THE KING'S MASTER

BY MARTHA McCULLOCH-WILLIAMS

It was a bright May morning in the fields...

Blood and beauty shined through even his present plight...

Over the beige went the King, graced industriously a mass of muslin...

April came in with gusty rain dashes in between hours of translucent blue sky...

The first April Monday, and quarter court day, Maury had but himself to carry off to the country town in his land-lord's buggy...

The creek man yesterday. He grazed an hour in the valley, then across the boundary hills, his course due north...

"You mean the King—and you," he said. "I never thought he would run away from you," Maury smiled softly.

"I mean the King—and you," he said. "I never thought he would run away from you," Maury smiled softly.

EVERY DAY CLUB OUT-DOOR MEETING WAS A SUCCESS

A Singularly Thoughtful and Impressive Address By Rev. Dr. Hoben of Chicago, Heard By Vast Audience on the Club's Playgrounds.

The temperance mass meeting on the Every Day Club's playgrounds yesterday afternoon was a great success, and attracted many hundreds of people who sat in the grand stand or on the bleachers or stood about within hearing distance of the speaker's platform...

It is evident that hundreds more would have been present but for the weather, which all day threatened rain and almost led to the postponement of the meeting.

CONSIDERING some help to the best manhood and womanhood, Dr. Hoben said he was not concerned whether he were a Protestant or Catholic, Methodist, Presbyterian, or other denomination, since they were all brothers in Christ.

"It takes three to make religion," said Dr. Hoben—"You, your neighbor, and God. Faith, he continued, was a help-faith in God and faith in your fellow-man, believing that however low he may have fallen, there is still God's investment in him, and the possibility of manhood.

STAND TOGETHER

If the Liberals of St. John county permitted themselves to be guided by false counsel, and by their apathy allowed Mr. Mosher to defeat Mr. Bentley, what would happen?

In the first place, a Conservative government already strong enough would be encouraged to pursue the partisan policy which has already discriminated against Liberals all over the province.

In the first place, a Conservative government already strong enough would be encouraged to pursue the partisan policy which has already discriminated against Liberals all over the province.

Nothing has happened to make Mr. Hazen and his party more worthy of Liberal support than they were at the time of the federal elections.

The Liberals of St. John county should be as much in earnest in this contest as are the Conservatives.

Strengthen the Opposition Why has the provincial government hastily advanced \$500 to each parish in St. John county to be spent under the direction of Conservative partisans upon the county roads?

Because there is a by-election in progress. If there were no by-election there would be no \$500, and the roads, growing worse all the time, would have to wait for the operation of the Hazen highway act.

The people of St. John county will judge the government by the treatment given them before political necessity sent Mr. Hazen and his string of orators post haste into the parishes to plead for votes.

The Hazen government, on its merits, does not deserve support. It has not reduced, but increased the provincial expenditure.

The Standard unflinchingly asserts that opposition press and speakers cannot and do not try to defend their party and cause against the charges made by Mr. Hazen and others. The defence is simple. The charges are not true.

On Chubb's corner on Saturday, Auctioneer F. L. Potts disposed of the steamer Springfield, as she now lies at Hatfield's Point. Ald. John McFolrick bought her for \$80. The same attendant on reaching her in her present position was said to be responsible for the low price.

pledge to have public work done by tender has been violated. In view of its record, therefore, the government does not deserve support. It should not be strengthened by the election of a supporter from St. John county.

ST. MARTINS The speech delivered by Hon. C. W. Robinson at St. Martins on Saturday evening must have convinced his hearers, as it will convince all fair-minded electors, that the Hazen government has violated the pledges made while in opposition.

ELEMENTS IN RELIGION There must be three to make religion," said Rev. Dr. Hoban at the Every Day Club on door meeting yesterday.

MR. HAZEN THE MARTYR Mr. Mosher says that Mr. Hazen is giving the best of his life for the country. Mr. Hazen himself says that sometimes public men who give their lives to the service of others grow sick and tired because no credit is given and no gratitude is shown.

EXCELSIOR

The shades of night were falling fast. When home the lamp-shade came at last. Which I had bought that very day in town, packed in a sort of bag. Excelsior.

