NINETEENTH YEAR

THE RUIN AT SANTIAGO

American Guns and Gunners Caused Most Terrible Destruction.

VULTURES GIVE GRUESOME EVIDENCE.

The Black Scavengers Fanned the Heads of Those Who Were Digging for the Dead—Flag on Morro Castle Half-Masted, and There is Fear That Evil Has Befallen Hobson and His Colleagues—Great Bravery Shown by a Spaniard—Waiting for the Transports.

SATURDAY'S WAR NEWS PARAPHRASED.

The Associated Press correspondents accompanying the American fleet off Santiago de Cuba announce that a week's operations against the Spaniards have made resistance against the landing of American troops impracticable.

The outer fortifications at Santiago have been reduced, and the outer harbor of Guantanamo is occupied by the war vessels Oregon, St. Paul, Suwanee, eleven auxiliary gunboats and several colliers. Hostilities on the part of the Spaniards have ceased since the destructive bombardment of Wednesday last. The Spanish troops are reduced to half rations, and unless the supply is replenished all provisions will be entirely consumed by July 1.

The vigilance of the Cubans at Guantanamo has resulted in the interception of all messengers sent out by Spanish military authorities.

The American marines still hold the crest of the hill near Guantanamo Bay. Night attacks by the guerrillas have ceased.

The Cubans are proving most valuable allies in the campaign. They are spoken of as daring scouts, brave soldiers and good fighters.

Morro Castle, at Santiago, is regarded as sacred by the Americans, as it met him at the gate leading to the mills, and he informed them that on account of the depressed condition of the market he could not grant the request.

It is said Mr. Edwards was greeted by an announcement of the capture of the mill, and on his saying for those who were willing to go to the mills, about a hundred of the men lined up at the hill gate and refused to allow anyone to enter the mill. Any who were willing to go to work were quickly forced away.

Last night the strikers nearly killed John Stevenson, a bookkeeper of the company. Stevenson attempted to reach the office, and was attacked by several of the men. He received severe blows on the back of the head and neck, and was so badly injured that Dr. Kennedy of Ottawa was summoned to hold a consultation with the local doctors. He returned to the city at noon, and said he thought Stevenson would recover. During the night a posse of 12 Dominion policemen were despatched to Rockland. This morning, accompanied by several clerks and citizens of Rockland, they attempted to force a passage through the strikers to the mill. The strikers, who were lined up along the street leading to the mill, refused to give way, and immediately began an attack on the officers, using sticks and stones as weapons. The small body of police were helpless against the mob. In a short time, though they fired a fusillade of revolver shots, they were compelled to seek shelter. As a resident of Rockland put it to-day, "They were chased." The strikers drove them to the river, when fortunately for the police, they were able to secure shelter in some barges that were loading. All the rest of the day the police have been compelled to remain under cover. The man

Edwards' Employes Struck for Shorter Hours and More Pay—Police Stoned and Driven Off—Military Will Probably be Called On.

Ottawa, June 18.—Six hundred men employed by W. C. Edwards & Co.'s lumber mills, Rockland, are idle as a result of a strike. The strikers are in control of all avenues leading to the mills and refuse to allow anyone to approach. Already there have been several acts of violence on the part of the strikers, a clerk of the company, named John Stevenson, and several Dominion policemen, who went down to Rockland last evening, having been badly injured. In the morning the strike began yesterday. In the morning Mr. W. C. Edwards, M.P., head of the company, was waited upon and asked to come out of the office and receive a petition from the men. He did so, and was presented with a petition asking for shorter hours, more pay and payment for absent days, but were paid for one hour extra. They have been receiving their wages monthly. Mr. Edwards promised the petitioners he would give them an answer at noon, and accordingly did so. They met him at the gate leading to the mills, and he informed them that on account of the depressed condition of the market he could not grant the request.

It is said Mr. Edwards was greeted by an announcement of the capture of the mill, and on his saying for those who were willing to go to the mills, about a hundred of the men lined up at the hill gate and refused to

TALK OF DISSOLUTION.

Messrs. Tarte and Blair Want an Appeal to the People.

A BLUENOSE POLITICIAN GIVES REASONS

Why He Thinks Matters are Shaping for a General Election—Liberal Machine Expects to Get Along Without a Majority in Ontario—Traffic Manager Harriss of the Intercolonial Has Been Retired—New Palace Cars for the Government Road—Montreal News.

