## Solidly Behind The Irish Treaty, Says Bonar Law Manifesto

### WOULD HAVE THE PROVINCE RUN THE BREWERIES

### A Suggestion for Quebec Made by Hon. Mr. Amyot

### Says Then Only Would Liquor Commission be Complete—The Rev. Mr. Shearer Denies That Prohibition Increases Use of Drugs.

(Canadian Press.)

Quebec, Oct. 26.—That the Quebec government should buy or build breweries, operate them and take full control of the sale of beer, as it does for alcohol and wine, was suggested yesterday in the legislature by Hon. G. E. Amyot, in moving the address in reply to the speech from the throne.

He held that while the government was responsible for all the excesses which resulted from the too great freedom with which beer was sold it retained only five per cent. of the profits from those sales.

The liquor commission would be complete, he said, only when it had succeeded in obtaining full control of the sale of beer as it now had of alcohol and wine.

In British Columbia, Vancouver, B. C., Oct. 26.—If the provincial government submits a referendum to the people of British Columbia with regard to the sale of beer and light wines in hotels and cafes, the prohibition association will demand that the whole question of the liquor traffic be opened and an alternative provided on the ballot for an absolutely free province.

This was a feature of the president's address delivered yesterday by G. O. Buchanan to 200 delegates gathered from all over the province to attend the eighth annual convention.

Liquor and Drugs.—Denial of an assertion that the drug habit was largely due to suppression of liquor facilities was made here yesterday by Rev. Dr. J. G. Shearer of Toronto, general secretary of Social Service Council of Canada, in discussing a resolution moved at the annual meeting of the Quebec provincial Social Service Council.

He cited figures to show that importation of drugs into Canada had fallen from 12,888 ounces of cocaine in 1919 to 2,982 ounces for the last fiscal year, with proportionate fall in the figures for allied drugs.

Convictions for offences against the narcotic act were, he said, as follows: up to March 31 last: Nova Scotia, 9; New Brunswick, 14; Manitoba, 15; Ontario, 86; Saskatchewan, 88; Alberta, 101; Quebec, 237; British Columbia, 318. The two provinces not under prohibition, he said, supplied 82 per cent. of these cases.

ON WAY UP THE RIVER TO RAISE DREAM

STILL MAN STARTS NEW DRIVE IN DIVORCE CASE

White Plains, N. Y., Oct. 26.—James A. Stillman, wealthy banker, it was learned today, has started a new drive to reopen, in the supreme court, his unsuccessful fight to divorce Mrs. Anne U. Stillman and have her son, Guy, declared the offspring of Fred K. Beauvais, Indian guide.

The instrument in the Dominion Observatory in Ottawa yesterday afternoon registered an earthquake some 6,400 miles distant.

### New British Premier Opens the Campaign in Glasgow

### The Nation Needs Rest and Tranquility and He Will Leave This to Untrammelled Initiative of People—Proclamation Calls New Parliament to Assemble on Nov. 20.

(Associated Press.)

London, Oct. 26.—Andrew Bonar Law, as leader of the Unionist party, in a manifesto issued this morning, declared one of the tasks of that party if it is to return to power would be to make good the Anglo-Irish treaty both in letter and spirit and to co-operate with the Irish government.

Bonar Law in the manifesto said it was the Unionist party's purpose, if the self-governing dominions approved, to summons an economic conference in an effort to discover how the vast trade which the resources of the empire made possible could best be developed by mutual co-operation.

"The crying need of the nation at this moment is that we should have tranquility and stability both at home and abroad, so that free scope should be given to the initiative and enterprise of our citizens. With this in view, I think it of the utmost importance that we should return as quickly as possible and as completely as possible to the normal procedure which existed before the war."

Glasgow, Oct. 26.—Premier Law, in a speech here today, in discussing his policy, told a meeting of the West Scotland Unionist Association: "My strong belief is that this nation needs above everything else rest and tranquility, and my policy will be a negative one in this sense. The government's policy would be to leave the recovery from the war to the untrammelled initiative of the men and women of the country."

Bonar Law visited the Royal Exchange and received a rousing reception. He said it was not an occasion for him to make any political speech or try to obtain converts.

But, he added, in the position "to which I am called, whether it be for good or bad, I shall always realize that the real foundation of the welfare and prosperity of this country is in the good industry, the good industry and anything I am able to do to secure that object will not be left undone."

The manifesto declares it will be the government's earnest aim, if returned, to give whole-hearted and practical support to the League of Nations, to fulfill the obligations Great Britain has undertaken abroad but not to extend her commitments, but to maintain friendship and good understanding with the U. S. The proclamation ordered the new parliament on Nov. 20.

The king signed a further proclamation authorizing the summoning of the meeting of the Scottish peers at Holyrood Palace on Nov. 16, for the purpose of electing the sixteen representatives of peers of Scotland to serve in the new parliament.

London, Oct. 2.—A proclamation dissolving parliament was issued by King George this morning and will be gazetted this afternoon.

Thirteen hundred candidates have up to now entered the campaign for membership in the House of Commons. Of these, about 425 are Conservatives. In round numbers Labor has 400, the Asquithian or Free Liberals 300, and the Lloyd George or National Liberals 200. The little Welshman is vigorously striving to increase the number of candidates under his banner.

One of the main centres of interest in the whole election is Glasgow, where the new premier, Andrew Bonar Law, has two opponents in his campaign for re-election as the member from the central division of that city, for which he was today officially adopted as Conservative and Unionist candidate.

Former Ballie Mitchell is his opponent on the Labor ticket and Sir George Paish is opposing him as a Free Liberal.

CONDITION UNCHANGED. It was reported at the General Public Hospital today that the condition of Daniel Dalry, who has been seriously ill for some time, is not changed.

## "Treat 'Em Rough and Make 'Em Like It"

### Field Marshal von McLellan: "Cheaper electric power isn't the question. The question is: 'Who's Boss around here?'"

### RESTITUTION BY PROFITEERS ONE DEMAND

### British Labor Party Items in Manifesto

### Revise Peace Treaty and German Reparations—General Disarmament—Independence for Egypt; Self-government for India; Ratification of the Irish Treaty.

(Canadian Press Cable.)

London, Oct. 26.—A manifesto issued by the British Labor party yesterday says, in part:—

"That labor will not penalize theft, but that it will require some restitution from the profiteers out of the huge fortunes made in the war. The taxation of land values is also advocated.

The Conservative government, the manifesto declares, was formed to carry out a policy of naked reaction, labor is appealing to the men and women of the country on a policy of international peace and national reconstruction.

Revision of the peace treaty, which caused greater international wrongs than they removed, is the first step, the manifesto says. German reparations must be brought within Europe's capacity to pay.

Turkey's relations with Europe and the freedom of the Straits can be dealt with only in an international conference by the representatives of all the countries concerned.

Labor is working for an all inclusive League of Nations with powers to deal with international disputes by methods of judicial arbitration and conciliation. Through the League of Nations an agreement can be reached for the limitation of armaments, with general disarmament as the goal.

The Labor party advocates the independence of Egypt, self-government in India and cordial acceptance and ratification of the Irish treaty.

The manifesto advocates removal of the burden of the national debt through a special graduated levy on fortunes exceeding £5,000.

What Peoples Say. The manifesto holds a prominent place in all the morning papers today. They emphasize its leading points in heavy type headlines, showing that it is unpalatable to most of the papers. Only two devote a full editorial to the manifesto.

The Morning Post dubs it a dreary document and a rather obvious failure to dissemble the iron claws of charity in the nice woolen glove of common sense.

## SECOND EDITION Victory For Bluenose Is Latest Word

### Canadian Half Mile in Lead As Ford Loses Foretopmast and Apparently is Put Out of Running in Gloucester Race.

(Canadian Press Cable.)

London, Oct. 26.—At 1:37 the Ford had trouble with her staysail and four hands were sent into the foretop. The Bluenose also found work for three men at the foretop as she stood off on the port tack.

The Ford's foretopmast broke off half way up and the jib topsail fluttered into the water alongside. The Bluenose was nearly a half mile ahead at the time and seemed to have the race well in hand. The disablement of the Ford apparently settled the race.

### NEW AIR RECORDS

Paris, Oct. 26.—Lieutenant H. A. Rabatel, yesterday clipped nearly an hour off his record for the triangular Paris-Brussels-London course when he covered it in five hours, twenty-nine minutes, one and two-fifths seconds, from which must be deducted a stop of one half hour at Brussels and one half hour at London. Incidentally Rabatel lowered the Paris-Brussels record to one hour, fourteen and a half minutes.

### CROWN RESTS CASE AGAINST LITTLE WINDOW

Philadelphia, Oct. 26.—The commonwealth announced that it would rest its case today in the trial of Mrs. Catherine Roeler unless there was an unexpected development. She is charged with the murder of her husband, Oscar Roeler, and his stenographer, Miss Mildred G. Beckitt, and is being tried first for the slaying of the latter.

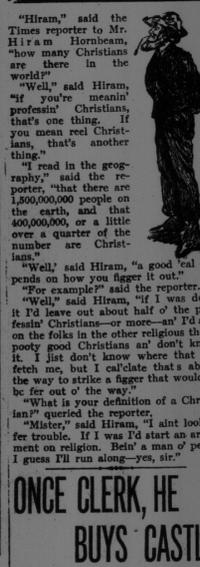

### DOCTORS THINK PRIEST WHO WAS SHOT WILL LIVE

Sherbrooke, Que., Oct. 26.—Reports received from St. Joseph's Hospital, Theford Mines, this morning state that Rev. Father Fernand Belleau, who was shot twice by eighteen-year-old Bolduc, passed a satisfactory night, and medical authorities believe that complications set in will be recovered. Dr. Achelle Paquet, specialist from Quebec, extracted the bullet which had lodged in Father Belleau's back.

### HOLD BACK ON LIQUOR ORDER FOR RULING OF COURT

Washington, Oct. 26.—Pending a final interpretation of the statute by the supreme court probably late next month or in December, enforcement of the U. S. prohibition law under the rule holding it to prohibit possession of liquor on foreign ships within U. S. territorial waters will be withheld, according to the indicated policy of administration officials.

## As Hiram Sees It

### ONCE CLERK, HE BUYS CASTLE

James Means Purchases Aboynce Estate Near Balmoral.

London, Oct. 26.—The newly rich continue to take over ancient country estates from Britain's old aristocracy. The latest instance is Aboynce Castle, with nearly 6,000 acres of picturesque country, near the famous Balmoral Castle.

James Means, who began life as a counter clerk in Aberdeen, and who is now the owner of a drygoods store in that city, is the new owner of Aboynce. He bought the estate from Marquis Huntly, who was married last summer to Mrs. James Macdonald of Washington, D. C.

The castle, more than 250 years old, was the home of the marquis' ancestors. The price Means paid for it was reported to be £120,000.

### TALK DIVISION OF ONTARIO

Matter of Making Two Provinces Out of One is Being Looked Into.

Toronto, Oct. 26.—While Premier Drury and his cabinet ministers decline to enter into public discussion of the mooted northern Ontario secession, the general impression in political circles is that the agitation is confined almost wholly to the northwestern section of the province, and principally to Rev. Arthur and Rev. William.

Peter Heenan, Labor member for Kenora, who is in consultation with Premier Drury yesterday, said that, as member for the most western Ontario constituency, he had formulated no definite opinion as to the wisdom of dividing Ontario into two provinces. In an event, he said, Kenora's interest would demand still another consideration in the discussion of such a big question, that of the advisability of Kenora and surrounding territory throwing in its lot with Manitoba.

Mr. Heenan said that the present agitation in northwestern Ontario was being carried on extensively by serious-minded men. Statistics as to the expenditures and receipts, he said, were being prepared, and if it were shown that both older and newer Ontario would benefit by a separation, the Kenora member said he would favor it.

### RED ARMY IN POSSESSION OF VLADIVOSTOK

Tokyo, Oct. 26.—Troops of the Red Army representing the Far Eastern Republic of Siberia were in complete possession of Vladivostok today. The last of the Japanese soldiers evacuated the city yesterday.

## Bluenose Springs Into Lead as Third Contest Is Begun

### Has Good Lead after passing First Mark But Ford Creeps Up as the 10-Knot Wind Dies Down—Very Close at Second Buoy.

(Canadian Press.)

Gloucester, Mass., Oct. 26.—The Henry Ford and the Bluenose had a light wind from the westward for their decisive contest today.

The Gloucester skipper, taking nothing away from the Bluenose, nevertheless said that he wished he had a whole main sheet to work with instead of the mangled one, cut down by official interpretations of rules with which the Gloucesterman's skipper and designer differed.