My brow was sad when I beheld To what a size the shade had swelled. For surely, if it were not such, They'd never, never need so much. Excelsior.

I bore the baggage to my room, For how could I foresee my doom? I pushed the desk and table back And slowly started to unpack. Excelsior.

I burrowed deep and downward dug. Until I'd covered all my rug. I spread it then upon the floor. But still I pulled out more and more. Excelsior.

'Tis not to be," I said at last, "That in my haste the shade I've passed. But though the lamp-shade I may hide, I know I never ordered this. Excelsior.

Then it began to fill the air, The desk, the table—everywhere. It reached the ceiling, blocked the door, And yet there still remained some more. Excelsior.

Next morning, I, of course, was waked, And with the shade I clasped my head. With hay below and hay above, They found me in a mountain of. Excelsior.

THE TIMES

TROOPS ARE RUSHED TO INVERNESS MINE

Strikers Attack Miners and a Request for Military Aid is Sent to the Halifax Garrison Commander and Promptly Acceded to.

Inverness, C. B., July 11.—(Special)—This town has asked for military assistance in preserving the peace, and the request has been complied with. A special train with 107 officers and men, which left Halifax at 6 o'clock this morning, arrived here late this afternoon. The troops are sent on a requisition signed by Mayor D. H. McLeod and two justices of the peace, Malcolm Campbell and D. A. Smith. A telegram was sent last midnight to Colonel Humphrey, D. O. C., at Halifax, asking for 100 soldiers to preserve order and to prevent the possibility of disturbances that were feared on Monday. The request was that troops be sent by Sunday night, and they were forwarded on a special train. There are 60 miners in Inverness employed by the Inverness colliery, and of that number Mayor McLeod says 324 were at work yesterday. The mine is owned by MacKenzie & Mann. Stones were thrown at the miners as they came out of the pit yesterday afternoon from persons in a mob of 200 or 300 strikers and strike sympathizers. On Saturday work stopped in the mines at 2 o'clock in the afternoon, and at that hour the men began coming out. They were met by a crowd which soon assumed the dimensions and character of a mob. Leaders in this disorder were Belgians, of whom there are about 150 employed in the Inverness mines. The crowd jeered at the workmen who were wending their ways homeward. Not content with this, sticks and stones began to fly. Women in the mob were the fiercest. It was a Belgian woman who threw the only stone that, so far as is known, took effect. The stone struck Douglas McPherson, inflicting an ugly wound. It was shortly after this that the company's officials visited on Mayor McLeod and asked that he make out a requisition for military protection. They stated that they did this not only on account of what had happened but in order to prevent further trouble which was threatened, and which they expected to occur on Monday. The officials asserted that the Belgians had been making ominous threats as to what they would do on Monday if the P. W. A. men and those loyal to the company dared not go to work. They showed their danger not only by the stone throwing but by a Belgian interfering with the work of a night engineer as he was on his way to the mine, a party of four Belgians intercepting him and trying to prevent him going to work. One of these men drew a revolver and things looked pretty serious for the engineer. He managed to get away, however, and the weapon was not discharged. It showed what might happen if the Belgians should

communicated with the Intercolonial Railway authorities to get ready a special train and be sent out marching orders for the soldiers. The 100 men were detailed from the Royal Canadian Regiment and the detachment sent away included a number of men who had just returned from the military camp at Petawawa. The train was ready at 4 o'clock this morning and consisted of two colonel sleepers, one first class coach and one baggage car. The troops were sent on board with 100 rounds of ammunition and rations for twenty-four hours and the train was on its way at 6 o'clock. The contingent is under command of Colonel Paul Weatherbe, and the officers with it are Captain Lister, R. C. R., Lieutenants Roscoe and Griffiths, R. C. R., Major J. S. Ross of the permanent army medical corps and Lieut. Oliver of the army service corps.

TWO BRIDGES SET ON FIRE

Canadian Northern Bridges Fired by Some Unknown Persons—Suspect Arrested.

