At the **TWENTY-SECOND ANNUAL MEETING** of the **MISSIONARY SOCIETY** of the **W. M. CHURCH IN CANADA**, held in the **Adelaide Street Church**, on **Monday Evening**, the **21st day of June, 1847**, **Rev. ROBERT ALDER, D.D.**, in the **Chair** :—the Meeting having been opened with **Singing and Prayer** by the **Rev. J. CARROLL**, and the abstract of the Report having been read by the **Rev. ANSON GREEN**, the following **Resolutions** were unanimously adopted :—

I. Moved by the Rev. ASAHEL HURLBURT, seconded by the **Rev. R. BROOKING**,—

That the Report, the abstract of which has been read, be adopted, and printed under the direction of the Committee.

II. Moved by the Rev. MATTHEW RICHEY, D.D., seconded by the **Rev. W. CASE**, supported by the **Rev. JOHN SUNDAY**,—

That, in view of the state of the perishing millions of our race, in deference to the imperative directions of the Word of God, and encouraged by the success which has, by the Divine blessing, crowned Wesleyan Missions in all parts of the world, we solemnly pledge ourselves individually and collectively to continued and increased exertions in the great and godlike work of evangelizing the whole family of man.

III. Moved by the Rev. PETER JONES, seconded by the **Rev. EGERTON RYERSON, D. D.**,—

That the following persons constitute the Standing Board of the Missionary Society for the ensuing year :—[See preceding page.]

REPORT.

“Go ye forth and teach all nations” may be regarded as the last injunction to his Church of an expiring Redeemer—a command designed to be of perpetual obligation upon all who should bear his name until the Heaven-appointed chorus exultingly sings: “The kingdoms of this world have become the kingdoms of our Lord and of his Christ.”

To that period, since the first issue of the Divine mandate, the good of all ages have looked forward; and to accelerate it their efforts have been put forth. But it must be confessed these efforts correspond not with the mighty work to be achieved; and that the world is yet to witness the first exhibition of zeal and energy of Christendom, commensurate with the end in view, and worthy of the millions who profess to be the obedient and faithful followers of the Saviour of our race.

Confessedly deficient as the Church of the living God still is in labours, in faith, in prayers, and in liberality for the conversion of the world, still it cannot but afford deep and heartfelt satisfaction to the devoted Christian to be assured that in every respect the universal Church of Christ is more energetically fulfilling the behest of her Head now than at any former period in her history, since the days of the Apostles. At the present moment she “exhibits a scene of benevolent activity; she is standing on the hill of prophecy, and, while gazing on the wilds of paganism, she unites in her regards the purposes of Jehovah, and the revelation he has made of the means by which his love and mercy shall be displayed to a ruined race. The last forty years have witnessed a revolution in the militant Church. The Saviour has made no new communication of his pleasure, but his people have begun to act as though they believed

his last command was, 'Go ye forth and teach all nations.' In other words, there has been an imitation of the conduct of primitive Christians."

While in the providence of God extensive fields hitherto inaccessible to the Christian Missionary have been opened, inviting his entrance, the indications of Providence have been regarded with an unusual degree of joyful obedience; and whilst older portions are now cultivated with greater religious fidelity than hitherto, different sections of the Christian Church are vying with each other in promptly and zealously entering upon the new spheres of labour so marvellously prepared for them, and which so much require scriptural and spiritual cultivation.

No less gratifying is the success attending the different Protestant Societies in every quarter of the world; and although the Missionary Society of the Wesleyan-Methodist Church in Canada may not be regarded as one of the most powerful and successful organizations in the great field of Missionary labours, still the Committee feel that great ingratitude were exhibited to Him without whom—

"The best concerted schemes are vain
And never can succeed,"

if, in presenting their Annual Report, no reference should be made to the successful operations of the Society, especially during the past year.

In presenting their Twenty-second Annual Report to the public, the Committee of Management record with grateful emotions, that although the health of more than one has suffered materially in their work, yet, through the good providence of God, the lives of all the Missionaries have been most mercifully preserved during the year, in the midst of all their toils, privations, and dangers.

During the year, a gracious visitation of the Spirit has been enjoyed on several of the Missions, both Indian and Domestic; on some of the latter of which wanderers have been reclaimed, and others who had resisted the strivings of the Spirit, and refused salvation under more favourable circumstances in their father-land, have been awakened, through the instrumentality of the Missionary, and converted from the evil of their ways in the forests of Canada; while on the Indian Missions, in general, the work has been

advancing, some few pagans have been won from their idolatry, introduced into the Christian Church, and are now rejoicing in the Rock of everlasting ages.

The unsettled state of the Indians, in relation to their lands, is unquestionably prejudicial to their spiritual interests. This several of the Missionaries among them have sensibly felt during the year. It is, however, believed, that this evil will soon cease to operate; yet, during its continuance, the smallest degree of success will undoubtedly be received with an unusual degree of thankfulness by the true friends of the Indian.

Upon examination it will be found that, notwithstanding every opposing influence, as well as removals by death and removals to other parts, a numerical increase has taken place in the number of members on the Missions. Happy would the Board be to have it in their power to report an increase of thousands in this interesting department of the Church; but as such is not within their power, they are not therefore insensible of their obligations to God, who has not only preserved the Missions from a diminution of members, but has graciously added to their numbers.

It would not be unseemly, perhaps, for the Committee to state, that but for the labours of the Agents of the Society, many families and neighbourhoods, who have been regularly visited by the Missionaries during the past year, would have been without the ministrations of the word; and not only so, but that large tracts of country have been occupied exclusively by them as heralds of the Cross.

To the financial part of the Report the Committee refer with much pleasure. It is true that the receipts for the year are not quite so large as those of the year immediately preceding, but they are in advance of previous years. And when it is borne in mind that the year has been one of pecuniary embarrassment to hundreds in the country, and that, in addition to the ordinary demands made annually upon the benevolent feelings of the inhabitants, several thousand pounds were cheerfully subscribed for the destitute in Ireland and the Highlands and Islands of Scotland, there will appear no grounds for presuming that the interest of the friends of Missions is in any degree subsiding. On the contrary, with these consider-

ations in view, the Committee are persuaded that the past year may be regarded as a year of very great financial prosperity, and that the friends of the Society still feel determined to sustain its operations according to their ability.

As on former occasions the Committee would, however, enter more fully into detail respecting both the financial and spiritual interests of the Society, in order that the fullest information may be possessed respecting both; they would therefore beg to direct attention to the following condensed reports received from each Mission, and to the subjoined account of the Treasurer.

INDIAN MISSIONS.

CREDIT MISSION.

This Mission is now abandoned, the Indians having removed to Owen's Sound and the Grand River. The Credit has been long regarded with deep interest by the Society; and the proposal made for its abandonment could never have been acceded to but for the strong conviction that the interests—both the temporal and spiritual interests—of the Indians would be best subserved by the removal from the Village so long occupied, and where so much good had been accomplished.

