FIGHT IN PARLIAMENT

The battle which is going on now in the House of Commons between those requiring Dominion charters on the one hand and representatives of municipalities on the other is a renewal of a contest which has been developing for sometime. It is a contest also in which St. Catharines, along with other cities, is deeply interested. By the terms of the Consolidated Railway Bill the Toronto & Niagara Power Company is given the right to invade the streets of any city, town or village in the Dominion without first getting the consent of the municipality concerned. The consequence of granting such wide powers might be decidedly detrimental to the latter.

In earlier years such privileges were not seriously opposed. Today, however, the public is educated to the view that rights over public streets are worth something and that municipal governments should have a word to say before streets can be crossed, torn up and used. It has been found by experience that while these privileges look simple and inoffensive they take away often a control which a municipality has over its own highways and which it has to build and maintain.

St. Catharines has protested against the terms of this bill when they came up during former sessions. The councils of this city have felt and feel still that the right to go over streets here should only be given by the Council of the day, representing the people, and not by the Dominion Parliament. If the Bill goes through as it now stands the Toronto and Niagara Power Company will secure enviable rights to go where it likes in St. Catharines or any other city even though the municipal government may object.

WHAT EXCHANGES SAY

A GREAT MOVEMENT.
 Victoria Daily Times:—There is nothing extravagant in the claim that the women's institute in Canada has done more to brighten life in the rural communities than any other agency. This is particularly true of British Columbia, where settlement in many sections is of a very scattered character. Through the activities of the district organization many of the social amenities hitherto confined to the town and city have been introduced almost to the back door of the homestead. The movement has grown in this Province to a degree where the women's institute rightfully assumes an important role in the conduct of public affairs.

THINK THEY'RE SMART.
 Brussels Post:—It is most encouraging in the upholding of a good cause like prohibition to hear the unasked opinions and experiences of

many men as to the benefits of the abolished bar and treating system and their intention to vote, when the time comes, for the complete overthrow of the liquor traffic. Some continue to violate the law and appear to think they are doing something real clever. If it is a smart trick to violate a statute and set up as a disloyal citizen, to supply a commodity that unmans the recipient and causes worry to the home and friends of all concerned then that grade of smartness is not coveted by those who respect themselves and value the good opinions of lovers of law.

EVEN THE WEATHER CHANGES.
 Edmonton Journal:—It seems useless to deny that the climate of this North American continent is no longer the dependable quantity it used to be. Times are changing, and the weather changes with them. As yet, however, the Canadian West seems to be about the most constant and reliable part of America, climatically speaking.

AGAINST SYMPATHETIC STRIKES.
 Peterboro Examiner:—The fact that Federal, Provincial and civic authorities in Winnipeg have joined forces to lay down an ultimatum to their employees to return to work or be permanently dismissed from their positions reflects the pressure of public opinion. The great mass of the people cannot see any justification for the tying up of public utilities because there is a quarrel between a small group of employers on the one hand and their employees on the other. They will heartily agree with the statement of Mayor Gray of

HIGH HEELS PUT CORNS ON TOES

Tells women how to dry up a corn so it lifts out without pain.

Modern high-heeled footwear buckles the toes and produces corns, and many of the thousands of hospital cases of infection and lockjaw are the result of woman's suicidal habit of trying to cut away these painful pests.

For little cost there can be obtained at any pharmacy a quarter of an ounce of a drug called freezeone, which is sufficient to rid one's feet of every hard or soft corn or callus without the slightest danger or inconvenience.

A few drops applied directly upon the tender, aching corn stops the soreness and shortly the entire corn, root and all, lifts right out. It is a sticky substance, which dries the moment it is applied, and thousands of men and women use it because the corn shrivels up and comes out without inflaming or even irritating the surrounding tissue or skin. Cut this out and try it if your corns bother you.

BIG LOSS IN GRANARIES

Bad Weather and Mice Destroy Much Grain.

Concrete Structures Best — How to Make Old Granary Efficient — Flush Ewes to Increase 1919 Lamb Crop — Great Shortage of Fall Wheat Seed.

(Contributed by Ontario Department of Agriculture, Toronto.)
NO hard and fast rules can be laid down for the erection of a convenient and efficient granary. Each problem requires a knowledge of local conditions and requirements. Granaries, in the majority of cases, are built in enclosures on the barn floor, and constructed with too little regard for strength, durability and convenience. These structures should be located immediately over the feed room, each bin having a chute with a control slide or a canvas distributor to convey the grain to the hopper of the grinder; or if the grain is intended for market, to a sack placed on the scales below the chute ready to receive it. To facilitate emptying the grain, the door of the bins should be sloping.

The important consideration in the construction of granaries and bins for loose grain is to prevent water structure is designed with sufficient strength to prevent bulging of the sides and springing of the door, for grain, owing to its enormous outward thrust, corresponding somewhat to that of water, has a tendency to burst the sides unless well braced or supported. Timber construction requires frequent repairs to prevent decay and general deterioration from use. It is always liable to climate conditions. The boards will crack and shrink in the summer when the bins may be empty, and when the new grain is dumped into the bins an enormous quantity promptly disappears into the cracks and crevices and through mice holes, entailing considerable loss to the farmer. Thousands of bushels of grain are, in this way, annually lost to the producers through sheer indifference to the condition of their granaries. This preventable waste may be easily remedied and made secure by lining the bins with sheet metal.

The watchword is "conservation." Every grain is needed to feed the Empire and its Allies. It is, therefore, highly desirable at this time to bend every effort to eliminate all possible leakage and conserve our grain for the benefit of the nation. While there is an annual depreciation on a timber structure varying from 4 to 8 per cent, concrete construction grows better as it grows old; hence concrete properly reinforced, is the ideal material for granaries, because it is both damp-proof and rat-proof, two very essential factors in the construction of granaries.

Concrete properly made to suit existing conditions, is absolutely impervious to moisture, and can be kept as dry as any other material ever built. The experience of many farmers is that grain, mature enough to be placed in storage, will not spoil in contact with concrete, nor will corn mold, provided there is good ventilation and the roof is tight. Get rid of rats and mice destroy their nesting place and to this end concrete is pre-eminently the best material and is recommended for all farm structures.

