Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/ Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

The last recorded frame on each microfiche shall contain the symbol $\rightarrow$ (meaning "CONTINUED"), or the symbol $\nabla$ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:
The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'llustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la derniére image de chaque microfiche, selon le cas: le symbole $\rightarrow$ signifie "A SUIVRE", le symbole $\nabla$ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## PREFACE TO VOLUME II.

Whale this, the second volume of my look. was in press, the Memoirs of the Right Honommble Sir John A. Maedonald, written by Mr. Joseph Pope, were pmblished. When it became known. some time ago, that Mr. Pope was engaged upon a biggraphy of the great Canadian statesman, the public looked forward with much interest to its publication, in the expectation of seeing new light shed upon many points comected with the political history of Camada and Confederation, in which Sir John A. Macdonald played so prominent and important a part. In this respect the public certainly have not Iwen disappointed, and Mr. Pope's work may well be considered as one of the most valuable eontributions to Canadian history yet issued.

In regard to the acquisition of the North-West, however, Mr. Pope makes certain statements, and conveys certain impressions which are not in line with the views expressed by me in the first volume of this history, and I feel, therefore, that I cannot allow them to go unchallenged. It seems to me, if I may be allowed to say so, that, in writing that part of the memoirs, Mr. Pope skimmed over one of the most important periods of Sir John A. Maedonald's eareer, and in a way apt to leave a wrong impression upon the mind of the reader as to the true position of affairs at that time.

Passing over the lengthy and troublesome negotiations which took place between Canada and the Imperial Government for the acquisition of the North-West by the former, we find that Sir John A. Macdomald, in a letter to Sir George E. Cartier, referring to the decision of the law officers of the Crown in favor of the rights and powers of the Hudson's Bay Company, admits the possibilty of grave difficulties in the way of accomplishing the transfer of the comntry.

The disappointment of Sir John at this check, and at the prospect ahead of him, is plainly visible, but, as Mr. Pope shows, this feeling is not shared by some of his colleagues. Here the great statesman stands hend and shoulders over others of his cabinet in his unswerving resolution to overcome the difficulties presented, in order-as his biographer puts it" to fix deep the foundations of England's dominion upon this continent, to cultivate a spirit of loyalty to the Crown, and a feeling of oneness with the motherland."

The difficulties were overcome, and arrangements were completed with the Imperial authorities and the Hudson's Bay Company, and ratified by the Canadian Parliament in June, 1869. So far, the people living in the North-West were not consulted in the negotiations, although the Imperial Government made it a point that their rights were to be protected. 'Ihat they were not consulted up to this time is not surprising, because it might only have added fresh difficulties in the way of effecting arrangements, and no question of handing the country over to a foreign country was involved. But when the preliminary negotiations were concluded, should it not have been the first duty of the Canadian Government to enquire into the wants and wishes of the people of the NorthWest, in relation to the change of government proposed for Governformer, - George s of the on's Bay ; in the

1 at the Ar. Pope lleagues. ers over vercome uts itoon this , and a
re comn's Bay 11 June, ere not Governotected. surprislties in handl. But ould it nent to Northsed for
theon: Hal such a step been taken, it would have saved Cimala much tronble and thousands of dollars. There were men in the North-West, such as the Archbishop of Rupert's Land, Arehbishop 'Taché, and many others outside of the Hudsen's Bay Compmy, who could have been consulted, and who wonld have given the Conadian anthorities much information, and enabled them to avoid the pitfalls into which they stumbled.

Mr. Pope endeavors to throw the onns of this state of affairs upon the Hudson's Bay Company, and necuses then of not taking steps to prepare the settlers for the change of govermment. The settlers knew very well that a change was likely to take place, but is it reasonable to suppose that the Hulson's Bay Company would have been justified in declaring what the policy of the Canndian Govermment was to be when they, as well as everyboly else in the North-West, previous to the closing of the negotiations, were utterly in the dark regarding it. It is more than probable that the Camadian Govermment would have looked upon it as medelesone interference on the part of the Company, had they attempted to do anything of the kind. In point of fact, they were powerless in the matter, and it is doubtful whether the policy of Connda towards the people of the North-West was really understood outside the Ottawa cabinet, if indeed if was known there, previous to the passing of the temporary Act of Govermment in 1869.

Instead of consulting the people of the North. West, and informing themselves as to the true state of feeling in the comtry: as they could easily have done, the members of the cabinet at Ottawa sat down, the moment the transfer megotiations were concluded, and prepared a temporary form of govern-

## PREFACS.

ment, with all the necessary machinery for carrying it out. They mulertook publie works in the country before their time, and altogether acted in a way to canse much misupprehension in the minds of the settlers as to their intentions, and in this respect, had they studied a few leaves ont of the history of the Hudson's Bny ('ompmes's difficulties in governing. they might have learned a insefinl lessom. But no, they bhat their eyes and groped thar way in charkess, only to be rudely awakened to their mistake. 'Ihe first real intimation of the error they had committed was when the Hon. Joseph Howe visited the comntry. He then foresan the dithenties ahoml, hat it was too late. Hon. Wim. Melougall was on his way to the North-West with the policy of the (iowrmment in his poeket.

There can be no doult that Hom. Wim. Mel)ongill wan the victim of the mistakes committed by the Ottawn Cabinet, to which, he being a member, was, of comse, a party. Indeed, looking om events as now moterstood, it can hadly be denied that he, as a member of the Govermment, and one who took a purticular interest in atfinirs commerterl with the North-West, was in a harge measmre responsible for much of the trouble that arose. But had he at onee retmoned to Cimata on being refused admittance into the Red River Settlement, it is more than probable that many of the deplornble avonts which afterwards occurred would have been avoidet. In remaining at Pembina, however. he was acting, it appears, in aceordance with the desire of Sir John A. Maedonald, who wrote to him :--"I hope no consideration will induce you to leave your post-that is to return to Camada just now." The mistake, therefore, of remaining at the boundary was not wholly attributable to Mr: Mcl)ongall. The position of that gentle-
man while at Prombina, so far away from Ottrwa. was a most trying one, and had be that "xeseised more pationer and kept himself aloof from and distregarded the ill-mbised enmsel of so-called friomls in the settement, he might have amerged from the sitnation with som homor and protit to himself.

If, then, the Cmadian Goverment, as Mr: Pope would have as believe, andeavored to const the hame of the discemtent mange the people of the North-West, npon the Hudson's Bay Company, it was only an attempt to shift a responsibility from their shoulders which properly belonged to them. The Act for the temporay goverment of Rupert's Land mod the North-West Territories, was passell immediately after the ratitication of the negotintions hy Parlianent, s. x months herfore the transfer of the cominty was to take phace. Who were the proper parties to lave consulted luefor framing that Act ! The Holsonis Bay Compung, or the pople who were to the most atfected by it? Clearly the latter. As clearly, the Hurson's Bay C'ompany, heing one of the parties th the hargain of sale, eonld not be axpected to nswme the responsilility of snying how the property was to be managed after it passed from their hames. Besides, it wis only after the passing of the temporary aet in 1869, that the preple renlized the fact that they were merely passing from oue patamal form of sovemment to another. The seeds of discontent were then sown by ('manda, withont enguiry whether the new form of goverment wemld be acceptable to the people chiefly concernem.
The next point about which Mr. Pope, in my opinion, conveys an erroneons impression, is the mission of the delegates sent to the North-West. It appenrs fiom a letter written by Sir John A. Macdonald to Sir John Rose, that he did not expect Sir Domald A. Smith, and Messrs. Thibault and Salaterry
to be suceessfing. In fact, he expmesses a doulit whether they wonld be allowed necess to the 'Territory. Mr. Poyn then goes on to make the brond assertion that the mission of the delegates was a failure, and on this accome, as a dermiar ressort, Bishop 'Thché was smmoned from Rome. Nothing conld he larther from the facts of the ense. Bishop 'Tache was smmoned from Rome, possibly beemse Sir John A. Mnedomald entertained donbts abont the success of the delegates he had already sent. But as a matter of fact, when Bishop Thehe mrived at Fort Gary, the Bill of Rights had heed framed, the delegates to Ottawa selected, a promise of the relense of the prisoners ohtained, and everything completed, temding to a friendly settlement of the tronbles.

In orrler to make this matter clear, I will reapitulate coneisely what took phace. Messis. Thibault and de saluhery preeeded Sir Domald $A$. Smith, and althongh they were allowed to enter the temitory, their pures: were contiseated by Rid. and their usefulness ns delegates practically destroyed. Sir Domald A. Suith took the preantion to preserve his papers, and hy a grood deal of skill suceecded in presenting then to a mass meeting of settlers from all parts of the country. 'Through his efforts, a convention of English and French memhers met and framed a Bill of Rights to be presented to the Canadinn Govermment. Three delegrates were appointed to go to Ottawa. Riel agreed to release all prisoners, and a provisional Government was formed of English and French pending the result of the negotiations with Canadn. The result of these negotiations was the framing of the Manitobr Act, and, practically, the end of the Rebellion. All this was accomplished before Bishop Taehe appeared upon the scene.

No one has a deeper respect for the memory of Arehbishop,

## IREFAGE.

 ion of ruirr thinger l'aché $\mathrm{Mac}_{-}$ gates ishop lexell 10 related,'T'e che than I have--no one rememberes the kindenes of his heart istter thon I do. I lave travelled with hinn over the plains, and had moch pleasant intercourse with him at St. Boniface. From a long nequaintance, I know the intluence for goon which he exrreised over his people. But he whs not in the comatry at the time I refor to, and before his urival sir Domald A. smith had acomplished everything necessary for opening pencefinl negotintions hetween the peopla of the North-Went und Cimmin.

Nor did the shooting of Thoman Seott, 11 foul murlers, in which the English mul the mujority of the lirench had no part, prevent the enrying ont of these nerotintions. The cesponsihility for that deed of hood rested entirely with Riel mul a few of his immedinte followers. So fin as the comintry an a whole was concerned it had no effect in altering the decision in furor of negotiating with C'mada which had been agreal upon.

One more point, l think, shonld be mule clems: Mr. Pope quotes a letter from sir John A. Macelomald, in which he conveys the impression that the delegates who went to Ottawa were sent there by Riel. They were sent ly the combined English and French settlers, and while possibly Father Richot and Alfred Scott may have been in sympathy with Riel's views, my one knowing the character of Jutge Black, the third delegate, will bear me out that he at lenst was not influeneed by them. I think a note of explanation from Mr: Pope was necessury on this point, as I do not believe that Sir John A. Machomald wished to eonvey the impression-which his letter, given without comment, certainly does-that he treated with the emissaries of a man who, through his unlawfal nets had, by that time, forfeited the esteem of even a large portion
of his own prople. Thr Bill of Rights, however, was not framed by Riel, nor were the delegates sent by him, but by the whole preple of the settlement. 'The only construction to be put on Sir John's letter, and which ought to have heen explained, is that he spoke of Riel in his capacity as President of the Provisional Govermment, and not individually:

It is not pleasant reading for those who know what the North-West was in 1869-70 to leam now that the Govermment of Canada, matil Lord Gramville held up the hand of warning, was bent upon using the troops to gain forcible possession of the comntry, if their terms were not agreed to. I can hardly credit this, aml the only conclusion 1 can arrive at is that Sir John A. Mandonad had in view, at the time, the resistance of any attempt by American tilibnsters in the North-West, rather than the sulgingation ol the people. Had troops been sent in, howerer; with hostile intent, there is no saying what the consequences would have been. It took 5.000 volunteers to suppress the Rebellion of $1884-85$, but the state of the country in 1869-70 was far different, and more difficult of access, and the cost in life, money am misery, which a suppression by force of the first Rehellion would have entailed, no one cam estimate, especially if the Indiams had taken part in it.

The services remlered by Sir Donald A. Smith, therefore, to the Doninion, in bringing about a peaceful solution of the difficulty in 1869-70, will be more and more appreciated as time wairs on.

## HISTORY OF THE NOR'TH-WEST'.

## CHAD'TER I.

THE: ENPEDTHON OF 1870 ANO THE AMNESTY (RVESTION.
The morder of 'Thomas Scott created intense excitement throughont ('amada, especially in Ontario, and at seromal mertings held in Toronto and other cities, speeches were mate by men who had been imprisomed by Riel. This helped to fan the flame of popular feeling on the suljeet, and made it all the more diffienlt for the Canadian (iovermment to pmss the Manitoba Aet, in aceordance with the Bill of Rights presented by the delegates from thr North-West. Rev. Mr. Richot and Alfred H. Seott, the relegates who were regariod as representing the French Half-Breeds, were arrested at Ottawa shortly after their arival in that eity, but as the warrant had been issued by a Toronto Poliee Magistrate, it was deeiled by dorge (aialt that he hal no juriseliction, and the prisoners; were released. They were, however, immediately re-arrested on a warmot issued by Poliee Magistrate () (iama. of (Ottawa, on an altidavit sworn to by Mr. Herg Scott, a brother of the murdered man, and, after a gool deal of evidence was taken, the charge against the prisoners was withdram, there being no case against them, and they were finally set at liberty.
 time the delonates were in constant commmication with the Govermunt until the 2ad May, 1870, when Sir John A. Macfomall introducel the Manitoba Aet in the Dominion Honse of C'mmons. The Bill, as origimally introduced, porided fore a small lrovince, to be called Manitolm, mod if the bommaries then proposen had been alopted, a large English settlement in the mighbormon of Portage la Prairic wonld have been left ont. 'This was done, modoubt, to satisly the Fronch element in Parliament, lat the temper of the majority in the llonse was such that this and several other fentures in the original bill had to be amenderl.

In the danate which took phace on the Bill, Hom. Win. MeDongall was very bitter in his denumeiation of the action of the (iosmmment in not paying wer the money to the Hulson's Bay ('onpany at the time agreed upon, Hon. Alexander Mackenzie also attacked the poliey of the Govermment, and ariticisel their acts, which he declared had necessitated the sembing of tremps into the eomitry at a heary expense to the ratepayers of C'mada. Hon. Joseph Howe, however, ably defended the Govermment, and dming his speech scored the Hon. Wim. McDongall mmercifully for overstepping his authority while at Pembina, and committing acts of a most unwarmatable nature in the name of, hut without the sanction of, the Queen. The debate altogether was probably one of the warmest that ever took place in the Camadian House of Commons, and the poptar excitement at the time in nearly every part of the Dominion mate the passing of the Act in difficult and delicate undertaking.

On the 4th May, Sir John Mactonald mmounced a change in the boundaries of the proposed province, and an increase
oll that with the A. Macn House rided for modaries cment in theen lel't clement te Honse origimal Win. Meaction of the Hudlexander nent, and tated the se to the ably deored the $f$ his :utmost unsanction ly one of House of in nearly he Act : increase
in the gmatity of land meserved for the Half-Brents. 'The pophation was conserpently increased, mad several alterations hand to ber mate in the money chaness and then the seeome manding of the bill was sut for the fith May. But on that day. Sir Sohn Machomalil took smddenly ill, " jost pomement of the measme being thereby necessitated, and on the 7th, Sirderome E, Cartier was ohliged to take charge of it.

The land grant to the Fereh Half-Breeds was stromgly eomtested, and, after the opposition to it had heen defented. Hon. Ahemmer Mackenzie finally offered the following amemb-ment:-"That wherens it is expedient to appropriate a portion of such moranted lands for the families of Half-lioeed residents, it is hereby emacted that the children of such HalfBreeds residing in the Province shall be entitled to receive a grant of not more than 200 aeres cach on attaining the age of "ighteen years, in such mode and on such combitions as the (iovernor-in-Comacil may fom time to time designate." But Sir George Cartier pointed out that this amendment, if passoul, would require even a larger grant, than the one proposed, and so it was defeated, and on the motion for the third reading, Mr. Mackenzie stated that he dil not intend to ofter any further opposition. 'The Government had resisted and defeated every amendment to the Bill except the alterations forced upon them at the outset, to which we have already alluded, and with that exception the whole responsibility of the Act rested with them.

The Bill, as passed and accepted by the people of Mmitoba, we gave in full in the Appendix to the preceding volume, and on its beconing law the birth of representative institutions in the North-West began. Hon. Wm. McDougall, with strange perversity, notwithstanding his unhappy experience with the
perple of the combtry, actally mulemoded, haming the passing of the Manitoln Aet, to introduce a Bill similar in some respects to the one which was the mems of wrecking his hopes, mal which was intended to provide for a 'lemitorial instend ol' a lrowincinl (iovermment, but it was deleated by a vote of If lor mid I 20 against it.

Provions to and doring the passing of the Wanitola Aet, the ('madian Govermment had lwen quietly proceoding with arangements lor semding in a military fore to restore peace and order in the North-West, in the crent of other memas fialing. On the Dominion (iovirmment stating to the Home muthorities that the interpusition of the military might be Heessary, Ean Grmaille, on the ith March, telemphed the
 of' Comada:-"Her Majosty's (iovermment will give proposed military assistance, provided rasomable terms are granted Rod River sur ders, and provilad pomb (iovermment amble Her Majestys (iovermment to prodain the transfer of the 'R'antory simultaneonsly with the movement of the fores."

This was neerpted, amd Liontemant-(innemb Sir Junes Limisily whe placer in command of the forces, Sir Clinton Murdoch leing commissioned to consult with Sir John Vomer in regarl to the emrying ont of the 小etails. In the instructions to Lir Clinton, Earl Gmusille said, "Troops shonlal not be employed in foreing the sovereignty of Camala on the pepnlation, should they refuse to admit it," and this was strictly whered to, as the negotiations hetween the people of the North-West and the Dominion were almost eoncluded before final consent to the use of Imperial troops was given. General Linksay was instructed to consult with Sir John Young with regard to the selection of the force itself, and of the
|mussing one reshopes, instend vote of In Act. ng with re pence r memins е Home right be heel the - ieneral roposech granted $t$ (ambld rof the nes." (s) Limloin Murfoung in ructions not be (e popustrictly e of the a before 1. Gena Young 1 of the
othere to command it, as it was assential that the latter shombla be possessed of timmess, prolemer, mad julgment in combucting the experdition, owing to the pecoline fentures survonuling it. At tinst it was proposed to semd about 2.50 regnlars mald 7oo colmateers, bat the momber of the former was afterwideds inerensed to memly 400, in owder to nllow of small garrisoms
 plies, the Dominion (iovermment agreeing to pay the exprone of all over 2.50 .
 - patch to Sir John Vomig:-
"On the following comlitions troops may andrace:-
"I. Rose to lom muthorizel to pmy $5: 300,000$ at once, and Har Jhajesty's Govermment to be at libury to make transfer twfore the end of dume.
"2. Her Majesty's (iovermment to pry expenses of British
 the rest, sembling at least $\mathbf{z 0 0}$ trained men.
"?. Camalinn devermment to areept decision of Her Majesty's (iovermment on disputed prints of thr Sattler's Bill of Rights.
"4. Military armarments to be to the satisfaction of dionemal Lindsay:"

On the th May, instructions wrer sent to Sir John Rose, in London, to pay over the $\& 300,000$ to the IIndson's Bay Company, and this was done on the IIth, just one day before the Manitoha Aet received the assent of the Governor-General. On the Gth, however, orders were sent to Sir John Young by Earl Gramille that the troops might proced. Early in April, Colonel Wolseley, Deputy Quartermaster-General in British North America (now Lord Wolseley), had been appointed to
the command of the expedition, and on the th May he left Wontreal for Collingwoor, to inspect the preparations for the momarkation of the force at that point.

Anticipating the semding of troops inte the North-West, the (amalian (iovermment had given instructions to make arramements for their transport from Lake Superior to the Red River, and an ngent was also sent to maintan friemlly refations with the lulians abong the route. Over a humdred boats, suitable for the work, were ordered to be built in (ontario and Quebee, and a large number of experienced royageus were cogager to man them. Work on the roads from Fort Willian to Lake She handowan, and from the Lake of the Woods to the Red River, was also pushed forward as rapidly as possible, and everything done to facilitate the passage of the troops. Serious donbts were entertained hy many as to the practicability of the route by Lake Superior, which arose in some measme from the fact that the Imperial (iosermont, when sending troops into the North-West on previous occasions, had sent them by way of Hudson's Bay: bat Col. Crofton, who commanded the expedition of $184(6$, when examined before the committee of 1857, unhesitatingly pronomed in favor of Lake Superior, and later, Mr: S. J. Dawson declared his contidence in the practicability of that route, aul it was aceordingly chosem. Provisions, wagrons, horses, oxen, provender, ete, were provided in good time, and on the Brd May the steamer Algomu left Collingwood for Fort William, loaded with supplies of all kinds, and carrying a large number of voyagens and workmen. This vessel was followed in a few days by the Chicore, with more stores and men, but when she arrived at the Sault, the American authorities refused permission to pass through the canal. The stores had
$\because$ he left $s$ for the

therefore to be moaded amb portaged across, and the Algomen, which hat heen allowed to pass throngh into Lake siuperior, earried them to Fort William. The chicora then returned to Collingwoorl, and brought the first detachment of troops to the sault, where the passage of the camal was a, ain refused, aml, on this, representations were made to the Ameriean muthorities at Washington by Sir John Vomge, though Sir Ehward 'Thomton, the British Minister, that the experlition being one of peace, the stores should not be stopperl. The embargo was then removed, after much delay had been experiencot, and the supplies for the tronps were rapidly pushed forwarl to make up, for lost time, hat the men composing the foree were obliged to mareh across the portange and re-embark on the Lake superior side.

On the 2 lst May, Colonel Wolseley and statt, with a portion of the 60th Rifles, lelt Collingwool, amd on the esth arrived at the camp near Fort William, which be named lrince Arthurs Landing, in honor of the l )nke of Comanght. Frem this time till the latter part of Jme, troops were constimtly arriving, and in the meantime attempts were made to penetrate inland, and forward parties of the men. The season being rany, however, the road became very bat, and so much diffienlty was experienced that Colonel Wolseley determined to send boats by the Kaministiquia River, anamst the advice of $\mathrm{Mr}_{\text {. S. S. Dawson. This eansel some frietion between }}$ the eommander of the military ant the Dominion otticials, which mate matters somewhat mpleasant, and, added to this, the diffieulties in the way of tramsport proved so great that the progress of the expelition was slow. It even began to be feared by some that it would have to be abandoned altogether, when General Lintsay visited 'Thunder Bay, and in-
fused new life into the undertaking. 'The boats, which had Ween greatly damaged on the passage up the Kaministiguia, were repared, aml on the l(ith July the first brgade left MeNeill's Landing on Shehandowan Lake, and on the 4th August the advanced detatehment arived at Fort Francis, on Rainy River. The whole force at this time consisted of $1,4: 31$ men, of whom !) were ofticers, 1,0 an nom-commissioned offiecrss and men, 274 voyagems, and 14 gutles, and these, dming the progress of the expedition, were sometimes spread out in parties a distance of aver 150 miles. On the 21st Augrast the 60th Rifles, the Artillery, and bagineers had all arrived at Fort Alexander, where the expedition was joined ly Mr: Donald A. Smith, who aceompanied it to Fort Gamy, aml, the Canadian volmenteers leing behind, a stant was made on that day down the river to Lake Wimipeg, and on the ?end the month of the Red River was reached. At this time there was some meertainty whether Riel would offer resistance to the troops, and Col. Wolseley had to be prepared for any emergency. On leaving the stone Fort, therelore, a company was sent by land in advance of the troops, who remaned in the boats, with orders to stop any persons going in the direction of Fort Gary, so that intelligence of the arrival of the troops might be prevented from reaching Riel's ears. About 8 folock on the moming of the 23rd August, 1870, Col. Wolseley, with the 60th Rilles, Artillery, and Engineers, arrived at Point Donglas, and there the men disembarked, and, forming in companies, marched upon Fort Garry, a line of skirmishers being thrown ont in advance.

On nearing the fort, some of the mounted men were sent ahead to recomoitre, and on these reporting the place to be empty, and the gates wide open, Col. Wolseley marched in
hich haid nistiquia, left Mch August mRany 4:31 men, cers and the pron parties the 60 oth at Fort Manald $A$. canarian ay down e month vas some e troops, rergency. s sent by ats, with of Fort ps might clock on ey, with at Point ming in ruishers ere sent ce to be rehed in
with his troops, the Conion , lack was hoisted, a royal salute tired, and three cheers given for the Queen, in which a numtwe of the residents of the settlement who were present joinel. Thus the "errand of peace" was aceomplished, and the gallant hanlfol of men, after an arduous and dangerons jommey of fiol minles, hard the satisfaction of knowing that, without tiring a shot or losing a life, they had tinished the task entrusted to them, and peace was once more restored in the comuty:

Riel and a few of his immediate followers had fled from the fort only about a guarter of an hour before the arrival of the troops, and not a soul was !elt to represent the Provisimal Govermment. The position of ('ol. Wolseley wats a most dittienlt one at this time. The purchase momey had heren paid ower to the Hudson's Bay Company: the territory had heen duly transferred to Camada, and Hon. Alanus (i. Arehibald had been appointal Lientemant-(iovernor, but hat not arrived. As a military commamer, he had no civil anthority, and to have proclamed martial law might have led to lisastrons offects. He therefore held that tine Hulson's Bay Compray was the only civil authority mutil Governor Archilahld arrived, and Mr. Donald A. Smith was therefore called upon to alminister affairs, by which course, and by exacting the strictest discipline among the troops, mueh tronble was asoided.
On the 27 th Angnst, the Ontario Volmiteers began to arrive, followed soon after by those of the Queliee Battalion, and on the 3rd September the last of the both Rifles, Artillery, and Engineers left on their return home.
On the 2nd September, Lient.-Governor Archibahd arived, and a royal salute was fired in his homor, and on the 6 th he hiclla a levee at Fort Garry, in the house which had heen occupied by Governor Mactavish, and which was afterwards
known as Govermment House. Colonel Wolseley now took his departure, amd thr ()ntario Rifles moved into quarters at Fort Garry, the Quebec battalion being stationed at the Stome Fort, the eommand of the whole volunteer fored devolving on Lient. Colonel Jarvis, of the Ontarios.

We now will refer to a subjeet which gave rise to much controversy, and at one time made it appear doubtfil whether Riel would submit without attempting resistance to the entrance of the troops. This was the question of ammesty.

Early in lume, Bishop 'lache made the promise, in the name of the Canadian (iovermment, that cll who participated in the rebellion would receive a full pardon, and in explanation of the comse taken by him, His Lordship addressed the following letter to Hon. Joseph Howe:-

St. Boniface, Red River Settlement Jmie ! th, 1870.
Hon. Ioseph Howe, Secretary of State for the lrowinces, Ottawa, Cammla.
Honorable Sir-l hasten to eommmicate to yon, for the information of His Excellency in Council a very important promise I have just made in the name of the Canadian Govermment. I feel all the responsibility 1 lave incurred in taing such a step, while, on the other hamb, I an confident that His Excellency, the Governer, ant his Privy Council, will not judge with tor much severity an act accomplished in order to avoid great misfortmes, and secure the welfare of the cometry.

In my last despatch, dated on 28th May, I mentioned the satisfaction by the Liberal Bill erecting the Province of Manitoln. I also stated the measiness oceasioned by the ignorance whether or not a general and complete ammesty had been granted. The last two mails having brought no information on this subject, that feeling of measiness has increased to such a degree that it gives apprehension about the maintenance of peace in the eountry.

Some speak of raising a large force to meet and molest the coming troops at some difticult point on their way hither ; and other plans, perhaps still more dangerous, are also afloat.

Fortunately, the Provisional Govermment has so far refused such resources, determined to await the arrival of the delegates. ()wing to the weol disposition of the lrovisional Government, and in order to romove the dimgers to which we are exposed, and which it would be too tedinus to emmerate, I solemmly gave my word of honor and promise, even in the mame of the Canalim Government, that the trops are sent on a mission of peace ; that all the irregularities of the past will be totally werlooked or forgiven : that nobuly will be annoyed for having been either leader or member of the Provisional Govemment, or for having acted moder its guilance. In a word, that a eomplete and entire ammesty (if mot alrealy hestowed), will surely be granted before the arrival of the tronps, si) that every one may remain quiet, and indnee others to do the same.
l'ersonally, I feel mo hesitation in giving such an assmance, hecanse What I heard myself from the different members of the Cabinet at Ottawa, and what has been said by them in Parliament, has entirely convinced me that this promise of mine had been already issued, and that the delegates now on their way hack will convey the most satisfactory information upm that subject.

Should my views unfortunately have deviated from the real temency of the (aovermment, I humbly beg that my promise will be considered as sacred.

It is the privilege of His Excellency to forgive, and if forgiveness is considered necessary, I earnestly pray for it.
$I$ dare flatter myself with the idea that I have done something in favor of the eanse in this country ; and I cim assure the Govermment of my witlingress to contribute, as far as in my power, to its prosperity ; but shomd I have promised in vain, besides the heart-rending feeling I would personally experience, I would be publicly reputed a deceiver, or as having hen wilfully deceived by the Cimadian Govermment. An awful reaction would ensue, and who knows what would be the result.

If necessary, I therefore humbly lay my request before His Excellency. It would be very easy to have it largely subscribed to by respectable names, but such an undertaking would have given rise to excitement, and it is my constant endeavor to quell such a feeling rather than nourish it, as it is the greatest danger to be apprehemded.

1 ill confident that, although this is a personal act, it will be considerad the wish of the commmity at large, and probably granted.

It is rumored that Dr. Schultz is coming with a large party of supporters. I am sure that, if sueh be the case, the Govermment has taken the necessary steps to prevent the eollision which would be the consequence of his return, perhaps, with a desire to revenge the past, and renew the cause of by-gone troubles.

We are perfectly aware of his former conduct, and it is not difficult,
to foresee what he may be in future, if not cheeked by a proper anthority.

I easily mulerstand that at a distance my ideas may appear rather pressing, hut allow me to say that here on the spon we are in a position to ascertain the dangers and diffieulties which may natmally seem chimerical when viewer from almoad.

Experience has already proved that monformately our apprehensions are not always entirely gromolless nor an effort of our imagination. So far. it is miversally considered as a wonder that mothing worse has happened. May the wisdom and liberality of the Govermment remowe what seems to be the last difticulty.

I consider this doemont of such importance that I an forwarling it by a special messenger to Pembina to secure its prompt delivery into your hands. No doubt you will be kind enough to answer me by the first mail.

> 1 remain, with much respect,
> Homorable Sir,
> Your obedient servant,
> Aiexanner, Bishor' of St. Bonifuete

His Lordship, at a later preiod, when he appeared before the Select Committer on the canses of the difficulties in the NorthWest, refers in the following words to the subjeet of ammenty and his reasons for pronising it :-" Parties arrived from the United states, who had interviews with the leaders of the Provisional Govemment, and the parties told them that they could not rely upon what had been promised: that the assurances given would not be mied into execution: and that, in some way or another, the politicians of Canada, when they took possession of the comentry, would refuse to be guided by that pronise. They told the leaders that the troops were on their way, and if they allowed them to enter the country they would control the position, bring the leaders before the tribmals, try them and hang them. These representations creatal a very strong feeling anong the leaders, and one or two of them came to my place and reported what they had heard. I [1"sition In chimeri-
rehensions ntion. So se lais hapmowe what wording it livery int, oy the first

NER, Bonifuce efore the ( Northalluenty from the $\therefore$ of the hat they he assurI that, in hen the uided by were on try they the trins creatn two of eard. I
rejuated the assmances I had given in the name of His lixere hacy the Governor-General. 'They answerel that this was of itself all right, but it was not from the Cimandias. Now the (:amadian troops we on their way they sald, and ther are muler the control of Camada, and as we have qiven them canse for porocntion, if we have not smilar assmances from the (:madian Govermment, they may act in the mamore representaid to as. My statement before was, that I mave the promise
 resentative of the (been, but also mbled that such were the intentions of the ('inndian ('abinet. 'Ther had so little faith in the ('madian anthorities, that I thonght they womble profer to negotiate directly with the representative of the sovereinn. Inderd, I had this authority from the terms of the Proclamation as well as from the letter ahliessed to me be His Vxerlleney, in which he told me that he was directed by the linperial Govermment to issue the Proclamation-and from the comersation I hal both with His Excellency and his Ministers. in which he and they told me that he was not aeting in the name of the Camdian (iovermment, but as Suecial Commissioner from the Imperial authorities. I was also fimmisher with a copy of the telegraphic message from Vingland. иpon which the Proclamation was based. The promise made in the nime of the ('anadian (iovermment on the !th June, differed in this respect-that it was made in the mame of His Exocellency, and in my action I was guided hy *Sir dohnis letter of lith Febrnary, but, with the exception of its being made in

[^0]the mane of the Comalian (iovermment, the fromise was itself exactly the same as I had mode hefore. I thonght it neeessary to make it in the name of the Govermment of Camala if the fears to which I have referred were to be dissipated, and I letemined so to make it, becmuse I had reeeived information from Father Richot that the negotintions at Ottawa had been closed satisfactorily. As a portion of the nerotiations was to wet an entire ammesty, I thought the Camalian Govermment would not objeet to the promise being made in then name. The promise which I made on my arival in the name of the Governor-General was equally extensive with that which 1 deseribed in this letter of 9 th Jame. All the difference is, that one was made in the mane of the Govermment of Camala. whereas the other was made in the mone of the fiovernorGeneral, as the representative of the Queen. The answer of the Hon. Mr. Howe, dated 27 th May, to my letters of the 3 l . and 7th of the same month, in which I also saw painly the promise of forgiveness, letermined me that there was no risk in making the promise in the mane of the authorities of Canada. I hat also shown that answer to some of the leaders, and I relied upon it as affording me the basis for giving the promise named in my letter; for you will observe that Mr. Howe tendered me, in the name of His Excellency, not only his sympathy but his warm acknowledgment of my services in the cause of peace and moderation."

It is evident from the foregoing statement and the letter of His Lordship to Mr. Howe, that in promising amnesty to Riel and the other leaders, Bishop Tache was actuated by patriotic motives and $a$ desire to prevent any further disturbances in the comntry, but it is equally certain that there was some doubt as to the authority upon which he acted. No amnesty it neeescamma if ntel, atill ormation land been is was to crmment cir mane. ne of the which I e is, thant Cammb. iovernoruswer of f the 3 ord ainly the s no risk of Ciml leaders. iving the that Mr. not only services
letter of y to Riel patriotic ances in as some amnesty
was granteml, mul it is execodingly donbtfinl whether the: ('mnandian foremment had the power, even if they hand wished, to parmon the erime of murder committed before the trmasfer of the emutry: The state of pullite opinion throughont Comala at that time would have male it hangerons for the anthoritios at Otawa to have even entertnined the idea of ammesty, ambl. theremere, when Pishop Thele paid a visit to the seat of enow.Thment to procme if possible, a contirnation of his promise mande to the Fremelh Half-Bered leaders, low was obligenl to me turn withont gaining his objeet. Indeed, had an ammesty heren grantel we doubt very mueh whether it would have wew to protect hiel and the other leaders frem the fins of binn who were then on the look-out to take revenge "pon thom for the killing of seott. On the other hamd, had they bern arresten they would prolably not lave reecived an inpartial verlict at the hands of any jury empmellen to tres them. The course afterwards adopted, of imbucine Riel and Lepine to leave the comitry for a time, was, therefore, the best in the interest of the whole commmity; as therehy peace was asmired.

## CHAP'IER iI.

As stated in the previous chapter, Colonel Wolseley, having no civil anthority, recognized the Hudson's bay Compmy an the shoverment of the country pending the arrival of Lient.Governor Archilmhl, and Mr: Donald A. Smith, who had neeompmiod the troops into Fort Garry, was called upon to ate as Govemor pro trim. It was a most trying time, as, on the one hand, those who had suffered through Riel and his followers, were chanoring for their arrest, and, on the. other, the French, disappointed at the non-appearance of the promiserl ammesty, were sullen, and remly for an outhreak, Warants arainst the lealers of the rebellion were applied for, but Mr: Smith prudently delayed granting them, and in the meantime Riel, Lepine, and o'Donohne fled from the comntry.

On the ?nd September, Lient.- Govemor Arehibald amived, and his reception was by no means enthasiastic. Indeed, hewas looked upon by many of the Camadians as a friend and sympathizer of the French rather than of the English residents, and this feeling was, no doubt, cansed by the utterances of the opposition press in the Dominion, in their efforts to diseredit the Government for making the appointment. But there was nothing to show, from first to last, during the alministration of Governor Arehibale, that he was more purtial to one side than to the other. His whole effort was one of
conciliation, and becanse he carried this policy throughout, he was often the mark of abme nul avowed dislike by certain parties in the comntry. From the first, his task was $n$ most difficult one, in attempting to aftilinte two distinct elasses, neither one of which could the thoronghly conciliated without giving offence to the other.
'The day after his arrival, in a letter to Sir George E. Curtier, he this spoke of the flight of the French leaders:-"It is, primps, the best solution of the question that these men have taken to tlight. 'Their presence here, in the memitime, would have been a source of incessant tronble. Warmats for the apprehension of the three men who had fled were applied for and oltained, and have been placed in the lamds of constables. Of course, while feeling runs so high as it does at present, an attempt at mrest (if they had remaned) would have been met by resistance, and in the end we would, perhaps, have had to eall out the military, and we would heve had a world of trouble which the absence of these people emables us to escape." In a later letter, he agrain refers to the subject in the following words:-" I have no doubt that any attempt to arrest would be met with a desperate resistance, which might involve a great many of the population, while, so far as I ean learn, there is no disposition to proceed against any person but the three men who were considered in a peculiar manner to be chargeable with the death of Scott. I have explained to the Bishop that, even if there were an amesty to-morrow, it would not save these parties from possible attempts on their lives, which might be attended with consequences as fatal as the attempt to arrest, and, therefore, under the present circumstarces, in the interests of the community, in the interests of the French Half-Breeds, and in the interests of the
parties themselves, it would be better that they should not be foumd in the territery:"

One of the first steps taken ly Lient-Governor Arehibuld alter assuming his dhties, was to canse an emmemation to be taken of the prepple in the Brovince, for the purpose of holding elections of representatives to the Local Honse, and, promb ing this, His Honor appointel two members of his Executive Council, in conlomity with the instruetions received ly him from the Socretary of state, on the th August. The gentlemen selected were, Mr. Alfied Boyd, a merehant, who was popular with the English residents, and Mr. Mare Amable Gimard, who had been in the comntry only a short time, having arrived with Bishop Tache on the same day that the both Rilles reached Font (Gary'. Mr. (iararl, who was a notary ly profession, had been Mayor of Varemes, in the Province of Quelnee, mid from the first becane a livorite with the French people of Manitoha.

The next step towards the maintenance of law and order was the formation of a momed police force, under command of Capt. Villiers, of the Quehec Rifles, and, as it may be of interest, we give the mames of these policemen, the first gazetted in the Province of Manitola:-W'm. Allowny, James Cross, Win. Montgomery, 'limothy Caroll, Edwin Doidge, Elijah Ketts, Geo. Kerr, John Melanson, John Stevenson, Leon Hivet, Geo. Nicol, H. Montgomery, Robert Power, Maxime Villehrun, Wm. Miller, John Paterson, Andrew Persy, Neil McCarthy, Michael Fox.

Previous to the formation of this police force, a good deal of ill-feeling on the part of Canadian residents was shown toward the French, which on several occasions broke out into open hostility, and on one occasion a man named Goulet, who tion to be e of holdand, pentExecutive ed hy him The gentlewho was re Amable time, havit the bioth motary rovince of the French and order - command $y$ be of inst gazetted mes Cross, dge, Elijah son, Leon er, Maxime Persy, Neil
good deal shown toe out into foulet, who
hall heen one of Riel's commeilors and a member of the contmartial which comemmed seott to the shot, appomed on the strents of Wimipeg. 'This was a signal lor seveml who hat been prisoners to chase the Fronehman ont of town, and in a short time a large momher took part in the disturbmer, among whom were some volmoters firom the Gatario Battalion. (Gomlet ban for the river and jumbed in, but being struek by one wi the missiles thrown at him, sank and was drowned, and althomeh an investigation into the eircumstamees of the ease whe hed, mothing was dome at the time to pmish those eomnerter with it.

On the whole, however, the volunteres behavel well, inml son won their way into the fiwnmble opinion of the resiFhits. although thore were a icw turhalent chameters among' the solliers, who gave their ofticers a grood deal of tromble.

In the memtime, Riel and (o')onobine in exile were not idhe, anll on the 17 th September, a meeting of French Hall-Breeds, at which they were present, took place at Rivière Salle, and this emused a emmpany of volunteers to be sent to the hommary line to check my attempt at an uprising.

The work of emmeration, which was regularly commenced on the 27 th Octoher, now proceeded rapidly, and in November was fully completed. The returns showed a population of 11,$96 i 3$ in the Provinee, of whom 1,565 were whites, 558 Indinns, 5.7.5 French Half-Breeds, and 4,08:3 English Half-Breeds. There were 6,247 Catholics, 5,716 Protestants, and the nationalities of the whites were divided as follows:-747 born in the North-West, 294 in Canala, 69 in the United States, 125 in England, 240 in Scotland, 47 in Sreland, 15 in France, and 2 S in other countries. Immediately after the completion of this census, writs were issued for the local elections, which were held on the 30th December, 1870.

The following is a list of the members elected to the tirst Legishative Assembly of the Province of Manitoba:

Baie St. Paul-J. Dubue. Headingly-J. Taylor. High Bluff--J. Norquay. Kildonan-J. Sutherland. Lake Manitoba-A. McKay. Poplar Point-D. Spence. Portage la Prairie-F. O. Bird. St. A gathe-Geo. Klyne. Royal.<br>St. James-E. Bourke.<br>St. Norbert, North-J. Lemay.<br>St. Norbert, South-P. Delorme.<br>St. Paul-Dr. Bird.<br>St. Andrews, S-E. H.G. G. Hay. St. Peters-T. Howard.<br>St. Anne-J. H. Mc Tavish. St. Vital-A. Beauchemin.<br>St. Boniface, East-M.A. Girard. Winnipeg-D. A. Suith.

On the 10th Jannary, 1871, the Executive Council was appointed, consisting of the following members:

Hon. Mare Amable Girard-Treasurer.
Hon. Thos. Howard-Provineial Secretary.
Hon. Henry James Clarke, Q.C.-Attorney-General.
Hon. Alfred Boyd-Minister of Public Works \& Agrienlture.
Hon. James McKay-Withont ottice.
Hon. H. J. Clarke, who became Premier, arrived in the country early in November, 1870, and was at onee appointed by Governor Archibald to take charge of the police business until a representative administration conld be formed, and on his being returned for the distriet of St. Charles, he beeame Attorney-General and head of the Covermment. Thus the machinery of a representative administration of affairs was set in motion.

With the downfall of the Provisional Government, the newspaper New Nation had ceased to exist, and Mr. Robert Cunningham, of the Toronto Telegraph, having decided to take up his residence in the country, he and Mr. William Coldwell.

## al.

 griculture.who had at one time been proprictor of the Nor'- Hester, formed a co-partnership, and commenced the publication of the Manitobun, a very creditable sheet, which soon made its way into public finvor. About the same time, a small paper called the News Letter was started, but owing to the semrility which found its way into its columns, it did not succeed, and finally gave way to the Munitoba Liberal. On the 19th Oetober, Mr. S. Robertson, General Superintendent of the North-Western Telegraph Company, issmed a letter calling for information to enable him to procure the necessary poles for the erection of a telegraph line from Pembina to Wimniperg, to comect with the American system, and on the 18 th Nov., the first application for a railway charter in Manitoba appeared, as follows:

## NoTtCE

ls herely given that an appication will be made, at the first meeting of the Legislatime of Manitola, for an Act to incorporate a joint storek company for the construction of a railway from some point on Lake Manitula, pressing through the Town of Wimipeg, and to connect with the nearest of the Minnesotia milways.

Devean sinelime,
Fort Gary, Now, 18th, 1870. E. L. Bakuek.

Thins, with the prospect of a stable grovermment in the commtry, a spirit of enterprise and a desire for alvancement at once took possession of the minds of the people. In the meantime, the intereourse between the volunteers and the residents becmue more friendly each day, and many hospitalities were shown by the officers to the civilians. Abont the milde of December, the Ontario Ritles gave a dramatic enteramment in a building fitted np, for the pmpose, which was followed by several others, much to the delight of the people of Wimipeg and vicinity, and as this was the first regular attempt in the North-West, by m organized company, to
present the drama to the public, it may be interesting to produce the play bill issued on that occasion:

THEATRE ROY:iL.
first ontario bifles' Musical and Dramatic Assuciution.
President-Major Wainright; Manager-Quartermaster Sergeant J. R. Cameron; Stage Manager-Sergeant A. de C. Harvey; Leader of Or-chestra-Bugle Major Walker ; Vocal Director-Paymaster-Sergeant Douglas

Will be given at the
'Thentre Royal, Bamatyne's Building, Wimnipeg, On Friday evening, Dec 16th, 1870. part i.

ing places:- Dr. Schultz's, Bannatyne \& Beggs', Jolm Higgins'. IN. H. Lyon's, Davis' Hotel and Garrett House. Box-seats 2 shillings; pit 1 shilling. Doors open at 7 o'clock p.m. ; performance to commonce at half past seven.

God Save tiee Queen :
Having thas placed on record the first play-bill ever issued in the North-West, we may remark that these entertaimments, given by the volunteers, tended greatly to create good feeling between civilians and soldiers: and the residents of Wimipeg, not to be cutdone in hospitality, tendered a grand bali (the tirst of its kind), to the officers of the Ontario and Quebec Rifles. This event took place in February, 1871, and was a most snecessful affair, all the principal residents in the Province being present. 'Thas the expedition which started out on an "errand of pence" fultilled to the letter the purpose for which it came, and many of the volunteers, ofticers and men, afterwards became prominent citizens in the Province of Manitoba.

On the 2nd March, 1871, the election of members to the Dominion House of Commons took place, and resulted in the return of Mr. D. A. Smith, for Selkirk: Pierre Delorme, for Provencher: Dr: Schnltz, for Lisgar, and in Marquette a tie vecurred between Angus McKay and Dr. Lyuch, each polling $28: 2$ votes, which necessitated a new election luter on. The Dominion election was followed by the appointment of the Legislative Council on the 10th Mareh, the following gentlemen being selected by His Honor the Lient.-(iovernor :

Hon. F. Dauphinais.
" Donald Gimm.
" Solomon Hamelin.
Hon. Jane, NcKay, Spectier,
and the Legislative machinery leeing thus complete, the tirst
session of the Local Parliment was opened on the 15th Mareh with imposing ceremonies. The Governor was attended by a guard of one hondred men from the Ontario Rifles, and the Parliament House was handsomely decorated for the occasion. It may be mentioned that the large residence belonging to Mr. A. (: B. Bamatyne had been procured for the use of the Local Govermment and Legislature, and until it was destroyed by fire on the 3rd December, 1873, the Govermment business was conducted there instead of at Fort Garry, as formerly. The Manitoben, spa aking of the opening of the first Parliament, said :-" It conld not le in any respect so grand or costly a display, or on so large a seale, as the Capital of the Dominion ean boast on such in occasion, but it had a completeness and dignity which were ereditahle to our young Province." Hon. Joseph Royal was elected Speaker of the Legislative Assembly, and the deliberations which thus commenced, contimed mont the 3rd May, 1871, when his Honor gave his assent to the following bills:

1. An Act to establish a Supreme Court in the Province of Manitoha, and for other purposes therein mentioned.
2. An Aet for the Keeping of the Publie Aecomets in Canada Currency.
3. An Act respecting the office of Speaker of the Legislative Assembly.
4. An Act to make valid a eertain copy of the Hudson's Bay Company's Plans of Survey, and for other purposes.
5. An Act for the Prevention of Frauds and Perjuries.
6. An Act relating to Wills.
7. An Act relating to Parish Assessments.

41. An Act relating to Medical Practitioners in this Province.
42. An Act respecting the Statutes of Manitoba.
43. An Act to Provide for Defraying Certain Expenses of the Civil Govermment of this Province.

On the 16th May, 1871, the first General Quarterly Court, since the Hudson's Bay Company's sway, was held, Judge (the late Sir Francis) Johnson presiding; Mr. John (now Senator) Sutherland being sheriff, and Mr. Thomas Bunn, clerk of the court, and immediately following this event the cards of several legal firms appeared in the newspapers, the lawyers being Messrs. Royal \& Dubuc, Janes Ross, M.A., and D. M. (now Judge) Walker.

Thus were representative institutions inaugurated in the North-West. The wheels of Government were set running, courts of law established, and peace and order assured. On the 1st July, 1871, the first celebration of Dominion Day took place, as will be seen by the following announcement which appeared in the papers of that time:-

## CHAP'IER III

## INDIAN TREATIES.

As soon as the Govermment of the Province was established, and the first session of the Legislatme had been held, Lient.Governor Archibald was called upon to turn his attention to the Indians of the coming. Juring the Fall of 1870, they had applied to His Honor to enter into a treaty with them, as they were full of uneasiness, owing to the influx of new-eomers and the dread lest their clains would be overlooked. The Lientenant-Governor had promised them that treaties would be entered into with them during 1871, and accordingly, in that year, Hon. Joseph Howe, Seeretary of State, recommended the appointment of Mr. Wemyss M. Simpson, as Indian Commissioner, for the purpose of aranging with the native tribes for the cession of the lands occupied by them. Mr. Simpson was empowered to make treaties with the Indians and to determine such reservations of land as might be required for their use.

The Commissioner, therefore, in company with Messrs. S. J. Dawson and Robert Pether, visited the Ojjibewas or Chippewa Indians, between Thunder Bay and the north-west angle of the Lake of the Woods, in June, 1871, and commenced negotiations with them for securing a treaty. After this, he proceeded to Fort Garry, and, in accordance with his instructions, placed himself at once in commmication with Lient.-

was held, Lieut.attention to 1870, they vith them, as of new-comlooked. The reaties would cordingly, in cecommendel Indian Comnative tribes Mr. Simpson dians and to be required

Messrs. S. J. vas or Chip-th-west angle mmenced neAfter this, he h his instrucwith Lient.
(iovernor Arehibald. The first step was to secure the services of Hon. James McKay, 1 man who was familiar with Indian ways from his birth, and who was known and respected by all the tribes in the country. No one had more influence with the natives than Mr. Mckay, and to his advice and assistance, was due, in a large measure, the success of the treaties afterwards effected. At a conference which took place between (Governor Archilald, Messrs. Simpson, Dawson, and Pether, and Hon. James McKay, it was decided to secure the extinction of the Indian title not only to the lands in Manitola, but also to so much of the timber grounds east and north of the Province as were required for inmediate use, as well as a linge tract of eultivable land west of Portage la Prairie, where there were few Indians. It was therefore resolved to open nerotiations at Lower Fort Gary with the Indians of the Provinee, and with those of other districts at the Hudson's Bay post at Lake Manitoba.

A prochamation was issued hy Mr. Simpson, calling upon the Indians to meet him on the 25th July and 17th August, 1871, at these points, respectively, to negotiate a treaty, but, on the 24th, when Governor Arehibald and the Commissioner's party arrived at the Lower Fort, it was found that a number of the Indians had not put in an appearance, and the meeting was postponed until the 27 th. On that day, over a thonsand of the red men assembled, accompanied by a mumer of halfbreeds and other residents of the Province.

Governor Archibald then addressed the Indians as follows:
"On the 13th September last, on my first arrival in the comntry, I met a number of you at the mission. I told you I could not then negotiate a treaty with the Indians, but that I was charged by your Great Mother; the Queen, to tell you
that she had been very ghal to see that you had acted, during the trombles, like good and true children of your Great Mother. I told yom, also, that as soon as possible you would all be ealled together to consider the terms of a treaty to be antered into between you and your Great Mother.
"I advised you to disperse to your homes, and gave you some ammmition to emble you to gain a livelihood during the winter, by hunting.
"I promised that in the spring you would be sent for, and that $\bar{I}$, or some person directly appointed to represent your Great Mother, shonld be here to meet you, and notice would be given you when to convene at this place, to talk over what was right to be done.
"Eanly in the spring, Mr: Simpson, who sits heside me, was made C'ommissioner. He left his home at once for this Province, by Rainy Lake mal the Lake of the Woods.
"The Indians of the lake districts meet, as you know, on Rainy River yearly, abont the 2 Oth June, to tish for sturgeon, and they could not be called togrether sooner.
"Mr. Simpson met them there at that time, and talked over their affiairs with them, and made certain arrangements with them. He then hurvied on to see you and reached this province a week ago last Sunday. He then sent messengers at once to all the Indians within certain bounds, asking them to meet him here on the 25th day of July. Some of you were mable to come so soon, and he has, therefore, at the instance of those who were here, waited till to-day to open the talk. I believe that now you are all arrived, and ready to proceed to business.
"It will be the duty of the Commissioner to talk to you on the particular details of the treaty, and I will give place to

m know, on or sturgeon, talked over ements with ell this proussengers at ing them to f you were the instance the talk. I
proceed to
to you on e place to
hin presenty; hut there are one or two things of a general kind, which I would like, before I close, to bring to your notiow. for you to think ahome among yourselves.
"First.-- Yom Grent Mother, the Queen, wishes to do justice twall her middren alike. she will deal fairly with those of ther atting sum, just ns she would with those of the rising sum. she wishes order and peace to reign through all her comatry, and white her arm is stroug to pmish the wieked man, her hanl is also open to rewarl the good man, everywhere in her fuminions.
"Yion Great Mother wishes the eronel of all races muler her sway. She wishes her red children to be haply and eontenti.l. She wishes them to live in comfort. She womld like then to alopt the habits of the whites, to till hand and mise fonnt and stom it up aganst a time of want. She thinks this would be the best thing for her red ehildren to do, that it would make them safer from famine and distress, and make thirir homes bure comifortable.
"But the Queen, though she may think it good for you to intopt civilized habits, has no iden of compelling you to do so. This she lenves to your chomee, and you need not live like the white man muless yon can be persuated to do so of your own frew will. Many of yon, however, are alrealy doing this.
" 1 drove yesterdny throngh the village below this fort. There I saw many well-built honses, and many well-tilled tidllds, with wheat and barley, and potatoes growing, and giving promise of plenty for the winter to come. The people who till these fields and live in these honses, are men of your own race, and they show that you can live and prosper, and provide like the white man.
"What I saw in my drive is enough to prove that even if
there was not a buthato or a limebeming mimal in the combtry, you conld live and be suromuled with comfort, by what you emin mise from the soil.
"Your (ireat Mother, thercfore, will hy aside for you 'lats' of hand, to be used by you and your children forever. She will not allow the white man to intrute upon these lots. She will make rules to keep them for you, so that as long as the san shall shine there shall be no limian who has not a plate that he can eall his home, where he call go and pitch his camp, er, if he chooses, builh his honse and till his land.
"'These resorves will be large enough, but you must not expect them to he hager than will be enomg to give a farm to ench family, where farms shall he required. They will emable you to en'n a living, should the chase fail, amb, should yom choose to get your living by tilling, you must not expeet to have, inchuded in your reserve, more hay-gromots than will be reasomably sutheient for your purposes, in case you adopt the hatits of farmers. The old settlers and the settlers that are coming in must be dealt with on the principles of faimess and justice, as well as yourselves. Vour Great Mother knows no difference between my of her people. Another thing I want you to think over, is this: In laying aside these reserves, and in everything else that the Queen shall do for you, you must understmed that she can do for you no more than she has done for her red chiddren in the East. If she were to do more for you that would be unjust to them. She will not do less for you, because you me all her children alike, and she must treat you all alike.
"When you have made your treaty, you will still be free to hunt over much of the land included in the treaty. Much of it is rocky and unfit for cultivation, much of it that is wooded
e comitry, what you you 'lots' ever. She lots. She ong as the sot a place his camp.
ust not exa fiam to will emble should you expect to han will be 1 adopt the ris that are airness and r knows no ing I want serves, and , you must ie has done to more for do less for must treat
be free to Much of is wooded
is hevond the places where the white man will regnion to at all evonts for some time to come. 'lill these lamls nere need...l for use, you will he free to hant over them, mad make all Her use of them which yon have mame in the past. But when
 them mey more 'There will still be plenty of land that is meither tillod nor wempied, where yon can go and romm anl humt as you have alwhes dome, am, if you wish to fimen, you will 20 to porr own reserve where yon all find a place ramby for son to live on and cultivate.
"There is another thing I have to sing to you. Fome Girent Sother emmot come here herself to tulk with you, hat she has sent a messenger who has her contidence.
"Mr. Simpson will tall you troly all her wishos. As the (plesel has made her choice of a chiof to represent her, gon must, on your part, point out to us the ehiefs yon wish to reprperent fon, as the persons you have finith in.
" Mr. Simpisom camon talk to all your braves mad people, but when he talks to chiefs who have your condilence he is talking (6) you all, and when he hears the voice of one of your chiefs, whom you name, he will hear the vise of you all. It is for Son to say who shall talk for yon, unl also who slatl be your chief men. Let them be good Indians, who know your wishes, and whon you have fnith in.
" You will look to the Commissioner to fultil everything he agrees to do, and the Queen will look to the chicess you name to us, to see that you keep your parts of the agreement.
"It is our wish to deal with you fairly and frankly.
"If you have my questions to ask, ask them: if you have anything you wish the Queen to know, speak out phainly.
"Now, chiefs and brnves, and people, I introluce to you c

Mr. Simpson, who will say anything he thinks fit. in addition to what I have said.
"When you hear his voice, you are listemng to your (ireat Mother, the Queen, whom God bless and preserve long to sign over us."

At the conclusion of Governor Archibald's speech, Commissioner Simpson was introduced to the Indians, and addressed them, after which the meeting was arljoumed till the following day, in order to allow the selection of representative chiefs and spokesmen.

When the conference was resumed, there appeared to be a hesitation on the part of the Indians to procesel with the regular business, and, on being asked the reason, they replied that four Swampy Cree Indians were contined in prison for having broken a contract as boatmen with the Hudson's Bay Company, and that while their brethren were prisoners they did not care to proceed with the treaty-making. Thereupon, the Lieutenant-Governor, as a matter of favor to the Indians assembled, ordered the release of the prisoners, and the conference proceeded with the negotiations.

For some time, there was difficulty in making the Indians understand the provisions of the proposed treaty, but eventually, on the Brd Angust, Treaty No. 1 was conchded, the full text of which will be found in the appendix to this volume. On the 21st August, Mr: Simpson and party, accompanied by Lient.-Governor Archibald, Hon. Jas. McKay, and Mr. Molyneux St. John, met the Indians at Manitoba Post, and us the terms contained in Treaty No. 1 had beeome known to them, and with which they agreed, there was very little difficulty in coming to an understunding with them. 'Treaty No. 2 was therefore speedily concluded, and thus the extinguishment of
the

in adelition

Nour (isoit nge to reign h, Commis1 addressed e following ative chiefs
ared to be a ith the regreplied that for lating Bay Comers they did renpon, the Indians asthe confer-
the Indians but eventuled. the full his volume. mpanied by Mr. Molyand as the wn to them, le difficulty No. 2 was nishment of
the fudian title in Manitoha, and in a tract of country fin!! equal in resources beyom it, was brought about.

We camot better conclude chis chapter than by quoting in full the following letter of Covernor Arehibah, addressed to the Honmable Socratary of state for the Provinces, and the reports of Commissioner Simpon, in regard to these treaties, because thase documents give agood idea of the general principles alopted by the (iovermment in treating with all the various tribes in the North-Weret.

> Govername Hotse,
> Sinver Hehhts, July 22nd, 1871.

Sin-l have the homor to encose you copy of a proelamation 1 have cansed to he issmed, with a view to prevent the danger arising from intoxisating drinks being given to the Indians, on the oecasion of the meeting to negotiate a treaty.
I lowk upon the proceedings we are now initiating as important in their bearing upon our relations to the Indians of the whole continent. In fact, the terns we now agree upon will probably shape the arrangements we shall have to make with all the Indians between the Red River and the Rucky Mountains. It will, therefore, be well to neglect nothing that is within our power to enable us to start fairly with the negotiations.
With that view, I have amongst other things asked Major Irvine to detail a few of his troops to be present at the opening of the treaty. Military display has always a great effect on sacages, and the presence even of a few troops will have a good tendency.
I fear we shall have to incur a considerable expenditure for presents of foud, etc., during the negotiations; but any cost for that purpose I shall deem a matter of minor consequence. The real burden to be coasidered is that which is to be borne in each recurring year.
I doubt if it will be found practicable to make arrangements mom so favorable a basis as that prescribed by His Excellency the Governor-General, as the maximum to be allowed in case of a treaty with the Lake Indiams
Nor indeed would it be right, if we look to what we receive, to meas:re the benefits we derive from coming into possession of the magnificent territary we are apropriating here, by what would be fair to allow for the rucks and swamps, and muskegs of the lake country east of this Province.

But to this subject I shall probably take weasion to call your attention at an carly day.

I have, etc.,
Adams G. Archmalid.
The IIon. the Seeretary of State
for the Provinces, Ottawa.
On the 29th July, Governor Arehiball again addressed the Hon. Joseph Howe, as follows:-

Lower Fort (iarky, July 29th, 1871.
Su-I have the homor to inform yon that on Momday last 1 came tw this furt with the Commissioner to meet the Indians called here with the view tu negotiate a treaty, intending to open the business on Tuesilay morning.

It appared, however, on enquiry, that some bands of ludians had mot arrived on Tuesday morning, and we were therefore obliged to post pons the oprening of the meeting till Thursilay. On that day, the Indians from all the sections of the country to which the invitation extended were found present, to the number of abont one thousand A comsiderable bouly of half-lweels, and other inhabitints of the comntry, were also present, awaiting with some anxiety to lean what shonld be amomeed as the pulicy of the Govermment.

I enclose you a memorandum of the observations with which 1 opened the meeting. On reading thell, you will ohserve one or two pints which may refuire some explanation.

At the time of the treaty with Earl Selkirk, certain Ludians signed as chiefs and representatives of their people. Some of the ludians now deny that these men ever were chicfs, or had authority to sign the treaty.

With a view, therefore, to aroid a reeurence of any such question, we asked the ludians, as a first step, to agree among themselves in selecting their chiefs, and then to present them to us, and have their names and authority recorded.

Furthermore, the Indians seem to have false ideas of the meaning of a reserve. They have been led to suppose that large tracts of ground were to be set aside for them as hunting grounds, inchuling timber lands, of which they might sell the wood as if they were proprietors of the soil.

I wished to correct this idea at the outset.
Mr. Simpson followed me with some ohservations in the same strain, after which the Indians retired to select their chiefs and spokesmen

On Friday morning, the chiefs and spokesmon were duly presented, and. after their manes were recorded, the Indians were invited to express their views.

After sume delay, they stated that there was a clond before them which mate things tark, and they did not wish to eommence the proceodings till the elond was dispersed.

Thenguiring into their meaning, I found that they were referring to some four of their number, who were prisoners in gaol. It seems that some swanpy Indians had entered into a contract with the Hudson's Bay Company as boatmen. and hat deserted, and had been bronght up before magistrates under a lecal law of last session, and fined, and in default of piyment sent to prison for forty days.
Of this term some considerable part had expired. A few of the othendors hanl paid their fines, but there were still four Indians remaining in privn
On baning the facts, I told the Indians that I conld not listen to them if they made a demand for the release of the Judians as a matter of right ; that every subject of the Queen, whether Indian, half-hreed, or white, was equal in the eye of the law ; that every offender against the haw mast be pmished, whatever race he belanged to; but I said that on the plening of negotiations with them the Gueen would like to see all her lmbians taking part in them, and if the whole boely present were to ask as a matter of grace and favor mader the circmantances, that their brethren should be released, Her Majesty would be willing to consent to their diseharge : she would grant as a favor what she must refuse if anked for on any wher gromm. They rephed by saying that they begged it as a matter of favor only. Theremon I acceded to their request, and directed the discharge of the four Indians. 'lhis was received with great satisfaction I explained again, that there might be mo mismolerstanding abont it, that henceforth every offender againet the law must be punished. They all expressed their acquiescence in what I satid. The diveharge of the prisomers hat an excellent etlect.
Next morning the Indians, through one of their spokesmen, deedared, in presence of the whole body assembled, that from this time they would never mase their vise agilinst the law being enforced. After the order of the release, the chiefs and spokesmen indressed ns, questions were asked and answered, and some progress male in the negotiations. Evernthally the meeting adjommed till this morning at ten oblock.

I general acpuiescence in the views laid down by Mr. Simpson and mynelf was expressed ; but it was quite clear by the proceedings of torlaty that our views were imperfectly aprehembed. When we met this mornine. the ludians were invited to state their wishes as to the reserves; they Were th say how moch they thought would be sulficient, and whether they wished them all in ohe or in several phaees.

In thlining the limits of their reserves, so far as we conld see, they
wisherl to have abont two-thirds of the Province. We heard them out, and then told them it was quite elear that they had entirely mismoderstowl the meaning and intention of reserves.

We explained the object of these in something like the language of the memorandum enclosed, and then told them it was of no use for thenn to entertain any such ideas, which were entirely out of the question. We told them that whether they wished it or mot, immigrants would come in and fill up the country ; that every year from this one twice as many in number as their whole people there assembled wonld pour into the Province, and in a little while would spreal all over it, and that now was the time for them to come to an arrangement that would secure homes and amnuities for themselves and their children.

We told them what we proposed to allow them was an extent of one hundred and sixty acres for each family of live, or in that proportion ; that they might have their land where they chose, not interfering with existing oceupants; that we should allow an annuity of twelve dohars for every family of five, or in that proportion per head. We requested them to think over these propositions till Monday morning.

If they thought it better to have no treaty at all they might do without one, but they must make up their minds; if there was to be a treaty it must be on a bisis like that offered.
'That, under some such arrangements, the Indians in the east were living happy and contented, enjoying themselves, drawing their amuities, and satisfied with their position.

The observations seemed to command the acquiescence of the majority, and on Monday morning we lope to meet them in a better frame for the discussion and settlement of the treaty.

I have, ete.,
Abasis (i, Arcuibalb.
The Honorable the Seeretary of state
for the Provinces.
The following report of Commissioner Simpson gives full partirulars of the negotiations in relation to lreaties 1 and 2 , which wre conchuded by the 21st August, 1871 :

lation of llis ions with the he Indians of
the North-West Terviony, entered upn by me in accordance with yomr instructions, dated 3 rll May, 187 l .

Having, in association with S. J. Dawson, Fisi., and Rohert Pether, Fisi., effeced a preliminary arrangement with the hadians of Rany Lake. the partiendars of which I have aheady hat the homor of reporting to you in my report, daterl Iuly 11th, 1871, I proceeded by the Iake of the Wiods and Dawson Roal to Fort Garry, at which place I arrived on the 1tith July.

Bearing in mind your desire that I should eonfer with the Lientenant(i,vernor of Manitoba, I called upon Mr. Archibald, and learned from him that the Indians were anxiously awaiting my arrival, and were much excited on the subject of their lands being oceupied without attention be ing tirst given th their elaims for compensation. Amongst the settlers also, an measy feeling existed, arising partly from the often-repeated demands of the Indians for a treaty with themselves, and partly from the fact that eertain settlers in the neighborhood of Portage la Prairie, and "ther parts of the lrovince, had been warned by the Indians not to cut wond, "I otherwise take possession of the lands upon which they were squatting. The Indians, it appeared, consented to their remaining on their holdings until sufficient time had been allowed for my arrival, and the conclusion of a treaty; but they were unwilling to allow the setthers the free use of the country for themselves or their cattle. Mr. Archibald, and those residents in the lowince of Manitoba with whom 1 conversed on the subject, appeared to think that no time shomld be lost in meeting the Indians, as some assurances had nleady been given them that a treaty would be made with them during the summer of 1871 : and I therefore at once issued notices calling eertain of the Indians together. naming two places at which I would meet them. The first meeting, to which were asked the Indians of the Prowince, and certain others on the eastern side, was to be held on the 20th of July, at the Stone Fort, a Hudson's Bay Company's post, situated on the Red River, about twenty miles northward of Fort Garry -a locality chosen as being the most central for those invited. The seeond meeting was appointed to be held on August 17th, at Manitoba Post, a Hudson's Bay Company's post at the north-west extremity of Lake Manitoba, ns it was deemed that such of the bands of ladians residing without the limits of the Province of Manitoba, as I purposed to deal with at present, would meet there more remily than elsewhere.

On Monday, the 24th of July, I met the Lientenant- iovernor of Manithat at the Stone Fort ; but negotiations were unavoidably delayed, owing to the fact that only one band of Indians had arrived, and that until all were on the spot, those present deelined to discuss the subject of a treaty exeept in an informal mamer. Amongst these, as amongst other Indians
with whom I have come in emtact, there exists great jealonsy of one another, in ull matters relating to their commomications with the ofticials of Her Majesty, and in orver to faeilitate the ohject in view, it was most desirable that suspicion mad jealonsy of all kinds shombla be allayd. The fact of the Commissioner having arrived was suthicient evidence of the grusl intentions of Her Majesty's Govemment, and it seemed lettea to, a wait the arrival of all whom I hat summened than to press matters to an issue while any were absent. 'This, however, entailed the necessity of feeding those who were already there, and others as they arrived.

It is enstmmery in dealing with Indinns to do se, and in this cense it was ahsolutely necessary, for, obvionsly, it would have been impossible to invite those perple from a distance, mat then leave them tastarve at our doors, or, in search of foost, to phonder the neighburhood into which they hat been introduced. At that seasom of the year, the Indins were met engaged in fishing or honting, and consequently barge numbers of moll, women and ehidren attended at the phaee of meeting, for all of whom foul was provided. The price of provisions, even at the lowest price fur which thoy could he ohtained, was high, perk being tifty dollars a barrel, and tlour twenty shillings sterling per humdred, and such cattle as I was able to purchase, $\operatorname{Exl} 1 \mathrm{p}$ per head ; su that the expense of kepping the ladians dining the negotiation of treaty and payment of the gratuity, which lasted deven days, forms mo simall share of the total expenditure. In addition to this expense, it was thought necessary by the Lientenant-donernor that Major Irvine, emmanding the troms at Fort (iary, slambi be repuested to furuish a guarl at the Stone Fort during the negotiations, and that there shombl te at hand also a foree of comstabulary for the purpmse of preventing the introduction of liquor anomgst the Indian encamp. ments. (other expenses of a somewhat similar mature were incmered. which wouk be totally mancessiny upon any future occasion of payment being made to the bulians of Manitoba. I wey here refer to the apmar ently 1 robonged duration of the first nemation, and explain in reference theret, the eanses, or some of them, that entailed the loss of time and attenaliant expense. For some time a dorbt has existed whether the chief nominally at the head of the Indians of the Indian settlement frisesseel the gond-will and contidence of that land : and I thagnt it alvisable te, require that the several timuls of Imbians should select such ehiefs as they thomght proper, and present these men as their inthorizel chiefs, before mything was said as to the terms of a treaty. The lowlians, having acguiesced in this propersial, forthwith proceeded to such election ; but the
 themselves, and two days chased before the men chasen were presented for recognition, and the lonsiness of the meeting commenced.

When the prembiar eiremastances surrounding the position of the la-
$y$ of one ant he ofticials of was most ileHayed. The lence of the ed better to matters to in necessity of ivel.

In adntenant $\boldsymbol{f}$ iow intry, shomh? negrotiations: for the purlian encampre incurred. of payment o the "ymar in reference of time imf her the chief nt jussessed alvisable to hiefs as they hiefs. before s, hating iseon ; but tho (1) an amest e pesented In of the la-
dians of the Prowince were pinted ont, the future of the conntry predicted, and the riews and intentions of the (avermanent explained by the I ientenant-Gowernor ant myself, the hadians professed a desire for time (othink over what had been said before making my reply: and when their answer came, it proved to contain demands of such an exorhitant bature that much time was spent in retucing their terms to a basis upon Which an aramgement comble be male.

Fivory band hat its spukesman, in middion to its chief, and each secmed (1) vie with another in the dimensions of their requirements. I may mention, as an illustration, that in the matter of reserves the quantity of land inmanded for cach band amomed to about three townsigis per ladian, and included the greater part of the settled portions of the Pro- $^{\text {bot }}$ sinee. It was mot matil the Bril Angist, or nine days after the first meetiom, lat the basis of arrangement was mrived at, upon whieh is fommed the treaty of that date. Then, and by means of muthal eoncessions, the following terms were agreed upon: For the cession of the comitry, des cribed in the treaty referred to, and eomprising the Province of Manitola and certain comentry in the northeast therenf, every Indian was to receive a sum of three dollars a year, in perpetuity, mid a reserve was to be set spart for each band, of sulticient size to allow one humbed amd sixty ares to each family of five persoms, on in like propmtion as the family might he greater or less than tive. As each Indian settled down unem his share of the reserve, and commenced the coltivation of his lam, he was porecive a phomg and harow. Each chief was toreceive a cow and a mate and female of the smaller kinds of ammals bred mon a farm. There was to he a bull for the gencral use of each reserve. In addition to this, wach chief was to rereive a dress, a thag and a mealal as marks of distinction : and each chief, with the exception of Bo\%awequare the chief of the lortage hand, was to receive a linggy or light spring waggon. Two enuncillors and two braves of each hand were to receive a dress somewhat inferion to that powided for the chiefs, and, the braves and enumeillon's of the lortage band exeepted, were to receive a buggy. Fivery lalian was to recoive a grathity of three dollars, which, thomg given as a payment for Gumblation, was to be umlerstond to enver all dimensions for the past.

On this basis, the treaty was signed by myself and the several chiefs on hehalf of themselves and their respective hamds, on the Brl August, 1871, and on the following day the payment commenced.

The three dollars gratuity :bove referme to will mot ocemr in the watinary ammal paments to the ladians of Manitoha, and, thomeln dombling the amman paid this year, may urn properly be regarded as belonging to a previous year, but only now liquidated.

A harge mumber of ladians, emitled to share in the treaty, were absent an the Brel Ausust, and in the belief that I shombl ahmost inmondiately be
able to oblain a more accurate knowlenge than I $f$ mssessed of the number of the several bands, I paid to each person present only three dollasthe gratnity-pustpoming for a short time the lirst ambal payment. Having completed this dishursement, I prepared to start for Manitom Post, to opren negotiations with the Indians on the immediate north and northwest borders of the Provinee of Manitoha, promising, however, to visit the several bands of the first treaty, in their own districts, and to there pay them. By this means, the neceesity for thair leaving their own lomes, and for the Govermment's feeding them while they were being paid and during their journey home, was avoided.

After completing the treaty at Mmitoba Post, of which mention is hereinafter made. I visited Portage la Prairie, the ladian Nettlement at St. Peters, Rivière Mamis and the 'lown of Wimuipeg, aceording to my par mise, amd at each phace, with the exceptien of Riviere Marais, fomm the Inlinassatisfied with the treaty, ame awaiting their payment. At Riviere Marais, which was the rembervous appointed ly the bands living in the neighborhood of Pembin, I foumd that the Indians hat either misunderstood the advice given them by parties in the settlement, well disposed towards the treaty. or, as I have some reason to believe, lual beeome unsettled by the representations made ly persoms in the vicinity of Pembina, whose interests lay elsewhere than in the Province of Manitola; for, on my amouncing my readiness to pay them, they demarrel at receiving their money until some further concessions had been made hy me.