Canadian adherents today questioned whether Capt. Morrissey's schooner had the right of way at the start yesterday when, had he not hauled up, it appeared that collision between the two schooners was inevitable. Capt. John J. Matineau, mate of the Henry Ford, declared there was no question of it, that all the elements of the race yesterday were with the Gloucesterman and that only Captain Morrissey's wish not to sacrifice ships and men saved the race and possibly their lives.

The official time for start, first, second, third and fourth marks, and the finish of the race yesterday follows: Bluenose—11:00.59; 11:46.16; 2:12.17; 3:07.17; 3:56.09; 4:37.41.

Henry Ford 11:00.50; 11:46.55; 2:20.77; 3:11.54; 4:00.31; 4:56.04.

Both racers were slow in leaving their docks. The breeze dropped to less than ten knots. Both boats came under sail at 10 a. m. and running down the harbor without aid of the tugs. The Ford backed into the coast under the starting line. A diver examined the lead of the Ford before the vessel left for the points. He found it badly broomed and also took occasion to fix the schooner's rudder, which gave some trouble yesterday.

The schooner was sent away at 11 a. m. The course was the same as that of the start. Ten minutes before he berthed the Bluenose to weather of the Ford and both boats came down from the west Gloucester shore before the wind. Five minutes before the start, the Ford, instead of giving over the leading line, the start, tacked ship and lost nearly two minutes while in staysails.

Bluenose headed for the line with the Ford 200 yards astern. The Bluenose in such a fine berth was in no hurry to cross but when the starting signal was fired she picked up her skirts smartly and dashed over the line with a great burst of speed. The Ford was slow in reaching the line and followed twenty-seven seconds later.

At 11:15 the Bluenose, hard on the port tack, luffed for inside when she headed out for the mark with a commanding lead of 300 yards. Both boats had their staysails pulling hard and made fast time as they dashed along the cape shore.

They were just awash but being in smooth water under the lee of the land, they made little fuss. Approaching the first mark the Ford seemed to pick up and at 11:20 had reduced the Bluenose to 200 yards. Both sailed the first leg at a lively clip and came racing for the mark with a big bone under their noses.

Bluenose headed for the line with the Ford 200 yards astern. The Bluenose in such a fine berth was in no hurry to cross but when the starting signal was fired she picked up her skirts smartly and dashed over the line with a great burst of speed. ## PROSECUTOR IN DOUBT ABOUT IDENTIFICATION

### Woman Says She Saw Murderer of Minister and Woman

### Declares Rev. Mr. Hall and Woman Prominently Mentioned in New Jersey Case Were in Party of Four Quarrelling Under Apple Tree.

New Brunswick, N. J., Oct. 26.—Mrs. Jane Gibson, farmer and pig raiser, who says she saw Rev. Edward Wheeler Hall and Mrs. Eleanor R. Mills murdered on Phillips' farm, yesterday signed a statement for the investigating authorities in which she said she recognized at least two of the four people she saw quarrelling under the crab apple tree where the bodies were found.

One of the two, she said, was Mr. Hall. The other was a woman who has been prominently mentioned in the case. It was this woman, she said, who screamed out when the minister and the woman were shot a few minutes after the shots had been fired.

Wilbur A. Mott, special prosecutor in charge of the case was quoted to the effect that the document did not contain anything that she had not already told the authorities and he could see no need at present to make any further arrest. Mr. Mott expressed skepticism as to Mrs. Gibson's identification of Rev. Mr. Hall because the identification was made on the strength of a photograph. He said Mrs. Gibson never had seen the actor before the night of the shooting. Asked whether Mrs. Gibson ever before had seen the woman whom she identified as being present at the shooting and who, she said, she had identified the name of a man under suspicion, she declined to answer.

Says She is Sure. Mrs. Gibson today told a newspaperman that she had identified the man who, she says, shot the minister, as well as identifying the woman who, she asserts, was with the murderer.

## COURT MARTIAL COMMANDER OF THE RALEIGH

### Allegations in Reference to Loss of British Cruiser Off Coast of Labrador.

(Canadian Press Cable.)

London, Oct. 26.—The loss of the British light cruiser Raleigh off the coast of Labrador on August 8, had its sequel at Portsmouth yesterday when a court martial was opened on Commander Leslie Charles Bott, who was charged with having negligently or by default stranded and lost the cruiser. A plea of not guilty was entered.

The prosecution held that Bott was blameworthy for failing to point to the captain the extreme risks being run in commencing the taking of soundings sooner, in not using both sounding machines, in not reducing speed on his own initiative and immediately informing the captain when the density of the fog increased, and in not pointing out to the captain that the visibility in close proximity to Fortune Bay could be obtained from the wireless telegraph station at Point Amour as the ship reached Fortune Bay.

Captain Arthur Bromley, commanding the Raleigh, gave evidence that he did not hear the fog horn at Point Amour before the ship grounded, but heard it afterwards. A conference was held on the advisability of salvaging the Raleigh but a telegram arrived from the admiralty that they would not proceed with salvage work.

The court investigated a report prepared from the logs and registers of the Raleigh and the opinion was expressed that soundings were not commenced in time to ensure the safe conduct of the ship.

## CANADIANS IN NEW YORK CABLE TO BONAR LAW

New York, Oct. 26.—(Canadian Press.)—The Canadian Club of New York today sent a cable to Bonar Law expressing gratification that a Canadian has become premier of Great Britain.

The resolution instructing the president of the club to send the cable was greeted with cheers and was passed unanimously.

### THE FIGHT FOR CHEAPER POWER

G. Fred Fisher, the People's Candidate, Defines Issues of Campaign to Enthusiastic Meeting.

Headquarters for G. Fred Fisher, the people's candidate, were opened in Coburg street last evening and a large and representative body of men eager to demonstrate their fight for principal, and "hydro-at-cost," were there ready to perfect an organization for the coming election. They were addressed by Mr. Fisher who gave some interesting data on the high finance methods used by the Power Company. He emphasized the fact that if there is to be a fight, then the Power Company and not the city must suffer.

After welcoming the large turnout, Mr. Fisher aroused enthusiasm when he declared that he had found much that was encouraging, even at this early date in the campaign. On all sides he heard commendation of his platform, and though much had been written and said about this platform and the hydro question in the newspapers and by many speakers, there was much missionary work to be done by hydro advocates in view of the very considerable propaganda that was being spread around by Power Company agents to injure the cause for which the people were fighting.

### How You Dread buying new shoes when you know painful corns will take all the joy out of them.

**CORNS**  
Stop the pain at once by using  
**Dr. Scholl's Zino-pads**  
FOR CORNS, CALLOUSES AND BUNIONS

This adhesive, absolutely safe, waterproof, and wonderfully healing, sold by all shoe, drug and departmental stores.

PUT ONE ON-THE PAIN IS GONE

He declared that he had found much that was encouraging, even at this early date in the campaign. On all sides he heard commendation of his platform, and though much had been written and said about this platform and the hydro question in the newspapers and by many speakers, there was much missionary work to be done by hydro advocates in view of the very considerable propaganda that was being spread around by Power Company agents to injure the cause for which the people were fighting.

One objection urged, the candidate went on, was that the extra heavy taxes would flow up into the Musquash plant and cause back pressure. A glance at the maps, showing the tides, showed that the highest tide ever recorded fell well below where the plant is situated. The man who raised this point was an honest doubter, he believed, should be sought out by the workers, and if they could not answer at the moment, they should not give up but seek the answer and remove the elector's objection.

The chief matter to guard against in the campaign, the candidate said, was the spate of the electorate on this vitally important question.

The Objective.

"We are fighting for cheap electricity in this campaign," declared Mr. Fisher, "and that fact must be impressed on the citizens." At present the Power Company was standing the way of cheap electricity and it must be removed. The company was, and always will be, the strong force to fight in regard to insidious propaganda. It was up to the workers to do their part and effectively counteract such influences.

## 57

**Always just right**  
For every day, for busy days, when you are late, when company comes—whenever you want a perfectly delicious, wholesome, economical food that meets with the requirements of an elaborate meal—

### HEINZ Spaghetti

Ready cooked, ready to serve

The attempt to give value to watered stock, said Mr. Fisher, must be blocked. The thing to do was to go head and take the current, and if the company was not willing to accept the offer the city should proceed at once to erect a city distribution system. If there was to be a fight, then the company must suffer and not the city.

The Musquash development, Mr. Fisher repeated, would make possible a saving amounting to two-thirds over present rates. Now the top rate was fifteen cents per k.w.h., with the ten per cent discount for prompt payment. With hydro, the rate could be brought down to four cents per k.w.h., with very possibility that it would go lower than that when the consumption grew.

### ONE LOST SEAT TAKES MAJORITY FROM LIBERALS

Following this, the meeting set to work with a will and discussed the real work to be done during the campaign. It was emphasized that the main idea was to get the vote out on election day, and to this end organization will be perfected.

The rooms will now be open during the day and throughout the evening, to be used as headquarters to work for victory and celebrate it on the night of Nov. 13.

### SIX WOMEN ON THE CLINE MURDER JURY

Will Decide Fate of Three Held for Killing Screen Stunt Actor.

Hackensack, N. J., Oct. 26—Six women are on the jury that is trying George Cline, Charles Scullion, and Alice Thornton on charges of murdering Jack Bergin, motion picture stunt actor, who was shot in the chest by Parker in the County Court here. This is the first time in the history of the county that so many women sat on a jury in a murder case.

The women are: Susan A. Squire, stenographer, Ridgefield Park; Susan B. Rogers, who gave her occupation as home-maker, Dumont; Eugenia F. Muller, housewife, Rogota; Louise Fisher, housewife, Ridgefield Park; Julia Parsell, who said her occupation was "home duties"; and Adelaide P. Brown, home duties, Tenafly.

The men are: Benjamin P. Poor, clerk, of Hasbrouck Heights; Charles F. Zalk, jeweler, Clueter; Edward E. Kr. bookkeeper, Northvale; Gustav Sulger, shoe dealer, Fort Lee; Charles Ackerman, draftsman, Emerson Borough; and Curt Viltter, loom fixer, of Hackensack.

### MORNING NEWS OVER THE WIRES

The investigation into the circumstances attendant upon the hanging of Benny Swain will be begun on Thursday, November 2, in the court house at Woodstock, so J. Bacon Dickson, commissioner appointed to conduct the inquiry, announced in Fredericton yesterday. It is not known whether persons concerned in the matter will be represented by counsel or not.

An unsuccessful attempt was made by a gang of nine persons to rob the branch of the Royal Bank at Pipestone, Manitoba, recently. They were frustrated by a posse of armed citizens who had learned of the plan. Shots were exchanged and the robbers fled.

A lone bandit walked into a diamond store in Toronto yesterday, held up the general sales manager, Joseph Gould, and escaped with \$10,000 worth of diamond rings from the stock in the window.

In Washington yesterday Supreme Court Justice Brandeis refused to grant foreign lines a stay against the enforcement of the United States prohibition regulations forbidding transportation of intoxicating liquors in United States waters.

In a minority report issued recently in connection with the board of conciliation in the wage disputes between the C. P. R. and its employees, the position of the company is upheld. The dispute over a reduction in pay affects about \$200 clerks, freight handlers, baggage men and checkers. The amount involved is between six and eight dollars a month each.

Corn at ten cents a bushel equals coal at \$5 a ton for burning.

### ROTHESAY CHORAL SERVICE

Seventy-five members of the various parishes of the rural deanery of Kingstons took part last night in the choral service held in St. Paul's church, Rothersay, for the Kingston Deacons Choral Union which has been re-organized recently by Douglas Baker, organist of St. Paul's church, after a lapse of sixteen years. Among the choirs participating were those of Hampton, Norton, Sussex, Hammond River, Renforth and Rothersay. The choir overflowed the part of the church assigned to it and some of the members were placed in the front row seats. The capacity of the church was taxed also by the large audience assembled to hear the unusually fine music. The service was conducted by Rev. J. H. A. Holmes, Rev. Canon R. A. Armstrong and Rev. Canon A. W. Daniel. The work of the organist and organist, Mr. Baker, was largely responsible for the success of the service last night as well as for the organization of the society.

**"Style is as essential in dress as it is in literature"**

*Fashion Facts*

To produce style in dress, it's necessary first to have a suit that accentuates your personality. A Suit that gives style to one man may totally fall down on a different man.

Here's a fine quality blue worsted with pencil stripe at \$45, ready for service, that on most men is remarkably smart. For others grey and herringbone stripes in several shades and patterns, that most men can be suited.

In fact our selection is so varied in models and fabrics, colors and patterns, that most men can be suited.

**Price that please**

It may be hard to read, but it's easy to prove. The prices below give you some idea of how much you save at Wasson's. Some prices are good only until next Monday night.