The Missionary briefly writes from this Mission:—

"I am incapable of making out a very particular report of this Mission this year, as the Indians have been the most part of the year engaged in preparing and moving to their present location on the Grand River. The men, consequently, have been much from their homes, and could not attend, as formerly, regularly on the means of grace; and some of them, I fear, have lost in consequence of the privation. Our congregation has consisted principally of women and children, who have, during the perplexities of the year, as formerly, been steady to the means, and faithful in their duty. This month (May) they have all removed, as well as a number of the white members connected with the Mission. Thus the Credit Mission has come to a close, after the lapse of something like twenty years, after the accomplishment of great things by the power of the Gospel of God our Saviour. The dry bones—the

very dry bones—and the valley was very full ; none that doeth good, no, not one ; every thought and every act only evil, and that continually : but what hath God wrought ! What miracles have been performed by the power of that Word which came to them, not in word only, but in power and the Holy Ghost and in much assurance ! The dry bones have lived. Thus far the Massasaugas, the Chippewa Indians, have been brought, under the power of the Gospel, to live like Christians and die like such. How many of them have I witnessed going from time under the brightest prospects, in hope blooming with immortality ! Yes, they have triumphed gloriously ; while earth receded and disappeared heaven seemed in view. These instances have been neither few nor small during my acquaintance with them, from the commencement of the reformation amongst them. The labour of the friends of Missions has not been spent in vain on this Mission. The inhabitants of the vicinity all bear testimony, who have seen and known them in their degradation and have witnessed their reformation, the great change in their state, the testimony they have borne as Christians, as exemplary church members and peaceful inhabitants. But they are gone—they have left the graves of their fathers and of many of their children behind them ! I am happy to say that they have left a testimony of their respect for the Gospel and for the dead by giving a lot for a church at the Port, and an acre of land for a church and burying-ground, with the use of the Mission Chapel. They are gone, and my best wishes go with them.

GRAND RIVER.

The following from the pen of the Missionary on this Mission will be read with deep interest ; and with regret it is added, that the interest will not be exclusively of a pleasing character. On the contrary, the reference made to the conduct of certain persons professing to be *Christians* and *Christian Ministers*, will be read with painful feelings by every one who prefers the interests of souls to the interests of sects and parties. The Missionary writes :

“ Grand River, May, 1847.

“REV. AND DEAR SIR,—In conformity to the general practice, I herewith transmit to you my first annual report of the Grand River Mission. It will be perceived, by comparing the Minutes of the last year with that of the present one, which has just closed, that our numbers are precisely the same. We have on this Mission eight Classes among the whites, containing 157 members, and four Classes among the Indians, embracing 80 members. During the year we have admitted on trial 27 whites and 6 Indians : 22 have been expelled or dropt—16 of whom were whites and 6 were Indians. Five have died, and the remainder have removed to other portions of our Zion. Of the five who died, two were whites and three were Indians. They all died in great peace, affording

a very striking illustration of that portion of Holy Writ which says, 'Mark the perfect man, and behold the upright, for the end of that man is peace.' We have within the limits of this Mission 3 Sabbath Schools, 10 Teachers, 110 Scholars, and 190 volumes in the Libraries.

"Various circumstances transpired in the course of the year which militated against our prosperity and still do exert an injurious influence. Some time last Summer, Mr. Varden, who at that time was Chief Superintendent of Indian Affairs, visited the Grand River, called a Council of the Chiefs of the Six Nations, and laid before them the Government plan of a Manual Labour School. It was discussed in the Council, and was vigorously opposed by Messrs. Nelles and Elliott, Clergymen of the Church of England, who are employed by the New-England Company as Missionaries to the Six Nations residing on the Grand River and the Chiefs under their control. Nevertheless, when the vote was taken whether they would have such a School, it was decided in the affirmative by a large majority. But the opposers of the measure were not willing to let it rest so. Since that time they have been employing various ways and means to frustrate the designs of the Government. This keeps up an almost constant agitation among the Indians, which occasions numberless local contentions that are very unfriendly to their spiritual welfare.

"The removal of the whites from the Reservation has also been attended with a great deal of trouble and perplexity. It has been the means of breaking up one Class entirely, and dispersing its members to other Circuits and places. In addition to this many of our Indians have abandoned their former homes and have taken possession of some of the lots vacated by the whites, which has placed some of them far from the chapel; hence their attendance there is now very irregular. We are, however, supplying these deficiencies by extra appointments. Sickness has, during the year, prevailed to a great extent among the inhabitants of this Mission; consequently their attendance on the means of grace has not been as constant as it would be under other circumstances. It has also caused much pecuniary embarrassment to be felt by our people, especially the Indians. The Indian Mission must be removed to the south side of the River, where they are now chiefly settled, and a sufficient number of Schools must be kept in constant operation to supply the educational wants of the rising generation; otherwise we will be very much circumscribed in our sphere of usefulness. At the close of the year we had not a single School on the Mission.

"In the course of the year our native Teachers made several attempts to introduce the Gospel among the heathen who still reside on the Grand River. At first they were encouraged to continue their visits, and they entertained hopes that good would be done thereby. But, according to statements made by them to me, the correctness of which can be relied on, it appears that when the Rev. Mr. Elliott understood that our native Brethren were endeavouring to impart Christian instruction to the heathen, he went among them and informed them, through his Interpreter, that the Methodists are Yankees, and rebels; that the Methodist Preachers

are intruders into the Ministry ; that they have no authority to preach and administer the Sacraments ; that their religion is spurious and without foundation ; and that they (the heathen) are as safe in their present condition as they would be were they to become Methodists ; that the Church of England is the only true Church, and if they changed their religion they must become members of her, and they would find rest and safety. It appears that these, and similar statements, led them to reject the Gospel altogether, and to confirm them in heathenism. It is likewise stated, that these very heathen have memorialized our gracious Sovereign for a portion of the reservation, where they and their posterity may reside without being obliged to commingle with those who profess Christianity, and where they may continue their heathenish practices and ceremonies free from the interruptions and annoyances which the teaching of the Christian religion would inflict upon them. Hence it seems that every attempt to christianize them at present would be unavailing. To contribute directly or indirectly, consciously or wilfully, to such a state of things, involves, in my apprehensions, considerations of the most appalling character indeed.

Yours truly,

"R. HEYLAND."

MUNCEY.

The Rev. S. Waldron writes from this Mission :—

Muncy Mission, May, 1847.

