

The life of a public man is often arduous and exceedingly difficult, and sometimes it is perilous. It is a great satisfaction to know that our friend here himself nobly in the glare of public life. All differences of opinion are hushed for the moment, and when ever the question of his fine manhood was suggested, "So we bear his remains tenderly away to their last sleeping place. His resting is mourned by this city that he loved so well, by those to whom as a physician he brought healing and cheer, by this constituency which he served in the House of Commons so honestly and faithfully, by Knox congregation to which he was so attached, and by all the people who will not soon forget his name. Surely these words belong to such a one. "Well done! Good and faithful servant, enter thou into the joy of thy Lord."

When on my day of life the night is falling, And in the winds from unnumbered spaces blown I hear far voices out of darkness calling, My feet to paths unknown, Then who has made my home of life so pleasant, Leave not its tenant when its walls decay, Oh Love Divine, oh, Helper ever-present, Be thou my strength and stay, Be near me when all else is from me drifting, Earth, sky, home's pictures, days of shade and sunshine, And kindly faces to my own uplifting, The love which answers mine.

I have but Thee, my Father, let thy spirit Be with me then to comfort and uphold; No gain of pearl, no branch of palm I merit, No street of shining gold. Suffice it if my good and ill unreckoned, And both forgiven through thy unbounding grace, I find myself by hands familiar beckoned, Unto my fitting place.

Some humble door among thy many mansions, Some sheltering shade where sin is washed away, And flows forever through Heaven's green expansions, The river of thy peace.

There from the music round about me stealing, I faintly would learn the new and holy song, And find at last, beneath thy trees of healing, The life for which I long.

Mr. Millar concluded his address with a fervent prayer, and after the singing of "Nearer My God to Thee," the remains were removed to the hearse which departed, Miss McCarry, softly played "God be With You Till We Meet Again."

Among the floral tributes received from public friends, and the following: Vegreville Liberal association, Red Deer Liberal association, Central Alberta Liberal association, city, Conservative association, Strathcona board of trade, Knights of Pythias and others.

Those from private individuals were as follows: Dr. and Mrs. F. E. Edmondson; Hon. A. C. Rutherford and wife, Mr. and Mrs. Marriott, Mr. and Mrs. McCullum, N. D. Mills and Mrs. Hunter, Mr. and Mrs. Walsh, Mr. and Mrs. R. Sheppard, Mr. and Mrs. Ewan Jackson, Mr. and Mrs. Edwin McKenzie, Dr. and Mrs. Archibald, Mr. and Mrs. D. H. McKinnon, Mr. and Mrs. Chisholm, Mrs. Baillie and Mr. A. G. Fuller, H. A. Calder and several others not named.

***** WINNIPEG MARKET. ***** (Continued from Page One) *****

Chicago, July 23.—Wheat feels the absence of a strong bull leader. James A. Hatten says that he is friendly to wheat and still it sinks lower and lower in price under pressure from the short sellers. The bears "rule the roost" in the wheat pit, and they will continue the selling movement from day to day, until they are made to stop short and take a step backward. While the present large run of wheat continues and the weather is bright and favorable the bulls will not care to support the market.

Chicago Live Stock. Chicago, Ill., July 23.—Shippers paid 6 to 10c more for their hogs than Thursday. Choice light stuff in the \$1.80 to \$1.90 pound class showing the big end of the advance. This skimmed off the cream of the crop. Packers wanted to buy the mixed delegation at steady prices and culled because sellers asked more money. The result was a slow trade on each grade as to the packers. Good corn fed cattle show gains of 10 to 15c for the week, selling up to \$7.65, the high point of the year, which is a heavy movement of southwestern beef towards the St. Louis and Kansas City markets. Live mutton trade was strong. Several local killers had no direct stuff and were under the necessity of getting in to the open market. Lambs are 40 to 75c lower for the week, while sheep are 25c higher.

Hogs—Receipts 12,000; market 6c higher. Mixed and butchers, \$7.60 to \$8.25; good heavy, 7.80 to 8.30; rough heavy, 7.50 to 7.90; light, 7.60 to 8.15; pigs, 6.90 to 7.85; bulk, 7.75 to 8.15.

G. T. P. OFFICIALS TO VISIT CITY

President and Directors of Company Will Make Inspection of the New Line.

Montreal, July 22.—President Sir Charles Rivers Wilson, of the Grand Trunk, with directors of that road and the G. T. P., sailed from Liverpool today by the Megantic for Canada. Mr. C. M. Hays, general manager of the Grand Trunk, and president of the G. T. P., is expected here on Sunday. He will have a clear week to catch up his work in Montreal before the arrival of the official party and will then accompany them on a tour of the Grand Trunk and its subsidiary lines. By the time this trip is ended it is hoped that the line between Winnipeg and Superior will be completed. If this is done Sir Chas. Rivers Wilson and the other directors with the Montreal officials will take the Harmonic to Port Arthur, and then board a special train there to make an official inspection trip over the G. T. P. clear through from Port Arthur to Edmonton. If the line east of Winnipeg is not ready for trains they will go to Winnipeg by the Canadian Northern and proceed thence over the G. T. P. to the end of the completed tracks.

ATLABASCA RETURNS.