Under average present day conditions a reinforced concrete granary may represent an additional outlay of about 25 per cent that required to construct of timber, but the high efficiency distinctive of concrete quickly offsets this increased initial cost. Concrete construction has many, in short, important advantages. The contents are safe from the depredations of rodents, is damp-proof, requires neither paint nor repairs, is fireproof, the grain is perfectly preserved under all conditions of climate and temperature, and the resulting structure is practically everlasting. — Prof. John Evans, Ontario Agricultural College, Guelph.

Care of Ewes After Weaning.
 In order to avoid udder trouble it is necessary to keep a close watch of the ewes for a few days after they are separated from the lambs. Not a few cases of defective udders can be traced to the want of a little care in this respect. Milk out just enough to keep the udder soft the day after the lambs have been weaned. After two days' time they are again milked out. Some ewes do not need any more attention after the second milking. Such ewes may be marked to indicate that they are dry. Three more days should elapse before the next milking is done and this method followed until it is certain the entire flock is safe. In conjunction with the method outlined above the ewes should be separated some distance from the lambs, and be on scant pastures until all are perfectly dry. This is a good time to go over the flock and cull out all undesirable members. Non-producers and those with broken mouths and poor udders should not be retained. A good deal of the success of the subsequent lamb crop will depend upon the treatment the ewes receive from time of weaning until after they are bred. They should have good pastures and be given an opportunity of putting on flesh. This is what is commonly called "flushing." Nothing is better for this purpose than rape pasture. It is usually from six weeks to two months from date of sowing that rape is ready for pasture. If rape pasture is not available, new seeding or second crop of clover will serve fairly well. Stock should not be turned on rape or fresh clover for the first time when the leaves are wet from rain or even dew in order to avoid trouble from bloat. — J. P. Sackville, B.S.A., Ontario Agricultural College, Guelph.

GLOVER-ADAIR

A very quiet wedding was solemnized on Wednesday, June 4, at 10:30 a.m., at the Welland Avenue Methodist Parsonage when Mr. Clayton Glover and Miss Ada Adair, were united in the Holy bonds of matrimony by the Rev. Dr. Hamilton officiating. The bride was charming in pale blue georgette with head trimming and picture hat to match and carrying a bouquet to white carnations. The bride's maid, Miss Mildred Blair looked lovely in pale pink silk with black hat.

The groom was ably assisted by his brother Mr. Harry Glover. The girls which were many and beautiful showed their esteem in which the young couple are held. They left for a short honeymoon to Detroit and other points. The bride travelling in a navy serge tailored and chic tan hat of blue. On their return they will reside in St. Catharines.

Taxes Year 1919

Under the authority of By-law No. 3200 passed on the 25th day of March, 1919, notice is hereby given that all taxes for the year 1919 are now due and payable but may be paid in three instalments as follows, subject to the following exceptions and conditions:
 Taxes which are not payable by Instalment.
 Taxes in Income Assessment, Arrears of Taxes and charges collectable as taxes for any work done or services rendered by the Corporation are due and payable in full on or before the 25th day of June, 1919 (and not by instalments.)
 Payments by Instalments.
 1st. Instalment—due and payable on or before the 25th June 1919. One-half of the taxes will be the amount of the 1st. Instalment.
 2nd. Instalment—due and payable on or before the 25th September 1919. One-quarter of the taxes will be the amount of the 2nd. Instalment.
 3rd. Instalment—due and payable on or before the 25th November 1919. One-quarter of the taxes will be the amount of the 3rd. Instalment. Taxes not paid when due.
 If defaults are made in the payment of any instalment as above dates, the privilege of payment by instalment becomes cancelled and the whole of the taxes or the balance unpaid, as the case may be, at once becomes due and payable together with percentages in addition, as follows:
 Upon default in payment of taxes on the dates appointed.
 Penalty On amounts paid within ten days of time of such default, a percentage charge of one per cent. will be collected.
 Penalty On amounts paid within twenty days of time of such default, a percentage charge of two per cent. will be collected.
 Penalty On amounts paid within thirty days of time of such default, a percentage charge of three per cent. will be collected.
 Penalty On amounts remaining unpaid after thirty days of time of such default, a percentage charge of Five per cent. will be collected.
 Failure to pay the above instalments of taxes as they become due not only forfeits the right of settlement by instalment but brings the parties under the penalty of the Assessment Law, which enacts, that in case any party shall REFUSE OR NEGLECT to pay the taxes imposed upon him for the space of fourteen days after demand, the Collector shall levy the same, with costs, by distress and sale of the goods and chattels of the party who ought to pay the same.
 1. Ratepayers who do not receive their tax bills by the 1st day of June should notify Tax Collector's Department of the fact.
 2. Cheques tendered in payment of taxes must be "marked" by bank and made payable at par to the City of St. Catharines.
 3. Taxpayers sending amounts by mail for payment of taxes should also enclose the tax bill and a self-addressed and stamped envelope for the return of receipted Tax-bill.
 4. Taxes are payable at the office of City Tax Collector.
STUART K. WATT,
 City Treasurer.

Rates For Long Distance Service

THE new schedule of rates for Long Distance Telephone Service as approved by the Board of Railway Commissioners is effective May 25.

Following is a comparison of old and new rates for a 3-minute talk to points most frequently called by St. Catharines subscribers:—

	OLD RATE	NEW RATE
St. Catharines to Hamilton	30	30
Toronto	40	30
Brantford	40	40
London	60	70
Guelph	40	45
St. Thomas	60	70

The new rates, based upon air-line mileage, correct inequalities in the old schedule and embody both increased and decreased charges.

Every Bell Telephone is a Long Distance Station

FARM LOANS for SOLDIERS

Agricultural Training For Soldier Settlers

A SOLDIER is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

- (a) He has performed the required military service;
- (b) He is sincere in his intention to make farming his permanent occupation;
- (c) He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

Training Centres For Soldier Settlers

The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses and other live stock; milking; the operation of farm machinery, ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products. Short lectures on the business management of a farm will be given.

With A Selected Farmer

After the course at the Training Centre, the length of which depends on the progress of the individual but

The Soldier Settlement Board

CONTROL OF BRITISH WAR GRAVE PLOTS

The full text of the agreement between the United Kingdom and France respecting the British war graves in France has reached Ottawa. The Imperial War Graves Commission is recognized by the French Government as the sole British authority charged with the care of British military graves in France. "British" includes Canadians, and the Dominion has Sir George Perley as a member representing it on the Commission. The agreement is as follows: Agreement between His Britannic Majesty's Government and the Government of the French Republic relative to the graves of British soldiers in France.