"In closing our labours on this Mission the present year, we thank God and take courage. Our prospects are evidently growing brighter. As the White man has his foot on the Indian hunting-ground, the game, of course, disappears ; but more than a substitute is found in swine, horses and cattle, the multiplication of which not only pleasingly occupies their attention, but comfortably supplies their domestic wants with beef, pork, veal, butter, and milk. They have improved in their growing of grain, we judge, fifty per cent. Since the Oneidas located on this Mission, there is a sort of pleasing emulation among them, especially in that important branch of husbandry, *ploughing*. This spring the Chippewas connected with the congregation which met in the Colborne chapel have rigged out ten ploughs, some drawn by horses, others by oxen ; two men, or a man and a boy, follow a plough and team. Thus prepared, they go from field to field, ploughing all before them by a sort of ploughing match. The proprietor of the field furnishes a dinner for the time being. In this way those who have no teams are aided, and especially the widows. After the fields are ploughed in this way, it is somewhat amusing to see perhaps twenty or thirty women take the field for the purpose of planting the corn, which they do in a sort of playful good humour, greatly conducive to health and happiness. The same method is pursued in hoeing or dressing out their corn, as well as harvesting it.

"Our meetings for Divine worship are well attended in our three

chapels. Public worship in each twice on each Lord's day, two, and sometimes three Prayer Meetings in connection with each congregation during the week, besides Sabbath morning Prayer Meetings; but the best of all are our Class Meetings. A small increase in our numbers this year. A portion of this people, however, manifest a strong propensity to drink. These, together with a few who have felt the check of discipline, are trying to exert an influence in favour of the Church of England, but the badness of their character defeats their object.

"S. WALDRON."

SAHGEENG.

On this Mission there have been some conversions during the year, and a visible improvement has taken place in the agricultural pursuits of the Indians. The periodical removals for a few weeks at a time are felt to be a serious evil, and it is hoped that this evil will diminish. The periodical absence of the children from the Day and Sabbath Schools is a strong reason for the establishment of Manual Labour Schools. The Missionary says:—

"I should rejoice were I able to give a more satisfactory report of the state of this Mission. Yet, considering all things connected with it, I am sure we have great cause of thankfulness to Almighty God for his gracious care and preserving mercy exercised over us during the year just closed, and the degree of prosperity with which he has been pleased to bless us during the same. He has been, and is still with us, in this very remote corner.

"The Indians continue to be attentive to the means of grace, and many of them decidedly pious, and going on their way rejoicing. Our last Quarterly Meeting was truly a time of refreshing among us. A number came to the altar for the prayers of the faithful, and they came not in vain. The Lord made their cup of joy to run over.

"There have been a few conversions during the year, seven have been expelled for misconduct, and several have removed from the Mission, which accounts, in part, for any decrease that may appear in the return of numbers. The whole number now connected with the Church here is 100—2 Whites and 98 Indians; and there are yet more who are talking of removing from the Mission. But one adult has died during the year, and he died in peace, looking for rest in Heaven through the blood of the Lamb.

"The School, which numbers about 40, has not been in successful operation but a small portion of the year, and the children have made but very little improvement in learning. There is not an Indian, old or young, on the Mission, that can read anything like well in an English Testament, and but very few who can read the Indian. During the time the School was faithfully attended to in the winter, previous to their removal to the sugar camps, the children had commenced to make some

improvement. The removal of many of the Indian families from the Mission for weeks together is a great hindrance to their learning. These are periodical : 1st. To receive their presents ; 2nd. To their fall fishery ; 3rd. Their winter hunt ; and 4th. Their sugar making.

"We have a large Sabbath School, which, as the children advance in learning to read, will become more interesting, and I hope more profitable to them.

"The temporal state of the Mission is much improved within two years past, and the Indians are thinking of giving more attention to farming operations. They do not raise anything like enough produce for their own use, and I think it will be a long time before they will. The present generation are so habituated to hunting and fishing I fear they never will make much improvement in farming. If the Manual Labour School can go on, by the blessing of God, it might be of great service to them. I am confident that some more efficient plan of operation must obtain among them before they will ever make much improvement in any respect. I hope the time will come when these sons of the forest will advance in civilization, and vie with their white neighbours around them."

SNAKE ISLAND.

As the body of Indians located on this island is not numerous, and, from its proximity to the Newmarket Circuit, it has been for some time under the superintendence of the Ministers on the Newmarket Circuit, who regularly attend to the spiritual wants of the Mission, thus superseding the necessity of a stationed Minister among them, they thereby effect a saving to the Missionary treasury. A school teacher, a pious and devoted brother, constantly resides among the Indians, and faithfully discharges his duty. The number of Indians in society is 52.

OWEN'S SOUND.

One of the Missionaries labouring in this important field furnishes the following satisfactory details :—

"The reclaimed people who form our Mission Church in this station numbers about 74. These brethren have given us much encouragement throughout the year by their steadfastness, piety, and temperance. The Rev. J. Neelands and R. J. Williams take it into their regular work, visiting it every two weeks. Mr. David Sawyer, a truly pious and intelligent Indian brother, resides among them as their Missionary teacher and interpreter, also doing their business with the Government. Though we have had several conversions during the year, we have no increase over last year. This may be accounted for by removals and several deaths. Those of our brethren and sisters who died during the year,

died in the Lord ; being brought to God through Missionary effort, they were kept through faith to full salvation, leaving an encouraging testimony of our God-owned missionary labour and care. The members generally attend the means of grace well, when at home, though many still wander from home at different seasons of the year.

"These Brethren are also improving in Agriculture. The Village begins to assume a more civilized appearance ; and soon, we hope, these Brethren will become comfortable in their circumstances.

"The School has been taught very regularly during the past year by Brother Henry Jackson, from the Credit. Many of the boys begin to read well in the Testament ; the smaller children are advancing in their education also.

"In conclusion, we would urge that this Mission needs much care and the prayers of our Church, as we have been much troubled by a Roman Jesuit, who would fain turn these simple people from the true faith to the superstitions of Popery, nearly or quite as bad as their former paganism."

R A M A.

The destroyer has been abroad among the tribe at this place. Of their small number *twenty* have fallen by death during the year. The Missionary has had other causes of affliction ; but, amid all, God has not forgotten to be gracious, and his work is still advancing. The Rev. H. Dean thus writes :—

Rama, 22nd May, 1847.

"DEAR BROTHER,—The past has been a year of trial on this Mission. The fever and consumption have cut off twenty of the tribe during the past year, five of whom were members of our society—one was an excellent leader. These have died in the faith, and we have no doubt are now with Christ, which is far better ; but, whilst they rest above, their friends feel their loss, as several widows with helpless children are left destitute.

"This Mission has suffered from another source. The few that were induced to leave us some time since, and joined the Episcopal Church, have become so small and feeble, that they could not create any difficulty if it was not that the head Chief belongs to them ; and as he has no other way to annoy the Methodist Indians, he does it by refusing to sign their requisitions ; in consequence of which, this tribe has not got a shilling of their Government annuities for the past year ; this, and the failing of other resources, has left them quite destitute. These reasons will account for the smallness of their subscription to the Missionary Society.

"The most of the members have been faithful and steady in their attendance on the means of grace, which they seem to prize highly.

season,

There have been but a few instances of drunkenness (which seems to be the Indian's besetting sin) that have come to my knowledge during the past year. One of the best families that was induced to leave us has come back and joined the class they left; two others have joined, making five, just filling the place of the five deceased. There are 74 members on this station; three expelled, two removed during the year.