Athabasca Landing, July 22.—The complete returns of the Athabasca survey by July 22 are the following: Sam Cunningham, poll—Bredin 51, Cote 54, Maurice 3. Martin Ouellette poll—Bredin 12, Cote 40, Maurice 1. Swan River poll—Bredin 19, Cote 6, Maurice 0. Sawridge poll—Bredin 7, Cote 10, Maurice 1. White Fish poll—Bredin 3, Cote 10, Maurice 0. Bredin's total, 141; Cotes' total, 218; Maurice's total, 11. Cotes' majority, 77.

DISASTER IN SUMATRA.

Large Lake Had Formed in Crater. And it inundated the district. Vancouver, July 22.—The Norwegian steamer, Tricolor, which arrived today with a cargo of raw rubber from Surabaya, Java, was there when news came from Batavia of a great disaster in mid-June in western Sumatra. Cable advices reported a devastating earthquake which resulted in the loss of 2,300 lives.

TURNING OUT COPPERS.

Ottawa, July 22.—By the Royal mail today only one copper coinage was being turned out at present. In fact no silver coins have been struck this year. The reason for this is that the usual run of copper coinage is half a ton per day, but in the present emergency only one-half a ton is being struck. The mint authorities say that if the Canadian public would be content with the 5c and 10c pieces the loss is less than 50 per cent.

FISHERY APPEAL NEXT YEAR.

Ottawa, July 22.—Contrary to general expectations, the fisheries dispute between Newfoundland, Canada and the United States will not be referred to the Hague conference this year, but will probably be referred next year. The United States has proposed that Mr. J. S. Stewart, an in London preparing Canada's case, along with Sir Robert B. Finlay, the lawyer, English lawyer, Mr. Aylesworth will proceed to Vienna in a few weeks, where he will consult with an expert on the fisheries. The case is expected to be heard in the autumn. He will return to Canada in October.

WANTS WOMEN POLICE.

Minneapolis, Minn., July 23.—That Minneapolis needs 100 women policemen is the opinion of Dr. Anna Shaw, president of the National Woman's Suffrage, who is in the country of the students in the Chapel of the University of Minnesota. She gave a lecture here on the subject of women's suffrage. She said that it was her opinion that should the three women specialists put on the police force of any city would prove an improvement in civic conditions. She said that the criminal needs more attention to people who need their wholesome influence, backed up by authority, would prove a most useful and uplifting measure.

COTE ELECTED.

Athabasca Landing, July 22.—J. L. Cote, of Edmonton, has been elected by a majority of 93 with W. B. Isaac poll to hear from this morning. Cote will likely increase his majority by a further 100 or more. He will likely increase his majority by a further 100 or more. He will likely increase his majority by a further 100 or more.

ORDER PREVAILS IN GLACE BAY

Glance Bay, N.S., July 21.—Perfect order prevails in the strike districts. Arrests are below the normal and no drunken men are to be seen. Yesterday the output was 8,111 tons from the collieries and banks. The morning output of the strikers was 2,000 tons. The company reports substantial progress at No. 2 and 4, the strongholds of the strikers. On the other hand the U.M.W. still profess confidence and say the "kick" in the strike conditions are materia prima. Nothing sensational has occurred during the past week. The U.M.W. still profess confidence and say the "kick" in the strike conditions are materia prima. Nothing sensational has occurred during the past week.

29 MILLION BUSHELS THE EXPECTED YIELD

Provincial Department of Agriculture Publishes Bulletin Reviewing Crops and Conditions Up to Close of Harvest—Estimate Based on Acreage.

Following is the June crop bulletin issued by the provincial Department of Agriculture: "Throughout the province seeding was much delayed by cold, wet weather, which came early in April just as the farmers were making ready to go on the land and continued during the greater part of the month of May. In consequence seeding was much delayed and ground sown the first day of June was only 1,000,000 bushels. The June seeding was much delayed by cold, wet weather, which came early in April just as the farmers were making ready to go on the land and continued during the greater part of the month of May. In consequence seeding was much delayed and ground sown the first day of June was only 1,000,000 bushels. In consequence seeding was much delayed and ground sown the first day of June was only 1,000,000 bushels.

THE YOKO PARK.

In the Heart of the Canadian Alps. Field, July 17.—Yoko Park, the middle court of Canada's great national park, is entered a little west of Hinton, at the junction of the lake. The park is a beautiful area of 400 acres, and is a fine example of the success of a large share of this will undoubtedly be summer followed and sown to winter wheat.

June Dry in Places.

In some parts, particularly from Nanton to Disburg, along and east of the C.P.R. line, correspondents report that the ground is very dry, but on the whole the outlook for an abundant harvest of spring sown grains is at present exceedingly favorable.

Condition of Winter Wheat.

The condition of the winter wheat is a matter of considerable importance to the province. The winter wheat is a matter of considerable importance to the province. The winter wheat is a matter of considerable importance to the province. The winter wheat is a matter of considerable importance to the province.

Strike Situation Remains as at First

The Big Fight Yet to Come—Arrests Below Normal. Glance Bay, N.S., July 21.—Perfect order prevails in the strike districts. Arrests are below the normal and no drunken men are to be seen. Yesterday the output was 8,111 tons from the collieries and banks. The morning output of the strikers was 2,000 tons. The company reports substantial progress at No. 2 and 4, the strongholds of the strikers. On the other hand the U.M.W. still profess confidence and say the "kick" in the strike conditions are materia prima. Nothing sensational has occurred during the past week.

CHICAGO LIVE STOCK.