Montreal, July 11.—It is suspected that the Canadian Northern has been suffering from the attentions of an incendiary. A tramp who has burnt two bridges, one at Burrill, near Shawinigan Falls, and the other at St. Paulin, on the Riviere du Loup branch. The first fire was discovered before it had gone far, on Thursday night, and a repair gang sent out. While they were at work, however, a big bridge at St. Paulin, 90 feet high and with many spans, was reported on fire, and before it could be extinguished eleven spans were partly destroyed. A special train was sent from Montreal with a gang of men, who have worked all night and day repairing the damage. Owing to the damage to the bridge, a special train had to secure the line to the north. The work was done very rapidly, and it is reported that the line will be open tomorrow morning. Detectives were sent out to chase the supposed incendiary. They got on the track of a tramp who had been seen hanging around the St. Paulin bridge, and rounded him up today at St. Ursule Falls. He was taken back to St. Paulin, to see if the bridge tender could identify him. But it is not yet known whether he is the right man. The detectives are still working on the hunt, and the Canadian Northern has offered \$500 for the apprehension of the incendiary.

Fashion Notes

In Paris one of the latest hats is of semioleche wreathed in roses and of old blue in many subtle tints. The ostrich feather is not favored as much this summer as the egret, while the formal wreath is the highest in favor. The rose color is much in favor, next to blue. The rose comes in a brownish-pink color, more especially in cashmere. HER OWN AFFAIR Old Rooster—What do you think you are going to hatch out of that door knob and that piece of brick? STRIKERS PLACES ARE BEING FILLED BY THE COAL COMPANY

Miners Arrive for Work from Newfoundland and Other Places—One Hundred British Miners on the Scene—Output of the Mines Increased—P. W. A. Protests Against Withdrawal of Troops.

Glouce Bay, N. S., July 11.—The first encounter between the soldiers and citizens took place last night at No. 3 colliery. According to the statement made by the company officials, a workman, who was entering the gate after dark, was challenged by the sentry. He did not halt when requested and the soldier raised his rifle, the point of the bayonet entering the workman's breast. The man's comrades ran away and left him lying on the ground. His wound was attended to by the soldier. He was not seriously hurt. The incident goes to show the care which should be exercised by the workmen who do not seem to realize that orders with the soldier mean what they are intended to mean. Anybody who dares to do a man's work for a man's pay or less than a man's pay are wanted now by the coal company. On them depends the issue of the great fight. To get human beings into the collieries is the one aim of the Dominion Coal Company. To keep men out of the collieries is the object of the U. M. W. of America. Today was a truce day. Hostilities were suspended. Some people went to church. Some were kept away by a feeling that they had outraged propriety and were in danger of criticism from the pulpit. More than one fearless preacher was outspoken in his denunciation of the condition of the men and of the women who had by their unmanly and unwomanly conduct brought discredit on a community jealous in the past, as now of its reputation. At the camp on the Black Diamond Trotting Park, service was conducted this afternoon by Rev. Mr. Peaver. The soldiers at the point, about 250 in number, were formed up in three sides of a square, and the service, an abbreviated Anglican church service, was hearty. General Drury and his staff were among those present at the opening air meeting. Tomorrow will witness an influx and an exodus of workmen. The coal company is bound to fill the places of the deserters from its ranks to the ranks of the United Mine Workers and will do so by bringing men from Newfoundland and other places. It is reported that a large number are now due at North Sydney from Newfoundland and last night the U. M. W. sent a committee to meet them on their arrival, with the intention of persuading them to return without accepting employment with the company. Asked by the correspondent of The Telegraph if outside labor would be employed,

