CANADA HOUSE
Chatham, New Brunswick.
Wm. Johnston, Proprietor.
Considerable outlay has been made on the
house to make it a first-class Hotel and it
is still and it is a desirable temporary residence
both as regards location and comfort. It is
situated within two minutes walk of Steamboat
landing and Telegraph and Post Office.
The proprietor returns thanks to the Public
for the encouragement given him in the past
and will endeavor by courtesy and attention to
merit the same in the future.

"Castoria cures Colic, Constipation,
Sour Stomach, Diarrhoea, Eructation,
Kills Worms, gives sleep, and promotes di-
gestion."
Without injurious medication.
THE CASTORIA COMPANY, 77 Murray Street, N. Y.

DON'T GIVE UP

The use of Ayer's Sarsaparilla. One bottle
may not cure "right off" a complaint of
years; persist until a cure is effected. As a
general rule, improvement follows shortly
after beginning the use of this medicine.
With many people, the effect is immediately
noticeable, but some constitutions are less
susceptible to medicinal influences than
others, and the curative process may, there-
fore, in such cases, be less prompt. Perse-
verance in using this remedy is sure of its
reward at last. Sooner or later, the most
stubborn blood diseases yield to

Ayer's Sarsaparilla

"For several years, in the spring months,
I used to be troubled with a Jewish fever,
feeling, and a dull pain in the small of my
back, so bad, at times, as to prevent my
being able to walk, the least motion of my
limbs causing me severe distress. Frequently,
sweats and rashes would break out on various
parts of the body. By the advice of friends
and my family physician, I began the use of
Ayer's Sarsaparilla, and continued it till the
poison in my blood was thoroughly eradicated."
—L. W. English, Montgomery City, Mo.
"My system was all run down; my skin
rough and of yellowish hue. I tried various
remedies, and while some of them gave me
temporary relief, none of them did any per-
manent good. At last I began to take
Ayer's Sarsaparilla, continuing it exclusive-
ly for a considerable time, and am pleased to
say that it completely

Cured Me.

I presume my liver was very much out of
order, and the blood impure in consequence.
I feel that I cannot too highly recommend
Ayer's Sarsaparilla to any one afflicted as I
was."—Mrs. N. A. Smith, Glover, Vt.
"For years I suffered from scrofula and
blood diseases. The doctor's prescriptions
and several so-called blood-purifiers being of
no avail, I was at last advised by a friend to
try Ayer's Sarsaparilla. I did so, and now
feel like a new man, being fully restored to
health."—C. N. Smith, Decatur, Iowa.

Ayer's Sarsaparilla

PREPARED BY
DR. J. C. AYER & CO., Lowell, Mass.
Sold by Druggists, &c., all over the world.

The Emulsion

Hypophosphites of Lime and Soda.
No other Emulsion is so
easy to take.
It does not separate nor
spoil.
It is always sweet as cream.
The most sensitive stomach
can retain it.

A SONG TO THE WORLD.
—
A song to the world—the beautiful world—
In spite of its clouds and its cares,
Its trials and pains, its shame and its stains,
With all its sad fruits, 'tis the best world we
have—
'Tis the only one given to man—
So let us accept it, with thanks, as it is,
And enjoy it as long as we can.
Because the cynic who craves at life,
And wishes his day at an end!
Never yield to despair, but patiently bear
Such mischances as man cannot mend.

Children Cry for Pitcher's Castoria.

The Union Advocate,

Established 1867.

NEWCASTLE, MIRAMICHI, N. B.
WEDNESDAY, APRIL 22, 1891.

Dominion Parliament.

The first session of the Seventh Parliament of Canada opens on Wednesday next, April 29th, and advises from Ottawa state that everything is being got ready in preparation for the opening. Mr. Peter White is spoken of as the Speaker of the new house with two candidates mentioned for the deputy speaker, Messrs. Bergeron and Professor Weldon. The reply to the address will be moved by John Hugh Macdonald, of Winnipeg, son of Sir John A. Macdonald, and seconded by J. Douglas Hazen, of St. John. Government papers think the session will be a short one, while Opposition organs state the opposite. Whether long or short it is to be hoped that the legislation effected will be for the general good of the whole Dominion.