Chicago, Ill., July 23.—Shippers paid 6 to 10c more for their hogs than Thursday. Choice light stuff in the \$1.80 to \$1.90 pound class showing the big end of the advance. This skimmed off the cream of the crop. Packers wanted to buy the mixed delegation at steady prices and culled because sellers asked more money. The result was a slow trade on each grade as to the packers. PREMIER RUTHERFORD RETURNS TO THE CITY

Pays Tribute to Late Member for Strathcona—Corner Stone of Parliament Buildings Will Probably Be Laid in September (Friday's Daily).

Premier Rutherford came to the city yesterday to be present, along with the other members of the cabinet, at the funeral of the late Sir Wilbert MacIntyre, which took place in Strathcona at 3.30 o'clock today. He will return to Banff on Saturday to complete his period of vacation.

"The late Dr. MacIntyre was a most exemplary man," said the Premier, in lamenting the death of Strathcona's member. "In his public life he was sometimes the subject of attack in the House of Commons, but he had no political enemies. As a man he was liked by all who knew him. He was a man of high degree, as I have never known him to touch either. The doctor was called away in the prime of his manhood and the suddenness of his call makes his death all the more lamentable. Alberta needs more men of his stamp. Dr. MacIntyre."

Asked as to any public matters which will require his attention while in the city, the Premier stated that he was answering his correspondence has not much public business on his mind. "Will the corner stone of the Parliament Buildings be laid this fall?" the Premier was asked.

Vancouver to be National Port.

speech at a luncheon given by the Liberal association to Hon. Wm. Pugsley, the latter said: "The time has arrived when Vancouver should be recognized by the National Convention of the Nationalist party. It would be a reflection on any government of the entrance to this harbor were not made as great a railway as any in the world. If the two hundred thousand dollars we have granted towards building the traffic bridge between Vancouver and North Vancouver is not sufficient with the cooperation of the two municipalities, then I would say that a further question to Ottawa for aid is not likely to fall on deaf ears."

Saskatchewan Laborers Strike.

Saskatoon, July 22.—Notwithstanding the fact that a board of conciliation has been applied for and granted under the Lemieux act on application of the general laborers' union here for the purpose of inquiring into the conditions in connection with civic contracts in this city thirty men working on the Board contract on the Twentieth street sewer, Saskatoon, went out on strike this morning. The gang, who are mostly Galicians and Doukhobors, have apparently been dissatisfied for some time, and hearing some time ago that an increase in wages was likely to come because of the granting of the conciliation board they became restless and refused to continue work to-day, striking at 9.30. A meeting is being held tonight in an effort to get the men to return to work.

THE ALBERTA CROPS.

(Continued from Page One.)

One of the New Districts.

The principal crop and these are expected by the first of August, to be a week ahead of former years.

The argument from the premises seems irresistibly logical. The premises of course is that the Powers desire peace.

This may be the weakness in the chain, for it must be admitted the peaceable professions of the Powers generally agree with the circumstances about as badly as the explanations of the small boy caught emerging from a melon patch.

One of the New Districts.

Hundreds of farmers in the West, and probably elsewhere, have been caused endless annoyance and in many cases, losses of stock or crops by the neglect of railway companies to build fences and install gates and cattle-guards on their grades even before the rails have been laid.

It is common in the West for the grading of a line to be done months ahead of the steel-laying. It is not uncommon for the grade to lie a whole winter before the steel is put down.

The grading gang, of course, tear down the farmer's fences wherever necessary to get at their work.

When they work, they completed they move on without spending the time to re-plant the gaps. In consequence the farmer must go to the expense of stopping them himself or suffer the inconvenience and danger from loss of having his cattle and horses wander all about the country and of having his neighbors' stock invade his fields at pleasure.

Frequently the stopping of the gaps would mean considerable expense owing to the height of the grade, and it always means one which the farmer does not feel properly called on to bear.

A railway company really takes possession of its right-of-way through a farmer's place when the grading gangs begin work, and there is no very apparent reason why they should be allowed to leave a free passage from the farmer's property along their grade to the open country or the highway.

To erect the fences and install gates and cattle-guards in advance of the steel would no doubt be more costly for the companies, on account of the more expensive transportation of material. But it should at least be required that the grading gangs replace the fences torn away by them before leaving the premises.

The expense of this work falls properly on the company, which by making the grade, formally and actually takes possession of the right-of-way. It might be unreasonable to require them to incur unnecessary expense by fence-replacement of the steel, but it surely is not fair to allow them to leave a gap through which stock may wander at will off onto the adjoining property.

It is to be hoped the telegraphic summary of the order is inaccurate and that this essential point is covered by it. If not the Commissioner would earn the undying gratitude of the Western farmers by issuing another meeting of the case.

A RECIPE FOR PEACE.

Mr. Andrew Carnegie draws again the old and obvious moral for the nations from the fact that Canada and the United States have by agreement maintained the Great Lakes in a state of unpreparedness for war.

