HAMILTON PEOPLE ENJOYED LABOR DAY

Fine Program of Sports Run Off—Over 7000 in Ambitious City's Registration.

HAMILTON, Sept. 4.—(Special.)—The Labor Day celebration at Dundurn Park to-day was a great success, and notwithstanding the counter attraction of the Toronto Exhibition and the ideal weather which tempted a great many people to make trips to outside points, a big crowd witnessed the fine program of sports arranged by the celebration committee. Every event on the program was well filled and several of the races had to be run on relay. A clear, warm day added to the enjoyment of the festivities.

The results of the different events are as follows:

One-mile road race: 1, G. Richards; 2, Eddie Cotter; 3, A. A. Allen. Time 56.41.

Ten-mile bicycle race: 1, Fry; 2, Garrod; 3, McDonald. Time 24.23.

Hundred yards, open: 1, Murphy; 2, Sadler; 3, Kehoe.

400 yards, open: 1, Sadler; 2, Bentley; 3, Smith.

The following were winners in the baby show: Class A, 12 to 18 months, 1, Mrs. Hall; 2, Mrs. Bell; 3, Mrs. J. Covell; 4, Mrs. D. Henderson.

Class B, 6 to 12 months, 1, Mrs. Little; 2, Mrs. Reid; 3, Mrs. Almas; 4, Mrs. Davis.

Class C, youngest baby, 1, Mrs. Hall; 2, Mrs. Custer; 3, Mrs. Smith.

Over 7000 Registered.

New names to the number of 7223 were added to the voters' lists in Hamilton in the four days allowed for registration. While this number is somewhat short of what was expected before registration began, it is considerably above the figure indicated by the first day's registration, the total being greatly increased by Saturday's activity. Registration by districts was as follows: Barton-street, 247; College-street, 580; Hess, 735; Strathcona, 577; Picton, 466; Trolley, 601; Victoria, 839; King Edward, 682; Court House, 660; Canon, 506; Ryerson, 590. The board of appeal will sit to hear cases of protested registrations next Thursday at 10 a.m.

When George Gale, his wife and four children left their home at 1183 Canton-st., east, early this morning, a happy family journeyed forth on a holiday jaunt to the beach. A few hours later the same family returned from their afternoon's enjoyment homeless. In their absence the first floor had been visited by the fire, and when he had finished his work, only a charred shell of the house remained. The origin of the fire is unknown. The house was of frame construction.

In the Toile of the Law.

Charles Brindle, 40 Rossmore-ave., was arrested tonight charged by P. C. Yaxley with assault on the police, and David Ring was taken in by P. C. Dove, who alleges that the man, who is sounding name interfered with the officers of the law. Detective Sayer nabbed Thomas Muir on a charge of theft, and false pretenses is charged against the name of James Kelley, 72 Burlington-st. Vantyne Stevens is accused by his spouse, Beattie, of assault and threatening to shoot.

Market gardeners driving the streets of the city on Sunday night was the unusual sight to be observed here last night. This was caused by the desire of several produce merchants to do business on the market to-day, but as they are not allowed to take a stand on Sunday, they drove the streets until midnight, when they selected their stands. A Monday market in itself is a very rare event here, the regular days being Tuesday, Thursday and Saturday. All of the gardeners who drove in did a good business to-day.

AMERICAN MOTOR BOATS EASILY BEAT ENGLISHMEN.

HUNTINGTON, L.I., Sept. 4.—In a decidedly one-sided race, Dixie, a 60-horse-power hydroplane of the most pronounced type, today won the first of the series of motor-boat races between England and the United States for the Harmsworth Cup. The Dixie never once showed her mettle in the four rounds of the triangular course of about thirty miles in Huntington Bay. She easily distanced the greatly-favored Pioneer, owned by the Duke of Westminster, a 40-horse-power boat, beating the Englishman by 15 seconds.

Of the three English and three American boats, only four finished, and three of them were Americans. The Disturber, one of the American team, trailed the English Pioneer across the finish, minutes and seconds, being followed in turn in 13 American trio. The Dixie's average time was 36.1 knots an hour, that of the Pioneer 34.8 knots, that of the Disturber 32.3, and that of the Viva 29.7.

The 72-horse-power English boat Maple Leaf III, broke her steering gear when near the finish of the second round, and when it had gone about fourteen miles, and retired. In dropping out, the Maple Leaf called a tow and was pulled in to her anchorage. This is a nautical sin—no call for help—and the international committee not only ruled out the Maple Leaf from to-day's race, but barred her from competing in any other of the contests in this championship series. A similar fate befell the British ship, the Disturber, which was dropped out of the third round of the contest after having covered only about eighteen miles. This was not to be permitted under the rules, and the international committee issued ban on the Disturber competing in the other races of the series for the Harmsworth Trophy.

This leaves only the Pioneer to compete as a challenger for the cup against the three Americans. The second race will be held to-morrow at 10 a.m., and if one of the American boats wins, but the Pioneer remains in the United States another year at least. If the Pioneer should win to-morrow, a third and deciding race must be run Wednesday.

Until today's race was on for fifteen minutes the American hopes were not high. It was not known what the Dixie could do. She had made 29 knots, but the Maple Leaf came over with a reputation of 37 miles an hour. The Pioneer, with 45 miles. Outside the Dixie, the Americans did not have much to build hopes on against the promise of Brits of excellence. In fact, the American committee was greatly afraid that, out of the home entrants, they would not be able to name two team-mates for the Dixie. It was only at the last moment that the Viva, owned by Rear-Admiral J. Stuart Blackton, and the Disturber II, owned by James A. Fugh, were selected.

