they are directed. For the success which he has been pleased to vouchsafe to them hitherto, we desire to render thanks to his name; and we would take comfort and encouragement from it, in looking forward to what yet remains of the field we have to traverse, and the work we have still to accomplish.

We agree with you in deprecating discussion and division and acrimonious controversy in matters of religion. We regard the appearance or introduction of such a spirit into any land as a grievous calamity and affliction—the fruitful source of manifold evils—a root of extreme bitterness—as repugnant to the brotherly kindness and charity of the Gospel—and eminently obstructive of the progress of the Redeemer's kingdom.

It is our sincere desire and fervent prayer that we may be saved from its influence in every form and in every degree; and you rightly interpret our mission, and do us and our constituents no more than justice, when you look on us as "coming amongst you, not for the purpose of agitation and excitement, but simply with the design of manifesting sympathy in your spiritual welfare, and the desire to advance it;" and when you "regard our visit as an evidence of brotherly affection now, and an earnest of assistance in the future."

We are, as you justly suppose, deeply impressed by the extent and urgency of the spiritual destitution which has already come under our observation; and you may rest assured that nothing will be wanting on our part, if it please God to restore us to our native land, which may tend to quicken the zeal or guide and facilitate the exertions of our church to supply this destitution.

The kind and Christian wishes you express in our behalf, we cordially reciprocate. To the good and holy keeping of our common God and Father, we commend you. May He enable you and every portion and every individual of his people in these Provinces duly to improve the means of grace which they now severally enjoy, be the measure thereof great or small; and may He, in his own time, give to all in every place this inestimable blessing in pure and rich abundance.

School Discipline. The power of kindness, in school teaching, is beautifully illustrated in the following anecdote, which we extract from the answer of Hon. Horace Mann to the Rejoinder of the Masters:

In a town not thirty miles from Boston, a young lady, who aimed at high standard of governing without force, and had determined to live or die by her faith, went into a school which was far below the average, in point of good order. Such were the gentleness and sweetness of her manners, and intercourse with her pupils, that for a few days, there was nothing but harmony. Soon, however, some of the older pupils began to fall back into their former habits of inattention and mischief. This relapse she met with tender and earnest remonstrances, and by an increased manifestation of interest in them.

But it was soon whispered among the transgressors that she would not punish, and this added at once to their confidence in their numbers. The obedient were seduced into disobedience, and the whole school seemed rapidly resolving into anarchy. Near the close of one forenoon, when this state of things was approaching a crisis, the teacher suspended the regular exercises of the school, and made an appeal, individually, to her subordinate pupils. But, finding no hope giving response from their looks or words, she returned to her seat, and bowed her head, and wept bitterly. When her paroxysm of grief had subsided, she dismissed the school for the morning. After intermission she returned, resolving on one more effort, but anticipating, should that fail, the alternative of abandoning the school. She found the pupils all in their seats. Taking her own, she paused for a moment, to gain strength for her final appeal. At this juncture of indescribable pain, several of the ringleaders rose from their seats and approached her. They said to her that they appeared on account of the school, and particularly on their own, to ask pardon for what they had done to express their sorrow for the pain they had caused her, and to promise, in behalf of all, that her wishes should thereafter be cordially obeyed.

Her genuine sorrow had touched a spot in their hearts which no blows could ever reach; and, from that hour, the school went on with a degree of intellectual improvement never known before; and, like the sweet accord of music, when every instrument has been attuned by a master's hand, no jarring note ever afterwards arose to mar its perfect harmony.

Dow, Jr. has recently published a sermon on "Fire, water and women." We extract that portion relating to women.

"Woman is often the occasion of much trouble and mischief to man. For her he gets drunk—for her he leaves Paradise—for her he blows his brains out—and for her he makes a confounded fool of himself, in a variety of ways. Notwithstanding, woman is a blessing. Her influence over our rough

hewn sex, is as mild as the moon upon the tides, and twice as powerful. The moral fragrance that surrounds her is as sweet as the odors that arise from a field of white clover; and her beauty makes her one of the most interesting living ornaments that wear either legs or wings; I don't care whether you mention a bird of paradise, butterfly or straddle-bug."

### POETRY.

#### Royal visit to the Fleet at Spithead.

BY ALARIC A. WATTS, ESQ.

"Britannia rules the waves!"  
List to thrilling strains,  
That tell us there shall be no "slaves!"  
Throughout her wide domain!  
That whoso'er her flag may wave  
Her "charter" won from Heaven, she'll  
Still potent to destroy, or save—  
Her empire o'er the deep!

Hark to the cannons' roar  
As the Island Queen sweeps by!  
To the cheers from sea to shore,  
That would seem to rend the sky!  
Hark, again, what thunders peal,  
As those "Wooden Walls" reply,  
Till their decks begin to reel  
With that burst of loyalty!

All hail our Ocean Queen!  
Hail, too, our "Wooden Walls!"  
What dreams of glories that have been  
That gallant ships recall!  
What heroes of the mighty deep,  
That long have run their race,  
Uprise from their fame-hallowed sleep,  
In this familiar place!

Too war-worn to take part  
In your heart-stirring scene,  
Like some bright star that dwells apart,  
One ship afar is seen:  
Safe, in her honored age, she sleeps  
From storms she once might well defy;  
But still the post of honour keeps—  
The tidoloon of Victory!

