BUREAU CENSURED IN CUSTOMS REPORT

PROBE BOARD FINDS CONTROL WAS LACKING

Matter of Present Minister is Left to House WOULD FIRE SIX

Dismissal of Some and Retirement of Others Recommended by Committee.

OTTAWA, June 18.—With sweeping recommendations of reorganization, dismissals and suspensions, the special committee of the House which has been investigating the Customs Department made its report this afternoon.

The report finds that Hon. Jacques Bureau, who was Minister of Customs till shortly before the general election, failed to appreciate and properly discharge the responsibilities of his office as a result there was a lack of efficient, continuous and vigorous control by subordinates by the headquarters staff at Ottawa.

BOVIN LEFT TO HOUSE The report does not make any finding in regard to the responsibility of Hon. George H. Bovin, Minister of Customs. This left to the House, where, it is understood, Conservatives intend to move an amendment of censure.

RECOMMENDATIONS The report recommends that when goods of more than \$200 in value, have been smuggled, the administrative procedure should be automatic and not subject to ministerial interference.

REORGANIZATION PLAN 11.—In connection with the preventive service, the committee recommends that the chief preventive officer be authorized to select his staff in consultation with the civil service commission; that he be authorized to organize a secret service force within the preventive service, that preventive officers be given authority to arrest without a warrant persons found committing an indictable offence under the customs act, that pending reorganization of the preventive service, the Royal Canadian Mounted Police be immediately detailed for patrol work on the border.

Capital Stunned As Premier Cabecadas Dismissed; Troops Posted Through City

LISBON, June 18.—Another political upheaval—the dismissal of Premier Cabecadas by General Manuel Gomes Da Costa—stunned the capital yesterday. General Gomes, having relieved Commandant Cabecadas of the premiership, ordered his soldiers to occupy all strategic points in the city. This precaution was taken in spite of the fact that Commandant Cabecadas accepted his dismissal without offering resistance, because, he declared, he was convinced the new movement also was purely Republican.

Volcano and Flood Bring Disaster In Japan

AMONG the first pictures to reach this country depicting the havoc which followed the recent volcanic disturbance in northern Japan are these two which show what the combined lava flow and water floods did to railways and dwellings. 900 Japanese lost their lives as a result of the disturbance. An unusual feature of the catastrophe was the "spilling" of a mountain top lake, the waters from which rushed down the long slopes in a mass, obliterating hamlets in their sweep.

## GREAT FUTURE AWAITS CANADA SAYS GOVERNOR

Hero of Vimy Declares  
Much Depends on  
Youth

### MONTREAL SPEECH

Responsibilities of Individual  
Citizen Stressed—Lauds  
High Ideals

MONTREAL, June 18.—"Let there be unity in Canada, such unity as had been shown by nine provinces on April 9 of 1917, when all had been united at Vimy Ridge," was the parting message which His Excellency Lord Byng left to the Canadian Club here yesterday. He also stressed the fact that Canada would be built up, especially in the way of ideals, not by delegation, but by each citizen appreciating and executing his duties and powers as a citizen.

Lord Byng continued: "I leave your shores in a few months, and I leave them with the most wonderful optimism a man can possibly have."

**BASIS FOR OPTIMISM.**  
"I put this optimism down to three things. The first is the God-given country, the country full of God's gifts, everything that will make a country rich and prosperous."

"The second reason for my optimism is that the more I study the position among you and the whole atmosphere of government, the more I am struck with your possession in Canada the best constitution one can think of, a constitution based probably on all the best elements of the Old Country's thousand years of constitution, a thousand years showing the origin of government."

**SPEAKS OF YOUTH**  
"Lastly, another reason of which I think with the greatest optimism about Canada is this wonderful youth of your country, this boyhood and girlhood. There, I think, one can have the greatest feelings of cheerfulness, and of optimism, that a human mind can symbolize. It is a wonderful youth, but, gentlemen, they are your youth. You see the people who are going to direct these in the past of true Christianity, true Canadianism, and true citizenship. It is you."

"Do not let us run away with any other idea, for it is going to make the idealism of this country. There is this idea in your minds and in my mind of losing the purely materialistic view that we get about making everything great still greater, everything small bigger, everything fast still faster, everything slow faster. It is wonderful this materialistic success, but there is one thing better, and that is the idealism of the country, for what it is to become. I leave the subject there in your hands, and with the greatest enthusiasm and confidence."

**IS BADLY INJURED**  
ST. JOHN'S, Nfld., June 18.—Thomas Croke, a workman on Bell Island, had his right arm torn from his body, when he was caught in the main cable at the Scotia pier. His condition was said to be critical this morning.

## BRITISH LIBERALS SEEK CONCILIATION

**National Federation Refuse Expedient of Naming Neutral Leaders For Party**

London Press  
WESTON-SUPER-MARE, Eng., June 18.—An overwhelming desire for reconciliation among the contending sections of the party was the keynote of the annual conference of the National Liberal Federation, representing the Liberals of the whole country yesterday, which adopted a resolution of confidence in Lord Oxford's leadership. Attempts to get a vote in favor of surmounting the difficulty by the election of neutral leaders were overruled, the feeling of the meeting being strongly for reconciling the differences between the leaders.

J. A. Spender was elected the new president of the Federation, replacing Sir Donald MacLean. Mr. Spender's sympathies are with Lord Oxford. That the differences are not yet healed, however, was demonstrated at a social reception held by Spender last night, which was not attended by a number of the Oxford adherents, including Sir John Simon and Walter Runciman. Mr. Lloyd George was present and made a laudatory speech, saying nothing to wound Oxford and arguing his hearers not to be disheartened by the present differences.

## NINE CARDINALS ARE WELCOMED BY BIG CROWD

Come From Far Flung  
Lands to Attend  
Celebration

### MUCH IMPRESSED

Greetings From Mayor and  
Governor to be Extended  
Tonight

CHICAGO, Ill., June 18.—Nine quiet and unassuming men of princely rank, including the Vicar of the Pope, John Cardinal Bonzano, gathered here from the far flung reaches of the world-wide hierarchy of the Roman Catholic Church, to participate in the twenty-eighth Eucharistic Congress, have won Chicago, irrespective of creed.

Likewise, the cardinals and their entourage have been impressed by Chicago, its preparation for the event for which many of them traveled many thousand miles, which opens officially Sunday, and by the welcome tendered them on their arrival from New York yesterday.

**VISITORS GREETED.**  
Chicago might well be called "The Rome of America" in view of the presence of the cardinals, welcomed yesterday by George Cardinal Mundelein, Archbishop of Chicago, and sponsor of the congress, representatives of the city, civic organizations, and an enthusiastic throng of 20,000 persons.

Another ceremony, not so significant in its pomp and glory as yesterday, was expressed in the celebration this morning of a solemn pontifical high mass by Cardinal O'Donnell at the Immaculate High School. The civic reception to Cardinal Bonzano and other cardinals, will be in the coliseum tonight where formal greetings will be exchanged by the Mayor, by the Governor of the state, and by the papal legate and by other officials of the city and church.

Despite the vast throngs pouring into Chicago for the congress, there are ample accommodations for everyone.

