GOVERNMENT DISMISSALS ENQUIRED INTO

Mr. Haultain Charges Government With Abuse of Treasury Act--Mr. Motherwell on the Grill--Lively Scene in Committee of Supply

MONDAY, MARCH 11
When the House went into committee today there was a lively hour over the appointment of deputies in the department of the attorney general, and the agricultural department, and Mr. Motherwell was especially placed on the grill while his estimates were under consideration.

Mr. Haultain explained that expenditure had been made to date since the change in deputies under warrant. Mr. Haultain--That is something for the attorney general to explain, and he would ask how a warrant could be made to meet such a case?

Mr. Haultain explained that expenditure had been made to date since the change in deputies under warrant. Mr. Haultain--That is something for the attorney general to explain, and he would ask how a warrant could be made to meet such a case?

WOLF BOUNTY AND REGULATIONS

Criticism of Government Scheme Which Does not Encourage Destruction of Pest--Brown's Motion and Sanderson's Amendment

(Legislature continued from Mar. 5)

In moving his resolution respecting wolf bounty, seconded by Dr. Ellis, Mr. Brown referred to the votes in the estimates last session and he submitted that the money had not been put to proper use for the purpose of the vote was defeated by the regulations of the department. The question of wolf bounty is a serious matter in every constituency in the province. He read communications from some of his constituents regarding the damage done by wolves in the Souris district this winter. Some united efforts must be made to deal with the matter and the man who kills even one wolf should receive a bounty of some kind. The facilities should be as easy as possible for those killing wolves to lay their claim to the bounty.

Opposes Bounty

Mr. Motherwell had no hesitation in saying that he was opposed to granting a direct bounty. There were so many wolves killed annually that if a dollar a head were paid it would cost the country \$70,000 a year. It would also create unlimited liability and there must be a check somewhere. The present scheme which had been so severely criticised by the member for Souris was of course only in the experimental stage but he thought it was in the right direction. He asked the House to vote down the resolution.

Dr. Elliot

The member for Wolseley criticised the Government for not sending out the wolf bounty regulations in time. The purpose of the department appeared to be to suit the shippers who do not want the wolves killed when the hides are not prime and in the breeding season. The object of the vote was to destroy these animals and it is very effective to kill them at the season when the dealers will not purchase the hides. Assistance to dealers in fur must not take precedence over the primary object of the estimate vote.

Mr. Wylie

The member for Maple Creek did not think it recently that the wolf bounty question was such an urgent issue. The stock men will not support such a scheme as is contained in the regulations under discussion. It is important that the wolves be destroyed and to accomplish this a small bounty should be given for each pelt. There are plenty of fellows who will take the trouble to kill a wolf if they are sure of getting a small bounty. In his district the settlers have clubbed together and put up the bounty out of their own pockets and he paid them to do this. He advised the commissioner of agriculture to get practical men and amend his regulations if he wishes the bounty scheme to become effective.

Sanderson's Amendment

Mr. Sanderson moved the following amendment:

"That it is desirable to encourage local improvement districts to take active measures tending towards the destruction of coyotes and wolves within their boundaries, and that for this purpose provision should be made to repay to such districts out of the general revenue of the province a reasonable proportion of any expenditure incurred in this connection."

In speaking to this amendment, Mr. Sanderson commended the Government for their efforts but he could not endorse their scheme. If however, the local improvement districts were empowered to provide a bounty and this was supplemented by the general grant the wolves could be destroyed more effectively.

Langley Concur

The member for Redberry was in accord with the amendment but he could not say that he thought the regulations a practical scheme. He

wanted the same assistance proposed for the killing of wolves applied to the gopher pest.

Grant is Practical

Mr. Grant (Batoche) drew a distinction between the different kinds of wolves. He did not think that the coyotes did much damage generally. The brush wolves and the coyotes should be classed together. A high price should be paid, however, for each timber wolf.

Evening Session

Continuing the debate on the question of wolf bounty, Mr. Brown, speaking to the amendment, said that on the face of it, the regulations of the department were defective. There is a lack of unity that seems necessary to accomplish the object of the estimates last year. With regard to the amendment he thought that it was about the same in principle as the resolution only the latter places the onus on the Government. In his opinion if the spending of \$70,000 a year will result from his resolution, he thought that the money will be well spent, if it resulted in the destruction of that many wolves in one season.

This closed the debate and on division the amendment carried on a party vote.

The following bills received second readings:

Bill No. 3, respecting surrogate courts; Bill No. 6 to supplement the provisions of the crown land act; Bill No. 7 respecting the devolution of estates; Bill No. 8, respecting the property of married women; Bill No. 9, respecting the form and interpretation of the statutes; Bill No. 15 to incorporate the Yorkton club.

The House then went into committee on the whole on Bill No. 2 respecting the establishment of district courts.

WEDNESDAY, MARCH 6.

There was but one sitting of the House today and the time was mostly taken up in committee of the whole on bill no. 2 respecting the establishment of district courts.

Mr. Wellington presented a petition for the incorporation of the Hudson Bay Fire Insurance Co.

A new order of business came up under "Reading and Receiving Petitions" this being with reference to the petition of S. J. Donaldson claiming his seat in the legislature. Mr. Lamont asked that this business stand for a couple of days as he was not acquainted with the procedure, being very busy on the courts bill. Mr. Haultain considered that this was not a valid reason why a petition should be further delayed, but Mr. Lamont intimated that he had the further privilege of adjourning the debate if this business were proceeded with. The petition was finally allowed to stand.

Dr. Argue gave notice that he will move for a return of the House respecting the distribution of public works throughout the province during the financial years of 1906-07.

Mr. Sutherland moved the second reading of the bill for the incorporation of the Elks' Club, Saskatoon, and Mr. Lamont for the incorporation of the Saskatchewan Club, of Prince Albert.

The House then went into committee on Bill No. 1 respecting the establishment of district courts.

The eight judicial districts were outlined in a map furnished by the attorney general.

Weyburn District

Mr. Haultain urged in committee that there should be a Soo line judicial district to be known as Weyburn. To omit the convenience of that populous part of the country he considered the people along the Soo line entitled to this consideration.

The attorney general, however, could not accept the suggestion of the leader of the Opposition.

THREATENED CONFLICT WITH AUTONOMY ACT

Mr. Calder Endeavors to Avoid Clash With Separate Schools but Mr. Haultain Says he has not Been Successful

THURSDAY, MARCH 7

An interesting debate took place in the House on Thursday when Mr. Calder moved the second reading of Bill No. 11, respecting the organization and maintenance of secondary educational institutions, and surprise was sprung on the House by Mr. Haultain who, while pledging his support and that of the Opposition to the measure declared that it was contrary to the provisions of the Saskatchewan Act, and that if it were not disallowed by the federal government, the Catholic minority can if they choose, make a test case in the courts.

On rising Mr. Calder said that connected as he had been with education in the North West Territories for the last fifteen years, and associated as he had been with the evolution of our present system, he could speak with confidence and familiarity on the matter now before the House. If our system of education is to keep abreast with industrial progress of the country we must make the provision now contemplated in the bill under discussion, and if the hopes of the future of this country are to be realized the provisions

must pay attention to the educational problem, and solve it in the best possible way for it is at the very root of our prosperity.

Heretofore the elementary schools have been receiving the attention of the government and up to the present that policy was wise, but the time has come to better our secondary schools. Our present laws and regulations make provision for high school work in any school, but we must now go further in that direction.

Both political parties stand pledged to the electorate to provide a better system of schools and he did not look for much opposition to the bill.

He would like to point out that the cost of high school work up to the present has borne heavily upon cities and towns and the rural portions included in these school districts. These schools are not at all proficient for they lack equipment and are understaffed. The districts bearing the cost of these institutions adopted a closed door policy and practically shut out rural districts from the enjoyment of these facilities. Under the provisions of the

present bill, however, every child will have the right to enter these schools as they should have.

At present we require annually from the east from 150 to 300 teachers and that indicates that we will require to turn out large numbers from our schools, but this is not the sole purpose for establishing this system. There are many defects the new legislation will remedy. One thing to be kept in view is that it has become necessary to pay larger salaries so as to keep teachers in the profession. At present the whole teaching staff of the province changes every three years. This is regrettable and must be remedied.

Grant is Practical

This bill provides for entirely new institutions which are more municipal than provincial, and while within city and town districts boundaries they will have no connection with existing institutions. Although in educational work they will be closely allied. This will be provided by regulations and these regulations are a very important part of our system. These schools will be non-sectarian and children from rural districts will be admitted free of cost.

Tuition

The tuition in these schools will include a practical course, a commercial course, a teachers' course, and a first year university course.

There are now in the province with more than one teacher 27 schools with 6 to 1 with 8; with 7; 3 with 8; 1 with 19; 1 with 21; 1 with 21 (Regina); and three other points with 8 each.

New Schools

It is proposed to now establish two colleges, one at Moose Jaw and one at Regina, and five high schools they will be located at Saskatoon, Moose Jaw, Prince Albert, Indian Head and Yorkton. Westburn and Qu'Appelle stand equal in claiming the fifth, but it is not decided at which point it will be located.

The efficiency of these schools will depend on regulations, qualifications, equipment and inspection.

So far as the present law is concerned, it will remain the same. High school work is contemplated in the present school law and we are but carrying out and developing the intention of that legislation.

MR. HAULTAIN

The leader of the Opposition in replying to the commissioner of education stated that every member of the House stood ready to join in the work that broadens and extends the system of education in this province, and he was glad to see the formal motion adopted by the Government in this matter. While a large proportion of the school attendance will not go beyond the elementary school, our system must not stop there. A very important part remained and any improvement that would tend towards extending it and encouraging it and enabling children to remain at school would have the encouragement of the House.

He was pleased to hear the mover of the bill speak so emphatically with regard to the regulations of the department, for in his opinion this is the most important part of our educational system.

We might have good machinery and the best of raw material, but he was sure we have in this province but with all this to be successful must have a sound practical system of education. What might be a good system where the population is congregated in centres, and where the population is divided into many classes, would not necessarily be a good system in some other particular thing, and where we must have a system to suit our own needs. Here, whether the school be primary or secondary, the greatest attention should be paid to those courses which give the best training for agricultural pursuits, and which he did not mean so much in the practical but a training that will more completely fit the young mind for the struggle of life, so that men will grow up better equipped for respective callings, and with scientific, technical and theoretical training in a fact which might be a general nature, they will in every respect be better men and better citizens.