"The attendance of children at the School has been unsteady, as it always will be till the Indians entirely give up the chase. We have 50 names on our school list who have attended more or less; 20 are writing, 5 are reading in the Testament, 19 are reading and spelling in two and three syllables, the rest down to the A, B, C.

"In conclusion, we would say, there are both lights and shades in the missionary work, especially on an Indian Mission—sometimes encouraged, then depressed in spirit; sometimes sailing with wind and tide, anon wind right a-head, tide and current running the wrong way, the heavens overspread with dark clouds, the rain and wind beating on the frail bark; all these, with a thousand indescribable difficulties, call for the exercise of faith and prayer, patience and perseverance in the work of preparing from the roughest materials polished stones for the temple of the living God. As one after another of these sons of the forest makes his happy exit from this world of sin to the abode of holiness above, the faithful Missionary has cause to thank God and take courage; another is beyond the power of temptation, both of wicked men and devils. May the blessings of the great Head of the Church rest upon and sustain his servants and the Missions, and bless them more and more, is the prayer of—

"Yours in the Gospel of Christ,

"HORACE DEAN."

SCHOOGOG.

Deeply have our hearts sympathized with the Missionary on this station during the year. During the summer and autumn sickness prevailed to an unusual and alarming extent. Almost every member of the Mission suffered; and the Missionary and his wife were both compelled to leave the Mission for several weeks, in order to secure the restoration of their health. Under these circumstances the report of the Missionary cannot be as gratifying as under other circumstances might have been anticipated. The Rev. G. B. Butcher furnishes the subjoined statements:—

"In accordance with the regulations of the Missionary Society, I beg leave to present you a report of the Schoogog Mission. It is located on an island in Lake Schoogog, and embraces about 800 acres of excellent land. The occupants, Mississagua Indians, planted, during the last season, about 20 acres with Indian corn, which yielded a plentiful har-

vest of good quality. They raised, also, an abundant supply of potatoes, some turnips, and a small quantity of spring wheat. Unfortunately for them, their land lies in a very unhealthy location. The lake contains a great quantity of vegetable matter in a state of decay, and by consequence, during a great part of the year, intermittent fever is very prevalent. During the last summer and autumn this distressing distemper prevailed in an uncommon degree; only two of the Indians were excepted from it; men, women and children, were indiscriminately attacked. There were so many sick at a time that it became impossible to obtain suitable attention, and hence, for want of proper care, several children died. The writer and his partner were sick, with one or two short intervals, from July till December; and being incapacitated either for labour on the Mission, or for attendance on each other, were forced to remove, for several weeks, to a more healthy location, where they obtained that aid their situation demanded.

"Nearly all have recovered their usual health. With returning health, there has been a return to the use of those means of grace which adverse circumstances had temporarily denied; and, excepting three or four cases, the spiritual state of the Indians is the better for the Providential visitation. Three or four of our flock have fallen victims to the fire-water of the traders. They have all, however, promised amendment, and means will be taken to restrain those who ensnared them.

"As nearly as I can ascertain, there have been 8 removals, 1 death, 1 withdrawal, leaving 37 in society. There have been some conversions and some backsliders reclaimed.

"In consequence of their wandering habits, the attendance at school is very irregular, varying from 5 to 15, although there are nearly 30 scholars in all; they have considerably improved both in reading and writing, but have made, owing to frequent and protracted absence, but little progress in arithmetic.

"Considering the smallness of the Mission, and the unhealthiness of its location, it is a great pity that the Indians here will not consent to a removal to some other field of Missionary labour. Such a measure would be highly beneficial to themselves, and a great saving of Missionary funds for application in other places."

FRENCH RIVER.

Preparatory measures had been adopted in 1846 to establish a Mission on French River; and a commencement has been made during the year. The following information has been obtained from the Rev. W. Herkimer, who has attended to the French River Mission as well as his duties at Beausoleil Island would permit. There appears to be a prospect of doing much good to the

broken and scattered bands of Indians who rove about in this region of the country. If the Missionary succeeds in inducing them all to centralize in a selected spot, a great object would be accomplished. Br. Herkimer writes :—

“French River, May 21st, 1847.

“We have 12 members at French River, and there is nearly 20 belonging to the Roman Catholics ; and the children numbers 10 belonging to us, and the number of Roman Catholic children is 15, and they give their children up to be educated. They say that if there should be a preacher among them they would sometimes listen, but not all of the time.

“There is no Pagans just by the Village ; there were two there, but they joined to our number. They say they would thank the Preachers if they could send them a School-master ; we would send all our children, and we would give them a small piece of land to build his house. It is about eight miles from the Lake, and the land is good. They have pretty good fields now. They are lively members and willing to do just as they are taught. This is the fourth time that I have been there, and had a good deal of difficulty. But, thank God, he has opened the way. I think that I have fulfilled my appointments at the French River. I think myself that a School-teacher would do a great deal of good there.

“There is another small body of Indians about twenty miles this side of French River. There is a river there they call *Nash-ko-de-yong* ; I generally visit that place ; it is a nice place on both sides of the river ; good land four miles from the lake. I gathered those Indians when I was there last, and the Chief of that place, *Man-kan-da-me-zhan-gerod*, who is a Pagan, spoke as follows :—

“We would attentively listen to a teacher, and it has been often my wish to become a Christian. I will gather together my men, and whatever they will say, we will let you know. We would know better when we see a teacher ; that is to say, when we see a man of God, to teach us in the way of religion.”

“There are 13 men, 7 women, and 16 children ; those being all Pagans. You can see by this report how they want teachers in each of these places. They want a teacher, and so, if the Conference see fit to send them one or two teachers, it would benefit them. I have also tried to get them into one body, and conversed with both of the Chiefs, and the one Chief will not go from his place to the other, and it is quite difficult. I told them that I would lay this before the Preachers when they gather, and I think that it will be a great pity if a teacher is not sent to them, as they are ready to listen ; but I do not think it is necessary to send them a Preacher just now ; a Minister ought to visit occasionally and baptize ; they may, perhaps, gather together in one place by and by.”

BEAUSOLIEL ISLAND.

The report from this Mission is encouraging rather than otherwise. The society, however, is both small and poor; but piety is increasing among them. The Missionary writes:—

“*Beausoliel, May 23rd, 1847.*”

“DEAR BROTHER,—The number in society here is 38, and some have gone away to Owen’s Sound; backsliders we have none: one on trial; no Pagans; and none died; I baptized three. The brothers here are ready and willing to do what they can to help to support the gospel; but cannot do much, they so poor. They like to see what they give in the Missionary Report, this encourages them the more. I am happy to say that these Christians are steady—more steady now than they were formerly. I believe that they are growing in the grace of God. We have good meetings here; and we have erected a small school-house. This is all I have to say.

“WILLIAM HERKIMER.”

DOMESTIC MISSIONS.

MONO MISSION.