NOT MRS. HOUGH'S BODY FOUND AT LEWISTON

Wide Variance in Description of Hands Conclusive Evidence That Clue Was Wrong.

From investigation made by The World last night it appears that there is little chance that the body of the woman found near Lewiston Aug. 14 can be that of Mrs. Hough, who disappeared from her home at 337 West Queen-street, May 23 last. The hands of the body are described as long and narrow with long narrow nails. The woman wore No. 4 "Sorosis" shoes of a narrow last, in which were metal in-step supports.

Miss J. C. Reed, 6 Mackenzie-avenue, Rosedale, by whom Mrs. Hough had been employed before her marriage and who kept up her girl, seeing her the day before she left the city, said last night that her hands, feet and finger nails were short and wide.

It was Mrs. Hough's avowed intention to disappear when she left the city. She went for the express purpose of hiding herself from her husband to retain possession of her son, hence it is not strange that she has not been heard of. She told Mrs. Reed on leaving that she would not say where she was going, so that Mrs. Reed would not be embarrassed by enquiries.

Shown a piece of the suit found on the body of the dead woman, Mrs. Reed said that it was not a part of the material of a dress which she had given the girl just before she left.

From the description of the suit found on the body, which was tailored, it was not such a one as Mrs. Hough would have been able to buy for herself. This was the last known clue leading from the dead body of the woman who was probably murdered in the lonely woods to this city as the American coroner and sheriff were unable to make anything of the Toronto addresses found on a piece of paper near the body.

The only remaining point leading to the identification of the body as that of Mrs. Hough is the fact that her husband says she always carried her own drinking cup and that a collapsed metal cup was found beside the body.

See the Player-Piano.

The player-piano as it is constructed to-day by Ye Olde Firm of Heintzman & Co., 133-135-137 Yonge-st., is a remarkable piece of mechanism. It is artistic and distinctive. Without a knowledge of music one can play the selections of the world's greatest masters. On the other hand, it carries with it all the purposes of a regular piano. In this Heintzman & Co. player-piano are distinctive features like the aluminum action that gives this instrument an outstanding position.

KILLED BY STREET CAR

William Johnston, 70 years, 6 Geneva-st., was struck by a westbound Hamilton-street car at Gerrard and Edward-sts., at 5:20 yesterday afternoon. He was removed to the General Hospital in the patrol wagon, which he reached at 5:30. He died of internal injuries. His leg was fractured. An inquest will be held.

The car was in the charge of Norman Brown, 551 Parliament-st. The police were unable to find anyone who had witnessed the accident. The car's owner, who was not at first thought to be serious.

Theological Society's library will be open to visitors to the exhibition daily from 2 till 5 p.m., at Room 204, 22 College-st. Lecture on Sunday evening at 7:15.

STRUCK DOWN AGED MAN.

E. C. Davis, 65 Dovercourt-road, an elderly man, was struck by a horse driven by James Lynch, 131 Spadina-avenue, an expressman, at 11 o'clock yesterday afternoon. He was hurled to the ground with such force that he received a laceration in his forehead requiring six stitches. Lynch was drunk at the time and driving at a reckless rate and failed to slacken the speed of his horse when approaching the man, who was so old and feeble that he could not make his escape.

St. Clements Beat St. Davids.

St. Davids and St. Clements played at Leslie Ground on Saturday. The game resulted in a win for St. Davids by 24 runs. The teams did not turn up at full strength, only seven men of St. Davids and nine of St. Clements appearing, owing to the inclement weather. Hubbard batted well for his 12 runs. This was the last game of the season for St. Davids, and they are to be congratulated on the splendid form they have shown. Score:

NATIONAL SUPPORTERS

STOP MONTREAL GAME

With Winged Wheel Team Two Goals to the Good and 4-1-2 Minutes to Play.

MONTREAL, Sept. 4.—It was an eventful but decidedly unsatisfactory game which more than eleven thousand lacrosse followers witnessed between the Nationals and Montreal twelves on the Westmount grounds yesterday afternoon. With four minutes and thirty seconds of playing time left and Montreal two goals in the lead, a crowd of three or four thousand from the bleachers on the south side of the field, ninety per cent. of whom were supporters of the Habitués, swarmed on the field and refused to disperse in order to allow the game to be finished. The police could do nothing and the club officials were powerless. The teams were withdrawn in the hope that the mob would disperse and that then the game might be decided, but cheering and shouting for Nationals and singles "O Canada" and "Les Nationals Sont La" they stood their ground and saved their team from a certain defeat which they could not ward off themselves.

Referee McIntyre and Judge of Play Kavanagh could do nothing. The game was not finished, and although Montreal had a commanding lead when play stopped, they could not declare them winners. They must report the happening to the president of the N.L.L., Mr. Jas. Murphy, and until the head of the league has given his verdict the result of the match will be in abeyance.

John Davidson, the managing director of the M.A.A.A., made a statement last evening that there was a lot of light on the occurrence. He said that after the crowd had partially dispersed, some remained until after 5 o'clock, several people came to him and gave him unsolicited testimony to the effect that they had heard National players and officials urge the crowd to come on the field and not retire under any circumstances. This was the first time that the players of the Nationals had put their team in the lead and when the Montreal team seemed to have the game safely won and were out-playing the visitors.

Dr. Cousineau, the president of the National Association, placed the blame entirely upon the M.A.A.A. management, saying that he could not understand how he could have so many people on the ground, as well as on the ground that the game was not finished.