Montreal, June 19.—(Special.)—Rumors of dissolution of Parliament are again rife in political circles, and a gentleman who has taken part in many election contests in New Brunswick gives the following reasons for his belief in an early appeal to the people: He declares that Hon. Mr. Blair has had money voted for counties that would never have received such attention had a general election been a good way off, and he adds that these same New Brunswick constituencies have been set down all along by the Liberal machine from that province as capable of being captured from the enemy. He says that Tarte and Blair are clamoring for a dissolution, and that Fielding is quite indifferent in the matter.

"But what about the Ontario members?" he was asked.

"They don't count," was the reply, "as Tarte has made Laurier believe that he can carry fifty out of the sixty-five Quebec seats, and with a gain from New Brunswick and Nova Scotia, they can do without a majority from Ontario."

Mr. Harriss Has Been Retired.

Mr. Arthur H. Harriss, General Traffic Manager of the Intercolonial Railway, has been retired, and Mr. David Pottinger will have supreme command. It has been understood for some time past that Mr. Harriss was as good as out, yet Mr. Blair did not want the knife to drop until he had got out of sight of land. The Minister of Railways

"SEND ON PROVISIONS OR BOARDS TO MAKE COFFINS!"

Newfoundland Blockaded by Ice—Supplies Cannot Get in and People are Starving.

St. John's, Nfld., June 19.—The British steamer Avonia, bound for Pelly's Island, to load ore for Philadelphia, has arrived here, after four days confinement in northern ice floes. She reports that the coast is covered with ice fields, and that there are thousands of icebergs along the coast. She also reports that four tramp steamers are blockaded at Twillingate, and that the mail boat Virginia Lake is also blockaded and is unable to reach White Bay with provisions for the destitute fishermen. Heartrending reports of suffering and starvation are reaching this city from French shore settlements. Seven people are reported to have died of hunger in St. Anthony, where the poor are living on dry thistles, while the rest are nearly dead. They informed the captain, who gave them some provisions. They said that if they failed to get back within a week all their families would be starved to death.

Another case is reported, where a family had been existing on a loaf of bread for six days. The Rev. John Lynch, a Catholic priest, residing in Conche, despatched a messenger to Tilt Cove with a telegram begging for these appalling words: "Send on provisions at once; if not, boards to make coffins!"

Destitution is also reported in Salmon Cove, Perry Cove and other places in the Bay de Verde district. The weather is bad and trade is unusually depressed.

NEW PROGRAM DECIDED ON.

If Great Britain is Not Supreme in Naval Equipment She Must Be Made So at Once.

New York, June 19.—The London correspondent of The Evening Post says: "The Government apparently has yielded to the importunities of the naval armistice, like Lord Charles Bessford, and the forward section of the Ministerials. To these Mr. Chamberlain and Lord Salisbury's confession that England dare not defy France and Russia in defence of the policy of an open door in China and West Africa, was bitterly humiliating. If, they France and Russia are not capable of meeting cruisers and 20 destroyers at a cost of not less than an extra \$80,000,000 for 1899, to meet the Russian seven-year appropriation of \$38,000,000.

KNOWS WHAT IT MEANS.

The President is Aware What a Reverse at Santiago Would Mean and is Taking Precautions.

New York, June 19.—(Special to Toronto World.)—A Washington special to the Herald says: "Every reasonable precaution has been taken to guard against the failure of General Shafter's expedition, for the President realizes that the whole course of the war may be changed by the result of the battle at Santiago.

Anxious About Hobson.

New York, June 19.—A Washington official to the Herald says that the officials of the Navy Department are awakened to Cervera's part and their confidence in what he may believe was a clever man on assurance that Hobson and his men are being well cared for is weakening. The being well cared for is gaining ground that Ordevisio visit to Sampson after the sinking of the Merrimac was not because of Spanish aid in the bombardment of American bravery, but to ascertain the chances of escaping.

HOW HAVANA RECEIVES SUPPLIES.

Large Ships Take Them to Isle of Pines, and at Night Batabano.

Port Antonio, Jamaica, via Kingston, Saturday, June 18.—Well authenticated reports reach here that Havana is receiving supplies through Batabano, on the south side of Cuba, opposite Havana. The supplies are taken to the Isle of Pines, off the south coast of Cuba in large ships, and are carried across at night in small boats to Batabano, and from there are taken to Havana, a distance of 25 miles, by rail. The American commercial agent at Port Antonio has notified the Washington Government that this is going on.

It is also impossible to get provisions on the island of Jamaica, all supplies being sold to a Spanish agent. The Spanish coast at Kingston is enforcing high prices, spot cash, for provisions.

The Spanish steamer Purissima Concepcion, which left Kingston, on June 16 with a cargo of provisions for the south coast of Cuba, cleared for Santiago de Cuba, but is supposed to be bound for Batabano.

An English newspaper correspondent from Havana arrived here yesterday. He says there are ample supplies of all kinds except flour in the city, and supplies are constantly landed at Batabano. The American blockade at that point, he says, amounts to little.

NEWSPAPER RIGHTS IN NEWS.

Mr. F. R. Dally Proposes a 24-Hour Copyright in Order to Get Round the Vexed Question.

London, June 19.—F. R. Dally, the well-known copyright expert, has made an important proposal before the select committee on copyright. He urged that the vexed question of newspaper rights in news be fairly met by a 24-hour copyright. He promised that his views would be corroborated by the manager of The Times, whose demand for a perpetual copyright has been a great obstacle to this step. It seems probable that copyright in news will be established after nearly 60 years' agitation.

ROSSLAND MINES BOOMING.

War Eagle Shipping 200 Tons of Ore a Day.

Roseland, B.C., June 19.—(Special.)—Ore shipments for the week: War Eagle 1007 tons. Monte Cristo 120 tons. This will be largely increased when the spur line from the railway is finished. Iron Mask 100 tons. Centre Star 45 tons. The Trail smelter will be in operation in two weeks. War Eagle will immediately ship 1400 tons weekly. One hundred and twenty-five men are now working in the Le Roi. Only development work is being done. In about a month this mine will employ 275 men, and ship in greater quantities than ever. The latest assays give \$25 to \$50 gold, and as high as 20 per cent. copper.

It is learned that a cross cut for the Virginia Ledge is being run from the 900 foot level. They expect to strike the ledge in a few days, and are already in strings of ore.

Five tons of Deer Park ore was packed on horses to the railroad and shipped to the smelter. Fifty dollars values are expected.

The White Bear resumes shortly. Early advances are expected in the prices of Iron Mask, Monte Cristo, Virginia and Deer Park. A.R.M.

TREATED LIKE DOGS.

A Man on the Spot Tells of the Troubles of the Crew's Nest Laborers.

A Government official, writing to Toronto from McLeod, N. W. T., under date of June 12, says: "I see the Government are looking into grievances of the men at work on the Crow's Nest Railroad, and it really is pretty near time something was done, as some of the men are treated more like dogs than human beings."

A Live Wire.

Quite a sensation was caused Saturday evening by the breaking of a trolley wire opposite Toronto-street, on King. The immediate cause of the break was not ascertained at the time, but the general opinion is that Sward's cut-fine sale of any tie in his stores Saturday and to-day for 25c had something to do with it.

WHEN IN TORONTO STOP AT THE BODEGA.

Elegantly furnished rooms. All modern conveniences. 36 Wellington-st. East.

Antiseptic Spruce Fibreware protects its contents from decay and from contaminating surroundings; these small pills are very cheap and are now greatly used for packing butter, lard, mince and jellies. The E. B. Eddy Co., Limited, Toronto Branch 38 Front-st. west. 125

COOK'S TURKISH BATHS.

204 King West. Open all night. Bath and bed \$1.

A BATHING BANK STOP.

Said a broker to The World on Saturday: "You may talk about the 'bathing bank' investment in Ontario Bank, which is three or four points above par, and which promises to go to 150 before another year. Directors in other banks are buying Ontario stock."

COOK'S TURKISH BATHS.

204 King West. Open all night. Bath and bed \$1.

FOR STYLISH WEDDINGS.

Be certain of having the very choicest and most charming of bridal flowers. Order from Dunlop's. Dainty and effective arrangement of flowers is Dunlop's specialty. 5 King-street west and 1427 Yonge-street.

DEATH AND DESTRUCTION.

Appalling Result of the Bombardment of Santiago—Vultures Hovering over the Scene.

On Santiago de Cuba, Saturday, June 18, noon, via Kingston, Jamaica, Sunday, June 19.—A careful inspection of the fortifications along the crest of the hills defending Santiago Harbor since the bombardment Thursday morning, shows that the American gunners showed wreck and ruin everywhere. Some of the batteries were demolished beyond repair. The vultures which circled on level wings over the hills as thick as swallows around a chimney for hours after the firing ceased, furnished

SHELLING GUANTANAMO.

The Unfortunate Town Subjected to Further Destruction—Santiago Harbor Entered.

Mole St. Nicholas, Saturday, June 18, 6.30 p.m.—News from Guantanamo on this morning shows that naval operations there continue most active and with the advantage on the side of the Americans. Yesterday morning at 9.30 o'clock the American vessels resumed the bombardment of Guantanamo town, and in the course of one and a half hours, threw into the town 75 shells, a great majority of which appeared to have been effective. Six of these shells were 13 inch projectiles, eight 8 inch, and the others were smaller. The

- All-Wool Brown Tweed Suits, sack coats, double breasted pants, strap and buckle at knee, reg. \$4.50, reduced to 3.50

There isn't an unworthy suit among the lot and a sight of the goods will tell more of the value than a page of newspaper talk.

THE RUIN AT SANTIAGO.

considerable delay, as the surrounding country must be thoroughly shelled and cleared before the troops can land in safety.

When the Admiral Sampson yesterday received advice that upwards of 30 transports would be here to-day (Saturday), he

groomed evidence of the fatality among the Spanish soldiers. Hundreds of bodies could be seen from the ships digging in mounds of earth, piled up by the explosion

of the projectiles from the heavy guns, for bodies, while their heads were fanned by the wings of the black scavengers of the battle field.

There were two spots, one on the east and the other on the west of the harbor, which were densely covered with foliage. The hill tops were literally blown away.

There was evident demoralization among the Spanish troops during the bombardment. Officers could be seen with drawn swords driving the men to the guns, but

even then they could not be forced to stay so long as the American guns were directed at them. The 15 minutes' night work of the Spanish troops was shattered by the shells.

It is believed that some of the 15 inch projectiles fired from the Texas, which were reported to have exploded the powder magazine at the battery, but went below and blew up one of the ships in the harbor.

A dramatic incident of the bombardment was the act of a Spanish officer, who bravely ran along the parapet in view of heavy fire, encouraging his men to stand by their guns.

From the forest of the Brooklyn, 200 yards distant, the men in the grounds could be noticed, but a minute later they were flying debris would take their lives, and when the smoke would clear away

it was the most deadly and destructive bombardment of the war thus far. Scarcely a shot from the big guns of the American fleet was not seen to strike the Spanish batteries.

There were no casualties in the fleet, although the ships held a fixed position, as if they were in a battle. The half-stripped ships' gunners never worked with more enthusiasm.

It was the most deadly and destructive bombardment of the war thus far. Scarcely a shot from the big guns of the American fleet was not seen to strike the Spanish batteries.

NEWS FROM STIKINE.

Prof. Dennis of Princeton University Has Had Luck and is Mad-After-Forester Battered.

Vancouver, B. C., June 18.—(Special.)—One hundred and fifty employees of McKinnon & Mann's projected railway (dubbed Stikine) returned by the C. P. R. steamer today.

The Glenora News of June 15 announces that the C. P. R. will build a wagon road at once, to be used later for a railway. It will be a branch line from the main line at Hazelton.

Wrangle papers report a stabbing affair in Hazelton. A man named A. Barker was stabbed in the back by a man named J. Stabler, a man four times his size, who was taking notes of what is going on under the surface.

TENDERS.

TORONTO PUBLIC SCHOOLS TO BUILDERS AND CONTRACTORS

Sealed tenders, whole or separate, will be received addressed to the undersigned up to Monday at 10 a.m., June 27th, 1898.

For the several works required for the enlargement of the following schools: BROCK AVE. DEWSON ST. CLINTON ST. GIVENS ST. DUFFERIN. RYERSON.

Also for the usual midsummer Repairs, Alterations and Improvements in all trades at various other schools.

Plans and specifications may be seen and all information obtained at the office of the Superintendent of Buildings, Mr. C. H. Bishop, on and after Monday, the 20th inst., between the hours of 8 a.m. and 5 p.m., including Saturday.

Each tender must be accompanied by the deposit mentioned in the said specifications and forms of tender.

The lowest or any tender will not necessarily be accepted.

JAMES BURNS, Chairman of Property Committee.

ESTATE NOTICES.

IN THE ESTATE OF THE Toronto Public Schools, Limited, insolvent.

The insolvent has made an assignment of his property to the Receiver in Trust for the benefit of creditors under R.S.O., 1897, Chap. 147.

A meeting of creditors will be held at the office of the Trustee Corporation of Ontario, Toronto, on Tuesday, the 21st day of June, 1898, at the hour of 2 o'clock in the afternoon.

For the appointment of inspectors of the estate of the insolvent, and for the fixing of the amount of their remuneration, and giving of directions with reference to the disposal of the estate, all persons claiming to rank upon the estate will be distributed, having regard to their claims only of which notice shall have been given to the Receiver.

THE PROVEUR MELBONNE called at the Receiver's office on Saturday evening, June 19th, 1898, and was admitted to the Receiver's office on Sunday morning, June 20th, 1898.

There are a few good open dates in July for excursions to Grimsby Park by the Toronto and Grimsby Railway.

The Christian Endeavor in connection with Central Presbyterian Church last evening sang the following hymns:

1. "The Light of Time" 2. "The Light of Time" 3. "The Light of Time"
