Single Copies 5 Cents.

LOCAL HAPPENINGS

THE GOLD-ADVOCATE welcomes all items of interest for this column. Call Phone 11, send by mail or drop item in GUIDE-ADVOCATE Letter Box.

THE NEW BLUSES at SWIFT'S.

If sugar keeps going up the price will soon be prohibitory.

MR. MORNINGSTAR received three more Ford cars last week.

ABOUT 20 men of the 149th were transferred from Sarnia to Watford last Saturday.

THE Hamilton Recruiting League asks the Government to pass a system for conscription.

A MAN may be a good story teller, but his wife will find it hard to knit socks for the soldiers out of his yarns.

TECUMSEH Chapter, I. O. D. E. entertained 110 of Lambtons 149 at dinner in the basement of Trinity church Tuesday.

THOSE new spring coats have the correct style and are very moderate in price.—A. BROWN & CO.

CAPT. DANCY who is addressing recruiting meetings throughout the County this week, was formerly on the St. Marys Argus Staff.

AN Oshawa woman who celebrated her sixteenth birthday this year is a grandmother. She was born on the 29th of February.

THERE are now 135 officers and men connected with Lambtons 149 stationed at Watford. We will miss them when they mobilize.

LADIES' TAILORING at SWIFT'S. Correct in every detail.

MR. ANDREW McDONNELL and family wish to express their sincere gratitude to the soldiers of the 149th, who gave timely aid in helping them out of their predicament on Monday.

REV. H. P. WESTGATE, of Shelburne, has been appointed by the Bishop of Huron to the parish of Sandwich to succeed Rev. Dean Hind, who died several weeks ago.

If you do any papering this Spring see P. Dodds & Son's grand selection of patterns before ordering. The designs this year are exceedingly attractive.

THERE will be morning service and a celebration of the holy communion in Trinity church next Sunday. Sermon for young people. The usual service in the evening.

THE MEMBERS of the Kewpie Club wish to thank those who patronized their tea at St. Patrick's Day. The amount raised (\$30) has been sent to aid the Canadian and British prisoners of war in Germany.

So great is the advancement of science that it would not be surprising if the next great war in the world's history would be fought with electric guns. By this method the work of three years might be done in three months.

New floor Rugs at SWIFT'S.

WHY do people who are looking for second-hand cars look for Fords and pay a higher price in proportion? Because they are so simplified and perfected that they run with less trouble for a longer time than any other at a fraction of the cost of up-keep.

THE Militia Department pays out to the boarding house keepers of Watford over \$2000 per month for the board of men of Lambtons 149 stationed here. A nice little sum to say nothing about the money spent in town by the soldiers themselves.

IT has been discovered that several war order consignments of oats from the United States contain little pieces of steel shaped and colored like oats, which it swallowed by a horse would certainly kill the animal. This looks like another German trick.

CLOTHING with cut, style and finish.—SWIFT'S.

WILLIAM EDGAR, infant son of Mr. and Mrs. L. V. Watcher, passed away on Tuesday, March 21st, 1916, at the residence of his parents, 236 Bold St., Hamilton aged three days. The funeral was held Wednesday afternoon at 3 o'clock. Interment at Hamilton cemetery.

SOLDIERS, have your pictures made in colors in the good old khaki, and leave to your mothers, wives, sisters and sweet hearts. Anyone who wishes to procure a picture of the late Dr. Kelly in uniform, in khaki, can do so by calling at MISS NESBITT'S Studio, Main St., over Fitzgerald's law office. m31-f

THE SCARCITY of dwelling houses is being badly felt in Watford. Several families are looking for premises to rent, while others are overcoming the difficulty by buying. This, however, does not relieve the pressure, but only changes the responsibility of house-hunting from one person to another.

SMART styles in Young Men's Suits at SWIFT'S.

MRS. GEO. REED of this place, whose daughter Rose is with the Ontario Hospital Staff at Orpington, Kent, Eng. received a letter from her son George in Detroit Mich., this week. He enclosed an order for a dollar to be given to the Patriotic League recently formed. He read it in the "Guide-Advocate" and hastened to send his donation, for although he has lived in the United States several years his heart is with Canada in the great struggle.

JAMES McMANUS shipped two cars of fine horses to Toronto on Thursday.

THERE'S many a slip 'twixt the cup and lip, but only one between a man and the sidewalk.

THE seed catalogues are on their rounds—infallible reminders that the time for gardening draws near.

LADIES SUITS and coats—man tailored to your special measure. New fabrics and styles now ready.—A. BROWN & CO.

A CONCERT will be given under the auspices of the Watford Women's Inst. Wednesday evening, April 12th. Particulars later.—SEC.

THE Rev. Chas. Owen, rector of Gloucester, will be the special preacher at the Lenten mid-week services in Trinity church this (Thursday) evening.

Pte. Malcolm McKay was killed in action. He was one of the "get no mail" soldiers who answered a letter sent from Watford. His answer appeared in a late number of this paper.

The regular monthly meeting of Tecumseh Chapter I. O. D. E., will be held at the home of Mrs. Bennett on Tuesday afternoon, April 4th, at 3 o'clock. Mrs. S. Mitchell, assisting. Quotations "Spring."

This advertising news is not the least interesting department of a modern newspaper. The Guide-Advocate does not contain an uninteresting advertisement and you will find it profitable to peruse the advertising columns every week.

In cities, towns and villages all over Canada one hears the tramp of armed men. The very landscape of times appears to be khaki-colored. One imagines the reception Hun raiders would get if they crossed the international boundary line.

We trust that all subscribers, who have not already done so, will renew their subscriptions to THE GUIDE-ADVOCATE without further delay. The fact that we have not increased the subscription rate, despite war conditions, should be appreciated by all.

36 IN. Union and Wool Carpets, 50c to 75c per yard.—SWIFT'S.

FARM hands, as spring approaches, are flocking to the city for jobs. It would appear that, in the long run, cows, chickens, sunsets, green fields and purring brooks are outclassed as attractions by movies, trolley cars, paved streets, cabaret and big league baseball.

"THEY say that man has a bad memory," observed one citizen to another. "He forgot the name of the woman who brought her a spool of cotton home for some months past." "What's his name?" inquired the inquisitive citizen, "that's the kind of man I like to borrow money from."

It is officially announced through the chief press censor's office that the troopship Metagama, which sailed from Canada on March 11th, and the troopship Lapland, which sailed on March 13, have arrived safely in England. These vessels took over 4,055 troops, among them being 40 officers and 946 men of the 33rd Battalion.

The editor of every local paper is under obligation to all who bring in items of local interest, but doubly so to those who bring them in early. As the time for going to press draws near, time and space becomes more crowded, and greater consideration of valuable contributions becomes necessary.

NEW COATS and Suits every week.—SWIFT'S.

CAPTAIN R. J. CAMPBELL, Principal of the Petrolia public schools, has been granted leave of absence, has gone to Sarnia to take charge of an instruction class for commissioned officers connected with the 149th battalion. Thirty recruits of the Sarnia company of the 149th have been transferred for training to Petrolia.

On Sunday evening next, April 2nd, in the Congregational church, the Rev. R. M. Stevenson will preach on the subject—"The Future Position of the British Empire as indicated by the Prophetic Scriptures." All who are interested in the "signs of the times" and the "sure word of prophecy," are heartily invited to this service.

THERE has just been issued by Hodder & Stoughton of Toronto a most interesting 200 page volume entitled "Canada in Flanders," being the first volume of the official story of the Canadian Expeditionary Force. Sir Max Aitken, M.P., is the author, the introduction was written by Premier Borden, and the preface by Hon. Bonar Law, Secretary of State for the Colonies. The book sells for 25c.

A CENSUS is being taken this week in Warwick and Brooke of all men between the ages of 18 and 45 who are eligible for military service. The reports so far show that there are quite a number of men yet available should it come down to a matter of compulsory service. Follow up squads will ask all these to enlist. A canvas of the town is also being made.

A new device for catching flies is being added to the equipment of a number of hotels in preparation for the summer season. It consists of an electric motor which draws the flies by a suction current to a pipe. Molasses or moistened sugar is smeared on the edge to draw them to the vicinity. As the flies alight upon the pipe, a strong suction seizes them and quickly drops them into a steel cage in the bottom of the pipe. This machine has demonstrated an ability to capture over a hundred flies a minute.—Exchange.

THE new Hats at SWIFT'S.

WATFORD MARKETS—Wheat 90c, oats 88c, butter 28c, eggs 20c.

Pte. Ed. Kerr of the 149 died at the Petrolia hospital on Wednesday, the result of a fall on the sidewalk.

LET US supply you with your Spring Shoes. We have the right goods and sell at right prices. Quality and satisfied customers are our watchwords.—P. DODDS & SON.

WHY buy who have clothes, bedding or anything suitable for destitute Serbia please leave the same at Brown's or Swift's stores before April 29th. The Patriotic League will see that all are mended and in good condition before shipping.

LIEUT. LUCAS, who transferred from the 149 to the mechanical transport section was here Wednesday. He sails next Tuesday for England. He is so anxious to get to the front that he threw up his commission and engaged as driver. "Co" Company escorted him to the depot Thursday morning.