Rush to Land.

Fortunately in the Canadian west we have not to shout "Back to the Land" as they were doing in older countries, but here they were all going out to the land, and after he believed, that the most prosperous, happy and contented people today in this country are the farmers, and he hoped that this would long continue to be the case. Other callings attract, and in some instances he could say falsely attract--from the farms to the towns and cities, and they might check any such tendency here by teaching the children that the farm offers the best results from labor and the best and most satisfactory reward of effort.

Broaden the Unit

The tendency of the age is to be too superficial and the child must not be judged by the number of subjects he is studying, but by the number of subjects he is thorough in and has mastered. In acquiring thoroughness, however, no sacrifice must be made as to the development and drawing out of the mind.

The whole tendency of the age is to broaden out the unit and do away with the old school district, and by better making provision for the board to embrace all the business interests of the community, for he believed that the civic bodies such as the council and the board of trade should be represented on the school board. By making a wide constituency we will have better results.

Taxation

There does not appear to be any provision in this bill, limiting taxation, and he believed that there should be some limit to the tax levied by high schools on the ratepayers of cities and towns. He does not believe that the legislature is right in giving statutory power to

municipal councils to establish these schools as that power belonged to the ratepayers alone.

Bill Ultra Vires

While pointing out what he considered defects in the bill, he would congratulate the commissioner of education for many of the problems which they had thought to be insoluble and which the hon. gentleman and his colleagues had given strong opposition to. The hon. gentleman had, in one sense admitted that the purpose of the bill was started in the present system under provision of the existing school ordinance, and they only propose to develop and carry out what is really in effect to day. This being the case, and it is the case, this admirable proposal is directly opposed to the provisions of the Saskatchewan Act, existing institutions which the Catholic minority have today were provided in the school ordinance of 1901. This very bill dealt with subjects which were already dealt with in the school law of 1901. It established schools which would do under larger regulations which were established by the Government, was entrusted to the schools under the School Ordinance of 1901. However, he believed in the right of the province to legislate freely in these matters and he would pledge his assistance to the Government in such a measure as to legislate according to the restrictions of the autonomy act, and the province should be able to make a general law without regard to religious interests.

The effect of this legislation, however there is the possibility of it being disallowed Ottawa government, or of a case being taken to the courts, and on this point, Mr. Haultain said: "I pledge myself and every member of this House, and every member of the Government of the province, to see and help them through the fight, and fight it through this as soon as this legislation is placed on the statute book. They are at once confronted with a case that will at last settle once for all a very momentous question. Once they have that settled and removed we shall be a divided house in that we vie in our anxiety to promote the educational advancement and the educational facilities of the country."

Mr. Lamont Replies

Replying to the leader of the Opposition, Attorney General Lamont said that instead of the position of the Government being contrary to their attitude, previously with regard to the autonomy bill, the legislation now proposed is in harmony with the Saskatchewan Act. This bill was not outside the jurisdiction of the legislature, and if it is and it is disallowed, a test case is taken to the courts, and the Government will defend in asserting the right to pass such legislation.

The Saskatchewan Act secured certain rights and privileges to minorities which were granted to them by the old School Ordinance. The bill before the House did not interfere with any of these rights. It was

not contrary to the autonomy act in any respect. He did not propose to go into any legal argument about it at the present time, but if the Opposition desired to do so they would find the Government ready to meet them.

Mr. Haultain: "There is no time like the present."

This closed the debate and the bill passed the second reading.

Other Business

Mr. Sheppard presented a petition asking that the Saskatchewan Central Railway charter be amended.

Mr. Stewart presented the report of the standing committee on standing orders and recommended that application for incorporation of Vonda into a town municipality be granted.

Bill No. 3, re surrogate court passed its third reading.

NATIONAL SCHOOLS AND TELEPHONES

Mr. Haultain Advises Government to Nationalize Whole School System--Public Telephone Motion--Reference is Made

THURSDAY, MARCH 7

A prominent feature of this sitting of the House was the notice of motion given by Mr. Haultain respecting the government ownership of telephones, and his suggestion to the government that in order to overcome the difficulties confronting them with respect to the establishment of a secondary educational system they should nationalize the educational system of the province.

This should apply equally to the elementary as to the high school system now proposed by the government and which threatens to conflict with the provisions of the autonomy act.

Another matter of public interest was the return brought down by Mr. Lamont showing that there is no correspondence with the government respecting the constitutionality of the Saskatchewan act through the Ottawa government to the privy council.

Under the first order of business today Mr. Lamont gave notice of motion respecting mechanics' lien, and jury.

Mr. Calder gave notice of motion respecting the proposed provincial university.

Mr. Haultain gave notice respecting government ownership of telephones.

Returns

Mr. Gillis moved that an humble address be presented to his honor, the lieutenant governor praying that his honor will cause to be laid on the table a return showing copies of all correspondence, agreements, or other documents of any nature whatsoever between the government of Saskatchewan or any members thereof, and any person, firm or corporation relating to the purchase of a site or sites for legislative, government or other public buildings at or near the seat of Government.

Mr. Argue moved that an order of the House do issue for a return showing the aggregate amount expended in each of the electoral districts of the province for public works during the financial year of 1906-07.

Mr. Sutherland asked leave to introduce a motion without notice extending the time for receiving private bills to March 18th which was granted.

Donaldson Petition

Before the orders of the day were called Mr. Haultain drew the attention of the House to the delay respecting the Donaldson petition. He asked leave to make a motion without notice, but Mr. Lamont asked that the request be regarded as a notice of such motion to come up Monday. Mr. Haultain said that the petition should come up automatically and a notice of motion would further add to the delay of the Government, keeping the Prince Albert District unrepresented in the legislature. He considered that the leader of the House must take one of two positions. Either the business of the House has to stand until the hon. gentleman qualifies as leader of the House and acquaints himself with the simple rules of procedure, or he is obstructing the business of the House.

Mr. Lamont referred to a precedent in the House of Commons when he claimed Sir John A. Macdonald took a similar position.

Mr. Haultain: "He did not say that he did not know the rules."

The request of Mr. Haultain stood till Monday as a notice of motion.

Mr. Lamont brought down returns asked for on March 1st respecting correspondence on the question of the reference of the constitutionality of the Saskatchewan act to the privy council. This return showed that there is no correspondence either in the attorney general's department or the department of the executive council respecting this matter.

Mr. Motherwell brought down a return respecting the Sinitula road information asked for by Dr. Elliot.

Mr. Calder laid on the table returns showing the number of school districts established and also the number of applications as follows:

1--The number of petitions that have been presented for the establishment of public schools in the province since the 1st of January, 1906, 413. (b) Catholic Separate schools 3. Total 416.

HOW TO MAKE MONEY

If you want to make money, do as the late Governor Flower of New York said, "Buy lots."

Now, Wives!

See that your husbands secure at least one of these lots. Remember that it is you who are interested, and so well understand the value of your own freeds; and if you should be left to fight life's battle for yourself and little ones alone, it would be a source of comfort to know that at least the roof over your head is safe as it belongs to you. There it stands, a lasting monument to a loving husband and father's thrift and foresight.

Remember, no house lots in Regina as favorably located are offered at anywhere near the price we ask.

WHILE you are paying for your lots they will be rapidly increasing in value. Lots all around Alexandra Annex are selling at prices at least 50 per cent. higher than we offer these to you to-day.

KNIGHT'S REAL ESTATE EXCHANGE

Are the sole agents for the Owners' Office: DARKE BLOCK, SCARTH ST.

Now if you buy a lot containing 3125 square feet of land and pay \$15.00 down and \$10.00 a month for 6 months you will have deposited \$75.00 and become the sole owner of "a piece of the earth."

If the increase in value of your land is only one cent a foot for the year, your \$75.00 will have earned \$81.25 for you (we expect it to earn four times that for you). On the other hand if you had put the same amount at same time in a Bank your earnings would have been less than three dollars. Compare the two methods and you will readily see how the wealthy families have made their money. You have the same chance in this new country.

Now, Young Folks

WE EXPECT TO SEE YOU, TOO. Don't say what you have heard so often in other cities, "O, I have plenty of time; I am not married." When I settle the family are calling on me to buy a lot. Give credit where credit is due. We can help you. Taking right hold of this opportunity will mean the first step to success.

KNIGHT'S Real Estate Exchange

P. O. Box 58 Telephone 520

Farm Lands, City Lots, Houses for Sale and for Rent. Money to loan. Insurance of all kinds.

2--The number of each class of such schools that have actually been established during that time or are in course of establishment:

(a) Public school districts established 235; (b) Separate schools established 3; (c) Public school districts in course of establishment, that is where petitions have been received and erection of districts held pending the receipt of certain returns 118.

In Committee

The House went into committee of the whole on amendments to bill No. 5 respecting the treasury department and the auditing of public accounts. Bill No. 3 was next taken up respecting the surrogate court.

In committee on bill No. 11 respecting secondary education, Mr. Sheppard took the chair.

There was considerable discussion on clause 12, respecting the composition of the high school board.

Mr. Haultain asked the commissioner of education whether he had considered the advisability of having a larger board, and one that would include representation of the various interests such as public school, the separate school, the city council and the board of trade.

Mr. Calder in reply stated that he had considered the matter but decided to keep every feature of the institution distinct and separate from the other educational bodies. This was adopted as a means of avoiding a clash over the separate school provisions of the Saskatchewan act. It was an entirely new institution and the Government would keep it apart from all others.

Mr. Lamont replied that he could not sanction two seats of high schools, one Protestant and one Catholic, and for that reason the high school board as proposed must be kept distinct according to the clause of the bill under discussion. If the present members of the school board on the high school board they will elect them to that position.

Mr. Haultain deplored the fact that it was difficult to get good men for acceptances of that kind and he thought it would be much better if there was one large comprehensive

Compare the two methods and you will readily see how the wealthy families have made their money. You have the same chance in this new country.

Now, Young Folks

WE EXPECT TO SEE YOU, TOO. Don't say what you have heard so often in other cities, "O, I have plenty of time; I am not married." When I settle the family are calling on me to buy a lot. Give credit where credit is due. We can help you. Taking right hold of this opportunity will mean the first step to success.

