

Universal Vacuum Bottles

We have just received a large shipment of Vacuum Bottles for keeping liquids hot or cold.

Hot liquids can be kept boiling hot for 24 hours or cold liquids can be kept ice cold 72 hours.

Universal Vacuum Bottles represent a standard of excellence never before offered to the public.

Selection of material, careful workmanship, attention to details all are evident in this bottle.

Universal Bottles of all types are more than ordinarily sanitary, durable and useful. Simplicity of construction is a feature and Fillers are easily removed for cleaning and in case of breakage are replaced at a small expense.

1 pint size, black enamel case, nickel plated shoulder and cap \$2.00

1 pint size, full nickel finish \$2.50

1 quart size, full nickel finish \$3.50

Extra-Fillers, 1 pint size, \$1.25 - 1 quart size \$2.00

See our window display for different styles and finishes.

KENTVILLE

House to Rent - At Canning, Apply to C. Spinney, Canning, N. S.

Mr. George Freeman of Middleton was in town on Friday. Miss Hattie Cahill of St. John has been appointed housekeeper at the Provincial Sanatorium.

Mayor Pelton and Mr. Archibald Foster were in Halifax last week participating in the Good Roads Convention.

Mrs. W. S. Woodworth was in Halifax on Friday.

Mr. Goodwin left recently for Wilmot to supply the station there for Mr. Kelley for a while.

Messrs. H. H. Wickwire, K. C., J. E. Kinsman, M. P. P.'s, for Kings, and J. F. Outhit, K. C., returned from Halifax Saturday to remain over Sunday.

Mr. A. L. Davidson, M. P., was in Kentville on Saturday on probate business.

Prof. Blair was in Lawrence-town last week attending the Short Course and giving addresses.

Mr. and Mrs. John E. Burns of Medford were in town on Saturday visiting their daughter Miss Burns of Lamont and Steadman's firm and called at Advertiser Office. They have an auction on Friday, notice of which will be seen in our columns.

Mrs. Ellard Cunningham and her niece Miss Aggie Gordon came to Kentville from Tremont last week. Miss Gordon has entered the Sanatorium for treatment for a few weeks.

St. James' Church Workers intend holding an "Oyster Supper" in the Teddy Restaurant, kindly provided by Mr. W. E. Sarginson, on Thursday, March 1st, in aid of the Red Cross Fund.

There was a great change in temperature on Friday. In the morning it was 14 degrees below zero and before midnight the glass had advanced considerable above the freezing point.

Don't forget the Oyster Supper at Teddy's Restaurant, Main St., from 5 to 10:30 p. m., Thursday, March 1st. Supper 30 cts.

It is proposed to gather up all parcels of waste paper throughout the town, and sell them in aid of the "Red Cross Fund." Citizens please save their papers. In many towns this is the work of the Boy Scouts.

Mrs. J. D. Warren of Morden was here for a short time a week ago.

Mrs. Lawrence Baird has had rapid recovery from her recent illness and is now able to drive out some.

Mr. Wallace Kelley was a visitor with his aunt Mrs. Charles Dorey at Morden a week ago.

Master Gordon Gates, son of Mr. J. I. Gates met with a most painful accident last Thursday. He was thrown from a sled and sustained a fracture and break on one arm above the wrist. He has suffered very much from it.

NOTICE

The subscribers offers for sale the lot of land and building thereon, on the north side of Webster Street in Kentville at present occupied by The Telephone Co. and Ernest Dodge with tenant house in rear. Tenders for same will be received up to April 15th, 1917, at noon. The highest, lowest or any tender not necessarily accepted.

BARCLAY WEBSTER, Agent

In the Hall, North Alton, next Sunday 3 o'clock, weather permitting, Rev. P. Pollitt, will conduct divine worship. All heartily invited.

Coal for the D. A. R.

The steamer Corunna arrived from Sydney at Yarmouth last

Thursday morning with 1100 tons of coal for the Dominion Atlantic Railway. The work of discharging commenced at once and the cargo was being

Only One Woman Jailer

Although prisons are to be found in every corner of the globe it is a remarkable fact that there is only one official woman-jailer. Her name is Jenny Porchet and she lives in Switzerland. She is governor and warded in the prison of Aigle, in the Rhone valley.

A good many years ago she married the chief warden of the prison, and soon proved to be a helpmate indeed, for being a strongly-built woman, and with proper notions of discipline, she made as good a jailer as her husband, and more than once did his work when he was away.

When he died the authorities asked her to take his place permanently, and she accepted. All the year round the Aigle prison contains from twelve to twenty male prisoners, sentenced to terms of imprisonment ranging from three months to three years, and although the woman-jailer has no assistants she has never had any trouble with the prisoners.

Strict disciplinarian though she is, the woman-jailer has the kindest of hearts, and takes great interest in her "guests" as she calls them. Many a prisoner has been set on the straight path again by her wise and kindly advice.

Many farmers in the neighborhood of Bridgewater are advocating the building of a Flour Mill in this vicinity. They state that a mill of this sort would greatly incite the raising of larger quantities of grain. The production of grain hereabouts would lessen the imports of feeds and thus the farmer could keep his cash for his own farm labor, in place of sending it out as he now does.—Enterprise.

Mr. Wallace Rodenhiser of Northfield, has purchased 3,000 bushels potatoes for shipment to England. He paid \$1.00 per bushel and will have them shipped to Halifax by rail.—Bridgewater Enterprise.

Farming in Our Day

We've bathed the bossie's tootsies we've cleaned the rooster's ears;

We've trimmed the turkey's wattles with antiseptic shears, With talcum all the guinea hens are beautiful and bright, And Dobbin's wheath of gleaming teeth we've burnished snowy white.

With pungent sachet powder we've glorified the dog.

And when we have the leisure we'll machine the hog!

We've done all in our power to have our barn de luxe.

We've dipped the sheep in eau de rose; we've sterilized the ducks.

The little chicks are daily fed on sanitized worms.

The calves and colts are always boiled to keep them from the germs.

And thoroughly to carry out our prophylactic plan,

Next week we think we shall begin to wash the hired man.

WHAT THE EDITOR GETS

"Please send a few copies of the paper containing the obituary of my aunt. Also, publish the enclosed clipping of the marriage of my niece who lives in Lewiston. And I wish you to print in your local column if it doesn't cost anything; I have two bull calves for sale. As my subscription is out please stop the paper, as times are too hard to waste money on newspapers."

A woman in Chicago is circulating a petition for the passage of a law compelling men who smoke cigarettes to walk in the middle of the street, and the men are circulating a petition in favor of the passage of a law compelling girls whose dresses are more than six inches from the ground to walk in the middle of the street also.

Capt. James Dillon died at his home in Digby on Saturday, Feb. 10th, aged 82 years. He leaves a widow (his second wife), three sons and four daughters.

Synopses of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within one mile of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain district Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The act of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G., Deputy of the Minister of the Interior

These Records Will Remain Here

The Canadian Press gives the following data under a Halifax date line:

The German party on board the Scandinavian American lined-ship Frederick VIII held by the British authorities for examination seems to have a singular love for gramophone music. Its various members had laid in a very representative stock of records ranging from grand opera to rag time.