**MAY GET THE DRY VOTE IN SCOTLAND**

Likelihood That Temperance Support May Go to Lloyd George Candidates.

London, Oct. 26.—There is a strong probability, declares a Central News despatch from Edinburgh, that the Scottish temperance vote, which in 1918 was cast solidly for the Coalition, will be cast at the forthcoming elections in favor of candidates supporting Mr. Lloyd George. Leading temperance organizations are meeting to discuss the situation, and the message, and many minor conferences already have passed resolutions in support of the retiring premier.

Considerable interest was aroused in London temperance circles over this report. It was pointed out by an official of the United Kingdom Alliance, the principal British temperance organization, that such an attitude would mark a departure from previous stands of the Scottish temperance organizations, which heretofore had always supported individuals declaring themselves in favor of temperance principles, regardless of party alliance.

If the report is accurate, however, it is estimated that an attitude by the Scottish temperance voters, judging from the anti-licensing vote at the last election. It is considered unlikely in temperance quarters that the Scottish temperance advocates will support the Unionists in the forthcoming election, as Sir George Young, present chairman of the Unionist party, is a prominent Scottish brewer, but whether they will throw the weight of their influence solidly on the other side or with any party is considered here as a highly speculative question.

**OBJECTS TO WEDDING FEE.**  
Toronto, Oct. 26.—Answering the question: "Should ministers receive wedding fees?" at the North Earlcourt Methodist church recently, Rev. A. E. Baker, the minister, replied in the negative.

He asserted that a minister should wait on the marriage of members of his church without charge.

ADILA TEMPLE D.O.K.K.

Adila Temple No. 157, D. O. K. K., will hold an emergency session in their rooms, Pythian Castle, Thursday evening, Oct. 26 (tonight) at 8 o'clock. Important business. H. M. Akereley, secretary.

**SALE OF WINTER OVERCOATS FOR MEN**

There are wonderful bargains to be had at Henderson's Cash Raising Sale of men's clothing. The overcoats start at \$15, \$17.50, \$20, \$24 and up. Special grey worsted suits at \$31.50. Call and look this stock over—Henderson, The Clothing Man, 104 King street.

About seven hours is the average life of a thunder storm.

**Public Now Prefers Vegetable Laxative**

Dr. Caldwell's Laxative Syrup Pepsin affords prompt relief in a natural way. THE public is constantly being discriminating in its choice of things. Those subject to constipation try to find what makes them constipated, and then avoid it. If constipation persists in spite of all their efforts they take a laxative. A gentle-size bottle can be had at any drug store, and it costs less than a cent a dose!

Many take a teaspoonful of Syrup Pepsin once a week as a health safeguard. Others use it only when required, as for example, Mrs. Jack Turtle of Cherry Valley, Ont., who finds it equally valuable for herself and the children, and Mr. H. S. McLaren of Montreal, Que., who uses it regularly. Try Dr. Caldwell's Laxative Syrup Pepsin for constipation, biliousness, headaches, salivary complexions, and to break up feverish colds. A gentle-size bottle can be had at any drug store, and it costs less than a cent a dose!

**TAKE DR. CALDWELL'S SYRUP PEPSIN LAXATIVE The family remedy**

**GYPSY FOOT RELIEF**  
A secret from the desert. Ends Foot Misery Quick!

Apply it in a minute—Three minutes later put on shoes, then walk and run all you like and work on your feet as much as you wish!

No more inconvenience—no plaster, liquids, nor cracking the skin with powders; no fuss; no bother!

The annoying agony from sore, burning, calloused, tired feet stops, while pains from corns and bunions disappear as if by magic! Results amazing! Thousands now talking of the secret from the desert! Try it tonight—jump around with joy tomorrow! Successful results in every case positively guaranteed, or have back the little you pay. Sold in this city by all good druggists including Travis Drug Co., J. M. Roulson, Durick, Ross Drug Co., Wasson's Drug Stores.

**Save On Your Coal Bill**  
From The Anthracite Bureau of Information, Philadelphia

"It is not generally appreciated, to what extent economy without any loss in efficiency may be secured through the use of the smaller sizes of Anthracite, Pea and Buckwheat, mixed with the larger sizes. Pea and Buckwheat coal can be used to excellent advantage mixed with Chestnut in kitchen ranges and other small stoves or by themselves in small stoves with close grates, and are particularly well adapted for preparing fires for the night.

"It is a mistake to top off either your furnace or range with a large sized coal. Your fire bed at night should be covered with a compact layer such as is provided by pea or buckwheat coal. These smaller sizes are invaluable for covering your fire at night. The spaces between the grate bars do not have any bearing on the covering of the fire at night.

"Experience has shown that the best method of preparing the fire for night is first to feed the fire with a small quantity of the usual size in use, and top it off with one or two shovelfuls of pea or buckwheat, preferably the latter, which will fill in between the larger lumps and hold the fire, and is very much cheaper. This 'topping will burn up quickly in the morning, after which the larger size can be fired as usual.

"The greater economy is obtained through the use of a mixture of the larger and smaller sizes in the regular operation of your stove or furnace. The coal can be fired in separate shovelfuls, one of the usual size, then one of the smaller coal, and so on. In the case of a furnace using egg coal or the case of a stove using nut coal.

"During the war the United States Fuel Administration recommended the mixing of large and small sizes by householders as a temporary measure. The experiment proved so successful that many domestic consumers have continued it as described above.

I believe that the same management would apply to the use of egg and pea or buckwheat in No. 13 or 14 self-feeder stoves, and should be tried, as nut and chestnut appear to be the sizes hardest to obtain; and that nut and pea or buckwheat would give good satisfaction in the small self-feeder stoves.

I recommend those using Welsh coal to try the smaller sizes of Anthracite for topping off their fires at night and checking the free burning quality of the Welsh coal.

Remember these smaller sizes, pea and buckwheat, are cheaper than the regular sizes, buckwheat much cheaper, and if your dealers have not imported buckwheat they will do so if there is a demand.

PROVINCIAL FUEL ADMINISTRATOR.

**Tickless Clock**

Latest Invention of Germans Hailed as Boon to Humanity.

Berlin, Oct. 26.—The tickless clock is one of the boons promised humanity through the discovery of a German scientist who has been delving in the field of oscillation. A selected audience of government officials, scientists and newspaper men today witnessed a demonstration of inventions of this nature perfected by an engineer, Heinrich Schiefelstein, head of the Laboratorium fur Schwingungstechnik of Berlin.

A noiseless timepiece, operating without a lever, was one of a number of specimens which Herr Schiefelstein used to show the technical importance of oscillating power for high-speed power engines and in the propulsion of ships, airplanes and airplanes. A German-American corporation has been founded in Berlin for the purpose of world-wide exploitation of these discoveries. Representative Fred A. Britten of Illinois is said to be actively interested in the invention.

Today's demonstration was featured by the use of an oscillating motor which is said to be the first synchronizing motor perfected, producing vibrations

**BABY'S CRIES SAVE FAMILY FROM DEATH BY ESCAPING GAS**

New York, Oct. 26.—Cries of their year-old son probably saved the lives of Dominick Cutlone, his wife, Anna, and their three other children when escaping gas from a stove in the kitchen of their home at 1788 Nostrand avenue, Brooklyn, filled the three-room apartment. The child's crying awakened Mrs. Cutlone, who struggled to a window and threw it open. She screamed and collapsed. Her scream awakened her husband and the other children.

Cutlone opened all windows to the apartment and summoned a policeman, who called an ambulance from the Kings County Hospital. Mrs. Cutlone was revived and said she felt no ill-effects.

There are 1200 layers at large in the United States.

The Evening Times and Star

ST. JOHN, N. B., OCTOBER 26, 1922. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

G. FRED FISHER'S PLATFORM

No. 1-(a) The completion and signing of the contract with the New Brunswick Electric Power Commission for Musquash Power. (b) The appointment of an independent Civic Hydro Electric Commission to construct a Civic Distribution System and operate same.

A FALSE ASSERTION.

Those who are working in the interests of the New Brunswick Power Company and the candidate it is trying to elect as mayor, assert that if the city takes and distributes hydro there will be an increase in taxation.

This assertion is untrue. Hydro will be paid for by the users of hydro, and not one cent will be charged to general taxation. Not only will the users of hydro themselves not have to pay more taxes, but what they will save in their light and power bills will be a goodly contribution toward their ordinary taxes.

Not more taxes, but more money with which to pay the ordinary taxes will be the result when the city distributes its own light and power. This has been the experience wherever municipalities have gone into the business of getting power at cost. They have been relieved of the burden of providing fat profits for a private corporation, and enabled to put money in their own pockets.

The man who votes in the interest of the New Brunswick Power Company votes to take bread and butter off his own table. We are told that if the city goes into the hydro business the company will cut its rates and fight. For what purpose? To benefit the people? On the contrary, it would be to fight the people, and, if the company wins, how long would its rates remain down? Has any citizen of St. John any doubt on that question? The only safety for the city is to fight and win. Then it will control its own affairs.

Whoever controls the light, heat and power of a city controls its growth. No thoughtful citizen will dispute this assertion, for its truth is obvious. Therefore St. John, having the opportunity to gain control, would deliberately stifle its own growth if it threw up the sponge and left that control in the hands of a corporation whose excessive rates have prevented industrial expansion in the past.

The attempt to put into the minds of people, who have not thought the thing through, the fear of increased taxation, is made in the interests of the power company and for no other reason. The company fears nothing else so much as it fears competition by the city. It knows what the end would be. Therefore it will stop at nothing to confuse or frighten the people into voting for Mr. McEllan. Let nobody be deceived. This fight is to determine whether the city gets cheap light and power or whether the New Brunswick Power Company is to have its way—and its profits on watered stock.

NOW IT'S \$7,000,000.

The New Brunswick Power Company has issued a circular to its shareholders which charges Mr. Fisher with having adopted a policy of concealment, and declares that "your company's plant could not today be replaced for \$7,000,000."

What do the citizens think of this brazen falsehood? It is part of a deliberate campaign to fool the people and prevent them from getting the benefit of the Musquash development. Mr. Bodell only asked the city to give the property of the company a value of \$5,000,000. Of course there was also the \$2,000,000 of common stock or "water," which would be made dividend paying if the company could control the situation; but \$7,000,000 is an entirely new figure. The supreme court finding in the matter was that "the finding of

PROHIBITION OLD IN SOUTH AFRICA

Bechuanaland was "Dry" Long Before Anti-Saloon League Existed. London, September 20.—(By Mail)—For fifty years Bechuanaland, north of Cape Colony in South Africa, has enjoyed peace and prosperity under Chief Khama, with Great Britain lending a helping hand when needed. Khama said to be the oldest native ruler in Africa, is now celebrating his jubilee. As he looks back over the years he sees much to make him happy, but nevertheless he is distressed by the future of the protectorate. His son and heir belongs to the new order, looks upon Khama as a relic of the past, does not believe as he does, and shows no inclination to follow in his footsteps. For twenty-five years he has been away from home and has not seen his old father. He turned up only just in time to attend the jubilee celebrations.

THE IRISH FREE STATE.

Only the assent of the British parliament is now required to make the Irish Free State a member of the British commonwealth of nations. The parliament in Dublin has unanimously adopted the constitution, and the assent of the British parliament is a foregone conclusion. As Deputy Milroy has pointed out, the next step will be to bring together in closer sympathy the two sections of Ireland, south and north.

The new Irish constitution is rightly described as a monument to Collins and Griffith. They, being dead, yet speak. It is a strange fact that on a recent Sunday evening in Symphony Hall, Boston, at a meeting of Irishmen, several persons listed the names of these two men, whose services to Ireland have been of incalculable value; and it illustrates very clearly the bitterness of feeling between the upholders of the Free State and the republicans, on both sides of the Atlantic. Surely, now that the new constitution has been adopted in Dublin, the faculty of further strife must be apparent. The men at the head of Irish affairs in Dublin appear to be worthy successors of Collins and Griffith, and their labors are bearing good fruit. The other members of the British commonwealth of nations will heartily welcome an united Irish Free State, and rejoice when the long struggle has ended in peace and good will.

WILFUL WILHELM.

(The Cleveland Press.) For a mere bagatelle of \$225,000, Wilhelm, former German Kaiser, consents to tell his story to the world. He is called, might better have been styled "Me" and the world would be the wiser. The memoirs give an insight into the mind of the erstwhile War Lord of Europe. Wilhelm, the fallen, is the same psychologically as the young Humpty-Dumpty that he was in his palmy days when it was "Me and Gott."

TAXI DRIVER STABBED.