THE Cautious Catering Company will cater to this community in the store below Dr. Hicks' office on April 1st for a certain consideration for each commodity consumed. This is not an April fool, but a genuine dinner to raise funds for Lambtons 149 I.O.D.E. Ice cream and cake from 3 to 10 p. m. and dinner from 5 to 8.

The bright, sunny days of April are an inducement for the housewife to appear. An early start in destroying these pests should be made on the first fly seen, and the good work should be consistently carried on. The destruction of the early fly will mean the saving of valuable lives as there is no more persistent carrier of disease than the housefly.

ENOUGH good comfortable second hand clothing and bedding was received to make a large bale which was shipped to London on March 27th for Serbian Relief. There was also a large bale of new clothing and bedding sent. Tecumseh Chapter, I. O. D. E. wishes to thank everyone who contributed to the second-hand clothing, the sewing or in any other way.

A PARTY of traveling men in a hotel were one day boasting of the business done by their respective firms, when one of the drummers said: "No house in the country, I am proud to say, has more men and women pushing its line of goods than mine." "What do you sell?" he was asked. "Baby carriages" said the drummer as he fled from the room.

THE spring military openings were held here Friday and Saturday. The attendance on Friday was small but Saturday afternoon and evening a large number of ladies visited the different establishments. Both small and large hats are a rule low and the smaller ones very high. Flowers are particularly popular. Fruit is also used and ribbons in profusion. Many of the shapes have a rolled brim and look very smart.

J. M. PIKE, the well-known Chatham lawyer, returned recently from a business trip to the West. While on the train he made an acquaintance with a stranger named Edward Trout, of Ohio. They adjourned to the dining car and talked over the trip. The Ohio merchant, who formerly lived in Brockville, for dinner they decided, in order to avoid any argument, to order whitefish.

WEDNESDAY AFTERNOON, March 29th, the first regular meeting of the Patriotic League was held in Taylor's Lyceum from 1.30 to 5. Mrs. A. G. Brown, the President, occupied the chair. Minutes of inaugural meeting were read and approved. The canvassers for the different streets in town reported a collection of \$7.55. Sewing was done for the Serbian bale. Any person who has a spare hour Wednesday afternoon is cordially invited to come to the Lyceum and sew.—M. THOMPSON, Sec.

THE Reading Club will meet in the public library on Friday, March 31 at 8 p. m. The study of the country of Russia will be continued at this meeting. Topics dealing with the religion, literature and government of Russia will be discussed by Mrs. Foster, Miss Reid and Mr. A. R. Brown, President of the Reading Club. A cordial invitation to attend this meeting is extended to all who are interested in the study of this country.

THE opening of navigation cannot be expected for some time yet. Reports from the regular and display stations of the weather bureau and the meteorological service of Canada indicate that there is more and heavier ice over Lake Superior than has been reported since 1912. The fields appear to extend from Duluth eastward to Whitefish Point. The eastern fields are heavy and windrowed.

On Friday evening last the Congregational Church was well filled, the occasion being a lecture by the Rev. R. M. Stevenson on his recent trip to the islands in the South Pacific. His graphic description of the physical features, luxuriant vegetation, manners and customs of the natives of the Marquesas, Society, New Hebrides, Fiji, Solomon and other groups of islands was listened to with rapt attention. The lecture was a rare treat and would bear repeating.

HON. GEORGE W. BROWN, ex-Lieutenant-Governor of Saskatchewan, speaking at a recruiting meeting in Toronto, struck the nail on the head when he said to many Canadians wanted to go as officers. "You want to go as officers," he said, "but you forget that there are at present almost five hundred officers at Shortcliffe with nothing to do." He

400 Suits FREE

I am prepared to give FREE to every able-bodied man presenting himself at any recruiting office of Lambtons 149 and who signs up for overseas service.—1 suit of clothes of the most fashionable khaki shade, 1 warm overcoat, 2 suits of the best quality underwear, 2 pairs of wool socks, 2 pairs of boots, 1 pair of rubbers, 1 set of toilet requisites, and many other articles too numerous to mention.

Why buy clothing when you can get it free?

CAPTAIN ALEX. KELLY
Quartermaster Lambtons 149
Outfitter for His Majesty the King.

described them as misfits, and said that men were wanted that would go in the ranks. "Then," he continued, "if you deserve promotion you'll get it."

MR. ANDREW McDONNELL had a trying experience on Monday. When breaking the ice in the cistern to get a pail of water he let himself down onto it in order to break it easier. When his weight rested on the ice the whole sheet gave way. He grasped the edge of the platform but could not get out. His cries attracted his daughter who clung to him till some passing soldiers were hailed. The khaki boys soon lifted him out of the cistern but the shock to the old gentleman was severe. No serious consequences are anticipated.

A GENTLEMAN of high standing in Watford has handed to the Officers of Lambtons 149 a list containing the names of 17 unmarried and 28 married men residing in Watford who are eligible for military service. The letter which accompanies the list speaks for itself:—"The need for men is very great as the war situation must still be regarded as vitally serious. I consider it the sacred duty of every male eligible citizen to enlist and help the allies win this terrible war, as our freedom, in fact our very life, is threatened. I believe all those whose names appear on this list are eligible for military service and that our village could manage without their services during the continuance of the war."

PERSONAL.

Mr. John Shirley is critically ill and little hope is entertained of his recovery.

Mr. Geo. Eagle, of Calgary, is spending a couple of weeks in Watford with his mother.

Mr. Nicholas McNeer spent Sunday in Brantford the guest of his sister, Mrs. McNeer.

Mr. McClarty Manager of the Merchants' Bank, Sarnia, paid Mr. and Mrs. D. Roche a short visit.

Capt. Dancy, Madame and Mlle. Yvonne, Tenants, Brussels, Belgium, visited over Sunday at Capt. Stapleford's.

Miss Evaline Fitzgerald, London, spent a few days this week visiting her cousin, W. E. Fitzgerald.

Mr. G. Fuller and Mrs. Fuller visited on Saturday with her sister, Mrs. B. H. Parker, Erie St. Mrs. Parker is improving after her two weeks' illness.

Mr. Wm. Willoughby of Ithaca, Mich., is spending a week with his mother, Mrs. C. Willoughby. He is accompanied by his daughter Whilma, and son Basil.

Mr. W. B. Legate of the Hydro-Electric Power Commission was in Watford on Tuesday. He interviewed some of the town officials and also visited Geo. Chambers of the electric light plant.

Lambton Soldier Displays Heroism

An official report from France says:—Sergt. Crosbie, of the 18th (Ontario) Battalion, made a reconnoissance of enemy wire defenses. When 20 yards from the German parapet he was seen by the enemy sentries, who immediately opened fire on him. Sergt. Crosbie was hit in the arm, but returned to our lines. Sergeant Grover Stanley Crosbie, mentioned in the eyewitness' report, is a resident of Oil Springs, Ont. He enlisted at Sarnia and trained with the battalion in London. He was a member of the 27th Lambton Militia Regiment.

Col. Goodman, K.C., has resumed the practice of law at Parkhill.

Soldiers Entertained

Tecumseh Chapter I. O. D. E. entertained the officers and men of Lambtons 149 at the supper hour on Tuesday last in the basement of the Anglican Church. One hundred and ten soldiers and local clergy sat down to the beautiful hot supper provided by the ladies. The wash tables were appropriately decorated with flags and flowers.

After supper Rev. S. P. Irwin, chaplain of the regiment, acted as chairman and the following short impromptu program was given. An hymn "God Save the King". Rev. Irwin speaking for Tecumseh Chapter expressed the pleasure and honor which the members felt in entertaining the soldiers. He also spoke of the growth and development of patriotism in our country and gave a part of the credit for this being due to the spirit fostered by the Daughters of the Empire and other patriotic societies during the past years.

Lieutenant Smyth thanked the ladies for their hospitality and his vote of thanks was seconded by Lieutenant Swift.

Private E. Mays sang a solo well, all present joining heartily in the chorus.

Private I. T. Brown whistled a number and was heartily cheered. The mouth organ and whistling duet by Privates McFadden and Brown was enjoyed by all.

Col. Kenward moved a vote of thanks to the soldiers for their share of the program which was seconded by the Regent of Tecumseh Chapter and the gathering dispersed.

BROOKE

The Red Cross Aid will hold their next meeting at Mrs. H. Parker's on Tuesday, April 4th, 1916.

Divine Service will be held in St. James' Church, Brooke, on Sunday afternoon at 2.30.

Ellwood, the 8 year-old son of Wm. Mellise, of 8th con., Brooke, while swinging by his hands between the table and a chair, slipped and fell to the floor, causing severe internal injuries. He suffered terribly several days and finally died Wednesday morning. The funeral took place Friday from the family residence.

WARWICK.

Miss Annie McPherson is making an extended visit in London.

Obituary notice of the late James H. McGillicuddy will appear next week.

Misses Grace Luckham and her cousin, Mabel McCormick spent Saturday in London.

The trustees of Bethel Church have engaged Mr. Halliday to look after the cemetery and plot owners are being notified as to the amount required for the care of each plot.

Mr. I. J. Kadey, 4th line, received word from Calgary this week informing him of the death of his mother, Mrs. Thos. Kadey, which occurred in that city on March 14th.

