THE ASSEMBLY AT MONTREAL

Rev. A. H. MacGillivray Reviews the Proceedings of Important Body

Press Inaccuracies Laid Bare—Bright Outlook For Church

As was announced, Rev. A. H. MacGillivray gave some of the outstanding features of the recent meeting of the Presbyterian General Assembly at the morning service in the First Church yesterday.

During the course of his remarks he spoke of the hospitality of the people in Montreal, and of its excellent churches. The Erskine church, where the Assembly was held, is one of the finest in the country. The congregation is doing a great work, especially in missions. In opening his remarks, Mr. MacGillivray said it was his intention to rehearse the actions of the Assembly, so that the people would be correctly advised upon what was done. The newspapers, he said, could not be relied upon for this information. Their reports, he claimed, were often incorrect and misleading, especially in the head lines. He expected none of the newspapers of the country in his sweeping criticism.

He said the meeting gave the people an idea of the work which is being done by the church in all sections. It takes \$250 to support a missionary in the West. The Presbyterian church is supporting 200 of these missionaries. One of the members of the First Church is counted among those who are contributing \$250 of this amount, yearly. In the Home Mission work, one more superintendent has been added. His territory will be in British Columbia and the Yukon. Prof. McGill was elected principal of Fine Hill Academy of Halifax, to fill the place left vacant by the resignation of Dr. Falconer, who has been appointed principal of the Toronto University. Additions have been made to the staff of the Manitoba College. College work was the least satisfactory of all branches of the work reported upon. There are not enough young men going into the ministry.

It was shown that money had been lost to Knox College through investments which were not legal according to the charter. The loss amounted to \$30,000. There will be no more investments of this kind. Rev. Dr. Shearer, of the Lord's Day Alliance, will take up work for the Presbyterian church similar to that at present conducted by Rev. Dr. Chohan for the Methodist church.

Mention was made of the famous graft resolution. The movement is for Moral and Social reform. Some of the delegates were in favor of making it read, "Graft and Moral Reform."

In reference to the Church Union question which is hanging fire between the Presbyterian, Methodist and Congregational churches, the matter will be referred to the Synods, Presbyteries, Sessions and congregations for opinions and suggestions.

"One thing which impressed the delegates," said Mr. MacGillivray in closing, "was that the church with all her faults, is trying to be what her Master would have her be—a benefit to the nation. There is no church which is more a national church than the Presbyterian church. It is trying to stand for the very best, and trying to contribute towards making a better Canada. The spirit which seemed to be caught during the proceedings was that of the motto of the Brotherhood, 'We can do great things, and we can do it if we will; we can do it, and we will.'"

EVIDENCE CLOSED IN WINDSOR TRIAL

Windsor, June 14.—No less than eighty farmers of South Essex are interested in the action of Traders' Bank vs. White, which has been tried this week before Judge McHugh, of Sandwich. The case is one of the most important ever brought before the county court, and there has been a hard-fought legal battle over the admission of evidence.

E. F. B. Johnston, the noted criminal lawyer, assisted by Clarke Bartlett & Bartlett, is appearing for the plaintiffs, while O. L. Lewis, of Chatham, and J. W. Hanna, of Windsor, are looking after the interests of the defendants. Over two days were spent in hearing witnesses, upwards of thirty being examined, cross-examined and re-examined. The evidence is all in now and the lawyers will submit their arguments in writing. It will be several weeks before a decision is reached. There will probably be an appeal whichever way the judgment is given.

LACK OF CLOTHING GETS DAVID TAYLOR IN TROUBLE

Adam—And—Eve-like Costumes Worn By White Man And Two Colored Girls—Mrs. Twiggs Fined For Disturbing Peace—The Police Court

Mrs. Twigg, of King street east, who was again summoned to appear before Judge Houston in Police Court this morning, this time on a charge of disturbing the peace. The case was the result of the row which was a week ago, when Peter Johnson was up for using insulting language. The witnesses called this morning were East End Officer Thompson, Peter Johnson, Mabel Bowers, Governor John Davidson, Albert Kilbrath and Reginald Lamford.

The information laid against Mrs. Twigg was that she had persisted in calling Johnson "by the nickname 'Jacoway,' after she had been warned not to by the officer. Johnson swore this morning that she also called him another name which is too low and vulgar to be published. Officer Thompson said that when he first asked who was creating the noise, some one in the crowd said it was Mrs. Bumps, indicating Mrs. Twigg. Mrs. Twigg pleaded not guilty.

In view of all the evidence, however, the Judge was inclined to think that she was guilty, and levied a fine of \$1 and the costs—in all amounting to \$8.25.

"Have you any seizable property?" came the usual question from the Court.

"There's no need of seizing anything," replied Mrs. Twigg, as she dug up her fine from a well-filled hand purse she carried.

"This is a cinch," was the way she put it when she was passing the press table to get out the little gate.

The man Green, who was found guilty of selling liquor to an Indian, asked this morning to be given another week in which to raise his \$50 fine. His request was granted, and his case remanded till next Monday.

A gay Lothario on crutches, minus one leg, his mustache curled up a la Kaiser, accompanied by two colored women in dowdy dress and disheveled hair, cut a rather ludicrous figure in the prisoners' pen this morning. The onlookers, however, who by the way, were not a few, what of a sight, in his own straits of society, answered to the name of

THE CIRCUS TOMORROW

Something About The Big Show Which Will Play Here

One Of The Finest Exhibitions Ever Offered to The Public

Interest in to-morrow's performances of the Adam Forepaugh-Sells Brothers combined shows is manifest. This particular combination has always given the public a satisfactory circus performance. The riders, gymnasts and daring specialists of one kind and another, are said to be the most expert in their several professions. Most of the artists in this season's program make their first bow to an American audience. There are 420 performers appearing in the arena show and 1,000 actors in the spectacle, "The Fighting Flames," which opens the performance. Of the above mentioned 420 performers, 50 are clowns, which indicates that hilarious merriment will be an agreeable element in the varied program. The thriller for this season is Mile. La Raque's automobile somersault; a two thousand pound racing machine dashes down a steep incline, reaching an upward curve near the bottom of the incline, the auto makes a dash into the air and turns a complete somersault. The Corrells trio in their reckless and highly amusing burlesque on the horizontal bars; Captain Webb's two schools of educated seals and sea lions as expert jugglers, musicians, ball balancers and contortionists; three herds of highly trained elephants performing many unique feats; the Stirk family in a novel revolving aerial specialty; the Dollar troupe of European acrobats, presenting a new interpretation of the famous Risley act; the eight Cornallies in their poising specialty; Les Jundes, Parisian acrobatic novelty; Frederic Zobedie, the physical enigma who in an inverted position performs acrobatic feats that would be considered difficult under normal conditions; the four Johnsons in a pleasing gymnastic exhibition; Nettie Carroll in a pink tea entertainment; high up on a golden wire; Manie Kroll in graceful poses on a silver thread; Oscar Lowanda, performing acrobatic feats mounted upon the barebacks of

swiftly running horses; Orrin Davenport, champion equestrian of two hemispheres; W. F. Wallett, in difficult bareback exploits; A. G. Lowanda, ludicrous performance of bareback riding; Madam Lancaster, and her splendidly disciplined High school horses, manoeuvring to waltz time; Helen Hill, illustrating the highest type of fancy riding; Albert Dean in an entertaining Manage act; Gustave Kanit and his educated mule; Joseph La Fleur in his death inviting backward high dive; May and Victoria Davenport, novel double riding specialty on swiftly flying horses; Miss Julia Shipp, introducing her unique bareback act; Rebecca Daniels in Parisian equestrian exploits.