Four Men Attack Him After Complaining of Excessive Bill. Complaining that the taxicab bill was excessive, four men whom he drove in his taxicab from Broadway near Forty-second street to Ninth avenue and Thirty-fifth street, beat and stabbed Joseph Morris, twenty-four years old, of 107 Fifty-first street, Corona, L. I., when he insisted upon being paid.

FINDS RING IN GIZZARD.

Illinois Farmer Kills Eighteen Chickens in Search For Lost Diamond. Peoria, Ill., Oct. 26.—When Henry Wagener lost a \$250 diamond ring recently, he reported the loss to the police. He learned the ring had been missed soon after he fed his chickens. They advised him to search his chickens. Wagener did.

Wire Victim Leaves 14 Children.

Bristol, Conn., Oct. 26.—Dennis Legasse, fifty-six years old, of this town, was instantly killed when he touched a high tension wire while working at the Bristol Brass Corporation. Legasse, who was a millwright, was assisting in putting up a brace for the wires when he caught hold of one. He leaves his widow and fourteen children, perished guide for many years.

LIGHTER VEIN.

Had Nothing to Say. (From Pana, Ill., Palladium) At the hospital the wounded man refused while alive to making any statement concerning the killing affray or to give out the name of his assailant. He made no post-mortem statement, it is said.

Really Impossible. "Be a good Kansas boy and stop crying," said the benevolent old gentleman to the weeping child. "I can't," sobbed the child. "Here's a penny," persisted he. "Now, why can't you be a good little boy?" "Cause," said the child, "I'm a girl."

Breaking the News.

The butcher came into his master's room wearing a weblike expression. "There's very bad news this morning," he said. "What is it, John?" "Your master, Wilson has been an' gone an' hung himself. An' that isn't the worst; that there fox has been into the premises an' killed twenty of the young pheasants!"

MR. McLELLAN'S THREE CHANGES

First, he said that he had investigated the Musquash through his own engineer and had found that there was little power there—only a few hundred H. P.

Secondly, he discovered, and proclaimed, that the system of storage dams would ensure plenty of water and plenty of power.

Thirdly—today—he says he is doubtful about the capacity of the Musquash, and he talks about the need for a steam stand-by.

So does the Power Company. That's part of the company's game. Anything to keep St. John's citizens from enjoying the benefits of Musquash power at cost. Anything to keep the people's money flowing into the Power Company's coffers through excessive monopoly rates.

Well, election day will soon be here. On that day, roll up the majority for old St. John, for cheap power free from monopoly rule and monopoly profits!

NOT A VISION BUT A REALITY

Cities and Towns Which Now Have a Maximum Rate of Three Cents—A One-Cent Rate the Objective—What It Means to the Average Citizen. The new era of electric power is discussed by Carl D. Thompson, secretary of the Public Ownership League of America, in one of a series of articles on Public Ownership of the Nation's Power, in the October number of the Locomotive Engineers' Journal. His article is as follows:

The New Era of Electric Power. We are in the beginnings of the greatest industrial revolution the world has ever seen. As the invention of the steam engine in the late eighteenth century revolutionized all methods of wealth production and distribution, so now the invention and application of electric power is revolutionizing all industrial processes.

What Do You Pay? What do you pay in your city? The chances are you do not use electricity for cooking—very likely you do not use it for heating at all one cent a kilowatt hour! Springfield has a one-cent rate. If you live in the average American city served by the ordinary privately owned electric light and power company, you will probably find that your rate is not less than eight to ten cents a kilowatt hour for domestic lighting. It averages over twelve cents in New York state and over thirteen cents in Massachusetts!

At these rates—one cent and a half cent—electricity is actually cheaper than gas or coal. "The average home," says the 1921 Information Book of the light department of the city of Tacoma, "uses each year about \$80 worth of heat, \$45 worth for cooking and one-half a cent for heating. Homes are being built in Tacoma without chimneys. The people cook and heat with electricity."

At these rates—one cent and a half cent—electricity is actually cheaper than gas or coal. TELLS HALIFAX MEETING OF THE FEDERATION PLAN

Rev. H. E. Thomas Favors a More Central Location for a Maritime College Group—Proposals re U. N. B.

Rev. H. E. Thomas, one of Mt. Allison's representatives at the important Halifax meeting on college federation, returned yesterday. In an interview asked for by The Times Mr. Thomas said:

"The meeting was quite representative, being present, besides college delegates, representatives of the maritime provincial governments. The principle of federation was carried out, but although sacrifices must be made to enter, yet possibly greater sacrifices were entailed in remaining outside. His hope had been that with the support of a large corporation the whole system of higher education might be democratized that wider opportunities would be afforded to the youth of the maritime provinces than are now given. Every boy and girl who desired it was entitled to the privilege of an arts course, but that was largely a class privilege at present."

The determining factor with him, he declared, was whether the proposed scheme would give the privilege where it was now denied. The point was not reached where this could definitely be settled, but there was a great fear in his mind that the federation might not decrease the cost of higher education. This desirable objective was not met by merely providing in the maritime provinces one of those colleges of high proportions and high standards which now are found only in Montreal and large centres in the United States. In whatever presentation is made of the case for federation the fine contribution which the small colleges had made and were making was not to be ignored.

Mr. Thomas paid a high tribute to the fine spirit manifested by the authorities of Dalhousie, who were ready to practically sink its identity and send over all its plant to the new institution. Some cause at least could be shown for giving the name Dalhousie to the new institution.

An Open Mind. Mr. Thomas said he had tried to carry an open mind into the conference, and his attitude would be determined by the details of the scheme set to be worked out, although in principle he gave fullest support. "When we consider that in this movement we are probably hastening for the next 100 years," he said, "it becomes the part of every good citizen to study

A Wee Bit O' Heat

is very necessary at this time of year. We have heaters of every description at prices less than you expect to pay. Why not come over and see them. There is one here to suit you no matter what your need.

PHILIP GRANNAN, Limited 568 Main Street. Phone Main 365

aggregate about \$500,000, which would mean that with at least \$500,000 from the Carnegie Foundation, the U. N. B. would enter the federation with assets of \$1,000,000. This was an appeal which could not easily be ignored, and no doubt would have careful consideration.

Asked as to the number of colleges likely to enter the proposed federation, Mr. Thomas said that while at present there were only two or three in any degree definitely committed, yet the conviction was deepening in many minds that although sacrifices must be made to enter, yet possibly greater sacrifices were entailed in remaining outside. His hope had been that with the support of a large corporation the whole system of higher education might be democratized that wider opportunities would be afforded to the youth of the maritime provinces than are now given. Every boy and girl who desired it was entitled to the privilege of an arts course, but that was largely a class privilege at present.

### DEATH TOLL IN NEW YORK FIRE NOW FIFTEEN

Aged Woman Succumbs to Burns Received

Drug Addict Seized and Sent to Bellevue—Two Bodies in Morgue Identified.

New York, Oct. 26.—The list of dead in the fire at 110th Street and Lexington Avenue Sunday in which fourteen persons were reported to have lost their lives, was increased to fifteen when Mrs. Rose Ingles, 83, died of burns and the inhalation of smoke. Her daughter was burned to death in the fire. The two unidentified bodies at the Morgue were identified as those of Gerald B. Sugarman, 20, a violinist, and his sister, Marie Sugarman, 24, a stenographer. Five brothers and sisters in the Sugarman family and the husband of one of the sisters were burned to death.

Funds for the relief of sufferers from the fire are being raised, although a committee was only organized yesterday. Martin J. Kennedy of 46 Dey Street, is Chairman, and the Yorkville Bank, Eighty-fifth Street and Third

### LOCAL NEWS

A telephone call to No. 4 fire station in City road, caused the firemen to make a quick run to St. Paul street at 6.45 last evening. A search was made up and down the street, but no trace of a fire could be found. When the firemen were about to give up the search, a man stepped up and said that he had sent the message but had been able to put the fire out without help.

Rev. John A. Swetnam, pastor of the Waterloo street Baptist church, will leave tomorrow morning for Cambridge, Queens county, to take charge of the musical programme in connection with the Baptist young people's rally being conducted by Rev. W. C. Machum and Rev. R. H. Warren, of Fredericton. While Mr. Swetnam is away his pulpit will be supplied by Rev. F. S. Porter.

A freight train, bound for Halifax, was derailed last night near Sussex. It was in charge of Conductor Rogers and Engineer MacAulay. Late last night it was put back on the track and the road was cleared for traffic. Considerable delay was caused to Number 17, the incoming passenger train from Halifax, with the result that it did not arrive in the city until 1:05 this morning. No one was injured in the derailment.

A very successful Halloween party was held in the rooms of the Carmarthen street Epworth league last evening with between fifty and sixty persons present. During the evening the president, C. E. Styles, extended the right hand of fellowship to four new members, making a total of eighteen persons who have been enrolled in the league during the last three weeks. The opening exercises were conducted

by the fourth vice-president, Miss M. Fox, after which Halloween games were indulged in. The meeting closed with the singing of Auld Lang Syne.

The relatives and friends of Mrs. Kerr gathered at the home of H. Seaton on Wednesday evening of last week to celebrate the anniversary of her birthday. After indulging in games, refreshments were served and in recognition of the happy event they presented her with a nice gift.

**WOMEN PREVENT TRAIN WRECK**  
Timely Warning Saves Vermont Passenger Train from Collision.

Lebanon, Conn., Oct. 26.—The combined efforts of two women prevented a wreck on the Vermont Railroad in the town of Franklin and saved about 150 passengers from possible injury. Mrs. E. M. Troland, telephone operator here, received a call for aid from a telegraph operator of the railroad at Yantic, who reported that a northbound passenger train was on its way to Lebanon and a locomotive was running south on the single track, and they would probably come together in Franklin unless something was done.

Mrs. Troland pushed a plug into the switchboard and a telephone bell rang in the Murphy farmhouse in Franklin. Mrs. William Murphy answered the call. In a few moments she was on her way with her daughter to the railroad tracks nearby. The engineer of the lone locomotive headed the waving of her apron and stopper. Then he backed the engine, blowing the whistle meanwhile as a warning to the passenger train.

**RECENT WEDDINGS**  
MacKnight-Rundie.  
At St. David's Church, St. John, on October 25, by the Rev. Hugh Miller, Catherine Margretta, second daughter of Mr. and Mrs. James A. Rundie, of Newcastle, N. B., was united in marriage to Joseph Graham MacKnight, son of Mr. and Mrs. Joseph MacKnight, Douglastown, N. B.

Mann-Bater.  
A quiet wedding was solemnized yesterday afternoon at Centenary Methodist parsonage in Princess street, when Rev. R. G. Fulton united in marriage J. Frederick Mann and Miss Gladys Bater, both of St. John. The bride and groom were unattended. After a short wedding trip, Mr. and Mrs. Mann will return to the city to take up their residence at 28 Castle street. They have the good wishes of many friends. Mr. Mann is in the employ of the Corona Candy Company.

**RECENT DEATHS**  
Mrs. Fannie E. Semple.  
The death of Mrs. Fannie E. Semple, wife of the late Samuel Semple, occurred yesterday at the home of her nephew, W. H. Semple, 44 Paradise row, after a lingering illness. Mrs. Semple was born in Castle Finn, Donegal county, Ireland, seventy-eight years ago, and she came to this country forty years ago and has resided in this city ever since. She is survived by one brother, John Davis, a teacher in Australia; and one sister, Mrs. Sarah Wray, of Glasgow, Scotland. Her funeral will take place on Friday afternoon at 2 o'clock from her nephew's residence.

**THE CHORAL SOCIETY.**  
The St. John Choral Society held its second practice meeting last night in the Natural History Society's rooms and the attendance was excellent, several additional new members being enrolled. Much interest was taken in the new music which is to be studied and the outlook is for the most successful season yet. "A Song of Des-

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, OCTOBER 26, 1922

# Rich Cream That Will Keep Sweet

## Keepsweet Milk Good For Children

Keepsweet Milk, like Keepsweet Cream, is the pure, whole, unadulterated product. It keeps sweet because of its 100% purity and absolute freedom from germ life.

It is a wonderful food for babies, growing children, invalids or the sick. In fact, it is the safest milk that can be recommended.

Keepsweet Milk is delicious in flavor, having none of that smoky unpleasant taste so often experienced in canned milks.

Do not add water or sweetening. Simply punch two holes in the top of the container, empty all the milk into a jug and use. Keepsweet Cream, mixed with Keepsweet Milk produces a delicious light table cream of about 11 per cent butter fat—the "top-of-the-bottle" grade—and cheaper than you can buy raw cream.

All grocers sell Keepsweet Milk.

**Y**OU'LL be simply amazed when you try Keepsweet. It's cream! Rich, pure, sweet, natural cow's cream! Not milk, mind you, but the finest cow's cream and it's put up in sanitary cans. In fact, it is the first and only product in a sanitary can that the Dominion Government permits to be labelled "Cream." It is the sensation of the year.

