**Clean Up, Paint Up and Keep it**  
This is clean-up time. With the promise of early summer comes the natural instinct to wash, sweep, paint, destroy rubbish and put the house, lawn and alleyway into first-class trim shape. 'Spring work' should be the watch word. Everybody has the same idea now and neighbors should be talking over the back fence, waiting long enough to plan the tearing down of the close board structure. Clean up, paint up and keep it up—that's your work every spare minute you have.

The Chester, which is the speediest ship in the navy, will return either the North Carolina or Tennessee now in Mediterranean.

## All Peace Talk Emanates From Germany

**TALK OF PEACE IS EMANATING FROM GERMANY**

**The Enemy Now is Beginning to Realize the Inevitable.**

**CONTINUATION OF WAR Responsibility for It is Being Placed Upon the Allies.**

**Special Cable to The Toronto World.**  
LONDON, April 12.—At the foreign office and elsewhere it is stated that nothing is known concerning the reports of peace. It is stated definitely that nothing has occurred which indicates that anyone is making genuine efforts for peace. Germany is held responsible for the "peace talk." It is deduced from this that Germany is beginning to realize that the inevitable end will be, and that she is endeavoring to place upon the allies the responsibility for the continuation of the war. The Tribune made an effort today to obtain some definite official statement from the government, but the reply was given that it was not considered wise to engage in arguments concerning peace.

**Still Holds Good.**  
It was stated on good authority, however, that what Premier Asquith said in parliament concerning peace still holds good. Asquith said in his speech of March 11 that the time to talk peace was when the great tanks which England and her allies have undertaken are accomplished. He quoted a statement made in November, when he outlined the objects for which the allies were fighting, that Belgium cover all and more than she has sacrificed and that France be adequately secured against aggression; that the rights of smaller nationalities of Europe be placed on an unassailable foundation, and that the military domination of Prussia be wholly destroyed.

**A Campaign of Scandal**  
Canada is about to be projected into a fight to a finish between the two political parties; the Liberals are exposing wrongdoings and alleged wrongdoings in connection with war purchases under Tory government; the Conservatives are feeding out the evidence collected within the last two years of frauds perpetrated on the country in connection with the northwest, when the Liberals were in office.

**NO VOUCHERS SHOWN Receipts for Purchases in Hands of Two Americanized Canadians.**

**By a Staff Reporter.**  
OTTAWA, April 12.—Arthur de Witt Foster, M.P. for King's, N.S., was the chief witness before the public account committee today. He gave evidence in his constituency for the purchase of horses to the government, which is regarded as highly unsatisfactory. There are no vouchers, nor receipts for the purchases. These are in the possession of an Americanized Canadian named Kever. Ten days ago Mr. Foster saw both Kever and Woodworth, another Americanized Canadian, who were associated with him in the purchase of the horses, but he did not ask them for the receipts, although these have been repeatedly mentioned as being wanted by the committee. No effort to make any effort to bring them here to give evidence.

**Not Well Disposed.**  
It seemed to be quite clear that the government members are not well disposed towards Mr. Foster, to say the least. In the course of the examination Mr. Carvell called him an "idiot" and no Conservative member attempted to defend him. Then when the examination was concluded the Conservatives sat silent instead of asking questions, as both parties make a practice of doing, designed to help out the witness.

It seemed on some days and nights that there were as many as eight warships within a radius of a few hundred miles. But we kept on due north, running as rapidly as we could with our ship darkened at night. One night we heard the exchange of news about the Prinz Eitel Friedrich being at Newport News. Thereafter we heard information about the Eitel every night, and a few nights ago we got the news from the British wireless that the Prinz Eitel had been interned."

PETROGRAD, April 12.—The first engagements of the initial series of battles for the plains of Hungary have ended in Russian successes in the region about the southern exit from Uzsook Pass, which the enemy still holds. The Russian advance guards in a move to cut off the Austrian retreat encountered large forces of the enemy, who were attacking from Rostoki in repeated heading, Derzhavik-like charges. These were repulsed by a terrific fire, held and delivered at short ranges, so that every shot told. Following up the retiring Austrians the Muscovites developed a violent battle near the south of the pass and captured three guns and about 700 prisoners.

## OAKWOOD SCHOOL IS OVERCROWDED

### Meeting of Protest Held Last Night — Action to Be Taken.

School accommodation for the children of the Oakwood district was discussed at the meeting of the Oakwood Ratepayers' Association in Oakwood Hall last evening, President William Caswell presiding. There are hundreds of children, running the streets without school accommodation in this district. We have a right to have that matter remedied and I suggest that a deputation be appointed to interview the board of education, and let the citizens of Toronto see the state of affairs existing in Oakwood.

Mr. Burton asked "how much school taxes are collected? There is something wrong somewhere."

"About \$5,800 is collected," replied President Caswell, "and the rate is 6.6. We accommodate about 1,000 and we are getting the credit of the doubt from the education authorities."

Regular Mix-up.

