Newcastle Women's Institute

Will Compete at the Annual Convention.—Excellent Paper Read by Mrs. Barry

The Newcastle Women's Institute met Tuesday night, Vice-president Mrs. Bessie Gough in the chair; Mrs. G. G. Stothart, secretary.

Others present: Misses Louise Harley and Annie Reid and Mesdames H. Williston, A. E. Petrie, John McCormack, W. F. Copp and A. L. Barry, members and Mrs. Annie Allingham, visitor.

Yarn was distributed for work for the soldiers.

It was resolved to send an exhibit of canned goods and preserves to the annual meeting at Moncton Oct 2-4. Samples are to be sent to Mrs. G. G. Stothart's up to Sept. 21. From these a dozen bottles will be chosen to be sent to Moncton and the rest donated to the Miramichi Hospital.

A very timely paper was read by Mrs. Barry, a former and very successful school teacher, as follows:

Teacher and Parent Co-Operation

To co-operate means to work together for the same end, and in this short definition do we not see a great deal of what this means to parent and teacher. The end we aim at is the educating of our children.

So often this means but one thing—filling the little heads with book knowledge, showing them how to do a few sums, how to write or how to read. This is beyond a doubt most necessary, but it is not the whole of education.

To educate is to lead, to draw out, to expand, and an all-round education such as we wish our children to acquire in tender years, can best be given to the child by the help and hearty co-operation of the parent.

How, then, have we co-operated with our teachers in the year that is past? And in a truthful answer we will recognize our successes and failures.

First, then, have we helped our teachers as we might by as liberal salary as it was in our power to give? In no other sphere of labor is the laborer more "worthy" of his hire than in the profession of teaching. Have we reached forth a friendly hand, to the man or woman who daily meets our children and is their leader, guide and counselor for five hours at least of every day? What do we really know of the teacher? Often the teacher is a long way from home, among strangers, and a little "cultivating" on our part can never go amiss and can be the means of a great deal of good. Were I speaking to young people about to enter the profession I would advise them to ponder well and know if they are sure they are willing to lead a life of hard, earnest work—a life of self-annihilation where great effort is so often unrecognized, actions misunderstood, and unknown difficulties to be surmounted. Have we helped our teachers then by remembering that our child is only one among many, and in school, as in any other "World," many men, many minds prevail. It is so easy to see our side of the question, so hard to remember that all other children have equal rights and privileges.

Have we helped our teachers again by sending our little ones to school, sound in body, sweet in temper, well fed, comfortably clad, taught to be gentle to all about, respectful to their teacher, obedient to school laws and rules?

And once more, have we helped our teachers by a kind and discreet silence regarding the faults and shortcomings of the teacher? I would that we as parents would be more guarded in what we say before our little ones. So many times our words are repeated (and with what coloring at times!) causing misunderstanding and trouble. At the first instance of gossip our little ones should be corrected and made to see the folly of such a course, and by judiciously guiding the conversation in the home circle our children will at least not have the example of

County Election Causes Some Surprises

Ex Warden F. D. Swim After Many Years Faithful Service Goes Down to Defeat

The County Elections were held on Tuesday and in five of the parishes six members of the old board went down to defeat, much to the surprise of many. Especially is this so in the Parish of Blissfield, where Mr. F. D. Swim, who has represented that parish for upwards of 20 years, met defeat, along with councillor Hurley, at the hands of a ticket headed by Thomas Parker. Dr. Ryan of Boiestown, after two years of faithful service at the board was also defeated as was Councillor Jas. Parks of South Esk, and Councillor M. Chaisson of Rogersville, and Councillor Jimmo of Hardwicke. Ex-Councillor Arthur O'Donnell, who displaced Councillor Ryan in Ludlow, has already given several years good service at the Board, and is an ardent advocate of Tax Reform. Ex-Councillor Frank Lavole displaced Councillor Chaisson in Rogersville.

The returns in the contested parishes are as follows:

ONE SESSION FOR LITTLE FELLOWS

Moncton School Board last week by a vote of 4 to 3 decided that, on account of lack of school room, two first grades be sent to school half a day instead of two sessions a day. The majority thought that three and a half hours, from 9 to 12.30, would do the little fellows as much good as the four hours instruction they would receive in the two ordinary sessions. The minority wished to open a new department in St. Paul's church, which would cost about \$1000 a year extra. They will appeal to the Chief Superintendent to compel the city to provide complete accommodation for all children of school age.