The infant daughter of Mr. and Mrs. Gordon Vance, Sarnia, died last Thursday at the home of Mrs. Vance's parents, Mr. and Mrs. Evans, where they were on a visit. The funeral service took place last Saturday at Bethel cemetery.

The death of Mr. James McGillicuddy occurred last Sunday morning at the home of his daughter, Mrs. Lean, in Bosanquet in whose care he had been for sometime, having suffered a stroke a few months ago. Interment took place at Bethel cemetery Tuesday afternoon, from his late residence on 18 side road.

On Monday evening next, April 3rd, in Zion Congregational Church, the Rev. R. M. Stevenson will deliver a lecture on the subject:—"Travels and experiences in the South Sea Islands, New Zealand and Australia." A cordial invitation extended to all. Lecture to commence at 8 o'clock. Silver collection to defray expenses.

Mrs. Cox wishes to thank the ladies who braved the storm of wind and snow, to attend the meeting of the Women's Patriotic League held at her home on Wednesday afternoon. Thanks are due also to the ladies who provided the delicious cakes served at the lunch. The donations in cash amounted to \$15. The bale packed with Red Cross goods contained:—22 grey flannel shirts, 1 flannel shirt, 11 pillow-cases, 18 hospital towels, 1 bath towel, 9 pairs socks, 2 mattress covers. The bales for Serbian Relief contained:—2 quilts, 1 overcoat, 2 women's coats, 2 suits pyjamas, 1 child's dress. Owing to the almost impassable state of the roads the next meeting will not be held until late in April.

Private Robt. E. Smith of the Lambtons 149 and Miss Alma Rose Robertson, both of Petrolia, were quietly married at the Presbyterian manse, Wyoming, on Tuesday, March 21st, by Rev. R. J. Ross. Congratulations.

HOW MRS. MET THE

Carried Safely Through of Life by Lydia E. Vegetable Cod

Nashville, Tenn.—"I was through the change of my child three and one was from some country to my mother's home."

Lydia E. Pinkham's Vegetable Compound would cure it. The Change of Life and when I got home I did not I took the Pinkham remedy and the tumor was gone, the doctor had not felt it since. I know I was cured. If I help others you are welcome.—Mrs. E. H. Bean, 525 J. Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy of extractive properties of sioned roots and herbs, m woman's system at this of her life. Try it.

If there is any sympathy which puzzles you the Lydia E. Pinkham Co., Lynn, Mass.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."

—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old-fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

HARRIS & CO. PROPRIETORS

Guide-Advocate

HARRIS & CO. PROPRIETORS. WATFORD, MARCH 31, 1916

NOTE AND COMMENT

One excuse for the employment of gas by the Germans is that they have gained a number of meters on one sector of the Front, and so had to put them to some use. This of course throws another light on the business.

Judging by the number of riots in Canadian cities in which the soldiers of the King participate, we are forced to believe that if the boys cannot get to the front to fight for us, they are quite willing to fight with us. When a Canadian soldier who has never smelt powder will proceed to show us his power what would a victorious enemy do had he the chance?

Many a man who, before the war, was filled with admiration of what is great and fine in German civilization and character, is now inclined to assent to such assertions as arouse the indignation of Prof. Kuno Francke, of Harvard University, for example, that "German statesmanship is brutal and insolent, German scholarship heavy and mechanical, German science uninventive and unoriginal." —New York Post.

The first surprise of the war was

MRS. CLAYTON'S LETTER

To Run-Down Nervous Women
Louisville, Ky.—"I was a nervous wreck, and in a weak, run-down condition when a friend asked me to try Vinol. I did so, and as a result I have gained in health and strength. I think Vinol is the best medicine in the world for a nervous, weak, run-down system and for elderly people."—Mrs. W. C. CLAYTON, Louisville, Ky.

Vinol is a delicious cod liver and iron tonic without oil, guaranteed to overcome all run-down, weak, debilitated conditions and for chronic coughs, colds and bronchitis.

Taylor & Son, Druggists, Watford.

we could not conceive it to be possible that a civilized country—with its genial smiles and Judas' kisses, and with their Emperor visiting England amid the acclamations of a simple-hearted people—could have been plotting a war the limitations of which no human being could see. The second surprise was for the enemy; that, despite their plots and attempts of spies to spread disaffection, every part of the Empire rushed to the assistance of the Mother Country. Henceforth, come weal, come woe, the British Empire is world-wide, a fact with which all of the universe has to deal. The men overseas have not failed us, and we will not fail them.—Lord Rosebery.

Toronto World: Germany has spent her strength and is fighting a losing battle. How many more rounds it may take to settle the bout no man can say. There may be a knock-out blow, or the beaten man may throw up the sponge. The main thing at present is for the allies to maintain their courage, their strength, their coolness, their determination. It is the man who holds out the longest that wins. The spirit of victory is invincible, and all the allies have displayed it. The Verdun action has no features that advantage Germany. Her loss in men has been too costly for any advances made. Moreover the loss in morale is a staggering thing. It is believed that the failure of the German troops to strike a decisive blow here has cost the Kaiser the loss of the initiative on the western front. The war may become a defensive for Germany from the opening of the spring campaign.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Will They Come Out?

Rumors are once more rife that the German High Sea Fleet will venture on an engagement in the North Sea. The reports recently that twenty or more German Dreadnoughts were seen there have some relation to these rumors, but whether Admiral Tirpitz would stake his all upon a throw of the dice is quite another matter. It has been stated in responsible quarters that the Kaiser's brother would take over the command. Well, that sounds like business.

BORN

In Plympton on Sunday, March 12th, 1916, to Mr. and Mrs. Babcock, second line, a daughter.

In Strathroy, on March 15th, 1916, to Mr. and Mrs. L. H. Dampier, a son.

In Petrolia Hospital, on Wednesday, March 8th, 1916, to Mr. and Mrs. W. A. Brock, a daughter.

DIED.

On Sunday, February 13th, 1916, at Dartmouth, England, Joseph Lovedav, aged 62, (father of Rev. A. J. Lovedav, pastor of the Brooke and Enniskillen Baptist Church near Inwood).

In Parkhill, on Friday, March 10th, 1916, Mr. Alexander McNabb formerly of Bosanquet and Forest, aged 69 years.

In Brooke, on Friday, March 10th, 1916, John Rodger, infant child of Mr. and Mrs. Guy V. Risk.

In Brooke, on Tuesday, March 14th, 1916, Jane Rodger, beloved wife of Guy V. Risk, aged 21 years and 21 days.

In Brooke, on Wednesday, March 15th, 1916, Isabella McNabb, relict of the late Malcolm McAlpine, aged 79 years, 11 months and 1 day.

In Alvinston, on Tuesday, March 21st, 1916, Ebenezer Ross, aged 75 years, 1 month and 3 days.

Six amateur wireless telegraph operators of Port Huron have received first class amateur licenses to operate their apparatus. A few days ago a U. S. government inspector investigated charges that many amateurs were operating instruments with too great wave length which interfered with the Canadian government station at Point Edward. The ladies' instruments were inspected and changes made to comply with the law and the recent ban was lifted.

Good Seed Corn

A four-page circular prepared by the Dominion Seed Commissioner and issued for free circulation by the Department of Agriculture at Ottawa sets down as an axiom: "The most expensive seed corn is that which will produce a poorer crop than could have been obtained from better seed." A moment's thought will convince any one that the statement is incontrovertible. In furtherance of the policy that has for its object the promotion of the availability and the use of good seed, the circular which can be had free of postage on application to the Publications Branch, Department of Agriculture, Ottawa, explains the steps that have been taken in this direction and gives in full the text of the Seed Control Agreement, by which growers agree with the Minister of Agriculture to sell seed corn in the ear, under the "control" system only, to May 31st next, thereby making it subject to special regulations and guaranteeing the quality to purchasers. The advantages to be derived from the system are briefly told in detail, but the main point is that following the instructions and suggestions means not only an improved crop in quality but also a large increase in quantity. Some of the advantages are that the danger of the crop not coming up because of poor germination, necessitating replanting, is lessened; that strong vitality which gives a perfect stand of vigorous plants will be encouraged; that more rapid and uniform growth with early maturity will ensue and that less seed will be required. It is not difficult to believe that, as the circular says, "Many farmers would save money and have a better crop if they paid twice as much per bushel as they ordinarily do to secure the best obtainable seed corn and planted half the quantity." In conclusion farmers are advised that as the amount of good seed corn is more limited this year than usual those who wish to purchase under the agreement would do well to place their orders early. A list of growers selling with the varieties and price, when stated, will be forwarded in answer to applications, that can be mailed free, to the Seed Commissioner, Department of Agriculture, Ottawa.

A Cold Cure

"I've cured my cold," he said. "I'll tell you how I did it. The information ought to come in handy this treacherous weather.

"I boiled a quart of wormwood and horehound together, and drank it hot. Then I took two pills, and put one kind of plaster on my chest, another kind on my back, and a third kind under each arm.

"Thanks to my governor's advice, I had sense enough to clap the mustard plaster on my stomach also, and to sleep with red hot bricks at my feet.

"An old lady brought me a bottle of goose oil and showed me how to take it—you suck it, you know, off a quill. My uncle from the country turned up with a bundle of herbs; these herbs made a tea that I took a cup of every half-hour. On a cousin's advice I got outside an enormous dose of salts.