## ACIDS IN STOMACH CAUSE INDIGESTION

Creates Gas, Sourness and Pain.  
How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, and flatulence, are due to an excess of hydrochloric acid in the stomach and not to some deficiency of it. The delicate digestive lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia dissolved in a teaspoonful of a quart of water right after eating. This sweetens the stomach, prevents the formation of excess gas or pain. Bismarck Magnesia in powder or tablet form—never liquid or milk—is harmless to the stomach. Inexpensive to take and the most efficient form of magnesia for stomach purposes. It enjoys their meals with no more fear of indigestion.

## SUICIDE IS BELIEVED

Bodies of Two Men Taken From  
Ottawa River; One is  
Identified

OTTAWA, Ont., June 18.—The authorities are inclined now to the view that both the men whose bodies were recovered from the Ottawa River near here Wednesday night, came to their deaths by suicide. One had been identified as Olive Champagne, a shantymen of this district, but all efforts to identify the other, have so far been unsuccessful. Champagne evidently came to his death, by drowning, but the other man was shot through the body and one supposition is that he fired at himself below the breast bone. The bullet passed through the body. A cartridge was found in one of his pockets.

THE GIRLS ATHLETIC MEET.

Saint John is once again taking the lead in sport and this time it is in the field of ladies' athletics. On April 21 of this year the Maritime Branch of the Women's Amateur Athletic Federation was formed; tomorrow it is to hold its first track and field meet.

As evidenced by the response to the organization of the Maritime W. A. A. F. a long felt want has been filled. There can be few who will deny the health-giving side of athletics and this will be all the more appreciated when it is stated that the President of the Maritime branch declares that the principal aim of the body is to provide for girls alternatives to the movies, dancing and joy-riding.

Forty-five competitors come from all over the Maritimes to exhibit their prowess in Saint John. Either the girls individually or their clubs have paid their travelling expenses and it now becomes Saint John's duty to signalize its appreciation of the meet by turning out en masse to cheer and encourage them.

THE WOMAN OF TODAY. The woman of today, her dress, her morals, her activities, are all subjects of discussion in the home. While many of both sexes frown disapprovingly upon revelations of physical beauty, others see her released from dress impediments with joy, and hail her day of emancipation.

Among those who commend present day styles featuring the absence of cumbersome garments is Sir W. A.

Queer Quirks of Nature

COWBIRD PARASITE PREYS ON CHIPPY'S NESTS. Greedy Cowbird and Sparrow.

In some localities cowbirds are so common that nearly every nest of our smaller species will have its cowardly foster child. Think what a host of beautiful and useful songsters are thus destroyed by this fabled pest, too indolent even to raise its own young.

THIS represents a tragedy which occurs all too frequently in the lives of many of our smaller birds. One day when this chirping sparrow mother was absent from her nest, probably before she had laid all her eggs, a brownish-gray cowbird much larger than the chippy laid her white, brown-speckled eggs in the new-built home.

Doublets the mother chippy noticed this strange-looking egg, and was puzzled, but being good-natured, concluded to make no fuss about it, so the egg was brooded and in due time hatched along with the stranger egg.

The greedy and grasping and got more than its share of the food that the mother chippy and her mate brought to the brood. And so, being larger and stronger, and wishing all the mother chippy's food for himself, the young cowbird boosted the sparrow babies out of the nest, one by one.

With the rightful family out of the way, the greedy youngster now received all the food which the two small sparrows were able to find for it. Soon it will be fledged and a-wing, and still, as long as the deluded parents will consent, it will live by their labors until finally it is turned loose to shift for itself.

The season will be late and perhaps the chippies will think it too late for another nesting. Perhaps they will try again with similar results.

The Very Idea!

VACATION. THE kids 'er rannin' rampant, an' they're havin' lots of fun. The days of naught but loafin' and the like have just begun. Say, tell me what is better, in the world beneath the sun, than summertime vacation, when yer schoolin' days 'er done?

There ain't no 'larm clock ringin', so's to get you outa bed. Yer mom an' pop ain't gonna call their child a sleepy head. No book of pesky spellin' in the evening need be read. No teacher, when yer backward, has a chance at raisin' you.

The great outdoors is callin' an' it spreads a bit of cheer. The kids 'er gladly fallin' as they do this time of year, fer fun an' plenty of it. Shucks, there's naught they need to fear. The kids' world looks much brighter, when vacation time is here.

He held her tightly in his arms. And then, beneath her breath, She softly said, "I love you," and He squeezed her right to death.

Most of the checks around most any town will tell you exactly what time it is!

A brother is always glad to teach a sister how to swim, if they are brother and sister to somebody else.

The world's getting better! Last winter you complained of having to pay so much per ton for heat. Now you're getting it for nothing.

FABLES IN FACT. POP MADE A FLOCK OF GRAPEVINE THAT UNFORTUNATELY DECIDED TO BE GRAPEVINE. PERIOD HE FOUND THE TASK FAIRLY EASY UNTIL HE CAME TO THE CORKING OF THE BOTTLES. DASH! THEN HE WORKED LIKE THE VERY DICKENS PERIOD AND THAT'S THE SAD PART OF IT PERIOD AFTER HE WORKED THE CORKS IN COMMA THE WINE STARTED RICH IN AND WORKED THEM OUT AGAIN PERIOD.

Other Views. CANADA'S OTHER HALF. (Three Rivers Nouvelle.) The whole of the vast region west of the Great Lakes is the other half of the Canadian Confederation territory where the future of Confederation is going to be settled. If we except the French-Canadian groups which have come from our province and the groups of English-Canadians, which have come from Ontario and the Maritime Provinces, it is entirely a population of American or European origin which inhabits it, which we scarcely think of as being Canadian.

AN ECONOMIC LAW. (Three Rivers Nouvelle.) The west may well struggle against a protective tariff, when it is for the protection of eastern industries against American competition, but it cannot resist the all-powerful economic law which sooner or later calls for recourse to a higher tariff. Hard Canadian wheat is rightly described as a natural resource of the Canadian west. It has no competitor in the world and those who produce it do not care a straw about protection. But it is a very different matter when it comes to consider the semi-anthraxic coal of the Canadian west. This product is rudely challenged by American coal. Therefore we find the west claiming without cessation these many weeks a grant of from three to four dollars a ton on their coal.

England's Coal Crisis. (London New Statesman.) The British coal industry taken as a whole is not in a moribund condition. It is quite probably on the eve of as great and as profitable a boom as it has ever known. Modern methods have made it possible to tap deep and very rich seams which were not taken into account in earlier estimates. In certain areas in Yorkshire and Nottinghamshire great developments are proceeding. The men are paid a pound a shift (i.e. 22 or 26 a week), and if they were paid much more and the price of coal were to fall the owners would still reap handsome profits. . . . But it may be some years before the good mines can absorb the workers who are at present employed (at 6s or 7s per shift) in the mines which are too far worked out to be worth further exploitation.

Alkali in Shampoos Bad for Washing Hair

Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mul-sified coconut oil shampoo, for this is pure and enduring, and great. It is inexpensive and beats anything else all to pieces. You can get this at any beauty and hair drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mul-sified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily.

MAE MURRAY. Preserving Creams get this at any beauty and hair drug store, and a few ounces will last the whole family for months.

Stores open 8.30 a.m. Close 5.55 p.m. Open Friday evenings until 9.55. Close Saturdays during the summer months at 12.55 p.m.

A Courageous Woman's Letter to Her Weaker Sisters Who Contemplate Divorce—Disgusted Miss Seventeen Whose Girl Friends Run After Her Brothers—Is a Girl Privileged to Misrepresent Her Age?