Mr. Carnegie's conclusion is that the Powers professing a desire for peace have only to follow this lead to carry their professions into effect. He says:—

"Nearly a century ago (1817) Canada and America agreed that upon the inland seas which constitute their boundary for hundreds of miles, each should place one 100-ton vessel armed with one 28-pounder. The tiny craft, one flying the Union Jack and the other the Stars and Stripes, have never fired a shot except in friendly salute to each other, and unbroken peace has been preserved. If the world had its police force on the seas, there would be the 'protection from assault' which each naval power declares it only desires and is increasing its navy solely to ensure. There would remain no enemy from whom 'protection' was needed. Commerce would be unimpeded. The naval nations would be as one in friendly alliance. Our English-speaking race has developed parliamentary government, abolished the last vestige of human slavery from civilized lands, was first to abolish private war between men, and was also prominent in abolishing piracy upon the seas. Why should Britain's the foremost naval power and the Motherland of our race, hesitate to invite the other naval powers to confer with a view to peace, and, as one means of securing it, suggest they combine in abolishing war upon the seas, following the British-American example. Let this be freely discussed with other suggestions. There is nothing startling or new in this plan. It would follow a highly successful precedent, covering a century. Three or four powers could be named before, united today to ensure peace on the seas, would be sufficient, but many more would respond to Britain's call. Surely few, if any, would decline. Why should they? How could they, when they are being peace, as they all proclaim? Those who declined would reveal themselves the enemy of mankind. The powerful powers accepting might so greatly preponderate as to see to it that they maintain peace, and ships of war, except the few needed for police duty, would just as being unneeded, as they have long been and are today upon the inland seas of North America. No nation would commit itself to anything by accepting an invitation to confer. Any action taken could be made subject to ratification by the governments."

The argument from the premises seems irresistibly logical. The premises of course is that the Powers desire peace. This may be the weakness in the chain, for it must be admitted the peaceable professions of the Powers generally agree with the circumstances about as badly as the explanations of the small boy caught emerging from a melon patch.

CLEARING SALE

:: AT ::

J. H. MORRIS & CO.'S DEPT. STORE

270-76 JASPER AVENUE EAST, EDMONTON.

HUNDREDS of people look forward to our Annual Clearing Sale, as it is the biggest money saving event of the year. This season all departments in the store are going hand in hand in order to make it the most successful sale ever known in the history of Edmonton. When we advertise a sale, that's what we mean, and we are glad to know that people appreciate a sale being run by this store, and many of them remark "you always get genuine bargains at Morris." We want every man, woman and child to know this. Our goods are all marked in plain figures, so as to make it more convenient for the public. Specials will be run at certain hours each day of sale; watch for them; it will pay you.

Good Saving Opportunities in STAPLES

The good house wife who keeps her eye on these specials in the staple department will reap her reward in savings that are always worth while.

CONSTRUCTION AT POWER HOUSE

Immense Undertakings Now in Progress to Give Edmonton Better Public Utilities.

For weeks past the one great question of discussion in connection with municipal affairs has been the condition of the power house and what is being done to put the electric power and water supply upon more efficient basis than it has been and now is. Some have found fault because conditions have not been more quickly remedied and there has been considerable criticism because construction work has not been carried on at a more rapid rate.

A visit to the immense construction work now in progress, however, is an eye-opener and has opened the eyes of many a citizen who before has fully understood the work now in progress has been strong in denunciation of what he thought was delay in getting the new plant in working shape. A case in point came to the attention of a Bulletin representative several days ago. "One of the largest city users of water for industrial purposes for several weeks been most active in attack upon the administration, even going so far as to threaten to organize an indignation meeting. Eventually he decided to visit the new power plant work himself and when he returned it was with a changed attitude of mind. "My eyes have been opened," he said, "and I see that all possible is being done to improve conditions as rapidly as possible."

"The work now going on at the power house is larger than that in any other cities of Western Canada taken together," said the visiting representative of a prominent electrical firm a day or two ago. "It is by far the largest construction of its kind in any city in Canada," he continued, "and Edmonton is to be congratulated upon the way the work is being handled."

These, while citizens are suffering from lack of water and failure of electric power they have the consolation in knowing that there will speedily be a change and that everything possible is being done to keep the city far in advance of its growth in the future.

Thursday a representative of the Bulletin visited the power plant, present and in process of construction, and in company with other citizens, was shown through by Commissioner McNaughton, who is now in personal charge. The construction work is being carried on by two gangs of men, working day and night shifts and made up of fifty each. The machinery now in operation is permanent staff in three shifts of men each.

The present equipment. The power house is roughly divided into two sections, the pumping and electric power generating. The electric power generating is the section supplying the city with light, power for small electric plants and for the operation of the street railway.

The mainstay of the water system is the three million gallon turbine pump operated by electricity. The pump, which was installed over a year ago, is situated in a concrete pit, 32 feet deep about the level of the river bed. It is this pump that has got out of order frequently in the past and has cut off the water supply. It was purchased by the city and not connected with the city and the general opinion is that it should never have been bought. In fact part of the purchase price is still retained by the city owing to its being unsatisfactory.

The auxiliary pumping outfit, and what was the main supply till the installation of the electric pump, consists of an engine one and a half million and a Northey one million gallon pumping outfit. These are in the present power house.

The lighting and power end of the present plant is operated by the gas producer engine rated at 1,000 horse power and two smaller engines of 300 and 500 horse power each. These operate various generators and motor generators. The steam engines have done more than their share of the work in the past months and the gas producer engine is now working fairly satisfactory. With the gas producer engine the opinion is similar to that on the electric pump. If steam had been given the preference in each case many of the recent troubles would never have occurred. The troubles have, of course, been increased by the rapid growth of the city.

The construction work. The foundation work of the new plant, much of which is underneath the ground level, make up two-thirds of the operations and does not appeal to the casual observer as it would to one who looks more closely into the work. The structural steel and brick work can be done much more quickly than the concrete. The foundations for the new engines, the floors of the buildings, which will be 110x130 feet, and the foundation walls, are all of massive concrete. In the new pump pit which is an excellent piece of reinforced concrete work, 22 by 38 feet, 41 feet deep, the walls are from five feet thick at the bottom, to one and a half feet thick at the top. The total cost of the new work runs up to \$900,000.