Forepaugh-Sells will give two performances to-morrow. There will be a free street parade during the morning. Many entertaining features are promised. The three great herds of elephants, two droves of camels and the cages of wild animals will be arranged so that the beasts will be in full view of the public.

ALMOST A WRECK

Salvationists' Excursion Train Thrown Off Rails.

Coalworth, Ont., June 17.—A wreck in which the lives of nearly 300 Londoners were imperilled occurred on Saturday. One cause is given as a spread rail and the other as a wash-out. Two persons from London were slightly injured.

The line was blocked for several hours, and the regular train from London was delayed for several hours pending the arrival of the wrecking train.

The special train of Salvation Army excursionists left London at 6.55, and was crowded with people from both London and towns along the line. It was bowling along at a rate of about 40 miles an hour, when the front axle of the engine snapped like a twig and sent the engine and the first two coaches, one of which was the baggage car, toppling over into the ditch. The entire train was dragged along for some distance, and there was great confusion for a considerable time. Women and children were thrown about in the coaches.

Chicago, June 17.—Final preparations were begun for the strike of the packing house teamsters. The teamsters have expressed themselves as willing to take an increase of 1-1/2 cents an hour, but this the packers have refused.

TRAGIC END OF BRAWL

Englishman Killed As A Result Of Drunken Quarrel

Noah Hill And Harry Lockyer Got Into Heated Argument

Stratford, June 17.—Noah Hill, an Englishman, is dead, and his companion in drink, Harry Lockyer, is in jail, charged with murder, as the result of a fight which took place here Saturday night between the two men, who were both under the influence of liquor.

The men were drinking together, but in the heat of an argument their friendship ceased, and they decided to fight it out in rear of the skating rink.

The men who, before participating in the fatal battle, said they were going to have an "honorable fight," repaired to the chosen spot, took off their coats, shook hands, and, in the presence of witnesses, faced each other.

Two blows only were struck, the first being an apparently harmless one, and the second fatal. Hill struck Lockyer first, and the latter returned a severe blow, hitting Hill under the chin. He fell without uttering a sound, and no doubt died instantly. The blow had broken his neck.

Frank Morris and George Chapman were eye witnesses.

Soon after his arrest, Lockyer was brought before a magistrate and charged with murder. He pleaded not guilty and was remanded.

Both men have wives and families. They were immigrants from the old country.

INDEPENDENT FORESTERS PARADE TO FIRST CHURCH

The members of Court McGregor, No. 6, I. O. F., two hundred and ten strong, marched in a body to divine service in the First Presbyterian church last evening. They were headed by the 24th Regiment Band, and marshalled by Bro. Peter Desella.

As usual, Court McGregor had the largest turnout to church parade of the season, and at that, barely half of the members were present. The brethren made a fine appearance on parade.

Rev. A. H. MacGillivray, pastor of the First Church, delivered a fitting sermon, and touched on the great good which fraternalism is doing towards establishing the Brotherhood of Men. The members of the Order were especially well pleased with the musical service provided, and Organist John Smith's work on the organ was the subject of much favorable comment. A quartet number rendered by Messrs. Wilson, Angus, Smith and Smith also greatly pleased their hearers.

MRS. WEMP CALLED

Last evening, at the residence of her mother, Mrs. Richard Paxton, Barthe St., after a lingering illness, there passed to the Great Beyond, Mrs. William Wemp, one of Chatham's best known, and most highly respected residents. Her whole life has been spent in the city of Chatham, with the exception of a year's residence in London, eighteen years ago, at which time her husband met his death in the St. George disaster, after which she returned to Chatham, with her family of five small children.

Mrs. Wemp was a most devoted mother, and will be greatly missed by her many friends, being ready at all times to assist others in trouble. She leaves three daughters, Katie, Mabel and Ella, who were at her bedside when the final call came; also her mother, two sisters and two brothers.

The funeral service will be held to-morrow afternoon at half-past two o'clock, and will be conducted by Rev. Rural Dean McCosh. Interment will be made in the Maple Leaf Cemetery.

PRESS AND PULPIT.

A Chatham minister, during the course of his sermon yesterday morning, referred to what he termed the unfortunate inaccuracies of the press in reporting the proceedings of the recent General Assembly held in Montreal.

In this sweeping statement the reverend gentleman excluded no newspaper—not even The Globe, which is edited by a member of that Assembly. We do not cite this case as a peculiar one, but merely as one representing a general state of mind. The clergy desire the public to see eye to eye with them. The press desires to present to the public those things which the public desires to see and hear. There is more than one way of viewing all actions, and when the actor wishes to have the press and public approach the subject from his point of view, he must be sufficiently clear, reasonable and convincing, to cause his hearers and observers to sympathize with his ideas and respect his honesty of purpose.

In this matter, the minister referred to will now, no doubt, be able to sympathize with the politicians, who from time immemorial have claimed continual misrepresentation of their words and actions on the part of the wicked press.

But with their superior education and attainments, the respect at all times shown to the cloth, and the universal appreciation of their high and noble calling, surely the clergy have nothing to fear from a mere lay version of their actions.

THE METER BY-LAW.

Perhaps the public have not given sufficient attention to the action of the Water Commissioners. Water rates have been left uncollected, statements have been made and, special terms have been given to special consumers; but the public have rested in the belief that the Commissioners have been doing what they thought to be best, until now without public demand or public sentiment at their back the Commissioners propose to reverse the policy of the past which encouraged the liberal use of water at a price governed by the size of the lawn and to force the adoption of a meter service for lawn watering. They propose to turn off the whole water from everyone who does not install a meter service for his whole supply. This change in piping and plumbing will in cases cost more than several years lawn service and in addition will for the time disfigure the lawns and interior of the houses to bring the waters through one or more meters. The change is aggravated by the fact that these very services have been installed by licensees of the Commissioners in their approved way but at the cost of the householders. The Commissioners would not turn on the water until they were satisfied that a plumber licensed by them had done the work and reported it as satisfactory to the Commissioners. Now this very work has to be undone or changed at the cost of the householder who has been in no way to blame and who has fulfilled the provisions of the water by-law to the letter.

Chairman Sheldon and Engineer Jones give two excuses, one the protection of the fire department, and the other that people wasted the water; but neither of these excuses will bear investigation for a moment. If less water should be used the Commissioners should enforce the by-law (clause 26) which they have always had limiting the time for use of lawn service. Putting water through a meter does not make the discharge less or prevent him who pays for it from using it at all hours of the day and night. In truth the records show that parties have negligently wasted water through a meter and then gone to the Commissioners and procured their accounts to be rebated by one-half or more. If the Commissioners want for a time or perpetually to limit the use or prevent the waste of water on the lawn let them enforce the by-laws they have or pass others shortening the time for sprinkling lawns. There is ample water and more if the Commissioners do their duty under the existing by-laws without forcing a meter upon the lawn supply.

