A. H. MACKAY

A. D. FARRAH & COMPANY

"The Advance House of the North Shore"

Correct Apparel for Women and Men, glorious in line, fabric, ornamentation and coloring, vibrating a refreshing individuality.

Newest Fashions For Spring

For the first time since 1913, Easter comes in March—the 27th—and as a result, Spring apparel makes its appearance much earlier than usual. The Fashions for spring are lovely, with all the gaiety, youth and verve that femininity love, and a truly delightful and interesting thing about them is that everything is marked at a lower price level than in 1920

New Spring Suit Modes \$22.00 to \$45.00

Embracing every fashionable type of spring suit from the bonny youthful box coat to the more conservative and straight line effects. Each reflects that thoroughness in tailoring and nicety of detail, which give these suits their superb character.

Misses' and Small Women's Dresses

\$14.95 to \$16.50

In navy blue serge, embroidered yoke and pleated skirts, excellent quality, very attractive.

Sale of Sweaters Continues

\$1.45 \$2.25 \$3.95

A price representing about manufacturer's present cost.

Slip on Sweaters of fine Zephyr yarn in novelty weaves.

Smart full waist line and fish tail models and the new round necks so youthful and becoming.

Whatever the weather, its time now to buy

Underwear

Because the prices are lower now than they are liable to be later, and the chances are that some day when you first need your lighter weight underwear the prices won't be so low.

General Foch never won any battles ordering munitions after he commenced to need them. Stock up, get ready.

Night Gowns

\$1.45

Fashioned of fine nainsook prettily trimmed with lace and embroidery, Round or V neck.

A. D. FARRAH & COMPANY

Newcastle, N. B.

Crepe de Chene Underwear

Lovely flesh color garments soft, serviceable, washable, tailor finished and lace trimmed models.

Bodice \$1.45 Teddy Suit \$2.75

New Modes in Dresses \$19.89 to \$41.50

Personifying the beauty, newness and vivacity of spring time, these dresses could hardly fail to charm the woman of particular dress ideals. Fashioned of silk, taffeta, crepe, tricotine, serge and satin.

New Coats

\$25.52 to \$32.50

Both luxury and service are combined in the delightfully soft materials used in the spring time, expression of coats in plain or combination of shades.

Blouses

A Display of the Delightful Fascinating New Fashions

Georgette Crepe is the favored fabric for the Mode's expression, in the soft beige and blue shades suit colors, dainty flesh and white.

\$6.95

Women's Union Suits

Unusual Values at 89c

Union Suits in band top, loose knee style, lace edged, regular sizes.

MIR. HOSPITAL AID ANNUAL REPORT

The annual meeting of the Miramichi Hospital Aid Society was held in the Hospital on Thursday afternoon, February 24th. A large attendance of members was present and the following reports were submitted.

Secretary's Report

The second year's work in the history of the "Miramichi Hospital Aid Society" has been completed and we beg to submit a brief resume of what has been done.

During the year seventeen (17) members have been added to our roll, making at the present time, a total membership of eighty (80). The average attendance at our regular meetings, however, has not been as large as we would wish, and we hope that in the work of the year we are entering upon, more of our members may realize the amount of work there is to be done and the urgent need for it.

Our hospital has been taxed to its utmost during the year. This means increasing needs of supplies, which in turn demand larger amounts of money with which to buy materials. 488 different articles have been completed by our Committees, all of whom have done most faithful work. During the summer, owing to the absence of many of our members, no meetings were held in July or August.

At a "Benefit" evening at the Dime Opera in April, \$161.82 was realized. The generosity of the management of the Theatre, in allowing us the privilege, was much appreciated.

In June a Garden-party was held on the grounds of Mr. W. A. Park, as a result of which \$360.82 was added to our funds.

A Rummage Sale in the Town Hall netted us \$338.68 and during the Spring months, tea was served at the regular monthly meetings, bringing in small amounts.

An Easter gift to the Hospital of 29 dozen eggs came from the school children, each child, who could, bringing one egg. 15 doz. eggs were sent from Millerton. A club of little girls sent in small donations which they made from candy sales and entertainments. These small beginnings, we hope, may lead to greater work these little ones may do for the Hospital in years to come.

Our Society assisted at a sale in the store of A. D. Farrah & Company, in December, a percentage of the proceeds to be a donation from this firm towards the Nurses' Home Fund. While we did not benefit directly from this splendid offer, we felt that the comfort of the nurses was as much our work as the comfort of the patients and we did the work enthusiastically. In this, we were assisted by the Chatham Auxiliary.

We have also undertaken, at the request of the Board, the raising of money for a memorial tablet to the late Mr. Ernest Hutchison. This fund has been started but has not yet reached the amount required.

We have received splendid support from the Auxiliaries in Chatham, Millerton and Whitneyville. The Millerton Auxiliary sent in supplies of linen from time to time and we have received a donation of \$34.55 from Whitneyville as well as vegetables and fruit. The Chatham Auxiliary has taken charge of the "Baby Ward" which they so expertly equipped last year and they continue to keep it supplied with everything requisite in the daintiest possible way. They have also sent in

"WHOOOPER" WILL RUN ONLY THREE DAYS A WEEK

On and after Sunday the Whooper will make three trips to Fredericton—Tuesday, Thursday and Saturday instead of running daily. The Ocean Limited going south will arrive here at 2.20 instead of 1.47. Nos. 31 and 32 train will be discontinued between Campbellton and Moncton.

The reducing of the Whooper from a daily train service to a tri-weekly service will be very inconvenient, for the people from the up-river sections who do their business in Newcastle.

Get it, at R. M. Faudel & Sons.

HARCOURT RESIDENTS SHARE IN WELLWOOD EST.

Sydney, N. S. Feb. 24—The estate of the late A. E. Wellwood, of Sydney, a track master for the I. C. R. who was killed a little over two years ago at North Sydney, has been finally settled. The late Mr. Wellwood died without a will and considerable interest was manifest in the case owing to the number of heirs who pressed their claims. The widow received half the estate.

There was a long list of heirs and all, with the exception of the children of the late Mr. and Mrs. D. J. Buckley, of Newcastle, N. B. made application for their shares. The heirs who benefited are: Mrs. S. Wellwood, mother of the late A. E. Wellwood; Frederick Wellwood, a brother and Mrs. W. F. Buckley, a sister, all of Harcourt, N. B. and several children of the late Robt. Wellwood. The amount paid to each heir was \$1,250.

donations of linen.

Much regret is felt because of the illness of our beloved Superintendent. We sincerely hope that change and rest may restore her fully and that she may return to the work she is so eminently fitted for.

ADA McL. PUTNAM, Sec'y

Feb. 1921

Treasurer's Report

To the President and members of the Miramichi Hospital Aid Society. I have much pleasure in presenting our Second Financial Report for year ending January 1921

LEGISLATURE WILL MEET ON MARCH 17

The New Brunswick Legislature will be summoned to meet in Fredericton on Thursday, March 17. The proclamation will be issued at once.