And bearing many a glorious name  
Of hero-might, or battle-foe,  
Snatched from the brightest scroll of fame,  
Are ranged upon gallant sisterhood.  
Meet spectacle for England's Queen,  
Fit homage to her island reign,  
Whose cherished boast hath ever been  
Her empire o'er the main, &c.

"Britannia rules the waves!"  
So says that thrilling song  
That tells us there shall be no slaves  
Her faithful sons among;  
That whoso'er her flag may wave,  
That charter, won from Heaven, she'll  
Still potent to destroy or save—  
Her empire o'er the deep.

THE WIND.  
The wind is a bachelor,  
Merry and free;  
He roves at his pleasure  
O'er land and o'er sea;  
He ruffles the lake,  
And he kisses the flower,  
And he sleeps when he lists  
In a jasmine bower.

He gives to the cheek  
Of the maiden its bloom,  
He tastes her warm kisses,  
Enjoys their perfume,  
But, truant like, often  
The sweets that he sips  
Are lavished next moment  
On jowlier lips.

A RETORT.  
Deacon Marvel was asleep in Church. At every emphatic word in the sermon, as if the Deacon attended to the discourse even when sleeping, his head nodded, and every nod seemed to bring him nearer the floor. The parson was dismayed; what should he do? Once already had the deacon flown from the gallery, and now it appeared he was about to repeat the experiment, and alas! with no subject far woman to break his fall.

Suppressing a momentary rising of wrath and mortified vanity, Elder Mack resorted to several innocent advances to arouse and save the slumbering saint. He lifted up his voice like a trumpet; nod went the head. He lowered his tones to a gentle murmur; nod, nod. He pounded the pulpit with his clenched fists; nod, nod, nod. The sweat started on his brow and trickled down his nose in his excitement, and with his eyes rolling in a sort of frenzy, he slammed down the big bible upon his desk with a tremendous noise; nod, nod, nod, as before.

The audience were surprised and delighted with the unwonted energy of their old par-

son; they imagined he had received from on high a new and sudden inspiration, little fancying where he borrowed his ardor. And now Elder Mack, growing desperate, began to hurl texts of scripture at the unsteady head of the sleeper. "It is high time to awake out of sleep," cried he. "But in vain, Deacon Marvel did not heed it. 'Wo to them that are at ease in Zion,' he shouted. The Deacon nodded his assent. 'Awake, oh sleeper, and arise!' yelled the maddened divine. The only answer was another nod, and a most threatening lurch of the deacon's whole body."

Elder Mack could stand it no longer, but called out at the top of his voice, "Deacon Marvel! Deacon Marvel! it is hard preaching to a sleeping congregation!" The Deacon's head flew up to its place at once, and before he could command his tongue, he thundered back, "Elder Mack, Elder Mack, it's a darn'd sight harder to listen to a sleepy sermon!" The effect of this retort was irresistible, and the assembly broke out in a paroxysm of laughter.

### THE IRISH PRESBYTERIAN CHURCH.

Dublin.—The General Assembly again met on Monday in the Scotch Church, Capel Street, when a discussion arose upon a memorial from Belfast, which prayed for the abandonment of the *Regium Donum*, on account of the passing of the Maynooth Bill. The memorial thus concluded:—"That your memorialists, as members of the Presbyterian Church in Ireland, most earnestly, but most affectionately and respectfully, pray your reverend body to consider the propriety of taking immediate steps to render the ministers of your communion independent of all state endowment, your memorialists hereby declaring their determination to contribute, as in duty bound, according to the ability wherewith God may bless them, towards a fund for supplementing to all such ministers an adequate support."

JAMES GIBSON, Esq., as a commissioner on the part of the memorialists, supported the prayer.

The Rev. Dr. CARLILE having left the chair, proceeded to address the meeting. He said that in taking his stand there, no person could accuse him of showing favour towards Popery.

Should they throw away £35,000 a year because the Roman Catholics gained £30,000? Sir Robert Peel would say:—"Gentlemen, there is the money we require to endow Maynooth." There was another point, too—

if it was their duty as Christians to resign the grant, because Government had endowed Popery, they would be bound to call upon the Established Church to do the same. What would the Roman Catholics like better? How they would be delighted to take possession of what the Presbyterians had so magnanimously relinquished; and, besides, what was the alternative? He objected to the voluntary system. He would not object to be supported by Christians, but to receive support from those who might be enemies to Christ was more withering and blasting than to receive any payment from the hands of Government.

The Rev. Dr. STEWART opposed the memorial, and concluded by proposing resolutions in favour of the annual grant to Irish Presbyterians.

After some discussion, the resolutions proposed by Dr. Stewart in favour of the continuance of the *Regium Donum* were adopted.

Women.—The right of education of this sex is of the utmost importance to human life.—There is nothing that is more desirable for the common good of all the world; as they are mothers and mistresses of families they have for some time the care of the education of their children of both sorts, they are intrusted with that which is of the greatest consequence to human life.

As the health and strength, or weakness of our bodies, is very much owing to their methods of treating us when we are young, so the soundness and folly of our minds is not the less owing to their first tempers and ways of thinking, which we eagerly receive from the love, tenderness, authority and constant conversation of our mothers.

As we call our first language our mother tongue, so we may as justly call our first temper our mother temper, and perhaps it may be found more easy to forget the language than to part entirely with those tempers we learned in the nursery.

It is therefore to be lamented, that the sex, on whom so much depends, who have the first forming both of our bodies and our minds, are not only educated in pride, but in the stillness and most contemptible part of it.