"My wife got me to take three pills of her own make—they were brown, bitter, and about the size of eggs. They did me good, too.

"The crisis was now reached, and I retired to my bedroom. There, after tossing off a pint of tar balsam, I tallowed my nose, steamed my legs in an alcohol bath, and took large doses of hot rum, seaweed tea, and castor oil, which were severally recommended by a sea captain, my minister, and my grocer. Then I took seven different kinds of pills, wrapped round my neck an old stocking of my wife's soaked in hot vinegar and salt, and got into bed.

"As I dozed off, they burnt feathers on a shovel before me.

"That completed the cure. I am now well. I recommend this simple cure to cold sufferers."

If you really believe in Safety First, get a box of Takake pills for your sleeplessness, neuralgia, or rheumatism for they are absolutely harmless, and are sure to relieve you fifty cents a box at your druggists, or by mail from the Georgian Mfg. Co., Collingwood, Ont. 1

An early morning blaze totally destroyed the barn of Mr. Jabez Cliff, of Bosanquet, Monday morning. Mr. Cliff succeeded in getting his horse out, but the cutter, buggy, harness and two rigs were consumed with the barn.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Cure is within reach of all.

Why He Looked Sad

"May I ask the cause of all this excitement?" said the stranger in the little village. "Certainly," replied the countryman. "We're celebrating the birthday of the oldest inhabitant. She's 101 today." "Indeed! And may I ask who is that little man with the dreadfully sad face, walking by the old lady's side?" "Oh, that's the old lady's son-in-law. He's been keeping up the payments on her life insurance policy for the last thirty years."

HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years, "Fruit-a-lives" Brought Relief.

MR. WHITMAN
1674 Esplanade Avenue, Montreal.
"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 160 pounds. Several of my friends advised me to try 'Fruit-a-lives' and I did so. That was eight months ago. I began to improve almost with the first dose. No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-lives', and by using it I recovered from the distressing Stomach Trouble, and all pain and Constipation and misery were cured. I completely recovered by the use of 'Fruit-a-lives' and now I weigh 208 pounds." H. WHITMAN.

A LOST PICTURE PLAY

It Turned Up Unexpectedly

By DONALD CHAMBERLIN

I am the manager of a moving picture studio. What is a manager of a movie studio? Only he who has been such a success. Success or failure depends upon him.

If one desires to get an idea of the workings of the photographing of plays let him visit a studio while the work is going on. He sees men, women and children lounging about waiting their turn to enact their parts. Some are arranged before the camera. A court scene, a love part a murder, anything, everything that pertains to civilized, even savage life, on land, on the water, in the air, is put on the films before the wondering beholder. A woman is gazing in abandon while waiting to be a princess before the camera. A peasant girl is complaining that she is "tired to death"—for the work is dreadfully wearying—and she must in a few minutes be skipping about as happy as a newly fledged bird. This is behind the scenes of the movies.

How different from the picture passing smoothly before the eyes of an audience seated in comfortable chairs in the theater!

It is this multiplication of matters needing attention that leads managers of studios to hedge themselves in behind closed doors and forbidden to any one until the name has been sent in on a slip of paper stating the nature of the caller's business. And if some unknown person desires to see him to submit a picture play he sends word to leave it and it will be examined. If then goes on to the file of hundreds of other plays to take its turn and (usually) be returned after weary waiting on the part of the author.

Having given, I trust, the reader some faint idea of my multifarious duties I will tell my story.

One morning when I sat down to my desk, feeling somewhat rested from the work of the day before, there came a call at the telephone. Taking up the receiver, I listened. The voice that came over the wire was that of a woman and was soft and sweet.

"Is this Mr. Collamore?"

"Yes, I'm Mr. Collamore."

"I've just finished a picture play, and I would like to have a few minutes' conversation with you about it."

"Leave it in the office, or send it by mail, and it will receive attention."

"Thank you very much, Goodby."

"I was surprised at being able to throw the party off so easily and congratulated myself at having done so; then turned to my daily routine. The next morning there was another call at the phone.

"Mr. Collamore, I have some more information to give you about that matter of which we were talking yesterday and will call on you at 3 o'clock this afternoon. Goodby."

"Who are you, please?"

"Miss Weatherby."

Hearing a click I knew there was no use trying to find out who Miss Weatherby was. I did not remember any conversation with any such person, but I concluded that I had neglected to take down the name. Inasmuch as she had been admitted and had talked with me, what she had to communicate must be of some importance. At any rate, when she was announced in the afternoon I gave an order for her admittance. A very pretty young woman was ushered in, who seated herself in the chair beside my desk with as much sang froid as if she had a right to remain there as long as she chose.

"Let me see," I said to her. "What was the business we were discussing yesterday morning? I don't quite recall it."

"I told you that I had a picture play."

Now I knew who Miss Weatherby was. Unable to get at me in the regular way, she had resorted to the telephone to make an appointment—a very shrewd device. However, she had succeeded in passing my guard and there was nothing to do but listen to what she had to say. This was brief and to the point. She asked me to read her scenario myself. I told her that it was impossible for me to read all the plays that came into the studio, to which she replied that she did not wish me to read all the plays, she would be satisfied if I would read hers. She would not leave without the promise, and I was obliged to give it. Then she handed me her manuscript and departed without a word.

It was evident that the girl was not only bright, but had the good sense to understand that her play would stand by itself and she need not bore me by telling about its strong

NO ALUM

points. I am a man of my word and determined to keep my pledge to her. I put the scenario in my pocket, intending to glance over it on my way home. I live in a suburb and go home by rail. When on the train I would have abundant opportunity to do so.

That evening when I went home I was loaded down—a common condition of commuters—with parcels. On the train I took out the scenario and was about to begin its perusal when a boy came along with the evening paper. I bought one and, seeing a startling announcement of a victory in the great European war, laid the manuscript down beside me on the seat. Becoming absorbed in the news, I read the paper till I reached my station and, forgetting all about the scenario, left it in the seat. Not till after dinner did I remember it and my promise to read it.

There is a rule of the railroad that all articles left in trains should be turned in at the nearest terminal, and I hoped to recover the play the next day when I went into the city. It had not been left at the lost article office. I was worried. I called again to inquire for it the next day and was still disappointed. I gave up all hope of recovering it and began to consider devices by which I might best get out of the scrape with Miss Weatherby.

I had not promised to read the play within any given time, so there was no hurry in doing anything about the matter. I was in hope that an address was written on the manuscript and it would be sent back to the author, who would turn it in again to me. But when a week passed I gave up this hope.

I could now do nothing but confess the loss to Miss Weatherby and indemnify her. But I was very busy, as usual, and concluded to wait for her to put in an appearance, when I would be very sweet to her with a view to let down as lightly as possible. I was ready to pay her a fair price for the time she would spend in making a duplicate copy of the manuscript.

It was about ten days after the loss that I was called up on the phone by Miss Weatherby, who asked in her sweet voice if I had passed upon her play. I responded that I had not. This was as far as I got when she interrupted me, saying that she was aware that I was a very busy man. Indeed, she wondered that I had not broken down long ago. Then, saying that it would be criminal for her to take up my time about her small matter, she hung up the receiver, and I was shut off.

I did not know whether to feel glad or sorry at this reprieve. I would have preferred to make my confession and have the suspense ended. And yet the delay might bring forth some development—the manuscript might turn up; something might happen either to me or the young lady to render an explanation unnecessary. I think that I would almost have been willing to break my leg if while I was laid up the difficulty could be removed.

I did not hear from Miss Weatherby for some time after she had called me up on the phone. A new play that had been hawked about among film manufacturers was meeting with great success, and I was interested in making the acquaintance of the author and getting some of his work. But the name of the writer was not given, and I failed to find out who he was. It was rumored that the play had been written for the actress who played the principal part, a lady who had made a reputation on the stage—Helen Markland, though this was her stage name. I had never seen Miss Markland, having been so busy that I had to work nights, and tried to get an evening to attend the theater when she was on the screen, but this far had failed.

The next time Miss Weatherby called me up to inquire about her play she asked me if I had seen Helen Markland in her new play. I told her that I had not, but was trying to get an opportunity to do so, whereupon she went into raptures over the play and the actress. "I'm going tomorrow night to see her," she added. "I wish you would be my escort."

Here was an opportunity to break the news of my carelessness under great advantage. I knew that for one in my position to confess to escort one of the multitude of women ambitious to achieve a reputation as a playwright would be considered a great honor. I told Miss Weatherby that I would be delighted to escort her in good time for the first performance. She replied that she should expect me to criticize the play, giving her the benefit of my knowledge in such matters, that she might utilize it in improvements in the scenario in my possession. I winced at this, but said nothing.

The next evening I called for Miss Weatherby in a carriage. She introduced me to her mother, who was to go with us to the play. We were a little ahead of the main feature, during which interval I was delighted with my companion, who chatted charmingly. She seemed in the best of spirits and very proud of having secured the escort of a manager of a studio. When the main play came on she ceased to talk and sat with an expectancy upon her face such as she might have shown were she personally interested in the play about to be produced.

A few minutes after the opening the heroine came on the screen. I started. To my astonishment, she might have been Miss Weatherby's twin sister. A photograph has certain differences from its original, and I was not quite sure of the resemblance. I turned toward my companion and saw an amused smile on her lips.