His Britannic Majesty's Government and the Government of the French Republic, animated by a common desire to honour the memory of the British soldiers who have fallen on the field of battle in French territory, have agreed as follows:

ARTICLE 1 The Imperial War Graves Commission, incorporated by Royal Charter on the 10th May, 1917, is recognized by the French Government as the sole British authority charged with the care of British military graves in France.

ARTICLE 2 Isolated graves of British soldiers situated in the regions of former fields of battle may be removed immediately after the cessation of hostilities with a view to the grouping together of the bodies in military cemeteries.

In cases where, before the cessation of hostilities, any of these regions are no longer within the zone of the armistice, the Imperial War Graves Commission may request authorization from the French Government to remove graves situated in them. The French Government declares its readiness to examine any requests which may be made to it in such cases with an earnest desire to satisfy them as far as circumstances permit.

As soon as the grouping together of isolated graves shall have been authorized, and, at latest, on the termination of hostilities the French Government undertakes to instruct

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman half the time feeling nervous, despondent worried; some days headachy dull and unstrung; some days really incapacitated by illness.

If we all would practice inside bathing, what a gratifying change would take place. Instead of thousands of half sick, anaemic looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy, cheered people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out else it ferments and forms poisons like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day before the fire will burn bright and hot, so we must each morning clean the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but it suffices to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

The prefectural and municipal authorities to grant the necessary permits for the exhumation of the bodies and their transport to military cemeteries.

When the Imperial War Graves

Commission shall recognize as necessary the creation of new military cemeteries with a view to the ultimate grouping together of isolated graves, the Commission shall formulate its proposals and shall transmit them to the Minister of War (Direction du Genie), who, in agreement with the Commission, shall take the necessary steps to acquire the ground.

ARTICLE 3 Bodies buried in cemeteries or in military graves shall not be exhumed for transport to the United Kingdom or to another part of the British Empire without the approval of the Imperial War Graves Commission; the French Government undertakes to instruct the prefects to refuse all applications for permission for the removal of bodies unless preferred through the Commission.

ARTICLE 4 At the request of the British Government, the French Government recognizes the right of the Imperial War Graves Commission to act in France as a properly constituted association to ensure under the conditions contemplated by Article 6 of the Law of the 29th December, 1915, the upkeep of British cemeteries and the military graves. In compliance with the wishes of the British Government the French Government further concedes to the Imperial War Graves Commission the right to provide at its own charges for the laying out of British cemeteries and of military graves.

The Imperial War Graves Commission is accordingly authorized to close British military cemeteries, to lay them out on a system approved by itself, to erect in them sepulchral monuments or other structures, to make plantations in them, to enact regulations governing visits to the cemeteries and to select persons to take charge of them.

The Commission is further authorized to provide for the laying out of British military graves in cemeteries belonging to the State which contain the graves of British soldiers as well as the graves of soldiers of the French or of Allied armies. When the Imperial War Graves Commission considers it desirable that a common system of laying out should be adopted for a mixed cemetery, it shall submit its proposals to the French Minister of War, who shall decide.

The Imperial War Graves Commission shall decide in agreement with the municipal authorities, questions relative to the laying out of graves situated in communal cemeteries, when the French State shall not have acquired the sites of such graves by giving other sites in exchange. In cases where the French State shall have acquired the sites of the military graves, the Imperial War Graves Commission shall have over such sites the same rights as those granted by the two preceding paragraphs.

In the exercise of the rights conferred by the present article, the Imperial War Graves Commission shall conform to the French laws and regulations relating to cemeteries.

ARTICLE 5 Whenever the intervention of the French Government shall become necessary for the erection of a monument commemorative of a feat of arms of the British army or of one of its units, application shall be made by the Imperial War Graves Commission. Should a request of this nature be made direct to the French Government, the latter shall refer it to the Commission before giving any decision, and shall consider, in agreement with the Commission, what action shall be taken thereon.

ARTICLE 6 The Imperial War Graves Commission shall appoint a mixed Anglo-French Committee, to represent the Commission in France in its relations with the French authorities, both the military and civil, and especially to exercise in the name of the Commission all or part of the rights reserved to it under the present agreement. This committee shall be competent to perform in the name of the Imperial War Graves Commission and within the limits of the powers delegated to it by the latter, all civil acts necessary to enable it to fulfil its object.

ARTICLE 7 The mixed committee shall be composed:

Of four honorary members of whom two shall be British and two French: All the members shall be appointed by the Imperial War Graves Commission. Nevertheless so far as the French members are concerned, the appointment shall take place on the recommendation of the French Government which shall be requested and transmitted through the diplomatic channel.

The French honorary members shall be chosen from persons who have won distinction in the army, the navy, in letters, science and art.

The French official members shall be chosen up to a total of five by virtue of the administrative functions exercised by them and shall be the directors of the engineer, medical and pensions service of the Ministry of War, the director of departmental and communal administrations in the Ministry of Interior, a general or super-

Pressure Does Not Affect Meter's Speed

PROBABILITIES: Fair and decidedly warm; rain at night.

The reading of your gas meter is not changed when the pressure of the gas running through it changes. The meter registers the amount of gas that passes only, whether the pressure be low or high. The meter cannot lie. Watch it, and it will tell you whether you are using more gas than you ought to. ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT, THE SUPPLY IS NOT EVERLASTING.

THE UNITED GAS COMPANIES, Limited.

E. T. Duffon, possibly the oldest manufacturer in Stratford, who never had a strike or lockout in thirty seven years in his woollen mills is dead at the age of seventy three.

The situation created by the Afghan incursion into Indian territory is reported to be improving.

A 36th Peel Regiment Association has been formed.

More of the sympathetic strikers are back at work.

Rt. Rev. Frank Du Moulin, Bishop Coadjutor of Ohio, addressed the Toronto Synod on The Church and Modern Conditions.

The Association of Toronto Baptists is in session.

The Northern Liberal Association met at North Bay.

Thos W. Saunders for forty six years Police Magistrate of Guelph, died at the age of eighty six.