DEAR DOROTHY DIX—I had just sufficient reason for divorcing my husband and I decided to do so. Then I considered my children. They are not to blame because their parents' lives have not turned out all roses and sunshine. If I give up the fight and weakly flop into doing the easiest thing, how can I instill grit into them?

We can talk all we please about having our own lives to live. Our lives are irrevocably bound to other lives, and our business in life is to build ourselves from an irksome condition, we are weakening our moral fiber. Because some one else does not live up to the letter of the contract does not make it right for us to fail.

DEAR DOROTHY DIX—I am a girl 17 years old and I hate my own sex, because a girl who has brothers can't have a girl friend. They are all hypocrites, pretending to like her, when they are just after her brothers. One girl even had the nerve to tell me I was stingy and asked why I didn't introduce her to my brothers. I get so angry that I would like to choke every girl I know. If the silly fools only knew my brothers I know where they wouldn't be so crazy about them. Do you blame me for hating girls? VENICE.

DEAR DOROTHY DIX—I have been going with a girl for six months, believing that she was two years younger than I. Now I find that she lied to me about her age and that she is two years older than I am. I cannot get over the fact that she has lied to me and tried to marry me under false pretenses, and I don't know what to do about it. Y. M. C. A.

### BEHIND THE SCREEN

HAIL to the shiek once more! We'll soon see our Rudy clad in the robes of a desert chieftain wooing the fair Vilma Banky in "Son of the Sheik," a sequel to the photoplay which made his name a household word in these United States a few years ago. Rudy has known reverses since the heyday of his popularity and he's counting on this film to bring back some of his vanished prestige. Before selecting this desert tale his publicity department conducted a canvass to see just what type of picture Rudy's followers wanted and the votes were overwhelming for a shiek story in preference to another "Monsieur Beaucaire" or a society drama.

Valentino, although an excellent actor, was unfortunately caught in a wave of popularity which proved his undoing. As a cinema hero he was overvalued, the reaction set in and the fickle movie-going public turned to other players. Also, the litigation which kept him off the screen for some months aided in the tumbling over of his pedestal.

In this picture Valentino hopes to regain his lost position in the screen world and establish himself as a capable actor, not as the screen's greatest lover, for Valentino evidently has profited by his lesson.

Lila Leale claims the distinction of being the youngest film mother. Al-

### IN NEW YORK SEE SAWING UP and DOWN BROADWAY

MUCH "mobbing" is done over chorus girls, their pitfalls and struggles and temptations.

But this clan does little weeping for itself or its sisters. It's a little world of "overruns for herself" and personal independence is an outstanding characteristic of the majority. Of course there are bound to be some exceptions.

For instance—a little group of Broadway chorines recently decided to organize a social club. They planned to have a club-house where the new arrivals would have a place to hang their hats and the oldsters could drop in to "talk shop." There was much talk of "uplift" and taking action to change public opinion regarding chorines.

THE little group met and, among other things, announced that they were tired of having every woman arrested in some sensational affair referred to as a chorus girl. The chorines, they said, would rise in arms and defend the reputations of the majority.

Three of them constituted a committee which broadcast letters to the thousands of chorines; they visited the theatres and gave out statements.

Immediately a Fifth Avenue manor was offered them as a temporary meeting place. From a dozen quarters came offers for benefits, the proceeds of which would go to the club. Up lobbed sympathetic folk from every which way.

But when the organizers called their "big meeting" only 40 girls showed up. The others preferred to sleep late that day, had dates, or just didn't care. And so this plan, like so many similar ones, threatens to be shelved.

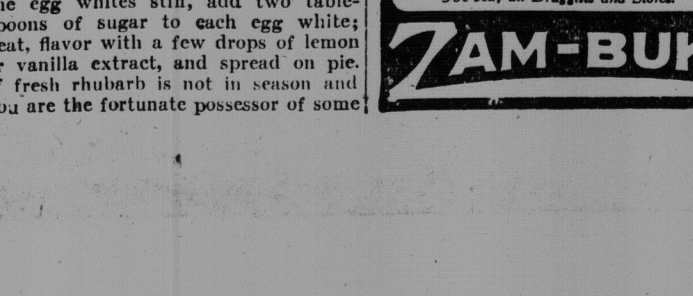

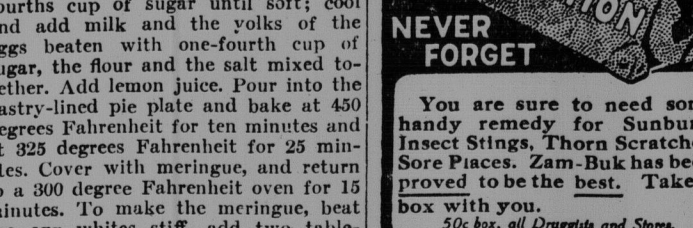

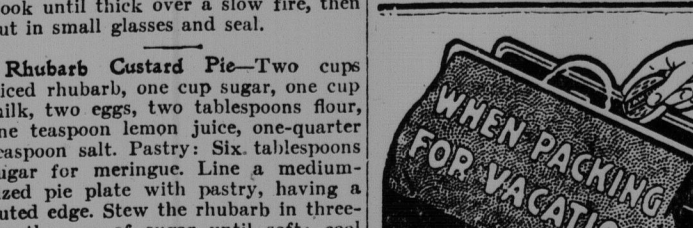

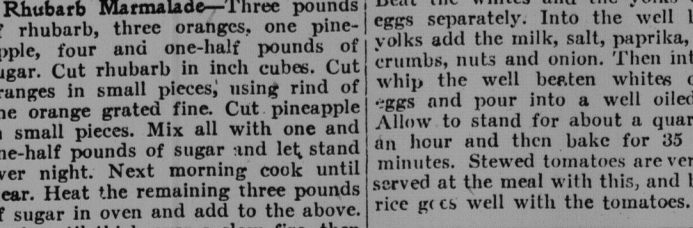

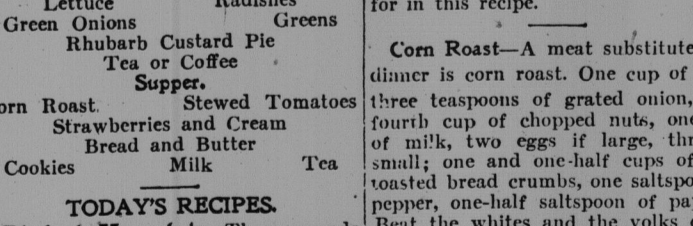

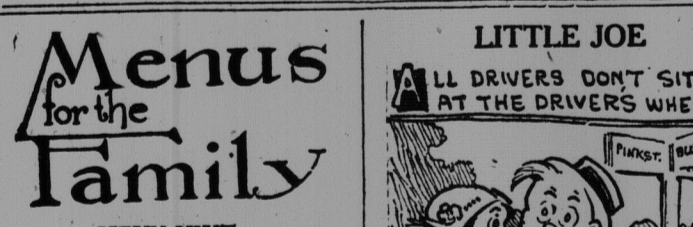

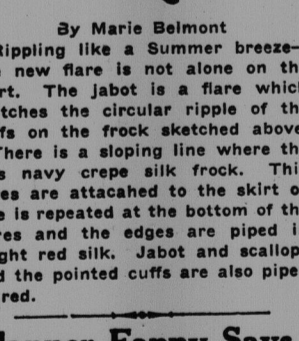

SEPARATING of chorines, there's an attractive young miss with a great fondness for cats, and, since stray cats are one of New York's leading industries, the dressing rooms of her theatre have the general appearance of a poundman's cart after a busy day.