With a view of indueing the Indinus to adopt the habits mud labors of civilization, it had been agreed, at the signing of the treaty, as before mentioned, to give certain animuls as a nueleus for stocking the several reserves, tugether with certain farming implements; mul it was now repreaented to me by the spokesman of the bands that as the Queen ham, with that kindness of hoart which distinguished her denlings with her red children, expressed a desire to see the Indinns discard their former precarious mode of living, and alopt the agricultural pursuits of the white man, they were desirous of acceding to the wish of their Great Mother, and were now prepared to receive the gifts she had been goord enough to speak of through her Commissioner in full. But as it could make no difference whatever to their Great Mother, whether these things were given in kind or in money value, her rell children of the Pembim bands were resolved to receive them in the latter form. I had puta valuation now all the articles mentioned in the supplement to the treaty, and could go no further in the matter, unless I was prepared to pay them for all these articles at the rates they would now proceed to mention. I declined to comply with the request, and they declined to receive their first ammal payment, whereupon I broke up my camp and returned to Wimipeg. As I foresaw at the time, this determination on their part was shortly repented,
f the number ree dollarsment. Havmitoha Post, th sud northever, to visit and to there Ig their own re being paid ation is herelement at st. ig to my ;rois, found the $\therefore$ At Riviere living in the er misuneler1 disposed tod become unof Pembina, toba; for, on Int receiving y uc.
and labors of s before mene several reis now reprecen hat, with her red childer precarious ite man, they er, and were h to speak of no difference given in kind re resolved to Ill the articles further in the rticles at the comply with ial payment,

As I foretly repented,
and a momber of their leading men were smbequently paid at Winnipeg: while, at the request of the Indians, the money for the remaineler, thge ther with a pry-sheet, was forwarted to the wtheer in elarge of the Hudson's Bay Company's Post at Pembina, with instroctions to pay the lndians as per list as each might present himself. At Portage la Praince, althongh the number paid at the Stone Fort was largely inereaseat, there still remaned many who, from absence or other canses, wore mot piail, and by reguest of the chief, the money was left for these with the otheres in charge of the IHdson's Bay Compung's I'ust. in the same mathner as was done for the Pembina bands.

As I was mable to proceed to Fort Alexamler, the paments for the Indians, in for such of them ns were present at the signing of the treaty, were sent in like mamer th the utheer in clarge of the Hulson's Bay Company's Post at Fort Alexander, but it may be as well to mention that the number so paid will fall far short of the total number belonging to that place. The latter remark will apply to the Pembina band, for their payment was sent as per gratuity list, and there must necessarily have been others who did not receive payment. All these most receive their back payments during the course of next year.

During the payment of the severnl hands, it was fonme that in some, and most notably in the Indian settlement and Hroken Head River Band, a number of those residing anong the Indians are in reality half-breeds. and entitled to shatre in the land grant under the provinions of the Manitoba Act. I was most particular in cansing it to be explaned generally, and to individnals, that any person now electing to be elassed with Indians, and receiving the Indian pay and gratnity, would, I believed, thereby forfeit his or her right to another grant as a half-hreed, and in all coses where it was known that a man was a half-breed the matter, as it affected himself ant ehildren, was explained to him, and the choice given to him to characterize himself. A very few only decided upon taking their grats ats half-breeds. The explanation of this apparent sacrifice is found in the fact that the mass of these persons have lived all their lives on the Indian reserve (so called), mol woml rather receive such benetits as may accrue to them under the Indian treaty, than wait the realization of any value in their half-breed grant.

The Lientenant-Governor of Manitoba having expressed a desire to be present at the negotiation of the treaty at Manitoba Post. His Honor. accompanied by Hom. Jas. Mckay, proceeded thither with me, in company with Mr. Molynenx St. John, the Clerk of the Legishative Assembly of Manitobn, who had assisted me in the daties eonnected with the former treaty and payments. I left Wimipeg on the 13 th August, but owing to adverse winds on Iake Manitoba, did not arive matil two days after the time appointed. I fomind that in the meamwhile the otticer in charge of the Hudson's Bay Company's Pust had been obliged to give some provi-
sions to the Judisns pendings my arival ; hat, on speraking to the leading men of the bable assembled, it whe wident that the Imimos of this part hat no specinl domands to make, but linving a knowledge of the former treaty, desirml to be dealt with in the same manner and on the smae terme as those adopted by the ladians of the l'rovince of IHnitola.
'The negotintions with thene banls, therefore, ocopied little time, and on the 21 st Angist, 1871 a treaty was conelnded by which a tract of coun. try, three times as large as the Irowince of Manitoln, was smrendered by the lodians to the Crown. Jayment in full, that is to say, the gratuity amil the first payment was at onee male; mad I lave mince written to the wheers in elarge of tho Homsoni's Bay Compma's Posts, within the tract ubove referver to, requesting then to procure for me a relinble census of the ladims, partien to this treaty.

I have referred to the cost of etfecting these theaties, mad remarkinl that it will prove to be exceptional. It may be regarded as entirely so, as far as the lidians with whon the dealings were held are concerned Jn the futhre, the ammal payment will be only one balf to each Indian of the anomint paid this year, for the gratuity was the same ns the jayment, and the heavy expense of feeding the lalims while at the place of meeting and on their jonrney bome, will he avoded by the paynent being made bear their own reserves.

All the collateral expenses, therefore, of this your, inchuding dresses, medals, presents to the Indinas, etc., etc., will not :ppear in the expenses attending during future jayments.

But it is to be remembered, that a large momber of ladians whose limels were ceded by the seeond treaty, were not present The distanme from the lamting gromols of some to Manitoba l'ust, is very great; but. while their absence was to be rearetted fon some reasons, it effected a very comsiderable sasing in the iten of prosisions.

During the ensuing seasm, these fersoms will probably be found at the phace where the panments will be made, mul will then repuire their payments as if they hal been present at the signing of the treaty.

Of the land ceded in the Prowince of Manit.ona it will he lurdly nevessary for me to speak, as His Fixcelleney the (anermor-(ienmal is alrealy in possession of aceurate information thuehing ins fertility and resources : lout I mo $y$ wherve, that sabuble as are these lands, they are fully equalied. if not exceeded, by the eomatry of which the (iavermant now eomes into possessiom, by virtue of the treaty conchated at Manitolra l'ost Alrealy, settlers from the Provinces in C'mada and elmewhere, are pushing their way leyond the limits of the Provinee of Mantohat and there is mothing but the arbit ary limits of that l'osince and certain wood and
 of the emmatry from the other. The fertility that is possessed by Manitoba, is shated by the combtry imits combines. The water comrses of the

The Indians of louth parts lave a tima belief in the hemor and integrity if Her Majesty's representatives, and aro fully inpressen with the idea that the amelioration of their present comatition is ome of the ohjecte of Hor Najesty in making these treatios. Athongh many yeme will elapso before they can be regarded as a settled promataion-settleal in the sense of following agricultural pursuits-the lodian have already shown a dis. powition to provide against the vicinsitules of the chase, by cultivating small putches of com and putatemes. Morenser, in the Province of ManiP. Nia. where labor is searee, Indians give great nssistance in gathering in the cripls At Portuge la Prairic, buth Chiplewas and Siomx were bargely cupheged in the grain fied : and in other porishes I fomminany farmers whise comployés were nearly all Indians.
Althugh serinus tromble has from time th time oecurred across the fomulary line, with Indians of the sime triles, and, indeed, of the same bond as thase in Amatoln, there is In reason to fear any tromble with these who regard theluselves as sulbects of Her Majesty. Their desire is th live at peace with the white man, to trale with him, am, when they are dspused, to work for him: and I belice that nothing hat grows injustiee on "pression will induee them either to firget the allengithee which they nuw chan with prike, or molest the white subjects of the Sovereign whon they regned us their supreme chief.
The system of an annal payment in momey, I regard as a goont one, because the recipient is cmabled to purchase just what he requires when he con get it most cheaply, suld it also emables him to hay articles at seemul hamd, from settlers and others, that are guite ns useful to him as are the same things when new. The sun of thee dollars does not appear to be large enough to enable an Indinn th prewitle himself with many of his winter necessaries ; but, as he recoives the same mmont for his wife or wives, and for each of his children, the aggregate sum is usually sultivient t" procure many comforts for his family which he womld utherwise be etmpelted to deny himself.
I take this oplortunity of ackmowledging the assistance afforled me in successiully completing the two treaties to which I have referreel, hy Hi, Honor the Lieutenant-(Envomor of Manitoba, the Hon. James Mekay. and the ofticers of the Hudson's Bay Company. In a commery where transprort and all other business facilities are necessarily su searce, the services remdered to the Govermment by the othicers in charge of the several Hulson's Bay Pists have beem most ophortme and valuable.

I have, etc., etc.,

Wemysi M. Simpsen.<br>Inuian Commissiontr.

The 'lventies No. I mud 2 pmed the why for neqotintions with other tribes in the North-Wiest, and male the task of suceessfully completing urampements with the varions bands of Indians throughout the comntry, all the easier: and to the influence nuld exertions of Hon. Jas. Nekny is duc, in a large mensure, the satisfactory ending of Commissioner Simpson's efforts in 1871 .
'The tribsw between Lake Superior and the north-west angle of the Lake of the Woods were not prepared to conclade a trenty in 1871, anl in the following year they were fomnd to be still umprepared to enter into arragements with the Govermment, so that it was not matil 1873 that 'Treaty No. 3 was conchaded, a full report of which will uppear in its proper phace.

Tulge Johnson (afterwards Sir Francis Johnson), in July, 1s71, recoived instructions to investigate these claims, and, in accordance therewith, proceeded to Manitoba, where he arrived on the (ith August, and on the day following he cansed priated notices, in French and English, to be published and circulated in the different parishes of the Province, intimating that he would receive claims, aml such evidence in support of them as the several clamants might offer. Notices to the same effect were pablisied in the newspapers, and during the whole of August, and afterwards, as clams wern presented, Judge Johnson heard evidence in support ol them. The amoment clamed far excected the most liberal estimates in regarl to it, and when it is eonsidered that Judge Johnson, after hearing all the evidener in support of the clains, cut the sum of $\$ 336,260.95$ down to $\$ 85,755.95$, the only conclusion to be arrived at is that a grood many of the clamants must have placed a very high estimate upon the value of their losses, and the extent of their sufferings. When the award of the Rebellion losses beemme known, there was, therefore, a good deal of dissatisfaction expressed by a number of the parties interested, especially. when they learned the large amount claimed and receisel by one or two of the chimants.

It may be well, however, to give an extract from Judge .Johnson's report, as follows :-

Remy clam intemand to be presented has, 1 have reason (") bubleve been received with all the evilence within the frwer of the several parties to promede

There may be a very few, hat mot bore I think than five on wis at the utmost, that hase not yet been brombtherwarl. winge to the absence of the chamants, bat these should not, in me. julgment, further delay my report.

- Many, and imbed most, of the claims presiontend did not ven to me inchuled in the terms of the wote in supply: but as they were usmally mixed with demands grommed on impiomment or loss of property, which did eome within those toms the comse I adopted was to receive all the wirlence that the prrties desired to bring forwarl, and to comsider, in foming my conclasious, only such testimony as was applicahlu muler the terms of the vote.

In every instance, the claimant and his witnesses have been duly sworn, and I have taken their evilence with my own haml.
"Refering to the tems of the extract from the Trensury Minute commmieated, I find that I am requested, 'after an damination and inquiry into such claims, to report the "vidence taken in regard thereto, and my conchasions there(1).
"I have, therefore, the honor to report that all clames made before me. together with the evidence in support of ench, ami mer eonchasions thereon, will be fomm in the sealed packet intembed to acompany this letter: Every case is mumbered and Wheketed with the mane of the claimant, aml contains the claim, the evidence, and my conchisions upon it.

I have also the homor to colose a list containing the numfor , listinguishing each claim, the name of the clnimant, the
anomit claimed, and the amount indicated by my conclusions upon the evidence.
"In the execution of an office of such difficulty and delicney I have considered it my daty to be guided by equitable prineiples rather than by technical rules. I have resserved to myself, however, as the only possible means of disposing of the demants, many of them conscientious, and some, I believe, the reverse, the discretionary power of julging, as a juryman would do, in a matter that I consider fair and right, under circumstances not always fully appearing on the face of the proceeding. If I have alopted a proper view of the duty reguired at my hands in this matter. I see a prospect, and I must add the only prospect, of an end to demands which, in their nature, irritate to some extent a portion of the publie mind.
"I was, I must conless, mable to perecive any other mode of proceeding open to me. It appeared to me that I was called upon (however imperfect the means afforded) to hean and judge, and not to pat myself in a position of resisting or questioning.
"I therefore heard all the evidence in every case that the party clamant desired to adduce. In all cases the chammonts were represented by professional advisers, who placed their demands in the most advantageous position possible: while the pablic interest may be said to have been entirely mepresented, unless I am right in the supposition upon which I have acted, that I was called upon to judge ex: equo et bono, and to consider all the circunstances of every ease, whether arising immediately from the evidence which the claimant chose to deduce, or from events of a public nature, of which I was personally and officially cognizant.
"The principles I have applied to all cases are:- table prinved to mying of thr elieve, thי" juryman unuler cirof the proaty requiruld I must h, in their lic mind. other modu that 1 wan d) to heat esisting or
he that the celaimants laced their : while the wrepresentich 1 have mo, and to her arising t chose to
I was per-
" 1st. To require all reasomable proof of evory essential finet un"u which the cham was fommed.
" End. To allow for all proved losses which were the direct and immediate consequence of the insurrection, and not attributable to the fault or negligence of the elamant.
" 3 rol. To take the chamant's own swom estimate of the value of property lost, where such value was ex-necessitute within his exclusive knowledge.
" th. 'To have regrat to lacts of a publie and general nature, such as the oflicial, or assmmed official, character of individuals who notorionsly and openly acted eithor meder or against the authority of the so-called Provisional (iovernment.
" I have restricted my attention, 1st, to claims for loss of property: 2nd, to clams for imprisomment : and 3rl, to clams for forced emigration from the teritory.
"The two first heads of impuiry seem to want no comment. With reference to the third, I have considered the word 'fored' implied no preference or mere alarm, but compulsion, arising from serions danger to life or liberty.
" In applying these principles I have of course, excluded from my consideration claims for damages in the legal sense, as comenter-listinguished from actual loss. The brief text of law that regulates my proceedings not including clains for "ny dexeription of damuges. If these should ever be the sub)ject of investigation, I fear it would open a field of endless controversy, and require an appropriation many times larger than that aheady made."
dudge Johnson then recommended compensation to a man named Narcisse Marion, to the extent of $\$ 100$, as he was one who had rendered service on the side of law and order.

The awards to the elamants were as follows:-

Awards. Claimed.

For inprisomment. . . . . $12,8: 3+50$ (050,02! 20

In a report of the Privg Comncil, lated !th April, 1872, and appowed ly the Govemor-Genoral in Comeil, it was recommembed that the sum of two thousam dollats should $\mathrm{l}_{\mathrm{s}}$ paid to the parents of Thomas seote, who was shot at Fort Camy, and subsequently the clams of the Hulson's Bay ('ompany were settleal, the particulars of which will be fomme dhewhere.

## CHAPTER ${ }^{\circ}$.

```
HALF-BREED COMPLICATUNS ANH THE FENIAN RAID.
```

Is 1871 , the nearest point to which the malway system of the L 1 inted States had reached in the direction of Manitola. was Brainard, Mimmesota, the Northern bacitic Railroad having heroll completed to that town. 'The brigarles of' carts, therefore continued to make smmmer trips to St. Clond for thr purpose of bringing in the supplies repuired by the people of the Province. Bat, in the winter of 1871-7: Mr, Danes. . Hill (now President of the Great Northern Railroad), who was then intimately eommected with the trade of the NorthWest, undertook the constrnction of a steamer to ply on the waters of the Red River, and in the spring of 1872 the boat malle her first trip to Fort damy heavily laden with merehandise of every deseription. Mr. Hill mamed his steamer the selkion, and having taken the precantion to bond her in the Coited States Customs, he hat the pleasure and protit of carring all the Red River supplies that spring. The Ameriran anthorities for the first tinne enforced the rule that all whicles or vessels carrying bomled geods shonhlat give the merssary homds, and as neither the Rod River cart liggantes mer the Hudson's Bay Company's steamer Internetional had complied with the law, Mr. Hill's boat for several months mjoyed a monopoly of the carrying trade to Fort Gary:

This was a death-blow to the freighting of groods over the pains hy means of carts, and for the time being was a great
hardship to the merchants of Manitoha, as Mr. Hill chargel the full rate of 16 shillings sterling per 100 Ihs, from St. Paul to Winnipeg, payable in cast; whereas the freight by ents was pail in lanlf eash, half grools, which greatly reduced the actual cost of carriage.

But the Hudson's Bay (ompany did mot allow the grass th, grow under their leet, for they transferred the International to their St. Paul agent, Mr. N. W. Kittsom, who, being an American citizen, had her bomded withont delay: Ip to this time the Internotiomel had heen employed in carrying Hadson's Bay Company goods only, hut Mr: Kittson now undertook the carying of genemal freight mad passengers, und Nr: Hill fombl himself opposed by ${ }^{\prime \prime}$ powerfal competitor. Not only this, but the merchants of Manitohn gave the Intermutional the preference, and the result was that an amalgamation of the two stemboat companien took place under the manarement of Mr. Kittson. Thns commenced a traflic which in a year or two reached vory latge proportions, and leol the way to enterprises of vast extent in the earreing trale.

In Soptember, 187I, the tirst stage artived from thereromhio, the proprietors, Messis. Blakely s ('n penter, having contracted with the Dominion (iovermment to carry a tri-weekly mail to and from Wimipeg. Thas the stage aml the stemaboat took the place of the ox-cart, and the first step was takem in the North- West toward a eloser commmieation with the outside world.

On the 20 th November, $18 \mathrm{~T} \mid$, the telaraph line, via Pembina, in comexion with the American system, which had been maler course of construction for several months, was completed, and on that day the following despateh was sent over the wires by Lientenami-Governor Archihald :-
chargerl st. Paul by cart luced the
"grass t" rnational being an y to this ing Hulow under, and Mr . tor: Not Intermumalgramia under the thie which Id leal tha dr.

* Right Honomable Lorl Lisgar,
"Governor-Genemal of C'mada.
". The first telegraphic message from the heart of the conthent may apmopiately comsey on the part of our people, an "xpession of devont thankfulness to Amighty (iod for the chese of our isolation from the rest of the world. This message ammones that close, as its reecipt hy Vour Exerdlency will attuat it. The voice of Manitola collected this morning on the banks of the Assiniboine will be hearl in a few homs on the banks of the Ottawa, and we may hope before the day Homes that the worls of Vom Excellencris reply, spoken at the cepital of the Dominion, will be listened to at Fort (iams. Wir may now comt in hous the work that used to oceupy werks. I congratulate Your Excellency on the facility so afforded in the discharge of your high duties, so liar as they eom(rim the Province. I know I can better discharge my own When at any moment I may appeal to Your Lomelship for autvice and assistance.
"(Signed) Abams (i. Abcillialon."
Tor the above despatch, the following reply was sent by Lame Lisgar:-
"To Lieutenant-Govemor Archibahe,

> "Wimiper, Manitoba.
"I received your message with great satisfaction. The completion of the telegraph line to Fort (iarry is an anspicions erent. It forms a fresh and most important link between the Eantern Provinces and the North-West, and is a happy angury for the future, inasmuch as it rives proof of the emergy with Which the mion, wisely effected, of Her Majesty's North American possessions, enables progress and civilization to bo
advanced in different and fine distant portions of the Duminion. I comgratulate the imhalitants of Manitola on the evant, mal join heartily in yom thanksivine.
"(Signed) Lasiata."
It will thas be serin that mpid progress was being made in the drvelopment if enterpises calculated to opem of the combtry tor su the fom while this was eromge om, there existed a ginit of :co. mong the French-omaking settlets, camsed he ther action of nere meres in squatting upon hands which the
 were also a mumber of hothombs among those arriving in the eomatry, who made use of threatening hangure towards the French, and when 1 party of immigrants from Ontarioterk pessession of a tract of land at Riviere anx Rlets de Bos which hand beren selocted ly half-hreeds for their lanms, and maned it the Boyne, a collision betweren the two parties wian anly avoided by the prompt action of Gevernom Archibald.

About this time Rial retmone to his home on the Rad River. and, heing wambly weleomed by his friends, was soken of as a camblidate for the Ionse of Commons for the district of Provencher. But being persuaded that his election wonld be aseless, as he would probably be expelled from the House, on shot ly some one in a spinit of revenge, he abandoned the idea. The return of Riel to his home, howerer, served to fan the Hance of diseontent among his people, and a namber of mentings were hed by them to disenss the sitnation. (obomohar. Who was in exile aeross the bomblary line troe to his Fenian instincts, resolved to take adrantage of this state of feeling among the French, and, in comjunction with that adventmer. O'Neill, endeavod to organize a raid on Manitoba from Cuited states tervitory, in the expectation that the French wond

foin them. Indeed, obonohe niterwards decharel that be was atiog under instructions forn the half-breed bemers, for in a letter to the Suenker of the Homse of Commons, dated $\therefore$. Panl, Olith Fehruary, 1875, he offered to prewe, "That the womlled Feminm raid of 1871 was merely a eontinuation of the insurvetion of 1869 - $-\mathbf{0}$ ) and that the part he played in it. Was simply that of an arent of the people hodinge a commis--ion, authorized ley a resolution of the (ommeil held at Rivièe salle, in S'eptember, lazo, at which Lemis Riel persided. 'The rommission," he also stated, "was signed hy the oflicers of "? " Provisional (iosermmere of the French party:"

 and motwithstanling a strong fereling in the minds of many that the French were rady at a mement's waming $i$ in the small party of invalers, the testimony of Bishop 'Tache and (iovernor Arehibald exonemated Riel altorether from the charge of being impliented in the Fenian mid

The attempt oin the part of ODomohne and ONeill proved to be a miserable tizale. At abont half-past suven in the morning of the sth Octolere, they, with abont thirty-tive followers, appermed at the Hudson's Bay Companys prist at lemlima, and tork pussession of it, but ahosst immediately afterWarls, a spuad of l'nited States troops, under Colonel Wheatom arrived and captured the Fenian haters and a momber of their men, obomehne esemping, mily to loe taken prismen latwo.

The man whe rally pint an end te the raid before any ham
 the sery moment he set loot in the countrys until he died, proved hinssojf a true frient of the people of the C'mandian

North-West. It was he who gave the warning, and phoned the eapture of the Feninn learlers, yet to ('aptain Whenton is dhe the prompt carrying ont, and successfal acoomplishment of the prompmome. On Oet. Sth, Consul Taylor received the following despatch:-

> Heamplanters, finef Pemmina, (oct. sth, $1 \times 7 \mathrm{I}$.
.J. W. Tu!glor, I. S. Comsul, Winnipet.
sik-I have captured, and mow hohl, "(iemeral" J. o'Neill, " (ieneral" Thomas C'urley, and "Colomel" J.J. Donnelly. I think further anxiety regarling a Fenian invasion of Manitoba unnecessary.

> I have, ate,

> Laov! Winsaros, ('apt. OOth Infantry:

Both Consul Taylor and Captain Whemon were alterwards publicly thanked for their action on this aceasion.

W'bonohne was captured about tive miles from Pembina, on the British side, hy two French half-hreeds, who tied him, and telivered hin to Mr. Bradley, the ('nuadian customs' officer at the boundary. Mr. Bradley, strange to say, instemd of deliving his prisoner to the Canmlim authorities, took him across the line into Cnited States territory, and hambed him over to the Ameriean ottleials. What Mr. Bralley meant by this action no one could tell, but it was very generally felt throughout the Province, that an eqregions bunder hanl heen eommitted. Thus ented the Fenime maid,

In the menntime, there was a grond deal of excitement in the Province, owing largely to the dread that the French would join the Fenians, the result of which would meloubtedly have been a boody struggle. Governor Archibald issued a

1 planned heatem is plishument eeived the

fterwards
mbina, on him, anl officer at of delixim neross n over to this ac-through-commit-
tement in e French whoubtedissued a
prowmution, calling nipm all loving suhpects, irrespective of mace or religion, or of gast local differenees, to rally romen the llay of their common comery. The proclamation was mobly reynuded to, several humidred men emolling themselves to mo , in the Femian attack, mud these, mulder command of Majom lavine, marched to the frontier: Fhe Firench at first hell thark, and it was not till the sth Oetolner that Gowemor Arehibald was informed that some two humbred half-hreeds had aswombled at it. Boniface to offire their services. His Honor wont at once to see them, and timling Riol and Lapine at their hand. welemed the evidence of their loyalty by shaking hambe with them, muld accepting their services. This act on the part of Goveruor Arehibald homght down upon his head the lemmeintion of a large manter of peeple in the Province. and cansed hime ever atterwards to the umperular with a certain cliss. But (iovernor Archimald acted for the best intercals of the emmery, and it was well-known to him that a mere -park at that time was monly needel to seme the whole French prination into open revolt-a fact which was not so well un-小ratuen by his erities. During the exeitement, Mr. (iilbert Mo Sicken, the newly appointed Dominion Lamds arent, arrisel in the Province, and as he had considerable experience in Fenian invasions in other parts of Cimala, his services wror also called in.
The raid, however, as we have shown, failed at the wry ontsert, and the volunters: who marched to the front, were not Eatlect upon to fire a single shot. O'Neill, O'Domohue, and others, were tried at Pembina, hot released immediately atterwards, the evidence against them bwing, it was suil, insufflicient to empict them of a breach of the nentrality laws. They were, in fact, liberated as the quickest way to get over the whole difficulty.

in supply as a reward for the arest of those chicelly com aromel in the killing of seott. The Comity of Midellesex alsw offered a reward, mal it was expected that the result womlla lo ant attempt to arrest Riel and Lepine. Who wore then residing
 of Dr: Blakes ahministration to take such action at that time. just as the Province of Manitoha was hegiming to enjog the trenctits of peace.

As senem as it became known that rewards were offered bor the appromenson of Riel and Lapine, tie brench beeane great ly excitenl, and meetings wre held mang them, alvocating resistance should amy attempt be made at an arrest. Soma idea of the state of teeling provaling may be learner? from the following extract, taken from a letter addressed hy Lion-tenamt-A deveror Arehibald to Sir (ieorge E. Cartier, on the 2th Fehnary, 1xTE:-" I have had a bather anxions time since the intelligence arrived of the rewards offered by the Widdlesex Comoty ('ommeil, and the legrishatme of Ontaris. Intense excitement prevailed for a while among the Fremeh Half-Breeds. On the point of blotting out the past, there is little or no divisiom anong them. Even these of them when did not side with Riel, and the ' Men of the Movement, ins they are ealled here, look unon the question of punishment of the offemlers as one of rate, and would consider an attempt of the kind on any of these prople as an attack upon the whole. I had learned, privately, throngh the instrmmentality of the police, that immediately after the arrival of the telegraphic news, meetings were held in each Prench parish on the subject, and that there was but one feeling among the people on the subject. They determined that the parties to whom the rewards were direeted should remain in the comitry, and that

the people should protect them ly an armed foree ngninse any altempt to arrest them. I fear very much, that had the atImpt bued make, it womld have led to serions bloodshed. Happits: the ferlings of the great hody of the English people of this comatry have so changed that it is ditticult to tind a Magistrate whe does not hesitate to issue warants which may lean to fatal conserguences: moll several Justices, who were themsthes sufferers at the time of the tronbles, and who, a yar ago, wro urging all kinds of vindictive proceedings, have refined to issur warants now. I an not awase whether any "armath has actually been issued up to this moment. The liflienty is mot among the people of the comntry but among the suall bamb of lawless men, inllers and roughs, who infest the taverns of Wimiperg. These men hate mo inllacoce, exrept for mischief, but they might light a flame it would be hard to extinguish. For a few days, I felt the danger was extrene. The only possible way to awoid a seriots outhorak was to get rid of the two men whose presence in the comutry formed the protext for the action of the romghat Wimipers."

The action of the ()ntario (iovermant, in offring a reward for the arest of the lemers of the rebelliom, was not altogether mexpecteal. wwing to the fact that the question had heen used as a prolitical ery at the elections. The Dominion (iovermment, therefore being aware of the tronble likely to rasue, should Rial and lepine ine approhomed, took steps to induce the men to leave the combtry. A smon in mey (s), 1;00), was given to each, and, at the solicitation of Bishop T'aché, they departed to the I'nited statess, where they lived for sone time, matil the bitter feeling against then had somewhat subsided. When Riel and Lepme had left the comentry, the l'rovince lapsed onee more into a state of quieturle.

Whild these wents were happening, the section of meml ar lor the Dominion Honse of 'mmons took place, resulting in

 trict of Maryucte, a tio betwern Mr: Amgns Mekily ambly Jexnch.

c. Berevthing being prepared, the tickets may be put into a box, and the Lientemat-Governor shall draw them at random. As drawn, they shall be nmmbered and initialled by the Lieutenant- $i o v e r m o r$, in regular consecutive order, and this land deseribed on a ticket of a certain momber shall go in satisfaction of the cham of corresponding number in the Reyister of Claims, and be entered accordingly.

Claimants of the age of eighteen and over were to receise their patents withont unnceessary delay, and minors on arriving at that age. Recorded clams, when the chamant died before being antitled by ariving the age of eighteen to receive a patent, should be regarded as real estate, and should desceml to the legal survivors of the deceased, aceording to the laws regarding succession to real estate in force in the Province of Manitolat. There was to be no distinction with regarel to sex in making the allotment. This portion of the land regulations, which was merely the detail of applying the provisions of the Manitoba Aet, was hitterly opposed by certain demagognes and thei following, who, mimated by a spirit of insensate higotry, and blind to the equal rights principles, which they elamed as particularly their own, refused to recognize the claims of the Half-Breeds to citizenship, and an equal share in the public domain with their co-citizens, and clanored to revenge on an entire peopte the deplorable aets committed by a few individuals of their race. Fortunately for the somng Dominion, these misguided zealots were powerless to ereate or mould public opinion, and the generons provision made for the Half-Breeds and their children was not only carried out in its original entirety, but as the Goremment gatned knowledge in administering the law, its seope was gradually inereased, and the allotment of lands was
 1 at ranid by the and the all go in the Rey-
oreceive on arriv$t$ died been to reinl shoulil ing to the the Prowith roon of the plying the d by cerated ly a ghts prinn, refused iship, and o-citizens, leplorable

Fortunalots were generous ldren was the Gor, its scope ands was mande to include all the Half-Breeds resident in the NorthIlion Territories at the time of the transler, as well as thos. of Manitola. The mote of distrihution was emsiderably changed from that describeel above, the alterations being made at the repuest of the participants, who desired to have their lambs granted on blor. so that the residents of each parish shond mot he separated from their old frimels and neighthers when they came into possiession of their new holdings. Inthen of drawing their claims by let, the minor members of wach fanily, and cach parish. were gramted patents for two hmulvel aml forty acres of lands, contiguons to each other, while the heads of families were given serip of the face value of ine houdred and sixty acres, which conld be located on any 'flarter section of Deminion lame, open for sale or settlement. The isming of the serip gave rise to a vast amome of specuhation as it was transferable, and was bought from the original whers for trifling smms, zanging from sio upwarls. The caller" of this seeming recklessiness on the part of the HalfBremels is casily explainem. Their habits of life had heen gratly disturbed by the troubles of the two preceding yars. Thuir usual ocempations, trading, Butfalo-hunting, freighting and farming. had been interrupted during that perion of mo certainty and excitement, and when they came to resume then they fomel that a new era hall set in, sweeping from its path all their old-time methorls of life. and leaving them helpless Is the way-side. Traling was ont of the gnestion to those who had neither gook nor nomey, nor credit to procure them, for the system, long in rogne with the Hulson's Bay Company and other merchants of Wimiper, of giving almost unlimited credit to one and all who took ventures to the great flains of the west, was now extended only to a favored few;
the buffalo had been driven to the extreme west, and were getting seareer; freighting, which formerly gave employment to a harge number of men with their horses, oxen and carts, was now done by steamers, flat boats and harges, on the Red River during the season of magation, and in the winter by inppos"l waggons, "prairie schomers," which replaced the "cayuse" and ox-cart: as for farming, it had always heen carried on in a desultory way by tho native population, who regarded it as of secomdary importance compared with the more congenial tasks which we have enumerated, and few depended on aquicolture, per se, as a means of livelihood. So the Half-bmems fomm themselves in aril case, and the temptation of a faw dollars in ready cash easily induced them to part with their newly acquired serips. The discharged voluntects also were Lranted scrip for one humdred and sixty acres, free from conditions of improvement or settlement, and many hastened to dispose of them to speculators. Some of the wealthiest men of Wimnipeg ean trace their first start in life to suceessful trading in Half-Breme amd volunteer serip.

The publication of the land regulations was a canse of satisfaction to the great inajority of the people, but a certain few took advantage of the fact that there were no officials on the ground who possessed anthority to administer the law, and set their minds to work to circumvent the regulations by ignoring their existence and setting up bogus claims, not only to the lands surrounding Winnipeg, hat to portions of the town itself. The Hudson's Bay Company's reserve near Fort Garry was the special object of these land-grabbers' cupidity, and it was speedily dotted with stakes and notice hoards pro(daiming ownership, and warning trespassers and all concerned of the dire consequences that awaited any infringement of the uent to ts, Wias d Kivor innpor"ay"use" al 111 in led it as m"enial on heli-- Brepds li a fur ith their lso were (onli collstenerl to inest men mecersiful

This state of affinirs was terminaterl点 the prompt and determined action of Mr. (iilleret MeVieken, Agent of lominion Samels. who. immerlintely uph him arivial, in (october, 1871, publinherl the following untior in the newspapers, and followed it up by anforenge the perwers contided to him in a way that bronght the "fiere selectons" to their senses. and restored order and contillener in the ernm-munity:-

## No'TICE.

The undersigned gives notice that he has been apperinterl Agent for the lominion Lamels in Mamitoba, and will assmme his daties as soon as convenient oftice-aremmmoration ean be procmed. In the menntime, he wishes the people of Manitoha to molerstand that in the discharee of such rhaties, so fan as devolves upon him, he will carry ont the replirements, ternss. and provisions of the Manitolan Act, as it atfects the phblic lands, in spinit and to the letter-impnetial justice bringextembed to all.

Wimnipeg, 9th Oct., 1871.

On April 2 (ith, 187 , the first bateh of immigrants arivol in Wimmipeg. 'They left their homes in (ontario fome weres previonsly, travelling by rail to st. ('lond. Mimmesota, firom thence by waggons to Fort Abercombe, on the Rad River, and thence, by Hat boat to Wimmipeg. 'Ihe praty consisterl of "ight men, and they cance to Manitoba with the intention of taking up homesteads. At Abercrombic they bomght lumbre and built a Hat boat in arlvance of the opening of mavation. and, having victmalled their craft, waited impationtly for tha lseakinge up of the ice. Immerlintely that open water ap. peared, they lamehed their scow and floated down strean with the ruming ice, having ditioulty with the jama which wore
cacomatered fom time to time, and often having to cat at chamel with their axes. They camper on the river bank (way might, sonmetmes in a show bank, sometimes in wet and mud, of tom soaked with min or half frozen by the shap north winl. As to the lare en ronte, it was excellent. Besides what ther had provided, they eaught fish and shot dheks and prainie chickens, which they saw in great mmbers. The trip cost them abont $\mathbf{s} 60$ each, but on their arrival at Winmiperg they sald their that boat, which measmed 18 ft . $\times 6 \mathrm{ft}$. $\times 2 \mathrm{l}$.t, at the rate of $\$ 70$ per thomsand, the then prevailing price of lumber:*

We sive the particulans of their trip to show the difticultien of travel in those days, and to contrast them with the comparative luxmy enjoyed by the immigrant of to-day, in a ('anadian lacific colonist coach, making the jommey in as many hours as it then took days to aceomplish. With the (pening of mavigation, a steally stream of immigrants began to prom into the new Province, hy stemer, Hathont and wargon. Many drove in their own farm waggons all the way from their eastern homes, but the majority came by mil and hoat. bringing their live stock, farming implements, household effects and hmber for the prairie "shack" with them. Soon the limited accommodation of the Wimipeg hotels and boadding houses was taxed to overtlowing, and the prairie became dotted with the tents of the newcomers, a canvas town appearing to spring up like magic, and intemixed were modern structures. flimsy in character and lecidedly bisarre in arehitectural design, but affording shelter withal, knocked up in marvellonsly puick time. In Angust, the rush had become so great that it was found necessary to provide quarters for a

[^1] eg they ., at the momber.* ficulties lie eoomy, in : $y$ in as lith the. ts hegrin ul wiac lie way rail antl puseholil

few of the immigrants, who were mot so well equip]ed as the magority, and an immigrant sheal was opened in a hoilhinis at the real of Banmatyne and Begra's store, in which several fanmilies were domestiented, while the hushamds amd fathers were away land homting. 'The mlrance gratid of immingants, coming hy way of the United States, experienced eonsidrablole delay and amoyance as well as expense, liom the then existing enstoms requlations. 'This question was prosenterl at the
 by Hon. Henry J. Clarke, Attorney (inneral of Manitoba, ant, throngh his representations, supporterl by the exertions of Hon. J. W. 'Taylor', United States Consul at Wimijere, the Lnited States Govermment was imluced to make such relaxations of the bonding regnlations as greatly facilitated the free transit of settlers' stock and effects between points in Eastern ('anada and Manitoba.

In the smmmer of 1871, a party of yomig men left Winmiper for Edmonton, then misolated Hudson's Bay Post on the North Saskatchewan, attracted to that distant quarter of the North-West by the reports of the rich placer golol-diguings which were known to exist along the river. Settlement was gradually extending westwand, and by midsmmmer of $187 \boldsymbol{2}$, considerable progress hati been made in the Portnge la Prarie district, and in soutlowestern Manitoba. In June, 1878, a delegation of Menonites visited the Province to inform themselves of its resources, and the advantages it afforded to their brethren in Russia, who were anxions to secure homes in sone desirable agricultural country where they would be exempted from military service, such service being contrary to their religious convictions. They were in charge of Mr. Willian Hespeler, Commissioner of Russian Emigration, and Mr. Jacob
T. Shant\%, a Russim fimmer, who had ahealy visited Manitoba, and was favombly impressed with the fertility of the soil aml its matmor capmbititios, which were, as wroll as political institutions, exactly suited to the Memonites. 'Tho' visit was fruitinl of eroel results the therth- West, for shortly niterwards some thousmads of Memomites arrived in Manitola, and established sothements which are at the present day among the richest and most prosperous in the Province. In elosing this ehapter we must refer to the mistaken poliey of the (Eovermment of Cimala in its listribution of Half-Breed lands. The granting of serip in lien of an actual lamd grant was a enrse to the lowince of Manitola, an evil from the effect of which she is still suffering, and which it will takr many years to wipe ont. The Half-hreed reserves. too. Were located in tha heart of the Provinere, alle as these and the scrip were bought up, hespeculatos in the carly days. we tind torlay the choieest lamels of the Povince lying idla. and unproluctive: for the first comers, mable to obtain homesteals near Wimipeg. went farther west, and thas the tile of mmmigration was diverted from Manitohn, and all efforts to stem it has been in vam. Laml owners in the first place lemanded unreasonable prices for their casily-aequired estates and when experience had tanght them the inpracticability of selling at a high figure to men who could obtain free grants by going a few miles farther west, they offered their lands at moderate prices, but the extension of the milways in various directions, afforting facilities for access mad tramport of produce, firustrated their efforts and rendered their accumblations of lands a millstone about their necks.

## ('HAP'IER V'II.

We have reviewed the work acemplished by the Leenishature of Manitoba at its first session, in passing laws for the govemment of the yomgr Province, and we will now emleafor to show the difficulties that were encomentere by the Liontemant-Governor and his alvisers, in their efforts to apply the provisions of the statutes, amd the administration of affairs genemally. The jealonsies and hatreds engembered during the Riel Rebellion were still strong and fresh in the memories of many of the people, and every adrance towards comeiliation was thwarterl by turbulent spirits in the community, who seized upon every passing incident, no matter how trivial, to stir up strife and lister feeling. 'These individuals, many of whom smarted under the sting of disappointed ambition, debarred from participation in the lebates in the Legishature. ared their rhetoric nt mass meetings called by indignant citizens to protest against Govermment ontrages (as every act of the Administration was invariably called in the notices annomeing these assemblies). At these meetings the agitators hoiled over with indignation, and comselled those present to commit every ontrage that malice could prompt or cowardice suggest. Burning in effigy, hooting and threatening members of the Executive and other public functionaries on the streets, violent assaults on, and teven murder of, peaceable Half-

Pironds, werre some of tha "constitntiomal" methends of reform adopted by these malons mocates of oppal righte, law, and order, the secoming and maintaining of whel they dechared tw tre: the sole olijects of thrir never-ceasing efforts.

At the elose of the tirst yan of (ioverner Arehihalifesmbinistration, he amd his eabinet had mate goond progrese in the homobom task which they had set themselves to acemplinh. Thery had restomed comparative peace and order in at comb monity where so lately law had heen sot at defiance, and the doctrine of might over right had prevaled. The ahbinistratiom of fustiee was secomerl by the establishment of comets and all efficient police foree, a system of education establishere, innportant public works initiated, the ligmor thathe was hromght maler control, Indian teachers had been amomed for, Immigration had reerived partienlar attention, and many other matters temding towards the progress amd prosperity of the combtry had heen alvanced a step in the right direction. They had succeeded in laying a fommlation, solid amd substantial, upon which the finture fromework of social mal politieal institutions might le permanently erected, and thongh in some degree their work may sem combe, we must considn the unpopitions elements that smrommed them, and the extremely lifficult chancter of their modertaking. 'Their erpuipment for the task imposed upon them was incomplete, for the Dominion (iovermment, either throngh neyligence or want of a just appreciation of the requirements failed to supplement the Manitoba Act by legishation or regulations which would reader its provisions eflective, and had not even appointed officers to administer the functions of Government which were essentially within the province of the Dominion. Thus, the land department, the customs, the post office,
illımi Hall. $\cdots$

inmigration, the survers, the timber and hay regulations, the Half-Breed grant, and mang other mino mattors, were allow..l to drag from day to day, emusing monsiness mad diseontent amome all classes of the people. The Manitolan Aet became the shibboleth of the pet-honse priticime: it was groterl mul constrind to suit the argmont on contention at hand inn every ocension: its clanses were interpreted to suit the inelimation of asery brawer, till the very mention of it in a pmblic phate whs a seguel fon hasty heparture to corey semsible man within haring. But where the Fordoral (owerment fated in its duty to Danitoln, the Provineial Govermment was expectal te step in and arogate to itself fremes that were warly bevond its scope, mal when, in desperation, or in vain hope of apnasing the makentents, it attempted to medelle in matters fromery the athair of the Dominion, it was smbled by Otta. wa iml denomeed by its comstitments. Govermon Arehibahd and Attomeg-dieneml Clarke were the scapergonts upon whom all the sins of Ottawa, in addition to the more venial limetes of the Provineial Legishature, were latis. They, with the rest of the local eabinet, formed a buffir between the Ottawa administration amd the warring factions of Manitobn, and in the conser of the struggle received an intinity of hard knocks and but semuty recognition of their grool and faithful services.

After his visit to Manitoba, in 1871, Mr. Charles A. Dana, alitor of the New York Sun, wrote the following tribute to ( iovernor Arehibald and Mr. Charke:-
"The Dominion Government were no less judicious in selecting the anthorities of the new Province than in franing its charter. For Lientenant-Governor, they chose Mr. A. (A. Archibald, of Nova Scotia, a man of great dignity, experience, and judgment: and if any remains of disaffection had existed,
 tor? mensmes. hallenl, the omly disallinetion that can now lat

After the close af the session of $\mid$ ast, the hirst matter of genemal importance to Manitoln was the Immigration Conference holl at Ottawa, on isept. Ixth of the same yemr, at which Attorneg-(ieneral Clake represented the Province. His report of the work done, and the action foreshalowed by the Conference, is lengthy, and contains much valuable information. He mged the chams of the Province and the NorthWest on the Ottawa (iovermment as being superior to those of all the other provinces, lior the reason that Manitoba had been left without any ('rown Lands, and that her lands and those of the North-West were to be heavily drawn umon for the

 hin oficial capacity, to prosecute the Fenian prisomess, enptural dming the reent rail. These wrove Gisem L'Etendre, Ambe lerome st. Shter and fanhor Villemenve, indicted for folmionsly and matafly leveing war aranst How Majesty
 and the acepuittal of the other two. L'Etembe was sentenced by the presiding fulge (Iolmson) to be hanged, but the sentence was afterwaris commated to a term of imprisomment.
lmmerliately after the aljomment of the conrt, Le Métix, the owan of the French-cinnadian party, and comblucted by Mr. Joseph Royal, Speaker of the Legishative Assembly, puthlishol in violent attack upon the Attorney-(ienmal, in which he was accused of mofaimess mad partiality in the trials just completent, and Julge Johmson was also assailed, as the following translated extract will show: "L'Etenhe is a poor imbecile who, as the Jutge himself said in pronomeing the sentenee, assuredly did not vealize the mature of the trial that he:
had undergone, nor of the penalty that was charged against him. This, however, had heen established clearly by the defence, but L'Etendre, not being a mahman reguiring to bu tied down, this proof of irresponsibility was set aside by the Judge in a peremptory mamer." This attack on the Attorney(ieneral was the hegiming of a bitter campaign which $L e$ Métis waged against him with the object of destroying his influence with the French Half-Breeds, his loyalty to whose interests had been one of the chicel canses of his mpopularity with the self-styled loyal Cammlian party. The unenviable position which this gentleman oceupied at this particalar time camot be better :llustrated than by mentioning that when the Half-Breed Fenians were bronght up for preliminary hemring before the magistrate's eonrt, a mob of loyatists were in attendance, one of whom earried a rope with which to hang the Attorney-(ieneral if he finled in his duty in ohtaining the commitment for trial of the prisoners. Happily for the equanimity of the crown prosecutor cluring the proceedings, he was not aware of the murlerons intentions of the andience.
(On December 9th, 1871, Honorable Alfred Boyd, Minister of Publie Works, placed his resignation in the hands of the Lien-tenant-Governor, assigning as a reason for his action that he had reason to believe that a feeling prevailed among the English Half-Breed population of the Province, that a representative of their race should have a seat at the Comeil Boarl, and have a share in the govermment of the country at the head of a department. Mr. Boyd's resignation was generally regretted, as he had proved himself a most effieient minister, and had alweys lived up to his pledges " to carry ont to the best of his ability a policy of justice, eoneiliation and fair phay to nil."
rgel against aly by the airing to the aside by the he Attorneyin which Le stroying his Ity to whose anpopularity - menviable rticular time mat when the mary hearing ists were in hich to hang obtaining the for the equapecedings, he of the andi-
a, Minister of of the Lieuction that he gr the English epresentative 1 Bourd, :und $t$ the heal of erally regretminister, and to the best of r phay to all."

Mr: Johu Norguay, destined to hecome such a prominent figure in the atfains of his mative Province, steceeded Mr. Boyd.
The second session of the first Legislature assembled on Iamary lifth, 1872. The session was meventfinl, the most axiting topie of delate being the discnssion of a resolution, introluced by the (iovermant, reprecating the action of the Whtario Legislature in otfering a reward for the apprehension and comviction of the murderess of Thomas Scott. A mionity of the Honse looked upon this action of Ontario as an muwarantable interference with the aftains of Manitoba. The resolution was carried on a division, 18 for, 5 agninst, and it was inmediately followed by the manimons passing of the following resolution, introduced by Hon. 1). A. Smith, which 'mbodied the sense of the Honse on this painfol subject.
"That whereas during the period mtervening between the passing of the Dominion Act and the Temporary Govermment of Rupert's Land mul the North-West Tervitories, when the same shonld be mited to Canada, and the date when the mion actually took place, very serions tronbles oceured in the comntry now known as the Province of Manitoba: and whereas Her Majesty's Imperial Govermment is the only authority competent to deal with this griwe question: and whereas, in the interests of peace and grood order, it is not only desirable, hut requisite, that steps should be taken to settle and set at rest all questions comected with such tronbles: Resolved, therefore, That an humble adherss be jresented to Her Majesty the Queen, praying that Her Majesty would be pleased to command that this House be made nequanted with the action ahready taken, or which it may be Her Majesty's Royal pleasure to take, with the view of sutisfying justice and the best interests of this country."

This resolution contained the very marow of the seot case. Manitola had no existence: in fact, when the offencer was committed, Camalats jurisoliction had not been established, Riel's Provisional Govermment was amenable to (ireat Britain only, and the haperial dowemment was the popar and sole anthority to pmish or comdone the acts committed by or in the name of the Provisional (iovorment.

Ontarios sote of 85,000 for the comsiction of Riel, at al., recalled to the people of Manitoha mother sonoon, woted by the Ontario Lacislature for the melief of the Half-Breets dming the fanine in Ruperts Land in 186s. Acting in the faith that the ss, 000 woted womld be paid, the Hudson's Bay ( $o m-$ pany advaneed the amomit to the suffering people, hat the Ontario (iovermment never paid the moner and the compan: wore ont of pocket that amomet in adition to the generous sum which they had volmatarily sulseribed.

The Hon. Mare A. (iiand, who hell the portfolio of the Prowincial Treasmer in the Clarke eabinct, was called to the Senate of C'anala, and in conseguence resigned on April 14th. 1872. As shown in a previous chapter, he was replaced by the Honorable 'Thomas Howard, who had heren Provincial Sece retary, and the secretaryship was accepted hy Honomble Joseph Royal, who had been Speaker of the Leqiskature sine its organation. Early in 1872 it was rmmorel that Lienten-ant-Governor Archibald was about to resign, amd in April his resignation was semi-ofticially amomeed, hat he remained in office till October, when Honomale Alexander Morris, who wat sworn in as Chief Justice on Angust 14th, was appointed Administrator of the Govermment, and Mr. Arehibald left the Province. Shortly alterwords, Mr. Morris resigned the Chinf Justiceship and took office as Lientenant-Governor.

When it beeme gempally anderstool that (Gowrnor Arehihald had resigned, the "rgual-rights-latw-and-order" party asabuhhed on the main street of Wimipeg om might (Aperil 2th), and burnt an effigy of the (iovernor with ceremonies apmeriate to the solemm occasion. Tha respectable prep peof the commonity, much incensed at this insule to a mentloman whom they ristemed mod respecterl, and considering the act a hat on the fair fane of the Province, immentately prepared the following mbless. which was presented to the (fovemor, in Emolish and Fronch. with eighteen homberl names shbserithed.
 ant-Governor of Manitoba, etc., ete.
May it please your Excellency :
We, the subjects of Her Majesty, resident in Manitoba, beg leave most sincerely to ofler you, on the oceasion of your departure from the Pror nee, our most sineere congratulations on the fair, able and impartial maner in which you have moministered th, very arduous and onerous duties devolving upon you as Governor of this Prowince. We beg leave to assure you that on leaving us yon carry with you the esteem of all gomd and loyal men. Your policy, as we view it, has been in the highest legre e successful in securing peace and prosperity in the Province, and your statesmanlike action has resulted in bringing about a state of matters whieh could hardly have been anticipated.

Whilst many of your aets and motions have been misrepresented ind andenmed for party purposes by a certain section of the press and people of the other Provinces in the Dominion, we, who have had the oprortunity of realizing from day to day the result of your policy, aul who from experience can emmpre the present comparatively hapy and prosperons s'ate of the conntry, with the state of confusion it was in when you arrived in our midst, can only assure Your Homor that the Dominion of Camadia owes you a deep debt of gratitude for the unceasing labor and untiring care with which you have crowned your pulicy with success.

Trusting that Your Houor, with Mis. Archibald, when yon return home, will meet your fanily in good health, and that you will be long spared to be useful in my sphere to which you may be appointed, is the carnest wish of the undersigned.

To show that the misrepresention and abse to which Governor Arehibald was subjected by his enemies in Manitola and Fastern Camala, were deprecated by the highest mod most impartial anthority in the Dominion, we quote the following from the speech of Lord Lisgrar, the Governor-Genem of Canala, at a bampuet given to him in Montreal. In speaking of the events following the Rebellion, His Excellency said: "Much praise is due to the Lientenant-Govemor, Mr. Archilald, for the legal attamments, the mwearied industry, and the fine temper which he brought to bear on the diffienlties he had to rnermater. He literally enconntered the willemess, but he has clearel the forest amb taken out the stmops. Whoever snceeds him, for I hear Mr. Arehiball wishes to lease, with views and objects of his own, will have an casy task. He will (niter upon the results of another man's intelligent labors, and will not, probably, have more obstacles in his way than aro found in the older settled Provinees. 'To earry on the agrieultmal simile, he will only have to cultivate the cleared farm on ordinary known prineiples, and with a proper rotation of "roms."

The question of a successor to Governor Archibald was a sulyect of much discossion and conjecture. Judge Johnson. who, while holding the office of Judge of the (ieneral Ouarterly Court of Quebec, hat been appointed Governor of Manitoba, but the legality of the appointment being male the subject of a motion of censure in the Dominion Parlimment-as it was contender that the appointment as Governor was illegal until his Julqeship had been cancelled-his commission was withdrawn. His appointment as Governor would have been popular with the old settlers, as he was well known to them in his capacity of Recorder and Judge, and was highly esteemed for
h (Govanitolan nil most Howing of Canking of : "Much mald, for the find e hard to, . but he Whoever we, with He will bors, and than ate ayriculfarm on ation of
d was: a Johnson. marterly Lanitoba, whiject of is it was ral until as withen popum in his cmed for
his courtesy and social grod qualities, which he possessed in a high degree. He bude farewell to the lrovince after the close of the General Con't on May 29th, 1872. Several names were mentioned as probable appointees, but the office of Governor of Manitoba appeared to go abegring for some time, the vicissitudes of the position, as illustrated during Mr. Arehilald's career, deterring even the most havdened place-hmoter from essaying it. It is a well known fact that Chief Justice Morris hesitated a long time hefore aceepting the position.
'The Dominion general elections of 1872 were hotly contested in Manitolm. In Selkirk, Hon. Donald A. Smith was opposed by Mr. A. E. Wilson, who, however, receivel only 62 votes. Marguette returned Mr. Robert C'mominghan, editor of The Munitohum, defeating Dr: J. S. Lyuch and Hon. John Norquay: In Lisgar, D)r. Schultz was re-elected, Mr. Hay opposing him. In Provencher, Sir George E. Cartier, who had been defeated in Montreal East, was returned by acelamation, Attorney-General Clarke and Louis Riel having retired in his favor. Election day in Wimnipeg was marked by riot and disorder: Mr. Wilson's supporters, aided by a number of roughs, set ont to intimidate those of Mr. Sinith, and from the opening of the polls the day was a contimons series of fights and attempts to capture the poll books. At St. Boniface, pistols and axe-handles were freely used on Mr. Smith's friomls, though fortunately no serions injuries were inflieted. In the afternoon it was found necessary to call out the militia to defend the poll in Wimnipeg, the small police force being powerless to deal with the rioters. Ciaptain De Plainval, chief of police, was severely handled, and serionsly wounded in his efforts to preserve the peace, and others of the force were injured more or less severely in the performance of their
daty. The day's outrages cmbinated in the destruction of the printing ottices of Ther Manitolun and Le Métis, upon which the mob, vented theeir rage in vindication of their rights as free-bom Britons.

In danuary, 1873, the Gemedu licertte ammomed the appointment of the North-West Comeil, the first step in extending the functions of Govermment to the Territories. The Lientenant- (iovernor of Manitoba was delegated to smervise the affairs ol the North-West, assisted by a comeil compored of the following: Hom. M. A. (iiraml, Hon. Donalal A simith. Hon. Henry J. Clarke, Hon. Patriee Breland, Hon. Alfred Boyd. Messis. John Schultz, Joseph Dabuc, Andrew (i. B. Bammatyne, Willian Frazer, Robert Hamilon and Willian J. ('luristic.

Early in 187:3, the cry of "Better Terms" became a wotehword with Manitobans. It was contended ly the press that the subsidy granted to the Province on ber admission to eon federation was insutficient to carry on the grevemment, and that the time had come for a re-aljustment. On the assemsbling of the Legislature, the question was brought before the House by Mr: John H. Me'Tavish, member for St. Ame, and his introduction of the sulject gave rise to lively delate, the tenor of which denoted a unanimity of opinion that better terms should be demamled. Juring the course of the deloate. the Dominion (Govermment was criticized for its dilatory policy in regard to the administration of the Crown Lamds, it a neglect of immigration, ant the niggardly maner in which it dealt with Manitoba in the items of public woriss ant buildings. It was alleger that the ammal subsidy, 867,000 , was " not enough to pay the expenses of ruming a respectable seaside hotel." The statement, often repebted in the Doninion
 It was unfinir to charge Manitolat with the cost of the whold Sorth-West, and, ats Attomer-(ienemal Clanke said in the: comse of his spereh, "if the statement were mate in geret fath, it proved the ignomane of those who made it, of the whole matter. Let ns see what C'marla has really secomed by

 of the world, over which shatl teem into her entfers the tre:sares of two hemispheres, amb rember her in coming pears the sorerign mbitrator among the most pererfal mations if the
 Sonth-West Torritory! I ventme to saly, moremillime than the C'mata lacitic Railway will cont. Comala may well forl prant of her bargain: she has half a continent for the price of an ordinary coal mine, or of an buglish mohbmans estate." 'Than result of the relaite was the rmborkiment of the lollowing clanse in the report of the Public Aceomens Committer: "Yone fommittee strongly recommend that the Govemment be regrested to infopt such measmes as they may deem best for the purpose of meging on the (iovermment of ('marlat the nereasities of the position of the l'rovince, and to alopt such measures ats may hest tend to secure an ammentation to thar present sulusidy, and also the fulfilment of all promises. made to this Province presions to the transfer:" hamediately after prorogation. Honomble Messis. Clarke. Howand, Royal and Bird visited Ottawa to lay before the Govermment the requirements of the Province for an incrass: of subsidy, and an extension of the speeial four per eant. laties on goors imported into Manitoba. The latter reghest was granted by a continuance of the special rate matil July, 1874.

The better terms asked for by the Manitobn delergates wer vohminously set forth in a memomalum submitted to the Dominion (avemment, from which we present the following extracts:

1. The change the terns of the finameial arangements entered into between Manitola : ond the Dominion of Camala, ly taking for the base of the ammal Dominion subsidy the number of the pepmbition of Mmitobn at in estimate of 70,000 , and to be allowed the interest at the rate of $\vdots$
 ment and Levislature the ammal sum of $\$ 60,6 \%$.
2. The commence immediately to puilh furward as puickly as possible the comatruction of the Public Builtings of the Provinee, to wit: Parliament Honse, residence of the Lientenant-linsernor, the Departmental oftices. fre Conts of dustice, Prisons, Penitentiary, mil to provide for the ereetion of a Proxincial lihary.
3. Tu orgamize, equip, and send to Minitoha, a booly of well mul care-fully-chasen momed Dominion I'olice, wer whieh the Government of Manitela wombldave control while stationed in the Provinee ; the number to be stationed at all times in the l'owince not to be less than fifty. part of the expenses for the maintenance and sumpert of the said number being defrayed by the Prowince.
4 To pastpone the C'madian 'lariff, except on spirituous lifuors, until railroul communication with Lake Superin, through Canadian tervitory. is cestablisherd.
4. Tu lave the free carriage for immigrants over the Dawson Road from the purt of Collingwonl to Fort (iarry, amd the extension of the said romd to the western loundary of the Province adjoining the North- West territories, and the mantenance of the same.
(i. 'To provide for the creation of a tribunal in Manitoba to settle all fuestions as to claims for occupancy of lands, the issue of patents for land, and all contlicting elaims to Crown lands and questions of like chitracter, in pursuance of the letter and spirit of the Manitoba Act.
5. To provide inmediately for the appontment of Immigration Agents, in the Province, and at Duluth, Collingwood, Windsor, Sault Ste. Marie, and in Europe.
6. To provide for a fair and just eompensation for the damuges ilone to several printing oftices in September, 1872, during the Dominion election riots.
7. To appoint a Chief Justice for the Province.
8. Tu provide, as soon as possible, for the extension and improvement of the postal service in the Province of Manitoba.

March 31, 1873.

On April 2th following, the drlegates presenter a further memommdmon relating to the extension of the bommdaries of the Province. 'I'he extension nsked for rmbraced all the tervitory inchuded within the following lines:- (ommencing at a point whore the western loumlary of the Provine of ( )ntario intersects the bommeny line between the Eniterl states of Amerien and the lominion of C'manda, thence dhe north along the suid western bomblary of the liovince of Ontario to Madwons Bay, thence north-westerly nomog the shore of the said Bny to the parallel of sixty den'ees morth latitnole, to the meridian of one hmolred dearers west of Greenwich, thence
 west longitnde to the bommlary line lietween the l nited states of America and the lominion of ('anala, and thence easterly along the said hommary line between the linited states of America and the lominion of Cimma to the place of begimming.

The proposed extension wonld have given the l'rovince an area of nhout 297,000 square miles, or about $178,700,000$ atres, equal to the combined area of ( hntario mad Quebec, mal more than twenty-five times larger than the original Province of Manituba. It would have given her a seaport on Holson's Bay, and a lakeport on Lake Superior, besites bringing her in tonch with the eastern Provinces, from which she was separated by the vast region lying hetween her eastern bommlary and Ontario. The memorandmon further asked, shonlif the extension be granted:

1. That the population of Manitoba, when extended, shall he taken at 200,000 , to be the basis of the same financial arrangements as provided by the Manitobir Act.
2. That the sum of $\$ 90,000$ be paid yearly by the Dominion Government to the Province, for the support of the Govermment and Legislature.
3. That the Province be representerl by eight members in the Honse of

Commons, and by tive in the Nenate; the new electomal districts to be de. lineated by the Lientenant-fiowernor-in-Conncil of Manitoba, and the elections for the satid districts to take phace and be regolated acenmling $\mathrm{f}_{\mathrm{o}}$ the instructions received fom the Govermment of Canmala.
4. The Dawson Romd, bring the principal inlet from Comalian tervitory
 the lominion Govermment, and be maintained mad improved by the said (iovermment.
5. That the recommendations contaned in the memomadnm of the 31 st March, especially those with regatel to the Provincial Public Works, the police, the taritl, and the improvement of the postal service, may be mado applicable cartix anfroliv to Manitoba when enlarged.
'These regolations were intermpted and delayed by the dre fate of the Macelomalif ('abinet on the " Pacitic Scamenal."

Namy important laws were passeal hy the Legislatme at itseconl session, among which may be mentioned the Controvarem Elections Act, which provided for the trinls of contested racetions he the jurlges, instead of by a committee of liare liamont. Manitolan was the first of the Provinces of Camala to alopt this measume, and her example was shottly followed by the others. The close of the session was made memorablo by the commission of mother aet of vanlalism, for which at that tine Manitoba was becoming notorions. I hill for the incorpmation of Winnipers had been reported to the Legistirtive Assembly by the Legislative Comeil, with eertain anmendments which the Speaker of the Honse, Dr. Curtis J. Birt. hald to be unconstitutional, and he therefore ruled the bill ont of orfer, and it was thrown out. For this ruling the Speaker was inluced to leave his house at two oclock at night, to visit a patient, and, while hastening to the residence of the supposed sick person, he was waylaid, kicked, and beaten into insensibility, and otherwise maltreatel. Great indignation was expressed at this ontrage to common deeency, and the Government offered a reward of $\$ 1,000$ for the conviction of the perpetrators, but they were never brought to justice.
to be de mind the ming territory fenent of the sain f the 31 st irks, the be mall the dro l." we at it-Contro-contestof ParCamaln followerd emoralo which at for the. Legislitamend. J. Birl. e bill out Speakir t , to visit supposed insensiI was ex-Governthe per-
 angat loss to Manitolan mul the North-Wiest. He was the laithonl frime and mbocnte of the rights and interests of the perphe of the North-Wient, and his demise cmased a delay in arming out several monsures of importance which he had antimed, and was emaged in perfecting at the time of his buber called nway:

 manamers came from Hooreheal, Fargo, and other campis on the line of the Northem lacitic milway, then being constructin through Minnesota mal Datotn. Their arival was followad by a series of hurghares mol highway rohberies, hat their "perations wome promptly checked lye anthomities, and the sovere sentences intlicted upon those of them who were brombt to justice, acted as a deterrent to their fellows, who hastened to leave a combry where their persomal liberties were jeopardized.

I remarkable case of attempter abduction created great exditement in Manitoba about this time. A man named Gordon, and commonly known as Lord Gordon, was forcibly seized, aml taken from the residence of Hon. James Mekay, whose grest be was at the time, and hurvied towards the United states boundary, by two Ameriems, nmed Wichael Hoy and Wwen Kergan, on the night of July I, 1873. The muthorities were apprised of the affiar, and the Kidnappers and their victim were stopped before reaching the Intermatiom bommary: and brought back to Wimnipeg, where the offenders and eertain of their accomplices were lotged in jail. The prisoners were Michael Hoy, Owen Keegran, Loren Fleteher, (i. W. Mer-
rima, und L. R. Bentley. Fletcher and Merimo were promin. ent in bosiness and polities in Minnesota, mel their mosest cmused intense excitement mud indigmation in St. Panl. the pess threntening to send an armed force to their resene. Gordon had heen mrosted in New York a yenr previons to the attempteal kidnapping, at the instance of Jay Gould, with whom he had had considerable litigation with respect to the ownership of some S2.000,000 worth of Erie Railway stock. H. was imiled in the smon of $\mathbf{s} 37,000$, to appenr when callend upen by the Supreme (ourt of the State of New York, to maswer any order of jurlement of the eomrt. His residence in a foreign comatry. mul refinsal to a mder himself momble to the proeess of the comrt, had remered his hat eschentable, and his homlsmen had commissioned Hoy and Keegan to abs. duct him: Morrian, Fletcher, Bentley, and others, 口ppar to have neted in the enpucity of amicii curne. 'The loenl excitement cansed be the armost mal examination of the prismers, was intensified by the cireulation of all kinds of rumors. It was alleged that the prisomers friends had bribed Attorney. General Clarke, and that the prosecution would be burked be him, while others were equally positive that the AttomeyGeneral had been retained by (iordon, and that the prisomers were being persecuted in consequence. The prisoners were defended by the entire Bar of the Province, with the exception of the Attorney-General and Mr. Francis Evans Cornish, who watched the proceedings in Gordon's interest. The Beneh did not escape in the general criticism of the case, which was freely indulged in by press and people, as will be seen by the following reproduction of an extra,* published by the Nor'-Wester:-
"The Nor'H'ester repuliated the publication of the offensive Hy-shect, allecing that it was a piece of job work ordered by persons not connected with the paper.

## MGAIN,

filis may mean notiong, but we shall see. CANADIANS, he on the abert for the hesulit: GOI) SAVE THE QUEEN:

The prisoners were all committed for trinl (bill being refusen), on July 2:3rd, und were indicted at the term of the Comrt of the Queen's Bench, helld on September 20th, 1873, where true bills were found against them. Aeting on advice of ('oumsel, Hoy, Keegron and Bentley pleaded guilty, and the presiling julge, Hon. Lewis Betommay, after reviewing the case and the extenuating circumstances smromoding it, sentenced them to 24 hours imprisomment. Mr. Fleteher was admitted to bail, and in Mr. Merrian's case, a nolle prosequi was entercd. A remarkable fact in connection with this famons incilent was, that Gordon was indicted at the smme assizes as his would-be abductors, on charges of laceny, forgery and perjury. The unfortunate man was never tried on these charges, as the trials were postponed, and in the interval the aceused had committed suicide.

On Thesday, Sept. 23rd, Ambroise D. Lepine, ex-Adjutant(ieneral of the Provisional Government, was brought before

Justice Betournay and Gilbert MeMicken, Escp, sitting as Police Magistrates, upon the charge, that he did, on the 4th day of Mareh, 1870, kill and murder one Thomas Seott, at Fort (iarry. Francis E. Cornish and Willian B. Thibandean appeared for the prosecution, and Honorable Joseph Royal, Hon. Joseph Dubuc mid Hon. Mare A. Girard for the defence. The eomsel for the acensed raised the question of jurisdiction, contending that the power to deal with the case lay with the Imperial Govermment, and that neither the lominion noi the Province of Manitoba had any anthority to try it. 'The objece tion was overruled by Justice Betourmay, who ruled that the proper time to raise the question was at the trial of the prisoner, should a case for commitment be found against him. The preliminary examination oceupied several days, nut resulted in the prisoner being committed for triai.

While Lepine was mulergoing examination, on a charge of murder, his chief, Louis Riel, was elected by acelamation is member of the House of Commons for Provencher, the seat having been left vacant by the death of sir Ceorge E. Carticr. Various motives were assigned for this action on the part of Riel's friends, the most phansible being a desire on their part to strengthen his position in combatting the charge of murder which hang over him, but, whatever the motive, the step was most ill-alvised, its immediate effect being an aggravation of the feeling of hostility entertained towards him, both in Manitoba and the Eastern Provinces.

Shortly alter Mr. Joseph Royal became a member of the Govermment, there were rumors of internal dissensions among its members. These rumors were vague and unspecific, but the fact protruded itself from time to time, that something. far removed from hamony of purpose animated certan mem- scott, at baude:an h Royal. detence. isdiction, with the n now the the objureI that the the prisrinst him. s , aml recinarge of nuation as rr, the seat E. Cartior: the part of their part of murler fe step was ravation of th in Main-
beer of the ons amung precifie, lut something. rtain mell-

Iners in their mutual relations. Mr. Royal aired his views in Lo Métis, which was generally accredited as his organ, and that journal took frepuent oceasion to critieize and impugn the actions of Mr. Clarke. The latter found a defender in the Manitoha, Grasette, which was popularly believed to be published in his interests, and its colmmens heeame the medium through which the insinuations and charges of Le Métis were eontradieted and discerelited, by comuterbhasts, in which Mr. Royal was severely hamlled. This skirmishing was enrried on for a long time, inereasing in litterness as it progressed, till a culmination was reached, on the floor of the House, during the fourth session of the first purliment (on Nov. 8th, 1873), during the debate on a redistributica bill, by which Mr. Clarke had contemplated giving the English-speaking people of the Provinee increasel representation. Mr. Royal, although a member of the Govermment, led the French members in opposing the bill, a govermment measure, but his effort to oust his collengue and rival was frustrated on that oceasion by the members of the Opposition who voted for the bill, which was yuite acceptable to them. The Redistribution Act and an Aet to provide for the enlargement of the boundaries of Manitola. were the more importmit measures which passed the House at this session. The House adjourned on Nov. 8th, 1873, to reassemble on February 5th, 1874.

In the interim, another election for members of the House of Commons took phace, consequent upon the resigmation of the Maclonald Cabinet, and the accession to power of the Hon. Alexander Mackenzie. Manitoba returned the following members: Selkirk, Hon. Dounld A. Smith, who defeated A. G. B. Bamatyne ; Lisgar, Dr. John C. Schultz, defeating E. H. G. G. Hay; Marquette, Robert Cumningham, defeating Joseph Ryan : Provencher, Louis Riel, defeating Joseph Hamelin.

On Feb. 24, 1874, the Grangers, a secret political society, was formed in Wimipeg, which was destined to take a leading part in the affairs of the country; its ostensible object being to oppose monopolies of all kinds, but as none existed in Manitoba at that time, which a political organization could uffect, the public awaited developments of the society's real intentions and purposes. The Grangers had not long to wait for their opportunity, for a chance to show their hand in the game of local polities was soon afforded. R. A. Davis, hotelkeeper, was put forward by them as a candidate for Winnipeg against Alexander McMicken, and was returned by a majority of 46 . The Legislature re-assembled on July 2nd, 1874, the adjournment having been extended to that date. The Attorney-General amounced that the re-distribution bill passed at the former part of the session was based on the supposition that the surveys extended across the Settlement Belt on the main rivers, and as such was found not to be the case. the Government had prepared a new bill by which they hoperl to secure to all classes of the population a fair and equitable representation in the House. On the following day, Mr. Hay, member for St. Andrews, moved, seconderl by Mr. Joseph Dubuc, "That this House has no confidence in the present Government." A lengthy and exciting debate followed, in which Messrs. Duluc, Hay and Davis supported the motion in speeches which were more or less personal attacks upon Mr. Clarke. Hon. John Norquay was the only member of the cabinet, beside Mr. Clarke, who defended the Government's position, and the motion carried on the following division: Yeas:-Bird, Burke, Beauchemin, Davis, Dubuc, Delorme, Girard, Hay, Lemay, McKay, Mc'Tavish, Sutherland, Schmidt and Spence. Nays:-Bunn, Clarke, Cunningham, Howard, Ir. Hay Joseph present wed, in otion in pon Mr. of the 'mment's livision : Delorme, Schmidt Howard,

Norquay and Royal. The Clarke Govermment resigned immediately after the announcement of the adverse vote, and a new Ministry was formed composed of :

Hon. M. A. Girard, Secretary and Premier.
" James McKay, President of the Council.
" E. H. G. G. Hay, Agriculture and Public Works.
" R. A. Davis, Treasurer.
" Joseph Dubuc, Attorney-General.
" Francis Ogletree, without portfolio.
One of the first acts of the new Ministry was to present a report of the reply of the Dominion Govermment to the " Better Terms" demands. The request for enlarged boundaries could not be entertained. Instead of granting an increase of subsidy, or re-adjusting the basis upon which such subsirly was granted, a sum of $\$ 25,000$ was advanced to meet pressing requirements, which was made to inchade $\$ 10,000$ adranced for seed wheat to settlers whose crops had been destroyed by grasshoppers in 1872-3. The requests for public Provincial huildings and a library were refused. With regard to damages to printing offices, the Dominion was in no way responsible, and refused to entertain the demand. The items of Mounted Police, Chief Justice, Dawson Road, Indians, Railway to Pembina and Lake Superior, Land Clains, Postal Service and Immigration had been or were in course of being attendel to. The Honse was prorogued on July 22nd, 1874.

## CHAPTER VIII.

INDIAN TREATIES, NUMBERS THREE, FOUR, FIVE, SIX, AN] SEVEN.