Their elders to follow in this matter. Lastly, dear mothers, I have not lost sight of your weary all day and all night work with the restless, fretful children. Soon, oh how soon, these hard years will pass. The little ones will be educated as far as we can do it. They will enter the world to take their place. Happy are they if our children call us "blessed" because we have done our part to the very best of our ability. Let us then renew our efforts to co-operate as we never did before.

Pte. Herbert J. Warren Dead

Details of the Last Minutes of One of our Brave Maritime Boys

Mrs. Jeremiah Hanley of South Nelson, has received the following on her heroic brother, Pte. Herbert J. Warren, now numbered among those who have made the supreme sacrifice for their country:

Dressing Station, France,
Aug. 17, 1917

Dear Mrs. Hanley,
I saw your brave brother at the dressing station yesterday just after he was wounded. He had a machine-gun bullet wound in the head, but seemed in excellent spirits. He says he will write to you after he gets settled in the hospital.

Yours very sincerely,
F. S. PORTER, Chaplain,

Aug. 20, 1917

Dear Mrs. Hanley,
I am writing on behalf of your brother, Pte. Warren, who has been a patient in the above hospital for the past three days.

No doubt the war office will have notified you of the fact that he had been wounded, but Canada is so far away, and it takes such a long time for a letter to come through, so that I am sure you must be anxious about him.

His wounds, I regret to say, are of rather a serious nature, a shrapnel wound of the head, but so far he is progressing favorably, and I feel sure that if nothing unforeseen occurs he will be alright. He is quite conscious, but is unable to use his arm, but he wishes me to tell you he is better today, is very comfortable and that he will write you shortly.

I regret I cannot write you a more lengthy letter, but we are very busy, and there are so many to write for, after my day's work amongst them is finished, but I can assure you it is a pleasure to be able to do so much for the boys who all do so much more for us.

May I express my sympathy. I always feel so sorry for the people of the colonial boys. They are so very far away, and these anxious days must be terrible, but I trust you won't worry about your brother. Everything possible will be done for him, and I think he will soon be able to travel to England. I will write you again as soon as possible.

Yours very sincerely,
SISTER M. I. WILSON

Aug. 23, 1917

Dear Mrs. Hanley,
It is with deep regret that I have to inform you of the death of your brother, Pte. Warren of the Canadian Regiment. I wrote you a few days ago in the hope that he would recover, but head wounds are always of a serious and uncertain character, and, unfortunately, your poor brother's was fatal. For the first three days he seemed to slightly improve. He talked to me of his regiment and his friends in Canada, but on the morning of the fourth day I noticed he was not near so bright. He had developed acute meningitis, and died within twenty-four hours. He was unconscious for the last sixteen hours, so his sufferings were unknown to him.

We are burying him today in a dear little cemetery, and a small cross with his name, etc., on will mark the resting place of another of Canada's brave boys.

Please accept my deepest sympathy in this your great sorrow. He was a brave boy who bore his wound with great fortitude.

May I add that everything possible was done for him, but his time was over here, and God called him home. Yours with deepest sympathy,
SISTER MOLLY WILSON

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 175 pounds I went to 115. I would get so weak at times that I could not stand. I began to take Lydia E. Pinkham's Vegetable Compound, and in a few days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds and you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

LOGGIEVILLE

Loggieville, Sept. 11—Great success attended the efforts of the members of the Red Cross Society in the Rink Party held on Thursday last. The weather was disagreeable, a rain storm setting in during the afternoon, but it did not seem to dampen the enthusiasm of the promoters of the affair, nor of the would-be patrons. The interior of the building was made bright and cheerful with cut trees and other decorations. Everything within presented a home-like appearance. The tea room was prettily trimmed in yellow and white the table bouquets being Golden Glow. A most appetizing supper was served to a large number. Amusements of various kinds were provided, all yielding good returns. Some of the centres of attractions were the shooting gallery, cats, goose exchange, fortune telling, refreshment booth, etc. Several guessing contests were carried on. About \$250 was the amount realized.