The Railway Subsidy Bill.

The railway subsidy bill introduced by the government throws out inducements for the building of several useful lines of road by the granting of a subsidy of \$2,000 per mile for a stated number of miles. This sum is probably not sufficient to induce the construction of useless lines but will materially aid those having a prospect of being able to pay running expenses when built.

Among these lines will be found several of importance to the Northern counties and it is hoped that efforts will be made to obtain a subsidy from the Dominion Parliament towards their construction.

Personal.

Thomas W. Peters was elected Mayor of St. John, on Thursday last week by a vote of 1356 over Mr. Lockhart, the former Mayor.

Messrs. John P. Burchill and John O'Brien, M. P.'s were in town yesterday.

M. Adams, Esq., M. P., leaves for Ottawa on Saturday next.

Mr. Allan Russell, son of the late Wm. Russell has been spending a week or two among his friends here. He was to leave for the States yesterday.

Mr. John D. Craghan has returned from his trip to the United States and American and Canadian business centres.

J. H. Lablache, Esq., M. P., for Westchester has been spending the week at the seat in the Executive Council vacated by Mr. LeBlanc.

Reconstructing the Cabinet.

The Mail yesterday devotes an editorial of over a column to the subject of reconstructing the Federal Cabinet, and in doing so feels called on to make a very unfair and unjust attack on the members of the present cabinet, and to attack the Hon. Mr. Bowell for his vote on the Jesuit Estates question, which is quite unnecessary, and in no way strengthens Mr. Wallace's claim to a portfolio. Mr. Bowell had just as much right to vote against the disavowal of the Jesuit Estates as Mr. Wallace had to vote for it. Both gentlemen have since appealed to their constituents, and both have been sustained, and it is rather late in the day now to endeavor to fight the Jesuit Estates question over again. As to Mr. Bowell's influence in filling the very arduous position of Minister of Customs, there can be no question that he has faithfully, ably, fairly and conscientiously conducted his department for twelve years in a manner which has never been excelled by anyone who previously filled that position. The change in the trade and commerce of the country caused by the introduction of the National policy, fairly revolutionized the Customs organization, enlarging the responsibility and rendering the department one much more difficult to preside over than it heretofore had been. Mr. Bowell has been a praiseworthy, efficient and most competent head, and has conducted his Department with an economy and effectiveness which it would be difficult to equal. As to the "Mails" estimate of Mr. Campbell's ability, that is nothing new. Years ago the "Mail" insulted Mr. Cowling because he differed slightly with his colleagues—who were at that time warmly supported by the "Mail"—and it has never since failed to speak slightly of him when it could do so. Mr. Cowling needs no defence at our hands. His conduct as a Minister of the Crown is the best answer to those who would slander him. For nine years he has ably and efficiently performed the duties of Minister of Inland Revenue, and has represented the Irish Catholic element in the Cabinet in a manner which has been entirely satisfactory to his fellow-countrymen, and beneficial to the country at large. He stands too high in the estimation of those whose esteem is worthy of consideration, to care anything for the sneering of the "Mail," which he can afford to laugh at.

Supreme Court Business.

Frederick correspondence of the Sun give the following in reference to Supreme Court business of interest in Gloucester County:

People's Bank of N. B., appellant, and Joseph M. Hache of Gloucester, respondent—Mr. Gregory, Q. C., supports appeal from the county court; W. W. Wells, Q. C., contra; Mr. Gregory in reply, court considers.

Alexander, appellant, vs. trustees of school No. 7, of parish of Bathurst and the Montreal Family Herald and Weekly Star, for \$1.00 per year.

The Family Herald.

We offer the UNION ADVOCATE and the Montreal Family Herald and Weekly Star, for \$1.00 per year.