The other excuse—the instances of waste—is even worse. It is now confessed by the Engineer for the Commissioners that through the services of a detective they were made aware of "most flagrant examples of waste." "Services were allowed to run all day and sometimes at night." We do not recall the prosecution of any of these people for such violation of clause 26 of the by-laws, nor do we remember even the publication of their names or the newspaper reports of the offences! Why was a detective engaged if prosecutions were not to follow the discovery of guilt? But can anyone suggest why Peter Jones, Mark Jackson and dozens of others who have supported the Commissioners and complied with their requirements in installing lawn services and watering their lawns should now be penalized in the cost of a new meter service because Amos Smith has been found guilty of a flagrant example of waste? Hot Scotch made Burns flagrantly neglectful of his horse which was consequently impounded. When Burns became conscious of the fact he wrote the verse beginning—

TRAGEDY AT ST. MAURE.

Peter Fontaine Shot Dead By Constable—Arrested Wrong Man.

Dalhousie, N.B., June 15.—A shooting affray took place on Thursday at St. Maure, when Peter Fontaine was shot dead by Policeman Sealy, Constable Gallop left Dalhousie early in the morning with warrants for the arrest of Andrew Fontaine and Peter Fontaine, charged with assault. On arriving at the home of Andrew Fontaine they placed him under arrest, and George Sealy left alone to go to the next house, where Peter Fontaine made his home. On Sealy's arrival there he met George Jalbert, with whom Peter Fontaine lived. He arrested Jalbert, by mistake for Peter Fontaine. Jalbert, not having committed any offence, was surprised to find himself in the hands of the law, and, not knowing who Sealy was, and seeing he had a revolver in his hand, he says he mistook him for a burglar, and made a fight, as he was very much afraid. Meanwhile he called on his wife and Peter Fontaine for help. Fontaine came downstairs undressed, and, seeing a stranger with a revolver, a general row occurred. The policeman, noticing his mistake, let Jalbert go and made an attempt to arrest Fontaine. Jalbert, having received a severe blow made for the woods. Meantime Gallop came on the scene and took part in the scuffle, which resulted in Fontaine receiving several shots, one ball lodging in his liver and another just above the heart, death ensuing in a few minutes. Sealy surrendered himself to the County Sheriff.

A VALUABLE AGENT.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and anodyne. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities. Acting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute cases it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Such Idleness Kills.

"The great difference between your body and a machine is that the latter wears out with use, and the first with non-use," remarks a medical man.

"In fact, nothing wears out the brain and the body so much as letting either remain in idleness. The man who would keep both going must exercise them. I do not mean that the man of fifty must keep up the athletic pursuits he followed at 20, or that the man of 70 must toll with his brain as he did at 40. The inevitable has begun; the muscles and the brain are less sturdy than they were, and can do less; but they still can do much, and must not be allowed to degenerate by non-use."

"Exercise, mental occupation, fresh air, moderate eating, and avoidance of excesses of all kinds, either of activity or of idleness—these are the brakes on the wheel of time which prevent a precipitate rush into old age."

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain, itching, painful, protruding or bled piles disappear like magic by its use. Large nickel-capped glass jars 50 cents.

LITERARY

The challenge of the Mountains is the attractive title of the latest publication issued by the Canadian Pacific Railway Co. It opens with some beautiful views of Banff, Lake Louise and other places which are noted for their natural beauties. A description is given of all the best known places, and the illustrations are very numerous and beautiful. Banff, Lake Louise, Paradise Valley, Moraine Lake, The Great Divide, Field, Emerald Lake, Yoho Valley Glacier, The Ingham Valley, Claves of Nakim, The Thompson & Fraser Canyons, and other famous places are all written upon and illustrated. Any one who cannot afford the time or money to take a trip through this exquisite region can form a very good idea of its wonders by reading this book, which can be had for the nominal charge of four cents (in stamps) and mentioning the notice in The Planet. Address W. T. Robson, Advt. Agent, Canadian Pacific Railway, Montreal.

BARELY LIVED THROUGH IT.

A terrible experience had Edw. J. O'Connor, of Sault Ste. Marie. "From boyhood," he writes, "I have been a constant sufferer from asthma and also catarrh. My nose and throat were always stopping up and I had droppings in the throat. When attacks came on I thought I couldn't live through the night. I would sit and gasp for breath and endure great distress. Catarrh made me entirely well. No stronger proof is required. Use 'Catarrhzone' and your recovery is guaranteed. THE LIGHTNING ROD.

Franklin's Theory Was Known About Back in Talmudic Times.

In an article on "Current Topics in Ancient Literature" J. D. Eisenstein says in the Sydney (Australia) Standard:

"The lightning rod was invented by Benjamin Franklin in 1752 to arrest the electricity of the thunder. When the information of the discovery reached Rabbi Saul Katzenellenbogen of Wilna, he said that the theory was not new, because it was already known in Talmudic times, and he showed a passage in the Tosefta (third century) where it says that 'on Sabbath it is permitted to place an iron rod near the henhouse to safeguard it from lightning and lightning strikes.' The Talmud vouches that 'there is nothing superstitious about this belief.' (Tosefta, Shabbat, chapter 6, end.)

"The system of telegraphy, in a crude manner, is curiously described by Judah b. Jacob Chayat in his commentary to 'The System of Theology' chapter, 'The Gate of the Chariot' (see page 218b, ed., Ferrara, 1558). Chayat is perhaps the first Hebrew author who transcribes the term 'magnet,' and he explains the physical phenomena as follows: 'If you break the magnet into two parts and separate them at any distance, even a thousand miles apart, any connecting cause by joining wire to one part will be repeated by the other part' (quoted also in Shelah, page 30a, ed., Amsterdam, 1708)."

TWO RAILWAY ACCIDENTS.

Italian Killed and Another Man Loses His Foot.

Sault Ste. Marie, Ont., June 15.—Two railway accidents, one resulting fatally, occurred on Thursday night, Canadian 800 Thursday night. J. Pasutti, an Italian, 18 years of age, who in company with a number of other workmen was on a handcar on the Algoma Central, was killed. Deceased has no relatives in this country.

George Wright, a merchant of Gordon Lake, aged 60 years, was proceeding to his home from the Soo on the local C. P. R. train. He attempted to leave the train at Desbarats and in alighting, while it was in motion, he was drawn under the wheels and lost his left foot.

People ask "Why do you claim that V. S. C. is a cure, one medicine, cures Rheumatism, Backache, Sciatica, Dyspepsia, Bright's Disease, etc." We reply, because 16 years' practical use has proved that V. S. C. contains the medicinal properties that cure the digestive organs. And when the people properly realize that good health depends upon pure blood and pure blood upon properly digested food being supplied by a healthy stomach, kidneys and liver, they will want the medicine that gives the best results. And we believe they will find V. S. C. has no equal. The V. S. C. Medicine Co., Limited, Chatham, Ont., Seane Block, King Street. Druggists also sell it. Prices: 350 doses \$1.00, 150 doses 50c. Mailed anywhere. W. K. Merrifield, General Manager.

A Matter of Economy.

"You're not so strict with your younger of yours as you used to be," said Poppley's friend.

HEALTH DEPENDS ON GOOD BLOOD.

Everyone who uses Ferrozone has good color and great vitality. Reason for this is Ferrozone's power to create nourishing blood. "I was broken down, had no strength, and couldn't eat," writes Mrs. Chas. Benney, of Cloyne, Ont. "My nerves were irritable, I was thin-blooded and continually unhappy. I tried Ferrozone. It gave me new energy, force, vim. It brought me strength—made me well." Greatest tonic and re-builder ever known is Ferrozone. Sold everywhere in 50c. boxes.

Indian Oil Stones

Something New. Something Genuine

Pleasing to the User.