They will not be allowed to take these records to Germany as the authorities regard them as contraband. The Germans contend that they want the records for the music in them, but the Immigration official who discovered them think that perhaps they like them quite as much for the rubber from which they are partly manufactured and which is badly needed in Germany just now. The records will also be run off to see whether they contain messages. The officials think it possible that some noted singer in the United States might give a touching description in German of the movements of Allied warships to a setting of Aida music.

"The records will be confiscated and a receipt given for them so that if their German owners have the same passion for this kind of music at home they can repurchase them, though it is likely they will have to wait until the end of the war.

The search of the passengers continues. Yesterday one man was made unhappy by the vigilance of the officials. They suspected that his coat containing something besides the lining, a tailor was brought from shore and he took out the lining. It is understood that a package of documents were found. They will be examined to see if they contain matters of interest.

The sailing of the ship is expected for the week-end.

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of their not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

C. O. COOK & SONS, Waterville

Canada and the Beef Problem

WITH the price of beef and other meats soaring to hitherto unheard-of heights, and every newspaper carrying stories about the future prices of boots and shoes and other articles made of leather, there may be a modicum of comfort to be taken from the fact that the farmers and ranchers of Western Canada are now turning their attention to cattle and stock raising to an extent that would not have been believed possible a few years ago.

The modern farmer is very wide awake, and especially those of the three prairie provinces of Canada, and naturally as soon as he saw the prices of livestock soaring on the large world markets he began to pay more attention to stock raising, gradually finding as he did so that by combining it with the grain production he was able to make two profits where he hitherto had one.

According to the figures given in the Census and Statistics Bulletin issued by the Department of Trade and Commerce at Ottawa, all three of the western provinces show large increases in the number of livestock raised in 1916, as compared with 1913, the year previous to the war. Although there had been a slight gradual increase in the years immediately preceding 1913, all classes of livestock except swine show greater percentages of increase in the years after the commencement of the war than those previous. The figures for hogs show a decrease, due to the several large war orders received by some of the western packing firms from the allies. One firm alone is said to have received an order for ham and bacon that called for 250,000 head of hogs.

sheep is one of the outstanding features of the government report. The increase, approximately 30 percent, which is very gratifying. Many of the smaller farmers of the west have started small flocks of sheep, as they have found out that the climate was very suitable for them, provided a certain amount of shelter was supplied during the short periods when the weather might otherwise be too severe.

There are several large flocks in the west, and the success that the owners of these have met with has prompted the smaller farmers to start flocks. As an excellent price was obtained for wool this year, ranging as high as 36 cents a pound, and averaging ten pounds of wool per animal, the industry thus received another impetus. One sheep owner in Alberta was offered \$12.00 per head for his entire flock of 6,000 head. He refused the offer and also another of \$7.50 per head for 1,500 lambs. A short time after refusing these offers he purchased another 500 ewes.

The report estimates that there are at present 2,948,254 cattle in the three western provinces, 555,709 being milch cows and the balance beef and other cattle. This shows an increase of nearly 15 percent over 1913, and also the very large number of beef cattle that have been marketed during the past couple of years must be taken into consideration. Many large war orders were filled in Western Canada.

The Dominion and Provincial Governments and the Canadian Pacific Railway, through its Agricultural and Animal Industry Branch, have all aided the farmers in every possible way, and have published broadcast literature showing the best results that have

been obtained on the various experimental and demonstration farms. The Canadian Pacific has several of these farms throughout the West, with an expert in charge of each, and at every cattle sale these farms are represented by animals of a very high class, both for breeding, milch and beef animals. The experts in charge of these farms will at all times aid in any way they can the farmer who seeks advice with reference to the best stock to go in for and also the proper way to secure the greatest results.

As an instance of the demand for good breeding stock, eighty-one head of shorthorn cattle realized \$27,520 at a sale recently held at Calgary, Alta. The top price obtained was \$885, which was paid for a thoroughbred bull,

while the average price was \$340, and when it is known that 65 of these animals were under eighteen months old, it will be seen that they were a fine lot of animals.

While there is no prospect of an immediate reduction in the price of meat as a result of the increased interest displayed by the farmers of the west, the prairies of the Canadian West have unlimited room for the raising of all kinds of livestock, and with the farmers taking a greater interest in livestock than ever before, Canada is destined to play a large part in solving the meat problem which the world now faces, and which is likely to become still more acute at the close of the war when European countries will be buying animals to replenish their herds.

WELL WON HONORS

Lieutenant Colonel John Edwards Leckie, D. S. O., who has just been made a Companion of the Order of St. Michael and St. George, for meritorious service is well known in Nova Scotia, as manager of the iron mines at Torbrook, Annapolis County, for several years, and a frequent visitor to Halifax.

He also resided for some time at Londonderry, his father the late R. G. Leckie, having been general manager of the iron works there from 1889 to 1895.

Lieut. Col. Leckie is a graduate of the Royal Military College, Kingston, served in South Africa 1900-02, (where he won the D. S. O.) and on the outbreak of the present war was a major in the 72nd Seaforth Highlanders of Vancouver. He went to France with the first expeditionary force in 1914 as second-in-command of the 16th battalion "Canadian Scottish" and in 1915 succeeded to the command of the battalion, on the promotion of his brother to rank of brigadier general. He served with his regiment thru all the bloody fighting of the first two years of the war, and has been recently given command of a large training brigade at Shorncliffe, England.—Halifax Herald, Feb. 22.

Minard's Liniment Cures Colds, etc.

Canadian Potatoes Supreme in Cuban Market

Mr. J. C. Manzer, representing the Department of Trade and Commerce, and the New Brunswick Government in Havana, has forwarded the following facts relative to shipments of Canadian potatoes to Cuba, together with notes on lumber, codfish, sardines, hay and malt conditions.

Potatoes—The arrivals of potatoes this week at the port of Havana amounted to 21,508 sacks and barrels. The entire shipment came from New Brunswick, Canada, and it was necessary to put on an additional steamer from Boston in order to handle this large quantity. The steamer Limon arrived on Tuesday with 9,650 sacks, and the steamer Sarramacca arrived on Thursday with 11,958 sacks and barrels.

These two shipments were sold for \$136,552 c.i.f. Havana, and are the most valuable Canadian shipments of potatoes that ever arrived in Cuba in one week.

During the months, ending January 30, when shipments of 1916 crop have been coming forward, Canada has shipped to Cuba 250,000 sacks and barrels of potatoes which were sold for upwards of \$1,400,000. About 200,000 of these came to the port of Havana and the balance to other ports of the island.

Lumber—Although building material such as brick, cement, lime, sand, stone, lumber, iron, steel, and tiles have advanced in price from 30 per cent to 50 per cent within the last year, it is claimed that building operations are going forward on a larger scale than ever before in Cuba.

The demand for lumber is very great and dealers are finding great difficulty in supplying the needs of their customers at country points as lumber shipments are sometimes held up for many days on account of the freight congestion on the Cuban railways.

