## Decisive Battle Now In Progress on Western Front; Allies Closing In on Germans From North and South

**DEFEAT WILL FORCE GERMANY TO ACCEPT TERMS**  
London, Nov. 5—(Canadian Press despatch from Reuter's, Limited)—The Times' Paris correspondent, reporting that the Allies have agreed on armistice conditions, says that the Allied successes on the French front leave little doubt of German acceptance.

### THREATEN FLANKS OF VAST POCKET EXTENDING FROM HOLLAND TO METZ

**Excellent Results Have Been Realized So Far**  
In the North Driving of Wedges May Force Retreat of German Armies in Belgium or Those Between the Oise and the Aisne; In South Great Strategic Offensive, Long Feared by the Enemy, is Launched

Paris, Nov. 5—A battle which is believed here to be decisive is now going on. It is being waged in two sections. In the north the blow delivered by the British armies of Generals Home, Byng and Rawlinson and by the French, under General Debeney, is a threat levelled at one of the flanks of the west pocket formed by the German lines from Holland to Metz.

#### SALES PEOPLE IN QUEBEC FORM UNION

Quebec, Nov. 5—The Quebec salesmen and sales ladies in large and small department stores recently formed a union and they have sent to the owners of the establishments a request for a raise in salary or a war bonus. So far, the request has not brought a satisfactory answer, excepting the Paquet Company, who have distributed two weeks' salaries as a bonus to everyone of their hundreds of employees. The possibility of a strike is remote yet, but the sales folk may resort to their extreme to obtain a decent living.

### ROTTERDAM RAILWAY BLOCKED BY ACCIDENT

London, Nov. 4—A despatch to Lloyd's from Rotterdam, dated Nov. 3, reports that the German steamer Kautschuk, entering Rotterdam harbor collided with the railway draw-bridge across the Koningshaven. The bridge was lifted off its base and thrown into an upright position into the southern passage of the Koningshaven. It is feared that railway traffic will be stopped for some weeks as a result of the accident.

### HIGHER RATES OR NO STREET CAR SERVICE

Sherbrooke, Que., Nov. 5—The Street Railway Company has presented an ultimatum to the city council stating that it wants its tariff of fares increased and in the event of the council failing to agree to these demands that the street service will be discontinued after Nov. 30. As an alternative, the company is willing to sell to the city at a price to be fixed by arbitration, several of the aldermen characterized the ultimatum as a bluff. A special meeting of the council will be held on Thursday night to consider the question.

VICTIMS OF U-BOAT OFF ATLANTIC COAST

Teris Island, B. W. I., Nov. 4, via Halifax, Nov. 5.—Reporting the capture of their ship in latitude 37.30, longitude 53.30 by a German submarine on October 18, the captain and seven men of the Norwegian bark St. Andrew, New York to Frequenton, arrived here last night in a pitiable condition following their twenty-one days exposure in an open boat with little or no food.

The captain stated that when he and his crew were abandoned to their fate by the U-boat they first tried to reach Halifax, but their boat capsized and with them went the bulk of their provisions. They managed to right the boat after a great deal of effort and then, because of the extremely cold weather decided to make for Bermuda.

DISAPPOINTMENT. It seems a strange thing to report that some 600 mildly disappointed at the late departure of the epidemic over the case in a modified way. There are in training just now in this city scores of bright-eyed and stalwart chaps who are being literally pining to cross the pond and get into the war with all their ardor. Moreover these fellows would like to see this "blighty" they hear so much about, and it has been hoped all along that the latecomers would even get as far as Berlin. Now the whole thing is dashed for them, they claim and the epidemic over the pond and get into the war with all their ardor.

ITALIANS TAKE TRENT AND 26,000 PRISONERS

(Continued from page 1) The Austrian armistice delegates who came to Padua last week, according to the Epoch, were eight officers under General Weber. The Italian delegates at the conference were headed by General Badoglio.

Army Breaking Up. Amsterdam, Nov. 5.—The state council at Vienna has issued an appeal to the German people of Austria in which it is declared the country is in danger and the army breaking up in disorder. The appeal exhorts the soldiers voluntarily to join the German-Austrian army corps.

Karolyi's Position. Amsterdam, Nov. 5.—According to a despatch from Budapest Count Karolyi has resigned the presidency of the Hungarian national council which position he considered to be incompatible with that of the premiership. He has been succeeded at the head of the national council by Deputy Johann Hoch. Count Karolyi will provisionally take the portfolio of foreign affairs.

Dissolution of Court. Amsterdam, Nov. 4.—Advices have been received from Vienna of the impending dissolution of the court and the disintegration of the government with events which have transpired.

Comment on Armistice. New York, Nov. 5.—The New York Herald today editorially says that the Austrian armistice is the handwriting on the wall for the German empire.

The World says the terms of the armistice, broadly speaking, are such as will make impossible a resumption of hostilities by the German government on either land or sea pending a permanent treaty of peace.

"It was to have been world dominion or downfall, according to Germany's own assertions," the World continues. "It has become downfall, and everybody in Germany from the Kaiser downward is at last beginning to recognize the fact."

The Tribune says that the terms of the armistice leave the dual monarchy imperiled. "Germany, the arch-conspirator against the peace of the world, will be bound, just as Austria-Hungary, her humble satellite, has now been following each other without interval. All the stores are closed and the tramways have been forced to suspend service because of the darkness of the streets."

NOT QUITE READY TO LET BAN FOR WHOLE PROVINCE. (Continued from page 1) very encouraging and the conditions continue to improve he would issue a release order to public gatherings in a very short time, possibly a matter of a few days.

Summary of Cases. The total number of influenza cases reported at the board of health since the commencement of the epidemic over a month ago is 967. This record includes today's cases up to 2 o'clock. Of course hundreds of these cases have recovered completely and are enjoying good health; others are convalescent, a small proportion are dead and the remainder are at present ill. It might perhaps be estimated that there are only about 25 per cent are now bed-ridden cases.

Halifax city raises its ban tomorrow. Prince Edward Island has been freed from the ban on public gatherings. The advance cost the Germans dear, especially in the Elzebeth area, where the enemy fought strongly for the high positions north of Elzebeth, but the British attacked successfully and with the help of Clergymen are especially fearful lest the coming Sunday be marked by peace announcements and the church-going people will not have the privilege of holding thanksgiving services appropriate to the occasion. While almost everywhere else civic authorities have arranged for a parade and that sort of thing upon peace being proclaimed there would not be the deliberate serious and semi-religious indoor gatherings that are necessary to soothe public grief and others think.

Over in Campbellton. Campbellton, N. B., Nov. 5.—The influenza epidemic which has been so serious here for the past three weeks is practically over, no new cases being reported. The percentage of deaths has been low, about twenty in a year. General Girts always get best places at Woman's Exchange, 158 Union St.

Winnipeg, Nov. 4.—All hopes that the crest of the Spanish influenza in Winnipeg had been passed were dashed yesterday by the return of today. During the day the city health authorities received notification of 501 new cases and ten deaths among civilians.

Eighteen more cases have developed among the military hospitals, but no deaths were reported from them today.

Former M. P. DEAD AT CAMPBELLTON. Campbellton, N. B., Nov. 5.—John McAllister, formerly an M. P. for Restigouche, died here very suddenly yesterday. He had been for his usual morning walk and upon returning complained of feeling unwell. His sister went to his aid, but he expired a few minutes later. He represented Restigouche for two terms 1892 and 1896. The funeral will be on Wednesday at New Mills.

Famous Correspondent Dead. Paris, Nov. 4.—Announcement is made of the death of Laurence Jerrold, the correspondent of the London Daily Telegraph here and the dean of the English correspondents in Paris. His death was due to pneumonia following an attack of influenza.

THREATEN FLANKS OF VAST POCKET EXTENDING FROM HOLLAND TO METZ. (Continued from page 1) Compel Withdrawals By Germans. Paris, Nov. 5.—French successes have compelled the Germans to make new withdrawals at several points along the front, according to the war office statement. Between the Oise and the Aisne the French have advanced about one mile on a five mile front.

The French first army resumed the attack this morning and is making progress. Between Sissonne and Chateau Porcien, a front of more than fifteen miles, the French have penetrated the Hunting line of the Germans. The French are making a general advance from east of St. Quentin Le Petit to the outskirts of Herpy.

French troops continue successfully to pursue the Germans in the region of Guise, northeast of which they have taken the village of Bergues-Sur-Somme, according to the war office announcement today.

BRITISH CAPTURE TOWN OF LEQUESNOY. London, Nov. 5.—British troops in their offensive southeast of Valenciennes have captured the fortified town of Lequesnoy, after having completely surrounded it. Field Marshal Haig announced that the entire garrison of more than 1,000 men was taken with the town.

OTHER VILLAGES ALSO ARE TAKEN. Rapid progress has been made by British divisions east of Lequesnoy, where an advance of between three and four miles has been scored. The villages of Jolimet, Larond Quene, Fresnoy and La Petit Marais have been captured. Further ground has been gained in Mormal Forest. The village of Etré, five miles southeast of Valenciennes, has been taken.

The text of the statement follows: "The walled town of Lequesnoy, being completely surrounded, fell into our hands yesterday afternoon with the entire garrison of over 1,000 men. In the sector south and north of Lequesnoy the 37th and 67th divisions in hand fighting yesterday took many prisoners. Overcoming strong resistance, our troops advanced to a depth of between three and four miles and capturing the villages of Jolimet, Larond Quene, Fresnoy and La Petit Marais. The village of Etré, five miles southeast of Valenciennes, has been taken."

Yesterday evening we progressed further in the Mormal Forest, and east of Valenciennes we captured the village of Etré. The Belgians hold the line from the canal to Langerbrugge, east of Ervelde, west of Dekatte, and thence to the Dutch frontier. In the last few days the advance has been comparatively easy owing to the enemy's withdrawal to the Scheidt, but the advance cost the Germans dear, especially in the Elzebeth area, where the enemy fought strongly for the high positions north of Elzebeth, but the British attacked successfully and with the help of Clergymen are especially fearful lest the coming Sunday be marked by peace announcements and the church-going people will not have the privilege of holding thanksgiving services appropriate to the occasion. While almost everywhere else civic authorities have arranged for a parade and that sort of thing upon peace being proclaimed there would not be the deliberate serious and semi-religious indoor gatherings that are necessary to soothe public grief and others think.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, NOVEMBER 5, 1918

**WILL CELEBRATE HUN'S DOWNFALL**

Tentative plans were laid down at a meeting held in the mayor's office yesterday afternoon for a big celebration on the occasion of the Germans crying "Nough!" and agreeing to the allied terms of an armistice. Quite a number of representative citizens met the mayor and commissioners and discussed the whole matter and the view was expressed by all that some preparation should be made in view of the indication of an early collapse of the remaining fighting central power.