St. Catharines Branch

"Seein' Things At Night"

TO MOTHERS! Guard your kiddies against torpid liver, sour stomach, constipated bowels which generate poisons. These "inside" poisons circulate to the brain, producing bad dreams, then a feverish head. Unless you "work" out these poisons you will have a real sick youngster shortly. Cascarets are a candy cathartic, ideal for children. Cost only 10 cents a box. Read below!

Children love Cascarets because they taste like candy. When your child has a white tongue, feverish breath, foul stomach, give Cascarets any time to "work" the nasty bile, souring food and bowel poison from the clogged-up places. You needn't coax even cross, sick children to take these harmless candy "Cascarets." They never gripe—never injure. Cascarets never disappoint the worried mother. Each 10 cent box contains directions and dose for children aged one year old and upwards.

GRAND PARADE WINS ENGLISH DERBY OF 1919

Panther, the Favorite Ran Unplaced in Blue Ribbon Event of the Turf World.

LONDON, June 5.—The Grand Parade won the Derby run at Epsom Downs yesterday. Buchanan was second and Paper Money, third. Thirteen horses ran. Grand Parade, the winner of the derby, is owned by Baron Glanedy (William James Tatem) of Cardiff, Wales. Maj. Waldorf Astor is the owner of Buchanan and Sir Walter Wilbey of Paper Money. The stakes is valued at 6,500 sovereigns (about \$31,600 at normal exchange rates) and is for entire colts and fillies of three-year-olds. The course is about one mile and a half in length. There were 231 entries originally for this year's race.

Grand Parade, the winner of the Derby, owned by Lord Glanedy is a son of Orby, the horse which won the Derby for Richard Croker in 1907. The betting against Grand Parade in the ante-post was 33 to 1, but as the time for the race approached he was taken up by many bettors who reaped a harvest.

Buchanan, the second horse, was Money, who finished third, was 7 to 1.

The bookmakers are the greatest gainers by the result, as the public's money has largely on The Panther, who is also the son of a celebrated American-owned horse, August Belmont's Tracery, winner of The Eclipse stakes in 1913 and the St. Leger the previous year.

There was wild enthusiasm when King George's horse Viceroy, won the second race in the programme—the Steward's handicap. It was the first race the King had won since resuming racing after the signing of the armistice.

CITY AND DISTRICT

We buy everything you want to sell. McGuire & Co.

Navy League, annual meeting, Collegiate Hall, 8.30 p.m. Thursday. Hear Chaplin Boal of the British Navy on "The Story of the Sea." All welcome. j3-4-5

The offices of the City Hall will close at 12 o'clock noon on Saturdays during the months of June, July and August. dj13

Owing to lack of a quorum there was no meeting of the Collegiate Institute Board last night.

Mr. W. C. Bush, former Reeve of Grantham and secretary for several years of the Niagara District Hydro Radial Union is leaving tomorrow on a trip to England to visit his father who is ill. Mr. Bush has not been back to his old home for fifteen years. He sails on the Metagama and his many friends will wish him a pleasant voyage and a safe return.

The case against Mr. Poleczone for selling candy on Sunday was laid over for another week by Magistrate Campbell this morning. Lightless autos and straying dogs cost the owners two dollars each this morning.

NO ALIMONY—JUST A SEPARATION

Peaceful, quiet separation, no pain—that's the situation when you divorce your corns with Putnam's Corn Extractor. Acts like magic—don't use any but "Putnam's"—it's the best, 25c at all dealers.

WANTED—THE W. E. SANFORD Mfg. Co., Hamilton, requires the services of Girls operators and handsewers, experienced or beginners. Good wages and short hours. j 5 6 7

MAY BE ARBITRATION

On behalf of the moulders, pattern makers and machinists who are out on strike in this city the Mayor has been notified that they are willing to have him name a committee of arbitration made up of representatives from the mechanics and the employers to discuss the differences which led to the trouble. It is understood that he will take steps at once to see if such a board cannot be formed to adjust the difficulties.

DR. ARTHUR B. COBB
Dentistry

Of all testes of real merit the test of time is the greatest.

Anything that looks meritorious cannot survive the test of passing years.

Our Dental Offices have stood the test of time. We have been established in Buffalo for more than twenty years, and with each passing year our business has expanded and our fame for skilled Dentistry has spread.

Patients of twenty years ago are still our patients, and they have remained loyal to us only because we have served them faithfully.

If you teeth require Dental attention and you recognize the great importance of having a skilled Dentist to treat them, it is to this Office that you may safely turn, well knowing that you will receive the best of care promptly and at the lowest cost.

Offices 368-378 Main Street, Corner of Eagle
Open until 8; No Sunday work.
Phone: Sechen 405.
Known formerly as White Dental Office.

THE WEATHER

Toronto, June 5.—The disturbance has remained almost stationary in the Missouri Valley, the weather is fine throughout the Dominion, with extreme heat in Ontario and Western Quebec and more moderate temperature both east and west. Light to moderate winds, fair and very warm today and on Friday.

Choice cut flowers, potted plants and floral designs, at all times, at Walker's, Florist, 104 St. Paul street Phone 763.

Nearly ninety building permits were issued by the City Engineer's Department during the month of May. The total value of the permits were \$82,682.

The Housing Commission met at the City Hall last night for the purpose of viewing the plans of several proposed houses.

Many friends will be grieved to learn of the death of Ellen Marie, beloved wife of Clare Erion, which took place on Wednesday morning after an illness of six months. The remains were taken to Smithville today for burial.

Victoria School baseball team defeated the Comaugh School ball tossers last night by a score of 3 to 2. An extra inning was played before the Victoria kids won out.

FOR SALE—ALL KINDS OF DOORS Windows, frames and second hand lumber in rear of 15 Welland Ave. j 5 6 7

Football, Ontario Cup replay, Merritt, Saturday June 7th, Welland vs Merritt, Kick-off 3.30 p.m. Admission 25c; Ladies Free. j 6

A member of the moulder's union stated at noon today that the strike committee are negotiating with one of the larger firms and expect to reach a settlement within a day or two.

RISKS HIS LIFE

New York Fireman Pulls off Daring Stunt in Order to Rescue a Woman.