SEPTEMBER ROD AND GUN

September Rod and Gun is a good one to put in the late summer vacationist's knapsack. Such stories as "The Hide Builders," Bonnycastle Dale; "Two Weeks Without a Cat," T. N. Hewitt; "Duck Hunting on the Small Sloughs," George Belton; "A Cruise in the Sloop Katharine," Austen Saunders; "The Time, The Place the Game," Archie McKinnie; and "Fishing in Little Streams," Reginald Gourlay, make the vacationist glad he went and the stay-at-home man sorry he can't go and maybe determined to get away into the north woods when the hunting season comes on. Among the special departments, that devoted to dog men's interests, The Kennel, contains this month a full report of the recent Regina Dog Show. Rod and Gun is published by W. J. COAL and FENNIMORE COOPER

D. & H. Line.—Cliffs on shore of Lake Champlain.
THE great industrial wealth and the wonderful historic interest of the country served by the Delaware & Hudson Company give special interest to the linking up of this company with the Canadian Pacific Railway. It is the country of anthracite coal, and it is the country of Fennimore Cooper, whose tales of the French and Indian wars are known to every schoolboy. In spite of Mark Twain's joke, that the Indians of Fennimore Cooper were an ancient tribe that never existed, the country round Glen Falls, Lake George, Otsego Lake, and Fort William Henry is dotted with localities identified with the Last of the Mohicans, and Leather Stocking. The hunting and fishing grounds of the Five Nations and the Algonquins are now famous hunting and fishing grounds for tourists, who find in this rugged lake and mountain scenery of the Adirondacks the scene of many a happy holiday. Coal is the industrial background of the D. & H. and the demand for coal in Canada today makes the value of the connection between this railway and the C. P. R. all the more apparent. It was to carry coal that the canal from Rondout on the Hudson to Hamilton, Pennsylvania, and the connecting gravity railroad from Carbondale to Honesdale were constructed. The "Stewbridge Lion," the first locomotive that ever turned a wheel on any railroad in North America, was imported by the Delaware & Hudson Company for use on its railroad, making the first run on August 3, 1825, eighty-eight years ago. The canal was enlarged, and at one time carried 3,000,000 tons of coal annually, but in 1899 the greater convenience of self-haulage was realized and the canal abandoned.
Plattsburg, Westport on Lake Champlain, Ticonderoga, Lake George, Saratoga Springs, Troy, Albany, Binghamton, Scranton, and Wilkesbarre are some of the best known points on this important railroad. To Montreals it is particularly well known as an exceptionally picturesque and comfortable route to New York, connection being made with the New York Central, so that passengers arrive at the Grand Central Depot in the heart of the great city.

ASHAMED OF THE PIMPLES
PIMPLES and skin eruptions always seem to come where they are the most noticeable, and consequently most embarrassing to the person so unfortunate as to have them.
The most satisfactory treatment for pimples and skin eruptions is Dr. Chase's Ointment, applied at night after bathing the skin in warm water. Instead of clogging the pores, as do powders, Dr. Chase's Ointment cleanses them and promotes the healthy action of the pores of the skin.
By its antiseptic action this ointment destroys poisonous germs, and thereby prevents the development of eczema. There are scores of ways in which Dr. Chase's Ointment is useful in every home.
PIMPLES AND BLACKHEADS.
Miss Cora Altwater, Bitter Lake, Minn., writes—"I was entirely cured of pimples and blackheads, some months ago by using Dr. Chase's Ointment. As I have also found this ointment a splendid treatment for sunburn and chapped hands, I would not be without it in the house. It is the best I ever used."