Codfish—Canada is supplying most of the codfish now coming to Cuba and prices are firm. The arrivals this week included 2,561 cases from Nova Scotia.

Sardines—There is a large demand in Cuba for sardines, supplies coming chiefly from Norway. Three hundred cases arrived this week from Canada.

Hay—The arrivals of hay this week from Canada were 1,202 bales from Montreal. Prices are holding firm for the better grades.

Malt—The importations this week included 470 cackages of malt from Canada.

BILL WAS CHEERFUL

Returned Soldiers With Arms and Legs Off Joke

After two returned soldiers, one with both legs off and one with a leg and an arm off were placed in the cars at St. John, he with the leg and arm off said: "Bill, are you comfortable?"

Bill—"Yes."
 "Have you got your shoes off?"
 Bill—"Yes and I am going to put my slippers on."

There's pluck and cheerfulness in adversity for you. How can men like that be defeated.

In the whole of the contributions that made over \$4,000,000 in the Montreal Patriotic and Red Cross Fund, there were no nobler nor more self-sacrificing than a day's pay, four times in the year, by thousands of Montreal's workmen and workwomen. This sum amounted to \$351,313. The great big heart of Montreal is indeed right.

Some 25 years ago the American Government brought from Greenland 1,200 reindeer to supply the needs of the Eskimo tribes of Alaska. They have now increased to 70,000 and furnish the natives with food, raiment and transportation, and in time this venison may supply meat this shortage in United States.

JAN. 9, 1917

DEPARTMENT OF FINANCE OTTAWA

The International Egg-Laying Contest

The report of the 4th International Egg-Laying Contests held at the Connecticut Experimental Station at Storrs, has just been issued. There were 1000 fowls in the contest. They ate 22 tons of dry mash, more than 21 tons of grain, and 10 tons of mangolds. They required 12 tons of straw for litter.

They consumed more than 11-4 tons of grit and shell, laid between 9 and 9-1-2 tons of eggs and produced 18 tons manure.

The value of the droppings represent a considerable item which is not usually credited to fowls. Each fowl produced approximately 36 pounds of a valuable fertilizer during the year, this being worth perhaps 20 cents per fowl.

In weight per dozen the R. I. Reds stood first with an average of 1.60 pounders per dozen. Plymouth Rocks followed with 1.59 pounds, Leghorns were next with 1.48 pounds, and Wyandottes next with 1.48 pounds.

The average value of the Wyandotte eggs was 33.33 cents per dozen, of the R. I. Red 32.34 cents, of the Plymouth Rock 31.78 cents, of White Leghorn 31.27 cents and of other breeds combined 30.85 cents. This difference in average value arises from the fact that the hens of some breeds laid more eggs in winter when eggs were high priced than did others.

The average production of all the Wyandottes in the contest was 165 eggs per hen; of all the Leghorns, 158; of all the R. I. Reds 156; of all Plymouth Rocks, 146, and of all the hens of other breeds, 126.

The average cost of keeping a Rhode Island Red during the year was \$1.99; of a Plymouth Rock, \$1.98; of a Wyandotte, \$1.78; of a Leghorn, \$1.69; and of a hen of all other breeds, \$1.65.

The profit above feed costs was for Wyandottes \$2.62 per hen; for Leghorns \$2.46; for R. I. Reds \$2.21; for Plymouth Rocks, \$1.90, and for all other breeds, \$1.59.

The most profitable pen was pen 15 White Wyandottes, which returned a profit above feed costs of \$39.25. The least profitable was pen 96 White Orpingtons, which laid eggs enough to leave a profit above feed cost of 31 cents.

WHY HE DIDN'T.

She—"Why don't you sit down?"
 He—"Why—er—the truth is your papa assaulted me last night."
 She—"Assaulted you?" He—"Yes, assaulted me. I wouldn't have minded it so much had it not been for the cowardly way he did it."
 She—"What do you mean?" He—"He kicked me when my back was turned."

The Capital of Washington has been closed to "ill victors. Cars of admission have been cancelled and no excursionists will be admitted. Extra guards watch the surrounding

Minard's Liniment Cures Coughs in Cows.

March of the Men of Harlech.

Men of Harlech! in the hollow,
 Do you hear, like rushing billow
 Wave on wave that surging follow,
 Battle's distant sound?

'Tis the tramp of Saxon footmen,
 Saxon spearmen, Saxon bowmen;
 Be thy knights, or hinds, or yeomen,
 They shall bite the ground!

Loose the folds asunder!
 Flag we conquer under!
 The placid sky now bright on high,
 Shall launch its bolts in thunder!

Onward! 'tis our country needs us;
 He is bravest, he who leads us!
 Honor's self now proudly heads us!
 Freedom! God, and Right!

Rocky steeps and passes narrow
 Flash with spear and flight of arrow,
 Who would think of death and sorrow?
 Death is Glory now.

Hurl the reeling horsemen over,
 Let the earth dead foemen cover,
 Fate of friend, of wife, of lover,
 Trembles on a blow!

Strands of life are riven,
 Blow for blow is given,
 In deadly lock or battle shock,
 And mercy shrieks to heaven!

Men of Harlech! young or hoary
 Would you win a name in story?
 Strike for home, for life, for glory!
 Freedom, God and Right.

THE COST OF LIVING

A British Board of Trade report shows that since the beginning of the war the cost of living has increased in Canada to a lesser extent than in any of the other belligerent countries. In Britain, France, Germany, Austria, where abnormal conditions, imposed by the war, exist, the increase in the price of necessities of life has been in some cases four times as great as in Canada. In Denmark, Holland, Sweden and Norway, countries not at war, the increase in the cost of living has been as great as in Canada. In the United States, whose economic and geographic conditions are almost identical with Canada's, the growth of the cost of living, notwithstanding peace conditions has more than kept pace with the upward tendency of food prices in Canada.

The truth seems to be that notwithstanding world conditions over which the statesmen of no one country can possibly exercise control, Canada has fared and is faring better in respect to food prices than most other nations. Yet cheapjack politicians continue to shriek that the Borden Government should be turned out of office because the cost of living in Canada is high.

Snakes, The Farmers' Friends.

Among the best although least appreciated friends of the farmer are the harmless snakes, such as the milk snake, the chicken snake, the garter snake, the bull snake, the blotched king-snake, the blue snake the black-snake and some others. All of them are natural enemies of rats, mice, weasles and similar animals that infest farms and village homes, especially where there is poultry or other small live stock.

In an article in the Scientific American, Dr. Robert W. Schufeldt of Washington says that it would well repay every farmer in the country to keep half a dozen harmless vermin-destroying snakes on every acre of his place. Thousands of harmless snakes are killed every year by boys, ignorant farm-hands and misinformed women, although it has been proved that rats, mice and other rodents cause enormous losses to certain crops.

Although most farmers believe that the common chicken-snake haunts their outbuildings in order to feed on their young ducks and chickens, the snake does nothing of the kind; but it does destroy great numbers of mice and other pests.