NEW YORK, June 5.—Tying a rope around his waist, Fireman Timothy Fitzgerald leaped into the air from the tenth floor of a fashionable Brooklyn hotel today, swung through a window on the ninth floor, knocked down Mrs. M. M. Canda, and frustrated her threatened attempt to lock herself into the room after announcing her intention to commit suicide. Policemen and hotel clerks argued with her through the locked door but were afraid to force an entrance, as she announced that she would throw herself out of the window if anyone entered the room.

The police and clerks succeeded in keeping the woman in party while Fitzgerald prepared for his desperate attempt. He measured the distance between the windows—twelve and a half feet—fastened a rope of that length about a lifeboat and, while three police men held the loose end, he took his perilous leap, Fitzgerald was recently discharged from the army, having served as a second lieutenant in the quartermaster's corps.

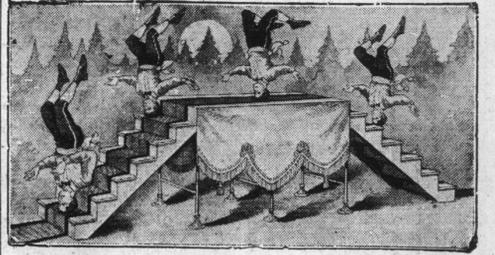

After Mrs Canda was overpowered she was taken to a hospital in a hysterical condition. Ill health was given by her family as the reason for her actions.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, May 27, 1919. j4-11-18

Kyo Namba, Japanese Wonder The Man Who Walks Upon His Head

The old saying, "see one circus and you have seen the mail," does not apply to the performance presented by the Sparks Circus this season. A feature that is entirely new in this country and that stands out as a distinct novelty, is the wonderful performance of "the man who walks upon his head."

This wonderful exhibition of skill and daring consists in bounding up and down stairways balanced upon his head, with no support other than the contact of his head with the steps. The fine balance that must be maintained to accomplish this feat can only be appreciated after seeing this wonderful act accomplished. This novelty will positively be seen at each performance of the Sparks Circus here next Monday, June 9.

CIRCUS POSTERS

The circus which is advertising in St. Catharines, has succeeded in decorating all available walls and fences with their posters. These will remain to annoy us as to detract from the appearance of the city for months subsequent to June 9th.

It has been suggested by an official of the Board of Trade that those citizens, who have been given a pass in return for permission to place posters on their property, should be asked to earn their passes by removing from their premises, on June 10th, all traces of these posters. Sincerely
Member Board of Trade

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for repairs to breakwaters at Port Colborne, Ont." will be received at this office until 12 o'clock noon, Friday, June 20, 1919, for the construction of repairs at two points on the eastern and two on the western breakwaters at Port Colborne, Welland County, Ont.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineers, Equity Building, Toronto, Ont.; Shaughnessy Building, Montreal, Que.; and at the Post Office, Port Colborne, Ont.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained herein. Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or War Bonds and cheques if required to make up an odd amount.

Note—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of \$20, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid. By order,
R. C. DESROCHERS,
Secretary,

**NIAGARA FALLS FAVORS
EXTENDING WELAND CANAL**

NIAGARA FALLS, June 5.—At a meeting of the newly formed chamber of commerce held here yesterday a resolution was passed to recommend to the Dominion government the advisability of extending the Welland canal from Port Robinson to Montrose and establishing a lock at Montrose, the point where the intake of the hydro canal would be located on the Welland river to help bring lake navigation to the seat of power production. The following committee was appointed to further a project which was brought up several years ago and kept in abeyance on account of the war: F. D. Mallon, C. C. Cole, T. F. Battle, H. P. Stephens, W. P. Dixon, J. C. Gardner, C. N. Clendenning, A. N. Myer and A. Blanchard.

**A VERY RED DINNER
WAS THIS BANQUET**

SEATTLE, W.N., June 5.—Councilman W. D. Lane, acting mayor during Mayor Ole Hansen's recent absence in the east, and 300 men and women, prominent in labor circles attended a banquet last night in honor of Hules M. Wells and Sam Sadler on the eve of their departure for the federal penitentiary to serve a two year sentence for sedition. The banner of the electrical workers was hung over the face of a large American flag used as a decoration. Red Carnations were used as table decorations and worn by many of the banqueters.
Wells was formerly president of the central labor council.
Wm. Callender, a widely known farmer of Hamilton township died very suddenly, after his morning's work, owing to the heat.

HARD ON HORSES

The Chairman of the Board of Health pointed out this afternoon that teamsters who work their horses too hard during this hot spell are leaving themselves open to conviction. The present hot weather is very hard on horses and caution should be used when working them. Reports from different points are to the effect that during the past two days five valuable horses have dropped dead from the heat.
LOCAL
The Clifton Hotel at Niagara Falls was formally opened for the season at noon today when Dr. W. A. Pratt of Cedar Rapids, Ia., European representative of the C. P. R. gave an address on European conditions before the members of the Rotary Club of Niagara Falls, N. Y., following a dinner in the spacious dining room.

FARMERS

For Forty Years We Have Been Allies

Do you remember what farming was like in Canada forty years ago? We remember very well what manufacturing was like, what there was of it. The farmers were struggling on farms and getting low prices for their produce. The few manufacturers were also struggling, for the most part unsuccessfully. For forty years we have worked together. Have we not both prospered? We buy from you most of what you grow. You buy from us most of what we make. That has been and is the basis of our alliance.

The manufacturing establishments in Canada employ nearly 700,000 people. Their wage-roll is about \$700,000,000 a year. Moreover, they buy annually nearly \$2,000,000,000 worth of raw material, mostly in Canada. Around these factories are congregated a hundred other forms of business. All these are your customers, and statistics show that this home market is four times as valuable to you as your entire foreign market. Decrease its buying powers, and your sales lessen and your prices drop.