The different new engines. The big engine of the new power plant is the Colson, McCulloch 1,800 horse power, which operated a 1,000 kilowatt generator. This will supply electric light and power for small motors. The foundations will be ready to receive the machinery next week. The street railway equipment will consist of three motor engines, two of the Robt. make and one is a Billis Marcom. These will operate three railway generators. One is a Westinghouse and two are Craker Wheeler. Each of the three generators will supply power to operate at least ten cars. In fact a smaller

generally than any of the three now being installed is at present operating the entire system.

One of the engines and generators is now in position and its operation before the first of September will be the first part of the new plant brought into active use.

Up-to-Date Appliances. These engines are located on the east side of the power house. On the west side are the boilers, ranging along the western wall. Coal will be supplied by hoppers and elevated coal bins and there will be automatic feed chutes to the furnaces, thus saving much labor. Two large fans, each having capacity to handle 4,000 horse power, will make forced drafts and dispose with the necessary amount of steam as in older times. These fans will be operated by smaller engines. Each of these fans are in duplicate and so there is no danger from a breakdown.

The new six million gallon pump now on the ground, which is expected to relieve all water troubles, will be located about 150 feet from the power house. This fan will be allowed to stand in its other dimensions. In the bottom is a 36 inch intake pipe, leading from a point 200 feet up the river from the bank. The new pump has a capacity of fifty revolutions per minute, but fifteen revolutions will supply the city with water at the present rate of consumption.

The pump costs about \$46,000 and will cost about \$20,000. The present pumping plant as well as the present power plant will be supplementary to the new one under construction.

In connection with the water supply is the filtration system, about 100 feet to the north. This is ready for operation and working in conjunction with the new pump is expected to give an excellent water supply. The material from the excavation work has been used for the construction of a million gallon sedimentation basin inside the oval at the race track. This fan will be allowed to stand for the winter months and next spring will be lined with concrete. In the meantime the old sedimentation tank adjoining the power house is being used. This is supplementary to the new concrete tank to hold the filtered water.

CANADIANS TOOK SEVEN.

Out of Sixteen Shot for Up-to-Date—Fifteen in Finals.

Bisley, July 22.—The five Canadians who were tied with 96 others at an aggregate of 95 in the first stage of the King's rifle shoot today to see who should carry the second stage and four of them, Sgt. Blackburn of Winnipeg, Sgt. Smith of Ottawa, Pte. Gougeon of Victoria, and Sgt. Kelly of Toronto succeeded in getting placed the only unsuccessful one being Sgt. Kerr of Toronto.

As eleven of the Canadian marksmen originally qualified, there are now less than fifteen Canadians in the second stage of the King's rifle record in itself, and is remarkable from the percentage point of view, seeing that only twenty-four Canadians in all shot in the first stage.

The consistent good shooting of the Canadian contingent was well maintained in the first part of the first stage of the St. George's, a single rifle competition, for a challenge vase and prizes totaling nine hundred points.

Consists of seven shots each at 500 and 600 yards, while the final stage is shot off in pairs at 300 and 400 yards, open to the hundred competitors taking highest places in the first stage.

In the first part 600 yards out of the Canadians made possible, Lieut. Morris of Bowmanville; Sgt. Richardson of Victoria; Lieut. T. Smith of Chatham, and Lieut. Mortimer of Ottawa, the latter being unattached and representing the Ross Rifle factory. The Canadian contingent was well maintained in the first part of the first stage of the St. George's, a single rifle competition, for a challenge vase and prizes totaling nine hundred points.

PRESIDENT GIVES A "HARMONY DINNER"

When Tariff Factions are Expected to Present the Terms and Conditions of Their Compromise.

Washington, D. C., July 21.—After their labors today the tariff conference adjourned late this afternoon with the dismissed schedules and possible compromise worked out in concrete form to lay before the president tonight at the Harmony dinner. "It was realized by the conferees when they assembled this morning that the president was to sit tonight as judge of their work. They were to face the officers of the president's court as the persons who would receive a deputation to inform him of his deposition. Spindler and Sardana, the leaders in the National movement met last night with the following program to the British and Russian legations.

The conferees were unwilling to go to the White House until they had put their affairs in some kind of shape and it was with more good humor than has characterized their work in recent days that they set down to tackle the differences existing on free materials, hides, iron ore, coal, and animal products, lumber and cotton schedule. It was discovered that the senators could not be changed from an audit of 25 cents on iron ore and their proposed compromise provides for re-entry on hides. Senator Curtis has withdrawn his support from a counter-vailing duty on oil and the conferees are ready to place it on the free list. Payne refused to accept the senate duty of \$1.50 on lumber and is holding out for the cheaper rate of 51.

A new schedule has been prepared to meet the views of the president and of Mr. Payne. It is to carry all the house rates on the cheaper grades of cotton goods, but raise the rates on the higher grades of cotton. Payne is not satisfied with the schedule, and is insisting on more radical reductions on the high grades. He has abandoned his high rates on cotton hosiery and gloves. The glove compromise provides for re-entry of Schmaggen gloves, the cheapest grade, when made of the skins of still born lambs. Reduced rates are all other grades are kept. The duty on zinc in tins and the blocks was reduced from 1.20 to 1.34 cents per pound. Payne brought to the attention of the conferees the complaints against the wool schedule. This has been passed by the conferees and accepted by the president. Payne is re-opening by Payne is due to a protest received by the president and himself against the specific duties submitted by the conferees. It is claimed that these specific duties raise wool rates on the lower grades of wool from which the bulk of the woolen clothes are made. A delegation of wholesale clothiers called on the president and Mr. Payne today and made a strong appeal for a lower rate than those contained in the Dingley bill.