Recently she used a young man for breach of promise, and, settling out of court, gave half her winnings to the Society for Prevention to Cruelty to Animals to be used, she stipulated, in looking after feline kittens.

WASN'T it O. Henry in "The Theory and the Hoax" who said to look out for folk who were overfond of animals?

Well, anyway, the young chorine of the cat episode, has, within six months, brought an action for slander, an action for breach of promise and another for alienation of affection—or something like that.

### ADVENTURES OF THE TWINS

THE TICKET THAT TURNED TO A TRICK

The Twins stood on the corner in Shut-Eye Town for quite a while, watching all the queer people go silently by.

"No wonder the Fairy Queen said that Inco probably came here," said Nick to Nancy. "An elephant with pink roses all over him isn't half as queer as eggs that bend, and daisies in silk hats, and gentlemen that turn into lobsters and snap their fingers at you."

"I should say not," said Nancy. "I wonder where the Forty Wings went!" That reminded Nick of the pink tickets. "We'd better be using these," he remarked. "They won't be any good tomorrow."

With that he reached into his pocket for his ticket. But behold, no matter how much of it he pulled out, always some stayed in. It was like taking hold of the end of a spool of thread.

He kept pulling and pulling and pulling until he had quite ten yards and a half of pink ticket in his hands, with dear knows how much more to come.

Nancy reached into her pocket for her ticket, too, but Nick stopped her. "You'd better not," he said. "I don't know what to do with all I have now. It must be made of Grade A Number One rubber like the streets."

"Silly! Of course I'm not," said a voice suddenly, and to the Twins' amazement the ticket grew a head that curled itself around and looked at them with great pink eyes. "If you would just read what it says on my duty, look at the sixth line below the dashes!"

The printing on the ticket seemed to grow big all at once like printing on a page when you hold a magnifying glass over it. The sixth line said, "This ticket will take the owner to any place in Drowsy Land."

"Well, what of it," said Nick. "What has that got to do with you stretching out so long I can't hold you in my two hands?"

"Lots," said the ticket. "Let me see and then see what happens. I can't take you any place, can I, if you're going to hold onto me so tight. Where should you like to go?"

"Just any place at all," said Nick thoughtlessly, never dreaming what his words meant.

"That's three stations off," said the pink ticket. "Lay me down on the ground and see what happens."

So Nick let go the ticket, and instantly it spread itself along the ground in a straight line and turned into a railroad track. And Nancy and Nick found themselves in a neat little car, rolling smoothly along on two long black lines that had turned into tracks.

"I see now why they say that tickets take you places," said Nancy. "Isn't this fine?"

Soon Shut-Eye Town was far behind with all its queer people. And the Twins forgot to wonder about the foolish things they had seen. They kept looking to the right and left this way and that for some sign of Inco and Flops. They passed an orchard where dreams were growing and a more factory, and a jawing cave. And they also passed a sandy hill marked "Private! Keep off! Sandman."

"I suppose," said Nancy, "that is sleeply sand."

"It is," said the ticket. "But here we are. This is your station. It is called Any Place At All! Hop out!"

Rhubarb Marmalade—Three pounds of rhubarb, three oranges, one pineapple, four and one-half pounds of sugar. Cut rhubarb in inch cubes. Cut oranges in small pieces, using rind of one orange grated fine. Cut pineapple in small pieces. Mix all with one and one-half pounds of sugar and let stand overnight. Next morning cook until clear. Heat the remaining three pounds of sugar in oven and add to the above. Cook until thick over a slow fire, then put in small glasses and seal.

Rhubarb Custard Pie—Two cups diced rhubarb, one cup sugar, one cup milk, two eggs, two tablespoons flour, one teaspoon lemon juice, one-quarter teaspoon salt. Pastry: Six tablespoons sugar for meringue. Line a medium-sized pie plate with pastry, having a fluted edge. Stew the rhubarb in three-fourths cup of sugar and let stand overnight. To make the meringue, beat the egg whites stiff, add two tablespoons of sugar to each egg white, beat, flavor with a few drops of lemon or vanilla extract, and spread on pie. Corn Roast—A neat substitute for a dinner is corn roast. One cup of corn, three teaspoons of grated onion, one-fourth cup of chopped nuts, one cup of milk, two eggs if large, three if small; one and one-half cups of well-toasted bread crumbs, one tablespoon of pepper, one-half teaspoon of paprika. Beat the whites and the yolks of the eggs separately. Into the well-beaten yolks add the milk, salt, paprika, bread crumbs, nuts and onion. Then into this whip the well-beaten whites of the eggs and pour into a well-oiled pan. Allow to stand for about a quarter of an hour and then bake for 35 or 40 minutes. Stewed tomatoes are very nice served at the meal with this, and brown rice goes well with the tomatoes.

### Hospital Aid Undertakes Care Of Some Special Cases

Organization Will Draw on Its Emergency Fund—Last Meeting of Season Held—Various Routine Matters Were Dealt With Yesterday

**THE Women's Hospital Aid yesterday decided to undertake the care of special cases which were reported. The circumstances were exceptional and the meeting heartily approved of drawing on the emergency fund for this purpose.**

Mrs. J. J. Stohart, president, was in the chair and the meeting, which was held in the Church of England Institute, was the last of the season. The Aid will convene again in September. Mrs. Walter L. Gregg, the secretary, read a letter received from R. H. Gale, superintendent of the General Public Hospital, who thanked the Aid for having granted to the hospital the use of the furniture formerly used by Miss Belle Howe, social service worker. Mrs. Gregg reported having written to Mrs. John Owens expressing the Aid's keen regret in the death of Mrs. Louis Owens, one of its most devoted and efficient workers.

Letters of sympathy were to be written to Mrs. T. H. Carter and Mrs. A. C. D. Wilson, members who have recently been bereaved.

#### VISITING REPORT

Mrs. E. A. Young gave the report of visiting at the General Public Hospital, specially referring to the abundant supply of magazines and the good attendance of the visitors. She had interested a certain organization in securing a special nurse for an accident case. Conveners were appointed for visiting in the summer months.

Mrs. Lester W. Mowry, treasurer, reported a balance of \$715.19 in the general fund, \$798.21 in the emergency fund and \$1,067.83 in the hospital ward special fund.

Mrs. J. H. Duddy reported that Mrs. W. E. Morris was now the Catholic convent in West Saint John and Mrs. S. C. Tippetts in Fairville.

Mrs. J. Carleton Lee reported as a special committee which interviewed Miss Margaret Murdoch to see what special comforts the Aid could provide for three orphan children, who have been patients for a long time and need clothing. As an addition it was suggested the Aid might provide delicacies for the long term patients in a different ward each week.

The three children's immediate needs had already been provided for, it was said. The meeting agreed the Aid should undertake to provide delicacies for the long term patients. Action was taken to ensure the emergency fund being drawn on for providing cabs for patients who require them and cannot obtain them otherwise.