Asked regarding the possibilities of a by-election in Restigouche, following the unseating of the members, Messrs. Stewart and Diotte, in consequence of the decision of Mr. Justice Barry, the Premier said that under the law, the respondents were allowed twenty days from the date of judgment in which to appeal. No action would be, he said, taken until the twenty days had elapsed.

A meeting of the government will be held in Fredericton on next Tuesday, so the premier also announced.

FUNERAL OF THE LATE MRS. E. E. BENSON

The funeral of the late Mrs. E. E. Benson was held from her residence, Wednesday afternoon at 3 o'clock. A service for the family was conducted at the house by Rev. W. J. Bate, rector of St. Andrew's Anglican Church, after which the remains were conveyed to the church, where the impressive service of the Church of England was conducted by the rector. The choir was present and the church was filled by sympathizing friends of the family. Interment was in the Miramichi cemetery and the funeral was under the direction of Mr. Charles Gough.

The pallbearers were Dr. J. D. McMillan, Messrs. Burton Somers, E. J. Morris, Samuel Craig, Frank Hare and Wilfred Reid.

As an expression of esteem in which the deceased was held a large number of beautiful floral tributes were in evidence, and were sent by the following:

- Wreath—Family
- Pillow—Father and Mother
- Wreath—Mr. and Mrs. Moulding
- Wreath—Ester and Brother
- Crescent—Mr. and Mrs. E. T. London.
- Cross—W. A. of St. Andrew's
- Cross—Mr. and Mrs. Perley Brown
- Wreath—Mr. [James Russell] and family
- Wreath—Mr. and Mrs. Brownlow Maltby.
- Wreath—Harkin's Academy Teaching Staff.
- Wreath—Pupils of Misses, Hill and Craig's Department.
- Spray—Mr. and Mrs. A. C. Allen
- Spray—Mr. and Mrs. Fred Uncles
- Spray—Mr. and Mrs. W. F. True-man.
- Spray—Mr. and Mrs. Burton Somers.
- Spray—Mr. Wm. Irving and family
- Spray—Commercial Class, St. Mary's Academy.

Could Not Raise Her Hand To Head

Halifax Woman Had Suffered From Rheumatism Five Years Before She Got Tanlac

"It is such a relief to be free from pain after all my years of suffering that I feel like going out and telling everybody what a wonderful medicine Tanlac is," said Mrs. H. W. Conrad, of 131 Cunard street, Halifax, N. S.

"For five years before I started taking Tanlac I suffered so with rheumatism in my legs and side that at times I could hardly move. At night I would often wake up in a terrible pain and if I tried to turn over in bed it almost made me scream out I couldn't raise my hands above my head and it was such torture to try and do my work that I simply had to let it go undone. I was troubled a lot with indigestion and lost so much in strength and weight that I was a mere shadow of my former self. Although I tried almost everything in the way of medicines nothing seemed to reach my case until I tried Tanlac.

"After taking seven bottles of the medicine I am like a different woman and feel fully ten years younger. The rheumatism has left me and it is such a comfort to be able to sleep peacefully throughout the night. I have also been relieved of all stomach trouble so that I can eat anything, and my appetite is just splendid. I feel so energetic all the time that my work is a real pleasure to me and I can hardly find enough to do."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank, by Wm. M. Sullivan, in Doaktown by O. Hilda-Brand and in Nelson by Mrs. James Nowlan.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation.

The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

Bathurst Board Of Trade Celebrates

Bathurst, Feb. 22.—With about 100 guests at the banquet table, the Board of Trade of this town held their second annual dinner at the Masonic Hall this evening. Mr. J. L. Ryan, past president, presided at one of the most successful affairs ever held in Bathurst.

The special guests of the occasion were R. E. Armstrong, who represented the Board of Trade of St. John; E. W. Jarvis of Chatham; David Campaux of Campbellton and Peter Morais of Caraquet. Each of these responded in happy style to the toast of "Our Sister Boards of Trade."

After the toast to The King had been honored, the following gave addresses: Mayor Burns represented the town of Bathurst; J. D. Hatchey, Geo. Gilbert and E. P. MacKay on the industries of the district and the Rev's J. A. Cooper and A. D. Archibald for the clergy with L. L. Desroches proposing the toast to the ladies.

Advantages Of Home Grown Turnip Seed

Tests conducted at the Experimental Station, Kentville, N. S. indicate clearly a great advantage from the use of turnip seed produced at home.

Home grown seed has shown greater vigor in germination than much of the seed purchased from other sources. This is doubtless due to the fact that it has been of more recent production and has not suffered in vitality from storage, age, or other causes.

The Corning Top Swede which had its origin at Yarmouth and the Dilmars Swede which originated at Deep Brook, Annapolis County are outstanding sorts, and in fact, in point of trueness to type are equal to the best Swedes tested. These men have done a wonderfully good work in bringing these two Swedes to their present standard of perfection. Not only are they high in dry matter, in fact higher than many of the varieties usually grown, but they are the best for home use or market of any so far tested. They run true to form, being even throughout with a uniformity that cannot be excelled. They are equal in yield to the best sorts grown.

In view of these facts it is well that consideration should be given to the advisability of using the Nova Scotia grown seed thereby increasing yields and at the same time encourage an industry that means so much to a country where roots form a large part of our succulent crop.

Areas have been devoted to seed production and seed is available at reasonable prices considering its guaranteed quality. By applying to

WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WASING, ONT. "I had an attack of Weeping Eczema so bad that my clothes would be wet through at times.

For four months, I suffered terribly, I could get no relief until I tried "Fruit-a-tives" and "Sootha-Salva". Altogether, I have used three boxes of "Sootha-Salva" and two of "Fruit-a-tives", and am entirely well."

G. W. HALL. Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa. "Fruit-a-tives" is also put up in a trial size which sells for 25c.

the Secretary of the Yarmouth County Agricultural Society, Yarmouth, N. S. and the Dominion Seed Branch Truro, N. S. farmers may get in touch with growers who have seed of known purity.

After having tested nearly 100 lots of seed from different sources for two years we are convinced that the home grown seed will give best returns. This seed, however, is not available through the local trade, and that farmers may know how it may be secured, the object in writing this article is secured.

Keep Little Ones Well In Winter

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next one cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Election In Restigouche Is Cancelled

Dalhousie, Feb. 23.—Judge Barry who has been listening to evidence for the past week on the Restigouche election hearing, rendered his decision today. No surprise came with the finding of Justice Barry as his verdict was in line with what was generally expected.

He finds both returns of Sheriff Craig were void, the election void, and orders that each party pay their own costs.

Hon. J. B. M. Baxter, who conducted the case in behalf of Messrs. Stewart and Diotte, whom the Sheriff declared elected in his first return, is not by any means satisfied with the finding and will take the case to the Supreme Court of Appeals.

By this decision of Judge Barry, Restigouche County in the next legislative Assembly.