Girls are indulged in great vanity; and mankind seems to consider them in no other view than so many painted idols, who are to allure and gratify their passions.—[Law's Serious Call.

For the Standard.

Mr. Editor.—A few days ago I was intimated to me by a letter, that Mr. William Kerr of this Town, stated to Mr. William Gilmore and Dr. Blair in St. Stephens, "that I had obtained fifty pounds, from the Established Church of Scotland, after the disruption, and immediately before giving in my adherence to the Free Church, said then received, or was to receive, fifty pounds from the Free Church also."

This statement, as I have been informed, has been widely circulated, I therefore beg leave through the medium of your valuable Journal, to give to it a public contradiction, in so far at least as it refers to assistance received from the Church of the Establishment; for never can it be shown that I either obtained or applied for aid from that Church, after the disruption took place; as Mr. Kerr gave as the author of the above assertion the Rev. Mr. Cassilis, I immediately wrote to that reverend gentleman, upon the subject, but in his answer to my letter, he declared that he neither did, nor could he assert such a thing, I must now therefore leave the Minister of St. Patrick and the Elder of St. Andrews, to settle this matter as they best can.

I am &c.  
ANDREW STAVES,  
Late Presbyterian Minister at  
St. Stephen & St. James  
St. Andrews, 26th Aug. 1845.

Don't be Proud.—After all, take some quiet, sober moments of life, and add together the two ideas of pride and man, a creature of a span high, stalking through infinite space, in all the grandeur of finiteness. Perched on a little spot of the universe, every wind of heaven strikes into his blood the coldness of death, day and night, as the dust on the wheel, he—rolled along the heavens, through the labyrinth of worlds, and all the system and creations of God are flitting above and beneath. Is this a creature to make himself a crown of glory—to deny his own flesh, and to mock at his fellow, sprung from that to which both will soon return?

Does he not suffer? Does he not die? When he reasons, is he never stopped by difficulties? When he lives, is he free from pain? When he acts, is he never tempted by pleasure? When he dies, can he escape the common grave? Pride is not the heritage of man, humility should dwell with frailty, and stone for ignorance, error and imperfection.

Loughatle Incident.—In the new melodrama recently got up at the Charming Theatre, a famous robber is taken and beheaded, and his head is exhibited to the audience by being placed on a table in the centre of the stage. To accomplish this to the life, the robber's body is fixed in the body of the table, and his neck is fitted into a hole in the centre of the table, so that to the audience it looks precisely as though the man's head had been cut off and stood up in a pool of its own blood upon the table. On the fifth night of the exhibition, a wag got into the third tier of the stage boxes, and by some unexplained means, managed to blow a lot of Scotch snuff over the stage, just at the time the head was placed on the table. As soon as the snuff had begun to settle down, the head commenced sneezing, and as the sneezing could not be stopped, the curtain fell amid roars of laughter and confusion.

Curious Anecdote of Ruthven House.—The ancient house of Ruthven, in the Highlands of Scotland, once the seat of the unfortunate Gowrie, consists of two square towers—built at different times, and distinct from each other—but now joined by build, and of their children of both sorts, they are intrusted with that which is of the greatest consequence to human life.

As the health and strength, or weakness of our bodies, is very much owing to their methods of treating us when we are young, so the soundness and folly of our minds is not the less owing to their first tempers and ways of thinking, which we eagerly receive from the love, tenderness, authority and constant conversation of our mothers.

As we call our first language our mother tongue, so we may as justly call our first temper our mother temper, and perhaps it may be found more easy to forget the language than to part entirely with those tempers we learned in the nursery.

It is therefore to be lamented, that the sex, on whom so much depends, who have the first forming both of our bodies and our minds, are not only educated in pride, but in the stillness and most contemptible part of it.

Girls are indulged in great vanity; and mankind seems to consider them in no other view than so many painted idols, who are to allure and gratify their passions.—[Law's Serious Call.

# ST. ANDREWS TOTAL ABSTINENCE SOCIETY.

The First Annual Meeting of this Society, was held at the Town Hall, on Tuesday evening the 26th August, 1845.

The President opened the meeting by briefly stating the objects thereof to be the hearing of the Report of the Committee, and the Election of Office Bearers for the ensuing year, after which the Secretary read the following

## REPORT.

In presenting to your Society their First Annual Report, your Committee feel that there is much cause for thankfulness, to the Author of all good things, for the success with which the efforts of your Society in the cause of Total Abstinence, have been rewarded while at the same time, the great degree of intemperance which still prevails, calls loudly for increased zeal and diligence on the part of every member of this Society, and every true friend of Total Abstinence, and of his fellow man. The Society was regularly organized on the Fourteenth of August, 1844, by the adoption of Rules for its government, and the election of Office Bearers for the year now past, since which time, the monthly meetings of the Society, have been (with one or two unavoidable exceptions,) regularly held on the First Monday in each month; and your Committee feeling confident that these meetings have had the effect of promoting the cause very materially, and exciting a deep feeling of interest there-in throughout the Community, beg to recommend that in future the monthly meetings be regularly held, and strictly attended, by the members to the utmost of their power.

At the time of its organization, your Society consisted of One Hundred Members, and at the present time its number is Two Hundred and fifty four, being an advance of numbers, which your Committee, are confident, will be viewed with much pleasure by your Society, and have the effect of stimulating you, to increase your efforts in extending the blessings of Total Abstinence throughout this Community, to a still greater extent than has yet been done.