Mrs. W. E. Morris gave the report of the visiting at the County Hospital, specially thanking Mrs. Barlow for very welcome supply of funny papers and magazines that was always maintained. Miss Susie Irvine was thanked for gifts of magazines and papers. Conveners for visiting the County Hospital in the summer months were Mrs. W. E. Morris and Mrs. J. Goldman for the first month, the others to be appointed later.

The case of a County Hospital patient who, after three years in the hospital has been discharged but requires a year's rest and has no money, was spoken of. It was decided to undertake the responsibility for this case until the September meeting.

#### DENOMINATIONAL REPORTS

Denominational reports were received. For the Anglicans of St. Luke's 27 members' fees were received and a follow-up case; for the Roman Catholics

Mrs. J. H. Duddy reported 14 members' fees and follow-up care given three cases; for the Baptists, Mrs. N. C. Scott reported visitors had been supplied and 11 members' fees received. A case of an elderly lady, probably a permanent invalid, was brought to the attention of the Aid by Mrs. Scott, who was given authority to act in the matter. Mrs. J. Carleton Lee made an earnest plea for the owners of automobiles to take the patients for drives. She referred specially to the patients in the County Hospital. The suggestion was heartily endorsed.

A resolution of deep sympathy was passed with reference to the death of Dr. J. H. Allingham, whose loss was spoken of as a calamity.

The suggestion of bringing William Heugan to give a concert in aid of the society in September was spoken of and heartily approved.

### SUNBURY BAPTISTS TAKE OBJECTION TO COUNTY INSPECTOR

District Meeting, Representing 1,300, Pass Resolutions at Maugerville

#### DENOMINATIONAL PAPER IS PRAISED

Urge New Pastoral Relations to Assist in Up-building Work

**MAUGERVILLE, June 17—At the fourth United Baptist district meeting, Sunbury county, held in Maugerville during last week-end a resolution expressing strenuous objection to the sub-inspector for the western end of Sunbury county, under the N. B. P. A., was adopted. Other resolutions dealt with denominational papers, church insurance and settlement of pastors.**

The meeting sat under the chairmanship of Rev. David Patterson, of Ruslingorish, with S. L. Alexander as clerk.

#### THE RESOLUTIONS.

A resolution was adopted pledging support to the new editor of The Maritime Baptist and endorsing the former incumbent, Rev. Osgoode Morse.

Other resolutions adopted were as follows: "The district meeting advises the churches to make a reappraisal of their church buildings on the basis of replacement values in order that an adequate amount of insurance may be carried."

"The district meeting requests the church clerks to put in the column 'salary paid to pastors,' the actual amount paid from June 1 to May 31 of the associational year."

"In view of the unsettled and roving character of the ministry which renders the best up-building work impossible, the district meeting urges upon our churches the desirability of new pastoral relations being entered into for the period of one year, as is sometimes done, but during mutual pleasure, with at least three months' notice by either party."

"In view of the fact that the chief inspector is given credit by many citizens as endeavoring to make the present prohibition law effective, the district meeting desires an efficient officer for Sunbury county. The district meeting, representing 1,300 Baptists, is determined to stand for the enforcement of the law and does strenuously object to the sub-inspector of the western end of Sunbury county."

were Mr. and Mrs. Jack Dibble, of Woodstock, Mr. and Mrs. Charles Fawcett, of Seabrook, Mr. and Mrs. Randolph Crocker, of Millerton, Mr. and Mrs. Duncan Davidson, of St. Stephen.

**UNITED CHURCH COUNCIL ARGUES WOMEN CLERICS**

**Question Referred to Special Committee for Report**

**SPECIFIC CASE**

**Sister Takes Place of Saskatchewan Ministry Student Killed in War**

MONTREAL, June 18.—The question of admitting women to the ministry of the United Church was debated at the general council of that body, now in session here, when an overture to this end from the Kamsack Presbytery of Saskatchewan came up for deliberation. The pros and cons of the matter were aired and finally the question was referred to a special committee for report.

Dr. E. H. Oliver, Saskatoon, told of the early days of Christianity when women carried on the ministry. He

**Opinions on Women In Ministry**

THE following opinions were expressed by members of the United Church general council, when the matter of admitting women to the ministry was debated yesterday, following an overture from the Kamsack Presbytery, of Saskatchewan:

Dr. Hugh Dobson, Regina.—"I am not in favor of the general introduction of women to the ministry, but I can see no reason why ordination should be refused because she is a woman. Miss Grouchy has been one of the ablest workers we have in the Province of Saskatchewan."

Prof. J. Matheson, Kingston.—"I think the matter is too serious for the conference and the presbyteries."

Dr. D. L. Ritchie, Montreal.—"I am in favor of women being admitted under the same conditions as men but I want to know if this case will set a precedent as it will effect the colleges at entrance time next October."

Dr. Walter Murray, Saskatchewan.—"While it is a special case, it would serve as a precedent and amount to legislation and would come under the Barrier Act, necessitating reference to the presbyteries."

Moderator.—"I do not want to rule, but if I were ruling I would say that if the conference of Saskatchewan had power to ordain in this case, they would not have come to the council, and if the conference has not power, has the council? I would rule that it is clearly a piece of legislation."

Rev. L. Bartlett, Thamesville, Ont. (reading minutes from last year's council minutes).—"The general council

recited the history of the present application.

**SISTER'S SACRIFICE.**  
Arthur Grouchy, a prominent student in the University of Saskatchewan in 1914, with his intentions bent on entering the foreign mission service, was overseas and was killed. One of his sisters, Florence, took his place in the foreign field in India as a nurse. Lydia, a medicalist of the University of Saskatchewan, went into home mission service, and accomplished remarkable results among new Canadians. It was suggested that the church should have a closer connection with foreigners in the country and he asked Miss Grouchy to take a theological course. She did so and stood first in her class every year.

In view of this history, he asked a special dispensation.

**HISTORIC MOVEMENT.**  
Rev. W. C. Bishop, Toronto, seconded the motion. He thought this was a historic moment in the life of the United Church and considered it better that the question should first come on a specific case rather than as a general recommendation.

Rev. A. Eardley, Ottawa, feeling sympathetic to the case, thought the commissioners should not be swept off their feet by sentiment. However, many felt that church had ministries which were not being filled. Action should not be taken as a matter of

**Queen's Co. Family's Record For Longevity Is Remarkable**

**No Deaths During 58 Years in Household of Mr. and Mrs. Vincent Wilson, of Cambridge; 11 Children Are All Living**

PUBLICATION of the remarkable record of Mr. and Mrs. David St. Cyr and their family, in a newspaper of Manchester, N. H., has brought to light the fact that there is a New Brunswick family, whose record surpasses that of the St. Cys.

The newspaper states that Mr. and Mrs. St. Cyr, were the parents of 11 children, that eight of them are still living, and that the last death in the family occurred 58 years ago.

Facts about the late Mr. and Mrs. Vincent Wilson of Cambridge, Queens county, and their offspring outdo the record made by the St. Cys. There were 11 children, born to Mr. and Mrs. Wilson, and they are all living, and there was not a death in the household in 58 years, when Mr. Wilson passed away in 1918 after far more than a half century of happy married life. His good wife died only last year at the age of 80 years. The record of the New Brunswick family is the more remarkable, as well, in that not only are the children living but the wives of the boys and the husbands of the girls also are living, save the wife of one son, Herbert, who passed away 24 years ago.