The Missionary writes, from the toilsome field of his labours, as follows:—

“I send you my report from the Mono Mission. This Mission embraces eight townships. As it regards the inhabitants of these townships, the majority are grossly ignorant of the doctrines of the Gospel of Christ. But, thank God, there are a few exceptions; there have been some in all those townships that have embraced the Gospel, and have experienced its saving efficacy on their own souls. As it regards the Mission, the people are poor, generally speaking, and those that are not poor are very close—they have learned the art of holding what they have. The journeys are long, and the roads bad. The Missionary has to labour under many disadvantages. Indeed he must be hardy and courageous, and persevering. He has to contend with drunkards, Sabbath-breakers, liars, swearers, and hosts of unbelievers on every hand; and the great evil is, that the nominal professor often disgraces the Gospel which he professes. Indeed it is hard to manage such persons. As

“I believe
where good m
sive, and the
for the presen
the Mission, v

It regards money matters, this Mission stands very low. The Missionary on this station has to perform a threefold office : Leader, Steward, and Preacher. On this Mission there are 9 Classes, and 21 appointments ; and many members that are so far apart that they have no Class Meeting, but are members of our Church. These the Minister has to visit at their own houses, and speak to them on the all important subject of the salvation of the soul. I find that visiting from house to house is attended with much good ; and holding Revival Prayer Meetings has been made a blessing to many here. Distributing religious Tracts has cheered many in the back woods. Protracted Meetings have been attended with much good this winter. We held two of these meetings, and the Lord made them a blessing to many. About 30 were hopefully converted to God, and joined our Church, and many that are members of other Churches were awakened at those meetings, and attend our Class Meetings, and seem to like them well. I hope the time will soon come when the name of sect and party will fall, and Jesus Christ be all and in all. Union is strength. Our Church here is gaining ground—the Lord is smiling on his garden.”

BARRIE.

An extensive field for the labour of the Missionary presents itself in the region of country around Barrie ; and indefatigable must be the man who discharges his duty faithfully in this section of the work. Two Missionaries have laboured here during the year ; but not with the success that could be desired. The Mission has not been favoured with the conversion of many souls ; but as the Missionaries have endeavoured faithfully to discharge their duty, it is hoped that the ensuing year will witness some gracious fruit. The Superintendent writes :—

“In reviewing our sphere of action during the past year, we have reason to adore the great Head of the Church that in every place we have visited we have found an open door, and an extensive field for farther usefulness. We have had our discouragements, and some of them too from quarters from which we least expected them. But, notwithstanding, our congregations on some parts of the Mission have greatly improved, and continue to improve. The present appearance of the Mission encourages us to hope, that such a Divine influence rests upon the seed which has been sown as will cause it to bring forth fruit to the glory of God.

“I believe one or two new appointments could be made for preaching, where good might be done ; but the field of labour has been so extensive, and the work so laborious, that we have not thought it judicious, for the present, to embrace the openings referred to. The finances of the Mission, when compared with the last year, both as it regards our

connexional funds and the support of the Ministers on the Mission, are in advance. The subscriptions to the Missionary fund are a little on the decrease of what they were the past year. But this is easily accounted for, when the many calls for help from other quarters are considered, in connexion with the limited circumstances of many of our friends on this Mission.

"On the whole, an increase in many of our congregations, and a desire manifested by the people to hear the words of truth and soberness, we take as an indication that the Mission is in a healthy state, and that we have not run in vain, nor laboured in vain.

"WILLIAM GRAHAM."

ST. VINCENT.

This is an important field; and, at no distant day, will, doubtless, be among the first Circuits of the Province. The country is being rapidly settled; and, among the settlers are to be found many most intelligent individuals who have sat under the ministry of the ablest Ministers both in this and the mother country. The following interesting report is from the Missionary:—

"In closing another Conference year and reporting the state of this Mission, it is necessary to notice that last year St. Vincent was connected with the work at Owen's Sound. The Conference of 1846 separated them, and appointed the Rev. Daniel Wright to the work—this appointment our brother was unable to fill through family affliction. The Rev. D. Jennings was then sent, who laboured through much affliction and discouragement, until the middle of January last, when he was removed, and the writer was directed by our beloved Chairman to labour as much as possible on the Mission, in connexion with Owen's Sound.

"Religion has been rather low during the past year, no doubt caused, in part, by the want of the oversight and ministrations of the Missionary, and the changes made; however, I feel pleasure in saying that a very encouraging manifestation of improvement exhibited itself during the last quarter; our meetings were better attended, a spirit of prayer seemed to rest on many. Our last Quarterly Meeting, held May 16, was a blessed season, and we were enabled to close the quarter in good spirit, with an increase of about 10. Our numbers in the beginning of the year was about 70; we now number about 92, though several of these brethren have not the privilege of meeting in class, being scattered in different parts of this newly settled country. We have now 14 appointments in the two weeks, and likely to have more the next year, as the townships of Euphrasia and Collingwood are fast settling.

"In conclusion, I beg to call the attention of our Missionary Board to this interesting field, as many of our Wesleyan friends from many parts of the world are moving in here, to form a home for themselves and their

children

children ; and were it not for the confidence they have in us as a Church, that we will come and find them out, and minister the Word of Life to them, many would prefer their poverty with their privileges to the prospects of a new country without the ministrations of the gospel."

BROCK.

The Missionaries here have been encouraged during the year in witnessing the conversion of souls. The Superintendent says :—

"DEAR BROTHER,—The last has been a year of some prosperity on this Mission. Great peace has prevailed on every part of it. The official and other members have heartily coöperated with the Ministers in sustaining the work of God. In the month of September, a Camp Meeting was held in the township of Brock, at which about 30 souls were hopefully converted to God, nearly all of whom continue faithful until now.

A certain Minister, an advocate of apostolical succession by Episcopal ordination, after having been admitted to priest's orders by the Lord Bishop of Toronto, felt himself so much elevated above his ministerial brethren of other churches, and being desirous of showing his superiority, commenced an unprovoked warfare upon the ordinations of the Wesleyan Church. *This man should have known better, for he was once a Methodist Preacher.* The result of this short contest was, as might have been expected, an increase of our congregations, and frequent calls to administer the sacrament and bury the dead among members of the Church of England.

"There has been an increase in the membership, and also of all the connexional funds ; the increase is nearly £10. The Quarterly Meeting has recommended the division of this Mission. Three townships to be set off and called the Lindsay Mission.

"I remain yours affectionately,

"WILLIAM YOUNG."

GUELPH.

The ample report which is annexed, and forwarded by the Missionary, will afford every requisite information touching the state of the Guelph Mission.

"Guelph, May 24th, 1847.

"REV. AND DEAR SIR,—In making out our annual report of this Mission for the present year, I am happy to say it is in our power to report prosperity, with every appearance of continued and increasing success. During the year now closing we have added the township of Puslinch to

the nine, to and through which our labours extended last year, and have formed four new classes, besides additions to others.