Uglier charges were made by the Montreal players. Several of them, among whom are Robert Appell, Brennan and Thompson, said to-night that they had been offered \$500 to throw the game, the offer being made by supporters of the French organization. The teams lined up as follows:

Nationals (2): Goal, L'Heureux; point, Cattarinich; cover-point, Gagnon; defence, Decarie, Clement, Secours; centre, Lechappelle; inside, Gaudin, Dugault; Pitre; outside, Lamoureux; inside, Dugault.

Montreal (4): Goal, Brennan; point, Flanagan; cover-point, Thompson; defence, Neville, Appell, Kane; centre, Kenn; inside, Hamilton, F. Scott; Layton; outside, H. Scott; inside, Roberts.

First Quarter.—1. Nationals, Dulude, 15.3; 2. Montreal, F. Scott, 1.30; 4. Montreal, H. Scott, 3.30. Fourth quarter.—1. Montreal, H. Scott, 13.30. Penalties: Montreal—Roberts & F. Scott.

A Daring Book On Advertising Secrets Never Before Put in Print

We have issued a book which tells, for the first time, the main reasons for our success.

It is startling in its frankness, daring in its revelations, long considered too valuable to print.

The ideas in the book came from a thousand sources. But we garnered and sifted and filed them.

The ways in which we employ them will give you new respect for this Agency's efficiency.

Part of the book deals with Strategy—the very climax of salesmanship-in-print.

This is the science of doing, by clever maneuvers, what used to be done by sheer force of attack.

National distribution is attained in a month. New products are made immediately profitable. Advertising is relieved of nearly all its uncertainties.

How this is done is shown by what has been done—by cited examples—in this new book.

The book also tells how we get information.

Old-time advertisers merely guessed at what would lead people to buy. They learned trade conditions through costly mistakes.

Now the wise reconnoiter. They make an actual canvass of dealers and users instead of depending on theory, guesswork and chance.

Then they start their campaigns with a skirmish line—an experiment, perhaps.

This book tells how men have won millions in this way, without any risk at all.

It also shows how one may profit by other men's experience.

Most selling ideas have been tested out. Most of our problems have been somewhere solved, most of the pitfalls discovered.

What folly it is to grope in the dark when one may be guided by recorded facts.

A thousand concerns have contributed to our storehouse of ideas. This book gives an insight to it.

Any man with a selling problem is welcome to this book. And every such man should have it.

The ideas it reveals are of wide application. They will better your qualifications.

It will lead to better advertising. And better advertising always leads our way.

Cut out this reminder; put it in your pocket. Then, when convenient, write us for the book.

PUBLIC AMUSEMENT'S

At the Royal Alexandra.

Sam Bernard in "He Came From Milwaukee."

For the second and great week of the fair season Messrs. Shubert have provided an exceedingly amusing and attractive musical comedy. Notwithstanding the favorable weather and exceptional open air offerings, quite a large audience assembled in the afternoon and in the evening the Royal Alexandra was packed to capacity. No doubt could be felt about the popular verdict at both performances. The man who "Came From Milwaukee" was enthusiastically welcomed, as indeed the comedy could not help being, so fully has every taste been met and satisfied. Also built round the personality and original humor of Sam Bernard, the usual impression of this production is not created. Then there is a real story which, however farcical, is yet provocative of real interest.

"He Came From Milwaukee" is very much a composite production. The book above the average in all respects. In the work of Mark Swann, the lyrics by Edward Madden, music by Ben. M. Jerome, Louis A. Hirsch and Melville Ellis. As a consequence there is sufficient variety to prevent indifference and stimulate attention. When the comedy opens on the grounds of a fashionable hotel, the audience is soon introduced to the American mother out-titling her for her only daughter; to her

niece, who has made her own arrangements with Bruce Chetwynde, and to his friend, the Duke of Zurich, traveling incognito in quest of the heiress daughter. The duke's territories are something with revolt, enemies are on his track and taking one thing with another he resolves to immolate himself on the altar of affection. To carry out his scheme he gets old Herman Von Schnellenstein to masquerade as the duke. The old Milwaukee brewer's attempt to carry off the rank thus unconsciously thrust upon him gives rise to all the exceedingly funny complications that enliven the evening's entertainment. In the end all the threads are disentangled and the curtain falls in strict accord with the time-honored fairy tale.

For this production a very capable company of all round excellence has been secured. All the appanages of modern musical comedy are in evidence, and the result is a performance without a dull moment. Sam Bernard is a host in himself, and while he adheres to his quaint interpretation of antique German character, there is no monotony in his expression. They would be dull who did not enjoy the delightful freshness of his humor and skilled art. His business was full of novel burlesques, and this gave a sharper flavor to the vein of satire that seasons the comedy. Miss Louise Mink as Constance Harvey, the duke's innamorata, is the happy possessor of a singing voice of great purity and beauty, and the quality of her rendering

added much to their charm. Miss Anna Whiston sang, acted and danced herself into the hearts of the audience, and Miss Nella Bergen won well-deserved applause in the role of Lenka Cechenyi. Miss Alice Gordon was sufficiently assertive as Mrs. Matthew Harvey, the title-hunting mother. As the duke, George Baldwin's rich and mellow voice was heard to great advantage. Well-earned acknowledgment was also accorded Billy Gaston for his clever eccentric dancing in the role of Bruce Chetwynde. Nicholas Judels gave a striking character sketch of the fire-eating conspirator, and Henry Norman's portrayal of General Brokski was also noteworthy. The other parts were all appropriately filled, the stage settings were exceptionally good, and taken altogether "He Came From Milwaukee" is one of the best shows of its kind that have ever visited Toronto. It will be played during the week with one matinee, on Saturday only.