Rod And Gun

"Camping Out Along The C. P. R." is the title of a splendidly illustrated story by F. V. Williams in the March issue of Rod and Gun in Canada. Bonnycastle Dale tells of his experience with snakes and eagles in various parts of Canada in this issue. In addition to these two stories there are six others of equal interest by such well known nature writers as George R. Bell, Harry M. Moore, Harry W. Laughy and E. T. Martin.

The fire arms permit law is dealt with editorially and in a strong appeal to the sportsman by Ipa Leighley entitled "An Undigested and Indigestible Law." This issue contains the final trapping department until the autumn and will be read

Foster Govt. Is Looking After North'd

The Chatham Commercial reports J. W. Vanderbeck, M. L. A., as stating that while in St. John at the Provincial Labor Convention, Premier Foster "extended an invitation to meet him and talk over things in Northumberland. Among the things explained to him Mr. Martin reported that the Ferry at Chatham was out of date, and while it had been handled well by the young men who had taken it over, there were three weeks last fall it could not run on account of ice. Hon. Mr. Foster told Mr. Martin to have a boat built in Chatham and that the Government would pay for it. Have it iron clad to break ice so it could run until teams could cross on the ice.

"Mr. Vanderbeck says that Hon. Mr. Veniot will be in Chatham this week or next, and will meet the citizens and look into the ferry matter, and will likely start right away in having the boat built. It will cost in the vicinity of \$25,000."

LUMBER PROSPECTS ON THE MIRAMICHI

(Chatham World) At the annual meeting of the North West Boom Company on Friday, in Mr. Davidson's office, Newcastle, the former directors and officers were re-elected.

The lumber prospects were looked upon by every one present as very bad. All of the piling grounds are full of lumber, and there is no demand for it at any price. The Fraser mill is not to start till July, some of the others may not run at all. Last year's cut was 40 million and this year's only 17 million, and the probability is that part of this will be left on the landings instead of being driven down to the booms. No boom master was appointed, and the lumber that comes downriver may be held there and not rafted. It will be cheaper by far to keep the logs in the boom than to saw them and hold the lumber, as there would be no insurance. Mr. Snowball said he would not start his mill at all un-

COMBINATION CREAM Jonteel

60¢

A Wondrous Beauty Cream

YOU will love the fragrance first. Then the velvet smoothness, the delicate creaminess, of this marvelous beauty cream. It fairly melts into the skin—without a trace of grease, or the clogging of a single pore. Anemic tissues speedily drink it in, becoming smooth and softly pliable under Combination Cream Jonteel. A perfect base for powder. Take home a jar today.

DICKISON & TROY, "The Rexall Store"

Lower Your Coal Bills With A 'HECLA' PIPELESS FURNACE

It will cost you less for coal to heat your whole house with this furnace than it will to try and heat it with stoves. It will cost you less for coal with a "Hecla" Pipeless than with any other heating system!

The "Hecla" Firepot has three times the heat-radiating surface of any other furnace because it is ribbed with flanges of steel. For that reason it gives quicker heat—and more heat.

Owners say that this exclusive "Hecla" feature applied to pipeless heating means wonderful fuel economy.

At today's price of coal you do not need to save many tons to pay for a "Hecla" Pipeless.

Patented Fused Joints are another superiority of the "Hecla" Pipeless! They are proof against leaks of gas and dust.

And in the "Hecla" Pipeless you get an extra big waterpan—that runs all around the furnace. Thus, every room in the house is supplied with air that contains a healthful degree of moisture.

It takes but a day to install a "Hecla" Pipeless. Our booklet "Buying Winter Comfort" describes all the other advantages fully—tells why it keeps the cellar cool for vegetables, why it heats every room properly, why we guarantee it absolutely. Write for it now. There's lots of zero weather ahead. Why not enjoy the comfort a "Hecla" Pipeless gives, and begin saving your coal bills now—this winter.

New York C. P. R. Building

Great interest is being taken by New York transportation and real estate men in the decision taken by the Canadian Pacific Railway to concentrate its various offices into one building close to the Grand Central Station.

The Canadian Pacific deal, which has required an entire year to close on account of its elaborate ramifications, involves a lease from the Madison Avenue Offices, Inc., the holding corporation for the Fifth Church of Christ Scientist, of a large store, basement and almost the entire second floor of the 44th Street portion of this twenty-one story building; and also involves an investment of considerable proportions by the Canadian Pacific Railway Company in the building itself, in consideration of which the name of the building will be changed from "Madison Avenue Offices," or, as it has sometimes been referred to, the "Christian Science Building," and will be re-named the "Canadian Pacific Building."

The area of the plot on which the building stands covers over 31,000 square feet, and is situated directly opposite the Hotel Biltmore on the east, Brooks Brothers' building to the north and the old Hotel Manhattan to the south.

The Canadian Pacific Railway will occupy in the store, basement and second floor, all that part of the building on which only a year ago stood St. Bartholomew's Church, demolished last April, to make way

for the great uptown trend of business.

The negotiations just closed provide, in addition to the investment mentioned above, a lease for 21 years at an aggregate rental of something approaching \$3,000,000. It was said by F. R. Perry, General Agent, Passenger Department, in New York, for the Canadian Pacific, that it will give up its railway offices at Broadway and 30th Street and its branch at Broadway and 33rd Street, and will combine its railway, steamship, and colonization departments in its new home on Madison Avenue.

The plans of the Canadian Pacific Company are particularly significant in that they will provide the largest consolidated ticket offices in New York, for in addition to their own occupancy, it is said by the agents of the new Canadian Pacific Building, that negotiations are pending with several of the largest trans-continental railroads for representation in the same store. This arrangement is similar to the Railroad Administration during the war.

The store has a frontage of 81 ft. 6 in. on Madison Avenue and 146 ft. 6 in. on 44th Street. The Canadian Pacific Building will contain over 400,000 square feet of rental area and will be the most up-to-date office building in the Grand Central District. Many offices and much space have already been leased to influential corporations, and it is said by the agents that other important leases are now pending.

Good Health Can Be Yours

If Your Blood Supply Is Kept Rich and Red

It is a waste of time and money to fight merely the signs of disease; in the long run you are probably worse off than when you started. What is far more important is that you should intelligently examine the various symptoms and trace the cause. When you remove the cause, health will be yours. For example, anaemic people often endure months of suffering while treating its symptoms, such as indigestion, shortness of breath, palpitation of the heart and exhaustion after any small effort.

The apparent stomach and heart troubles are generally nothing more than the result of an insufficient supply of pure blood. This anaemic state may have followed some previous illness, or an attack of influenza; or it may have risen from overwork, worry or too little fresh air. To obtain good health the simple and proper course is to build up the blood, but to do this you must select a reliable remedy with a reputation such as Dr. Williams' Pink Pills. These pills enrich the blood which carries nourishment to all the organs of the body and enables them to do the work nature expects of them. Thousands of men and women have proved this for themselves. One of these is Mrs. T. Flynn, R. R. No. 1, Erinsville, Ont., who says: "Last spring I got into a badly run down condition. I had no energy; work left me exhausted, and the least exertion would make my heart palpitate violently. I had often read of Dr. Williams' Pink Pills, and decided to give them a trial and got a half dozen boxes. I had not been taking the pills long when I felt a decided improvement in my condition and by the time I had used the six boxes I could do my housework with ease. I can strongly recommend Dr. Williams' Pink Pills to all weak people."