**It is not Condensed  
It is not Evaporated  
It is not Medicated**

Keepsweet is whole, natural, liquid cream, just as it comes from the cow, only it's purified to the last degree. The remarkable thing about it is that it will keep sweet all summer long. Without ice, without special care, it will keep sweet and pure and wholesome in its sanitary can for an indefinite period.

No preservatives of any kind are put into Keepsweet Cream. Absolutely nothing is put into it and absolutely nothing is taken from it.

### Pour from the Can and Use

You simply punch two holes in the top of the can and empty the cream into a cream jug. Then use it as you would raw cream—on porridge or cereals, in coffee, cocoa or tea,

on puddings or fruit—in fact, any place where you would use ordinary raw cream. Don't add water. It's all ready to use.

Of course, once you've opened the can, Keepsweet requires the same care as ordinary cream.

### The Flavor is Delicious

You will be captivated by the delightfully rich flavor of Keepsweet Cream. It has the tang of Devon! It contains a larger percentage of butterfat than the average table cream and it is safer to use, because it contains no germs. They were all killed when the cream was sterilized.

### Inexpensive, Too

Compare the price of Keepsweet with ordinary cream and in most localities you will find the prices almost identical.

But the great thing about this really marvelous product is that it will Keep Sweet for months on end. Violent thunderstorms can't affect it—nor can terrific summer heat.

### A Godsend in an Emergency

There comes a time almost every day in every home when all the cream is used up, when the ice man fails to call, when the ice melts away and the cream sours—when a jug of cream is badly needed.

That's the time when Keepsweet comes into its own! Rich, pure, delicious in flavor, it is all ready for the table.

Thrifty, efficient housewives from now on will keep half a dozen cans of Keepsweet always handy. Many have already adopted Keepsweet Cream for permanent table use. They enjoy its delightful flavor and richness, and they like to have pure, sweet cream always handy.

### How it is Done

At our creameries away out in the quiet country we receive the milk from rigidly inspected dairies. We at once separate the cream from the milk. We first pasteurize the cream, then homogenize it and after canning, sterilize it, container and all. It is thus made literally pure, as all disease germs are killed.

Pasteurizing temporarily prevents fermentation and souring, homogenizing makes the cream more readily digestible, and the final sterilization destroys all germ life. Thus the cream will keep all summer long in all its original freshness and rich flavor.

Order from your grocer. He will supply you. Don't be afraid to order half a dozen tins, because after you've had one sip you'll be glad you ordered a supply.

Grocers—The Dominion Government has ruled that as Keepsweet Cream is "true to its name" and in nowise an evaporated product, being just pure, natural cream, it has always been exempt from the Sales Tax. Your wholesaler will supply you.

LOCAL NEWS

**CUBAN TRADE.**  
In reply to a request from a firm in Manzanillo, Cuba, the secretary of the board of trade has sent a list of potato and codfish exporters of this district.

**THE MILITARY.**  
Lieut.-Colonel H. C. Sparling, D. S. O., left last evening for Moncton where he will give a lecture on the military staff course inaugurated this winter.

**BANK CLEARINGS.**  
The St. John bank clearings this week were \$2,471,986; last year \$2,280,387; in 1920, \$3,439,030.

**AT DORCHESTER COURT.**  
Daniel Mullin, K. C., is at Dorchester this week where he is acting prosecutor as counsel with the local crown counsel in several cases.

**INSPECT WATER GATES.**  
Necessary repairs to the water gates at Marsh bridge have been completed and the water and sewerage department crews are now engaged in inspecting gates in Lower Cove.

**FAIRVILLE FIRE.**  
At last midnight the Fairville fire department was called out to extinguish a chimney blaze in a property owned by Geo. Tippett in Prospect street, Fairville, and occupied by Wm. Arbo, sr. Fortunately the fire had been seen in time and prompt work by the firemen soon put out the blaze. The alarm, coming at midnight, caused a good deal of concern to most householders, as this is the neighborhood of the fires of last spring.

**PREMIER MURRAY HERE.**  
Premier Murray of Nova Scotia passed through the city today en route to his home in Halifax. He went through with a special party from Halifax, Gloucester, Mass., to see the schooner race between the Bluenose and the Henry Ford. He said that Monday's race was a good one and he regretted not seeing yesterday's. He said he decided to return home as a result of the uncertainty of a continuance of the racing.

MATTERS FOR THE COUNTY COUNCIL

**Finance Committee This Afternoon Will Discuss Some of the Subjects Scheduled for Next Week's Meeting.**

The municipal council will meet next Friday afternoon, November 3, at 2.30 p.m. This afternoon the finance committee will hold a meeting in the office of the county secretary. Amongst the matters to be dealt with will be the following:

A petition for sewers in the Parish of Simonds.

An application of the commissioners of the General Public Hospital, relating to an expenditure for improvements and to provide for money to pay for these improvements.

The erection of a fire station and other matters arising out of a proposal to erect a building for parish and local purposes in the Parish of Lancaster.

Other matters to be taken up at the council meeting next week include the appointment of members to the sub-district board of health and the resignation of the local county housing board.

OCTOBER BRIDES

**Siegerman-Grosweiner.**  
A very pretty wedding will be solemnized at the home of Mr. and Mrs. Max Grosweiner, 74 Sumner street, this afternoon at six o'clock, when their daughter, Miss Dora, will be united in marriage to Thomas Siegerman, formerly of this city, but now of St. Catharines, Ont. The ceremony will be performed by Rev. Rabbi Szaberg, while the bride and groom stand under a canopy.

The bride will be given away by her father and will be escorted in a becoming dress of sand-colored georgette with lace panels and gold trimmings and will wear a black picture hat trimmed with roses and streamers to match the dress, and will carry a bouquet of Ophelia roses. She will be attended by her sister, Miss Rose, who will wear a henna dress of Canton crepe with hat to match and will carry a bouquet of white roses. Nathan Rozovsky will officiate as best man. The wedding march will be played by Miss Bertha Boyaner, pianist, and Hymen Elman, violinist. Following the ceremony a dainty supper will be served, after which the bride and groom will be tendered a reception.

On Friday the bride and groom will leave on a honeymoon trip to Montreal, Ottawa and Toronto, after which they will proceed to St. Catharines, where they will reside. Mr. and Mrs. Siegerman, parents of the groom, are in the city to be present at the ceremony. The large number of magnificent presents received testify to the popularity of the young couple. Among them is a large mahogany floor lamp with Japanese shade, a gift from the fellow employees of the groom with the Ontario Paper Company of Toronto, Ont.

**Mann-Bates.**  
At the residence of Rev. R. G. Fulton, pastor of Centenary church, on Wednesday afternoon, Oct. 25, Miss Gladys Alfreda, daughter of Mr. and Mrs. Alfred Bates of Hammond River, was united in marriage to James Frederick Mann of this city. The bride was becomingly attired in a navy blue tailored suit with hat to match and wore a corsage bouquet of Ophelia roses. Many beautiful presents were received, showing the high esteem in which they are held. Best wishes are extended to them for their future happiness.

"Who Said Taxes?"

In Ontario every dollar spent for any purpose in connection with the development and distribution of hydro is paid by the users of hydro. Every cent is charged up against the consumer.

Does he have to pay it in taxes? Not one cent. Does he pay it in increased charges for light and power? Not at all. He gets them far cheaper than he did before. Why? Because there is no profit to be paid to a private corporation. He is really buying light and power from himself, and gets the full benefit. Toronto people saved \$28,000,000 since 1911 by this method. Not only did they not have to pay any more taxes, but they saved this enormous amount by cutting the rates for light and power which they had previously been forced to pay to a grasping monopoly.

No increase in taxes for anybody; a great saving in cost of light and power for everybody. This is what St. John will experience when it gets its own hydro.

BIG WINTER IN GRAIN HANDLING

That is Railways' Word to Board of Trade

All That Ships Can Carry— Assurance of Co-operation of Harbor Department is Given— More Publicity for City and Port.

Mr. Wood, general foreign freight agent of the C. N. R., recently replied the winterport shipments of grain through this port sent by the St. John Board of Trade. He wrote that there would be an unusually large amount of grain shipped through Canadian ports this winter instead of through U. S. ports. The reasons for this were based on the coal and railway strikes in U. S. as well as on other matters. The port of Montreal had reaped the benefit of this diversion of traffic to date, he said, but with the coming of cold weather the winter seaboard of the dominion would be used. Arrangements for handling as much grain through the winterports of Canada as possible, and so far as St. John was concerned, it was probable that the big elevators here would be used to its full capacity.

Mr. Wood wrote that the amount of grain that could be handled by an elevator depended on the number of ships sent to load it. If there were enough ships sent, the C. N. R. elevator here could handle from one million and a half to two million bushels a month.

He concluded his letter by stating that the Board of Trade had taken necessary precautions to have the grain brought here by rail and would be disappointed if the elevator was not worked to its limit.

The Board of Trade has also received a communication from the C. N. R. stating that the grain shipments this year should be extremely large, and prospects would appear very bright for a heavy port business this season.

Board Council Meeting

At a meeting of the council of the Board of Trade, today, correspondence was submitted from the C. P. R. and the C. N. R. freight departments outlining the possible shipments of grain through this port in the coming winter. The secretary reported having consulted Mr. Bullock, harbor commissioner, on the matter, and that he had expressed a willingness to co-operate with the railway lines so as to secure a shipment of grain as possible through the port. It was said by Mr. Bullock that in 1919 there had been a similar co-operative arrangement which had produced very satisfactory results.

A resolution was passed expressing the thanks of the council to Commissioner Bullock for his promise of close co-operation in the matter.

As the date of the November meeting of the Board of Trade, at which the nomination of officers takes place, falls on Thanksgiving Day, it was decided to postpone the meeting until November 13.

A committee was named to give consideration to the matter of stamp tax on receipts, which tax will come into force on January 1. It was also decided that in this matter there should be co-operation among all the boards of trade of the province and with other interested organizations.

The president, H. C. Schofield, and the secretary were named a committee to consider the annual report and also to respecting the city and port of St. John. The need for more publicity for the city and the port was strongly pressed by the president and others. An application for membership was accepted, after which the council adjourned.

INVESTIGATING THE TORONTO UNIVERSITY

Toronto, Oct. 26.—A parliamentary committee appointed by the Ontario legislature to investigate the organization of Toronto University and its relation to the General Hospital and other affiliated institutions met yesterday and adjourned until Nov. 16. During the recess the committee members will digest various official reports and acquaint themselves with the intricacies of higher education.

DRAINING NEWMAN BROOK VICINITY

Sewerage System Being Installed to Take Care of All Surrounding Area—Sewers and Water in Newman and Bryden Streets.

There is being brought to realization today a scheme which has been before the city council time after time for at least twenty years without much progress being made.

The present work was made possible by the deepening of Newman brook which was carried out last year.

The water and sewerage department is now putting in a five-foot concrete arch which will extend from the bridge culvert to a point upstream where it will be joined by a thirty-six inch sewer from Lansdowne avenue and a smaller pipe from Victoria and Metcalfe street extension.

At the head of the arch will be erected a basin with a manhole, into which will be taken the drainage from the two sewer mains as well as the flow of Newman brook.

The system being erected will drain the area surrounding Lansdowne avenue, Dufferin avenue, Metcalfe street extension, Adelaide street, Victoria street extension, Newman street and Snow street, and will carry off sewerage from the area.

Eight-inch water pipes and twelve-inch sewer mains have recently been laid in Bryden and Newman streets, emptying into the mill pond.

Work in Newman street was completed today.

WILL BE TONIGHT  
reorganization meeting of St. Peter's Y. M. C. A. will be held in their rooms, Douglas Avenue, this evening, at which nominations for officers for the year will be held.

C. B. COAL OUTPUT.  
Sydney, N. S. Oct. 25.—In spite of a sporadic strike of boy drivers which is tying up No. 14 mine at New Waterford, and the fact that No. 5 and No. 10 mines at Reserve are idle for lack of shipping the Dominion Coal Company's other Cape Breton pits produced on Tuesday a total output of 11,375 tons of coal.

TRAMP THEORY IN N. S. MURDER

Detective Kennedy of Halifax at Work on the Case

Woman Draws Notice to a Man Who Called at Her House for Food and Tried to Conceal a Wounded Hand, But There is Nothing Definite.

ANNOPLIS ROYAL, N. S. Oct. 26.—Who was the suspicious character who visited the Andrews' farm at North Range Digby county on Saturday? Has he any connection with the Berry murder at Guinca which was discovered on Sunday, but which was likely committed on Wednesday or Thursday? What became of the loaf of bread which it is known that Thomas Berry, the victim, carried home with him from Clementsport on Wednesday evening? These are some of the questions asked.