Mayor Hayes said last night that a festive holiday would be declared that the populace might give themselves over to celebrating in true British fashion.

A committee was appointed at yesterday's meeting to arrange the details of the celebration, with A. O. Skinner named as its chairman, and the other members as follows: Colonel E. T. Sturdee, Commissioner Bullock, Major G. McE. Johnston, Major Victor Heron. This able committee will be expected to set the stage for the local celebration of the biggest day that the world has ever known and which is coming rapidly and no doubt they will feel their responsibility in the matter.

Mr. Skinner has a tentative plan mapped out. He proposes a mammoth procession headed by a huge float decorated by the flags of the allied nations upon which the mayor and commissioners will ride. This will be followed by another and similar float upon which the military and naval heads of the district will ride. The marshaling of all the returned officers and men and officers and men then on duty here, will be left to the military members of the committee and it is planned that they follow the two leading floats.

Every automobile owner in town will be asked to decorate his car especially for the occasion and participate in the procession, and all the citizens, men, women and children, will be asked to form up and add to the procession, each person carrying a flag.

The other details proposed have not been decided upon yet, but the committee will get to work immediately so that the German decision to accept the allied terms will not find them unprepared for the big event.

**INSPECTION OF QUARTERS**

General A. H. Macdonell, G. O. C. local headquarters, and Major Victor Heron, G. S. The new mess room, the guard room and the new Y. M. C. A. but were fully inspected and it is

**Answer This!**

When you have indigestion you never take a lung medicine. Why, then, when you have a cough, a cold or bronchitis (lung troubles) do you swallow things down into your stomach? It is a mistake, and the Peps treatment for colds, bronchitis and asthma, etc., corrects this mistake. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not ailing.

On the face of it, it is not this treatment of coughs and colds more rational than the old-fashioned way? Peps are recommended by doctors, by nurses, by people in authority everywhere, who once having tried this new treatment, will never go back to the old form. We could send you books of testimonials, if you would like to read them, but one trial of Peps will give you more personal satisfaction than others say. 50c. box, at druggists and stores. Remember the name—just four letters—

said that the new mess room took the officers' eye. When this is completed it is understood that fully 1,000 men may sit down comfortably and partake of their meal at once. This is a great improvement over the old arrangement, and a matter of which military authorities in M. D. No. 7 feel very proud.

Major Charles Knowlton, acting D. A. A. and G. M. C., local military headquarters, returned yesterday to duty following a severe attack of influenza.

"My little daughter suffered with a rash during teething. The irritation caused the child to be very cross and peevish. I applied Zam-Buk, which was at once most soothing. It kept her skin soft, drew out the inflammation and soon ended the irritation altogether. Before long, thanks to my perseverance with Zam-Buk, the rash entirely disappeared. Zam-Buk is a great soothing balm."

**LOCAL NEWS**

About forty feet of the embankment of the trench where the new water main is being laid to East St. John fell in yesterday and will cause a short delay.

The thief who made the break apparently was after cash but failed to secure any.

Brown's grocery store in Main street was broken into a few days ago but as far as could be seen nothing was missing. The thief who made the break apparently was after cash but failed to secure any.

An unsuccessful attempt to break into Louis Green's store in Charlotte street was made last Saturday night. Packing boxes were piled up in the yard and in this manner a window was reached, but as it had iron bars protecting it the attempt failed.

John De Angelis, the Italian consular-general for this city, received a telegram yesterday from Zunini, the Italian consular-general of Montreal, in which he embodied a message from the royal government telling of the Italian entry into Trieste and the demonstrations of joy throughout Italy.

Dr. F. L. Kenney, coroner, announced last evening that no inquest would be held in connection with the death of William Hooper, of Lower West Beach, who was found dead on Saturday night by two men on the old Black River road. Dr. Kenney added that the unfortunate man was subject to fainting spells, and undoubtedly during one of these he fell from his wagon.

A gang of shop breakers is evidently at work in the city. Some time on Saturday night an unsuccessful attempt was made to enter the store of Louis Green, Charlotte street, from the rear. Several large packing boxes had been placed up against the rear entrance and the windows gained, but evidently the iron bars foiled the progress of the intruders, and they gave up the attempt.

London, Nov. 4.—The house of commons tonight without division passed the second reading of the bill giving women the right to sit in the House of Commons. In the course of the discussion Lord Robert Cecil, assistant secretary of state for foreign affairs, said he favored extending the provisions of the bill to the House of Lords, but that difficulties prevented such action.

**Men of the Maritimes Carry on!**

In France our soldier lads fight on. The fact that they have the enemy on the run, far from causing them to slacken, inspires them to redoubled effort.

Canada must maintain at home a similar determination to carry on, until the enemy is beaten to his knees.

Steel, of which we produced a million tons last year in Nova Scotia alone, is still needed in large quantities for our munition factories and our ships. Timber, of which last year the lumbermen of the Maritimes produced immense quantities, is still required for our shipyards. Freight boats, which our Atlantic coast yards are producing on a scale and at a speed never before attempted here, are still a pressing need of our allies.

To keep up the production of these and the other war supplies so vital to Victory, Canada must have an uninterrupted flow of money.

Loans from the Canadian people have financed the huge industrial undertakings which have made Canada an important factor in supplying war material for our fighting men. And the men of the Maritimes have been generous in their loaning as they have been courageous in their fighting and diligent in their working.

*That the splendid traditions of the Maritimes may be maintained:—*

OUR SONS AND OURSELVES.

The soldiers of Canada are still fighting. Each day brings its list of casualties. The men at the front are determined to finish their task. They do not desire to come home until it is done.

What the men at the front are doing we at home must do. Our task just now is to subscribe and over-subscribe the Victory Loan. The money must be raised in order that Canada may continue her war effort as long as is necessary, and then bring the soldiers home and absorb them by degrees without hardship to them and their families into the economic life of the country.

THE COMING DAY.

One of the compensations of this war should be an end of the burden upon the nations to keep up a tremendous armament. If it had to be continued, along with the burden of the war debt, the effect would be universally disastrous.

The board of trade is a very useful organization, and Mr. R. B. Emerson is a practical business man who has been a valued member. As president he will be in a position to do still greater service to the industrial and commercial community.

Germany is now greatly concerned about air raids on towns. She does not want her cities and towns to get what she gave London and the French and Belgian towns and hospitals.

Just when the influenza epidemic appears to be subsiding is not the time to open places of public assembly. Let us be sure we are safe.

IN GERMANY

Germany is torn with conflicting ambitions and desires. The junkers would like to continue the war, but are in dread of what has happened in Russia and in Austria-Hungary. There have been demonstrations in Berlin in favor of rejecting the peace terms, and others demanding peace and the abdication of the Kaiser.

Toronto Globe.—Canada is doing big jobs in these history-making days, and doing them well. The boys at the fighting front are bearing the brunt. But those of us at home have another opportunity to show them just how earnestly and effectively we are backing them up.

The teaching of Spanish is to be introduced in the high schools and collegiate institutes of Ontario. At present teachers are scarce, but Spanish will be taught in the summer school courses next year, to equip instructors to undertake the teaching of the language in all secondary schools in the fall term of 1919.

A chilling message comes from Ottawa. Because of the fuel shortage a temperature of 68 degrees in all buildings is named as a maximum, because of the shortage of hard coal. St. John should leave nothing undone to get enough soft coal and wood to make up the hard coal shortage during the winter.

The American food board has fixed the retailer's profit on eggs. Prices can be regulated, after all. Some people in Canada still seem to doubt it, but the thing is being done in the United States and England.

The Rhodes scholars have made a noble record in the war, but that was to be expected of picked men. Indeed what soldiers of the Allied nations have not made a record for courage, devotion and sacrifice?

Victory bonds bear interest from Nov. 1. The five year bonds are due in 1923 and the fifteen year bonds in 1933. The denominations are \$50, \$100, \$500 and \$1,000. The interest paid is 5 1/2 per cent. It is a rare chance for a good investment.

It has been decided that the inspectors under the prohibitory law have a right to search suspected individuals. This is really necessary if the illegal traffic is to be stopped.

Bavarian newspapers want the Kaiser to resign so that the Bavarian royal house may get the plum. The Socialists will have something to say about that.

The armistice terms agreed to by Austria are described by the New York papers as fatal to Germany, whose end must come soon.

The man who figured out the plan to save daylight might work out a scheme to save a few sunny days.—Brockville Recorder and Times.

THE OATH.

I will not drink from a German cup, Or eat from a German plate. I will not deal with a German man All foul with German hate.

I'll use no drug with a German name That's grown on German land. I'll eat no food and drink no beer If made by a German hand.

I will not use a German tool, Razor, or knife, or saw. I will not trade with a German shop That lives by the German law.

I will not sail on a German ship, Where German songs are sung. I will not breathe where God's clean air Is soiled by a German tongue.

I'll not forget their awful deeds, To girls and little boys, No more I'll hang on Christmas trees, Those blood-stained German toys.

I will not take a German's word, He'll break it if he can. There is no love in a German heart, Or faith in a German man.

This is my oath. When war is done, I'll swear to keep it true. And since I know, you feel the same, I'll pass it on to you.

—BUY-VICTORY-BONDS— WHO COUNSELS PEACE? (Written by Robert Southey in 1814.) Who counsels peace at this momentous hour, When God has given deliverance to the oppressed, And to the injured power? Who counsels peace, when Vengeance, Like a flood, Rolls on, no longer now to be repressed, When innocent blood From the four corners of the world cries out, For justice upon the accursed head; When Freedom hath her holy banners spread, Over all nations, now in one just cause United; when with one sublime accord, Europe throws off the yoke abhorred, And loyalty and faith and ancient laws Follow the avenging sword?

TOOK BRONCHITIS AFTER THE MEASLES

Measles is a disease that is very hard on children, and it generally leaves the system in such a debilitated condition that it is liable to attacks of some other trouble. One of the most common of these is bronchitis, which starts with a short, painful, dry cough, a feeling of tightness through the chest and difficulty of breathing, accompanied by a wheezing sound from the lungs.

There is a raising of phlegm from the bronchial tubes which is very often streaked with blood. Bronchitis although not really dangerous, should never be neglected as some serious lung trouble is most liable to follow if it is.

Dr. Wood's Norway Pine Syrup will loosen the phlegm, soothe and heal the irritated bronchial tubes, and in a short time the bronchitis will disappear.