Harmless snakes are the easiest animal in the world to tame, and it is high time that the false ideas about them should be corrected. More than that, it should be taught that, like birds, they are among the best animal friends the farmer has. If we destroy them, we pave the way for destruction of our forests, our staple farm products, and a good deal else that now and always have been protected by snakes and birds.

WANTS IMMUNITY FROM SUBMARINES

(Carl W. Ackerman in New York Tribune)

Madrid, Feb. 22.—The moment he arrived in Madrid today, former Ambassador James W. Gerard went to the American Embassy and read the Washington despatches to learn whether Germany had guaranteed his passports from Corunna to New York.

While he was in Paris, Mr. Gerard cabled to the State Department at Washington to inquire through Spain whether the Embassy passports were valid only for leaving Germany or for crossing the Atlantic.

Although Mr. Gerard had no fear of the consequences should a German submarine stop the steamer Isabel, on which he is to sail, for examination, he desires that Germany, go on record that the passport of diplomats are valid even in submarine warfare, so as to avoid dispute which might arise in case the Isabel should be submitted to search.

The navy yard at Charlestown, Mass., is rushed day and night, Sundays included. No shore leave is granted to any employee. All German operators in the wireless stations have been removed and native men placed in charge.

Wolfville Patriotically Leads in Production Movement

The Wolfville Patriotic Planting Club held a meeting on Friday last, and several resolutions were passed for the purpose of getting the work for the coming summer well under way. Every effort will be made by the club members to increase the production of the products of the soil in the way of staple and common foods, both by community effort on available and vacant lots and on the smaller back yard lots by individual work. It is fully realized how much can be produced this way in any community by a few hours a week of labor devoted to so good a cause. There are a great many men, and women too, as well as young people, who will be glad to help along the good cause, by making the back yard lot produce all it can be made to do. It has been shown that by the expenditure of \$2.50 for seed and fertilizer, a lot 30x40 was made to yield \$25 worth of garden stuff. Foods are high in price, and it is within the power of everybody to increase the production of foods, with very little labor.

The town is divided into ten sections, and a full estimate made of the lots and land suitable for crops. Every advice will be given individuals as to the best way to prepare and fertilize the soil, and as to the kind of crop the soil will best produce. Some men who have more land and manure than they can use, are offering plots and teams free of charge to those who care to use them for planting and working the land. Two bands of Boy Scouts under competent leaders will compete for a prize to be given the group getting the best results from planting and working the two lots of land they will use this summer. It is the purpose of the Planting Club to call a mass meeting soon to lay the matter of increasing the food supply before the people, and to show how important it is to prepare for the summer of high prices and scarcity of food stuffs. We believe the example of Wolfville will be followed by other places in this splendid patriotic work.

SEED GRAIN IS ASSURED

Last fall owing to the large amount of rust in the west there threatened to be a serious shortage of good seed grain for this year. The situation was worse even in the United States. American buyers were invading Western Canada and the outlook was serious. The Government decided to take action and a commission was appointed to buy up seed grain. No publicity was given to the commission. Publicity would have killed the project. Working quietly and co-operating with the municipalities the commission purchased large quantities of good seed grain. Today they have stored in the Government elevators in the west a quantity which it is estimated is sufficient to meet all the requirements this spring of the Prairie Provinces. The Government advanced the money for the purchase and the grain will be sold at cost. The prompt action of the Government has meant millions of dollars to the country, for if the action had not been taken Western Canada might have been without seed or else have had poor seed for this year's crop, so vitally needed for the Empire and the Allies. This is only one example of the many ways in which the Government is acting in the public interest at the present time, publicity to which is not given.

LIBERALS WIN IN NEW BRUNSWICK

Saturday was election day in New Brunswick and the result of the polling gives the Liberals 23 and Conservatives 21 with a delayed election in Gloucester where it is quite probable that 4 more will be added to the Liberals thus defeating the Government. The soldiers vote is not likely to affect the result much, though the Liberals have five seats with less than a hundred majority.

This is a great turn over as the Liberals only had three members in the last house. The Liberal leader was defeated and also three Conservative members.

The reason of the Conservative defeat is because there has been several changes of leaders in recent years and Mr Murray the new leader was but recently appointed. Then the full force of the Liberal leaders at Ottawa from New Brunswick was used to defeat the Government while the New Brunswick Conservative leaders were too busy in conducting the affairs of the country and the conduct of the war to turn their attention to local politics. Hon Mr. Hazen being in England.

WAR NEWS IN BRIEF

Declaring that the success of the Entente cause rested on the ability to solve the tonnage problem, Premier David Lloyd George, in the British House of Commons Friday announced measures to be taken to achieve that end. The hunting down of German submarines by the navy the building of merchant ships and the cutting off of non-essential importations, he held to be the most important measures.

Everything, the British Premier declared must be sacrificed to the conservation of shipping, which had been depleted greatly because of German submarine activities and the letting of ships to Great Britain's Allies, and he announces plans for increasing the food production at home through guaranteeing of prices by the Government and the cutting down of the use of grains by breweries and distilleries.

The Premier said the Government would take means to increase shipbuilding and made public a long list of articles the importation of which would be prohibited. Coffee, cocoa, tea, raw fruits, except lemons and oranges, vegetables, hides, leather, boots and shoe leather, wines and agricultural machinery are among the articles on the prohibited list. Importation of paper, iron ore and lumber will be reduced greatly.

German submarines continue to sink Entente ships. The total tonnage sunk as reported Friday was 25,456. This includes the French steamer Athos of 12,000 tons, which was sent to the bottom in the Mediterranean, while carrying troops to France and under guard of warships. One American, Robert Allen Haden, a missionary in China, lost his life in the torpedoing of the Athos, from which 1,450 persons were saved. The thirteen vessels reported sunk were of Entente registry, except one Norwegian and several of unestablished identity.

There has been no activity of importance on the battlefields of Europe. In the Somme and Anece sectors additional small gains of ground by troops are recorded by London. The repulse of German raids in the vicinity of Armentieres also is reported. Artillery bombardments continue as usual, along the remainder of the Western front.

In Galicia the Germans and Russians have been engaged in isolated fighting at Zlochoff. Berlin records the destruction of four mine shafts and the capture of 250 prisoners. Petrograd says the attackers were driven back to their positions, after breaking through the Russian lines.

A battle for the possession of

Sannayyat, northeast of Kut-el-Amara, on the Tigris, is in progress. British troops were successful in the opening engagement, London reports, but fighting is being hampered by high water in the Tigris.

Marriage as a Foundation of Our Social Order

Mr. Layton spoke on the above subject on Sunday night in St. Pauls. Marriage is a natural necessity for the continuation of the race because of the helplessness of the child. It is of divine origin. God, who made a helpmeet for man, because it was not good for him to be alone, said to them: "Be fruitful and multiply and replenish the earth." The various marriage services used in Christian Churches show the conception of marriage held by the church. This view arose out of the teaching of Jesus and the Apostles Jesus said of married persons—"They twain shall be one flesh." The word "flesh" represents the entire man. "Marriage is therefore a unity of soul as well as of body, of sympathy, interest, and purpose." It is an inseparable union even as Christ is inseparable the Head of the Church.

