent statesmen and the Parliamentary debates in London, Ottawa and Melbourne should be adequately reported by cable in the daily press throughout the Empire. In connection with the fiscal controversy, protagonists in each of the three countries may be heard complaining that their speeches are misrepresented in the summaries cable abroad. If so the error probably arises mainly from the necessity for condensation.

Review, says that he contemplates the reduction of the cable rate to Australia from three shillings to tenpence per word, and even then that it will be possible financially for a State-owned cable to transmit its press messages up to a certain limit free of charge.

Lithographers Go Out.

Toronto, Aug. 3.—Members of the Lithographic Transferrers and Lithographic Printers' Unions have decided to strike for union recognition in the shops here and went out yesterday. The Employers' Association has determined to fight and expect a large staff of English workmen to take strikers' places ere long. The lithographers have no other stated grievance.

Captain May Be Released.

New York, Aug. 3.—The Herald prints a special cable from Montevideo, via Galveston, Texas: The Montevidean and Times asserts there is no truth in the report of diplomatic intervention regarding the barque Agnes G. Donahoe and adds that the sentence condemning the captain and crew to three years' imprisonment for seal poaching will probably be revoked by the High Court of Justice.

Intercolonial Superintendent Dead.

Halifax, N. S., Aug. 3.—J. T. Price, superintendent of the Intercolonial, died at his residence, Moncton, yesterday. Mr. Price had been confined to bed for some time past.

Two Hours of Fire Worship.

The illuminations of the two towns were the most beautiful spectacle of the celebration. A veritable wall of fire extended from the lower part of the Michigan Soo up along the international bridge to the Canadian canal and pulp mills. The outlines of the pulp mills and Canadian canal offices were very much with lights and resembled very much the illuminations of a big city. There was also the added beauty of thousands of yards of bunting and flags. At 10 o'clock and lasting until after midnight displays of fireworks were given from both banks of the rapids. The displays included about a hundred parts, showing numerous figures of all kinds and involving an expenditure of about \$4,000.

Vice-President Ill.

Vice-President Fairbanks was seized with an acute attack of indigestion at the reception last night and had to be assisted from the stand in the park. He walked to the Inverloch Hotel and repaired to his room immediately. To all callers he sent word he would be unable to see anyone until morning.

Section Man Run Over.

Kingston, Aug. 3.—Gus Montgomery, section man at Yarker, was struck by the rear end of a Bay of Quinte train last evening and terribly injured. His left foot, his right hand and his left toes were taken off. He was brought to Kingston by a special train and taken to the General Hospital.