The genuine Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 28c and 50c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

PETROGRAD

Petrograd, whose ultimate fate no man can forecast at the present time, is the fifth city of Europe in point of size, coming after London, Paris, Berlin and Vienna. "Some day," says a correspondent who is now in the fatal city, "it will be possible to write of the agony of Petrograd; but not now, on the fringes of the polar night." It owes its rise and importance to the masterful Monarch, Peter the Great, who founded the city at the beginning of the eighteenth century, and who did not scruple to take the most barbarous means to carry out his plans. When it is said that Peter the Great founded St. Petersburg (as it was called until early in the present war), and built the first great cathedral of St. Peter and St. Paul, and that successive Monarchs carried on the work, it should also be said that the men who really did the building of the city were conscripts, who had no choice but to do the work for which they had been forcibly transferred there. Thousands of whom died in erecting the fortress that was called after the Monarch. The beginnings of the city were built on piles, as the ground was marshy, and part of the work planned by the Monarch was a system of canals connecting the upper Volga and the Dnieper with the great lakes of the north. This transferred the commercial north of the Volga to the Gulf of Finland, and St. Petersburg became the export harbor for more than half Russia. Foreigners hastened thither to take advantage of the export trade, and to this the men who really did the building of the city were conscripts, who had no choice but to do the work for which they had been forcibly transferred there. Thousands of whom died in erecting the fortress that was called after the Monarch. The beginnings of the city were built on piles, as the ground was marshy, and part of the work planned by the Monarch was a system of canals connecting the upper Volga and the Dnieper with the great lakes of the north. This transferred the commercial north of the Volga to the Gulf of Finland, and St. Petersburg became the export harbor for more than half Russia. Foreigners hastened thither to take advantage of the export trade, and to this the men who really did the building of the city were conscripts, who had no choice but to do the work for which they had been forcibly transferred there. Thousands of whom died in erecting the fortress that was called after the Monarch.

St. Petersburg, it has been said, has no history beyond that of palace conspiracies, and there is nothing in the past to attract the writer or the thinker. "The things which climb to the top of the world," says Austin Dobson, and of no country is this more true than of Russia. Successive Monarchs took the same view of their prerogatives as Peter the Great, and the suppression of free life and thought among the people for centuries has been the inevitable outcome.

At the beginning of the war the old name was changed by the Czar to Petrograd, as an emergency measure, an attempt that looks a little pale in the light of subsequent events. Now Russia is making history with a vengeance, and the three main streets of the city at the end of the eighteenth century. A terrible atrocity has been succeeded by a democracy that is scarcely less terrible.

The city was made a seaport in 1888 by the construction of a ship canal at the cost of over \$5,000,000. The river is crossed by three fine bridges. In winter it is covered with ice two or three feet thick, and traffic proceeds across it. Thousands of villagers come to winter then with their horses and sleighs to ply for hire. The river is lighted with electricity and the winter scene is most picturesque. But the climate is changeable and unhealthy. Frosts are made most trying by the wind that accompanies them, and the westerly gales in winter bring oceanic moisture and warmth which melt the snow before and after hard frosts. The summer is hot but short, lasting barely more than six weeks. A hot day, however, is often followed by cold weather, and changes of temperature amounting to 35 Fahr. within twenty-four hours are not infrequent. In autumn the chilly dampness is most unpleasant, and the spring has more cold and wet than fine days.

The greater part of Petrograd is situated on the mainland on the left bank of the Neva, and there most of the best streets and the largest shops and public buildings are found. The Admiralty buildings form the centre of the capital. Three main streets run north and south, and are broad squares with fine gardens. The Imperial Winter Palace is another imposing structure. The Neva embankment contains a succession of fine buildings and the three main streets of Petrograd extend to great length, the longest to three miles.

The population before the war disturbances was given at 1,700,000, and these have been more men than women for generations back, a fact that is due to the migration of men from other districts to work in the textile factories in the winter and around the wharves in the summer. Of the population, about 87 per cent belong to the Russian race; 5 per cent are Germans; 8 per cent Poles; 2 per cent Finns, and 5 per cent Jews. By creeds, 85 per cent are of the Orthodox Church, 9 per cent, mostly Germans, Protestants; 4 per cent Catholics, and 1 per cent Jews.

There are many learned and educational institutions, and the university, which had 4,000 students before the war, exercises a pronounced influence upon the life of Petrograd. It is a notable fact that the proportion of illegitimate children is ten times higher in Petrograd than in the rest of Russia, and reaches the astonishing figure of 286 per thousand births.

May Appeal in Liquor Case.

In the police court yesterday afternoon Magistrate Ritchie gave a decision against Arthur Totten for a liquor case and fined the defendant \$200. The evidence submitted as outlined by the magistrate was such that there were suspicions concerning the defendant's transaction between Edward Curran and Totten and in view of this the court imposed the penalty. William M. Ryan, appearing on behalf of the accused, signified his intention of appealing the decision. Four other liquor cases which have been before the court for some time were further postponed.

Basle, Switzerland, Nov. 5.—The Frankfurter Zeitung, a copy of which has been received here, says Count Bernstorff, German ambassador to Turkey, will arrive in Berlin Friday, having been recalled from the Constantinople embassy less on account of recent events in Turkey than the necessity to have some one in Berlin especially acquainted with American matters. The newspaper adds that the Turkish ambassador in Berlin, Turkish officers in Germany, and two Turkish officers who were studying in the German capital have been recalled to Turkey.

Threw Away Her Crutches

MRS. WALLIS was cured of inflammatory rheumatism ten years ago, and tells in her very interesting letter how cure was discovered. The treatment used was so effective that her system was restored to good condition, and she has had exceptionally good health ever since.

In order that others may have the benefit of her experience she has kindly written this letter and allowed the use of her portrait. Any reader wishing further particulars of her cure will find Mrs. Wallis only too glad to do what she can to help them.

Mrs. J. A. Wallis, 17 House avenue, Brantford, Ont., writes: "About ten years ago I was troubled with inflammatory rheumatism, and my system was in a generally run-down condition. I tried several doctors here and many different medicines, but received no benefit from any of them. I kept getting worse, and became so bad that I had to use two crutches to get around the house. One day I felt 'all in' and completely discouraged. The baby was sitting on the floor playing with a newspaper. She tore a piece off, and I happened to pick it up. I glanced over it, and my attention was attracted by a letter from some one who had been cured by Dr. Chase's Nerve Food. I had never tried this remedy, but decided right then to see what it would do for me. While taking the first box I found they were doing me good, as they seemed to put more life into me, so I continued the treatment, using box after box until I had taken 24 boxes. I felt so much better that I did not need any more medicine of any kind, and have not taken any for years. The Nerve Food relieved my rheumatism so I could do without the crutches, and I have enjoyed extra good health ever since. I can heartily recommend Dr. Chase's Nerve Food to anyone suffering from either a run-down condition or inflammatory rheumatism."

This report should convince the most skeptical of the effectiveness of Dr. Chase's Nerve Food in enriching the blood, building up the system, and thereby removing the cause of rheumatism, lumbago, sciatica, locomotor ataxia, paralysis and scores of other diseases which prey upon a run-down condition of the body.

You can obtain Dr. Chase's Nerve Food from any dealer or direct from Edmondson, Bates & Co., Ltd., Toronto. 50c a box, 6 for \$2.75. The portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box.

RECENT DEATHS

Walter Smith Winter.  
At his home, 65 St. David's Street, at half-past two yesterday afternoon, Walter Smith Winter died from pneumonia following an attack of Spanish grip. He was the eighth child of Frederick and Margaret Winter, of 76 Forest Street. His father was a soldier of the Crimean days and came to this country with the 10th regiment at the time of the Trent affair in 1861. Walter was employed with the Higginson firm of steam heating and fitting contractors and was an industrious and worthy young man of sterling qualities who was a general favorite among his associates. He leaves, besides his parents, his wife and young son; also six brothers, two of whom are in the American Army in France; and also two sisters, Mrs. Chapman, of Boston, and Mrs. James Wilson, of Halifax. The latter is expected to arrive this morning.

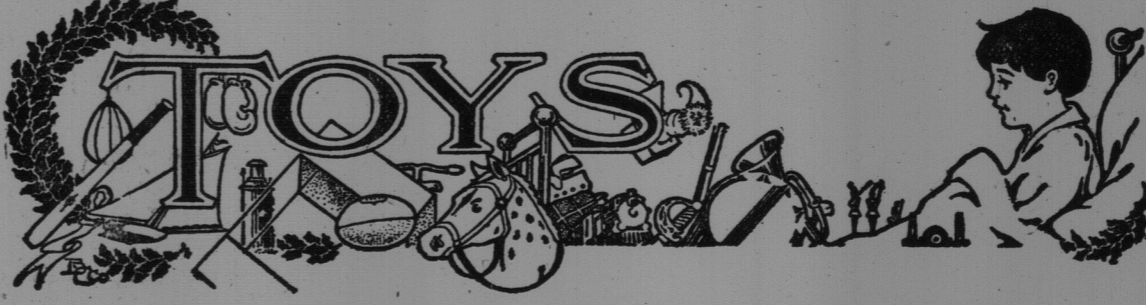

Leo A. Tolan.

Friends will regret to learn of the death of Leo A. Tolan, who died yesterday at the home of his parents, Mr. and Mrs. Daniel Tolan, 12 Windsor Terrace, in his twenty-first year. He had been an employe of H. Mont Jones and was well known in the city. Besides his father and mother, he leaves three brothers—James E., Harold and Louis A., and three sisters—Misses Gertrude, Annie T. and Sadie L., all of this city.

Rev. Ernest Albert.

Newcastle, Nov. 4.—Rev. Ernest Albert died on Saturday evening and was buried in St. Mary's cemetery here on Sunday afternoon. The young priest, who fell a victim to the influenza scourge, came in obedience to the orders of his bishop, to Newcastle on October 17 as assistant to Rev. Father Dixon and successor to Rev. Father Trudel. During his illness he was waited on by two of the religious sent by the Hotel Dieu Hospital, Chatham. Father Albert was born at Carleton Place on December 28, 1892, being one of ten children. He studied at the Sacred Heart College, Carleton Place, where he made a brilliant course in arts, followed by equally brilliant studies at Rimouski and Montreal. Ordained at Rimouski, June 17, 1917, he served on the missions of Nequac, (N.B.) and Charles, Kent county, whence he was transferred to Newcastle. He was remarkable for earnestness of purpose and singular devotion to duty in the different parishes which he served. He leaves his parents, Agathe and Vitaline, of Carleton, one brother and two sisters.

Mrs. Frank McVey.

St. Andrews, Nov. 4.—Word was received late Friday night that Mrs. Eva McVey, wife of Frank McVey, of St. Stephen, had passed away from pneumonia. She was the second daughter of the late Thos. and Mrs. Burton, of this town. She was twenty-eight years of age and had been married only a few years.

Hazen J. Burton.

St. Andrews, Nov. 4.—Hazen J. Burton, a well-known merchant, passed away at his mother's home here on Saturday morning after a short illness of double pneumonia. He was a most active worker in town and church matters, always ready to help in patriotic or charitable causes. He was considered the most enterprising of the younger business men. His young wife, who was Miss Jessie Dyer, of Elmville, predeceased him by three weeks.