We, today, are drifting away from the Christian standpoint of marriage. History teaches us that the moral principles on which Society is founded cannot be violated without injury to Society.

A review of the history of ancient Greece and of Rome showed the truth of this. Polybius, the Greek historian, was quoted to show that in his day the decline was due to the fact that "men will bring up no children, or only one or two." Herocles also bears witness to the decline in morals in ancient Rome. During the middle ages immoral conditions were widespread because of a falling away from the Christian standard.

floods our country and our news items, reveal at the present time a great and alarming laxity in morals. One does not need to travel far to find glaring violations of the moral law. Out of these evils arise murder, suicide, bigamy, the breaking up of homes, and other evils.

The remedy lies partly in the Christian manhood and womanhood. The popular literature, which

hood standing up for purity, fidelity and respect for the laws of God and of the land. If the Christian Church does not declare herself in clean and unmistakable language, we are in danger of having a corrupt social order.

Next Sunday evening Mr. Layton will speak on the making of marriage, or choosing life-partners.

The Old Cider Woman

A poor old cider woman of long ago, explained to her customers that she lost on every glass she sold, but made it up on the great number sold.

Figure it out for yourself.

Now we feel sometimes like the old cider woman

We lose on every subscription we take at a dollar a year, yet try to say to ourselves that we make it up on the large number of our subscribers. A semi weekly or a good weekly newspaper cannot be produced for \$1.00 a year. \$1.50 is the absolute minimum — and this only when the newspaper carries a goodly amount of advertising. On the Advertiser is placed the burden of losses on subscriptions. This is no secret. Yet it is not right.

And so, today, the publishers of dailies and weeklies are trying to set things right by raising the price of their papers to subscribers in order that no heavier load will be placed on the Advertiser.

We believe that you are ready in your mind to pay more for your best local newspaper. You know that in your own buying and selling, prices in scarcely anything remain "fixed" year after year, as has the price of your paper. You are paying more — very much more — for almost everything in common use. We put it to you: Is it reasonable that the old dollar rate of the country weekly remain unchanged in the light of the costs of other manufactured products?

And in confidence that you will agree that it is absolutely just to raise the subscription price of The Advertiser, we have put into effect the \$1.50 a year rate.

We are counting on you to fall in line with the necessities of the situation, and that you will agree with us when we say that three cents a week for the ADVERTISER is little enough when one figures out what it costs to produce it every week.

OUR COUNTRY FRIENDS' COUNTRY STORE

The Peerless Quartette will be one of the many attractions at the Nicklet Theatre on Wednesday evening of this week. Mr. A. B. Clarke will also render a solo entitled, "The Admiral's Broom." The picture offering will be the well known actor Dustin Farnum in "Davy Crockett." Our country friends are bringing a host of prizes, not by the pound but by the barrel, which will be given away free to holders of lucky numbers, and there will be prizes for almost everyone. Don't forget the night its Wednesday of this week.

The Nicholasville correspondent to Register says:

"The whole community extend a most cordial welcome to two of our soldier boys, in the persons of Ernest and Lawrence Creemer, both of whom received severe wounds and were in hospital for three months previous to their return. Ernest received discharge, not being fitted for active service in the future, but Lawrence is home on but a few weeks furlough, so we understand.

"One of our most noble heroes did not return, but has paid the supreme sacrifice, and it is for him, Edmund Saunders, that on Sunday morning next, at eleven o'clock, there will be a memorial service, in the church of which he was a faithful member and where he regularly attended. We trust to hear special speakers and music, also a large attendance as a slight token of respect to one we esteemed most highly, and one of many thousands, who have paid the same price for our defence."

Potatoes were retailing in Boston last week at one dollar per peck, and in several cities in the State 20 cents per pound for sugar is asked.

WOLFVILLE

Miss Marguerite DeWitt has been visiting at Truro guest of Mrs. D. M. Smith. She will go to Halifax and remain there while Dr. and Mrs. DeWitt are in the West Indies.

Miss Alice Stairs is in Halifax visiting her sister Miss Edith Stairs and other relatives.

Mrs. R. D. Harris and Mrs. Denton were in Kentville on Thursday last.

Mrs. Reynolds of Halifax and her daughter Ada are in Wolfville stopping with Mrs. R. D. G. Harris.

Rev. C. H. Martell is gradually recovering from his recent sickness and treatment and is able to walk around town quite freely.

Manager Black has been much complimented in bringing to town The Birth of A Nation which was a splendid production and well patronized.

Mrs. J. E. Shaffner and her sister Miss Bessie Durling of Lawrencetown have been the guests of friends in Wolfville and vicinity of late.

Miss Evelyn Bowlby and Miss Staples of the Seminary visited at the home of C. H. Shaffner Wilmot over Sunday, Feb. 18.

Mr. Herbert Stairs, agent of the Children's Aid Society and Rev. Mr. Miller attended a meeting of the branch of the Society at Kentville on Wednesday evening Mr. Stairs gave quite a full and interesting report of the work he is doing in the County in providing for neglected and parentless children and Mr. Miller also spoke on same subject. Mr. Barclay Webster presided and speeches were made by Rev. Mr. Layton and others.

Coming to Wolfville the great laugh producing play Charley's Aunt, Tuesday, March 6th. This is not a moving picture but a full-theatrical company every one an artist in the profession. Miss Elsie Shaffner returned last week from a visit at her home at South Farmington and resumed studies at the Seminary. She was accompanied by Miss Marie Hay.

Dr. Young, an Acadia graduate, who died recently at Lawrencetown left \$500 to the library fund of Acadia College. Other bequests are \$1000 to be divided between the Sunday schools at Lawrencetown, Paradise, Clarence, West Paradise, Port Lorne, Williamsston, Albany and Clementsport. Baptist, Methodist and Episcopal schools are included in the bequest. The gift to Sunday schools is made in memory of Annie E. Young deceased sister of the late Dr. Young who was an enthusiastic Sunday school worker and for a number of years the highly efficient secretary for the Annapolis County Sunday School Association.

Mrs. Bartholomew Hussey Mrs. Annie Hussey, who was the only daughter of the late Dennis and Catherine O'Leary, born in Clairmont 59 years ago. She passed to her eternal rest on Feb. 12, 1917, after a short illness of bronchial pneumonia. She was a woman universally respected and had spent practically the whole of her married life in Morden. She leaves, besides her husband, 3 daughters, Miss Mary, Somerville, Mass., Mrs. Stewart (Theresa) and Helen, at home, and four sons, Charles, at home, James, Mark and Clarence, who have been living for some years in Boston or vicinity. All were with her when she died with the exception of James, who reached home shortly after. The funeral was held on February 14th, in the Catholic Church, with the impressive service of Solemn High Mass. Interment was in the cemetery at Kingston. The four sons acted as bearers. The family have sympathy of all in their sad bereavement.