JUDGE INTERVENES.

Vainly Pleads for Settlement of the Pittsburgh Strike.

Pittsburg, Penn., July 21.—Insistent rumors that there would be a meeting of strike breakers on their way to the plant from Chicago caused unrest among the army of strikers at McKees Rocks plant. A meeting of the Car company tonight. Officials of the company declined to make formal denial of this, thus adding to the ugly feeling. It is estimated that about 600 members of the strikers are picketing, watching the railroad and the river, guarding against possible aid to the company. Many workmen went into the mills this morning.

Judge Marshall Brown, of Allegheny court, today called representatives of the employers and employees in chambers in the court room and pleaded with both to adjust the conditions, which, if permitted to develop, can end but in bloodshed. Aside from getting a promise that President Frank Hoffert, of the Brasserie Steel Car company, would investigate certain charges made against union officials, nothing was gained.

The strike's friends and families, making a crowd of 12,000, met on the Indian mound today and hurried to the company. Many were served with notices to vacate their homes on August 1st, as the company needed the houses for other tenants.

A special from Butler tonight says that three-fourths of the foreign workmen refused to return to work today, though the strike was declared off last night. A misunderstanding was the cause.

Newcastle, Pa., where the tin workers are striking tonight reports the tin workers in the hands of mounted constabulary, rushed there from Butler. There were few clashes.

Run Down by Train.

Fort William, Ont. July 21.—P. Washburn, a Galician who for some time has lived at Fort William, was killed yesterday morning by a westbound train. Washburn left Fort William in search of work and was walking westward along the track and apparently did not hear the noise until the engine was upon him. He was struck by the engine and his body, fearfully mangled, was found by the train crew as soon as the train was stopped. The remains were brought to the city. There will be no inquest.

Spanish Ship-Builders Strike.

Madrid, July 21.—A strike has broken out at the Ferrer Arsenal and 2,500 workmen employed by the Spanish ship works have stopped work because the management persisted in the decision to reduce their pay. It is expected the movement will extend to all the workmen occupied on the construction of the battleship for the new squadron.

SPANIARDS SURROUNDED.

Gibraltar, July 24.—Spanish forces are beleaguered by British troops at Melilla and in great danger of being starved out of the city. The message states that the Spaniards suffered heavy losses in the past two days, being compelled to retreat from advanced positions.

THE DEPORTED SHAH.

He Will Probably Depart Shortly With the Queen to Reside in Russia.

Tehran, July 15.—Mohammed Ali, the deposed Shah, who is now in the Russian legation, has today received a deputation to inform him of his deposition. Spindler and Sardana, the leaders in the National movement met last night with the following program to the British and Russian legations.

In accordance with the decision of the National council, which met today at Baharatun, it will be necessary for a deputation from the council to wait upon His Majesty, Mohammed Ali, to inform him of the change of government. As His Majesty is at present a refugee in the Russian legation under British and Russian protection, it is necessary for the deputation to fix a time tomorrow when His Majesty may receive the deputation.

GERMANY WANTS TRADE.

Efforts of Government Being Backed up by German Merchants.

Berlin, July 20.—Germany is striving to obtain trade and market access for her commercial footing in Canada. The efforts of the German government are being backed up with the greatest enthusiasm by merchants and industrial magnates and scarcely a day passes without the attention of traders and exporters being drawn through the press to Canada as a field for German enterprises.

BINNS SUES PICTURE COMPANY.

Wireless Hero Does Not Want Lime-Light Notoriety.

New York, July 21.—Jack Binns, whose wireless "C. D. Q." saved a shipload of passengers, has brought suit for \$25,000 damages against the Vitaphone Company of America. In addition to the damages demanded Binns asks that the company be permanently restrained from exhibiting moving pictures purporting to be like-nesses of himself on "Saved by wireless" and made a motion picture of his rescue. Binns today granted him an injunction calling on the defendants to appear in court next Monday to argue on the merits of his case. Binns today filed a complaint that he was the wireless telegraph operator who was sinking in the Atlantic. He says that he was picked up by a lifeboat and taken to the shore. He says that the moving pictures are misrepresentation of the wreck and that they make him ridiculous.

TRADE FORGING AHEAD.

The Records of Exports and Imports Show a Rise.

Ottawa, July 20.—Canada's trade for June shows an increase of \$9,629,896 as compared with the same month last year and an increase for the three months of the fiscal year of \$20,928,224 compared with the corresponding period last year. The imports last month totalled \$1,231,914, an increase of \$7,154,846 over June last year, and for the three months the total was \$3,824,464, an increase of \$1,426,665.

MOUNTED POLICE.

Negotiations Under Way for Continuance of Force for Another Term.

Ottawa, July 22.—Comptroller White, of the R. N. W. M. P., has no official confirmation that an arrangement has been reached for the continuance of the force for the retention of the Mounted police in the province for a further five years, but such arrangement is expected as the result of negotiations which have been in progress. The policy of the Dominion government is to gradually withdraw the force from the more thickly settled parts of the province, but to not hasten the withdrawal until the municipal system is fully organized and the organization of provincial police the mounted police will be confined to the unorganized territory.