The number mentioned as belonging to your Society at present, is exclusive of the names of those persons which your Committee found it necessary to erase from the pledge in consequence of their repeated violations of the rules; and who, after having been expostulated with from time to time, upon the subject, were found to be so careless and indifferent to the consequences of such violations, that your Committee felt it to be their duty to inform them—that they were no longer considered members of your Society.—Your Committee however, still cherish a hope, that some at least if not all of those persons, will again sign the pledge of Total Abstinence; and depending for aid upon Divine Providence, and not upon their own strength, endeavour to adhere strictly, and unflinchingly to the Rules of your Society, as being calculated to promote both their temporal and eternal welfare.

At a meeting of your Society, held in March last, a Committee was appointed for the purpose of opening a Correspondence with the St. John Total Abstinence Society, in relation to a Temperance Union, the formation of which was then contemplated.—They having addressed the St. John Society by letter, received an answer under date 30th April last, from the Corresponding Secretary of that Society, stating the proposed objects of the Union, and amongst other things mentioned "the accumulation of funds for the promotion of Temperance, (by means of Lectures, Newspapers and Tracts,) in those parts of the Province, where otherwise from a variety of causes, it cannot be expected to flourish."—This your Committee beg particularly to recommend to the notice of your Society, as they conceive that this Committee is one which might be much benefited by the above mentioned means, of diffusing information in relation to the blessings of Total Abstinence. It is further stated that "beyond any doubt the greater part of the funds must be raised in the City of Saint John, and that other places would probably receive a share of the benefits much greater than the amount of their respective contributions." This your Committee conceive is a strong inducement to you to use all the means in your power in assisting in the formation of the Union, as it is well known to your Society, that it is a matter of considerable difficulty to obtain funds for the purpose of procuring Lectures, and if by contributing a small proportion of the necessary funds, a great amount of good might be done, which your Committee feel confident would be the result, they are satisfied, that your Society will see at once the propriety of endeavouring to forward the proposed object.

In order to show, that the use of intoxicating liquors still prevails to a fearful extent in this community, your Committee beg leave to mention, that there are now in this Town and its Vicinity, no less than nineteen taverns, or places of entertainment, where ardent spirits are sold by License, the traffic in the intoxicating cup must be large, in order to sustain so great a number of houses of that description. Your Society will see at once the necessity of increased exertions, in order to put a stop to such a demoralizing influence as must necessarily result from the cause last mentioned.—It is to be feared that a large quantity is also sold without the sanction of the License Law, and in fraud of the same.

Your Committee notice with much pleasure, that since the formation of your Society, one of the same description called the "Saint Andrews Parish Total Abstinence Society," has been formed, about five miles from this Town, which now numbers about Two Hundred Members, and which your

Committee have reason to think is in a flourishing condition, and your Society will no doubt wish them and all others who are engaged in the good cause, ample success in return for their labours.

Your Committee would mention with much pleasure, the kind assistance both by precept and example, which your Society has received, from those who are foremost in every good work, the Ladies; and wishing that they may reap the reward of their endeavours to promote the good of Society, by feeling the influence of a more general diffusion of the principles of Temperance throughout the domestic circle, and Society, generally, would say unto them and to all who are friends of the cause go on and prosper.

Your Committee would also mention before closing, the kindness of the members of the Amateur Band, who have attended at several of the meetings of your Society, with their instruments, and contributed much towards the interest of those meetings.—And also the liberality of the Editor of the St. Andrews Standard, in publishing since the organization of your Society, the advertisements and notices in relation to the business thereof free of charge.

Your Committee conclude their Report, wishing that the exertions of your Society, may be amply rewarded, and convinced, that Heaven will bless all your efforts with a much greater degree of success, than you can possibly hope for.

All of which is respectfully submitted.

Alex. T. Paul, Secretary.

It was then unanimously resolved that the Report be accepted.

Resolved, that the President leave the Chair, and that James Boyd Esq., take the same.

Resolved, that the thanks of the Society be given to Mr. Charles Stevenson, for the zeal and ability manifested by him in the discharge of his duties, as President, during the past year, and that he be requested to continue as President of the Society during another year.

Resolved, that there be two Vice Presidents, instead of one, as formerly, and that the Executive Committee shall in future consist of nine Members.

The following persons were then elected Office Bearers for the ensuing year, viz:—

Mr. Charles Stevenson, President.  
Mr. Donald D. Morrison, V. Presidents.  
& Capt. Jacob Paul.

Alex. T. Paul, Secretary.  
Mr. Samuel McCurdy, Treasurer.  
Executive Committee.—James Boyd Esq., Messrs. William Boyd, Robert Stevenson, Hugh Stevenson, John Young, William Pomeroy, Thomas Sampson, Edward Jack, and John Little.

After which James Boyd Esq., left the Chair, and the President took the same, when the thanks of the Meeting were given to Mr. Boyd, for his able and impartial conduct in the Chair, and the meeting was then adjourned.

The English Mail had not arrived when our paper was put to press—it was reported to have been received in St. John on Monday.

THE NORTH AMERICAN RAILROAD.—We copy the following remarks upon this vast project from the St. John Courier. The proposed Railroad it appears is to run from Halifax through St. John and Fredericton. It appears that a Provincial Meeting is to be held at Fredericton soon, and we trust that the inhabitants of this County will be alive to a subject of such great advantage and importance to the Province, and that they will appoint competent delegates to attend the proposed meeting. We shall refer to this subject again.