Then I knew that Miss Weatherby and Helen Markland were the same person.

There is little more to my story. When Miss Weatherby left her scenario with me she was unknown in the picture world, though she had attained some reputation as an actress under the name of Helen Markland. The scenario that I had left in the train bore her address and was returned to her. She succeeded in getting it accepted by another manufacturer, with herself in the title role.

The play and the leading lady were delightful.

Miss Weatherby and I became fast friends, and I have since manufactured several of her plays.

Adaptability of Sudan Grass.
Owing to the popularity of Sudan grass many inquiries are being made regarding its adaptability to different sections. Sudan grass belongs to the sorghum group, consequently its soil and climatic demands are similar to those of the other members of the sorghum group, such as cane, Kafir, milo, feterita, etc.

As Sudan grass is a plant of tropical origin, it requires abundant sunshine and warm weather and is very sensitive to cool nights. At high altitudes, where the nights are generally cool it will not do well even when the days are warm and sunny.

It is a safe rule to follow that Sudan grass will do well in all localities where feterita can be successfully grown, as the demands of the two crops are very similar.

Experiments have shown that acetylene light will make plants grow larger and more rapidly than those subjected only to sunlight.

The record for efficiency is claimed for a French oil engine with a fuel consumption of less than 40 pounds per horsepower hour.

LAME BACK
Spells Kidney Trouble

There's no use putting on liniments and plasters to cure that ache in your hips or back—the trouble is inside. Your kidneys are out of order. GIN PILLS go right to the cause of the backache and heal and regulate the kidney and bladder action. Then you get relief, permanent relief!

Many a man and woman who has been doubled up with shooting pains in the back, having to stop work and lie down to get a little relief, has found new health and comfort in

GIN PILLS
FOR THE KIDNEYS

What Make Was It?

A motor car was one day standing in a street and the chauffeur was having some little trouble with the starting crank.
 A small crowd of idlers were watching operations and when the motorist had finished his struggles a man from the crowd advanced toward him.
 Holding out a coin, he remarked:
 "Well done, my man; here's a copper for you. That's the quietest street organ I have heard."

MARKETS

Toronto

Toronto, March 29.—Receipts at the Union stockyards to-day were 1,090 cattle, 84 calves, 794 hogs and 20 sheep and lambs.
 The market was strong and active today, all prices holding good and firm at recent advances, particularly for the choicest lots of butcher steers and heifers. Good stockers and feeders are now fetching the higher prices that were predicted a month or so ago. The domestic demand for this class of cattle was surprisingly inactive during the lower price period and but for the demand for over the border there was practically nothing doing.
 Hogs were again in active demand, going up another 25c to-day over yesterday's prices.
 Sheep and lambs steady. Calves weak.
 To-day's quotations:
 Choice heavy steers... 8 25 to 8 40
 Butcher steers, choice... 7 85 to 8 00
 do, good... 7 50 to 7 65
 do, medium... 7 25 to 7 40
 do, common... 6 50 to 7 00
 Heifers, good to choice... 7 25 to 7 85
 do, medium... 6 50 to 6 75
 Butcher cows, choice... 6 50 to 7 00
 do, good... 5 75 to 6 50

CHOP STUFF

Crude oil is up to \$2.72 1/2 at Oil Springs. The 149th men at Sarnia have secured the services of a Highland piper for their route marches.
 Arthur Hodgkinson, dentist, Vancouver, aged 28 died last week. He was at one time a resident of Strathroy.
 Capt. J. G. Wood, of the 27th Regiment, has been appointed to the 153rd Overseas Battalion, with the rank of Major.
 Mrs. McLaren of St. Marys is dead. She was not only the oldest merchant in town but she had conducted business for fifty-five years.
 Neil McDougald of Petrolia, Public School Inspector for East Lambton, has received word that his nephew, Roy Duncan, was killed in action in the trenches in Flanders on March 10.
 Wyoming correspondent of the Petrolia Advertiser:—The latest proclamations that have been posted in our village appealing for recruits have a somewhat commanding tone about them. With many young men in this section of the county little interest has been shown in the call for recruits and the splendid recruiting meeting that was held recently appears to be completely barren of results, hence the use of the plain and strong words. An educational recruiting campaign does not seem to be sufficient, for it has come to pass, that those who should answer the call will absent themselves from such meetings and now from all gatherings where a few young men appear in khaki. It is becoming very noticeable and unless there is considerable improvement before long, stronger methods may be used to bring them into the ranks. The Government may be obliged to resort to compulsory service in some form.

Watford's Busy Store

Overland

\$850.00

Never Before Such an Instantaneous Success

Never before has an automobile success been so rapid, so definite and so sweeping.
 The \$850 Overland has made history. It marks the entrance of a new automobile value—a car complete in every sense of the term at a price which was hitherto thought impossible.
 Yes, here it is—a powerful five-passenger touring car complete for only \$850.
 It is large enough for the whole family—moderately priced, within the reach of the majority—economical to maintain—built of the best quality materials—snappy, stylish and speedy—and complete in every sense.
 In short, it is just another striking example of how our large production enables us to build a bigger and better car and still keep the price within reason.
 You'll want one, so order it now. Then in a few days you and your whole family will be driving your own car.
 Remember it comes complete—only \$850! Catalog on request.

A public meeting will be held in the Methodist Church on Saturday night, April 1st. The speakers will be Capt. Dancy, late of the Imperial Service who was a prisoner behind the German lines for 4 months, Lieut.-Col. Bradley and Capt. Stapleford. You are cordially invited to attend.

The soldiers are taking a census this week of men eligible for military service. Visit our Silk Department.—Special values.—A large assortment.—Brown Bros.

Warwick Liberals

The annual meeting of the Warwick Liberal Association was held in the Town Hall on Thursday, March 16th, with a good attendance. E. A. Edwards, the president, presided. Officers and committees for 1916 were elected as follows:

Hon. President, R. J. McCormick; President, E. A. Edwards; 1st Vice President, Donald McLeay; 2nd Vice President, D. D. Brodie; Sec. Treas., Peter Fleming;

Div. No. 1 Committee:—Joe Parker, Ed. Robertson, Jas. Spalding, Alex. Laird, Ezra Sessions, H. A. McKenzie, S. D. Cameron, A. Harrower, Jr., J. E. Collier, Robt. Edgar, P. Cran, John Beattie.

Div. No. 2 Committee:—John Kingston, John Cameron, John Williamson, Albert Bryce, D. Duncan, Wm. Smith, D. Acton, R. Leach, T. Leach, J. A. McKenzie.

Div. No. 3 Committee:—John Wilkinson, W. McKorie, Robt. Smith, T. Gavigan, D. Ross, H. K. Laird, P. Ferguson, M. Perry, M. Barrett, C. Barnes, Robt. McKenzie, Ed. Caughlin.

Div. No. 4 Committee:—R. Ellerker, Geo. Brodie, H. Morningstar, Geo. McFarlane, Wm. Minnelly, D. McLachlan, Ed. Maidment, D. Kernohan, Geo. Mathews, John Fisher.

Div. No. 5 Committee:—C. Thompson, W. H. Luckham, Alex. McKenzie, J. Campbell, D. Auld, Andrew Auld, J. Cates, C. E. Smith, T. McPherson, B. Faulstich, W. Thompson.

Div. No. 6 Committee:—Truman Eastman, C. Smith, G. McPherson, W. Butler, D. Marshall, Geo. Dunlop, J. Smith, S. Evans, E. Benedict.

Div. No. 7 Committee:—D. A. Ross, R. Watson, W. Parker, W. Poore, W. Hall, J. Wiley, C. Orr, G. Baird, D. Edwards, J. Aitken, Wm. Marshall, Ed. Cundick, J. Shields.

Resolutions of confidence were passed in the leadership of the Right Hon. Sir Wilfrid Laurier and Hon. N. W. Rowell, leaders of His Majesty's opposition at Ottawa and Toronto.

Addresses were given by D. J. McEachern of Alvinston, president of the East Lambton Liberal Association, H. J. Pettipiece of Forest, and R. J. McCormick of Warwick.

UNCONQUERABLE

KAISER:—So, you see—you've lost everything! KING ALBERT OF BELGIUM:—Not my soul!

"And Moses said unto the children of God and to the children of Reuben; Shall your brethren go to the war, and shall ye sit here?"—Numbers 32: 6.
May not Albert of Belgium and George of Britain well say unto Canadian young men: "Shall your brethren of France, and Belgium, and Russia, and Italy, and Serbia and the British Isles go to THE WAR and shall Canadians sit at home?"
Young Men of Lambton, show the true stuff within you and resolve to join Lambtons 149 Overseas Battalion. DO IT NOW.

REPLENISH YOUR BLOOD IN THE SPRING

Just now you are feeling "out of sorts"—not your usual self. Quite exhausted at times and cannot devote real energy to your work. Sleep does not rest you and you wake up feeling "all tired out." Perhaps rheumatism is flying through your muscles and joints, or may be your skin is disfigured by rashes, boils or pimples. Headaches, twinges of neuralgia, fits of nervousness, irritability of temper and a disordered stomach often increase your discomfort in the spring.