As already shown in a previous chapter, the Ojibbeway Indians were not ready, in 1871 and 1872, for the making of a treaty, and it was not until 1873 that arrangements were concluded with them. It was of great importance that these Indians should be treated with, in order to secure the safe passage of immigrants and goods, via the "Dawson Route," extending from Prince Arthur's Landing, on Lake Superior, to the north-west angle of the Lake of the Woods, which was then being opened up. Mr. Wemyss M. Simpson, soon after the conclusion of 'Treaty No. 2, resigned the position of Contmissioner of Indian affairs, and Mr. J. A. N. Provencher was appointed in his place. In 1873, Hon. Alexander Morris, who had succeeded Hon. Adams G. Archibald as Lieutenant-Governor of Manitoba and the North-West Territories, was commissioned by the Dominion Govermment, in conjunction with Mr. Provencher and Mr. S. J. Dawson, to negotiate a treaty with the Ojibbeways, and accordingly they met these Indians in the end of September. It appears that the Indians desired the meeting to take place at Fort Francis, but this the Commissioners would not agree to, and the north-west angle of the Lake of the Woods was the spot selected. LieutenantGovernor Morris and Messirs. Provencher and Dawson, accom-
panied by Mr. Pether and Mr. St. John, arrived at the Lake of t!e Woorls on the 25th September, but as all the Indians were not assembled, the treaty-making was postponed until the 30th. On that day the various bands met the Commissioners, but, owing to jealousies and divisions amongst themselves, no headway was made for some time after the opening of negotiations. The demands of some of the Indians were exorbit- ere conhese Inthe safe ute," exerior, to ich was on after of Conher was ris, who mit-Govas comon with a treaty hese InIndians this the est angle utenant, accom- ant, and they complained that they liad not been paid for the wood used in building the steamers on the Lake of the Woods, or for the use of the Dawson route itself. Mr. Dawson, however, denied having made any promises in regard to the road, as he had always asserted a common right to the use of the woor and the waterway. Excessive demands were next made for money payments, and it looked as if the Commissioners would have to return to Fort Garry without being able to conclude a treaty, when the chief of the Lae Seul band stepped forward to speak. He stated that he represented four hundred people in the north : that they wished a treaty, and desired a school-master to be sent them to teach their children the knowledge of the white man. He also said that as they had begun to cultivate the soil, and were growiing potatoes and Indian corn, they wished other grain for seed, and some agricultural implements and cattle. The attitude of the Lac Seul chief, which displayed much good sense and moral courage, served to braak the barrier between the other Indians and the Commissioners, and the result was a grand comncil among all the assembled bands, which was attended by Hon. James MeKay, Charles Nolin, and Pierre Lavaillier. Messrs. Provencher and St. John also attended the council of chiefs, and it finally resulted in a renewal of negotiations, and a prospeet of terms being arranged, although some fresh demands
of an extraordinary nature were made by the Indians. They wanted a new suit of clothes and fifty dollars ammally for ench chicf, free passes over the Camadian Pacitic Railway, when built, and that no ". fire water" should be sold on their reserves, the latter demand being agreed to by the Commissioners. 'They asked that they should not be sent to war for the Queen: that they should have power to put off turbulent men from their reserves, and they wished to know whether any mines found on their land would belong to then, and, finally, they wanted to include in the treaty some American Indians belonging to their tribe. These, and a number of other demands and questions being disposed of by the Commissioners, who remaised firm in regarl to the terms offered by them for a treaty, the conference finally came to a close, and Treaty No. 3, as it appears in the Appendix to this volmme, was agreed to. Hon. Jas. Makay having rad the arreement, and explained it fully, the docmment was signed by the Commissioners, and afterwarls by the Chiefs present. In the negotiations which took place, Messrs. McKay, Lavaillier, and Nolin rendered valuable service in bringing dhem to a successfinl termination, for which they received the thanks of the Commissioners.

The boundaries of the lands ceded by this treaty began at the north-west angle eastward, taking in all the Lake of the Woods, including White Fish Bay, Rat Portage, and north to White Dog, in English River: up English River to Lae Seul, and then south-east to Lake Nepigon, westwarl to Rainy River, and down it to Lake of the Woors, and up nemly to Lae des Mille Laes; then, beginning at the 49th parallel, to White Mouth River; thence down it to the north, along the eastern boundary of the land ceded in 1871, the whole embracing an area of $55,000 \mathrm{sq}$ pare miles. The number of In-

Thes ally for ailway, on their nissionfor the nt men rer any finally, Indians her desioners, hem for aty No. reed to. ainel it ors, and s which condered imation, rs.

Rainy arly to allel, to ong the ole emof In -
dians in the territory covered by the treaty was estimated at $1+,(000)$, livided into the following bands:

North-West Angle—White Fish Bay, or Lake of the Woods. Rat Portage-Sha-bas-Kang, or Grassy Narrows.
Lake Senl.
Rany River-Rainy Lake.
Beyond Kettle Falls, southwad-Eagle Lake.
Nepigron-Shoal Lake.
At the close of the treaty negotiations, the ehief speaker, Mawe-do-pe-mais, aldressed the Lientenant-Governor and Commisioners as follows:
"Now you see me stand before you all: what has been done here to-day, has been done openly before the (ireat spirit, and hefore the nation, and I hope I may never hear any one say that this treaty has heen done secretly; and now, in elosing this comed, I take off my glove, and, in giving you my hand, I deliver over my birthright and lands: and, in taking your hame, I hold fast all the promises you have made, and I hope they will last as long as the sm rises and the water flows, as you have said."
The payments were made the following day, and so was closed a treaty whereby a territory of great importance to Canada was enabled to be opened up-a wide extent of fertile lands and great mineral resources.
The next treaty, or umber four, was mate at the Qu'Aprpelle Lakes, in the North-West 'Territories. The Indians treated with were a portion of the Cree and Salteanx Tribes, and under its operations abont 75,000 square miles of territory were surrendered. In 1871, Major Butler, who the previous year, hat aceompanied the Wolseley expedition, was sent by the Government of Canada into the North-West Terri-
tories to examine and report upon the state of atfiniss there. He reported to Lientenant-(iovernor Archibald that "law anl order are wholly unknown in the region of the Saskatchewan, inasmuch as the country is without any executive organization, and destitnte of any means of enforcing the law."

The Dominion Govermment then placed the North-West 'Territories under the rule of a Lieutentant-Governor and Conncil, the Lientenant-Governor of Manitoha being ex-officio Govemor of the 'Territories. 'This Council passed several useful measures, amongst others, a prohibitary hignor law, and made a number of valuable suggestions to the authorities at Ottawa. 'Treaties with the Indians at Fort Qu'Appelle, Carlton, and Pitt, were recommended, and, accordingly, a commission was issued to Lieutenant-Governor Morris, Hon. David Laird, then Minister of the Interior, and Mr. W. J. Christie, a retired factor of the Hudson's Bay Company, to effect a treaty with the plain Indiuns, Crees and Chippawas, who inhahited the country around Qu'Appelle.

In pursuance of this object, the Commissioners left Fort Garry in August, 1874, accompanied by an escort of militia under command of Lieut.-Col. Osborne Sinith, and arrived at Qu'Appelle on the 8th September. Here, as at the Lake of the Woods, the demands of the Indians were fomm to be exorbitant and extraordinary, one being that the $£ 300,000$ paid to the Hurlson's Bay Company should be paid to them. It was quite evide.t from the nature of some of the claims presented by the tribes that they were being ill-adrised by some parties for a purpose; but the firmness of the Commissioners and the grood offices of the Half-Breeds, French and English, who were present at the treaties, overcame these difficulties, and on each occasion, when a treaty was signed, it was done willingly by the chiefs of the various tribes.

The greatest difficulty during the negotiations at Qu'Appelle was experienced with the Saultemx, who endeavored to keep back the Crees from coming to an agreement. Indeed, at ond time it looked as if war wonld hreak out between the two trilhes, as the Sanltemux conducted themselves in a most disorderly manner in their efforts to intimidate the other Indians. The presence of the militin, however, served to prevent montbreak, and, finally, on the 1 ath September, the ('rees resolved to treat with the Commissioners independently, and this brought the Sanlteanx to terms. On the afternoon of the 15th, all the chiefs present at the meeting agreed to sign the treaty after finding that the proposals of the Commissioners, as presented to them, were final. The terms agreed upon, and which the Indians accepterl, were the same as those granted at the North-West Angle Treaty: On the 16ith September, the payments were made, and on the 17 th the Commissioners proceeded to Fert Ellice where a supplementary treaty was effected with a band of Sanlteaux Indians who had not been present at Qu'Appelle.

It was now fount that certain verbal promises were made to the Indians when treaties one and two were made which were not included in the written text. A memorantum of the promises was afterwards found attachel to the treaty, and the Government at Ottawa deeided to cmry them out. The following is the memormelum in question:

Memorandum of things outside of the treaty which were promised at the treaty at the Lower Fort, signed the 3rd day of August, A.D., 1871.
For each chief that signed the treaty, a dress distinguishing him as a chief. For braves and for councillors of each chief a dress, it being sup. posed that the braves and councillors will be two for each chief. For each chief, except Yellow Quill, a buggy. For the braves and councillors of each chief, exoept Yellow Quill, a buggy.

In lien of a yoke of oxen for each reserve, a bull for each, and a cow for
each chief; a bas for each reserve, and a sow for each chief, and a male aul female of each kind of animal raised by farmers; those when the $\ln$. dians are jrepmred to receive them.

A plow and a harrow for ench sottler cultivating the ground. These mimals and their issue to lo govermment property, hut to be allowed for the use of the Indians under the superintendance and control of the Indinn Commissioner. Tho buggies to he the property of the Indians to whom they are given. The above contains an inventory of the terms concluced with the Indians
Wemyne M. Simison,
Molynece St. Jons,
A. G. Aremibala,
Jas. McKay.

It was then recided that a revision of tronties mambers one and two should be effected, which raised the ammities from three to five dollars, and gave an ammal smof twenty dolla's to ench chief and headnm, nllowing four of the latter to ench hand, on the distinct moderstanding that my lodim necepting the inerensed payment, would therely abmion all claims nginst the Government in eomection with verbal pronises, other than those recognized by the treaty and the memorandum quoted above.

Lientemat-Governor Morris and Commissioner Provencher, in compmy with Hon. James MeKny succeeded in effecting the new armugements, and the revised treaties were agreed to, hat the Indians at Portage harie Puder Yollow Quill contimed to be troublesome. They had been grantel ly treaty number one, preferential chams, in respect to their reserve, in the following words: "And for the use of the Indians, of whon Oo-at-we-Kwan is chief, so much land on the south and east side of the Assiniboine as will furnish one hundred and sisty acres for each family of five, or in that proportion for larger or smaller families, reserving also a further tract enclosing said reserve to contain an equivalent of twenty-five square
mile a the In-

bers one ties firom enty dollatter to ndinn atemilon all h verlal $y$ and the ovencher, effecting agreed th, Quill emhy treaty eserve, in , diams, of fouth anl dreed and intion fur ret enclus. ve square
miles to be haid out mround the reserve." The ditfienlty with the Judians in eomection with this land grant, arose from extravagnt interpretation of its provisions, and the fact that there was a division anongst themselves as to the locality where the reserve should be. Yellow Quill, who whs the most tronblesome in the matter, fomd, however, that he was not all-powerful, and when the commissioners decided to give each of the three bonds interested a portion of the whole number of aeres proportionate to their numbers in the localities chosen by them, it was fimally aceepted, and this knotty subjuet disposed of.

The Wimipeg 'I'reaty, or number five, which followed that of Qu'Appelle, eovered an aren of, approximately, 100,000 splure miles. The region was inhabited by the Chippewas and swampy Crees, and the necessity for a treaty was mogent, as improvements were being carried on in the district, and settlements of white people were being formed within its bomdaries. Lake Wimnpeg itself is about three homdred miles in length, and into it the Red River empties, and from it the Nelson River flows into Hudson's Bay. Until the construction of the Canadiun Pacitic Railway, the Lake Wimipeg and Siskatchewan river route was destined to be the prineipal thoroughfare of communication with the western prairie region, and, until the Indians were treated with, diffienlties in Wily of development were likely to arise. The Minister of Interior therefore reported, "that it was essential that the Indian title to all the territory in the vienity of the lake should be extinguished, so that settlers and traders might have undisturbed access to its waters, shores, islands, inlets, and tributary streams," and for this purpose Lieutenant-Governor Morris and Hon. Jas. McKay were appointed commissioners, to treat with these Indians.
'Ther Hudson's Bay Company placed their propreller, the "Colville," at the service of the Govermment for the use of the commissioners free of charge, and these gentlemen left the Indian settlement near the Stone Fort on the I t th September, 1875, on their important mission. They tirst proceeded to Biomens river, on the east side of the lake, and made a treaty with the Indians in that locality, after which they sailed to the heall of Lake Wimipeg, and lescended the river to Norway Honse, where up to that time no stemer had been. On conchaling an agreement with the Norway House band, the commissioners then visited the month of the (ireat Saskatehewan River, and met the Jndians who live there, whongreed to survender the loeality at the foot of the Gand Rapids, where they had erected honses, and go to the sonth side of the river if the $y$ were given a consideration for so doing. A sum of five hmmed dollars was then promised ly the commissioners, who, upon the treaty being signed, returned to Wimniper after a voyage on and around the lake of ahout one thonsand miles. 'The terms of this treaty were identical with those of mumbers three and four, except that a smaller prantity of land was granted to ench fanily, being one hundred and sixty, or, in some cases, one hundred neres to a family of five, while under treaties three and four the guantity of land allowed was six hundred and forty acres to each such family. The gratuity paid ench Indian was also five dollars, instead of twelve dollars, the circtimstances under which the treaty was made being different. 'The aren covered is described as lying north of the territory covered by treaties numbers two amd and three, extending west to Cumberhand House on the Saskatchewan River, and including the country east and west of Lake Winnipeg and of Nelson River as far north as Split
ler, the e use of left the tember, eded to a treaty miled to to Norell. (1) and, the skatcheugreed to is, where the river A silu of issioners, Wimipeg thoussuml those if antity of mind sixty. ive, while 1 allowed ily. 'The histead of reaty was 1 as lying two and the Sasd west of as Split

Lake. In 1876 the Winnipeg 'Treaty was filly completed, Hom. Thomas Howard and Mr. J. Lestock Reid, being sentont for that purpose.
'The mext treaty (Number Six), was mude at Forts Carlton anil litt, in 1876. They were of a very importmat charmeter. imasmach as they embraced a vast extent of fertile tervitory containal within an aren of about 120,000 stume miles. The Inlians imbliting this region belonged to the Cree Nation, mol, as fir back as 1871, Mr. Simpson, the then Indian Comminsiomer, mdressed the Secretary of state on the subject of conchading a trenty with them. Mr. Simpson's despateh was as follows:-"I desire also to coll the attention of llis Exerllaney to the state of aftaiss in the Indian comntry on the suskatchewan. 'The intelligenee that Her Majesty is trenting' with the Chippewn Inlimes has ahrealy reached the en's of the Cree and Blackfeet tribes. In the neighborhool of Fort Edmonton, on the suskatehewm, there is a rapilly-increasing population of miners and other white people, and it is the opinion of Mr. W. J. Christie, the officer in charge of the Sass katchewan District, that a treaty with the Indians of that comatry, or at least an assmance during the coming year that a treaty will shortly be made, is essential to the peace, if not the actual retention, of the comntry. I would refer His Excellency, on this subject, to the report of Lient. Butler, and to the anelosed memoranda of Mr. W. J. Christie, the officer above alluded to." Mr: Simpson enclosed, with his despatch, the following extract from a letter written by Mr. Christic, dated from Edmonton House, and a copy of the messages of the Cree Chiefs to Lient-Governor Archiballa:-

[^3]The object of their visit was to aseertain whether their lands had been sold or not, and what was the intention of the Canadinn Government in relation to them. They referred to the epidemic that had raged throughout the past summer, and the subsequent starvation ; the poverty of their comutry; the visible diminution of the buffalo, their sole support ; endins by requesting certain presents at once, and that I should lay their case before Her Majesty's representative at Font Garry. Many stories have reached these Indinns, through various chamels, ever since the transfer of the North-West Territories to the Dominion of Canada, and they were most muxious to hear from myself what had taken phace.
I tuld them that the Canadian Govermment had, as yet, made no application for their lands or hunting gromods, and when anything was required of them, most likely Commissioners would be sent beforehand to treat with them, and that until then they should remmin quiet and live at peace with all men. I further stated, that Camana, in her treaties with Indianss heretofore, had dealt most liberally with them, and that they were now in settled houses and well off, and that I had no doubt in settling with them the smme liberal policy would be followed.
As I was aware that they had heard many exaggerated stories aisult the trons in Red River, I took the opportmity of telling them why trow had been sent; and if Her Majesty sent troops to the Saskatchewan, it was as much for the protection of the red as the white man, and that they would be for the maintenance of haw and order.
They were highly satisfied with the explanations offered, and said they would welcome civilization. As their demands were complied with, and presents given to them, their immediate followers, and for the young men left in camp they departed, well plensed, for the present time, with fair promises for the future. At a subsequent interview with the chiefs alme, they requested that 1 should write down their words or messages tc their (Great Master in Red River. I atcordingly did so, and have transmitted the messages as delivered. Copies of the proelamation issued, prohibiting the trattic in spirituous liquors to Indians or others, and the use of strychnine in the destruction of animal life, have been received, and due publicity given to them. But without any power to enforce these laws, it is almost useless to publish them here; and I take this opportunity of most earnestly soliciting, om behalf of the Company's servants and settlers in this district, that protection be afforded to life and property here as soon as possille, and that commissioners be sent to spenk with the Indians on behalf of the Canadian Government.

## Memorania:

Had 1 not complied with the demands of the Indians-giving them some little presents-and otherwise satisfied them, I have no doubt that they would have proceeded to nets of violence, and once that had com-

1. The

Great beard our unr linuds
Our eon supurit, We want thing whe Makep starvation ple, the ol
menced, there wonld have been the beginning of an Indian war, which it is difficult tes say when it would have ended.
The butlike will soon be exteminated, and when starvation comes these Plain ludian tribes will fall back on the Hudson's Bay forts and settlements for relief and assistance. If not complied with, or mosteps taken to make some provision for them, they will most assuredly help themselves; and there being nof fore or any law up there to protect the setthers, they must either submit to be pillaged or lose their lives in the defonce of their families and property, against sueh fearful odds that will leave no hepe for their side.

Gold may be diseovered in prying quantities any day on the easern slope of the Rocky Monntains. We have in Montana, ane in the maning settlements close to om bommary line, a large mixed frontier pepulation, whate bow only vaiting and watehing to hear of gold discoveries to rush into the Saskatehewan; and without any form of gwermment or estabish.ed hass $\quad$ up there, or force to protect whites or ludiand it is very phan What will be the result.
I think that the extablishment ri law aud order in the Siskatcio.ewan District as early as possible, is of most vital importance to the future of the comatry aml the interest of Camali, and also the mating of sume traty on sethement with the hulians who imhabit the suskatehewim District.

> IV. J. Cumatie, Chief Fuctor,
> lu charge of Saskatchewan District. Hudsom's bay Compay.

The following are the messuges sent by the Croe Chinfo thromigh Mr: Christie to Lient.-(iowemor Archibah :-

##   Red River settloment. <br> 1. The Chef, Sweet Gibass, the Chef of the Corvtho. <br> Geat Fatmer-I shake hamds with yom ame bid som weleome. We

 hearel our lanks were sold anel we did not like it; we donit want to sell our limes ; it is owr property, and mome ham a right to sell them.Our comitry is getting ruined of fur-bearing animals, hitherto our sole suphort, and now we are poor and want help-we want yon to pity us. We want eattle, torils, agrieultumalimplements, and assistame in everything when we eome to settle-our eomatry is molonger able to sulp ont us.
Make provision for us against years of starvation. We have hat great starvation the past winter, and the small-pox took away many of cur peosple, the ohd, young, and elididren.

We want yon to stop the Americans from eoming to trade on our lands. and giving fire water, ammmition and arms to our enemies, the Blackfeet. Our young men are foolish--it may not last long.

We invite you to come and see us, and to speak with us. If you can't come yourself, send some one in your place.

We send these words by our Master, Mr. Christie, in whom we have every confidence. That is all.
2. Ki-ile win, the Fidile.

Great Father-Let us be friendly.' We never shed any white man's blood, and have always been friendly with the whites, and want workmen, carpenters amd farmers, to assist us when we settle. I want all my brother Sweet Grass asks. That is all.
3. The Little Hunter.

You, my brother, the Great Chief in Red River, treat me as a brother. that is as a Great Chief.
4. Kin-ki-on, or Short Tahl.

My brother that is coming elose, I look upon yom, as if I saw you; l want you to pity me, and I want help to cultivate the ground for myself anul descendants. Come and see us.

These Indians, however, remaned for five ycars without any treaty heing made with them, although the North-West Conneil repeatedly urged upon the Dominion Govermment the meessity of coming to some understanding with them. In 1876, Hon. David Mills, then Minister of the Interior, thas referred to the subject in his report: "Ofticial reports received last year from His Honor Governor Morris, and Colonel French, the ofticer then in command of the Monnted Police Foree, and from other parties, showed that a feeling of discontent and measiness prevailed very generally amongst the Assiniboines and Crees, lying in the meeded teritory between the Suskatchewan aml the Rocky Mountains. This state of feeling which had prevailed amongst these Indians for some years past, hat been increased by the presence last summer in their territory of the parties engaged in the construction of the telegraph line, and in the survey of the Pacific Ruilway line, and also of a party belonging to the Geological Survey."

A messenger in the person of Rev. (A. Mel ompall, Methodist missionary, who possessed a gool deal of intluence over the Indians, owing to his long residence among them, hat been sent in 1875 to announce that a treaty would be mude with them the following year. Accordingly, Lientemant-fovernor Morris, Hon. Jas. MeKay, and W. J. Christie, Esi., were appointed commissioners to carry out the promise of the Gorermment, and after travelling over the praire a distance of about 900 miles, these gentlemen net the Indians at Fort Carlton, in August, 1876. On the 23 rd day of that month, after a series of difficult and protmated negotiations, they succeeded in effecting a treaty with the Plain and Wood Crees, hut it was not antil the 28 th that the tribe of Willow Crees, who had been very troublesome, consented to sign.

In this, as in all the other treaties, the success of the mission was due in a large measure to the exertions of H (m. James Mekay, whose knowledge of the Indian languages, their customs and manners, enabled him to be of great service during the trying negotiations that took place. The clergymen of the ('hurch of England, Methodist, Presbyterian, and Roman Catholic churches, who were present at Carlton and Fort Pitt, also assisted materially in bringing about the treaty, and Mr. Christie, from his intimate knowledge of the region, and thr Indians living in it, proved himself to be invaluable as a commissioner.

When the treaty was concluded at Carlton, the commissionass proceeded to Fort Pitt, where they met with little difficulties, comparatively, in coming to terms with Chief sweet Grass aml his tribe of Plain Crees.

With the conchasion of treaty number six, there only remained the Blackfeet tribe to be treated with, to extinguish
the Imlian title to the hams extemling from Lake Superion to the slope of the Rocky Domatains, and in $1 \times 7 \mathrm{~A}_{6}$ the Dominime Gowermment antrusted the earreing out of a treaty with these Indians to Hom. Davial Lairl, who was than Lientemant-(iowernor of the North-West Peritories, and Lient-(bolonel MeLeod, of the Doment Paliee Force. The misurmodered portion of the tervitory included about fifty thonsam symare miles, tying at the sonth-west angle of the tremitomies north of the bommary lime, east of the Rocky Momanans, south of Rod River, and west of the C'ybress Hills. This portion of the North-West was occupied by the Blackfinet, Blook, and Sareess, or 'legan ludians, somm wi the most warlike and intelligent. but intractable hamels in the territories. Previons to the visit of the commissioness to the Barklivet, the Rav. ('. Scollan, who had heen for many yan a missionary among the Plain ladians of the North-West, was requested to prepare a stathment as to their chameter, hablits, amb comdition, am, as it may prove of interest to our realers, we give the repret in full :-

Foner Prry, sopt. Xth, 1sirs.
To, Ilis E.celltme'y the Gownem of Mewitolu.
 siontary amomgst the (ree and Blackfeet Indians of the North-West Territory, I hmully molertake to submit to your consideration a few details regarding the later tribe of Her Majesty's Indian subjeets. Athough the general chavacter of all the tribes may be neary the same, yot in their social dispusitioms they sometimes materially differ, and this I think will he found to be the case with the Crees and Blackfeet, when compared on that point. The Crees have always hooked upon the white man as a friend, or, to nse their own languge, as a hother. 'They have never beed afrai 1 of him, nor have they given him any canse to be afraid of them. The Blackfeet have acted somewhat differently; they have regnaded the white mum as a deni-god, far superion to themselves in intelligence, capable of doing them good or evil, ace reding as he might be well or ill disposed towarls them, unsernpuloms in his denings with others, and comseguently a persom to be flattered, feared, and shamed, and even injured whenever this could be done with impunity. I inn not now describing.
rior t" minint! 1 thess. (t-1) Colonel melemed sypalte orth of of Rent of tha" sareers. Higent. he visit -•1, whい lain laa staticit m: y full :-
as : at minViest Terw details Hthough c, yet in s I think "munarel Hall as : wer hech of them. rilen the nee, cap rill disnit emseI injureal cseribity
the Backfeet of the present day, but those of fifteen years ago, when I first saw them. They were then a proml, hanghty, numeroms people (perhap ten thousand on the British side of the line), haviug a regular peli-tion-religinus organization by which their thinst for homel ame their other burbarms passioms were constantly fired to the highest pitch of frenzy. Since that time their nmmer has rlecreased to less than ane lalf, mid their systemetic organations have fillen into decay; in fact, they have
 on ley two eanses: 1. About ten yans age the Ameriams erossed the line ambentatished themselves on Pelly River, where they earion in to m extromedinary extent the illicit tratio in intoxicating liquor to the Blackfect. The fiery water flowed as freely, if 1 maly use the metaphor, as the atreans ruming from the Roeky Mountains, und humdreds of the peor hulims fell victims to the white man's chaving for money. Some poisoned, snme frozen to death whilst in a state of intoxication, ambl many shot down by American bullets. 2. . Then in 1890) came that disease so fatal to ludians, the emall-pux, which told men the Blackfeet with temithe effect, destroying between six hambed and eight hamed of them. Simvining
 drown their grief in the prismons beremage. They sold their rohes and himes ly the hmalral for it, and now they hegran killing one nuther. sin that in a short time they were divided into sevemal smiall parties affaid to meet. Fontanately for them, the (iovermment were atwate of the state of atfilis: in the ecruntry, and did mot remain indifferent to it ; and, as I lawe hearl yourself explain to the Indians, Her Gracious Majesty hais at hearm the welfare of even the most whseure of her suhjects. In the smmmer of 1-it. I was travelling amongst the Blackfeet. It was painful to me to see the state of poverty to which they had been reducel. Finmerly they had heen the must opulent Indians in the eomntry, and mow they were chothed in rags, without horses and withont gims. But this was the year of their sadvation : that very smmer the Momed Police were struggling against the difficulties of a long jomrney across the harren phans, in order to loing them help. This noble emplan reach their destimation that same fall, and with magic effort put an entire stop to the ahominable trattic of whiskey with the Indians. Sinee that time the Blackfeet Indians are hecoming more and more prospertus. They are now well clothed, and well furnished with horses and gans. During the last two years, I have ealenlated that they have bonght two thonsand horses to rephace thone they han given for whiskey. They are foreel to acknowledge that the arrival of the Rod Cuats has been to them the greatest boon. But although they are externally so friendly to the police and wher strangers who now inhabit their conntry, yet underneath this friendship remains hidden some of that dreal, which they have always hal, of the white man's intention to cheat
them ; und bere, excellent Governor, I will state my reanons for believin, that a treaty should be concluded with them alsu at the earliest possible date.

1st. The Blackfect are extremely jealous of what they consider their country, and never allowed any white men, Half-Breeds, or Crees, to remain in it for my length of time; the only reason that they never drove the Americans off, anart from their love of whiskey, was their dread of the Henri ritle.

2nd. They have an awful dreal of the future. They think that the police are in the comatry. not only to keep out whiskey traders, but als, to protect white people against them, and that this eomntry will be gradu. ally taken from them without any ceremony. This 1 can cortify, for at. though they may not say so to others, yet they do not hide it from me.

3rd. Numbers of people are settling around Fort McLead and Fort Cal. gary, in order to form, raise stock, etc. This will probahly drive the buffalo away through time from the ordimuy hunting grounds, and, if no, the Blackfeet, being the most helpless Indians in the comntry, and macens tomed to anything else bat hunting buffalo, would suffer extremely.

4th. The settlers also are anxions that a treaty be made as soon as pos. sible, so that they may know what portions of land they can hold without feur of heing molested.
jth. The Blackfeet themselves are expecting to have a mutnal under standing with the Government, because they have been told of it by several persoms, and, namely, by Gen. Smythe, last year.

Such are the principal reasons which oceur to my mind for making a treaty with the Blackfeet. It remmins for you, Excellent Governor, to weigh their value. Of comse you would find the same prejudices amongst the Blackfeet that you have found amongst the Crees, but you would have no greater difticulty in dispelling them. Yon would have four clans to treat with, viz. : the Blackfeet, Bloods, and Piegans, all of the same tribe, and the Surcees, a braneh of the Peace River Indians, ealled Benvers. As to the place of rendervous, there would be no difticulty whatever : the Blackfeet live in large camps under their respective Cliefs, and could gy) to any point after due notice.

It remains for me now, Excellent Governor, to beg you to excuse the many defects of this communication, mad to necept the assurance of sincere esteem and profound respect of

Your most hmmble servant,
Conspantine fobllen,
Priest (1. U. J.
P.S.-I am aware that the Sioux Indians, now at war with the Americans, have sent a message to the Blackfeet tribe, asking them to make an alliance, offensive and defensive, against all white people in the country.
C. Scollen.

volmateress, under the supposition that they were some of the guilty ones, and one mum, Goulet, ns alremly shown, was humted to denth by a mob, their victim being driven into the Red River. and hrowned in his attempt to esenpe.
'Ibe anthorities seemed indiflerent. According to the swom testimony of Mr. Stewn't Mulvey the delegations who wated upon Lientomant-Governor Archibald, requesting him to put the law in motion, were toll by him that the haw of the Province had no cognizance of the murder of seott, or other aimes committed before the transfer of Rupert's Land to Gimaln. Informations were nsked to be taken against Ried mul others repeatedly, but no magistrate could be found to take the information or issue a warmat, as all were instroctad, as they stated, not to do so, as they had mo juriseliction over the oftenee. In December, 1870 , an information was laid the fore Mr. James Setter, a Provincial Justice of the Pence, and a warrant, prepared ly Mr. Mulvey, was issued by him in the following form:-

Provivee of Manitoba,
'To Wits:
To Cartain Vhamers, Chief of Police, and all other Comstables.
Persomally appeared before me, John James Setter, one of Her Majesty's Justices of the Peace in and for the Province of Manitobn, on this 31 st day of December, Charles Garrett, of the Town of Winnipeg, tavern keeper, who makes oath and saith that on the fourlh day of March, one thousand eight hundred and seventy, one Thomas Seott was wilfully and unlawfully shot to denth, by order of one Louis Riel, at Fort Garry. This is therefore to command you, and all other constables of the Province of Manitoba, or either of the eonstables of the said Province, to arrest the said Lonis Riel, and to bring him persomally before me, to be dealt with according to law.

And that in case of resistance of the said Lonis Riel, I do hereby order and command you to briny his body, decul or alire, before me.

Witness my hund and seal, this thirty first day of December, A D. 18;0. John Jamen Setter

From the date of Lepine's return to Manitola from St. Panl, Minn., where he had gone in the antumn of 1870, at the request of Bishop Thaché (,$~$ 'o advised him to leave the country at the earnest solicitation of Sir John A. Maedonald), and up to the time of his arrest, he had pursued his ordinary avocition of a farmer, and had made no attempt at concealment or escape. His arrest ereated great excitement, both amongst the French and English-speaking Half-Breeds, as nothing had transpired to lead to the belief that any arrests in connection with the Scott affair would be made. A majority of the French regarded the action as an outrage of good faith, but many of the English-speaking people looked upon it with satislaction, as the first step towards a thorough investigation of the Scott murder, and the punishment of the guilty ones.

Lepine was brought before Mr. Justice Betournay and Mr: (:illert MeMicken, J. i'., on September 23rd, 1873, for preliminary hearing of the case against him. Messrs. Cornish and Thihaudeau appeared for the prosecution. Hon. Messrs. Royal, Dubue, and Girard for the delence. Prisoner's counsel raised the question of jurisdiction, and Mr. Royal made a lengthy argument, in which he contended that the Imperial Act of 1821 , provided that cases of murder committed in the North-West could only be tried by the Courts of Upper and Lower Canala. In 1841, an Imperial statute vested the powers conferred by the Act of 1821 in the united Provinces of Canala. The British North America Act repealed the Act of 1841. Aguin, the Rupert's Land Act, passed in 1868, provided that, from a certain day to be fixed by Order-in-Comucil, Canala should succeed to full powers in Rupert's Land. Thatt Order-in-Council was not passed till June, 1870. The resulutions upon which the accession of the North-West were

St. Paul, the rocomutry , and up Yavocalment or ongst the ing had mnection $y$ of the aith, but it with stigation y ones. and Mr . r prelimnish amd rs. Royal, sel raised lengthy rial Aet 1 in the per :url ted the vinces of e Aet of provilCouncil, 1. That he ressu-
st were
hased, stated that it was for the future welfare and government of the comuti.7. The Manitoba Act expressly provided that its application should not be retroactive, and that Aet not having been framed till 1871, the conrts of Manibola had no right to take cognizance of matters that transpired prior to 1871. He also dwelt upon the fact that the Provisional (iovermuent had been recognized at Ottawa by the reecption of its delegates and sulsequent negotiations, and urgel the court to consider the political features of the case before proceeding with the examination. He took the position that from the time of the resignation of the Comecil of Assinibosia, in 1869, until Camada assumed the courts by Act of Parliament, in 1871, the jurisdiction in the North-West was vested in the Imperial (Govermment. Mr. Justice Betompay decided that he conld mot determine the question of jurisdiction at that stage of the proceedings, it being merely for him to ascertain if there was a primu fucie case against the acensed, and if so, to send him for trial to the higher court. The examimation of witnesses was proceeded with, oenpying tive days, and resulted in the prisoner being committed to stand his trial at the next Assizes.
On the day before Lepine's examination began, a large deputation, composed of French Half-Breeds and many leading men, including Hon. Messrs. Girard and Bannatyne, Reverenl Father Richot, and Rohort Cumingham, M.P., waited on Ciovernor Morris, protesting against Lepine's arrest as illegal, claining an amnesty, and asking the Govermment's intention in the premises. In his reply the Governor stated that the matter was not one in which he had power to interfere. He pointed out that courts of haw had been estahfisled here: that the two Judges were charged with the
alministration of the law ; that magistrates had heen appointed with the power to issue warmons: that where $n$ warrant was issued a preliminny examimation must take place amd that if there was suflicient of evidence alduced to justily il reasomble beliof that a crime lad been committed, the eare must ero before the (imad dury. With regarl to the allowed promise of man anesty, he han mothing whatever to to with that, which was a matter to be aljusted between those who chamed the ammesty and the Dominion (iovomment. He added that no power but that of the pumen herself enold小ectan an ammesty: and he could take no connizane of their allegation, but would commmiente their statelnent to the authorities at 0ttawa. He impressed upon those present the necessity that existerl for every one to do all in their pown to allay public excitement, and to nse only constitutional methofs to gain thoin desires: he ass!aci them that there was mo fear of any injustice or act at violence being done to lepine as, so soon as he had hearel of the arrest. he had taken step to insure the prisoneris satecty and protection.

At the Assizes held in November, 1878 , at which Mr. Justien Mekempey presiden, a troue bill for murder was fomed agimet Ambroise Lepine, by a diand Jory eomposed of the follow. ing: Willian T. Lomstale, Fomeman: John F. Gant, Alexamber Muray, Willian Fraser, John Higqins, William Hemersom. George Setter, David Cussitor, Willian A. Farmer (upon whene information the wamant was issued), ('rhan Delome, Baptist" Laviolette, and B. Falcon. Of these, Grant, Maray, Cussitor: Dramene, Laviolette nom Falcon were Half-Breads. Hon. Ion'ph Royat, of comsel for the aceused, demmed to the juris, diction, Hon. Attorney-Ceneral Clarke replied for the Crown. and His Lordship reserved his lecision. Subsequently, on

itly, on

December 2 2nd, Mr. Justice Me Keagney admitted the prisoner to bail, himself in $\$ 4,000$, and two sureties in $\$ 2,000$ each. His Lordship, in granting bail, gave, as his chief reason for doing so, the fact that the aceused had sought no means of concealment or of evading justice, although the Crown hall allowed nearly four years to elapse withont moving in the case. The Hon. A. G. B. Banuatyne and Amlré Beauchemin were accepted as sureties.
At the Februury 'Term, 1874, Lepine's case was called for haraing, hat Mr. Justice McKeagney dechared that he did not consider himself competent or justified in deeiding a question of sueh great importance as the jurisdiction of the court, and would therefore further reserve his deeision till the appointment of a Chief Justice, and the prisoner's bail was therefore enlarged till the next term of Court. When the Court sat in June, Honorable Edmund Burke Wood, who had been appointed Chief Justice in the interval, presided, with Justices Betournay and MeKeagney as assoeiates. The question of jurisdiction was again fully argued hy Hom. Joseph Royal, for the defence, and by Attorney-General Chinke, for the Crown. The Chiel Justice read a voluminous judgment, in which he traced the law bearing upon the case, from the granting of the charter to the Hudson's Bay Company by King Charles II., step ly step, up to the organization of the Court over which he presided, and decided that the Court hat jurisiliction to try the prisoner on the charge as laid in the indictment. The lunsiness of the term, however, prevented Lepine's case being rearhed, but in November following he was phated on trial before the following jury: John Omand, Norhert Marion, John Forles, Janes Parks, Peter Harkness, Baptiste Dubois, Smuuel West, Joseph Poitras, Cornelius Pruden, André Rohillard,

Mandee Bird and Norbert Nolin. Chief Justice Wood presid. al. 'The Crown was represented by Mr. Francis E. Cornish and Stewart Macdonald; Messis. Chaplean (of the Quebre Bar), and Royal, defended the prisoner. The trial oecupiod twenty-one days, and resulted in the conviction ol Lapine. The addresses of comsel were remarkable exanples of forensic clopuence, that of Mr. Chaplean in particulars being a master offin't of one who was recoguized as the foremost of criminal jurists. On November thi, 1874, Chief Justice Wool wir tenced the prisoner to be hanged on the e9th of danuary, 1 sio. On the 25 th of January, just four lays before that fixed for the excention, Lepine's sentence was commated to two seam imprisomment in grol from the date of conviction, and the permanent forfeiture of his eivil rights. 'This act of elemency was performed by the Earl of Dufferm, Governor-(ieneral of Camala, entirely on his own responsibility, thus relieving his Ministers of any obligations in the matter.

Riel had tled the comntry. when the first attempt to arrest him was made, and shortly afterwards he was dechared a fugitive from justice, and outlawed by the Courts of Manitoba.

André Nault, Elzear Lagemoniere, Joseph Delorme, and Basil Ritchot, were indicted for the murder of Scott in February, 1874. Nault was tried for the ofience, but the jury disagreed. Lagremoniere was also tried and honombly acquitted. as having no hand in the erime. Nault never stood a second trial, as before mother Assize was held, the general annesty was proclaimed, and all proceedings were consequently dropped.

The amnesty question was an embarrassing one to the br. minion Govermment, one of the most tronblesome that the Macdonald Alministration had bequeathed to their successors

I presid. ('onnits Quehre oecupied Lapine: forensic a master crinuinal ood sillne 1 sin. fixed for wo yams and the clemeney eneral of eving his

me, and n Februjury discquitted. a secoud tral :me equently
the ${ }^{1}$ that the iccessors
in oftiee. Emboldened by the fact that he had been assumed of the condonation of his pritical ofteners, and self-comphacontly regarding the murder of seott ats incladed, Riel had the andacity to present himself at the oftice of the clerk of the House of Commons, where he took the oath and sigued the roll of members, as momber elect for Provencher. This forehardy act caused great indigmation, and a motion to expel him from the Honse, which is dealt with fully in a later chap, ter, was male by Mr. Mekenzie Bowell. The motion was makle the subject of a protracted debate, in the comrse of which the amosty question was introlueed as an amendmont to the motion for expmbion. The motion was tinally earried by a vote of $12: 3$ for, and 68 agrainst. The amembment was lust by 110 votes- 27 for and $1: 37$ against.

It mast be remarked in Lepine's fivor, that he ated throughout in a manly, straightforward way: he might have "scaped at any time from the day of seott's death up to that of his arrest, but he never male the attempt. Indeed, when he was induced to go to St. Paul, Minn., where he might have considered himself perfectly safe, he declined to remain there, but returned to Manitola, and awaited the action of the authorities. His conduct was that of an honest, conscientions man, who had been tempted into the commission of a wrongful act, but who was too brave and loyal to the canse he deemed just to shield himself from the consennences of his fault.

The $\$ 5,000$ reward offered by Ontario for the apprehension of Scott's murderers was distributed as follows, on the recommendation of Chief Justice Woorl:-

## CHAP'IER X.

## roMMENCEMENT OF A PERIOO OF RETRENCHMENT.

'Tine progress of the town of Wimniperg from the time of the transfer of the North-West to Cianalat was rapid ind subastantial. 'The stemmers rumning on the Red River bronght in large carroes of merchandise and full lists of passengers, the that hats laden with goods, and immigrants became more and more mumerous, and hailding operations were pushed forward with surprising rapidity. On the 10th May, 1871, a Mr. Ellwool was instructed by the Provineial Govermment to survey a part of Main-street, which was soon afterwards grarled to a width of 32 feet, and this was the commencement of streetmaking in the town.
(On the 11th September, 1871 , the tirst stage arrived, and commenced a tri-weekly service with mails and passengers, but soon it beame a daily line, continuing in operation until 1877. when the most of the stock conches and drivers were transfered to the Black Hills route, and in the following year (1878), the railway took the place of the stage.

In ehureh matters, the Episeopal Church Holy 'Prinity, had to be enlarged, and indeed the ambitions townspeople, as early as 1872 , made an attempt to establish a Cathechal in Winnibere. or, in other words, to remove the one existing in St. Johns to within the limits of the town. On the 17 th september 1871, the Methodist place of worship, Grace Chureh, whieh

Was hailt throngh the mating exertions of Rev. Geo. Fomme. was dedieated, mut the following month Mr. W. F. Janton. afterwards prominent in politionl and press matters, tows charge of what may be looked upon as the tirst publie selowi in Manitoha. Previons to that time, as far hack as 18333, heve Mr. Jomes had established a hoarding school at st. dohus. which ultimately hecame St. Johns College, the heantiful motto of which is "In Thy" light shall we see light," the work being solfeted hy Bishop Amderson. In 186i7, Miss Banmatyone. Who afterwards hecmme the wife of Rev. John Black, of Kildomm. eondueted a class in the village of Wimipeg, mone from a spirit of kinduess than from any hope of gain, and in 1869 the Sisters of ('harity estal)lisheel a day school in a small cottage in Winnipeg, from which sprang the present fine wo tablishment. Sit. Mares Acmdemy: In October, 1871, ther Manitoha ('illone was opmen with hev. Mr. Bryee as principal. and from then on the enheational interests of the Provine miale rapinl progress.

Amost immediately after the ereation of the Prowinere, alplications for bank chaters were made, the tiost being for ther Bank of Rupert's Laml, mul the second for the Bank of Maniitoha, hut neither of these materializel. On the 14th Decenfer, 1872. the Morchants Bank opened an agency in Winnipeeg, followed by the Ontario Bank in 1875, and again in 18: by the Bank of Montreal.

In the spring of 1872 , there were there stemers plyme regularly hetween points south of the boundary line and Winnipes. ant in May, 187 s. the merchants of the eity having, in commection with some gentlemen in Minneapolis, formed an opposition line, their two steamers were added to the flect on the Red River, and in 1876 there were no less than seven ie sechun) S:3: R, Ry. t. Iohur. Inautiful he worl ; BannaBlack, of veg, nure II. and in In a smaill it fillu : 871 , the principul. Provinu"

splyine mil Winaving, in rimed an eflect m min'seran
semmers on the ronte, besides several others rmming exelnsively in British territory. Thas the trale of the Province increased, and, as an evidence of the progress mate in this reApect. it may toe statell that while Wiminerg conld boost of omly 19 business houses in 1870 , the number in 1874 had in erronsed to $1: 35$. In 1si:3 Wimipeg was incorporated as a city: after a tedions struggle to obtain from the Legislature the necessary charter, and from that time its growth was remark able. The year following incorporation, the city was comectal with Portage la Prairie ly means of a tri-weekly stare, which carvied the mails, and in 1876 a regular mail was dispmethel to the Saskatchewan, Hom. James Mekny lwing the contractor. Abont the snme time telegraphic commanimation. was opened hetween Battle River, in the North-West, and Wimineg. the following messages being among the first sent war the line:-
"Trimimarn Flatr,
" Battle River, April 6, $1 \times 76$.
"The Telegraph Fhaters take this tirst opportunity of shaking hands with the Wimipegress across the wire, and congratulate them on heing in telegraphic commmication with this the enterprising eapital of the North-West."

The next despatch was-
"Pelas, April 6; 1876.
"The city of swan River rejoices to join hands with her sister city, Wimipen. Aceept our warmest grectings."

In 1872, on the !th November, the Free I'ress, which has since become the greatest newspaper in the North-West, made its appearance as a weekly, and in the following year it published a daily edition. The Gazette also made its how to the: puhlic in 1872, and Le Métis, the tirst French newspaper in the Province, was being published at St. Boniface.

In April, 1874, the Dominion (iovermment gave a contrant to Messrs. Carpenter \& Co to use the Dawson route for the carrying of freight and passengers from lake superion to Wimnipeg, but the undertaking was never properly earial out by the contractors, and the (iovemment were obligend to abmilon it. Indeed, a great deal of suffering was enthiled upon many of the passemgers who attempted to enter the Province by this road, although the cost to Camma of estatioshing it hat renched, in $1 \times 7$ t, the emomons figme of © $1,294,857$.

About the same time, however, the Dominion Governmem resolved to gro on and complete the milway from Winnipeg to Pembinn, to comect with the St. Panland Pacitic Raibwa Compmeg, which was then hidding northward townels the Intermational homulary, and 11 sum of 8650,000 was inclucted in the estimates of 1874 , for the purpose.

The Dominion (iovermment, also, in the same yenr, comunenced the building of the Custom Honse and Land Otlice in Wimiper, so that the ontlook for the prosecution of publi, works in the Province hat a promising appeamace.

Bat at this time the Province was visited by the grasshn! pers, and the crops, which were in a most fomishing eondition, suffered ahost total destruction in many parts of the Province. The blow was a severe one to old and new settlers, just as the comery in other respects gave signs of a healthy state of developatint, for althongh the damage to the comitre, as a whole, was not as great as at first fermed, the loss to the farmers in many sections was very considerable. One goor effect of the visitation, however, was to call the attention of agriculturists to the necessity of taking steps to prevent a recurrence, if possible, of the scourge, and the result was that
contrict for the rior (1) enrrind obligeal was en. to enter undit of gure of

Alluthent aiput Railway uds the neluited

II, (\%)! Otlice in [untlir
asshop - comdiof the setthers, healthy ountry, ; to the te goorl tion of event : ins that
preantiomary mansures were not only comsidered, hat afterwirds mopted.

In the latter part of September, 18it, the tirst somi in the work of eonstruction on the milway hetween Winnipeg and Pemhina was turned hy Mr. Whitehend, the contractor, and oprations were pashed forward burgetionlly from that date. und in the following November the telegroph line connecting Winnipeg with the stone fort was completed.
'Thus the Province of Mnitobn was making sulstantial prugress in the development of its resomress under ciremostances, however, which were not altogether satisfactory The revenue, in the way of subsidy from the Dominion, was mot adequate to the needs of the combtry. and in consequence the Province was roming into delot, the expermliture oftern exceding the estimates by large momonts.

At this stage the (iirard (iovermment wigned oflice on the Sth December, 1874, mul Hon. R. Davis was called upon to form anew Ministry. 'This be succeeded in doing, as follows:

Hon. R. A. Davis, Provincial Treasmer and I'remier.
Hon. Joseph Royal, Minister of Poblic Works and Provinciul Secretary.

Hon. Colin Inkster, Speaker Lemislative Comeil mill Irmsident Executive Council.
'The reduction in the number of Cobinet Ministers which the change of grovermment brought about eflected a saving of 84.300 per ammum. It was also proposed to reduce the inWmaty to members from 8300 to soon, which womlt make a further saving of $\$ 2,400$ per session.

The abolition of the Legishative Comeil was promised, which, if effected, would save the Province un outlay of sic.200 ench year, and the new (iovermment proposed, liy a
policy of rigid ecomomy, to reduce the expenditure in evary branch of the civil service.

The lollowing is an outline of the poliey amomed by the Davis (iovermment on taking office:-

1. Rigid emfining of the Expentitures within the Ineome of the lrovince.
2. The practice of the closest cemomy, that may be comsistent with efficieney, in all the expenditures of the public moners, mad, as an eanest thereof, the reduction of the Ministry to three.
:3. The prosecution of negotiations with the Dominion (iovermment for a moderate but sufficiently increased subsidy, to enable the Govermment of Manitoba to meet the demands upon the revenues resulting lion a rapidly growing population.
t. The introluction of an effective municipal system. and in comection therewith, ading the municipalities in the maintemance and construction ol roads and bridges.
3. The abolition of the L'pper Honse.
4. 'The reduction of the indmonity of members to $\$ 200$ for the session.
5. The muemdment of the school laws, so as to secure an aceurate list of the attendance of pupils, in the sehools, duly veritied under oath.
6. A reduction of the expenditure in comection with the administration of justice, to the greatest extent practicable: and, in comection therewth, the entrusting to Crown Comsed the conduct of all prosecutions mader a tariff of fees of a reasonable but yet economical amomet.
7. The dealing from time to time, by practical and progrensive legislation, with all subjects affecting the advance of the by the

CHAPIER XI.

THE INTERNATIONAL BOINDARY COMMISSION.
'T'ue boundary hetween British North America and the United States was agreed upon by the Treaty of Ghent, on December 2tth, 1814. On ()etober 20th, 1818, an lutermational Convention determinel the geographical boundary, and a joint commission was appointed to define it from the Athantic Ocemn westward. This commission concluded its work in 1826, at the north-west angle of the Lake of the Woods, where a momment was erected. During the years 1858-62, a joint commission markel the hommary from the Pacitic Ocem enstward to the smmit of the Rocky Momtains. In the interior of the continent, between these termimal points, the bomdary remaned mmarked mitil 1872 , when the recent cession of the North-West to Canada rendered a definite boundary in the prairie region necessary. A commission was therefore appointed by each mation to work in unison in defining the line from the north-west angle, westward to the summit of the Rocky Mountains. 'The British Commission was composed of the following staff:-

Her Majesty's Commissioner, Major Cameron, R.A.
Secretary, Captain Ward, R.E.
Chief Astronomer, Captain Anderson, R.E.
Assistant-Astronomers, Cuptain Featherstonhungh, R.E., and Lieutenant Cinlwey, R.E.

Siureyors, Colonel Forrest, Camatinn Militin, Mr. A. L. Russell, and Sergeant Kay, R.E.
'Topographer, Mr. East.
Surgeons, 'T. J. W. Murgess, M.J., and Thomas Milhman, M.I). Geologist, Mr. (i. M. Dawson. Commissary, L. W. Herehmer.
Veterinary Surgeon, Mr. W. G. Boswell.
Sub-Assistant Astronomers, Messiss. (i. F. Burpee, IV. F. King, W. A. Ashe, and G. C. Coster.

Fourteen members of the staff were Canalians, appointed by the Dominion Govermment. There were also in the permanent employment of the commission $4+$ non-commissioned officers and men of the Royal Engineers, 1 wargon-master, 12 depôt keepers, and $1: 3$ officers' servants.

Early in Septerber, 1872, the British and United States Commissioners met at Pembina, Dakota, and having agreed upon a plan of operations for the autum, the British Commission was divided into the following working parties:Three Astronomical parties: three Surveying parties: Statf: Each Astronomical party was equipped with a zenith teleseope, a portable transit instrument, a sextant, two sidereal and one mean-time chronometers, a seven-ineh transit theodolite. chain and arrows, ete. Each Surveying party had a fiveinch transit theodolite, three prismatic eompasses, chains and arrows, sketching cases, and mathematical instrments sufliciont for plotting and triversing.

The iollowing plan of operations for the autumn and winter was regreed upon between the Commissioners: The position of the north-west angle of the Lake of the Woorls, as marked in 182f, was to be identitied, and the necessary surveys of the shore were to be made: the meridian line from here sonth-
wards to the 4 thth parallel was to be traced ambl marked: the intersection of the western shore of the Lake of the Woods ly the said parallel was to the determined by joint astronomical observations: and as many intermediate points as possible between the Lake of the Woots and the Red River were to bre established, taking into consideration the nature of the comtry and the lateness of the season. The joint determinatien of the bommary at Pemhina was also to be finished, and the surveys on ench sidn of the line were to he pushed forwam in an easterly direction.

The article of the Comention of the 20 oth O.tober, 1sts. mader which the Bomalary Commissions were constituted is as follows:-
"Article II. It is agreed that a line drawn frem the most north-western point of the lake of the Wowls along the t? ${ }^{\text {of }}$ parallel of north hatitute: or, if the said point shall not be in the 49th parallel of north latitude, then. that a line drawn from the said peint due morth or south, as the case may be until the said line shall intersect the saitl parallel of north latitude, and from the point of such intersection due west along and with the said pamallel, shall be the line of demareation lntween the territomies of His Britamic Majesty and these of the United States, and that the saill line shall form the southern hommary of the said territories of His Britamic Majesty: and the northern bommary of the teritories of the Uniterl States from the Lake of the Woods to the Stomy Mountains."

In the heriming of October, the main boties of both commissions started for the north-west angle of the lake of the Woods, leaving one of the British astronomical parties at Pelnhina to finish the observations for latitude. 'The commissiomers and the two chicf astronomers camped at the north-wnot
angle ment, under weste vols her ronical ble beto br e counination Ind the ward in

『, $1>1 \mathrm{~s}$ uted, is
angle, and a search was commenced for the referenee monnment, ereeted by the laternational Commissioners appointed unler Article VII. of the 'Trenty of (ihent. "The most northwestern point of the Lake of the Woorls," mentioned in the 2nd Article of the Convention of 1 sis (groted above) was agreed and declared by these Commissioners to be at a specified distance measured in a given direction from the monnment. At the same time, the latitude and longitude of the "north-west point" were given. It was evident that the first methor of identifying the "north-west froint" was fiar the more aceurate, provided the referonea momment ambl be fomme. The seareh for the reference momment wecupided three days, and at the end of that tince some ladians were found who said they could point it ont. 'The Indians indicated a spot which was eovered with water, about eighteen inches in depth, and here the remains of a spuane crib of logs were found. This was assmmed to be the reference monnment by the Commissioners, who proceeded to determine the position of the "north-west point" by laying oft" the six measured courses leading thereto, as specitied by the Convention of ists. The mesult of the observations for latitule did not agrer with those taken by Dr. Tincks in 1826, hat the diserepaner was so small that the Commissioners did not deen it important, and the position of the north-west mgle, as determinel from the spot where the crib of logs was foum, was finally agreed upon, and the work of mensuring a meridian line, pmssing throngh the assmmed "north-west point." wat procereded with. In their subsequent operations, the Commissioners may have been more particular in the minuter letails of the work, but in the case of the north-west angle of the Lake of the Woods, it is hell by many persons, who possess a knowlentge of the sub-
jeet, that their action was careless, and that they did not sart their survey from the reference monument, but from an wh crib of logs that had been used as the fommation of a duck ly the builders of the Dawson Road. The loeation of the reference monmment is in Monmmem Bay, comsiderably north of the point known as the north-west angle.

The work between the Lake of the Woods and the Rel River was completed, so fiar as the eutting of the line and temporary marking was concerned. The placing of permanent momments mad iron pillars was postponed until the next year. By the first of April, 1873, the parties had all returned to Pembina, and were lodged in quarters built for them during the winter at Dufferin, on the west bank of the Red River, about two miles north of the boundary. Prepmations for the summer's work were made during the following six warks. Mr. Boswell arrived from the enst with 180 horses for the use of the commission. The United States commission arrived at Pembina about the end of May, and the Commissioners agreed upon the phan of work on the western section. The permanent marks along the bomalary were agreed to be placed at intervals of one mile, hetween the meridians of 96 degrees and 99 degrees of west longitule, which were the east and west limits of the Province of Manitoba,* and at intervals of thre miles in the comntry west of the 99th learee. The former set of marks were to be iron pillars firmly fixed in the gromml. the latter were to be momuls of stones or, where no stomes could be had, earth.

By the mildle of , luly, the British and Vuited Sitates commissions had assembled at the north-east of Tourtle Mountain, and the eavaly eseort which aceompanied the Cuited States

[^4] if the renorth of the Rel line and permanthe next returned m during ded River, us for the x werks. or the use arrivel at r's agreed permanced at inrees and anl wist of there e former : gromil. tio stomes
ates comlountain,
d States commission was also encamped there. Grass, wool and water were abundant, but the llies were intolemble. All hands were obliged to wear gauntlets and mosquito veils, and the horses and eattle suffered terribly, and the work was seriously innpected for a time by parie tires. After passing westward of the (iraml Cotenn, they experienced a severe snow storm (Septomber $2 \boldsymbol{2}$ ad , which stopped work for a week. Here (inptain Anderson, Chief Astronomer, who had kept in advanee of the party all through the summer, struck noth from the boundary in seareh of a suitable spot for the establishment of a depôt lor the next season's work. He chose Wood Momintan, as atfording ample shelter, and being well wooded and watered. Then, tuming eastward, he gathered in the different purties, ell ronte, and all arrived at Dufferin on the 31st of ( )etobre. The commissions had established twenty-one astronomical stations, and chaned and marked 408 miles of the boundary dming the smmer. The conntry had also been smreyed for a width of 6 miles north and sonth of the bomdary, each commission working on its own side. The British commission extended the survey from 6 miles to 15 in some places, ant ehained in all some 857 miles, covering with their work an area of 3,004 spuare miles. The eommissariat arrangements wer as follows: Along the entire distance travelled, 430 miles, four principal depôts had been established, at intervals of about 90 miles. Provisions were conveyed to these depôts by the commissariat wagrons, thirty in momber, and seventeen Rend River carts. Sul-depôts were established between the prineipal ones, and each party had one or two spectial wargons told off for keeping it supplied with food. The rations were libreal, as each man was allowed:-

Work was resumed from Wood Monmtan，westwarl，on the 20th June， 1874 ，the plan of work being similar to that of 187：3，exeept that the six－mile belt survey was redued to three miles．At Milk River the first buffalo was seen in July． and large bands of Sioux and Assimiboines．The Indians were friendly，and made no objection to the work being carried through their comntry，and，at the end of July，the commission reached the Siveet Grass Hills，or three Buttes， from the western one of whieh they gramed their first view of the Rocky Mountains．Just south of the boundary of this point，they fomm the mutilated bodies of twenty Grow la－ dians，who had been killed by the Blackfeet in the preceding autumm．On August 27 th，both commissions reached the ter－ minal monument in the Rocky Mountains by the Kootenay Pass，and the International Boundary was completed from ocean to ocean．
＇The united parties，nmbering 167 officers and men，aml about 200 horses and ponies，with 100 wagrons，earts，etce， now turned eastward，and reached Dufferin on October 11th， after a march of 860 miles，which they had accomplished in forty－three days，inchuding halts．After the return to Dni－
firim, the British commission completed the sonthern bomdary of Manitoba by setting up iron pillans where temporary momeds and posts had been phaced two yemes previonsly. It was their daty to phace one-half of these pillars-every other onn-the Cuited States Commission to place the other half : a work which was completed in 1875.

## ('HAPTER XII.

 was recommended ly members of the North-West Combeit. and her several other persons nequainted with the comatry and its necessities. In Isi(), Mr. Domald A. Smith had strongly
 fored to keep the Inliams in check and to preserve haw and order in the comtry. In Lsite. C'apt. Lomis De Plainval, Who was then in command of the Provincial Police in Manitoha, prepared a complete phan for the organization, equipment, and distrihntions of a momed constablany in the torvitories. and sulmitted the same to Sir John A. Machonahd, who was so well pleased with it that he resolved on its adoption, amb it was at one time intended to phace De. Plansal in command of the fince.

On the 2 :3nd May, 1873 , a bit the the alministration of justice aml the establishment of a Polier Fores in the NorthWest 'lerritories wats assented to, and from it we give the following clauses:-

The Governor-in-Comeil may constitute a Police Force in and for the North-West Territories, and the Governor may from time to time as may be fomm necessary, appoint by commission a Commaissioner of Police and one or more Superintendents of Police, tugether with a Paymaster. Surgem, and Veterinary Surgeon, ench of whom shall hold oftice durium pleasure.
 Whe entrol, orders ant nuthority of such persen or persons as may from fime to time be nmed hy the Governur-in-Comeil for that purpose.
'The (:wremor-in-Cameil may from tine to time mithorize the Commis.
 (onstables and sub-comstables us he may think proper, bot excereding in
 wh in the Governor-in-Council may at my time direct.

Su person shall be apminted to the lonlice Foree moless he he of n जnuml ennstitution, ahbe toride, active and able-hadied, of good character. and hetweon the sues of righteen nud forty years; nom unless he be able Lo read or write either the English or French langange.
$\therefore$ inerson shall exereise my ollice in the sald Force, until he shall have bater the catho of allegiance ame the following oath of attee: " I, A. B., suhmuly swear that I will faitafully, diligently, and impartially execute ant jerionm the daties and athee of . . . . . . . . . . . . . . . . . . . . . in the Police Fince of the Sorth-West Territories, nul will well mad truly obey and profinm all hawful arders or instructions which 1 shall receise as such without fenr, favor, or atlection of or towards any person ur party whomsoever. Sohelp me Giod." And such ath may be baken loy the Commissimer of Paliee, hefure any Indge, Stipendinry Mngistrate, or Justice of the F'ence having juriselietion in the North-Went 'lertories, and by any other member of the Police Force, before the Commissioner of Police, of any person having such juriseliction as aforesailul : and such waths shall be retnined hy the Commissinner as part of the records of his oltice.
The Commissioner and every Superintentent of Police shall be es: oftirion Justice of the Peace ; and every constable and sub-constable of the Fonce shatl be a eonstable in and for the whole of the North- West T'erritories ; and may excente the otliee in may part thereof, and in Manitoha, in the eases hereinbefore mentioned and provided for.

Every constable and sub-constable shall, "pon appointment to the said Force sign articles of engagement, and any peralty which may be therein asoigned may be enforeed ; and one condition in the said artieles shatl always be that he shall serve for the period of threo years, and shall not leave the Force or withdraw from his duties unless lie be dismissed or discharged therefrom, or shall have previonsly given six months notice in writing to the Commissioner. The engagement shall be contracted to the Commissioner, and may bo enforced by the Commissioner for the time being.

The Governor-in-Council may, from and out of nuy of the lands of the Duninion in the Province of Manitoba, or in the North- West Territories, make a fice grant, not exceeding one humblred and sixty neres, to any
comstable or muli-constable of the said Forve, who, at the expiration if thre years of contimumanservice in the said Forree, shall be certifien hy the Commissiontr of lonice to lave conducted himelf matisfactorily, and to have efliciently and ably perfurmed the duties of his oftice during the said terin of three yenrs
The (anemor-in-Comell whall nppoint the phace at which the healguarters of the Furce slanll from time to time be kept, and the ollice of the Commissioner shall he kept there, and the same may be at any place in the North-Wint Territoriea or the Provinee of Manitoba.
It shall be the duty of the Foree:-
Troperforin all duties which mow are or whall be hereafter nasigned to comatables in relation th the preservation of the pence, the preventinn if erimes, and of offeneres ngainst the laws nom ordimuces in foree in the Nonth-Wiest Territorica, anid the apprehension of arimimals and offembers mud others who may be lawfully taken into custady.
Tor attend minn any Juike. Stipemintry Magistrate on Justice of the l'ence, when therenito specially repuired, and subject to the orders of the Comaissimer on Superintendent, to execute all warrants and perform all duties and services in relation thereto which may. under this Act, wr the hawn and ordimnees in force in the North-Went Territaries, lawfilly he perfurmed by constables.
'To perforin all duties which may be lawfully performed by comstablen in rehation to the eweont anil conveyance of consicts and other prisoners, or lomaties, to or from any courts, phaces of punislament or continenent, asyhums, or wher phaces

And tor thene purporses, and in the performanee of all the dution ansignel to them liy or under the nuthority of this Act, they shall hawe all the powers, anthority, protection and pivileges whieh any comstable now luns on shall herenfter by law have.

The Governor-in-Comucil may, from time to time, make rules and regnlations for my of the following purposes, viz: Tor regulate the number of the Force, not exceeding, in the whole, the number of three hundred men as hereinlufore provided ; to prescribe the number of men who shall be mounted on horsehnek; to requlate and prescribe the clothing, arms, training and discipline of the Police Foree ; to regulate and prescribe the dutios and anthoritien of the Commissioner and Superintemdents of the Foree, amd the several places, at or near which, the same on the Force, or any purtions thereof, may from time to time be stationed ; and generally all and every such matters and things for the good government, discipline and gnidunce of the Force, as are not inconsistent with this Act; and such rules and regulations may impose penalties not exceeding, in any case, thirty Mnys' ping of the offonders, for miy contravention thereof. and may direct that such penalty, when incurred, may be deducten from the offemider's
pas: they may determino what ollicer shall lave prower to dechme such
 enacted by law.
 the Comminsioner, with the mprownl of the (iovermor-in-Council; anl be aplicable to the payment of such rewards for good conduct or moritari-口usservices, as may he estahlished by the Commissios:ors.

Siy member of the Fonce may be nospended from his chatge, on domissed by the Commissioner, or by any Superintement to whin the Commissioner slall have shelegated the fower to dorso : mid any Supero intrinkent may be suspended from whice by the Commissioner until the
 |rinsion of dismissal slall take effect from the time it shall be male known, either armlly or in writing, to the party suspemed or dismissod.

Ding Superintendent or my member of the Furee sumpended or dismissol, shall forthwith deliver up to the ('ommissioner, or to a Suprinlendont, or to any constable nuthorized to receive the same, his clothing, arms, imeontrements, and all property of the C'rown in his pussession, as a member of the Force, or used fur pulice parposes: or itn emse of his refusing or neglecting so to do, shall incur a peonlty of fifty dollars.

Whenever the Comminsioner shall deem it desimble to make or eanse to be made any special enpuiry into the conduct of my Superintendent or any member of the lolice Force, or int" my complaint ngainst any of them, he or the superintendent whom he may npoint for that purpose nay eximine my person on oath or attirmation on any matters relative winch enguiry, mad may alminister such onth or allirmation.

If any person shall unlawfully dispose of or reeeve, buy or sell, or have in his pressession without lawful enuse, or shall refuse to doliver up when theremitu lawfully reguired, any horse, vehicle, harnesn, arms, accontreInents, clothing, or other thing insed for police purpuses, such person shall thereliy incur a penalty not exceeding double the value thereuf, in the discretion of the Magistrate before whom he is convicted.
It shall be lawful for the Governor-in-Comeil, from time to time, to fix the sums to be annually paid tu the Commissioner, Superintendents, and wher otticers of the said Force, regard heing lual to the number of constables and sub-con tables, from time to time, neturlly arganized and enrollerl, and the consergent renponsibility attaching to their oftices aforesaid, respectively, and to the nature of the duty or service, and amomit of labor devolved upon thent, but such smms shall not be less or exceed the anounts following, that is to say :-

$$
\begin{gathered}
\text { Commisnioner of Police, not exceeding } \\
\text { und not less than }
\end{gathered} \quad \cdot \quad . \quad . \quad . \quad \$ 2,000
$$

And each constable shall be paid wot excecting the sum of one dollan per day : and each subeconstable shall be paid mot exceoding the simu of seventy-five cents per day.
The (iovernor-in-Council may, in lien of the apmintment of a Surgeon, or of a Veterinary Surgeon, authorize aryugements to be made with any person or Veterinary Surgeon to perform the duties of Surgen or Veter inary Surgen for the said Force, as tu any portions or detachments thereof, amd may pay reasonable and proper remmemtion for any services wo remlereal.

The Governor-in-Council may also from time to time regulate and pro scribe the amomesto be paid for the purelase of horses, vehicles, harness, saldlery, elothing, arms, and acontrements or articles necessay: for the said Force ; and also the expenses of travelling und of mations, in of boriling or billeting the Force, and forge for the borses.

The (Governor-in-Comal may make regulations for the quartering, billeting, ind cantoning of the Force, or any protions or detachnents therenf, and for the furnishing of boats, carriages, vehicles of transport, hosses, and other conveyances for their transport and use, and for giving adequate compensation therefor; mal may by such regulations impose fines not exceeding two humdred dollars for breach of any regulation aforesaid. or for refusing to billet any of the suid Force, or to furnish transport as herein mentioned. But no such regulations shall authorize the puartering or billeting of any of the Force in any munery or convent of any religions order of females.

The Department of Justice shall have the control and management of the Police Foree, and of all matters connected therewith ; but the Governor in-Council may at any time order that the same shall he trimsferred to iny other department of the Civil Service of Canada, and the same shall accordingly hy such order be so transfered to, and he under the control and managemement of such other Departmint.

The Commissioner, and every Superintendent of Police, shall be fir officio a Justice of the Peace within the Province of Manitoba; and the

Surgerin, with : ir Veter its there wites so :and jurecles, haraecessaly ations, in ring, biltherouf, , horsises. ins ideose tiner foresialid, sport as quart er any le
contables and sub-constables of the Police Fore shall also have and exercise within the Province of Manitobin all the pewers and authority, rights and privileges by law ippertaining to constables under the laws of the bominion, for the purpuse of earrying the same into effect.

The Governor-in-Comeil may fom that to time enter into arrangemonts with the (iovernment of the Prowine of Manitoba for the use or amployment of the Police Forse in aiding the alministration of justice in hat lrovince, and in carrying into eflect the laws of the Legishature thereof : and may in any such arragement agree and determine the ammot of money which slatl he paid by the Provinee of Manitola in re--rect of my such services of the said Police Foree,

It was mot, however, matil Soptember, 187:3, that activo Args wre taken for the orgmization of the fForer, and as it Was the intention of the (iowormment to semel the men bey the Diwson Road, but little time was left for the selection of anmdidates for enlistment. In eonserplence of this, a mmane of inferion men fonme their was into the manks of the tiost wtarhment sent to the North-West. In Octoher, 187:3, abomet ane hameded and filty men, in small, straurling purties, fommb therir wis into the Province, and were gramererl at the Stome Fort, mach incomvenience amd liscomfort being cansarl ly the lant of a great protion of than uniform aml winter elothime laning frozen in on the lanson ronte. About this time, ('olond French was appointed to the position of Commissiomer, and in dammary he manle a fill report on the state of the Force nuel its requirements, morl later on in thr spring he commaniated his views to the (xovermment on the puestion of supplies and transport.

At that time the whiskey tralers in the North-West were playing sad havoe with the lndians, and it was decided by the authorities at Ottawn not only to mase the Force to its full strength of $\mathbf{3 0 0}$ men, but also to thoronghly equip it for servier. Arrangements were at once made for the supply of ams, ammmotion, stores of eveiy description, field-grms:
horses, ete., ete. The men raised in 1874 wese of a suprion class, and most of them had had experience in military service, some having been in the regulars and others in the militia. But a great many were indifferent horsemen, and as the Act required that each man shonld be able to ride, some tronble was experienced in breaking the men into a knowledge of horsemanship. Sone time, therefore, was spent in Toronto, where the men assembled, in drilling them, and on the 6th June, 1874 , the foree, consisting of 16 officers, 201 men, and $\mathbf{2 4} 4$ horses, left that city vir the United Statiss, for the North-West. Passing throngh Detroit and Chicago, the force arrived on 10th Jume at St. Panl, where a day's rest was enjoyed, and on the 12th it reached Fargo, the end of railway travel, and, having disembarked, prepared for the overland jommey across the prairie. On the listh the journey was ircommenced, and having a number of spare horses, quick tinuwas made until, on the 19th June, the whole party arrived at Dufferin, on the boundary line. During the trip through the United States, the conduct of the men had been most excmplary, and no accidents of any consequence occurred, so that the expedition, on the whole, proved a success. But on the night after their arrival at Pembina, the men had a most trying experience of the difficulties and dangers they were likely to encomster in their new life. A fearfal thunderstorm broke over the emmp, during which the whole band of horses stimpeded, breaking from the corral in which they were placed. smapping halters, picquet ropes, etc., and even knocking owe waggons in their mad tlight. A few of the men were severely injured in endeavoring to stop the frightened animals, and several days were lost in looking for and bringing back the horses to camp. are serthe miliid as the de, some a knowspent in , and on cers, 品O1
tatiss, for cago. thi" a rest was : railway overtinul $y$ was prnick timu ariven at ough the pst exelul, so that it on the most trivere likily rom broke ses stilue placel. ing over severely nals, inul back the

After this the camp settled down, preparing for their mareh to the lar west, and on the 10th luly, a start was mate in that direction, there having been in the meantime only one or two desertions. The train, when fully on the way, was probably the largest that arer passed over the plains, it being. when elosed up, a mile and a half long, and sometimes when straggling, it was fully five miles in length from alvanced to rear grard. It was an astonishing eavalcade, with its amed men in bright miforms, its carts and waggons laden with smplies, among which were phonghs, harows, mowing machines and other ngricultural implements. Alongside the carts, droves of cows, calves, and oxen were driven, and the guestion which wonld have puzaled a stmager was, what conld the the mission of the expedition-was it for peace or war. It was for hoth, for fighting, if necessary, but in any (asce to establish posts in the interior.

We have not space to give the detnils of the tedions and diffienlt march of the force, but on the 15 th October, it reachel the Hulson's Bay Company's post on the Qu'Appelle, where the party was hospitably received by Mr. Maclean, the offieer in charge. The men had travelled 3603 miles in 15 d days, or an arerage of about 24 miles a day, without meeting a single hmman habitation on the way. From Qu'Appelle, the force made its way to Foit Pelly, arriving there on the 21 st October, after mach suffering from coll. There a division was left in charge, and the route once more taken for Fort Ellice, where a few men were stationed, and the remainder of the forer started back on the return to Dufferin, arriving there in Sorember.

Daring the time the expedition was absent, all sorts of rumors were indulged in by some of the Canadian newspapers
to the eflect that disaster and death had orertaken the fiome. That they suffired a gool deal is moleniable, but, motwithstamding the scarcity of hay, from prairie-fires, and the death of 14 mmber of amimals from eohl mul other cmases, the axpedition was on the whole suceessful.