THE FIRST CLUE  
Detective Horace Kennedy, of Halifax, who is investigating, last night received a telephone message from North Range, with Sheriff Edwards stating he proceeded to this place, which is a short distance below Digby, approximately twenty miles from the scene of the murder, and investigated what may be the first real clue that the mystery has yet given.

AROUSING WOMAN'S SUSPICIONS  
His actions impressed her at the time that he must either be crazy or a man in flight or hiding something. He seemed nervous and in a hurry to get away, also desiring to hide his identity.

Thieves Get \$2,000 Worth of Jewels In Store In Sackville

Sackville, N. B., Oct. 26.—More than \$2,000 worth of jewelry, including watches, wedding rings, brooches, necklaces, etc., were taken by burglars who entered C. G. Steadman's jewelry store in Bridge street on Tuesday night.

This is the third time Mr. Steadman's store has been broken into, but on previous occasions the loss was comparatively small. Only recently Turner Bros.' store was broken into and some \$30 or \$40 worth of silver taken. Attempts have also been made to enter other business places.

BOY SCOUTS OF FREDERICTON TEST STRENGTH

Officers of Association Re-elected—Successful Camp—News of Capital.

(Special to The Times.)  
Fredericton, N. B., Oct. 26.—The Fredericton-Devon District Boy Scout Association has re-elected officers and made preparation for the year's activities.

PREPARATIONS TO WREST CONTROL OF ITALY FROM THE GOVERNMENT.  
Rome, Oct. 26.—Benito Mussolini, head of the Fascist, has called together all the military leaders of that organization and has ordered all the military sections of the Fascisti to keep in readiness the 800,000 workers who have joined the organization, ordered to cooperate at an opportune moment, with the military sections.

U. S. TARIFF  
Investigation to Determine Changes in Rates Under Flexible Provisions.  
Washington, Oct. 26.—Investigation to determine the necessity for changes in the U. S. tariff rates in connection with the so-called flexible provisions of the new tariff law may be made by the U. S. tariff commission, but only under the rules of procedure made public today by the commission.

ASK U. S. TO TAKE PART IN CONFERENCE  
Paris, Oct. 26.—France, Italy and Britain have agreed to invite the U. S. to participate officially in the League of Nations conference at Lausanne, Switzerland on Nov. 18.

TROUBLE WITH MACHINERY.  
Quebec, Oct. 26.—The steamer Hanger, which left Montreal for the Lower St. Lawrence, has been obliged to run up the Saguenay to Port Alfred, the nearest port, as she had had trouble with her machinery.

THE IRISH CONSTITUTION.  
London, Oct. 26.—The political event of the day which received the least attention in the English press was the adoption, by the Dail, of the new Irish constitution. This was dismissed by the London newspapers with obscure and brief passages.

THE DUKE OF DEVONSHIRE  
Sackville, N. B., Oct. 26.—The Mount Allison football team left last night for Wolfville, to play Acadia their final game in the western section of the Intercollegiate Football League.

THE MARK BETTER  
Berlin, Oct. 26.—The financial critics profess to see in yesterday's improvement of the mark over the New York's closing rate of Tuesday an indication that the arrival of M. Barthou, Sir John Bradbury and other members of the reparations commission here next week, presages something more concrete than informal discussions with the heads of the German government.

QUICK ACTION  
Fred Reedon was fined \$200 in the police court yesterday afternoon for having liquor in his beer shop in Water street. He pleaded guilty.

SHIPPING PORTABLE CHURCH FOR HAILEYBURY METHODISTS  
Toronto, Oct. 26.—In order to provide immediate church facilities in the area of the Northern Ontario disaster, the Methodist committee has purchased a portable church, which will be shipped up to Haileybury, where it can be put into use.

**FEDERATION OF CATHOLIC ALUMNAE**

New Brunswick Reports to International Meeting in Louisville

This Province Not Represented at Gathering Opening Today, But Mrs. Jas. E. McMurray, Governor for Province, Sends Detailed Report.

The fifth biennial convention of the Alumnae will be held in Louisville, Ky., beginning today and continuing into November. The convention promises to eclipse all previous records for attendance and interest. Seventy-two alumnae associations have joined the federation since the last convention in Boston. There are now three hundred and thirty associations in the federation representing forty-one states of the United States, four provinces of Canada, and Belgium, Ireland, France and England. New Brunswick is represented by St. Vincent's Alumnae, St. John, and St. Michael's, North Shore, St. John, N. B., Oct. 23.

Madam President and Officers of The International Federation of Catholic Alumnae:

The third biennial report of the Federated Alumnae of the Province of New Brunswick is herewith respectfully submitted; records and activities

since the fourth convention held in Boston, October, 1920.

St. Vincent's High School Alumnae, St. John, N. B., federated 1916; Rev'd Sister M. Francesca, M. A., federated Sister; Rev'd Sister M. Angela, principal of graduates. Miss Annie Council, president of Alumnae Association, October, 1920-21; eight general meetings were held. Miss Marie Corkery, B. C. L., president of Alumnae Association, October, 1921-22; seven general and seven executive meetings held. In 1921, nineteen graduates and in 1922, eighteen graduates were received at the annual reception given the graduating class on the evening of commencement Day in June, 1921 and 1922.

The Alumnae gold medal awarded annually to the graduate of St. Vincent's High School obtaining the highest standing in matriculation examination was won in 1920 by Miss Beatrice Farren.

The Ellis gold medal awarded for the highest standing in mathematics in St. Vincent's High School was won by Miss Helen Kennedy. In 1921 Miss Frances Connolly won the Alumnae medal, Miss Eileen Lunney winning the Ellis medal. This year Miss Lillian Clarke had the honor of winning both the Alumnae and the Ellis medals with the additional honor of also winning the Parker silver medal which is awarded annually to the pupil attaining the highest standing in matriculation mathematics in the city.

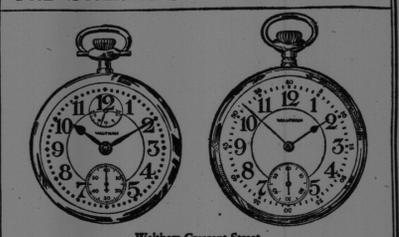

During this administration the Alumnae Association has collaborated with the activities of the International Federation of Catholic Alumnae by the appointment of provincial chairman for the departments of education, social service and literature and seventeen sub-chairmen for the different bureaus of these departments.

The following report for the years 1920-21-22 will show that considerable work has been accomplished along these lines of forward endeavor, principally with the support, fraternal and co-operative, of many enterprises such as teas, sales, plays, etc., for the purpose of raising funds for the new St. Vincent's High School in St. John, N. B. Individual service has been rendered to enterprises held for building funds for three other new Catholic schools, now under construction in the city.

The sum of \$10 was contributed to the Fiske Memorial Fund which pro-

vides a scholarship of \$59 each year to the pupil of the high schools of the city

**Time on Schedule**

HERE is the famous Waltham Crescent Street. A watch that has run countless trains on schedule upon the railroads of the world.

You may not be a railroad man, but the Waltham Crescent Street will give you railroad time when you want it—and give it to you all the time.

There is not a more dependable watch made. It comes with or without the winding indicator. A Waltham device to remind you when the watch needs winding.

To business and professional men who demand and need accurate and unvarying service, a Waltham Crescent Street will give a lifetime of satisfaction for the reasonable sum it costs.

Ask your jeweler to show you this "Railroad" watch. He knows Waltham Watches.

Write for a valuable booklet that is a liberal "Watch" education. Send free upon request, The Waltham Watch Co., Limited, Montreal, Canada

ally Academy, Chatham, N. B., affiliated in August, 1921. Rev'd Sister M. Kane, federation Sister; Rev'd Sister Doyle, mistress of the graduating class; Mrs. B. D. Walsh, president of the Alumnae Association 1921-22; Miss Margaret Doyle, president 1922. In 1921 eleven graduates and in 1922 ten graduates were received as members of the alumnae association. Although scarcely more than one year established, St. Michael's Alumnae has proven its worth, as the first report of its activities will show.

For Christmas work under the supervision of the Hotel Dieu Hospital, members supplied and conducted the candy booth at the annual Christmas fair.

A social gathering was held for the entertainment of members of the alumnae at which His Lordship Bishop Chaisson was the guest of honor. Members home from college and normal school, as always visiting for the holiday season enjoyed the music, singing and games provided for the success of the evening, very much.

In January a retreat of three days was preached by Rev'd Father Cloran, C. S. R., of St. John. The monthly communion has been established. A 20 per cent subscription to the I. F. C. A. Bulletin has been forwarded.

A high mass of requiem was celebrated in the Cathedral for His Holiness the late Pope Benedict XV.

Full co-operation has been given on the many works of charity and social service of the Hospital Aid, Catholic Women's League, Ladies' Auxiliary of Ancient Order of Hibernians and The Sodality of the Children of Mary.

In presenting this brief survey of the outstanding events showing the work of our faithful committees and members' co-operation, we extend our thanks to the members of the administration of the International Federation of Catholic Alumnae for the inspiration and encouragement always given, thus adding an impetus to our efforts. As success is measured by many standards, most fitting is that expressed in these lines:

"If life with you has been replete,  
"If in others sought the best,  
"And gave the best you had,  
"If others from your life have inspiration drawn,  
"Then be assured you have achieved success!"

As "The old order changeth, yielding place to the new," for the coming year, we ask of the Giver of every perfect gift for light to see and strength to do.

While regretting that arrangements to send delegates representing our alumnae to this convention could not be made, and owing to family responsibilities, your governor for New Brunswick, as a member of the advisory council of the federation, could not be present on behalf of St. Vincent's and St. Michael's Alumnae, sincere wishes are extended for every success to the convention in all deliberations.

Pro Deo et Doctrina.  
Respectfully submitted,  
(MRS. JAMES E.)  
FLORA E. McMURRAY,  
Federation Governor for New Brunswick, Canada, International Federation of Catholic Alumnae, St. Vincent's Alumnae.

**PLANNING TO ESCAPE**

Wilson Is Determined to Secure Liberty From Jail.

Los Angeles, Oct. 26.—Herbert Wilson, former evangelist, alleged mail robber and convicted murderer, who a few days ago led a break from the Los Angeles county jail, will plot and plan to get his liberty, according to newspaper reports. "I long for my liberty and would risk my life for it, and eventually I expect to get it, if I can do so without taking human life," he was quoted as saying.

Wilson is held in the county jail until the Appellate Court acts on his appeal.

**Dizzy Spells**  
Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it.

Nujol is a lubricant—not a medicine or a laxative. It cannot gripe. Try it today.

attaining the highest standing in French examinations.

For our members, several literary and social evenings have been held. His Lordship Bishop Le Blanc giving one evening of interest and education in lecturing on his trip to Rome.

A Halloween tea in October realized \$200, which was devoted to Mt. Carmel Convent to aid in furnishing the new chapel.

A book shower brought in 200 volumes for Mt. Carmel Library. During the Lenten seasons sewing has been done by our members; making garments for children in the Infants' Home conducted by the Sisters of Charity.

The material for this work was provided by the society.

The sum of \$800, the proceeds of an Irish concert, was forwarded to the Irish relief fund.

An Easter assembly and bridge was held each year and proved to be enjoyable to ourselves and profitable to our funds, for carrying on the work of the association. A piano has been purchased and placed in our rooms; as well as a Badminton equipment for the social and recreational use of our members.

Ushering at the St. Vincent's Auditorium has been done by the Alumnae members, lending their aid in this way to further the success of entertainments held for various purposes, charitable, social and welfare work principally.

Social service has been carried out each year by members assisting on public tag days for funds to fund a the work of the Hospital Aid, Free Kindergarten, Public Health, Poppy Day, Rosebud Day, Public Playgrounds, Children's Aid, Free Milk for Babies, the Empty Christmas Stocking Fund, Health Centre Campaigns, supporting legislation re mothers' pensions and minimum wage for women. To contribute to the success of the National Slating Championship meet held in St. John last winter, members sold admission badges.

As is customary each year the society had a mass of requiem offered for departed members; a mass was also offered for His Holiness the late Pope Benedict XV, for Cardinal Gibbons, and for the soldiers and sailors of America who died in the war.

First Saturday Communion and the Catholic Press Hour have been established.

The St. Vincent's Alumnae is affiliated with the Local Council of Women and participate in its movements for the advancement and protection of women and children. As individual members of The Catholic Women's League, co-operation is rendered in its many activities.

**CHICAGO VISITED BY LARGE METEOR**

Strange Guest Seen Hurtling Through Space at Terrific Speed.