FARMERS PICNIC AT CLOVER BAR

Record-Breaking Crowd Attended Sports Under Auspices of Local Union of U. F. A.

There was a most enjoyable reaction from the regular race of high life in the Clover Bar district on Wednesday afternoon when fully one thousand people gathered at the Hortonville grounds for what has come to be known as the annual Clover Bar picnic. Great as has been the success of similar events in the past the occasion yesterday far surpasses anything in the line of a monster picnic that the district has known. The occasion was well attended by the people of the district. It is said that every man, woman and child in Clover Bar and Agricola was present. Scores drove from the Saltbury, Yorkville, Strathcona, Fort Saskatchewan and Ardrossan, and many in Edmonton took advantage of the half holiday to spend a day in the country.

From an atmospheric standpoint the day was perfect. For those taking part in the games and sports the heat was down unmercifully and at intervals drove the crowds of spectators into the shade of the grove, where a raid was continuously being made on the refreshment booths. Lunch and supper were served on the grounds and the hour for both was eminently popular. For the feature of the picnic the ladies were deserving of great praise. They loaded the table with good things and were untiring in their efforts to serve those who had gathered at the common table board. The sports committee (are to be congratulated on the events over which they had supervised. All the tests of speed, strength and skill were met with large entries that it was late in the evening before the regular games were played during the day and the last number on the program but this kept the crowd interested until a late hour in the evening.

THE SPORTS.

The committee opened the day with a full list of races for the children. These were followed by variety sports such as three-legged race, sack race and donkey race. The feature of every event was the large number of entries. This was particularly the case in the team races. Every contestant was required to drive a team against time. The races were of the sprint stakes, back up through a pair, un hitch and unharms the team, harness and drive back to the starting line. The races were of the boys under 21 and then to married men. A somewhat similar event was up for girls but a buggy and a single horse were used instead of a wagon. These contests proved most interesting and were the subject of considerable comment.

BASEBALL GAMES.

Two baseball games were played for supremacy among three teams. Agricola and Clover Bar played five innings, resulting in a victory for Agricola with the score of 11 to 4 for five innings. Later Agricola took on the Saltburg nine and after five innings the game was tied 1 to 1. Supporters of the team liked the diamond and the rooting would put the Western Canadian baseball league to shame. A football match was to be played between the Fort Saskatchewan and East Clover Bar teams. This did not materialize owing to an alleged default of the Fort players.

THE PLAYERS.

The following were the players on the baseball teams: Saltburg—Wallace Eail, Wm. Ball, E. Ball, W. Maine, R. Loxier, H. MacLean, Percy Maine, R. Hulbert, H. Bucher, Garraway. Agricola—J. Irwin, G. Armstrong, T. Pearson, A. Alton, C. Alton, J. Atkinson, G. Cranston, W. Pearce, G. Robinson. Clover Bar—Lloyd McLean, Finlay Martin, Fred Bies, Joe Killen, Tony Killen, Fred Jackson, T. Marlier, Lindsay, Walter Kirk.

The sports committee consisted of the following well known residents of Clover Bar: H. W. Edmonson, chairman; L. Abbott, T. Wall, Fred Gallagher, G. Taylor, F. R. Mackay, M. Reynolds, and M. Keith. Through their efforts liberal prizes were offered for which several local amateurs have no reason to make any complaint.

In addition to the cash prizes, a large number of special donations were made. Agar Bros., of Edmonton gave a knife for the boy's race and Aitken Bros. a cup and saucer for the girls. Other donations were: American shoe store, pair of shoes; Wilkin and Jones, hat, value \$3; A. T. Chambers, razor; Mac's Clothing store, pair of shoes; D. W. Warm or, pure bred Berkshire hog; Campbell and Ottewill, two bags of flour; W. F. Stevens, 11 on two occasions; Beals & Hoar, sickle grinder; Dave Synodis, \$1 for boy's race under 16 years, and Queen's Hotel, Fort Saskatchewan, \$5; and Douglas Bros., Strathcona, a pair of gauntlets.

A feature of the day was the dropping of the speeches from the programme. So interested were the crowd in the sports that the oratorical competition would have had a very small audience. Cameron's bag pipes supplied Highland music throughout the afternoon and F. Waite, of Edmonton, was on hand with a photographer's outfit. Before the day closed, and old timers' photograph was taken, spreading such veterans as Phil Oatwell, Thos. Jackson, Wm. Daly, Alf. Ottewill, Ale. Fraser and Frank A. Walker.

FOOT RACES.

Girls under six—1 Geo. Gatlacher, 2 J. Alton, 3 J. M. Drysdale. Boys under six—1 Lily Hamby, 2 Lillian Gatlacher. Girls under ten—1 Earl Atkinson, 2 Peter Taylor, 3 Myrtle Atkinson. Boys under twelve—1 Peter Taylor, 2 Earl Atkinson. Girls under twelve—1 Lorna Hess, 2 Olive Twigg. Boys 16 years and under—1 Evan Masters, 2 Geo. Drysdale. Girls 16 years and under—1 Steele O'Connor, 2 Nellie Drysdale. Consolation prize—1 M. Quebec. E. Taylor. Three-legged race—1 E. Keith and J. Drysdale, 2 Robert Steele and O. Deffaux. Hundred yards—1 O. Deffaux, 2 R. Hulbert. Sack race—1 O. Deffaux, 2 E. Jones. Wheelbarrow race—1 H. Masters and J. W. Ottewill, 2 Geo. Ottewill and O. Deffaux. Donkey race—1 E. Keith and P. Taylor, 2 J. N. Drysdale and M. Quebec. Long jump, standing—1 J. M. Drysdale, 2 T. White. Running long jump—1 O. Deffaux, 2 T. White. Hop, stop and jump—1 R. Mackenzie, 2 T. White. Throwing the needle—1 J. Atkinson and Miss Masters; 2 Geo. Ottewill and Miss McLean. Tug of war—East Clover Bar, Sid Ottewill, L. Radway, W. F. Stevens, R. McKenzie and Geo. Digby. Running high jump—G. Cranston, 2 J. Alton, 3 J. M. Drysdale. Wrestling—Driving and hitching contest for boys under 21 years—1 E. Jones, (time 6 minutes 35 seconds), 2 J. M.