From the Courier, August 30.

The Great Northern American Railway.—Since we last noticed this great and important undertaking, we have learnt that the Provisional Committee in London, have issued

a second Prospectus, which indicates some changes in their views, consequent, no doubt, upon more extended information, and a more just appreciation of the subject.

The first change we notice, is in the title of the Company, which is now styled 'The Nova Scotia, New Brunswick and Canada Railway and Land Company'; the second, is in the proposed capital, which is now stated at Three Millions, instead of two Millions, as in the first prospectus. It appears also, that the Company only propose a line of Railway from Halifax to Quebec; and they state, that the proposed line will connect the Port of Halifax, in Nova-Scotia, through St. John and Fredericton in New Brunswick, with Quebec, from which a line is already chartered to Montreal.—From this announcement it would appear that the Committee have decided that the line of Railway shall pass by this City, and up the valley of the River Saint John, toward the St. Lawrence; and the decision cannot fail to give great satisfaction in this Province, as adopting the most judicious line, which will be the most generally useful, and by far the most profitable, because it will connect towns and cities, and each section of the line will have its own remunerative traffic, in addition to the continuous traffic between the two extreme points, Halifax and Quebec.

But the entirely new feature in this second prospectus, is the announcement of an intention on the part of the Company, to combine the settlement of the country with the progress of the Railway.—They state that, in addition to the advantages to arise to the proprietors from Railway traffic, it is contemplated that the Company shall become the owners, by pre-emptive purchase, of blocks of land of 20,000 acres, at each Station; which property, when cleared and improved under the superintendence of the Company, cannot fail, with the stimulus and encouragement to settlement and production afforded by Railway access, to produce a large return.

This is an entirely new feature in railway speculation, but as adapted to these colonies, where so large a portion of the line of any great Railway must pass through wilderness land, it would seem to become a necessary portion of any extensive Railway undertaking; and it cannot be doubted for a moment that the value of land in any line of country thus made accessible, must be greatly increased, and its settlement advanced with tenfold rapidity.

On a subject of such vast and paramount importance to this colony, it would be extremely desirable, that some manifestation of public opinion should take place; and with this view we understand, that a proposition has been made for a great Provincial Meeting at Fredericton, which is likely to be held so soon as preliminary arrangements can be made. This is as it should be; and we trust, that no local or sectional feelings will be allowed to enter into the discussion of a matter, which promises so many advantages to New Brunswick, and which if carried out, will add so much to its solid prosperity and permanent welfare.

EXCURSION.—The Steamer Nequasset, Cap. Michener, leaves here on a pleasure trip at half past six o'clock on Saturday morning next (the weather permitting) for Grand Manan, touching at Indian Island and Eastport, and returns the same evening.—Tickets five Shilling—Children half price. Those desirous of enjoying the sea air and visiting the romantic Island of Grand Manan, when the Steamer will remain for a short time, cannot do better than embrace the present opportunity. The general inspection of the Island troops, will take place immediately after the Steamer's arrival. Patronize the Nequasset.

THE WEATHER CROPS, &c.—The Miramichi Gazette, of the 23d ult., says that the weather in that section of the Province, is exceedingly cold. That some districts have been visited by frost, which has done some injury to the potatoe crop. Harvest operations had commenced, and grain promised an average crop.

LAND SURVEYOR.—C. R. Hatheway Esq., has been appointed a Deputy Land Surveyor, for the Province. From his long experience in that business, and his residence in the Shire Town, the appointment will no doubt give general satisfaction.

POTATOE CROP.—The directors of the St. John Agricultural Society, being desirous to accumulate facts relative to the disease which has attacked the potatoe crop, request the farmers of St. John to furnish them with replies to the following "queries" Perhaps some of our Agriculturists would favour the C. C. Agricultural Society, with information upon the subject.

QUESTIONS.—When were your Potatoes first affected? In what manner did the disease first make its appearance? Were the top or bottom leaves first affected? Was the disease confined to the leaves, or did it extend to the stalks? Were the Potatoes affected by the disease, and in what manner? Are all your Potatoes affected—if only a part, state what kinds have been affected and what have not? Have you observed any insect or worm about the roots, joints, or leaves of the potatoes? Have you done anything to stop the disease, and with what success?

State any other circumstance within your knowledge, which may bear upon the subject.

On Tuesday afternoon it commenced raining, and continued during the night so heavy, that many fields of wheat and oats in this neighbourhood have "lodged." The potatoe crop we regret to state is a total failure in this County—and from our exchanges we learn that there is a general failure of this crop, throughout the Province. Many of our farmers will not even dig their potatoes.

It is said many persons have been attacked with disease by using them for food; it would be well to examine the potatoes before eating.

The Fisheries.—A paragraph, headed 'important & authentic,' in connection with the Fisheries has been going the rounds of the newspapers the last week.—Its important is that Mr. Everett, the American Minister, has already negotiated with the British Cabinet for a removal of even the present limitation upon the privileges of American fishermen, viz. the restriction to three miles from our shores. Sufficient credence appears to have been given to the Communication at Halifax, to lead to the preparation of a memorial to Her Majesty's Government on the subject.—Our own Province is equally interested with Nova Scotia in the preservation of this important branch of trade, and, if the rumour be well founded, it becomes our duty to be active in the matter, lest this advancing source of prosperity be transferred to foreigners.