"Since last Conference our work has increased very much, and it is not possible for two Preachers longer to sustain it, which, from the locality of the two naturally separated parts, requires that the townships of Peel, Wellesley, and that part of Woolwich west of the Grand River, be struck off as a separate field of labour, and is strongly desired by the members, thought to be a prudent measure by our respected Chairman, as well as ourselves, and will, without doubt, be recommended to the Conference by our approaching District Meeting. In it there will be 13 appointments, and seven classes containing 84 members; and the whole distance the Missionary must needs travel every two weeks to accomplish his work, at present, is 66 miles; but he will soon need assistance, for I doubt not but during the next year his appointments will increase to from 15 to 20. Such is the rapidity with which this new country is being settled.

"Guelph Circuit contains as many appointments now as it did two years ago, one excepted, notwithstanding the setting off of the new Mission, and will fully require the labour of two Ministers. During the past year we have taken into society, on trial and otherwise, 60 members; and after making up all vacancies, by persons dropt, &c., we have a net increase of 30.

"Our Sabbath Schools, two in number, are in a prosperous state; and our friends are doing what they can to render them more useful and efficient.

"Our Funds are all in the advance of last year, excepting our liberality to the Missionary cause, owing chiefly to our meeting having been held too late in the season; but, all circumstances being considered, £26 5s. 2d. is not bad. Our prospects throughout the Mission are encouraging. The progress of personal piety among our members has not been so great as could be desired; but we trust the influence of Methodism has become more general and perfectly established.

"Yours, most affectionately,

"THOMAS COSFORD."

YORK.

This Mission appears to be prospering. The Rev. S. Hurlburt has been labouring upon it for the last three years. The following is his report:—

"I scarcely know what to say in what might be called a report of our Missionary Circuit, having reported the same Circuit or Mission the two preceding years. The difficulty is increased by the fact that there has been so little change in this field of labour during the past

year. well as admitted 1; expected year 17 are rather fund, £4 £43; be in the c Septemb affected very gen meetings cannot b merely t We can know th of God, cessors, prosperi

The 1

"The two we spring a Last sur and agri very few of their tion, whi

"In le received have ren ber of m and afflic support 1

"On 1 ing, and one of p the pres over the cloud an bask in t

year. There has been, however, a small increase in the membership, as well as in our Sabbath Schools. The schedules show the following :— admitted on trial, 12 ; admitted by letter, 25 ; removed, 16 ; withdrawn, 1 ; expelled, 4 ; deaths, 3. Last year we returned 168 members, this year 178, showing an increase of ten only. Our connexional funds are rather below the last year. We have collected for the contingent fund, £4 14s. ; superannuated, £3 10s ; missionary fund, something over £43 ; beside, something over £1 for the chapel relief fund. The decrease in the contingent fund may be attributed to the prevailing sickness in September, last year. The missionary collections and subscriptions were affected by subscriptions for the suffering Irish, which were taken up very generally among the people just about the time of our Missionary meetings. I refer to this because I think the falling off in that fund cannot be attributed to any want of attachment to our own Church, but merely to the circumstances then existing, over which we had no control. We can speak of no great prosperity, it is true, yet we do rejoice to know that our members generally are, as we believe, walking in the fear of God, and in the comforts of the Holy Spirit. We hope our successors, whoever they may be, will be blessed with more abundant prosperity."

TILBURY

The Rev. D. Hardie reports as follows :—

"The appointments on the Mission have been regularly filled once in two weeks in connexion with the Circuit work, except once or twice in the spring and fall, when the roads through the swamps were impassable. Last summer and harvest the new settlers suffered severely from the fever and ague, so that for three or four months, at several of the appointments, very few could attend, which has greatly discouraged them in the choice of their new homes. This spring they have had a return of the affliction, which has greatly reduced them in their persons and circumstances.

"In looking over the schedules for the year, I find that four have been received on probation, three have been dropped, two have died, and two have removed, so that there is a decrease of three, which makes the number of members at present on the Mission 50. The people, though poor and afflicted, have, according to their ability, willingly contributed to our support the sum of £5 10s. 3d.

"On the Mission generally, the influence of the gospel is still extending, and they are anxious to hear it. Though the last year has been one of peculiar suffering to the new settlers, yet it is to be hoped that the present will be more favourable, and that the cloud which has hung over them will blow away, and the sun will emerge from behind the dark cloud and shine forth in his full orb'd glories upon them, that they may bask in the beams of redeeming love."

WARWICK AND ADELAIDE.

The Superintendent of this Mission, the Rev. R. Corson, has transmitted quarterly reports exhibiting the state of this Mission. Upon the whole, it may be regarded as being in a prosperous condition. On the 26th of May, the Missionary wrote :—

“DEAR BROTHER,—I designed to have written to you before this time, but our esteemed Chairman forgot to publish our last Quarterly Meeting. I wrote to him on the subject; however, I received no answer, consequently we appointed our Quarterly Meeting almost the last week, expecting some information from the Chairman, but got none. I informed you at the commencement of the year, that there was a deficiency in the returns of last year of 50 members; the total number at the present is 155, so that we have a small increase of five members.

“As it relates to finances, we are coming out rather slender. All that has been raised on this Mission does not amount to £26.”

SYDENHAM AND WALPOLE.

The Rev. John Williams writes from this Mission as follows :—

“It is not without feelings rather painful I take up my pen to furnish your Committee with an annual report of the Sydenham and Walpole Mission. The past year has been one of severe trials and painful afflictions to my family, and a time of bereavement to our dear Church. Several of our bright ornaments have been called to the world of spirits to shine as the stars in the firmament forever and ever.

“We arrived on this Mission the 2nd July, 1846. Long shall I think of the days we landed on the banks of the River St. Clair, after a great move from the Bay of Quinte, a distance of several hundred miles. What were our feelings! In a far distant and strange place, without a friend, and having but little means to keep ourselves! As the members of this Mission did not expect a married Preacher to be stationed among them, they therefore made no preparation to receive one; and they informed me that on account of the prevalence of the fever and the universal sickness which then prevailed, that they could not procure my family a home, or insure us support. We were compelled to take up our residence in what is called the “Balloon House,” said to have been built under Lord Selkirk, nearly forty years ago, and is now in a very miserable, dilapidated condition. In this house we had to remain for eight months of the year, though it lay quite remote from my labour; and worse still, we occupied but *one room*, which afforded but little shelter from the rain and storms; the consequence was, much family affliction and the death of our child, seven weeks old. For once I felt tired of the itinerant life!

I have referred to the happy departure, in death, of some of our members. Brother Palmer Heron died last June; his death was truly triumphant. Brother John McNeil died in July; his death was very calm and peaceful. Sister Flora McDougald died last summer. In dying she fell a true penitent at the feet of Jesus. Sister Jane Hicks died last fall; she gave the clearest evidence that her peace was made with God. Brother Alexander Riggs died last winter, leaving a wife and eleven children to mourn their loss. Sister Jane Cox died this spring. Her obituary appeared in the *Christian Guardian*: it was written by her husband—one of our Local Preachers. All the above were *heads of families*, but they have died in the Lord; they were living and dying witnesses. May their friends and relations follow them in the way to the paradise of God.