At the Princess

Charles Cherry in "The Seven Sisters" Entertaining to the limit of existence, truth and a deal of good setting in it. This small screen expounding the proverbial "small move mountains" held and moved two capacity audiences yesterday and today another line to the great gospel of gladness to which the regular hearers of the world is daily turning. Miss Clayton, who wrote the lines, devised the business and shoulders, and it was a good thing for which thanks as well as praise are due. The bill is bright and varied throughout. The Eight Palace Girls are a well-selected admirably drilled and selected octet of comely young women, who are offering would decorate any bill. The Six Musical Spillers are a ducky aggregation of instrumentalists, who manage to spill a deal of music, mostly and mostly ragtime, all over the place. They made two audiences work hard at handclapping to show an evident appreciation. Comes Also Will Rogers. "The Droll Oklahoma Cowboy." Bill sure has a deal of native humor no matter what state it hails from. His offering might well be termed "Imitations in a Rope Frame." He starts out with one of Fred Stone in his rope dance in "The Snake Town" and, if he cannot dance quite so well as Stone, he can swing a rope a good deal better. He goes from there on down the usual list with the rope ways in evidence, which is some stunt. Miller and Weston go so far in their assistance of Elsie Faye that their dancing is the best part of her act. The Cog is also the cleverest part of Millard Brothers' clever comedy act. I hope this doesn't get the said canine a licking. Conroy and Le Maire, black face comedians, patter pleasantly, and, once more, the million pictures are instructive as well as interesting.

Sermonette on Faith.

That Una Clayton's little playlet, "A Child Shall Lead Them," is a little too good to be true does not alter the fact that there is much of the essence of truth and a deal of good setting in it. At the Star.

Written and arranged by the original: Billy Watson. "Kiss Me, Baby" is a three act, beginning this week, at yesterday's matinee at the Star, thoroughly pleased the patrons of this popular house. "Kiss Me, Baby" is a comedy, during which Billy Watson had an opportunity to bring into action all his cleverness. "Make Me Love You" widow to marry off her daughters in the order according to Hungarian custom of their birth. Mici, who would be spelled Meechie in English, has been expelled from boarding school and comes home eighteen years old, highly eligible, but fourth in the list of desirable daughters. Her mother, who is a delightful old Mrs. Mackenzie, capriciously represented by Adeline Stanhope Wheatcroft—can this be Barry Sullivan's daughter-in-law?—degrades Meechie to the age of fourteen and dismisses her accordingly. Katinka, the eldest, is alone permitted to be a woman; Sari, who is 30 is put down as 15; she dances the Czardas very skilfully at the beginning of Act III. With Janko (Carlotta Doty and Joseph Altonen); Ella is third; and three little ones junior to Mici are "no age at all." Jean Murdoch as Mici recalls Cissie Loftus in many demure moments and contrasting contrasts, and with all the fun enlivening her to the audience as the love-lorn Pierrette. Pierrot, who is the hero of the boarding school expulsion, is a ministerial class, chevalier and wins husbands for Mici's three sisters in a series of farcical incidents which keep the audience in a state of hilarious merriment. The young girl of the third act, who is much pretty incidental music and singing and the setting of the four acts is exquisitely arranged. The whole cast acquitted themselves famously, and the piece will undoubtedly crowd the house during the week.

At the Grand.

Polly of the Circus. That refreshingly told story of the romance of a pretty little circus rider and a village clergyman in the middle west, "Polly of the Circus," was presented at the Grand yesterday before two large audiences, and proved an excellent offering, not only for the visitors in the city, but also the regular theatregoer. The wholesome and simple story makes one of the most delightful plays. It would be difficult to imagine a prettier scene than that with which the first act closes, and in that the young girl of the circus would get her first insight of things that are lighter and better, when after an illness she first regains consciousness and realizes her helplessness, the minister's visits to her, at her request, those memorable lines: "Entreat me not to leave thee, for when thou goest I will go, and where thou lodgest, I will lodge." The curtain falls and the story is begun. Pathos is mingled with no less humor than Polly's singing. When she first converses with the minister about his people she calls him a "silly pilot," and talking of her business as compared with his ministerial duties, she says: "One year you give them the rottenest kind of a show and they eat it up; the next year give 'em a knockout and it's a bust." These are random examples, but are nicely put and create merriment. The circus scenes of the third act are revelations. It's all there, the ring, the horses, the clowns and acrobats and everything. The closing scene of the third act is as wonderful as it is beautiful. The circus trains and wagons are winding up the pathways, while Polly remains once more and forever behind, and with her heart, Miss Georgie Old, who plays the little circus rider, invests the scenes with "silly" poetry, and her first regains consciousness and realizes her helplessness, the minister's visits to her, at her request, those memorable lines: "Entreat me not to leave thee, for when thou goest I will go, and where thou lodgest, I will lodge." The circus trains and wagons are winding up the pathways, while Polly remains once more and forever behind, and with her heart, Miss Georgie Old, who plays the little circus rider, invests the scenes with "silly" poetry, and her first regains consciousness and realizes her helplessness, the minister's visits to her, at her request, those memorable lines: "Entreat me not to leave thee, for when thou goest I will go, and where thou lodgest, I will lodge." The curtain falls and the story is begun. Pathos is mingled with no less humor than Polly's singing. When she first converses with the minister about his people she calls him a "silly pilot," and talking of her business as compared with his ministerial duties, she says: "One year you give them the rottenest kind of a show and they eat it up; the next year give 'em a knockout and it's a bust." These are random examples, but are nicely put and create merriment. The circus scenes of the third act are revelations. It's all there, the ring, the horses, the clowns and acrobats and everything. The closing scene of the third act is as wonderful as it is beautiful. Yacating One for Patricia

Note and Comment

Regardless of the miles in the final quarter, the holiday lacrosse match at the island was a satisfactory spectacle. Tecumsehs and Toronto played to a draw in the final. There were over 15,000 paid admissions, and the result, in favor of the Indians, should satisfy those who have the interest of lacrosse at heart.