Mrs. Vaughan Young.

Amnapolis, N. S., Nov. 4.—(Special)—The death of Kathleen, wife of Vaughan Young, an employe of the D. A. R., occurred at his residence in Middleton, N.S., after a brief illness of influenza, aged twenty-eight years. The deceased was a daughter of A. M. King, of this town, and her sudden death will be mourned by a large circle of relatives and friends. Besides her husband she is survived by an infant child and a grandmother, Mrs. Agnes King, and her father, A. N. King, merchant, of this town; one brother, Claude, of the firm of A. M. King & Son, and four sisters—Hazel, M. King, a trained nurse now in France with the troops; Daphne, also a trained nurse, who was with her during her illness; Mary, Catherine and Evelyn, at home.

William B. Whalen of Kent Junction, son of the late Henry and Hilda Whalen died at his home on Thursday from pneumonia. He was twenty-nine years of age and leaves two brothers and two sisters. Mrs. Agnes McCafferty of this city is an aunt.

THE CASUALTIES

Word has been received by Mrs. A. E. Windsor of the death of her son, Private C. Albert Windsor, of Miscou Harbor (N. B.). His death occurred at sea on October 12. No further information is given.

Private C. Albert Windsor prior to his call to the colors was engaged in the canning business. He was born on February 28, 1888, and received his education at the Bathurst Grammar school, St. Andrew College and Mount Allison. He is survived by his mother, Mrs. Albert E. Windsor, two sisters, Miss Ruby N. and Jennie E., of Lawrence (Mass.), and two brothers, Byron H., of the R. A. F., France, and Warren J., of Naperville (Que.)

Chatham Soldiers Die.

Chatham, N. B., Nov. 4.—James Vantone this morning received definite word from Ottawa that his son, Howard, was officially reported killed in action September 18. Diamond Prices

The quantity of diamonds necessary to fill the requirements of our five stores, stretches over Canada, where we secure us the very best prices obtainable. This is a privilege which is possible to but few importers on this continent, and we want you to bear this in mind when an Engagement Ring or a gift in Diamonds is contemplated.

Moreover, this heavy purchasing power, assures us a much wider range and permits us to offer you exceptional advantages in the matter of selection.

We are always glad to correspond with you at any time in reference to Diamonds, absolutely regardless of whether purchase is the result or not.

A very good impression of our stock may be gained from Birks' Year Book, a copy of which we shall be glad to send you on request.

### GROCERY MARKET

The following comment on the market situation as regards foodstuffs appears in Canada Grocer this week: Interest centres chiefly in the announcement from Washington that an embargo on the export of virtually all of our primary crops put into effect. This is a serious matter for the trade here, and whereas some importers feel that modification of this embargo may be possible, many others again feel that this step was only taken after a complete survey of the probable crop was stacked up against the requirements of the new army and navy being recruited.

Prunes and raisins are the two big lines affected, though the trade was pretty well resigned to the fact that very small allotments, if any, prunes would come through owing to severe crop damage coming on top of heavy government requirements. The same conditions are now affecting raisins, raising doubt con- siderable damage to the later crops, and army needs proving very heavy.

Coffee is also occupying the thoughts of importers considerably. The Brazilian market has developed remarkable strength only recently. This is not due to scarcity of this commodity, but rather to the possibility of an early peace with probable opportunities for trade with belligerent countries whose supplies must be practically exhausted. Supplies in Canada are none too heavy, though the actual shortage before the first of the year seems likely to develop. At that time, scarcity of bottoms to bring ship- ments through promptly from the sea to an acute scarcity arising. The outlook seems to be, too, that prices will show a sharp advance, unless Brazilian inter- ference in the market, from their present attitude—an unlikely develop- ment.

### HARDWARE MARKET

Hardware and Metal: Lower prices  
are again in evidence on lined oil this  
week after a week of rather uncertain  
conditions in the steel market. Declines  
range from four cents to seven cents per  
ton. Uncertainty about the fuel value  
may go seems to be the only certain  
feature in this market. The feeling is  
strong that unless an almost cessation  
of hostilities develops, the market is  
about as low as it will go, and higher  
levels are looked for later on.

Typpentine has advanced two cents per  
gallon in some quarters. This is in line  
with firm tendencies outlined last week,  
and follows closely on the strong feeling  
in evidence at primary points. Contin-  
ued strength seems probable, it being re-  
ported that English interests have bought  
up large stocks to be stored in tanks  
awaiting shipping space, and this will  
provide a firm undertone to the market.  
Local conditions are affected, too, by  
increased charges for warpage, marking  
and barrels which have now become ef-  
fective.

Horsehoes are again prominent this  
week in an advance of fifty cents per  
pair. This follows on the heels of a  
similar increase about three months ago,  
and is some criterion of conditions gen-  
erally applying in iron and steel indus-  
tries. Further evidence as to the trend  
of these markets is given in an advance  
of about 20 per cent in steel gate traps,  
one of the sharpest increases yet re-  
corded in this line.

New prices issued on roofing cement  
and paint for spring provide for an ad-  
vance in these two lines. Creosote has  
also gone to higher levels, and the mar-  
ket in all roofing products rules with a  
very firm undertone.

A decline in drop shot is recorded in  
some quarters, more it is felt, in an ef-  
fort to clean up stocks than a market  
condition. Some lines of Canadian-  
made builders' hardware have been  
changed, new prices providing for ad-  
vance which, it is indicated, amount to  
as much as 15 per cent.

Other lines to join the list of those  
on the upward trend are axle pulleys, tin  
roofing caps, hand saws, foot valves,  
placers, tow bars, thumb latches, and  
chain pipe wrenches. A fifteen-cent in-  
crease in the price of cement is also ef-  
fective, as applied to certain territories.  
Business as a whole has been very  
good in spite of adverse conditions  
brought about by epidemic of sickness.

### Workmen's Compensation Act, 1918

## Notice to Employers of Labor

Every employer shall, on or before the 15th day of November

Cause to be furnished to the Workmen's Compensation Board at the City of St. John, an estimate or estimates of the probable amount of the payroll of each of his industries within the scope of Part I of the Act, together with such further information as may be required by the Board for the purpose of assigning such industry to the proper class or classes, and of making the assessment hereunder.

And Further Notice

That any Employer neglecting or refusing to furnish such estimate or information is liable to a penalty not exceeding \$20.00 per day for each day of such default, and is further liable for damages, as provided by Part II of said Act, in respect of any injury to any workman in his employ during the period of such default.

NOTE.—Forms for furnishing such information will be supplied on application.

### NO HOPE OF GETTING JESS

Willard Sends Final Word That He Will Not Box for Fund.

New York, Nov. 4.—There will be no further attempt by James W. Coffroth, chairman of the National Boxing Committee, to induce Jess Willard to reconsider his decision and come to this city and box in aid of the fund during the week of November 11-15. This declaration was made yesterday by Chairman Coffroth, following the receipt of a telegram from the heavyweight cham- pion.

The telegram came from Graham, Texas, and said:—"Sorry I can't come essential to the government, which is here, but have agreed to put on two or three shows in the principal cities of Texas."

A ten-round bout between Benny Leonard, world's lightweight champion, and Irish Patsy Cline, will be the head- liner on the boxing programme which will be held at Madison Square Garden in aid of the United War Work Cam- paign. This match was arranged last night at a meeting called by the local boxing committee. The session was at- tended by a representative gathering of managers and promoters. The show will be held November 16, instead of Novem- ber 26, as previously announced. The prices for tickets will be on a scale of \$2 to \$10.

This match was selected as the one best suited to New York's postwar con- dition. Uncertain as to the London medical board's decision, among other proposals discussed is a meeting between Ted Kid Lewis and Soldier Bardsley. Other bouts will be arranged from day to day to fill the card.

Several out-of-town matches were an- nounced. One of them will be between Jim Coffey and Battling Levinsky. This will be held at the armory in Cleveland, November 22, by Matt Hinkley. Other bouts will be arranged for the 23rd. A Cleveland armory has been given over for boxing purposes. At Boston, Novem- ber 12, Johnny Dundee will fight a ten-round bout on November 14, Dundee will box Tommamy Touhey at Patterson, N. J.; at New Orleans, November 17, Pete Hernandez will risk his bantamweight title here with Pal Moore. The bout be- tween Jack Dempsey and Fred Fulton or Willie Meenan probably will be held in Kansas City.

At the meeting were James W. Coffroth, Charles J. Harvey, Billy Gibson, and Harry Pollock, the local committee; Dan McKettrick, Jim Buckley, Dan Morgan, Matt Hinkley of Cleveland, Jack Bulger, and Scotty Monteith.

### THE NEWSBOY'S BOND

This really and truly incident took place in one of the smaller cities of the West.

The first of the colored posters for the Victory Loan in 1918 were being hung up in a store window by the local bill-posters. A couple of farmers pass- ing by at the time stopped to look at the individual posters and noticed a third poster which had been tacked on between them. This third poster was a lad of ten—an enterprising newsboy of the town.

One of the farmers was dilating upon the fact that crops in the district were none too good, and said to his com- panion:

"I guess, Bill, we won't be able to do much in the way of Victory Bonds this fall."

"No, Dan, they don't want to figure too heavily on us this time. The Bonds are alright, but—"

"At the juncture the ten-year-old newsboy, facing the two men dejectedly, exclaimed:

"Well, I've got money in that there, and I think it's jake!"

"Yes, sir," he continued, "I bought a hundred-dollar bond last year, and I got a hundred dollars saved up for to buy another one like it this year. I got two brothers at the front, I have; and I think it's jake—that there" pointing to the posters.

Where did you get all the money, boy?" asked the farmer called Dan.

"Where'd I get it?" "Why, I sell more papers than any kid in town, an' I carry parcels and run errands, O, any- thing to make some coin—for they's got to have money, too, ter lick the Ger- mans—so Dad says."

Dan showed a hand deep into his pocket and turning to the boy said:

"Here, kid; will you do a little job for me if I pay you for it?"

"Sure thing!"

"It's my business," continued the farmer. "Now, here's a five dollar bill. If I give you this will you agree to tell at least five other farmers you may run across today about your bond buying and how you got the money?"

"I'll do it if you say so, mister," agreed the lad after a slight pause of in- credulity.

"I say so—and I mean it. You've put a new kink in my thinking apparatus today, kid. Here's the 'V'—now hustle!"

"Say," shouted the boy, "if bet you gent's was just kidding—you're both good to buy Victory Bonds, ain't you?"

"You bet we are," said the one who parted with the five-spot.

Seize German Vessels.

Buenos Aires, Nov. 4.—All the Ger- man mercantile vessels interred in Chilean harbors have been seized by the Chilean government.

### THE PRICE OF MILK

A letter received at the Halifax board of trade from the London, Ont., board, says regarding the price of milk there that the distributors pay the producers the same amount as they receive in the city and the public pay the distributors eleven cents. The wholesale price is nine cents. It is anticipated the price will advance May 1 for producers to six and a half cents and to the public twelve cents.