It was the commencement of the enforeement of haw and order in the North-West Torritery. For the eredit of the Dominion and of homanity, it was mosolutely meessany that a stop shonld be put to the disgracelal serones that wre daily leinge baded on the Bow mad Belly rivers, and the Cypros Hills. As the work of preventing iandessmess and violence in the North-Wist was to he antrosted to the Moment Police, it had heen dereded to maise the force to its full strength, and on its arrival at Duthorin it was divided into six divisions on troops. amb started on the expedition which we have briofly refered to, alld which vertans might well have faltered at 'Tied down ly mostringent rukes or artieles of war, but mbly ly the silken eord of a civil contact, the men gave little eans. for complaint during the arduons journey. Day after lay on the mareh, night after night on piequet or guard, and working at high pressure daring four months, from day light until dark. mot a man grombled or shirked his dhty. 'The fact of homsu and oxen failing, and dying for want of food, never dishentaned or stopped them, but pushing on on foot with dogred determination, they carried through the service repuired of then, under difficulties which conld only be appreciated hes those who witnessed them. Thas, early in the day, did tho Monnted Police emm a name for themselves as brave amb steadfast soldiers, a mame which they have sustained mutil the present day.

> Swan River Barracks, 26th July, 1sici.

Tu Lient. Col. French, Commissioner, Nowth-H'st Monuted Police.
Sin - We the undersigned non-commissioned ofticers of the North-West. Momed Police stationed at Swan River, beg mast respectfully to ask your acceptance of the acempranying goll wateh, as a slight expression of anr respect and esteem.
We wish to take this opportunity of expressing our thanks to you for the insamble impartiality and justice we lave always experienced at your lands, and niso for the support we have always reveived from you in the execution of our duty during the time we have had the homor of serving muler your command, and to express our great regret, benth indivithally and collectively, that circumstances have arisen which have recosioned your withdrawing from the Force. This expression of our feelings las not heen called forth solely by recent nccurrences, but until the present time we lave hat mo appropriste ophintunity of testifying our full sense of the respeet in which gon are hed by us.
In wishing yourself, Mrs. French and family, health and happiness in the future, wo venture to hope that your thoughts will turn hereafter wel unferpuently, with kindly feelings to a Force, your depurture from which is regrettel by nome more sincerely thin by your whedient serramts, Simmel 13. Steele, James R. Mitchell, Jos. Price, Fronk Norman, Samuel Itomer, Cuthiert R. sallery. Willian Tuke, Charles E. Puhman, Cornelms Kinght, Thos. H Lake, Alex. N. DesForges, (ienge D. Inumill, Hugh Beatum, Jawes (Gille, Beujamin Welsteaul, Willian Parker, Preter MeDomald, Cartney Words, Willian Latimer.

The men then presented Mrs. French with a hamkome sil ver hreakfast-service, acempaniol by an apropriate ahdras. and in this happy manner was severed the comection of the first Conmissioner with the Mounted Police Force.
'The first attempt at farming' around the posts of the NorthWest Mounted Police, was in 1877, when twenty acres arommd Fort McLeod were sown with oats, and five acres in potatoes. The crops were grood, and it was hoped that the great cost of
forage at distant posts might he reduced by growing oats in the territory instend of importing them.

The strength and distribution of the force in Novembere, $1 \times 7 \mathrm{~T}$, were as follow:-

| , |  | Comstables of all ranks. | Horres. |
| :---: | :---: | :---: | :---: |
| Fort Mcleod, | - - | 11:3 | $1: 3: 3$ |
| Fort Walsh. | - - | 89 | i) |
| Wood Mountain, | - - | 17 | 15 |
| Pintu Horse Butte, | - - | 1 | 1:3 |
| Milk River, | - - | 3 | - |
| Fort Calgary, - | - - | 27 | $4: 3$ |
| Fort Sinskatchewan, | - | 2:3 | 20 |
| Battleford, | - - | 14 | 6 |
| Swan River, | - - | 24 | 15 |
| Shoal Lake, | - - | 7 | 7 |
| Qu'Appelle, | - - | ( | : |
|  |  | 339 | 31.) |

The accommodation afforded by the different buildings an posts established in the North-West was at the close of 1807 as follows :-Swan River, 150 men and horses: Battleford, 50: Fort MeLecul, 100; Fort Calgary, 25 : Fort Saskatchewan, 25: Shoal Lake, 7. The buildings at Swan River and Battleford were erected by the Department of Publie Works, those at the other posts by the Momnted Police.

The expenditure during 1877 for the service was 8389 ,4!3.05, or an average of $\$ 1,000$ per man and horse. Enquiries with reference to the cost of pay and maintenance of Unitel States troops show that the cost of the Mounted lolice was at that time fully one-third less per man and horse than the cost of a cavalry soldier of the U'nited States and his horse.
ir onts in ovember. Howsers.

It will be our pleasure in a later chapter to recount the many services rendered by this noble body of men from the time of its organization under Colonel French matil the presint day:

(1) whon the North-West ham heen a terra inergatio, only thometht of as the home of the womlering Indian, the pasturnge of the buffalo, and the fine preserve of the Holsonis Bay

Mr: Dawson made a fiavorable rejne on the fensibility of a
 commandeal the construction of a wageron road from Thamber Pay to Doy Lake (Whelmodowan), ex miles: across the prairice mul samme portages, ob miles: past the twolve portnges on the some River 7 miles, and from lat Phat (or Shoml Lake), ris Pointe de Cliene, to Fort Garys ! ! ! miles, a total of wagem mad of 1312 miles. In comnection with the romds, he avisel the phacing of stemboate on Dog Lake, Savame River, Lie des Mille Lacs, Seme River, Rainy Lake mal River, and Lake of the Woorls. He estimated the total distance, by land anl water, from Thumder Bay to Fort (inry, at $4!9$ miles. This muphibions highway was to le improved hater on保 the construction of a railway for 105 miles, from Thmoder Bay whany Lake, a camal and locks at Fort Francis, on the Rainy River, and ! $1 \frac{1}{2}$ miles of milway from the north-west anghe of Lake of the Woods to Fort Garry. 'Thr waggon romds alloded to were afterwards made, partly by Govermment (montractors and partly by the soldiens of the Wolseley Expeditim, and were used for a time for the transportation of immigrants, but were abandoned shortly before the Pembina Branch of the Canadina Paeific Railway was built.

Further exploration of the North-West was suspemded for some years, until after the formation of the Dominion, and the cession of the comntry to Canada. In 1871, a reconnaissance of the comntry lying west of the great lakes, was made at the instance of the Dominion Government, to ascertain the possi-

Photographic Sciences

hility of eonstructing a milway to the Pacitic coast. Thu exploratory survey was made muder direction of Mr. Samemen Fleming, ('hief Engincer, 色 a mumerons staff of emginems and surveyors, who traversed the comitry in every diection in seareh of the most eligible line for the great trans-entinental railway. 'The work undertaken was a stupendous mue. it was no less than the exploration of an area embracing fiftedegrecs of longitule and ten degrees of latitude, or, pint in other terms, a length of twenty-seren humdred miles, les a hrealth ranging from three to five hondred mikes. An arom about equal in extent, and ocenpying, geographically, the salme position as France, Belgimm, Holland, Germany, Prusisia, and Russia in Einope. The eastern and western portions of this vast territory presented immmerable ohstacles and didiculties to the surveyor, while, in comparison, the central or pranime re, wion was easy of access and opposed no merions onstacle to the progress of the work. 'The (iovermment very wisely le lt Mr. Fleming entirely untrammelled in entrusting him with the work of exploration, merely directing him to spate no affint to discover with the least possible delay, a practical route for a railway from Ottawa to the Pacitic. In initiating the work. Mr. Fleming laid down the following principies for the guidanee of his staft:-

First-'That every effort should be directed to the discoray of a line through the woodland region (from Ottawa to the Red River'), which wonld prove the shortest and best possible between the existing malway system in the two elder frovinces and the Province of Manitoba.

Second-That the above line should touch, or by a bramed comect with, Lake Superior, and constitnte, as nearly as $\boldsymbol{\mu}^{\omega \text { is- }}$ sible, the shortest and cheapest outlet for transport of natmal
problacts from the praide region to the mavigable waters of the sit. Lawrence.
Third-That the greatest possible energy should be brought to har on the work of exploration in the westem region (the Rowky Momntains), in order to diseover, with as little delay as possible, a practicable line for the railway through the Rocky Momtain zone: a line which would prove the shortest aml least יxpronsive; which would best subserve the interests of the romutry, and lead to the most eligible harbor on the Pacific coint.

Fonth-That the ronte for the railway throngh the prainie rugion, while comecting with the lines in the eastern and Western sections, so as to reduce the distances between the Atlantic and Pacific oceans to a minimmo, should be projected to aroid the most fomidable river crossings, and approach the rich deposits of coal and iron, at the same time to lee conveniently near the large tracts of land arailable for settlement.

It would be impossible to enmmerate the difficulties aml vicissitudes encountered by the different engincering parties in the prosecution of the work contided to them in the space at our command: it would require a volume, and a large one, to recount the many instances of individual and collective heroism whieh the exigencies of the sorvice continually ealled for, and which were nobly responded to by the brave fellows in the performance of their duty. Deeds, as worthy of reeorl as my ever done in battle, were of almost daily oceurrence on the C.P.R. surveys, and althongh they have not yet formerl the subject of romance or poem, the heroes of them can look with pride to the result of their phack and endurance: the Camadian Pacific Railway-a lasting monmment to Camadian cuterprise and patriotism.

The work of locating the line throngh the enstern section. from ()ttawa to Red Riser, was arduous in the extreme. The country was practically moknown, and, away from the shoms of the lakes and the canoe rontes of the fir traders, han never hern traversed by eivilized mam. Its rugged aml broken chamater, eovered with dense forest and impenetrabl. molergrowth, and intersected by inmmeralle swamps, mimskegs, lakes and streams, rendered it most diffienlt of acerse, and the surveyors had literally to hew their way from point to point-a tiresome and laborions progress, rendered mon irksome by the myriad inseet pests that beset them during the smmmer, ami the rigors of the semi-aretic winters. 'The' location of a pass through the Roeky Mountains was attember with similar difliculties. All that was known of the comtry. or very nearly all, was contained in the report of Captain Palliser, presented to the lmperial Govermment, in which he had puestioned the possilility of constructing a raihay throngh monntains within the limits of British territory. With only this discomraging data to work on, the Canalian engincers entered the field, to conguer Nature in her most formidable aspect, and give one more proof of Richelien's famons epigram:-" In the lexicon of youth, which fate reserves for a bright manhood, there is no such word as fail:"

The prairie country opposed no very serious obstacle to the work, yet those who performed it were beset with many ditticulties and dangers, which were cheerfully encountered and lravely overcome.

Attuched to the engineering staff' were specialists, whose duty it was to study the botanical, geological, climatological, and topographical features of the country, both along the proposed line of milway and in the tributary territory. The
section, e. The e shores ers, hall red anl netrable ps, 1 mll of accers, om peint ed 1moter a durinus ars. 'There attendel comitry, Ciptain which l" railway territory. Canadian her mont ichelieu's fate reas fail:" ele to the any difticered and s, whose tological, the prory. The
location of a telegraph line was also undertaken, aud such a line was constructed and put in operation from Wimipeg to Battleford, long in alvance of the railway. Even at that time, Mr. Sandford Fleming outlined a phan for a Canadian Pacitic oceanic cable, connecting the Dominion with China, Japan, India and Australia, which he pointed out would be of great importance to the entire British empire.
The main line of the Camadian Pacific Railway from the Red River westward, was origrinally surveyed from Selkirk in a north-westerly direction, crossing the narrows of Lake Manitola alud the Battle River at Battleford, at its junction with the North Saskatchewan, thence in a direction a little north of west, to a point on the Athabasea River, where it skirts the Foot Hills, thence via Jasper Honse, through the Tete Jame Cache, to the Pacitic coast. Another line, which ran from Selkirk due west to the boundary of Manitoba, and thence north-westerly to Nut Hill station on the main line, was projected, but also abandoned, as it was not calculated to serve the settlements along the Assiniboine River, at High Bluff, Portage la Prairie, and further west. The difficulties met with in the mountain region were so great, and the cost of construction appeared so enormous, that the engineers were put to their wit's end to overeome what appeared to be insurmountable obstacles. The problem of discovering a pass through the mountains that would partake of the three requisites of directness, convenience and comparative cheapness, was before them, and all their energies were bent to solve it. At the end of $\mathbf{1 8 7 5}$, no less than thirteen different lines had been run through the valleys of British Columbia, eleven of which converged from their coast termini to the Yellow Head Pass, and the end was not yet; year after year the work went
on, line after line was loented and abmadoned, till on (octolew 4th, 1879), an Order-in-('omeil was passed, alopting the route via the Yellow Heal Phss to Burrard Inlet.

A regular system of station gromds, town sites, and farm lots, was outlined in connection with the location of the main line through the prairie section. Stations were to $l_{10}$ ten miles apart, amb each was to be suromoded hy a town phot and a gromp of park lots and market gardens. Fiams wow to be survered between stations on cach side of the right of way, with their rear ands to the railway line, and frontine on a rond allowance at one mile from the track. It was sugerestwl that these fams should be withhed from sale montil all the other farming lamds outside the two mile malway belt han been taken up, and when sold special stipulations should he imposed on the purchasers, for the mantename of the railway fronces, planting of trees, or other provisions to prevent show drifts on the line, and also the prevention of tires from spatis from the locomotives. But this plan was never adopted, aml, in fact, the whole line, the directions of which we have deseribed, west of the Red River, was subsequently abandoned on the formation of the present Camadian Pacific Railway Company, whose operations are marle the subject of a separate chapiter.

In locating the line of railway so far north of its present position, the Chief Engineer was actuated by several motives. He desired to open up to settlement what in his judgment, guided by the opinions of his chiefs of staff, was the most fertile and promising of the prairie region. He intended that the railway should touch, at convenient points, the lakes and waterways which promised facilities for traftic in comection with it. He wished to atford access and easy and cheap trans-
()etalı! herontr thid fillols the miln , $1 \times 11$ wn plot 'ms worror right of mting on sugerestil all the bolt lime honld las a milway ent suow 111 spatrks ted, aml, have kebandoned Railway a separrs present motives. ndgment, most firidel that lakes and onnection ap trants
fratation to mal fyom the coal and irom districts of the saskatchewan amd leace Rivors, and to avoid, as momeh as possible,
 was wrombled, and the southerin ronte mopterl, must not be takem as a reflection on his skill, but must be attributerl to its than anse, the necessity which presented itsolf of phshing the rome through the prairir section ber the most direct line, in order to eonnect with the enstern inm western sections, within the time limited for the eompletion of the whole work.
(Ond marked effect of the mamerons exploratory survers matre west of the Red River. Was the distribution of settlefornt along each of the lines had down. The sottlers watelned "rer move of the engineers.and wherevor a stake was plant(ed. a squatter was almost sume to he fomml, calmly awaiting wents in the shape of the iron horse, amd a milway station on his guartur section.

Besides the explomations marle lor the location of the line of milway, a great amonnt of work was dome in taking levels, and ascertaning the value of the varions lakes and divers as maviable waterways. The Red River, Assiniboine, and Siaskatchewan (north amd sonth branches), were examined and reproted on. Lakes Manitoba, Wimipeg, and Wimipegoosis, wree exploned, as well as their comections and plans for utilizing them as feeders and accessories to the railway were formmated. It was ascertaned that the main Saskatchewan is mavigable, to properly-constructed stemmboats, from Grand Rapiids to Edmonton, and on the south branch, from the Forks to Blackfoot Crossing. It was suggested that the great impediment to maigation, the Grand Rapids, might be avoided altogether by establishing communication though Lakes Manitolat and Winnipegoosis.

The value of the mass of information gathered by the raitway engineers and surveyors in the course of their explomtions is beyond estimate. To them we owe the greater pro tion of the knowledge we possess of the resources of the North-West, so that, even in eonsidering the fuet that agrant deal of their work was rendered nugatory by the abandonment of the northern route, we must acknowledge that thir services were invaluable to the comntry at large in furmishing information regarting our matural riches, which many yoar of less concerted action might have been necessary to revenl.

The cost of the smrveys was considerable. Up to December 31st, 1879, the explorations and surveys had cost 83,119 ,617.

During the explorations and surveys, aceidents were necessarily of eommon occurrence: many were of a serions mature. and a number were fatal. On August 7th, 1871, an exploring party was hemmed in by a forest fire on the north shore of Lake Superior, between the Nepigon River and Long Lake, and seven men were burned to death. May 20th, 1872, four men were drowned by the upsetting of a canoe on Lake Tellisemmingue. On November 26th of the same year, three men commected with the surveys were lost in the wreek of the steamer Mary Ward. Seven other deaths were reported in 1872 and 1873 , of whom four were drowned by the upsetting of cenoes or hoats, one by hreaking throngh the iec, and two died very staldenly from hemorhagie seurvy, the result of hardship and expesure. In all these eases, the Govermment granted to the wives or families of the deceased a sum equivalent to eighteen months' pay.

It is written somewhere that for every trial endured, no matter how arduons, in the performance of duty, a compensa-

tion has been providen in the conseionsmess of the performer's hasing done his daty well and faithfully, and with all the arength and skill which he possessed. The Cammian Paeitie surverors hat their intervals of eompensation from the peine fint et dure, which was their daily portion while in the field. Ifter a hard day's work, tramping through almost impenetrable mulerbrash, waling through muskegs, fording torments, in rlimbing precipitous mountains, lat always pushing onWarl, wo matter what the obstacle encomered-after such a Way-when the rough fare had been disposed of, and the party assembled around the camp-fire to exchange experiences, and enjoy the soothing delights of a pipe of grood T. 太 B. to-hareo-the past was forgotten, and langhter and song uwok: the echoes that possibly had never before responded to a haman voice. Such moments will live in the memories of the survivors of the Camadian Pacific surveyors long after the ricissitudes of the old days have been blotted out. The merry songs and ringing choruses that were sung around those camp-fires were, in many instances, composed by some member of the party, and therefore the more highly prized爫 his comrades. We deem it appropriate to reproduce one of those, written by R. La Touche Tupper, which was very populan, and was sung in every camp from Lake Nepigon to the: Yellow Head Pass:-

THE C. P. S.
Air-Les Dence Gendurmes.
Far away from those we love the dearest, Who long and wish for home,
The thought of whom each lone heart cheereth, As 'mid these North-west wilds we roam, Yet still each one performs his duty And gaily sings :

Tra la, la, la, la, la, la, la, la, la, la, la, Harra: the jolly C. P. S. :
'They've at home uma Superior's shore,
Hurra : We'll ilrink to th-lil suceess,
Smel a safe return alle more
From all pate of our new Dominion,
As strangers each the other met,
We'll strive for encia me's groml opinion,
And part with nothing but regret.
And as we trodge along the line, byys,
We'll gaily sing :
loul la, la, la, la, la, la, la, la, la, la, la,
Hurra! the jolly C. P. S. :
In the wools wr prairies, widal and free,
Hurra! we'll drink to them suceess,
Wherever they may be
When home in spring we me returning, I tired amd weather-beaten bamb,
We'll find the lanup of lowe still burning For us, by shate fair, constant hand.
For wives ant sweethearts --cheer then heartyAnd gaily sing:
Triala, la, la, la, la, la, la, la, la, la, la, Hurra : the Jolly C. P'. S.
Harra : for those at home we love so dear,
May Hewen ench lovel one there bless-For' "sweet home" we'll raise a cheer.

This romed, opermed in 18nit, sumomang the Cascades, entered the errat phatean which lies between them and the Rocky Momotains, mul, as eally as 1864. Mr. Allied Waddington pointed mut the fansibility of continuing the roml thromg the Rocky Mountain Range, at its northem extremity, and thas secoming an mas mems of commmiention with the great plains stretching eastwarl to the Red River: As we have seen, Mr. S. J. Dawsom reported upon a combined land and water ronte from Thmmder Hay to Fort Garry, in 1858, and his suggestion was acted upoi ten years later, when the Govermment of Camala commenced the construction of the " Dawson Roml," the Red River
setthers madertaking to baild the portion of the roml betwonn Fort Gary and the Lake of the Woods. 'They were, lowever. relieverl of this ohligation, in consideration of their having lost their entime crops throngh the ravages of grasshoppras, in Istis.
'The making of these romds, by which the western prairim were made aceessible fiom the enstern Provinces, and from British Columbia, was the forermmer of the more important umbertaking-a milway from ocenn to ocem, entirely within Camalian teritory. 'The scheme of eonferlemation of the biritish North Ameriean colonies, which was at that day an aho sorbinge subject of disenssion, threw a new light on the pro somrees and future possibilities of the Dominion, and the prospect of an inter-oceanic milway began to be spoken of ly a few emmest, pratrotie men, who were regarded as dremmers. The difliculties-matmal aml fimmeial-that stood in the way of such an mulertaking were comsidered insmmountable by the majority, but the enthusinsts continued to alvocate it, comvinced that upon its accomplishment depended largely the development of the natum resources mad the consolidation of the: power of the Dominion. Mr. Alfred Waddington was an earnest aud untiring alvoente of the great work. He hall constructed wagron roals, at his own expense, through the wildest momntnin regions of British Colmmbia, and he felt that the builling of the railway was far from being an impossible project, but, when properly understood, would become a simple question of expenditure. He calculated the cost of the railway at thirty-two million pounds, hut he urged that this mount could be easily raised by subscription, if the project were endorsed by the Imperial Government, and assisted by a liberal land grant from the Dominion. nd firon nportant $y$ within the Bri－ $y$ III 11. the tro the pros－ of bex Ireamers． the way ituble be te it，com－ $y$ the de－ lation of n was an He limil ough the felt that mpossible ne $n$ sim－ st of the that this e project sted by a

By the terms by which British Colmmbia entered the Do－ minion，it was provided that the Govermment of the Dominion should secure，simultaneously with the Union（July 20th， 1871），＂the commencement of the construction of a railway from the Pacific towards the Rocky Mountains，and from such point as may be selected east of the Rocky Mountains towards
the Pacitic, to comect the seaboard of British Columbia with the railway system of Comada: and finther, to secure the completion of such milway within ten years from the date of the I'nion."

This agreement committed the Dominion to the building of a transcontinental milway, and we have shown how enmgetically the work of explomation and surver was mulertaken and earied ont, but the actual construction of the roal wan mavoidably delayed beyoml the terms of the Coiom. There were sevmal causes for the delay-the ditliculties comentered by the survevers in locating the line in the comntry moth of Lake superior: the fimding of a suitable pass and grationt through the Rocky Mountains, amd the maillingness of apitalists to invest in such a gigantic work, were the principul ones. During the session of 1871 , Mr. Wadllington hat a Bill introluced in Parlianent chartering a Pacitic milway, but he did not press its passage through the House. He associated with himself Messrs. C. M. Smith, of Chicaro : James Beaty, Jr:, Toronto: Mr. Kesterman, Mr. (i, W. MeMallen, Mr. S'ott. Philadelphia: Mr. Ogden, New York, and General Cinss, New York, and drew up his agreement amb terms upon which his company would undertake the construction of the road. Th" members of the Govermment were not satistied with either the agreement or the personnel of the company. They wished above all things that the road should be built by C'madians. and did their lest to induce Canadian capitalists to madertake the work. They were specially opposed to Americans getting' control of Canada's national highway, and Sir George E. C'artier, in particular, was emphatic on that point. He said, " Aussi longtemps que je vivrai et que je serai dans le Ministè̀e, jamais une sucrée compagnie Americaine aura le control
mbia with secure tha the late of e builiting

It the session of $185 \cdot$, an Act was passeal to povide for the construction of the C'analian lacific Railway, the work to he commenced mot later than July, lisis, and completed within ter geass. The work was to la done by a private (ompany, which was to give proof of its ability for the mond taking log locking with the Receiver-(emeral an anome of moners sutficiont to gramantere the prosecotion amb completion of the work. The bill gave the Goverment pewer to arramp terns with imy company to which ther bight grout a charter. The sulnsily to the compmer was to consist of lands and momery the land grant to be altermate blocks, twenty miles sheep, along the line, and the moner subseription s:30,000,000. The land blocks were made twenty miles reepp so as tamak the grant mifom with that ngreed to be given to the Railway by British Colmblia. The (iovermment expectert that the sales of lands in the alternate bocks, reserved isy them, would be sutticient to rembme the comstry the cash subsily: It that session, two companies. I'le Cemeder Prectice and the Inter-Ocentri, were incorporaterl, hat the Honse proregued without either of them complating any armagement with the dovermment. The C'malian Paciite Company was formed by Sir Hugh Allam, and the Luture ()emic ber Semer D. L. Macpherson. During the recess of Parliament, efforts were made to ammamate the rival empmies, but no arrangement could be arrived at, owing, it was said, to the claims of Sir Hugh Allan and Semator Macpherson to the presidency of the proposed conlition. Thu puestion was timally set at rest hy sir Hugh Altan forming in mempany, com-

[^5]posed exclusively of Canalians, and to which the Govermment granted the charter. The directors were: Sir Hugh Allam, President; Major John Walker, Vice-President: Messis. Wialter Shanly, C.E., E. R. Burpee, C.E., D. Mcfunes, Fred. II. C'mberland, Hon. Adams (i. Archibald, Sandford Flening. (.E., J. O. Beanbien, J. B. Beandry, Andrew Mcl)ermott, R. N. Hall and J. S. Helmeken. Honomble J. J. C. Abbott was ajpointed Solicitor of the company:

Provision was made in the charter that none of the diretors, who held the whole stock of the company, shonld sell ont their interest for six years withont the permission of the Govermment. This precaution was taken so that there womld be no danger of the eontrol oi the road falling into the lamis of loreigners. When the House assembled in Mareh, 187:3, the charter of the Canadian Pacitic Railway Company, the text of which will be fomd in the Appendix, was ratified by Parlimment: the prospects for a speedy commencement of construction were bright: and Nor'- Wester's congratulated themselves that the iron horse wouk soon be a welcome visitur: But these hopes and expectations were doomed to bitter disappointment. On $A_{\mathrm{p}}$ ril Brd, Mr. Lacius Seth Huntington, an Opposition member, moved a resolution of want of contidenere in Sir John Macdonald's Government, in which he accused Mr: Abbott, a member of the House, with entering into an agrerment with Sir Hugh Allan to furnish money to the Ministers for election purposes: the consideration of such agreement being the granting of a charter to Sir Hugh Allan's company. This resolution was seconded, but not spoken to: it was put t" the House and lost by a Govermment majority of thirty-one. A committee of the House was then appointed to investigate the charges ontlined in Mr. Huntington's motion, and, as a sh Allin, ssiss. WialFred. II. Fleminy. rott, R. . C . $t$ was il

Ministers agreement company. vas put to thirty-onle. nvestigate and, as a
question arose as to the power of a committee to examine withesses on oath, an Act was passed conferring sueh power, which reeeived the immediate assent of the Governor-Genema, Lord Dutferin. The Honse adjourned in May, and owing to the alsemee, in England, of Sir George E. Cartier and Hon. J. I. ( $\therefore$ Abhott, the Committee did not sit. Meantime the "Oatlis Act," which had passed and been assented to so hastily, had been dispatehed to Englam, as its legality had beroll guestioned, and in June, notice of its disallowance was cabled to Lord Dufferin. Sir Joln Maedonald now suggested that a Commission be issued to the members of the Committee, and the suggestion was agreed to by the Governor-General, but the Committee declined to act under the Commission. Parliament was to meet pro formu on August 13th, and then to be prorogned after reeeiving the report of the Committee, lut this programme was upset lye the disallowance of the "Onthis Aet," the death of Sir George E. Cartier, in England, and the refiusal of the members of the Committee to sit as Commissioners and, to emplicate matters still more, the Montreal Heruld published, on the 4th July, a number of letters and telegrams alleged to have passed between Sir Hugh Allan, C. M. Smith, and George W. McMullen, which at first glance appeared very compromising to the Govermment. The publication of the "Me.Mullen Letters" caused a wide-spread sensation. but the inference which might be drawn from them was almost entirely dispelled ly an atfilavit of Sir Hugh A!lam, whieh showed that they really had no signiticance in the sense which their publieation was intended to convey-the inerimimation of Sir John A. Macdonald, and other members of the Goverment-but clearly proved that the person who published them was a disreputable blackmailer, of the most contemptible type.
I.

Before the meeting of the House, on Augnst 13th, a delegation from the members waited on His Excellency with a memorial, bearing nincty-three signatures, praying him that in view of the grave charges made against the Govermment, aml of which no investigation harl been marle by the Committee appointed for that purpose, that he would not prorogue the House mitil Parliament should have had an opportmity of dealing with the matter. His Excellency denied the petition on constitutional groumls, and Parliament was prorogued as had been contemplated. 'The Govermment now suggested the appointment of a Royal Commission to investigute the charges, and on Angust 14th. Judges Day, Polette, and Gowan, Wer selected as Commissioners. The appointment of this Commission was severely criticized by the Opposition leaders, but as the Court of Enquiry was an open one, and the members of it men of acknowledged talent and integrity, the puhlic wrer satisfied that the investigation would be conducted with innpartiality and strict justice. The result proved that the eonfidence had not been misplaced. The evidence adduced betor. the Commissioners went to show that Sir Hugh Allan, an aplieant for a railway charter, had contributed money to the election find, althongh there was no proof, direct or indirect. that any member of the Govermment had received or appropriated to his personal use, one penny of the money so contributed. But enough had been brought forward to arm the Opposition with a powerful weapon, in the form of that suspicion which the public mind is so apt to harbor against men in high office when they are accused of wrong-doing. In this instance the sentiment served the purpose for which it ham been so sedulously aroused and so carefully cultivated.

On the 24 th of October, 1874 , the House met, and in reply
a delenanith a mo. n that in ment, inul ommittre rogue the tunity of e petition nrogued as gested the de charges, wan, were ; Commins ers, but as uber's of it Bhic were I with inlat the conced befor Allan, in ney to the or indirect. or ar arome so contrio arm the that sinsainst men ع. din reply
to the Speech from the Throne, Mr. Mackenzie moved the following mondment: "And we have to aequaint His Excellence that by their course in reference to the investigation of the charges preferred by Mr. Huntington, in his place in this Honse, and unler the faets disclosed in the evidence laid before us, His Excellency's advisers have merited the severe censure of this House." Mr. Mackenzie, in moving the amendment, reviewed the whole case in an excellent speech, charaeterized by that moricration of language which he was famons for, even in his most excited moments. Mr. James Macdonall, nember for Picton, movel, as an amendment to the amemhent: "And we desire to assure His Excelleney that after consideration of the statement made in the evidence before us, and while we regret the outlay of money by all political parties at Parliamentary elections, and desire the most stringent measmes to put an end to the pactice, we at the same time beg leave to express our continned confidence in His Excellence's alvisers, and in their administration of public attairs." The debate which followed oceupied seven days, all the eloquence and talent of the House being brought to bear on the subjeet, and never had the Parliament of Camada bern the seene of more brilliant, powerful, and forcible oratory, as speaker followed speaker in impassioned bursts of appeal or invective. During the course of the debate, it beeme evident that several Govermment members had joined the $O_{p}$ position ranks, and, without allowing the question to be put to a vote, Sir John A. Mactonald amomeed the resignation of the Ministry on the 5th November, 1874.
This politieal change was a great misfortume to the NorthWest. It upset all the established regulations regrarding lands, and there is no doubt that it retarded the building of
the main line of the Canadian Paeife Railway for years, Besides materially inereasing the total amount expended for construction, through the vacillating policy adopted by the new Ministry, who attempted to prosecute the seheme as a publie work, and to utilize it in connection with the water stretehes hetween Lake Superior and Red River, and the nseless " Dawson Road."

## CHAPTER XV.

THE DAVIS GOVERNMENT.
T'ue formation of the Davis Government in Manitoba was followed immediately afterwards by a general election, which resulted in the new ministry being sustained, hut it was felt that the English-speaking portion of the people in the Province were not suffieiently represented, and that the preponderance of French supporters of the administration would be likely to cause one-sided legislation. In the legimning of March, 1875, therefore, the Hon. John Norquay, the leader of the ( $\mathrm{O}_{\mathrm{p}}$ position, at the desire of a majority of his party, eonsented to take office in the cabinet as Provincial Secretary, and by this aeguisition the Govermment became not only strong but popular. At the same time, Hon. Charles Nolin became Minister of Agriculture, thas increasing the number of cabinet ministers to tive, contrary to the promise made, and the policy presented to the people by the Davis Govermment on taking otfice.

In speaking of the reconstruction, the Standard, which had succeeded the Manitoban, said: "The Local Govermment has increased its strength by taking Mr. Norquay, the leader of the Opposition, into the Government. This is a sensible move. The crisis which is approaching is far too important to permit of sectional differences, and imaginary lines of party demarcation, interfering with the united action which will be neces-
sary on the part of both legislation aml govermment, to secme a recognition of the vital interests of the Province. We congratulate Mr. Davis on the wise course his Government has pursmed."

On the 31st March, 1875, the first session of the Secomil Parliament of Manitoba opened, and in the Speech from the 'Throne the following passage occurs: "The Executive Comcil, impressed with the gravity of this position of affairs (inaleguacy of the revenue), have represented to the Prive Comncil of Canada that the fimancial armongements established by the Manitoba Aet between the Dominion and the Province place the latter in a position of great inferiority to the Provinces of British Columbia and Prince Elward Island, as an examination of the terms granted to those Provinces will conclusively prove, and the Executive Comeil have urged that the houndaries of the Province should be enlarged, and the finameial tems revised in comnection therewith. Negotiations with the Privy Comel have been conducted, and wre still going on, on these subjects, and as a result thereof the Prive Comeil have adopted a Minute of Comeil, providing for the increase of the ammal subsidy of the Province motil the yar 1881, to the sum of one hundred thousand dollars, charging the same to the debt of Manitoba: but my advisers are of opinion that this proposal, although it would afford temporary relief, and although it evinces a gratifying desire on the part of the Privy Council of Camada to come to the assistance of the Province of Manitoba, yet requires from many points of view careful consideration before its acceptanee can be determined on. In order, therefore, to bring about a fair adjustment of this very important question, you will be asked to concur in an address to His Excellency the Governor-General, We comment has
se Secoml froir the ve Cominffairs (inhe Privy stablisheed Provinere the Promd, as : In s will conurged that l, and the erotiations are still the Privy nig for the I the year , charging els are of temporary n the part istance of points of be deterin adjustasked to r-General,
and Privy Conncil of Camala, asking for a revision of the timacial relations existing between the Dominion and the province, and also for a substantial enlargement of the boun/laries of Manitoba, both westwardly, ensterly and northerly."

While local politics were thus shaping themselves, Ricl had bern elected to represent Provencher in the Dominion Honse of Commons, but being afterwards expelled, and his seat Hechared vacnat, a new election , is ordered, amd on the 3 Ist March, 1875, Mr. A. (i. B. Bannatyne was elected by acelanation to represent the distriet, his opponent, Elie 'T'assé, withMrawing in his favor:

On the 30 th April, 1875 , a bill was introduced in the Local Legishature ly the Hon, John Norpuay, which, as he explained in his speech, was for the purpose of diminishing the expenditure of the Province by abolishing the Legislative Comeil. The bill passed the Assembly, but when it renched the Upper ('hamber it was thrown ont by the casting vote of the Spaker, Hon. Dr. O'Donnell, and thas, ulthough it was the wish that the Legishative Council should be abolished, it remained in existence for the time being.

The delay in the settlement of the Half-Breed Land Grant had oceasioned a good real of dissatisfaction among those interested, when in June, 1875, two commissioners, Messrs. Ryan and Machar, arrived in the Province, charged with effecting a serntiny of the persons chiming to participate in the 1,400 ,(000) acres set apart by the Manitoba Act for the children of Hall-Breeds, also of those who clamed to participate in the grant subsequently made for the heads of Half-Breed families, and in the scrip issue ordered for the white settlers who came into this countir between 1813 and 1835. The following is the advertisement which appeared in the newspapers an-
nonneing the presonce of the commissiomers mul the come mencement of their labors:-

## NOTICE.

HAKISH OF N'P. IOIIN.
To ILalf-Broeds cull wher claimmels of lumbls or srrip rexillin! in when purish: -
A Commissioner will uttend at the romas bithorto oeempied by the Registry Oftice, tu receive prowf of such chains, between 10 a.m. and 6 11.m., on Friday, 18 thi June instant, and therenfter from day to day as slunll be npminted.

Mattilen Ryan,
.J. M. Machir,
Dated Wimaprey, lish June, 187:
Commissinmers.
In this why the commissioners visited all the parishes in the province, Mr: Machar taking the English aml Mr: Ryan the Freneh parishes, until the whole serutiny was effected.

During the smmer of 1876 , the country was devastated by grasshoppers, it luring the thind successive senson that thene pests visited the North-West, and the famers were, therefor, very much liscomared, and the press of the Province win went so far as to diseountemance immigration montil sueh time as the people alrealy settled upon the lame could recover from their reverses. But the warning had no effect, as inmigrants swarmed into the country hy stemmer and overlamd. many of the newcomers sprealing ont far to the westwarl. There were about eight hundred fanilies of Russian Memomites, averaging over five persons to a framily, making an aggregate of over four thousand four humiled, who settled in the sonthern part of the Province: ant, being aided by the Dominion Government, made satisfactory progress in forming comfortahle homes for themselves. There was also a prospect of a large emigration from Seotland, and altogether the outlook for rapid settlement and development in the NorthWest was very promising. naking in settled in led by the in forming a prospuct ir the onthe North-

While immigration prospects were hright, mud while settlers were bonting their homestends in mumbers, the Dominion foremment found it necessmy to come to the aid of the finmers who had suffered by the ravages of the grmsshopleis. num a sum of about s 60,000 was expended for whent, wits, mirley, How and pork.

About this time also, at the request of Hon. Alex. Markinzir, a delegation from the Loenl (iovermment, composed if Hon. R. A. Davis and Hon. dos. Royal, visited Ottawn, in refference to obtaining better terms for the Province. The pesult of this mission was a re-malustment of the fimmeinl relations between the Dominion and the Province, by which the subsidy of the latter was increased, matil 1881, to s 90.000 per ammm: and, in addition, n number of necomes. stmuling between the Federal and Provincial Govermments were satisfactorily aljusted, practically wiping out a debt of $\$ 120,000$ which Manitobr owed the Dominion, mad lensing the Province with a clean sheet to contime now on its incerased subsidy: A change in the eabinet hal taken filnere in the meantime, by which Hon. Jas. McKay beemme Minister of Anriculture, in place of Hon. Charles Nolin.

On January 18th, 1876, the second session of the second Parliament of Manitobn was opened, and the most important measure passed was the abolition of the Legislative Comncil. The bill, as it will be remembered, had been lefeated at the: previons session by the casting vote of the Speaker, Hon. . I. H. O'Donnell, but, on the present occasion, the Govermment prepared for an emergency of this kind by arranging beforehand with a majority of the members comprising the Comeil to vote themselves out of office. The vote in the Comeil for abolition stood as follows:-Hon. Messers. McKay, Inkster,
(inmo and ()ghletree voted for it, and Hon. Mesors. Hamelin.
 cillors who voted in fivor of abolition were provided for he appointing then to other offices, and in this way the vote 1 . (1) awny with the E'per Chmber was secured, and Hom. Mr: Davis was therehy able to redeem the pledge he bad given th the people on assmming the reins of Govermment.

As already mentioned, the Dominion Govermment neten gencronsly in the matter of melief for the sufterems by the grasshoppers, and as the supplies provided had to be comeyen vie the C'nited States, owing to mavigation on the lakes and rivers being closed, a grestion arose whether teans going from the Province to Moorcheal, where the supplies were stored. th hing them in would have to pay the American daty: As a result of correspontence on the subject, it was decided by the nuthorities at Washington, on representations of Comsul 'Taylor, that no s'aty would be charged either on the temms as the grools: an act of comrtesy which was highly aprectiaten ly the press and public of Manitoba.

The development of the agricultural resonces of the combtry was remarkable about this time, notwithstanding the hrawbeks which settlers experienced in the shape of grasshopper visitations, and the withdrawal of large blocks of ham from settlement; and the Provineial Govermment, in order to keep paer with the progress being made, provided for the creation of a Burean of Agriculture and Statistics. Agricultural societies were formed, and samples of the products of the country were sent for exhibition in the United States aml Eastern Canada. The season of 1876 was the most prosprions, in an agricultural point of view, of any preceding years. and, as if to make up for the disaster of 1875 , the crop was exceptionally abiundant.

This makes a total of twenty fon of stome, with a capacity of ahout 4,000 bushels per day.

In the lall of 1876 , steps wore taken to ohtain (evp reports from all parts of the provinee, and from the retmens hamed in we grather the following partienlars. The total yields of the Province were:-Whent. 480,000 bushels; barley, 173,000: mats, 380,000 ; peas, 45,000 : other grains, 5,000; potatoes, 460 ,(100): turnips and other roots, 700,000 bushels. The total armage production throughont Manitoba was, as monly an could be ascertained:-Whent, $32!$ bushels per nere: burley, 42! : oats, 51 : peas, $32:$ potatoes, 229 ; tumips, $602!$. Thr must of the crop was necessary for ? bome consmmption, but as mexperiment, the first lot of wheat, consisting of 857 bushels, sent out of the Province, was shipped by Messis. Higgins $\mathbb{N}$ Comg, consigned to Steele Bros., Seedsmen, of Toronto. This wheat was intended to be sold for seed to the farmers of Ontarto, as samples of the "Manitoba Hard" had been declared
by millers as the very hest for milling purposes, and a dama' I was therehy created for it.

The Half-Breel serip was now being received in the Provinee for listribution amongst the elamants, and, as many of these had sold their right to the serip, frequently two or three times over, there were some very holicrous scenes at tha Dominion Lamls Office, on the application being made for the serip. The following, copied from the Pree Press of Nov. Is, 1s76, will give a good idea of what was taking place at the time :-

## A RACE FOR SCRIP.

Many fumy things happen over the issue of Half-Breed scrip, wwing to some of the chamants having sold their interest several times over. A certain "limb of the law," a day or two ago got wind of the arrival of the scrip for St. Boniface, and hastened on the wings of the wind to the Dominion Lands Ottice, where he presented his power of attorney, and drew serip for $16 e$ neres. As he was passing out of the door the HalfBreed woman whose interest he had purchasel, appeared on the scelle. and made her applieation at the comer. She was told that she had arrived $t o{ }^{\text {l }}$ late, and left with a sigh, saying to herseif, that there wan mo such thing as justice to be obtained in this world, particularly for a line widow woman. She had scarcely taken her departure, before a Main Street merchant stepped briskly into the oftice mal presented his claim. On learning that he had been sold, this gentleman made observations, anything but emmplimentary to the Half-Breed population, whom he pro ceeded to denounce in no mensured terms. His remarks were cut shont ly the arrival of un alderman, who said he had come for "them seript." The merchant's curiosity was aroused, und light broke upon him when he heard the new arrival apply for the grant to the very same woman of whom he himself had purchased. The two compared notes, and then sel out to hunt that lawyer who, it appears, had been the last to buy, but the first to take possession. Neither of them are now disposed to take any stuck in lone widows.

About this time a by-election took place in the parish of st. Pauls, which resulted in the return of the Government camlidate, and as the seat had been held previously by an Oplusition member, it was looked upon as a sigual victory for Mr. of Nov: 1 N, lace at the
scrip, uwing mes over. A arrival of the wind to the attorney, mul wor the Halfon the scene. at she had inthere was nu rly for a lune fore a Muin ted his claim. observaticns, rhom he pro ere eut shout them seript:" him when he he womlial if and then set buy, but the to take :aly
urish of st. rent caurlian Opposiry for Mr.

Davis and his collengues. The policy of retrenchment, and the economical manngement of the affaiss of the Province, which charaterized the administration of the Local Government, was, indeed, favorably regarded by the country, although there were not a few who held that the development of the Province was being retarded theieby. Matters moved smothly, and nothing occurred to disturb the popular mind, on canse any excitement, until, abont the berimning of Decembere 1876, when word was received that a small-pox epidemic hat hroken out at (imin, on Lake Wimipeg, in the Icelandic settement there. At that time no comeil had been appointed for the Keewatin district, in which Gimli was sitnated, mul the task of establishing a quarantine, and creating a Board of Health, fell at first upon the local anthorities of Manitobia. But on hearing of the state of aftairs, the Dominion (iovernment at once appointed a comeil, consisting of the following gentlemen:-Lt.-Col. Osborne Smith, Dr. Jakes, Dr. Codd, (i. Me.Wicken, J. A. N. Provencher, and Wm. Hespeler, and by this means the Govermments of Keewatin and Manitoba combined were able to take concerted action to prevent the spread of the disease.

An agitation now commenced in the Province on the school Question, and the following is the phatform which was set flown by a portion of the Protestant section of the commonity : -

1st. The aholition of the Borrid of Education, and the creation of a Department of Education, with a Cabinet Minister for a head.

2nd. The establishment of a purely non-sectarian systen of Public Schools.
3rd. The compulsory use of English text-looks in all Public sichools.

4th. All Public Schools to be subject to the same rules :mil regulations.

5th. The appointment of one or more inspectors.
(ith. 'The establishment, as soon as practicable, of a Traming school for teachers.

7th. The division of school moneys among the Public Schools of the Province in a certain recognized way-so much per cent. to be divided equally according to the average attendance.

There was no Minister of Education in the Cabinet, and a feeling prevailed that one should be appointed, but the Gosermment was neither in a position, nor had it the desire to bring about a change in the system of education, and although the adrocates of non-sectarian schools continued to discuss the subject in the press, no popular move was made in that direction.

Indeed we have no measures of a radical character to note at this periorl in the history of the Province. The chief object of the Government seemed to be to keep the expenditme strictly within the revenue, and so long as this was done peorple seemed content with the non-progressive policy of the alministration. Through the energetic exertions of those whe were appointed to prevent the spread of the disease, the smallpox was kept within the confines of the lcelandic settlement, and in April, 1877, had disappeared altogether. The harwst throughont the country had been abundant, and the Province generally was prosperous, the only eause for disappointment being the slow progress of the railway.

In the spring of 1877, word came of the approaching visit of Lord Dufferin, the Governor-(deneral, a full account of which appears in another chapter, and the people of Manitola at the Gowe desin'e. to d although to diseuss ule in that
cter to note hief olject xpenditure s done peoof the all those wh, the smallsettlement, the harvest e Province pointment
ching risit account of Manitola
hookind forwarl eagerly to the event, which promised to be one of ireat importance to the North-West in awakening the attention of the muthorities ant of the world at large to the real position and necessities of the comntry, which, at that perioxl. seemed to be somewhat at a stamdstill. The visit of Lord Dufferin fully answered the expectations of the people in this respect.

In ()ctober, 1877, Hon. Joseph Cauchon was appointed to the Lient--Governorship of Manitoba, to succeed the Hon. Alex. Morris, and the appointment was one which did not tind favor with the English-speaking residents of the Province. The French, however, expressed their pleasme at seeing one of their own mationality in the qubernatomial chair. The English jommals of the Eastern provinces amd of Manitoba were particularly severe upon the new Lient-Governor, and ariticized adversely, in the strongest mamer, the Mackenzia Govermment for having made the appointment.

On the 2end November, Hon. Mr. Canchon arived in Winbipen, although he was not expected until 1st December. He harl intended remaning over at 'Toronto and Chicago on his way to the Province, but a telegran from the medical adviser of Madame Canchon, who had preceded him to Wimipeg, announced her serious ilhess, and he therefore hastened his jomrney. Rmons were afloat that the new Governors entrance into Manitoba would be prevented by phesical force, hut if there had been any such intention it was not carried out, and Hon. Mr. Cauchon arrived quietly in the Province, withont any demonstration being made either for or against him.
On the lst December, a levee was hehl at (Government Honse, the occasion being the departure of the Hon. Alex-

Morris, the Lieut.-(iovernor, and on the following Monday he left by special stage, bound for his home in Perth, Ont. On the same day that Mr. Morris left Winnipeg, Hon. Mr. C'anchom was sworn in as Lient-Governor by Judge NcKeaghmer, and three thys afterwards, Madame Cauchon, who had leen for some time ill, died in Govermment House, the sall event exciting unfeigned manifestations of pain and sympathy with the bereared family in their sad loss: the funeral was attemded by all the principal inhabitants of Wimnipeg and vieinity, the cortege being over a prarter of a mile in length.

Lient-Governor Cauchon never became popular with ther English-speaking portion of the people, nor did he endeavor. during the greater part of his term of office, to win thair grood-will, but, on the contrary, Govermment Honse seldon: opened its doors for the purposes of hospitality, and the Gesernor himself led the life of a recluse. His functions as Chinf Magistrate were not onerous, and nothing oceurred in the $\mathrm{p}^{10-}$ litical world of the Province to call forth any remarkable activity or statesmanship on his part.

In August, 1878, Hon. Alex. Morris again appeared upon the seene, and this time with the view of offering himself as a candidate for the Dominion House of Commons in the Conservative interest. His reception, however, was somewhat chilly, but a few days after his arrival he managed to be nominated for the district of Selkirk, in opposition to Hon. Donald A. Smith. It was shown during the election that Mr: Morris had intended to run for Marquette, but at the last moment deserted that constituency in the hope of gaining increased prestige by defeating Hon. Donald A. Smith. The election took place on the 26 th September, resulting in the return of the latter gentleman, and during the contest it was
onday he Ont. On Mr. C'inuKeaghury, had lue.on sald event athy with as attemu1 vicinity, with the endeavor. win thoir ase seldonn d the Gowns as Chief in the $\mathrm{p}^{\mathrm{p}-}$ urkable ac-
eared upon imself as a n the C'msomewhat aged to be on to Hou. on that Mr. he last mogaining inmith. The r in the reatest it was
clearly shown that the Province was indebted to the energetic embersors of Mr. Smith for the near approach of railway communication riu the United States, a fact which is fully bome out in another chapter.
About the middle of Octoler, 1878, Hon. R. A. Davis decided to retire firom public life, and resigned the premiership of Manitoba. For some time previous to his taking this step, be hal frequently expressed his intention of doing so, the reasom given being that his private aftairs required his entire care The Free Press, speaking of the resigmation of Mr. Davis, said. "Under the lealership of this gentleman, it (the Manitolm Parlimment) has enacted no mean volmme of progressiver and desiable legislation, and the Govermment have succeeded in changing the financial position of the Province from one of indeltedness to one having a balance on the eredit side of its bauk account. This happy change has been brought about partially by an increase of the Dowinion subsidy, secured by Mr. Davis's Government; but we believe we only do Mr. Davis fair creatit in saying that a much more powerfal factor in working out this result has been the measures of retrenchment levised, and the carefnl handling of his particular department -the Treasuryship." Hon. Jas. McKay, the Minister of Agriculture, retired at the same time with Hon. Mr: Davis, and the Lientenant-Governor called upon Hon. John Norquay to form a ministry. This he succeeded in doing, choosing as his colleagues Hon. Jos. Royal, who aceepted the portfolio of Minister of Public Works; Hon. D. M. Walker, Attorney-(General, ant Hon. C. P. Brown, Provincial Secretary. Mr. Norpuay assumed the office of Provincial Treasurer, and, later on, Hon. Pierre Delorme, a French native of Red River became President of the Council and Minister of Agriculture. The admin-
istration of Mr. Davis can hardly be culled progressive. althongh the Free Press chose to grive it that credit, but it was an honest, economical govermment, and as such preserved the Province from bankiuptey at the very commencement of its existence.

## CHAPTER XVI.

LORI DUFEERIN'S VISIT.
The visit of Lord Dufferin, Governor-General of Canada, to Manitola, in the autmon of 1877, was a memorable ineident in the history of the North-West. His Lordship and Lady Dufferin, accompanied by Lady Helen Blackwood, Lient.-Col. the Hon. E. G. P. Littleton, the Hon. Mrs. Littleton, Capt. Hamilton, A.I).C., Capt. E. Selby Smyth, A.D.C., and Mr. Camphell, left (Ottawa on July 30th, for Winnipeg, by way of Toronto, Chicago, and St. Panl. At the latter city the distinguished travellers were hospitably entertained by the members of the Chamber of Commerce, and General 'lerry, commandant of the Minnesota military district, and his staff, by whom they were escorted to Fort Snelling, where they were received with a salute of seventeen guns. The garrison was reviewed, and the fortifieations inspected, after which the visitors were entertained at lunch by the wives of the officers. Minnehaha Falls and the city of Minneapolis were also visited, and in the wening the party were serenaded at their hotel. Leaving S't. Paul, the vice-regal party proceeded by rail to Fisher's Lamling, on the Red River, where the steambont Minnesotu awaited their arrival, to take them down the river to Winuipeg.

At 'Turtle River the Manitola, on her up-river trip, was met by the Minnesota. The boats were tied together for a
short time, the organ on board the Manitoba was brought on deck, and Cool Burgess, Miss Jeanic Watson, amd Mr. Hardy, members of a concert compmy which had just closed min "ngrgement at Wimipeg, sang "Camalia, Fair Camoda," " Ruld Britamin," and "God save the Queen," to the delight of tha visitors and all present. When Pembina was reached, a salute of seventern guns from the Fort welcomed His Excellenry, who handed and inspected Uncle Sam's band of gallant bove in blue, and expressed his appreciation of the cordial weleone accorded him by the commandant and ofticers of the garisom. British soil was renched at Emerson, where a large erowd ham assembled to give welcome to Her Majesty's representatice. A platform, appropriately decomated, had been erected, amd His Excellency was escorted to it, and presented with the follow. ing address:--
Standing on the forty-ninth parallel of latitude, on the bank of the Red River of the North, the natural sateway from the Conitel States to the vast productive territories of the Dominion in the North-West, we. the inhabitants of Emerson and the Pembina Mountain country, of the Rosem River settlement, of the French reserve, of the Memonite reserve, and of the whole southern portion of the Province, beg to weleme your Excellency and the Comitess of Dufferin to Manitoba: and while assuring you of our devotion to Her most Gracions Majesty, Queen Victoria, we beg also to express the esteem we entertain for Her Representative.

We feel prom, Sir, of the mission which, as Camalians and British subjects, devolves npon us to wecupy, possess, and mould the future of this vast territory, and we feel assured that, in the task of welding inton a homogeneous population those people from various countries of the world that will here make their homes, and, in devising and earrying on great interial improvements, calculated to benefit the people at large, we shall always find in your Excellency, in whatever portion of the Empire smu may be, a warm sympathizer, and a ready helper.
Wishing your Excellency aud Lady Dufferin a pleasant visit to the Prairie Province.

Signed by F. T. Rradley, W. H. Nush, and W. N. Fairhanks.
In reply, Lord Dufferin said:-
firstiemen-I beg to retmin yon my hest thanks fon the wimin and heaty adhess with which yon have welcomed my re-entrance into the Queren's Dominion.

It is indeed, a matter of great pleasure and satisfaction to me as representative of Gir Most Gimeions Sovereign to find chat the various communities of the whole southern portion of the lrovince of Mmitoba shonald have combined to show that they nre mimated with the same sentiments of devoted and loyal attachment to the throne and person of Gur Beloved Queen whieh are the characteristics of their follow-eountrymen in every I'ravince of this magnificent Dominion.

I con well malerstand that the position in which you are pheed shonk fire your imagination and enconage yon to look forwarl to your destinics with feelings of pride, and I assme you it will afford me the greatest gratitication to promote by every menns in my power the welfure and prosperity of the Prairie Province of Camada.

A hand of Indians from the Rosean River reserve, headed by Chief Kee-the-gyash, presented the following address, through an interpreter:

We, the Indians of the Rosean Tribe, greet you as the Chief of the Grent Mother.

We sold you our lands, and omr Great Mother has provided for us.
All treaties we hive mule hwe been faithfally kept, ind onr love is great.
We leok upen our white brothers as friends.
A school has been provided for onr children that we may lemrn to speak the tongue of our (ireat Mother.

Our spiritual wants have been provided for, and we are now learning that the white man's God is our God.
We desire you to tell our Mother, when you cross the great waters, of rur devotion.
Our white brothers have told us about yon, that like our Mother, yon love all her children, and our hearts are warm.
We have spoken.

## His Excellency replied in fitting terms.

After holding an informal reception, and chatting pleasantly with those who presented themselves, His Excellency and party once more embarked, and the journey to Wimnipeg was resmmed.

Wimnipeg turned out en masse to welcome the vice-regal visitor, and his reception was most enthusiastic. Lieut.-Gov-
ernor Morris mad staff, the Mayor and City Council, and repmsentatives of all the societics and public institutions, ware at the landing to receive him. As he stepped ashore, eheer after eheer nrose, such as had never before disturbed the echors on the Red River's banks. A large procession was formed, and moved to the City Hall, where Wimmineg's first City ('lerk, Mr. A. M. Brown, read an adress of welcome, and, after His Excellency's reply, the party were driven to the residenew of Mr. Domald A. Smith, at Silver Heights, which the owner, with characteristic hospitality, had placed at their disposal.

His Lordship could not but feel gratitied at the henrty welcome which greeted his mrival at the empital of the new North-West, and he expressed his satisfaction in the following letter to the Mayor, Captain 'Ihomas Scott :-
"Silver Hemhts, Aug. 6th, 1 siti.
"Sik-1 mm instructed by His Excellency the GovemorGenernl to express to you his very great satisfaction with all th arrangements made under the auspices of the Reception Committee and yourself, to enable the citizens of Wimnipeg to weleome his arrival amongst them.
"The large concourse assembled, the beauty and appropriateness of the decorations, the good order which prevailet. and the universal loyalty displayed by all elasses towards Her Majesty, in the person of her representative, have been most gratifying to His Excellency, and will doubtless prove the happy augury of the pleasure he anticipates from his residence in your neighborhood.
"I have the honor to be, Sir,
"Your obedient servant,
" E. G. P. Litillefon,
" Gov.-General's Secretary.
"His Worship the Mayor of Winnipeg."
and repmis, wrow ut cheer ufter echose on rmed, and Sity ('lork, I, after His esidene" of wner, with al. rearty wel. the new following

Governiron with all Reception rimipeg t"

1 appropriprevailed, wards Her been most prove the s residence

The little enpital of the west put on her holiday gath in homor of her distinguished guest, and her streets were gay with arehes, evergreens, flags, streamers and mottoes. "Per vias rectus," Lord Dufterin had made his way to the hearts of the poople of the North-West, and they vied with each other to Wo him honor on this, the first oecasion that presented itself. His stay in Wimijegr and in the comory was marked ly a continuons rombl of entertainments, weptions nul pleasureexcursions, gotten up or devised for his plensure. His popularity, and that of the amiahle lanly, his Comotess, increased day by diny, so that the people becane, if possible, more demonstrative on each oecasion of his pullic apperrance. His progress from point to point of the Province, was a trimaphal me. 'The French, Half-Breeds, Indimas, Memonites, Icelandrrs. as well as the English-speaking people, emulated ench wther in making his visit memomble from the plemsant reeolfections it was sure to recall in after years.

His Lordship visited the Memonites at their reserve, and the Icelanders at (iimli, made a trip on Lake Wimnipeg and man the Grand Rapils of the Snskatehewan in a York boat. Rode in a Red River cart drawn by thirty garlanded oxen, with the ladies of the party, from the entrance of the grounds to the door of the Stony Mountain penitentiary, remarking, as the eart jolted along, that he would rather be driven to jail in a cart than to leave the prison in one. He drove from Wimnipeg to the North-West Angle, crossed the Lake of the Woods to Rat Portage, and descended the Winnipeg River in a cmoe manned by Indians and Canadian boatmen. On the trip down the Winnipeg, Lady Dufferin and Lady Helen Blackwood assisted in the cooking, and other work about the camp, and darned socks and sewed buttons on the clothes of the
canoe-men. 'Throughont their visit, the members of the Viene Regral party laid aside conventionality, and made themsolion hom camarudes with all with whon they cane in contant. showing a rare tact and apprecintion of the conditions of lif" of the people whose guest they were for the time being.

Perhaps the most memorable happening of Lord Dutforin's visit was the driving of the first spikes in the Pembina hanch of the Camalinn Pacitic Railway: a ceremony whirh was performed by His Excellency and Lady Dutferin on the 29th of September, 18i7. On the tie in which the spikes wom hriven was inseribed:-
> C.INADIAN PACIFIC RAILWAY.

> The first two xpikes driven b!t Their Escellencies the Gosernor Genernt, and the Countess of Di,tferin. soth Septemiter, $18 \% \%$

On the same day, a firewell dejeuner was given ly the citizens of Wimipeg, in the City Hall, and, in response to the tomst of "The health of His Excellency the Governor-finneral," Lord Dutterin said:-
" Mr. Mayor, Your Honor, Ladies and (ientlemen:
" In rising to express my acknowh iments to the citizens of Wimnipeg for thus crowning the friendly reception I have received throughout the length and bremith of . Manitota, by so noble an entertaimment, I ampainfully impressed he the consideration of the many respects in which my thanks are due to you, and to so many other persons in the Province. From our first landing on your quays until the present moment, my progress through the country has been one continual delight, nor has the slightest hitch or incongrums incilent marred the satisfaction of my visit. I have to thank
the Yiewhemsedver 11 contact. ms of lifo ing. Dutficrints Pemulinu my which rin on the rikes wry nse to the mor-(i.n-
he citizolls on I havio Manitolm ressed lis ay thouks Provine: e present one comcongrums to thmuk
yon tor the hospitalities I have alpoged nt the humb of pome individual eitizens, ns well as of independent commmitiesfor the thestring and ingenions weorations which momed my romb-for the quater of $n$ mile of exonly-yoked oxen that drew our trimphal ear-lion the miversal proofs of pome lopalty to the throne and the mother comintr, and for vome prisomal grood-will towarils Her Majosty's representative. I!nse all, I have to thank you for the evidences prollaced on rither hand along our mareh, of your prosperons conlition, of your perfect contentment, of your contidence in your futmer fortumes: for I need not tall you that to any one in my sitnntion, smiling corntields, cosy homestends, the joyful faces of properons men minl women, mil the langhter of healthy ehildron, are the best ol all trimmphal momments. But there we others for which I ought to be obliged to you: and first, for the beatiful wenther you have taken the precaution to provide us with during some six weeks of perpeturl (muluing out; for which attention I have reeeived Lady Dutfirin's espeeial orders to render you her persomal thanks -min attention which the usual phenomenon of a ensiml waterspout embled us only the better to uppreciate: amb lastly, though certainly not least, for not having generated anongst you that fenful entity, 'a Pacitie Railway Quess tion'-at all events, not in those dire and tragie proportions in which I have encountered it elsewhere. Of course, I know, a certain phase of the ralway question is agitating even this community, but it has assmmed the mild charaeter of a domestic rather than an inter-Provincial controversy. Two distinguished members, moreover, of my present Goverment have been lately amongst yon, and have donbtless acyminted themselves with your views and wishes. It is not
nocessary, therefore, that 1 should mar the hilarions charncter of the present festival by any untimely allusions 10 so grave a matter. Well then, ladies and gentlemen, what im I to sny and do to you in return for all the plensure amb satisfaction I hase received at your hams! I fear there is viry little that I can say, and seareely mything that I can do commensmate with my obligations. Stny-there is one thing, at all events, I think, I have alrendy done for which 1 an entitled to clam your thanks. You are dombtless aware that ngrent political controversy has for some time raged hetweren the two great parties of the sitate, as to which of them is responsible for the visitation of that terror of two continent. -the Colorado bug. The one side is lisposed to assert that if their opponents had never acceded to power the Colmank bug would never how come to Camma. I have renson to h... lieve, however, thongh I know not whether any substantial evidence has been adduced in support of this assertion, that me Govermment deny and repudiate having any sort of comcert or understanding with that irrepressible invaler. It would be highly meonstitutional if I, who am bound to hod a perfect impartial balance between the contending partios of the State, to pronounce an opinion upon this momentons question. But however disputable a point may he the prime amb original authorship of the Colorado bag, there is one fact $\quad 1 \mathrm{I}$ one will question, mamely, that to the presence of the Govre-nor-General in Manitoin is to be nttributed the sudden, total, otherwise unaccountable, and, I trust, permanent dismpparance, not only from this Province, but from the whole NorthWest, of the infmous and mmentionnbe 'hopper,' whesi ammal visitations for the last seventeen years have proved su distressing to the ngricultural interests of the entire remion.
rious chardllusions :1. n, whent int ce muld satisrere is siny can do cullone thing, at which 1 all aware that ged lutwern of the 11 is ocontinums o nssert thait the Collm:allu reasom tuly: substiutial sertiom, that sort of cellinvaller. It nand tol luild Ig purtios of rentous givesne prime and one fact wio ft the (ioverFind den, total. It disappuairwhole Nirthpper,' whws ve provell sut ntire region.

But apart from being the fortumate instrment of eonferring this hemetit mon you. I fem the only further retmon in my pawer is to assure you of my great sympathy with you in rour embers to do justice to the material adsantares with whel four Province has been so richly endowed by the hambof Providence. From its geremphical position and its peculiar chameteristics, Manitoba may be regarded as the keystome of that mighty arch of sister Provinces which spans the continent from the Atlantie to the Pacific. It was here that ('mada, emerging from her woods and forests, first gazerl unn her rolling pairies and mexplored North-West, and lemmed, as by an mexpected revolation, that her histerient territorims of the Comalas. her eastern seahomeds of New Brunswick, Labrator and Nova Scotin, her Lamentim lakes and valleys, lowhnds and pastures, though themselves more extensive than half-idozen European kingrloms, were hut the restibules and ante-chmmers to that till then undream-al-of Dominion, whose illimitatle dimensions confoume the arithmetic of the surveyors and the verifieation of the explores. It was hence that, comonting her past nehievements as but the preface and prelude to her fature exertions and mpanding destinies, she took a fresh departure, received the attlatus of a more important inspiation, and felt hersilf no longer a mere settler along the banks of a single river, but the owner of half a continent, and in the magnitude of her possession, in the wealth of her resources, in the sinews of her materinl might, the peer of any power on the enth. In a recent remarkably witty speech, the Marquis of Salishury alluded to the geographical misconceptions of ${ }^{\prime}$. $n$ engendered by the smallness of the maps upon which the figure of the world is depicted. To this canse is probably to be attri-
buted the inadeyuate opinions of well-etheated persems of the extent of Her Majesty's North American possessions. Perhaps the best way of correcting suen a universal misalpmehension would be by a summary of the rivers which flow through them, for we know that a poor man cannot afforel to live in a big house, so a small country cannot support a hig river. Now, to an Englishman or a Frenchman, the Severn or the 'Thames, the Seine or the Rhone, would appear comsincrable streams, hat in the Ottawa, a mere affluent of the sit. Lawrence, an affluent, morcover, which reaches the parrit stream six hundred miles from its mouth, we have a river nearly five hundred and tifty miles long, and three or four times as big as any of them. But even alter having asecmbel the St. Lawrence itself to Lake Ontario, and pursued it neross Lake Huron, St. Clain, and Lake Superior, to Thumber Bay, a distance of one thousand five hundred miles, where inte we? In the estimation of the person who has made the journey, at the end of all things-hut to us who know better. searcely at the commencement of the great fluvial system of the Dominion: for, from that spot, that is to say, from 'Thme der Bay, we are able at once to ship our astonished traveller on to the Kaministiquia, a river of some hundred miles long. Thence almost in a straight line, we launch him upon Lake Shebandowan and Rainy Lake and River, a magnificent strean three hundred yards brond, and a couple of handind miles long, down whose tranquil bosom he Hoats into the Lake of the Woods, where he finds himself on a sheet of water whieh though diminutive as compared with the inland was he has left behind him, will probably he found sufficiently extensive to render him fearfully sea-sick, during his passigue aeross it. For the last eighty miles of his voyage, however.
he will be consoled by sailing through a succession of landlocked chamels, the beanty of whose seenery, while it resimbles, certainly excels the far-faned Thonsand Islands of the St. Lawrence. From this lacustrine maradise of sylvan beanty, we are able at onee to transfer our friend to the Winmiper, a river whose existence, in the very heart and centre of the continent, is in itself one of nature's most delightful miracles, so beautiful and varied are its rocky banks, its tufted islauls: so broad, so deep, so fervid is the volume of its waters, the extent oi their lake-like expansions, and the tremendons ["wer of their rapids. At last, let us suppose we have landed our protégé at the town of Wimnipeg, the half-way house of the continent, the capital of the Prairie l'rovince, and, 1 trust, the future 'umbilicus' of the Dominion-hewing hatd so much of water, having now reached the home of the butfalolike the extenuated Falstaft', he naturally 'habbles of green firhls, and careers in imagination over the primeval grasses of the prairie. Not at all, escorted ly Mr. Mayor and the town comeil, we take him down to your quay, amd ask him which hu will aseem first, the Red River or the Assiniboine: two streams, the one, five hundred miles long, the other, four hombed and eighty, which so happily mingle their waters within your city limits. After having given him a preliminary canter on these respective rivers, we take him off to lake Wimnipeg, an inland sea, three hundred miles long, and upwards of sixty broad, during the mavigation of which, for many a weary hour, he will find himself out of sight of hamb, and probably a good deal more indisposed than ever he was on the Lake of the Woods, or even the Atlantic. At the north-west angle of Lake Winniper, he hits upon the month of the Saskatchewan, the gateway to the North-West,
and the starting-point to another one thousand five homdred miles of mavigable water, flowing near by due east and west between its alluvial banks. Having now reached the foot of the Rocky Mountains, our 'Ancient Mariner,' for by this time he will be quite entitled to such an appellation, knowing that water camot run up hill, feels certain his aquatic experiences are concluded. He was never more mistaken. We inmediately launch him upon the Athabaska and Mackenzir Rivers, and start him on a longer trip than he has yet undertaken, the navigation of the Mackenzie River alone exceeling two thousand five hundred miles. If he survives this last experience, we wind up his peregrinations by a concluding voyage down the Frazer River: or, if he prefers it, the Thompson River, to Victoria, in Vancouver, whence, having previonsly provided him with a first-chass ticket for that purpose, he will probably prefer getting home ria the Canadian Pacific. Now, in this enumeration, those who are acquainted with the comntry are aware that, for the sake of brevity, I have omitted thonsands of miles of other lakes and rivers, which water various regions of the North-West, the Qu'Appelle River. Belly River, Lake Manitola, the Winnipegosis. Shoal Lake etc., etc., along which I might have dragged, and finally exterminated, our way-worn grest. But the sketch I have given is more than sufficient for my purpose : and when it is further remembered that the most of these streans flow for their entive length throngli alluvial plains of the richest description, where year after year wheat can be raised without manure, or ally sensible diminution in its yield, and where the soil everwhere presents the appearance of a highly-cultivated sulnuban kitchen garden in England, enough has been said to display the agricultural richness of the territories I have re-
e humdrent $t$ and west the foot of or by this n, knowing tic experi1. We illMackenzir yet umin再 ne excerlres this last concluting the Thomp${ }^{2}$ previonssurpose, he ian Pacitic. d with the have omithich watel elle River. Shoal Lake hally exterve given is further reheir entire tion, where re, or any soil everyted suburraid to dishave re-
firmel to, and the capabilities they possess of aflording happy and prosperous homes to millions of the human race. But in contemplating the vistas thas opened to onr imagimation, we must not forget that there ensues a corresponding expansion of our obligations. For instance, buless great care is taken, we shall find, as we move westward, that the exigencies of civilization may clash injuriously with the prejudices or traditional habits of our Indian fellowsubjects. As long as Camada was in the woods, the Indian problem was comparatively easy: the progress of settlement was slow enough to give ample time amb opportunity for arriving at an anicable and mutually convenient arrangement with each tribe with whom we successively cane into contact: but once out upon the plains civilization will allsance with far more rapid and ungovernable strides, and it camot fail eventually with the by no means inexhaustible supply of buffinlo upon which so many Indian tribes are now dependent. Against this contingeney it will be our most urgent and inperative daty to take timely precautions, by enabling the red man, not by any undue pressure or hasty, illconsidered interference, but by precept, example, and suasion, ly gifts of cattle and other encouragements, to exchange the precarions life of a hunter for that of a pastoral, and, eventually, that of an agricultural people. Happily, in no part of Her Majesty's dominions are the relations existing between the white settler and the original matives and masters of the lanl so well maderstood, or so generonsly and hmanely interpreted as in Camada, and as a consequence, instead of heing a cause of anxiety and disturbance, the Indian tribes of the Dominion are regarled as a valuable adjunct to our strength and industry. Wherever I have gone in the Province
-and since I hase been here I have travelled nemply a thonsamd miles within your borders-I have fomm the ludians. upon the several reserves, pretermitting a few petty grimances of a local character they thought themselves justition in prefering, contented and satisfied, upon the most frimully toms with their white meighbors, and implieitly contiding in the grool faith and patermal solicitude of the Govermment. In some districts, I have learoed with pleasure that the ,ioms, Who a fere years since entered our territory moler such simister eiremmstances-l do not, of eonse, refer to the rerent visit of Sitting Bull and his people, who, however, i boliow are remaining perfeetly puiet-are mot only peaceable and well-behaved, but have turned into useful and hard-working laborers and harvest men: while in the more distant settlements, the less domestieated bands of matives, whether as humters. voyarems, guides, or pheyors of our lins and game. prove an appreciably alvantageons element in the economical structure of the colony. There is no doubt that a derat deal of the grom leeling thus subsisting between the red men amb onselves is due to the influence and interposition of that invaluable class of men, the Half-Breed settlers and pioneers of Manitola, who, comprising as they do the hardihood, the cudurance, and love of enterprise, generated by the strain of Intian blood within their veins, with the civiliontion, the instruction, and the intellectual power derived from thin fathers, have preached the gospel of wood-will and peace, and mutual respect, with equally beneficent results to the Indian chieftain in his lodge and to the British settler in his shanty: They have been the ambassadors between the East and the West: the interpreters of civilization and its exigeneies to the dwellers on the prairie, as well as the exponents to the white

Hon. M. A. Girard.
men of the considerntion justly due to the susceptibilitien, the sensitive self-respect, the prejudices, the inuate craving for justice, of the Indian race. In fact, they have done for the colony what otherwise would have been left unaccomplished, aml have introduced between the white population and the red man a troditional feeling of amity and friendship, which, hat for them it might have been impossible to establish. Nor can I puss by the humane, kindly, and considerate attention which has ever distinguished the Hulson's Bay Company in its dealings with the native population. But though giving due credit to these influences mmongst the canses which are conducing to produce and preserve this fortunate result. the place of honor may be adjudged to that honomble and generous policy which has been pursued by successive Governments towards the Indians of Canada, and which at this moment is being superintended and carried out with so much tact, discretion, and ability by your present Lieutemant-Governor, under which the extinction of the Indian title upon liberal terms has invariably been recognized as a necessary preliminary to the decupation of a single square yard of native territory. But our Indian friends and neighbors are by no means the maly alien communities in Manitobn which demand the soliciturle of the Govermment, and excite our sympathies and curiosity. In close proximity to Wimniper, two other communities - the Mennonites and Icelanders - starting from opposite cuds of Europe, withont either concert or communication, have sought fresh homes within onr territory: the one, of Russian extraction though of German race, moved by a lesire to escope from the obligations of a law which was repulsive to their conscience-the other, bred amid the snows and ashes of an Aretic volcano, by the hope of bettering their
material comelition. Althongh I have witnessed many vight to emse me pleasare daring my varied progress thromgh the Dominion, sidfon have I hehedd my spectacle more pregnant with propheer, more fronght with pronise of a suceessiful future , than the Mennonite Settlement. When I visited thes interesting perple, they hal been only two years in the Pruvinere, mad yet in a long ride 1 took across many miles of prairie, which hat yesterhay was absohtely hare, desolate am mitemated, the home of the wolf, the batger, and the eagle, I passed village after village, homestead after homestemb, furnished forth with all the conveniences and incilentes ol Emor pean comfort, mal of a scientitic nericulture: while, on either side of the rond, com tields alremly ripe for harvest, and pastures popalons with herds of eattle, stretehed away to the horizon. Even on this contiment-the pecaline theatre of rapid change and progress-there has nowhere, I inagime taken phee so mavellous a transformation : and yet, when in your name, ant in the name of the Queen of Enghand, I bade these people weleme to their new homes, it was not the improvement in their material fortmes that pre-occupied my thoughts. Glud as I was to have the power of applotting them so ample a portion of our teeming soil, a soil which seems to hlossom at a touch, and which they were cultivating to such manifest alvantage, I felt intinitely prowler in beine able to throw over them the a aris of the British Constitution -and in bidding them freely share with us ome mavialled political institutions, and our motrammelled personal liberty. We ourselves are so acenstomed to breathe the atmosphere of frecelom, that it scarcely oceurs to us to consider and appreciate our adrantage in this respect. It is ouly when we are reminded by such incidents as that to which I refer, of the
maly sight. hrough the. e pregnant sucemsestul isited thes. in tha. Pro. y miles of esolate anl the earle, I nestemal, fillts of Eurro. le, on either st, anul pars. vay to the theatro of I imagilu: ret, when in lamel, I luals. not the in.. ceupied my is aplotting suil which - cultivating her in twint Constitution Ir murivalles nal liberty nosphere of - aul aryme hell we ar efer, of the
muall extent of the world's surface over which the principles of Parlianentary (iovernment can loe said to work smoothly and harmonionsly, that we are led to consider the exceptiomal happiness of our pesition. Nor was my visit to the leclandic conmminty less satisfactory than that to our Memomite fellow subjects. From necidental circmastances, I have been long since leal to take an interest in the history and literature of the semulinavian race, and the kindmess I once received at the hands of the Ievlandie people in thair own island, matmrally: innlucell me to take a deep interest in the wellare of this new inmigration. When we take into aceont the seelaled pusition of the Jechumbic mation for the hast thousam years, the mufaromble condition of their elimate, and geographieal sitmation, it would le mureasomathe to expeet that a colong from thence should exhilit the same nptitules for agrieultural enterprise as would be persesssed liy a people fresh from intimate contact with the highest eivilization of Europe. In Icelamd, there are neither trees, nor com tields, nur highways. You cmanot, therefore, expect an Ieelander to exhibit an inspired proticiency in felling timber, ploughing land. or making ronds, yet mufortumately these are the three accomplishments most neeessary to a colomist in Camada. But though starting at a disalvantage in these respects, you must not underrate the capacity of your new fellow-comutrymen. They are endowed with a great deal of intellectual anility and a plack intelligenee. They are well-emonducted, religions and pracerable. Above all, they are docile and maxions to learn. Xor, considering the difficulty which prevails in the country, in procuring women servints, will the accession of some humArels of bright, good-humored, perhaps inexperienced, yet willing, Icelander girls, muxions for employment, be foumd a
disadrantage by the resident ladies of the comntry. Shombl the dispersion of these young people leml, in course of time, to the formation of more intimate and temderer tien than those of mere mighborhood, between the Camadinn popmation amil the Icclandie colony, I amsafe in predicting that it will mes prove a matter of regret on one side or the other. And, gen tlemen. in reference to this point, I canoot help remarking with satisfinction on the extent to which the commmity of interests, the sense of being engngel in a common undertaking, the obvions degree in which the prosperity of any one man is a gain to his neighbor, has amalgamated the varions sections of the population of this Province, originally so diverse in ruee, origin, and religion, into a patriotic, closely-welded and mited whole. In no part of Camada have I found a better fecling prevailing between all classes and sections of the commonity. It is in a great measure owing to this wide-spread sentiment of brotherhood that on a recent occasion great troubles have leen averted, white at the present moment it is finding its crowning and most trimmphant expression in the establishment of a Chiversity, under conditions which have been dechared impossible of mplication in any other Province of Comala-l may say, in any other comntry in the word. For, nowhere else, either in Emrope or on this continent, as far as I am aware, have the bishops and heads of the varions religions commmities into which the Christian world is mhappily divided, combined to erect an alma mater, to which all the denominational colleges of the Provinces are to be attiliated, and whose statutes and degrees are to be regulated and dispensed moder the joint muppices of a governing bouly in which all the churches of the land shall be represented. An achevement of this kind speaks volunes in favor of the wis-
$\therefore$ Shomid of time, to thatin those alation and it will nut Amb, yen remarking nity of indertuking, one man is us sections rse in race, and united ter fecling ommunity. sentiment ubles have finding its, establisihave been
Province the world. tinent, as the varian world mater; to rees are to e regulatning bouly anted. An the wis-
dom, liberality, and the Christimn elanity of those devoted men, hy whom, in the distant hand, the conseiences of the pope whtion mer led and enlightened. and long may they the spared to see the effectes of thoir exertions and manganimons sacriticess in the grod eonduct and g. atefinl devotion of their respective Hocks. Nons, I am hapy to think, is this grom fellowship upon which I have so much cmise to comgratulate you, comfined , ither within the limits of the Province, or even within those of the Dominion. Nothing strus me more, on my why through ist. Panl, in the C'nited States, than the sympathetic mamer in which the inhabitants of that flomishing city alfulded to the progress and prospects of C'madn and the NorthWiest, and, on arriving here, I was equally struck hy tinding uven m move exmbermit comontrpart of thase friendly sentiments. The reason is not fine the seek. Quite imblependently of the genial intereouse promoted liy neshborhood, and the intergrowth of commercial relations, a hond of sympmthy he tweren the two popmations is erented be the eomscionsuess that they are both engnged in an enterprise of world-wide importance, that they are both recognizal conps in the ranks of lmmanty, and the wings of a great army marehing in line on a lew front: that they are hoth engaged in molvancing the stmmarls of civilization westward, and that for many a year to come they will be associated in the task of converting the brealthe of prairie that stretch between them mol the setting, sma, into one vast paradise of intermational peace, of domestic happiness, and materinl plenty. Between two communities thus occupied, it is impossible but that amity and loving kimlness should be begotten. But, perhaps it will be asked, how can I, who an the natural and official gundimo of Cannda's virtue, mark with satisfaction such dangeronsly senti-
mental proselivities towards hor sechetive neighbor: 1 will reply by appealing to those experienced matrons and chaprerons I see aromed me. They will trll yout that when a ? lady expresses her frank almination for a man, when she welcomes his apprach with meonstraned pleasme, crossens the room to sit heside iniai. presses him to join her pienie, praises him to her friends, thare is not the slightest fene of her athere tions having been sumpetitiously entrapped by the exay deceiver. On the eontray, it is when she can be scarcely bronght to mention his name, when she alludes to him with malien and disparagement, that real danger is to he apprememel. No. No: Canada hoth loves and admi s the Cnitel States, hut it is with the friendly, frank affection which a whole-hearted, stately maiden feels for some big. boistorous hobbledehoy of a consin fresh from school, and wate with animal spirits and good mature. She knows he is stronger and more muscular than berself, has lots of pocketmoney, can smoke cigass and 'lomf aromel' in public places in an ostentations mamer, forbiden to the decormu of her owni situation. She auticipates and will be prome of his future sueeess in life, and both likes him and langhs at him for his affectionate, loyal, though somewhat patronizing. friendship for herself. But of no nearer eonnection does she dream, nor does his bulky image for a moment disturb her virginal meditations. In a worl, apart, sechaded from all extraneous influences, nestling at the feet of her majestic mother, Canada dreams her dream, and forebodes her devting -a dream of ever broalening harvests, maltiplying towns and villages, and expanding pastures: of eonstitutional silfgovermment and a confederate Empire : of page after page of honorable history, addea, as !er eontribution to the ammals of nil chapura a young en she welcrossinc the nic. praisus i her :tftiehe pay inne searcely o him with apprehemil he ['uiten] jion which ig. boisterand "litte ows he is of prockict. whlic places rom of her ourd of his hhe at him matronizing. in does she listurb) her if from :ll r majectic her distin! Hing towns tiomal willser page of amals of
the Mother Comatry, and to the ghories of the British mace of a perpetnation for all time. , upon this eontiment, of that temperate and well-inameed system of gowemment which eomhimes in ome mighty whole, as the reternal possession of all Enclishmen: the hrilliant traditoms of the past with the freest and most untrammelled liberty of action in the future. Laties and gentiemen, I have now done. I have to thank you for the patience with which you lase listenow to me, and, onee again, for the many kimotasses yon have done Laly Duttion mul mysalf during my stay amongst yom. Most heartily do I "ongratulate you unem all that you are doing, and for the ghorions prospect of prosperity that is opening out on cevery sille of fon. Though alsewhere in the Dominion stagmation of trate and commeres has checked for a yan or two the genemal idvancement of Canaha, here at least you have eseaped the etfects of sheh simister ineidents: for your welfare being lased upon that most solill of all fommlations, the cultivation of the soil, you are in a position to pussue the even teno of yom way monmbled by those altermations which disturb the woild of trade and mamfacture. Von have been blessed with an abumdant harvest, and soon, I trust, will a milway come to carry to those who need it the surplas of pour por dure, now, as my own eyes have withessed, imprisened in your storehouses for want of the memes of transport. May the expanding finances of the comtry soom place the (ioveromment in a position to gratify your just and matmal expectations."