These stones are of entirely different nature than emery stones, and are adapted to sharpening all kinds of tools and for use on all kinds of work for which the Arkansas, Washita, and other natural stones of like nature are used. They are superior to natural stones at they cut faster, last longer, and keep a better surface, also because of the entire absence of all faults common in the natural stone formation, that is, sand seams and hard and soft spots, pebbles and fractures. On account of the above and because of their uniformity satisfactory stones can be duplicated exactly. They can be supplied in either fine, medium or coarse grit. Every stone is sold subject to the following guarantee.

"If this article should Prove in any respect unsatisfactory we agree to exchange or refund the full price paid for same."

ZONE CENTRE.

A very sad and painful accident occurred near the Centre on Thursday afternoon. George, the 17-year-old son of Wm. Humphrey, and his younger brother Fred, were out shooting sand sparrows, and while getting over a fence the gun was accidentally discharged, the contents passing through George's right hand, and shattered it so that it had to be amputated just above the wrist joint. Dr. A. D. Graham, of Bothwell, performed the operation.

The L. D. Saints dedicated their

church here on Sunday. The services were very largely attended. Arthur Leverton and family, of Clearville, attended the church dedication.

SAYS WIFE PROPOSED.

Married His Nurse and is Now Sued For Alimony.

New York, June 15.—Supreme Court Justice Truax awarded \$100 a month alimony and \$150 counsel fees Thursday to Mrs. Ella Morton, pending the trial of her suit for a separation from David W. Morton.

Mrs. Morton was a typewriter in Honolulu when she made the acquaintance of Morton, whom she nursed through a severe illness. She complains that since their marriage six years ago he has treated her cruelly, and has deserted her for another woman. She says Morton makes \$3,000 a year.

Morton says that she proposed to him, and that when he refused her she taxed him with ingratitude and threatened to commit suicide if he would not marry her. He finally consented, he says, and has been sorry ever since, as she turned out to have an ungovernable temper, which, he says, has been the cause of all their troubles.

HALFBREED A HERO.

Jumps From Bridge and Rescues Boy From Drowning.

Ottawa, June 15.—William Swanson, a halfbreed, made a heroic rescue Thursday evening. An eight-year-old boy named Oscar Lassage was playing on the logs when he slipped, falling into about twelve feet of water. The logs closed in and the little fellow was unable to get his head above the water. Some women on the river bank saw the lad fall into the water and began screaming.

From a bridge near the river Swanson jumped into the river, a distance of thirty feet from the level of the bridge, swam to the logs, separated them and pulled the boy out.

The little fellow was nearly suffocated, but ready hands soon revived him. The prompt and brave action of Swanson alone saved the boy's life.

PERMANENT SECRETARIATE.

Recommendation of Recent Conference to Be Carried Out.

London, June 15.—(C. A. P.)—It is understood that steps are to be immediately taken to bring into existence the permanent secretariate authorized by the recent Imperial Conference.

It is to be presided over by one of the higher officials of Lord Elgin's department, and it will be his duty to receive, through agents-general, all questions which it is intended to bring forward on behalf of self-governing colonies at succeeding conferences, and these will be carefully tabulated in Downing street.

The official entrusted with this work will probably be selected from amongst those who have had practical experience in the conference just closed.

ROBBED OF \$61,000.

Swindler Took Woman Into Woods and Tried to Drown Her.

San Antonio, Tex., May 15.—Charged with assaulting and robbing Mrs. Sallie Gibbons of Columbia, S. C., of \$61,000, Rufus Williams Thursday night confessed the crime in the county jail.

Mrs. Gibbons and Williams arrived in the city Thursday from the east. She had on her person fifty \$1,000 bills and the remainder in gold coin. Williams obtained a vehicle from a local livery and suggested a drive into the woods. Mrs. Gibbons was struck on the head and an attempt was made to drown her.

Williams said he took her money and fled back here.

Dr. Falconer Inducted.

Toronto, June 15.—A meeting of the board of governors of the University of Toronto was held yesterday afternoon to induct Dr. Falconer, the new president, into his office.

The formality was very brief. The doctor was welcomed by Dr. Hoskin, chairman of the board, and then introduced to the other members. He formally accepted the position, and afterwards the whole party were entertained to luncheon by Dr. Hoskin at his home in Rosedale. Among the guests were Premier Whitney and Col. Matheson, Provincial Treasurer.

Tricked to Pass Bogus Cheque.

Stratford, June 15.—Frederick Wylie, who a few days ago tried to pass a bogus cheque at several stores here, appeared before the police magistrate yesterday afternoon, and was convicted on three separate charges and remanded for sentence. He is supposed to have come from Bowmanville, and has already served a term in the Central Prison on a conviction for forgery, and is wanted in half a dozen places for similar offences.

Queen Buys Cheese.

London, June 15.—At the opening of the "Queen's Fete" Bazaar, organized by the lord mayor at the Mansion House in aid of the crippled children of London, Queen Alexandra took especial interest in the American stall. Her Majesty's attention was attracted to a pine apple cheese, which she purchased, and insisted upon carrying it off herself.

Injured in Runaway.

Aurora, June 15.—Mr. Thomas Gear was returning from the railway station, where he had taken his daughter to go on the farmers' excursion Thursday, when his team ran away. He fell on his head and shoulders, and when removed to his home he had not regained consciousness. His farm is about a mile north of the town.

Ill-Treated His Son.

Belleville, June 15.—William King of North Hastings, was tried in the County Court and found guilty of ill-treating his son. He was sentenced to one month in jail.

Admitted to Royal College.

London, June 15.—R. D. Forbes and F. E. McKenly of McGill University are admitted fellows of the Royal College of Surgeons.

ART OF WALKING.

The First Requisite For a Good Gait is a Good Poise.

The delightful art of walking, the happy practice of vagabondage which Stevenson and Whitman praised so well, the most innocent of pastimes, the simplest of exercises, is in danger of falling into abeyance, says Bliss Carman in the Delineator.

Our fashionable people affect one ridiculous manner of walking and then another year after year, but almost no one thinks it worth while to learn to walk normally. The normal walk is not a matter of caprice, but of art. It lends itself to the infinite varieties of character and becomes in each instance expressive of the individual, so that we recognize a man by his gait as easily as by his voice.

The first requisite of good walking is a good poise. If the body is well poised at each point of its motion, the motion itself must be good. The process of walking which has been described as a series of falls, is to some what more accurate, a series of falls and recoveries so insensibly merged that there is no saying where the fall ends and the recovery begins. In walking we are in a continuous state of unstable equilibrium. We pass gradually from one position to another, yet are never out of poise. We are playing with gravity. A good walker spins the earth dithy beneath his feet, as an acrobat in a circus, lying on his back, spins a barrel or a painted ball.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultant, as bronchitis, throat and lung diseases (except consumption) accompanied with severe cough. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing permanent cures. It contains Black Cherry, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised remedies for all the ailments mentioned above, by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finner, of the Univ. of Mich.; Prof. King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Davis, M. D., of Hahnemann Med. College, Chicago, and scores of other equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such pronounced endorsement—worth more than a hundred orders or testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used for the purpose of making it palatable and besides is a most useful agent in the cure of all stomach as well as bronchitis, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

French Misapplied.