Naval Movement.—The steamer Vesuvius arrived yesterday from Newfoundland, and sailed again in a couple of hours afterwards.—It is supposed for the Magdalen Islands, where there has been an insurrection among the tenantry.—Halifax Sun August, 25.

The New Governor of Nova Scotia.—We understand that Sir Hercules Pakenham may be expected here next month. He will relieve Sir Jeremiah Dickson of the command of the forces in this Province, but will not enter upon his Executive and Ministerial duties, as Lieutenant Governor, until next Spring.—[Ibid.]

From Mexico.—The schooner Water Witch Capt. Trennis, arrived at New Orleans on the 14th, from Vera Cruz, bringing dates from the later to 5th inst. and from the city of Mexico to 31st ult. Her news adds nothing to the probability of war rumours. Mexico had not declared war against the United States, although she received, by the British brig of war Persian, full intelligence of the action of Texas upon the propositions made to her for annexation, and some rumours of active military movements on the part of the United States; and not only had there been no declaration or even of commercial non intercourse, but the Picayune, adds, we can find not one word in our ample files, to show that any Military operations have yet been resolved upon by Mexico. The story that 10,000 men were moving towards Texas, with a view to its reconquest, must be purely rumour.

The Mexican press is violent in its tone. The United States are branded as a nation of robbers and brigands, usurpers, rapacious and insatiable, perfidious and ungrateful, and are menaced with the wrath and vengeance of Mexico, in the strongest terms which the copious Castilian can furnish. El Siglo is much occupied with a defence of the course pursued by the Administration, in offering to acknowledge the independence of Texas, in order to prevent her annexation to the United States. This is evidently, in the eyes of the populace, the vulnerable point in the policy of the Government.

Preparations for War.—The Union, in speaking of the measures taken by the Executive to put the country in a state of defence in case of war, says that the Potomac, at Pensacola, will be ready for sea within a week; that the Marion, at Boston, is nearly ready in two weeks, and will sail for the Pacific, under Captain Stockton, Commander Dupont going out in her on special duty; that the Columbia, at Norfolk, and the United States, at Boston, (both frigates,) will, as a reserve force, be ready for sea, the one in thirty, the other in forty days, if needed. The brig dolphin, at Norfolk, is ready for sea; as also the sloop Dale.

The Norfolk Beacon says it is rumoured that orders have been sent by express vessels to the Mediterranean squadron, (which is the nearest,) to repair to the Gulf of Mexico, and also to other naval stations, announcing an expected declaration of war by Mexico against the United States.

Mr. Le Baron, of Mobile, has given notice that his services as Consul for Mexico have ceased.—He will no longer, "as an American citizen," continue to discharge the duties of an appointment for Mexico.

Mangel Wurtzel as yet have been very rarely brought into cultivated in this country, in fact not one farmer in ten would scarcely know this root if they were to see it. It is cultivated extensively in England and Germany, and takes the preference to Sweden in many localities. The advantages which this root possesses over Swedes are, they are very little liable to be injured by the fly or grub; they will produce more weight per given quantity of ground; they are off the land much earlier and they are better spring food for cattle, especially cows. The best method of sowing the seed, is to put it in with a dibble upon ridges thirty inches apart; each seed being deposited one

and a half inches in depth, and twelve inches distant in line. These constitute the principal root crops which may be profitably cultivated in the fields; and if a farmer who cultivates 100 acres of arable land, would adopt the plan of growing two or more acres of potatoes, and one acre of each of the other crops mentioned, and by sowing the land yearly with spring wheat, to be followed in succession by clover, and winter wheat upon cover ley, there would be no need of making naked summer fallows.—B. A. Cultivator.

Burns on Song Making.—Few things are more interesting than a peep into a poet's workshop. Burns in one of his letters has let us into his habits of study, both a-field and at the fireside. In commenting on a large list of airs which Mr. Thomson had sent him he says "Laddie lie near me must be by me for some time. I do not know the air; and until I am complete master of the tune in my own singing (such as it is) I can never compose for it. My way is: I consider the poetic sentiment correspondent to my idea of the musical expression; then choose my theme; begin one stanza! When that is composed, which is generally the most difficult part of the business, I walk out, sit down now and then, look out for objects in nature around me that are in union or harmony with the cogitations of my fancy and workings of my bosom; humming every now and then the air with the verses I have framed. When I feel my muse beginning to idle, I retire to the solitary fire-side of my study, and there commit my effusions to paper, swinging at intervals on the hind-legs of my elbow-chair, by way of calling forth my own critical faculties, as my pen goes on. Seriously then, at home, is almost invariably my way." Never were better rules laid down for adapting words to music, and we have no doubt that it was from this practice of "humming every now and then the air with the verses which he had framed," that Burns excelled all the song writers that had gone before him, and that he still stands unrivalled in marrying music to immortal verse.—From Carbury Remarks on Scottish Song in the Glasgow Citizen, by Captain Gray, R.M.

