CHICAGO METHODS FEARED AT WINNIPEG PACKING HOUSE

Matter Brought Up in Canadian Senate by Member Who Asked Government if They Were Aware That Americans Have Bought a Large Plant There--Cartwright Said That All Precautions Will Be Taken to Guard Purity of Canned Goods in the Dominion.

(Special to The Telegraph.) Ottawa, June 7--Senator Bernier, in the senate this afternoon, called attention to a report that one of the largest packing houses of Winnipeg had been bought by an American corporation. He called attention to the unsanitary methods of American packers, recently disclosed in Montreal and in Winnipeg health officials had recently declared that there was practically no inspection in Canada of slaughtering or meat packing. There should be such inspection.

packing methods, and the government was prepared to deal with the question of meat inspection. He thought it would be rather a case of enforcing the existing laws and regulations than of making additions to them. He did not know how much power was left to the federal authorities, or how much was assigned to the municipalities and provinces in the matter of inspection. However, he believed there was an opportunity for useful interference.

Albany, N. Y., June 7--Removal of Wm. While nothing definite can be learned here as to the nature of the charges made by Mr. Amory, it is assumed that the complaint is the one which was threatened by him before a legislative committee last winter, and is based upon the charges he then made against Mr. Jerome of negligence in failing to prosecute persons implicated by Mr. Amory in his allegations against certain Metropolitan traction interests.

Gaston Hervey, Walter Wellman, A. Luwertal, Major Henry B. Hersey.

Paris, June 5--A private view was given Monday of Walter Wellman's dirigible balloon, the America, which is to be used in his polar expedition. It was demonstrated that both motors and the envelope are nearing completion. Owing to its great dimensions it is impossible to inflate the airship in Paris on account of the lack of sufficiently capacious sheds. Everything about the airship appears to have been fitted to withstand heavy use. The crew will consist of five men--Walter Wellman, Major Henry B. Hersey, M. Gaston Hervey, an aeronaut; T. J. Smith, a wireless telegraph expert, and M. Paul Colardeau, an engineer. The arrangements for housing the crew are limited, only two men will be able to sleep at the same time. Mr. Wellman hopes to be able to leave Paris for Norway about June 10.

Boston, June 7--Charles Louis Tucker, of Aburrdala, convicted of the murder of Mabel Page at Weston in 1904, will be electrocuted in the state prison at Charlestown during the week beginning June 10. Governor Curtis Guild announced at a late hour tonight that he had decided to commute the sentence to one of life imprisonment. In the statement, which is addressed "To the petitioners for the commutation of the sentence of Charles L. Tucker," Governor Guild says: "I have given to your petition and to the case of Charles L. Tucker the most careful consideration. I have read all the evidence presented in the lower court and the official stenographic report (2,686 pages) of the proceedings in the superior court, together with various affidavits and reports submitted to me. I have given a lengthy hearing to the counsel for the prisoner and to all witnesses as to the facts whom they chose to summon, even when the testimony offered was such as could not be heard in a court of justice, recognizing that the governor, on a plea of clemency, is not bound by technical laws of evidence."

The framing of the prize list and of the regulations for the ensuing Major and O. W. Wemyer, in 1897--that is, should be the property of the marksman winning it two years in succession. PATERSON, N. J., "RED," SENT TO KILL VICTOR EMMANUEL, CAUGHT

London, June 6--According to a despatch from Vienna printed in the Daily Telegraph, this morning, the Italian police learned that Italian anarchist living at Paterson (N. J.) decided upon an attempt on the life of King Victor Emmanuel of Italy at the opening of the Milan exposition, and dispatched one of their number to make the attempt. This anarchist, the correspondent relates, was followed through England, France and Switzerland, and arrested the moment he set foot on Italian soil at Como; but the whole affair was kept secret from the public. It further appears, the despatch says, that all the European governments were informed that Paterson anarchists had plotted the assassinations of three sovereigns. It was this that led to the discovery of bombs at Ancona, and of a plot against King Victor Emmanuel.

General Assembly Passes Resolution Urging Parliament to Make Sunday a Day of Rest for All Classes--Sharp Discussion About Reducing Number of Presbyterian Colleges. (Special to The Telegraph.) London, Ont., June 7--The general assembly made a good start today. Dr. McMullen, of Woodstock (Ont.), found the first place after the devotional exercises for his resolution on the Lord's Day Act. The mover is a brother of Senator McMullen and one of the ablest of ministerial church lawyers. His motion assented the form of a strong protest against changes in the bill now before parliament upon its third reading due to representations by the Jews and Seventh Day Adventists. He repudiated the charge that the act was arbitrary and would necessarily offend the consciences of its opponents. It was admitted that a hardship might result to those who rested on Saturday, but the mover claimed that it should go out among the masses whose people desire to enter our land that we have laws and if they did not like them there was the utmost freedom in remaining away. Hon. John Charlton seconded the motion, expressing gratitude that after ten years in which he had personally endeavored to get a dominion rest day law upon the statute books, it seemed to succeed at last. A Plea for the Jews. At this point Rev. J. J. McCaskill, of Fort Kent (Me.), claimed that the amendments desired by the Jews were only fair as matters of conscience. He assured the assembly that the dangers threatening the rest day were not from the small communities appealing for liberty of conscience but they came from Christians themselves in the neglect and perversion of their duties to worship. Rev. D. McDermid, of Moncton, wished to have the protest in such terms that no individual distinction of Jews and Chris-