We Americans insist on using certain French words instead of our own good English terms, but when we invade France we find the meanings we have attached to these borrowed words to be incorrect. In France a depot is a warehouse for freight; a modiste is a dressmaker, not a milliner; dessert never means pudding or pie, but wafers with butter or cheese.

EXHIBITION PRIZE LIST.

In Horse Section Canadian Breeder

Put on Footing With Importer.

The prize list of the Canadian National Exhibition of Toronto is just out. Many changes are made, making it more convenient for reference by exhibitors. The regulations are changed so that all animals exhibited in the live stock sections must be registered in the Canadian Herd registers.

In the horse section the Canadian breeder is put on a fair footing with the importer. The directors have endeavored in every way to protect and encourage Canadian-bred horses. The prizes in the breeding classes of the horse section have been increased over \$500. Several new classes have been added, especially the one for strings of ten horses, which is expected to be one of the features of this year's exhibit. In the harness, hunter and jumping classes the prize list remains the same as last year, including the King Edward Hotel Cup, which is again being given for the best horse in the rumbustious class.

In the speed division the prizes have been increased by \$1,000. A new class has been added, providing for horses that are not fast enough for the "free-for-all," but that are too speedy for the 1.30 classes. The conditions are the same.

In the cattle section A. T. Gordon of Combsconewary, Scotland, has consented to judge the Shorthorns, which is the largest class in this section. The prizes in the Herefords and the Holsteins have been considerably increased.

The general arrangement throughout the prize list this year is alphabetical, so that the finding of any section is made easy. The aggregate amount of the prizes is \$39,000, not including the \$3,600 given in the speed department. This is the largest purely agricultural prize list on the American Continent.

PREMIER OF NEW BRUNSWICK.

Hon. Clifford W. Robinson Succeeds Premier Pugsley—His Career.

Hon. Clifford W. Robinson, the new Premier of New Brunswick, was born near Moncton, September 1, 1866, a son of William J. and Margaret Tremblay Robinson. He was educated in the public schools, and graduated B. A. at the University of Mount Allison in 1886. The ensuing three years he was employed as bookkeeper with a Moncton firm, but resigned his post in 1889 to pursue the study of law, and in 1892 he opened his present office in Moncton, where he has since followed his profession with success. In 1895 he was elected Town Councillor of Moncton, and in 1897 was elected Mayor of the same city by acclamation. In 1897 he was elected by acclamation a member of the New Brunswick Legislature for the county of Westmoreland, and has been one of its representatives ever since.

In the 1896 Dominion election Mr. Robinson contested the county of Westmoreland against H. A. Powell, and was defeated by fifteen votes. He was chosen Speaker of the New Brunswick Legislature in 1901, which position he filled with great satisfaction till March, 1907, when he was chosen Provincial Secretary to fill the place of the Hon. L. J. Tweedie, who resigned to accept the Lieutenant-Governorship of the province. On the resignation of Premier Pugsley to contest the vacant seat in St. John he was chosen his successor.

Dargai Hero Retires.

Colonel Mathias, the famous leader of the assault by the Gordon Highlanders on the heights of Dargai in the autumn of 1897, is retiring from the Army under the age regulation. It was a critical moment in the fight with the Afghans when Colonel Mathias said to his men: "The General says the position must be taken at all costs. The Gordon Highlanders will take it." And they did. It was a feat that turned the tide of battle in the same way that the Devon Regiment did when they hunted the Boers off Waggon Hill in the South African War. The regiment, to use the words of Sir William Lockhart's official despatch, dashed through a murderous fire, and in forty minutes had won the heights, leaving three officers and thirty men killed or wounded on the way. Among the wounded was Piper Findlater, who, shot in both ankles, propped himself up against a boulder and piped "The Haughs of Cromoch" until the Gordons had won the heights, and he had won the Victoria Cross. Sir William Lockhart recommended Colonel Mathias for the Victoria Cross, but he never got it. A good story is told of the steep climb, the charge entailed. "Stiff climb, eh, Mackie?" said Colonel Mathias, who was breathless, to the color-sergeant by his side. "I'm not so young as I was, you know." "Never mind, sir," the sergeant replied, "you're game war strong for an old man." The retiring Colonel distinguished himself in the Nile Expedition of 1894-5 and was mentioned in despatches for his conduct in the Makalad Pass operations. Colonel Mathias was presented with a sword of honor on his return to England in 1899, and it then came out that he was a Welshman. He said it might seem funny to some of them that a Welshman should be in charge of a Highland Regiment. He was not intended to be, but a stroke of the pen makes a lot of difference sometimes. He was intended to go into the old 94th, but "9" and "7" are so very much alike that he was gazetted to the 75th instead. He had stuck to it for 30 years, and he intended to remain to the end.

Substitutes.

"We haven't any deviled crabs, sir," said the waiter. "I can offer you some very nice deviled eggs." "Umph! I presume if you were out of mock turtle soup you'd suggest some very nice mock oranges?" retorted the diner.

"Yes, sir," answered the waiter calmly. "At least I would suggest that you give them a mock trial."

After the Service.

Deacon Wigg—Now, that was a finished discourse. Farmer Wagg—Yes; but, do you know, I thought it never would be.

The Call of the Country.

The first warm days after the city's voice. The stronger sunlight hardens the lines of brick and stone. A bit of green fringed out from a brave-hearted tree in a company of back-yard fences and ash-barens, suggests a contrast which widens and fills your heart until the pavements grow iron-hard under foot, and the street become narrow and oppressive. Some men include these unhappy changes in the general diagnosis of spring fever, and go their way to their desks to struggle through lengthening days until custom has whipped them back into the rut from which they had been unconsciously rising.

So it is with some. Others know when first the voice alters. The warm sunlight strikes through dusty window panes on to desk or writing table, and wavers tentatively as though beckoning. Work falls and so does city play. It is only the country that will satisfy the awkward craving of your spring appetite. You envy the playboy, the husky farmer, who trudges to his work with daylight and returns weary at night. The fields will be greening. Gardeners will be laying their plans. Flower-sharers will be turning the rich dark earth from which the frost will have scarcely departed. If you are of this class—and if the country has claimed you once, it will call you always with the spring—you will be unhappy until you turn to time-tables and conspire with yourself to answer the call only for a day of tantalizing inspection of other men's gardens.—Metropolitan Magazine.

"Old King Cole." The merry monarch of the nursery rhyme, has been identified with Cole, Coel or Coil, a semimythical king of Britain, who, according to Robert of Gloucester and other chroniclers, succeeded Asclepiad on the British throne about 225 A. D. He it was who built the walls around the city of Colchester, so named in his honor. St. Helena is supposed to have been his daughter.

ATTACKED BY WOLVES.

Two Turner Lumber Co. Employees

Tried by Band.

While Donald McDonald and August Nitz, land inspectors for the Turner Lumber Co., were carrying their camping outfit and canoe from a lumber camp to a small lake about a mile from the camp, they were attacked by a band of wolves. McDonald was traveling a few rods in advance of Nitz when the wolves attacked him. Nitz, seeing the danger, dropped the canoe and made his way up a tree, but his partner was not so lucky, and had to face the pack, with nothing but a small axe. With this he succeeded in killing one of the savage animals. Nitz then seeing McDonald's danger endeavored to attract their attention by taking off his coat and waving it in the air. This brought the whole pack down to Nitz, and gave McDonald a chance to make his way up a tree. Here they had to remain for several hours, until the wolves gave up the watch. Then they came down and returned for their rifles and went in pursuit of the wolves. They succeeded in killing another wolf, and returned to camp with the two wolves, none the worse for their dangerous encounter.