"This Mission is of large dimensions. It extends about ten miles up the river St. Clair, about twelve miles up the north branch of the river Sydenham, about thirty miles up the east branch of the Sydenham, and along the river Snigh Carty. The work is exceedingly laborious, and rendered much more so by large sections of the country being very wet and swampy. The people in general are poor; some of them are very poor. Nearly all the support we have had for the past year has been obtained from *three classes*. We have about 120 members on the Mission; but full one-half of them are so scattered as to render it impossible to organize them into regular classes; it is therefore the more difficult to appeal to them for support. However, the Mission has paid, in table expenses, £17; in moving expenses, £10 1s. 3d.; for travelling expenses, £1 15s. 3d.; for house-rent, £3; to the Contingent Fund, £1 2s. 6d.; to the Superannuated Fund, 13s. 9d.; to the Missionary Fund, about £15; in Quarterage, £2 17s. 6d.; leaving a deficiency in salary of £47 2s. 6d. But to return: We have about 15 appointments among the white population, besides occasionally visiting the Indians of the St. Clair and Walpole Islands. Most of our work is *purely Missionary*. At many of the appointments scarcely anything is contributed for the support of the preacher. But then it will be borne in mind that several of the appointments were not visited by Methodist preachers until my arrival on the Mission. The people are anxious to hear the Gospel; they attend well, remarkably well,—and our prospects among them are quite encouraging.

"The village of Wallaceburg is the head quarters and centre of this Mission. It is situated at the junction of the north and east branches of the river Sydenham. The location is beautiful, and cannot fail, ere long, to render the village of considerable note for its commerce and trade. The waters of the Sydenham empty themselves into the Snigh Carty, and so run a few miles, till they are lost in the lake St. Clair. For some time Wallaceburg has been but little known; it was in anything but a thriving condition. It is now in a much more prosperous state, and is rapidly emerging from its former obscurity into public notice. At the present time several buildings are in progress of erection; among the number is a saw-mill, which will greatly advance the improvement of the place. During the three months of our residence in this village

the people generally have treated us very kindly ; and it would be but just to remark, that the inhabitants *in and about* Wallaceburg have contributed more than *two-thirds* of *all* that has been raised on the Mission during the past ecclesiastical year.

"In my last communication to the Secretary of the Missionary Committee, I adverted to the *state and prospects* of the work among the Indians of St. Ann's and Walpole Island. I have nothing more to add in addition to what was stated in that letter ; it would be quite superfluous to reiterate the same statements. Let it suffice to remark, that our prospects in doing them good are *not* encouraging ; and, in my opinion, our present efforts are altogether too limited and feeble to accomplish much good among them."

CARTWRIGHT AND MANVERS.

Upon this Mission the Rev. Daniel Wright has been labouring during the past year. In all probability this Mission will be incorporated with an adjoining Circuit the next year, and thus relieve the Missionary Society from supporting it any longer. The Missionary, among many other remarks, makes the following :—

"This Mission is situated between Darlington and Schoogog Lake, embracing the principal parts of the Townships above named. There are at the close of the year 7 Classes, numbering in all 84 members.

"By comparing this report with others, there will be, in appearance, a falling off in membership, which in reality is not the case ; the reduction in number being the result of careful inquiry in reference to the actual attendance in each class.

"The Farming interest and Agricultural improvements are rapidly advancing in the several neighbourhoods throughout the work, and it promises to be, ere long, a rich and flourishing section of our Province ; and, if morals and religion keep pace with other improvements, it will be amongst the fairest portions of those once moral wastes, but changed into fertile fields by means of Missionary enterprise."

MARMORA.

The work appears to be advancing gradually on this Mission. Faithfully are the duties of the Missionary discharged by the Rev. S. Miles, who is much beloved by the people among whom he labours. Br. Miles writes :—

"*Madoc, May 31, 1847.*

and extra communion services, at all of which there has been good attendance, and very serious attention; but notwithstanding these extra efforts, in connexion with the regular work, no great amount of good, as yet, is visible. But the seed has been sown—the bread has been cast upon the waters, and eternity alone will unfold the results. Upon the whole, however, the work appears to be gradually progressing; but much remains yet to be done.

“There were two Missionary Meetings held on the Mission last January, one in Madoc and the other in Marmora, both of which were well attended, and at which the Rev. Richard Jones and the Rev. George F. Playter were present. The collections and subscriptions will be found liberal, when the circumstances of the inhabitants in this back country are taken into consideration. There are two Sabbath Schools in connexion with our work, which are continued both summer and winter—one of which has an excellent Library; and one during the summer only. There is also one Sabbath School, with an excellent library attached to it, under the superintendence of U. Seymour, Esq., in connexion with the labours of our Presbyterian brethren. The Temperance cause is also exerting a beneficial influence in these back townships, and for this the inhabitants are much indebted to the spirited exertions, talents, and influence of Uriah Seymour, Esq.

The temporal condition of the inhabitants on this Mission I think to be rather improving; and keeping the Madawaska country still in view, and the space lying between this Mission and that remote place, I will just remark, that the intercourse between the Victoria District and that region, during the past winter, has greatly exceeded that of the winter preceding, thus opening a market for the produce of the farmer, which has proved mutually advantageous both to the buyer and seller; and in view of the continuance of this intercourse, and the probable settlement, at a future day, of this vast country, the labours of our Missionaries will no doubt, in a few years, be extended far to the north and west of their present field, as embraced now on this Mission.

“I find, on referring to the schedules for the past quarters, that, after the usual removals, droppings, &c., there has been a small increase in numbers; and there is also a small advance in favour of our connexional funds. All which is respectfully submitted.

“STEPHEN MILES.”

SHANNONVILLE.

The following is the report from the Rev. G. F. Playter, Missionary at this place:—

“The country included in this Mission it is important to cultivate. The labours of the past year have been, to some extent, successful. Several have been brought from darkness into light, and from Satan unto God. The conjunction of the two Wesleyan Bodies will doubtless

facilitate the progress of the Gospel, and remove some obstacles which are now in the way, on this Mission. A lot of land has been given by Mr. David Smith, at Smith's Mills, for a Chapel, and about £60 are already subscribed for its erection."

AMHERST ISLE.

The Superintendent writes encouragingly respecting the state and prospect of the work on this island. He says:—

"Bath, May, 1847.

"An esteemed friend, one well acquainted with this place and people, lately said, 'that since the days of the much-lamented Rev. J. Gladwin, religious prospects were never so good as now.' The congregations are on the increase. Our members are generally steadfast in their faith, and are looking for a revival of the work of grace; and in affording support to the Missionary cause, they are willing to excel their former selves. Last year I did cultivate the hope that this people would soon have a stationed Preacher. This expectation I do still cherish.