KNIGHT'S Real Estate Exchange

P. O. Box 58 Telephone 520

Office: Room 3 and 4, Darke Block Scarth Street, Regina

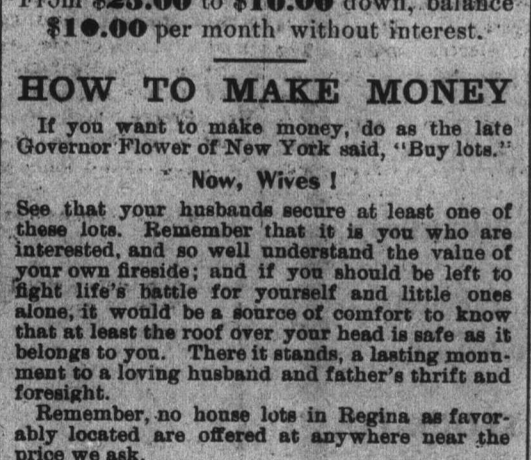

Farm Lands, City Lots, Houses for Sale and for Rent. Money to loan. Insurance of all kinds.

Shakespeare said: "Nothing Ventured, Nothing Gained"

Don't be kept from buying by "know it all" who never had or never will have anything, and want common sense and misery. Take nothing for granted but see with your own eyes the bargains we offer. Put a five or ten dollar bill in your pocket to find the bargain and you will see how the day did it.

You'll Have Pride

In your own flower gardens if they are on your own grounds.

Your husband can buy a home, and he can do it now, although he may think otherwise.

Talk to us about it, and then talk to him about it.

Every woman wants a home of her own, and at our bargain prices most every husband can buy one.

Make a start. Buy a Home Site To-Day

Do not wait until you have money enough to pay all down, but begin at once by paying one-half, one quarter or less. Don't be afraid to go in debt for land in growing cities and towns, for it is constantly increasing in value. Even if you do not want to build just now the rise in value would over balance interest on your money and the investment would be safe.

This City is Growing Tremendously

And there is every reason to believe it is going to continue to grow right along. Indubitably, and the man who invests in real estate is sure to be able to sell at any time for more than he paid.

Dimes Invested in Building Lots Will Soon Grow into Dollars. Why Don't You Stop

Enriching landlords with your hard-earned money and invest the money just by paying for rent in a home of your own? There never was and never will be, any satisfaction in paying rent for a lifetime. A renter is constantly paying out a large percentage of his hard-earned income for the place that "camp out" with his family. That's all there is to it! When he reaches old age his earnings go to keep him and his family in old age. Wake up to the fact that YOU CAN OWN A PIECE OF THIS EARTH just as well as the richest landlord.

Enriching landlords with your hard-earned money and invest the money just by paying for rent in a home of your own? There never was and never will be, any satisfaction in paying rent for a lifetime. A renter is constantly paying out a large percentage of his hard-earned income for the place that "camp out" with his family. That's all there is to it! When he reaches old age his earnings go to keep him and his family in old age. Wake up to the fact that YOU CAN OWN A PIECE OF THIS EARTH just as well as the richest landlord.

DR. COARD'S MOTOR TRACTOR

Farming Operations Revolutionized by Regina Professor—Will do Work of Forty Horses

Slowly moves the march of ages. Slowly grows the forest king. Slowly to perfection cometh Every great and glorious thing

There has been as great an evolution in the mechanical world of recent years as there has been in the realms of palaeontology from prehistoric times, but with this remarkable difference, that whereas in palaeontology the changes have been slow though always progressive, during the Victorian-Edwardian period mechanical progress and development have kept pace with the requirements of men and of nations. In nature's evolutions man has had to wait developments; in the modern application of mechanical science to domestic economy the developments have awaited the magis touch of man's ingenuity. No man has been found wanting in meeting the various exigencies of modern progress, thanks to the inauguration and spread of a system of technical education following upon the school age, first established in Germany, and, in the sixties, adopted throughout the industrial centres of Great Britain. Why does not Canada adopt a similar course?

The application of steam as a motor is comparatively a modern discovery, yet what a powerful ally it was to the development of international peace and prosperity, more than doubly lengthening every working day, and decreasing distances not only between town and country, but between the countries on the globe's surface. The subject of electricity to human requirements was the next step in advance as evidenced in the insular telegraph, extended into the trans-Atlantic cable, and now bringing all the world into touch as if by magic. The telephone was a wonderful adaptation of the mastery of mind over matter, and the electric light a no less potent force to universal illumination. And now electricity whenever available has superseded steam as a motive power. But this marvellous power is not so self-contained that it is itself sufficient to become self-generated; it requires other power to energise its latent forces. But there is one apparently inexhaustive force concentrating enormous energy in a lighted match or an electric spring at once to active operation; and this energy is never absent when this fluid is ignited under certain well known conditions—we refer to the common coal oil of commerce. In the utilisation of coal oil as a motive power, instead of utilising it to most industrial purposes, it is necessary to adapt machinery to the requirements of the oil. This has been successfully accomplished in the interests of the great agricultural community of our Northwest by the "Universal" Motor Tractor which Dr. Coard, president of the Northwestern Agricultural College, Regina, has constructed to do everything upon the farm that has hitherto been done by horses, oxen, mules, or steam, or either or all combined. This motor, he claims, will do the work daily of forty oxen, and that all the year round if required. As originally constructed, this motor and alterations to render it all that could be desired for western Canada otherwise it would have been put in to service last year. Dr. Coard's practical knowledge of prairie farming enabled him to offer the manufacturing a number of suggested alterations, and these having been completed, the first Motor Tractor will reach Regina this spring. Last year in open competition with the world's new implements this motor took the highest award of the Royal Agricultural Society of England, and during the autumn carried off seven gold and silver medals.

The motor tractor as supplied consists of a complete tractor capable of being attached to any existing agricultural implement, lorry, wagon, buggy, or other vehicle. It is supplied with a lorry to carry two tons, and to this it will trail another lorry or wagon, or anything else in vehicle shape, aggregating as much as eight tons altogether. When the lorry body is removed provision is made at the end of the motor frame for attaching in a few minutes implements and wagons of all kinds—ploughs, harrows, seeders, drills, rollers, reapers and binders, cultivators or anything else. In front of the motor a pulley is attached for driving fixed machinery of all kinds by means of a belt. The motor has forward or reverse motions on three speeds, is mounted on three wheels, all of which propel, and it is fitted with powerful foot and hand brakes. The motor cannot slip under any conditions, and it runs as well over uneven as on level ground. It is fifty horse power and its fuel is common coal oil. It will carry in its lorry two tons and haul another four tons eight miles an hour at a cost for fuel of 96 cents. It will plow an acre of virgin prairie, however hard, at a cost of one dollar; it will haul three cutters and binders operating at a cost of 27 cents per acre. The motor will carry, haul, plough, reap, bind, cultivate, drive a threshing machine, cut or grind feed, saw wood, haul grain, water, wood, coals, road wagons, and generate electric light. In military manoeuvring it will haul cannon, ammunition, and all other supplies for an army service corps. Dr. Coard says that if the necessary conveniences can be arranged by local committees, it will present a novel exhibit at the Canadian agricultural exhibitions this year. Each day the motor will cut, bind, and thresh one acre of wheat, convey the grain to the mill, return to the exhibition grounds with the flour, then return to the cleared acre, plough it, prepare the seed bed and sow another acre for another crop, meanwhile the flour will be converted into bread, and on the return of the motor from seeding the bread will be distributed to the public, all this being accomplished during one afternoon, and the motor being the only motive power utilised.

Dr. Coard states that while the motor is the strongest possible in material it is neat and "finished" in every way, and whilst every part requiring oiling or other attention is easily got at, standing there is nothing to corrode, collect dust or mud or get out of order. It can either slip, topple over, nor twist; and it is so simply handled that a child can both drive and control it. Only one man is required for the Motor lorry and trailer, but in farming operations it can be supplemented by one help to each extra implement.

By horse cultivation it will cost to prepare 160 acres seeding, exclusive of horses' keep and wages of teamsters, \$1,260; by steam cultivation \$1,024; by the Universal Motor only \$680 including wear, and tear, and depreciation.

Horses at the best are only working about 151 days in each year, and when not working are eating their heads off. The Motor can be used every day, but when not in use does not require feed or veterinary fees. Proper lubrication when at work, and a dry shed when not in use are its only necessities. The oil is lighted by an electric spark. The spark being carried in a box always ready to start work. Every bearing, excepting in the engine, is a roller bearing, having long steel rollers revolving in a steel bush, and finished with dust-proof caps or collars. Every vital part of the motor is made of steel. For transportation by water or railway the Motor and Lorry are hoisted up in a case, and together weigh about three and a quarter tons. The price of the motor and lorry have been fixed to meet western Canadian agricultural needs.

Lord Strathcona, the Canadian high commissioner in England, has taken an active interest in its adoption, and is recommending its adoption in the Dominion.

ADDITIONAL LOCALS

J. B. Hawkes of Balgonie was in the city yesterday.

Miss Mary Clarke of Prince Albert is in the city the guest of Mr. John A. Kerr.

The Irishmen of the city will meet in the Clayton Hotel this evening to organise a national society.

The Canadian Northern will take over the express business of the north line on the 18th inst.

Mr. D. Hyndman and the Misses Hyndman of Vancouver are guests at the Lansdowne.

P. McAra, Jr. has sold three lots in block 227 on Dewdney street to the Presbyterians for a north end church site. It is anticipated that a building will be erected on this property at an early date.

Mayor Smith, as chairman of the municipal commission and J. Kelso Hester as clerk, will go to Milestone tomorrow to arbitrate in a dispute between the town and the townsite trustees.

E. L. Elwood of Mooseomin was in the city Thursday last.

The Saskatoon Capital which unfortunately was burned out this winter, has now caught its feet again, and is out as an evening paper creditable to the management and to the central city of Saskatoon.

F. W. Evetts an old time rancher of the Qu'Appelle Valley was in the city for a few days last week on route to his present home at Kelowna, B. C. He had been to the old country for the winter. While here he renewed many acquaintances.

Members of the government have promised to go to Arcola to open the new town hall at that place. It is anticipated that they will take advantage of the occasion to announce that Arcola has been chosen as the seat of the judicial district of Cammington.

The plan of seats for the St. Patrick's concert to be given under the auspices of St. Mary's Ladies Aid in the city hall next Monday evening is now open at the Canada Drug and Book Co. Those intending to be present are advised to book early. The best local talent will be on the program at this concert.

S. A. Hamilton of Radisson has been in the city for several days. He interviewed the government as a delegate from Redberry asking for traffic bridge across the Saskatchewan.