Exhibition.

Arrangements are being made which promises to make Canada's International Exhibition 1891, to be held in St. John, the most successful as the last one if not more so. It is proposed to have a "Horse Fair" in connection with the exhibition and several large buyers have expressed their intention of being present with a view of making large purchases.

In working up this new idea, Mr. Ira Cornwall, the energetic Secretary of the exhibition, association has sent the following letter to the British Trade Journal and a number of other important English publications, in many of which it has been published and will no doubt have the effect of making this mammoth horse fair a great success. The following is the letter alluded to:

A Mammoth Horse Fair.

TO THE EDITOR OF THE BRITISH TRADE JOURNAL.

Sir,—From recent English papers I notice that there is a movement on foot to organize a company in England, for the purpose of purchasing horses in Canada for the English market, and I trust that arrangements may be successfully carried out. The failure in the recent attempt to purchase horses in this country for the use of the English army, was attributed largely to the expenses of the agents in having to travel over so much ground to make their selection.

It is the means of showing our people the accessibility for establishing a market where the animals can be collected together, for the convenience of buyers, and arrangements are now in progress for holding a mammoth "Horse Fair" in connection with "Canada's International Exhibition," which will be held in St. John, New Brunswick, 23rd of this year and closing October 3rd. By consulting the map your readers will readily see the great advantages of St. John for the sale and shipment of stock, being central from all points in the maritime provinces where some of the finest animals are now being raised, with both railway and water communication offering cheap transit from all important points. In addition to this it is the Atlantic terminus for the Canadian Pacific Railway, which taps all important sections of Ontario and Quebec, and also offers the best of communication with the stock ranches in the Canadian northwest. Through the International and Grand Trunk Railways other important points are made accessible. It is most central for buyers both from England and the United States as well as the most convenient point for shipment to markets.

In addition to this it is, under any circumstances, the best season for buyers of stock of all kinds to visit Canada at about the date named, as the best stock is collected together at the numerous exhibitions held in various parts of the country at that time, all of which can be visited at a small expense. I shall be pleased to communicate with any intending buyers, and trust to make some further announcements through your advertising columns.

Yours respectfully,

IRA CORNWALL,
Secretary "Canada's International Fair and Exhibition,"
St. John, New Brunswick, Canada,
March 6, 1891.

Bathurst Jottings.

April 20th, 1891.

Church Notes.—St. George's day.—The dedication feast of St. George's Church will be observed by special service in the church at 10 a. m. and 7 p. m.

Rev. Father Barry has advertised for tenders, for the contract for building the Presbytery which is to be shortly erected. The church is a fine stone building and the priest's house is to be of the same material.

RAILWAY.—The Carleton Place line is opened up again, and those living along its borders I am sure will feel glad.

A gentleman of this place is trying, I am informed, to purchase the residence of Dr. Bishop.

THE ICE HAS, I may almost say, completely left the harbor, and I am informed that several vessels are bound to Bathurst from various ports in Europe. There was a light fall of snow this morning, but it was only noticeable for a short time, but as the sun rose it soon disappeared.

THE STANDARD BRED Trotting Stallion Redemption, "No. 4496, recently imported from Vermont, U. S., is in fine condition, and looks well. Quite a number of persons come to inspect him from time to time and they all agree that he is the best horse that has ever been brought to Bathurst. Mr. Rogers intends to travel him the first of May, in Gloucester county, from Pokeshow to Jacquet River.

Jack Roy.

CAMPBELLTON CIVIC AFFAIRS.

CAMPBELLTON, April 19.—The candidate for the mayoralty addressed a large and enthusiastic meeting in Baker's Hall last night. Alexander spoke first and charged Mayor Doherty with trifling with the affairs of the town and with opposing to incorporation and ready to destroy the benefits that would otherwise be derived therefrom by the citizens. He attacked the financial affairs of the town and ridiculed the recent published town accounts, showing that several heavy payments made by the town were not included therein, some of which were made to members of the council. His exposures created a genuine sensation. Doherty attempted a reply but was so much embarrassed by Alexander's attack, he next attacked the "Pioneer" as a filthy sheet.