New Manganese Proposition at New Ross

The Messrs. Riddle of Boston and associates are opening several veins of Manganese on a large property they own at New Ross, Hants Co. It is situated a couple of miles west of the New Ross mine now being operated by a local company, and which is proving very profitable. The ore is a dioxide and samples show it to be of a very high grade. There is only a small per centage of silica even at the surface. The outlook is very promising. Machinery is now being forwarded to the locality. A large force of men is already employed in clearing ground getting out timber and erecting the necessary buildings.

H. H. Bligh has been appointed representative in eastern Kings of the De Laval line of farm machinery including their famous cream separators, Alpha engines, silos, sprayers, etc.

Frank J. Miller has been appointed Inspector under the N. S. Temperance Act in Annapolis Royal.

Mrs. Wm. Findley with her two children Fred and Mabel have returned home to Morden from a visit with Mrs. Martin Crossman at St. John.

British Swept Into German Possessions

British Headquarters in France, Feb. 25—via London, Feb. 26—On one portion of the British front at least the war today became a war movement. Under cover of fog and mist, which have been particularly heavy in the past 48 hours, the Germans carried out the greatest retirement they have made on the western front in the last two years, and the British have swept into possession of Pys, Serre, Miraumont and Petit Miraumont, including the famous Butte De Warlencourt, which has been the scene of the fiercest fighting of the war and which in places is deep with the bones of dead men.

The exact extent of the German retirement is not known tonight, but it is estimated that it approaches a depth of three miles at some points. British patrols are out in all directions harassing the Germans and keeping in touch with their movements. Until they report, it will not be possible to say just where the Germans have determined to fix their next line of resistance. Nevertheless

Studebaker
Established 1899

More Power at Less Cost

Both Series "16" Studebaker FOUR and Series "18" Studebaker SIX are noted for their great power, and especially their great power in ratio to their very low consumption of gasoline.

It has taken Studebaker four years to improve, refine and perfect the wonderful Studebaker motor. It has been solved through the experience of 250,000 cars in the hands of owners. It is only through an evolution like this, that perfection of power in ratio to fuel consumption can possibly be developed.

There are no secret processes; no basic patents; no features of design that are unknown or prohibited by patents. The Engineer can use what he wishes, but he can only know how to use the best features by continually improving, refining and perfecting—through the experience of a motor in actual service.

This is why Studebaker can truthfully claim that the design of its motor is unsurpassed, in simplicity, accessibility and power. By the refinement of reciprocating parts, vibration has been reduced to an almost unobservable minimum.

The bearing areas of the motor have been enlarged and increased, giving greater durability, more strength, still further insuring smooth, vibrationless operation.

But you cannot appreciate the splendid POWER of the Studebaker car until you TRY it.

LIFE IN A GERMAN PRISON CAMP

(Private Hutchinson, in the February Atlantic)

We were roused about 6 a. m., 27th, when he had coffee up, but we did not get any bread till about 9.30 a. m. And when we did get it was not long before I had eaten mine, as I was so hungry. And I can safely say that the remainder had seen their off as well. Then we all set to clean ourselves as well as we could. But it was hard work without any soap and I could not wash myself very well with one hand, as it was so frosty. I never witnessed such a cold winter in my life. Then we wounded had to attend hospital. And I may say that I never had a drop of warm water all thru the winter to wash my wounds with, and I was not allowed to wash them in the barrack-room. We had about 150 yards or more to go to the tap and wash and very often it was snowing, and the water almost froze as it ran out of the tap. Very often we could not walk about, as it was so slippery. I know I had several nasty falls myself, and I have had many a good laugh at some of the other chaps' legs giving away under them. Our dinner that day consisted of saurkraut, which some of the boys could not manage to eat, but I got mine down after a hard struggle. I was so hungry I could have eaten a horse, and then gone back for the man that rode it.

I think the time was against us as well as the Germans for every minute was like an hour and an hour like a day. I never felt time hang so heavy before. When I had been there a month I felt as if I had been there six. We managed to have a song on New Year's Eve and the old carol was sung with a vengeance ("The Log was Burning Brightly" sounded grand, but none of us felt very warm from the heat of it, as the stove fire had gone out early in the day.) And another favorite song that night was, "Oh Where is my Wandering Boy Tonight" and then someone should shout out: "In Wittenburg, d—night frozen to death." So after we had finished our singing we all turned in, wondering what the New Year would bring forth.

New Device Beats X-Ray

The British Medical Journal announces that a remarkable scientific discovery is now on trial at one of the casualty clearing stations in France.

The inventor in James Shearer, a Scotman, 20 years old, a sergeant in the medical corps and working at the casualty station.

The new discovery, the journal says, appears to succeed just where X-Ray photography fails.

It produces pictures of structures hidden far below the surface of the body just at the point where X-Ray photography ceases to perform effectively.

In other words the new work attempts a delineation not of dense structures such as bones but of living soft organs.

By means of this discovery it is possible in broad daylight to obtain detailed pictures of any organ or body, brain, liver, kidneys, and spleen, and to see at a glance by what gross lesion they are affected. Thus it is possible to see blood vessels on that organ, to detect abscesses in the liver and wounds or cut any organ. In one case a concretion in the appendix was seen clearly when the pictures complete.

The actual finished photo are remarkable and show blood vessels in the brain in detail, also wounds, but not the actual brain substance. In other words, differences, such as diseased areas, are shown.

The apparatus works as long as the body is alive, and even until molecular death has occurred. After that it does not work.

HORTICULTURE

Pruning—The regular pruning of fruit trees and bushes not only ensures the production of better fruit than if they were left unpruned, but saves heavy pruning in any one year. The latter part of March or early in April, before it is time to spray, is when the bulk of the pruning should be done. The two best tools for pruning are the hand shears or secateurs for the small branches, and a good hand saw for the larger ones.

Spraying—Few seasons have shown the advantage of thorough spraying as did that of 1916 when, in some parts of Canada, unsprayed apple trees produced little else but No. 3 fruit, while thoroughly sprayed trees gave a large proportion of No. 1 fruit. Spraying should be begun before the flowers open. In the case of apples, a first spraying is made when the leaves are partly open, a second before the flowers open, a third just after they fall, and, if necessary, from one to three later sprayings. Formulae will be found in Pamphlet No. 12, Experimental Farms.

Seeds—The importance of having good seed is often not impressed upon the grower until after he has a partial or total failure of his crop either due to a poor strain or to poor germination. The pride of the seed is a small matter compared to the value of the crop, and it will well repay any one to get the best strains even though the price seems high. It is sometimes too late to make sowing after it has been discovered that the seed which has been sown in the field or garden will not germinate, hence the desirability of testing the germination in the house before it is time to sow outside.

Planting—It is desirable to plant fruit and ornamental trees and shrubs, bush fruits, strawberries, and hardy and other herbaceous plants as soon as the ground is dry enough in the spring, as the results will usually be much better than if planted later. Tests of planting potatoes in different parts of Canada have demonstrated that, in most places, the earlier the planting, after danger of frost is over, the larger the crop will be, although in the most moist parts of Canada, and where the summer is cooler the advantages of early planting are not so marked. It is important to have seed potatoes of strong vitality.