You can get these pills through any dealer in medicine, or by mail post-paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A Rift In The Lute

The most outstanding feature of the first week of Parliament was the speech of Mr. Gauthier, the Member of St. Hyacinthe, in which he definitely broke away from the Liberal Party with which he had been connected all his life.

The bitterness and narrowness of our politics are never more strongly exhibited than when a man severs his connection with his party. Ever since Mr. Gauthier's name became talked about in connection with a Cabinet position he has been subjected to the most vicious attacks of his old political friends in the Province of Quebec. Traitor, renegade, Judas, were among the mildest epithets hurled at him. Attempts even were made to besmirch his private character. Important newspapers haunted him to the point of persecution. Then came his turn. On Wednesday he got the Speaker's nod of assent, giving him the floor, and proceeded to smite his assailants hip and thigh. It was a well-balanced, vigorous deliverance, at times raising to eloquence. The pitch of it lay in the declaration that he had not left his party, rather the party had left him. He is a believer in moderate protection, which has been carried out by his beloved leader, Sir Wilfrid Laurier, when in office for fifteen years, and now he finds himself unable to subscribe to the new Liberal doctrine which is against protection and in favour of free trade. "Who" said he are renegades? Is the man a traitor who still fights for the tariff instituted by the late Sir Wilfrid Laurier, as Leader of the Liberal Party, which has brought wealth and happiness to the people, or are those the traitors who want to destroy that platform; who want free trade; who want tar-

iff for revenue, or any kind of policy which will enable them to take the spoils of office?

If the truth were only told and men were only true to their convictions, Mr. Gauthier is in the same boat as hundreds of thousands of Liberals in the Province of Quebec, and it may come to pass before long that they will be compelled by the force of circumstances to declare themselves as courageously as he has done.

Mr. Gauthier expressed the belief that Quebec's naturally on the trade question is Ontario. He does not want an alliance with the farmers because he is afraid of the communism of the agrarian movement. Nor does he want an alliance with Labour because the labor unions of Canada are affiliated with the American Confederation of Labour the headquarters of which are in Washington. In ringing tones, he said "I don't want our policy, our fiscal policy, our national policy to be dominated by someone who does not live in our land." Equally forcibly, he said "The agrarian movement is tending to class movement, and I am afraid of that and my people are afraid of it. The people of Quebec are going to seek an alliance for the benefit of all parties concerned and specially for harmony amongst all classes, all groups, all provinces all races, all creeds."

His castigation of the Honourable Rudolph Lemieux, his chief assailant, was scathing and skilful. "Here," he said "you have a man who represents two constituencies, Gaspé, a farming constituency, and Maisonneuve, a manufacturing constituency. In the one he preaches free trade and in the other he preaches protection."

"You will remember that for many years there was a great discussion about airships. Some scientists claimed that in order to float in the atmosphere you should have something lighter than air. Then scientists came to the conclusion that it was necessary to have something heavier than air. At the time of the first theory balloons were made of silk and were filled with gas. Then the aeroplane was invented, and through the rapidity of the motor it was able to plane into the atmosphere. The honourable gentleman started his career as a balloon. He was robed with silk and filled with gas. Then he changed into an aeroplane. He had to give action to his airship through the most powerful motor there has ever been in this land, one that can never be duplicated. This motor was named Sir Wilfrid Laurier. When the motor stopped, the aeroplane came down to Mother Earth, and it is still splashing around in all the muddy spots, whence it can fly no more. He can say to those who still surround him: "Once I was a bird, look at my broken wings," but for the common people he will ever remain the most perfect political bat this country has ever known or heard of."

Mr. Gauthier's break may be the beginning of a new era in the politics of Quebec. The air is filled with rumblings indicating change and division in political thought. There is much flattering in the political dovecots. The Province, which is almost solidly protectionist in sentiment, is commencing to be seriously alarmed over the free trade agrarian movement and it wants to get on solid ground where its interests will be safe. Day in and day out the foremost French-Canadian newspapers, La Presse and La Patrie, preach the doctrine of protection. The law of self-preservation will ultimately compel the people of the province, notwithstanding their past political affiliations, to ally themselves with the champions of moderate protection against the advocates of free trade. The signs are not few that the days of the solid bloc in Quebec are numbered.

PILES

Do not suffer another day with itching, bleeding or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. See a box at dealers or Edmanston, Bates & Co., Limited, Toronto. Sample Box free if you mention this paper and enclose 5c. stamp to pay postage.

UPPER BLACKVILLE

Upper Blackville, Feb. 21—The weather for the past weeks has been very favorable and the roads are in an excellent condition.

We are sorry to report so many of our friends on the sick list. Mr. and Mrs. Harry W. Davidson are visiting the former's parents Mr. and Mrs. William P. Davidson of this village.

The many friends of Mr. John Peterson are glad to hear he is convalescing after undergoing an operation at the Miramichi Hospital in Newcastle.

Our school is progressing under the skilful management of Mr. George Hovey of Ludow, N. B.

Miss Muriel Donald called on Mrs. Percy Dunphy one evening last evening last week.

Mrs. Ethel Burke and niece Mrs. Thomas Allan Connors made a business trip to Newcastle Monday last.

Mr. and Mrs. Nelson Arbeau are receiving congratulations on the arrival of a young daughter Feb. 20th. Misses Margaret and Isabel Bergin visited Mrs. James Duncan Thursday evening.

Messrs Thomas and Herman H. Connors of G. Schofield Camp, Doaktown spent Sunday at their home in this place.

Miss Violet S. Arbeau spent Sunday with her aunt Mrs. Charles Morehouse.

Mr. Duncan Campbell has returned home after spending the winter months with James Holmes Co. Ltd. of Doaktown.

Mrs. Otis D. Arbeau was visiting her mother-in-law, Mrs. Harriet Arbeau for the past week.

Mr. John Donald of this vicinity passed through enroute to visit the private schools.

Mr. Hinson Morehouse of Beaver Brook visited his parents here, Sunday last.

Miss Jessie Sinclair of Ludlow spent the week-end with Mr. and Mrs. Charles Morehouse of this place. Our popular mail-carrier Mr. Page Arbeau makes his weekly routes, he always brings the cheery letters to the lumber camps and greets the girls with a smile.

Mr. Duncan Campbell accompanied by his cousin Miss Charlina Morehouse was calling on friends Sunday last.

Mrs. Carrie Arbeau who has been very ill all winter, her many friends are glad to see her in their midst again.

The I. O. F. is to hold their monthly meeting March 9th all members are invited.