#### ALL MAY BE CURED!

**HOLLOWAY'S OINTMENT!**  
FIFTY ULCERS CURED IN SIX WEEKS.  
Extract of Letter from John Martin, Esq., "Charlotte" Office, Toronto, West Indies—  
February 4th, 1845.  
To PROFESSOR HOLLOWAY.  
Sir—I beg to inform you that the inhabitants of this Island especially those who cannot afford to employ medical gentlemen, are very anxious to have your extraordinary Ointment, within their reach, from the immense benefits some of them have derived from their use, as they have been found here, in several cases, to cure Sores and Ulcers of the most malignant and desperate kind. One gentleman in this Island, who had, I believe, about fifty running ulcers about his legs, arms, and body, who had tried all other Medicines before the arrival of yours, but all of which did him no good; who your cure and him in about six weeks, and he is now, by their means alone, quite restored to health and vigor.  
(Signed) JOHN MARTIN.  
PILES, FISTULAS, AND BEARINGS-DOWN.  
A remarkable Cure by these Pills and Ointment—A half-pay lieutenant, lately residing at St. Helier's, Jersey, whose name by request is omitted, had for three years suffered from piles and fistula, besides a general bearing down, of the most distressing nature. He had twice undergone the operation, but to no purpose, and at last gave himself up to despair. Yet, notwithstanding this complication of complaints, together with a debilitated condition, he was completely cured of all his infirmities and restored to the full enjoyment of health by these justly renowned medicines, when every other means had failed.  
EXTRAORDINARY CURE IN THE WEST INDIES OF LEPROUSY AND OTHER DIREFUL SKIN DISEASES.  
June 3rd, 1844.  
Mr. LEWIS REEDON, of Georgetown on Demerara, writes under the above date—that Holloway's Pills and Ointment have cured him of legs that no doctor could manage, ulcers and sores that were of the most dreadful description, as likewise leprosy, blotches, scales and other skin diseases of the most frightful nature, and that the cure effected there was the whole population of the Island.  
CANCERED BREAST—A WONDERFUL CIRCUMSTANCE.  
Copy of a Letter from Richard Hall, Bootmaker, Totton, near Southampton—  
February 9th, 1845.  
To PROFESSOR HOLLOWAY.  
Sir—The Lord has permitted to be wrought a wonderful cure of Cancer or Abscesses, of twelve years' standing, in my wife's breast. In the latest part of the time, eleven wounds were open at once. The Faculty declared the case as past cure, several pieces of bones had come away, and I expected that my poor wife would soon have been taken from me. At last, when I had been recommended the use of your Pills and Ointment, which, to our utter astonishment, in the space of about three months, healed up the breast as soundly as ever it was in her life.  
"I shall ever remain  
Your most grateful and obedient servant,  
(Signed) RICHARD HALL.  
Wheezing on the Chest and Shortness of Breath.  
Copy of a Letter from Mr. J. Casey No. 1, Cramp ton place, Crompton street Brunswick square, London, April 25th, 1845.  
Sir—I beg to inform you that I believe I had been, for more than three years, one of the greatest sufferers in the world with Chronic Asthma. For weeks together my breath was frequently so short that I was afraid every moment of being choked with phlegm. I never went into a bed; very often, indeed, I have been obliged to pass the night without being able to recline so much as to rest my head on a table, lest I should be suffocated. No one thought I should live over the winter, so I did it myself, but I am happy to say that I am now able to work from morning to night, and that I sleep as well as ever I did in my life and this miracle (I may say) was effected by using your invaluable Ointment twice a day into my chest, and taking ten of your Pills at bedtime, and ten again in the morning, for about three months.  
(Signed) JEREMIAH CASEY.  
IN ALL DISEASES OF THE SKIN.  
Bad Legs, Old Wounds, and Ulcers, Bad Breasts, Sore Nipples, Stoney and Ulcerated Cancers, Tumours, Swellings Gout Rheumatism and Lumbago, likewise in cases of Piles, the Pills in all the above cases, ought to be used with the Ointment; as by this means cures will be effected with a much greater certainty and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bite of Mosquitoes, Sand-flies, Chigolooti, Itaws, and Coco-bay.  
Burns, Scalds, Chilblains, Chapped Hands, and Lips, also Bunions and soft Corns, will be immediately cured by the use of the Ointment.  
THE PILLS are not only the finest remedy known when used with the Ointment, but as a General Medicine there is nothing equal to them. In nervous affections, as well as in all cases of general debility, or where there is a want of purity in the blood and fluids, they will insure HEALTH TO ALL.

# SNEEZING

Like a dog and a tin kettle,  
Like a bull a man can't settle,  
Like a hat without a crown,  
Like a bottle upside down,  
Like a coat that doesn't fit,  
Like a piece of wood that splits,  
Like a pot of ale that's dead,  
Or like pasteboard gingerbread,  
Like the queerest thing you please,  
Is the sneezing of a man.

Like a snoring lady's leer,  
Or a cross-eyed auctioneer,  
Like a hat blown off a head,  
When the hair is very red,  
And the hat along the street  
Runs a race its head to beat,  
With the owner running after,  
Amid roasting peals of laughter,  
Half a sneeze is just like that—  
Like the man without the hat.

A man who is perpetually snoring and finding fault, is a torment to himself and those around. It needs but little philosophy to convince one that a snoring and carping disposition is not that in which man can most happily pass through life.

## THE EARL OF ALDBOROUGH CURED BY HOLLOWAY'S PILLS.

THE EARL OF ALDBOROUGH CURED OF  
A LIVER AND STOMACH COMPLAINT.  
Extract of a Letter from the Earl of Aldborough,  
dated 20th May 1845, Leghorn, 21st February 1845.  
To Professor HOLLOWAY.

Sir, Various circumstances prevented the  
possibility of my thanking you before this time for  
your politeness in sending me your Pills as you  
did. I now take this opportunity of sending you  
an order for the amount, and, at the same time,  
to add that your Pills have effected a cure of a  
disorder in my Liver and Stomach, which all the  
most eminent of the Faculty at home, and all  
over the Continent, had not been able to effect;  
may I not even the waters of Calvead and Ma-  
riusbad. I wish to have another Box, and a Post  
to Professor HOLLOWAY.