Mr. Hamilton was the provincial rights candidate in the general elections. He has sold out his lumber interests at Radisson and will be away from there for some time.

Ald. Thos. Wilkinson went to Ottawa Sunday evening to give evidence before the parliamentary committee of the House respecting the alleged lumber combine. It is understood that Ald. Wilkinson is in possession of very strong evidence touching this inquiry. Moose Jaw also sent a delegation.

Dr. Molloy has asked for a recount in Morris, Man., where Hon. Colin H. Campbell claims the seat by two majorities. The defeat of Mr. Campbell will result in J. H. Howden of Neepawa being taken into the cabinet as attorney general. Hugh Armstrong will succeed Dr. McFadden, while Dr. McInnis, Brandon, will be speaker.

Supt. Brownie was in the city yesterday conferring with the city authorities respecting the new waste-house track scheme proposed by the city. The C.P.R. official has expressed his approval of the principle of the project but the question of curves will have to be gone into before an agreement is reached.

The Regina and Mooseomin hockey teams met here on Monday evening in the finals for the provincial championship. The gateway boys were not fast enough for the Mooseomin team but they were very plucky. After the match the home club entertained the visitors at the Imperial Cafe, where a pleasant time was spent and a program rendered. There were one hundred and sixty-five in the city and one hundred and thirty from Mooseomin and many from other points by special train. The visiting ladies were kindly entertained at luncheon at the Elks' club.

W. R. Jamieson of Lunenburg, one of the old timers was in the city on Thursday. Mr. Jamieson has sold his farm adjoining the valley town, and anticipates taking a holiday jaunt to the old country. It was 26 years ago since Mr. Jamieson came to the North-west. At that time Brandon was the end of the coast road and horses were used for transportation. From there he came west with oxen and horses. During the winter he lost several horses which were taken by the Indians and Half-breeds and for which he was not recompensed by the government. Mr. Jamieson is a native of the Shetland Islands which he expects to visit this summer, after an absence of twenty years having only visited there once during that time.

His Lordship Bishop Vay de Vaya who was recently a guest at Government House, went from here to Lethbridge, where he is to meet the Hungarian miners. One of his objects in making a tour of the west is to meet his compatriots who have settled in this country and to assure them of his interest. He stayed off at Esterhazy for a couple of days and visited the colony. His Lordship is pleased at the progress the Hungarians are making and is confident that they will prove to be a valuable acquisition to our population. After visiting Lethbridge he will proceed to Vancouver where he will call for Korea.

Mrs. A. L. Hughes and daughter are guests in the city and are staying at the Lansdowne.

It is learned that J. F. Frame, law clerk of the legislature and the attorney general's department will sever his connection with the government service after the session and become a partner in the law firm of McKennie, Brown and Thom. Mr. Frame has been with the government for a year and during part of that time has acted as deputy attorney general and he has had a hand in much of the legislation that is being put through this session. Prior to coming to Saskatoon, Mr. Frame had a successful law practice at Halifax, N.S. His many

friends in Regina will be pleased to note his connection with the well known firm of this city and they will wish him every success.

LEGISLATURE

(Continued from page 4.)

He suggested to the commissioner of education that the way out of the difficulty was to nationalise the whole school system of the province, and then these schools could be placed under one board.

Mr. Langley—That would set the country on fire.

Mr. Haultain—We might just as well start a big fire as a little one.

Clause 51 deals with taxation, and Mr. Haultain urged that the power therein contained might be disposed of with and save any possibility of unjust taxation. Mr. Langley supported this view and the clause was allowed to stand.

The speaker took the chair at 5:20 and the House adjourned.

GOVERNMENT DISMISSALS ENQUIRED INTO

(Continued from page 1.)

which Mr. Motherwell replied "all of them."

Mr. Haultain—I thought so.

Dr. Elcott asked how long before Mr. Honeyman was dismissed had the minister learned he was not a capable official?

Mr. Motherwell—I am responsible for his dismissal.

Mr. Haultain—Oh, that is the attitude the hon. gentleman takes, then he will have to change that attitude for we expect information and if the hon. gentleman wants his estimates through he will have to furnish that information.

Mr. Motherwell—I never said that Mr. Honeyman was a competent official.

Mr. Haultain—It is palpable with everyone that he was a competent official.

Mr. Nesley—What is the difference between a faithful servant and a competent servant?

Mr. Haultain—Well, to illustrate. The hon. gentleman might be faithful to a certain party, but he might

Words of Fraise

For the several ingredients of which Dr. Pierce's medicine are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonials. Dr. Pierce's Favorite Prescription has been used by thousands of women suffering from frequent headaches, backache, nervousness, catarrhal, pelvic, ovarian, uterine, or menstrual troubles, and in all cases of female weakness, or other derangement of the female organs, you can not do better than take Dr. Pierce's Favorite Prescription.

The hospital surgeon's report and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the chronic sufferings and local treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home. "Favorite Prescription" is composed of the very best natural medicinal roots known to medical science for the cure of woman's peculiar ailments, containing no alcohol and no harmful habit-forming drugs.

Do not expect too much from "Favorite Prescription." It will not perform miracles; it will not dispense of cure tumors. No medicine will. It will do as much as establish vigorous health in most weak, nervous and ailing people, incident to woman as any medicinal drug. It may be used as a fair change by paralytics in its use for a reasonable length of time.

Men can consult to know a secret remedy, or substitute for this remedy of known composition.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as strictly secret and usually sent by registered mail by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

WEDNESDAY, March 13, 1907.

TEST CASE IN SIGHT

A few months ago, during the coal famine the Government was forced to admit the inferior and embarrassing position which the province is in respecting the land settlement under the autonomy terms, and now that they are considering the question of secondary education they are up against it again with respect to the separate school surrender in the Saskatchewan Act.

Mr. Haultain warned the Government against the trouble that would ensue by reason of the province being tied hand and foot in dealing with educational matters, which every province should be perfectly free to legislate in, but coercion prevailed.

Today, however, and little more than a year has passed away, the Government finds it necessary, in dealing with the question of education, to bring down a measure that is ultra vires of the province under the autonomy terms.

Mr. Cadder admitted in moving the second reading of his bill that the high school system was contemplated and actually begun under the Ordinance of 1901, and the creation of a separate school of management will not avoid a clash with the minority over their rights.

With all their adroitness, swallowing and hedging, the Government are up against a test case, which from the Provincial Rights standpoint, cannot come too soon, and which is the last thing the Government anticipated or intended to happen.

Advertisement for Scott's Emulsion, featuring a fisherman carrying a large fish on his back. Text: 'Girlhood and Scott's Emulsion are linked together. The girl who takes Scott's Emulsion has plenty of rich, red blood; she is plump, active and energetic.'

await the action of the minority in this matter, for an appeal to the courts will throw the whole constitutional question open, thus bringing the Government to the point which they took such precautions to evade.

THE LORD'S DAY ACT

From one end to the other the country is crying for better transportation facilities and so acute is the situation in Regina at one time this winter that the city council held a Sunday sitting to consider the matter.

On March the first the new Lord's Day Act came into force, and on Sunday last all freight trains were tied up twenty-four hours while the next twenty-four hours they were held on account of storm.

MANITOBA ELECTIONS

The emphatic verdict of the people of Manitoba, invited as it was on the boundary question, is not any too reassuring to this province with respect to the Hudson's Bay territory.

Outside of the boundary question, the Manitoba government has a constructive record that is hard to beat and notwithstanding the cry against their railway policy, it is the basis of a great second system, that in this province in the provincial elections, the Scott government pointed to with pride and asked the electors to consider as a factor in transportation which they would encourage.

THE REFERENCE DEAD

Judging from the returns brought down in the legislature Friday last by Attorney General Lamont as the result of a motion by Mr. Haultain for all correspondence with the Dominion Government respecting the reference of the constitutionality of the Saskatchewan Act, there is every reason to believe that the matter has been dropped by both governments and has been practically smothered by a conspiracy.

The people will remember to what extent this question was an issue in the provincial elections, and they will readily recall the attitude of the government in having a private member of the House bring in a resolution early in the session to have this matter referred to the Privy Council.

EDITORIAL NOTES

The reply of Sir Wilfrid Laurier to Mr. Bourassa that the Government will take no action with regard to the Fowler accusations because that gentleman did not make a specific charge, is not good enough for the people of Canada.

Prof. Bland has been transferred to the Saskatchewan conference since the Manitoba elections. This is a clear indication that the Scott Government intends to bring on the by-election in the Prince Albert district.

Whereas the legislature of the province of Saskatchewan believes that the parliament of Canada had power to pass the said act, and the several provisions thereof.

It is apparent from the election results that with all the faults of the Roblin Government, the people love them still.

FLOW RAN INTO STALLED ENGINE

Winnipeg, March 8.—Conductor W. J. Walsh, of Winnipeg, was instantly killed last night in a collision between an engine and a snow plow just east of Mather on the Canadian Pacific. The accident occurred at 10 o'clock and was caused by a wing snow plow, which was being pushed by engine No. 468 running into engine No. 142, which had been stalled in the snow.

BACHELORDOM

A pipe, a book, A cosy nook, A fire—at least its embers— A dog, a glass— 'Tis thus we pass Such hours as one remembers. Who'd wish to wed? Poor Cupid's dead. These thousand years, I wager. The modern maid Is but a jade. Not worth the time to cage her In silken gowns.

BLIZZARD IN EASTERN CANADA

Halifax, March 8.—Reports of death in a blizzard yesterday in Cape Breton and eastern Nova Scotia are being brought in. Many of the towns are still isolated. At least two, and possibly three were frozen to death, their bodies being found after the storm. They were Angus McDonald, of Antigonish Harbor; S. Brown an employee of Sidney mines, and two boys who were found unconscious in a snow drift. They may not recover.

TAXING UTILITIES

Edmonton, March 8.—The Alberta legislature yesterday passed Premier Rutherford's bill for the purpose of taxing corporations. The bill provides for the taxation of all conceivable utilities and financial concerns. The street railways will pay \$300 per annum and \$10 per mile for everything over 28 miles; telegraph companies 50 cents per instrument in cities and 25 cents in towns; gas companies \$500 annually; electric light companies \$500 in cities and \$300 in towns; and \$25 in villages; express companies \$500; corporations taking money on deposit, \$300; banks \$400 for each head office and \$200 for branch; private banks \$200 and \$25 for each branch; insurance companies one per cent. on the gross premiums; trust and loan companies one hundred dollars on every \$100,000 of capital.