H. F. McLachly next spoke at length in favor of Mr. Alexander, who is also supported by John McAllister, Esq., M. P., and W. Murray, Esq., M. P., and is said to be sure of his election.—Times.

PLEA'S CURE FOR CONSUMPTION AND ERMODY FOR CATARRH are sold by E. E. Street, Newcastle.

Crown Land Report.

On Monday we received a copy of the above report for 1890. The following figures are given as the receipts for 1890, as compared with those of 1889.

	1889	1890
Land Sales	\$ 4,928.55	\$ 1,852.50
Labour Pensions	89.00	83.00
Installments	387.35	332.25
Sales, Timber Licenses	4,569.13	1,859.00
Renewals of Timber Licenses	17,588.00	17,340.00
Net Stumpage	113,322.60	110,897.00
Miscellaneous	8,909.38	8,559.61
Decrease	\$8,715.57	\$0

The receipts for lumber lands at public auction during the last year were \$2,400 less than in 1889.

Notwithstanding the reduction of the stumpage on spruce and pine logs from \$1.25 to \$1.00 per thousand superficial feet, the net receipts from this source for 1890 is within \$2,500 of those of 1889.

The statements showing the amounts paid for selling, collecting and protection of number for 1890 gives the total amount as \$9,545.34, an increase of \$181.01 over the preceding year, caused by the fact that it was deemed necessary in the interests of the department to have the reports from some sections of the Province should be investigated, and this work required a re-survey in some cases and in others an investigation, the cost of which is properly chargeable to this account. \$97 grants were issued during the year, in British Columbia, 237 acres, Gloucester 70, 3997 acres, Northumberland 29, 2704 acres, Kent 51, 483 acres.

Two mining licenses of 1 sq. m. each were issued for Gloucester county, and one for Northumberland.

Surveys of land for settlement were made among which were 5000 acres, East of Rogersville in the counties of Northumberland and Kent, and are reserved for settlers under the Labor Act.

The report goes on to say:—"Owing to confusion and difficulty experienced in the Department obtaining correct account of Crown Lumber cut by parties operating on both Crown and adjoining lands, it was deemed advisable to insert the following regulations in Licenses:—Where parties cutting on granted or private lands as well, the parties so cutting shall have two separate and distinct bows, and shall show what lumber is cut from licensed Crown Lands in one bow, and what lumber is cut from granted lands in the other bow, and shall mark each log coming from Crown Lands with a separate and distinct mark, from those coming from granted lands."

The following amounts appear against the leading Northern operators for stumpage:—

George Burchill	1404.00
K. F. Burns	5181.65
John Culligan	222.00
E. B. Dwyer	173.00
George Ditch	110.00
Scott Fairley	896.95
Roger Flanagan	148.26
H. H. Hachey	508.00
E. Hutchinson	190.32
High Lamont	258.38
Samuel Langham	80.00
W. S. Loggie	385.38
Timothy Lynch	2938.85
Wm. T. Manning Extract Co.	6029.75
George Moffat	1665.77
J. P. Moffat	535.80
John McLaggan	2855.59
Geo. K. McLeod	5063.18
Nahb McNair	405.00
New Brunswick Trading Co.	9743.01
John O'Brien	394.00
William O'Brien	609.00
Henry O'Leary	316.00
Thos. Power	1350.00
Wm. Richards	1946.29
D. & J. Ritchie & Co.	5062.00
James Robinson	2227.01
Edward Sinclair	638.15
J. B. Sullivan	1429.00
Daniel Sullivan	12,099.33
Robert Swin	699.00
Thomas Weaver	337.00
Thos. W. Windsor	108.00

The statement on page 11 shows the quantity and kind of lumber cut from Crown Lands during the season of 1889-90, and the amount of stumpage charged thereon:—