## CHAP'TER XVII.

ORG:NIK.ATION OF THE NORTH-WEST TERRITORIES.
When the Dominion of Canada first assumed the sugrainty of the North-West 'Territories, she contented herself with staking ont a small sipure space in one corner of th. vast area-"one square on the checker-hoarl," as Lord lufferin afterwards so uptly called it, and named it Manitoba.

Upon that intinitesimal portion of her newly aequired domain she bestowed a responsible govermment, armed with all the authority, and equipped with all the machinery, neess sary to establish law and order. The balance-the ninctro nine humlredths-of the North-West, she was content to leave for the present to govern itself : a task that it was guit equal to, had not untoward events intervened which changed the whole current of life on the plains, and rendered the speedy introduction of law and its enforcement a crying necessity.

Under the leneficent sway of the Hudson's Bay Company, the western prairies of British North America lad been for nearly two centuries the happy hunting ground of thousamb, of Indians: happy from their point of view, for did not the buffalo furnish them with all the necessaries of their simple life-food, clothing and shelter-while the Hudson's Bay Company supplied its few small luxuries. Their inter-tribal wars were a part of their nature, and-evil as they might
appear to the philanthropist-were, to them, the wine of life, the eestacy of existence.
The huilding of the Union Pacitic Railway, through the southern phains, had driven the butfialo northward, ant the ensy access to the comntry which the railway afforded, enahled a langerous elass of adventurers and desperadoes to !rnetrate to the fiar west, and engage in so-called trade with the Indians. The butfinlo existed then in such iommense numbers that the eurth actmally trembled beneath their myriad hoofs, at times, when the mighty herds stampeded in an agony of terror before their ruthless destroyers. A campaign of extermination was inangurated by the strangers from the sonth. The Indians, acenstomed to deal with the officers of the Hudson's Bay Company, and their kinsmen and friemls, the Half-Breeds and white hunters of Red River, welcomed the newcomers, and ghadly aliied themselves with them in the destruction of the buffalo. A boom in robes set in, empetition hecame keen, and whiskey, the curse of whites and Indians alike, was made the principal eurrency of the trade. Legitimate tralers were outbid and their bosiness ruined hy the unscrupulons whiskey traders. Fort Benton, Montana, became the distributing point and depôt of their oprations, and Fort Gary lost its prestige as the great robe market. The Indians, always eager for intoxicmis, were given whiskey, and when dronk, robled of their robes. If they resisted the outrage, they were brutally murlered. A veritable reign of terror set in, and the western plains becme the seene of indescribable debanchery, revolting in its fiendish cruelty, and disgracefnl to the civilization of which it was a deplorable oftshoot.
The small-pox hroke out with great virulence among the In-
dians in the winter of $\mathbf{1 8 7 0 - 7 1}$. It was difficult to estimate the mumber of deaths cansed by the plague, but Captain Butler. of the British amy, who was sent out to investigate, reporter between two amt three thonsand victims.

On April 2lst, 1871, the following gentlemen met at Eilmonton Honse, and organized the saskatchewan District Board of Health, to take mensures to stamp out the small- $\boldsymbol{f}$ wox and prevent its spreading to meljoining distriets:-Wim. . . Christie, Hudson's Bay Compmy's Chief Factor: Rev. (i.ange MeDougall, Methorlist Missionary: Rev. Father Ledue, Rev. Father Ambé mad Kichard Hardisty, Hudson's Bay Company's Factor: The following wore named members of the boarl:-Bishop (iramlin, St. Albert: Bishop Farrani, Late la Biche: Father Lacombe, Plains: John Bunn, Elumonton (Secretary): Father Toumond, Lac Ste Anne: Rev. Hemry Steinhaur, Whitetish Lake: Rev. Peter Camphell, ligeon Lake: and Rev, John MeDougall, Victoria. It was resolved that no furs, butfilo robes, or leather, be allowed to bee exported from the Saskatchewan district during that seasom. That any person leaving the district should first appear hefore a dustice of the Peace, and sweme that he had no robes. fur, lenther, or other article likely to corry infection, and that he had heen free from small-pox for three months. On these reguirements being complied with, the person was granted a certiticate permitting him to leave the listrict. The Bumd took several other precantionery measures, and formulated a request to the Lient.-Governor of Manitola to appoint in efficient medical officer to visit the comntry, and to be placed under the instructions of the Boarl as to his further morements. The Health Bomrd trmsmitted a detailed statement of the rise and progress of the disease to Lient.-Governor

In 1871, Captain Butler recommender the appointment of a Civil Magistrate or Commissioner, with power to hold comts at convenient points in the North-Wist Territories, and to bue assisted in his magisterial cunties ly the oflicers of the Hudson's Bay Company, who had ahrady been uppointed Justices of the Peace. He proposed that this officer should be supportal by a force of 100 to 150 men, specially recruited for service in the North-West. He also recommemed the establishment of govermment stations, one in the neighborhood of Edmonton and the other at or near the Forks of the Saskatchewan, below Carlton. The establishment of these stations to be followel by the extinguishment of the Indian title, by treaty, within
certain geormphieal limits. He was also of the opinion, "that if the Govermment astal)lishes itself in 'le Saskatchne wan, a thind post shonld be formed, after the lapse of a parar at the junct:on of the Medicine aml Red Deer Rivers."

In the Dominion Honse, during the session of 1871, Hom. D. A. Smith, member for Selkirk, enpuired of the Govermment if they intended to provide for the regulation of trmbe in the North- West Territories, and also what steps the ${ }^{\text {antend }}$ inter take regarding the traftic in intoxieating liguors, which was being carried on by Americans to the demoralization of the Indians. Sir George E. Cartier replied that the (Governor-in Comeil had power to deal with these matters, and Mr: Smith's representations wouhd receive attention. Mr. Mackensie asked what regulations were in force. Sir George E. Cartier answered that before the Union there were regulations made hy the Hulson's Bay Company, hat he did not know their nature. Mr. Smith, no doubt, knew more alout the matter than anyone else. Sir Francis Hincks remarked that he thought the hon. member for Selkirk had more papers, and knew more about North-West affairs than the Govermment. And such was the fact, for the Govermment had not had time to ascertain the requirements of the North-West, and were so deficient in knowledge of the condition of affairs in the great lone land that they were obliged to seek conncil with the officers of the Hudson's Bay Company and the missionaries, hefore committing themselves to any policy for its govermment.

At the session of $\mathbf{1 8 7 2}$, an Act was passed to provide for the govermment of the North-West 'Territories, ly the LieutenantGovernor of Manitoha, and a council of eleven members. In January, 1873, the first North-West Council was gazetted, the following being the members appointed:-Hon. Mare A. Gir- of $n$ yens. ers."

And such ne to ascerso deficient at lone land ceers of the re commit-
ide for the deutenantinbers. In reetted, the are A. Gir-
ard, Hon. Donald A Smith, Hon. Henry J. Clarke, Hon. I'atrice Breland, Hon. Alfred Boyd, John Schultz, Joseph Dubuc. Anlrew (i. B. Bamatyne, W'm. Frazer, Robert Hamilton and Willian J. Christie. On the Sth of March following, the comeil was called together for the first time and the members took the oath of office, hut no business of importance was tramsacted. To attend this meeting, Chief Factor Christie travelled 2,000 miles from Fort Simpson, on the Mackenzir River, to Fort Garry, by dog train, the jommey oceupying fifty five days of actual travel. His Freneh Half-Breed driver ran or walked the entire distance on snowshoes, often going ahead of the dogs, " making track," for days in succession. Mr. Christie reported a Hourishing Chureh of England mission at Fort Simpson, in charge of Rev. Mr. Reeve, who, besides attending to his ministerial duties, also taught sehool. At Providence and Isle à la Crosse, Mr. Christie visited the Roman Catholic missions, and expressed his satisfaction of the excellent progress made by the Indian and Half-Breed children under the direction of the Sisters of Charity.

Mr. J. A. N. Provencher was at this time appointed Indian Commissioner for the North-West, in the phace of Mr. Wemyss Simpsom.

An amendment to the Act for the Govermment of the NorthWest 'Territories was passed at the session of 1873 , which pro-vided:-"Subjeet to the provisions hereinalter made, it shall be lawful for the Govemor-in-Council to make laws for the peace, orler and good govermment of the said North-W'est Territories and of Her Majesty's subjects therein, in relation to all matters and subjects in relation to which the Lient.-(iovernor and his Council afforesaid are not then empowered to make laws: and for that purpose, either to make new laws or to extend
and apply and dechare applicable to the North-West Tomitories, with such amendments and moditications as may be deemed neeessary, any Act or Acts of the Parliament of C'm. wha, or any parts thereof ; and from time to time to amemi or repeal my such laws, and make others in their stead. The power herely given shall extend to the moditiontion, mombment, or repeal of any Aet mentioned in the schedule to this Act: and the Lientenant-Governor, acting with the alview aml consent of his Comeil, shall have like powers with respect to the subjects and matters in relation to which he is empowerel to make haws; and a copy of every such law made by the Lientenant-(iovomor of the smid Territories and his Comeil shall be mailed for transmission to the Governor-in-Comeil within ten days after its passing, and may be disallowed by him at any time within two years after its passing: and expry such law mate by the Governor-in-Council shall he laid hefore hoth Houses of Parliament as soon as conveniently may be after the making and passing thereof."

This Aet also provided that the Comeil might be increasenl from eleven to twenty-one, and that in mo case was the Commcil to consist of less than seven members.

Reports of trouble and dissatisfaction among the Sioux having reached Wimnipeg, Hom. Paseal Breland was sent to deal with them. The Siomx complained that they had been treated harshly by Mr. Wemys Simpson, ex-Indian Commissioner, during the yoar previous. A deputation, headed ly the famons" Little Knife," had visited Winnipeg to enguire as to the Camalian Government's intentions towards the tribu: They had heard that an alliance had heen formed between the Camadians and Americans to exterminate them, and thought the Boundary Commission was being organized for that sinis-

ter purpose. Hon. dames Mckiny, to whom they first applied fin) information, informen them that their fears were entionly gromilless, and referved them to the Ludian Commissioner for contrimation of his assurances. 'Tlu' Comminsoner nade an apminturnent with them, but lailad to keep it, semding then instent a small gumetity of provisions, which they contemptuonsiy refinsed to neept. Geatly angered be the indifferener shww them, they departel, Little Kuifo delhring, " the mext time the English sew we here, it will mut lue with this little erowd. As for that little cemp of warvions allonting to the woluntere garrison of Fint (amey), it is only a bow for a tonatherk. I have sham $\quad 700$ people atone the American mailway. All this comentry I see, is a beantiful comentry for me. anl my peeple," During the winter it was repurtenl that Little Kinfe and other chicfs, were prepming for a rail on the serthements, and it was to prevent this contingenes, if possilds that Mr. Breland was commissioned to visit them.
The news of serions conflicts betweren the Bhackiect anm Americm traders, which reached Ottawa at this time, mul the: musetted comlition of the Imbins generally, eansel the Govermurnt to hasten the organization of the North-West Momutelf Police, and the Act establishling the foree was pressed throngh its several reatiugs and mule haw.
The Moder war was them in progress sonth of the homdary, and the United States were strengthening their military persts Intween the Red River and the Recky Momintans, 5,000 men leing distributed mong them, over 2,000 of whom were iletailed to protect the railway and houndary surveess. For the photection of the North-West, the Govermuent despatelew 15ici alditional men to Fort Gary, muking the total strength of the garrison 300 .

One of the most remarkhle fincts in the history of the Com. alian North-West is, that no serions Indian outbreak hat exem occurved up to the unfortunate period of 1885 . The recost of the fir west of the United States are stained with the bleod of thomsamds of settlers and travellers, the vietime of Indian latred and vengennce; hat our Indians were nlwas friendly to the whites, and persisted in their logntty, when often tempted to join their sonthern brethren in a gramb war of extermination. which wonld rid them forever of the palpfinced usinpers. The sucret of this anomaly lies, not in ang tradition of loyalty to the British Crown, nor in the existence of an imaginary bomdary line, bat in the invariably honorable and impartial treatment of the Indians by the Hulson's Bay Company, whose wise policy it was to regard them mather as wayward children than as reasoning men, and by humoring their peculiarities of charncter, win their contidence, fove, and respect. To the grood offices of the noble men who managed the basiness of the company in the olden times, w. owe our past and present immonity from " Indian outrages." They laid the foundations of a lasting peace, which was cemented ly our treaties, and to-dny Canada can look with pride to her Indians as a proof of what justice and fair deating may accomplish (where frand and cruelty have so signally. failed in the ('nited States) with the native American.

Meantime, Mr. Breham had succeeded in his mission to the Sious, and the alam, which had existed for a time, was almated. In June, a porty of fifty Sious, under the command of Chiefs Standing Buttalo aml White Eagle, visited Wiminerg. to ask that they be granted a reserve in British tervitore. They were well received by Commissioner Provencher, who promised that their request would be forwarded to Ottawn. where it would receive the best consirteration.

A number of Assimiboine Indians, men, women, amd childron, wew massacred by American whiskey tombers in 1873, and in 1stis, Major A. (. Irvine, N. W. M. P., was sent th, Jontam to arrest the mordoress amd have them extraditerl if possible. He succeded in hringing the haders of the desperadoes before the athorities at Fort Bomtom on extradition proceedings, bat they were discharged for want of sufficient evidence. He then erossed the boundary to Fort HeLeod mal Cyperss Hills, and captured there of the band, maned Jmmes Hughes, Philamdir Vogel, and George Bell, and brought them to Wimipeg for trial. To give the reader an iden of the immense herds of buffaln in the comatry at that time, we give the Major's statement that he travelled among herds of buffalo from MeLeod to within one rlay's ride of Fort Qu'Appelle. The arest of than murlerers, two years after the commission of the crime, had a salutary effect upon their fellow outhass: and their converance from MeLenl to Wimipeg, in charge of a squad of Momentel Police, right thromerh the Indian country, where they welr seen by the Indians, and the canse of the arrest explained to them, must have helped greatly in comvincing them that the new laws were estahlisherl in their interests, equally with thone of the white man, and that in future, if wrongs were committed nginst them, the law would step in and punish the suilty mes.

On the $0: 3$ at November, 1875 , the Comeil met at Wimipen, .י. 1 His Honor Lientemme-(iovernor Moris, reviewed the
work acomplished ly it from its fommation. He explaimed that the present Comecil was a provincial one, acting mo til such time as the new ('omed, partly mominative by the Crown inm partly olective, shomblar fomed, under the praidency of a Lientemat- (iovernor', resident within the 'forritories. Ha called attention to the wrdinances passed from time to time hy the Comeil, which han bern matitied by the Parliament of Comma, and the suggestions for legislation which that lwely had acted upon. Among the most important of these were the extemsion of the amimal laws, the law prohibiting the liguor tratice, the establishment of the Moment Police fores, the appointment of Stipendiary Magistrates, the pmishoment of the Cypros Hills mumerers, the making of treatios with the western Inlian tribes, the establishment of a matil service, mensures for the collection of constoms duties the apmointoment of coroners, the caring for ophan children, the remulation of the relations of manters mud servants, the atal)lishment of highways, extension of shereys, mid other matters of minor importance. His Homor ontlined the fatme
 nelpt or recommend, which wore of mast importance, vi\%. : The relations of the Crown with the ladian tribes, and as regarded therir mems of livelihool while they were passing through the tramsition process of heing prepared to arn their living from the soil, referme to the regulation of huttialo honting in such a way as to prolong the sulnsistence aftionded to the Indians hy the wild eattle, and thas give time for their grahalacenstomment to agricultural pmenits, also, regulations to prewent the spead of prainie tires.

greneral deseription conseyed in the term North-West Territwries, the Govermment deemed it advisalle to pass an act detining its bomondares, and phang it under the jurisisiction of the Lientenant-Governor of Manitoln. The act, which was passel at the Session of 1876 , described the new Distriet of Kowwatin as follows: Begriming at the westerly bomdary of the Province of Ontario, on the International bommary line dividing Camada from the C'nited states of America: then westerly, following upon the sail Intermational houmbary line to the eastern homblay of the Province of Manitona: thence due north along the saill casterly lemmdary of Maniteba, to the morth-enst angle of the sail Provinee : thence due west on the merth houndary of the said Province, to the interseetion ly the said lomudny of the westerly shore of Lake Manitwha: thence northerly, following the said westerly shore of the said lake to the eastern terminus therem, of the poituge comecting the somtherly end of Lake Wimipegosis with the sail Lake Manitoba, known as the "Mealow Portage :" thence westerly, following upon the trail of the said portaye to the westerly terminus of the same. being on the easterly shome of the said Lake Wiminiperswis: thence northerly, following the line of the said easterly shore of the said lake, to the sometherty end of the portage lembing from the head of the sais lake into Cedar Lake, known as the "Cedar," or "Mossy Portuge :" thence northerly, following the trail of the sail portage to the north end of the same, on the shore of Cedar Lake: thence due north to the northerly limits of Camala : thence masterly, following upon the said northerly limits of Comanda, to the northern extremity of Hudson's Bay ; thence somitherly, following upom the westerly shore of the sail Hudson's Bay, to the point where it would tre intersected by a line drawn

Gae worth from the place of hegiming, and thence due somb on the sainl line last mentioned to the phace of begiming.

The criminal laws, and that prohibiting trattic in lignor, were extemed to the new district, oser which the courts and otticials of Manitola were given jurisiliction, but, until the act was declared in loree by prochanation, the aflairs of Kere watin were to be alministered ly the North-West Comeil.

After the massatere of (ieneml Custer and his command by Sitting Bull, that redonbtable leader and his following retreatef to Camodn, and a great gathering of the tribes-Pedgans, Blackfeet, Blooels, Assiniboines, Crows, (iros Ventres, and Sioux-was held at Cypress Hills. It was thought that Nitting Bull had assembled this council for the pmpose of instigating a general rising agninst the whites, and much alarm was felt as to the outcone of the meeting, as it was estimaterl that there were 3,000 warriors present. The newspapers called upon the Govermment to send troops to the defence of the settlers, but such a course was demed inexpedient, and the Momed Police were left to deal with the excited Indians, and Major Irvine, with a subaltern amd ten men, was commissionel to visit the camp. 'The result of his campmign is described in a letter to the Toronto Gilobe, from Fort Mcleod, as follows: "Fort Mcleot, July 1, 1876.-While the American pmpers are teeming with telegrams, referring to the movements of (ieneral Terry's army of 4,300 men, mad of the advance of these troops in three divisions agninst the Sioux in the Yellowstone region, a similar movement of troops on this side of the line has been successfully made, of which no notice has yet been taken. On June 18th last, Assistant Commissioner Irvine, commonding the North-West Monnted Police in this district, advanced on and completely demorulized a large em-

campment of Jurlians at Cypress llills. The camp numbered over 1000 lodges, of which one hmolred lorlges were of sitting Bull's hand. Col. Irvine adranced his troops in a mass of columns, the whole mombering ten men. Having snecessfully pierced the centre of the camp, he threw anomgst the Indians, at close quarters, hand gremades of a new pmitern, patented hy an eminent firm in Canada. These missiles were composed of sea hisenit, tea, sugar, and tobaco. The Indians never recosered from the tirst discharge. On the following day the left wing of the right division, consisting of one man, was despatched to a mixed canp of Inlians, mombering 150 lodges, with orders to seize a certain monture of horses stolen by them from the Sonth Peigans, peacefully if possible, but in the case of resistance, to eapture the entire band. The horses were reeovered. How about the moral intuence of the police force in this country ?"
On the 7 th October, 1876 , the long delayed proclamation, putting in force the North-West Territories Aet, was published. The Honorable David Laird was appointed Lienten-ant-Governor and Superintendent of Indians, with a Council consisting of Stipendiary Magistrates McLeorl, Ryan, Richardson, and Major Irvine: E. A. Forget, Secretary of the Council, and Molineanx St. John, Sheriff: The Lient.-Governor and Council were empowered to deal with matters coming within the following classes of subjects: Taxation for local and manieipal purposes: property and eivil rights in the 'Territories; the administration of justice in the Territories, including maintenance and organization of courts, both of civil and eriminal jurisidiction, and including procedure in civil matters in these conrts, but the appointment of any judges of the said comets shall be made by the Gover-
nor-General in Comeil: public health: the lieensing of ims and places of public relireshment: lambmiks and bomdarim: cemeteries: eruelty to amineais: game and wild mimals, amb the care and protection thereof : injuy to public morals: mis. ances : police: romds, highways and bridges: the protection of timber; grols and lock-up honses: and generally, all matems of a merely local or private mature : the imposition of punithment, by tine or penalty, or imprisomment, for enforcing ans orlinance of the 'Territories made in relation to my matter coming within any classes of subjects emmemted, providend that it be not ineonsistent with errtain statutes specifion, we that any penalty does not exceed one handred dollars.
'The Chief Justice, or any Judge of the Court of the Queen's Bench of the Province of Manitoha, with any one of the Stipendiary Magistrates as an associate, was empowered to hold a comrt, to hear and determine any charge preferme agminst any person for any offence alleged to have been eom. mitted within the North-West Tervitories: In the case in which the maximm punishment for such offence does not exceed tive years imprisomment in a smmary way, and withent the intervention of a jury. In any case in which the maximum pmishment exceeds five years, hat is not pmishable hy denth, either in a summary way and without the intervention of a jury, if the accused assents thereto, or, if the accused demands a jury, then with the intervention of a jury not exceeding six in number. In any case in which the pmishment is death, with the intervention of a jury not exceeding eight in number: Right of appeal to the Court of Qucen's Bench of Manitoba wis provided for.

On the same diny (7th Oct., 1876 ), the District of Keewatim was proclamed with Lientenant-Governor Morris, of Mini- mundarice: immak, :mb mals: maincotection ol all matters of pmainoreing : my matter l, providenl specitienl. or ars.

f Keewatin s, of Mani-
tolm, as Lientenant-Governor: On Nov: Uth, the following gentlomen were gitated as the Comeil of Keewatin: Lt.-Col, IV. (Shmorme Smith, Dr. Dackes, Dr. ('ord, ( iithert Mc.Micken, J. A. N. Provencher, and Wim. Hesperer. This C'omeil met immediately, to take steps to prevent the spreal of small-pox, which had broken ont among the Icelmelers mal lmians on Lake Wimiperg. Vigorous mothoils were adopted les the Comedi, who constituted themselves a boad of hembth, and the disinase was ehecked before it had manhe mach progeress. A striet qumantine, and inspection of all furs from the infected district prevented its sprealing to Manitobo.

Lentemant-Governor Laided and the members of his Come cil werre swom in on Nos. 27 th, 1876 at Livingstome, swan Riwer, wher the seat of ( womment was temporily loceaterl. awaiting the completion of the (iovermment Homse and other pmhlie buildings, at Battleforl, the C'apital of the North- W'est. The first session of the Territorial Comeil was held at swan River, on March Sth, 1875, during which were passed ordinances respecting the alministration of justice, the registration of deals, the protection of the butfilo, for the prevention of prairic and forest fires, the establishment of limeres, and the prevention of infections iliseases.
The Ordinance for the preservation of the buffialo, was an important one, framed in the best interests of the Indians. It provided as follows:-

1. No poma, pit, or like enchane or emontrivance shall, at any time, be fombl or used in the North-Wast Tersitindes for the eapture of butfith. not shall it be lawful to destroy butlilo by rmang them inturanes, of lakes, or orer steep hanks or precjpices.
2. It shall be malawful at any season t., hant of kill bullalu from the mere matter of ammsement, or wanton destruction, or solely to secure their tongues, choice ents, or peltries; and the prow in any anse that less
than one-half of the llesh of a buthato has heen used or removed slath be suthicient evidence of the violation of this section
3. It shall be unlawful to kill butfalo, of either sex, under two yars of ase, on to lave the dead bosies or tho peltries, or any other part of the boties of sueh yomug hutfithes in possession.
4. On nul after the 15 th of Novemher, 1877, and in every year thereafter, the period between the 15th day of November and the 14th day of the following August, inchasive, shall be a close seasom for female butlato; and during sad saso it shall be mawful to kill such buflato, or have in possessan: the allor lien, or the peltries, we my other part of the horlies
 contained ia 'hametion shall extend or apply to Indians or mon-treaty Indians beis wen the thth day of November und the 14th day of the forlowing February inelusiv:
5. Notwithstanding mything eontained in this Ordinmee, it shall be lawful for any traveller or other person in ciremmstances of pressing necessity to kill buffalo to satisfy his immedinte wants.
6. In order to conviet any person of malawfully killing buffalo, it shall be sufficient to prove that such person was one of a party accessory to such killing; and taking the life of each and every butfialo unlawfully killed, shall be deemed a distinct and separate offence.
7. Every person convicted of an offence against any of the foregoing provisions of this Ordinance shall be liable for each and every offenee to a tine not exceeding one hundred dollars, with custe of proseention, and in defmult of payment to be imprisoned for a term not exeeding three months.
8. When any offence is committed agitinst this Ordinance, it shall be the duty of any sheriff, policeman, constable, or other peace ofticer, upon view thereof, or upon the information of any two persons, who shall declare their names and phaces of abode, to forthwith arrest such offeuder by the authority of this Ordinance, and without further warrant to bring him before a Judge, Stipendiary Magistrate, or Justice of the Peace, to be dealt with according to law.
9. Every offence agninst any of the sections of this Ordinance may be presented in a summary manner before any Judge, Stipendiary Magistrate, or Justice of the Peace.
10. One-half of any peeuniary penalty recovered under this Ordinance shall be puid to the informer.

The Ordinance for the preservation of the buffalo met with a great deal of opposition when put in force. The HalfBreeds of the plains, who depended upon the chase almost, if le 14 th day of male hultalo; lo, or have in $t$ of the budies il that mothing or now-treaty lay of the ful-

his Ordinance
lo met with The Halfse almost, if
mot guite, an much as the ladians resentent, what ther embe
 Iodinns were highly incensed at the law which fordanke them killing hathla when and how they phase. They were willinge te cerle their bands to the whites, but they comblint mu-
 forefathers had done from time immemorial. The idean inn-
 Half-Breeds and lomians miterl in denomenger the law, and in
 tmity of the existing discontent to stir up a ferling of bat

 their trale in butfilo molns, were in no was loath to ineite the Inlians to defy the law, and for a time, the indiations wore manmen of surions tromble. Fortumately, a traty was consmmatel with the Bhackfor, in Oct. $1 \times \bar{i}$. hy (invernor laid. Abont tive thonsamd Imlians, the bust puwarind amb warlike on the plans, leing thas brompht maler control.
 these ludians were comcomed, and to their homom be it said the Backfent hase never departal from the obligations of the treaty, although many attempts have heen made to then them from their allegiance. ('rowfoot, hom chief of the Bhackeet, whom his people callad the Great Father, in accepting the traty, said: "Whilh I spak, he kind aml patient. I have to speak for my people, who are mumerons, and who rely upon me to follow that comse which in the finture will tend to their gool. The plains are large and wide, we we the chil-
dren of the phins, it is our home, ani the buffinto has lnew ome food nlways. I hope you look noon the Blackferet, Blowls. mul sureeres as your children now, and that you will be indul. gront and charitable them. They all expect me tos suak now fin them, and I trist the Great sjpirit will pat intu thin brensts to be " good prople-into the minds of men, women ant children, und their future wenerations. The alvice given me and my prople has provel to be very gool. If the Polies: had not come to the comatry, where would we be all now" bad men and whiskeg were killing us so fast, that very fow of as indead would have treen left to-day. The Police han" paracend us, as the feathers of the bird protect it from the frosts of winter. I wish them all gook, mod trust all wir hearts will increase in grodness from this time forward." A notable feature of this treaty was the refusal of the Blackfeet to aceept presents of ford, which was the invarinble prelimin. ary step in the transaction of other treaties. Crowfoot sail, "No, let us talk first, then, if we ngree, we can ent."

An Aet to amem the North-West 'lerritories Aet was passed at the session of the Dominion Parlimment in 1876. The principal matters dealt with in the amended Act were the enhargement of the powers of the Stipendiary Magistrates in civil and eriminal eases, and the extension of their jurisdiction to the District of Keewamin. On Augnst lst, of the sume year, the sent of govermment in the Territories was movel from Swan River to Battleford.

The second session of the North-West Comeil assembled at Battleford on July 10th. 1878. Mr. Patrice Breland, who had been appointed during the recess, taking part in the deliberittions. Fourteen Ordinances were passed at this session, one of them being the repent of the obnoxions Butfalo Ordinance.

## CHAPTER NVIII.

R.AH.WAY POLICY OF THE MACKENZIE GOVERNNENT.

Apter the defeat of Sir dohn A. Maedomald, the people of Manitolm waited impatiently for the next move non the politienl chess-hoard which would indicate some detinite move in the direction of malway comection with the mast. Mr. Mackemzie's speceh to his constiturnts at Samia, so far as it concrumed his milway policy, was far from satisfactory to Nor'-Westers. Ho satid on that ocension:-"()ne of the matwers which will be brought up will be the Paeitie Railway untter. Yon are nware that, luring the disenssion of the Bill, I objected to the provision to complete the malway within ten years. Nearly three years of that time have rlapsed, and we are bound by the contract to finish it within seven years and three months. I have always thought that a speedy mans of eommmination across the continent was mecessary for the grod of settlement, and for the pmopose of "pening in the districts where we have great riches molevel"ped in the hesom of the earth. Withont that commmenieation thirir development cammet take place, and immigration emmot be eflected. It will be the duty of the Administration, in the first place, to secure a means of commmiention to our navigable waters, from Lake superion to Fort (anry and the Kocky Mountains, at the same time commencing at the Pacifie Oem, and constructing eommmication by the westem slope.

In the meantinte commmanation would be afforded in als junction with the American lines until we have, mems sutticient to necomplish the work. If we once have these region accessible-that is, British Colmmbia and the North-Wist 'Territory-we can afford then to spent money upon the em, structing of the other portions of the road, which will 1,0 necessary to complete one weat mational highway across the continent: and I think it wonld be the duty, as it will ber the desive of the Goverment, to develop amy plan by which there results are to be aceomplisher.'

During the election campaign, Mr. Mackenzie repeaterth expressed his opinion that delay won pudent in madertaking the construction of the main line. At Hamilton, he same:"We propose, in my policy, to treat with British Cohunh for some morlification of the terms, and at the same time maintain as rigidly as pessible the honor and gool faith if the conntry in carging out the ragagements alrealy ratered into. We have proposed a phan by which we can use the water privilege of our great western lakes and rivers, wo emring a mems of transeontinental communication ly then waters, and the links of ralway necessary to comect them as a summer route across the continent, within a reasonahbe time, without burdening the comntry with an intolemble luat of debt. We propose that the Pacitic Railway shonld arow the continent through Canadian territory for its antire lenath. as soon as that is possible."
'These utterances of the Premier did not convey any very reassuring message to the people of the west, whose loun deferred hope for a milway did not appear to be much nearel fruition than it had been two years previously. The seswin of Parlinment was, therefore, looked forward to impatiently
for what it mirht bring forth in the way of railway legislation. The Honse met at Ottawn, on the 27 th of Mareh, 1874. and the spreeh from the Throne gave little intieation of the Govermment's intentions in respect to the milway. The fol. lowing is the chnse which referred to the sulject: "The lat. Goverament having finiled in seenring the prosecntion of that great enterprise, the Canalian Pacifie Railway, you will be called upon to consider what plan will best and most speedily provide means of transcontinental communication with British Columbia. The report of the Chief Engineer will be laid before you, showing what progress was made during the past year with the surveys comected with the preposed line." Early in the session, a deputation from Munitolm waited on Mr. Mackenzie, to mere the speedy construction of the Pemhim branch. He replied that the Govermment would be pregared to go on with the road as soon as the St. Paul and Pacific Ralway Compmer were mady to push their line to the heomdary.
(In May the 8th, Mr: Mackenzie notitied the Honse that he would bring down the Paeitic Railway resolutions on the Thesday following. Aceording to these, the whole line of the railrome was to be divided into fonn sections, vi\%:-

Tirst-'To berin near the south of Lake Nipissing, and to axtend towards the upper or western end of Lake Superior, to a certain point where it would intersect the second section.
Second-To begin at some point on Lake Superior. to be Whemined by the Governor-Goneral in comeil, comeeting with the first section, and to axtend to Rad River in the Province of Manitoba.

Third-To extend from Red River to some point inetween Edmonton and the foot of the Rocky Momatains, to be yet wtermined.
ey any very whose loung much nearer The session impatiently

Fonth-T'o extend from the western teminus of the thimi section to some point in British Columbia. on the Pacifir Geean.

That braches of the said railway wond the constructed an follows:-

From a point indieated as propesed castem temimes of the said railway, to some print on the Georgian Bay, to tey yet determined. A hranch from the main line near Fort Gary, tu the intemational bomdary at or near Pembina: such brancheto he considered as forming part of the Comadian Pacific Railway, except in so far as it may lo. otherwise specially provided.

Mr. Mackenzid promised, in introdncing the resolntions, that the Pembina bameh wond be hailt immertiately, as he expected to begin the work of renstruction some time during the corrent fear. By the Act which pascel the House, the Govemmest reservel the power to comstruct the main milway as a public work, or to bet the buiding of it to contractors in fome sections. If given ont bentract, the contractors were to low paid bomases of ten thomand dollass pre mile. and twenty thonsand acres of land per mile, together with a gramanter of four per cent per ammm on their ontalas. The buge bund monopoly, which such an immense grant was calcolated th create, was guarled against by the (iovermments keeping the sale of two-thirds of the land in their own hands, and necounting for the proceeds of such sale to the contractors. No limit of time was assigued for the completion of the work.

While these proposals were not altogether satisfying to the people of Manitolat the promise of the speedy construction of the Pembina branch, and the mann line to Thunder Bay: Wias damkfolly recejved by them, and they expressed a general, if
lukewom, appromal of the new milway policy. British Colmmbians, on the other hamd, denomend the poliey as a breach of faith, by which their rights had heen ignored, and indigmantly refused the proposed expenditure of $\leqslant 1,500,000$ yearly, on their ent of the line, in lien of the original terms, which providel for railway romection with Eastern C'mada within tell years from their entry into Contederation.

Mr. Mackenzie still clung to his pet theory of utilizing the water sureches betworn Lake Superion and Fort Garry, and the waters of Lakes Wimipure and Manitola and the Saskatehewan river, as a mems of communcation with the far west. Accordingly, a contract was mald with C'arpenter \& Co. of Orillin, for comrying pasengers and freight from Thunder Bay to Fort Garry, during the seasom of mavigation, of which the following is a symopsis:-
The contractor", during the navigation seasom of the persent Van (1874), must mantain the line on a scalle sutfiesent to carry the passengers and froight hrom Thmoler Bay to Fort (iarry, and diere cerser, without delay: The contractors to have experienced rugineres and crows on the steamers and boats: to be allowed the use of the plant and buildings, but to hame the same lack in the fall. The eontractors must not ron the steaners off the line of the ronte. Passeners and freight to leave Thumber Bay three times a week, or ity, if necessary, and vire eresse. The time for the consence of passemers mot to exeocel toll or twolse days at farthest, and for freight fifteen or twenty days. The contractors are to make provision against aceidental lelays. All the mats to be well mamed : to keep honses and tents in grood order for emigrmens, and to fumish meals at 30 cents. Intoxicating liquors strictly prohibited. Contractors aml employes are not to
deal in furs. Contartons must make their own amangements with the Indian derents for the trmespentation of Indians, Comployés monst treat Imlians kinlly, oe suffer dismissal. I'assengers must be malc additionally comfortable on simdays. The department is not bemmd to complete the works within any given time and eontractors are to have no clain if the works are not eompleted. The contractors to make casmal repaiss to roals or property in use, for the balk smm of slom. Rates are not to exceed the following:-

Each passenger muler it yems - - if oo

 Was fomed to be we ersty and minativaremy that the diovernment closed it. Then they molertook the construetion of a milway to Sturgeon Falls, with a view to utilizing the water stotches. 'floe location of the railway was altervards moverd Gather north (to the line now existing hetween Lake super-
ior and the Rea River, mal the construction of a camal and locks at Fort Francis, on the Rany River, was commenced in June, $1 \times 75$. This camal whs intemed to make the water stretches available for the pasage of stemmhents of monderat. dranght, and would have given 200 miles of mintermpted mavigation from Kettle Falls to Rat Portage, It was calerlated that the camal wonld prove servicentle for local traffie. even if the larger scheome of contimous water communieation from Lake Shebambown to Lake of the Woots were abandomed. Work on the ramal was contimen for thee years, aml about $\$ 220,000$ ware expended, but it was fimaly left mbinished, and remains so to the present. withont wee having been used for the passige of versels.

In the antmun of $1 \times \bar{t} t$, a contract lin the grading of tha lembina branch was let to doseph Whitehead, and Manitobans were made happy in auticipation of the speedy arrabl of the locomotive emine. Rat Wimiperg was greatly exereised over the ronte chosen for the man line.

It was feared that the line would pass somewhere in the neighborhood of the stone Fort, and thence north-westwad, instead of near the city, and a momber of mase meetings wer. held on the snbject. The settlers along the Assinilwine, at Portage la Prairic and westwarl, also strenaonsly objected th the location of the line, as it atforded them no hope of milway service, and was roing throngh a comntry where no settlement had as yet heen attempted. Indeed the whole ronte, as immicated by the folicy of the Mackenzie administration, was comsidered to be against the best interests of the eomery, and at more sonthern one was alloocated. The Govermment's defence of the northem ronte was, that it would shorten the distance across the continent, hat, as a spaker remarked at one of the

In March, 1875, a dellegation comsisting of sumators shtheo. land and Girand: Messms. W. N. Kemmels: M. St dohn, John
wehult\%, I). A. smith, Thos. Ryan. A. W. Hurows (i, B, Filliott, R. Gerrie, Joneph Donpe, A. FF. Martin, and L. IV: Horchmer, waited "pon How. Alex Mackenaie, Premier, to, disernss matem comected with the location of the ralway in Manitola. 'The principal request of the delagation was for aid in building a hridge to cross the Row River at Wimipeg, a matter whed Mr. Mackenaie said he would investigate, and if it did not adi tow heavily to the cost, we impose any serious , hligations on the Dominiom, he would farombly consider the proposal. On $^{\prime}$ the chaiman of the delegation remarking that "good dom of dissatishaction existed amongst the people of Manitoln with roppect to the decision of the (iovermont respecting the main line as well as the limol, mad that therely the rights of a great many sottlers would be ignored, the Premice mate the following remarks:-"That he wonld satisfy mather than dis. satisfy the people, and for arery thousanl persons in Manitwh whon he womld satisfy, there were one hundred thensaml in other parts of the Dominion be would dissatisfly. H. wonld rather give the Province a million of Nollars than construct the main line thirty miles ont of its why: The gues. tion of freight land to be considered."

In the Speech from the 'Throne, at the first session of the secome parliament of Manitoba, in 187\%, attention was called to the railway question in the following words:-"On the risht development of the railway system of the North-West, the prosperity of this Province mainly will depend, and, while it is of the utmost importance that the location of the Camadian Pacitic Railway should be so made as to preserve that Hirectness of route which is so necessary for a mational highway across the British portion of the American continent, it is yet essential to extend the advantages arising from the construction thereof to the population of this Province."

commonication with the sonith. * * * I think we will have a bridge at Wimnipeg before there is one north of us."

In the meantime, the construction of the seetions of the main line lying between 'lhunder Bay and Lake Shebandowan, and between the Lake of the Woods and Red River was being proceeded with, and, as shown in another chapter. the surveys to the west of Red River were being actively pushed forward.

While this was going on, the diftieulties which had arisen between the British Colmbian and Dominion Governments, conserpent mon the non-fulfinment of the agreement made in 1871 , for the eonstruction of the Canadian lacitic Railway, had assumed formidable propertions. The Domimion (iovermment dispatched an agent, Mr. James D. Ealgar, to treat with the Provincial Govermment, and, if possible, arrange some method of compromise. Nr. Wackenzie finding it utterly impossible to cary ont the terms of the Act of Cnionthe commencement of the railwing within two, and its eompletion within ten, years, from suly 20th, 1871. Negotiations proceeded for some time lretween the Provincial Govermment and $\mathrm{Mr}_{1}$. Edgar, acting in his eapacity as the acerorlited agent of the Jominion, and modified proposals were submitted by: him, which appeared acceptable to British Colmmbians, when, suddenly, Mr. Walkem, the Provincial Premier, mised ohjections to recognizing Mr. Edgar as the agent of the Dominiom. and Mr. Edgar was recalled to Ottawa, and the wholde case remained in state, quo for some time. Wr. Wialkem next proceeded to lingland, to moge the Imperial anthorities to interfere in behalf of the Province. Loml Carnarvon, Colonial Secretary, considered that this appeal to the British Govermment, by a Province, in a matter which was capable of settlement

He thereform depreated the object of Mr. Walkem's mission, but offered to assmme the role of arbitrator. on the distinct umberstanding that his finding should be acceptel an an ahsolute aml final settlement of the dispute. His good othees were accepted by both Goverments, and the ciar was submitted for his docision. This was known as "The Camaron Terms," and is cmborlied in the following minute of tha ('omeil, which explains the different phases of the divpute very fully:-
 wllen'y the Administrator of the (forermenot-in-C'mencil, one the 20th,

The Committere of Comacil have hand muler eonsideration the diflicultien arising ont of the agrement male in 1871, for the construction of the ('anadian Pacilic Ratway. Mr. Edgar's mission to British Colmmbia last year was based upon the view that the condition of that agreement were quite impracticable of fulfilment. The propnals submitted by him to the British Cohmbia Govermment were, brietty, that the limitation of time be given up. Canmla shonld motertake that one million and a half of dollars shombla bexpended unon construction within that Province in each year after leation, and that a waggon road along the line of the proposed milWay comstruetion shonlel precede actual malway enstruction
It was further proposed to build a milway on Vimentiver Island from lispumailt to Nimaimo.

The propositions were either unt considered by the Govemment of Bitish Columbia, or, if considered, they were rejected by them, and they subsequently appealed to the Jmperial (invermment, invoking their interreation. The result of this appeal was an ofter from the Right Homorable Lord Camarron, Necretary of state for the Colmies, of his gome oftices to promote a settlement.
The Privy Comeil, in their minute ot the 23 red Inly, 18.4 alviset, "that Lord Cararrom be informed that they would gladly submit the fuestion to hin for his decision, as to whe the the exertions of the foremment, the diligence shown, and the oflers mate, have or have not heen fair and just, in accordance with the spirit of the agrement. Lord Carnarom, in his despateh of Augnst lith, acting umon this minute and unom agnement on the part of British Colmmbia, to abide ly his decision, mate

tionet, and which was referred to in the Minntes of tomeil of December 18 th, 1874, when the tiovermment "expressud a willingness to make those farther coneessions rather than forego an inmediane settlement of so imi tating a question as the concessions suggested might be made, without involving the violation of the spinit of any parliancotary resolution, or the betcel of any enatmont."
 a pantion of the Canadian lateitic Railway, as elefined by de Aet; it was intented to benefit local interests, aml was proposed as eompensation fon the disapmontment expermenced by the mawodable delay in constructing the railway across the continent. The work is essentially a local one, and there are whious reasons against the Comalim Govermment, muler ordimay eiremustances, undertaking the construetion of such works, ind in faver of their being built, if at all, hy the viatue of Provincial action.

The Bill which the Goverment introlncerl intu the llonse of Commons, ta, provide for buileling this railway, ewoked a considemble degree
 the House of Commoms, it was afterwambs rejected in the Sonate : and thus there is imposed upon the Govemment the duty of considerings some wher method of meeting all just expectations of the people of British Cobmbia, whose Govermment has not suggested tor this Govemment any swhation of the alificulty.

It whald seem reasomahle that the people of British C'ohmbias should mastruct this work themselves, or (if they think other loeal publie works more alvantageons), should, in lien of this, themselves umdertake such nther public works, and that the emmpensation to be given them by Canala for any delays which may take place in the emostruction of the Pacific. Railway, should be in: the form of a cash banns, to be applied towards the neal milway or such other local works as the Legislature of British Golmbia may undertake, Camada also survendoring any elam to lands Which may hase been reserved in Vimconver lskan for railway purposes.

The sum of $\$ 750,000$ would appen to the committee to he a liberal compensation, and the committee advise that the Government of British 'olumbia be informed that this Gowermment is prepared to propose to Parlianent, at its next session, the legislation necessary to carry out the views contained in this minute, as to the eonstruction of the Pacific Railwaty and the compensation to be given to Rritish Colmbia for delays in sach construction.
The committe further alvise that a eopy of this minute be transmitted to the Right Homorable the Secretary of State for the Colonies.
> W. A. Hismworth, Clork Privy C'momil, Commin.

It will the , hererved that the Bill providing for the immedi ate constriction of the Esquinalt and Nimamo branch waw defeated in the senate, and the Goverment were thas pres. vented from carying ont the "Comarvon Terms," and ofterent. as a comprensation, the smm of $\$ 750,000$, 'This offer with promptly refinsed by British Columbia, and the question of seceling from the Doninion was serionsly disenssed. So hit ter was the feeling in the Pacific Province, that a petition Wimpresented to the (puren, with the sanction of the Provincial Legishature, praying that the Province should he allowed to secede from the Dominion, mess the terms were carried omt. On the ocension of Lord Dnfferin's visit in $1 \times 7$ (i, the mottoen on the arches erected in his hmor, in the streets of Vietoria. all had relerence to the ralway question. Some of thess read "United withont Lnion," "Carnarvon Terms," " ('onfedemated without Confederation," and one, especially detiment displayed the legend, "Camaron Temms or Separation." As the viecregal carriage approached this areh, His Lordship, was informed of the offensive motto. The procession was halted, Lort Dufferin asked for the reception committee, and on their appeamace gave a splendid example of that never-finiling tact and ready wit for which he was justly famed.
"Gentlemen," said he to the assembled committec-men, "I will go under your beautiful areh on one condition. I won't ask you to do much, I beg but a trifling favor. I only ask that you allow me to suggest a slight change in the phrase you have set up. I merely ask you to alter one letter in your motto. 'Turn the ' $s$ ' into an ' $R$ '-make it ' Camarvon and Reparation,' and I will gladly pass under it."

It is scarcely creditable to the grood taste of the parties responsible for the erection of the arch, putting loyalty out of

His Lomenhip, after tracing the history of the railway dispute from its inerptiom, saill:-

Well, then, we now come to the Eqquimalt and Namamo Railway. I am well aware of the extmortinary impurtane gou at ach to this work, and of comse 1 an prevectly ready to admit that its immendiate execotion was promised to you in the must detinite and absolute manner under Lard Camarvon's arbitration. I am not, therefore, surprised at the irritation anl excitement occasioned in this city hy the mom fulfilment of this item in the agreement-may, I wish to g. further, I think it axtremely natmoal that the misatriage of this part of the hargain shomblave been produetive of very strenums languge and depply embittered feelings, nor an I surprised that, as is nhmost certain to follow on surh incasions, you should in your rexation put a very injurus comstruetion on the comduct of these who had umbertaken to realise yomr hopes; but still 1 know 1 num aldressing high-minded and reasomable men, and moreover, that yom are perfeetly comvineed that I womld somer cot my right hame off than atter a single wirl that I do not know to be an absolute trath. Two years have passed since the Canalian (iovermment modertork to commence the construction of the Lispumalt aml Namaimo Railway, and the Nanaimo and Sispuimalt Railway is not usel commeneed, and what is more, there does not at present seem the remotest prospect of its being commencel. What, then, is the history of the ease, and who is answerable for your disappointment? I know yom consider Mr. Mackenzie I am not here to defend Mr. Mackenzie, his policy, his proceedings, or his utterances. I hope this will he clearly understood In anything I have hitherto said, I have done nothing of this sort, nor du I intend to do so. I have merely statell to you certain matters, with which I thought it well for you to be acquainted, because they have been misrepresented, and what I now tell you are also matters of fact within
my own cognizance, and which have morelation to Mr. Matekenzie an the hemi of a politienl party, and I tell then to you not only in your interenta, but in the interest of public momaty and English homs. La acondan' with his engegements to yon in relation to the lispginatt and Nimainn, Railway, Mr. Mackenzie introlneed, as sum as it was pusvible, it bill int" the C'amalian House of Commons, the chases of which were ndmitted by you representatives in Parlimuent, fally t" discharge his whigations to youstelves and to Land ('armaron in respect of that molertaking, and carried it throng the Lower Homse by a large majority. I have reanom to think that many of his sapporters voted for the bill with very great misgivings as to the policy of the meanare, and the intrinsic merits of the ralway, but their lember had pledged himself to exereise his lathanent. ary intluence to pass it, and they very properly carried it throngh for him. It went up to the senate, and was thrown ont by that body by a majorit! of two. Well, I have lemmed with respet that there is a very wide-spread conviction in this commmaty that Mr. Mackenzie had surveptitionsly por cored the defeat of his own measme in the Cimer Honse. Hat Mr. Mackenzie dealt so trencheronsly by Loml Cammon, by the representa tive of his Sovereign in this comntry, or by yon, he would have been guilts of a most atrocions act, of which I trust momblic man in Camada, or in any other Britixh Cohny, enuld be uanable. I tell yon in the umst em. phatic terms. and I pledge my wwn homor on the paint, that Mr. Mas. kenzie was mot guilty of any such hase and deceitful conduct; hat I thought him grilty of it, either he would have eased to be Prime Minister or I shonld have left the conntry. But the very contary was the fact. While these events were passing, I was in constant persmal communication with Mr. Mackenzie. I naturally watehed the progress of the Bill with the greatest anxiety, because 1 was aware of the eagermess with which the Act was desired in Vietoria, mut because I had Jong felt the deepest sympathy with you in the succession of distippointments to which. hy the force of circumstances, you hat been expersed. When the Bill passed the Honse of Commons by a large majority, with the assent of the leader of the Opposition, in eommon with every one else, I conchued it was safe, and the adrerse rote of the semate trok me as much hy surprise as it did you and the rest of the world. I saw Mr. Mackenzie the next diay, and I have seldom seen a man more amoyed or disenncerted than he was; indeed, he was driven at that interview to protest with more warmth than he hat ever used against the decision of the English Gorermment, which had refused, on the opinion of the law ofticers of the Crown, to allow him to add to the members of the Senate, after I'rince Edward had entered Confederation. "Had l been permitted," he said th me, "to have exercised my rights in that respect, this would not have happened, but how can these mischances be prevented in a booiy, the ma-
ellzie at tho nir interents. a ace ordanater inl Sanuinn. ie, a lill inte" adminted ty Wigations th rtaking, and 1 lave vam, th very great mervits of the , Parlianwent ,wull for himu. lya majurit! $y$ wide-sprent titicunsly pr" se.  sent an insmbortination, on the part of thio members, towatis the lemer af their choiece Bat a seman is equally inlepement of the ('rown, we Minister, or the preople, amh an in the Homare of Lards at homes. win the second Chamber of Camada, gentlenell will ran fromtime to time on the wrong side of the post. But it has been whemed- pranting that the two menbers in question did mot whe as they did at Mr. Mackemai instign-tion-he has exhibited his perting in mot sending in lis resignation as soon as the Senate hat promomaed against the Bill. Now. fentlemon, youl camet expeet me to disenss Mr. Mackenaiess eonduct in that reo greet. It would he very improper for me to doss, hat thugh I exmoot
 what I meself shomlal have done had Mr. Mackenzie temered to me his resignation. I shomed have tald him that in my opiniom sueh a comrse was guite mingstifiable ; that as the Honse of Commans was then constithted, I saw un prospeet of the Queen's (invermment being mivantageonsly arried on except mater his lomelership, and that weve he to resign at this time the greatest inemsenienew and detriment whal ensue to the pmblic service. That is what I should hase said to Mr. Mackenzie in the event contemplated, and I have mo dombt that the l'arliancut and the people of Canada wonld have confirmed my decision. lint it has been furthermore mged that Mr. Mackengie onght to have re-introluced the Bili. Well, that is again a point I cabmot dissuss, hut I may tell you this, that if Mr. Maekenzie had fone so, I very much dombt that he would have suceveded in earrying it a seeond time "ren in the Honse of Commons. The fact is that Camala at large, whetleer rightly or wrongly I do not saty, has umais takatly shown its aproval of the vote in the Senate. An "pinion has cone to prevail from one end of the Dominion to the other, an opinion which I find is açuicseed in by it eomsinerable poportion of the inhahitants of British Columbia, that the Namimo :mil Fsefumalt Railway canbut stand upon its own merits and that its construction as a Govermment ellerprise would be, at all events at present, a useless expeniliture of the public money. Now, again, let me assure you that I am not presuming (1) convey to you any opinion of my own on this much-contested point. Fiven did I entertain any misgivings on the subject, it wonld be very un-
 I mon merely ennmmienting to yon my conjectno why it in that Mr. Ma. henkig has shown no sighe of his intention tor re-intronluce the Nanainu, and Esiquinalt Railway Bill into lorlianent, viz, becmese lo: knew ho: hud no chawe of getting it pmsed. Wedl then, gentemen, of whom and what have you to complain! Well, yen lave overy right, from your puint of vew. The complain of the Comadian Semate. Vom lane a right to may that, after the Goverment of the day had fomised that $n$ momare
 set their hearts shomid be passed, it is ill molvised mul molamolsome of that haly ant $t$, condirm the matmal expect:tion which hand heen thas congemered in your breasts, enpecially when that work was itself oftered as a solatinu to you for a previons injury. I fully monit that it is a very grear whep for either Honse of the legrislature, and particulatly for that which is not the propular branch, tu disavow my mareoment into which the Eix ecutive uny have entered, except under a very chsolnte sense of public duty. Mind, I mon not saying that this is not sucha cose, but I say that you have ent a perfect right, from your own print of view, but to regarl it. But, gentlemen, that is all. Sou have got no right to go heyond that. fom lave wo right to describe yourselves an a secoml time the vietims of at broken agrement. I have shown you the persons whon had entered into an engagement, in regarl to this milway, with you mul Larl Carnamom, aml had done their very hest to lischarge their obligation. But the semate who comateracted their intention had given no preliminary pro. in ses whatever, either to you ir to the Secretary of State. 'I hey rejecteri the Bil ! in the legitimate excreise of their constitutional functions, anil there is nothing more to he said on this heal so far as that body is comcerned, either by you or Lord Camarvon, for I need wot assure you that there is not the slightest chance that any Secretary of State in Downing Street would attempt anything so uncoustitutional-so likely to kindle a Hame throughont the whole Dominion-as to coeree the free legislative action of her Degishature. But there is one thing I mlmit the Senate has done ; it has revived in their integrity those original treaty obligations, on the strength of which you wero induced to enter Confederntion, and it lus remposed upon Mr. Mackenzie and his Govermment the obligation of offering you an equivalent for this stipulation in the "Carnarvon terms" whieh he hats not ben able to make good. Now, from the very strong langunge which has been nsed in regard to the conduct of Mr. Maekenzie, a bystander would be let to immone that as soon as his Railway Bill had miscurried, he cynically refused to take any further action in the matter Had my Government done so, they would have exposed themselves to the severest reprehension, and such conduet would have been both faithleas to you and disrespeetful to Lord Carmarvon ; but so fra from having acted

 It Mr. Мiar (1) Nanaiom w knew hus f whon alld your juinl dyltt for wit is mevisily rowince has andsume ut een thins en oflered in th a very yrual that which liels the Eix. se of pmblio shly that you to regard it. beyond thut. victins of : entered int" a Ciarnitron. in. But the limimary jruhey rejecterl metions, ind body is comwre yout that in Downilis $y$ to kindle ic ce leginlative e Senate hav bligations, ont ation, and it obligation of "rvoll terms" vory strong . Muckenzic. way Bill had n the matter aselves to the oth frithleas having acted

 partionlar stepin thene tramactions I ann well awne that your comsider
 of. If this has been the ease, it is most mfortmante, but still whatever may thave been the mininter incidents eombecterl with the pant, the one solid fact remains, the the Cimalim fovernment las whered you \$ino 000 in lien of the milway. 'fhis sum las been reprosented to mo as totally inal. equate, mul as very far shont of an equivalent. It muy lue so, or it may mot be so. Noither upon that point will I uther an opinion, lint still I may mendion to you the principle $\quad$ pron which that sum has heen arrivel nt. Under the Namaino and Eisphinalt. IRilway Bill, Whose rujection ly the Sonate we lave been considering, Cnmala wis to bave contribited bonns of $\$ 10,000$ a mile: the total distanco of the lime is ubout seventy milen, eonsequently this $\$ 750,0 \times \mathrm{KI}$ is nothing more ar lens than this vesy twnus convertel into a limp sum. Now. since I have conse here, it has been represented to we by the friends of the milway, that it is is line eapmble of stamling on its who merits, and that a compuny lumb be en almost indnced to take it up sone time ngo as an mannlosirli\%erl enterprise. Niny, only yesterday the local pitper which is the mon strenmons champion of the line, asserted that it could be buift fur \$2.$0,0,00$; that the lands-which. with the 8750,000 were to be replaced ly Mr. Mitekenzie at your disposal-were worth s-veral millinns more, and that the railwny itnelf would prove a most prying eomcerr. If this is so-mul what better anthority can I refer to-is it not obvious that the bomms proposal of the Dominion Government assumes, at least, the semhbuce of a fair ofter, mud oven if you diel mot entl. sider it mbsolutely up to the mark, it should not have been menomeed in she very strong hanguge which has been used. However, I llo not wish to disenss the point whether the $\$ 700,00 t$ ) was a sufticient offer or not. I certainly man mot empowered to holel ont to you my lope of manamec : all that 1 would venture to submit is, that $\mathrm{Mr}^{\text {a }}$. Mackenzic luving been thwarted in his bome fide emleavor to fultil this special item in the "Ciarnarvon 'Perms," hus mopted the only course left to him in proposing to discharge his obligntion by a money payment. I confess I shonld bave thought this would be the most natural solation of the problem, and that the pryment of a sum of money equivalent to the measure of $\mathbf{M r}$. Markenzie's original obligation to be expented under whatever comditions would be most immerliately advantageons to the Provinee, and ultimately beneficinl to the Dominion, would not have been munaturn remedy for the misadventure which has stultifieel this suecial stipulation in regard to the Nanaimo and Esquimalt Railway, but of course of these matters you
yourselves are the better judges, and I certamly have not the slightert as sire to suggest to yom any eonrse which yon may think cont rary to your interests. My omly objeet in tumehing upen then at all is todisabuse yome minds of the itea that there has been any intention mon the part a Mr. Mackenzie, his (iovermment, or of Cabadia, for beak their faith with you. Every single item of the "Camarom 'lems " is at this manent on the eomse of faltiment At momons expernse the survers have beors pressed forward to completion, the tifty millinns at land, the thisty mit lions of money to be prosided for by Camads umber the Bill are rade, the protiles of the math line have been taken ont and the most chathate min bation has heen sent wer to burnpe in renged, to evory secton of the country through which it passes, several thomsand miles of the stipmber telegraph hase heen latid down, and now that the western torminus verna to have been determined, though upon this print I have meself no infon mation, temers. I imagine, will be athed for ahmost immediately. What ever further steps may he becessary to that the modertaking as a ermmor cial enterprise will be adopted. and the promised wagem robl will meen sarily follow puri pasisw with construction. Well, then, gentlemen, hom

 rived at from my visit to that locality. If the Pacitie Railway who comes to bute lalet it camot stop there. It may parse there for aten siderathle time matil Commian tans-Paeitic tathe with Anstalia. Chion

 to supply the material for a Iarlimemary tomerment. Vimeomer and

 Heligolam, and Ascension are ruled thomegh tho instrmentatity of some naval or other otherer. Namanow wold heeme the princigal town of the Island, and Vietoria would laper fur many a lomer pear into the condition of a village, motil the development of your aral tiehk, amd the growth of a healthier sentiment, had prepared the was for its re-incorperation with the rest of the Irovince : at least, that is the homseope 1 shomld draw for it in the contingency contemplated by these gentlemen. Bat tend forbid that my such prophecy shonld be realized I believe the gentlemen I bave referred to are the very last whe whild desibe to see the fultilment
of their menaces, and I hope they will forgive me if I am not intimidated by their formidable representations. When some pertinaceous philosnpher insisted on assailing the late King of the Belgians with a rhapsody on the benuties of a republican govermment, His Majesty replied, "Yon forget, sir, that I am a Royalist by profession." Well, a Governor-Gen eral is a Federalist hy profession, and you might as well expect the Sultan of Tarkey to throw up his cap for the commune as the Viceroy of Canada to entertain a suggestion for the disintegration of the Dominion. I hope, therefore, they will not bear me any ill will for having declined to bow my hend beneath their "separation" arch. It was a very good-humored, and certainly wot a disloyal bit of "bounce," which they had prepared for me. I suppose they wished me to know they were the "arch" enemies of Camba. Well, I have made them an arch reply. But, gentlemen, of comse I am not serious in discussing such a contingency as that to which I have referred. Your numerical weakness as a commmity is your real strength, for it is a consideration which appeals to every generous heart. Far be the day when, on any acre of wil above whieh floats the flag of Eng'and, mere miterial power, brute political preponderance, should be permitted to decide such a controversy as that which we are discussing. It is to men like yourselves who, with unfailing fortitude ant heroic energy, have planted the laws and liberties, and the blessed influence of English homes, midst the wifls and rocks, and desert plains of savage lands, that England owes the enhancement of her prestige, the diffusion of her tongue. the increase of her commerce, and her ever-widening renown, and wo betide the Govermment or statesmen who, heennse its inhabitants are few in number and politically of small accomet, should disregard the wishes, or carelessly dismiss the representations, however bluff, boisterons, or downright, of the feeblest of our distant colonies. No. gentlemen, neither England nor Canada would be content or happy in any settlement that was not arivel at with your own hearty approval and consent, and was equally satisfactory to every section of your Province ; but we appeal to your moxleation and practical good sense to assist us in resolving the present difficulty. The genius of the English race has ever been tow robust and sensible to admit the existence of an irreconcilable element in its midst. It is only among the weak and hysterical popmlations that such a growth ean flourish. However hard the blows given and takrin during the contest, Britishers always find a means of making up the quarrel, and such, 1 trust, will be the cise on the present oceasion. My functions as a constitutional ruler are simply to superintend the working of the political machine, but not to intermeddle with its aetions. I trust I have observed that rule on the present occasion, and that, although I have addressed you at considerable length, I have not said a word which has not been strictly within my province to say, or have intruded on those do-
t intiumidateel eous philos＂ ith a rlazisgoly eplied，＂Yon ；overiuv－（iell－ ，eet the Sultan aroy of Cimata nien．I hope， eclined to bow good－humored． al prepared for arch＂enemies ，gentlemen，of 3 thut to whieh ty is your real generous heart． loats the flag ai ance，should be discussing．It 1 hervic energy， ance of English vage linds，that n of her tongue， win，and woe he． taints are few in the wishles，or erous，or down－ temen．neither settlement that onsent．and was ut we appeal t＂ in resolving the ever been tow ，cilable element opulations that iven and takent ling up the quar－ ion．My fune－ the working of tions．I trust I although I have word which hax led on those do－
mans whieh are reserved for the action of my responsible advisers．As I warned yon，would be the case，I have mate no amommement，I have
 questions now neeupying the joint attention of youselves and the Domin－ ion．I have only endeavored to eorrect some mistpprehensions by which you bave been posisessed in regard to matters of historieal fact，and I have testified to the kind feelings entertained for gou by your fellow subjects in Canala，and to the desire of my（bwernment for the re－estahlinhment of the friendlient ind kindest relations between yon ind themselves，and I trust that I may carry awny with me the conviction that from henceforth a lessangry and irritated feeling towards Camda will have been inaugn－ rated than hiss hitherto subsisted．Of my own enmest desire to do every－ thing I can，and to frowat your views，so far as they may be fomuled in justice and reason，I need not speak，my presence here ant the way in which 1 have spent my time，will hase convinced you of what has heen the ohject nearest my heart．I emmot say low glad I an to have come，or buw much I have protited by my visit，and I assure you mone of the repre－ sentations with which I have been favored will eseape my menory or fail to be duly sulmitted in the proper quarter．

And now，gentlemen，I must bid you good bye；but hefore doing su there is one topie upen which I mm desirous of touching．From my firsl arrival in Canala，I have been very much pre－occupied with the condition of the Indian peprulation in this Province．You must remember that the Indian population are not represented in Parliament，and consequently that the Govemor－Genemal is hound to wateh over their welfare with special solicitude．Now we must all admit that the condition of the In－ dian question in British Columbin is not satisfactory．Most unfortumately， as I think，there has been in initial error，ever since Nir Janes Douglas quitted ottiee，in the iovernment of British Columbin negleeting to recog－$_{\text {－}}$ nize what is known as the Indian title．In Camada this has always been done；no Government，whether Irovincial or Central，has failed to ne－ knowledge that the original title to the land existed in the Indian tribes and commmities that hanted or wandered wer them．Before we touch an acre we make a treaty with the chiefs representing the bants we are性放多 with，and having agreed upon and prid the stipulated price，often－ times arrived at after a great deal of haggling and diffieulty，we enter into possession．but not until then do we consider that we are entitled to leal with an acre．The result has been that in Canada our Indians are contented，well－infected to the white man，nut amenable to the laws and Govermment．At this very moment the Lieutenant－Goverbor of Manitoba has gone on a distant expedition in order to make n treaty with the tribes to the northward of the Siaskatchewan．Last year he made two trea－ ties with the Crees and Chippewas；next year it has heen arranged
that he should make a treaty with the Blackfeet and when thix in dome the l3ritish Crown will have aequired a title to every aere that lien be tween Lake Superior and the top of the Rocky Monntains liat in British Cohmbia- except in a few eases where under the jurisidiction of the Hutson's Bay Companỵ, or umber the anspices of Sir James Domglan, it smimar practice has been adopted-the lowincial iovermusht has always assumed that the fee simple in, as well as the sonereignty over, the land resided in the (bueen. Acting upen this prineiple, they have grantat extensive grazing lenses, and otherwise so dealt with varions sections of the comentry as greatly '口restrict or interfere with the prescriptive righs, of the Gucen's Juinum subjects As a consequence, there las come th exist an masatisfactory feeling mongst the ludian fopulation lntimation of this reached tue at Utawa two or three years ago, and since 1 hate come into the Province my misgivings on the sulbject have been contimert. Now I consinter that omr Indian fellow smbjects are entitled to exactly the same eivil rights muler the law as are possessed by the white pepmiaton. and that if any Indian cmin prove a prescriptive right of way to a lishling station, or a right of aly other kind ; that that right should be no more ignored than if it was the ease of a white man. I am well atware that among the coast Indians the bamb question does not present the sume characteristies as in other parts of Canada, or as it does in the wrion sombtries of the interion of this lowince. hat Iam very happy that the hritioh Columbian Gevemment shonhl have recosnized the neeessity of essisting the Dominion (iovernment in anchorating the present eondition of atfiairs in this respect, and that it has agreed to the creation of a joint commission for the purpose of putting the interests of the lindian populat tion on a satisfactory footing. Of course, in what I have satid, I formot mean that, in our hesire to be homane anm to act justly, we shombld do anything moreasomathe on (quixotic, or that rights already acpuired by white men shond be inemsiderately invaded or reealled, but 1 womb venture to put the (iovermment of British Colmbia on its gnard igant the fatal eventualitiex which might arise, shomld ase sense in .stien pro. voke the Indian pulnhation tu violence. or into a collision with our acat. tered settlers. Probally thete has gome forth anomgst them very incurrect and exagerated information of the walike achievements of their brethren in Dakota, and their uncducated minds are capable of calculating ehances. Of course there is no danger of any serious or permanent revolt, but it must be remembered that even an accidental collision in which bood was shen, might have a disastrous effect upon our present satisfactory relations with the wallike trihes in the North-West, whose amity and athesion to our system of government is so essential to the progress of the Paeific Railway, and I make thin ispeal, us I may eall it, with all the more earnestness since I have
ent thix in dome e that lien be But in Bri. risilicti, il of the mes Donglas, : iovernmunt has eignty over, the rey have grimited ious sectionin of escriptive rights ere has come th lation latima. aml since 1 hate been confirmed. ed to exictly the wite popmbaton. $y$ to a hishing stiould he tur more well awne that mesent the same of the arans dam$y$ that the Britiols ecessity of issist. sent comdition of eation of a joint ne Indian populawe sait, I that ly, we shonhd dn emy acculured by ted. but 1 wemilt its gratul aguns of in atice pro. on with our ecist. then very incurrements of their capable of cabl. - serions or feren an accidental Clisastrous efliet ke tribes in the 1 of govermment and I make thi, ss since I have
eonsinced myself of the degrer. to which, if properly dealt with, the h:dian population might be made to contribute to the development of the weath and resources of the Province. I have now seen them in all phasen of their existence, from the half-maked sarage, perehed like a bird of prey in an old bhanket upon a rock trying to eateh his miserable dimuer of tish, (1) the neat ludian maidens in Mr. Duncan's school at Methatatah, as nodest and as well dressed as any clergyman's daughter in an English parish, or to the shrewd horse-riding Siwash of the 'Thompson Valley with his racors in training for the Asheroft stakes, and as proud of his stackyard and turnip fied as a British squire. In his first condition it is evident he is scarcely a prodncer or consumer, in lis second. He is eminently hoth; and in proportion, as he can be rised to the higher level of eivilization, will be the degree to which he will contribute to the vital energies of the Prosince. What you want are not resomrees, but human hengs to develop, then and to consume them. Raise your 30,000 Indians tu the level Mr. Duncan has taught us they can be brought, and consider What an enormous amomat of vital power you will have added to your present strength. But I must not keep you longer. I thank you most heartily for your patience and attention. Most eanestly do I desire the accomplishment of all your aspirations, and if ever I have the goond fortune to come to British Colmmbia asain, I hope it may be-by rail.