The national game was displayed at its best, and, barring the one lapse near the finish, there was a sporting spirit and class, being especially eager to the occasion when the fricas arrived. They properly meted out penalties, and the contest was brought to a decision.

Tecumsehs were entitled to the victory, due chiefly to the superiority of their goaltender. Kinsman seemed almost unbeatable, and he had likely more shots to stop than his rival in the other nets.

The game should have settled the championship for the year, as Montreal was ahead of National and less than a period to go, the score being 4 to 2. Then the Frenchmen and their supporters became busy, and the mob must go to the committee, and goodness knows what they'll do.

Then they pulled off the world's greatest wrestling match with the usual offensive odor. We now learn that Jack's knee was in no shape, but the crowd paid to see all the same. However, when the Russian Lion heads his body had better look to his laurels. Another match is in order.

A comparison of the physical measurements of the two greatest colored ring gladiators of the present day—Jack Johnson, the champion, and Sam Langford, the challenger—reveals some interesting facts. Those who are inclined to favor Johnson point to the dimensions of both men to back their contention. Johnson has the mathematical advantage in everything but chest and waist, and the Langford adherents base their belief that Langford is possessed of a more expanded chest. Johnson's chest measures 36 inches, his normal and 42 when expanded. Langford's chest measures 36 inches, his normal and 46 when expanded. Langford's great lung power enables him to withstand the wear and tear of a long battle. Johnson's waist measures 30 inches, while Langford's is 35 inches.

The next bout at the Madison-square Garden will take place to-night, when Sam Langford and Joe Jeannette meet in a ten-round battle. This affair is staged as a fight to light the heavy-weight championship, which Langford wrested from Jack O'Brien recently. On whom it would appear as if Langford had matters his own way. But the bar-baby either lies down to Joe or else Jeannette has his goat.

PATRICIA OUTSAILS SENECA IN FIRST FISHER CUP RACE

R. C. Y. C. Defender Beats Her Rival at All Stages—Patricia Looks Like a Sure Winner—The Race.

The Patricia sprung a surprise when she crossed the finishing line half a mile in the lead of the famous Seneca of Rochester in the first race for the Fisher Cup yesterday.

It was conceded that the breeze, which varied from six to ten miles during the day, was all in favor of the challenger, but the Patricia outlasted her at all points and had a commanding lead all the way.

It was a treat to watch the way the Patricia was handled, and the amateur crew cannot be praised too highly for yesterday's work.

The race was as follows: Skipper Goodenham did not attempt to point the Patricia as high as the Seneca at any stage in windward work. He seemed to sail her fuller, taking advantage of her long, easy lines, which mean speed.

The Seneca was the largest of the fleet that followed the two yachts over the course. The Patricia was the fastest of the fleet, and she was the only one to finish in the lead.

Designers Owen was on the winner, and was aided by the death with the performance of the defender.

The race, as seen from the judges' boat, was as follows: The Patricia was the fastest of the fleet, and she was the only one to finish in the lead.

At 10.30 a.m. there was a six-mile breeze from the east. The Patricia was the fastest of the fleet, and she was the only one to finish in the lead.

LEAFS WIN TWO GAMES ON HOLIDAY FROM BISON

Score of Morning Game Was 5-4 While Rudolph Allowed Buffalo 1 Run to Leafs 8 in Second.

BUFFALO, N.Y., Sept. 4.—Buffalo made a very poor start in the "Labor Day" morning game and Toronto went to the front with five runs. These were just enough to win, for the Bisons were again beaten by the Leafs.

The Toronto took the afternoon game by a score of 8 to 1. Corridon and Merritt struggled to hold down the wallop, but were only fairly successful. Rudolph had the Bisons at his mercy. Scores:

TUESDAY MORNING, SEPT. 5, 1911

THEORY, BUT NO PRACTICE.

The Calgary News-Telegram editorial is reduced to barley as the last best argument for reciprocity, and it is the Globe and The Star in yearning for the prosperity of the United States brewers at the expense of Canadian mixed farming.

It has little use for a Canadian nationality if American dollars can be had. So it says:

"An empire of free nations is an inspiring contemplation, a splendid fact. But it cannot endure if it costs a sacrifice. You know it. We will sacrifice the defence of empire; but men will not sacrifice freedom of opportunity to better their conditions while alive. Death has no fears for a brave man; but poverty, or even the absence of independent wealth—it gets our goat. Nationality does not deter a free man when opportunity beckons."

ANYTHING BUT HONORABLE.

Liberal newspapers are reproducing a program of Sir John Macdonald's meeting in the Toronto Academy of Music, Feb. 17th, 1891, with a ring around the fourth plank of the Conservative platform: "An honorable reciprocity." But they place no ring around the other three items, all of which are equally important in their bearing on the situation. The second, especially, contradicts the present Laurier policy. Sir John stipulated for "Canadian tariff independence of all countries," but the Tariff-Fielding pact Canada up to so-called reciprocity which is dishonorable to Canada in principle and would be disastrous in its results.