Early Cultivation—Sometimes dry weather sets in soon after the frost is out of the ground in the spring and may develop into a protracted drought. Just at the time when the fruit should be setting, the ground becomes very dry, the result being that the fruit does not set well, there not being enough moisture to supply the needs of the tree. It is important, therefore, to begin cultivation early to conserve what is in the soil and one should not delay turning under a cover crop for the extra vegetable matter, as more harm than good.

W. T. MACOUN,
Dominion Horticulturist

To Allow U. S. Ships Through War Zone

London, Feb. 23—It is quite possible that American ships Rochester and Orleans may escape German submarines on their way through the barred zone from New York to Bordeaux says the Berlin paper "Lokal Anzeiger" as quoted in an Exchange Telegraph Company Amsterdam despatch, but America should not rely upon their doing so.

In Berlin political circles, the Exchange's correspondent adds, it is believed the submarine have been definitely instructed not to sink these American ships.

Disastrous Fire at Quebec

Quebec—Three firemen were killed early Monday and five others were badly injured under the crumbling walls of the Simard & Carmichael dry goods store on St. Joseph St. The dead are Captain Edmond Lamontague and Firemen L'Hennreau and St. Hilaire.

The fire broke out shortly before 1 a. m. and a general alarm quickly sounded because the fire had already taken the proportions of a conflagration.

As it is at least half a dozen places are gutted and only the walls stand where was the firm of Simard & Carmichael. This is Quebec's seventh large fire in the business section within a month and a searching enquiry is to be started by the Provost Marshal.

In a 40-minute battle between a German U-boat and the French Line steamship Guyane off the coast of France on Jan. 22nd, the submarine was sunk.

NEW ROSS ROAD

Tho' Boreas shows we are still moving along the old fashion getting firewood, etc.

We have two water we will keep them both. One owned by Thomas and the other by Messrs. Jodrey and Russell.

Yesterday Mr. & Mrs. McGarry entertained a number of guests at dinner as follows: Mrs. Hutchins, Mrs. Earncliffe, Mr. & Mrs. McDonell of South Alton, Doyle, South Alton, at Corcoran of North River gentlemen from Kentville. Quite a full table.

A telegram was received from Mrs. New Ross wounding of Private Butler of the 112th Battalion January 19th and was to the general hospital.

We are sorry to hear Hutchinson's grandchild H. was severely wounded January 2nd and at counts was dangerously ill developed bronchitis.

New Ross Road has boys doing their bit in France. Two have been ed, viz: Sergt. Maj. H. Garry and Private Ernest, and four of them Privates Leslie Chalmers, Redmond, Aubrey DeJohn Butler.

David Costley, our bear killer is hale and he is still trapping, and watching for the which will make 11 credit.

Miss Isabel Wamboldt teacher in this district lives in Kentville. Many of our young in the woods at Cape Panuke.

Capt. C. A. Lard thru from New Ross ville last week.

The Charlottetown says: Within the last Sins Packing Co. pig heavy hogs, the pig weighing 600 pounds heaviest 810 pounds they paid a total sum of or an average of \$100 carcass.

NEW ROSS ROADS

The Boreas shows his might we are still moving along after the old fashion getting out logs, firewood, etc.

We have two water mills and we will keep them both busy. One owned by Thomas McGarry and the other by Messrs Walton, Jodrey and Russell.

Yesterday Mr. , Mrs. and Miss McGarry entertained a number of guests at dinner and tea as follows: Mrs. Hutchinson of Earncliffe, Mr. and Mrs. J. J. McDonell of South Alton, F. D. Doyle, South Alton, and Albert Corcoran of North River and a gentleman from Kentville. Quite a full table.

A telegram was received by his mother, of New Road, of the wounding of Private John Butler of the 112th Battalion on January 19th and was admitted to the general hospital at Arris.

We are sorry to hear that Mrs Hutchinson's grandson, Reginald H. was severely wounded on January 2nd and at last accounts was dangerously ill having developed bronchial pneumonia.

New Ross Road has had six boys doing their bit somewhere in France. Two have been killed, viz: Sergt. Maj. Harold McGarry and Private Ernest Bishop, and four of them wounded Privates Leslie Chase, John Redmond, Aubrey DeAdder and John Butler.

David Costley, our veteran bear killer is hale and hearty, he is still trapping, buying fur and watching for the next bear which will make 119 to his credit.

Miss Isabel Wamboit is the teacher in this district her parents live in Kentville.

Many of our young men are in the woods at Canaan and Panuke.

Capt. C. A. Larder passed thru from New Ross to Kentville last week.

The Charlottetown Examiner says: Within the last week the Sims Packing Co. purchased 3 heavy hogs, the lightest hog weighing 600 pounds and the heaviest 810 pounds for which they paid a total sum of \$304.60 or an average of \$100 for each carcass.

Subscribers Take Notice

All subscriptions to Advertiser are now \$1.50 per year in advance or \$2.00 if not paid at beginning of year, \$2.00 per year to United States or \$2.50 when not paid in advance. One dollar received now only pays for eight months subscription in Canada.

For application forms apply to the Deputy Minister of Finance, Ottawa.

DEPARTMENT OF FINANCE, OTTAWA,
OCTOBER 7th, 1916.

San Neyer Sets on United States

(From the Youth's Companion) Great Britain is no longer the only nation that can say the sun never sets on its territory. Since the United States acquired the Danish West Indies it can make the same boast.

Hitherto the little island of Culebra which is virtually a part of Porto Rico, has been our most easterly point of land and the island of Balabac in the Philippines, our westerly point. The distance between them is just a little less than 180 degrees, or half the circumference of the earth. St. Croix in the Danish West Indies, is thirty-eight miles further east than Culebra—enough to bridge the gap. Just as the sun is rising on St. Croix it is setting on Balabac.

A New York paper says: An 8-room house was built in 12 hours by neighbors of Charles Thomas a farmer, whose home near Warren, Penn., was destroyed by fire. A town fund of \$400 bought the lumber, merchants donated other materials and 30 men gathered at day-break for the work. At nightfall the house was up and had received its first coat of paint.

The Donaldson liner Lakonia of Glasgow has arrived in Baltimore and by her superior speed she twice got clear of submarines, while on a run through the Bay of Biscay. She carried a three inch gun and has several trained gunners to man it.

New York, Feb. 19.—Sir Ernest Shackleton, the Antarctic explorer who recently rescued the survivors of his expedition from Ross Barrier, cabled yesterday from Wellington, N. Z. to friends in this city that he will pass through the United States on his way back to London.

From time to time gloomy predictions are made as to ultimate exhaustion of the world's supply of coal. But, on the other hand, there are frequent announcements of the discovery of coal deposits. Recently it was found that the island of Spitzbergen has 200 square miles of coal fields, estimated to contain fully 1,000,000,000 tons of the valuable fuel. Moreover, as coal diminishes, other sources of heat and light are developed, as in the case of electricity from water-power.