Kind of Lumber	Sup. feet	Stumpage
Spruce & Pine logs	65,539,612	\$95,607.64
Herkiss poles	12,139,048	7,316.31
Clear logs	7,416,201	3,773.51
Hardwood logs	890,462	89.40
Hardwood timber	309,18,000	\$32.41
Spruce timber	51 "	25.50
Cornwood	1,366 cords	25.84
Hemlock bark	122 cords	122.00
Shingles	615 m	123.00
Railway sleepers	64,638 pieces	1,291.76
Clear poles	70 "	40.00
Ship railway sleepers	14,800 "	288.00
Telegraph poles	5,163 "	225.50
Clear logs	7,416,201	3,773.51
Clear posts	6,300 "	44.50
Cedar rails	450 "	12.50
Brake rails	5,220 "	51.52
Knees	9,419 "	678.86
Wood-bunks	318 "	10.00
Spruce poles for coal lids	1,000 "	7.75
Raffing pins	63 m	6.25
Shingle wood	22 cords	6.25
Box wood	264 "	17.00
Total Stumpage charged	1,280,000	\$111,475.37

The Appendix contains a number of acts of Parliament the carrying out of which come under the superintendence of the Crown Land Department.

Chatham Notes.

(From the World.)

REPAIRING.—Mr. W. S. Loggie has carpenters and caulkers at work on the fleet of schooners, putting them in shape for the sailing season. It is marine railway on Ritchie's wharf enables him to have his vessels repaired on land.

A CAN-HANDLER.—Raddock's machine shop is hard at work filling orders for the can-handling machine invented by Mr. Raddock. He has orders for them from different parts of the Dominion.

THE ICE BLOCKADE BREAKING UP.—Mr. Thomas Fitzpatrick and two others drove across the ice here on Wednesday. On Thursday it started at Newcastle, and there was clear water off that town by 5 o'clock in the afternoon. Friday morning the Tracelac mail was hauled across here on a hauled. There was open water at both sides of the road, several persons crossed during the forenoon; about 12 o'clock the ice began to move and it ran steadily all the afternoon. It was very soft, and was ground into snow whenever a jam occurred. The river is virtually clear of ice to-day.

A SCOTCHMAN DOG.—Mr. Fraser Mackenzie's Irish setter, Jalap, is an affectionate and intelligent brute. When his master has gone to Newcastle by steamer the dog bounds down to the wharf every time the boat whistles until it meets him. Mr. Mackenzie went to Newcastle on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the seats, and then bounded away home, where he found his master, who had just been driven from the station in the mail wagon. This dog would have a good time on Thursday, and when the mail wagon drove up to the post office Friday evening, Jalap, who was at the pharmacy as usual, leaped into it, smelt of the

The unfortunate fellow was a Dane, one of the crew, and he was seen at a short distance breasting the waves. The bark was brought round, answering her helm instantly, and the vessel was soon on her way to the struggling man.

Suddenly two large alligators were seen to attack with an eagle-like swoop and descend the poor fellow in a terrible manner. Both birds dived at him, and to those on board the vessel it seemed as if they were endeavoring to gouge out his eyes with their hooked bills, while with their wings they kept beating the unfortunate man about the head.

The sight was a terrible one, but did not last long, as the bark sailed over the course where the Dane had fallen overboard about seven minutes before, but he was nowhere to be seen. There was a doubt in the minds of those on board as to the poor fellow was killed by the alligators, and he was a powerful swimmer and seemed to fight desperately for a few moments with the ferocious birds.

ASADSIGHT.

One of the most pitiful spectacles was witnessed at the large office yesterday.

One hundred and fifty-three strange passengers landed, rescued from the sea when the "Utopia" went down. They were a motley, forlorn and broken hearted company. The very clothing that covered them was donated in Gibraltar, and as for their luggage, they had none, for their bags, boxes and trunks are at the bottom of the ocean.