ISSUES OF THE CAMPAIGN.

If government electoral prospects are to be judged by the behavior of the wavers of the reciprocity flag, they cannot be appraised as high. It has been their fashion to treat the political aspect of the Washington pact as a negligible quantity and to berate its use as at once a bogey and a falsehood. Whether reciprocity involves commercial union or not, is a matter of judgment and opinion, and the arguments in favor of that proposition cannot be brushed aside by a few easily written epithets. Not one of the federal government organs that offer abuse instead of reason as their contribution to the reciprocity controversy has ever attempted to deal with the matter of commercial union on its merits. It is so much more convenient to evade the direct issue and call names as a safe distance.

Free trade between two nations that maintain a protective tariff against all other countries is at all intents and purposes commercial union. It cannot be anything else in substance while the arrangement exists, and the longer it remains in force the more difficult it becomes to revert to the original state of individual independence. To the extent which the Washington pact covers reciprocity means commercial union. It makes the international relationship between the states of the republic and the provinces of the Dominion exactly the same as those now prevailing among these states and among these provinces. If the result is not commercial union of the markets affected, it is the avowed object of the supporters of reciprocity to equalize prices.

That reciprocity means commercial union for a political object is not a baseless charge manufactured by its Canadian opponents. Who, indeed, has been responsible for its prominence but the public men and newspapers of the United States that hailed the Washington agreement as of the greatest importance to the future of the North American Continent? Mr. Champ Clark, the Speaker of the house of representatives, was among the first to declare that it would bring Canada within the republic, and President Taft himself urged its adoption because its rejection would strengthen the movement for closer imperial union. The Hearst newspapers, the close allies of the Dominion Government organs, have aligned themselves with that position, as have many other journals throughout the length and breadth of the United States.

It would be rank folly for Canadians to ignore the view so prevalent and strongly held on the other side of the line. No doubt there have been occasional voices raised in depreciation of any selfish motive on the part of the United States or any design "inimical to the welfare and even the perpetuity of the Dominion," to quote from a recent editorial in The Boston Chron-

icle Science Monitor. But these voices are too rare and individual to offset the sentiment that reciprocity must sooner or later turn Canada from the imperial to the continental sphere. That the reciprocity agreement involves commercial union is an affirmation supported by those who urge for the offer and by those who urge its acceptance. It cannot be a "falsehood" if they are sincere, nor can their Canadian allies dispose of it by that subterfuge.

HON. MR. KING AND THE TRAIN-MEN.

Mr. James Murdock, vice-president of the Brotherhood of Railway Trainmen of America, has given great satisfaction to Hon. W. L. M. King by his endorsement of that gentleman's policy, and by his approval of Mr. King's conduct in connection with the Grand Trunk Railway strike. It is well that someone is setting a counter example to Mr. Murdock, for by all accounts the men whom he is supposed to represent do not cherish that warmth of feeling for him which Mr. King is supposed to entertain. It may be news to Mr. Murdock, but so far as the railway men are willing to express any opinion more dissatisfaction with Mr. Murdock exists among them than even with Mr. King. All thru the strike they have complained of his attitude, and it has been charged that he was more concerned to play the game of the minister of labor than he was to look after the interests of the men. And to be consistent he necessarily appeared on Mr. King's platform and patronized the great little man, according to The Globe, as "Johnnie on the Spot."

Another view of the situation was given in The World yesterday by a railway man in a letter signed "Grit Trainman." The writer has less pleasant things to say about Mr. King than Mr. Murdock had, and it is safe to say that he and his mates will vote as they think. Their actions will be less convincing than Mr. Murdock's kind words, and they will be more effective. This railway man points out, according to the agreement, the men were to be returned to work in ninety days. Twelve ninety did not see them back, and there are many who were never reinstated at all, while the bulk of the men have never been reinstated in respect of their pensions and other privileges. No attempt was made to bring the matter to a conclusion until the near approach of the election made it necessary to make some sort of bluff about settling the matter. Mr. Murdock and Mr. King evidently regard the matter as settled. They will be undeceived after the 21st.

Laurier and larger trusts.

Laurier and Taft and larger markets for the United States farmer.

RIGHTOUSNESS, NOT RICHES.

With the Halifax, N.S., postmark a printed postcard has reached The World, which we reproduce for the benefit of all whom it may concern: Financial disturbance and social unrest is coming over Europe and America. Its effects on Canada will largely depend on you, the editors, as public teachers. If you condone corruption and propagate falsehood, whether thru fear of men or for gain to your self or party, you are a blind leader of the blind. Honor God in your paper, and He will shelter the country, for your sake, in the coming storm. Righteousness, not riches, exalts the nation. What shall it profit a country if it gain the trade of the whole world, and lose the soul of its best leaders? By thy words thou shalt be justified, and by thy words thou shalt be condemned.

BAD FOR PORT ARTHUR.

Here is another big argument for the defeat of reciprocity. The grain trade will be diverted to the south, and Port Arthur and Fort William will be injuriously affected. In The Superior Wks. Telegram last week appeared the following article:

"The opening of the five houses of the Peavey Company in this city awaits the decision of the people of Canada in the reciprocity matter. If the vote favors reciprocity, which is expected, the local elevators will open and grain received for transfer."

"Had there not been so much delay at Washington the agreement would possibly have been enacted in both countries at this time and the local Peavey elevators opened," said Wm. Frick, superintendent of the local Peavey elevators.