WEEKLY REVIEW

While at hockey practice J. H. Truesdale, city clerk of Saskatoon, fell on the ice and broke his right arm.

The death occurred at Toronto of Mrs. Harman (Susannah Booth) whose life extended over 101 years. Mrs. Harman was the widow of the late James Harman and sister of Mr. Booth of the Booth Copper Co.

The Rev. Dr. Carman and Rev. Dr. Potts were tendered a banquet in the Metropolitan Methodist church at Toronto on Monday of their golden jubilee in the ministry. Both men having been over fifty years in the pulpit.

Twelve carloads of settlers' effects left Toronto last week. This was the first settlers' train to go out this season. The G.T.R. and C.P.R. have made arrangements to run them every Tuesday during this month and next.

The fine new municipal buildings at Sault Ste. Marie, were destroyed by fire recently, also the public library and fire hall. The loss will be upwards of \$50,000 partly covered by insurance.

In reply to the request of the Montreal Wanderers for dates for Stanley cup games, the Kenora Thistles wired asking to play next Tuesday and Friday, March 12 and 15, the majority of goals to count.

Miss Elton Connors, who lived in a small home near Buckingham, Ont., was found frozen to death sitting in a chair with a few shavings at her feet. It is thought that she was in the act of lighting a fire when she dropped dead.

Gen. Wm. Booth, leader of the Salvation Army, has arrived in New York from London, Eng. He intends coming west on a trip, and will visit Toronto, Ottawa, Winnipeg and Vancouver and perhaps intermediate points.

By an explosion of powder at the Richards Colliery at Mount Carmel several buildings were blown up. 80 persons were injured, several fatally. The business street in Mount Carmel was badly shaken. Window panes were broken seven miles away by the explosion.

Charles McCue, an Italian living at 180 James street, Hamilton, Ont., attempted suicide by shooting. He shot himself in the chin but the bullet did not touch a vital spot. It is said that he was under the influence of liquor. It is thought he will recover.

NEW PROVINCIAL JUDICIAL DISTRICTS

Boundaries of the Eight Districts Under Legislation Passed This Session

The following schedule of judicial districts under the new district courts act was distributed in the legislature recently. It calls for eight judicial districts. The boundaries for each district are set forth in the schedule which is as follows:

Cammington District
Judicial district of Cammington is bounded as follows: Commencing at the south-east corner of the province of Saskatchewan, thence northerly along the east boundary of the said province to the north boundary of the eleventh township, thence westerly along the said north boundary of the eleventh township to the meridian between the tenth and eleventh ranges west of the second meridian, thence southerly along the said meridian between the tenth and eleventh ranges to the place of commencement.

Moosomin District
Judicial district of Moosomin is bounded as follows: Commencing at the intersection of the eastern boundary of the province of Saskatchewan by the north boundary of the eleventh township, thence easterly along the said eastern boundary of the province to the north boundary of the twentieth township, thence westerly along the said north boundary of the twentieth township to the meridian between the tenth and eleventh ranges west of the second meridian, thence southerly along the said meridian between the tenth and eleventh ranges to the place of commencement.

Yorkton District
Judicial district of Yorkton bounded as follows: Commencing at the intersection of the eastern boundary of the province by the north boundary of the twentieth township thence northerly along the eastern boundary of the province to the north boundary of the fortieth township, thence westerly along the said north boundary of the fortieth township to the meridian between the tenth and eleventh ranges west of the second meridian, thence southerly along the said meridian between the tenth and eleventh ranges to the north boundary of the twentieth township, thence easterly along the said eastern boundary of the province to the point of commencement.

Regina District
Judicial district of Regina bounded as follows: Commencing at the meridian between the tenth and eleventh ranges west of the second meridian, thence southerly along the said meridian to the north boundary of the twentieth township, thence easterly along the said eastern boundary of the province to the point of commencement.

western boundary of the province, thence southerly along the said western boundary to the northern boundary of the twentieth township, thence easterly along the said northern boundary of the twentieth township to the point of commencement.

Prince Albert District
Judicial district of Prince Albert bounded as follows: Commencing at the intersection of the eastern boundary of the province by the north boundary of the fortieth township, thence northerly along the said northern boundary of the province to the northern boundary thereof, thence westerly along the said northern boundary to the meridian between the sixth and seventh ranges west of the third meridian, thence southerly along the said meridian between the sixth and seventh ranges to a point where it is intersected by the South bank of the North Saskatchewan river, thence along the said south bank of the North Saskatchewan river up stream to the point where it is intersected by the north boundary of the fortieth township, thence easterly along the said eastern boundary of the province to the point of commencement.

The most brutal hockey game ever played in the Maritime provinces was played last week at Moncton between Moncton and Sackville. Several players were badly cut up and had to be carried off the ice. Several free-for-all occurred during the game. The mill lasted two hours and blood ran freely.

An important government statement against Sunday street cars was made by Premier Whitney of the Ontario House, and as a result Port Arthur must stop running its street cars on Sunday. The question is whether the Port Arthur bill was regarded as seriously affecting the Government's policy.

President C. W. Elliott of Harvard University in his annual report, maintains that football, despite the new rules, remains an unwholesome game for gentlemen to play. He declared that football is properly described by the adjective "ferocious" and that no game in which there is a recklessness, causing or receiving bodily injury is fit for college use.

Silver ore rivaling in richness that found in the Cobalt district has been discovered at Island Lake, 16 miles from Sault Ste. Marie. The discovery was made by A. D. Gilles, a vein two feet wide and growing wider as the digging progresses being found. Prospectors are planning to rush to the district and to work new claims at once.

The Crawford Bay and St. Mary's Railway Co.'s bill authorizing the construction of a railway from Lethbridge easterly through Alberta into Saskatchewan, south of the Sanadine Pacific, to Hartney, Man., has been reported to the railway committee of the House of Commons at Ottawa. The promoters are French capitalists with large mining and smelting interests in the Kootenay district.

The preliminary hearing of Wilson Lyle who is accused of killing James Alexander at Tenby, on Feb. 18th, 1907 was held at Portage la Prairie last week before Magistrate Marshall and the prisoner was committed to stand trial at the spring assizes on March 19. No evidence for the defence was submitted and the trial lasted only half an hour. F. G. Taylor, crown prosecutor, has charge of the prosecution and the defence is in charge of Bert Ryan.

Roblin Speaks
Speaking in the Walker theatre after the election result were known Premier Roblin said: "I am really unable to express appreciation and gratitude for the victory tonight in the city and province but we have four more years anyway so I will return thanks to the people who have taken the lead in getting themselves and their sacred calling as to be willing to stand in the pulpit and say things which are untrue and which they know to be untrue. I want to say here tonight that men like Rev. C. W. Gordon, Prof. Blank and others are not only political degenerates, but moral degenerates as well. They are a disgrace to the cloth. I know of what I speak. I know whether their statements are true. They spoke against myself and I know that their statements are a collection of falsehoods. They knew they were such and they are willing to stand in the pulpit and make these false statements in order to assist their party. There has been shown in this campaign by this Manitoba of ours a sense of honesty and justice, and we now have the satisfaction of hearing the country say of them 'Away with these men.'"

Mr. Brown
Mr. Brown speaking at the Liberal headquarters the speaker of the election was received with cheers, said he was very glad to know he still had friends. He felt his defeat more from their standpoint than from his own. He regretted nothing in this campaign, feeling he had done his duty, except the slanders circulated in this constituency against the private character of himself and some of his friends. A policy of midnight assassination had been followed, statements which dared not be openly made in the newspapers or on the platform had been circulated, but he believed a reaction would come. He felt sure that in polls like 4 and 5 the vote had been stolen rather than money and other influences had succeeded. He pointed out that at any

time and also with a view of securing prompt development of all further areas opened to private enterprise instead of having them held merely for speculative purposes by purchasers who have no intention of making actual developments. Hereafter, according to an order in council passed on Saturday last, the government will only lease rights to mine coal on all lands still comprising crown domain in the west. Under the old Conservative regime the lands acquired by the C.P.R., the Hudson's Bay Co., school lands, etc. were given without any proviso as to the government's right to any coal found thereon. Later the law was changed so as to allow the purchaser to buy the surface rights at \$2 per acre and coal rights at \$7 per acre, making a total of \$10 an acre for absolute control of all lands in the coal bearing area. A royalty of so much per ton was also required by the present government. Under these regulations, which have now been cancelled, many millions of acres of coal lands have passed out of the control of the government, and there has been complaint in the west because known coal bearing areas are not being developed, but are held for speculative purposes to the detriment of the settlers as a whole.

NEW COAL REGULATION

Government Takes Steps Now to Conserve Fuel Area

Ottawa, March 7.—An important change has been made by the government in the matter of the regulations governing the acquisition of coal bearing lands in the west still under control of the government with a view to preventing any further alienation of the western coal areas to the absolute control of private par-

ty along the said north boundary of the fortieth township to the point of commencement.

Battleford District
Judicial district of Battleford is bounded as follows: Commencing at the point where the meridian between the sixth and seventh ranges west of the third meridian is intersected by the south branch of the North Saskatchewan river, thence northerly along the said meridian between the sixth and seventh ranges to the western boundary of the province, thence southerly along the western boundary of the province to the north boundary of the fortieth township, thence easterly along the said north boundary of the fortieth township to the point where it is intersected by the north bank of the North Saskatchewan river, thence along the south bank of the North Saskatchewan river down stream to the point of commencement.

ROBLIN GOVERNMENT IS SUSTAINED

Premier Regards Verdict as Severe Rebuke to Trauducers--Majorities are Large--One Unilateral Defeated--No Liberal Leader

Winnipeg, Man., March 12.—The smoke of battle has cleared away in Manitoba and the Government emerges from the fight almost as strong in numbers as in the last House, while they are much stronger morally, having successfully met the accusations of intemperance and graft hurled against them by Liberal purists and ministers of the gospel while the Liberal leaders are defeated so hopelessly that the party is deplorably weak and cannot pull itself together in the next four years.

Richardson made a splendid fight for which he must receive due credit and he is now more clearly indicated the new leader than Ed. Brown.