Chicago, Oct. 26.—Chicago was visited this week by a strange guest. A large meteor hurtling through space toward the southwest at terrific speed entered the earth's atmosphere, and

burst into a magnificent display of hining sparks.

People going to work before daylight were startled when the sky, directly overhead, was illuminated as on a vivid lightning flash. Looking up, they saw what appeared to be a bright star falling toward the earth, saving a long trail of incandescent

low in its wake. The brilliant visitor on the outer darkness glowed and seemed to burn a deep red color for several seconds and then to explode in shower of burning fragments like a huge Roman candle.

The wake, or tail, remained visible for a minute or more, and glowed with all the colors of the spectrum.

**RENTED BARN TO STORE LIQUOR AND GETS FINE OF \$2,000**

St. Catharines, Ont., Oct. 26.—A fine of \$2,000 was imposed on John Bowman, who was also sentenced to three months by Magistrate Campbell here on the charge of selling liquor. Bowman admitted that he received \$1 a case for the storage of liquor in his barn, and said that the liquor belonged to Joseph Cox, former policeman of Brantford, and John Slobodsky, a partner.

The magistrate held that this constituted sale by Bowman, but there was no evidence to show that the prisoner knew that the liquor was being manufactured in his barn, from which the police recovered labels and bottles.

The product was known as "Synthetic Gin" and was sold under a popular name. Cox and Slobodsky are at present out on \$1,000 bail at Niagara Falls, N. Y., pending extradition proceedings, but the local police are not hopeful of securing their return here, where charges of using fake labels are preferred against them.

**LANDLORD LIKES BABIES.**

Will Not Rent Houses to Childless Families.

Lorain, Ohio, Oct. 26.—U. G. Dewell, purchaser of eight houses owned

by the Emergency Fleet Corporation, has announced that he would not rent them to families without children.

"To each baby born in my houses I will give a \$5 savings account," he added.

Dewell said he was prompted to make this offer because he had read an advertisement offering houses for rent at \$2 per month less to families without children.

"That does not give the kiddies a show," he said.

taken it with him. The robbers refused to believe her. They ransacked the cupboard, tore the coverings from the furniture, and tumbled the contents from drawer after

drawer in a mad search. Finally they gave it up and fled. Mrs. Wetzel lay on the floor gagged and bound with a cloth.

The robbers had gone out by way of the kitchen. No sooner had it grown quiet again than Mrs. Wetzel smelled smoke. A minute later a flame came creeping under the kitchen door.

About that time Patrolman Ulmick of the Jamaica Precinct noticed a flickering glare shining through the kitchen window of the Wetzel house. He smashed down the front door and a minute later he had put out the fire and freed Mrs. Wetzel.

ATTACH NO BLAME TO HOSPITAL STAFF

Jury in Edward Cormier Inquest Say Death was Due to Natural Causes.

At the inquest into the circumstances surrounding the death of Edward Cormier, a patient in the provincial hospital, conducted last evening by Coroner Kenny, it was found that death was due to natural causes, and that no blame could be attached to any member of the staff of the institution.

The verdict of the jury was as follows: "The said Edward Cormier came to his death on the 14th day of October, in the year of our Lord, 1922, at the Provincial Hospital, in the county of Lancaster, in the county of the city and county of St. John, and that his death was caused by the exhaustion of melancholia, from which disease he suffered."

Witnesses examined, and Thomas Scoging, an attendant, made a statement in regard to Cormier's death.

Walsh Testifies. The first witness, Leo Walsh, of 15 Merritt street, said that he had been an attendant at the Provincial Hospital and when on duty had Cormier under his charge.

Scoging, had hit the patient over the right kidney at least a dozen times with his fist, leaving a bruise. The patient had died the next morning. The patient was confined in a closed bed at the time and was lying face down.

Walsh said, and another patient had shaved the dead man. The death had occurred on Saturday. He had examined the usual condition. He had examined all the organs, excepting the brain, but found nothing to indicate the cause of death. He believed that the man died from the exhaustion of melancholia. A mark on the chin he took to be a pimple.

Alleged Witness Denies. Leo Lutz, who had been an attendant for two years at the provincial hospital, had Cormier under his care part of the time and found him to be violent occasionally. He had to be restrained and kept in a crib. He had been in Cormier's room with Scoging and Walsh on Oct. 13 but he had not seen Scoging hit the patient. He was present when Cormier was fed. He understood that Cormier had hit Scoging

once and blackened his eye. He had never seen Scoging do anything to injure a patient.

He had seen Cormier on the morning of his death and had heard Scoging say that he guessed he was done. He gave details of the doctors' visits to the wards.

George R. Hackett, a night nurse, had had Cormier under his care. He had seen the patient early in the morning before he died and had spoken to him. Cormier had not been violent at night but he had been noisy. He knew Scoging and found him to be a first-class attendant and had never seen him abuse or strike a patient. The doctors were always available in case of need.

Frederick W. Brownell, head attendant, said that Scoging had been an attendant for five years and had never been reported for abusing patients. Walsh had told him that Scoging had hit Cormier in the back but he could not verify the statement. He told of the routine of the attendants and how the patients were handled.

Cause of Death. Dr. J. V. Anglin, superintendent of the hospital, had seen Cormier's body but believed death was due to natural causes. He had been looking for his death and it was no surprise to hear of it.

Walsh had told him that Scoging had hit Cormier but he did not believe it. Scoging was a good attendant and had been with the institution for a long time. Walsh was erratic. He had come to the hospital with military papers and had been a patient for a time.

After Walsh had told him about the

The Pandora flue system is another feature of this wonderful range. This system directs the heat twice around the oven and stops the usual wastage, giving a substantial saving in coal.

The Range of Many Conveniences

It is every woman's right to have the best cooking range that can be had. The Pandora is the coal range par excellence. It saves trouble, saves work and gives joy on baking days, because of its many conveniences.

The Pandora oven is constructed from nicked steel—a metal that has proved superior to all others for making ovens. No other metal conveys the heat so quickly into the oven—none are so easy to keep clean.

McClary's Pandora Range

You can readily decide which is the best range for your kitchen when you know more about the Pandora. We have prepared an interesting booklet "The Magic of the Pandora." Your copy is waiting for you—just clip the coupon and take it to the dealer or mail it to the factory.

beating he had seen Premier Foster and the attorney-general and on their advice had asked Dr. F. L. Kenney, the coroner, to hold an investigation.

He believed that death was due to the exhaustion of melancholia. Either he or Dr. Travers was always available in case of need. He usually was in the hospital from 9 o'clock in the morning until 10 in the evening, excepting at meal hours.

Accused Makes Statement. Thomas Scoging was next called and the coroner told him that he had been accused by Walsh and if he wished he could make a statement.

He said he wished to make a statement. He told of the condition of Cormier and the circumstances surrounding his death, but denied ever hitting him. He had had differences with Walsh but nothing of a serious nature. Scoging told of feeding Cormier by

force, and also of his death. Dr. Kenney addressed the jury and pointed out the facts brought out in the evidence. The jury then retired and, after being out half an hour, brought in the foregoing verdict.

PEGGY BEAL ACQUITTED.

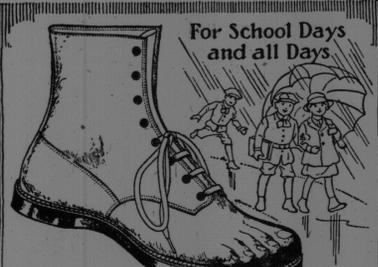

Kansas City, Mo., Oct. 26—A jury in Criminal Court here acquitted Mary F. (Peggy) Beal of the murder of Frank W. Anderson, her "perfect lover," here last summer. The jury deliberated two hours.

When questioned concerning the fatal shooting which occurred June 8 in a hotel room where Mrs. Beal asserted

Anderson had lured her by promises of marriage though he was already married, Mrs. Beal wept with her face in her hands.

"I came here from Springfield, Ill., to marry Warren," she testified. "He told me that he could not marry me, so I shot him."

Mrs. Beal, thirty-two years old, divorcee, shot Anderson as he lay on a bed in the room which they occupied together. She then turned the revolver upon herself, sending a bullet into her breast. Anderson was the manager of a department in a local department store. His wife, an invalid, lived at Camden, N. J.

FILLS JAILS WITH LIQUOR SELLERS

Judge Divides Up Offenders According to Capacity of Minnesota Prisons.

St. Paul, Oct. 26. - Judge Page Morris of the United States Court at Minneapolis recently scored violators of the Eighteenth Amendment and meted out some of the stiffest fines and jail sentences ever given bootleggers and moonshiners. He filled jail after jail from the ranks of ninety-five men and one woman who had been found guilty of fracturing the dry act.

When court had been convened, Judge Morris asked J. A. Husted if the Hennepin county jail was full.

"It is," the marshal replied.

"How about Ramsey county?" asked the judge.

"All right," was the reply. "All right," will fill it. Call the first case, Mr. Clerk."

The line began to move. Gray-haired men, youths, bartenders, soft drink proprietors, truckmen, carpenters and farmers stood one at a time before him. About forty were sentenced when the judge yawned and asked, "Is this jail filled yet?"

"We can stand a few more," the marshal said.

The procession moved forward again. Finally Marshal Husted announced that the jail's capacity had been reached.

"All right," said Judge Morris, "we will fill the Wright county jail."

And thus the work went forward, until not only had the Wright county jail received its capacity assignment but also that of McLeod county before Judge Morris announced that he would call it a day. But he added:

"We will do our best to stop this traffic in liquor if we have to fill every jail in the state."

WHAT'S DOING IN THE MONEY AND STOCK MARKET'S TODAY

**THE FINANCES OF POLAND SERIOUS.**

Treasury Faces a Deficit of 600,000,000 Marks at the End of the Year—Failure of New Tax Legislation.

Washington, Oct. 26.—Owing to the failure of the Polish Diet to enact any new tax legislation, it is expected that the deficit of the Government Treasury for the current year will reach at least 600,000,000 marks, according to cable advices received by the Department of Commerce. A large part of the deficit is being covered by the issue of paper money and the remainder by short-term interest-bearing notes. From January 1 to September 30 the amount of paper money issued to cover Government expenditures (in other words, the amount borrowed by the Government from the State Bank) amounted to 121,000,000 marks. Nearly half of this was issued during September, and most of the remainder during July and August.

The rate of exchange of Polish currency, which remained fairly stable during the first half of the year, has during the past three months declined even more rapidly than the paper money circulation has increased. The exchange value of the Polish mark at the end of September represented about one twenty-one hundredth part of par, while its internal buying power as represented by internal prices, represented one fifteen hundredth part of the pre-war buying power.

As compared with January 1, 1921, the amount of paper money in circulation at the end of September had increased eightfold, the level of prices had increased sevenfold, and the number of marks necessary to buy a dollar in foreign exchange had increased nearly twelvefold. In other words, the internal value of Polish currency is at present considerably above its foreign exchange value. This tendency to increase the value of Polish currency and to promote exports to such countries. However, Polish imports a great deal from Germany and since the German mark has recently fallen more rapidly than the Polish mark, it has become increasingly easy for Poland to buy in that market.

That Polish industry and commerce continue to expand in the face of currency difficulties is evidenced by the constant increase in the number of cars loaded and in the constant shortage of cars to handle goods ordered. There is increasing difficulty in moving coal, grain, potatoes and sugar beets, owing to scarcity of cars. This situation can be remedied only when the 7,800 cars recently bought from the United States War Department are received.

Tornados have been known to carry children a mile.

**PROFESSIONAL SELLING WAS CONTINUED**

Reactionary Tone to Most of Wall Street List at Opening—Busy Start on Montreal Exchange.

New York, Oct. 26.—(10:30)—Continuation of yesterday's professional selling of industrial stocks took place at the opening of today's stock exchange and imparted a decidedly reactionary tone to most of the list. Oil, steel, and the declines in active issues ranging from 1 to 8 1/2 points. Rails offered better resistance to selling pressure, Pennsylvania climbing to 49 3/4, the highest in four years, in response to the resumption of a six per cent dividend. Reading also opened slightly higher but soon cancelled its gain and dropped slightly below last night's close. Norfolk and Western and Delaware, Lackawanna and Western also sold off a point. The slump in oil shares was led by Mexican Petroleum, which dropped 3 1/2 points while Standard Oil of California and New Jersey and the Pennsylvania Electric, which dropped 1 1/2. Other weak spots were Studabaker, Baldwin, General Electric, Consolidated Gas, American Locomotive and Coca Cola, the declines ranging from 1 1/2 to 2 points.

**Montreal Exchange.**

Montreal, Oct. 26.—(10:30)—The local stock exchange opened this morning with indication of a busy day and during the first half hour practically all the leaders issued from the ticker in substantial lots.