HYMENAL

KELLY-MCKINLEY

A very pleasant event was the wedding in St. Andrew's Presbyterian church, Chatham, August 29th, of Miss Martha, daughter of Mr. and Mrs. Charles McKinley of McKinleyville, to Douglas Kelly of Moncton. The ceremony was performed by Rev. Alex. Rette, M. A. of Millerton at 7:30 p.m. The bridal party entered the church, which was beautifully decorated by the bride's girl friends for the occasion, to the strains of Lohengrin's wedding march played by Miss Leora McKinley, the bride leaning on the arm of her brother, Alex. A. McKinley. The groom was supported by Wm. C. McKinley, another brother of the bride. The bride was beautifully gowned in white silk crepe de chene, and was attended by Miss Scdie Smallwood of Newcastle, who was attired in pale pink silk. After the ceremony the party repaired to the home of the bride where supper was served to the immediate relatives, after which Mr. and Mrs. Kelly motored to Newcastle where they took the maritime express for Montreal. IN SPITE OF THE KAISER

(1) C. P. O. S. Pacific Liner which made a speed record a few weeks ago.
(2) C. P. O. S. Atlantic liner.

THE claim made by Kaiser Wilhelm and his satellites that the British merchant fleets are disappearing from the ocean seems particularly ludicrous in the case of the fleet most closely associated with Canada, namely that of the Canadian Pacific Ocean Services, which so far from diminishing has actually increased its tonnage since the beginning of the war by nearly 30%. No fewer than 15,000 men are employed with approximately 50,000 dependents, and the numbers are steadily increasing. Taking the Atlantic fleets first. At the outbreak of the war the steamships of the Allan Line and Canadian Pacific Co. (now known as the Canadian Pacific Ocean Services) numbered 35, with a gross tonnage of 315,000 tons. The value of these fleets to the British Empire in war-transport work has been inestimable, and the earliest possible advantage was taken of it by the British Government. Almost from the moment of declaration of war on the 4th August, 1914, a large proportion of the joint fleet was requisitioned, including the larger and newer vessels then in service. Two of the newest and largest of the Allan Line steamers were immediately put into commission as armed merchant cruisers. "The Empress of Russia," "Empress of Asia," "Empress of India," and "Empress of Japan" were immediately fitted out as armed vessels. Many of the other vessels of the joint companies previously engaged on the passenger trade between Europe and Canada were brought into Trooping Service or employed in transporting supplies and munitions, not only across the Atlantic but all over the oceans of the world from the Far West to the Far East. Notwithstanding this great call on the Canadian Pacific and Allan Lines' resources, these companies have been able without break to carry on regular passenger and freight business, maintaining an uninterrupted service of mails and passenger and freight traffic westward, as well as carrying home eastward

large supplies of troops, stores, munitions of war. From the outbreak of war down to the present day the Canadian Pacific and Allan vessels engaged on trooping and similar work have transported no fewer than 700,000 troops and passengers from or to Canada, the Mediterranean, India, China, Egypt, Gallipoli, Mesopotamia, or across Channel, or on the Pacific. Up to the same moment the company's vessels since the outbreak of war have steamed over 1,250,000 miles and have carried eastward and westward over three million tons of cargo, munitions, supplies, etc. These figures indicate no mean contribution to the "carrying on" of the war, and constitute a splendid tribute to what Canada—Britain's Nearest Dominion—has tried to do to help the Mother Country in her hour of need. Add to this the fact that these ships have been carrying in practically every case large quantities of munitions made in the Canadian Pacific August Shipyards, the value of the contribution of the companies under notice and of the great parent company—the C. P. R.—received still greater emphasis. The Canadian Pacific Fleet, although suffering but a slight diminution of tonnage by the act of the King's enemies, has been gradually increasing by purchase or building, so that to-day the combined fleets of the Allan Line and Canadian Pacific number 40 steamers, with a gross tonnage of 411,000 tons, whilst further orders have been placed for four more of still greater tonnage. Services are being steadily maintained carrying mails for the different parts of the Dominions and the outer European ports of the Allied countries. Every means within the power of the Canadian Pacific is being used to maintain expert trade and the importation of necessities alike for the use of the armies in the fields, and for the people at home.