Thas elopuent appeal th the goon semse ann lovalty of the Britis? Columbians produced an excellent ettiect, and calmer the stom of public sentiment which had thratened the disraptions of the yomg Dominion: hat the minfortmate dispute was wo tinally settled motil after the defeat of the Mackenzie mimmistration, and the armugement of new terms acepptable to the Province.

## CHAP'TER NIN.

L.SNO POLICY OF THE MACKEN\%AE (:ONERNMENT.

In 1876 , after the close of the session of the Dominion Parliament, the policy of the Govermment in regard to rail. ways in the North-West was deseriluel as follows:-"The C.P.R. line from Thumder Bay to be pushed as rapidly to completion as possible. The Pembina branch to remain untonelned mutil the American comection was completecl. 'Ther water stretches to be utilized, and boats placed therom to commert the system of the Red River with the Rackies. No, activity in surveys to be expected beyond the actual rapuirenents of the Settlement Belt, Indian Reverve and Tramsontinental aurreys aheady undertaken."

Indeal the outlook for the energetic prosecution of the railway interests of the country were by wo means brigit. and the feople in the North-West were correspondingly despondent.

In June, 1876 , the following advertisement appeatied in at number of the newspapers of the Dominion :-

CANADA PACIFIC RAILWAY.
proposals for construction.
The Govermment of Canada expect to be able, on or before JANUARY, 1877,
To invite "Tenders for Building and Working" the sections between "Lake Superior and the Pacific Ocean," under the provisions of the Canada Pacific Railway Act, 1874.
'This Act (after reciting that it is experient to provide for the construetion of the work ins rupidly as it con be accomplished without further raising the rate of taxation), emacts that the eontmetors for its construction and working, shall receive lands, or the proceds of lands, ut the rate of 20,000 acres, amb easlo at the rate of 810,000 for each mile of railway eonstructed, tugether with interest it the rate of fuur per cent. per anmm, for twenty five years from the completion of the work, on any further sum which may be stipulated in the contract; and the Act re quires parties tendering to state in their offers the lowest smm, if any, per mile on whieh such interest will be required.

Copies of the Act, Maps showing the general ronte so far as at present settled, the published reports of Engineers, and sneh other information as is now available, can be seen at the Canadian Emigration Agency, in London, England, and at the Public Works Department, Ottawa.

This intimation is given in order to afford to all parties interested the fullest opportmity of examination and enguiry.

By Orler,
F. Brawn,

Secretary Dept. of Bublic Works.
Depurtment of Public Works, Ottawn 2!th May, 187i. .

On the appearam of this muertisment, the dovernment were assailed by their opponents for having departed from their original policy of building the road themselves, without the intervention of a company, but, as will be seen, there was nothing contrary to the aet of 1874 in the action they now proposed taking. It was becoming apparent, however, to the public, that the modertaking of the eonstruction of a transeontinental line was somewhat beyond the power of the Mackenzie Govermment to cope with, aml the frequent changes in their policy in comection with the work was not calculated to inspire confilence in their ability to carry it out.
The advertisement quoted above did not succeed in inducing capitalists to undertake the construction, and the work was proceeded with, under Government supervision, between Lake Superior and Red River, but nothing was done towarts
the extension of the lime westwarl of the latter, except the letting of a contract for one section of 100 miles. In Jula, 1876, the first locomotive was placed on the rails at Thander Bay, and track-layige was pushed forward to Shebandowan.

The Pacitic Railway Aet of 1854 provided for the reservation of large blocks of lame along the line, with the proviso. that when lind of poor gmality oceured in the immediate vicinity of the line, it shonld be taken from some other place, to be detemined by the Govemor-(ienemal in-Comeil. 'This necessitated the locking up of an immense tract of territory. as the line had not Ine.en detinitely locaterl, from the operation of the homestemd law, imd was looked mon as a great hardship by those who hanl eome to the conntry with the hope of obtaining land within a reasomable distance of or on the line of railway. The Mantota members in the Honse of Commons protested rimomsly aganst this armugement, and the agitation lor a champe was persistent, but it was only in No. rember, 1877, that the (ionermment consented to relax the comblitions. The milway reserves were then thrown open tu actual setters, on the following comditions: A settler might purchase to the extent of 320 acres, paying therefor such price as might $\mathrm{l}_{\mathrm{n}}$ eventanlly fixed by the Govemment. He was required to settle on the land within one year from entry. anel at the time of entry pay an instalment of sl per acre on his purchase. Persons who had squatted on railway lands after they had been reserved where required to enter such land forthwith at the Lands Office, and pay an instahment of sl per acre. No scrip was to be accepted in payment for sach land. Under the Railway Act, the Govermment had no power to fix the price of land in the reserves except in conjunction with the contractors. so that the purchasers were left totally
; exeept tix

This ; of territory, the operation a great harih the hope of or on the lines fonse of Connment, and the as only in No. to relan the hown open to settler might therefor such erminent. He ar from entry. -1 per acte on railway lauls nter such laurl tahluent of \& ment for such had no power in congunction ere left totally:
in the dark as to the price they wonld eventually he called upon to pay for their hotlings. This phase of Mr. Mackenrie's policy, thongh wamly defended by the Govermment's argans in Ontario, was regarded as a monstrously unjust pieer of legislation by the press and people of Manitoba. Hom. David Mills, Minister of the Interior. visited the North-West in the smmmer of 1875 , amb, as a resint of his persomal ohservations, the law was changed slighe $\therefore$ Porchasers of railway lands were given ome your within which to pay the first instalnent, and paymont in serip was allowed. 'Theser concessions were rember neemsary by the poverty of many of the spmatters, who conld not have complied with the former regulations: and many new settlers purchased land in the railway belt, righty calenhating that the Goverment wombld fonl fairly with them in the matter of fixing a price, when the time for final settlement arrived.

At the time of the transfer, the prineipal settlements were situated on cath side of the Red and Assiniboine Rivers. In the former case, extenting from near the mouth of the river up to the Parish of St. Norbert inclusive, and from thence up to Pembina, a few chams had been taken on both sides of the stremm. ()n the Assiniboine settlements existed from its conHuence with the Red River at Fort Gary up to, and incholing the Parish of Portage la Prairie, but the settlement was by no means contimous between the points mentioned. There was, therefore, in the Settlement Belt, as it was called, a tract of some 150,000 acres of vacant Dominion lands, less onr-twentieth which would belong to the Hudson's Bay Company under their terms of surrender. All this land was also withdrawn from sale or settlement, notwithstanding the fact that a great number of persons had gone into occupation and made
inprovements. with the intention of holding the land as homestends. or purchasing, when the Govemment should ha prepared to deal with them. For a long time the Gowmment megleeted to donl with these lands. hat aftor Mr. Mills's visit a mifom price of s. per acre was phaced mon them, and the privilege of paying in serip was granted. At that time serip could be purchased at fifty per cent. of its face value, which hrought the price of river lots in the Settlement Belt down tw $\$ 2.50$ per acre.

The Manitola Set ramed "to all persons in penceable prisession of tracts of land at the time of the tronsfer to Camada, in those parts of the Provinee in which the Indian title han not bern extinguisherl. the right of pre-emption of the same on such terms and comditioms as might be determined by the Governor-in-Comalil." 'This provision of the act was taken mbantage of be a great mang persens, principally HalfBreeds and old settlers, who tow up elaims in various parts of the country. individually and in small communities, and thes. were known as "Staked Clams." It was held by the Government that bone fide occupation ly elaimants was requirel to be shown to have existel at the time of the transfer, whild the claimants contemidel that the staking out fulfilled the requirement of the act.

As early as 1872 a deputation of these clamants waitel upon Lientenant-(iovemor Morris to ask for their recognitiom, on which oceasion they were informed that the nere stakingout of a claim would not entitle people to land. Other depm. tations songht interriews with the authorities from time t" time on the same subject. and invariably received the sallu answer. On April 26th. 1876, the matter was dealt with in the following Order-in-Comed :-
e handras should tw :overnment ills's visit n sin. and the t time serip, alue, which Belt down to meeable jumar to Comula, ian title hail of the samur nined by the et was taken cipully Halfrious purts of ies, and thesthe Goverinwas requirenl ransfer, whilllifiled the pro-
nauts waitell or recognition, nere stakingOther depufrom tille ${ }^{\text {t/ }}$ vell the sithl dealt with in

- in a memermalimn datel 2 inh damary, 1875 , from the Homorable the Minister of the Interior, reporting the existence of eertain chams to land in Manitoha, which, loe states, d" out emme clenily within those provided for by the law as it mow stamels, the Minister statos that these clams may he described and elnssitied as follows, that is to say :

1. The lauds taken up antecedent to a date six months previoms to the tramfer of the Nonth. Went Territories to the Dominion, in neerdance with the usage of the comatry an recognized by the Comneil of Assiniboia, such proceding being to employ one of the two survoyors in the colneng fos survey and hay ont the land. In some cases, the minister observes, the persons so taking ip land minst lave entered into, mat have remained incenstmat accupution thereot ; in others, little ur no improvement was mate: but the ownership of the lamls has always been recognized in the community.
2. Lands alleged to have been taken up, but which were wot surveyed an above or oceupied, but merely marked ont by the elamints by stakes, priur to 15th .luly, 187!.
Is regarela the lisat of the two classes doscribed above, the minister, in biew of the fact that such was the nagge in the Red River Softiment in acyuing lands previons to the transfer, recommended that such chams he allowed, and suggests, with that view, that a return of all such be mule hy the agent of Dominion Lands, "pon which the necessary anthority may be abtiand for granting patents for the sume.

The second elass, the minister submits, ure not entitled to comsideration.
He remarks that the mode proposed of alealing with the above two classeg is comsistent with the opinion of the Homorable the Minister of Iustice in respreet of such chaims.

The Commite report the foregoing recombendations for your Fixcollency's appowal.
W. A. Hinswonth,
C. I' C.

The effect of the puldication of this Order-in-Cumeil was a rush of applicants to the Lands Otfice, to have their claims includen in the return ordered, which lod to the following cor-ropmolence:-
(Telegram.)
Winnirta, こ2al Oct., 1877.
To the Surveyor-General, Ottawa
Serly half the staked chims have small improvenents recently madr, such as shanty or small field. Amproeeeding with allotment of Frenels pariches, reserving from forty to ome hundred and sixty aeres, covering
such ingrovemente nevording to theirextent mad value. Is thim eoname approved! .

Donala Comb,
A!rul.

## Dedahtuent of the: Intenthe. <br> Dominion Landis Dffict,

 Oreawa, edth Wet., 187\%. reeeived eomsiderntion the hamde of the Mininter.

It is inexperient to indiente to you by wire the Minister's views in the matter, on necount of the expense involved : I am, therefore, to procend (1) infurn yon liy lettere.

The Ministor is of the opinion that withont sume really valnable ine provements lowe leen made mon the lamls severnlly chamed, which latter, it is assmond, come moler 'lanse No. 2. described in the wher-in
 favarable enosideration.

Where vabahe improsements, however, have heen bade, you ner at liberty to cary ont the propusition set forth in your telegram, bue the land withdrawn in any individual ease, withont the area eultivatod, shand actually exceed that qumbity, is not to he of greater extent than whity neres.

 withdrawal of lamis so elamed, and improvements thereon, the Minstar directs that $y$ on be governed by the following principle :-
$\mathrm{N}_{0}$ land to be withdrawn where less improvements have been eflected than live aeres fenced, with a honse thereon ; or tell acres fenced withoms. a house ; improvements to such an extent to entitle the chamamt In the pmrehase of the legal sub-divisions of forty neres emt rateing the satue.
lmprovements in extent grenter than the abose to entitle the clainant to purchase eighty acres, bat in no ease, as alrealy stated, withom the actuab area cultivated shall exceed the same, is the elamant to be allowed to purchase nione than eighty acres.

I have the honor to be, Sir,
Your whedient servant,
J. S. Dennis,

Surweror-irnoul.
This "Staked Claim" question gave Mr. Mackenzie and his colleagues a great deal of trouble, ind, indeed, has not hern finally settlod up to the present time.

The utter uselesaness of the Dawson Rond ne min inmigration romet, as well as the urgent weessity for direct milway emmection with Manitoha, beame wo apmone that, carly in 1878, the (iovermment "htered into negotiations with the directors of the St. Paul and Pacitic Railway, to establish a continnous line hetween St, Panl, Mimesota, and Winnipeg. These negotiations inclurled the immediate completion of the P'embinn branch by the Government, and a ten years lease of it to the St. Bhal and Pacitic company. The proposed hargain was sulmitted to the House and passeal the Commons, bat the Semates sent it lack with amendments which prevented its immediate consmamation. In May, 1878, a contract was made with Kavanagh \& Co., to eomplete the Pיmhina branch, and on Nos. Hth following the tirst consernetion train of the St. Panl and Pacifie milway stemmed into Emerson, amid the areneral rejoicings of the people of that town. The defent of the Mackenzie Government in Octoher; 1878, put a stop to the megotiations with the St. Paul and Pacitie, and the subserpent armugements ande with that conpration are detniled in anwher chapter.
'Io sum up, the condition of the Candian Pacific at this priod was as follows: From Thumder Bay to Totu Lake, $10+$ miles, track was laid and construction trains rumning; from Tretn Lake to within 10 miles of Savame graded, ties laid, and partly ballasted: Pembina liranch, track laid, and last apike driven on December 3rd, 1878, at Penza, a station just south of the Rosean River, where the track layers from the south met those working in that direction.
'The absence of railway communication in the first decade of their existence, caused Manitobn and the North-West to lose thousands of desirable settlers, who were obliged to make the
journey through the States. Attracted by the rich apporeance of the Red River valley, in Minnesota and Dakota, whore milways were already in operation, or in cours: of rapid (")l struction, they cast in their lot with the foreigner, and helpral to build np the industrices and wealth of the great Repmilir. The locking up of so much land in the milway reserves hand also a disastrous effect on the carly settlement, as many left the comntry when they fomen that no homestembs were to for had within reasomable distance of axisting settlement, ir future business centres, and established homes for themstion in the comity sonth of the intermational bemodary. and helpoul at Republic eserves hall ; many left were to $\mathrm{in}^{2}$ thement. or - themselon

## (HAPTER X.

THE ENH OF THE AMNESTY QUESTION.
In $1 s i 4$, Arehbishop 'Taché prepared a pmophlet upon the ammesty, and in it summed up his view of the whole question. His Grace held that the public honor of the Imperial, Federal, and Provincial authorities was pledged in favor of granting an ammesty, ant gave the following masoms in support of his contention:-
"'The Imperial Govermment was bomed to gramt ammesty for the reprehensible acts committed during the whole period of the Red River trombles, whatever may have been the mature of these acts, or by whomsoever committed, heeause:-
"ist. The most solemm promises were made by the legitimate representatives of the lmperial muthorities. These promises were never revoked, and wer- accepted in the greatest good frith.
" 2nd. Following these promises, the lmprial (iovermment neted in a way to convine everyborly that these same promises were being carried ont. The British Cabinct asked for delegates, manifested great interest about them, granted them their demands, and did not permit the movement of the troops until after having received the assmance that the Red River insurgents were satisfied with the arragements. The Imperial Govermment knew that the insurrectional movement was not directed agyinst the authority of Her Majesty the Quen.
nor to withdraw from her allegiance. In consequence of this, the Imperiai broops reecived bat a mission of 'peace and civilization.' "

Archhishop Tache held that the Comadian anthorities were as much committed to ammesty as the fmperial authorition, becanse :-
" 1st. It was Canada that "occasioned the troubles,' and her responsibility was increased, not only by the acts of private individuals or inferor employes, but also by the conduct of superior officers of her Govermment, and even of her Parliament.
"2nd. Solemn promises were given both vire mee and by writing-promises given by and in the name of Federal ministers, often repeated, and never denied, at least to those to whom they hat been made.
"3rd. The conduct of the Federal Govermment lound them to the ammesty, since, during the trombles and even after the death of Thomas Scott, they treated officially with the delegration asked for by themselves.
"Now, this delegation was incontestably sent and accredited hy the Provisional (iovermment. This mere fact constituted not only the obligation of granting ammesty, but even necessarily implied the acknowledgment of the amnesty (granted), which Canada had acknowledged by taking no action against the authors of the movement."

So far as the Provincial Govermment was concerned, the Archbishop held that:-" In conformity with the constitution and the conditions of Federal Union, the Provincial Government should necessarily respect the arrangements made, and reflect the policy to which the superior anthorities had pledget themselves."
nee of this, ce and civi-
orities werr authoritico,

ruce and by Federal anint to those to theound them wen after tha with the dele-
nid accrediten ct constituted it even necessty (grantell), ection against
oncerned, thir e constitution ncial Governnts made, and s had pledgel

In June, 1873, the Dominion Govemment had referred the question of ammesty to the luperial antherities for a decision in the matter, and in July, Earl Kimberler sent a despateh to Lerd Intferin, the Governor-General, in which appears the following clause: "Her Majesty's (iewermment are of opinion that the best course would be, that ly such proclamation an ammenty should be granted for all othanes committed dming the disturbances at Red River in 1s69-70. ercept the murder of Scott; hut, as the Dominion Parliannent are now responsibic for the affairs of Manitoha, and any decision as to an amnesty must necessarily have an inoportant influence on thos. affiars, Her Majesty's Govermment lesire. lufore any instructions are given to your Lordship to this eftect, to know whether yom ministers have any olyection to the issue of an ammesty limited in the mamer proposel."

At the general elections of 1872, Riel, while eontesting Provencher with Attorney-General Clarke, gave way, so as to allow Sir George E. Cartier to be elected for the constitneney, but afterwards, in 1874, rluring the elections of that year, bu was elected as the representative of the district in the Dominion House of Commons. When Parliament met, a petition against his return was presented on the 30th March, but being contrary to the Act of 187:3, the Spaker could not allow it to he granterl. On the same day, Riel presented himself at the clerk's office, took the oath, and signed the roll, but immediately disappeared, and never afterwards attempted to take his seat in the Honse. On the 15th April, 1874, Hon. Mr. Bowell moved the following resolution:-"That Lonis Ricl, the member for the electoral district of Provencher, having been charged with murder, and an indictment having been fomed nganst the said Riel, and warrants issned by

Courts of Manitoba for his apprehension, and that mid Riel having thed from justice, and having refused to attend in his place in this House on Thmsilay, 9th April, he expelled im in this Honse." This motion whs seeonded by Jr. Selult\%.

Hon. Mr. Holton, seconded by Maleoln Cmmeron, moved an amendment in effeet that, in view of the proceedings of the smith Committee now investigating the disturbances in the North-West, and enguiring into the alleged ammesty, that pros ceedings be suspended till the report of Mr: Domald A. Simith Committee is laid before the Honse.

Mr: Mossean, secomded by Mr. Baby, moved in mumble ent to the amendment, that an aldress he presented, proying fur the issuing of an anmesty to all those comected with the diturbances of 1869-70.

The motion for expulsion was carried by a vote of 123 yens. bis mays, and Riel was expelled from his sent in the Dominton Honse of Commons.

In the meantime, Mr. Donall A. Smith hal mowed ion: : committere of nine to empuire into the eanses of the difficultiewhich existed in the North-West in 1869-70, and on his nution being carried, the following gentlemen were selectel to form the committee:-Mr. D. A. Smith (chairmm) : Mesm Cimeron (Cardwell). Bowell, Aboot, Bake, Moss, Geotfreoth, Manson, Jones (Halifax).

A mass of evidence was taken hefore this committee, hat it left the question whether an ammesty had been promised in much in doubt as ever, mod this led afterwards to the appontment of a select committee to enguire into "the causses which retarded the granting of the ammesty amounced in the Proclanation of the Governor-General of Camada."

The whole question was a most troublesome one to the Mas-
hat said Riel attend in his expelled :m ichult $\%$

mmittee, buit it en promised in to the appont causes which ced in the Pro-
one to the Mas
kenzie Alministration, and there selused to he little prospect of oftaining a settlement of it when, on the 10th December, 1874, Lord Dufferin transmitted to the Imperial anthorities a most important doenment, which so ably reviews the whole sulject of amnesty that we quote from it at length. Lomi Duffierin thus deals with the question :-

First-Archbishop, Thehe chainm an annesty on the plea that he went to Red River as a plenipotentiary, empowered both by the imperial ant the Dominion Governments tu secure the trampullity of the eomutry $\mathrm{l}_{\mathrm{n}}$ the issue of such assurances of immunity to those engaged in the recent disturhances as he shoukd deem fit. In sinment of this view he fomm himself, as he himself states, pages $33-34$ of the Canalim Blue Book First, as regarls the Imperinl Govermaent, or Land Lisgar's letter and procimation ; and Secondly, as regarls the lowal Guvermment, on the paragraph I have already quated in Sir John Machomald's commmiontion of the 16 th of February, 1870. I confess I do nut think that His Lordship's argument can be sustained. In the tirst place, the Arehbishomichain to such extensive powers is certainly insalid. The nature of his position is already defined in Mr. Howe's ofticial despatch of the lath February, 1870. The instructions already conveyed to Messiss. Thibault, de Salaberry, and Suith, are communicated to him as alditional guides fer his conduct, and he is further invited to associate himself, and to act comjointly, with these persons. There are, therefore, no grounds for regardinge the mission or powers of the Bishop, as differing either in character or extent from those entrusted to the gentlemen who had preceled him; and there is certainly no intimation in his instructions that he was anthorizei to promulgate a $p$ ardon in the Queen's name for a capital felony-still less can it be contended that he was empowered to expunge, on his own bucre mutiom, a principal term from a Royal Proclamation. Mr Smith and hicolleagnes had been already furnished with Lord Disgar's Prochamation. but so far from considering that docmanent asemeeying a warant of innumity to Riel, Mr. Smith expressly states that after the murder of sentt he refused to speak to him. On a reference, moreover, to the wording of the only sentence in Lord Lisgar's Proclamation which proffers grace to the insurgents, it becomes self-evident that it has in contemphation those minor political offences of which news had reached the earof the Government when the docmment was framed.
That this was its intention becomes even nore apparent when we read the sentence in Sir John Muedonald's letter, to which the Bishop next appeals. In that communication Sir John Macelonald says:- "Shouli
the question arise as to the consmimption of any stomes or goods belonging to the Hudson's Bay Company by the insurgents, you are authorized to inform the leaders that if the Company's Govermment is restored, not only will there be a general amnesty granted, but in case the Company should claim the payment for such stores, that the Canalian Govermment will stand between the insurgents "and all harm." It would seem impossible to expand the permission thus conveyed to the Bishop by Sir John to promise the rebels protection from the monetary demands of the Hadson's Bay Company, into an authority to condone such a savage murder as that of Soott's. But even were this print to be concoded, there would still remain an insurmomatable difficulty in the way of proving Monseigneur Thehe's case.

The terms of pardon, both in Lord Lisgar's Prochamation and Sir John's letter, were made conditional, in one, "on the inmediate and peaceable obedience and dispersion of the insurgents," and in the other, "On the restoration of the Company's Govermment."

But none of these requirements were complied with. Scott was put tu death some weeks after the arrival of Messrs. de Salaberry, Thibant and Smith, to whom the Proclamation had been already confided, and by whom its contents. at all events, must have been communieated to Riel before the accomplishment of that tragedy ; and though immediately after the Bishop's advent, and at his instance, one-half of the English prisoners were released, the rest were kept in prison for more than a week longer ; Riel and his associates still remained in arms, continued to pres npon the goods within their reach, and persisted in their illegal authority. It is true, many considerations may be adduced to mitigate the culpability of the latter portion of these proceedings; but be that as it may, they minifes'ly learned the effect of the conditional promises of forgivenes. which the Bishop, even from his own point of view, was alone authorized to announce.

I understanl His Lordship further to plead that the ultimate negotiations, which secured to the North-West the eonstitutional rights they enjoy under the Manitoba Act, directly flowed frem the assmance of a complete amnesty which he promulgated. But, although it would be difticult to exaggerate either the purity of the motives by which this Prelate was actuated, in all that he did or said, or to over-estimate the self-sacrificing patriotism which induced him to tenr himself from the attractions of Rome in order to encounter the hardships of a winter journey, for the sake of his fellow countrymen in Red River, or to deny that his exhortations and remonstrances hat in immediate and beneficial effect in restraining Riel and his companions, and in superinducing a feeling of security in Wimineg ; it must still be remembered that the people of the North-West had chosen their delegates, anl had consented to treat with

clamation and Sir he immediate and ' and in the other,

Scott was put t" gerry, Thibault and confided, and by municated to Riel timmediately after the English [risonmore than in week , continued to prey sir illegal authority. gate the eupability hat is it may, they ises of forgirenes, as alone anthorized
te ultimate negotiaational rights they the assurance of a gh it would be ditt. which this Prelate imate the self-sacrifrom the attractions winter journey, for to deny that his exbeneficial effect in ducing a feeling of it the people of the sented to treat with
the Camalian Govermment some weeks before the Biship had appeared upon the scene. In conclusion, it is to be noted that immediately Mr. Howe, the Secretary of State, received the information of the promise made by His Lordship to Riel and Lepine, he at once warned him that he had done so on his own responsibility, and withont the authority of the Canadian Govermment. The Arehbishop refers to a private lotter of Sir George Cartier's as having neutralised the langnage of Mr. Howe's ofticial communication: but to doctrine of this deseription I cannot subseribe. In the first place, I do not think the letter in question bears the interpretation put, upon it hy the Arehbishop; and even if it did, it must be held that no private communication made by a single member of an administration, withont the eognizance of his colleagnes, catn override an ofticial despatel written in their name and on their hehalf, by the head of the Deparment specially responsible for the conduct of the business in band. Were such a view to previil, every Govemment, and the Crown itself, would be at the mercy of any inconsiderate, rash, or trencherous member of a ministry.

The view taken by sir John Maedonald, who was Premier at the time the Archhishop left for the North-West, of His Lardship's powers and the nature of his mission, is set forth in the homomble gentleman's evidence at puge 1001 of the Cantardian Blue Book, and I need not say is entirely contirmatory of the ermeptions I have derived from the writen instruetions the Arehbishny received, and the comespundence which took place with him.

Under these circmastances 1 an of opinion that the Crown is not committed to the pridon of the murderers of seott, unom the gromin that the Archbishop was, in any sense, authorized to make a promise to that eflect.

The next plea by those who demand a full and complete ammesty, is based upon the acenrences which took phace during the visit of . Iudge Black, and Messis. Richot and Scott, to Ottawa, in April, 1870, iss delegates from the people of the North. West, and on the alleged purport of the conversations which tow, place between Archbishoj, Tacha, and Sir George Cartier at Niagarib. With respect to the transactions of this date, we have, imfortumately, no public correspondence, or other ofticial intercommunications in which they have been recorded, and so far as regards the individuth statement of the personages concerned, there is mhappily a direct contliet of assertion.
On the one hand, Abbe Riehot and the Archbishop state positively that in amnesty to Riel was explicitly promised by Lomrl Lisgar, Nir Clinton Murdoch, Sir John Maedonald, and Sir George Cartier. On the other hand, this statement is denied in the most emphatic manner, by each and all of these gentlenen. The Abbé Richot's affidavit, in which a history of his interviews with the Governor-Gencmal and other members
of the Ahministration. is set forth with emsiderable particularity, will $\mathrm{m}_{\mathrm{n}}$ fomml at page seventy-t wo of the Canalian Bhat Book, The dential of the correctness of the Abhi Richat's asservations is conveyed, first, ill a den. pateli t" Lurd Kimberley from Lord Lisgar, datel 25th April, 1872 a anl in a letter from the satme nobleman to Sir George Cartier, dated the 2la Fehmary. 187: , page 104 of the Blue Bork; in a letter from Sir Clinton Murdoch to Mr. Herbert. dated ith Mareh, 1873, on page 104; and again in another letter, on the tith of Mareh of the same year ; in a letter from Sir George Gartier tu Sir Jhhm Machomald, dated 8th Februay. 187:; and in Nir John Machonalds evidence, page 107. But a still more significant light is thrown upon what aceured, by a despatch from Sir Clinton Mindoch to Sir Frempic Rosers. dated 28th April, 1870, pme 103 of the Bhe book. This commonication was contemporary with the event re corled. 'The statement made was not a reply to any lealing question, bul evoked by ang suecial reference. It was simply a narative olraw up fon the information of the Cmber Secretary of State for the Colonies, as t. the purport of Nia Clinten Murloch's conversation with his interlocutor the Ahbr Richot, immediately after the interview hal securred. In the tifth paragraph of that hexoment, page 193 of the Blue Book, Sir Clinton Murduch sitys:-"The $1: 1 / 1$ comblition would secure an indemmity to Riel and his abettors. for the execotion of seott, and to all wthers for the phuder of the Hudson Bay (' momy's stores, and for all other damage commited durine the disturnaces-concessions which this Government comld mot ventme, eren if it had the power, to grant: while the comition which. thongh not contained in the terms, was conveyed to Judge Black anl the delegates, in writing, and whatever was agreed to here, most be *ubject to condimation by the Provisional Govermment, and would have involved a recognition of the anthority of Riel and his associates. Vudre these * * * * * * * * * circumstmeses, there was n" chaice but to reject these terms."

Of course, it is a very invidions othice to pronounce an opinion an to the respective acomby of statements so contlicting, emanating from such eminent personages. mad adduced, 1 hive no donbt, by every individual comcemerl in the must perfect goml faith ; but when it is remembered that Lurd Lisgiry had not even the power to make the promise which he is alleged to have given. and that he and Sir Clinton Murdoch, and Sir John Macionald, are so perfectly in accord as to what passed, one can only conslude that the Abbe Richot, through the unfortunate circumstances of these conversations having been cmalucted in a language with which be wat not familiar, must liave derived a totally wrong impression of what had been snid.

This view of the case is in a great mensure confirmed by the evidence dif Mr. Sulte. paige 181 of the Blne Book, in which he states that ome day
ienlarity, will bo. The clenial of the A, first, ill a dom. Apuil, 1872, anil 1 , elated the 21st from Sir Clinton e 104; mud again in a letter from Februmry. 187: ; still more signi from Sir Clinton page 1 !3 of the the the event re. eating ynestion, rrative drawn uן te Colonies, as to his interlacutor ceurred. In the book. Sir Clinton ademmity to Riel 1 whers for ther tll other clamage this Govermment ile the emmlition It to Judge Black to) here, must lie and would hav. arciates. Vuder s , there was m
pimion as to the g from such emi;individual conemembered that e which he is alh, and Sir Joln ne can only conciveumstances if e with which he ression of what
by the evidence es that one day

Father Riehot said to him in reference to his recent interview with Lard Lisgar, "As I do not milerstand English very well, I am uot satistied with what His Excellency said to me at onr interview." From this it may he wathered that the reverend gentleman has slown some precipitancy in ronsigning to an altidavit so elabome a reeord of a eomersation of which lie admits himself he carried away an imperfect upprehension.

C'gnate to this banch of the empuiry are the allegations alvanced by Archbishop Thehéas tu his intervien with Lomblixgar at Niagam, e3rol In]y, 1870. The Arehbishop iloes uot appear to maintain that mon this measion lomi Lisgar male him any specitic promise. but he says that His Wacllency, being mwilling to enter into any disenssion mon Red River attars, referred him to Sir Gempe Cortier, and that Sir George Carties then repeated these assmanees, is on lant lisgmes behalf, to whiel the Archbishoprattaches so mueh importances. As the facts commected with the incident are fully net forth in the Arehhishop's statement on prese 41 of the Blae Bowk, I need not further refer to them.

With regard, however. to Nir Geonge C'artieg's general attitule, langage and comrespondence, in reference to the whole of this subject, I an ready to admit that there aplears to have been a certain amount of ambiguity and want of explicitness in his utterances. which undoubtedly encouraged the Bishop, Father Richor, and others, to entertnin larger expectations in respect to the extent of the suguestel ammesty than he was justified in ex. siting.

I do not for a moment imagine that Sir fienge Cartier intended to mis. lead these gentlemen. but he cvidently leant to the opinion that the elemency of the Crown might be extemded with advantage to Riel and his, asociates; and his maturally sanguine temperanent led him to anticipnte that as the publie exeitement calmed down, and years went by, he womld have suftieient intluence to obtain immunity for those in whise belalf the Archbishop and Abbe Richot were interesting themselves. As a consephence. the tenor of his language implied that if only matters were penceably settled in Red River, and the pepmation guietly submitted th the new order of things, a settlement would ultimntely be arrived at satisfactuy to all partics. But though this forecast of events was in his mind, and colored his thoughts and languge, it cloes not appear in the evidence that he ever made any specific promise in respect to the muderers of soutt. On the contrary, he was alwsys very eareful to state that the [wwer of granting a pardon to them did not reside with the Cmadian Government, but with the Queen and her Imperial ndvisers. As Sir John Macdonald observes, he and the Abbe Richot and the Archbishop appear tw have been moving "in different planes." Both make use of the word "armesty," but Nir Genrge always referred to an "amnesty" as applicable to the general bokly of insurgents, and to political offences, whereas
the Arehbishop and the Whe were ablely prencenpied with the thonght in securing an "ammesty" for Riel mul his fellows. Be this, lourver, it it. may to my apprehension it cmanot be for a moment contemind that sir (ieorge Catier's easual conversations mad pivate letters ans hind the Im prinl Gevernment.

The third plen, on aceount of which a full mud plenary mmosily is de manded, is that the anthorities who ardered scott's excention were $n d$ d farth (iovermment, dinly chastituted by the will of the cemmmity, amb that it was comsempatly " legitimate proceeding, and only rephrhemable as an error of julgment. I think it but fair, in reference to those who ho'd this opminn, to call genr Lomphip's attention to the fact that the Comvention which crected the so-called l'rovisional dowermment, and phaced Riel at its head, wis composed of a number of French amil linglish delegates, fairly elected from the popmation it large ; that press nas as very great respectability were members of it, manl took part in the pro. ceedings: that Mr [omath simith, the Canatian Commisommer, mat the person who was instructed to take "I the (Boverment of the North- Wiest
 ish heing preelmed by ill-health from exereising his finctions, npented before it as an exponent of the views of the ('analian Govermment : and that the delegates it ehose were sulisequantly roogni\%ed an daly anthom ized to treat with the Dominion bixeentive, on belualf of the Nonth-West commonity. An attempt has been made to show that these delegates really hed their appointment from Riel, and wore to be considered as commissioned ly his Govermbent. This, however, was oot so: they were selosted, and the terms they were instructed to demmad were setthed. before the election of Riel to the so-ealled Presidency. On the other hand, it is to be noted that when the promsal to eonstitute a frovisiomal (Gwermment was mooted in the Convention, a certain portion of the Einglish, Deputios declined to take pirt in the proeedings, until they had aseertained whether or no Governor Maetavish, the legal ruler of the Territory, considered hinself vested with authority. A deputationacomb. ingly was appointed to wait upon him in his sick chamber, for this gentlemun lad mafortunately during many previous weeks been suffering from the mortal disease of which he soom after died. In reply to their enquis. ies, Governor Mactavish told them that he eonsidered his jurisdiction had been abolished by the proclamation of Mr. MeDougall, that he was a "dend man," and that they had, therefore, better construct a Govermment. of their own to maintain the peace of the country. Returning to their colleagues, the deputation amomed to the Convention what Governor Mactavish had said, imd, as a result, Riel and his colleagnes were nominated to their respective oftices. But though these proceedings thus receied a certain sanction at the hands of the representatives of the population
the 1 lonupht int huwever, iss it temiled hat Sir nin binu the lin
ammesy in dr. ution were a d co mmomity, and y wonthensh ce to these wh. he fact that ther (以) nel and binulish that persshex in pirt in the prow Natomer, midd the the North. On wh constitute a liwertain purtion of dings, mutil they egal ruler of thi" cputation accorls. $r$, for this gentleen suffering from to their enfuirjurisdiction hat , that he was a ct a Govermment. turning to their , what Gusernur les were nominitings thus reeciIf the porpulation
of the North-West, it dines nut appear to we to athet Riel's oulpmbility with respect to Scott. In the first phace, an lans been very clearly laid duwn by the Chief Justice of Manitoba, in his clange to the jury on the Lepine trial, it is not possible for any hawful executive authority to spring into existence within Her Majenty's Dominions, muless it emmate from Herself. Without, liowever, laying too muelo stress upon the purely begal aspect of this part of the question, it is very evident that the hilling of Scutt was not sur exereise of juiscliction known to any form of law, lint su inhuman slaughter of an innocent man, nggravated hy circomstameen of entrombinary hrutality. In company with a certain number of Einglingmen. Scott had started from a place called Partage a Prairic, with a view aplarently of condeasoring to rexcue a momber of persens who ap to this time Riel had heen humbing priseners in Fort Garry, but at the entroaty of thase who wre ansions to prevent the ontburst of Civil Wirs, the party were inducell to give up their projeet and to return home. Seott and his cumpuinis were entured as they were passing back to their own part of the comentry. The utmost alleged against seott is that he nsed viohent bugnase in prisem. and that he had alladed to an intention of capturing Rel, and retaining him as a hostage fur the release of the prisomers alrewly weferred to ; but evell these allegations were mut proved. nur, hat they hern provel ton times wher, could they have rembered him liable to serimen puivhment. Eisen the deencies of an ordinary dran-had cometmartial were dispegarden. 'The trial, if it call be so termed, was combuctell in the absence of the acensed, who was emfronted with no witnesses, mur turnished with any indictment, aro allowent toplead for his life. The further details of the trigedy are so lowrible, if the statements in the evi denee can lie relied om, that I will not shock yome Lardship by repeating then : sullice it to say, that all the special plearling in the world will not pmon the killing of siont to be anything else than a ernel, wieked, and unncessary crime : 1 on, had the origin of Riel's antherity heen even less flestionable, would it have invested him with the right of taking away the life of a fellow-citizan in so reckless and arbitrary a mamer. I have, therefore, no hesitation in concluding that any clain for the extension of an amesty to Riel, finmded on the assumption that the murler of seot wis a julicial wacentim, hy a legitimately constituted inthority, must be disallowed.
A fourth emsideration ocensimally mered, though mot with any great persistence, by the apologists of Riel is, that when Sir Camet Wolseley's furces had taken jossession of the territory of Red River, a man loy tho name of Gould, one of those who had been concernent in the momer of Sentt, was pursued by certain persons, of whom two belonged to a Canadian regiment, until he was frightenel intor the river and drowned in his attempt to swim across it. How far the foregoing is an acemate
accomat of this transation 1 know nots If a murlewons assanlt of this dencription em be browht home in a eourt of justice to any individuals, they chght, of course, to be dealt with in fhe conrac of law, but it is ille to allege sucha circmastance as exmerating the mithois of mother fleed of bleorl.

There is sullicient phen, which has been sometimes mged, mot, indeed, as of itself sullicient to commamal an ammesty, but as commonicating a commative fore to thone already mentioned, momely, the tranminsion of funey to Red frem the (iovernment of the day on condition of his lear. ine the combtry.* and his mulserguent resighation of his seat for I'rosencher, in orter th make romin for Sir George Cartier : hat with transact inn of this matme the hajerial doremment camme bexpected to coneem itself.

I therefore pass on th the lifth comsideration which is minneent as a
 musderem of sent ; mid to the plea which I ati about to exhibit I mast
 volve the consideration of a semi-legal question of very great monent, the ultimate thecisis is if which will not only attect the case of Riel, but alse, that of the pisaner Lepine, now left for execotion in Winnipn [ain).
 that time incopmated in the Diminion, mot mater the jurindiction of Her Majesty's Lieutenant-(iovernor, the Homorable Mr. Archihald, that a considerable bedy of Fenims were gathered abong its somethern frontios, and were prepared to make a very fomatable inmptim wer the border. In order to malerstand the gravity of the sitmation, it mast be remembered that the leader of this movement was a man of the mame of 0 'Doboghme, who had been nssociated with Riel in his insurrectionary move. ment. A very comsiderable probability cons mently existed that 0'Donoghte and his people night be neting in comeert with the French leaders of the previous revolt. Mr. Archibald was alone, cut ofl by distance from the maice and comatenamee of the central authorities, and thrown entirely upon his own resources. He hat no military forces worth speaking of with which to confront the invaders, and he was administering a Province inhabited by distinet matimalities, and distracted by difference of religious faith. Only a few months before a considerable proprorion of its population had been armyed in arms against tho Queen's authority and their fullow subjects. Cnder these eircumstanees, it cin be readily understood that a persom in Mr. Archibald's situation would feel it his primury duty to sacrifice every other interest to the defence of the I'ro.

Aeting $\quad$ pon these eomsiderations, fiovernor Archilnald determined torpeat to the loynlty of the Fromeh Metin mal their leadera; but these last were no other than Riol, lepine, ete., ete., the sery men for whose "pprohensint writs hal heen issifol on thenital charge. Notwithatmaling the mommaly of such "procednre, Mr. Arehilald cenchaled tornter into relatinns with these persons. 'Tho necount af

 af the Bhace Buali.

Firon the statemments therein eontanerl, it will be observed that tho Lientemat-fovormor reviewed the troops which had been mollected

 ity from molestation on neemont of the erime of which they were necused ; that he showk hands with thear; that he received a letter signed by them, and that, Horough his secretmy, he mblewsed to them ath oflicial teply, complimenting them on the lognty they had shown, mad the nasistance they had rendererl. Ile firther states l!at he has comvineed hinaselfthongh Sir Johm Machomald appears to hase had mixgriving on this point -that this exhibition uf tidelity was bum, filf, mal that it lasgely eontributed to the preservation of Wev Majesty's Domanions lom insult and injury. In short, he is satisfied, to use his own laigrouge, that "If the Dominion lus nt this moment a Province ta defend, Hul not one to emmquer, they owe it to the policy of forbenatnce. If 1 lind driven the French llatf-Breeds juto the hands of the eneny, O'Donoghue wonld have been juined by all the pumbation between the Assiniboine and the fromtier ; Furt Garry would have passed intro the hands of an amed mob, and the Finglish settless to the north of the Axsinihoine would have suffered harmors it makes me shudder to eontemplate,"

Of course I am not prepared to saty whether or mo the Lientemant-Govermor's aprecintion of the necessities of his sitmation, and if the consequenees of a different line of aetion, we correct or not ; but if such be the leliberate opinion of mandonlatedly able, prorlont, mad conscientions man, -of a person whose successful administlation of Manitobit has been awarded ly promotion to m more important post, I do mot think it is eonnpetent for us to go behind it, or atet upon a ditlerent assumption.

The legal, or rather constitutional, question then arises, to what extent is the Crown of England committed by the acts and declarations of its Lieutenant ? - those acts and declarations having never been disallowed or repudiated by the central anthority of the Dominion, or by the representative of the Home Govermment. Although my experience in such matters does not enable me to speak with any great authority, I con-
 of a lrovince has put amis intu the hames of a subject, and has maved him to risk his lifu-for that, of comese, is the implede contingores, in he. fence of Her Majesty's erown and dignity, and for the protection bi her

sible to admit that he hal my sufficient gromel for Inclieving that the Crown, or the Colonial Govermment acting for the Crown, lid or combl delegate to him, or to any other unotticial person, or, intleed, to my one, ns to a plenipotentinry, an unlimited power of pardoning erimes of what wer atrocity not "ven knowit to have been committel."

In dealing with the plea that the murder o! seott was dome with the sanction and anthonity of a de facto (iovermment, the Bat of Camavom appars to take a wrong view of the cabe He says:-"There conld be within the Queen's posisession in North Amerien no power or pretence of establishing a de tarto Govermmen indepement of or defying Her Majesty amblher oflieres, which conld aspire to any sheh immmity as that clamed : and any argment based on the view of such things being possible is, in my opini a, not aven worthy of discussion."

Now, the Provisiomal (iovermment, after it was completel hy the adhesion of the English-speaking setter's, never at any time acted in dofiance of Her Majasty or her ofticers. The murder of scott, iowover, was not, in print of fact, attrihntable to the Provisional (iovermment, but to the action of Riel and his immedinte followers, on their own responsibility: :mbl A? remarks of the Earl of Camaron are, therefore, but to the point, and at variance with what actually ocenrect. Tha Provisiomal fovermment was recognized by the C'madian autho rities, by the reception of its delergates, and treating with them. But the murder of seott, not having had its sanction, only: the persons respomsible for the crime shonld have eome within the scope of Lord Camaron's remarks. At the same time if seott had been duly tried and executed by order of the l'rovisiomal (Govemment, it would, no donbt, have exceded it
for beliew ing acting for the ther motticial ntiary, an wnatrocity, not
icott was dumb wermunent, the ow of the catr: possscssiun in ring a d de turto yesty amb hur unity as that of such things orthy of nis-

authority, but in that case the individuals entrusted with the carrying out of its orders would not have stood in the same position as did Riel, Lepine, and the others.
Lord Carnarvon further recommended that those actually concerned in the murder of Scott, even if not punished by death, should lie deprived for ever of the power of participating in political affairs within the Dominion.
On the 15th January, 1875, Lord Dufferin, entirely on his own responsisility, commuted the cepital offence of Lepi:te into imprisoment for two years, and the permanent forfeiture of his puritical rigits, and this action on the part of the Governor-(iencral leal to another step in the ammesty yuestion.
On the 12th February, 1875, ifon. Alex. Mackenzie moved a resolution in the Homse of commons, which, after reciting sereral reasons for gramting an ammesty to those concernes in the insurrection of 1869.70, conchudel as follows:-"That in the opinion of this Honse it would be proper, considering the sail facts, that a full ammesty should be grantel to all pursons enncerned in the North-West troubles, for all acts comuittel ly them lluring the said troubles, saving only L. Riel, A. D). Lepine, and W. B. Obonghtue.
"That in the opinion of this House it would te propere considering all facts, that a like ammesty should he granteri to L . Riel and A. 1). Lepine, conditional on tive years lamidnumt from Her Majesty's dominions.
"That an humbla address be presented to His Excenteney the Govemor-feneral, emborlying this resolution, and praying that he will be pleased to take such stepis as may be hest calculatell to carry it into effect."
The ressolution carrich, and on the 24th Felmary, Riel wats Neclareel an outlaw, and this, it may loe said, practically "mbed the ammesty yuestion.

 and in view of the matiomal chatactor of the malertakiner of

lmperial Govermment in this grent molertaking, and oltain further assistance by guarantee or otherwise, in the construetion of this great national work: that it is further expedient to provide that $10,000,000$ acres of land, and all the materials they contain, be approprinted for the purposes of constructing the Canadian Pacifie Railway.
" 6 . 'That the land be vested in commissioners to be specially. appointed, and that the Inperial Govermment be representend on suid commission. That all the migranted lauds within twenty miles of the line of the Camalian Pacific Railway, Im. longing to the Dominion, be vested in such commission: and that when lands along the line of the Camdian Pacitic Railway are not of fair average phality for settlement. a cortspombing quantity of lames, of fair average quality, shall in. appropriated in other parts of the comntry, to extend in all to one hmilem million acres.
" 7. That the said commission be athorized to sell fem time to time any portions of such lamds, at a price to be fixem by the dovernor-in-Comeil on their recommendation, not law than two dollars per acre, and that they be required to insent the proceeds in such sale of Canamian secmities, to be hell exclusively for the purpose of defiaying the cost of the eme struction of the C'analian Pacitic Railway:
"8. That the withdrawal for the sald and the settlement of these limds for twenty miles each side of the located line wi the Pacitic Railway, has in part hat the effect of thenwing the settlements south and west of Lake Manitoba: that in the existing state of things it is desibable to combine the fromotion of colonization with milway construction on the Cambdian Pacitie Railwing west of the Red River.
"9. That the (iwomment be anthorized and directed to
and oletain ie construe$r$ expedient se materials constructing
be specially representen lands within Railway, buemission: and Pacitic Railent. a correality, shall lut stemd in all to ice to be fixent ation, mut lus. hired to insont to be helde x t of the ems-
settlement of ocated line of of throwing
a: that in the ne the promeon the C'anil-
d directed to
locate a portion of the milway system of the comotre from the Red River westward, rmming to the south of Lake Manitoba, with a branch to Wimipeg: and, if they deem it alvisable, to enter into a contract for expending a sum not exceeding one million dollars in constructing the said railroad, without previously submitting the contracts to Parliament. That it is experlient to make further explorations in the Peace and Pine River districts, and other sections of country not yet exannined, in order to ascertain the feasibility of a line through the largest extent of fertile temitory, before begimming the work of construction to British Columbia.
"10. That in the opinion of the Honse, the selection of the Burard Inlet terminus was premature, and that it is necessary to l:eep faith with British Colmmbia, and conmence construeting the railway in that Proviner as early as practicable: that it must be anthorized and direrted to make such further explorations, and deem it necessany for the said purpose, as soon as they have finally selected and loeated the line. to enter into contracts for constructing portions of the same not exceeding 17.5 miles, withont further sanction of Parliament, so that the work of construction may, at the latest, lae commenced dming the present seasom, and thereafter vigomously prosecuted."

The long-debated question of the location of the man line through the Province of Manitoba was set at rest, and the southerly route-that ruming sonth of Lake Manitola-was fimally adopted. The operation of the Pembina hameh was also arranged for, and the work of graling and tracklaying was hurriedly completed during lsis: hat, althong comection was artually mald from st. Bonilitere, with the St. V'incent extemsom of the St. Paul and Pacitic Railw, y, at St. Xincent, Mimn.

actalily accomplishen at that time, excepting the seenring of the attention of capitalists to the great inportance of Camada as a field for their investments. The makertaking seemed so grigantic that it was fomm impossible to induce capitalists to engage in it, and the Govemment were obliged to proceed with the construction as a govermment work. When liarlat ment assembled, in February, 1879 , the progress of the Canadian Pacific was referren to in the Speech from the Throne, as follows:-" Every effort has heen wale to hasten the construction of the Candian Pacitic Ralway from Lake Superion to Red River, and no rloubt is entertained that the railway will be opened for traffic between those important points within the time speeitied in the contracts. Cnder the authority given by Parliament last session, nearly one humbed miles, from Red River to the western bomdary line of Manitoba, has been placed under contract, and tenders are about heing asked for the construction of another humdred miles, from the boumdary westward. 'The completion of these two sections will, at an early date, afford railway facilities through two hundred miles of the most ferile lands in the North-West. After an explomtory survey of the line from Fort Simpson to the Pine River Pass, and throngh the Peace River comntry, it has been deciled to adopt the location of the line to Bumard Inlet, and contracts have been awaded for one humdred and twentyseren miles of the railway between Emery's Bar, on the Fraser River, and Savona's Ferry. This work will be vigoronsly proceeded with so soon as the spring opens. Its construction will complete the most diffienlt portion of the Camarlian Pacific Railway, and secure the connection, ly steam, of the fertile district of Kamloops with the capital of British Columbia."

When the appropriations for Pacitic Railway purposes canm up in Committe of smply, Hom. Edwand Bhake (whotok the leadership of the .pposition, on Mr. Mackenzies retirement from that position). in the comse of one of the mont doquent speceches ever heard in the House, moved that the British Colmbian eme of the mand should be abmaloned ame that, to keep the comtry foma being hurlened with an insurportable debt, only the section from Thumder Bay to bhmm-
 le 4 ! $t 0$ 1:31. At this session, clanse seven of the serimo of resolations passed in the previons !ear was olminatiod, amb the following sulstituted:-"That $100.000,000$ acres of hame ia Manitoha and the North-West 'laritorias be apmoniaterl for the purpose of constructing the ('amarlian Pacific RailWay: that such lamds shall be, from time to time, selowent and reserved, ly orter of the (iovernor-in- 'omeil, is railway lamd, and shall be of fair a werage quality for settloment: that such lands shall be sold at prices to be fixem from time to time by the Governor in Comeil, hat in mo case shall they be less than $\$ 1$, per acre: that the proceds of sach sallos. after deducting the cost of smery and manarement, shall ho. devoted exclusively to the purposes of defmying the erost if constructing the ralway."

By this means it was hoped to defray the whole cost of the line, from Lake Xipissing to burard's Inlet, inchating the Pembina Branch, amd surveys, a total of $88.2,869$, , 68 , from the sade of lands. In moving the amembent to the resolution. Sir John A. Mackonald said, that the Govermment had deter mined that the C'madian Pacifie Railway most be built, that taxation must not be increased, and that, to fultil threse comblitions, it was ansolntely meensany to ase this large extent of
miposes cillu. ke (whe took senziess retire(e of the minnt reved thatt the mandoment and. with am ins, ! bole cost of the including the 4, ifls, from then the resolutim. rent had diterthe louilt, that fil these comblilarge externt of
hand: it was intended that the one hombed million acres woml be exclusive of homestead lands, the Govermment hasing their estimate on Prof. Macomis statement that the NorthWest had two homdred and twenty million aeres fit for suttlement, exchasive of the tract known as the Montama Deniot.

In July, 1880, Sir John A. Mactonald, Sir Chantes Tupper, Hon. J. C. Pope, and Lt. Col. Demmis, proceeded to England to solicit the aid of capitalists in the comstraction of the milway. Daring their absence, the newspapers teemed with contradietory reports of their doings, the ( $o v e m m e n t$ organs luldly asserting that the mission was entirely sucecssful, while those of the Opposition were as positive in denving the statement of their opponents, and indulged in all mamer of ridicule of the scheme. Sir John Machonahl returnel to Ottawa carly in October, and in an interview at Montreal stated that he had succeeded in loming a powerfol symiente of capitalists from England, Fance, the United states, and C'amala. That tho symdicate would give seemity in money to buik the milway within ten years. The contract would bind the symliente to bring their lames into the market forthwith, and establish a systematic immigration from (ireat Britain and Earope Representatives of Morton, Rose $\mathrm{N}^{2}$ Co., and of certain Freneh banks, and Messrs. Stephen and Angus, met at Ottawa in emsultation with the Ministers, and expectation was at ferer heat thronghout the North-West as to the result of their heliberations, which was kept profomally seemet. Thus mattems stord mitil the assembling of Pialiament, on December loth, when the Comalian lacitic Railway Companys contract was submitted. The contract, as laid before the Honse, was sigmed by Sir Charles Tupper, representing Her Majesty the Queen: teorge Sitephen, Duncan Mchatyre, John S. Kemedy, R. R.

Angus, Morton, Rose \& Co., Cohen, Reniach \& Co., and James J. Hill. The debate which followed its reception brought forth all the power of both Government and Opposition, and, commeneing on 13th December, 1880, was only concluded on January 28th, 1881. The great work madertaken by the ('muadian Pacitic Railway Company, and its successful achievement, will be fully treated in later chapters.

A summary of the length of railway completed and under construction at the close of 1879 , is as follows:-

Fort Willian to Selkirk - - - 409 miles.
West of Winnipeg - - - - 100
Pembina Branch (Selkirk to Emerson) 84
Canada Central - - - - 143
Yale-Kamloops section - - $\quad 127$

863
Up to the end of the fiscal year ending 30th June, 1879, there had been expended upon the work $\$ 12,444,237$.

ed and under

## CHAPTER XXII.

RALLWAY COMMUNICATION VIA UNITED STATES.
We have shown in previous chapters how the ox-cart gave place to the steamboat, as the means of commmication between Wimnipeg and the outside world via the United States. On the 26th May, 1862, the International arrived at Fort Garry on her first trip, and until 1871 she continued on the route from Abercrombie and Georgetown to the Red Ricer settlement, carrying goods for the Hudson's Bay Company. Previous to 1862, a small steamer called the Anson North up, or Pioneer, plied upon the river, but she was found to be too small for the trade, and the company therefore built the International to take her place. In the winter of 1870 71, Mr. James J. Hill, of St. Paul, who had a large business connection in the Red River comntry, huilt a steamer which he called the Selliok, and phaced her on the route to Fort Garry. The Hudson's Bay Company then transferred the International to their agent in St. Paul, Mr. N. W. Kittson, who commenced rumning her as a regular passenger and freight boat in opposition to the Sflkirl: The outcome of this competition between the two steamers was an amalgamation of the interests of Messrs. Kittson and Hill, which resulted in the formation of the Red River 'Tramsportation Company, under the management of Mr. Kittson.

The next phase in the steambont lusiness was the forma-
tion of an oposition line by the merehants of Wimiper, who, in conjunction with several parties in Mimeapolis built two stemmers, the Manitobu and Mimessha, to compete with the Kittson ('ompany, the object being to lower rates. The Mar. chants' line, however, was not a suceess fimmeinlly; mod som sheemberl to its more powerful competitor, who tinally pme chnsed the stemmers and added them to the Heet of the Pemb River Trasportation Company: During all this time, Mr: N. W. Kittson and Mr. .lames. I. Hill were associated in the amrying trade, althongh the former was the acknowlodged heal of the conterprise, and in 1878 the line of steanmes mmbered seran, consisting of the Sellitrk, Intermational, Dakota, Alplat, Cheyrane, Memitobre and Mimnesota.

In the meantime, the mails were bronght in by daily stage, which comtinmed to rm matil the opening of the Pembina milway.

But events were shaping themselves in the United itates to bring the iron horse into the Red River comntry, and supplant the stemmont and stage. As far back as 1857, the Conited States ('ongress passed an act making a grant of land to the 'lemitory of Mimesotn, to aid the construction of the Minnesota and Pacitic Railway from St. Paul via St. Anthony (Mimeapolis), to the head of navigstion on the Red River. On May 2end of the same year, the territorial legislature incorporated the Minnesota and Pacific Railroad Company: with a capital of $85,000,000$, to build a railway from "sitillwater via St. Paul and St. Anthony, to the town of Breckenridge on the Sionx Wood River, with a branch from St. Anthony aic St. Clond and Crow Wing, to St. Vincent, near the month of the Pemhim River." Among the promoters and first directors of this company were Edmmod Rice and Alex-
miрещ, wh, - built two te with the The Mr. ly. and somen fimally purof the Pime time, Mr. N. iated in the knowhonged anare's monmel, Dokiohn,

 try, anll sipas 1857 , the rant of land netion of the St. AnthomRed River. al legrislature d Company, from "stillof Breckinfrom St. Anent, near the omoters :anl ce and Alex-
anker Ramsey the latter aftermarls Governor of Minnesota. The projected line was not eommeneed, and the company lamgruished till 1861. When an act was passed to "facilitate the construction of the Mimesotn amd Pateitic Railway:" 'The passing of the net had no heneticial eflect, howewer, and on Mareh 10th, IS(i2), another act was passed chmoging the mane of the eompany to the "St. P'anl and Paeitic Railrom Com-
 som. E. A. C. Hatch, James E. Thompson, Leander (iortom. Rirharel ('hute and William Lee, directors, and reyniming the connamy to complete the portion of the road between it. Panl and st. Anthony bymary lat of that year, and to st. ('lome ly damary 1st, Asi.5. The tem miles between St. I'and and sit . Anthony were tinished in aceordane with the provisions of the act, and this was the first stiteh in the network of millays which now covers the State of Minnesotat. The compary, howerer, mate slow progress. In 1864 , the rails were hailt to Elk River: in 1867, to Lake Mimetonka: in 1870, to thansm. and in 1 and the roal reacherl Breckemrilge on the Rod River, 217 miles from st. Panl. In the memntime the Northern Pacitic Railway was chartered in 1864 , and remehed

An intense rivalry existed between thesse romb, cach striving to gatin an advantage owo the other in the matter of the land grant. On Mareh Brol. 1873, the land grant of the St. Prant and Pacilic was to lapse on account of nom-fultilment of the provisions of its charter, hat, by the efforts of Minnesotais representatives in Congress, the grant was estended for nine months, to Dec. 3rd, 1873. By May 1st, 1873, the Northern Preteific had buitt and was operating 500 miles of roal, and had (armed title to ten million ances of lame. (ien. (i. W. Gins,

President of the Company, writing to Messss. Jay Cooke a Co., the financial agents of the enterprise, said:-"Thr completion of our road to the Missomri River, and onr control if the trade of Manitola and Montana, etc., * * * * all this should, in my estimation, justify us in clevating the stamdaril of our credit. I think that when the limit of our present lom is reached, the company will tind itself able to negotiate a six per cent. lom, for the prosecution and completion of the enterprise." The great efforts put forth by the rival roals at this time to push construction, were really a blind to decove the public, or, at least, that portion of the puhlic who were shureholders in the St. Paul and Pacitic. The bondholders, however, aroused at last to the fact that they were bung hoodwinked, demanted an investigation, which led to the discovery of some disagreeable facts. The St. Panl and Pacific hat pledged certain lands as seenrity for certnin bonds, issnel by the First Division of the St. Panl and Pacific Railroall Company. The last maned corporation had mulertaken, in consideration of the mortgage issued by the first, to construct the St. Vincent and Brainerd extensions, and, with the momes resulting from the sale of their houds, a distance of 104 miles had been completed, a lage portion of the balance graded. am the rails purchased for the entire distance. The claim of the St. Paul and Pacifie Compmy to those lamls dated from the year 1857. In 1871, Congress passed an net to allow the St. Paul and Pacitic Company to build its St. Vincent branch in another direction. This act was obtained at the request and through the interest of the Northern Pacitie, it being in the interest of that company to promote such lexishation, is it would otherwise have lost the greater portion of its laml grant in Minnesota, it having adopted the location of its line throngh
ay Conke s —"The come ar control of the standiant our present to negotiat letion of the rival roads at nd to deceive lic who were bondlonderes, y were leing ed to the disnl and Pacitic bonds, issmed cifie Railroal nulertaken. in , to construet th the numey of 104 miles e sraded, and claim of the ited from the allow the st. ent branch in e reunest imul being in the islation, as it ts land grant line thround
the territory formerly decided upon as the route of the St. Vincent Branch. After the roal was located and partially built in the new direction, the Northern Pacitic tried to put a new construction on the act, pretending that it was a land grant for a new rond, in order to obtain the priority for the entire distance. 'The history of this controversy threw mather a damaging light on the Northern Pacific, which was de feeto identienl with the St. Piul and Pacific, for, at that time, all the directors of the latter were also directors of the former, and the combination had owned all the stock of the St. Panl and Pacific since 1870. Another damaging fact was that one of the trustees, appointed by the St. Paml and Pacific Company, whose daty it was to guard the interests of its bondholders, was also a director of the Northern Pacitic, ame haml taken upon himself the obligation to conduct the construction of the St. Vincent Branch in the interests of Enropean capitalists, who were hargely interested in that road. When these facts came out, the Amsterlam bondholders sent an ngent to Washington, and succeeded in obtaining redress: but only for a time, as they eventually lost the bulk of their investments.

The affairs of the St. Panl and Pacitic became rapidly more complicated, and, in August, 1873, a receiver was appointed for that portion of the road which included the St. Vincent Branch, the court ordering a deposit or security of $85,000,000$, within five days, to ensure the completion of the line to St. lincent by the 2nd December following. There were then $5 ;$ miles of grading and $2+1: \%$ miles of rails required for the completion of the road. The order had the effect of stopping the work of construction for the time being, neither the directors nor the Amsterdam hondholders being able to furnish the five millions within the time limited, and a forfeiture of the
land grant sement inevitald. The Nowthem Pacilie was in mo bettor phight, for, on sipt. 18th, the great banking timu of day Come a Co. closed their dooks. owing to the contimal calls madn upon then ly the malwity (ompmy.
'These mistortmes, following so elosely ome upon the oflate. were extremely disheartening to the inhmbitants of Manitoln. who had tomer hoped fom milwny comectom ly way of st. Vianent before the elose of $187: 3$, and ther spirits weme 1.0 t anlivenel two monthe later, when, to still further illustrate tha alnge that "misiortmes mever come singly", Sir . John Macdonald resigned, leming the whole milway gustion in an inextricalla momble, to which therenppered to be wo sohtion.

Thr St. Band and Pacific harl wrived at a hopeless stage of bankrupters twonteseven million dollars worth of its bomk boing: ontstamling, dishomored and comparatively worthose. Thuse were of many ditierent datsies mul values, and wand mostly holl in Amsterdam, where they might have hom bought at a bow tigure.

The road had heen constructed foon st. Pionl to St. ('loml. north-west to Breckemridge, and from Glymon to Crookstom at the time of the diy Cooke lailume, but owing to the fimmeind erisis which then ocemred throughout the United states amd, althongh in a smaller degree, also in Camalit, the latter portion of it never was operated. It was then that Mr. Domald A. smith and Mr: N. W. Kittson, after carefully enquiring into the whole position of affairs relating to the St. Panl and lacific Company, which, as we have shown, was then insolvint, and in the hands of a receiver, letemined, if possible, to acquire the franchise. Their object at that time was to complete the system to the International boumlary line, so as to give the North-West railway commmication as early as possi-
mitic wa in king tirm of the continuat on the other. of Mmiteola. why of st. its wher b..." iflustrate the ir , John Maceiom in min inini solution. cless stugy. if of its lomils ly worthine (cs, and wrim it have liwern

 toobtain the neressmer emital to coment the scheme, but the fimacial depression was son ereat that it was not matil $1 \times 87$ that any friends ronld tre induced to join them for that purprese. Solittle was then known in the binstem, States and ('anala ahout the North-Wiest that it was considered hopeless to expert that any surh milrom as the St. Panl mul lacitice could be surcessinh. In 1sia, Mr: Geo. Stephen, of Montreal, with whom Mr. Jonald A. Smith had heen nssocinted in many Will:s, was induced to join in the enterprise, and in about a ferr from that time the transfer of the road to the fome ansociates, Messrs. Domald A. Smith, Ceo. Stophen, N. W. Kittson, and James. J. Hill, was practically effected. 'Thms the first real step may be said to have been taken liy which not only the opening up of the North-Western States by rail was aceomplished, hat also the buidding of the ('madim Pacitic Raihny, from ocean to ocem, secmred. It is extremely donbtinl whether the Great Northern system of railways would be in existence to-day, or the Camadinn Pacific completel across the continent at the present time, if the combina-
tion of talent, wealth, and inthenee which we have deremithed hal not heen bronght together in 18iT, through the eflomts if Vr. Domald A. Smith.

Suceessful negotiations were concladed with the Dutch bond-hoders, and in Feb., 1878 , all the ontstanding homs were secured hy the four associates. In the same ?omr, white the roal was still in the hamels of a receiver, the bew holders of the bonds obtained an order of the Conrt anthorizing then to extend the line from Melrose to Alexamhia, mud from Glyudon to Sit. Vincent. The latter peint was reached in November, and on !th December, 18is, the first regular tran wer the sit. Vincent hanch arvived at St. Bonifnce.

On the Brel December the last spike on the Pembina mand of the C. P. R., connecting Winnipeg mud St. Vincent, land been hriven, and the following congratulatory eorrenpondence passed over the wires on that occasion :-

"The Hon, the Mayor and the City Comel of Wimipeg.
"The Chamber of Commerce of this city instract me to tender to you and the citizens of Winnipeg their respectrul congratulations that the two cities are at length connected ly iron bmits and to express their fervent desire that intimate. socinl, and business relations will be the result.

"Thomas Siomp,

## " Mayor."

In the summer previons, Mr. Mackemaie's Govermment ham made a contract with Murphy and l'pper for the completion of the Pembina braneh of the Camminn Pacitic from Selkirk to Emerson. 'The contract called for the completion of the work on December Ist, 1890. Arrangements were made with the St, Pand and Pacific Compmy through the receiver, Mr. Farley, by which that company were to be gromed a lease of the Pembim branch for a term of years, cluring which they were to maintain and operate it. The proposed armogement, however, could not be carried out ly the (iovermment, as the eontractors had control of the road until the limit of their contract had expired, and they were desions of operating it themselves in the interim, and derive any profits that might acerue in the transaction. When the first train ran over the road, it was discovered that the contractors were totally unprepmed to maintain a regular service. They had rushed the construction so far as grading, ditehing and track-laying were concerned, but there was not a water-tank, turntable, nor, indeed, anything necessary to the efficient operation of the road. The attempt to run trains under these circumstances was attemed with vexatious delays and disappointments, and early in March, 1879 , the tratfic over the rom was suspemded for a short time, during which Messis. Upper \& Co. entercd into an agreement with the Govermment and the St. Paul and Pacitic Railway Company, which ensured the operation of the branch. The last-mamed company was to have roming pow-
ers over the line, to the exclusion of any other railway rompany south of the lotermational Bomm?
 Railway Company was organized muler the following directorate: Mr: George Stephen, President: James. I. Hill. Gen"ral Manager: Ehward Siwger, Secretary and Treasmer: and Messis. Domald A. Smith, Noman W. Kittson, J. S. Bames,
 ( Galusham Bigelow haing each been allotted a fow shatesto qualify them as Dinetors-imm the mortgages which secemal the lomels of the St. l'anl and Pacitic were forecloned amd hought by the new eompany. At the tine of this purelane (although when the rome was tirst mante were to the assuriate it comsisted of only 3 3io miles), the antire system compriselit a line from it. Paul rmange north-westerly to St. Cloml, and thence, west and northwaml. to St. Vineront: and mother line. commencing at Mimeapolis aml roming mearly dur west, to Benson, thenee, motherle, to Bamesville. It is a curious fact in comuction with the st. lanl, Mimmapolis and Janitutal Railway that, at its inception it was alluded to her the Limdon L'imes as "an ohsenme Comalian malway," althoug mot one inch of its track was laid on ('amadian soil.

When Mr: Domald A. smith amd Mossis. Stephen, Hill, and Kittsm, enterel inte negotiations for the purchase of the bomls, in lsis, and until after the re-mqumization of the pand as the St. Panl, Mimmeapolis and Manitola Railway (ompany, in 1s7!, no other ferson had any interest whatever, divect or indirect, in the conterprise. These four men, two of them C'inalians by birth, and two ly aloption, by their splemdilamdacity and eonrage in rasing the project from the ditch in which it had been abmioned by its former promoters, fin-
nished a lesom in finamee to the Cuited Siates and the world that gemerations of ('mmdians may point to with pride. The histom of their achiovement rads like a modern linis take: it is certamly worthy of being classerl as a momace of milronding.