**RECORD OF FAMILY.**

Mr. Wilson was born in Cambridge in 1826, and lived all his life there. He married Margaret Dillish Black, and when he died in 1918 he had reached the age of 91. Their children are four boys and seven girls: Eleanor H., now Mrs. A. C. Chase, of Lower Cambridge, Queens Co., N. B.; Herbert S., of Manchester, N. H.; Rebecca J., now Mrs. S. D. Hamm, of North End, Saint John; Jacob A., of California; Eva O., now Mrs. Frederick Black, of North End, Saint John; Deborah T., now Mrs. E. D. Starkey, 207 German, Saint John; Anasa B., now Mrs. Charles Gilchrist, Cambridge, Queens Co., N. B.; Hilda F. C., now Mrs. John Jones, Lake View, Queens Co., N. B.; Hersey S., of Woodstock, N. B.; Hestie L., now Mrs. Burfield Hamm, of Cambridge, Queens Co., N. B.

The boys landed on the island to "explore" it and returned to Ingonishport with the announcement that they had found 14 kegs of rum. The Halifax authorities were notified and the liquor brought to the local examining rooms. A search is now being made for the owners.

Just because you are past middle life, or due to ill health are an unhappy victim of chronic weakness, despondency, inertia and inability, don't give up hope and think you have to stay this way—and don't make the mistake of thinking your condition the natural consequence of age.

## DOMINION IRON AND STEEL CO. NEEDS AID, SAYS WOLVIN

In Bad Way and Unless Some Help is Given, It Will Go to Receivership

## COVERDALE REPORT USE IS EXPLAINED

Necessary For Canada That Industry Shouldn't Be Let Disappear

MONTREAL, June 17.—The Dominion Iron and Steel Company is in a bad way, and unless some assistance is forthcoming from the Government, the company will have to go into the hands of a receiver. This was the admission of Roy M. Wolvin, president of the British Empire Steel Corporation here, today, discussing the parliamentary debate this week, in which Finlay MacDonald, M.P. for Cape Breton South, supported by other members of the House of Commons from Nova Scotia, urged upon the Government the necessity of "doing something" to assist Besco.

During the debate, the suggestion that Dominion Steel might have to go into a receivership was advanced by C. H. Cahan, K.C., M.P., for St. Lawrence-St. George.

### COVERDALE REPORT.

The Minister of Finance, Hon. James A. Robb, took part in the discussion, and mentioned that the Coverdale report on the corporation's condition had been withheld from the government as a whole, and, until this was made available for governmental examination nothing could be done.

Speaking on the aspect of the matter, Mr. Wolvin said: "Much has been said about the Coverdale report and about its contents not being made public. The report was prepared by Coverdale and Colpitts, the well-known industrial engineers of New York, for the directors of Besco, in order that they might be placed 'en courante' of the situation in just the same way as any other business organization would get some one to look over its affairs to find out exactly how things stand. The Coverdale report did this, and, therefore, has served its purpose—there is no reason why it should be made public—those whom it is necessary should know the contents, do know it."

### NECESSARY FOR CANADA.

Mr. Wolvin said that it was most necessary for the Dominion that the steel industry should not be allowed to disappear, and said: "If the present session of parliament

**\$279,150 VOTED FOR PROVINCE PUBLIC WORKS**

**\$50,000 Expenditure on Escuminac Harbor Opposed by R. B. Hanson**

OTTAWA, June 17.—A vote of \$279,150 for New Brunswick public works was considered by the House of Commons in committee of supply when estimates of the Department of Public Works came up this afternoon.

This sum includes an item of \$50,000 for harbor improvements at Escuminac.

R. B. Hanson (Conservative, York-Sunbury), criticized this proposed expenditure. He doubted whether the works at Escuminac harbor would be a success, because of the ice conditions. He asked the Minister to consider the matter from a business, rather than a political point of view. This was the vote that had elected a Liberal in the constituency of Northumberland some years ago. Now the election was over, the matter could be regarded from a business point of view.

**APPROVED BY ENGINEERS.**

Hon. J. H. King, Minister of Public Works, replied that these harbor improvements had been under consideration for many years. The Board of Engineers of the Public Works Department had approved the construction. The Minister pointed out that works on the lower St. Lawrence were subject to as severe ice conditions as those in Escuminac harbor.

The vote carried.

**ITEMS INCLUDED**

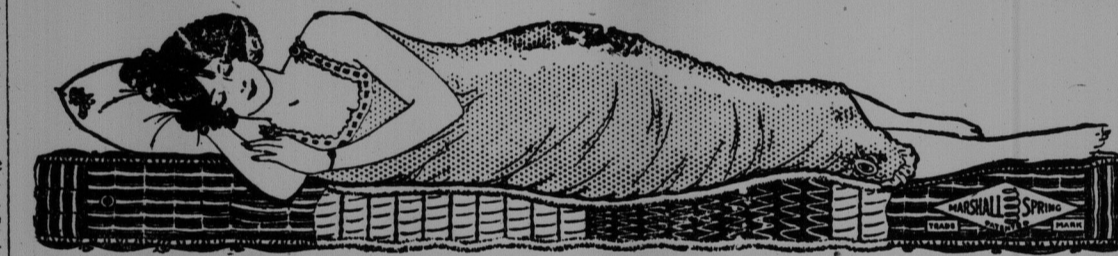

The amount voted includes the following items: Public buildings—Chipman public building, \$3,000; Edmundston public building, \$8,000; Nelson public building, \$7,500; Saint John, old post office building, restoration and repairs, \$25,000; quarantine station, Partridge Island, repairs and improvements, \$2,500; quarantine station, Partridge Island, water supply, \$1,000; Tracadie Lazaretto, repairs and improvements, \$2,000.

**ANSWERS TO QUERIES.**

1—What car would use the most gasoline, a six or four cylinder car?  
2—How much mileage would you get out of both, per gallon?  
3—Are four cylinder McLaughlin cars made now?  
Following are the answers:  
1—Six cylinder car.  
2—Will depend on type and make of car.

SPLendid ADDRESS HEARD AT CAPITAL IN CONVENTION

Miss Stuart Urges Fifty-Fifty Basis With Husbands in Finances

DR. FARRIS TELLS OF TUBERCULOSIS

Speaker Explodes Some Old Ideas in Regard to Health Precautions

FREDERICTON, June 17—Miss Annie Stuart, of Grand Pre, gave an able address on women in business, and Dr. H. A. Farris, superintendent of the Saint John County Hospital, was heard in a very enlightening address on the symptoms, prevention and cure of tuberculosis, at the evening session of the annual convention of the Women's Institutes tonight. Mrs. Harold Limmerick gave delightful vocal solos and Miss Phyllis Hay pleased the audience with a demonstration of crayon drawings. Miss Stuart referred to the fact that married women did not work on a half and half basis in financial matters with their husbands and she strongly urged this method. She pointed out the necessity for women to make wills and have them properly drawn up and spoke of the necessity of using business methods on farms. She spoke specially of the need for women to understand taxation matters in all their varied forms. Miss Stuart, in the course of her address, remarked that the most successful business woman was the one who had reared a healthy, happy family. Dr. Farris' address was illustrated by lantern views which included X-ray as well as the ordinary slides. Some of his statements were in variance with popular ideas on tuberculosis. He asserted that there was no such thing as a draft and that moving air should be encouraged. He emphatically stated that tuberculosis was not hereditary and not transmitted by ordinary contact by patients in hospital or by people in public places or vehicles. Absolute rest, he declared, was the most important part of the treatment of tuberculosis and by rest he meant lack of movement and not mere loafing.