The fact that the Allan Line was one of the first companies, if not actually the first to effect a direct service between Great Britain and Canada. The founder of the Allan Line was Captain Alexander Allan, who in 1822 sailed from Glasgow to Quebec in the brig "Jean," in search of cargo for his vessel. In 1852 the sailing vessels of the Allan Line were replaced by steamships in the Canada-British trade. As showing the progressive tendencies of these hard-headed and tenacious Scottish founders of the line, it is worthy of note that the Allan Line has been pioneer (A) in the adoption of steel in the construction of its vessels; (B) in the adoption of the turbine as a mode of propulsion; (C) in the adoption of twin-screws on its steamers; and (D) bilge keels as a means of checking oscillation. The founder's family, now headed by Col. Sir Montague Allan, C.V.O., and his cousin, Mr. H. A. Allan, always adopted a progressive policy, with the result that steady increase in the size and speed of steamers has been witnessed whenever additions to the fleet were made, and these adjuncts have done much to stimulate the demand for passenger and cargo accommodation on the Atlantic service to Canada. Manila, in the Philippines, has also been of late brought into the service as one of the numerous ports of call in the East, and the company is steadily but surely working up a strong and useful service on the Pacific which cannot but be of the greatest advantage to the Pacific trade in general. On the Atlantic, the C. P. R. instituted its own directly owned and controlled fleet of steamers in 1903 by the purchase of the Atlantic vessels of the Elder Dempster Beaver Line, a service which has grown to its present proportions and which now includes some of the finest passenger and cargo carrying vessels plying between Canada and the Mother Country.

The Business Woman

Today, more than ever before, is woman's opportunity. Many new occupations are now opened to her, which, before the war, she was deemed unfitted to fill. And truth to tell she has risen to the opportunity, and now shares many business responsibilities in former times confined to men. But, as women are subject to more frequent fluctuations of health than men, many will be handicapped early, if they regard their health requirements too lightly.

The nervous strain, long hours and prolonged mental or physical fatigue thin the blood and weaken the nerves. Such conditions as women are now called upon to undergo can only be endured by a full-blooded constitution. This is as true for men as for women, only weaker women suffer sooner. The woman worker, in any line, requires her blood replenished frequently. She needs new, rich blood to keep her health under the trying conditions of business life, and to fortify her system against the effects of overwork. This applies also to the woman in the home who, perhaps, has more worries and anxieties than usual. So let all girls and women take heed and renew their blood promptly at the first approach of pallor, lack of appetite, headache or backache. This can be best and most effectively accomplished by taking Dr. Williams' Pink Pills which make new, rich blood and thus help womanhood so perfectly. No woman need fear failure of health if they take these pills occasionally to keep them well, or give them a fair trial if they find themselves rundown.

You can get Dr. Williams' Pink Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHISKEY BANNED

Prohibition of intoxicating beverages received a big lift upward and forward when President Wilson last week proclaimed the manufacture of cognac prohibited in the United States.

It will be increasingly difficult for the liquor traffic to ever again rear its head in the United States, but, in view of the fact that the consumption of intoxicants in that country was much larger last year than it was the year before, extreme vigilance on the part of good citizens will long be needed to ensure the enforcement of Prohibition laws.

J. Gordon Edwards At His Very Best

Noted Director Observes Every Detail of Filming "The Darling Of Paris"

J. Gordon Edwards, director of the production of "The Darling of Paris" based upon Victor Hugo's story, "The Hunchback of Notre-Dame," under the management of William Fox, has given unusually close attention to every detail of this historic drama. Mr. Edwards is one of those who believe in doing everything well, always showing splendid efficiency. He fully realized the historic value of this great production, and has left nothing undone to make it as near perfect as it is possible with human endeavor.

He has read the story a number of times, and has become thoroughly imbued with every feature of the splendid dramatic value. He has spent, not only hours and days in studying the unique characters, but he has spent weeks. Those who are his intimate associates at the studios say that he has scarcely slept night since he began the enterprise.

There are some big scenes in "The Darling of Paris"—some of the largest that have been exploited on the screen. Knowing the story as well as he does, he has brought forth a superb presentation. Mr. Edwards has so absorbed the incidents of the narrative that at times he is half inclined to imagine himself the author. Victor Hugo, living and breathing, the very atmosphere of the Sanctuary of Notre-Dame itself.

SEE THE BIG SHOW

Come to the Big Show at Halifax this year, become boys and girls again and have a good old romp through the Exhibits, the Midway and the races. What a laughing, jostling, good humored crowd there will be at the Show to enjoy the headline attractions of the grand old Midway. There will be nothing to offend and nothing of a gambling nature, but there will be oceans of fun in a round of the Monkey Speedway, the Water Sports, the Mechanical Coal Mine, the Ten-in-One, Crazy House, the Girl in the Moon, the Zoo, the Trained Animals, the High Divers, the Ferris Wheel, and the joy of the kiddies, the Merry-go-Round.