Monarch by Merit.

An Englishman who has lived and traveled extensively in the Philippine Islands gave an interesting account of a little "kingdom" there, ruled over by a white man.

This uncrowned monarch is a Scotsman, a marine engineer, and he is a veritable father of his people. He is their ruler, judge, general and medical attendant.

Dalupao, for that is the name of the little realm, contains 500 families, and so well is it administered that when most of the cattle in the surrounding districts died of rinderpest, those of the Scot and his dusky clan escaped completely. When the infection broke out, not a man of his following joined either of the contending armies; and when a famine came his people remained contented and well-fed.

Timber cutting and shipbuilding are the chief industries of the little kingdom, and the capable Scot who controls it has established a church, a school, a brass band, and a police system. The nature of the changes he has worked may be judged by the fact that, before he came, most of the natives lived in trees and were utterly uncivilized.

All From Refuse.

Not many people realize the enormous wealth that lies in what are known as by-products.

"Take sheep's wool, for example," said an authority on the subject. "The grease and dirt which are washed out of it are full of potash and soda salts, and in the wool-scouring factories of France and Belgium these by-products are extracted from the water in which the wool is washed, and produce profits running into thousands of pounds sterling."

"As for slaughter houses, they are perfect gold mines of wealth in the matter of by-products. Blood, bones, grease, horns, hair, everything is saved and transformed into thousands of useful articles by chemical and other processes. Talking of gold mines, one of the most important of the chemical by-products of the slaughter house is employed in gold mining. This is cyanide of potassium, which is used to take the gold out of ground quartz."

Britain's Debt to France.

One of the chief debts to France is that she nourishes our ideas, transforms them, makes them her own, just as she transplanted and transmutated the flower of the renaissance in an earlier day. With all our national vanity we never dispute the parentage. It is only territory and diplomatic prestige and commerce about which we quarrel with our "sweet enemy."

Back Talk.

"No, I wouldn't join that club. It's too full of stupid idiots." "You're mistaken. There's always room for one more."

BASEBALL

THE GAMES SATURDAY.

The opening games of the Baseball League series for 1907, were played on Saturday. The first game was between the Canada Flour Mills and the Motor Car Works, in which the former were the winners. The game resulted in their favor by a score of 15 to 6.

The second game was the most interesting, and was played between the Tammany Heelers and the Wagon Works. The game resulted in a victory for the latter by a score of 8 to 7, and would undoubtedly have resulted in favor of the former, had not so many errors occurred on their own part. The Tammany Heelers had six rotten errors to their credit. Three were made by Woods on second base, one by Winegarden, one by Head and the other by Brady. Pleasance played a good game and struck out eleven men. Taylor and Hardaker led with the bat, each getting a three-bagger, a two-bagger and a single.

The umpires, Oldershaw and Balkie, gave satisfaction to all players.

The line-ups were as follows:

Tammany Heelers—C, Taylor; P, Pleasance; 1st, Trotter; 2nd, Woods; 3rd, Hardaker; s.s., Raynor; 1st, Head; c.f., Winegarden; r.f., Brady and Willard.

Wagon Works—C, Hicks; p, Tiekner; 1st, Grandbois; 2nd, Wilson; ss, Baxter; 3rd, Oldershaw; cf, Anderson; lf, Smith; cf, Smith.

The standing is as follows:

	Won	Lost	To Play
C. F. M.	1	0	15
Wagon Works	1	0	15
Tammany Heelers	0	1	15
Motor Car	0	1	15

DRIVER LASHED HORSE

This morning at nine o'clock a very interesting time was witnessed by the residents at the corner of Lorne avenue and Queen street.

The man who delivers the Panacea water for the Mt. Clemens Bottling Company, of this city, was driving up Queen street, and when about opposite Lorne avenue he met an automobile.

He drives a very pretty little white horse which appears in every way to be gentle and kind, but on meeting the moving car it became frightened. It began to run and dashed into the verandah of the Miss Flukes on Queen street, tearing down a post and part of the verandah. The driver on getting the horse settled down began lashing the animal over the head and sides and continued to do so until a local butcher stopped him. The horse was not to blame, and the driver should remember so.

Lost—On Saturday evening, a gold set pocket and chain. Finder will be rewarded by leaving at The Planet Office.

A HALF-HOLIDAY

The agitation for a weekly half-holiday in the business section of Woodstock is at last assuming definite shape. Petitions are now being circulated among all classes of trade, and the opinion is practically unanimous in favor of the weekly cessation from labor. Wednesday afternoon is the time favorable. 24th AT CHURCH

The 24th Regiment attended the morning service at the William St. Baptist Church yesterday, and listened to an excellent sermon by the new pastor, the Rev. Mr. Matthews, who took as his text, "Put on the whole armor of God." It was indeed an interesting address, and the congregation are proud of their choice. The music, too, both congregational and choral, was sung in a manner which showed that the hearts of the singers were in their work. The duet, "A Friend in the Homeland," by Misses Helen and Daisy Carter, was of the highest order, as was also the solo by Miss Helen Carter, "The Day is Breaking," composed by T. V. Chailion, of this city. The work of this choir generally reflects great credit upon its leader.

RAILWAY CONDUCTORS ADDRESSED BY MR. PIKE

Mr. J. M. Pike returned this morning from Detroit, where he yesterday addressed a meeting of the Brotherhood of Railway Conductors. Mr. Pike was more than pleased with the hospitality extended by the brethren, and says the event was one of the most pleasant and successful that he ever attended. The following report of the meeting is taken from the Detroit Free Press:

To again pay merited respect, gained through honorable association with the fraternity, the members of Detroit division, No. 48, Order of Railway Conductors, met yesterday afternoon in Golden's hall, 32 Michigan avenue. A large representation was present and the excellent memorial program given speaks well for the efforts of the committee on arrangements, composed of J. B. Blackley, chairman, and Charles A. Brodie and W. H. McAllister. The deceased brothers in whose honor the exercises were given are: J. J. Enright, George Gillespie, E. W. Young, Charles Bastedo, F. Schrader and James J. Sheeran.

Chief Conductor Charles A. Brodie, after appropriate remarks, gave place to Rev. F. J. Van Antwerp, who offered prayer. Following, Miss Ernestine L. Sterling, sang a solo. Honorable J. M. Pike, K. C., of Chatham, Ont., gave an eloquent memorial oration, shaping his talk around the subject, "Past and Present." Rev. L. S. McCollister and Rev. Van Antwerp gave addresses, between which Mrs. A. B. Hart sang a solo. D. S. Sutherland, division superintendent of the Michigan Central, gave an address fitting the occasion. "Nearer My God to Thee," by the audience and the benediction by Rev. McCollister, closed the services.

THORNCLIFFE.

Miss Mary Shaw, of Thorncliffe, was united in marriage to Mr. Wm. Waters, of Tupperville, on Wednesday, June 5. Miss Maggie Shaw, sister of the bride, acted as bridesmaid and Mr. Mark Gifford, of Dawn Mills, supported the groom. A dinner was served at the bride's home, after which the couple were driven to the Maple City, where they were made man and wife. They left for Detroit to visit the sister of the groom. Mrs. Waters has been a resident of Thorncliffe ever since her birth, and her noble character has won for her a large circle of warm friends, who join in wishing herself and husband a happy and prosperous life. Mr. and Mrs. Waters will reside near Tupperville, at the homestead.