How A Minority Seek to Sever Our Alliance

The Prairie Grain Growers are urging the Government to throw down the tariff wall between Canada and the United States because they want to save a little money (mainly on freight rates) by buying from the United States manufacturers just south of them. They, who constitute about 20 per cent. of the agricultural population of Canada, ask all the other farmers, who constitute the remaining 80 per cent., to change the policy which they have supported for forty years.
Furthermore, to raise the Dominion Government revenue, they would substitute for the tariff, which collected last year about 60 per cent. of that revenue, an increase of income taxes, inheritance taxes, corporation taxes and taxes on unimproved land values. As it is quite obvious that such taxes would affect the farmer but little, this is the inducement they are using to get you to forsake us and follow the free trade prophets no one knows where.
We think this appeal will fail. First, because it seems to be founded on the assumption that the farmers of Canada want to slip out of paying any increased taxes that may be needed for soldiers' pensions, gratuities and

re-establishment. We have found in all our experience that the farmers of Canada are not this class of men. Second, because the argument is unsound. It requires little reflection to see that if our market is thrown open and flooded, many of our manufacturers, caught in the struggle to re-adjust themselves from war to peace conditions, will not be able to keep going. Would this not result in many of our people, unless they were able and willing to take up farming, leaving for the United States? Would not the rest of the population then, which might consist chiefly of farmers, have to pay all the taxes?
The Grain Growers do not represent the entire population of the Prairie Provinces. They do not represent the business population; they do not by any means represent all the farmers. The Prairie Grain Growers' Associations are dominated by a group of free traders whose one idea seems to be to get free trade all over the world. Unfortunately for their theories, just at the present time all the rest of the world seems desirous of getting protection.

Tariff Policy of Other Nations

GREAT BRITAIN is shutting out the goods of other countries (except the Dominions). FRANCE and ITALY are shutting out the goods of other countries by import restrictions.
THE DEMOCRATIC PARTY in the United States, which advocates low tariffs, seems to be going out of power, and the Republicans, who always support high tariffs, have now a majority in both Senate and Congress. Do you think that this means that the United States' tariff is going up or down?
In opposing the demands of the Grain Growers, we do not in any sense intend, as they sometimes say, to show hostility to them. They are our customers. Is not our prosperity affected by theirs? Beyond all this, if the farmers do not prosper, neither we nor the country can prosper. Agriculture and industry are the basis of the country's strength. But we feel that these demands of the Grain Growers aim a deadly blow, not only at industry but at the whole farming community.
What justifies the Grain Growers in demanding that their personal grievances be cured at the expense of the rest of the country? Are they in a desperate position? Have they been losing heavily? Are they suffering from too much adversity or too much success? Are they in any danger comparable to the one great danger in Canada now?—

SOUTH AFRICA is increasing its tariff. Australia, New Zealand, Newfoundland, Japan, Brazil and Portugal are all jealously maintaining their tariffs.
Why is this wave of protection sweeping over the world? In a word, because the various countries are trying to produce all they need at home, in order to provide work for their own people—many of them returned soldiers.
Why then is this Western minority of the farmers of Canada determined to go in the exactly opposite direction?

THE DANGER OF UNEMPLOYMENT

The danger which may place thousands in need of shelter, food and clothing? Most Canadians feel strongly that until this danger is avoided, and the country safely restored to a peace basis, the nation should not be disturbed by any tariff controversy at all.
When this danger is passed, and the country knows where it stands, and what other countries of the world are going to do, then the tariff question should be taken up and such a tariff should be framed as will suit, not the manufacturers merely, nor the farmers merely, but the country as a whole, and by adding to the prosperity of the nation, add to the prosperity of each and every class—the only safe path to prosperity for any country or any class in that country.

Highway of the Great Divide

In Canada, opening up an Alpine region of entrancing beauty. It will be possible to motor from Calgary to Windermere between sunrise and sunset through a hundred miles of the most glorious scenery in North America. A good automobile road runs south to Fort Steele and Cranbrook, and from Cranbrook there are excellent roads to Spokane, or eastward through the Crow's Nest Pass, and back to Calgary. The Good Roads Association of Alberta is enthusiastic over the prospect as this will mean the advent of many tourists from all over America. The new road will also be of great benefit to the Upper Columbia Valley which has many attractions for settlers on account of the fertility of the soil and suitability for mixed farming. This valley is served by the Kootenay Central Railway, a recently constructed branch of the Canadian Pacific.

Between Banff, the popular summer resort in the Canadian Pacific Rockies and Lake Windermere, the head waters of the great Columbia River, lies an Alpine ridge of spectacular beauty, forming part of the Great Divide. This ridge is penetrated by two comparatively easy passes, the Simpson, and the Vermilion which lead into the Valley of the Kootenay River, a region abounding in game on account of its being well south of the main line of the Canadian Pacific Railway. Between the Kootenay River and the Columbia River is a small range of mountains through which the Sinclair Pass and Canyon provide an easy road. When the first surveys were made for an automobile road between Banff and Windermere it was planned to use the Simpson Pass, named after Sir George Simpson, Governor of the Northwest Bay Company, who made his crossing in 1841. But the route over the Vermilion was found to be easier and at the same time more beautiful, and construction of the Highway of the Great Divide was commenced from opposite Castle Mountain in this direction. At the same time the road from Windermere through the Sinclair Canyon was also commenced and at the time of the outbreak of war a gap of only thirty miles separated the two roads. War put an end to construction, and a great washout destroyed several miles of the western end, so that the project seemed to have been abandoned. Now, however, the Dominion Government has made an arrangement with the British Columbia Government by which the route of the road comes under the jurisdiction of the Dominion Parks, and a substantial appropriation has been allotted to finish the work. In this way there is every prospect of the early completion of what will be the most wonderful automobile road

- (1) Sinclair Pass, Highway of the Great Divide.
- (2) Sinclair Canyon, Highway of the Great Divide.

The publicity department of the German Admiralty states that it will take at least two years to clear the North Sea and Baltic Sea from mine fields.

Plans for direct steamship lines between the United States and South American ports were laid before the Pan American Commercial Conference in Washington yesterday.

Vice Admiral Holtweg, writing in a Berlin paper, estimates the German mercantile marine losses during the war at three and a half million gross tonnage.

What Will You Do With The Interest?

When you cash in those Victory Bond coupons, exchange them for their par value in War Saving Stamps.

Your Country needs this money in those days of readjustment and reconstruction.

The purchase of War Savings Stamps is a easy way for you to save, as well as a patriotic duty.

JUDGE CAMPBELL
Chairman Lincoln County Committee

WAR SAVINGS STAMPS
A Saving For You and a Service to Your Country

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common-garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is faded, gray or streaked. Mixing the Sage Tea and Sulphur recipe at home, though is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store, all ready for use. This is the old time recipe improved by the addition of other ingredients.

While messy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and a few another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful for the cure, mitigation, or prevention of dandruff and is not intended for use as a hair restorer.