The cause—winter has left its mark on you. These troubles are signs that your blood is poor and watery, that your nerves are exhausted. You must renew and enrich your blood at once and restore tone to your tired nerves, or there may be a complete breakdown. The most powerful remedy for these spring ailments in men, women and children is Dr. Williams' Pink Pills for Pale People, because these Pills cleanse bad blood and strengthen weak nerves.

New, rich, red blood—your greatest need in spring—is plentifully created by Dr. Williams' Pink Pills, and with this new, pure blood in your veins you quickly regain health and increase your strength. Then your skin becomes clear, your eyes bright, your nerves strong, and you feel better, eat better, sleep better, and are able to do your work.

Begin your spring tonic treatment today for the blood and nerves with Dr. Williams' Pink Pills—the Pills that strengthen.

These Pills are sold by most dealers, but do not be persuaded to take "something just the same." If you can't get the genuine Pills from your dealers they will be sent you by mail, post paid, at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Golden Wedding Celebrated

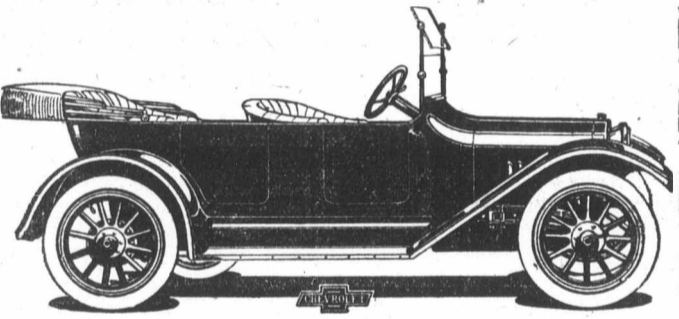

Mr. and Mrs. Geo. George, of Oil Springs, have celebrated their golden wedding with their children at the home of their daughter Mrs. Chas. Tanner, of Emskillen.

Mr. and Mrs. George were born in England and came to Canada when small children. They were married in West Williams March 6, 1861. To this union were born nine children, all of whom are living:—Mrs. Tanner at whose home the celebration was held; Arthur, who lives with his parents near Oil Springs; Mrs. (Dr.) Rice, of Tipton, Mich.; Alfred, of Glencoe; Mrs. Thos. Milner, of Wallaceburg; Mrs. John Wright, of Muirkirk; Mrs. Floyd Bell, of Tecumseh, Mich.; Mrs. Benj. Hewitt, of Rodney and William, of Newbury. There are 20 grandchildren and one great grandson.

The well-laden table was decorated with flowers, and supper was eaten by the light of fifty candles, which adorned the wedding cake. The time was spent in amusements and songs were given by Mrs. Milner, Mrs. Wright, and her two daughters, Agnes and Gracie.

Ebenezer Ross of Alvinston, died last week in his 76th year. Mr. and Mrs. Ross celebrated the fiftieth anniversary of their wedding last summer. Surviving children are: William, George, Truman, Walter and Wilbert of Brooke; Fred of Ann Arbor, Mich.; Mrs. Lucas and Mrs. Watt of Brooke, and Miss Ella at home. The funeral took place today at the Baptist Church.

Inwood recruits have been transferred to Alvinston.

No Car is Better Than Its Equipment

Look over the equipment on the Chevrolet and then form your opinion of its real value. Then look at the general appearance—Could you wish for anything more pleasing?

The result is you find the Chevrolet a well equipped, fine appearing, economical car. A car the ladies can drive.

What more could one desire? Then why not drive a Chevrolet?

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Turn Waste to Profit

Recently a proprietor of a large, modern business in a thriving city was heard to remark "my twelve months' trade shows, after allowing myself a low weekly income, not one cent of profit, on all the capital, risk and worry." He distinguishes closely between income and profit for the year.

Does the average dairyman consider his farm business in the same light, each department of its many activities, grain, poultry, lumber, pork, hay, milk? Further does he distinguish between income and profit when dealing with the herd? If (and much depends on that "if") each cow makes a good profit he is indeed well off. Even if each cow is responsible for a good income, things are not too bad. If some of your cows waste good feed because they are not possessed of ability to

make milk economically, find it out; turn waste to profit. Make the cows keep you, that is their job; you need profit on the feed, profit to pay for your investment of capital, risk and worry, the same as any merchant. A letter to the Dairy Commissioner, Ottawa, will bring you free of charge milk record forms, either daily or three days per month, feed records, and a herd record book. When you note down total production and closely estimate cost of feed by occasional weighings, you arrive at individual profit. Make each cow pay a good profit.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive processes. As vermifuge it cannot be surpassed in effectiveness.

Byron Pink Tomato

A perfectly formed tomato, the Byron Pink is uniform, large, and attractive. The flesh is firm, and the flavor delicious and full-bodied. It is a robust grower and a heavy cropper. It is an ideal tomato for forcing. You are going to buy seeds anyway; then you might just as well send for our catalogue and get this free premium for yourself.

The Catalogue tells about the other valuable premiums which we give with every order.

DARCH & HUNTER SEED CO., LIMITED, LONDON, ONTARIO, CANADA

A MEMORY OF RACHEL.

The Great Actress After a Night of Triumph on the Stage.

Lord Glenesk gave me an account of his first meeting with Rachel. He had gone to Paris for the first time as a youth, and for the first time his father had taken him to the Francals to see Rachel act. The entire audience had been stirred to the wildest pitch of enthusiasm and excitement. The next morning early he had ridden to the Bois with his father, and on the way his father had said, "We will turn out of the avenue a moment, down this street; I want to show you the house of the marvelous woman we saw act last night."

It was barely sunrise, and as they pulled their horses up outside a high wall inclosing a small villa they were astonished to hear, proceeding from within, what appeared to be the reacting of the very scenes they had witnessed the night before at the theater, but spoken in dead tones, as if by a somnambulist. Dismounting from their horses, they entered the garden. There they found Rachel, clad in loose garments, dull eyed, with disheveled hair and wan face, utterly void of all the flaming magnetism that a few hours earlier had filled her frame.

To the questions of Lord Glenesk's father she answered wearily that she had been rehearsing there under the trees since it was scarce day, trying in vain to find means of expressing certain passages in which she had "failed at the night's performance"—that performance which had so thrilled those who witnessed it, marking an epoch in their lives.—Princess Lazarovich in Century.

The Daughter's Idea.

Mrs. Brown was in the habit of introducing her big daughter as: "This is Jane. She's only fifteen. You'd never think it, would you?"

At last the girl protested. "It's mean of you to tell everybody how young I am. I could have a lot better time if you didn't."

"Perhaps you could. But I don't propose to have people saying after you've been out in society a couple of seasons: 'Don't tell me Jane Brown is only twenty. Why, she was a grown girl years ago.'"

"Just the same," retorted the daughter, "you wouldn't like it if I introduced you to my friends as: 'This is my mother. She's only forty-eight. You'd never think it, would you?'"

MANY IN WATFORD TRY SIMPLE MIXTURE

Many Watford people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-ika. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. THE INSTANT, easy action of Adler-ika is astonishing.—Taylor & Son, druggist.

Shooting Humming Birds.

To shoot a humming bird with the smallest birdshot made is out of the question, for the tiniest seeds of lead would destroy the delicate plumage. The only way in which the bird can be captured for commercial purposes is to shoot it with a drop of water from a blowgun or a fine jet from a small syringe. Skillfully directed, the water stuns him. He falls into a silken net and before he recovers consciousness is suspended over a cyanide jar. This must be done quickly, for if he comes to his senses before the cyanide whiff snuffs out his life he is sure to ruin his plumage in his struggles to escape. Humming birds vary in size from specimens perhaps half as large as a sparrow to those scarcely bigger than a bee.

Pretty Steady.

Mike Reagan applied to Mrs. Stone for a position as chauffeur and gave the name of a friend as reference.

Mrs. Stone sought the friend and asked:

"Mr. Brady, your neighbor, Michael Reagan, has applied to me for a place as chauffeur. Is he a steady man?"

"Steady," cried Brady. "Indade, mum, if he wuz anny steadier he'd be dead!"

Looked That Way.

"I want a man who doesn't smoke or drink."

"What are the wages?"

"Six dollars a week."

"Guess you want a man who doesn't eat, either."

Not Guilty.

"How many times have I told you that you must not answer me back, Norah?" said Mrs. Housekeep.

"Sure, mum, an' O! ain't answerin' yer back," said Norah. "O!m answerin' your face."

A spring controlled roller in the base of a new desk telephone takes up the slack in the receiver wire.

Experiments With Farm Crops

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1916 they are prepared to distribute into every Township of Ontario material of high quality for experiments with Grain, Fodder Crops, Roots, Grasses, Clovers and Alfalfas, as follows:—

List of Experiments for 1916.

GRAIN CROPS

1—Testing two varieties of Oats, 2
2a—Testing O. A. C. No. 21 Barley and Hammer
2b—Testing two varieties of two-rowed Barley
3—Testing two varieties of Hull-less Barley
4—Testing two varieties of Spring wheat
5—Testing two varieties of buckwheat
6—Testing three varieties of field peas
7—Testing two varieties of spring rye
8—Testing two varieties of Soy. Soja, or Japanese beans
9—Testing seven varieties of husking corn

ROOT CROPS

10—Testing three varieties of mangels
11—Testing two varieties of sugar beets for feeding purposes
12—Testing three varieties of Swedish turnips
13—Testing two varieties of fall turnips
14—Testing two varieties of Carrots

FORAGE, FODDER, SILAGE AND HAY CROPS.