Miss Helen Campbell was calling on Mrs. Herbert Morehouse one day last week.

Mrs. Peter Moran and son Lawrence spent Sunday in Blissett.

Mr. Herman H. Campbell made an extended trip to Fredericton where he was the guest of Mrs. Walter Whyte, who has recently arrived from Scotland, with her daughter Miss Evelyn.

Misses Laura and Elsie Arbeau

visited friends in Doaktown on Saturday.

Mr. Wilbur Arbeau called on Mr. Chester Connors Sunday.

Mr. Finton Bergin who was confined to his home is now on the road to recovery.

Mrs. Jane Peterson and cousin Miss Jennie were visiting her sister Mrs. Henry Veno of Weaver's Sliding.

Mr. Fred N. Arbeau is now convalescing after a serious illness of la grippe.

EVERY CHILD

needs nourishment that not only sustains strength but also promotes normal growth.

SCOTT'S EMULSION

is a food- tonic that is of special significance to children.

Those who are not thriving ought to take Scott's Emulsion

Mother

"California Syrup of Figs" is Child's Best Laxative.

Beware! Say "California" or you may not get the genuine "California Syrup of Figs" which doctors recommend for babies and children of all ages. Nothing else cleans the little bowels and regulates the child's stomach and liver so gently, so thoroughly. Directions on each bottle. But you must say "California." Don't be talked into an imitation fig syrup which hasn't the delicious, fruity taste or the perfect "laxative physic" action.

Youth or Years

Eye-glass need is no respecter of persons. You see the youth of seven or the years of seventy wearing glasses. It is wonderful to be made to see properly.

MIR. HOSPITAL AID ANNUAL REPORT

(Continued from page 1)

Mrs. McCormack 10.30
Mrs. George Stothart 8.20
Mrs. G. M. Lake 25.20

Officers Elected

Honorary Pres.—Mrs. E. J. Hutchison
President—Mrs. C. C. Hubbard
1st Vice-Pres.—Mrs. B. F. Maltby
2nd Vice-Pres.—Mrs. W. J. Bate

New Prints, and Gingham, at R. M. Faudel & Sons.

For real "honest to goodness" value you will use Red Rose Tea. The same good tea to-day as for over 26 years.

Secretary —Mrs. L. D. Murray
Treasurer —Mrs. Charles Sargeant

Church Representatives

Baptist—Mrs. Kinley, Mrs. McCormack.
Methodist —Mrs. Champlon, Mrs. Petrie.
Roman Catholic—Mrs. Barry, Miss Creaghan.
Anglican —Mrs. Allan Ritchie, Mrs. J. W. Davidson.
Presbyterian —Mrs. Geo. Stothart, Mrs. John Williamson.
Salvation Army—Capt. Millard, Lieut. McLaren.

Committees

House Committee—Mrs. L. H. MacLean, Mrs. H. Sinclair, Mrs. O. Nicholson.
Buying Committee—Mrs. Brander, Mrs. K. Anderson, Mrs. C. Sargeant, Mrs. O. Nicholson, Mrs. W. F. Copp.
Cutting Committee—Mrs. McMaster, Mrs. Petrie, Mrs. Gough.
Work Committee—Mrs. Park, Mrs. Williamson, Mrs. Lake, Mrs. John McCullam.
Mite Committee—Mrs. James Stables, Mrs. H. Sinclair, Mrs. Petrie, Mrs. McMaster, Mrs. Copp.
Finance Committee—Mrs. O. Nicholson, Mrs. Kinley, Mrs. R. W. Crocker.

Rheumatic Pains

Are relieved in a few days by taking 30 drops of Mother Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extract of Roots," contains no dope nor other strong drugs to kill or mask the pain of rheumatism or lumbago, it removes the cause. 50c a bottle at druggists.

Auditors—Mrs. E. A. MacMillan, Mrs. A. J. Ferguson.

CHATHAM BRANCH MIRAMICHI HOSPITAL

During the past year the Chatham Branch of the Miramichi Hospital Aid has increased its membership to forty-four and meetings have been held regularly with the exception of the summer months.

A most successful Valentine Tea was held, the receipts amounting to Two Hundred and Forty-two dollars (242.00).

One hundred dollars was voted for Rubber Sheetting in March and in June the following articles were ordered:

1 Patch Bed, 1 Instrument Stand with two trays, 1 Pacquin Contery, 1 Military Stretcher and Sling, 4 Bed Cradles.

For the Baby Room the following articles were provided:

2 Wall Cabinets, 3 Bath Thermometers, 1 pair Window Curtains, New bows for coats, 70 Napkins, 20 Slips, 20 Night Gowns, 25 Pads (absorbent).
Material has been purchased for new set of linings, spreads etc. Two Towel Racks, are on order, also set of Test Tubes and Sterilizer.

On October 6th a Food Sale was held with proceeds amounting to One Hundred and Twelve Dollars and Ninety four cents (112.94)

Six of our members went to Newcastle on Thursday Nov. 4th to assist the Aid in the Sale at Mr. Farrah's. They were entertained at lunch by the Newcastle ladies and enjoyed the day very much.

On February 2nd a Jam and Pickle shower was held and afternoon tea served. 107 jars were donated and \$17.00 in cash. The jars were packed and delivered to the Hospital.

A Beautiful Display of
New York Voiles

They are now being shown in all the wanted colors and designs. Made in the famous "Hegla" make direct from 5th Ave., New York

PRICES this season are lower than you have been in the habit of getting. Light and Dark Fancy Voiles at 60c to 1.50 yd.

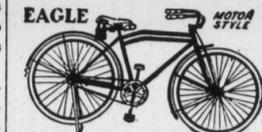

The New Hats

The new Hats for Men have arrived. The shapes are much smaller than last year. Prices are smaller also.

As our year ends in June, it is difficult to give an exact Financial Statement but that will be forwarded in our yearly report.

This guarantee is in force to-day as heretofore, and will be found plainly printed on each package.

Maritime May Have Smaller List In House

Ottawa, Ont. Feb. 22—The effect of a possible further curtailing of the representation in the House of Commons of the Maritime Provinces in the event of redistribution is engaging the earnest concern of maritime members. In 1913 an amendment to the British North America Act pro-

vided that the representation in the Commons should not drop below that of the Senate. Both New Brunswick and Nova Scotia are entitled to ten Senators and Prince Edward Island to four.

The Present Standing
Under the last redistribution New Brunswick was given eleven seats, Nova Scotia sixteen and Prince Edward Island four. While the island representation cannot be further curtailed, it is possible that an increase in the population of Quebec without

corresponding increase in Nova Scotia and New Brunswick may result in the first province losing one representative and the latter six. This would bring the total maritime representation down to twenty-four instead of thirty-one as at present.

Would Bring List Down
Quebec is entitled to sixty-five seats and is the basis for the representation from other provinces. The unit in Quebec is now approximately one member for every 33,000 of the population, and if this increase to 40,000, as predicted, without a corresponding increase in the other provinces, the maritime representation will have to come down.