It was not so much their poverty, though, that rendered the scene pathetic. They were the mere remnants of once happy and hopeful families. There were fathers who had lost their wives, wives who had lost their husbands, children without either parents and parents without children. In one instance a father and his son were all that was left of a family of eight. In another, a fine little fellow of nine had lost not only father and mother, but all his brothers and sisters.

When the panic stricken crowd found themselves in the water they clung to whatever came handy and were powerless to help each other. The boats picked up this man and that woman, this wife and that husband, did all that brave sailors could to save everyone, but when the roll was called there was hardly a group without a break.

When told that they had better return to Italy they shook their heads. Their homes were broken up, they had no money, their relatives were in the sea, and they preferred to face life in this new country.—New York Herald, April 13.

NOVA SCOTIA MILITIA TROUBLE.

The Sun announced some days ago that General Hebert, commander of the Canadian militia, was in Halifax investigating some irregularities. Yesterday Major Gordon, of the royal school of infantry, Frederick, received orders from General Hebert to proceed to Halifax to take charge of the militia department provisionally. The trouble in the Nova Scotia militia department began it is understood, two years ago, when possibly through some misunderstanding Paymaster Murray made some allowances to officers which the department officials refused to sanction. The money was withheld from the paymaster, who was instructed to secure a refund from the parties who had secured it. These persons refused to return the money, and Paymaster Murray found himself minus the amount. It is alleged that at the military camp the next season Paymaster Murray, in order to reimburse himself, charged the detachments with money which were not actually paid by him, placing names on the pay roll of persons who were not in the camp. One of the questions said to be in dispute is whether he did this (suffering to have been done) on his own motion or under authority of Col. Worley, deputy adjutant general of the district.—(See John Sun.)

THE AUSTRALIAN CONFEDERATION.

The Australian confederation is a movement of the utmost importance in British annals, because it ends conclusively the anticipation of a world encircling British Empire controlled from the British capital. It is always a proud emotion when the Englishman reads in the Times that yesterday despatches were sent from the Foreign office to China, East India, the West Indies, the Gulf of Mexico, the Mediterranean, Canada and Australia, "whose morning drum beats, following the sun and keeping company with the hours, circles the earth with one continuous and unbroken strain of the martial air of England." But the Australian confederation ends only the authority not the sentiment. The loyalty of the British heart to England will still encircle the earth with the morning drum beat and all the more warmly that it will be a feeling unweary by the jealousies of power.—Harper's Weekly.

NEWS FROM EVERYWHERE.

The Canadian cruisers will go into service about May 1st, to protect the Canadian fisheries.

The New Brunswick Telephone Co. expect to introduce their system of telephonic communication in St. Stephen and Bathurst during the summer.

Sing Sing, N. Y., 16th.—Warden Brush is preparing to electrocute murderers McElvaine and Trezza some time next week. The apparatus has been satisfactorily tested.

Fred. Ridden, Halifax, aged 15, son of Philip Ridden, printer, bought a revolver Saturday, and while playing with it on Sabbath accidentally shot himself through the brain. He never uttered a sound.

The argument before the United States supreme court in the case of the schooner Seyward, involving the question of jurisdiction of the United States over the Behring Sea, has been postponed until 26th inst., as the government is not ready with its case.

What is described as probably the rarest stamp in existence has been sold in London for £250. It is an American issue of 1840, and its face value is five cents. The original purchaser was a remarkably good investment, if the buyer had only known it.

NEWARK, COX, April 18.—Burglars fired a small barn on the out skirts of the borough last night and while the police and others were watching the blaze they entered Jackson's jewelry store, broke open the safe, and made off with \$10,000 worth of jewelry and diamonds.

VIENNA, April 18.—While services were being conducted in the cathedral at noon yesterday a sneaker in the congregation suddenly drew a revolver and shot the priest, who fell dead before the altar. The man next fired at an acolyte, but missed him. He then killed himself. The motive assigned for the double crime is a desire for revenge.