ever wavered in his statement that they might have been made by a knife of the exact measurements of that which Tucker had tried to destroy, but which was found in fragments before he had time to dispose of them, in the side pocket of his coat, in company with a stick pin, sworn to have belonged to his victim. Men do not habitually carry stick pins loose in the side pockets of their coats. If this were one of the various pins that really did belong to Tucker, it is extraordinary that it should have been found in such an unusual place in company with fragments of a knife which he confessed he was trying to destroy, because they might be used to incriminate him. Refers to Stick-pin. "Why, regardless of ownership, was he trying to hide that pin?" "Every decision handed down by every judicial authority to whom disputed questions of law have been referred, have affirmed the correctness of the rulings in this case. Not only did every member of that jury, to whom the original evidence, ungarbled and undistorted, was presented, find the prisoner guilty, but the judge who pronounced sentence upon him, after every possible appeal to the judiciary had been exhausted, declared the verdict of murder in the first degree 'proper, lawful and just.' He even added: 'It is hard to imagine a more wanton, wicked and causeless murder than this of a virtuous and blameless woman.'"

ROSS RIFLE TO BE PERMITTED AT MATCHES

Council Held Important Meeting--New Brunswick Team for Maritime Match at Bedford Selected. Thursday evening the Council of the Provincial Rifle Association met at the Grand Fusiliers' headquarters, Captain S. B. Anderson, of Moncton, in the chair. The question of the Ross rifle was considered and it was agreed that the rifle should be permitted in all matches at the next annual meet. The matches of the association were fixed for Aug. 14 and the programme for those matches was referred to a special committee to arrange.

After referring to the power of the governor in his exercise of the functions of pardon and commutation, and after reviewing at length the various legal steps that have been taken, the governor says: "I have personally examined the neighborhood of the murder and have on foot passed, with time-tests, over the roads and ways about the Page house in Weston, and at about the hour of the day when the murder was committed. I have examined all the various exhibits in the case, and have myself fitted the blade of the knife of Charles L. Tucker into the slit in the blood-stained corset of Mabel Page." "After carefully considering the testimony to which we listened yesterday, we respectfully report as follows: "A large part of this evidence was the mere hearsay and could not have been considered in court. Much of this and of the other evidence was only conjectural. The comparatively small portion that could have any legitimate bearing was cumulative and not of a character that warranted any confidence or that seemed to us to command attention or to warrant any expression of opinion if produced at the trial, it properly could have brought about a different result from that which was reached. We cannot find that there now would be any material change in the testimony of the medical experts. We heard nothing to meet the strong evidence of guilt which was offered at the trial. "Accordingly, if this were a question of setting aside the verdict of the jury, we should be unable to do so. "This important report commands serious consideration. "The attempt at the hearing before me to offer a literary parody as evidence against the law officers of the commonwealth but emphasizes their fairness, fair and intelligent services. No medical authority, who actually himself saw the wounds on the body of Mabel Page, has

Tucker, convicted in 1903 of the murder of Mabel Page, should be executed next week or die a natural death as a life prisoner...

Says Wound Was Impossible With Knife. In his letter to Mr. Parker, dated Jan. 19, 1905, the day the trial began, Dr. Harris states that as the result of a conference with Dr. Draper (he was of the opinion that the wound described by Dr. Meade (who performed the autopsy after the murder) could not have been made by "that knife."

P. E. ISLAND WINTER SERVICE UP IN HOUSE

Conservative and Liberal Members Differ About It—Vote of \$375,000 for Ice Breakers.

Ottawa, June 6.—The house discussed the marine and fisheries estimates tonight and made far progress. Several questions were put about the Prince Edward Island service and the tunnel scheme. On a vote of \$375,000 for ice breakers, including the Arctic, the three Conservative members maintained that the present winter service was not satisfactory.

Mr. Hughes thought the steamers should run to Blue Lake or Cape George, where the water was deep instead of to Pictou, which had a bar across the harbor mouth on which the ice grounded so that a breaker could not penetrate it.

TWO WILLS LEFT BY COUNTESS de BURY. Second One Said to Make No Provision for Some of Family.

FIRST HAS BEEN FILED FOR PROBATE. Second to Be Produced in Court in a Day or Two-What the Later Instrument is Alleged to Provide.

A will of the late Countess de Bury, dated April 18, 1881, with a codicil dated July 16, 1884, has been filed with A. J. Trieman, agent of probates.

Under the will of 1881 the late Countess de Bury, who died in 1884, left her real and personal estate to her husband, Count Robert Visart de Bury, who was appointed executor for his life.

It is reported that in the will executed in 1882, which has not yet been filed, the testatrix appointed her sister, Miss Irene M. Simonds, and G. J. Coster trustees and of the twelve children of the marriage six only appear as beneficiaries.

Mr. Coster, when asked about the matter last evening, said the second will, which was in his possession, would be filed in the course of a day or two.

It will not be known until the second will is filed if its provisions will be contested, but it is rumored that certain members of the family may raise the question of undue influence.

The estate consists for the most part of property in the North End, and is said to be valued at about \$100,000, with mortgages in the vicinity of \$29,000.