Observers state that in addition to the natural increase in the population of Quebec many natives of that province, who immigrated to the United States have returned owing to the industrial depression in that country.

This would further swell the population. The same may also hold good of the Maritime Province men, who went south in search of better conditions, but the fact remains that judges of the situation believe that the maritimes have not kept pace with Quebec in the matter of population.

It is not likely that maritime members will endeavor to further protest their representation by again asking for an amending of the British North American Act this session. It is felt that the situation will solve itself, and that while a few seats may be lost the maritime representation in the next parliament will be between twenty-five and thirty.

CATARRH CANNOT BE CURED with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

PERSONALS.

Mr. A. A. Davidson left on Wednesday for Boston, Mass.

Mr. Ed. Bourgeois of Tracadie was a visitor to town last week.

Mr. Ed. Williamson of Moncton, spent the week-end in town.

Mr. John Whelan has accepted a position at the Miramichi Hotel.

Miss Agnes McCabe has returned from a visit to relatives in Moncton.

Miss Dorca Blaine attended the Millinery openings in St. John last week.

Miss Olive R. Williamson left on Sunday for a visit to Moncton and Halifax.

Miss Mary McCarron of Moncton has accepted a position in the local Post Office.

Mr. H. C. Shaw of the Canadian Linotype Co., Ltd., of Toronto, was in town last week.

Friends of Mrs. Allingham will regret to learn that she is seriously ill at the Miramichi Hospital.

Mr. J. W. Spurden, of Fredericton was in town last week making an audit of the Town Books.

Mrs. William Moulding of Concord, N. H., arrived last Tuesday night to attend the funeral of her sister, Mrs. E. E. Benson.

Mr. J. V. Argyle of the Marconi W. T. Co., of Montreal was in town last week attending the funeral of the late Mrs. E. E. Benson.

Miss Jennie Morrell, is acting matron of the Miramichi Hospital during the illness of the matron Miss Keyes, and Nurse Miss Lockerbie.

Myron Nicholson returned home last week from Amherst, N. S., and will spend a vacation with his parents, Mr. and Mrs. O. Nicholson.

Miss Gertrude Harvey of Boston, Mass., arrived in town last Friday having been called here, owing to the illness of her mother, Mrs. Allingham.

Miss Jessie Fleming received painful injuries to one of her wrists last Saturday evening while skating at the rink. Miss Fleming has the misfortune of falling on the ice and fractured several bones.

Messrs. Earle McDonald, William McCullam, Charles Johnson and Richard Dickens, left Monday for St. John, where they will take a month's N. C. O's course in the Infantry School.

Fleming an inmate of Ward G of the hospital. He stated that on the morning of the 17th accused tipped into the ward took a blanket from a vacant bed and started to leave. Witness told him to put the blanket back and make up the bed. Accused did so, and asked what time it was and on being told it was 6.45 left the room.

F. H. Jones was also called and corroborated Fleming's evidence.

Dr. W. H. McDonald, medical supervisor was also called. He stated that the accused had never been an inmate of the hospital and had no business there at that hour.

Accused on Stand
Muzzerrall called by Mr. Feeney stated that he was out late on the night of the 16th and having an appointment with Dr. Sterling at the D. S. C. R. offices at 8.30 the next morning went to the hospital at about 6.30 a. m. and entered the ward where some chums of his were staying. He took the blanket intending to have a sleep in an empty ward where no spreads were on the beds.

To the magistrate he admitted having served six months' sentence for the theft of liquor which he declared was not stolen by himself.

Comment by Magistrate

The magistrate in commenting on the case said that he could see no reason why leniency should be shown to returned soldiers. They should obey the laws as well as other people and as a matter of fact should be the last to infringe upon them. If juries wanted to let them off, set free all well and good but as for him if he found them guilty they would be punished.

The prisoner was remanded to jail until Monday for judgment.

J. L. Stewart, of Chatham, editor of the World and a former member of the legislature, has been advised by his physician to go to the West Indies. Mr. Stewart has recently been very ill and his many friends hope that a sea trip will restore him to health. He will leave in a few days.

BUY AT HOME

Economy in Grain Feeding the Dairy Cow

The greatest factor in the economical grain feeding of the dairy cow, other than the ability of the cow to use her grain ration economically, is the supply of home grown roughages and grain feeds available on the farm. The roughages are of importance, for the richer, more succulent and more abundant they are the less grain feeding is necessary to secure the maximum milk flow from the cows. The home grown grain feeds are of equal importance, for they can be grown much more cheaply than they can be purchased, the quality is known, and the greater the supply grown, the smaller the capital outlay in commercial feeds.

In growing grains on the farm to feed to dairy cattle, the farmer must of necessity stick to the class of grains that will work in best with his rotation of crops. For this purpose oats can hardly be excelled and they are, as well, one of the best of grains for dairy cattle feeding. Another grain that works into a rotation very well, particularly as a nurse crop when seeding down a field, is barley. Greater use could be made of this grain in combination with oats in the dairy cow's ration. Where it is not desired to keep the various classes of grain separate, a very good yielding mixture, and a

very good feeding mixture, is found in peas, oats and barley, provided the selection of varieties is made so that they will ripen as near the same time as possible.

The farmer who has an abundance of good roughages, such as clover hay and silage or roots (preferably both), together with a supply of the above mentioned grains, will be in a position to feed his dairy cows both well and economically. He will be in a position to feed his dairy cows well and economically. He will be will, however, require some purchased grain feeds so as to balance the ration for his cows that they will have a sufficient quantity of protein. If the feeder had the choice of but one grain food (luckily he has many to choose from) he would be well advised to choose wheat bran to balance the ration. It is so largely sold that it almost forms a standard of values for other feeds and is consequently practically always economical to buy. When we add to this its many qualities as a feed, such as—high protein content; low fibre content; laxative and tonic qualities; palatability; and its bulkiness, it will readily be appreciated why it is always given a prominent place in the dairy cow's ration. Other standard grain feeds which are most useful in balancing a home grown grain ration, are oilcake and cottonseed meals. To many these grains seem extremely high priced but when we consider the purpose for which they are bought, namely to supply protein, they are the cheapest feeds that can be got unless that the price is relatively very high indeed. If their residual value as manure is considered and it is no mean consideration, they take first place as cheap protein feeds. Furthermore the grades of these commodities showing the highest protein content, even though somewhat higher in price than the others are the most economical to buy.

Another factor in economical feeding is a proportion in which the various grains mentioned should be included in the ration. This will depend to a certain extent on conditions. If there is a superabundance of the home grown grains, the proportion of the purchased grains could be cut down accordingly without materially affecting the balance of the ration. If alfalfa and clover hays are abundant in the ration the rich protein grains may also be reduced and the desired balance retained. If, on the other hand, there is a lack of these protein roughages and they are substituted by others such as timothy hay or straw, then more of the protein-rich grains are required to retain the protein balance which, it may be well to state, will under these conditions be retained at a loss. The following grain mixture, with the above variations, will be found economical; bran 3 parts, oats 4 parts, barley lot 2 parts, oilcake or cottonseed meal 2 parts, or 1 part of each.