### SCARCITY OF DOCTORS.

Casualties and Influenza Hit British Pro-  
tection.

London, Nov. 4.—(Canadian Press De-  
spatch from Reuters, Limited)—In the  
House of Commons, replying to a ques-  
tion regarding the cooperation of the  
national service department in provid-  
ing more doctors to fight the influenza epi-  
demic, Sir Auckland Geddes said that  
the number of doctors on medical boards  
had been reduced in order to enable more  
doctors to attend civilians. This had  
been done without interference with the  
number of doctors on medical boards.  
A considerable number of doctors were  
down with the influ-  
enza, and the national service depart-  
ment was putting the whole time of  
doctors in London medical board  
at the disposal of districts where special  
assistance was required.

There was a very lively demand for  
young and doctors for the front lines  
in France. The casualties among medi-  
cal men had been very heavy and a cer-  
tain number of young and fit doctors  
were being called up before their time.  
The navy was co-operating, and a cer-  
tain number of young naval surgeons  
had gone to France.

### BURIED TREASURES

British progress east of Ypres is  
watched by none more keenly than by  
the civilian owners of the present battle-  
field. Any advance holds for them a  
double interest; not only does it liberate  
a further portion of their country, but  
it may also restore to them their hoarded  
savings. Many Belgians, when forced  
to leave their homes, took with them all  
they could, but chose to leave their  
money buried in a spot known only to  
themselves. Where possible these spots  
were registered by the police, but nor-  
mally it was left to the owners  
themselves to keep in touch with their  
hidden treasure.

### RHODES SCHOLARS WIN HONORS IN THE WAR

London, Nov. 4.—(Canadian Press de-  
spatch from Reuters, Limited)—Up to  
the present time two hundred and forty  
Rhodes scholars from the dominions and  
British colonies have taken part in the  
war. Of this number eighty-three gained  
honors and distinctions and forty-six  
died in action.

### WHAT ALL CAN DO

What is there for us to do? Is there  
anything worth doing? Yes, there is  
plenty, and what they are doing and have  
done. Yet there are some things we  
can keep a high heart. We can work  
as never before. We can save. We can  
give. We can—Is this a lathos—lend.  
It is like an insult to say to a man:  
"Your own gave his life. Will you lend  
your money?" To lend instead of giving  
Money instead of life! Yet in a great  
struggle of organized nations, such as  
this is, the lesser thing is as necessary  
as the greater. Those of whom we think  
night and day have done the greater,  
the harder thing of the two which are  
necessary. Dare we fail to do the lesser,  
the easier thing? "Let not our beloved  
blush for us!"

### SIXTY-EIGHT IS THE MAXIMUM

#### Fuel Controller Fixes Limit For Heat of Buildings — Fuel Situation Critical — Must Avoid Waste

Ottawa, Nov. 4.—The temperature in all buildings must be kept down to sixty-eight degrees at most, it is announced by Fuel Controller McGrath. The fuel situation has become so critical that it is urgently necessary to avoid waste, and a conference called by Mr. McGrath has just been held, at which ways and means of saving on limited supplies of hard coal were discussed with the fuel admin- istrators for the provinces of Ontario and Quebec.

"Through investigation it has been es- tablished that a maximum of sixty-eight degrees is all that is required and that temperature in all buildings must not go any higher than that," was the decision of the administrators of both provinces. "It is important," said the fuel con- troller, "that the other Canadian provinces should fall into line."

### PENNIES IN BIG DEMAND.

Suggestion That the Call Has Some Re-  
lation to War Thrift.

(Newark News)

The penny, or more correctly speak-  
ing, the one-cent piece, is coming into  
the country the small bronze disk behind  
which stands the best possible security,  
the United States Government, has not  
been looked upon with favor. In cities  
on the Western coast it has been so  
completely ignored that it scarcely con-  
test into the calculations of shoppers or  
storekeepers, and was practically never  
seen in change; nothing smaller than the  
nickel 5-cent piece was of sufficient im-  
portance to occupy a place in the pocket  
or purse. To the eastern journeying  
on the western coast the absence of the  
penny was as noticeable as the ab-  
sence of the silver dollar in the east to  
who journeys hither from the Pa-  
cific.

But these are the days of innovations,  
No longer is the penny looked upon as a  
spite from among a number of hours  
discussed. Among other proposed con-  
tests is a meeting between Ted Kid  
Lewis and Soldier Bardsley. Other  
bouts will be arranged from day to day  
to fill the card.

Several out-of-town matches were an-  
nounced. One of them will be between  
Jim Coffey and Battling Levinsky. This  
will be held at the armory in Cleveland,  
November 22, by Matt Hinkley. Other  
bouts will be arranged for the 23rd. A  
Cleveland armory has been given over  
for boxing purposes. At Boston, Novem-  
ber 12, Johnny Dundee will fight a ten-  
round bout on November 14, Dundee will  
box Tommamy Touhey at Patterson, N.  
J.; at New Orleans, November 17, Pete  
Hernandez will risk his bantamweight title  
here with Pal Moore. The bout be-  
tween Jack Dempsey and Fred Fulton  
or Willie Meenan probably will be held  
in Kansas City.

At the meeting were James W. Coff-  
roth, Charles J. Harvey, Billy Gibson,  
and Harry Pollock, the local committee;  
Dan McKettrick, Jim Buckley, Dan  
Morgan, Matt Hinkley of Cleveland, Jack  
Bulger, and Scotty Monteith.

Mrs. Mary Williams, Chatham Head,  
died Oct. 29, aged forty-four years.

### Undoubtedly the thrift stamp

campaign has had much to do with the  
vogue of the one-cent piece and has  
dignified the value of the nickel. The  
Government rejoices in this tendency,  
from the thrift viewpoint, for the face  
value of the token coins, as the penny  
and nickel are called, is much greater  
than the value of the metal they con-  
tain. In a circular issued by the Na-  
tional City Bank of New York it is  
pointed out that the profit on the man-  
ufacture of these two classes of coins  
together with the slight profit on the  
manufacture of the silver dime, quar-  
ter, and half dollar more than meets  
the entire running expenses of the mint.  
Early issues of the one-cent piece were  
of copper and of nickel, but today  
bronze alone is used.

BOARD OF TRADE ELECTS OFFICERS

Nominations of R. B. Emerson as President and W. F. Burditt, for Vice-president, Unopposed—Wharfage Rates Discussed

R. B. Emerson, of the firm of Emerson & Fisher, will be the next president of the local board of trade. When the members of the board met last night to nominate their officers for the ensuing year Mr. Emerson received the only nomination, and he will take office the first meeting in December.

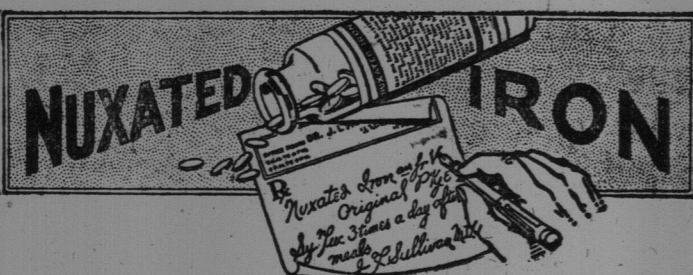

Nominations for vice-president ceased with that of W. F. Burditt and he, by virtue of that fact, will stand unopposed and become the second chief officer for the ensuing year.

A letter from the Quebec board of trade was read which stated that W. J. Kirkwood, who had a proposition to build a fleet of wooden vessels for the trans-Atlantic trade, would visit St. John in the near future, accompanied by the mayor of Quebec and two other gentlemen, and would like an opportunity to meet the St. John city council and the members of the board of trade.

DON'T NEGLECT A RHEUMATIC PAIN

Go after it with Sloan's Liniment before it gets dangerous

Apply a little, don't rub, let it penetrate, and—good-by twinges! Same for external aches, pains, strains, stiffness of joints or muscles, lameness, bruises, infant relief without mussiness or soiled clothing. Reliable—the biggest selling liniment year after year. Economical by reason of enormous sales. Keep a big bottle ready at all times. Made in Canada. Ask your druggist for Sloan's Liniment.

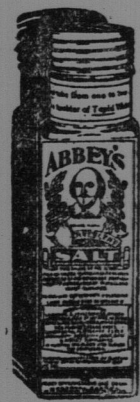

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron," says Dr. James Francis Sullivan, former physician of Bellevue Hospital (Out-door dept.), New York, and the Westchester County Hospital. Nuxated Iron often increases the strength and endurance of weak, nervous, run-down people in two weeks' time. It is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, formerly Secretary of the Treasury, and ex-Governor of Iowa; former United States Senator and Vice-Presidential nominee Charles A. Towne; General John L. Clem (Retired), the drummer boy of Shiloh, who was sergeant in the U. S. Army when only 13 years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington and others. Nuxated Iron is dispensed by all good druggists everywhere.

SAVE YOUR HAIR! A SMALL BOTTLE STOPS DANDRUFF

Every Bit of Dandruff Disappears and Hair Stops Coming Out

Try This! Your Hair Appears Glossy, Abundant, Wavy and Beautiful

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Trade before it was finally passed by the council and ratified by the legislature at Fredericton.

He felt that a delegation from the board of trade should interview the common council in the matter and ask for a delay before the measure was passed so that the matter of increased charges might have the full consideration of the board before further action was taken.

W. F. Hatheway spoke to the question of increased wharfage rates. He said that he did not think increased rates should be charged on outgoing freight, but it might be all right to increase the charges on inward bound freight. He explained that under present charges the St. John merchants were able to compete with St. Stephen for Grand Manan business and with Halifax merchants as far as Middleton, and he felt that if wharfage rates on outgoing freight were increased the St. John merchants would not have such an opportunity to take part in such competition in markets further removed from the city. He contended that a charge of three cents a barrel on flour was too high and said that a merchant might store a barrel of flour for a month in one of the regular warehouses and the warehouse owner look after it and handle it for the sum of three cents. He referred also to the market which the local wholesaler found in Albert county, which was strongly

Don't suffer! Instantly relieve sore, aching muscles and joints with "St. Jacobs' Liniment."

Rheumatism is "pain only." Not one case in fifty requires internal treatment. Stop drugging! Rub the misery right away! Apply soothing, penetrating "St. Jacobs' Liniment" directly upon the "tender spot" and relief comes instantly. "St. Jacobs' Liniment" conquers pain. It is harmless rheumatism liniment which never disappoints and can not burn the skin. "Linger up! Stop complaining!" Get a small trial bottle of "St. Jacobs' Liniment" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacobs' Liniment" is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

pushed by the Moncton wholesalers, and of the competition in certain parts of Cumberland county (N. S.) between St. John dealers and Amherst merchants.