HONEY WANTED

Information reaching the Canadian Trade Commission from England points to a great demand for honey, see-keeping has been seriously interfered with throughout the British Isles by the inability to get suitable labor during the last three years, and through the extreme restrictions on sugar for winter feeding of bees. It is pointed out that the opportunity for the Canadian production this year will therefore, be unequalled. Last year's crop in Canada approximated eight million pounds, and considering the mildness of the winter and the demands which have been made for new hives, it is not unreasonable to expect an increase of 5 per cent. should the weather in the next few months be fairly good and when producers may be assured of good prices.

NEW STANDARD FOR HOLSTEINS

At the last annual meeting of the Holstein-Friesian Association, a motion was passed to raise the standard of qualification in the Record of Performance to at least 400 pounds of fat for a mature cow, with the same rate of increase between the standard for a two-year-old and a mature cow as under the former rules. The original rule provided for a daily increase in the amount of fat required of .0931 pounds and of milk 2.75 pounds, with a standard fat percentage of 3.40. In other words, a four-year-old was required to produce 34 pounds less fat than a mature cow, a three-year-old 34 pounds less than a four-year-old, and a two-year-old 34 pounds less than a three-year-old. Retaining the same ratio of increase in fat and milk, and keeping the standard percentage of fat at 3.40, it was found advisable that the yearly production of milk be maintained in round numbers for convenience in calculation. Accordingly, all cows entered in the Record of Performance after April 30th, 1919, will be required to reach both the following amounts in order to qualify for a certificate:

Class	Milk lbs.	Fat lbs.
Mature.....	12,000	408
Four-year-old.....	11,000	374
Three-year-old.....	10,000	340
Two-year-old.....	9,000	306

MAINE SEACOAST RESORTS

Often I think of the beautiful town that is scated by the sea. Portland, Maine, throned on the hills overlooking Casco Bay, the brightest gem of the Maine seacoast is not less charming today than when Wedsworth Longfellow, America's best loved poet, went up and down its pleasant streets. The attractions of the wonderful territory surrounding Portland are manifold, there being innumerable natural beauties and cool retreats. Among these the seashore takes pride of place. Among the many favorite resorts for Canadians are Falmouth, Cumberland, Foreside, Cape Elizabeth, Willard Beach, Scarborough, Prouts Neck, Old Orchard, Kennebunk and York Beach. Old Orchard is recognized as the finest and safest surf bathing beach in the world. A handsome illustrated descriptive folder with all information and list of hotels may be had free on application to Grand Trunk Ticket Agent or C. E. Horning, D. P. A., Toronto, Ont.

TWO RAILROADS IN COURT AS PLAINTIFF AND DEFENDANT
NIAGARA FALLS, ONT., June 5.—The Wabash Railway Company has served a notice of a claim for damages against the Grand Trunk Company and the Hartford Life Insurance Company in the supreme court at Osgoode Hall. Amount is for alleged rupture of goods belong to the plaintiffs which were destroyed or damaged in this city in May 31, 1918, in a fire, which, it is claimed, was due to negligence of the defendant company.

Glen Ridge

The Ideal Residence Area of St. Catharines

Glen Ridge is by far the most desirable residential subsection in St. Catharines now on the market, and possesses the following enormous advantages:

1. It is close to the heart of the city, all lots being within one mile radius of the Post Office and City Buildings.
2. There are building restrictions ensuring the erection of only the most desirable dwellings.
3. Beautiful surroundings and park areas.
4. Prices moderate and reasonable terms.

We expect a big movement in this property in the next two months. So act quickly and own a home in the most beautiful sub-division in the Niagara Peninsula.

MISSING GIRL TURNS UP AT PORT STANLEY

LONDON, ONT., June 5.—Bertha Russell, the seventeen-year-old ward of the Salvation Army for whom a police search was demanded on Monday by Army officials, was located yesterday at Port Stanley. The young lady had not met with foul play as was feared. She missed the last car home from Springbank Park and feared to return to the Queen's avenue family, by whom she was employed. Then a new found soldier friend provided her with a room in an hotel near London Market, and the next day she took an early morning train for Port Stanley, where she had since beguiled the time to her own amusement.

HOPE VIRTUALLY ABANDONED FOR MISSING CANADIAN "ACE"

NEW YORK, June 5.—Hope for the safety of Capt. Mansell T. James Canadian ace, who disappeared last Thursday while flying in a biplane from Leamington, to Mineola, L. I., was virtually abandoned tonight after another day of fruitless searching by airplane and automobile parties. Lieut. John Frost, one of the aviators participating in the search, returned to New York tonight after a day of flying over Mount Riga and the woods near Millerton, N. Y., where it was reported an airplane motor had been heard running. He found no trace of the missing aviator but said he would return to the search tomorrow.

The Canadian Henley will be held this season, but no shell eights will compete. Many fours, doubles and singles are expected to enter.

SPORT NOTES

The Leafs and Bisons broke even in yesterday's double header at the Island. Baltimore regained their lead in the race by dividing with Newark.

A. A. Thompson yesterday won the feature closing day event at the International Trapshooting Tournament at St. Thomas.

While working out at Toledo yesterday Jess Willard scored a knock-out over Walter Monahan, one of his sparring partners.

BRITISH GOLD FROM CANADA AGAIN FLOWING TO NEW YORK

The first large gold shipment from Great Britain to the United States since early in 1917 was received in New York Tuesday, when \$6,300,000 reached J. P. Morgan & Co. The gold came by way of Ottawa. It was said the movement involves approximately \$18,000,000. The balance is expected within a few days. The metal is for the account of the British government and was received by the Morgan firm as agents for Great Britain.

In some quarters it was thought the gold was being sent to meet a special obligation, but this was denied. It was said to be more likely that England is sending the metal to place her agents in funds in anticipation of the exhaustion of the \$10,000,000,000 credit to the Allies. Of this amount \$9,370,300,000 has been loaned, of which Great Britain received \$4,236,000,000.

It is believed Great Britain has accumulated a considerable amount of gold in Canada in the last two years. It has been reported from time to time that the production of the British gold mines in South Africa and Australia has been sent to Ottawa. Some bankers estimate this accumulation at more than \$200,000,000.

Third year Arts and second year Dental results are announced.

