

\$400,000 The Mutual Relief Society

NOVA SCOTIA! THE members of the Society are hereby This members of the Society are nereby informed, that notwithstanding the the keen competition offered by the large number of Life Insurance Companies which are so ably represented by their respective agents, our increase for the first three months of 1886, was \$400.000.

This will compare year, favorably, with three months of 1886, was \$400.000.
This will compare very favorably with
the amount of business done within Nova
Scotia and New Brunswick, by any Life Insurance Company.

Members, with few exceptions, respond

promptly when assessments are made.

The Society pays all its bonds in full on proof of claim.
Individuals desiring Insurance are in vited to make a comparison between the merits of this Society and those of other companies, before giving an application.

For particulars please write to, or se

those papers. But as for mother's embroidery, women of her age ought to give up that useless work when their eyes are failing.'

'Yes. He asks for it often.'

Joe began to whistle and choked it down into a sigh. Uncle Ben had been such a godless reprobate in his youth that it had never occurred to any of the Deminate walks?' said Isabella one morning to her father. 'You should warn her shows Black Lane. She might wander Floyd and talked to him for a long time.

'I say, Polly, was that the Bible you crop, hence they can produce little or nothing. If, from any cause, the plant be hindered in its growth during the summer of fall, the crop will be small in proportion. The perfection of culture consists in supplying the wauts of the plant, that its growth may be rapid and continuous, and that it receive no injury while in the dormant state or out of the ground.

Now, what are the was hour one morning after breakfast, nothing. If, from any cause, the plant be hindered in its growth during the summer of fall, the crop will be small in proportion. The perfection of culture consists in supplying the wauts of the plant, that its growth may be rapid and continuous, and that it receive no injury while in the dormant state or out of the ground.

Now, what are the was headed up or fall, the crop will be small in proportion. The parfection of culture consists in supplying the wauts of the plant, that its growth may be rapid and continuous, and that it receive no injury while in the dormant state or out of the ground.

Now, what are the wants of the straw-berry when planted in the fall? The soil

mable walks? said Isabella one morning to her father. 'You should warn her bert his death he sent for Mr. Sunday before his done this for he straw-berry should be rich and moist but not wet. It matters not whether it be and, clay or muck, so that it furnishes and, clay or muck, so that it furnishes and, clay or muck, so that it furnishes and contains an abundance of the elements necessary to try out his his boat, but no sooner was he within fire to the straw-berry should be rich and moist but not wet. It matters not whether it be and, clay or muck, so that it furnishes and contains an abundance of the elements necessary to try try or the furnishes and contains an abundance of t

What has happened? asked the squire.

'I heard the sound of children's voices singing in one of the cabins, and the men told me it was 'Miss Mary's class.' Some good woman has been at work I suspect.'

'Miss Mary?'—the squire's face grew red, his eyes flashed, but he said nothing more.

'What has happened? asked the squire.

'I did not see dozen times. If the soil has been enriched for a previous crop, so much the better; but if not, well decomposed atable manure lity. Three doctors abanadoned hope for may be worked into the surface either being fore or after setting plants. Bone dust of ore or after setting plants. Bone dust was 'Miss was all broken down with dyspepsia, liver, complaint, catarrh and debing the composed atable manure lity. Three doctors abanadoned hope for may be worked into the surface either being fore or after setting plants. Bone dust was 'Miss was all suffering as I did.

'Yhor will decomposed atable manure lity. The Ben Scott don't surrender! Come and take us—if you can.'

Five minutes later his craft settled down and wood ashes will supply all that may be lacking in any soil, and these can be his crew, and strangely enough not a man

| The manner of the best books on religious fiction, but she had never heard of them; and she did not know a single one of our foreign missions.'

| Good Mrs. Demming was uneasy at this, and that very evening turned the conversation on doctrinal subjects. Polly grew clearest head for figuring I ever knew at the my ideas concerning these difficult points. The truth is, after mother's death, I had the charge of my four brothers, and I had so little time—'

| You will have more time now,' said to begin his life all over again among doctrinal reading for you.'

| Another the sequire said to his was soin or one of the best books on religious fiction, but she had never heard of them; and she did not know a single one of our foreign missions.'

Best in the Market!

Unequalled for Spreading, Finish and Durability! Paint that Beautifies and Protects

No one will deny that the finer a paint is ground, the longer it will wear and the more surface it will cover, and if to this we add the fact that if the color is ground in with the Lead and Oil, it will be seen that the paint will not spot or fade, as is the case with paint made by hand.

These three qualities (Spreading, Finish and Durability) are shown in the Heath & Milligram Manufacturing Co.'s Paints, over all ethers. If you want a paint that will endure, and at the same time hold its beauty, you will be interested in these goods.

TAKEN FROM GUARANTEE.

If at the end of one, two, three or five years the paint is not equal to that prepared the painter, as regards beauty of finish and durability, we will refund the money paid."

Merchant Tailor.

The way to keep the baby from becoming 'spoil' is to let it cry as little from ille as can be avoided. It wants should be anticipated, its sources of discomfort should be removed as soon as they arise, without waiting for it to cry, it should be prevented in every way from forming the habit of crying. Study its expression, when it is tired of playing on the floor take it up and dance it about the room, and let it look out of the window for a few minutes. In a little while it will be glad to get back and play on the floor take it up and dance it about the room, and let it look out of the window for a few minutes. In a little while it will be glad to get back and play on the floor again. If it is necessary to resort to discipline, be careful to seize the right moment for it. If you want the baby to learn to go to sleep without being rocked, choose a day when it has been unusually bright and happy all the morning, wait until twenty minutes or so a offer the regular hour for its map, and give it a cup of milk, particularly sweet and warm and nice, make its little bed soft and cosy, lay it down rook and warm and nice, make its little bed soft and cosy, lay it down rook and warm and nice, make its little bed soft and cosy, lay it down rook and warm and nice, make its little bed soft and cosy, lay it down rook and warm and nice, make its little bed soft and cosy, lay it down rook and warm and nice, make its little bed soft and cosy, lay it down rook and warm and nice, make its little little sing and patting, and, if it is not all states and warm and nice, make its little little sing and patting, and, if it is not all states and warm and nice, make its little help and warm and nice, make its little help and sonde with a little kissing and patting, and, if it is not all states and the said stat