Take It Up With Council. Senator Thorne said that while he did not think that the rates were all they should be, he was in favor of increased wharfage charges. He found himself in the dual position of being a wharf owner and a large shipper of goods. He felt that the board of trade might very well take it up with the city council and have certain revisions made. He praised Commissioner Bullock for his real in this matter and thought that it was time that changes be made.

J. Fraser Gregory pointed out from the standpoint of a lumberman that some of the charges fixed were really unfair in the matter of cubic space occupied, citing the rate on deals and the very high charges fixed for onion crates. It was finally moved, seconded and passed that President Wetmore name a committee to appear before the common council and make up a statement embodying the matter of the revision of the rates as proposed by Commissioner Bullock and adhered to by the council in committee.

PARDEE TO CABINET?

Ottawa, Nov. 4.—The Evening Citizen asserts that there will be a reconstruction of the cabinet soon and that Fred Pardee, M. P. for West Lambton, may be given a portfolio.

Ottawa, Nov. 4.—While the possibility of the summoning of parliament being either hastened or delayed if the end of the war comes soon is a matter of some speculation in political and official circles, a statement is made to the effect that the intentions of the government are based upon speculative surmises only. Up to the present time there has been no official intimation of any kind, and the government's course will of course depend upon the developments in Europe. In this connection it is pointed out until a treaty of peace is actually signed the measures and instruments enacted and created for the purposes of the prosecution of the war will remain effective. When it was assumed that the war would last at least until the spring months the expectation was that parliament would meet about the middle of January. It is considered improbable that any overseas happenings will cause it to be summoned earlier.

If they are along lines indicated by recent momentous developments it is probably more likely that the meeting of parliament may be somewhat delayed. An authoritative statement as to the government's intentions will undoubtedly be made when it is definitely known whether or not Germany will accept the armistice proposals now being framed at Versailles.

HUNS NOW HAVE MONSTER U-BOATS

Copenhagen, Nov. 3.—The Ribbe Stifts Tidende says it learns that German engineers have constructed submarines as iron clad cruisers. They are 340 feet long and of about 2,000 tons. The vessels carry eighty men in their crew and are armed with twenty-five torpedoes, two 15-centimetre guns with 2,000 shells and two 85-centimetre guns.

Many of the brave women who attend our wounded heroes in this war are women who have used Doctor Pierce's Favorite Prescription, or who recommend it. The hospital, with its work and long hours, imposes extreme hardship on a woman's strength. Every woman should make herself fit for war's call at home or abroad. She should obtain a book called the "Medical Adviser," either at her nearest drug store or by sending 50 one-cent stamps to Dr. Pierce, Courtwright St., Bridgeburg, Ont., for this book which tells about Nursing, Bandaging, Anatomy, Physiology, Marriage.

Thousands of women in Canada have overcome their sufferings, and have been cured of woman's ills, by Dr. Pierce's Favorite Prescription. Sold by druggists in liquid or tablet form. Send Dr. V. M. Pierce, Buffalo, N. Y., for trial pkg. *Chatham, Ont.*—"I am very glad indeed to add my recommendation to the many others that have found relief in 'Favorite Prescription.' After months of suffering I could not properly say my strength. I was very weak and nervous, and had a terrible cough. I was very miserable when I began taking it. I noticed a marked improvement before I had finished one bottle. I kept up its use and was completely cured of my cough and it built me up in a good healthy state. Favorite Prescription is one of the best tonics for women."—Mrs. Geo. Hill, 210 Wellington St. E.

KARS WINS FOUR CROWNS ON FLAG

The parish of Kars has the honor of being the first to win a flag and four crowns in all the province. This should be a message to stimulate the Victory Bond salesmen all over the province to redoubled efforts and to keep up the patriotic buying of every man, woman and child within its reach. To secure a flag and four crowns means that the community has subscribed its quota and 100 per cent. additional and this is the record of Kars.

The parishes of Dufferin and St. David's in Charlotte county received their honor flags yesterday, having reached their objective and are still going strong. Edmuntston yesterday also reached the head of its class and will henceforth fly an honor flag. No less than \$10,500 worth of bonds were sold yesterday at the Imperial theatre and at the meeting last night in King square. The meeting in the evening was attended by many and an excellent speech was delivered by Hon. W. E. Foster who pointed out to those present the great need, the demand, for the purchase of Victory Bonds at this time. W. J. S. Myles followed in a telling speech as did also Sergeant Weeks, a returned veteran of the great war. The salesmen did a rattling business and application forms were filled out as rapidly as the blanks could be written in. While the majority of the subscriptions were small they represented the feeling of the people.

AUSTRIAN CRUELTY TO ITALIANS

Robert Underwood Johnson, as one of the editors of the Century Magazine, was actively engaged in the work of the Italian War Relief Fund of America...

"On the day that Baron Burián's note reached suggesting a meeting for preliminary and non-binding peace discussions of war aims I received a pamphlet from our Italian representative, Nelson Gay, entitled 'Italian Prisoners of War and the Enemy's Barbarity'..."

"One of our (Italian) corporals named 'Anava', who had just had the leg amputated, held the stump against a cushion while he was being transported. An Austrian soldier amused himself by moving and carrying the cushion away, putting it back again, and again removing it, to enjoy the pleasure of laughing at the wounded man's spasms of agony..."

"An instance of the barbarity of the Austrian officers toward the Italian wounded is given in the following excerpt: 'Major Corporal Luigi Ballano, suffering from three wounds, was taken to the dressing station three days after his arrival in camp...'"

...ferring from three wounds, was taken to the dressing station three days after his arrival in camp. An army surgeon who spoke Italian, asked him where he came from. "From the district of Milan," answered the wounded man. "Tell me about the Italian positions," Ballano refused to answer this question and the surgeon fired his pistol at him, making a hole in the right side of his neck, saying, "That's how we treat your wounded!"

MAIL FOR SIBERIA

Post office officials are issuing instructions as to how letters, parcels and other mail matter for our soldiers in Siberia should be addressed, together with postal rates. It will be noted that the rates of postage are the same as for troops in England and France.

Following is the official communication: Correspondence, including parcels, for Canadian expeditionary forces in Siberia. Letters, parcels and other mail matter should be fully addressed, and the words "Canadian Expeditionary Forces in Siberia" should form part of the address.

It is necessary that all parcels should be carefully and securely packed, and it is recommended that an outer cover of linen, calico, or canvas should be securely sewn up. The address should be written in bold letters on the cover in ink or indelible pencil, and not on a label, whether tied by pasted on.

CANADIAN GENERAL WOUNDED

Brigadier-General Victor W. Odium, C. B., D. S. O., of Vancouver, who is reported to be wounded. He was formerly a newspaper man.

prince feels toward her people. On that last day in July, 1914, when resplendent in the full uniform of a high German officer he hurried to the front, he had laughed at his wife's fears. The war would be over in a few months, he was certain. The Kaiser said so. He would be home by Christmas.

"Well, we will be through by Christmas of 1915, anyhow," he said to a friend the next year, when reminded of his former prophecy. "Our unrestricted submarine warfare will bring England to her knees in three months."

But a year later he was not so buoyant. "I don't believe the damned thing will ever end," he is quoted as saying.

The present rumors about the princess are many, but vague. Some say that in her vain efforts the last two years to communicate with her people she has become despondent and is slowly dying, a victim of melancholia.

"The princess! How pale! She must be ill!" was the remark in passing. "Yes, ill at heart. Her husband is at the front. The boy must go at once. Against England. And she is accused of being a spy," was the whisper. The Unanswered Question.

U.S. RECOGNITION OF THE POLISH ARMY

Washington, Nov. 4.—The Polish army under the supreme political authority of the Polish national committee was recognized today by the United States government as an autonomous and co-belligerent force.

Secretary Lansing said the American government feels a deep sympathy for the Polish people and views with gratification the progress of the Polish cause. He also says it had not been unkind of the zeal and tenacity with which the Polish national committee which has headquarters at Paris, has prosecuted the task of marshaling its fellow countrymen in a supreme military effort to free Poland from its present oppressors.

Died of Starvation. Many a Belgian mother could have these words engraved on her child's gravestone—"Died of Starvation." Perhaps the child has wasted away with Consumption, or has been twisted into a mockery of happy childhood by Rickets, but starvation is at the root of the tragedy. What else can be expected for a growing child whose daily ration is the bowl of soup and two pieces of bread provided by the United States loans to the Belgian Government?

A Princess' Fate in Germany Is In Doubt

The Beautiful English Wife of Heinrich of Pless Was Called a Spy

Where is the "Fairy Princess" of Europe? Where is the beautiful Princess of Pless, who, with her wonderful gowns and jewels and a coronet worth a king's ransom, fitted from the court of Berlin to the court of St. James, a favorite of both Germans and English? So fairy-like was her beauty that the Germans, into whose royal family she married, called her the "fairy princess" and declared her the most beautiful woman in their country.

Where is the "fairy princess"? The question echoes through Europe. Strange rumors come from Berlin. For twenty years she lived happily with Prince Heinrich of Germany, to whom she was married when she was Daisy West, a seventeen-year-old English girl, whose beauty and charm the whole country was mad about. These were gay winters in Berlin, springs in England and Wales, and summers in the stately old German castle at Furstentum in Silesia, with house parties of American, English and German guests.

Belgian Army No Mean Force

Tattered Remnants of 1914 Are Well Equipped and Trained

Few Originals Left—Many Have Made Their Way Through Holland to Join New Army

In the Arlington, England, Northern Echo, William Riddsdale writes as follows: Four years ago this month I watched a weary, tattered remnant of a Belgian army, staggering from want of sleep and food, drag themselves westward to the banks of the Yser, and turn to fight again. They were a strange sight. No two uniforms seemed alike, and all were bizarre. They looked for all the world like a soiled crowd of supernas in some Puritanical comedy, who, by some incredible blunder, had become implicated in heavy tragedy.

And the full force of the tragedy came home to us in those days on the banks of the Yser. Our nerves were raw and sensitive to it all, for we had not grown those callouses which four years of war have induced. That strange-looking army had fought a losing battle for ten long weeks. They had simply tangled themselves in the coils of the great military machine that had come rumbling through their country. But east of the Yser there was still a strip of Belgium which remained—just a token of it left. And they had stood to keep it. There were British monitors off the coast and a few French territorial and Fusiliers Marins, but the battle of the Yser was a Belgians' battle, and as the last resort it was the Belgians' dykes—the work of their own hands—that finally held back the Germans from the Channel ports. Weeks after those small brown waves had stopped over the Yser's banks and caught the invaders about the knees, I saw the nozzles of field guns poking out of the flood, and grey, swollen bodies drifting slowly to the sea, or piled in machine heaps on the mudbanks.