Miss Louise Houston returned to Walkerville on Monday, June 3rd, after paying her mother a few days' visit.

Mrs. John Webster and daughter, Mrs. Herrington, were visitors at U. Robertson's on Sunday. Mrs. Bedford visited her brother,

Mr. Whalen, of Northwood, on Sunday.

Misses Cowherd and Berge have returned from spending a week at Camp meeting, accompanied by Mrs. Stump, of Buffalo, who will spend the week end with them.

Mr. Bachelor is very low at his home on the 6th Con., Chatham Tp. Quite a number of young people people drove to Camp meeting on Sunday.

The cat crop in this vicinity is not extra good, owing to the cold weather, but the wheat is looking fairly well, and the farmers think it will exceed last year's crop.

A number have had to replant their corn in this section.

Small fruit is very plentiful, especially strawberries, which are very abundant.

Mr. T. Robertson is drawing and for the cement work on his new barn.

Mr. Stanley spent Saturday evening in Dresden with his cousin, Mr. Thos. Webster, who has returned from Hot Springs, where he has been taking the baths for rheumatism.

LONGSHOREMEN LOST

Strike For Increase of Pay Is
Declared Off.

Men Go Back to Work at Old Wages of Thirty Cents an Hour—Leader Broke Down and Wept Bitterly—Cheered by His Followers—Loss in Wages Has Been About a Million Dollars.

New York, June 15.—There was a pathetic scene at the meeting of the longshoremen, whose strike for increased pay was declared off. Patrick Connors, leader of the strikers, broke down and wept when compelled to make the acknowledgment that the men were beaten.

There was a moment's silence, and then the hall rang with cheers for the leader, while many of the men who had faced privation in the effort to win their demands hurried to the platform, shook Connors by the hand, and assured him that he had made a good fight. More than 12,000 of the original 30,000 strikers who remained firm will return to work to-day.

The strike has lasted nearly six weeks, and was a great financial loss to the steamship companies and to the workers. The loss in wages to the longshoremen has been close to a million dollars.

RACE FOR KAISER'S CUP.

Winning Automobile Ran 312 Miles in 5 1/2 Hours.

Hamburg, Germany, June 15.—The automobile race for Emperor William's cup, began a few minutes after 6 o'clock yesterday morning under favorable auspices. The rains of Thursday had ceased, and the roads had partly dried off during the night, while the sky showed signs of clearing up.

The circuit selected for the race covered a distance of 125 kilometres, which had to be traversed four times in order to complete the total distance, 500 kilometres, or about 312 miles.

The prizes, consisting of one huge cup, a vase and table centrepiece from the Royal porcelain manufactory at Charlottenberg, were placed in an elevated position on the balustrade of the court tribune, in full view of the contestants.

The winner of the race was Nazario, in 5 hours, 34 minutes, 26 seconds.

Hantvact was second, in 5 hours, 39 minutes, 10 seconds. Michel, a German, was third, time, 5 hours, 39 minutes, 49 seconds.

SYND WAS WARY.

Refusal to Deal With Corruption Causes Excitement.

Ottawa, June 15.—There is more than a trifle of excitement amongst the clergy over the refusal of that body to pass a resolution condemning corruption and immorality among our public men.

It seems that the resolution, which was tabled by C. S. Smith of Cornwall and Dr. A. A. Weagant of Ottawa, was considered by the clergy as such business as could only be discussed if the synd was unanimous that it be brought forward. It only required one dissentient voice therefore to defeat the bringing forward of the resolution. Justice Burdige was the dissentient.

In view of the action taken by the Toronto synd upon the same matter, many of the local Anglican clergy express themselves as disconcerted and chagrined.

TO PROSECUTE RAILWAYS.

Will Be Charged With Criminal Negligence At Crossings.

Toronto, June 15.—Premier Whitney yesterday instructed Crown Attorney Drayton to proceed under the criminal code against the Grand Trunk and Canadian Pacific Railways on the charge of criminal negligence for not properly protecting the Bay street crossing, and also for maintaining a nuisance at the crossing.

The Premier ordered that the indictments should be preferred before the next grand jury, which will meet on Sept. 10 next.

It has not yet been decided by the crown authorities whether the city was partly to blame for the accident. It is just possible that the municipality may be made a party to the suit.

BELCOURT TO RESIGN.

Likely to Be Hot Contest For Liberal Nomination.

Ottawa, June 15.—There is going to be a hot contest for the Liberal nomination in Ottawa for the Dominion House. It is understood that the French sitting member, the Hon. N. A. Belcourt, whose health is fast from an ailment, will seek refuge in the Senate, and the struggle for the nomination will lie between August Le-mieux, a brother of the Postmaster-General, and Emmanuel Tasse.

The former is a young man of undoubted ability, while the latter has not always been a straight Liberal. His chief claim to notice is his connection with the Capital Lacrosse Club. He is very popular.

Out on Suspended Sentence.

Belleville, June 15.—Tracy Belch of this city, who a week ago was found guilty of receiving goods stolen by his brothers from a G. T. R. freight car, was brought up for sentence, and Judge Deroche let him go on suspended sentence.

BECKONS THE WHOLE WORLD.

Representative. Every Nation Gathered At The Hague Conference.

The Hague, June 15.—This city suddenly blossomed out with flags yesterday morning, representatives of every civilized country on the globe hoisting its standard over the globe and legations clustered about the two principal squares, while the hotels facing the sea at Scheveningen, with their multi-colored banners snapping in a stiff breeze, formed a stirring picture.

A Camp of Nations. It was like a vast camp of the nations of the world. The weather could not have been finer, cool with bright sunshine.

Practically all the missing delegations arrived during the day for the conference, which begins to-day. The English, twenty-five strong, headed by Sir Edward Fry, judge of the very division of the British High Court of Justice, and member of the permanent court of arbitration at The Hague, reached here early by way of Hook of Holland.

Several Grave Questions. There are grave questions to be settled at the forthcoming conference. Both Japan and Russia were guilty of laying mines in neutral waters during their war. This must be dealt with. So must Russia's proclamation making coal, provisions and railroad material contraband of war if bound for a Chinese or Japanese port, even if not destined for the Japanese army or navy.

Then there is the issue as to the right of a belligerent fleet to coal and effect repairs in neutral ports, claimed by Russia for her ill-fated Baltic Armada, on its way out from Kronstadt to annihilation in the China seas; the right of a belligerent to convert at sea a merchant vessel into a man of war, and to commission her as such, demanded by Russia for her converted cruisers, the St. Petersburg, etc., and the pretensions put forward by the Japanese of right to attack a belligerent vessel in the port of a neutral power too weak to enforce the laws of neutrality. Japan, it may be remembered, sank the Russian cruiser Varig in the Korean port of Chemulpo, and sent the disabled Russian destroyer Rhyssheiteln, in the Chinese port of Chee-Foo.

Controversy Over Morocco. There are matters dealing with the care of prisoners of war, the right of Turkey to close the Dardanelles to the warships of Russia, the desire of Emperor William to submit his controversy with France on the subject of Morocco to the tribunal and the need of action to bring order out of the chaotic conditions now existing in Crete.

It is quite possible for a fellow to be blown up without feeling inflated.