MOXTON, April 17.—Wm. Doherty, a native of New Ireland, A. County, was found dead in a field near Albert on Thursday. He had been missing two weeks. It is supposed he died from exposure while under the influence of liquor. He was 50 years of age and unmarried. He was a carpenter and was known all over the county.

ANDERSON, IND., April 14.—George Stark, a fireman on the Cincinnati, Walsh & Michigan Railway, died Sunday night in horrible agony. Excessive use of cigarettes is said to have caused his death. A short time after his death his body turned a livid green. Physicians claim his death was due to arsenical and nicotine poisoning.

DENVER, COLO., April 20.—It is alleged that the dam of the reservoir just completed by the Denver Water Storage Co. is poorly constructed and is in an unsafe condition. The charges are denied by the company. The dam is 60 feet high, and drains 300 square miles of country. The capacity of the reservoir is many millions of gallons. The matter probably will be brought into court as great uneasiness exists from fear of a possible break.

MONTEREAL, April 18.—Information was received in this city to-day that the two French-Canadian settlements—St. Anne and Baileton—on the St. Lawrence were flooded. The water being six or eight feet up on the streets, the inhabitants have been compelled to take up their refuge in the top stories and food is being taken to them by means of boats. The water showed no signs of abatement this morning. The blockade of ice is causing trouble.

MONTEREAL, April 16.—London advices state that Grand Trunk stock fell two pounds per share yesterday in consequence of the trouble at the annual meeting. To-day the stock is still falling. It is stated Sir Charles Tupper, who reached London yesterday, will be present at the annual meeting of the shareholders to be held a fortnight hence and reply to Tyler's accusations and denial.

SIMLA, April 18.—The British forces have engaged and defeated a large body of Miranxas. The British troops carried every thing before them and completely routed the Miranxas. Several English soldiers and two English officers were severely wounded. A general advance of British troops will be made to-day. The enemy's loss in the engagement which has just taken place is unknown but it is believed to have been heavy.

CALCUTTA, April 16.—A despatch from Benares, capital of the Benares district, and one of the most ancient cities in the world, announces that serious religious disorders are taking place there. The disturbances are owing to the fact the local authorities have commenced the demolition of the temple, which has been a place of pilgrimage visited by the Hindus and Buddhists from all parts of India, in order to provide a site for a new waterworks.

MONTGOMERY, ALA., April 16.—Willie Mcnemish, aged 13, became angry with his mother Tuesday and told her he was going to commit suicide. His mother merely laughed at the threat. The boy procured a rope, and before his mother's eyes made his preparations for death. He fastened the rope to the ceiling and, putting the end around his neck, got up in a high chair and jumped.

Just before the leap he said: "I have spilt you now, mamma." His neck was broken. His mother saw him as he made the fatal spring.

A cablegram from Rome having stated that the Postmaster of New York had refused to permit a number of Italian newspapers to be circulated and had returned them to the Italian publishers with a statement that entry into the United States was forbidden, Postmaster Vancott said to-day that the statement was true, but did not apply to Italian newspapers alone, but also to the newspapers published in other foreign countries. Thereafter that the papers were returned because they had literary violations.

The return of the Italian newspapers had nothing to do with the New Orleans affair. They were sent back long before the lynching occurred. From the effects of poison taken at the wedding of Mr. Snooks and Miss Hor at Lyndon, Ky., Wednesday evening, B. Frank Guthrie, one of the wealthiest residents of Louisville, died Saturday morning. Fourteen of the guests are ill. Every symptom of the sufferers indicates arsenic, and if the physicians are correct in their diagnosis, a most diabolical crime has been committed. Mr. and Mrs. Snooks started on their bridal tour soon after the wedding, and were taken suddenly ill in Cincinnati on Thursday and compelled to return to Louisville. The condition of both is now said to be critical.