Forty thousand Belgians, hungry, rain-sodden, dispirited, but determined, had saved the situation for us. Hardly half that number survived the sufferings of that first winter. In those days I took them up carloads of shirts and socks and muffers and distributed them in Hamscapelle and Pervyse. The Belgians were wearing simply the thin rags of the clothes in which they had come away from their homes during the hot days of August, and they waded up to their thighs in ice water with boots which were innocent of soles. It was a bitter winter, and typhoid took a heavy toll in that swamp. Yet in spite of their unbelievable hardships these Belgians held grimly to their muddy bit of Flanders in face of many fierce attacks. And every day of snow and rain there was one fall figure of a man, soaked but smiling, and very dirty, who waded about that front line, cheering and helping the men. It was King Albert.

A Different Army Now

It is a different army that King Albert leads now. Few of the old army remain. Out of occupied Belgium has trickled a steady stream of recruits bringing with them a fiery hatred of the invader born of bitter suffering. It is said that 90 per cent of those Belgians who have attempted to pass the frontier guards into Holland have paid for the adventure with their lives. It is with years of forced labor in the interior of Germany. To have passed through that ordeal is to have proved oneself a brave and resourceful man. But today the Belgian army have something else besides bravery and resource. There is no suggestion of Ruritanian about them now. They are newly and immaculately equipped. From their shrapnel helmets to their artillery everything is of the best. And they have been trained to the last ounce.

Those of us who have been in the line near the Belgians know their quality. Mine was a Lancashire battalion, and we boasted a football team that was something rather special. Some Belgian officers came over to arrange a game. Not wishing to appear discourteous, we agreed to play them, expecting a rather comic result. When the Belgians beat us 3 goals to 2 our Lancashire boys carried the victors shoulder high to the nearest estaminet. They know good men when they meet them, and the Belgians were ever afterwards "gradely lads, tha knows."

To look at them they are as different as cheese is to chalk from those Belgian soldiers of 1914. But they have one thing in common—an all-absorbing hatred of the Boche.

If our homes had been desolated, if Germany for four years had spread her beastliness over the land we call our own, if our relatives were the other side of the German line—then we might understand the spirit in which the Belgians are going forward. The Germans who face them are now paying the indemnity for which the Belgian army have long waited.

BUY-VICTORY BONDS—A LOAD OF WOOD.

(Ottawa Journal-Press.) Early in the present year the city council passed a by-law compelling vendors of wood to state in terms of cubic feet the quantity of wood they sold in a load. It has been brought to our attention that in the case of some wood dealers this by-law is not being observed. We are informed, upon very reliable authority, that some of these dealers are simply selling wood at so much per load, and that this load may range anywhere from a half to a fifth of a cord. It is charged also that some other dealers are using a cord measurement of only 92 feet, whereas as the city measurement for wood is 128 cubic feet. Of course, if a buyer knows that he is getting only 98 cubic feet, there is no wrong done, but if he buys in the belief that he is getting a full cord, a wrong is done.

The matter is one, we think, which the city authorities should investigate. This is not the time to permit profiteering in fuel.

Tyranny of The Rent Profiteer

(Maritime Merchant.) In reply to a questioner who thought there was a law in the United States prohibiting exorbitant rents, the Grocery World made this statement: "There is no 'war time prohibition of rent raising,' nor could there be any, at least more with any color of law. The owner of a piece of real estate, which is not on the same basis as one of the necessities of life, can set upon the use of it such price as he sees fit, whether it be exorbitant or not. There is no law against that or restricting it in any way. The government in order to stop, if possible, mean landlords from squeezing the tenants of small houses, has threatened to come down on rent profiteering, but it has not forbidden rent raising, nor has it any right to forbid it. It is difficult to see how it could prevent it, even if it amounted to the grossest profiteering. There is a law forbidding profiteering in food, there is none forbidding profiteering in rent."

MORNING WAR SUMMARY

New York, Nov. 4.—The Associated Press tonight issued the following: With Germany's allies vanquished and forced to accept terms for a cessation of hostilities against them tantamount to abject surrender, the die is now cast in front of the Hohensolem dynasty.

The inter-Allied conference sitting in Versailles has drawn up the terms under which Germany may have peace. And the indications are that these terms will be no less hard than those imposed upon Austria-Hungary, Bulgaria and Turkey. Forsaken by all her champions in arms, Germany, the power that hoped to be able to dominate the world by force, is at the threshold of acknowledging defeat by capitulation or continuing a struggle which means her ultimate utter defeat.

The terms accepted by Austria-Hungary, Bulgaria and Turkey have shorn all these states of power. These imposed upon Germany surely will be no less severe in rendering that country powerless to resume hostilities, even in the far distant future.

The Fighting. Meanwhile, pending the presentation of the dictum of the Allies, the German armies in Belgium and France are the only ones left of the Teutonic allied group which are under attack. And they are being sorely tried. In the Italian theatre the Austro-Hungarians, utterly crushed, having lost thousands of men killed and 300,000 taken prisoner, are standing bewildered before the victorious Italian, British, French, American and Czech-Slovak armies. Respite from further punishment was given them on Monday afternoon at 8 o'clock. Northern Italy again is Italian and Trent, Trieste and other places which the Italians always have claimed as their own are dominated by the Italians and fly the tri-color of the kingdom.

Almost all of the Adriatic coast line now is in the hands of the Italians and Albania is all but cleared of the defeated Austro-Hungarians. Likewise eastern Serbia is freed of the enemy, and a few days more doubtless will see the remainder of the stragling Austro-Hungarians making their way out of the western part of the kingdom across the Save river into their own territory. As for Bulgaria and Turkey, they no more are menacing.

Over a front of thirty miles in north-western France, Field Marshal Haig's armies have delivered a mighty blow against the Germans and torn into their positions over wide fronts, capturing important strategic points of the enemy line and taking more than 10,000 prisoners. Of particular value in the general plan of driving the Germans out of the invaded region was an advance of more than three miles across the Sambre Canal, which leaves Field Marshal Haig's men set upon good ground for a further dash eastward.

LIQUOR HIDDEN IN LOAVES OF BREAD

Toronto, Nov. 4.—The latest dodge to smuggle liquor into Toronto failed at the police barrier at the Union station. Wasyl Saparas, a foreigner, left the Montreal train carrying two grips and an air of confidence. The grips were tightly packed with bread loaves, which had been carefully hollowed out and the vacuum filled with bottles of alcohol. A fine of \$200 and costs or three months followed in the police court.

of the industry was the statement brought to the city yesterday by J. F. Calder, fishery inspector, of Campobello. A morning or two ago no fewer than 500 hogheads of excellent fish were taken and with the price set at \$25 a hoghead it will be seen that the fishermen there are now in very truth reaping the harvest of the sea. The month of October was almost phenomenal and if November pans out as well, and the outlook is that it will, the fishermen will have enjoyed the best season's catch in the history of the sardine business in the Bay of Fundy. There have been no very severe storms to damage the weirs in any way and altogether conditions have been most propitious.

Memories Cluster Round Names of General Allenby's Stories

The magnificent victories of the British under General Allenby in the East have timely interest to a war phy bulletin issued by the National Geographic Society. The bulletin is based on a communication to the society from William H. Hall, says here Turkey joins to Egypt is fine. No spot on earth in all the East bears such memories for so many such a variety of peoples as the mountain slopes, narrow valleys, half desert wastes of Judaea and Beersheba, Hebron, Bethlehem, Bethany, Jerusalem—the mere mention of these names tells the story of Abraham and David, of the prophets of Israel and of the Son of Man. Kings and priests and people come from the north and the south, from the East and the West, and bring the glory of nations to do homage to the stories that cluster about these sacred spots.

Syria was the one green spot of the Lebanon Mountains. In the past, because of massacres, the Europeans insisted that these mountains be autonomous. And since that date the little district has been a living monument of what good government means, and of what the people of the East are capable of becoming. The steep mountain sides have been reseeded to a height of 4,000 feet and are planted to olives, figs and vines. Taxes have been low, safety to person and property secured, good roads built and repaired. The people have connected more comfortable homes and sent their sons to school and colleges.

The story of the achievements of the nation and its sons during these sixty years of autonomy would be a thrilling narrative in itself. Now that autonomy has been taken away, the Lebanon is strait in famine. Practically the whole Turkish empire is of the same surface configuration high mountain ranges along the coast, with elevated plain and plateau in the interior. These inner plains are usually fertile, being constantly reseeded by soil washed from the surrounding mountains. Where rain is sufficient, where water can be obtained by irrigation, they produce fine crops of wheat, corn and other grains.

At ancient times the mountains were everywhere covered with forests. The forests of Lebanon not only furnished the material for the building of Solomon's temple in Jerusalem, but the kings of the Syrian coast to supply the needs of the cities of the Nile. This constant demand from foreign lands together with the lack of any system of irrigation, has practically denuded the mountains of the whole land.

**CANADA LIFE SUBSCRIBES SIX AND A QUARTER MILLIONS TO VICTORY BONDS**

Policyholders of the Canada Life Assurance Company have been indirectly helping the Victory Loan by paying premiums during the past year. Their payments have so increased the assets of the company that it is now possible for the management to subscribe six and a quarter million dollars for the present loan. Aside from the patriotic motive which inspires the company to make a contribution for what is really two per cent. of the total subscriptions asked of the people of Canada, this is a further proof (if any were needed) of exceptional value of Victory Bonds. A life insurance company must consider the security of an investment as of first importance, but in connection with Victory Bonds there is no possible doubt, and the rate of interest is two per cent. greater than the rate of 3 1/2 per cent. which the government requires life insurance companies to use in their calculation of reserves. This difference in interest, along with savings in expense and mortality, has a great bearing upon profits paid to policyholders.

**BIT OF HUN KULTUR**

Machine Gun Hidden Behind a Cross in French Cemetery.

From my dugout entrance I can see two crosses—crosses that hold out the promise of victory and peace to the Allies and that furnish a concrete example of German infamy. One cross stands behind our front lines, many feet above the ground, on what was once a tower of a massive cathedral. It is untouched by German fire. Around it all is ruin. The town is desolate, the cathedral itself stands a mass of ruin. That part of the tower that holds the cross aloft seems but a narrow neck protruding out of the horizon. Every day the Boche shells this town, and many missiles fall on the ruined shell of the cathedral. But the cross still stands untouched. As though some unseen hands guide the whistling shells from this emblem of the Christ, the cross is protected.

Every afternoon as the sun sinks down in the west this cross is silhouetted against the evening sky, a promise of victory and peace. The triumph of right over wrong. The other cross stands in No Man's Land. It is in the centre of a small village cemetery. It is the largest cross in the churchyard, and stands out prominently among the smaller headstones in the city of the dead.