It will be a whole circus in itself, with enough shows to furnish a week of laughs and funmaking. There is not any bigger novelty in the circus business than the Monkey Speedway. This is a whole circus in itself and a laugh all the way. Divers will be seen leaping from impossible heights into tiny tanks; mermaids will captivate with dashing, frolicking water sports; the Crazy House is the type of feature novelty found usually only at the big American seaside resorts; the Mechanical Coal Mine is a marvellous invention that will claim the attention of even the skilled coal operator.

Bigger, brighter, better and busier than ever the Big Show opens at Hallifax September 12th to September 20th.

No Whisky to be Made In U. S. A.

Government Bans Strong Liquors From the Country by Striking at the Root of the Traffic

Manufacture of whisky ceased throughout the U. S. A. at 11 o'clock Saturday night, when the prohibitive clause of the Food Act becomes effective.

Millions of bushels of grain which would otherwise be ground up for whisky are released for food. How many millions no one knows, for the manufacture of alcohol for beverage purposes is so closely blended with the production of alcohol for industrial and medicinal purposes that there is no way of determining the exact amount.

AFTER THE I. W. W.

The Australian authorities are continuing vigorously their attempts to put an end to the activities of the Industrial Workers of the World—a Labor organization which holds that the workman should have the full value of his work, no profit being allowed to the employer, and which does not make agreements of any length with the employers. Three more members of the society at Sydney and thirty-four at Broken Hill, have been sentenced to six months' imprisonment for belonging to the association, which was recently declared unlawful in Australia.

Robert W. Merryman, said to be an I. W. W. leader from the United States, was arrested at Lethbridge, Alta., Friday, by the mounted police and is being held probably for deportation. He escaped the vigilance of immigration authorities at the border.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others, it works!

Ouch ! ? ? ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied at once, and soon the corn dries up and lifts right out without pain.

It says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

RED CROSS APPEAL

An appeal is being made by the Canadian Red Cross Society for Xmas stockings for our wounded soldiers in the hospitals. The Newcastle Branch intend filling the stockings, Tuesday afternoon Sept. 25th and an earnest appeal is made to the public to help in bringing joy and pleasure to our brave boys. We hope that this year the message of cheer will not be lacking and that our boys who find themselves in hospitals far from home will know they are not forgotten by us on the day which is so dear to us all.

- In order that every man should receive gifts of approximately the same value it is suggested that each stocking should contain one gift out of each of the following classes:
- 1—Pocket mirror, cheap style; pocket pencil, pocket knife, pipe or match box.
 - 2—Writing pad and envelopes, fancy post cards.
 - 3—Cigarettes and tobacco.
 - 4—Candies, chocolates preferred, chewing gum.
 - 5—Handkerchiefs, neckties, socks.
 - 6—Games, books, puzzles, mouth organ.
 - 7—Soap, toilet powder, tooth paste, pincushion.
 - 8—Raisins, dates, figs.
- Donations from any of the above will be received at the Red Cross room, Tuesday afternoon Sept. 25th. B. C. CROCKER, Secy.

It is composed of some of the best tonics known, combined with some of the best blood purifiers. what may be the result of a neglected cut. Many a serious case of blood-poisoning has resulted from just such a small injury. All the suffering and expense which this entails can be avoided by the timely use of Zam-Buk. Zam-Buk, immediately it is applied to a wound, destroys all germs, thus preventing their accumulation, which is the cause of blood-poisoning. When the sore place is thus thoroughly and medically cleansed by Zam-Buk the healing processes in the balm grow new tissue, and a speedy cure is effected. Be prepared for every little cut or scratch by always keeping a box of Zam-Buk on hand. It is equally good for burns and scalds, as well as for eczema and all skin troubles, chronic sores, bad legs and piles. All dealers or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

To Select Conscription Board

The Conscription that has been adopted in Canada is selective conscription, the intention being not to take men who are engaged in vital industries and who cannot be spared. Agriculture, mining and fishing are industries that will be largely exempted, although the tribunals will have to deal with specific cases.