Sunbury, Pa., 16th.—General G. W. Strick, who has just retired from the office of Mayor of this city, was arrested and brought before Justice Weaver on the charge of swearing twenty-seven times. The Justice fined him sixty-three cents per oath, or with costs \$20 in all. The ex Mayor had a law suit last week in regard to the rent of a piece of ground before the same Justice, and while there got into controversy with the prosecutor, at which time the oaths were uttered.

ed. Jacob Bartholomew, a personal and political enemy, who was in the office at the time, made memoranda of the oaths, and brought the suit, which created much amusement and excitement.

A fine fare of salmon, caught at St. Margaret's bay, near Halifax, were brought to that city Thursday, and were sold to a fish dealer for 45 cents per pound, the whole fare netting the owner about \$60.

Referring to the New Orleans lynching many London papers discuss the question why the Italian murder returns exceed every other nation on earth. The St. James' Gazette, quoting Bos's statistics on homicide, shows that the Italians are eight times more numerous than other Europeans. In Italy ten persons are tried every day for murder and eight are executed. A host of murders are never recorded. Italian at home, it says, are worse than Italians abroad. The conclusion is the Italian has murder in his blood and his rascally excitability is heightened by the warm climate and the national habit of the use of the knife.

PARIS, April 10.—A despatch from Oran says that an enormous reservoir of water, 120 feet below the surface, has been discovered at El Golea, a small caravan station in the midst of Sahara desert. The reservoir was discovered while a number of workmen were engaged in sinking a well at El Golea. The shaft sunk already gives 40 gallons of good clear water per minute, and it is expected that this amount can readily be increased should it be found that a larger quantity is necessary. The discovery is of the highest importance, and will undoubtedly tend to develop the caravan trade of El Golea which is one of the stopping places in Sahara desert of caravans which travel across the region. It is the first time that water has been found at so slight a depth in the Sahara.

MONTEREAL, April 16.—The Star has another cable this evening from London stating that Grand Trunk troubles which were as follows: "Great interest is being taken in financial circles in the crisis in the management of the Grand Trunk, and every speculation is indulged in as to the result of the poll on the election of directors announced at Tuesday's meeting by Sir Henry Tyler. In the meantime the directors and those opposed to the present management are working tooth and nail to secure the representation of their adherents, either in person or by proxy, at the election next Tuesday week. It is likely that every share of the Company's stock will be voted upon. The directors express themselves as confident of winning at the poll, which was deferred until Tuesday week at the express request of the Board. In the meantime Grand Trunk stocks are still slowly falling."

MR. MARTIN P. BLACK DEAD.—Mr. Martin P. Black, son of the late Hon. Wm. A. Black, died this morning at 10 o'clock, aged 76 years. Mr. Black had been ill for some months. He was a bachelor and resided with his sister in the beautiful residence on Gillingham street, formerly occupied by his father. The Methodist body have lost in him a most liberal patron, he being a generous contributor to their church and educational institutions. His family connections throughout the maritime provinces are very large, and besides them a large number of friends will mourn his departure. Mr. Black was probably the richest man in Halifax. His estate will doubtless realize from eight hundred thousand to one million dollars. The family accumulated their wealth in the hardware business.—Halifax Chronicle.

New Advertisements.

Fashionable Millinery.

THE Subscriber will have ready for inspection in the brick Store recently occupied by Bryanton & Clarke on and after

Thursday, April 23d,

an entirely new Stock of Fashionable Millinery.

An inspection is invited to my Stock of

HATS & BONNETS

with all the necessary Trimmings required which will be made up by a first class Milliner at reasonable prices. Orders by mail will receive prompt attention.

MRS. C. O'CALL,

Newcastle, April 20, 1891.

Cottage to Let.

THE newly erected Cottage on the Queen's Highway adjoining the Suburban residence of J. H. Johnston, 7 Rooms. For further particulars apply to

JOHN B. WILLISTON.

Newcastle, April 14, 1891.

For Sale.

One 2 Year old Colt and Two 1 Year old Colts.