LUMBER AT WHOLESALE PRICES

Direct from Mill to Consumer

To Those Interested in Building! We are now ready to fill orders for Lumber, Shingles, Doors, etc., in Carload Lots Direct to Farmers, Contractors, Etc., at absolutely Wholesale Prices, THUS CUTTING OUT THE RETAILER'S PROFITS ALTOGETHER.

Car lots may be mixed to suit your wants, and may include Shingles, Doors, Windows, Sash, or anything made in a Saw or Planing Mill.

Write for Prices and Full Particulars to MARRIOTT & COMPANY Lumber Manufacturers Vancouver, B.C.

Lineman Electrocuted.

Montreal, July 22.—Peter Lambton, a Montreal Light, Heat and Power company lineman, was killed Monday night by an electric light pole at the corner of Dorchester and Labelle streets. No one actually saw the electrocution, but some children drew attention to the dead body of a man hanging over the cross bar. The company men were asked to come to the scene and the body was brought to the ground, but there was no sign of life. An inquest will be held tomorrow.

SPORTING NEWS

BASEBALL. TRISHMEN LOST ONCE. Lethbridge, July 23.—The third straight from the easily. The game was fairly close. Summary—Earned runs, 1; two base hits, 1; sacrifice hits, 2; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

HATS TUCK THREE

Medicine Hat, July 23.—Before daylight from Calgary and Tories in a row. The game was a poor class of ball. Donovan in right made two catches as did Zimmerman in the same position. Donning caught two high to regular.

Summary—Earned runs, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

WON HANDICAP

Regina, July 23.—Before largest crowd seen at the track this season, the Maroons tonight against the Bonapetes put up a poor class of ball. The race was won out on the Summary—Two base hits, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

Summary—Earned runs, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

STILL ON THE SLIP

Lethbridge, July 21.—Two as many runs in two innings as the Bonapetes scored in the first inning. The race was won out on the Summary—Two base hits, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

Summary—Earned runs, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

Summary—Earned runs, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

Summary—Earned runs, 1; bases on balls, 0; errors, 0; bases, 0; O'Brien, Joe Corriga pitcher, O'Brien, Townsend, Corriga, bases on balls, 0; McNeil 2, struck out, 1; McNeil 3, double play, McNeil to Townsend; left on base, Lethbridge 11, time 1:40; umpire Voss.

SPORTING NEWS

BASEBALL

IRISHMEN LOST ONCE MORE

Lethbridge, July 25.—The Miners took the third straight from the Eskimos easily. The game was featureless and slow.

HATS TOOK THREE STRAIGHT

Medicine Hat, July 25.—By winning tonight Medicine Hat made it three straight from Calgary and three victories in a row.

WON HANDILY

Regina, July 25.—Before one of the largest crowds seen at the ball grounds this season, the Maroons won tonight's game against the Bonspielers.

STILL ON THE SLIDE

Lethbridge, July 25.—Twelve hits and as many runs in two innings was what the Miners did to the Eskimos tonight.

MAROONS ESCAPED SHUT OUT

Medicine Hat, July 25.—The boys that take orders from Larry Piper were nearly shut out tonight in a game of ball.

REGINA CAPTURED ONE

Brandon, July 25.—Costly errors in the second and third innings of the opening game for Brandon with Regina.

BIG TOURNAMENT APPROACHING

Calgary, July 25.—The coming provincial tennis tournament promises to be the biggest ever held in Calgary or the west.

HEATHERBLOOM'S LAST JUMP

Heatherbloom, a horse for which Mr. Howard Willette, of White Plains, N. Y., and New Marlboro, recently refused an offer of \$20,000.

BASEBALL

MINERS WON SNAPPY GAME

Lethbridge, July 25.—The Eskimos showed complete indifference for form tonight and played snappy ball.

THE RIFLE

The silver trophy, generally known as the Koloport cup, in reality consists of twin cups, which are remarkably hard some specimens of the silver metal.

THREE-BAGGER WINS GAME

Brandon, July 25.—A three-bagger by Cecil Thompson, Brandon's star first-sacker in the third when the bases were full, won the second game in today's double-header for the locals.

BAD FIELDING LOST GAME

Medicine Hat, July 25.—Calgary again gave the Mad Hatters a hair-raising scare by persistently hanging on to a lead of two until the seventh, when two hits, a sacrifice and a two-sacker tied the score.

MOOSE JAW BEAT MAROONS

Calgary, July 25.—Because the Maroons played poor ball and the Robins Hoops played well, the score of today's game was 6-1 in favor of the latter team.

WON HANDILY

Medicine Hat, July 25.—By winning tonight Medicine Hat made it three straight from Calgary and three victories in a row.