Roblin Speaks
Speaking in the Walker theatre after the election result were known Premier Roblin said: "I am really unable to express appreciation and gratitude for the victory tonight in the city and province but we have four more years anyway so I will return thanks to the people who have taken the lead in getting themselves and their sacred calling as to be willing to stand in the pulpit and say things which are untrue and which they know to be untrue. I want to say here tonight that men like Rev. C. W. Gordon, Prof. Blank and others are not only political degenerates, but moral degenerates as well. They are a disgrace to the cloth. I know of what I speak. I know whether their statements are true. They spoke against myself and I know that their statements are a collection of falsehoods. They knew they were such and they are willing to stand in the pulpit and make these false statements in order to assist their party. There has been shown in this campaign by this Manitoba of ours a sense of honesty and justice, and we now have the satisfaction of hearing the country say of them 'Away with these men.'"

Mr. Brown
Mr. Brown speaking at the Liberal headquarters the speaker of the election was received with cheers, said he was very glad to know he still had friends. He felt his defeat more from their standpoint than from his own. chaser to buy the surface rights at \$2 per acre and coal rights at \$7 per acre, making a total of \$10 an acre for absolute control of all lands in the coal bearing area. A royalty of so much per ton was also required by the present government. Under these regulations, which have now been cancelled, many millions of acres of coal lands have passed out of the control of the government, and there has been complaint in the west because known coal bearing areas are not being developed, but are held for speculative purposes to the detriment of the settlers as a whole.

The New Regulations
It is believed, however, that as much coal bearing land remains still under government control in Alberta Saskatchewan and the Peace River district as has already been alienated. It is proposed that hereafter a twenty-one year lease be granted to private individuals wishing to get control of coal bearing lands, and that an annual rental be charged by the government. The rental will probably be \$1 per acre, and the lease will have to be taken for a minimum area. This minimum area will, it is said, be about 2,500 acres, so that the annual rental cannot be less than \$2,500. This will insure the prompt development and meet the objections as to speculators holding the coal lands for a raise in price, without doing anything to develop them. It will also pave the way to future government ownership and operation of coal mines if it should be deemed advisable.

Windsor, Ont., March 8.—Senator O. T. Casper died this afternoon at the Hotel D'Or here after a lingering illness. He was born August 8, 1826.

PAIN
Pain in the head—pain anywhere, has its cause. Pain is generated, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet, that has been called Dr. Shoop's Headache Tablets, which equalize blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood pressure. If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are restless, restless nervous, it's blood pressure—blood pressure. That's why it is a necessary for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablet simply distributes the unnatural blood pressure. Bring your hands, and doesn't get red, and swell, and pain you. Of course it does. It's common, blood pressure. You'll find it where you always. It's simply Common Sense. We sell at 25 cents, and usually recommended.

UNANIMOUS FOR THE UNIVERSITY

Both Sides of House United on the Principle of Mr. Calder's Bill--Mr. Haultain Says Divorce it From Politics

Unanimous for University. There was complete unanimity in the legislature yesterday when Mr. Calder moved the second reading of his university bill.

In speaking to his motion Mr. Calder said that in all the subjects before the legislature this session none was of more importance than the university bill.

The preamble of the bill sets forth that it is desirable to establish in and for the whole province of Saskatchewan a university for the purpose of providing facilities for higher education in all its branches and enabling all persons without regard to race, creed or religion to take full advantage of the same.

Dealing with the machinery of government, Mr. Calder said the most important feature was the providing for the governing bodies, a board of governors, a senate and a council. Provision was also made for the appointment of a president.

GONE UP WITHOUT CHARIOT

Chicago, March 9.—John Alexander Dowie, Elijah 2nd, died this morning at Zion city. There were present with him when he died Judge Barnes and two personal attendants.

full control over the finances and business affairs of the university as distinct from the scholastic side. They would be men of business and affairs and should be chosen for their business qualifications rather than their scholastic attainments.

The senate would consist of not less than sixteen members, four of whom would be ex-officio members, three to be appointed by the government and nine to be elected by convocation.

The Dominion government has already been approached to make a land grant to the university and he hoped that this aid will be materialized as it did in the case of Manitoba which received 150,000 acres.

Mr. Haultain took objection to the government making three appointments to the board of management. He believed it should be wholly divorced if possible from the government.

He was in entire accord with making the university non-sectarian in character. He believed that it would not only be free from control by any religious body but free from all influence by any combination of religious bodies.

with old time vigor, ordered the guards to throw out the disturbers and acted just as he had on many previous occasions. He gradually became weaker and weaker, and an attendant telephoned for Judge Barn who reached Shiloh House at 7 a.m.

Because he attempted to whip a boy pupil, Perry Evans, teacher of a country school at Cotebo, Okla. was assaulted by a number of male pupils and injured so that he died a few hours later. The young man who committed the assault are under arrest.

NOTICE

NOTICE is hereby given that after the publication of this notice in the next four issues of the Regina West the undersigned company will apply to the Registrar of Joint Stock Companies to change the name of the said company to the NATIONAL SECURITIES COMPANY LIMITED.

THIS NOTICE is given pursuant to the provision of the Companies Ordinance and in accordance with a special resolution of a majority of the shareholders of the said Company passed at a regular meeting held at the city of Regina on the 5th day of March, 1907.

The provincial fat stock show will be held on the 20th, 21st and 22nd inst. Single fares for the round trip are in force from all points in Saskatchewan.

Advice For The Tired Women

Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness? Something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs.

Dr. Pierce, during a long period of practice, found that a prescription made up of the active medicinal principles of nature's most powerful and useful remedies, combined with the use of chemically pure glycerine, cured over ninety per cent. of such cases.

"A remedy which invariably acts as a stimulant invigorator and always favors a condition which makes for normal activity of the entire system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine."

To Consumptives

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease Consumption is anxious to make known to all who follow sufferers a means of cure.

How to live in health and happiness is the great theme of Dr. Perry's Common Sense Medical Adviser. This great work of medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only.

AYLESBURY

Aylesbury, March 12.—Dave Merchant and bride have arrived from Ontario. Otto Messner, wife and child arrived from Minnesota on the 11th, inst. also Mrs. Van Holton.

AYLESBURY

Since the arrival of the little daughter. Jessie Pratt also wears a smiling face since the arrival of a little son. The Friday parties have proved a success the past five weeks, the least number being present was 45.

"Could the consumptives of any given community be seen at one time, or pass in panorama before the people, public consciousness of the magnitude of the affliction might be aroused. A physical disaster shocks the world and lets loose the sympathy of millions. A few thousand deaths are nothing as compared with the deaths from consumption." LAWRENCE F. FLICK, M.D., Medical Director of Henry Phipps Institute for the Study, Treatment and Prevention of Tuberculosis.

Many reasons surely must influence men and women to help in the great work being carried on by the MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

Other hospitals refuse the consumptive. This institution cares for them. Not a single applicant has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Seven hundred and thirty-eight patients have been cared for since the Free Hospital was opened in 1902. Take a week's record:

63 patients in residence; 37 absolutely free, not paying a copper toward their maintenance; 15 paying 50 cents a day or less; 5 paying \$4.00 a week; 4 paying \$5.00; one paying \$7.00.

These figures tell plainly of a large deficit on maintenance account each month. To cover this the trustees are dependent upon the contributions that come to them from friends in all parts of Canada.

Not since the days of George Muller has so great a work of faith been carried on.

Will you help divide this load with the trustees? Contributions may be sent to SIR WM. R. MEREDITH, Kt., Chief Justice, Osmonds Hall, Toronto, or W. J. Gage, Esq., 54 Front Street, W., Toronto.

Applications for admission and all information from J. S. BARNETTSON, Secretary National Sanitarium Association, (Saturday Night Building), 28 Adelaide Street, W., Toronto, Canada.

Administrative Building, MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

Bargains that are Bargains. Come while these values are being offered. They won't last for ever. Many lines continually being cleared.

"SUN" Oronhyatekha Passes A

Toronto, Mar 10.—The funeral of Oronhyatekha took place today at 1 o'clock today at the residence of Dr. Oronhyatekha where the funeral Oronhyatekha is his 67th year. He first saw the light in 1841 at the reservation near English education industrial school established for the Indians, and supported by the New England headquarters where he acquired an English education for knowledge of his home, and for a the Wesleyan head Mass. Being with at the outset of a family of development of self reliance, resolution that had vital factors in the since attended his school. In the days of his youth, he found it difficult to get on when the severest need for bread with sections. It is to be noted that while at Wood for a Methodist cuts into each side him forty cents, being the fact that he school hours for usually was found head of his class time, and during Wilbraham, he took number of marks in of study. For a year after him he taught school home among his college education Kenyon college, Ohio for three years two years' studies. He also spent three to university. Honored by Canada in 1890. On his twentieth year by the chiefs of the present an address that grew into a young party was to favor Oronhyatekha was invited studies in Oxford, under the care of the Rev. Mr. Henry Arden, a great scholar. As a physician, Dr had before him a promise of distinction. He commenced Frankford, near Belleville, Hastings County, Ontario. On leaving Frankford his friends evidenced presenting him with a gold watch. He removed to London where he built up an ideal practice. It was the last mentioned place initiated into the Order of Foresters. He rose position of chief of the order, and at the separation in 1885 he to the office of supreme which he has held ever His devotion to Forester ever increasing demands made by the rapid growth necessitated the resignation of the active his profession. The Independent Order suggested the desirability the executive office in which they were 1869, and since then his social residence has been Home at Desert. Oronhyatekha was adopted a family man. They had Desrobert, where he had stock farm, he repaired his responsible duties as his wife was Miss Felix Mohawk tribe, a great-granddaughter of the celebrated Capt. John Brant's daughter survive. The Acland, after his father and teacher, Sir Henry Oxford, and is a graduate of Trinity University. In the midst of his the doctor kept his own his tribe and people into Press on Indian education gathering of teachers and lists, held in Toronto, was one of the cleverest men. He was proud of his rugged, and in his home to the Mohawk language used. Through a Conservative but little part in act for some years, concluding chief executive officer of organization, that numbers its membership thousands great parties, should keep partisan strife. Dr. Oronhyatekha had very experience, and during his aid of 1896 did some as a member of the rifles, the old Company Queen's Own. Some time won as a member of the bladen team, at the end his aim as a marksman. Oronhyatekha also attended a number of the sides the Foresters. He known as an Orangeman, been a Canadian delegate emial council that met some years ago. As a man

"SUN OF THE MORNING" HAS FOR EVER SET

Oronhyatekha Head of the Independent Foresters Passes Away and is Buried on Indian Reserve With Mohawk Ancestors

Toronto, March 7.—A special train left the Union station at 10 o'clock today to convey the remains of Dr. Oronhyatekha to Deseronto, where the funeral will take place. Oronhyatekha has passed away in his 67th year.