National Breweries was the most active stock at the opening, a great number of shares changing hands within the first quarter of an hour. It first sold unchanged at 54 and then sagged to 52 1/2. Tobacco, American Car and Iron, Steel of Canada sold a quarter point down at 64 1/4. Power was 88 3/4. Macdonald dropped 1/2 point, Canada Car 29, Brazilian 40 5/8. The paper issues, Albitoli opened at 62, a quarter point above yesterday's close, but almost immediately dropped a half point to 61 1/2. Howard Smith was at 79, Laurentide 83, Spanish River 102, and 102 1/2. Preferred 102. Other stocks that received some attention were Canada Steamships 22, British Empire 20, and 20 1/2. Consolidsated Smelters 26 1/2.

**Chicago Grain Market.**

Chicago, Oct. 26.—Opening—Wheat, Dec. 111 1/2; May 111 1/2; Corn, Dec. 66 3/4; May 66 3/4; Oats, Dec. 41 1/8; May 41 1/8.

**London, Oct. 26.—Bar silver 84 1/2-1/2 per ounce.**

**Montreal, Oct. 26.—Cables 448 3/4.**

**The Dollar.**

New York, Oct. 26.—Sterling exchange, Great Britain, 4.44 1/2; France, 6.89 1/2; Italy, 3.88 1/2; Germany, 0.25 1/2. Canadian dollars 1/2 of one per cent premium.

WESTERN TRADE BROADENS OUT

Varied Activities Past Head of Lakes Promise Well for the Future.

Western business is broadening out, says John F. Sweeting, Industrial Agent, C. P. R., Winnipeg. The promise of the summer has been fulfilled to a great extent—showing that the past tightening of credits and restrictions on trading have been beneficial in turning attention to the necessity of such action. It has resulted in efforts being made to put the house in order and thus develop a prospect for the future.

It has resulted in efforts being made to put the house in order and thus develop a prospect for the future.

SHIP RIPE FRUIT PRESERVED BY GAS

Successful Experiment in Consignment from San Francisco to New York.

San Francisco, Oct. 26.—Recent experiments in waterway shipment of grapes without refrigeration has aroused the keenest interest of California shippers interested in intercoastal fruit transportation. Instead of refrigeration, experiments were made with carbolic acid preservative. The first shipment, 48 tons of Zinfandel grapes, left San Francisco on September 6 for New York by way of the Panama Canal, but faulty storage in the hold of the steamship Will Polo and use of too much gas caused the shipment to be dumped before it arrived on the Atlantic coast.

A second shipment of grapes arrived in New York two weeks ago in good condition. If the new method of shipping grapes proves a success, it is expected that the process will be used to ship ripe fruits of every character from California to the Atlantic seaboard. Ability to ship ripe fruit using the gas-preserving process not only will revolutionize the shipping industry, but it will mean cheaper fruit, in the opinion of shippers. The acid, the principal agent of preservation, can readily be manufactured on any steamship at comparatively small expense.

TERRORIZED THE CASHIER WITH A TOBACCO PIPE

Vancouver, B. C., Oct. 26.—When Constable Dinesen wandered into a restaurant for a cup of coffee, he found Clifford Ritzen covering the cashier with what appeared to be a revolver in his overcoat pocket. Ritzen had about persuaded the cashier to hand over the contents of the till, when the constable arrested him, only to find that the weapon carried was a tobacco pipe.

**ROADS' RECORD HAULING COAL**

220,751 Cars Handled in the Week Ended Oct. 14, the Peak Since Beginning of Strike—40,596 One Day's Total.

New York, Oct. 26.—The transportation of coal—now being produced in far larger quantities than was estimated at the end of the coal strike—is being handled in a highly satisfactory manner, according to local industrial leaders who have been studying the reports of coal movements compiled during the last week. A review by the Car Service Division of the American Railway Association shows that more cars were loaded with coal during the week ended Oct. 14 than in any previous week since the coal strike began on April 1.

The total for this week was 220,751 cars, exceeding the week before by 4,773 cars, and exceeding by 4,633 cars the loadings of the week ended Sept. 30, which up to that time had marked the peak. A new record was made in the number of cars loaded with bituminous coal for a single day this year on Oct. 9, the association finds. On that day the total was 40,596 cars, the largest number of cars loaded during any one day since Dec. 18, 1920, when the total was 45,094 cars. The nearest approach to this figure since the strike was on Sept. 25, when 38,804 cars were loaded.

"On the basis of coal loading during the week ended Sept. 30," says the association, "coal production during the week approximated 11,950,000 tons, the greatest amount produced during any one week since the strike began. Of this amount, 10,037,000 tons were bituminous and 1,913,000 tons anthracite coal. Production for the previous week was approximately 11,478,000 tons, and for the week before 11,718,000 tons.

Loading of bituminous coal last week amounted to 12,489 cars, 6,589 above the week before. Anthracite loading amounted to 88,202 cars, an increase of 2,184 over the week before.

**A Ticklish Point**

There is a trifling disadvantage to daily newspaper advertising which those who sell other forms of publicity use for all it is worth, and trust that the prospect will not reason too far to refute it.

That is: the absence of color. They point to certain other forms of advertising and say: "Look, you can show your product big and in color so that he who runs may read."

That's good selling argument from their point of view. But stay! Is the running reader apt to gather the impression which the advertiser intends? May not the impression be too cursory? Will it be seen at all?

The fact is that the daily newspaper is the Great Intimate Human Medium.

Insofar as the woman in the Home is concerned, it is her only point of contact with what is going on in the outside world. From the birth of a neighbor's baby to the marriage of a King's daughter it is her news mentor—the loom that weaves for her the knowledge of what is going on.

This is the Time of Times for concentration upon Daily Newspaper Advertising. Daily Newspaper Advertising is the most powerful vehicle of publicity yet given to the use of man. It is the Alpha and Omega, the Beginning and the End of all successful advertising.

Advice as to the best ways and means of doing Newspaper Advertising will be given to those who inquire of us; or, consult any recognized advertising agency—a list supplied on request.

**RECONSTRUCTION LOANS.**

Financial Programme of French Textile Industry and of Rhems.

New York, Oct. 26.—During the present month two new loan issues are being made in France to raise funds for reconstruction in the devastated regions. One is issued by the Associated Textile Industries of the regions in question and the other by the Co-operative Association for the Reconstruction of Rhems. The proceeds of the first loan, which is for 122,500,000 francs in 500-franc bonds, issued at 95 and bearing 6 per cent interest, will be devoted to reconstructing textile factories.

The other loan, whose proceeds will be devoted to rebuilding Rhems, is for 50,000,000 francs, the terms of the subscription being the same. Both are thirty-year loans and each is guaranteed as to capital and interest by the French government.

Bluenose Evens It Up With Henry Ford

The Canadian defender, Bluenose, yesterday defeated the American challenger, Henry Ford, in the second race for the international fishermen's trophy.

The breeze varied from eight to eighteen knots an hour and showed that the Canadian built craft was faster on the wind. She crossed the line by a margin of seven minutes and twenty-three seconds ahead of her opponent and thus made necessary a third race today.

When Walters rounded the first mark and settled down to the long stretch of ten miles, he had established a lead of nine seconds. This meant the defender was well away on the race, and he was able to bowl over to the gusts which at this point in the race were topping fifteen knots, she ate into the wind like a hot knife through butter.

Released of its support the big sail belled out to leeward, taking Ellen's foot first from the deck to fore-masthead, describing great arcs seventy feet above the white capped waters.

His foot jammed in the block with a cross cut, minus her stay, at a thirteen-knot clip, her crew lining the ice rail and acknowledging the wholehearted ovation accorded her victory by the race flotilla.

Near the mouth of the inner harbor Bluenose waited for the Ford and the crews of each exchanged greetings.

Meanwhile Canada's defender of the international fishermen's trophy kept tearing for the line. Half an hour later she crossed it, minus her stay, at a thirteen-knot clip, her crew lining the ice rail and acknowledging the wholehearted ovation accorded her victory by the race flotilla.

Near the mouth of the inner harbor Bluenose waited for the Ford and the crews of each exchanged greetings.

Meantime Canada's defender of the international fishermen's trophy kept tearing for the line. Half an hour later she crossed it, minus her stay, at a thirteen-knot clip, her crew lining the ice rail and acknowledging the wholehearted ovation accorded her victory by the race flotilla.

Come Early. Regular Hours. Regular Prices. Coming Monday 30 and Tuesday 31 to the Empress: "Queen Sheba."

LEONARD MAY FIGHT WHITE THIS SEASON

The Lightweight Champion Likely to Meet Chicago Boxer in December or January.

New York, Oct. 26.—Benny Leonard, world's lightweight champion, has no intention of remaining inactive until the Spring or Summer of next year.

The titleholder's manager, Billy Gibson, made this statement in contradiction of a report that Leonard would not be able to engage in a bout this year.

Gibson said Leonard expects to engage Charlie White, Chicago lightweight, and any of the other lightweights who aspire to his title, in bouts in Madison Square Garden in December and January.

Gibson could not state definitely just when Leonard would be prepared to return to the ring. The champion, according to his manager, still is troubled with the injury to his gum. Upon his dentist's decision as to the progress of Leonard's recovery from his wound will depend the champion's next ring appearance.

Leonard and White were signed to box in a title bout at Madison Square Garden on the night of Oct. 3, but a fortnight before the date, when the boxers were to have posted forfeits insuring weight and appearance, Gibson appeared at the Garden with the information that the champion would be unable to go through with the bout because of his injured upper gum. The battle was, of necessity, abandoned temporarily, at least. It was announced at the time, however, that Leonard would engage White just as soon as the champion's condition made this possible. Leonard has engaged in no training since calling off the White

match, according to Gibson, and is not now devoting any time to rigid training.

"Leonard has a contract for at least two more weeks of theatrical work, and this must be filled," said Gibson. "In the meantime we are hoping for a favorable report from the dentist on the condition of Leonard's gum. As soon as the champion is relieved of the pain in his gum he will return to training. By December or January, at the latest, Leonard expects to be able to box. I think myself he will be able to box in Madison Square Garden in December, with Christmas coming you know, he will have to get busy. When the dentist discharges him Leonard will be prepared to tackle White or any of the other lightweights who seek his title. He's not worrying about losing the title. He lets the other fellow do the worrying."

Winter Horse Wraps

See the frost these early mornings? Your horse feels it. He will work better and give less worry if the energy burned up to keep warm is saved for hauling.

Unlined stable blankets from 95c. Lined jute shaped at the neck and with girths, from \$2.50. The best you can get is \$4.25—heavy tarpaulin, thickly lined, girthed and shaped for a snug neck fit. Save your horse so he will serve you better.

NAVY BEATEN BY ASSOCIATION IN FOOTBALL GAME

London, Oct. 25.—A football match played today between teams representing the football association and the navy resulted in a win for the former by 3 to 1. The game was played at Portsmouth. In a county championship match between Surrey and Eastern counties played at Walthamstow,

time as it has been shown that he cannot hold an office. This was satisfactory to Mr. Board and will resign if the amateur athletic club decide that he is ineligible for office. The proposed acceptance of this resignation was discussed at some length by J. D. McBeath, S. McKie, President MacNutt and several others.

These statements seemed to clarify the air very considerably and the meeting broke down to new business.

Claude Board, on the other hand, said that if the club intended to shut him out he would be a member of the executive and resident of Moncton.

During the meeting Mr. Board asked that his resignation as a member of the executive be accepted as he had been a promoter of the Independent Baseball Club in the last summer.

After considerable discussion of rules governing amateur associations the meeting resolved to defer acceptance of Board's resignation until such

and some others.

In reply President MacNutt said that it was not the intention of the Moncton Skating Association to care for Garnett this winter. He explained that Garnett had had a recent visit to the city but this was not to be inferred that he was a member of the club.

The facts of the case were that Garnett and a friend were contemplating entering business here soon if they could make necessary arrangements, and Garnett had not asked for financial aid, feeling that he could pay his own expenses. It was not the intention, he said, in conclusion, of the Moncton Skating Association, nor had it ever been their intention, to overlook local skaters.

Garnett's brother, now in the automobile business in Moncton, and who has been Frank's trainer for the last few years, explained that Frank would not come to Moncton looking for financial aid. One thing could be said of Frank and that was that no "can could" be tied to him in respect to receiving money for services in amateur ranks. Should his brother come here and get into business as pointed out by Mr. MacNutt, he would altogether join the Moncton Skating Association as a competing member but this would not be a matter of concern to the association. Frank Garnett, he added, in conclusion, was not looking for charity. All he was looking for was a chance.

These statements seemed to clarify the air very considerably and the meeting broke down to new business.