15—Testing the planting of Corn at six distances in the row
16—Testing three varieties of millet
17—Testing two varieties of Sorghum
18—Testing grass peas and two varieties of Vetches
19—Testing rape, kale and field cabbage
20—Testing three varieties of clover
21—Testing two varieties of Alfalfa
22—Testing four varieties of grasses

CULINARY CROPS

23—Testing three varieties of field beans
24—Testing two varieties of sweet corn

MISCELLANEOUS EXPERIMENTS

25—Testing two varieties of potatoes
26—Testing three grain mixtures for grain production
27—Testing three grain mixtures for fodder production
28—Testing three grain mixtures for silage production

Any person in Ontario may choose any ONE of the experiments for 1916 and apply for the same. The material will be furnished in the order in which the applications are received, while the supply lasts. Each applicant should make a second choice, as the material for the experiment selected as first choice might be exhausted before his application is received. All material will be furnished free of charge to each applicant, and the produce will, of course, become the property of the person who conducts the experiment. Each person applying for an experiment should write his name and address very carefully, and should give the name of the County in which he lives.

C. A. ZAVITZ,
Director.

Ontario Agricultural College,
Guelph, March, 1916.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace misery with welcome relief. Inhaled as smoke or vapor it reaches the very inmost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you knew as well how this remedy would help you as do thousands of grateful users, there would be a package in your home to-night. Try it.

The women of Arabia never show their faces.

One third of the wage-earners in New York are women.

The majority of woman workers in England are married.

Over 700,000 women are employed in the factories of Russia.

Nearly every town in Germany now has policewomen.

Queen Kolyma Koryachee is the richest woman in Siberia.

Women work in 44 of the 100 trades in the United States.

Oil for Toothache.—There is no pain so acute and distressing as toothache. When you have so unwelcome a visitor apply Dr. Thomas' Eucletic Oil according to directions and you will find immediate relief. It touches the nerve with soothing effect and the pain departs at once. That it will ease tooth-ache is another fine quality of this Oil, showing the many uses it has.

The first requirement of a girl seeking work through the Young Women's Christian Association in Los Angeles is that she wear big shoes, it being claimed that tight shoes make bad temper.

Farmers in the township of Kingston are up in arm over chicken thieves. During the past two weeks 400 birds have been stolen, and constables appear to be unable to cope with the thieves. County Magistrate Hunter gave three farmers permission to carry firearms in order to protect themselves against future raids.

CLERK ALL RUN DOWN

Restored To Health By Vinol

Shelbyville, Ind.—"I am a clerk in a hotel and was all run down, no energy, my blood was poor and my face covered with pimples. I got so weak I had to put up an awful fight to keep at work. After taking many other remedies without benefit Vinol has restored my health and strength."—ROY F. BIRD.

For all run-down, weak, nervous conditions of men and women, nothing equals Vinol, our delicious cod liver and iron tonic without oil. Try it on our guarantee.

Taylor & Son druggists, Watford

What Ails You?

Have you become run-down, weak, emaciated, pale after a long siege of colds? Does the skin show that the blood is thin and watery? Spring is the time when vitality is at its lowest ebb—clean house now—by ridding the body of its accumulated poisons. Refresh the blood with a stimulating tonic.

Dr. Pierce's Golden Medical Discovery, free from alcohol or narcotics and extracted from roots and barks with pure glycerine, banishes from the blood all poisons and impure matter. It dissolves the impure deposits and carries them out, as it does all impurities, through the Liver, Bowels, Kidneys and Skin.

If you have indigestion, sluggish liver, nasal or other catarrh, unsteady nerves or unsightly skin, get Dr. Pierce's Golden Medical Discovery to-day and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigorous action.

All medicine dealers can supply you in either liquid or tablet form or send 10 cents for trial box of tablets to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

ASK YOUR NEIGHBOR.

Portman, B. C.—"I am so glad of an opportunity to recommend Dr. Pierce's Golden Medical Discovery; it has cured me of indigestion and constipation which I had very bad. A friend gave me a bottleful and I took it. It helped me so much that I bought more and continued using it."—Mrs. C. WILKOBURG, General Delivery.

Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels.

Scientific Farming

BLUEBERRY CULTURE.

Berries Thrive Best on Soils Otherwise Almost Worthless.

Blueberries thrive best on soils which are so acid that they are usually considered almost worthless for ordinary agricultural purposes. Blueberry culture, therefore, offers possibilities of profit to individual landowners in districts in which the general conditions are especially hard and unpromising. Blueberries cannot be grown in ordinary fertile soils. Although frequently confused, especially in the south and in the middle west, blueberries and huckleberries are quite distinct. In some districts the name "huckleberry" is restricted to berries which contain large seeds, with bony coverings like minute peach pits which crackle between the teeth, while the name "blueberry" is applied to various species of berries containing many, but very small, seeds. It is the latter, not the large seeded huckleberry, which offers possibilities for profitable culture.

At the present stage of the blue-

berry industry it is best to begin by transplanting the most promising wild bushes, selecting them for the size, flavor, color, and earliness of these essentials is a location such that the berries may reach the market without delay. The best prices are obtained about the beginning of the wild blueberry season. The main crop of wild blueberries comes from northern New England, Canada and northern Michigan. A location to the south of these areas where the berries will mature earlier is, therefore, to be desired for the commercial cultivator.

Another important factor to be considered in selecting a location for a blueberry patch is the possibility of late spring frozes. For this reason the bottoms of valleys should be avoided. Freezing seldom injures the blueberry plant itself, but the fruit crop is often destroyed in this way. From past observations it appears that wild blueberries growing in or around bodies of water frequently escape the injurious effects of late spring frozes, and it seems, therefore, that a flooding equipment for blueberry plantations similar to those used for cranberry bogs may, under certain circumstances, prove commercially advantageous.

At the present time, however, only a beginning has been made in blueberry culture. The yield and profits from field plantations from improved bushes have not as yet been ascertained. There is, however, one small plantation where complete records have been maintained for the past six years. This plantation was started in 1889 in a natural blueberry bog which was first drained and then set with wild blueberry bushes transplanted without selection for individual productivity or size of berries. On this plantation the yield per acre averaged 1,741 quarts for the past six years. This average would have been somewhat higher except for the almost total failure of the crop in 1910, due to late spring frozes.

Your Floors Need Paint

Paint preserves the wood. Paint keeps floors sanitary and healthful. Painted floors make the rooms bright and cheery. Painted floors are easily cleaned—a damp cloth keeps them free of dust and germs. Paint your floors and thus have them always Spic and Span.

Senour's Floor Paint

"MADE IN CANADA"

is all ready to brush on—anyone can apply it evenly and smoothly. And it gives a hard, durable, lustrous finish, that stays fresh and bright, and wears, and wears, and wears.

It costs less to use than other floor paint, because it covers more surface and wears longer.

We have Senour's Floor Paint in 14 beautiful colors, suitable for every floor in the house from kitchen to garret.

Come in for a color card, and a copy of our entertaining book, "The House That Jack Built". Written for children, but "grown ups" get a lot of fun out of it. Free to our friends.

J. McKercher, Watford, Ont.

SHOES, BOOTS AND SLIPPERS.

Winter Fads in Footgear Mostly Call For Matching Colors.

Shoes match or blend with the costume. For sport or practical wear high buttoned boots, with common sense heels and heavy soles, are worn. For street wear there are boots cut very high, with Cuban heels, and with afternoon and evening costumes the daintiest of footwear is worn.

With tailor made costumes very high laced boots are worn. Sometimes they are laced up the front, sometimes up the side. Skirts of tailor made suits being extremely short, the shoes are shown off to great advantage. With a dark brown suit brown suede boots are worn, with a dress of wine suit bronze kid and with a simple morning suit Russian calf. Dressy high boots are worn with afternoon costumes. For instance, a pair of bronze kid has straps up the front, each strap being embroidered with beads in a matching shade. Another smart high shoe is of patent leather. With a very light gray costume shoes of light gray suede are worn. With a yellow and black costume shoes with vamps of patent leather and uppers of suede in yellow are worn to match the scheme. With an afternoon or dinner gown in black are worn low shoes in patent leather, ornamented with handsome buckles of cut steel, black enamel or beads.

Satin slippers of matching shade are worn with evening dresses. There are also smart slippers of cloth of silver or cloth of gold, finished with small rhinestone buckles. Some of the black and colored slippers worn with evening dresses are handsomely beaded. Black velvet slippers are seen embroidered in cut steel beads. With a skating suit of white, trimmed with fur, the boots are of white kid, and with a suit of brown the shoes are of brown kid.

THE EVER USEFUL.

Velours Hats Still Hold Their Own For Sports and Style.

These velour sport hats in all the popular shades are still modish, despite the vogue for worsted sport caps.

GOOD CONTOUR.

With this one goes a fetching veil of hexagonal mesh and poppy pattern, draped to fall at what is termed the collar bone length.

ROAST TURKEY.