He first saw the light on August 10th, 1841 at the Six Nation Indian reservation near Brantford, Ont. His English education was begun in the industrial school near Brantford, established for the training of young Indians, and supported and maintained by the New England Co., whose headquarters were in London, Eng., where he acquired the rudiments of an English education. His desire for knowledge took him away from home, and for a time he studied at the Wesleyan academy at Wilbraham, Mass. Being without means he had at the outset of his career an opportunity of developing those qualities of self reliance, perseverance, and resolution that have been such essential factors in the success that has since attended his career.

In the days of distinction and plenty, he found it pleasant to indulge in reminiscences of those early days, when the severest efforts only sufficed for bread without butter, or confections. It is told how on one occasion while at Wilbraham, he found himself in funds by saving a cord of wood for a Methodist minister, who cuts into each stick. This brought him forty cents. But notwithstanding the fact that he had to work after school hours for his support, he usually was found standing at the head of his class at examination time, and during his last year at Wilbraham, he took the maximum number of marks in various subjects of study.

For a year after leaving Wilbraham he taught school near his early home among his own people. His collegiate education was begun at Kenyon college, Ohio, where he studied for three years, having taken two years' studies in the first year. He also spent three years at Toronto university.

Honored by The King. When the Prince of Wales visited Canada in 1860, Oronhyatekha, then in his twentieth year, was selected by the chiefs of the Six Nations to present an address to the son of their great mother. The impression made upon the young prince and his party was so favorable that Oronhyatekha was invited to continue his studies in Oxford, which he did, under the care of the Prince's physician, Sir Henry Acland, the first professor of medicine at that institution.

As a physician, Dr. Oronhyatekha had before him a career of promise of distinction and emolument. He commenced practice at Frankford, near Belleville, Ont., and was elected first secretary of the Hastings County Medical association. On leaving Frankford for Stratford, his friends evidenced their esteem by presenting him with an address and a gold watch.

He removed to London in 1875, where he built up an extensive medical practice. It was while living at the last mentioned place that he was initiated into the Independent Order of Foresters. He rose rapidly to the position of chief of the executive of the order, and at the time of the separation in 1881, he was elected to the office of supreme chief ranger, which he has held ever since.

His devotion to forestry, with the ever increasing demands on his time, made by the rapid growth of the order, necessitated the neglect and final abandonment of the active duties of his profession. The rapid growth of the Independent Order of Foresters suggested the desirability of having the executive offices in Toronto, to which city they were removed in 1889, and since then the doctor's official residence has been here.

Home at Deseronto. Oronhyatekha was above all things a family man. To his home near Deseronto, where he had an extensive stock farm, he repaired as often as his responsible duties would permit. His wife was Miss Ellen Hill of the Mohawk tribe, a great-granddaughter of the celebrated Mohawk chief, Capt. John Brant. A son and daughter survive. The son is named Acland, after his father's old friend and teacher, Sir Henry Acland of Oxford, and is a graduate of medicine of Trinity University, Toronto.

In the midst of his many duties the doctor kept his connection with his tribe and people intact. His address on Indian education at a great gathering of teachers and educationists, held in Toronto some years ago was one of the cleverest of the convention.

He was proud of his race and language, and in his home at Deseronto the Mohawk language was always used.

Though a Conservative he had taken but little part in active politics for some years, concluding that the chief executive officer of a great organization, that numbered amongst its membership thousands of both great parties, should keep aloof from partisan strife.

Dr. Oronhyatekha had some military experience, and during the Fenian raid of 1866 did some active duty as a member of the University rifles, the old Company 9 of the Queen's Own. Some nine prizes he won as a member of the first Wimbledon team, attest the accuracy of his aim as a marksman.

Oronhyatekha also attained prominence in a number of societies besides the Foresters. He was well known as an Orangeman, having been a Canadian delegate to the triennial council that met in Glasgow some years ago. As a mason he had

long since passed the third degree. He was once most worshipful grand master-general of the Dominion, of the Royal and Oriental Freemasonry. Some years ago in Edinburgh at the world's gathering of Good Templars, in the right worthy grand lodge, he received by an overwhelming majority, the highest office in the gift of that well known and influential body. As right worthy grand Templar he wore worthily the mantle of his predecessor, Mr. Turnbull of Glasgow, who succeeded the late Hon. John B. Finch, a prominent Forester, and the intimate friend of the present R. W. G. Templar.

Remarkable Man. Oronhyatekha was a remarkable man. Taking hold of the I.O.F. in Canada in 1881, at the time when the order in America was in a perilous way financially, beginning with a very limited experience, by his genius for executive management he developed the Independent Order to a remarkable degree of success. So much so that the progress and stability of the order have often been ascribed to him personally. He undoubtedly became the greatest man in fraternal insurance in the world. He took a pride in the order, and no man was ever more jealous of a reputation than was he of the good name and fame of the society of which he was head. Although subject to criticism in the past half a dozen years, he was ever ready to prove his critics wrong, and the principle and progress of the order sound and honorable.

His characteristics peculiarly fitted him for his position. In appearance he was dignified, but with no false assumption. He always seemed in good humor. He looked the best type of the noble redman. His Indian ancestry was his joy. At a dinner given him in London he described himself as being "more than a British subject, for he had the honor to be an ally of Great Britain." It was owing to the assistance and influence of the Six Nation Indians that the British crown now hold Canada.

His smile was almost beautiful, and the light in his eyes when he presided at any of the Foresteric functions was that of a proud father upon a sturdy family of boys and girls, for it was he who was instrumental in adding the "companion courts." His voice was soft and well modulated. He had the strongest possible belief in himself and his works, he received the honors, the praise and the applause of his fellow "Brethren" with an "evident sincerity." He had a gentleness of manner and a kindness that won him friends everywhere.

"The crowning glory of my life" was the remark he made with reference to the orphanage home he founded at Deseronto, and opened in August 1905, and these words convey strikingly the keynote of his life, which was kindness to one and all. The children appealed to him irresistibly, and he was never happier than when devising means for their amusement or comfort. He celebrated his sixty-fifth and last birthday at the Home, surrounded by his happy inmates, and his quiet and simple light-heartedness was as marked as his own. His nature, indeed, was that which his Indian name signified "Sun of the Morning."

"Preventics" will promptly check a cold or the Grippe when taken early or at the sneeze stage. Preventics cures seated colds as well. Preventics cures a nasty cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free if you will write him. The samples prove their merit. Check early, colds with Preventics and stop Pneumonia. Sold in 5c and 25c boxes by the Regina Pharmacy Stores.

NEW LORD'S DAY ACT

Principal Provisions of Legislation Which Took Effect March 1st

The new Lord's Day Act passed by the federal house last session came into effect on Sunday, March 3rd. The principal provisions of the act are:

The act proper consists really of one clause with exceptions in connection with it.

Section 2 of the bill reads as follows and applies wherever it is not specially stated otherwise, either in the act or by provincial law:

"It shall not be lawful for any person on the Lord's day, except as provided herein, or in any provincial act or law now or hereafter in force to sell or offer for sale, or purchase any goods, chattels, or other personal property, or any real estate, or to carry or transact any business of his ordinary calling, or in connection with any calling, or for gain to do, or employ any other person to do on that day any work, business or labor."

Works of necessity or mercy are not brought under the act and such works are defined as follows:

(a) Any customary work in connection with divine worship.

(b) Relieving sickness and suffering; sale of drugs and medicine and surgical instruments.

(c) Telegraph or telephone messages.

- (d) Keeping fires going in industrial concerns.
- (e) Ventilating, pumping and venting mines.
- (f) Any work without which light, heat, cold, air, water, or gas could not be supplied.
- (g) Conveyance of travellers and work incidental thereto.
- (h) Continuance to destinations of trains and vessels in transit.
- (i) Loading or unloading merchandise at intermediate points.
- (j) Keeping railway tracks and lines open.
- (k) Yard crews allowed to work before six in the morning and after eight in the evening.
- (l) Ocean going vessels.
- (m) Caring of milk, cheese and live animals, and unloading of perishable products and live animals arriving that day.
- (n) Tolls, draw bridges and ferries.
- (o) Hiring of horses, carriages and small-boats for personal use of hire or family for any purpose not prohibited by the act, its amendments.
- (p) Monday morning newspaper preparation allowed after 6 o'clock in the evening.
- (q) Conveyance of mails.
- (r) Delivery of milk and work of domestic servants and watchmen.
- (s) Street railways allowed to operate.
- (t) Work done in the public service of His Majesty.
- (u) Fishermen unavoidable work after 6 p.m.
- (v) Maple sugar making operations allowed.
- (w) Saving property from injury or destruction.
- (x) Clause leaving discretion of the board of railway commissioners regarding traffic.

In connection with telephone or telegraph operators or any other industrial process or in connection with transportation, an employee shall not be required to do on Sunday the usual work of his calling unless he is allowed twenty-four hours consecutively to rest from work during the next six days, except in cases where an industrial employee's work is not more than eight hours a day.

Public games or contests are prohibited. No performance or public meeting elsewhere than in a church, at which a fee is directly or indirectly allowed.

Excursions must not be run or conducted. The conveyance for hire of passengers to such excursions shall not be deemed the conveyance of travellers.

Advertising anything prohibited by the act, or performance, or anything of that sort is prohibited.

Shooting is prohibited.

Sale of foreign newspapers is prohibited.

The penalty for infraction of the act is a fine of not less than one dollar or more than forty dollars and costs.

The employer who authorizes or directs anything done in contravention of the act is liable for a fine not less than \$20 and not exceeding \$100, in addition to any other penalty prescribed by law for the same offence.

Corporations for similar conduct may be fined not less than \$50 and not exceeding \$200; not more than \$500 for every subsequent offence and not less than \$100.

Unless otherwise prohibited railways can operate.

Any existing provincial Lord's day acts are not affected.

The leave of the attorney general for the province is to be obtained before any action or prosecution can be instituted for any infraction of the act, and no proceeding for such offence can be instituted after the expiration of 60 days after date of such alleged offence.

Minard's Liniment Cures Dandruff.

ED. COCHRANE M. P. DEAD

Ottawa, March 8.—Edward Cochrane, M.P. for Northumberland died at the Protestant General hospital this morning. He was suffering from a cancerous growth in the throat for some time, having to be fed artificially. He was 73 years of age.

