RANCE COMPANY.

CAPITAL STOCK-£100,000

REDUCED RATES OF PREMIUM-HALF CREDIT RATES OF PREMIUM. CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Estass. The result of such Reduction is to enable parties to avail themselves of the important benefits to Elife Assurance at much loser Rates of Premium. thus those of any other Assurance Company; i snaecting business in Cuindla.

The Directors have also resolved to extend to British North' America, the advantages a florded by the HALF CREDIT EATERS of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which have may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

ERASMUS R. FOSTER,

Resident Director.

London, January 1, 1847. Detailed Prospectuses, and every necessary formation as to the mode of effecting Assurance may be obtained upon application to J. H. MAITLAND,

Truth for the Million

The grest oumber of parties, (including the most eminent physicians of the Province), who have testified to the efficacy of these waters, whilst it has placed them high in the estimation of the public, has induced some other proprietors of seculid mineral springs, so try to put their waters on the same floating with the Plantagenet. Nothing can be more about than this. These other infector Springs have been known to the public in some instances for fifty years, and in that time what have they done? Have they anything to show for the patronage they have received from the public 1. How have they stood since the Plantagenet came into the field? It is now early three or four years since the Flantagenet Waters were introduced to the Public, and in that short space of time what has become of other Springs, which were known before them? I can any amount of puffing make the public helieve that they descree to be mentioned in the same breath with the Plantagenet Spring 1. It may be safely said that no one used the Flantagenet. Water will ever use any other water. Their inferiority is so marked, and they are comparatively so worthhoe, that hundreds, have declared that they would some truster the same breath with the plantagenet. State of the same breath with the Plantagenet State of the same breath with the plantagenet water with they are comparatively so worthhoe, that hundreds, have declared that they would some truster the plantagenet.