General Manager Duggan said: "It is our intention, if possible, to work every colliery, and every man who seeks work will get it. It will be a case of first come first served. The best positions will be given to the early comers." "There is a report, Mr. Duggan, that you intend importing men from the old country, the United States and the continent. Will you confirm this?" "I am not saying what I will do in regard to importing men, but I will tell you that the contract for building 150 miles of the Transcontinental railroad, arrived from Moncton. His company is now engaged in building the fifty miles of road between Moncton and Chipman. The mission nail at No. 2, which this afternoon echoed with songs of praise to the Prince of Peace, will tomorrow reach to the trend of martial men. It will be the military headquarters for the Royal Canadian Regiment. This is but one of the many metamorphoses which are daily taking place. From latest information the soldiers are to stay for a month at least, if the information to your correspondent by a military man today is correct. The mayor of Glouce Bay has bowed to the inevitable, and has telegraphed and written to Ottawa offering his fullest co-operation with the troops. The coal output yesterday was a little better than Friday, according to the coal company. In conversation with a non-union weigher, your correspondent was told that the figures of the company are to be relied upon, and the impression is gained ground that the coal company is holding its own in regard to output. The company claims that it will increase its output from day to day and the U. M. W. men will have to hustle to keep the company from making good its declaration. Coal shipments having been carrying on as usual, only with less rapidity. Since yesterday, four steamers bringing 14,000 tons have been loaded. Schooners have taken about 4,000 tons, and altogether, by rail and otherwise 13,000 tons of coal have left Cape Breton since the strike began. That the Dominion Coal Company has not been taken wholly off its guard as regards securing men to take the place of the U. M. W. workmen is shown by the fact that today about 100 men reach

Oak Hall's Annual Mid-Summer Sale of Men's and Boys' Clothing and Furnishings Begins Thursday, July 15th--Values Even Greater Than Last Year

In a business so large as this, immense stocks must be carried in every line throughout the active season in order to be sure of having full assortments of kinds, styles and sizes when they are most wanted. This necessity makes it inevitable that overstocks will appear as the end of the season approaches. The old-time system would say "carry them over." But in a great establishment like this, where modern methods of merchandising prevail, there is but one thing to do; close out the overstocks and clear the decks for another season! That is the reason for our great mid-summer sale. We shall clear our stocks in July instead of August. You shall have our overstocks of summer goods now when you need them. Every man, young man and boy can be fitted and every taste pleased.

LATE LOCALS

The dredge Fielding, while dredging in the channel brought up several pieces of an old wreck, which are thought to be part of a brig lost there some sixty years ago.

Mrs. Joseph K. Watson, of 184 Waterloo street, found the pocketbook which was lost in the depot on Friday by a woman bound from Boston to Sprignhill, and has handed it to the police.

Patrolman McNamee's services were requisitioned on Saturday evening to cool the ardor of Charles O'Dell and his wife, who were engaged in a duel of words and household utensils.

The annual associational gathering of the United Baptist churches of New Brunswick will be held in Gibson on Tuesday, Wednesday and Thursday of this week. Among the matters to be discussed will be the question of a return to the system of a maritime board for carrying on home mission work.

Several months ago, at the instigation of an elderly man, named Lyons, a warrant was sworn out for William Connell, a north end man who assaulted Lyons. The latter's eyes were completely closed and his face was otherwise severely beaten. Connell succeeded in evading the policemen and departed from the city, but returned recently. This morning Lyons expressed his eagerness to the police clerk to withdraw the information, but was informed that such course was not possible.

A young woman in seeking the assistance of Detective Killen in locating a watch that she believes was stolen from her on Friday by another of her sex. Under the impression that a suspicion was only requisite to obtain a warrant for the arrest of the suspect, she visited the police court with the object. However, she was informed that it was imperative to swear that it was her positive belief that the party to be arrested was guilty of the theft. She was therefore advised to solicit the intervention of the detective.

On Saturday afternoon the employees of F. A. Dykeman & Co., numbering about thirty, were invited to spend the half holiday at the home of Mr. Dykeman at Renforth. The greater number availed themselves of the invitation and went to Renforth on the 11:15 train. Immediately on arrival, dinner was served on the lawn and the party embarked on the motor boat "Ogatooh" for a trip around Long Island. The party landed on one of the fine beaches of this island where an hour was most enjoyably spent. After an enjoyable supper and a trip to Drury Cove in the "Ogatooh," the employees returned to the city on the 9:15 train, but before doing so they expressed their appreciation of the day's outing at the firm's expense by a vote of thanks and three cheers for Mrs. and Mr. Dykeman.

SUBSTITUTE FOR BUTTER

Standard Oil Company is Now Manufacturing "Petrol Butter" for Chicago.

Chicago, July 12.—A special from Alton, Ill., to the Record-Herald says: The first roll of petroleum butter, the Standard Oil's latest product is to be turned out at the Wood River refinery near here. Preparations are being made to manufacture the product here and the machinery has been shipped.