The late Edward Cochrane was born in the township of Colborne, Northumberland County, Ont., on Jan. 1, 1834, and was the son of

C. Cochrane, of Wakefield, Yorkshire England, and Mary Davis of Wakeford County, Ireland. He was educated in the village of Colborne. He was a farmer, living in Cranshaw township. For many years he was a school trustee and was warden of Northumberland and Durham in 1860. He was elected to the House of Commons at the general election of 1862, but was defeated at the general election of 1868 by eight votes, and on the election being declared void was re-elected on Dec. 22, 1867. This election was also declared void and he was again elected on Nov. 21, 1868. He was returned at each successive general election since. He was a Conservative.

MINARD'S LINIMENT Co., Ltd. Gentlemen.—Theodore Dorais, a customer of mine, was completely cured of rheumatism after five years of suffering by the judicious use of Minard's Liniment.

The above fact can be verified by writing to him, to the Parish Priest or any of his neighbors.

A. COTE, Merchant, St. Isidore, Que., 12th May, '98.

KILLED IN GAME AT CORNWALL

Toronto, March 7.McCourt, of the Cornwall hockey team has died, and Charles Masson, of the Victoria team of Ottawa is under arrest on a charge of manslaughter with intent to inflict bodily injury, as the result of rough play in a game at Cornwall in the Federal league last night. There had been lots of rough play in the first half. In the second half McCourt got away with the puck from a mix-up, when he was struck from behind by Masson. McCourt fell to the ice and was carried to the dressing room. He revived and played for five minutes, when he collapsed. Masson was arrested at the hotel this morning by Chief Smith and was charged before Hill Campbell, J.P. It is probable that the charge will be made more serious.

For catarrh, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white, creamy, healing, antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis., Large jars 50 cents. Sold by the Regina Pharmacy Stores.

ARMIES WILL REMAIN SEPARATE

New York, March 7.—Ballington Booth, head of the Volunteers of America, declared yesterday that that there could be no amalgamation of the Volunteers and the Salvation Army in America as long as he lives, and that he had not heard

of the arrival of General Booth, his father, in this country until he read it in the newspapers. "I have received no message from my father since last fall," he declared. "It has grieved me that he did not let me know of his arrival. He has not communicated his desire to see me for any purpose whatever. I am waiting patiently for a message from General Booth, and if I receive one I shall be glad to meet him on the basis of father and son."

It has been reported that General William Booth, as head of the Salvation Army, would try to bring about a union of the older organization and the Volunteers, though his son, but the latter declared that the principles upon which the two organizations were founded were so different that union is impossible. He said the heads of the Salvation Army are autocrats, and the leaders of the Volunteers of America are democrats.

LORD'S DAY ACT IN MONTREAL

Montreal, March 7.—Montrealers and other residents of the province of Quebec see little difference in the application of the Lord's day observance bill. It may have the effect of closing some of the small groceries which, despite the general law, have managed to keep on doing business. So far, however, as the fruit, candy and tobacco stores and news stands are concerned, they are protected by the law adopted at Quebec and approved by the lieutenant governor. Sommer park in winter, and the Dominion park in summer, as well as other amusement resorts are covered by their charter.

The newspapers will be published on the streets as usual, the only change in the newspaper world being that the Standard will have to be printed before midnight.

Our ordinary man about town last Sunday was exactly like other Sundays, inasmuch as he will be able to buy stamps, newspapers, cigars, candies and fruit, eat soft drinks without let or hindrance.

Minard's Liniment Cures Dandruff.

ED. COCHRANE M. P. DEAD

Ottawa, March 8.—Edward Cochrane, M.P. for Northumberland died at the Protestant General hospital this morning. He was suffering from a cancerous growth in the throat for some time, having to be fed artificially. He was 73 years of age.

SASKATCHEWAN ORANGEMEN

Oshaw, March 8.—The provincial Grand Orange Lodge of Saskatchewan was concluded its annual meeting here tonight, the last business being the election of officers. Mr. Thomas J. Pollock was elected grand master and Samson Shaw, deputy grand master. A resolution was passed calling on the Saskatchewan government to pass legislation compelling every school and college in the province to keep the British flag flying on every teaching day in the year during school hours. Moose Jaw was chosen as the place for the next annual meeting.

FELL OFF THE TRAIN

Montreal, March 6.—At the morgue yesterday Coroner McMahon disposed of the case of George Koelbeck, who was killed at Vaudreuil. Koelbeck it appears had been drinking in company with another Dane before leaving this city, for Winnipeg, and fell from the train on which he was travelling. The fall and cold must have rendered him unconscious, and he was passing train over him as he was lying across the track. Portions of his body were found along the between Vaudreuil and St. Polycarpe. After hearing the coroner detail the evidence he had gathered, the jury returned a verdict of accidental death.

FELL OFF THE TRAIN

Montreal, March 6.—At the morgue yesterday Coroner McMahon disposed of the case of George Koelbeck, who was killed at Vaudreuil. Koelbeck it appears had been drinking in company with another Dane before leaving this city, for Winnipeg, and fell from the train on which he was travelling. The fall and cold must have rendered him unconscious, and he was passing train over him as he was lying across the track. Portions of his body were found along the between Vaudreuil and St. Polycarpe. After hearing the coroner detail the evidence he had gathered, the jury returned a verdict of accidental death.

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Inventors and others who realize the advisability of having their Patent business transacted by experts. Preliminary advice free. Charge gratis. Marion & Marton, Reg'd. New York Life Bldg., Montreal; and Washington, D.C., U.S.A.

SASKATCHEWAN ORANGEMEN

Oshaw, March 8.—The provincial Grand Orange Lodge of Saskatchewan was concluded its annual meeting here tonight, the last business being the election of officers. Mr. Thomas J. Pollock was elected grand master and Samson Shaw, deputy grand master. A resolution was passed calling on the Saskatchewan government to pass legislation compelling every school and college in the province to keep the British flag flying on every teaching day in the year during school hours. Moose Jaw was chosen as the place for the next annual meeting.

JUDICIAL SALE

In the Supreme Court of the North-West Territories, Judicial District of Western Assiniboia

IN THE MATTER OF the Land Titles Act, and in the matter of the Judicature Ordinance, and of a certain mortgage made by Hugh Weightman, to the Canada Life Assurance Company, against the North West Quarter of Section Number Twelve, in Township Number Twenty in Range Number Nineteen, West of the Second Meridian, in the Province of Saskatchewan, for \$200.00, registered in the Land Titles Office for the Assiniboia Land Registration District against the above mentioned land as Number E. 3132.

BETWEEN THE CANADA LIFE ASSURANCE COMPANY Plaintiffs, and HUGH WEIGHTMAN Defendant.

Pursuant to the order of the Honourable Mr. Justice Johnstone dated herein on the first day of March, A. D. 1907, there will be for sale at public auction by James M. Duncan at his office in the Court House at the City of Regina on Monday the 8th day of April, 1907, at the hour of twelve o'clock noon, all the right title, interest and equity of redemption of the above named defendant in the North West Quarter of Section Number Twelve in Township Number Twenty (20) West of the Second Meridian in the Province of Saskatchewan.

For further particulars apply to Messrs Ross and Bigelow of the City of Regina. Advocates for the Plaintiff above named.

Dated at Regina 4th day of March, 1907.

Easter Suits

Time to think about your Easter Suit. We have something good to show you in the Fit-Form; this is a Brand of Clothing we have the Agency of for Regina. This clothing is equal to any tailored made Suit.
Prices \$18 to \$35.00

J. W. Creswell & Co.
LEADERS IN GENTS' FURNISHINGS

11 lbs. of BLUESTONE for \$1.00

For Linen Buyers

It's getting close to Easter now. The time when every housewife takes pride in placing before her guests something new in table linens. Therefore these special inducements ought to make interesting reading. Genuine Irish Linen, every one of these values with the nature's sheen that comes from the use of Irish flax that has been used in their making.

Fifty Cent Linen Sale

One Hundred and Fifty or Two Hundred yards of a fine quality Irish table linen. This quality should sell for anywhere from 65c to 75c a yard. But the trouble is we have only one design in stock; namely, a pretty clover leaf centre with a neat line border. We decided to sell the lot at 50 cents a yard and it undoubtedly will go.

ON SALE AT 50c A YARD

EXTRAORDINARY BIG VALUE AT \$1.25 A YARD

The choice of three or four dainty designs in table linens. The great point about this item is that these linens are extraordinarily big values at \$1.25 and that the designs are decidedly new.

ONE IS A SHAMROCK DESIGN

For instance, here is a dainty Shamrock designed centre with a neat key border; another is a fleur-de-Lis; another a primrose, and so on. The prevailing note is simplicity in all the designs. Surprisingly big values at \$1.25.

**Important
to Ladies**

Miss Martin, of Toronto, a thoroughly competent dress maker, is now here and will be found on the second floor of the new building. Miss Martin comes to Regina highly recommended after having had an extensive experience in some of the best known ladies tailoring and dress making establishments in the east.

We therefore solicit your patronage along this line and can guarantee perfect satisfaction.

**The New
Millinery Parlors**

Our new Millinery Parlors also on the Second Floor being speedily fitted up. Miss Macdonald has now returned from an extensive buying trip in the East where she secured the services of an expert milliner. We will have much to say about this new department of our business at a recent date.

**SPECIAL SALE OF
MEN'S "RAIN OR SHINE"
COATS**

A Large Lot of Traveller's Samples Bought Below Regular Prices

IF YOUR SIZE IS HERE YOU GET A SNAP
Saving anywhere from \$3 to \$4 on Regular Prices

We recently purchased a large lot of Traveller's Sample Coats. Men's stylish 1907 season "Rain or Shine" garments. Very newest patterns. Very latest styles and the same identical garments that many merchants throughout this country purchased their stock for this year's selling. As samples they represent the very best that this particular house produces, and as a matter of fact samples are always the pick of the lines.

An Instance or Two

A Dark Grey Cravenette with an over and under stripe with herringbone weave and a faint blue line stripe. Very dressy and something you will like.

A nobby Grey and Brown Mixture with two lines of green with brown hair line. These stripes are just noticeable and that is all—nothing too "splashy" about the fabrics.

Now on Sale
10.00 RAIN OR SHINE COATS 7.50
12.00 " " 8.50
15.00 " " 10.00 and 12.00
Not every size here so be an early buyer.