The rate at which this mixture is fed is another factor in economical feeding. It has been found from experiments involving close calculation, that a safe rule to follow is to feed one pound of the grain mixture to every 3 pounds of milk produced in the case of fresh and especially productive cows; one pound to every 4 pounds of milk produced for the cows well on in their lactation periods, together with those naturally less productive; and one pound to every 5 pounds of milk produced with the cows that are winding up their lactation periods. In other words the amount fed must be arrived at by the joint action of the milk scales, the milk tester, the feed scales, and the judgment of the feeder.

THE "ADVOCATES' CREED"

Train Service Changes On Canadian National

Slight Changes on Time Ocean Limited—Change on Fredericton Sub-division.

Time changes on Canadian National Lines effective February 27th show that No. 2 Ocean Limited will arrive at Newcastle from Montreal at 2.15 p. m. The time of No. 1 Ocean Limited is unchanged.

Trains No. 31 and 32 will be discontinued between Moncton and Campbellton, and run between Campbellton and Joffre.

On the Loggieville Branch No. 206 will leave Newcastle at 2.30 p. m. instead of 1.55 p. m. No. 207 will leave Loggieville at 3.35 instead of 3.25 p. m. Other trains are on same schedule as before.

Passenger trains No. 239 and 240 on the Fredericton sub-division will run tri-weekly instead of daily—No. 239 leaving Newcastle at 4.50 p. m. on Tuesday, Thursday and Saturday and No. 240 leaving Fredericton at 6.15 a. m. the same days. Passenger trains 27 and 28 will run daily except Sunday on same schedule as at present.

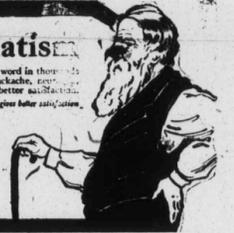

SUCCESSFUL MEETING

"The Why of an Egg" meeting held last Friday evening in the Town Hall was well attended, and the lecture, illustrated with moving pictures, was greatly appreciated. The lecture was both instructive and entertaining and many hitherto unknown facts were presented to the audience.

Backache—Rheumatism

For over 50 years Minard's Liniment has been a household word in thousands of homes all over Canada. It quickly relieves rheumatism, backache, neuralgia, sprains or bruises and pain of any kind. None give better satisfaction.

Recollections of the Old Survey Days

During the summer of 1881, we were locating and running trail lines for the main line of the Canadian Pacific Railway along Nobsung Lake and down the Vase Creek towards Lake Nipissing. A Mr. Hegon was in charge of the party, that gentleman for work, Mr. E. J. Duchesnay was transitman, and Emile Tetu leveler. At that time there was but one settler on Nobsung Lake, and what fishing there was in it!

While we were camped along the lake we used a lumberman's red boat to take us to and from our work, when we invariably trawled with a hand line and common spoon.

I recollect while rowing to work one morning, Duchesnay trawled. I sat looking on. Suddenly there was a tremendous tug at the line. Uttering an exclamation Duchesnay began hauling it in, but it was no easy matter. "Twas evident he had hooked a big one. Fortunately, however, the line was a stout one and the fish securely caught. After a brief and desperate struggle on the part of the fish, he was brought alongside of the boat. The question then was, how to get him on board? for we had neither gaff nor landing-net. At his belt, Duchesnay carried a neat little 32 calibre Smith and Wesson revolver. A brilliant idea occurred to me.

"Shoot it, Mr. Duchesnay," I called out. Promptly acting on my suggestion, at a range of a couple of feet or so, he broke his back with a bullet, killing him immediately and a mauling of thirty-two lbs. weight weighed on our return to camp in the evening—was lifted into the boat without any trouble.

The following Sunday morning Duchesnay and I took a bark canoe and went trawling. We had but one line and took it turn about to fish and paddle. I do not recollect how many we caught, but I do remember that after fishing, for only a portion of the morning, we brought back to camp more black bass and dory than the whole party of about twenty-two healthy men could eat, before a good part of the catch went bad and had to be thrown away.

I do not know how many settlers way now be living about the lake, or

how much fishing has been done since those days, but unless it has been much fished it should still well repay a visit of any enthusiastic disciples of the gentle art.

Recollect we had but one common, large red and silver spoon. How the fish must have swarmed in the lake, then. What sport might not export fishermen have today, with rods and proper tackle? Where could they find finer camping grounds either, or lovelier wild scenery of lake and woods?

When we had left the lake a few miles with our survey we got into the undulating brûlé country along The Vase Creek. What a paradise that country was for sportsmen, then, before its world old silence had been disturbed by the locomotive's whistle. Moose, bear, lynx abounded. Never a day passed that we did not see fresh tracks of them. The bear and lynx we never saw. What animals are more shy or wary? A moose occasionally we did.

One day, while running the line along a side hill, in the open brûlé country, we saw six magnificent moose. But, of course, no rifle was ever carried on the line and we could only watch them trot away. What strides they took, with what ease they negotiated fallen timber!

It was about mid-summer, if I remember rightly, of that year 1881, somewhere along The Vase. We had gone out to work as usual, I was a

roadman on that survey; that morning, however, one of the chainmen was laid off, for sickness or something, and I was told to fill his place.

As usual, that morning, Duchesnay set up his transit, and as usual the axemen lolled about, lighted their pipes, or gave a final touch with whetstones to their axes, while they waited for line. In a few moments the transit was in readiness and Duchesnay turned to me.

"Get a good stout four by four inch, four foot dry stake, like a hub-stake, blaze it like a hub-stake, and mark on it with red keel, in big letters, 'C.P.R. Station O'." From now on this line will be known as The Canadian Pacific Railway, not The Canada Central." He turned to the men. "All right, boys, stick up a picket and get line now."

Thus I had the distinction of making and driving in the first station stake marked, C.P.R. I think there is a station now somewhere about there, called Calender.

"I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, backache, headache, biliousness and kidney derangements soon disappear with the use of this well-known medicine.

One pill a dose, 25 cts. a box, all dealers, or Edman, Bates & Co., Ltd., Toronto.

Indian Corn As A Grain Crop In N.B.

While in the early days of the province it was customary for many farmers in localities favourable to corn, to grow small areas to supply themselves with corn meal, the practice was largely dropped because of the comparatively cheap price at which corn from the U. S. corn belt could be sold here.

With a view of ascertaining the possibilities of producing corn fit for grinding, in a situation not especially adapted to corn, different early flint varieties have been grown at the Experimental Station, Fredericton. Thus far the trials have not been successful except with a variety grown and improved by Dr. G. M. Twitchell at Monmouth, Maine. Quebec Yellow and some native New Brunswick strains have done fairly well in warm seasons, but Twitchell's Pride has now given two good crops without the aid of especially warm weather in a location that would not be selected as most suitable for the purpose.