"According to Mr. Frick the British-American Company of Canada, which corresponds to the Peavey concern here, is prepared to ship grain to the Superior elevators in the event that the people of Canada see fit to pass the agreement."

"We have many elevators at the Twin Cities, Kansas City, Duluth and other cities which are better equipped than the local elevators of this country. If we can ship our Canadian grain to the United States free of the excessive duty then Peavey grain will again begin to rush here."

"The local Peavey houses, 1, 2 and 3, in St. Louis-avenue and two at the western part of the country can be handled at the big elevator at Duluth. If the reciprocity act is beaten then Peavey grain from Western Canada will be shipped thru Port Arthur and Fort William, the Canadian head of the lakes."

Strawberries in August.

Strawberries in August illustrate the great possibilities that have been long known in the climate and soil of the West. This fruit is being produced in great quantities and excellent quality at Strathmore, Alberta, on the Canadian Pacific demonstration farm. The berries are shown in the open and prove what can be done by the application of up-to-date methods in farming.

RECIPROCITY A MENACE TO RETAIL MERCHANTS

E. M. Trowern Shows That Huge Body of "Middlemen" Must Stand to Their Guns.

E. M. Trowern, secretary of the Retail Merchants' Association, whose views as a body he may be taken to represent, but come strongly against Canada's being rushed into reciprocity with the United States. Mr. Trowern, who has never been suspected of being a Conservative, sees that the interests of the great mass of retailers or middlemen are endangered and in a clearly worded letter to The World, he tells why. This is what he says:

"I notice in a great many reports of speeches that have been delivered, and articles that have been written in the press, on the much discussed question of reciprocity, that the 'middleman' is being charged with being the cause of high living. The 'middleman' is understood by many to be the 'retailer' or the 'wholesale merchant.' Some would lead us to believe that if we could only secure reciprocity—or free trade—which is the clearer meaning on natural products, that this would eliminate the middleman and make produce cheaper to the consumer."

"On behalf of the great body of distributors, I must raise a strong protest against this false system of reasoning. The retail distributors form the largest part of those engaged in the commercial life of Canada to-day, and they form the largest part of the commercial community of every city and town in the world. Take away the retail stores from the cities and towns of Canada, and you destroy Canada. We pay more taxes, employ more clerks, and more drivers, own more horses and wagons, pay more insurance, occupy more buildings, buy more plate glass, and use more electric light, than all the other commercial and professional classes combined."

"Nearly all the manufactured articles, whether they are made in Canada or whether they come into Canada, and upon which we pay duty, find their way to our shelves and remain there for the convenience of the public. No matter how cheap goods can be made or grown, to sell them they must be convenient to those who require them. A basket of fresh strawberries in a clean, convenient grocery store, near the home, waiting for the consumer, is preferable to having to travel away to the fruit grower for them and buy them unsight and unseen, and no reasonable man or woman would object to paying for the convenience. Those who talk about abolishing the 'middleman' or the 'retailer' can have no possible knowledge of great commercial life, and they are certainly unsafe people to follow. If the entire question of the advantages or disadvantages of reciprocity are being discussed on the same basis as the 'middleman' is being discussed, then I think it is time we halted and did some quiet thinking on the subject."

Reason, Not Politics.

"It is certainly unfortunate that a matter of such vital importance to every business man in Canada should have been dragged into the mire of party politics. My only hope is that every man will be honest with himself, that is, he will vote on his reasons, and not be led away by theorists and dreamers and party politicians. If we cannot see the light ahead or if our eyesight is dimmed, and we cannot see the way, let us stay where we are until we do. To deal properly with this question I consider that a board of commerce should have been appointed of capable, independent business men, irrespective of party politics. They should have been given power to call witnesses from all the commercial and producing classes, and their transportation should have been paid by the government, and when all the varied interests had presented their case and the evidence had been compiled, a report from the board showing which side the greatest amount of evidence prevailed, would have given us some valuable data to base an intelligent vote upon, but it is, I think, a sad state of affairs that we are going to plunge into the stream not knowing how deep the water is, and some of us are bound to get drowned."

Wedge of Socialism.

"My attention was first called to the gravity of the situation when I found for the large supposedly intelligent body of farmers from the Northwest visiting Ottawa and pleading with the cabinet ministers to change our tariff conditions, and to this they were demanding that the government should pass the co-operative society bill, which, if they were passed and their intentions put into operation, they would have ushered into Canada one of the most deceptive socialist measures that have yet been transplanted from Europe, and their operations would have strangled nearly every individual trader in Canada. My conclusion is that if these farmers had a little knowledge of the results of reciprocity as they have of the practical working out of the delusive co-operative measures, then it was time we looked into reciprocity and found out what it really means."

A Leap in the Dark.

"My observation and enquiry leads me to believe that very few of us can stand a close searching cross-examination on why reciprocity should be supported and that we have not sufficient commercial data to base a reasonable opinion on, and for this reason I personally object to taking a leap in the dark or be blindly driven, and I shall therefore remain where I am and where I know at least that I am safe. I would advise some politicians therefore not to conduct a campaign until they find out the reason for his existence."

TORONTO'S BEST RESIDENTIAL DISTRICT.

Of the districts now being opened up in Toronto none offer greater attractions than that of the Humber Valley. The boating facilities on the Humber extend for two miles or more to Bloor-street, and this baby sub-division is only about ten minutes' walk from the Bloor-street landing of the "Old Mill."