Their mandaking entailed the parchase of a mond deal
 ('henet. Weretjen, mad Kirkhowen of Amsterdhm, amb others, for which payment wats to be malle within six monthe from
 of a comsiderable amomet of the shame rapital of the 't. Panl aml Pacific Railwny (ompang. The homls were lomght at
 their par value. The purdase covered all the poperty hed mader mortgane inchating the immense land grant. Thr purchasers agreed to complete the roand maler the mandgement
 Were deposited with trastees for the lenctit of all comerment, and the prediasiss paid inte the hambe of the same trasteres at sum of money on aceomet, which was to be forfeited if they failed in their angements. It wis further enged that the sollers might elect to areogh, in lien of rash, fixat mortgnge hambsadpreferential shares of the newly orsanizel rompans: The foredosme having lwon aromplished the mew company
 suevsfully in the New Vonk market. Hodres of origimal St. Panland Pacifie bomis accepted shanes amb secomitios in the new company in preformee to cash, so great was their contidence in the new manarement. 'Thas, fom' ('inalians oltained possession of one of the most important millays on this continent, at an expenditure of a comparatively small
amount of cash, by sheer strength of character and superion financial ability. They conquered where the financiers of the United States had failed, and-still further to evidence their skill in tinance-negotiated their bonds in the very market which had declined to deal in them in the past. After years of weary waiting and of hopes deferred, Manitola obtained a railway outlet to the south and east, via the United States, through the energy and sagacity of Messrs. Smith, Stephen, Kittson, and Hill.

The first ammal meeting of the St. Panl, Minneapolis and Manitoba Railroad Company was held at St. Paul in May, 1880, when the following Board of Director, was elected:George Stephen, Montreal ; Domald A. Smith, Montreal ; R. B. Angus, St. Paul (formerly manager of the Bank of Montreal): O. H. Northcott, London, England ; Norman W. Kittson, St. Panl: James J. Hill, S't. Paul ; R. B. Galusha, St. Panl. The otficers elected were:-George Stephen, President; R. B. Angus, Vice-President; Edward Sawyer, Secretary-Treasurer: James J. Hill, General Manager. The report of operations for the ten months preceding was as follows :-

Total earnings from all sources, - $\$ 2,365,28736$
Operating expenses,- - - - $1,078,97349$
Net earnings, - - - - - $\$ 1,286,31387$
The Pembina Branch was operated by Upper \& Co., during the continuance of their contract, and afterwards the Government undertook its management. Neither arrangement was satisfactory, and, on this account, it was not until the formation of the Canadian Pacific Railway, in 1881, that Manitoba secured a really efficient railway service by way of the United states. The history of the inception and organization of the
and superion neiers of the vidence their very market After years lad obtainel a Tnited states, rith, Stephen,
meapolis and Paul in May, ras electel :ontrenl ; R. B. of Montrent): N. Kittson, St. st. Paul. The ont ; R. B. An-pry-Treasurer: operations for

\& Co., during Is the Governangement was atil the formathat Manitoba of the United nization of the

Canadian Pacific Railway Company, by the same men who so successfully floated the St. Paul, Minneapolis and Manitoba Railway, forms the subject of a soparate chapter.

But for the connection of Mr. Geo. A. Stephen and Mr Donald A. Smith with the St. Paul, Minneapolis and Manitoba Railway, there is not the least doubt that they would never have been in a position to take up the Canadian Pacific, and it will be admitted by all sides that in no other way would Canada have had a railway through to the Pacific for many years to come. A glance through these pages will show this clearly. Mr. George Stephen (now Lord Mount Stephen) was the first President of the St. Paul, Minneapolis and Manitoba Railway, and also of the Canadian Pacific. Mr. Donald A. Smith (now Sir Donald A. Smith), owing to his connection with the Hudson's Bay Company, and his being in public life as a member of the Dominion Parliament, declined always to accept any other position than that of a director in either of these Railway Companies. His occupancy at present of the position of Vice President in the St. Paul, Minneapolis and Manitoba Company, is little less than nominal, the road being now practically absorbed by the Great Northern Railway Company.

In concluding this subject, it may not be amiss to give a few particulars concerning the wonderful progress made by the St. Paul, Minneapolis and Manitoba Railway Company, from the time of its incorporation in 1879 down to the present day. At the organization of the Company, the capital was placed at $\$ 20,000,000$, and the line then built, some 360 miles, which was putinto working condition. Extensions were made from time to time, until, from a broken down road in 1877, it is now one of the best built and most profitable rail-
ways in the United States, with two lines, one on the east and one on the west side of the Red River, to tı. Canalian bomdary, and a line, with many branehes, extending from St. Paul on the one-hand, and from Superior City and Duluth on the other, across the continent to the Pacifie Coast, having in all a mileage of upwards of 4,500 miles. On September 18th, 1889, the Great Northern Railway Company was chartered, and this corporation leased the St. Paul, Minneapolis and Manitoba Raiiway for 999 years, from Feb. 1st, 1890, guaranteeing dividends of 6 per cent. gold, per annum on $\$ 20,000,000$ stock of the lessor, and the payment of both principal and interest of all its obligations. The dividends of the St. Paul, Minneapolis and Manitoba Railway Company have never been less than 6 per cent. per annum, and those of the Great Northern not less than 5 per cent. The President of the Company now, anl for a number of years past, is Mr. James J. Hill, one of the four original associates, and Sir Donald A. Smith is VicePresident of the St. Paul, Minneapolis and Manitoba Railway and a director of the Great Northern.

## CHAPTER XXHI.

IN Octobur, Isist, the Hom. R. A. Davis resigned as Promier if Binnitoha, and on the lith of the sman month Ilom. Joln Nurgny was called 1 pen to form a combet, and chose the folfowinge to assist him in the govermment of his mative Provines: Hon. Joseph Regal, Minister of Public Works: Hom. Havil M. Walker, Attorney-dempal: Hom. Corydom P. Brown, Provincial Necretary: Hom. Piome Detorme, President of the Comeil ame Minister of Agriculture: Mr. Norgony assmuing the portfolio of Provincial 'Treasurer.

The combry was entering upon a most important perion in hor history, and the new Premier renlized the gravity of the trust reposed in hin. His poliey, emmented in his electim muldess to the electors of St. Andrews Sonth, may le thietly summarized as follows: The lack of milway facilities luing severely felt by the farmers, who had no mems of conresing their surplis prolyets to market, the Govemment would encurage local effort in the direction of milway construction, by granting power to municipalities to bomus such enterprises, and hy every other means within their power. The extension of the boundaries, and the re-ndjustment of the Provincial suhidy, so ns to place the Province on an equitable fimmeial forting with the other Provinces. To meet the increased hemand for aid in support of schools, eansed by the rapid
growth in pophation, the Govermment, it was momed, hat secured an alvance of solooo a year for three vears, to $1, \ldots$

 'The initiation of a system of drainge was abo promiseal.

With this programme meagre perhaps at tiest sight. bat covering the more essential needs of the perphe, the bew dor ermment wont to the comitry, and were sustainol by a larg

 Sth．to emable the（iowemment to eonfor with the antherities at（ottawa，on varions matters om which legishation might be contemphated ly the Dominion，matably the promotion of lamal railway enterpisess a sulgect on which it was important that the Federal and Lucal Parliaments shomld le in aceord．＇The
 Were alse to be aranger for．A depmtation，consisting of Hon．Messis．Nompuay and Royal，went to Ottawa shortly after the aljommande．They hal seseral eonferences with the Executive，but the result was mot amilable on the 8 th of April，as had heen anticipated，and on that day the lrovincial Legishatmre was firther aljourned till May 27 th，to emable the ＇htawa nuthorities to forwari the oflicial doemments mol cor－ biopomlence hearing on the varions subjects which hat been －umitted to them．On the re－assembling of the Legislatme， the：（iovermment presented the results of their negotiations at Wtawa hefore the members，imil as these are finlly set forth in a minnte of Commeil appoved on Apmil ISth，1879，we sulyoin it ：－
＂The Committee have bul morler consideration a report sub－ mited to the sinb－Committee of Comal appinted to confer with Messrs．Norquay anl Royal，members of the Executive

Council of the lrovince of Manitoha, who have been deptend by the Executive Council of that Province to 'proceed to (1t.
 sideration of certain matters attecting the progress and w.l. fare of that Province.'"

The questions sulmitted by Messrs. Nompuy mul Rogad for the consider tion "" the invernment, were the following:-

1. The compant:on the Dominion (iovermment of the public buildinge as imipeg.
2. The railway policy $\cdot$ be pursued by that Provino with reference to projected local lines.
3. The mode to le adopted with respect to the sale wit school hands.
4. The provision required to be made for the drainage of massh lands.
5. The return of the Dominion (ioverment of seed grain and provisions lent to certain inhabitants of the Provine in 1875.
6. The expediency of reducing the charge for the kerp if lumatics in the penitentiary of Manitobn.
7. The expediency of an alvance to the Province on capital account, to provide for certain expenditure, especially the drainage, and expenses commected with the mbinistration of justice.

The Committee having given full consideration to the rpresentations made by the Sub-Committee on the abore abbjects, and to the report of the Sub-Committee thereon. reapentfully recommend:-
lst. That with relerence to the erection of poblic builiines at Wimipeg, the Govermment of Manitola be informed that an item will be inserted in the estimates of the next sessim of

Sok-1 wa doputod yestrolay by the representatives of the Frombl
 has abready bose than once secupien the serions attention of the (asmon ment, - that is tw sily, their eamest desire to see your Cabinet supprite by a langer momher representing the Finglish-speaking divisions.

There was nu menace in this determination, since, as you me well atware. it was the only hasis adopted hy both the English and French party in - Bobler last, when yon were selected ly wir frients as the leader to suwed Hon Mr Dasis in the Cabinet.

My party, then anm there, stated most distinctly to yom and to all yomb frimens, that they were gnite willing to aceept whatever lealer your prity would chosse, provided, however, that the said leader wombly prow him. selt rapable of ofeting a fair supurt at the next general elections.

The elections took place in December, and yon know the result.
l'ossessing the catire contidence of the French party, who had selected the Hom. Mr. Delorme and myself to represent them in the Cabinet. I did not forget the principle nom which fom ministry hial been formod: and, although nome of the so-called Fioneh party believe in a strict and ever-existing double majority, yet, under circumstances of the Provinee, we are all of the tirm belief that justice and faimess to all demand that a (ravermment, to be strong and etficient, must command, if not the absolute Guphirt of the a wo sections, at least that suphort which is not, as in the present case, almost exchasively composed of one section of the represontatives of the people.

You have repeatedy, yomself, monitted the correctuess of such a primeiple: and when, in Janary, February and April, I again pressed the matter to your consideration, I, on the last oceasion, remsesented that Captain Scott being a strong and out-and-ont Conservative, and most ac

## CHAP'TEK NXN:

If is a noteworthy fact that in every instance, from the time of Lord lisgar down to the present, rach fiovernor-denral of C'mada, after servering his comection with the Doninion, retaned a fond recollection of his associations with the ('amdimn perple, man never lost an opportmity of shying a gond word in finom of them and their eommer. ()f the Narguis of lame this is especially trate, ath since his sepmrture from Camaln he has never erased, lex memn of his furl med hy his voice, to somm the prases of the Dominiom. While with us, he mad his mminble comsort, the Princess lanice, took an lan ang interest in onr welfare, mal the people of tha North-Wist have exery mason to loe grateful to him for his ahocmer of their internsts since his visit durmog 1881.
On the elst July of that vear, the Marquis of Lome amil his party, consisting of Lirnt.Col. De Wiaton, C'mpt. Chater,
 hert's Edinhmegh: Mr: S'ihhey Hall, of the London firmphia: Mr. ('hatles Anstin, of the Tomes; Dr. Sewell, of Quebee; and Mr: ('muphed, left Collingwond on the stommer Frances suith, bomod for Prince Arthur's Lamlinge which phace was

its hospitalities became a household word in Manitola. When the house was destroyed by fire, one of the most noteworthy landmarks in the Province disappeared.

The reception tendered to Lord Lome by Wimniperg was most enthusiastic. The streets were gaily decorated, arches erected, and on the Monday following his arrival, an mhrios was presentel to His Excellency by the civic authoritios, and the same day he laid the corner stone of the Manitula College.

On the days following this, there were pienies, games, raws, garden parties, etc., etc., and for a whole week the city may be said to have put on holiday attire. On the 8th of Augnst, the Govemor-General left Winnipeg by special train for Pintage la Prairie, where he was enthusiastically entertained in the people. On the 9 th the party again took train to the aml of the track, which was then about thirty miles farther on, where His Excellency and Hon. John Norquay, the Premi.r of the Province, laid a rail on the C.P.R.

From the ent of the track the Mounted Police escorted the Governor-General and party, and on the 10th they camped at Rapid City, on the 11th at Shoal Lake, and on the 13th they reached Fort Ellice. On August 17th, the party arrived at Qu'Appelle, and on the 25th, crossing the South Saskatchewan they reached Carlton the same evening. They then went to Prince Albert by steamer, returning to Carlton on the 2 sth, and on the 30 th reached Batteford ly steamer.

Fort Calgary was visited on the 12th September, and ,n the 17th, Fort McLeod was reacheiafter a most interesting march of hundreds of miles over the prairie. Everywhere the Gos-ernor-General was enthusiastieally received by white men and Indians, the latter meeting him sometimes in large numbers,
oba. Whon noteworthy
imiperg was atell, arrlary , an aldirnes antheritios, ae Manitula
ganes, rates, the eity may hof Augunt, ain for Porttertainem in to ther. s farther on, the Premin. - escorten the ey campel it he 13 th they ty arrised at paskatchewan then went to on the exth, rr, and on the esting march ,ere the Gowhite men :und rge numbers,
on one oceasion fully 3,000 heing present. Lord Lorne enjoyed the splendid shooting along the route, and had the pleasure of witnessing one of the last buffalo hunts on the phains.
On the 27 th September, he visited Fort Shaw in Montana, and it was not mitil the 8 th Octoler that he returneal to Winnipeg, after an alsence of two months, constantly travelling over the prairie comntry.

At a dimer, given in his honor, His Excellency delivered what may be leemed thie most exhanstive and interesting address during his administration. The speech was characterized by a few as visionary and exaggerated in some respects, hut the light of after days has shown that the statements of His Excellency were within hounds.
The Marpuis of Lorne, after referring in feeling terms to the lanentable ocenrrence-the assassimation of Presilent Garfield-in the Cnited States, spoke of the North-West in the following words:-

Beautiful as are the mmberless lakes and illimitable forests of Keewa-tim-the land of the north wind to the east of you-yet it was pleasant " to get behind the north wind," and to reach your open plains. The contrast is great between the utterly silent and shadowy solitudes of the pine and fir forests mat the sunlit and breegy ocean of Meadowland, wicefil with the music of birds, which stretches onward from the neighborhood of your city. In Keewatin, the lmmber industry and mining enterprises can alone be looked for, but here it is impossible to inugine at $y$ kind of work which shall mot produce results equal to those attained in any of the great cities of the world. Inkiown a few gears ago, except for some differences which had arisen amongst its perple, we see Wimipreg
 lifting it to the front rank amongst the comnaercial centres of the continent. We may look in vain elsewhere for a situation so favorable and so commanding - many as are the fair regions of which we can boast. There may be some among you before whose eyes the whole wonderfnl patherama of our Provinees hats passed - the ocean garden Island of Prince Edwarl ; the magnificent valleys of the St. Johm mid Nussex ; the marvel-
loms conntry, the home of "Evangeline," where Blomidon lowks down ont the tides of Fundy and wer tracts of red soil, rieher than the weald of Kent. Son may have seen the fortified Pambise of quebee; and Mantreal, whose prosperity anl beanty is worthy of her (ireat Nit. Lawrence, and you may have admired the well-wrought and splemdid Province of Ontario, and rejoieed at the growth of her capital, Tornonto, and yet, m. where will yom find a sitnation whose natural advantages promise su grat a future as that which seems ensured to Manitoba and to Wimipeg, the Heart City of our Dominion. The measmreless meatows whieh commene here, streteh, withont interruption of their grool soil, westward to your bomblary. The Province is a green sea over which the smmmer wind pass in waves of rich grasses ind thowers, and on this vast extent it is only as yet here and there that a yellow pateh shows some gigantie what field. Like a great net cast over the whole are the bands and chmps of poplar wool which are everywhere to be met with, and which, no doubt, when the prairie fires are more carefully guarderl against, will, wherever they are winted, still further adorn the lamiscape. The meshes of this worl-netting wre never further than twenty or thirty miles apart. Little hay swamps and sparkling lakelets, teeming with wild fowl, are ahway close at hamd, and if the surface water in some of these has alkali, excellent water ean always he had in others, ant by a siaple process of diggines for it a short distanee beneath the sofl with a spade, the soil being so devoid of stomes that it is not even neeessary to use a piek. Now wher that moder these eircmastances we hear no ermaking. Croakers are very rare animals throughoat Canmlis. It was remarked with surprise ly all Englishman aecostomed to British grombling, that even the frugs sing instead of croaking in Canada, and the few letters that have appeared speaking of disappointment, will be anongst the rarest autographs which the next gencration will cherish in their musenms. But with even the best troops of the best army in the world you will find a few maligners a few skulkers. However well an ation has been fonght, you will hear oflicers who have been engaged say that there were some men whose ideat seemed to be that it was easier to comblact themselves as beeame them, at the rear than at the fiont. So there have been a few lonely and lazs voices raised in the stranger press, dwelling upon your ditticulties and isnoring your trimplis. These have appeared from the pens of men whon have failed in their own comatries and have failed here, who are born faitures, and will fail till life fails them. They are like the soldiers that run away from the hest amies, seeking to spreat diseomfiture which exist only in those things they eall their mints-and whe, returning to the cities. sity their commales are defeated; or, if they are not heaten, they shonld in their opinion, he so. We have fomm as we expected, that their tales and not worthy the credence even of the timid. There was not one persm whin
looks drownon II the weald of leec ; and MonSt. Lawremes. lid Province ai to, and yet, nu. pomise so great , Wimnipeg, the hich commerne stwarel to your stmmer wind nst exteut it is gigantic whet $s$ and clumps of hich, no doubt, , will, wherever meshes of this sipart. Little owl, are alway tas alkali, exem. ocess of diggins ail being so deNo wonter that res are very rare firpuise by all the frogs sims have apparal ituriaphs whichs t with even the dew malignerst. you will hear men whose ide:i is became them, lonely and lazy thiculties and ivens of men wh, lo are boru fati!. oldiers that rum re which exist, ing to the cities, , they should in It their tales int one persin whe,
had manfully faced the tirst dilliculties-always far less than thone to be encomintered in the wher Prosinces- hat sain that ho wats getting on well and he wat glad he had come, and he generally aded that he believed his hit of comitiy mast be the lion, and that he omly wished his friends could have the same gool fortme, for his expectations were more than radized. I: is well to remember that the mell who will sueceed here, is in every young community, are manally the able-hodied, and that their contry on their new hed of labor should be when the year is young. Mon advancod inlife, and coming from the old comitry, will thal their eomfont kest (ansulted by the rady powided aecommonation to be obtatine by the purchase of a farm in the ohl provinees. All that the settler in Manitoba Wonal seem to require is, that he shombe look ont for a locality where there is either geod matural drainge, and ninety-nine hmotredths of the conntry has this, and that he shonld be able realily to prome in Winnipely, on elsewhere, sume light pumps like those used in Abyssinia for the eny supply of water from a depth of a few feet helow the sumface. Ikali in the water will never hart his cattle, ind dykes of turf and the planting of the wond everywhere insme him and them the shelter that may be reratiret. Five hmmed dollars shomld be his own to spend on his arrival, if he wishrs to fanm. If he comes as an atisan, he may, like the happy masons now to be fomm in Wimiperg, get the wages of a British Army ('olonel* by putting up houses as fast as brick, wood, and mortar, wan be pat together. Farmable testimony of the climate was everywhere given. The heary uight dews thromghnt the North-West keep the comentry green when werything is burned to the sonth, and the steady winter cold, althongh it s muts formitable when registered by the thermometer is universally said to be far less trying than the eold to be encomatered at the ald English Puritan City of Bustom, in Massachussets. It is the moisture in the atmosplere which makes coll tell, and the Englishman, who, with the themometer at \%ero, would in his moist atmosplere be shivering. would here find one thamel shist suttieient chothing while working. I mever lite to make comparisms, and am always unwillingly driven to do s", although it seems to be the natural viee of the well-travelled Englishman. Over and over again in Canada hase 1 been asked if such and such a bay was not wonderfnlly like the Bay of Niples, for the inhabitants hat often been toll so. I always professed to be mable to see the resemWanee, of eonse, entirely ont of deference to the suseeptibilities of the Italian mation. So, one of mur paty, a sootehnan, whenever in the Rocky Momatains he saw some grand pyramil, or gigatic rock, ten or eleven thamsand feet in height, would exelain that the one was the very image of Arthur's Seat, and the other of Edinburgh Castle. With the fear of On-

[^7]tario before my eyes, I would therefore never venture to compare a winter here to those of our greatest province, but $I$ :an bomm to mention that when a friend of mine put the guestion to a party of sixteen (hutapm men who had settleal in the western portion of Manitoba, as to the comparative merits of the cold season in the two Provinces-funteen of the m voted for Manitoba climate. and only two elderly men said that they 14. ferred that of Toronto. You will therefore see how that which is son atimes called a very unequal eriterion of right and justice, a large majority determines this question. Naw, althongh we are at present in Minitnha, and Manitoba interests may dominate our thonglats, yet you may mot object to listen for a few moments to one experience of the eountry which lies further to the west. To the present company the assertion may be a bold one, but they will be sufficiently tolemat to allow me to make it. if it goes no further, and I therefore say that we may seek for the man chance elsewhere than in Main-street. The future fortumes of this combtry, beyond this Prosince, bear directly upon its prosperity. Althongh you may not be able to dig for four feet through the same chanacter if black loan that you have here, when you get tu the comatry heyond Fint Ellice, yet in its main features it is the same right up to the forhs of the Saskatchewan. I deeply regret that I was not able tw visu Edmonton, which bids fair to rival any place in the Noith-West. Settlement is rapidly increasing there, and I met at Battleford mot man who alone had commissions from ten Ontario farmers ${ }^{\prime \prime}$ buy for them at that phace. Nothing cin exceed the fertility and excelles ce of the land along almost the whole course of that great river, and, to the north of it, in the wide strip, belting its banks and extending up to the beake River, there will be room for a great population whose opportunities for profitable cultivation of the soil will he most enviable. 'I he netting of wood of which I have spoken as eovering all the prairie between Wimmiperg and l'attleford is, beyond that point, drawn up upon the shores of the pratie sea, and lies in masses of tine forest in the gigantic half circle formed by the Saskatchewon and the Rockies. It is only in sechomed valleys on the banks of large lakes and in river bottoms that much wand is found in the far west, probably owing to the prevalence of tires These are casily preventable, and there is no reason why the plantations shoulat not flourish there, in good situations, as well as elsewhere. Before I leate the Saskatehewan, let me adrert to the ease with which the steam navigition of that river cam be vastly improved. At present, there is mily whe boat it all worthy of the name of a river steamer upon it, and this steamer lies up during the $n$ ght. A new company is, I am informed, now heing organized, and there is no reason why, if the new vessels are properly equipled and furnished with electrie lights which may now be cheaply provided, they should mot keep up, a night and day service, so that the

wetters at Prince Albert, Filmontom, and elsewhere, may not lave, during an ther scason, to suffer great privations incident to the want of transpurtation, whel has lomded the banks of Grand Rapids during the present year with freight awaiting steam transport. The great cretaceons coal seams at the headwaters of the rivers which rise in the Rocky Mountains or in their mighburhoml, and flow towarls your doors, shomkl not be forgotten. Although you lave somat comal indistricts nearer to gon, we shonld remember that on the headwaters of these streams there is plenty of themust excellent kinl. which can be tloated down to yon lofere gou have a complete railway system. Want of time, as well an a wish to see the less vauntel parts of the country, took me south-west ward from Battleford orer land which in many of the maps is varionsly marked as consisting of arid flains or as a continuation of the "American desert." The newer maps, especially those containing the explorations of Professor Macom, have corrected this wholly errmeous iden. For two days mareh - that is to say fur abomt sixty or seventy miles south of Battleford-we passed arer land whose extellence could not be surpassed for agricultural purproses. Thence to the heighhorhood of the Red Deer Valley the soil is lighter, but still, in my opinion, in most places goorl for grain-in any case most admirable for summer pasturage-and it will certainly be good also for stock in winter as soon as it slall pay to have some hay stored in the valleys. The whole of it has been the favorite feeding ground of the buffalo. Their tracks, from watering-place to watering-place, never too far apart from each other, were everywhere to be seen, while in very many tracks their dung hay so thickly that the appearance of the ground was only comprarable to that of an English farmyard. Let us bope that the putr 'acte will not be long before the disappearance of the buffalo on t..ese scenes is followed hy the appearance of domestic herls. The Red Deer Talley is enpecially remarkable as traversing a comtry where, aecording th the testimony of Indian chicfs travelling with us, snow never lies for more than three months, and the heavy growth of poplar in the bottoms, the quantity of the " bull" or high cranberry bushes, and the rich branches that hung from the choke cherries, showed us that we hal come into, that part of the Dominion which, among the plainsmen, is designated as "Gonl's Country." From this onward to the Bow River, and thence to the frontier line, the trail led through what will be one of the most valued of our Provinces, subject to those warm winds ealled the "Chinooks." The settlers will hardly ever use anything but wheeled vehicles during winter ; and, throughout a great portion of the land, early sowing -or fall sowing-will be all that will be necessary to ensure him against early frosts. At.Calgary-a place interesting at the present time as likely to be upon that Pacitic Railway line which will comect you with the Pacific and give you access to "that vast shore beyond the furthest sea,"

As in the ghacis and rannpart of a fortress, the shot ean reach across the smonthed sorfaces abowe The ditch, so any winds that may arise may swep neross the twin levels bhove the river fosses. The streans rim comsing along the smben levels in these vast ditehes, which are sometimes miles in wilth. Sheltered by the mbdulating banks, knolls, or clifts which form the matgin of their excavated bombls, are woods, generully of poplar, except in the northern and western fir fringe. On approtheng the momatans, their smow-caps look like hage tents comaped along the moling pairie. Ip to this great emmp, of which a length of two hmodred miles is sometimes visible, the rivers wind in trenches, lawking like the covered ways by which siege works aig-zag $\quad$ ul to a besieged eity. On a mearer view the camp line changes to ruined marble palaces, and thromgh their wemendous walls mad giant wools yon will som be dashing on the train for a winter basking on the warm Pacilic const. You have a combtry whose value it would be insinity to question, and which, to judere from the emigration taking phace from the older provinees, will be indissolably linked with them It must support at vast frotulation. If we may calculate from the progress we have alrealy mate in eomparison with cur neighbors, we shatl have no reason to fear comparison with them on the new areas mow open to nas. We havo now four million fom hombeal thomsand people, and these, with the exeeption of the comparatively suatl numbers as yet in this Province, are restrictel to the old area. Vee for the last ten years onr increase has been over 18 per cent., whereas during the same period all the New England States taken thgether have slown an increase only of 15 per eent lu the last thirty years in ohio the increane hats been 61 per cent. Ontario has seen, during that space of time. 101 per cent. of increase, while Quobec has incresed per cont. Manitoha, in ten years, has increased 289 per cent., at greater rate than any hitherte attained, and to judge from this year's experience is likely to increase to an even more wonderful degree during the following deeate. Statisties are at all times wearisome, but are mot these fall of hope! Are they not facts giving just ground for that pride in our progress which is conspicuous among our people, and ample reason for our belief that the future may be allowed to take care of itself. They who pour out prophocies of change, prescribing medicines for a somad body, are wasting thei time. It is among stangers that we hear such theories propromiled by destiny men. With you the word "amexation" has in the last years only heen heard in eonnexion with amexation of more territory to Manitoba. 1 must apologise to a Canadian audience for mentioning the word at all in any other connection. In America the annexation of this country is disavowed by all responsible leaders. As it was well expressed to me
lately, the best men in the States desite only to monex the friendalipesam goorwill of Canada. To be sare it may be otherwise with the camp fol lawers; they often talk as if the swallowing and digestion of Canada by thea were only a question of time mad of rising reasom mangest is How far the prower of the camp followers extends, it is not for us to deterninn They hove, however, shown that they are powerful emongh to capture a few English writers, our molern minor prophets, who, in little anga\%ine artieles are fond of teaching the nations how to behave, whose worid preach the superiority of other comatries to their awn, and the proximat. dismemberment of the British Empire, which has the honor to neknow ledge them as eitizens. 'They have, with wur Americm friends of whom I speak, at all events, one virtue in common, they are grent speculators In the case of our southern frients this is nat a matter to be deplored hy us, for American speculation has been of direct material benefit to Can ada, and we must regret that our Ameriean eitizens are not coming over to us so fast as are the Scoteh, the Irish, the (iemmans and the Seandina vians. Morally, alsos, it is not to be deplored that such speeulations are made, for they show that it is thought that Camadians would form a useful though in unimportant wing for one of the great parties ; nud, moreover. such prophecies clothe with ammsement "the dry bones" of diseussion. But it is hest always to take men as we fint them. and not to beifere that they will he different even if a kindly feeling first for ourselven, and afterwarls for them, should make us desire to change them Let us rather judge from the pust and from the present, than take flights ungnided hy experience into the imaginary regions of the future. What do we find has been and is the tendency of the peoples of this continent ! Woes not history show, and do not motern and existing $t$-ndencies declare, that the lines of cleavage among them lie along the lines of latiturle? Men spread from east to west, and from west to east ; the political lines, which nean the lines of diversity, extend. The central spaces are, and will be yet more, the great centres of population. Can it be inagined that the vast central hives of men will allow the eastern or western sea-board people to come between them with separate empire, and shat them out in any degree from full and free intercourse with the markets of the world beyond them? Along the lines of longitude no such tenden.ies of division exist. The markets of the North Pole are not as yet productive, and with South America commorce is comparatively small. The safest conclusion, if conclusions are to be drawn at all is, that what has hitherto been will, in the nature of things, continue; that whatever separations exist will be marked by zones of latituile. For other evidence we must search in vain. Our county councils ; the municipal corporations; the local provincial chambers; the central Dominion Parliament ; and last, not least, a perfect'y infottered press, are all free chamels for the
fremships:an| the caump fout of Camata in Hgst lis How to determinur h to enpture: : little mugaziuc , whise wirlu the proximat" riv to neknow muld of whum 1 ent speellators be deplored hy benefit to Can toming over the Semudimpreeulations are ld form a useful nul, mureover. Men cal lines, which re, and will be agined that the tern sea-board ut then sut in ss of the world lencies of diviroductive, mil The safest conit has hitherto er separations lence we nust purntions ; the ent ; and lawt, numels for the
rxpression of the feelings of our citizens. Why is it that in ench mod all of these retlectors of the thonghts of men we nee nothing lont determination to keep and alevelop the precions herituge we have in our constitution, so capmble of any development which the people may desire! Let us hem Canudims, if we wish to speak for them. These puhlic bedies and the publie press are the mouthpieces of the prople's mind. Let us not say for then what they never say for themselves. It is nor intentional misrepresentation, I betieve, which has probluced these curious examples of tho fact that individun prepassessions may distort public proof It reminda me of an interpretation ance said to have been given by a bat interpreter of a speech delivered by a sange warrior, who, in a very dig. nitied and extremely lengthy discon'se, expressed the contentment of his tribe with the order and with the good which had been intronluced nmongst them by the law of the white man. His speenh was long enongh fully to impress with its meaning and its truth, all w' took pains to listen to him, and who eould molerstand his languger, but the interpreter had, imfortunately, dilferent ideas of his awn, and was displeased with his own individual treatment. When at last he was asked what the chief and his comeil hand said in their elopuent onations, he turned romad and only exelained, -He dam displeased: And what did his comeillors saty :-They dan displeased: No, gentlemen, let each man in public or litermy life in luth nations do all that in him lies to cement their friendship, so essential for their mutal welfare. But this camot be cemented by the publication of vain vaticinations. This great part of our great Empire has a natural and warm feeling for our republican brethren, whose fathers parted from us is century ago in anger and boodshed. May this matural attection never die. It is like the love which is borne hag a youger brother to an ehler, sul long as the big brother hehaves handsonuly and kindly. I may possihy know something of the natmre of such attiection, for, as the eldest of a romd tozen, I have had experience of the fraternal relation, as exhibited by an unasual number of yomger brothers. Never have I known that fraternal tie to fail, hat even its strength has its natural limit, so Canala's affection may be moasured. None of my yomger brothers, however fond of me, would wohntarily ask that his prospects should be altogether wershadowed or swallowed up by mine. So, Camma, if I may express hev feelings in words which our neighbers inderstand, wishes to be their friend, but does not desire to become their food. She rejoices in the big brother's strength and status, bat is not amxions tor mourish it by offering up her own borly, in order that it may afford him, when over-hungry, that happy festival he is in the habit of calling "aspuare meal." I must ask jou now once more, to allow me, gentlemen, to express my acknowledgments to you for this entertaimment. It afforls another indieation of the feelings with which the citizens of Winnipeg regard ang person who has W
the honnr, as the hend of the Canmian Govermment, torepresent the Queen. Iou recognize in the Gevernor-General the sign ami symbol if the union which hinds tugether in we the free and kindred perplen whom (ind has set over famoms inles, and over furtile spacen of mighty continents. I have toucherl, in spenking to yon, on certain vaticinations. nul certain melvee given by in few gond Cunadians, on the subject of the future of Camala. Gentlemen, 1 believe that Camalians are well able to take eme of thenselves, of their future, wil the ontside woild hal bettor listen to them instend of promulgating wenk nud wild theories of its own. But, however uneertain, mad I may add foolish, may be such forecosts, of one thing we may be sure, which is this, that the country yon rall Camada, mud which your sons anl your chiliren's chililren will lu: proud to know by that name, is $n$ land which will be a land of power among untions. Mistress of $n$ zone of teritory favorable fon the maintennace of n numerons and honogemons white fopulation, Can uln must, to julge from the incrense in her strength during the past, aml from the many and vast opmatunities for the growth of that strength in her new lowvinces, in the finture be great mul wombly her fusition on the earth. Afforting the best amb safest highway hetween Asin ind Europe, she will see tratic from both ilirected to hor enasts. With a hand upon either ocenn, she will gather from ench, for the benctit of her harly millions, n large share of the commere of the world To the east and the west she will pour forth of her abmulance, her treasures of foom and the riches of her mines and of her forests, demanded of her by the less fortmate of mankind. I esteem those men favored, indeed, who in however slight a degree have had the honor, or may be yet ealled upon to take purt in the comeils of the Statesmen who in this early era of her history are moulding this nation's laws in the forms njproved by its representatives. For me, I feel that I cm be ambitious of no higher title than to be known as one who administered its government in thorough sympathy with the hopes and aspirntions of its founders, and in perfect consonanee with the will of its free parliament. I ask for no better lot than to be remembered by its people as rejoicing in the ghadness born of their independence and of their loyalty. I desire no other reputation than that which may belong to him who sees his own dearest wishes in process of fulfilment, in their certain progress, in their undis. turbed peace, and in their ripening grandeur.

## C'HAP'TER NXV.

HETE'ER TERMS, ENLAROEMENTG OF MANITOHA, ANU DISAILOWANOE:

THE agitation for better terms, which began in 1871, contimued with incrensing persistence from yem to yemr. During the Davis administration the question was allowed to remmin in abeyance, but on Mr. Norqua's assumption of the reins of Government he made it and the extension of the provincial boundaries prominent features of his policy. His first effort in the direction of securing more favorable terms from the Oominion, with regarl to an increase of sulsidy, was, as has been shown in a previous chapter, far from being satisfactory or acceptable to the Province. Insteal of acceding to the demands made upon them for a reasomable addition to the subsidy, adequate to the requirements of Govermment, the Dominion authorities only increased the ammal grant by a beggarly $\$ 15,000$; and, instead of acceding to the equitable request of the l'rovince for control of her school lands, they temporized by lending her $\$ 10,000$ for educational purposes.

The demands upon the Province for local improvements, rouds and bridges, drainage of swamp lands, etc., which the rupid increase of population and the extension of settlement called for, made it important that the Government shoulil have more funds at command with which to satisfy the increasing wants of the community. The feeling in the Pro-
vince was mhimably explained by Hon. John Norquay on the occasion of a hanquet tendered to him by his friends ani admirers on March $27 t \mathrm{th}, 1881$, at Winnipen. In responding tu the toast of "Our Guest," Mr. Norquay, in a brilliant ipereh. said:-"Fourteen years ago, when Confederation was projected, it was, hy miversal consent, allowed by the different Provinces that, as far as possible, there should be no resurt to direct taxation in political exigencies: and in order to ohviatsuch a necessity, every Province was allowed full control of its public domain, out of which it was expected they would realize a revenue for the purpose of carying on the attairs of Govermment, and discharging the resonsibilities laid on them by the federal anthorities. Such an armuremont 1 believe to have been minently wise. Manitoba subsengently enteret Conferlemation, and was entitled to equal justice. It has been said that she was sold by soine, and hought ${ }^{1}$ y others: but in all faimess she has certaintly been harilly. dealt with. I claim that in orler to deal with us in that spirit of impartiality which should characterise all aministrative bodies, we should have heen put in possession of our lands. Thus we would have been in a position to work ont our own desting, and he responsible for the the ahministration of atfairs, as they were in the other Provinces. liut at the outset our public men only looked to the fact that $\$ 1,500$,000 were paid to the Hudson's Bay Company for whatever rights they had to the public lands in Manitoba and tle North-West. The fact was entiaely ignored that this amoment was addeci to the public debt of Canada, for which you and 1. are equally responsible-and the discharge of which we assumed (by being citizens of the Dominion) equally with the citizens of Ontario, Quebec. Nova Scotia, New Bemus-
refuay on the iends and atresponding to illiant iperech, ion was prothe different e no resintt th der to ohviat ull control of d they womld on the atfairs ,ilities laid 1 In rangembut
 equal justice. and lought '!
been harilly ith us in that ise all athinpossession of sition to work duce alminisinces. bint at 't that $\$ 1,500$,for whatever itoba and tle it this amount hich you and 1 . which we asequally with New Reuns-
wick, and the other l?ovinces. What we clam then, is. that while as loyal sulojects we are willing to assume our Nhare of responsibility in relation to the diseharge of the national deht, it is minust to deprive us of resonrees which have been allowed in the ease of the other Provinces for purposes of local development. We say it is mfair that these resources should be wrested from us to he appropriated to a road built mainly to suliserve national purposes. With as much justice could the Ferleral Government go to Ontario and sar. you must contribute ten million acres iowards the completion of the Canadian Pacific Kailway, or to Quebec, or any of the other Provinces, mord prefer a similar request. Takingr away our land was taking away that which, having been found a rich source of revenue by the other Provinces, would have proved a still greater benefit in our case. We are, in short, asked to appropriate for mational purposes, our patri-mony-our dependence for the future-we are saddled with our share of public indehtedness-have to hear our share of the public burdens equally with the other Provinces. We have our share of the debt incured for lnternational Railway purposes, and for the inprovement of the canal system. Were we, in aldition, to give up what ought to be our principal sonrer of local revenne, for the purpose of constructing a great national highway! It is true that the rapid construction of the C. P. R. Was of material consequence to us. In common with the other Provinces, we felt an immense interest in the success of an undertaking which had been happily termed a great iron band linking the Provinces together, It might, indeed, connect us together commereiallyit might facilitate intereourse between the Atlantic and Pacific over British territory-it might give us much coveted means
of ingress and egress-offering to the farmer facilities for moving his grain-to the merchant the means of importing goorls: but the real bond of union between the different Pro-vinces-that which will mite them individually-will b. justice to all the members of Confederation-impartial dealing in every instance. This, and only this, can bind together ins one homogenous people those who dwell on British soil between the Atlantic and Pacitic. Let them continue to treat this, the fairest and most promising Province of the Dominion, as a step-child, and so long would there be discontent and heart-burning among the people here. Until we are in the enjoyment of the privileges accorded to the other Provinces it is not in the nature of things that there should be that accond and harmony between this Province and the rest which is so desirable in the interests of all. With a constitution fomuled on justice and impartiality, Manitoba would, I am convincel, soon take her station as the ablest member of the Confederation, and her loyalty and devotion would have full scope. Beyond that, no citizen should require anything at the hamls of the Federal authorities: but, less than that, I hope no citizen of Manitoba will ever be satisfied with." Mr. Noryuay's utterances were heartily applauded by his auditors, who represented all classes of the community, and every shade of political opinion, as expressing the feeling of the entire population.

It will be remembered that the $\$ 15,000$ increase of subsidy, conceded by the Dominion in 1879, was for three years only, and subject to re-adjustment, in 1881, but, in that year, the Ottawa Government declined to make any change in the existing arrangements, other than to allow the Province to draw on capital account to the extent of $\$ 100,000$, for drainage aml
facilities for of importing different Prow . ally-will b, rartial dealing al together as ritish soil beretinue to treat the Dominion, iscontent and we are in the er Provinces it be that ace, ind est which is so tution foumben am convinced. the Confederave full scope. Ig at the hands I hope no citiMr. Norpluy's prs, who represhade of polientire popula-
ase of sulsidty, ree years only. that year, the e in the existpoince to draw - drainage ant
road-making. The proposition that the lamls reclaimed by drainage, or a portion of them, should be handed over to the Province to enable her to recoup the money expended on them, was held over for consideration. The extension of the boundaries was provided for by a Dominion Act, passed in March, 1881, and in May following the Manitoba Legislature passed a measure for the Govermment of the new territory added to its jurisdiction. Neither of these acts defined the eastern boundary of Manitoba positively, the words used were amlignous, and left the actual boundary between Ontario and Manitoba an open question. Manitoba necepted the enstern extension of her boundary, subject to the final determination of the dispute then existing between the Dominion and Ontario Govermments. The new territory was divided into six electoral divisions, and fifteen municipal divisions. It was provided that the election of a member tor the division of Varemes, or Rat Portage (the disputed territory), should not take place until the eastern boundary should be fully known and settled. The Province was also divided into three judicial districts, the Western, Central, and Eastern ; and provisions were made for holding courts of assize in each of them. Winnipeg was granted two members in the Legislature. In extending the existing Provincial laws to the new territory, the power was reserved to the Lieutenant-Governor in Council to proclaim such laws in force in such portions of the new territory as might be deemed advisable. This wise provision was made in the interests of the many settlers in the west, who had made their homes there in order to escape the disadvantages which they considered existed in Manitoba, where the license system was in force, by bringing up their families in a country where the liquor traffie was prohibitel by Federal Legislation. Re-
gariling the eastem territory, the provision was deemed necessary to prevent any possible conflict of jurisdiction between Manitoha and Ontario, pending the settlement of the boundary. The act provided :-" That all laws and ordinances in foree in the said territory to be adiled to form a part of the Province of Manitoba, at the time of the coming into force of the said Act of the Parliament of Canada, and all courts of civil and criminal jurisdiction, all registration offices for the regristration of titles to lands, and all legal commissions, powers and authorities, and all offices, judicial, arministrative, and ministerial, existing therein at the time of the coming into force of the said Act of the Parliament of Camada, shall comtinne therein until the same are repealed by (Order in Council, and made subject to the laws of Manitoba."

This legislation was the result of a desire on the part of Manitoba to assume no responsibility in the govermment of the disputed territory, matil such time as the western boundary of Ontario should have been detinitely established, hat the provisions of a Dominion statute, passed in 1880,* respecting the administration of criminal justice in the territory in dispmite between the Govermments of Ontario and Camada, were the means of insensibly bringing her into direct confliet with Ontario. That act provided that every crime committed in any part of the disputed territory might be enquired into, tried and punished, within any eounty or district in Ontario, or Manitoba, or Keewatin, and such crime should be within the jurisdiction of any court, judge, magistrate or magistrates, or justice or justices of the peace, or other functionaries having jurisdiction over crimes or offences of the like nature, committed within the limits of the county or district in which

on the part of govermment of vestern boundstablisherl, hut 1880,* respeethe territory in and Canada, direct conflict fine committed enquired into, rict in Ontario, ould be within or magistrat's, ctionaries have like nature, strict in which
such erime or offence was prosecuted. Such crime or offence might be charged to have been committed in Ontario, or in Keewatin, and any sentence which might have been imposed upon the offender had the offence been committed cither in an undisputed part of Ontario, or an undisputed part of Keewatin, might be imposed upon an offender convicted under the act. In case an offender was in custody in any gaol in Ontario or Manitoba, and it was intended that such person should be tried in a province other than the province in the gaol of which he was contined, or in a different part of the same province, then any judge of any superier court in the province in the gaol of which sucli prisoner was eontined, might make an order upon the keeper of such gaol to deliver the prisoner to the person named in the order, who should conver him to the place at which he was to be tried, there to remain in custody until his case had heen disposed of. An offenter might be. committed to gaol at Winnipeg or at Port Arthur's Landing, according to the discretion of the committing judge or magistrate.

This law created a rivalry between the police constables and peace officers of the Dominion, Ontario, and Manitoba. All clained jurisdiction, and when an offence was committed there arose a dispute as to who should arrest and hold the offender. The magistrates naturally upheld the officers of their respertive provinces, and serions riots and disorders resulted. Tor add to the complieation, Ontario organized courts of civil jurisdiction at Rat Portage and other points. The authority of these courts was questioned by persons summoned before them, and the execution of process issued by them was resisted.

The large number of men employed on the construction of the railway between Lake Superior and Manitoha was an
inducement to whiskey dealers to extend their trade to that portion of the country, and despite the severe mensures which had been adopted for the suppression of the liguor tratfic along the railway line, and the heavy tines and penalties which followed conviction, the whole region was literally flooded with liquor. It was estimated that at least 800 gallons per month was disposed of on the section between White Mouth River and Lake Wabigon during the winter and spring of 1881. 'The liquor was taken from Winnipeg, concealed in oatmeal, beans, and coal oil barrels, to some convenient point, from which it was distributed by dog train in winter, and by canoe in summer, all along the line. It was sold at 8.3 in bottle or 815 a gallon, sometimes at still higher rates, and when it is considered that over 2,000 men were employed on the section mentioned, nearly every one of whom spent much of his hard earnings in drink, it will be seen that the risks taken by the whiskey vendors were overshadowed by the immense protits accruing from their business.

The Stipendiary Magistrates and Justices of the Peace appointed by the Dominion and Ontario, assisted by the police under their respective jurisdictions, exereised their authority most energetically in suppressing the illegal traffic in intoxicants, but their efforts were thwarted to a certain extent by the continuous clashing of jurisdiction, which gave rise to grave disorders, and brought the name of justice into ridicule -facts that were taken advantage of by the unscrupulous whiskey peddlers On August 15th, 1881, the LieutenantGovernor of Manitoba issued a proclamation, extending thr laws of the province to the disputed territory, and a month later the County of Varennes (which includes the disputed territory) was declared a judicial district, and a County Court
ade to that sures which iguor traftic ralties which ally tloorted gallons per White Mouth d spring of concealed in enient point, nter, and by old at 83 a r rates, aml employed on 1 spent much hat the risks owed by the
f the Peace by the police ir authority ie in intoxin extent hy gave rise to into ridieule inserupulous Lieutenanttending the and a month the disputed ounty C'ourt
was established therein, its sittings to be held at Rat Portage. A registrar of deeds, coroner, justices of the peace, and constables, were also appointed for the new county. This action, on the part of Manitoba, was seareely in line with the position ,f strict neutrality which Mr. Norquay declared should be his policy in regard to the eastern territory added to the province while its boundary was unsettled, and many considered it illadvised, as the dispute was essentially a Dominion attair, in which Manitoba had no standing, unless she chose to assimme a responsibility foreign to her best interests.

The better tems agitation was not allowed to abate, and early in 1882 Hon. Messrs. Norquay and Lariviere (who had sueceeded Hon. M. A. Girard, as Provineial Secretary, in Nov.. 1881, on that gentleman's assuming the portfolio of Minister of Agriculture, left vacant by the resignation of Hon. Maxime Goulet), proceeded to Ottawa to again press the elaims of the Province with the Dominion Govermment. The result of their mission is embodied in the following memorandum, approver by the Governor-General in Coumeil :-
"The Committee of the Privy Comeil have had muder consideration the memorandum dated 7 th February last, from Messrs. Norquay and Lariviere, delegates to the Executive Council of Manitoba, appointed to confer with the Privy Comcil of Canada in reference to the several subjeets set forth in the printed memorandum sulmitted to them, and they have the honor to report as follows:-
"Increase of Subsidy.-The Committee of the Privy Council have earefully considered the application in this respect of the delegates from Manitoba. The allowance for government and legislation for a population of 120,000 was nearly $\$ 30,000$ : that of British Columbia, upon a population of 60,000 , was

S35,000. The Committee of the Council were obliged to hear in mind such ambogies in dealing with the reguest of the delegates, hat they are prepared to recommend an increase on this head to Manitolm of $\$ \mathbf{8 0}, 000$, making the allowance to that province for legislation and government $\$ 50,000$. The present pepmation of Manitolm is estimated by the delegrates to be nearly 90,000, upon $a$ basis of 25,000 immigrats having entered the comutry since the census returns, these returns showing ant actual population of 64,814 . There is, moreover' a large monthly adition of intending settlers arriving, and with many indications that this stream of immigration will eontime and inerease. The Committee of the Privy Comeil are willing to recommend that the population be reckoned, for the purpose of adjusting the sum per copitu to be allowed to the province, at 150,000 , and, at 80 cents a head, to allow Sl-30.00O thereon, and they are also willing to allow to Manitola the same sum that was allowed to Prince Edward Islamd in lien of lands- 845,000 . These sums, with the interest due Manitoba on the undrawn allowance for debt, would make the income of that province from Dominion sources, $\$ 227,153$. The Committee of the Privy Council are not prepared to recommend any ehange in respect to Dominion lands lying in Manitoba. The analogy which the delegates see between the public lands in other provinces and those in Manitoba does not seem to the Committee of Comeil to be well drawn, inasmuch as the other provinces owned their hands before Confederation, and brought them into the union with them as their own property, whereas the whole of Manitoha was acquired by the Dominion by purchase from the Hudson's Bay Company, and thas became the property of the Dominion, and stands really in the same position as lands in the Territorics of the United
iged to luar of the dello. cease on this nee to thant The prosent grates to bue mots having lese returus s, moreover' rriving, murl gration will ciey commeil eck (med, for e allowed to dd, to allow ow to Maniward Island interest due ha make the 27,1533. The ed to recomng in Manin the public pes not seem inasmuch as nfederation, iir own profred by the mpany, and nds really in the United

States which are not given to new States, as these mew States wre ereated. Considering, however, the peculine position of the Province, the Committee of Council have indieated in the previons paragraph their willinguess to nllow Manitola at the rate of $\$ 45,000$ a yene, as is dome in Prince Edword lslamd, in lieu of hands.

School Lands.-Whese lands, which are set apart for edueatiomal purposes, are vested as a high trust in the Govermment of Camala, and the future necessity of the Province of Manitoln will, it is thought ly the Committee of Council, he best consulted by retaining the mbinistration of the trust, as contemplated by the lavs of the Dominion: the mmonal interest. less expense of administration, being paid to the province for ellucational purposes.

Half-Brerds' (irant.-In the added temitory the grants to Half-Breeds in the original Province of Manitolm were made on account of the peculiar circomstances of the time and the. position of these Half-Breeds, but the result was, as regarls them, not encouraging, and to make additional grants to the children of Half-Breeds, in the inded territory, would he, it was thought, simply to furnish alditional opportunity for speculators, withont really henetiting the Half-Breeds.

Appointment of Julges.-The Committee of the Prisy Comacil recommend the appointment of two County Juiges. and that Parliament be asked to provide salaries for them, the Legislature of Manitoba having by Cap. 28 of 44 Vic.. passed the necessary provision in that behalf."

On January 13th, 1882, the Dominion (iovermment disallowed the Act, passed at the previous session of the Manitoba Legislature, incorporating the Manitoba South-Eastern Railway Company, which was intended to run south-easterly from

378
Wimniper to some point on the International Bonndary Lime, to connect with the United States Rnilway system. The act was disallowed on the ground that such a rond would confliet with the rights granted to the Comadian Pacitic Railwnya perfectly reasonable contention-but althongh Manitoba, through her representatives in the Dominion Honse, had heen a party to the bargain with the C.P.R., her people regneded the disallowance as a direct mennce to their interests, and denounced the action as an outrage against Provincial rights.

The unsutisfactory outcome of Mr. Norguay's mission to Ottawa was published while the Province was in a fermont of excitement over the disallowance of the South-Eastern charter, and gave his political opponents an opportmity of making a long leferred and bister attack upon him. The Free Press, which had been regarded as the orgm of the Govermment, suddenty changed front, and denounced Mr. Norquay and his colleagnes as a group of incompetents, who had deserted their principles and betroyed the Province, for the sake of retaining themselves in office.

The Free Press formulated three serious charges against the Administration. It characterized their action in regard to the disputed tervitory as "meddlesome interference," inimical to the interests of the Province, and in direct violation of their pledges to Parliament. It charged that they had displayed inexcusable weakness in mildly submitting to the arbitrary action of the Dominion in disallowing the South-Eastern Railway Act, and that their acceptance of the paltry increase of subsidy, and the decision of the Dominion with respect to Manitoba's lands, had injured the future prospects and sacrificed the dignity of the Province. The Times, the Conservative paper, defended the Government from these charges, and
andary line, III. The act ould confliet e RailwayManitola. ise, hatd been ple regaried aterests, aml incial rights. s mission to a ferment of steru charter, of making a e Free Press, Govermment, puay and his leserted their of retaining
s against the regard to the inimical to tion of their ad displayed he arbitrary Eastern Railincrease of h respect to ets and saerihe Conservacharges, and
advocated the aceeptaner of the terms as being temporary and susceptible of realjustment from time to time, as the inerensing necessities of the Province should require. When the Legishature assembled, on April 28th, 1882, the House had increased by the election of tive new members, for the additional constituencies created by the extension of the bommary westward. 'These were Messrs. James P. Alexander, 'Turtle Momatain; John A. Davidson, Dauphin: S. Clement, Birtle: John Crerar, Minnedonn ; John W. Sifton, Brandon. The tone adopted by the Member (Dr: D. H. Wilson, North Duflerin), who moved the address in reply to the speech from the Throne, indieated that the days of no party in Provincial matters were drawing to a close, and that thereafter the atliaiss of the Province would be fought ont on the lines of party. politics.

During the recess, an Opposition had been organized, mater the leadership of Mr. Thomas Greenway, Member for Mountain, who submitted the Govermment to severe eriticism at every stage of legislation, and made the session a memorable one, from its duration and the enlivemment of the debates. ${ }^{O}$ Oposition was somewhat new to Mr. Norquay. Sinee his acceptance of the leadership, his path in the House had been one of roses; no combined resistance had ever been made to his legislation, but when he found a section of the legislature arrayed against him, he boldly accepted the gauge of war, and, by his future conduct of affairs, earned the reputation of being a political strategist of the highest order.

During the debate on the address, Mr. Greenway moved:"'That this House regrets that in a matter of such vital importance to this Province as the recent disallowance, by the Dominion Government, of the South-Eastern Railway char-
tor, granteal hy this legishathor at its last wession, that His

tion assumed by the Covernment, of their inability to grant sueh a charter, the present was an opportme moment at which to enter a solemn protest against the existing state of affairs, and to ask for remedial legislation. The debate was continned for several days, and finally Mr. Greenway's amemlment was lost on the following division:-Yeas,-Wm. Winram, John Smith, E. H. G. G. Hay, Thomas Greenway, J. W. Sifton, A. W. Ross, D. H. McMillan.-7.

Nays,-Hon. Messrs. Norquay, Girard, Lariviere, Walker, Brown. Messrs. Alex. Sutherland, 'Thomas Carney, J. P. Alexander, J. H. Wilson, J. S. Aikins, J. A. Davidson, M. Goulet, James Cowan, Wesley Lipsett, J. A. K. Drummond, Alex. Kittson, Joseph Thillefer.- 17.
" The extension of the boundaries was again brought up at the session, the Govermment asking for a further enlargement of the Province, as set forth in the following resolutions:-
" 1 . That it is the opinion of this House that it is in the interests of this Province that the boundaries thereof should be further extended :-'To the west, to the 102nd meridian, to the north to the 60th parallel of north latitude, so as to contain the outlets on Hudson's Bay, and to the east on Lake Superior.
" 2 . That the public lands within the hounds of the Province as above detined, should be handed over to the trustership of the Provineial authorities, including the forests, mines, minerals, etc., for administration for the public uses of the Province.
" 3 . That in the settlement of the question of our eastern boundary, should it be found that such eastern boundary (when properly and legally defined), shall be at a point west of 'Thunder Bay, that the Executive be requested to commence negotiations with the rightful owners thereof, with a view of
acquiring such strip of land as may lie hetween such bounday and the meridian, passing immediately east of Port Arthur', Landing.
" 4 . That an humble address, etc."
The act passed by the Legislature in 1881, providing for the extension of the boundaries, defined the western boundary as commencing at the intersection of the International boundary divinling Canada from the United States, by the centre lime of the road allowance between the twenty-ninth and thirtieth ranges of townships lying west of the first principal meridian: thence northerly following upon the said centre line of the said road allowance, defining the said range line on the gromul across townships one to forty-six, both inclusive, to the intersection of the said centre line of the said road allowance, hy the centre line of the road allowance on the twelfth base line in the said system of Dominion surveys; thence casterly along the centre line of said road allowance, to its intersection by the easterly limit of the Distriet of Keewatin. This act was confirmed by the Dominion Parliament, except that the road allowance across townships one to forty-four was mate the western boundary instead of one to forty-six. A reference to the map will show that the western boundary thus defined was an irregular line, and to make it more symmetrical, the extension to the 102 nd meridian was asked for. The northerm extension to Hudson's Bay was demanded, in order that the Province might have an outlet on the inland sea, to which she could charter a line of railway free from Federal interference. The same motive prompted the demand for a post on lake Superior, and underlying both was the hope that the Dominion wonld recognize Manitoba's claim to the lands in the added teritory, and that, in any event, she would darive the bene-
th bomuliay ort Arthur's
iding for the boundary as nal boumlary entre line of and thirtieth pal meridian: e line of the on the gromul , to the interallowanee, by lfth base line ence easterly ts intersection tin. fit of an increase of income from the school lands, forming one-eighteenth of the whole area, within her enlarged boundaries.

The House prorogued on May 30th, 1882, after a large number of bills had been assented to. Among the acts of the Session were: An act to secure the building of railways, to incorporate the City of Brandon, to incorporate the Winnipeg Street Railway Company, to encourage the planting of trees, to ineorporate the Red River Bridge Company, to estallish a Normal School Department in connection with the Publie Schools. The estimates included appropriation for education, $\$ 40,000$; bridges and ferries, $\$ 20,000$; drainage, $\$ 50,000$; administration of justice, $\$ 25,000$; building court house and jail, $\$ 100,000$; agriculture, $\$ 10,000$; charities, $\$ 5,000$. Total estimates, $\$ 383,099.44$. Revenue subsidy, $\$ 227,153.04$; sale of old court house, $\$ 58,680$; adrance on school lands, $\$ 40,000$; local revenue (licenses, etc.), s30,000 : sale of reclaimed lands, $\$ 40,000$. Total, $\$ 395,833.04$.

The Dominion General Elections, held in June, 1882, were hotly contested, and resulted in the return of three Liberals and two Conservatives. The following were the results of the polling:-

LISGAR.
A. W. Ross, Liberal, - - - 760
J. C. Schultz, Conservative, - - $\quad 720$

E. G. Conklin, Liberal, - - - 395

Plurality for Scott - - 96
'This was the first Dominion Election for Wimipeeg, as it had formerly been included in the electoral district of Selkirk, but was created a separate constituency in 1882.

On July 5th, 1882, Hon. D. M. Walker, Attorney-General, was appointed County Judge, and Hon. Alexander M. Sutherland replaced him in the Cabinet. Lieut.-Governor Couchon's term of office expired in 1882, and he was succeeded by the Honorable J. C. Aikins, on December 2nd of the same year. In September, 1882, Hon. John C. Schultz was created Senator for Manitoba.

On November 4th, 1882, the Emerson and North-western Railway Act, The Manitoba Tramway Act, and the General Railway Act of Manitoba, were disallowed by the GovernorGeneral in Council, on the ground that they contravened the terms of the contract with the Canadian Pacific Railway Company, and were opposed to the policy of the Dominion Government. The intelligence of this sweeping act of disallow- er M. Suthernor Couchon's reeded by the he same year. created Sena-

Torth-western the General he GovernorItravened the Railway Comominion Govof disallow-
ance was an unpleasant surprise to Manitoba, and created a storm of indignation among the impulsive of the population, who were either ignorant of, or chose to ignore, the " monopoly clause," as it was beginning to be called, of the C.P.R. contract. Indignation meetings were held at Emerson, Portage la Prairie, Brandon, and West Lynne, at which resolutions condemning the act of the Dominion Government were passed, and suggestions made as to the proper mode of procedure in combating the disallowance policy. Appeals to the Imperial Government was advised hy some of the speakers, while others wished a special session of the Legislature called for the purpose of re-enacting the vetoed acts. A few of the more collected pointed out that the only constitutional method of overcoming the difficulty was to agitate for the abrogation of the "monopoly clause" by amicable arrangement between the Dominion Government and the Canadian Pacific Railway Company. These were listened to with impatience, and their advice scoffed at by the majority.

In this condition of public feeling, Mr. Norquay deemed it advisable to dissolve the Legislature and appeal to the country, a course which was warmly applanded by his supporters.

## CHAPTER XXVI.

## PROGRESS OF MaNITOBA aND THE NORTH-WES'I.

Desprite the many formidable obstacles which stood in the way of their development, Manitoba and the North-West progressed with surprising rapidity from 1875 to 1880 . The: abandonment of the Dawson Road, as an immigrant route, diverted the whole stream of inmigration to the United States railways. The only existing means of ingress to the country from the eastern Provinces were, in summer, by rail to Collingwood, or some other lake port, steamer to Duluth, rail to Moorehcad, and steamer, via Red River, to Winnipeg; in winter, the route was, rail to Moorehead, and stage from there to Winnipeg. Either of these routes was inconvenient, expensive, and attended with more or less hardship.

The United States Government, and railway companies, 1 mployed every possible means to prevent the immigrants from passing through their territory. Every train had one or more immigration agents aboard, who extolled the advantages of the country throngh which they were passing, describing it as an earthly paradise, and told terrifying stories of Manitola, as a land of perpetual snow, where nothing grew, excepting icicles. The immigrant was invited to stop over at any puint he might wish, and visit, and judge for himself the fertility and productiveness of the soil of Wisconsin, Michigan, Mimpsota, or Dakota. and if none of these suited, he would h.n. taken, free of cost, to Kansas, Montana, or, in fact, any state.
of the Union that he expressed a desire to inspect. If the immigrant escaped these plausible gentry, he landed at Winnipeg, possibly when the roads were almost impassable from recent rains, to experience the disheartening effects of an alluvial soil, reduced to the consistency of soft soap, yet possessing the tenacity of tar, and to find that he must travel through many a mile of it before he could pick out his future home, all the land within a reasonable distance being locked up in Half-Breed and railway reserves. Many, encountering such a state of things, and remembering the voice of the charmer, which still echoed through the bewiddered brain, turned back, and settled in some neighboring State or 'Territory of the Union. It was an unfortunate thing for the new North-West that such drawbacks existed, and retarded the growth of the country more than it is possible to realize at this date. The freight rates were enormous at that period. In 1878, the following rates ruled from St. Paul, Minneapolis and Duluth to Winnipeg:-1st class, 100 pounds, $\$ 2.25$ : 2nd class, $\$ 1.90$; 3rd class, $\$ 1.60$; 4th class, $\$ 1.25$. Special rates on lumber, grain, live stock, ete. Car-load lots, Chicago to Wimipeg, S325: Hamilton and Toronto to Winnipeg, 8370.

Yet, though many of the faint-hearted allowed themselves to be lured away from their native land, deceived by the specious representatives of the railway rumer and land boomer, many thousands remained steadfast in their detemination to establish themselves in their own broad prairies, for, in 1878, the population of the country had doubled from what it had been in 1871 , and settlement was rapidly spreading westward heyond the boundary of Manitoba. Burnside, Westbourne, Gladstone, Grand Valley, Rapid City, Brandon Hills, Big Plains, Birt Tail Creek, Turtle Mountains, Fort Ellice, Touch-
wood Hills, Carlton, Prince Albert, Battleford, and Edmonton. had become the centres of prosperous settlements. In the south-west, the Boyne River, Rock Lake, Pembina Momitain, and other settlements, had sprung into existence, and nearer Winnipeg, Rockwood, Springfield, Sunnyside, Lorette, Rat River, Rosseau, Plympton, Cook's Creek, Woodlands, Balmoral, St. Laurent, and a number of others, had become the points d'uppui of flourishing communities. At the close of 1879 , farm houses and cultivated fields were in sight all along the main road for 250 miles west of Winnipeg. A little town hal been built at Prince Albert, 600 miles west, and the settlement around it required four threshing machines, working constantly for six months, to thresh the wheat-crop of that year. which found ready sale on the spot at $\$ 1.50$ to $\$ 2$ per bushel.

The Hudson's Bay Company had placed steamboats on the Red River, which plied between Lower Fort Garry and Graml Rupids, at the head of Lake Winnipeg, there a four-mile tranway transported the freight across the portage, where it was loaded on other steamers and taken up the Saskatchewan as far as Edmonton. The freight rates on this line were very high. The following table, adopted in 1880, was a modification of former years :

PASSENGER RATES.

d Edmonton. nts. In the a Mountain, , and neancr Corette, Rat ds, Balmoral, the points ose of 1879 , ill along the tle town had ne settlement vorking conof that year, :2 per bushel. boats on the y and Grimd ur-mile tranwhere it was katchewan as he were very us a modifica-

At Edmonton, a steam saw and grist mill had heen built, which was kept constantly employed serving the wants of the growing settlement. During the winter of 1879 , the settlers of White Fish Lake and Lac la Biche brought their grists on sleighs, 120 and 170 miles, to this mill. Prices of produce at Elmonton, in the winter of 1879-80, were:-Flour, $\$ 8$ to $\$ 10$ per sack; wheat, 52 to $\$ 2.25$ per bushel; barley, 75 e. to $\$ 1$ : oats, 3c. per pomd; potatoes, 75. per bushel ; onions, $\$ 2$; hay, $\$ 2$ to $\$ 3$ per load: beef, 10 e. to 12 c . per pound ; pork, 20 c . to 25 c .: butter, 50 c .; eggs, none. 'The telegraph line was completed to Edmonton in November, 1879.

Over a million acres were surveyel into quarter sections during 1879, and $1,115,075$ acres were entered as homesteads
and pre-emptions, a marked increase over former years; in fact the entries of 1879 nearly equalled the entire extent homesteaded and pre-empted in the four preceding years. Stock-raising on a large scale had begun to interest capitalists. Lord Elphinstone had sectured some 12,000 acres in the Riding Mountains, and was arranging to stock them with high grale cattle: and Senator Cochrane and others were contemplating the establishment of lig ranches in the foot hills and slopes of the Roeky Mountains.

The trade of the country was making rapid strides. On June 30th, 1878, the year's business was stated as follows:-

| Eastern Canada | $\begin{gathered} \text { Імиоитв. } \\ . \$ 1,374,311 \end{gathered}$ | Exponts. \$123,527 | $\begin{gathered} \text { Toral. } \\ \$ 1,489,138 \end{gathered}$ |

| Italy | -125 |  |  |
|  | \$2,545,421 | \$849,725 | \$3,395,146 |

On June 30th, $\cdot 1879$, Winnipeg stood ninth on the list of Canadinn cities as regarded the amount of daty collected. Camulian manufactures were replacing British and United States goods in the country, and the increase of trade with the Eastern Provinces became more important every year. 'lo show how largely the Eastem Provinces furnished gools to the North-West, it may be stated that the cargo of the steamer Liakota, frozen in at Pembina in the fall of 1878, was composed of 3,282 packages consigned to Winnipeg, and of these packages, 2623 eame from Eastern Canadn, 658 from the United States, and one from Great Britain.

The following table of imports of Camadian goods and prodace for three and one-half years, will further illustrate our stutement:-

| For year ending June 30, 1877 |  |  |  | ,018,1m |

| " | ${ }^{\prime \prime}$ | " | 1878. | 1,374,311 |
| " | " | " | 1879. | 2,260,085 |
| For half year ending |  |  |  | 1,178,682 |

Railrond construction had made Rat Portage n depôt for supplies, and a number of miners were attracted to the little town by the rich indication of gold and silver found in the vieinity. Lumbering, bont-building, tip-car hailding for the railway contractors, and the erection of the Keewatin Lumbering mad Manufncturing Company's large saw mills, gave employment to a large nmmber of men; stores and dwellings, hotels and bourling houses, were mumerous, and the place hecame an important business centre even before ralway eommmication was established. Selkirk East was also booming at that time, consequent on the railway construction, and her prospects were bright as the future railwny capital, but her anticipations were never realized, and she retrograded to the position of a way station, from which she is never likely to emerge: her rival, West Selkirk, having secured all the local trode of the district. Although vilhges were springing up in all directions, the only towns of importance, besides Wimnipeg, were Portage la Prairie, Emerson, and West Lynne. Rapid City. was ambitious, her citizens were organizing plans for ralways which would make the embryo eity a centre of erreat importance, but their plans failed to materialize; although Rapid City is to-day a flourishing comory town. Emerson and West Lyme were bitter rivals for supremacy in trade. Each longmor failway, and when they attaned their wish, strange
to say, their glory departed. 'Their positions precluded either of them ever becoming large towns. Wimipeg kept stendily advancing in wealth and prosperity. During 1878, her citizens expended $\$ 200,000$ in new buildings, although handicapped by the high price of lumber, cansed by the fnilure of the mill men in getting their logs out of the woods during the winter.

The winter of $1877-8$ was the most remarkable ever experienced in Manitoba. Instead of the usual snow and stendy, severe cold wenther, rain, fog, and mud prevailed. The rivers broke up early in Mareh, and mavigntion opened about the middle of that month. The musum meteorological conditions were attended by a great deal of sickness, and, fin from enjoying the mild wenther, the people deplored it, nod longed for their regular bracing, healthful winter.

The progress of education in Manitola and the North-West during the first ten years of their existence, was one of the most remarkable features of their development. In 1879 a new sehool act was passed by the Manitoha Leergislature, which provided for the estnblishment of a more complete system of schools. Under it th Tientenant-Governor in Comeil uppointed a Board of Education, not exceeding 21, of whom 1.2 were to be Protestnnts and !? Rommn Catholics. Four of the former and three of the latter were to retire annually, and others to be appointed in their places. One of the Protestant members of the Board was to be Superintendent of Protestant sehools, and one of the Roman Catholic members Superintendent of Roman Catholic schools, these Superintendents wer also to be Secretaries of the Board. The Superintendents, were to have geneml supervision and direction of the sebonk, and to present ammal reports of progress to the Lieutenant-
eluded either kept steadily 1878, her citirough handithe failure of ds during the e ever experi-- and stealy, 1. The rivers red ahout the eal conditions ur from enjoyai longed for

- North-West as one of the t. In 1879 a slature, which ete system of n Comeil ap. , of whom 12
Four of the annually, and the Protestant of Protestant s Superintentendents wer" perintendents, ff the schouls, he Lieutenaut-

Governor-in-Council. School trustees and inspectors were also uppointed, nud their duties defined. Two sections of land in every township were set npart for school purposes. In 1877, Manitoba devoted $\$ 8,000$ to education, $\$ 10,000$ in 1875 , and in 1879 the grant was increased to $\$ 18,000$, and although the litter may be considered a small sum to carry on an ndeppate: system of sehools, it must be remembered that the total income of the Province was then only 8125,000 . In December, 1878, there were sixty-two Protestmat schools in the Province. Returns from tifty-six schools showed an attendance of $1,92+$ boys, and 1,809 girls, or $n$ total of 3,733 . The Mennonites returned 414 hoys and 336 girls, or 750 chiddren attending school. The Wimipeg Protestant Schools, thre in mmber, returned $43: 3$ scholars on their rolls. When Manitoba was admitted to Confederation, two collages were in existence-St. Boniface, Rommn Cathoiie, and St. Johns, Church of Enghmel. In 1880, there were, in addition, Manitoba College, Presherterian; the Manitobn Wesleyan [nstitute, and St. John's Ladies' College. In the 'Territories, Emmanuel College hat been established at Prince, Albert by Bishop McLean. The University of Manitoba had leen founded, in which all the denominations united, as far as the Faculties of Art, Law, and Medicine were concerned, the colleges retaining their origiual powers of conferring degrees in Theology. The University of Manitoba conferred its first degree on June 9th, $\mathbf{1 8 8 0}$, when Mr. W. R. Gunn, of Manitoba, graduated as B. A. 'The C'niversity held its first public convocation in the City Hall, Winnipeg, on June 26th, 1881 . The degree of B. A. was conferred on Messrs. Betournay and Haverty, of St. Boniface College : McLennan and Kennedy, of St. John's College ; and Pulworth and Munro, of Manitoba College.

CHAPTER XXY'II.
the humbon's bay combayy as be-ormanyed fender the DEED POLL IF 187 I.

1. concluding the secoml volume of our history of the Korth-West, we deeln it alvisable to give anaccount of aftairs relating to the Hulson's Bay Company from the time of the Reteellion of 1869-70, down to the present. In doing this, we will not only have to retrace omr steps, but we will have to auticipate events which properly belong to the next volume. We have thought it best, however, to deal with the subject fully and completely at this time, as the Company, after the heed River Rebellion, assumed the character of a trading corprotion, and its functions ceased in a great measure to have any comection with the administration of affairs in the NorthWest. That the company, however, materially assisted the authoritics in many ways, and on many oceasions, in the work of orgaizing the machinery of govermment throughont the North-West, of suppressing lawlessness, and effecting satisfactory treaties with the Inlian tribes, will be shewn from time to time in the conrse of this history. Although in its, eommercial and corporate eapacity the company ecased to take any part in the govermment of the comitry, its great influenee with a large portion of the settlers, and with the Indian tribes, was always at the service of the Dominion, for the purpose of strengthening and securing its authority ; and its officers on many occasions rendered valuable aid in this respect.