The new product will be known as "Petrol Butter." It is said to be of the same consistency as lard butter, but known in color. It lasts a great deal longer than lard butter, it is said, and does not become rancid.

YOUTH OF EIGHTEEN GETS LIQUOR SUNDAY

Magistrate Makes Strong Statement—William Thompson's Mistake—A West End Affair

William Thompson erred when he chose to drown his sorrows in alcoholic beverages. His fall, a false sense of security into his system this morning previous to materializing at the police court, Thompson was taken into custody on Saturday morning and a deposit of \$8 was accepted for his appearance in court today.

When his name was pronounced by the clerk, Thompson strode forward in a zig-zag course. Sergeant Baxter testified, despite frequent interruptions from Thompson that Thompson was ejected from one Water street saloon and was approaching another when Baxter accosted him and suggested that his disappearance was advisable. The injunction fell on unresponsive ears, however, as Thompson attempted to enter the saloon but was rebuffed by the bartender. He was unsuccessful in obtaining entry to two other saloons on Water street and in consequence of his persistence in defying the sergeant he was locked up.

"What's the use of talking," said Thompson to the magistrate, "I can buy barrels of booze on Water street." He alluded to the police clerk's statement this morning that he was intoxicated in court as a "landrover lie." As he was not the owner of the deposit it was concluded to remand Thompson to jail until he regains his normal self.

Fred Gidney, an eighteen year old boy, admitted the charge of drunkenness yesterday on Union street, but pleaded not guilty of profanity. Patrolman Steeves in his testimony stated that he caught Gidney with three companions on Charlotte street on Sunday evening. Gidney was evidently very drunk, as he staggered constantly and fell repeatedly. He cursed at two men in a vehicle and at a number of passersby. On noticing the policeman the quartette repaired to Union street and lingered at the corner of Waterloo street. Gidney indulged in more profanity and with an accompanying oath declared: "Who cares for the cops" when Steeves approached. After being confined in a cell Gidney refused to disclose the names of the party who sold or presented him with liquor.

Judge Ritchie in commenting upon this Sunday episode on a principal avenue of the city, deplored the non-prosecution of the persons from whom Gidney obtained the intoxicant. He intimated that the fines for distribution of liquor to minors with the offence aggravated by its occurrence on Sunday ranged from \$100 to \$500 if the guilty one held a liquor license it was probable that the license would be cancelled and this was the proper punishment. Gidney was remanded until tomorrow morning.

William Howe, of the west side, who was reported for being one of a disorderly throng at the corner of Watson and Rodney streets in west end on Friday night pleaded not guilty. George Belyea, witness stated that Howe was one of twenty men frequenting the junction of the streets at eleven o'clock and refused to disperse until requested. In a verbal quarrel with George Durant whose leg was injured on the ferry floats on Saturday Belyea claimed that Howe swore frequently and was a source of annoyance to his wife who is ill.

Howe, who asserts that he is the victim of discrimination, as Belyea's son was also in the crowd, was remanded pending his ability to obtain witnesses.

Joseph King, a Sunday inebriate, who claimed to have purchased an extra supply of fireworks on Saturday when interrogated as to whether he secured it on Sunday was fined \$8.

EVELYN THAW WILL APPEAR

Says She Will Stick by Harry Till the Last—Enquiry is on Today.

New York, July 12.—Evelyn Nesbit Thaw is expected to be a witness for her husband, Harry K. Thaw, at the inquiry into his present mental condition, resumed before Justice Mills in the supreme court at White Plains today.

Although she had intended starting on a vacation to Maine today, she informed representatives of Thaw's attorneys that she would gladly postpone her trip to testify for her husband.

"I will stick by him as a wife should stick by her husband," she said today, "and as I always have stuck by him. It is my duty and I shall not shirk it now."

AGED COUPLE WERE BURNED TO DEATH

New York, July 12.—An aged couple who lived on the outskirts of the village of Palchogue, L. I., supported on a weekly allowance from a son in New York, were burned to death in their beds early yesterday. The police are disposed to believe that the old people were victims of a robber and incendiary, but neighbors think that a lamp which Mr. and Mrs. Gerraty kept burning in their bedroom all night, may have started the fire.