SPEAKERS ASSAIL CABINET AT PICNIC OF CONSERVATIVES

Foster Terms King Policy Ruinous For East and Cites Figures

KINGSTON, Ont., June 17—Condemnation of the King administration at Ottawa for what was termed its record of "incompetent government, extravagance and broken pledges," was delivered by Hon. Dr. H. J. Manion, M. P., Fort William; Hon. Dr. J. W. Edwards, M. P., Frontenac-Addington, and A. deWitt Foster, M. P., Hastings-Kings, at the annual meeting and picnic of the Conservative Association of Frontenac-Addington. Hon. Dr. Manion reviewed the work of the present session of the Federal Parliament and declared that the record of the government had been one of bribery to the Progressives, extravagance and inefficiency. Mr. deWitt Foster declared that the policy of the King government had been ruinous for the Maritimes, and cited figures to show that production in the Eastern Provinces had continually dropped since the present administration assumed power. Thousands of people from the provinces, were being forced, he said, to enter the United States in order to earn a livelihood.

Hub Resident Also Remembers Shipbuilding at "The Bend"

MONCTON, June 18.—Herman W. Trites, of Boston, has just concluded a visit to Moncton, his first in 60 years. To the Times-Star correspondent Mr. Trites said he had been born in a house on Telegraph street, Moncton, in 1855. In the seventies there was a hotel at the corner of Main and Telegraph streets kept by one Sandy Robinson. He remembered quite well, he said, that the body of a young man named Hicks, who was hanged at Dorchester for shooting a farmer over a line fence quarrel at the instigation of another party to the dispute, was taken to this hotel where it lay for a short time before being buried. He could not remember the details.

RECALLS MURDER OF FARMER LONG AGO

He could not remember the details.

RECALLS SALMON FISHING

Mr. Trites recalled that he often watched some of the French Acadians on the mud flats of the river with nets waiting for the bore. As it passed they had erected a large sign or marker, making large hauls. Big salmon weighing from 15 to 20 pounds were sold for 25 cents each, while small ones were sold for 20 cents a piece. He remembered that there was a pond on Steadman street, and often watched the animals which were taken there.

FEELS LIKE STRANGER

On the west side of where the C. N. R. now is there was nothing but open farm land and some very fine buildings, and had made much progress. However, he felt like a stranger here, and could find only a few landmarks. He had come on a three weeks' visit, but felt restless and somewhat lonely. He went to Montreal on a visit.

# SIXTEEN OUTSIDE ENTRIES FOR GIRLS MEET HERE TOMORROW Shamrocks Have Chance To Cut St. Rose's Lead In Game Tonight

## SIXTEEN ENTRIES FROM OUTSIDE

## Events to be Held Monday if Weather Bad Tomorrow

SIXTEEN entries from outside points have been received for the first Maritime track meet for girls on the Allison grounds tomorrow afternoon and with elaborate preparations by an efficient committee completed, all that is needed is a fine day and a few more entries from outside to make a record of spectators. It has been announced that in case of bad weather, the events will be run off on Monday afternoon next.

This morning's meeting was presided over by Miss Marion Belding, president of the W. A. F. for the Maritimes, that eight additional entries from outside were being made. Four came from Richibucto, N. B., and four from Charlottetown. This brings the total for the meet up to about 45, and is considered excellent in view of the short winter's athletics here.

Following the games, a banquet will be held in the Y. W. C. A., at which prizes will be presented and this will be followed by a motor drive and dance at Goudou Point. Everything points to the meet being a great success with a complete list of officials in charge of the various events. The list of competitors is as follows:

Lucy Carmichael, unattached, Saint John.  
Mabel Shaw, Frances Parise, Elsie Barchard, Margaret Henderson, Daisy Dashiwood, Greta Fowler, Margaret Gage, Billie Fawcett, Frances Barnes, Dorothy Stewart and Vera Bryson, of the Y. W. C. A., Saint John.

## Along The Sport Trail

THE NEWS of the bouts the other night carried a rather interesting little item from Detroit and it concerned our French-Canadian friend, Jack Delaney. A gent by the name of Bob Sage, a Detroit lawyer who dabbles in boxing stayed 10 rounds with our friend Delaney and made a rather creditable showing. Mr. Delaney's chief aim in the many ring battles he has fought is to get the misery over with as quickly as possible and get back to his wife and nine children. If he has any—and spend the rest of the evening with them. In fact, he has been in so much of a hurry at times that he'd leave his ring gages deposited on the floor in the horizontal position, made famous by Joe Fockets and other diving artists. But apparently young Mr. Sage was a different proposition, or else some of the boys will be unkind enough to say that Jack allowed Bob to steal a few precious minutes from the family time, say for advertising purposes. Any boy who stays ten rounds these days with Jack Delaney will command a certain amount of respect. But the boys overlook the fact that Mr. Delaney in his desire to keep the wolf from the home door cannot afford to take any chances with his well-known quickness with his fists. Otherwise, that pot of gold waiting him at the end of the bout with Paul Berlemach may slip out of his mitt. Delaney may have allowed Sage to stay, as Sam Langford used to do in order to get a return bout. But the chances are that he did not. One healthy sweat on the chin and Mr. Delaney might take the count. If you had Mr. Delaney's opportunities right now, would you take any chances with them?

FRED and Bill Cook, western hockey stars have been sold to the New York Rangers. Too many cooks sometimes spoil the mixture.

ANY DECISION by the gathering of representatives of New Brunswick clubs here next Monday night will have a most important bearing on the future of amateur athletics in the Maritime Provinces. Whether the clubs decide to continue in the old way or whether they favor a new order of things, the verdict is bound to sway the scales one way or the other and consequently Saint John reports the meeting will be eagerly watched by other clubs in the Maritimes. Already two of the clubs in this jurisdiction, Woodstock and Bathurst, have said they want New Brunswick to control her own sport destinies and the sentiment locally is overwhelmingly in favor of such a move. It would be surprising, therefore, to see any other agreement than that in support of a new body adopted. The effect is not hard to foresee. The move of the New Brunswick clubs will crystallize action in other parts. It will definitely place us on one side of the fence. It is not unreasonable to suppose that other provinces will take action. The Wanderers A. C. in Halifax is on record in support of such a move. We believe Amherst is as well as clubs in Cape Breton. The next move then awaits the annual meeting of the Canadian Amateur Athletic Union here in September.

### MARRIED MEN WIN.

The married men defeated the single men by a score of 14 to 9 in a game of ball on the shipyard diamond last night. The batteries were, for the winners, McEachern and McConnell, and for the losers, McEachern and Lee. The two teams will play against each other throughout the season and they will have another game this week.

### PROTEST UPHELD.

The protest lodged by the Crescents to an arbitration board against the Martellos, whom the Crescents accused of having baited out of order in their South End League game on June 10, has been allowed and the game has been ruled a tie.

## DALTON LEADS BAPTISTS' WIN IN SOUTH END

SHAMROCKS have a chance tonight to cut the lead of St. Rose in the County League down to a game and a half by reason of their 10 to 2 victory over St. Peter's on the East End grounds last evening, and the prospects are that a hotly-contested match will ensue. A win for the Fairville lads would put them three and a half games in the lead, so with so much at stake a great contest is expected on St. Peter's Park tonight.