Your most obliged and obedient servant,  
ALBION (Signed)  
AW UNDERFUL CURE OF DROPSY OF  
FIVE YEARS STANDING.  
Copy of a Letter from Mr. Thomas Taylor, the  
most Stockton, Durham 17th April 1845.

To Professor HOLLOWAY  
Sir, I think it my duty to inform you that Mrs.  
Cough, wife of Mr. John Cough, 2 respectable  
Lantern of Acland, within four miles of the place  
had been suffering from Dropsy for five years,  
and the best medical advice without receiving  
any relief. Hearing of your Pills and Ointment,  
she used them with such surprising benefit that,  
in fact, she has now given them up, being so  
well and quite able to attend to her household  
duties as formerly, which she never expected to do  
again. I had almost forgotten to state that she  
was given up by the Faculty as incurable. When  
she used to get up in the morning it was impos-  
sible to discover a feature in her face, being in  
such a fearful state. This cure is entirely by the  
use of your medicines.

I am, Sir, yours, &c. &c.  
THOMAS TAYLOR.  
(Signed)  
A CURE OF INDIGESTION AND CONSTI-  
PATION OF THE BOWELS.  
Copy of a Letter from G. R. Hyatt, Esq.,  
"Author of the Book of the Battles," &c. &c.  
The "Bryn, near Acland, West of Newcastle,  
North Wales, March 2nd 1845.

To Professor HOLLOWAY  
Sir, I consider it my duty to inform you that  
your Pills, a few Boxes of which I purchased at  
Mr. Moore's, Druggist, of Newcastle, have cured  
me of constant indigestion and constipation of  
the bowels, which applied to me for years, and  
had long entailed upon me. I should strongly re-  
commend Authors, and studiously disposed per-  
sons generally, to use your valuable Pills. You  
have my permission to publish this note, if you  
wish to do so.

I am, Sir, your most obedient servant,  
(Signed) G. R. WYTHEN BAXTER.  
A CURE OF ASTHMA AND SHORTNESS  
OF BREATH.  
Extract of a Letter from the Rev. David Williams,  
Resident Wesleyan Minister, at Beaumaris, Island  
of Anglesea, North Wales, January 14th 1845.

To Professor HOLLOWAY  
Sir, The Pills which I requested you to send  
me were for a poor man of the name of Hugh  
Dicks, who, before he took them, was almost  
unable to walk for the want of breath, and it  
only taken them a few days when he appeared  
quite another man; his breath is now easy and  
natural, and he is increasing day by day.  
(Signed) DAVID WILLIAMS.

N.B.—These extraordinary Pills will cure any  
case of Asthma or Shortness of Breath, however  
long standing or distressing the case may be, even  
if the Patient be unable to lie down in bed through  
fear of being choked with cough and phlegm.  
This Wonderful Medicine can be recommended  
with the greatest confidence for any of the follow-  
ing Diseases—

Ague	Erysipelas	Rheumatism
Asthma	Female Irregularities	Stomachic Disorders

The following Medicines are for  
sale by Henry McLeavy  
St. Andrews.

## CONNELL'S MAGICAL PAIN EXTRACTOR.

The great healing power.—It seems hardly worth  
while that we should add our testimony to the  
cure of the following cases, but we might as well  
say that the medicinal power of the Connell's  
Magical Pain Extractor, but we might as well  
say it exceeds anything we ever heard of for the  
rapid and thorough cure of the following complaints  
which have been tested in this city, viz: Burns,  
scalds, tender and sore feet, chilblains, wounds  
and old sores, bruises and cold in wounds, infla-  
mation, salt-rheum, rheumatism, erysipelas, sore  
eyes and nipples, eruptions and scrofula chaps,  
and piles in their worst form. No family should  
be without this wonderful slave. Sold genuine, at  
19 Tremont Row, in  
SAINT-RHEUM, PIMPLES AND SORE ON  
THE FACE, AND ALL CUTANEOUS  
AFFECTIONS.

The great virtue of Sarsaparilla as a restorative of  
purity to the blood, and consequently a cure for  
all diseases arising from its impurity, is well known  
to every one. To get it concentrated is, therefore,  
an important object. Messrs. Connell & Co.  
have given much attention to this article, and have  
at length brought forth an article, far superior to  
anything now in use. We advise every person to  
use this celebrated extract, as it not only effectually  
purifies the blood from all its morbid humors  
and unhealthy particles, but regulates the stomach,  
promotes digestion and gives increased strength and  
vigor. As an effectual alterative to the system, it  
is unequalled. Sold at 19 Tremont Row, only  
Price 50 cents per bottle. \$1 per dozen.

CURE FOR PHLEGS.—For 5 years I was afflicted  
with what the doctors told me were the itching  
piles. I had applied to several physicians and used  
many medicines without any relief, till I used the  
Hays' Liniment, which I purchased of Connell and  
Ross, No. 19 Tremont Row, which cured me  
before I had used all of one Bottle. I was greatly  
relieved upon the first one or two applications.  
Most seriously do I urge upon the afflicted to use  
the remedy before 20 others. My object entirely  
in making my case public, is hoping I may benefit  
the afflicted sufferer.

THOS. JONES,  
Sheriff of Charlotte.  
St. Andrews Aug. 4 1845.
