Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous:

- Coloured covers/

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	12X	14X	16X	18X	20X	22X	24X	26X	28X	30X	32X
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du

Les images suivantes ont été reproduites plus grand soin, compte tenu de la condition de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le verso du dernier plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Entered according to Act of Parliament of Canada, in the year 1888, by JOSEPH
EVELEIGH, in the Office of the Minister of Agriculture.

WE have much pleasure in presenting to the Trade our New Price List and Illustrated Catalogue. Several new and attractive designs have been added to our already well known standard lines, and in their preparation every imaginable want has been considered and provided for.

From the inception of our business our aim has been to manufacture an article that could not be excelled and one that would give entire satisfaction. With this in view and with the conviction that a thoroughly reliable article is "better than the best of travellers," we have been more than careful that the quality of the material entering into our manufactures should be the best procurable, and that the workmanship should only be of the most skilled character. We have therefore no hesitation in saying, that for durability and elegance of design and beauty of finish, our Trunks, Bags and Cases excel anything offered to the Canadian Public by either home or foreign manufacturers. A perusal of our Catalogue will convince you that our assortment is more extensive than ever before, and we pride ourselves on the fact that the trade will always find our Stock well maintained and most complete in every branch.

Our Sample Trunk Department is worthy your special and particular attention, for every possible style of Sample Case can here be found. Our endeavor in this connection has been to manufacture a trunk combining strength with the least possible weight, and in this we have admirably succeeded.

Our superior quality of Blacksmiths' Bellows and Portable Forges have already won satisfaction and we invite the continued patronage of the trade for this line.

We are satisfied that a trial of our goods will convince the trade that the superiority claimed is well founded. The extension of our business for the past year proves this, and we now confidently ask the continued confidence of our old friends and a sample order from the trade with whom we have not yet had the pleasure of a transaction.

MONTREAL, February, 1888.

LEATHEROID.

SAMPLE TRUNKS.

Owing to its great strength, stiffness and toughness, in comparison with its light weight, Leatheroid is better adapted for Trunks than any other material. We have experimented for the last three years to get the best method of constructing a Leatheroid Trunk which should excell all others in points of *light weight*, strength and durability; making from time to time such improvements as experience has suggested, and believe we now manufacture the most desirable Trunk ever made for Commercial Travellers' use, or any purpose where durability and lightness are requisite. Our Trunks are now made of a patented combination of thin, tough steel, made especially for us, and Leatheroid, cemented and riveted together, forming a plate that combines lightness and strength to a greater degree than any material ever before used for this purpose. These plates are double lapped at the corners, cemented and riveted in a manner patented by us, and form a corner that will never become loose. Our Patent Hinges never break, have no corners to catch, and hold the lid without stays. Our Trimmings are made from our own patterns, and are of the best quality.

LEATHEROID SAMPLE TRUNKS AND TRAYS.

Made under letters patent : No. 198,382, Dec. 18th, 1877 ; No. 312,946,
Feb. 24th, 1885 ; No. 312,945, Feb. 24th, 1885 ; Mo. 312,947, Feb.
24th, 1885 ; No. 332,034, Dec. 8th, 1885.

We will be pleased to furnish Prices for these Goods
on application.

Travelling Bags.

We are manufacturing this year a very extensive line of Bags. We would call special attention to our Stitched and Leather-lined Goods ; also our English Gladstones, which were always the best in the Market ; they have been greatly improved, and are now superior to any imported.