## Water Dept. Trounces Trojans on East End Grounds

SHAMROCKS had little difficulty disposing of St. Peter's last evening. LeBlanc and Johnston holding their opponents to five hits. The East Enders opened strong, scoring seven runs in the first four innings and adding three more in the sixth. St. Peter's got all of their counts in the fifth frame. Features of the game include the hitting of McPhee and Gaynes, both having perfect nights with the willow. Gaynes, former Saint John Baptist shortstop, had a double and a homer.

## Ready For Third Trial In Majors

Twice canned by the big leaguer Louis Fonseca of Oakland, Cal., and corner soda fountain, is about ready to demand another trial. This lad who once flashed across the Pacific Coast seas as a coming Eddie Collins, is playing such a brilliant game with Newark in the International League that scouts of half a dozen big league clubs have sent their ivory hunters and second-hand buyers around to look him over. He is considered right now the best second baseman in the circuit and has been fighting for the lead in batting with an average of .410.

Counted. Three double killings featured the game.

## BITTER FIGHT CONTINUES IN NATIONAL RACE

NEW YORK, June 28.—Once again the red legs of Cincinnati swing from the top of the National League ladder, a position regained without effort.

The Reds kept out of the rain in Philadelphia yesterday, while the New York Giants pulled the Pirates back into second position six to five, in the most exciting battle seen at the Polo Grounds this season. It went thirteen innings.

At this point, the youth Lindstrom of the Giants, lifted the first pitch delivered by the aged Adams into the right field stands and won the ball game. This verdict left New York, Chicago and Brooklyn tied for fourth place with a percentage of .508, three games behind the leaders.

Rhem and Keen each allowing six hits, set back the Boston Braves in a double header, 4 to 2, and 6 to 2. Triples by Blades and Bell, of the Cards, led much to do with the decision in the second contest.

Bill Marriot returned to third base for the Dodgers, and celebrated with three singles. In the tenth his sacrifice fly scored the run that defeated the Cubs, 10 to 9. Twelve errors were made during the afternoon.

In the American League the New York Yankees, including Ruth, found themselves helpless before Blankenship and bowed to the White Sox 6 to 2.

Washington accepted another beating at the hands of St. Louis, 8 to 7, in a game that was a heavy hitting one. The Browns scoring three circuit blows, by Williams, Schang and Durst. The White Sox won scored four runs in the second.

### IMPERIALS WON

A fair attendance of fans attended the Intermediate League game on the Allison grounds last evening when the Imperials defeated the Royals 15 to 4. The winners with heavy hitting in the fourth inning had eight men cross the plate, and also made three scores in the sixth and seventh innings, while the Royals were helpless. Batteries: Assumption, Fitzgerald and Joyce; Saints, Fowler and Edwards. Umpires, Owens and Fontland.

### ROYALS TO ROTHSAY

The Royals will meet the Rothsays tonight on the Rothsays diamond. Paul will hurt for the colored boys, and either Eidelein or Thomson will do mound duty for the suburban outfit. Monthell and Piewell, last year's outfielders with the suburbanites, will make their first appearance of the season tonight for Rothsays.

### PLAY TOMORROW

Postponed games of the Intermediate League will be played as follows: Y. M. C. Y. vs. Nationals, Saturday (tomorrow) 12th, at 7 p.m., on North End grounds.  
Braves vs. Alerts, Wednesday, 22nd, West End grounds.

CAPELLI GREAT IN RECITAL AT THE IMPERIAL

Brilliant Tenor Entuses Large Audience — Violin, Organ and Piano Features

The Ladies' Morning Musical Club provided a rare treat at the Imperial theatre last evening, in presenting Signor Mario Cappelli, world famous tenor, and Mrs. T. J. Gunn, local eminent violinist, at a 10 o'clock recital. The concert committee which carried the project through, was composed of Mrs. H. Taylor McKim, Mrs. F. A. Goslee, Mrs. A. H. Campbell, Mrs. F. J. Hodgson and Mrs. M. H. Berrie Good, and much credit accrues to these ladies.

CAPELLI SINGING. Cappelli came heralded as the logical successor of the late lamented Enrico Caruso, a high encomium indeed, and a reputation most difficult to live up to. His praises as an artist had been sung by critics both in Canada and the United States, and it is safe to say that he fully deserves all that has been said of him. His comparison with Caruso is far from being odious, for indeed he possesses the beautiful lyric quality which that great tenor had, as well as his robust attributes. Very rarely has a Saint John audience been privileged to hear such singing, and the glowing house testified its appreciation by continued applause after each of his selections.

Signor Cappelli possesses the real "bel canto," and his voice is truly a golden one. Too much cannot be said for his exquisite phrasing, and his diction is a delight.

VARIED PROGRAM His program was a varied one, and it is difficult to say which of his numbers gave most pleasure to his hearers. It was as follows: The Violetta Mozart; Total Eclipse, Handel; Queta O'Quella (from Rigoletto), Verdi; Sea Fever, Ireland; Goin' Home (from the New World Symphony), by request, Dvorak; The Star, Rogers; Aris, "La Fleur" (from Carmo), sung in French, H. J. G. (sung as a "Napole, Mario Cappelli; Come Ploveva, Gili; Don Coco (sung in Sicilian Dialect), Composer Unknown, rearranged by Cappelli.

Mrs. Gunn contributed "Scene de Ballet," by de Benoit, and a group composing a "Negro Spiritus" by White, "Waltz in A Major" by Brahms, and "Romance" by Faure. As always she played delightfully. Her accompaniment as a violinist never gave greater pleasure to her audience than it did last evening.

A word must be said for Mrs. F. J. Hodgson, who acted as accompanist. She was at all times a sympathetic one, and never obtruded her volume of tone upon the artist, whom she so ably assisted. Not the least enjoyable part of the evening was the reciting, upon the organ by M. Cortwright Ewing, of magnificent selections of grand opera from "The Bohemian" and "The Barber of Seville."

Prize Trout Winners!

We grow big trout in New Brunswick, judging from the wallopers that competed for the McAvity prizes. Any number of men had three pounders or better, any number of boys brought in two pounders. The winner in each class is as follows:

1st Men's—J. M. Woodman, C. P. R. District Superintendent. Length—2 1/2 days after landing—20 inches. Weight—2 1/2 days after landing—4 lbs. 7 oz.

1st Boys—Donald Bagnell, 217 Charlotte Street, West Saint John. Weight here—3 1/2 lbs. Length, 17 1/4 in.

Mr. Woodman, who got his at Harvey Lake, wins a well filled Leather Fly Book with shield suitably engraved. Young Bagnell wins a fine Rod, Line, Gear and Reel engraved with his record. He landed his at Seven-Mile Lake.

Hedley Northrup got a 3 1/2 pounder at Harvey Lake, measuring 18 inches.

So much for the performance of McAvity tackle.

Two Trousseau --A True Story

One went to reside in Edmunston and later St. Stephen, where there was no New System Damp Wash—the old washboard system prevailing. Her linens are gone ages ago—the lady staying in Saint John was served by the New System Damp Wash. She can still show you the fine condition of hers. It has cost her less to keep them longer—there is no rubbing or wringing the life out of fabrics at the