Directions For Preparing the Seasonable Bird, Home Style.

A ten pound turkey is a good size for any but the smallest family. Burn off the hairs and use a brush for washing outside. Wash inside with cold salted water. Stuff, truss and place on its side on a rack in the baking pan after rubbing entire surface with salt and black pepper; also rub breast, wings and legs with a little butter mixed in flour, the two blended together until creamy. Dredge bottom of pan with a little flour, adding half a cupful of cold water to this. Put in hot oven, and when flour on the surface begins to brown reduce heat, basting every fifteen minutes with fat in pan. If this cooks away add boiling water as needed. During the cooking turn the turkey so it may brown evenly. If it cooks too fast cover with buttered paper to prevent scorching of the skin. It must be basted frequently and thoroughly to be juicy. Remove the string and slivers before serving and garnish with celery tips and rings and disks of carrots, boiled and strung on a fine wire.

A plain filling is made with dry stale bread crumbs mixed with a tablespoonful of minced onion, the same of butter, and salt and black pepper to taste. Drop the butter in tiny nuts through the filling, letting the two blend as they will. This produces a "dry" filling.

Box Social and Presentation

The box social held at Kingscourt school on March 21st in aid of the Red Cross and under the auspices of the Ladies Sewing Circle proved a decided success. The boxes were sold by Mr. R. Brown, of Watford, and went extremely well, the society realizing \$87.50. Mr. Brown is genial and energetic and makes an excellent auctioneer. His efforts were highly appreciated by all. The young ladies, Miss Holbrook, of Sutorville, soloist, and Miss Moody of Watford, elocutionist, who helped with the program were also highly appreciated. The rest of the program was local talent. Capt. R. Stapleford very ably filled the chair. About the middle of the program Capt. Stapleford called six soldier boys to the platform and the following address was read and presentation made.

Kingscourt, Mar. 21, 1916.

TO MESSRS. WALLACE SAYERS, CECIL MCCORMICK, FRED COLLINS, AMBROSE BANKS, ROBERT SEALEY AND GEORGE GIBBS.—We, the members of your home community wish you to know before you leave us for the front the mixed feelings of regret, gratitude and pride that your enlistment gives us. We shall miss you in our neighbourhood and though you be absent at our gatherings you shall be present in our thought. You have responded nobly to your country's call, you have severed the home ties, dear to you and to us, and for all those who are left behind. We want you to know that we realize the unselfish nobility of your action and that we are proud of you. We offer you in token of remembrance these wrist watches and rings. May they always bring to you home thoughts of courage and cheer, and remind you that wherever you are the home folks are anxious for your safety. Our prayers go with you and may God guide and protect you from all danger and soon bring you safely back to home and friends.

Signed on behalf of your friends,
Edith Hickson,
Flossie Claypoll.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Baby's Own Tablets are guaranteed by a Government analyst to be absolutely safe and free from injurious drugs. Once a mother has used them she would not use anything else for her little ones. Concerning them Mrs. George Tallon, Noelville, Ont., writes:—"Please send me two more boxes of Baby's Own Tablets for I have found them so good for my baby, I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville Ont.

Word was received Saturday of the death of Ebenezer Gammon, at Cottam, to which place he went a few weeks ago to be with his daughter. Deceased was a resident of Plympton and Warwick townships for several years, and retired to Forest about five or six years ago.

Death of the County Crown Attorney

Sarnia, March 27.—Mr. J. P. Bucke, county crown attorney of Lambton for many years, and partner of the law firm of Pardee, Gurd & Bucke, died at 5.30 this evening, at the age of 75, after an illness extending over several months. His death removes one of the best known men in the public service in the county.

From Old Subscribers

Mrs. Neal A. Edwards, of Thornloe, writes:—"We enjoy our home paper so much that we cannot do without it."

P. H. McMillan of Hamilton, N. D., writes:—"Please find enclosed renewal subscription for your valuable paper. We could not do without it. It is like a letter from home every week."

Mrs. Wm. Barber, Gordon Lake, Al-

goma, writes:—"We like very much to hear the home news and to see that Watford is doing its share in defending home and country. I have been taking the Guide for thirty years and would not like to be without it. Wish you and the paper every success."

Owing to the increasing cost of doing business Ridgetown merchants have agreed on a general delivery and have let the contract for four deliveries a day.

The Wagon Shop That Became the Largest Automobile Factory in the British Empire

Back in 1903, the town of Walkerville, Ontario, was possessed of a concern called the Walker-ville Wagon Company.

If, on some day when business was not rushing, the general manager, Gordon M. McGregor, wished to take a little stroll, he could walk around his shop in about 2 minutes by the factory clock.

Nobody would have believed at that time that this shop would, in a few years, develop into the largest plant of its kind in the Empire having a floor acreage of over 435,000 square feet and making 3 times as many cars as any other automobile factory in the British Empire. But so it has come to pass.

Through the efforts of Mr. McGregor and his Canadian associates, this wagon shop has been turned into the great Ford plant at Ford City, Ont.

The factory today is one of the industrial show places of Canada.

Here are the highest paid automobile mechanics in the Empire who put their best into the building of a car that has won its way into the confidence of the Canadian public.

Here are hundreds of machines designed by Ford engineers, which are marvels of the industrial world.

Many of them would do the work of an ordinary sized automobile company in a week or so, but because of the demand for Ford cars they are kept busy the year round.

Here a new Canadian Ford car is born every three and one-half minutes.

Here workmen are busily engaged in making additions so that the production of cars may keep pace with the demand. There never has been a time since war began when gangs of men were not at work expanding the plant, literally building for the future.

Look in at the power plant and you will see two monster 650 horsepower gas engines. What a contrast to the early days when the factory power was derived from the hind wheel of a Model "C" car!

In the immense heat treatment plant, Vanadium steel, the most expensive and best of steels, is heat-treated the Ford way. Here each steel part is especially prepared for the stress and strain it will have to withstand in the completed car.

The machine shop contains many wonderful sights for the visitor. There are long rows of very expensive gear cutting machines. And there is the great machine that mills 48 cylinders at one time! And another that drills 45 holes at once in a cylinder casting from sides, top and bottom. Marvelous speed and equally marvelous accuracy!

Then there is the handsome office building in which close to 200 workers are employed. In all there are over 30,000 people dependent on the Canadian Ford Plant for their support.

In this plant the Ford car is constructed practically in its entirety—even the steel, as mentioned above, is refined here.

Furthermore, and here is a record rarely found in other large Canadian factories, all but \$16.83 worth of the material used in the making of the Canadian Ford is bought right here in Canada. Few products can lay claim to being so strictly "Made in Canada" as the Ford car.

Consider what this means to Canadian industry when it includes such immense purchases as 25,000 tons of steel, 1,500 tons of brass, etc., 120,000 wheels, 200,000 lamps, and other materials

in proportion. Practically the entire output of several large Canadian factories employing hundreds of workmen is taken by the Ford Plant at Ford City, Ont.

But great as this influence is for the increased prosperity of the Empire, it does not stop there. All over the Empire are Ford Dealers who are important factors in increasing the wealth and prosperity of their communities.

The spirit of faith in the future that has prompted the Ford Canadian Company to proceed with a policy of full-speed ahead in times that have seemed to many to require the use of extraordinary caution and conservatism, is a happy, progressive, enthusiastic spirit that is radiated in every city or town of any size in the whole Dominion and in the Empire over the seas through the Ford Dealer whom you will find there.

Besides this there are the nine branches in Canada and one in Melbourne, Australia, four of which have been rebuilt since war began at a cost of over \$1,000,000, that are powerful supports to these dealers in being elements of first importance in adding to the wealth and progress of the nation.

But, phenomenal as the development of the Ford Plant has been, its great success was not attained without its share of great difficulties.

The first three years of its existence were somewhat precarious. The first car was not shipped from the factory until six months after the company was organized. Nowadays, 20,000 cars would have been shipped in that time.

The first main building was a two and a half story brick structure and the entire plant occupied about one acre of ground. The machinery consisted of one solitary drill press.

But from 1910 on the business increased so fast that it was difficult for the plant capacity to keep pace with the sales, and additional buildings and equipment were constantly being constructed and installed.

In 1911 the output was 2,400 cars, in 1912, 6,500 cars were built, and so on up to this year's estimated production of 40,000 cars.

The executives of the Canadian Ford Company make no consideration of the war. They are so thoroughly Canadian in their ideals that they take the prosperity of Canada and the triumph of Britain and her allies as accomplished facts.

No stops have been made in their plans for progress—not the slightest hesitation has been evidenced in developing this great Canadian Plant to its highest degree of efficiency on account of the war.

As evidence of this \$652,000 has been spent on new buildings at Ford City—a million dollars has been spent on new equipment—over a million dollars was expended on branches in four Canadian cities—and 900 men have been added to the payroll—all this in a belligerent country during the progress of the greatest war the world has ever seen.

In addition, the price of the Ford car has been reduced \$120 since that memorable August 1, 1914.

So then, this is the story of the wagon shop that became the great Canadian Ford Plant. An industry that is proud to say that it builds its product from Canadian material, with Canadian workmen and that backs its Canadian patriotism with its hard cash.

Ford Motor Company of Canada, Limited, Ford, Ontario

Ford Runabout	-\$480