Last season half an acre of the driest land on the Station was manured with 8 tons of hog manure put in hills three feet apart each way, was levelled and covered with soil, five kernels dropped in each hill and covered about an inch deep, on May 24th. It came up on the 31st. Two hand hoeings and frequent horse cultivation were given. Tassels began to appear from 15th to 20th. July and by the 5th August the whole crop was in silk. The first ripe ears were found in the last days of August and by the 15th September 80% of the ears were well hardened. The ears were not pulled until the 6th October when the stalks were cut and put in the silo. The yield was 210 lbs of ears after they had been husked and dried, all ears not ripe having been discarded. This yield was equal to 30 bushels of shelled corn off the half acre.

There were approximately three tons of stalks, which had to be wet down to make silage. As corn was selling at \$2.75 per 100 lbs. the grain crop was worth \$46.00 and the stalks were worth about \$6.00 for silage, a total value of \$52.00, equal to \$104.00 per acre. The total cost of growing this crop on the half acre was \$38.00, leaving a net profit of 28.00 per acre.

It would seem that with varieties as early and vigorous as that above mentioned, localities in New Brunswick free from frost from 1st June to Middle of September, sheltered from cold winds and with warm fairly rich soils, corn can be depended upon to give better results than above quoted and corn growing for grain would be well worth the effort, while where soils are damp and cold and fields exposed to high winds the crop would not be certain. June frosts and early fall frosts would also prevent success.

Lord Beaverbrook Discusses Success

(Canadian Press Despatch)
 London, Feb. 23 —Lord Beaverbrook, writing in the "Sunday Express," discusses the qualities which make for success.

"For my own part," he stated, "I speak of the only field of success I know—the world of ordinary affairs. Success is partly a matter of predestination and partly of free will. You cannot make a genius, but you can either improve or destroy it, and most men and women possess the assets which can be turned into success.

"The qualities which make for success are three: Judgment, Industry, and Health and perhaps the greatest of these is judgment. Genius goes to the heart of a matter like an arrow from a bow, but judgment is the quality which learns from the world has to teach and then goes one better.

"But judgment may prove a sterile capacity if it is not accompanied by industry.

"The dominions of the British Empire abolished long ago the privileges which birth confers. No bar has been set there to prevent poverty rising to the heights of wealth and power, if the man were found equal to the task.

"The same development has taken place in Great Britain today. Men are no longer born into cabinets; the ladder of education is rapidly reaching a perfection which enables a man born in a cottage or a slum to attain the zenith of success and power."

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

In Time of Need It's always
Zam-Buk

"We Find It Indispensable, whenever the children get cut, bruised or burned," writes Mrs. T. Fothergill, Ridge Farm, Bousman River, Man. "Once when my wrist was badly cut and the doctor tried stitching it, it would not heal. Zam-Buk soon put it right. I have also found Zam-Buk a soothing remedy for skin rash and irritation, also for piles.

"Our eldest boy was recently badly cut about the face by one of the cattle. At first I was afraid he might lose his eye. But we kept the injury clean, regularly dressed it with Zam-Buk, and it healed perfectly.

"My husband always carries Zam-Buk about with him on the farm, prepared for any accident. It one time rid him of a nasty outbreak of boils."

Zam-Buk with its wide range of usefulness saves worry and doctor's bills. It conquers eczema, ulcers, piles and ringworm as surely as it gives new skin over a cut, burn or scald, or place chapped with cold. Splendid also for sprains, rheumatism and muscular pains. Zam-Buk derives its wonderful properties from certain rare herbal extracts. It's the most wonderful healer ever discovered. See all dealers, 3 boxes \$1.50. Sample for 1c stamp, Zam-Buk Co., Toronto.

CHATHAM, 8; ST. JOHN, 2

Before a thousand people at Chatham on Thursday night champions of the New Brunswick Hockey League defeated the St. John sextette by a score of 8 to 2. The ice was very soft, which made heavy going, and as a result both teams felt the effects early in the game.

St. John started off with a rush in the first period and made things lively for a time, but the combination of Father Spratt, McMahon and Keoughan was too much for the visitors. They were unable to get through the local defence and at the end of the period were shooting from well out, and Carvell was able to get everything. The score for this period ended three to nothing.

In the second the locals scored three more on a pretty combination work while St. John was unable to connect in the final. Chatham appeared with Dicky Martin at left wing. This was his first appearance since his injury early in January and he celebrated his return by scoring Chatham's last two goals on passes from Spratt. Gallivan replaced Martin before the close of the game. In this period with Keoughan and Cripps off the ice the St. John men scored their two tattles, the last by Gilbert. After a pretty run up the ice, he shot and the puck bounced off the goal post and Jimmy poked it in.

For St. John Gilbert and B. Mooney were the stars and worked like trojans. Father Spratt was the pick of the champions but considering the condition of the ice they all did good work.
The St. John men were without some of their regulars, V. Beadreau, J. McGowan and L. McGowan. T. Gilbert handled the whistle and gave good satisfaction. The lineup was as follows:

St. John—	Goal	Chatham—
Fraser	Carvell	
	Defence	
Gilbert	Currie	
B. Mooney	Cripps	
	Centre	
Gallivan	Spratt	
	Right Wing	
McKinnon	Keoughan	
	Left Wing	
Spares—St. John, Beadreau and Connolly; Chatham, Martin, and Gallivan.		

CELEBRATE GOLDEN ANNIVERSARY

Mr. and Mrs. Sutherland of Cassilis, were taken very much by surprise on Wednesday evening last when a large number of their friends and relatives gathered to celebrate their Golden Anniversary.
Among the number present was Rev. Mr. Girdwood, who by a few well-chosen words presented them with a purse of \$50 on behalf of the people.
A sumptuous repast was served while Eugene and Roberta Chaplain entertained the company with violin music.
Mr. and Mrs. Sutherland are a couple possessed of many sterling qualities and this thoughtful act goes to prove the esteem in which they are held and the appreciation of their many acts of kindness and

CHATHAM C. T. A. DEFEAT NEWCASTLE C. S. E. T.

The C. S. E. T. of Newcastle were in Chatham on Saturday night for their return game with the C. T. A. to which they fell victims of a 3-1 score.

Both teams played good hockey but the Intermediates of the C. T. A. proved too fast, their shooting being more effective than that of their opponents.

Newcastle scored the first tally of the game their only score after six minutes of play Hogan tying the score by a rush from Centre before end of period.

Newcastle was shut out in the last two periods. Chatham managing to secure two goals when Martin scored on a pass from McMahon in the second period and again when McLean made one of his brilliant end to end rushes in the third.

The visitors were the guests at the supper given by the team after the game and departed on the 11.45 train for their home town.

The line up was as follows:

C. T. A.	Goal	C. S. E. T.
McEachern	McCormick	
	Point	
Moar	McMichael	
	C. Point	
McLean	Fallon	
	Centre	
T. Martin	C. Murray	
	L. Wing