"Permit me to lay before you the following request:—That at the ensuing Conference the Stationing Committee may be pleased to make this Island, not the *See* of a Lordly Bishop, but the residence of a young, laborious, and faithful Wesleyan-Methodist Missionary.

"Yours, &c.

JOHN BLACK."

GLENGARRY.

This Mission has been attended to by Messrs. Huntington and Case during the year, the former of whom writes as follows:—

"On my arrival at the Glengarry Mission, I found the Parsonage in a very uncomfortable state, so much so that my predecessor had thought it nearly impracticable to spend the winter in it. The upper apartment was unfinished, as also the outside of the building. We have succeeded in finishing the house, so that it will now be a comfortable home for any ordinary family;—what is better, the expense is nearly all paid. We have, during the year, made considerable additions to our parsonage furniture; also, we have purchased a parsonage cow.

"Our Mission ground includes a part of four townships. Finch is mostly settled by Highland Scotch; they, of course, are not very favourable to Methodism. However, we have a few here, some of whom come four and five miles on a week day to hear the Word of God.

"In Roxborough we have succeeded in raising a small class, numbering twelve persons; several are the fruits of a Protracted Meeting held here last winter.

"The township of Charlottenburgh. Here we have a good congregation, and the people are anxious that we should continue our labours among them.

"Lancaster. This brings us near the line that formerly separated between the Upper and Lower Provinces. Here also our congregation is good. The people in this neighbourhood are about erecting a new Church, designed for the accommodation of the Free Church, also of the Methodist and Baptist.

"I think that Missionary labour here will not be lost. I am not without hope that we may soon see a good revival of religion among the people in this but recently neglected part of the Province."

GATINEAU.

The Rev. W. Morton thus writes from the Gatineau:—

"This Mission is in Canada East, and extends about forty miles up the Gatineau River from Bytown. It comprehends a part of four Townships, viz: Templeton, Hull, Wakefield, and Marsham, and also extends into the unsurveyed lands. There are seven regular appointments, and some occasional ones; so that the Missionary will have no want of employment.

"During the past year the good Lord favoured us with the outpouring of the Holy Spirit, and about 70 were added to the Church; so that the prospects are encouraging.

"I believe that on this Mission I have enjoyed some of the happiest seasons of my life. May the Lord bless the Gatineau Mission with a constant outpouring of his Spirit, and bring the inhabitants to triumph with the redeemed! Amen."

CLARENDON.

Some degree of prosperity has attended the efforts of the Missionary here. Between twenty and thirty have been converted, and a parsonage has been commenced and partly completed. Mr. Greener says:—

"Clarendon, May, 1847.

"In reviewing the labours of the past year, we are led pleasantly to reflect on the goodness of the blessed Redeemer, who said, 'Lo I am with you alway, even unto the end of the world;' for we have seen his goodness manifested in the conversion of sinners, the building up of his people, and the imparting of that 'peace' which surpasseth understanding. Though there have not been so many added to our numbers as we could have wished,—not more than perhaps twenty-five or thirty—yet it is pleasing to behold an evident growing maturity in our members, many of whom were but 'babes in Christ.' Our congregations are good,

and are very attentive to the preaching of the word. This is a laborious Mission; the Minister in charge having ten regular two week appointments, also six others, each of which he attends once in four weeks. There is an abundance of room for the extension of our labours, so as to engage an additional Minister. 'The harvest truly is great, but the labourers are few.' During the last year a Parsonage has been partially built, in a central part of the circuit, which the people intend to finish the ensuing Conference year. To the Parsonage are secured two acres of land. We think Clarendon will, ere long, rank among the best Circuits on the Bytown District.

"JAMES GREENER."

ST. ANDREWS.

Awakenings and conversions have taken place within the bounds of this Mission during the year; and commendable efforts have been made to improve the church accommodation and to erect a parsonage. The Rev. Mr. Baxter writes:—

"Although not able to record any events of an extraordinary nature, yet we may communicate some little that is to some degree encouraging. Our small Chapel at Grenville has been repaired and rendered comfortable for attendance during winter. The congregation is much improved, and there are evident signs of spiritual awakenings. The Parsonage House, I trust, will be so far completed as to allow our successor to occupy it the ensuing year. We are unwilling to suffer this opportunity to pass without expressing our sincere thanks to our Christian friends, the Presbyterians, and others (not members,) who have contributed towards the erection of our Parsonage about one hundred dollars.

"During the fall and winter we made some especial efforts to spread the Redeemer's Kingdom, and are happy to say that at three meetings the Almighty blessed our endeavors, when about twenty-five persons were added to our Churches; most, if not all of whom, I trust, are continuing to evidence their great solicitude for the salvation of their souls."

PEMBROKE.

The following interesting report is from the Missionary at Pembroke, whose labours are extensive, and, we rejoice to add, not without success:—

"With humble gratitude to Almighty God, we record his goodness to us during the past Conference year, in our arduous labours on the Pembroke Mission.

"Our borders are enlarged, and we have taken up new appointments in Ross, Wesmeath, and up the Colunge River, in Canada East, which will add to our canoeing between twenty and thirty miles. Although

that part of the country is now enduring almost an unparalleled state of embarrassment on account of the scarcity of money, and our finances are much lower than last year, it is not owing to the want of good will of the people towards the Gospel and Methodism, but entirely want of pecuniary means. But while pecuniary embarrassments have attended us in our labours, the good Lord has not been unmindful of us; he has visited this distant section of his vineyard in the conversion of rising of twenty precious souls, and twenty have joined us on trial. To God be all the glory."

CONCLUSION.

The foregoing details will be sufficient to convince the friends of Missions that the God of Missions continues to smile approvingly on the efforts of the Society. Although various hindrances have been presented, and many discouraging circumstances have occurred during the year, yet the Committee are persuaded that they are called upon to "thank God and take courage." The reports from the several Missions clearly establish the necessity of continued, nay, rather, of increased exertion on the part of all who feel an interest in the spiritual welfare of the Aboriginal inhabitant or new settler; and the Committee feel a pleasure in expressing their conviction that the patrons of the Society will come forward with increased liberality to sustain an agency which has already, in so many cases, caused the desert to rejoice, and which is yet destined to achieve mighty and sublime conquests.

In conclusion, the Committee offer their sincere thanks to the friends and supporters of the Society, and devoutly pray that they may "receive a hundred fold in this life, and in the world to come life everlasting!" In laying down their trust, the Committee commend the Society and its friends to the special benediction of Heaven, trusting that greater success than ever will crown the efforts of the Society; and that, at the last, its benevolent supporters, and the grateful recipients of the blessings it has been the means of distributing, may rejoice together, and, as eternal ages roll along, unite in the unending chorus before the Throne, "Unto Him that loved us and washed us from our sins in his own blood, and hath made us priests and kings unto God and the Father, unto him be glory for ever and ever!"

The following is a list of the names of the members of the London Society...

CONCLUSION

The London Society is a body of men and women who are engaged in the work of evangelization...