For several months we have been losing men from machine-gun fire in this section. We have been unable to locate the gun that was playing such havoc on our lines. Our best patrols went out in an effort to discover this particular machine-gun emplacement. Our best snipers circled so near the ground in an effort to locate the gun that they were in danger of making a sudden landing in No Man's Land. But still the machine gun was undiscovered. Every night its pat-pat-pat-pat-pat would ring out, and often some one paid the price.

It was as though some phantom machine gunner was operating a phantom gun.

Then came the order to advance. Over the top we went, right on to the German lines. But still the phantom machine gun worked.

As we pressed closer and closer to the Boche lines we came into the cemetery. Then some one discovered the secret of the phantom gun.

The Boche had violated the sanctity of the tomb. With all his sacrilegious cunning he had placed his machine gun beneath the cross. His death machine

was placed within the very shadow of the holy cross. This is the story of the two crosses. One a silent sponsor of the Allied cause. The other a silent rebuke to "German Kultur."—Captain O. Q. Melton in Atlanta Constitution.

**CHILE AND PERU AT ODDS**

Buenos Aires, Nov. 4.—According to reports from Iquique, Chile, the Peruvian consulate there 4s under a heavy guard of Chilean troops to protect it from hostile manifestations by Chileans because of alleged efforts by the Peruvian consul to organize a popular demand for the return to Peru of the provinces of Tacna and Arica. It is reported from Santiago that the Chilean government will demand the recall of the Peruvian consul at Iquique. Press reports indicate that the Chilean

populace is greatly excited by the sudden renewal of the old boundary question between Chile and Peru. —BUY-VICTORY-BONDS— A WORD TO THE WISE Let us assume that like other patriotic Canadians, you intend to purchase 1918 Victory Bonds. You know it's good sense and good patriotism. You feel that what is necessary to Canada's prosperity,

is necessary to your own prosperity. You are not thinking merely of the present, but of five years or ten years hence. Well, here's something more for you to consider! Your subscription should not be guided or limited merely by what you have on hand now, but by your estimate of what you can save next month, and the month after and the months after that. Every dollar you arrange to divert weekly or monthly into Victory Bonds,

is a dollar saved. It becomes a money-getter for you, and keeps up the good work. It helps to assure your security for the future; and it helps you to share in Victory. It enables you to undertake your part in bearing the responsibilities of war and in facing the problems of peace. It is an anchor to the windward for you and for Canada. Think of these things when you lay your plans to Buy Victory Bonds.

**Specks Floating Before His Eyes**

When specks start to float before the eyes, when everything turns black for a few seconds and you feel as if you were going to faint, you may rest assured that your liver is not working properly. The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of a medicine that will clear away all the waste and poisonous matter from the system, and prevent as well as cure all the troubles arising from this accumulated mass which has collected in the system. Keep the bowels open by using Milburn's Laxa-Liver Pills and you will have no liver trouble of any kind. They will clear away all the waste and effete matter which has collected and make the liver active and working properly. Mr. John R. Morrison, Grand River Falls, N. S., writes: "Several months ago I was troubled with a sour stomach, and had specks floating before my eyes. I took five vials of Milburn's Laxa-Liver Pills which cured and cleaned my blood before any length of time. I told my friends about it and they got some, and they, too, find themselves different since they took them. I recommend your pills very highly." Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## YOUNG LADIES WILL AID IN THE FINAL DRIVE

### Five or Six Hundred Enlisted For Victory Loan

#### TRAVELERS IN THE RANKS

Total Last Night Was \$2,650,000 — I. H. Estabrook Takes \$100,000 — Alter the Per Capita Record — 20,000 Subscribers Wanted

That success will crown the efforts of the Victory Loan committee in this city is indicated by the fact that up to last night they had received subscriptions for \$2,650,000 worth of bonds. Reports from the various wards throughout the city today indicate that the canvassers are meeting with generous response and the total will be given a grand boost when the figures are compiled this evening.

The drive was given another impetus this morning when it was learned that T. H. Estabrook had subscribed \$100,000. This will add considerably to the day's results and is greatly encouraging the zealous and energetic committee, who are striving so hard to reach and if possible surpass their objective.

To Kings goes the honor of being the first of the city wards to reach the objective, but Queens ward is running a close second with a much higher objective to reach. The other wards are making a good showing and featuring their campaign in the keen rivalry among the various teams to surpass one another.

There is a battle royal between Lansdowne and Lorne wards, one day one being in the lead and the next the other. The committee wish to bring before the public the fact that a committee is stationed at the Imperial Theatre from ten a. m. until ten p. m. in order to accommodate any who are desirous of obtaining a bond and who have not as yet been reached by the canvassers.

Although the drive has been on for nearly ten days the grand attack has yet to come. On Saturday more than 200 commercial travelers will be put into action in addition to some five or six hundred young women members of the Y. W. P. A. Every person not wearing a button will be canvassed. A band concert will be given on King Square on Saturday afternoon and evening and booths and tents will be pitched at various parts of the city.

In order to reach the grand objective Stanley E. Elkin, chairman of the local committee, estimated that it will be necessary to receive 20,000 applications. Up to Monday night 4,600 applications had been received. The idea, he said, is to get the largest number of applications per capita in any city in Canada. He pointed out that the terms are so easy that there is no reason why the poorest family cannot get a bond.

The grand total for the province up to last night was \$5,200,000, with some reports incomplete. Westfield, in addition to having reached their quota, has surpassed it by twenty-five per cent. thus winning a crown. That every person who has procured a bond should become a canvasser is the desire of the central committee. They feel that if this is done victory cannot help but crown their efforts and every individual will be instrumental in achieving a signal honor for the city of St. John.

Results and Comparisons. A very interesting statement of the Victory Loan results of 1917 as compared to the first week's results this year was read to the central committee at the meeting held last evening and is herewith printed. The statement is worthy of careful examination as it will show the citizens of St. John just what may be expected of them for the remaining days of the drive.

## LOCAL NEWS

### WILLIAMS-ESTEY

At Upper Maugerville on Wednesday George Williams of Royal Road was united in marriage to Miss Margaret A. Estey, daughter of Mr. and Mrs. James Estey, of Upper Maugerville.

### OPERATION SUCCESSFUL

Friends and neighbors in Estevie will be glad to know that the condition of Alexander Donaldson of Manawagonish Road, who was operated on in the hospital yesterday, is entirely satisfactory and his rapid recovery is looked for.

### A FISH CASE

There was a further hearing in the police court this morning in the case of McCormack & Zetaman, charged by the fishery inspector, Mr. Brittain, with having bought and had in their possession fresh salmon after close season. McCormack gave evidence. The case was further postponed. George H. V. Belyea is appearing for the prosecution, and James L. Stoddart for the defendant. One man was before the magistrate on a charge of drunkenness. He was remanded.

### VICTORY BOND MEETING

The meeting in front of the Imperial Theatre, on King Square tonight, will be addressed by P. G. E. Knowlton, Rev. H. R. Boyer, S. Matthews and George R. Ellis; there will be vocal solos by Miss Blenda Thomson and George Harrington and a band solo by Gilbert Davidson; a splendid lot of moving pictures will be thrown on the screen by the Imperial Theatre operators, and the band of the Depot battalion will present an attractive musical programme. Every opportunity will be afforded for the purchase of Victory bonds.

### SPEEDING CARS CAUGHT

A number of automobile owners travelling on the Marsh road yesterday ran into the stretch of newly springled coal tar, used in giving a final surface to the highway and their cars were rather messed up as a result. Some of the automobiles paid a specially severe penalty for speeding in this regard as the liquid tar flew into the air off the rapidly revolving wheels and gave the cars a real good sounding, especially spoken, mudguards. Sprinkling roadways is common in the larger cities and it is always "up to" the driver to slow down or take the consequences. In this local case some of the drivers claimed that they thought the dark streak in the distance was merely water and they plunged into it pell-mell-sowie!

### SPORTSMEN ARE BEING GOOD

Game hunters are observing the restrictions on partridge this season with commendable rectitude. While there are many of the toothsome birds to be seen as gunners tramp through the woods, the general report of game wardens is that none are being shot. One district in the province where partridge hunting has been next thing to a chief industry in other years is devoid of the bird this fall; that is, none are to be had even on the so-called quiet. The conservation of partridges is one of the best things the government has done in game matters, a leading gun enthusiast told the Times; for these birds multiply fast and in few seasons when the ban is raised they will be plentiful again. This is another argument for old H. C. L. to ponder over, for with the ceding of the war and a readjustment of prices he would be forced to abdicate, too.

### BOMB. FINLEY WRITES OF THE BIG ADVANCE

Mrs. Robert J. Finley has received an interesting letter from her son, Bombardier Kenneth G. Finley, who is with a Canadian unit in France. He said that everything is going well and that the end of the war is in sight although they expected many a hard battle would have to be fought before it was over.

At the time of writing, he said, he and two companions were in a cellar and were preparing a feed before turning in for the night. He told of watching Douai burning and said it was a great sight. Douai, he explained, was to the left of their position and Cambrai to the right. The latter place, he said, they entered the day before he wrote the letter. He told about going up to the village in front of the Canadian gun position and had look at some of the houses. The tables, he said, looked as if the people had been preparing to eat when they opened fire and the Germans in leaving took the people along with them.

The writer is a son of Robert J. Finley, pressman of the Times-Star. A brother, Pte. William Finley, is at Bramshott, cooking for an officers mess, after having completed a course in a cooking school.

### enclosed names and check on the Bank of B. N. A. for War Bonds:

Mrs. Helen M. Freeman	\$ 100.00
Capt. Percy W. Freeman	100.00
Sophia McKay Freeman	50.00
Kay Freeman	50.00
Thora Freeman	50.00
Elizabeth Freeman	50.00

I think the above from one family is a record. Anyhow, I hope the Freeman family are not the only ones to go one hundred per cent. over the top.

### Big Subscriptions.

Montreal, Nov. 5.—Big subscriptions to the Victory Loan today were: Canadian Victors Limited, \$500,000; Locomotive Works Limited, \$500,000; Royal Institution for the Advancement of Learning, \$400,000; Commercial Union Assurance Company, Limited, \$250,000; North British and Mercantile Insurance Company, \$250,000; Nichols Chemical Company, Limited, \$200,000; J. N. Greenfields, \$100,000; Laurentide Power Company, \$100,000; Guarantee Company of North America, \$100,000; Hanson Brothers, \$100,000; John W. Peck and Company, \$100,000; E. W. Beatty, \$80,000.

With the town of Asbestos, in Richmond county, the latest to attain the first honor flag, these emblems are now being distributed rapidly throughout the province. Asbestos objective was set at \$25,000, and the town has raised \$68,000 to date, entitling it to six crowns on the honor flag. Other places which have attained the honor flag are Donnacona, Port Neuf county, with three crowns; Bebe, Stanstead county, with one crown; Kingsbury, Richmond county, with six crowns.

Quebec's total is now \$47,208,000. This includes Montreal.