AUDITOR'S REPORT
This statement has been duly vouched by comparing all entries with the books at the Chief Office, and certified Returns from the Branches, and in my opinion is properly drawn up so as to exhibit a correct view of the condition of the Bank.
Cash and Securities have been checked at the Chief Office at 30th April, 1919, as well as at another time during the year, as required by section 56 of the Bank Act.
I have obtained all the information and explanations required, and am of the opinion that the transactions of the Bank, which have come under my notice, have been within the powers of the Bank.
SHERMAN E. TOWNSEND, C.A. Auditor.

DISCOVERING CANADA

One of the interesting, if inevitable, results of the great war is the way in which it has diverted the course of summer travel. Formerly, when Mr. and Mrs. Upper Ten of Halifax or Toronto wished to arrange their holiday itinerary, there was positively only one place to go—Europe.
Now things have changed. Mr. and Mrs. Upper Ten must go somewhere for a summer vacation, and so they have discovered Canada.
They have found to their immense surprise, that Canada has the most gorgeous scenery in the world, that nothing in any of the older countries can compare with our wonderful Rocky Mountains, and that nowhere is there a more exquisite pastoral landscape than in Ontario, or in the British Columbia Valleys.
Even the prairies, despised and rejected by descriptive writers, have an infinite charm to the real Westerner. "Monotonous" he says, in genuine surprise, "monotonous." Never! I'd sooner motor over a prairie trail than take the finest macadamized lakeshore drive in the world. That's monotonous, if you like. Nothing but smooth pavements, conventional boulevards and formal city houses with their neat little gardens.
"No, sir, give me the open road where you can let out a war-hoop, if you like, sing if you want to, drive with your hat off, and your sleeves rolled up, take a pot-shot at the gophers bobbing up to watch you pass, or stop for a 'chin-chin' at a homesteader's shack and find him mighty glad to see you. What would one of your city folk think, I ask you, if you stopped at his door to say, 'I'm driving across your town, and thought I'd just stop for a chat.' Gee! He'd have you arrested! Me for the prairie!"
But it isn't all prairies and homesteaders in the West. You may be just as formal and "dressed-up" as you like at the beautiful mountain hotels of Banff, Lake Louise, Field, Glacier, and at the coast. All the hotels from Winnipeg to Victoria are excellent, but personally I like the Banff Springs Hotel at Banff, the Chateau at Lake Louise, and the Empress at Victoria. These three hotels are so particularly restful and "homey" in their atmosphere, that one feels as if one could linger there forever in a locus-aetate's paradise, always happy and comfortable.
At Banff there are innumerable methods of enjoying oneself—such

(1) Lake Louise in the Clouds. (2) Banff Springs Hotel.
sulphur baths, such mountain walks and rides, such fishing, such meals, such evenings of talk and music before blazing log fires, such a splendid dancing floor in the sun parlor—I grow quite homesick when I think of Banff.
At Lake Louise one could be happy if one did nothing all day but to sit and gaze at that exquisite emerald lake, set like a gem in its circle of snow-crowned mountains, the sun transmuting the wooded slopes into purples and golds and greens such as one would see nowhere else in the world. And when you add to that unparalleled view the charm of the hotel, with its lawns like green velvet and its beds of white and golden poppies; its chintz-hung bedrooms and its cosy sitting-rooms, you have scenery viewed under ideal conditions.
If you really want to "rough it," you may, at any of the mountain resorts, engage your Swiss guides and start out for several days, weeks, or even months of mountain-climbing. You may rifle and fish and tramp and sleep out under the stars and get just as far away from civilization as your heart desires.
And then, when you come to Vancouver and Victoria, you may have all the advantages of shops, macadamized roads, good hotels, and theatres, together with a certain Oriental flavor that is both piquant and fascinating. Japanese servants in the hotels, Japanese and Chinese shops with all sorts of intriguing novelties in the windows, tall dignified Hindus with their picturesque turbans, strolling about the streets, sailors from every country off the various ships in port—nothing is quite so interesting as a coast town.
"See Canada first," should be the slogan of all loyal Canadians in these days of storm and stress. It would give each and every one of us a more passionate love for our country if we could go from Halifax to Vancouver to see just what an inestimable treasure we have in our Dominion and how worth while it is to fight for her, to live for her, and even to die for her.

1919 BUDGET PRESENTED SIR T.

Minister of Finance Announces Another Domestic Loan Floated—Small Concerns Farm Implements

OTTAWA, June 6.—Finance Minister has chosen to raise the cost of living. Sir Thomas White's Budget speech yesterday promised, as along the line one into ecstasy, pleasing supporters of Union Government criticism from Opposition members its failure to deal adequately with living difficulties.

When the Finance Minister reading his speech the adjourned and members lobby, where they eagerly the tariff changes. So involved are the alterations a few men said they would judgment until they could Budget in cold type to was apparent tonight that four members of the Opposition are interested in would support the Budget.

THE HUGE COST
War's bequest of colossal will cripple Canadian many years, was the Finance Minister's main argument in his bill changes in the tariff that the country's cost of living, 1920, would reach which would entail a but 000,000 yearly in interest and \$35,000,000 to \$40,000,000 necessary annually for many years to come. The humbled under the staggering figures and announcements of tariff little demonstration.

ANOTHER NATION NECESSARY
As Sir Thomas proceeded phasis was placed on for great industrial an expansion rather than dens of the high cost of the call for the greatest gree of production for welfare. Regarding the year as a war year, his pay ordinary expenditure ordinary revenue and bonuses. This year's total would reach \$620,000,000 ordinary revenue was only \$280,000,000. Another loan would be necessary bridge the gap and sawary with war's burdening from industrial unemployment.

LIMITS TARIFF
Sir Thomas announced plause, the repeal of surtax of five per cent ported under the British tariff, but when he came and a half per cent, to effect against other countries to limit the repeal linen and cotton clothing, hoots and gloves and fur clothing, gloves, agricultural implements, oils, mining machinery coal, and a few.

This announcement spoken of with some Opposition members, effect would be to limit number of articles which was in force before the understood that the answer to this is the against which the set per cent, surtax remained important fur standpoint.

SOME INGENIOUS
Definite reductions five cents per pound of tea and the free import wheat flour and potatoes which do not import duty on such articles continued. It was agricultural implement tariff gave the Government