It is well wooded, thus affording splendid scope for the genius of the landscape gardener, who has in addition, a 5000 feet vista of the river. Pure air will certainly be found, for the property is 100 feet above the level of the city, and the drainage can be found than that in a light sandy soil. Its residential character is assured by the restrictions placed on factories and other undesirable uses of the land, and well defined districts. Rounded corners and streets of ample width—varying from 60 to 100 feet—show ready adaptation to the needs of a modern city, and they have also been laid out with strict provision for the requirements of present-day science and development. Further particulars of the sale appear in another column.

Reo Special \$1,500 (with complete equipment)

The Reo Motor Car Co. of Canada, Limited, St. Catharines, Ontario

Here is a new Reo 30—built for the man who wants to pay a moderate price but wants high-price equipment and the appointments of a high-priced car.

The Reo Special

30-h.p. Five-passenger With Complete Equipment \$1,500

With its large, roomy tonneau, built with graceful lines—beautiful nickel trimmings, deep, comfortable seats, closed-in front, well ventilated and free from unsightly levers—simple control, increased wheel base and large tires, the REO Special has a combination of features not heretofore found in any moderate-priced car.

Special Equipment

Nothing that is needed to complete an automobile has been omitted from the equipment of the REO Special. It has a Prest-o-lite Gas Tank, Electric Horn, Speedometer and Pockets in the tonneau doors. A silk mohair top and slip covers and a complete windshield are supplied, without extra cost. This special windshield, in conjunction with the ventilating shutters in the dash, will keep the front section of the car cool. All these extras which usually add to the cost of a car are supplied with a REO Special—and, remember, all the metal trimmings are of nickel, making a car with beautiful, as well as complete furnishings.

The Control

The new driving mechanism of the REO Special adds much to the pleasure of motoring. It has a left-hand steering wheel, which permits the driver to better gauge distances in passing other vehicles. The clutch and service brake are operated by one pedal—the one at the left, while the emergency brake is operated by the right pedal. The change-gears lever is mounted in the centre of the car, where it can be reached with the right hand—and without bending.

Women the Best Operators.

Women are the best telephone operators, says the manager of the Boston exchange. He says women are more considerate, more careful and quicker to learn the details. The only trouble about them is that they will fascinate somebody over the wire and go off and get married. Even with that consideration counting against them, the Boston manager would much prefer to have women in an exchange than men. He says that hard tests have shown the superiority of women as operators. He's right—Richmond Times-Dispatch.

UNCONVENTIONALITIES.

"You mustn't mind my not asking you to stay to dinner, Mrs. Happendin; there's just about enough roast beef for our own family."

"Yes, that's a beautiful diamond, Jack, dear—if it is a diamond. Let me see the jeweler's bill for it, please?"

Fashion.

Craig Biddle, at a dinner in Newport, defended cosmetics and attacked scandal-mongering in one net epigram. An elderly matron was criticizing certain young girls for using rouge and powder in what she deemed an immodest manner.

"But," said Mr. Craig Biddle, "these girls were educated in France, and over there, as you know, cosmetics are looked on as necessary—the same as we look on bread and meat."

"Nevertheless," said the matron, "I have my suspicions about girls who paint like that."

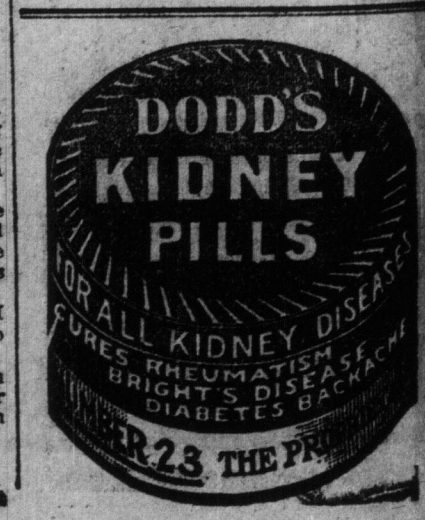

"Well, as for me," the young man retorted, "I think it is far better for a lady to redder her own cheeks than to blacken other ladies' characters."

laugh. The North American Indians, for example, are usually devoid of humor, and when some of the Veddas of Ceylon were asked why none of their people ever laughed they solemnly replied that they never see anything to laugh at. On the other hand, some savages appear to have a more robust sense of humor than their civilized brethren. Dr. Livingston tells of an African tribe who, when dressed in clothes for the first time, "rolled about on the ground in uncontrollable fits of laughter."

More visitors than ever before are coming straight from the station to the Simpson Store this Fair time.

Nor is this to be wondered at, for it is now becoming generally known throughout the country that the Simpson Store is the most convenient place to shop in Toronto. In appointments and service it is equal to a fine hotel, and people coming to town for the day cannot do better than make it their headquarters.

From the cool, airy basement to the spacious restaurant and art galleries on the sixth floor you will find the store full of economies and conveniences. This page is a brief resume of the economies planned for to-morrow.

Here are two Great Values in Women's Ready-to-wear

When values like these are offered it is surprising that we advise you to come early in order that you may not be disappointed?

- Dresses, priced at \$10.00 to \$27.50. Wednesday **7.95**
- Fall Coats, priced at \$18.50. Wednesday **6.79**

The Blanket Sale is in Full Swing

Nothing could exceed the enthusiasm, so far, of the Blanket Sale. The department has laid in a stock of the finest Blankets ever imported into Canada, and the quantities cannot fail to be appreciated. There is nothing very wonderful about the popularity of this sale, when one comes to consider that the Blankets were purchased from the best makers at the right time of the year, and although "quality" was never once lost sight of, we are enabled to make our sale prices far below the recognized price for such goods. Here are a few of the good things offered for Wednesday:
