Didn't Mean it That Way So Vote Shouldn't Count

**McIntyre of Perth Tells House
His Opposition to Amendment
Did Not Make Him Favor
Second Reading—But Sir
Wilfrid Understands His Posi-
tion and so Will Others.**

Ottawa, May 4.—(Special).—After the stormy session of yesterday the proceedings of the house of commons today were peaceful in the extreme. The inevitable reaction was apparent, and the attendance very slim. A number of the Ontario members have left for their homes. Many are waiting tonight for Woodstock to attend the funeral of the late Mr. Sutherland, and the faithful few that took up the financial clauses of the autonomy bill in committee were not at all disposed to be argumentative. A magnificent wreath was placed on the desk of the deceased minister of public works.

The member for South Perth, Mr. McIntyre, who tried so unsuccessfully to straddle the educational fence, and who raised an interesting point of privilege. He complained that as the second reading was carried on the same division reversed, he was placed in the wrong position of having voted against the bill. He did not like it at all, in fact, he stated so plainly.

"Here I have been speaking one way and apparently voting another," he commented sadly. "I don't want my constituents to think I was guilty of that."

Sir Wilfrid pointed out to his Liberal ranker that no one having objected to the main motion being carried on the division reversed, it went that way on record. "I think every one understood the position of the speaker," he added smilingly.

Mr. Borden: "If hon. gentleman had risen and demanded a vote, there would have been no necessity. He added that the practice of reversing the division without taking a new vote was adopted for the convenience of the house."

Mr. Ingram protested against an omission in voting and against the division on the amendment. In his opinion the names should have been added to the second reading, substituting "years" for "days" which was the usual practice.

Mr. McIntyre would be placed in a false position. "If that were done, Mr. McIntyre would be placed in a false position."

"Haven't the other 199 members who voted any rights?" retorted Mr. Ingram.

"No," added Mr. Bennett. "Only minorities have rights. This caused a laugh, and Mr. McIntyre was left to think of the false position in which he stood, brought about by his own excessive smartness."

Debate the Finances.
The house then went into committee of the whole on the financial clauses. The debate brought out a general dissatisfaction in each side of the house with the present system of provincial subsidies. It led to frequent appeals for increased autonomy.

Mr. Fielding, who was disappointed at the present system, confessed he could not inaugurate a new and better one after some debate. Mr. Sproule suggested the present system, having practically failed in the past, having a new one should be tried in the Northwest. The reply of the premier was that it hadn't failed in the Northwest for the reason that it had not yet been tried.

The following are the financial clauses considered. Nos. 1 and 2 passed. Mr. Fielding, announcing that he intended to introduce an amendment in the phraseology of No. 3 to avoid any future trouble.

The Meaning of Them.
No. 1 resolves that the following amounts shall be paid to the provinces: (a) to the Province of Alberta, and shall be paid by the government of Canada, by way of a grant in advance, to the said province, that is to say—(a) for the support of the government and the maintenance of the said province, and (b) on an estimated population of two hundred and fifty thousand, at eighty thousand dollars, subject to be increased as hereinafter mentioned, that is to say—A. The amount of the province shall be taken, in every fifth year, reckoning from the general census of 1901, and an approximate estimate of the population shall be made at equal intervals of time between each quinquennial and the next, and whenever the population, by any such census or estimate, exceeds two hundred and fifty thousand, which shall be the minimum on which the said allowance shall be calculated, the amount of the said allowance shall be increased accordingly, and so on until the population has reached eight hundred thousand souls.

Rate of Interest.
No. 2 resolves that inasmuch as the said province is not in debt, it shall be entitled to be paid by the government of Canada, by way of a grant in advance, to the said province, that is to say—(a) for the support of the government and the maintenance of the said province, and (b) on an estimated population of two hundred and fifty thousand, at eighty thousand dollars, subject to be increased as hereinafter mentioned, that is to say—A. The amount of the province shall be taken, in every fifth year, reckoning from the general census of 1901, and an approximate estimate of the population shall be made at equal intervals of time between each quinquennial and the next, and whenever the population, by any such census or estimate, exceeds two hundred and fifty thousand, which shall be the minimum on which the said allowance shall be calculated, the amount of the said allowance shall be increased accordingly, and so on until the population has reached eight hundred thousand souls.

No. 3 resolves that inasmuch as the public lands in the said province are to remain the property of Canada, there shall be paid by Canada to the said province annually by way of compensation, therefore a sum not exceeding the estimated value of such lands, namely \$37,500,000, the said lands being assumed to be of an area of 25,000,000 acres and to be of the value of 75.00 per acre, and upon the population of the said province, as determined by the last census, such sum to be arrived at as follows: The population of the said province being assumed to be at present 250,000, the sum payable until such population reaches 400,000 is to be two per cent. on such estimated value or \$750,000; and thereafter such payment is to be three per cent. on such estimated value, or \$125,000.

No. 4 resolves that as additional compensation for such lands there shall be paid by Canada to the said province annually for five years to provide for the construction of necessary public buildings, one-quarter of one per cent. on such estimated value, or \$23,750.
The house adjourned at 6 o'clock.

LEWIS TO TEST OPINION FROM A RELIGIOUS ASPECT

**Hon. L. P. Pelletier May Contest,
After Calling on Authorities to
Admit Satisfaction.**

Montreal, May 4.—(Special).—It is said that Hon. L. P. Pelletier, ex-M. L. A. for Dorchester, and perhaps the best French-Canadian platform speaker, will stand in Lewis and test public opinion in the province on the school question. Hon. L. P. Pelletier, Hon. Thomas Chapais and Hon. Senator Landry have been putting up a vigorous campaign in L'Evenement on the school clauses, and this candidature is the result.

Mr. Pelletier and his friends, who claim that the Roman Catholics have been completely goldbricked in the educational clauses, will call upon the religious authorities to say if they are all satisfied or not regarding the school question. Hon. L. P. Pelletier, Hon. Thomas Chapais and Hon. Senator Landry have been putting up a vigorous campaign in L'Evenement on the school clauses, and this candidature is the result.

SHERIFF TAKES COMMAND PEACE PROPOSALS FAIL

**Governor Refuses Employers Request
for Militia, But Federal Troops
Will Guard Currency Wagons.**

Chicago, May 4.—(Special).—Sheriff Thomas E. Barrett, the chief peace officer of Cook County, in response to an impassioned appeal from more than three hundred leading business concerns of Chicago, has taken command of the forces that will endeavor to stop violence and disorder occasioned by the teamsters' strike. The sheriff at 2 o'clock this afternoon began swearing in deputies. At 4 o'clock to-night he had an added force of more than 400, which can be doubled to-morrow if occasion demands. The sheriff's action was taken after a conference with Mayor Dunne, the state capital police and approval of the city's chief executive.

Meanwhile, members of the executive committee of the Employers' Association were speeding to Springfield with a formal request to Governor Deane to call out the state militia. This committee arrived at Springfield at 5 o'clock, and held a conference with the governor soon afterwards. The governor declined to order troops to Chicago, stating that he had received no call from the authorities.

Employers' West' Farley. Attempts of the strike leaders to-day to get the employers to agree to arbitration to settle their differences met with a flat refusal. Thru the instrumentality of B. F. Shadley of the state board of arbitration, a conference was arranged during the afternoon between representatives of the warring elements. President Shea of the Brotherhood of Teamsters was ready to discuss all differences to-day, but insisted that the men on strike should be reinstated in their former positions. "We will not discharge any competent man now in our employ," said Lloyd Mayer, counsel for the Employers' Association. "Neither will we arbitrate our right to the use of the streets to carry on our business."

Rumors that the Union Traction Co. would become involved in the strike between the Peabody Coal Co. and fifty more teamsters were added to the roll of those on strike, bringing the total of strikers up to 427.

Rioting Continues. There were small riots in various parts of the city during the day, and upwards of a dozen persons were hurt, but the number of casualties and the violence displayed were not as great as that of the preceding days. Shots were fired during an encounter between non-union teamsters and strikers early in the day at the Hub station. Nineteen men were injured, and several were shot in the hand, and another man cut about the head. Volleys of stones were hurled, and several policemen and drivers were struck.

MACHINIST STRIKE IMPENDING. Grand Trunk Men Say Superintendent Held Too Long to Avoid Conference.

The air around the local Grand Trunk machine shops was heavy all day yesterday with the feeling of an impending strike. The reason was the failure of Mechanical Superintendent Kennedy to meet the representatives of the machinists at the city office during the morning. They were told that the mechanical superintendent was out of the city.

There is a feeling among some of the machinists that Mr. Kennedy, who is said to have gone out of the city, is making a mistake. They believe that he will remain for a day or two, left Toronto in order to sidestep the men's representatives.

A meeting of some of the officers of the machinists was held at 10 o'clock to-night. Mr. Champion was not present. William Boland said he was out of the city, but he was instructed to prepare an amendment to the Toronto and York Radial Railway Co.'s bill now before the provincial parliament, providing for the entrance of the Toronto and York Radial lines to a common terminal in the city.

BUILDERS LABORERS DETERMINED
No Decision on Strike Question, But Will Maintain Demands.

The laborers employed in the building trades will not go out on strike for the present at least. The mass meeting held at the Labor Temple to-night filled the large assembly hall and for two hours the situation was discussed. The strikers closed ranks and afterwards maintained as to the details, but it was stated that nothing would be done until the situation was resolved to their satisfaction.

"We aren't going out on strike yet," remarked one of them. "But I'm going to come to that," which was endorsed by several who heard the remark. The situation therefore remained unchanged, unless it be that the builders' laborers are more set on their demands. No date was set for a further gathering.

The West Rejoices in Heavy Snowfall As Sure Harbinger of Bumper Crop

Winnipeg, May 4.—(Special).—All Manitoba rejoices to-day to see the ground carpeted with snow and the roads rotten with slush, for not only were farmers badly needing moisture to bring on the crops, but such a fall of the "beautiful" under similar conditions is regarded as a sure harbinger of a bumper crop.

The fall has been general all over the province and eastern Assiniboia, covering the entire district where it is needed. In 1887, when the Canadian west reaped its first record crop, there was some eight inches of just such snow as is falling to-day, during the first week of May, and the weather preceding it had been very similar to that of the present year.

SHAM FRIENDS OF PUBLIC ALLIES OF THE RADICALS

**How Corporation Influence Has Saten
Into the Municipal Government
of York County.**

The agitation which has been re-named by the Radial Railway Companies is significant in more than one respect. It is significant as showing that a number of the municipal representatives in the County of York, have more regard for the interests of the railway than they have for the interests of the public. The meeting held the other day was an eye-opener to the County of York. A large percentage of those who spoke in favor of forcing an increase in the City of Toronto for the radial lines were there as the friends of the company. Corporation influence has got its grip on the municipal government of York County and of the townships. And the influence of the company reaches farther than the municipal representatives of the people. It reaches officials who are paid to serve the public.

The Corporation Grafter.
The corporation grafter has long been known in the Canadian legislature. His presence is always felt when a company's applications are up for consideration. Upon such an occasion he constitutes himself a special pleader on the case in hand. The people have been un-nerved by the plausible platitudes of these representatives, but it must be admitted that the electors are at last awakening to the fact.

While those whose business it is to obtain valuable concessions from the people are not a mere nuisance, they have confined their main exertions to the higher legislative bodies, they have not been unusual of the smaller ones. It must be admitted that the interests of corporations and municipalities seldom, if ever, coincide. "Improving the size of the grab" is the motto of the corporations, and evasion, concealment and agreement, their daily occupation. Under these circumstances it is utterly impossible for the people's representatives to act in the dual capacity of employees of the companies dealing with their municipalities, and for the people at one and the same time.

What do we find in the County of York? Nothing but specific instances of the very facts. The dealings of the York Radial Railway Co. have Continued on Page 2.

EARL GREY COMPLIMENTS THE SUNDAY WORLD
His Excellency Says the New World is "Quite Excellent"—Read His Letter.

GOVERNMENT HOUSE, OTTAWA.
I am desired by the Governor-General to thank you for your kindness in sending His Excellency the first two issues of The Toronto World supplement.

His Excellency is very glad to have seen them and thinks the work quite excellent.
Yours faithfully,
ARTHUR F. SLADEN.

His Excellency has a greater trust in store for next Sunday's Toronto World will contain an engraving in which he is a central figure, that transcends any picture of a Toronto exclusive social function ever before published.

A timely and very interesting feature will be a fine portrait of the late Mr. George Gooderham and a picture of "Waverley," the handsomest private residence in Toronto.

Many other up-to-date features make an ideal newspaper.

New York, May 4.—The greatest crowd that ever gathered to see a horse race in America was at Belmont Park today to witness the sensational running of the Metropolitan Handicap, in which James H. Keene's highly-bred 3-year-old Sysonby, and O. L. Richard's 4-year-old Race King, finished in a dead heat.

The race was run on a track which had been laid out for the purpose of testing the speed of the horses, and the result was a remarkable finish. The time was 1:41 3-5, which is a record for this distance.

Colonial Girl, the favorite, was scratched, and Delhi, the second favorite, was also scratched. The race was a great success, and the crowd was very large.

The race was a great success, and the crowd was very large. The result of the race was a dead heat between Sysonby and Race King.

Taste and Try Before You Buy

In order to more fully demonstrate the possibilities of the Card Index System applied to your own business and incidentally to give you a "taste" of Macey quality, we are offering a little outfit, consisting of a handsome polished quarter-cut oak, tray 14 inches long, complete with 300 3x5 best linen record cards, plain and ruled, of daily and weekly use, for \$1.00.

This will prove of inestimable value in many ways, such as turning inquiries into sales by follow-up system, list of customer's perpetual stock records, etc.

Just telephone Main 862 for a copy of this morning "on suspicion."

Buffalo Won Final Game

Pitchers' Battle, By 2-1

Newark Lost—Montreal Beat Rochester—Baltimore Won From Providence.

Milligan and Falkenberg fought it out in the final Buffalo game on Thursday and the Buffalo twirler had a little the better of it. Both pitchers had excellent control. The Blues got the winning run in the ninth on Todd's drop of the ball.

Montreal evidently are picking up some; they after Rochester, 4 to 0. Buffalo secured a one run victory over Providence and as a result take second place in New York City. The standing:

Team.	Won.	Lost.	Pct.
Buffalo	7	1	.875
Baltimore	5	3	.625
Newark	4	4	.500
Rochester	3	5	.375
Providence	2	6	.250

Back Stove Co. vs. Guelph Foundry Co. Over Patents.

The Buck Stove Co. of Brantford yesterday applied for an order to seize certain patterns held by the Guelph Foundry Co., which the latter company agreed a year ago to destroy.

The Buck Co. found for an infringement on its patented "Happy Thought" design by the "Grand Idea" stove made in Guelph, and the case was discontinued on an agreement to destroy the patterns.

The patterns were promptly torn to shreds, and a suit resulted. The judge ordered that a lane for access to the property must be allowed.

De La Plante & Co. of Toronto have appealed their action against George Tennant of Brantford for failure to deliver 600,000 feet of lumber as agreed. The Divisional court set aside a judgment in their favor by Mr. Justice MacMahon.

The Divisional court dismissed the appeal of the Toronto Limestone Co., which was ordered to pay \$1000 to James Cammford for injuries received by a workman.

The Crown Bank secured an injunction for a week restraining the Davies Brothers Co. from selling or disposing of the company, and from collecting book debts assigned to the bank.

Chas. H. Verral is suing the city for \$5000 for injuries sustained on Woolesey-street, due, as is alleged, to defective lighting.

Employees Put Out

Fire yesterday morning in the Adams harness factory at King and Frederic-streets was extinguished by employees before the fire department arrived.

Some loss was done by the lavish use of water, but the fire department saved the company and from collecting book debts assigned to the bank.

If You Would Be Well You Must Keep Your Kidneys Well.

Help them to work freely. Help them to flush off all the body's waste and impurities.

Doan's Kidney Pills

Are for this purpose only.

Have you suspected your kidneys as the cause of your trouble? If you have backache, swelling of the feet and painful sensation when urinating, specks floating before the eyes, great thirst, brackish deposit in the urine, or anything wrong with the urinary organs, then your kidneys are affected.

It is really not difficult to cure kidney trouble in its first stages. All you have to do is to give Doan's Kidney Pills a trial. They are the most effective medicine to be had for all kidney and urinary troubles.

Mr. Mary Calley, Auburn, N.S., was cured by their use. She says: "I was troubled in my first stages. All you have to do is to give Doan's Kidney Pills a trial. They are the most effective medicine to be had for all kidney and urinary troubles."

TO LIST ONTARIO CONSOLS IN GOVERNMENT INTENTION

Creation of Provincial Stock the Object of Col. Matheson's New Financial Bill.

The feature of yesterday afternoon's session of the legislature was Col. Matheson's explanation of the steps the government have taken to provide for loans for the completion of the Temiskaming Railway and for other purposes. The resolution and the two bills providing the machinery for floating these loans were taken up in turn.

One bill is entitled "an act respecting the Consolidated Revenue Fund, and the raising of loans authorized by the legislature." It provides that the government may create a permanent provincial stock to be known as the Ontario government stock, and shall be personal property, and the said stock and the interest thereon shall be chargeable upon and payable out of the Consolidated Revenue Fund. The stock shall not be paid off before July 1, 1905.

The government may make regulations as to the debt and payment of interest, and may appoint one or more fiscal agents in London, England or elsewhere, and agree with them as to the rate of compensation for negotiating loans. It is provided that loans may be raised by the issue of debentures or by the issue of Ontario government stock, bearing interest not exceeding 4 per cent. The government may provide a sinking fund for the payment of the principal and interest on the said debentures or on the said stock, and may issue exchequer bills or bonds or treasury bills.

The government may direct that the whole or any portion of the stock of the province issued or subscribed and forming the whole or part of the public debt of Ontario be inscribed and transferred in a register kept in the United Kingdom, and may take steps to record such inscribed stock or any portion thereof in the books of the Bank of England, and may issue exchequer bills or bonds or treasury bills.

The government may direct that the whole or any portion of the stock of the province issued or subscribed and forming the whole or part of the public debt of Ontario be inscribed and transferred in a register kept in the United Kingdom, and may take steps to record such inscribed stock or any portion thereof in the books of the Bank of England, and may issue exchequer bills or bonds or treasury bills.

"ONLY ORNAMENTAL FOLIO" AT HEAD OF TELEPHONE CO.

Str. William Mulock's Quest for Witnesses and How it is Rewarded.

Ottawa, May 4.—(Special)—Acting on the suggestion of W. F. McLean, the telephone company to-day decided to summon the New Brunswick Telephone Company (the local branch of the Bell in that province), to lay before the court a list of witnesses.

The 15 Woodstock, Ont., telephone company, which is a subsidiary of the C. P. R. and other transportation companies regarding exclusive rights in the use of the telephone system, etc.

An amusing incident occurred when the matter came up. "We had better summon the president of the company," suggested Mr. Mulock. "I think it is Mr. William Mulock of expert danger," Mr. Dugger smiled. "I think it is Mr. Mulock," Mr. Dugger smiled.

"Oh, my," ejaculated Mr. William, "who is the vice-president? I forget his name," was the reply.

"Oh, these are only ornamental folios," Mr. William, smilingly, "Petter summon the secretary-treasurer and let us have a man who knows something about the telephone system."

It was decided that the examination of C. M. Hays and D. McNeill should be in the hands of Mr. Chrysler, the committee's counsel.

After that examination the members of the committee went to the telephone company, limited, to question the railway magistrates. The same arrangement will be made for the examination of the telephone company, limited, on Tuesday next.

A letter was received from D. W. Bole, member of the telephone company, limited, for Winnipeg, favoring the telephone company, limited, to lay before the court a list of witnesses.

The committee will meet again on Tuesday next.

While the mail carrier of postal wagon was passing the letters at the Queen and Yonah's house, his horse took a few paces forward and peacefully devoured a dozen or so of bananas from one of the carts along the road. The owner of the bananas, a certain John, who was riding the horse on the nose. The driver punched the horse on the nose, and the horse, horse, and peace was restored by no means.

After I join my fellow-countrymen in Quebec, and my fellow-countrymen in the maritime provinces and of the west in an earnest wish to see this country become great and united. But we wish to see it united and united on sound laws. And there and on the horse being allowed to finish up the bananas he had spoiled.

country as it is to-day, with diverse races and diverse religious professions, we have to do it respectfully, and with care and according to one another's wishes and the general expression of the wishes we hold. And it is in that spirit that I am addressing the house to-day. I know that I have been the cause of some of the discussion. I know that in some way, the people of this country have been made to assert their freedom to deal with the schools question as they will. We have been made to consider the various conditions upon them if they fit to refuse to carry them out. FOUR SET OF RULES
IN WIFE'S BEDROOM

Rapids, Mich., May 4.—In her room in her divorce case against H. Pailing, Florence Pailing said that her husband compelled her to comply with a typewritten set of rules which he had posted in their bedroom, and that she read them every morning upon arising. One of the rules prohibited her mother; another was that she was not to be in the bedroom because he had "communicated with God; and he knew what she was doing."

Mrs. Pailing was granted a decree.