In July, 1870, just one month before the entrance of Colonel Wolseley and the troops into Fort Garry, Sir Donald A. Smitl: presided at the last meeting of the comncil of officers heht at Norway House. At that meeting there were present the following :

| D. A. Smith, | - | - | - | President. |
| :--- | :--- | :--- | :--- | :---: |
| W. S. Christie, | - | - | - | Chief Factor. |
| Wm. McMurray, | - | - | - | $"$ |
| R. Campleell, | - | - | - | $"$ |
| Robert Hamilton, | - | - | - | $"$ |
| James G. Stewart, | - | - | - | $"$ |
| Bernard R. Ross, | - | - | - | Chief Trader. |
| Dr: Wm. Cowan, | - | - | - | $"$ |
| Thomas Taylor, | - | - | - | $"$ |

| Joseph Fortescue, | - | - | - | $"$ |
| Peter W. Bell, | - | - | - | $"$ |
| Wm. H. Watt, | - | - | - | $"$ |

and the business transacted was, in several cases, of a must important character. In addition to the question of participation by the commissioned officers in the payment of $£ 300,000$ to the Company, for a surrender of its rights which is noted in a later part of this chapter, the subject of suplying licuor to the Indians was dealt with, and it was resolven that so far as the Company was concemed it would he put a stop to. It was decided that representations on the subject should be made to the Dominion Govermment, and when, afterwards, in October, I870, Hon. Donald A. Smith, Julye Johnson, and Patrice Breland were appointed by Canada to act as the first Council of the North-West Tervitories, previous

hses, of a must tion of particie payment of ts rights which jject of supllyit was resolved would be put a on the sulyject nt, and when. Smith, Judge
by Camadia to itories, previous
to the formation of the Council of 1873 , referred to in chapter xvii, one of the strongest recommendations made by these gentlemen to the authorities at Ottawa was on the subject of preventing the sale or supplying of intoxicants to Indians. It was also at the suggestion of Sir Domald A. Smith that Capt. Butler was sent in 1871 to report on the condition of aftiairs in the North-West, which in some measure resulted in the passing of the Act of 1872 , to provide for the grovernment of the North-West Territories.

As already shown, the Hudson's Bay Company were heary losers by the Rebellion of 1869-70 as Riel did not hesitate to appropriate any goods, merchandise or property belonging to them to further his own ends and those of his followers. Not only this, but the Dominion Govermment was largely dependent on the Company for supplies at the outset, when taking possession of the comntry. The settlement of these clams was a long and tedious matter, made more so by the endeavors of prejudiced parties to show that the Hudson's Bay Company instigated and assisted the Riel Rebellion. The attempt thus made was absurd on the face of it, as the Company had everything to lose and nothing to gain by the insurrection. But it made the settlement of their claims all the more difficult to effect, and finally the Company abandoned them after much tedious correspondence and negotiation.

Throughout all the negotiations, and all the troubles arising from the desire of Canada to acquire possession of the NorthWest, there was much unfriendly criticism on the part of certain Canadians in regard to the Hudson's Bay Company, and its downfall was looked for, and on the part of some, no doubt, fervently desired.

Looking hack, however, to the letter of Governor Dallas in

I862 to the Canalian Govermment, in reply to their shgeres. tions to come to an arangement with the Hudson's Bay Connpany for the opening up of the North-West, the ohserver of the affairs of Camada to-day camot but be surprised with the fact that, despite the change which was then predicted as likely to lead to the extinction of the Hudson's Bay Company, the Company is still, as it then was, the most powerful tratu organization in the eomutry.

Mr. Dallas, doubtless, with the eamestness of comviction, after having referred to the opening up of the comatry as detrimental to the Compman's interests, in consequence of the destruction of the buffilo which would ensue, then wrote:
"The ohvious reasons against a partial surrender of our tervitories maly not apear suticiently ohvions to parties mot comversant with the trade of the comatry, but my knowledge of both. based on persomal experience, and from other somees open to me, point to the conclasion that partan concessions of the districts which must neeessarily be alienated, would inmertably leal to the extinction of the Company."

The traveller upon the line of the Canadian Pacitic Railway from Montreal to Vanconver-that stupendous systen that Chief Justice Draper hoped he might not be considered visionary for contemplating as being completed within his children's time-camot but have noticed the many beantifin stores, and the large trade interests which the Hudson's Bing Company possess throughout the country, which, instead of being, as it was in 1862, the home of the buffalo, is now setthed with prosperous and contented famers. The buttalo have a.ll disappeared, the Pemmican upon which the Company's penple in the interior then largely depender for subsistence, is now unknown: the entire territory, then solely ocenpicel ly

'acitic Railway os system that considered visrithin his chilbuny beautiful Hulson's Bay ich, instead of alo, is now setbe huttailo harw 'ompany's persubsistence, is ly occupied he
the Hudson's Buy Compmy, is now traversed by the steel band of the railway, and yot the Hudson's Bay Company is not only existent, but is a greater husiness institution, mo less prosperous than it then was.

It will be interesting to see how this state of affairs has been bronght about, hat it will first be necessary to revert to events of many years previous. The ontcome of the comlition of the Hudson's Bay Company and the North-West Company had been an agreement with the ofticers of the conjoined companies, wherehy the ofticers became practically partners with the shareholders. This arreement is known as the Deed Poll of $18: 34$, and moder it the eommissioned officers of the Company were still employed at the time when the transfer of the tervitory to the Canadian Govermment took phee.

The officers who had charge of the various distriets in the North-West ammally met in a Council for the regulation of the affairs of business for the ensuing year. Looking upon themselves as partners of the Company-they were, as show'n in previons chapters, designated "Wintering Partners"-the officers felt that they were entitled to participate with the shareholders in any amount that might be received for the cession of the territorial rights of the Company. Many of them had been the first explorers of parts of the country, and they held that they were entitled to share in the real estate as well as the business protits of the Company. When, therefore, the company had come to an agreement with the colonial otfice for a transfer to the C'madian (iovermment of their territorial rights, upon the payment of $£ 300,000$, the commissionel ofticers of the Company folt that they should receive a share of that amount.

In 1870, the conncil of otficers, to which we have already
referred, was held at Norway Honse, on Lake Wimipeg, an! it was recided to represent the claims of the officers to the Company in Englard. With this object, Mr. Smith (now Sir Donald A. Smith), who, as Governor at Fort Garry, was fres. ent at the council, was manimously appointed as representitive of the officers, and undertook the task of presenting their claims. The umtter was one which necessarily attracted n great deal of attention from the shareholders, and Sir Stafforl Northcote-who was then the Governor of the Company had to preside over some tronblous meetings of shareholders, who were unvilling to forego what they considered to be their property. The result of Mr. Smith's Mission, however, was, that compensation was given to the officers for the relinguishment of their chims, and the sun of $£ 107.000$ was divilend amongst them, and a new agreement, called the Deed Poll of 1871, was entered into. The officers felt that to the judgment and discretion of Mr. Donald A. Smith was due the just recognition of their chams, and when he returned the following year, presented him with $n$ valuable testimonial of their esteem.

In November, 1871, Sir Stafforl Northcote, in his report to the shareholders, says:
"Since the holding of the General Court on the 28th June, the committee have been engaged in proceeding with the reorganization of the fur trade, and have entered into an agresment with the Chief Factors and Chief Traders for revoking the Deed Poll of 1834 , and settling elaims arising under it upon the terms sanctioned by the proprietors at the last (ieneral Court. They have also prepared the draft of a new Deed Poll, adapted to the altered circumstances of the trade."

This may be considered as the commencement of ancolher erat

of ancherema
in the history of this old Company, und to the judicions management which was given to its affairs then may be attributed much of its present properous condition.

Mr. Donald A. Smith, in 1871, was appointed Chief Commissioner of the Company, under the new Deed Poll, and had assumed the control of affairs at Wimnipeg, and in the published report of the Company, of June, 187:3, we tind that the Governor states "that the committee have not failed to instruct their officers to render every nssistance in their power to the Candian Govermment in all measures adopted, with a view to the development of the resources of the country, feeling that the interests of the Company are in this respect identical with those of the Government." That these instructions were carried out may be fully realized from contemplating the present business and position of the Company. The process of change from that of a purely Fur-trading Company, dealing almost exclusively with Indians and Esquimaux alone, to a modern store-keeping, wants of settlers, and in the institution, supplying all the cities and towns even the fashions of to-day, has been a gralual and mobtrusive one, and appears to have resulted from the aloption of the policy which was recommended in the above-mentioned report.

The Company has by no means ceased, however, to be the largest fur-trading company in the work, and their annual sales in London, held each Jamuary amd March, are as important as ever, and attract, as they did formerly, buyers from all parts of the world. The posts of the Company extend from the rocky shores of Labrador to the western boundary of Canada, on the Alaskan frontier of the Cnited States, and throughout the whole of this immense extent of country they largely control the trade of the natives. The Aborigines,
whether Chipewym, Lonchenx, (ree, Saultemns, or Cisquimanx, still look to "the Compmy" For their main means of support, and the Hudson's Bay Company's ofticer in the interior, is still, as for 225 yems, the praction governor of the dintriet under his command.

There are no fewer than 126 stations at which purely fintrade is still earried on, while, in addition to these, there arm wintering stations, or outposts, which are changed according to the eireumstances and conditions of the trade. A list of the present posts is given, and it is emrions to observe how fow of them are named after individnals. 'The modesty of the explorers of this vast Dominion is demonstrated by the absencer of their momes from the nomenclatme of the posts and stations they established:

At most of these places to-day ean still be found many of the customs and modes of trade of two and $n$ quarter centuries ago. Still, as then, the Indim trade is done by barter, the "skin" or "Made Beaver," is the medimn of exchange, and the prophecy that this timde wonld be extinguished if the fertile helt of the North-West were opened for settlement has been refinted.

Along the line of milway, however, and wherever there is any important settlement, can be fomm another class of business being done by the Hudson's Bay Company. Stores which would he an ormament to the principal streets of the largest eities in the world may be seen at all the large towns in the west, and the farmer, miner, lady of fashion, or the man of basiness, can ench be supplied with all possible wants.

Of these saleshops or stores there are thirty-one, and the following is the list:-

Thus we see that while on the one hand there in still earreed on amid the almost impenetrable wills of the far North, a business of the same kind that existent when Charles the Second was King of Ferglam, on the other hand is a trade of the most modem and progressive character, calling for all the tact and skill that the competition of the day renders necessars. This evolution is a most remarkable one, and says mach for the management and disecrmment which was evercised at the time when the important change in the Company's attiairs, to which we have just referred, was brought about. Probably no company or corporation has aver been more faithfully and zealously served. The cooperative principle which existed between the officers and the shareholders, which has been already explained, had of come a great deal of inHance upon the relations of employer and employed. There was, however, a deeper principle than this that brought about this faithfulness of service-the force of example. Scotch perseverance and tenacity of purpose, English determination, were represented mong the pinecipnl of the officers, for the
selection was carefully made of the lads who were sent from the (Ohl Comntry to enter the sorvice as apprentice clerks, and who all, like the French soldior who carries the haton of a firld marshal in his knapsack, aspired to become commissionmal officers.

Alter Cine transfer of the comatry to the Dominion (iovertment. the Hurson's Bay Company, as already mentionet, coased to he the goverming institution it had hitherto been. It now beeme simply a private trading corporation, with a capital of $£ 1,700,000$, with an interest in one-twenticth of the land within the fertile belt, and with its trading stations scattered from the Atlantic to the Pace "ic, from the United States boundary to the delta of the vast McKenzie River, where it enters into the Aretie ()cems
'The history of the Company from that time to the present is, howevor, still not devoid of interest, and we will return to that period when the new agreament was entered into with the commissioned otticers. Hitherto, the only ranks hat been those of Chief Factor and Chief Trader. There were now created two new grades of officers, and they were called respectively, Chief Factor, Factor, Chief 'Trader, and Iunion Chief Trater: With the exception of not participating in the profits arising from the salle of hands, the conditions of the new agreement were practically those of the old. 'The effect. however, of the change was that many of the older otficers having retired, the creation of more grades permitted the appointment of a number of yomger men, who were able to mapt themselves to the altered circmastances of the country and the impending changes of the trale.

The published report of the Company for July, 1871, show that a considerable loss on the tonde was incurred. The report groes on to state:-
" This very unsatisfactory result is due to several canses, of which the most prominent is the loss of property dming the distmpances at Red River, which has affected the accomnts to the momont of about $\mathfrak{t : 3 0 , 0 0 0}$. A elain for compensation has been presented to Her Majesty's (iovermment of the Dominiom of Camada, and is still moder consideration, but as eret the Commitiee have not reediod any satisfactory answer to the representations which they have mande upon this sulyect, and upon the Company's cham to interest $\quad$ yom the purchane money withheld by the Dominion, from the Ist December. 1869. till the 11th May, 1870 ."

After repeated endeavers to olitain a settlement of these dams, the (ompany whs compelled to ahamlon them, mul they will thens be seen to have been very sulnstantial hosers by the actions of Riel and his followers.

It is interesting to notice, in 18 I , the first of Mr : I). A. smith: regime as Chief Otficer of the Company, that this is the gear when the use of stemers upon the hakes and rivers of the North-West Territories was tirst projected. The allvance in this respect sinee that time is remankable. With the exception of a short jomrney of 100 miles from bhmonton to the Athabasea River, it is now possible to go be stran throngh Cimarlian 'Cerritory from the Athantic lowder mon the Aretie ()ceatil.

Across Lake Wimineg to the Cimal liapirls, at the senth of the saskatchewan, there are continnously plying steamers. These have succeeded the Colrille. which was the first beat propelled by steam phaced upon thesi waters. Prom (irami Rapids along the winding chain of the Saskatelewan, a dis-
 the Mississippi type, wends her way: 'The waters of the Sis-
katchewan, however, are somewhat treacherous, and when most ne 'ed are sometimes conspicuous by their absence, and the railway aftordi a more reliable means of reaching Elmonton. From Athabasea Landing, about 100 miles north of Eilmonton, there is almost continnous communieation, broken only by the large rapids, that it has been found impossible to surmount. 'The Athabescre, a stern-wheel steamer, plies as far as the Grand Rapids, on the Athabasea River: helow that, to Fort Smith, the steamer Grahome, another stern-wheeler, is employed, and from that point to the mouth of the Mekenzie River, the steamer Wrigley makes an amual trip, and carries the provisions and supplies upon which the residents of the distant country are dependent.

In 1872, a decided improvement in the results of the Company's aftairs was shown, which for some time this contimed. and the Company, it may be mentioned, received this year from the United States Govermment the balance of their claims on account of the Oregon matter.

Attention was now given to the transportation of goods from England by way of the United States, and the passing of the act by which powers were given to the Dominion Government for the construction of the Camadian Pacitic Railway, gave an impetus to trade that the Company were not slow to take advantage of in the re-organization of their business. During this year the first sales of land of the Company's Reserve at Fort (inry were made, and we find that 91 lots were disposed of for the anount of $\$ 76,300$. An agreement was also come to with the Dominion Goverument for the selection of the lambs assigned to the Company under the Deed of Transfer. Onetwentieth of each township as surveyed belonged to the Company, and to facilitate the selection, it was arranged, sulject to
and when sence, and ng Elmonorth of Eil ion, broken possible to plies as fur ow that, to -whecler, is e McKenzie and carries lents of the

s Reserve at ere disposerel also come to of the lands asfer. Oneto the C'oml, suliject to
certain other provisions, that Sections 8 and 26 shonld be designated as the Hudson's Bay Company's portion: allowance, of course, being male in alternate townships for the fractional portions necessary to make the amome allotted the one-twentieth agreed upon.

Juring this year, Mr. James A. Grahame, an officer who hat long been connected with the Company, mainly in British Columbia, and who had conducted the affairs of the Company there during the Oregon troubles, was uppointed Sub-Commissioner, or Assistant to Mr. Domald A. Smith,

The Indian disturlmuces in the United States now cansed considerable anxiety to the Company, but the steps taken by the Canadian Govermment, and the good-will generally felt towards the Company by the Indinns, sased them from any loss. There is a circumstance related of a traveller across the plains from St. Paul to Fort Garry, whom it was attempted to dissuade from the journey, on account of the danger of attack from the marauding Sious. He started, however, with no other protection than the Union Jack, with the letters "H. B. C." upon it, mailed to his cart. Some one has told in verse what happened when the Intinns came up to him:

> But when they seen that littie flag A-stickin' on that cart,
> They jes' said, "Hud:on Bay, go on ; (Good 'Trmer with (iood heart."
> Jes' this, and Injuns knowed it, That whar them cullers Hew
> The men that lived heneath them Was mostly straight and true.

And here it may not be amiss to say a few words with regarl to the policy of the Hudson's Bay Company towards the Indians, that had enabled so many of their officials to lead isol-
ated lives among all the different tribes of the country, with so few cases of loss of life or disturbance as have occurred during the long perior they have been trading with the Indians.

Much has been said and written about the fabulous profits which in former days werespposed to have heen made in Indian trading. Undoubtedly there were big prices charged, but there were also heavy expenses: however, the secret of the sumcess of the Hudson's Bay Company's management of the ladians lay in the fairness and justice which were always exereised. The system of goverment was a paternal one, and it was recognized that the success and prosperity of the ludians was in the immerliate interests of the Company. When competition between the rival companies had been done away with every effort was made to abolish the use of liquor among. the Indians, and we may again quote from the standing Rulen and Regulations of the Service as follows:
"'That the Indians be treated with kindness and indulgence, and mild, conciliatory means resorted to in order to encomrage industry, repress vice, and inculcate morality: that the use of spiritnous liquors be gradually discontinued in the fow districts in which it is still indispensable, and that the Indians be liberally supplied with the requisite necessaries, particularly with articles of ammunition, whether they have the means of paying for them or not."

As far back as 1849 , althongh this was by 110 means the tinst assistance that had been afforded to the canse, we finl the Company assisting missions in the interior for the dittinsion of Christianity and civilization anong the natives of the country.

This benevolent and careful treatment of the Indians hats done much towards rendering easy the task of the Dominion
mutry, with curred dur the Indians. alous protits mate in 11 charged, hut of the suret of the lnalways exal one, and , of the latmay. When a done away iquor :mong mding" Rules

Government in making treaties with them, and the present government of them.

1874 saw the completion of the first steamer on the Saskatchewan. This hoat was named the Northcote, after the Right Honorable Sir Stafford Northeote (afterwards Earl of Ildesleigh), who had been Governor of the Company at the time of the inception of the enterprise. After a long and useful carcer, this boat gained for itself fame, as will be shown in a subsequent chapter, in rumning the blockade on the South Saskatchewan at Batoche during the rebellion of 1885 . Riddled with bullet holes, she still, however, for some time continued to be of service, but is now no longer in commission.

A change in the English Ministry having taken place, and the Conservatives having come into power, Sir Stafford Northcote joined the Cabinet and resigned the Governorship of the Company, and that position was now filled by the Right Honorable George J. Goschen. During this year also, Mr. Donald A. Smith, owing to his parliamentary and other duties, gave up the position of Chief Commissioner so far as the control of trade matters was concerned. In this he was succeeded by Mr. James A. Grahame, but Mr. Smith still retained the management and control of the Company's land affairs, and continued the derpest interest in the welfare of the Company. The attention of the Company was being given energetically to the development of their landed interests and to the extension of their general trade, as the country was being opened up, and we find in 1875 the shareholders are advised by the Governor and Committee that "the officers are availing themselves of opportunities, as they arise, of extending the general business of the Company, the prospects of which are expected to improve with the progress of settlement and the extension
of railways." Further on, referring to the projected Camadian Pacific Railway, they state: "The construction of this latter line cannot fail to have a beneficial effect on the value of the Company's town lots at Fort Garry." It appears, therefore, to have been fully recognized that the settlement of thr country and the construction of the rilway could not but $l_{\text {w }}$ of material assistance to the Company in the extension of their business, and although the depression of trade, from which almost all branches of commeree and industry were then sulfering, affected them considerably, their efforts were not rlaxed in helping to build up the North-West.

Negotiations with the Dominion Govermment for the purchase of the landed interest of the Hudson's Bay Compmy were about this time frequently referred to, but it was consillered advisalble not to continue them, and public reference t" them was not deemed expedient. The affairs of the Compmy indeed appear to have gone on with varying suceess according to the condition of the times, and no events of any importance oceurred until in 1879 Mr . Donald A. Smith resigned his otlicial comection with the Company, when we learn from the public reports of the committee that in accepting his resignation, in consequence of his requiring more time to attend to his private affiairs, they referred to the many important arrangements in which he lad taken part, and expressed to him a sense of the fidelity which he had displayed to the general interests of all concerned. The services of Mr. Charles J. Brydges, a gentleman who had long been connected with the Intercolonial and Grand Trunk Railways, were then secured as the successor to Mr. Smith as Land Commissioner of the Company.

e St. Paul, Min-
neapolis and Manitoba road at Pembina was now completed, and there was then direct commoniontion by rail between Manitoba and Ontario, the result of which was the commencemend of that speculation in real estate in Winnipeg and the North-West that culminated in the early part of 1882, and which was known as "the boom." The Company received and were able to return to the shareholders during this period no less than $\mathfrak{f} 400,000$, which being applied in reduction of the subscribed capital brought the amount of it down to $£ 1,300$,000, at which it now stands.

In 1880 the retmon of the Liberals to power in England caused the vacation again of the Governorship of the Commany. Mr. Goschen resigned the position he had for several years occupied, and was succeeded by Mr. Eden Colville, who had formerly resided in the North-West as Governor of Assiniboia, and one of his first acts was to revisit the Dominion, and enquire for himself into the changed condition of affairs. Mr. Colvile's family had for generations been competed with the Hudson's Bay Company, and his father had also previously filled the position of Governor of the Company.

In 1881 the Company assisted materially in the construetimon of the bridges across the Red River and Assiniboine River at Main-street in Winnipeg. A company called the Red River amd Assiniboine Bridge Company being formed, the Hudson's Bay Company took an interest in the enterprise to the extent of $\mathfrak{£ 5}, 000$.

This year was also a memorable one in regard to old Fort Garry, as it saw its final vacation by the Hudson's Bay Compuny and the occupation in its stead of the present premises which stand on the comer of York and Main-streets, and comprise great retail and wholesale stores, making altogether one
of the hanlsomest blocks in Wimnipeg, if not in the whol. North-West.

The historical recollections of the old fort and its many buildings were many. Nearly every event of importance in connection with the country has been discussed or carried on within its four walls, but the resistless tide of progress demanded that sentiment and recollection should give way before the necessities of business. Many of the buildings of that historic enclosme still remain in the city of Wimnipeg: the greater part of them were removed to the junction of the Rem and Assimiboine rivers, where they serve as warehouses for the Company's mill, appropriately known as the Fort Garry Mill. Some of them were sold and removed to other parts of the city, where, reclad and painted, they are not recognizalle as ever having formed part of such a quaint and comparatively formidable looking place as Upper Fort Garry.

Quietly pursuing its business course through the usual ups and downs of commercial existence, no event of importance transpired so far as the Hudson's Bay Company was concerned until 1885, when the Second Rebellion of Riel, with which we deal separately, took place. It should be mentioned, however, that in the meantime, in the year 1884, the company had accepted the resignation of Mr. James A. Grahame, and had appointed Mr. Joseph Wrigley, formerly president of the Chamber of Commerce at Huddersfield, as trade commissioner of the Company.

The sudden outbreak of the Rebellion, and the battle of Duck Lake, in March, 1885, called for speedy and decisive action on the part of the Dominion Government, and they appealed to the Hudson's Bay Company to render assistance in forwarding troops to the scene of trouble. The whole resources of the

battle of Duck five action on ey appealer l to ce in forwardresources of the

Company were promptly placed at the disposal of the Covermont, and as an instance of the completeness of the organzadion of this vast concern, it may be stated that within 48 hours from the time of receiving the request to furnish assistane, transport and provisions for the 90th (Winnipeg) Rifles were provided at Qu'Appelle station, 324 miles west of Winnipeg. When it was found, however, that more troops would be required, the resources of the company were heavily taxed, but nevertheless they continued to supply all the commissariat and transport until the whole of the 5,000 men who were eventually in the field, had been taken to and brought back from the scene of action. It was the proud boast of the Compang that not a single officer in their service had personally benefited to the extent of one cent from the large sums of money that passed through their hands, which, considering some of the circumstances afterwards brought to light in connection with the Rebellion, was something to be proud of. 'To the promptitude and energy of the officers of the Company may be attributed much of the success in the suppression of the Rebellion and the prevention of its spreading, as was at one time much feared, among the larger tribes of Indians scattered throughout the other parts of the North-West Territories.

Although some of the Company's people-especially Mr. W. J. McLean and his family-underwent much: hardship and privation in being taken prisoners by the rebels, and being compelled to accompany them for many weeks at the worst season of the year, through the wild and uninhabited country that lies to the north of the Saskatchewan, still, it is n remarkable and noteworthy fact that, though exposed to the utmost danger, not one of the Company's employer lost their
lives during the rebellion. Severnl of the Company's 1 nnts, howevar, notably those of Carlon, Green Lake, Fort Pitt, Victorin (Alberta), and Lac La Biche, were mided, and oithor partinlly or wholly destroyed. The (iovermment, howerer, recognized the justice of the Company's chams for the lasses they hud inenred, and a settlement of them was soon effereted. The amome paid ly the Dominion (iovermment was but the cost of the gools at the varions points pillaged by the rehels, and the Company had to forego whit they eonsidered they were justly entitled to, viz, the protits they would hase heron emabled to carn hat the goods not been lost and destroyed.

In 1887 the Commissioner summoned to Wimnipeg for his assistance and guidnnce, and for considering the affiais of the Compmy mad regrolating the business gencrally, the Chidf Factors and Factors of the Company. From the the fiar-otf Mekenzie River, from the shores of Lalnador, from the pinnclad hills of Caribo, from Hudsonis Bay, and from all the furthest points of the Dominion of C'anala, came together these men, who, many of them, had passid a life-long perioul in the service of the Company. Old friemtships were renewed, many who had not seen one another for years revivel old recollections together, mal talkel of the time when they "came out," referring to the leaving of the Old Country, iml the passage in the Compmy's ship to York Factory. Minn were the important business conferences, and much was domb towards the promotion of the Company's interests, and the bringing of its affinis still further into keeping with the allvancement of the times.

A pleasing incident towards the termination of this council, and one which afforled much gratification to all concermod. was an invitation from the president of the Camalian Pacitic
pmy's junts, e, Fort Pitt, d, and aithur nt, howerer, for the lonseres soon effiecterl. was but the $y$ the roliels, nsidered they lad have been lestroyed.

this ('omeil, ll eoncermed, allian Pacitic

Railway Company to the ofticers assembled to take a trip ovel the line of the railway then recently eompleted. This was given in recognition of the assistance to the enginers-rspecially those who projected the line-which many of the otlicers hul been able to atford. Several availed themselves of this invitation, and were embled to realize for themselves what, in their younger days, when the canoc of sir (ieorge Simpon from Lachine made its one ammal trip to the North-West, must have seemed almost like a hrean of impossibility-that one could now trace from one end of this vast Dominion of Camada to the other in six days. Death has lail its heawy hand upon many of those who wre then present at this conference, which was unique, not only as to the character and experience of the men who formed it, but remarkable on account of the tremendous distmens which some had travered to be present.

The Honorable Richard Harlisty (Semor for Alberta), Lawrence Clark, and the genial Honce Belanger, men whom to know was to respect and admire, have all grone. Few have travelled throngh the North-West ami have not known them. 'They hal passed their lives in the Company's service, and were the fathers of the parts of the country in which they lived. Their places will be tilled, a younger gemeration will replace these old and faithful servants, but, if the Company be as truly and honorably servel in the future as it has been in the past, it cannot but receive that success it deserves. Some may look upon the former methods of the Company as slow and old-fashioned, but he who would panse and consider through what changing times, through what marvellous eas of the world's history, this Company has existed, cannot but be impressed with the regularity and ease with which its gigantic
operations were carried on, and how wonderfully the changew that have been made in its modes of business have been effecterd.

It will be a fitting conclusion to this chapter to record the uppointment in January, 1889, of Sir Donald A. Smith, to the Governorship. Mr. Colville, his predecessor, had resigned on aecount of ill health, and Sir Donald succeeded to the highest position in a company which owed him a life service, during which he had done much on numerous ocensions to guard its interests and the welfare of those connected with $i t$, and his succession to the Governorship was a source of genuine gratification to all connected with the service.

Mr. C. C. Chipman was appointed Commissioner of the Company in 1891, and is the chief Executive Officer of all 1)epartments of the Company's affairs. He is widely known throughout Canada, and his administration of the affairs of the company has been favorably commented upon, and there is every reason to hope that, despite the many necessary changes which the advancement of the age makes compulsory, the prosperity of the Company under the Govenorship of Sir Donald A. Smith will continue to increase.

We will conclude with a remark of Sir Donald A. Suith's to the shareholders at the meeting held in London, in 1894 :-
"I have great pleasure in saying to you that, while you ure now in your 225th year of Incorporation, never, I believe, during the whole course of that long time have you been served with more zeal and ability than you are now being served by your Commissioner, and the officers acting under his orders."

## Hubson's lbay Company's Demb of siremenher: 1869.

The Governor and Company of Adventurers of Fingland. trading into Hudson's Bay, to Her Majesty Queen Victoria.
'I'o all whom these presents shall come nuto, or concern, the (iosemor and Compmey of Alventurers of England, trading into Hudsoui: B:as, send greeting.

Whermas the said Governor and Company were established and inenrforated by their said name of "The Governor and Company of Adwrie turers of Finghand, traling into Hudson's Bay," by letters patent granted by his late Majesty King Charles the Secomb, in the twenty-secomil yen of his reign, wherely His said Majesty granted untu the said Conlomy atul their successors the trade and commerce of all those sens, st mits, bays, rivers, lakes, ereeks and sounds in whatsoever latitnde thev shumb he, that lay within the entrance of the straits commonly ealled Hulsonis Straits, together with all the lands and territories upon the comitries. coists and contines of the seas, lonys, lakes, rivers, creoks and munds aforesnid, that were not alrealy aetually possessed by, or granted to, any of His Majesty's subjects, or possesserl by the subjects of :my other Christian Prince or State, and that the siaid land should be from thenceforth reekoned and reputed as one of His Majesty's plintations of colonies in America, called Rupert's Lamd : aml wherely His snid Majesty maine and constitnted the satid Gwemor and Comp:ay, and their successors, the absolute lords and proprietors of the same territory, limits and places aforesaid, and of all the premises, saving the faith, allegiance and susereign dominion due to His said Majesty, his heirs and snccessons for the sume ; and granted to the snid Governor and Company and their sucees-
sors such rights of government and other rights, privileges and libertien, franchises, powers and authorities in Rupert's Land ns therein expressel. And whereas ever since the date of the said lettera patent, the said (Gosernor and Compmy have exercised and enjoyed the sole right thereby granted of such trade and commerce as therein mentioned, and have exercised and enjoyed other rights, privileges, liberties, franchises, powers and authorities thereby granted ; und the said Governor and Company have exereised or assumed rights of govermment in other parts of British North America not forming pirt of Rupert's Land, or of Canada, or uf British Columbia. And whereas, by the "British North American Aet. 1867," it is (annongst other things) enaeted that it shall be lawful for Her Present Majesty Queen Victoria, by and with the advice aud consent of Her Majesty's Most Honorable Privy Council, on address from the Houses of Parliament of Cumadn, to admit Rupert's Land and the North. Western Territory, or either of them, into the Union of the Dominion of Canada, on such terins and conditions as are in the address expressed, and as Her Majesty thinks fit to approve, subject to the provisions of the satid Act. And whereas, by the "Rupert's Land Act, 1868," it is enacted (amongst other things) that for the purposes of that Act, the term" Rupert's Land" shall include the whole of the lands and territories held or clamed to be held by the said Governor and Company, and that it shall be emmpetent for the said Governor and Company to surrender to Her Majesty, and for Her Majesty, by any instrument under Her Sign Manual and Signet, to accept a surrender of all or any of the lands, territories, lights, privileges, liberties, franchises, powers and authorities whatsoever, granted or purported to be granted by the said lettere patent to the said Governor and Company within Rupert's Land, upon such terms and conditions as shall be agreed upon by and between Her Majesty and the sail Governor and Company ; provided, however, that such surrender shall not be accepted by Her Majesty until the terms and conditions upon which Rupert's Land shall be admitted into the said Dominion of Canadia shall have been approved of by Her Majesty, and embodied in muddres, to Her Majesty from the Houses of the Parliament of Canada, in pursuance of the 146 th section of the "British North America Act, 1867 ;" and that, npon the acceptance by Her Majesty of such surronder, all rights of govermment, and proprietary rights, and all other privileges, liberties, franchises, powers and authorities whatsoever, granted or purported to be granted by the said letters patent to the said Governor and Company within Rupert's Land, and which shall have been so surrendered, shall be ahsolutely extinguished ; provided that nothing in the said Act contamed shall prevent the said Governor and Company from eontinuing to carry on in Rupert's Land, or elsewhere, trade and commerce. And whereas, Her said Majenty Queen Victoria, and the said Govermor
and liberties, ein expressel. the said (ios. right thereby and have exerchises, powers and Company arts of British Canada, or uf American Act. lawful for Her ud consent of ress from the and the Northe Dominion uf ress expresserl, ovisions of the " it is enacted he term" "Rucituries held or nd that it shall render to Her er Sign Manual ds, territories, ies whatsoever, ent to the said terms and conty and the sail urrender shall onditions $u^{6,11}$ hion of Canada d in an address rada, in pursu. a Act, 180\% :" surrunder, : ill her priviliges, ranted or purGovernor anll een so surrenhing in the said many from conmad commerce. said (iovermor
and Company have agreed to terms and conditions "pon which the said Governor and Company shall sirrender to Her said Majesty, pursuant to the provisions in that behalf in the "Ruperts Land Act 1868," contained, all the rights of govermment, and other lights, privileges, liberties, framehises, [wwers and authorities, and all the lands and territories except and subject as in the said terms and conditions expressed or mentioned), granted or purported to be granted by the said letters patent, and also all similar rights which have been exercised or assumed by the said Govertoor and Company in any parts of British North America not forming part of Rupert's Land, or of Canada, or of British Columbia, in order and to the intent that, after such surrender has heen effected and accepred under the provisions of the last-mentined Act, the said Rupert's Land may be admitted into the Vnion of the Dominion of Camada, pursuant to the hereinbefore mentioned Acts or one of them. And whereas the said terms and conditions on which it has been agreed that the satid surrender is to be made by the said Governor and Compny (whore in the following artieles designated as the Company), to Her said Majesty, are as follows, that is to say : -

1. The Canadian Gevermment shall paty to the Company the sum of £ 300,000 sterling, when Rupert's Land is transferred to the Dominion of Canuda.
2. The Company to retain all the posts or stations now actmally possess ed and occupied by them, or their otticers or agents, whether in Rupert's Land or any other part of British North America, and may within twelve months after the neceptance of the said surrender, select a block of land mljuiaing each of their posts or stations, within may purt of British North America, not eomprised in Canala and British Cohmahia, in confonmity, except as regards the Red River territory, with a list made out by the Company and communicated to the Canadian Ministers, being the list in the annexed schedule. The nctual survey is to be proceeded with, with all convenient speed.
3. The size of each block is not to exceed in the Red River territory an amount to be agreed upon between the Company and the Governor of Canada in Couucil.
4. So far as the contiguration of the country admits, the blocks shall front the river or road by which means of access are provided, and shall he approximately in the shape of parallelograns, and of which the frontage shall not be more than half the depth.
5. The Company may, at any time within fifty years after such accept. ance of the said surrender, claim in any township or district within the fertile belt in which land is set out for settlements, grants of land not exceeding one-twentieth part of land so set out, the blocks so granted to be
determined by lot, and the Company to pay a ratable share of the surrey, not exceeding cight cents Cbondim an acre. The Company may defer the exercise of their right of claiming their proportion of each townslip or district for not more thme ten yeurs after it is set out, but their claim must be limited to an allotment from the lands remaining unsold at the time they declare their intention to make it.
6. For the purpose of the hast article, the fertile belt is to be boumbed as follows:-On the sonth by the United States boundary; on the west by the Rocky Mountains; on the north by the northern branch of the Saskatchewan Rirer ; on the east by Lake Winnipeg, the Lake of the Wiods, and the waters comecting them.
7. If my township shall be formed abutting on the north bank of the northern branch of the Saskatchewan River, the Compmay may take their one-twentieth of any such township, which, for the purposes of this article, shall not extend more than five miles inland from the river, givin! to the Canadian Dominion an equal quantity of the portion of land coming to chenn of townships established on the sonthern bank of the said river.
8. In laying out any public roals, cmabls, or other public works, through any block of land reserved to the Company, the Canadian (iovernment may take, without compensation, such land as is necessary for the purpose, not exceeding one-twenty-fifth of the total acreage of the bluck ; lut if the Canadian Government require any land which is actually under cultivation, which has been built upon, or which is necessary for giving the Company's servants access to any river or lake, or has a frontage to amy river ur lake, the said Government shall pay to the Company the fair value of the same, and shall make compensation for any in. jury done to the Comprany or their servants.
!. It is understood that the whole of the land to be appropriated within the meaning of the last preceding chuse, shall be mpropriated for public purposes.
9. All titles to land up to the eighth day of March, one thousiund eight hundred ind sixty-nine, conferred by the Compmey, are to lie confirmed.
10. The Comprany is to he at liberty to carry on its trade without hind. rance in its corporate capacity ; and no exceptional tax is to be placed on the Company's land, trade, or servants, nor any import duty on goods introluced by the said Compring previously to such acceptance of the said surrender.
11. Canada is to tako over the materials of the electric telegraph at cost priee ; such price including transport, but not including interest for money, and sulject to a deduction for inscertained detorioration.
12. The Conpany's claim to land muler an agreement of Messis Vankoughnet and Hopkins is to be withdrawi.
13. Any clains of Indians to compensation for lanls requirerl for purposes of settlement shall be disposed of by the Camadian Govermment in commmication with the Imperial Govermment ; and the Company sluall be relieved of all responsibility in respeet of them.

And whereas the surrender heremafter contaned is intended to be made in pursuance of the agreement. and upon the terms and conditions hereinbefore stuted.

Now know ye, and these presents witness, that in pmsuance of the powers and provisions of the "Rupert's Land Aet, 1868," and wh the terms amd conditions aforesaid, and also on emolition of this surrender being necepted pursuant to the provisions of that Aet, the said Governor and Company duhereby surender to the Queen's Most Gracious Majesty all the rights of Govermment, and wher rights, privileges, liberties, franchises, powers and authorities, granted, or purported to be granted, to the said Governor amt Company by the said recited letters patent of His lato Majesty King Charles the Sceome ; and also all similar rights which may have been exereised or assumed by the sain Governor and Company in any parts of British North America, not forming part of Rupert's Lame or of Canada, or of British Colmobia, and all the lands amd teritories within Rupert's Land (except and subject as in the said terms and conditions mentioned) granted, or purported to be granted, to the said Governom and Company by the said letters patent. In witness whereof, the Governor and Company of Adventurers of England, trading into Hudsm's Bay, have heremnto cansed their common seal to be aftixed, the ninctenth day of November, one thousand eight hundred and sixty nine.

No. 6.
The Qu'Appelle Treaty, Number Four.
Aktules of a Treaty made and concluded this fifteenth day of september, in the year of our Lord one thousand eight hundred and seventyfour, hetween Her Must (iracions Majesty the Queen of Great Britain and Ireland, by Her Commissioners, the Honorable Alexamber Murris, Lieutenant-Governor of the Province of Manitoha and the NorthWest Territories, the Honorable David Lairl, Minister of the Interior, and Wiiliam Joseph Christie, Esi., of Broekville, Ontario, of the one part ; and the Cree, Saulteaux and other Indians, inhalitants of the territory within the limits hereinafter d tined and described, by their Chiefs and head men, chosen mid named as horeinafter mentioned, of the other part.

Whereas, the Indians inhabiting the said territory have, pursuant to an appointment made ly the said Commissioners, been convened at a meeting at Qu'Appelle Lakes, to deliberate upon certain matters of interest to Her Most Gracious Majesty, of the one part, and the said Indians of the other.

And whereas, the said Indians have been notified and informed by Her Majesty's said Commissioners, that it is the desive of Her Majesty to "pen up for settlement, immigration, tride, and such other purposes as to Her Majesty may seem meet, a tract of country bounded and describel as hereinafter mentioned; and to obtain the consent thereto of Her Indian subjects inhabiting the said tract; and to make a treaty and arrange with them so that there may be peace and good will hetween them and Her Majesty, and between them and Her Majesty's other subjects ; and that her Indian people may know and be assured of what allowance they are to count upon and receive from Her Majesty's bounty and henevolence.

And whereas, the ludians of the suid traet, duly emvened in conneil ats aforessial, and being rentuested by Her Majesty's said Commissioners to name certain Chiefs and head men who should be authorized on their behalf to eonduct such negotiations, and sign :uy treaty to be fomeled thereon, and to become responsible to Her Majesty for the faithful performance by their respective bauts of such obligations as shall he assumed by them, the said Indians have thereupon mamed the following persons for that purpose, that is to say: Kin-ki-sha-way, or Lomd Voice ( $\mathrm{Qu}^{\prime} \mathrm{A}_{\mathrm{p}}$ pelle Biver) ; Pis-ן ata, or The Plain (Leeeh Lake) ; Kea-we\%-ance, or The Little Boy (Leech Lake) ; Ka-kee-na-wup, or one that sits like an Eagle (Cipler Qu'Appelle Lakes); Kus-kee-tew-mus-eno-mus qua, or Little Black Bear (Cypress Hills) : Ka-ne-on-us-ka-tew, or one that walks on four claws (Little Touchwood Hills) ; Can-ah-ha-cha-pew, or making ready the bow (sonth side of the south branch of the Saskatehewan) ; Kii-si-cam-ah-chuck, or Day Star (south side of the south branch of the Saskatehewam): Ka-wa-ca-toose, or The Poor Man (Touchwood Hills and Qu'Appelle Lakes) ; Ka-ku-wis-ta-haw, or him that flies round (towards the Cypress Hills) ; Cha-ca-chas (Qu'Appelle River) ; Wah-pii-motse-too siis, or White Calf, or Pus-coss ( (Rn'Appelle River) ; Gabriel Cote, or Mee-may, or the Pigeon (Fort Pelly) ;

And thereupon in open council, the different hands having presented the men of their choiee to the said Commissioners as the Chiefs and head men for the purpose aforestid, of the respective bands of Indians inhabiting the said district hereinafter describet ;

And whereas, the said Commissioners have proceeded to negotiate a treaty with the said Indians, and the same has been finally agreed upm and comeluted as follows, that is to say:

The Cree and Saulteaux tribes of Indians, and all other the Indians inhabiting the district hereinafter tescribed and definet, do hereby cede, release, surrender and yield up to the Govermment of the Dominion of Canada, for Her Majesty the Queen, and her successors forever, all their rights, titles and mirileges whatsoever to the lauds included within the following limits, that is to say:

Commencing at a point on the C'intel States frontier due south of the - north-western point of the Moose Momitains, thence due north to said point of said Momantans, thence in a north-easterly course, to a point two miles due west of Fort Ellice, thence in a line parallel with, and two miles westward, from the Assiniboine River to the mouth of the Shell River, thence parallel to the said river, and two miles distant therefrom, to its source ; thence in a straight line to a peint on the western shore of Lake Wimipegosis due west from the most northern extremity of Waterhen Lake, thence east to the centre of Lake Wimipegosis, thence northwartly through the middle of the said lake (including Birch Island) to the
month of Red Deer River, thence westwardly and south-westwardy ahme and including the said Red River and its lakes, Red Deer and Bitnimami, to the source of its uestern braneh, thence in a straight line to the source of the northem branch of the Qu'Appelle, thence along and in-- luding said streams to the forks near Long Lake, thence along and inchuding the valley of the west branch of the Qu'Appelle, thence alon! and including said river to the mouth of Maple Creek; thence sonthwartly along said creek to a point opposite the western extremity of the 'spress Hills; thence due south to the international bomdary ; thence east along said boundary to the place of eommencement. Also all their rights, titles and priviltges whatenever to all other lands wheressever situated within Her Majesty's North-West Territories, or any of them, to lave and to hold the same to Her Majesty the Queen and her suceessuns forever.

And Her Majesty the Queen hereby agrees, through the said Commissioners, to assign reserves for said Indians, such reserves to be selected by ufticers of Her Majesty's Govermment of the Dominion of Camala appointed for that purpose, after conference with each band of the Indians, and to be of sufficient area to allaw one suare mile for each fanily of five, or in that proportion for larger or smaller families.

Provided, however, that it be understoon that if, at the time of the selection of any reserves as aforesaid, there are any settlers within the bounts of the lands reserved for any band, Her Mijesty retains the right to deal with such settlers as she shall deem just, so as not to diminish the extent of lands allotted to the Indians: and provided further that the aforesaid reserves of land, or any part thereof, or any interest or right therein, or appurtenime therets, may be sold, leased or "therwise disposed of by the sidid Government for the use and benefit of the sail Intlians, with the consent of the Indians entitled thereto first hat and obtained; but in no wise shall the said Indians, or any of them, le entitled to sell or otherwise alienate any of the lands alloted to them as reserves.

In view of the satisfaction with which the Queen views the ready response which Her Majesty's Indian subjects have accorded to the invitation of her said Commissioners to meet them on this occasion : and also in token of their general good conduct and behaviour, she hereby, through Her Commissioners, makes the Indians of the bands here represented a present-For each Chief, of twenty-five dollars in cash, a cont, and a Queen's silver medat; for each hired man, not exceeding four in eath band, fifteen dollars in cash, and in coat ; and for every other man, woman and child, twelve dollars in cash; and for those here assembled some puwder, shot, blankets, calieoes and other articles.

As suon as possible after the execution of this treaty, Her Majesty
twarlly :ahnu cer and lituight line to the along and inng atad includree alones and e southwiurlly of the 'ypress nee enst ahng their rights. oever situated them, to have her successurs said Commisto be selecteed iom of Canala and of the ln in each family
be time of the ers within the ty retains the not to dimin. further that uy interest or 1 or wherwise fit of the said first hand and them, be ened to them as
ws the realy ed to the imision : ant als, creby, throush represented a a conat. and a four in earch er minn, woman pled some jw.

Her Mrjesty
shall cause a census to be taken of all the Indians inmabiting the tract herembefore described, and shall next year, and ammaly afterwards, firever cause to he paid, in cash, at some suitable season to be duly motifed to the Indians, and at a place or phaces to be nypuinted for that purpose within the territory ceded: ench Chief, twenty-five dollars; each head man, not exceeding four to a band, fifteen dollars : and to every other lndian, man, woman and child, tive dollars per head : such pament to he made to the heads of families for those belonging thereto, unless for some special reasim to be found whjectiomble.

Her Majesty also agrees that each Chief, and each head man, not to exceed four in each bund, onee in every three yens during the term of their oftice, shall receive a suitable suit of clothing, and that yearly and every year, she will canse to be distributed :mong the different hands included in the limits of this treaty, jowder, shot, ball and twine, in all to value of seven hombred and tifty dollars; and each Chief shall receive hereafter, in recognition of the closing of the treaty, a suitable thag

It is further agreed between Her Majesty and the said lidians that the following articles shall be supplied to any band thereof who are now actually cultivating the sim, or who shall hereafter settle on these restrves and commence to break up the land, that is to siay - two hoes, one spaile, one scythe, and one axe for every family so actually cultivating : and enough seed, whent, barley, oats and potatoes to plant such lands as they have broken up; also one plough and two harrows for every ten families so cultivating as aforesaid; and also to cach Chief, for the use of his band as aforesaid, one yoke of oxen, one bull, four cows, a chest of ordimary calpenter's tools, tive hand-saws, five augers, one cross-cut saw, one pit saw, the necessary files, and one grindstone; all the aforeside articles t" be given once for all. for the eneomagement of the practice of agriculture among the Indians.

Farther, Her Majesty agrees to mantan a school in the reserve allotted to ench band, as soon as they settle on said reserve, and are prepared for a teacher.

Further, Her Majesty :grees that within the bomdary of the Indian reserves, until otherwise determined by the (fovermment of the Dominion of Canada, no intoxicating lifturss shall he allowed to be introdnced or sold ; and all haws now in force, or hereafter to be cmacted, to preserve her Intian suljects inhabiting the reserves, or living elsewhere within tho North West Territories, from the evil eflects of intoxication, shall be strictly enforced

And further, Her Majesty agrees that her said Indians shall have right to pursue their avocations of hunting, trapping mod fishing throughout the tract surrendered, sulject to such regulations as may from time to time be made ly the Government of the country, acting under the author-
ity of Her Majesty, and saving and excepting such tracts ans may be required or taken up from time to time for settlement, mining or other purpises under grant, or other right given ly Her Majenty's said Government.

It is further agreed between Her Majesty and her said Indian subjects that such seetions of the reserve above indieated as maty at any time be repuired for public works or buildings, of whatever nature, may be appropriated for that purpose by Her Majesty's Govermment of the Dominion of Canada, due compensation having being made to the ludims for the value of any improvements therem, and an equivalent in land or money for the area of the reserve so appropmiated.

And the undersigned Chiefs and head men on their own behalf, and on behalf of all other Indians inhabiting the tract within ceded, do herely solemuly promise and engage to strictly observe this treaty, and also to conduct and hehave themselves as good and loyal subjeets of Her Majesty the Queen.
They promise and engage that they will, in all respects, whey and abisle by the law; that they will mantain prace and gomd order between ench other, and between themselves and uther tribes of Indians, and between themselves and others of Her Majenty's subjects, whether Intians, Halfbreeds or whites, now inhabiting, or hereafter to inhabit, any part of the said cedel tract ; and that they will not molest the persom or property of any inhabitant of such ceded tract, or the property of Her Majesty the Queen, or interfere with or trouble any person passing or travelliug through the said tract or any part thereof; and that they will assist the ofticers of Her Majesty in bringing to justice and punishment any Indian offonding against the stipulations of this treaty, or infringing the laws in force in the country so ceded.

In witness whereof, her Majesty's said Commissioners, and the said Indian Chiefs and head men, have hereunto subseribed and set their hands at Qu'Appelle, this day and year herein first above written.

## IPPENDIS.

their several bants, David Rumille, Chief: James Coblame, Hary ('onstatag, and Charles lisequinip, Councillass : and 'Ta-pas-ta-num, ir Donald Willian Ninclair Ross, Chief ; bames Garrinek amd Promd McKay, Commcillors;

And thereupon in open comncil, the diflerent bands having presented their Chiefs to the said Commissioners as the Chiefs ant head men. for the purjoses aforesait, of the respective bands of Indians inhabiting the silid distriet hereinafter deseribed;

And whereas, the satid Commissioners then and there received and arknowledged the persons so presented as Chiefs and head men, for the purposes aforesaid, of the respective hands of Indiams inhabiting the saidelistrict hereinafter describeal:

And whereas, the said Commissioners have proceeded to negotiate a treaty with the said Indians, ame the same has been finally agreed mon ancl concluded as follows, that is to say :

The Sanlteaux and Swanpy Cree tribes of Indians and all other the lndians inhabiting the district hereinafter described and defined, do hereby cede, releace, surrender, and yield up to the Govermment of the Dominion of Cimata, for Her Majesty the Queen and her successors forever, all their rights, titles and privileges whatsinever to the lands included within the following limits, that is to say :

Commencing at the north conner on junction of Treaties Numbers One and Three, thence easterly along the houndary of 'Treaty Number Three $\mathrm{t}_{0}$ the height of land at the nowth-enst enner of the said treaty limits, a point dividing the waters of the Albiny and Wimipeg Rivers, thenee dne morth along the satit lieight of land to a point intersected ly the $53^{\circ}$ of north latitude and thence north-westerly to Faromable Sake, thence following the east shore of said lake to its morthem linit, thence morth-westenly to the north end of Lake Wimipergisis, thence westerly to the leeight of land called "Robinsom's l'artage," thence north-westerly to the east end of Cross Lake, thence north-westerly erossing Fox's lake, thence north-westenly to the north end of Split Lake. thence somth-wenterly to Pipestone Lake, on Bumtwood River, thence south-westerly th the wentern point of John Scott's Lake, thenee sonth-westerly to the nowth shore of Beaver Lake, thence somth-westerly to the west end of Cumberlaul Lake, thence due sonth to the Saskateliewan Riser, thence due south to the morth-west comer of the northem limits of Treaty Number $F_{\text {onf, }}$ inchading all territory within the said limits, and all ishands on all lakes within the said limits as above deseribet, imel it being also understond that in all cases where lakes furm the treaty limits, ten miles from the shore of the lake should be inchuled in the treaty ;

And also all their rights, titles and privileges whatsoover to all other lands wherever situnted in the North-West 'Territories, or in any wther

Province or portion of Her Majesty's Dominions situated and being within the Dominion of Canadn ;

The tract comprised within the lines above described embacing an area of one hundred thousand spuare miles be the same more or less;

To have and to hold the same to Her Majesty the Queen and her sucecsorors forever.

And Her Majesty the Queen herely agrees and modertakes to lay aside reserves for farming lamds, due respect leing had to hands at present cultivated by the sail Indians, and other reserves for the benefit of the said Indians to be administered and dealt with for them by Her Majesty's Government of the Dominion of Camadia ; provided all such reserves shall not exceed in all one humdred and sixty acres for each family of five, or in that proportion for larger on smaller families in manner following, that is to say :-For the band of Salteanx in the Berens River region now settled, ur who may within two years settle therein, a reserve commencing at the mutlet of Berens River into Lake Wimnipeg, and extending along the shones of said lake and up, said river, and into the interior behind said lake and river, so as to comprehend one hundred and sixty acres for eath family of tive, a reasmable aldition being, however, to be made by Her Majesty to the extent of the said reserve for the inclusion in the tract si reserved of swanns, but reserving the free mavigation of the said lake and river, and free aceess to the shores and waters thereof for Her Majesty and all her subjects, and excepting thereont such hand as may have been grantel to or stipulated to be held by the Hudson's Bay Company, and alsor suld land as Her Majesty or her successors may in her good pleasure see fit t" grant to the mission established at or near Berens River by the Methodist Church of Canada, for a chureh, school-house, parsonage, burial-groume and farm, or other mission purposes : and to the Indians residing at Pop. lar River, falling into Lake Wimipeg north of Berens River, a reserve not exceeding one humdred and sixty acres to each family of five, respecting as much as possille their present improvements : and inasmueh as a number of the Imlians now residing in and about Norway House, of the hand of whom David Rundle is Chief, are desirous of removing to a locality where they em eultivate the soil, Her Majesty the Queen hereby agreen to lay aside a reserve on the west side of Lake Winnipeg, in the vicinity of Fisher River, so as to give one hundred acres to each fanily of five, or in that propurtion for larger or smaller families, who shall remove to the said loeality within "three years," it being estimated that ninety families or thereabouts will remove within the said periocl, and that a reserve will be laid aside sufficient for that or the actual number; and it is further agreed that those of the baiad who remain in the vicinity of "Norway House" shall retain for their own use their present garlens, buildings amil improvements, mitil the same be departed with by the Queen's Govern-
lieing withacing an are:a less; and her stle-

- to lay asivh present cultiit of the said Ier Majesty's reserves shall of tive, ${ }^{\prime}$ in owing, that is n now settled, rencing at the mig the shares said lake and or each fimily Her Majesty et $s^{\prime}$ reserved ake and river. lajesty and all been granter and also smo h sure see fit t" the Methorlist burial-grouml siding at Popiver, a reserve if five, respectinasmmeh as a House, of the Fing to a localbereby agreen in the vicinity nily of five, or remove to the ninety families a reserve will hel it is further of " Norway , buildings and leen's Govern-
ment, with their consent first had and obtained for their individual benetit, if any value can be realized therefor ; and with reorard to the band of Wond Indians, of whom Ta-pas-ta-mm, of Donald William Sindain Ross, is Chief, a reserve at Otter Island, on the west side of C'ross Iake, of ome hundred mad sixty neres for ench family of five, or in that propurtion for smaller fimilies, reserving however to Her Majesty, her snceessors, ant her subjects, the free mavigation of all lakes and rivers, and free access to the shores therenf ; Prowided, however, that Her Majesty reserves the right to eleal with any settlers within the bomels of any lands reserved fon any band as she shall deem fit, and also that the aforesaid reserves of land, or any interest therein, may be sold or otherwise disposed of by Her Majesty's Govermment for the use and benetit of the said Imlians entitled thereto, with their eonsent first had and whtaned; and with a view to shew the satisfaction of Her Majesty with the beharior amd gond eomduct of her Indians, she herehy through her Commissioners makes them a present of five dollars for eath man, woman and child helonging to the bands here represented, in extinguishment of all elaims heretofore preferred ;

And further, Her Majesty igrees to mantain sehools for instruetion in such reserves hereby made as to her Govermment of the Dominion of Cinada may seem movisable whenever the lutians of the reserve shall elesire it ;

Her Majesty further agrees with her said Indians, that within the bomadary of Indian reserves motil otherwise determinel by her Government of the Dominion of cimatia, mo intoxicating liguor shall be allowed to be introdnced or sold. and all laws now in force, or hereafter to be enacted to preserve her Indian subjects inhabiting the reserves or living elsewhere within her North West Territuries, from the evil inthence of the use of intoxicating liguors. shall be strictly enfor ed :

Her Majesty further agrees with her saill hatims that they, the sail In, dians, shall have right to pursue their avocations of honting and fishing throughout the tract smremle ed as hereinbefore deseribed, subject to such regulations as may from time to time be made hy her Govermment of her Dominion of Canada, and saving and ex epting such tracts as may: from time to time be required or taken up for settlemont mining, lumbering of other purposes by her said Govermment of the Dominion of Canada, or loy any of the subjects thereof elaly anthorized therefor by the said Government :

It is further agreed hetween Her Majesty mul her said Indians, that such sections of the reserves above indicated as may at any time be reguired for publie works or buidings, of what nature soever may he appropriated for that purpose by Her Majesty's Government of the Domin, ion of Camada, due compensation being made for the value of any improvemo it therem;

And further, that Her Majesty's Commissin ners shatl as som as perssible after the execotion of this treaty, canse to be taken an acembate census of all the Indians inhaliting the tatet above described, distributing them in families, and shall in every year ensuing the date hereof, at some period in each year, to be duly notified to $t$ e modians, and at a phace or phaces to beapminted for that purpose within the territory ceded, pay to each hodian persen the sum of five dollars per head yemrly :

It is further :aged between Her Majesty mid the salid Ludians that tho sum of five humdred dollars per ammon shall be yearly and every yar expended by Her Majesty in the purelase of amminition and twine for nets for the nee of the said Indians, in maner following, that is to saty: in the retsonable discretion as regards the distribution thereof among the Indians inhahiting the several reserves or otherwise included herein, of Her Majesty's Indian Agent having the supervision of the treaty ;
It is futher agreed between Her Majesty and the said hominns that the following articles slall be supplied te any band of the satid thdiams who are now cultivating the soil, or who shall hereafter commence to cultivate the land, that is to say ;--Two lowes for every fanily actually entivating: ulow one spade per family as aforesaid: one plough for every ten families an aforessidl: tive harrows for every twenty families as aforeaill : one scythe for erery family as aforesiad, and also one axe; and also one cross-cut satw, che hand-sitw, mepit-saw, the necessiny files, one grindstme and on anger for each hant: and also for each Chief for the use of his band, one chest of ordinary carpenter's towls; also, for each band, emough of wheat, barley, potatoes and oats to plant the liand actually broken up for cultivation by such band: atso, for each b:und : one yoke of oxen, one bull, and fomr cows : all the aforesaid articles to be given ouce for oll for the creomagement of the practice of agriculture among the Indians.

It is further agreed between Her Majesty and the said Indians, that each Chief, duly recognized as such, shall receive an amual salary of twenty-five dollars per annum, and each subordinate officer, not exceeding three for each hand, shall receive fifteen dollars per annum ; and each such Chief and subordinate otlicer as aforesaid shall also receive, once every three years, is suitable suit of clothing ; and each Chief shall reccive, in reeognition of the closing of the treaty. a suitable flag and medal.
And the molersigned Chiefs, on their own behalf, and on belalf of all wher Indians inhabiting the tract within ceded, do herely solemnly promise and engage to strictly observe this treaty, and also to couduct and behave themselves as good and loyal subjects to Her Mujesty the Queen. They promise and engage and they will, in all respects, obey and abide by the law, and they will maintain peace and good order betwer $n$ each other, and also between themselves and other tribes of Indians, and between themselves and others of Her Majesty's subjects, whether Indims:
wr wites, now inhabiting or hereafter to inhabit muy part of the said eeded tracts ; and that they will not molest the person or property of any inhabitant of such ceded tracts, w the property of Her Majesty the Queen, or interfere with or trouble any person lassing or travelling throngh the said tracts or any part thereof : and that they will aid and assist the ofticers of Her Majesty in bringing to justice and punishment any Indian offending against the stipulations of this treaty, or infringing the laws in foree in the country suceded.

In witness whereof, Her Majesty's said Commissioners nud the said Indian Chiefs have hereunto smberibed and set their hands at Berens River, this twentieth day of September, A.D. 187.) and at Norway House. on the twenty-fourth day of the month and ytar herem first ahove named.

## No. 14.

The 'Tresty With the Blackreet, Nuvber Sheen,
Ahticles of a Treaty mald and conchated this twenty-seeond day af September, in the year of our Lard one thonsand eight hundred and seventy-seven, hetween Her Most Gracions Majesty the Queen of Great Britain and Ireland, by her Commissioners, the Honomable David Laird, Lientenant-Governor and Indian Superintemdent of the North-West Territories, and James Fincuharson MeLeod, C.M.G, Commissioner of the North-West Mounted Police, of the one part, and the Rlackfect, Blood, Piegon, Sarcee, Stomy, and other Indians, inhabitants of the territory north of the United States houndary line, east of the central range of the Roeky Monntains, and south and west of Treaties Numbers Six and Fonr, by their head Chiefs and minor Chicfs or Commeillors, chosen as heremafter mentioned, of the other piert:

Whereas the hadians inhabiting the said territory, have pursuant to an appointment made by the said Commissioners, been convened at a meeting at the " Blackfont crossing" of the Bow River, to deliberate upon certain matters of interest to Her Most Gawions Majesty, of the one part, and the said ladians of the other ;

And whereas the said Fudians have been informed by Her Majesty's Commissioners that it is the desire of Her Majesty to open upor settle-
ment, and such other purposes as to Her Majesty may seem meet, a thact of comitry bounded and described as hereinafter mentioned, and tu whtain the e msent thercto of her Indian suljects inhabiting the said traet, and to make a treaty, and arrange with then, so that there may be pate and giond will between them amd Her Majesty, ind hetween them and Her Majesty's other suljects : and that her Indian perple maty know and feel assured of what allowame they are to come mon and receive from Her Majesty's bomuty and benerolence ;

And whereas the Indians of the said tract, duly eomened in comeil, and being repuested by Her Majesty's Commissioners to present their heal Chiefs mod mino Chiefs and Comeilloss, who shall be authorized, on their belalf, to combet such negotiations and sign any treaty to be fomblel therem, and to become responsible to Her Majesty for the faithful performance by their respective bands of such obligations as should be assumed by them, the Blackfeet, Blood, Piegim and Sarcee Indians have therefore acknowledged for that rarpose, the several head and minn Chicfs, and the said Stony Indians, the Chiefs and Councillors whe have subseribed hereto, that therenpen in oren council the said Commissioners received and acknowledged the heal and miner Chiefs and the Clisefs and Comencilors presented for the purpose aforesind;

And whereas the said Commissioners lave proceeded $t$. negotiate a treaty with the sain hodims ; and the same fos been tinally agreed menn and concluded as follows, that is to say: the Bhackfeet, Blood. Piegan, Saree, Stony and other hadians inhabiting the district heremafter more fully described and detined, do harely cede, release, surrender, and yield up to the Goverment of Canalia for Her Majesty the Queen and her successors forever, all their rights, titles and privileges whatsoever to the lands inchuded within the following limite, that is to sily :

Commeneing at a point on the international boundary due south of the western extremity of the Cypress Hills: thenee west along the said hohe dary to the central range of the Rocky Momitains, or to the lommeary of the Province of British Colmbia: thence north-westerly along the said boundary to a point due west of the some of the main branch of the Red Deer River: thence sonth-westerly and southerly following on the boundimies of the tracts ceded ly the Treaties Numbered Six and Four to the place of commencement : and also, all their rights titles and privileges whatsoever, to all wher hamis wherever situated in the North-W $t$ 'Territomes or in any other portion of the Dominion of Camada:

To have and to hold the same to Her Majesty the Queen anl her successors forever :

And Her Majesty the Queen herely agrees with her said Indians, that they shall have right to pursue their vocations of hamting throughout the tract surrendered as beretufore described, subject to such regulatims as
meet, a trinet $l$, and to whhe said triwet, nay b:e prace lem :minl Her now and feel - from Her comeil, and it their heal ized, on their o be fommlerl faithful pershould be is Indians have 1 and minur ors who have mmissioners Chiefs and

- negotiate a agreed i! ! worl. Piegatn, inafter more er, :md yield :and her sucwever to the
south of the te saicl lowia. Bromilary of long the said lo of the Real on the bounFour to the hid privileges We t Terri-
and her she-
ndians, that ronghout the gulations as
may, from time to time, be male by the Govermment of the eomery, act ing under the anthonity of Her Majesty ; and siving and excepting such tracts as may be required or taken up from time to time for settlement, mining, trading or other purposes by her Govermment of Canala, or hy any of Her Majesty's subjects duly anthorized therefor by the said Gosarmment.

It is alsn ngreed between Her Majesty and her said hadians that ruserves shall be assigned them of sutficient area to allow ane sapure mile for cach fimily of tive persons, or in that proportion for larger on smaller families, and that said reserves shall be located as follows, that is to say :

First-The reserves of the Blackfeet, Blowd, and Sircee bands of lndinns, shatl consist of a belt of land on the north side of the low ant South Saskatehewan Rivers, of an arerage width of fom miles along said rivers, down strean, commencing at a print on the Bow River twenty miles north-westerly of the "Blackfont erossing" thereof and extendin! to the Red Deer River at its jumetion with the Konth Saskateliewna : also for the term of ten years, and no longer, from tho date of the comelnding of this treaty, when it shall cease to be a fortion of said Indian leserver, as fully to all intents and purposes as if it had not at any time been inchnded therein, and withont any eompensation to individual Indians for improvements, of a similar belt of land on the soutlo side of the Bow :and Siskatchewan Rivers of an average width of ane mile abong satil rivers, down stremm ; eommencing at the aforesaid print on the Bow River, and extending to a point one mile west of the coal sedm on said river, about tive miles below the sain "Blackfoot erossing ; Beginning asain whe mile cast of the said eorl semm and extending to the montly of Maple creve at its junction with the suoth saskatelewan: :and begimning again at the function of the Bow River with the latter river, and extemeling wh buth sides of the South Saskatchewan in an average width on each side therenf of one mile, along said river against the strem, to the junction of the Little Bow River with the latter river, reserving to Her Majesty, an may now or hereafter be required ly her for the use of her Indian and ather subjects, from all the reserves herembefore described, the right to natrigrate the above mentioned rivars, to land and receive fuel and earges on the sioures and banks thereof, to buik bridges and establish ferrien thereon, to use the fords thereof and all the trails leading thereto, and to "pen stel other roals through the said reserves as may aprear to ller Majesty's Govermment of Camala, neeessary for the ordinary trawe of her Indian and other subjeets, due compensation being paid to individual lndims for improvements, when the same may be in any mamer encroached upon by such romes.

Secondly-That the reserve of the Piegan band of Indians shall be on the Old Man's River, near the foot of the Porcupine Hills, at a phace called "Crow's Creek."

And thirdly－The reserve of the Stomy band of Indians shall be in the vieinity of Morleyville．

In view of the satisfaction of Her Majesty with the $\begin{aligned} & \text { w } \text { en } \\ & \text { seneral gond }\end{aligned}$ conduct of her said Indians，aml in extinguishment of all their past clams， she hereby，though her Commissimers，agrees to make them a present payment of twelve dollars each in cash to each man，woman，and child of the families here represented．

Her Majesty anso agrees that next gear，and ammally afterwneds for－ ever，she will cause to be paid to the said ludimns，in eash，at suitable places and dates，of which the said Indians shatl be duly notitied，to each Chief，twenty－five dollars，each minor Chief or Comeillor（not exceeding tifteen minor Chiefs to the Blackfeet and Blowd Indians，and four to the Piegan and Sarcee bands，and tive Comeillors to the Stony Indian bands） fifteen dollars and to every other Indian of whatever age，tive dollars： the same，unless there be some exceptional reatson，to be paid to the heads of families for those belonging theretr．

Further，Her Majesty agrees that the sum of two thousand dollas shall hereafter every year be expended in the purehase of ammmation for distribution among the said Indians：powided that if at any future time ammmition heame eomparatively monecessary for said ludians，her（aov－ ermment，with the consent of salid hadians，or any of the bands thereof， may expend the proportion due to such band otherwise for their benetit．

Further，Her Majesty agrees that each head Chief and minor Chief， and each Chief and Comeillor duly recognized as such，shall once in every three yerrs，during the term of thoir oftice，receive a suitable suit of elothing，and head Chief and Stony Chief，in reengnition of the closing of the treaty，a suitable medal and thag，and next year，or as soon as con－ venient，each head Chief，amd minor Chief，and Ntgny Chief，shall receive a Winchester rifle．

Further，Her Majesty agrees to pay the salary of such teachers to in－ struct the children of said Imdians as to her Govermment of Canada may seem advisable，when said Indians are settled on their reserves and shall desire teachers．

Further，Her Majesty agrees to supply each head and minor Chief，and －．Wh Stony Chief，for the use of their bands，ten axes，five handsaws，five angers，one grindstone，and the necessary files and whetstones．

And further，Her Majesty dgrees that the said Indians shall be supplied as soon as convenient，after any band shall make due application therefor， with the following cattle for saising stock，that is to say ：for every family of five persons，and under，two cows；for every family of more than five persons，and less than ten persons，three cows ；for every family of over ten persons，four cows ；and every head and minor Chief，and every Stony （＇hief，for the use of their bands，one bull ；but if any band desire to cul－
all be in the
general gond parst claims, ma present and child of urwards for , at suitable itied, to each ot exceeding a four to the ndian bands) five dollars : (1) the heals
libllats shath munition for y future time ans, her (Gowands thereof. their benctit. minor Clicef, once in every itable suit of the closing of soon as conshall receire
rachers to inCanada may ves and shall or Chief, and andsizws, five es.
Il he supplied ion therefor, every family hore than five minty of over l every Stony desire to cul-
tivate the soil as well as wise stonk, each family of such ham shall reveive one cow less than the above mentioned number, and in lien therenf, when settled on their reserves and prepured to break up the soil, two hoes, one spade, one seythe, and two hey forks, and for every three fanilies, one plough and one harrow, and for ewh band, enough potatoes, barley, oats, and wheat (ii such seeds be suited for the locality of their reserves) to plant the land actually broken up. All the aforesaid articles to he given, whe for all, fin the encouragement of the practice of agriculture anmes The Indiaus.

And the undersigned Blackfeet. Blow, Piegan, and saree had Chiefs and minor Chiefs, and stomy Chiefs and Councillors, on their own hehalf, and on behalf of all other Ludims inhabiting the tract within ceded do herehy solemonly promise ant engage to strictly observe this treaty, and also to eonduet and behave themelses as som and loyal subjeets of Her Majesty the Queen. They promise anl enfage that they will, in all rospects, whey and abide by the law, that they will mantain peate and grod Order betwem eath other, and between themselves and other tribes of Indimas, anl botween themelves and whers of Her Majesty's subjeets, whether ludians, Half-breeds, or whites, now imhaiting, or hereafter to inhabit, any part of the said cerlesl tract : and that they will not molest the person or property of any inhabitant of such eded tract, or the property of Her Majesty the dueen, on interfere with or trouble any person passing or travelling through the sad trast on any part thereof, and that they will issist the oflients of Her Majesty in bringing to justice and punishment any hadimoffending against the stipulations of this treaty, or infringing the laws in force in the comery so ceded.

In witness wherenf Her Mijesty's said $C$ mmissioners, amy the said Indian head and minor Chiefs, and Stomy Chiefs, and Conneillors have heremento subseribed and set their hands, at the "Bhackfont erossing " of the Bow River, the day and year herein first above written.

Vietoria, by the (inace of (ion, of the lonitel Kingglom of direat britain ant heland, (1rex, Defember of the Fiath, de., die.

Whereas, by an Aet of Parliament of Camala, pasised in the thirty-fifth year of Onr reign, entitled "An Act respecting the Camadian Pacific Railway," it is provided umon the considerations therem declared, that a railway to be ealled "The Camadian Pacitie Railway," shonll be made in eonformity with the nereenent refered to in the preamble to the said Aet, and should extend iron some point on or near Lake Nipissing, and on the south whe thereof, to some point on the shore of the Pacifie Ocean : both the satid points to be determined by the (iowernor in Commcil, and the comrse of the line of the said railway between the said points to be subject to the approval of the Ciovernor in Combil.

And whereas, it is by the said Act further provided, "That the Government of Camada might further agree with the Company with whom they shall have agred for the eonstruction and working of the said railway, for the construction and workine of a branch line of ralway from
some point on the railway tirst thereinbefore mentioned, to some point on Lake Superior in British Territory, aud for the construetion and working of another branch line of railway, from some point on the railway first mentioned, in the Provinee of Manitoba, to some point on the line between that Province and the United States of Americn, the said points to be determined by the Governor in Comeil; and that sueh bmach lines of railway should, when so agreed for, be held to form part of the railway tirst thereinbefure mentioned and portions of "The Chandim Pacitic Railway."

And whereas, mangst other things, it is $b$ the said Act in effiet provided that if thero should be no eompany easher incorporated originally for the construetion of the whole line of railway, or furmed out of two or more companies for that purpose, or if the Government could not agree, or did not deem it advisable to ayree with any such compuny for the ennstruction and working of the whole line of railway under the said Aet, or if the Govermment should be of opinion that it would be more advantageous for the Dominion and would better ensure the attaimment of the purposes of the said Act, that a company should be incorporated by chater as therein provided, then if there should be persens able and willing to form such compmy, and having a subserihed capital of at least ten million dollars seeured to the satisfaction of the Governor in Council and ready to enter into such agreement with the Government for the construction and running of the said mailway, the Governor should have pwer upon the conditions in the said Aet mentioned, to grant to such persons, and those who should be assweiated with them in the undertaking, a charter embodying the agreement mate with such persons, which should be hinding on eompany, and so mueh of the said Aet and of the Railway Aet (as sueh Railway tet was molitied by an Aet of the mow last session with reference to any railway to be construeted under such Aet on any of the lines or between any of the points mentioned in the said Act now in recital) as agreed upon between the (Govermment and such company, and that such eharter being published in the Cenadion ficeette, with any Order or Orders in Comeil relating to it, should in so far as it is not ineonsistent with the said reeited Act, have foree and effect as if it were an Act of the Parliament of Camada.

And whereas, the Government has failed to induce the two companies ineorporated by Parliament during its last session for the purpose of construeting the railway, to form one company, and dues not deem it advisable to agree with either of the said two companies for the construction of the railway, as is of opinion that it will be more advantageous for the Dominion, and will better ensure the attaiment of the purposes of the Aet first above mentioned that a company shall be ineorporated by charter as in sueh Act provided.