45 Miles An Hour on Ice in Auto

For the first time in twelve years the La Have River is frozen over from its mouth up. One day this week a Riverport man made the run from Riverport to Lunenburg, fifteen miles on the ice in his automobile in 20 minutes.

Right up to date

The Vancouver Conservative Association has elected a lady as one of its vice-presidents and given to other ladies positions on the executive. Women have voted in British Columbia now. It will be only four years if that long, before we will have similar notices in regard to the composition of the executive of both grit and tory Associations in Nova Scotia.

The women of the Doukhobor colony, B.C., contributed 12 tons of jam, strawberry, raspberry, peach and plum, for wounded British Columbia soldiers. The fruit all came from Doukhobor farms. At the request of the authorities the gift has been shared among different Western hospitals.

Vacant land at a cemetery Vacant land at a cemetery in the Isle of Wight is to be used for potatoes. A member of the burial authority asked if it were consecrated ground, and when answered in the affirmative said, "so much the better for the potatoes. They will have the episcopal blessing."

The funeral of the late Thomas Cleveland took place from his late residence at Salem. The services were conducted by the Rev. W. B. Bezanon, of the Temple U. B. church and interment was made in Mountain Cemetery. The bearers were Messrs. Wallace Cook, Fred Marshall, George Little and James F. Landers. His sons Grover, of Kentville, and Percy, of Roxbury, arrived home on Wednesday.—Exchange.

Joseph Cohn, of Sacramento, California, familiarly known as "the Christian Jew," predicts that the thousands of Jews in the United States after the war will return to Palestine to restore the temple of Solomon. He believes that the present great war has acted only as a temporary check to the rapid population of Palestine.

FRED HARVEY, Oakdene St. Minard's Liniment Cures Kentville 40x Distemper

The benefit concert held in the Aylesford Baptist Church last Friday evening was a grand success. Sleighting parties from Berwick, Waterville and Kingston added to the large local attendance resulting in a packed house, the Sunday School room and main auditorium being filled. The readings by Miss Alice Fair and Miss Inez Whitman were highly appreciated and applauded. The selections of music reproduced by Edison's latest invention—"Music's Recreation" were a surprise to many and a delight to all. The silver offering netted a substantial gift for the Church janitor of thirty dollars.

A Montreal druggist was fined \$50 and costs by Judge Lafontaine this week, for omitting to place a one cent war tax stamp on a bottle of patent medicine. The druggist will enter appeal from the judgment.

On Saturday evening Mr. G. W. Tupper very kindly drove 25 of the pupils of North Kingston School to the home of Horace Reid, where they were served to lunch and entertained by their teacher, Miss M. Banks. They were accompanied by Miss Sauler. — Outlook.

BORN
At Millville on Saturday, Feb. 17th, to Mr. and Mrs. Rawling, a daughter.

The Echo says: Mrs. H. Rees of Canning spent a few days in the city a guest at the Birchdale.

Messrs D. B. Weaver and Mr. Jones went to Halifax to attend the Good Roads Convention.

A number from town went to Kentville last week to attend the tea in aid of St. Joseph's Church.

Mrs. N. W. Eaton has been at Wolfville visiting her daughter Mrs. Charles H. Wright.

Mrs. Herbert Stairs held a most enjoyable card party at her residence over a week ago the purpose of and proceeds for same being the Red Cross fund. A large number was in attendance and enjoyed the entertainment provided and the dainty refreshments served.

On Thursday evening a public meeting will be held of the ratepayers of the town.

The late A. G. Morrison, barrister, of Halifax was for a while a resident of this town.

Mr. Charles E. Wright went to Middleton a week ago by auto to see his father C. H. Wright who had been ill.

Kenneth Bowlby of Kingston was in town on Wednesday last. The Baptist Church will hold its annual Roll Call tomorrow evening.

Mrs. Ralph S. Eaton of Hillcrest, Kentville has been visiting Mrs. H. Stairs during the week.

Mrs. Sherman H. Belcher of Upper Dyke was the guest of H. O. Davidson a few days last week.

Rev. Frank H. Beals has accepted a hearty and unanimous call to the Lawrencetown Baptist Church. Mr. Beals of late has been engaged in work for the Kings County Temperance Alliance and he will be much missed from that work.

Rev. J. U. Bell of Canard will lead the service to be held in the Hall at Steam Mill Village on Thursday evening at 7.30.

The Women's Institute of Canning wish to acknowledge with gratitude a donation of \$20.00 to the Red Cross Fund from the Pereau and Medford ladies. These localities have always been most active in Red Cross work frequently sending in socks and hospital supplies.

Mr. Whitney Parker who has been in Montreal the past six weeks returned home last week.

Miss Kate Brady has been spending the past week in Kentville.

BROOKLYN CORNER

Miss Harvey, our genial teacher, is having good success in this, her first school. Her mother, Mrs. George Harvey, of Grand Pre, visited her daughter recently being a guest of Mr. and Mrs. R. E. Rockwell.

Mrs. J. C. Lantz of Billtown a former resident of this community spent last week here among her old friends and neighbors.

Mrs. William Irvia who is more than four score years of age is still able to be around most of the day and retains her faculties to a good degree.

A. A. Bligh visited Port Williams Orange Lodge on Monday evening, Feb. 19th where he conferred the third and fourth degree on two candidates. He reports the Lodge in very flourishing condition.

Pte. Fred W. Williams of the Home Defence, Amherst, has been here on sick leave visiting his wife and family at Mr. Eldred Porter's. We are glad to report that he is much improved in health and has returned to duty.

The ladies of our Red Cross Society met at Mrs. R. S. Newcombe's last Thursday. This is a branch of the Lakeville Society and is doing good work. They held a pie supper last Friday night realizing the sum of \$18.

Rev. E. O. Steeves of Billtown preaches in our schoolhouse every four weeks. His ministrations are well received.

BORN
At Millville on Saturday, Feb. 17th, to Mr. and Mrs. Rawling, a daughter.

LOCKHARTVILLE

A great rejoicing occurred at Lockhartville on the return of Corporal George Hutchinson, of the 6th Canadian Mounted Rifles.

George was always much esteemed, but never was this more shown than when his friends learned he had got home from the war. Everybody gave him their right hand of welcome. On the evening of Feb. 18th a surprise party was held comprising people from near and far (including Sergeant Chase, ex Port Williams, a comrade) numbering 52.

During his week's stay at home, over 100 visited him. Unfortunately our hero has lost one leg.

The evening's proceedings were of a lively and enjoyable character. Miss Armitage, eloquent, rendered recitals, which simply brought the house down. (She is the daughter of Arthur Armitage, Lockhartville, who came from Yorks, England, three years ago. Mr. Armitage, has three boys serving the colors). Miss Webber, the school teacher, and friends also afforded the company much pleasure, leading games, etc.

Our friend Corpl. Hutchinson is now in Toronto—where he hopes to be fitted up properly with an artificial limb. Good luck to him.

KENTVILLE PLANING MILL.

Notice to the Public