Prominent Man Murdered.
Houston, Texas, June 15.—Col. H. S. Wreford, a prominent business man, was shot and killed yesterday at Brownsville as the result of a quarrel issued Thursday, in which he bitterly denounced Capt. William Kelly, because of Kelly's testimony before the Senate committee which is investigating the Brownsville affair in Washington. Jesse Thorham, the stepson of Capt. Kelly, is charged with the shooting.

C. N. R. Gets Permit.
Winnipeg, June 15.—A permit was issued yesterday to the Canadian Northern Railway for the erection of its new shops in Fort Rouge. The permit provides for three buildings—blacksmith shop, 100 by 144 feet; planing mill, 100 by 144 feet, and a car repair shop, 100 by 192 feet. The total cost of the buildings will be \$7,000 and the architect is Samuel Brown.

SHE WAS WILD WITH PAIN.
From Willow Creek, Ont., Miss E. Diegel writes: "A few years ago I was drenched with rain and got lumbago; it was like a steel rod piercing my back. I had earache and was just wild with pain. I applied balm soaked with Neroline to my ear and rubbed on Neroline for the lumbago. That rubbing relieved and in a few hours I was well. No other medicine could do this." It's the penetrating power of Neroline that makes it superior to all other liniments. Nothing beats it; 25c. at all dealers.

Two Cobalt Men Drowned.
Halifax, June 15.—A double drowning is the most recent fatality of the mining camps of the north. A. CANADA'S LOVE FOR BRITAIN.

(From Canadian Poets.)
We love those little lonely isles,
Which nestle in the sea,
We love their towers and bulwarks,
Their glorious minstrelsy.

We love old England's bosky dells,
Proud Scotia's mountains hoar,
Sweet Erin's fields of "living green,"
Their history and their lore.

Dear Avon's banks where "free to roam,"
Sweet songs, sang glorious "Will,"
"Ye banks and braes of bonny Doon,"
Where "Rab" ghost wanders still.

Where "Irish Nora's eyes grow dim,"
When Moore's sweet songs of love,
Suffuse their mystic influence round,
Like incense from above.

The cities of "Old Father Thames,"
Whence wealth and learning flow,
The silver Forth, "Dunedin's towers,"
Their glamor and their glow.

The ancient hills of proud Argyle,
Loch Katrine's rugged shore,
Where Scott, writ sweet, of love and hate,
To charm us evermore.

Where angry Scott, in ancient kilt,
Descended from the North,
With slogan cry, and barbarous shout,
To drive the Southern forth.

When tuckered clans, fierce battle made,
With buckler and claymore;
Where Malrose shed her mystic light,
Amidst the clash of war.

In thought we fly to Flodden Field,
Where Scotia's noblest fell,
Against ranks of the gallant South,
As ancient legends tell.

We glory in Great Britain's fame,
Her sons and daughters fair,
Her mighty strength, her vast renown,
And her protecting care.

So we, "The Maple Leaf Forever,"
With loyal voices sing,
In union with each patriot's song,
"God Save our Gracious King."
—Robert Stark.

CANADIAN INDIANS.
Red Men Come Miles to See a Circus Display.

Canadian Indians are in some respect more interesting than those in the United States, due partly to the fact that in sparsely settled parts of Canada they still retain their old dress and customs. They have always been peaceful on account of the Mounted Police, who in the early days taught the Indians to consider them as friends. As a result of this treatment there has been no Indian massacre, and the red men come into town be-decked in ruddy apparel and take their place in barter and trade with as much assurance as their white brethren.

The Canadian Indians are particularly fond of circuses and on circus day they may be seen on the street corners eagerly waiting for the procession. Usually the braves are dressed in a combination of store clothes and Indian finery. Over the coat is thrown an expensive but dirty Indian blanket, around the neck is worn a flaming colored bandana, and the hair is worn in long braids, the ends of which are lengthened by twisting in ermine skins, which in this region sell for a few cents each. The brave is always smoking a queer shaped pipe, sometimes made of pipe stone and at others whittled from a piece of hard wood.

Close on the street corners, squatting on the curbing, are the squaws, old hags and young women, all careworn and usually holding in their blankets a little papoose, which is hoisted up on its mother's shoulder as the procession passes. The Indians seem dumfounded by the parade, and as soon as it passes prepare to trudge home to the reservation, many miles away, with the air of people who have witnessed the sight of their lives.

Sheepdog Trials.
Sheepdog trials are becoming popular in Canada, and there is some call for them in the neighborhood of New York. But the East can hardly be called a sheep country, and where there are no sheep there can be little use for working sheepdogs. Sheepdog trials are looked upon as a sort of national pastime in Wales, in Wales and Australia, and to watch the dogs work is to recognize the marvelous intelligence of these aids to shepherds.

The great Toronto Show or Fair is now the gathering place of the sheepdog owners, and the entertainments which their dogs have given have been greatly applauded. Major G. M. Carochan is the chief supporter of the trials near New York, and his dogs have given very good exhibitions. The uses of these competitions are manifold. They point to the dog as a utility animal for man, and of what service he is particularly to the shepherd. In the great paddocks of Australia and on the mountains of Wales and Scotland one dog can do the work of a hundred men; he is an indispensable animal. Again these trials give to townfolk an inkling as to the intelligence of a dog, and it is to be hoped that they will treat him accordingly. —Country Life in America.

Sarah Maxwell at Rest.
Last week the remains of Miss Sarah Maxwell, who perished in the Hochelaga school fire, Montreal, were laid in their final resting-place. The funeral was attended by relatives of the deceased, members of the Hochelaga school staff, and several of the parents of the children who lost their lives in the flames. Rev. Dr. Symonds conducted the service at the grave-side. The grave is surrounded by the mounds of the fifteen pupils who were buried on Saturday.

Italy's Dwindling Population.
Some strikingly curious population statistics are now being published in Rome. Some years ago the Italian population was one of the most prolific in Europe, and in one period of twenty years increased from 23,000,000 to 33,000,000. Now the tendency is strongly in the opposite direction. While, at the same time, emigration, which now reaches a million souls a year, is leaving whole rural districts depopulated. The natural increase had declined from 7.38 per thousand in 1901 to 6.1 in 1906. In the flourishing industrial districts there is some progressive increase, but in the rural provinces, like Labuan, Apulia, Sicily, and the Campagna, it dwindles down as low as 1.1 per thousand.

Bible for Both.

When the new legislative assembly of the Transvaal met for the first time at Pretoria, the committee of the Bible Society provided two Bibles, one in English and one in Dutch, to be used by the members of the Assembly in taking the oath. These books will be suitably inscribed and afterwards presented to General Botha, the first Premier of the Transvaal, as a souvenir of this historic occasion.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart and Kidneys are vital, have their controlling or inside nerves. Weaker these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

Woman Not Improving.
Mr. Plowden, the Marylebone magistrate of London, has come to the melancholy conclusion that woman is changing for the worse. He drew attention to the metamorphosis in a striking speech in his court, suggested by an assault case in which a woman took part.

A certain class of case which came before him constantly, he said, suggested that women's nature was undergoing very considerable modifications in the twentieth century. The gentleness and spirit of dependence and the "sweet reasonableness" that used to distinguish the sex were giving place to a love of advertisement and a taste for unseemly scenes of rowdiness and violence.

The doves were changing into eagles. Even the hatpin, designed for such innocent purposes, was becoming, in the hands of women, as much a weapon of danger as the stiletto or the revolver.

These changes in the nature of women were forced upon his attention by what was constantly occurring in the police courts.

It's the little man who generally indulges in the big talk.