Mr. Michael said "I cannot see why we pay taxes to the board of education when we have insufficient accommodation for our children. There is a mix-up between the township and the city and we should have an explanation."

W. Furnival asked how the tax rate was levied. School Trustee Steel in reply said the tax rate was levied on the property in the section and the school board of the city governed the Oakwood section being a portion of School Section 12. The mayor has curtailed expenses in the education department and the board of education is doing its best under the circumstances.

Mr. Singleton suggested that the section be rearranged, claiming that when the sections were fixed Oakwood was a farming district, but a change is necessary now.

Special Meeting.

It was decided to call a meeting of the ratepayers and school trustees to discuss the matter at an early date, the necessary ten signatures being secured.

The delay in postal deliveries in Oakwood district was also discussed several complaints of delay in delivery of letters was recorded. W. F. Maleson, M.P., will be approached by Steel and Norman were appointed a deputation.

## APPROVE ADDITION TO MIMICO SCHOOL

### Council Authorizes Expenditure of Seventeen Thousand.

Members of the Mimico public school board waited on the council last night with a request for \$20,000, the estimated cost of a four-room addition to the present school at the corner of Church street and Mimico avenue, for which plans have been already prepared. After some discussion the amount asked was reduced to \$17,000, and this the council agreed to give when payment on the work became necessary.

It was reported that work had been commenced yesterday on the laying of a concrete sidewalk on Primrose avenue. It was decided that such work should be done by day labor. A petition was received for a sidewalk on Elizabeth street, and it was anticipated that sidewalks would be laid on Burlington, Victor and other streets.

Shade Trees.

It was decided to plant a certain number of shade trees through the village and to place a few seats on the Lake Shore road, at the foot of Superior avenue and elsewhere.

Hydro Business.

Rates were set for summer camps at 14 for the season, and it was decided that those renting summer cottages should pay nine months' rent in advance.

It was determined to place a transformer on Queen street opposite the old Caven home, to supply customers in that vicinity.

## NO NIGHT CARS ON BLOOR CIVIC LINE

### Commissioner Finds That Traffic Doesn't Warrant Service.

Owing to the recent agitation by some of the more southern residents of Ward Seven for night cars to be run on the Bloor street civic line, an investigation was made by the commissioner as to whether such a service would be worth while. The last civic meeting on the Bloor street railway day-car at Dundas at 12:30, and the average number of late passengers over a period of seven days was computed. The result showed that an average of two passengers used the midnight car, and the commissioner has announced that unless a larger percentage of nocturnal travelers would use a night service no night cars will be forthcoming.

Blaze in Stable.

Children playing matches caused a blaze in a stable in the rear of 2 Ruskin avenue shortly after five o'clock last evening. The building is owned by Mrs. Muir of 4 Ruskin avenue, but was used by Alfred Richards of the above address. The prompt arrival of the firemen from Keele street and Carlton stations prevented any serious damage from resulting.

## THIN FOLKS WHO WOULD BE FAT

### Increase in Weight Ten Pounds or More

A Physician's Advice.

"I'd certainly give most anything to be able to eat a few pounds and stay that way." This is the cry of the thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of a condition which prevents the fatty elements of food from being taken up by the blood as they should be. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste. To correct this condition and to produce a healthy normal blood and to produce the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength giving, fat-producing elements known to the medical profession. Wheat germ, G. S. Henry, M.L.A., and W. H. Ferguson, reeve of Richmond Hill, were made their annual tour of inspection of the county here completed out of the original county schedule, but just what money will be available for the commission is not in a position to state. The legislature has not yet decided when the money will be available and active operations will not be undertaken pending some definite statement.

## WATERWORKS CASE AT NEW TORONTO

### Contractor Intends to Appeal — Council Confers With Solicitor.

The points at issue between J. F. Curley, the contractor for the waterworks system, and the municipality, were discussed at a conference last night of the New Toronto Council and its solicitor, Mr. Anderson. Mr. Curley claimed, in the non-jury case, that the municipality was liable to carry out its obligations in regard to the contract, and that he was entitled to payment for extra work. He claimed damages for alleged delay in the provision of material by the council, he having been put to expense in keeping his plant idle and in working in frozen ground.

The council admitted certain parts of the work had been done, but claimed the amount of work was less than was being made, and asking for a joint charge to pay on certificates of the engineer being presented, but these had not been furnished.

Judgment was given against the contractor, who was also required to pay the costs of the action.

It was reported that the contractor intended to appeal, the matter will be referred back for further consideration.

Water Supply.

A letter was received from J. A. Teifer, clerk to the Mimico Council, stating that an estimate of the requirements in regard to water supply for the year 1915 had been prepared. The estimate of the council, Clerk G. D. Scott was instructed to ask for the estimate of requirements, that data might be compiled before any conference took place.

M. M. de Sherbinn, manager of the Ideal Incinerator Co. of Toronto, appeared before the council to urge the claims of his patent, and invited the council to attend the formal opening of the new plant at Berlin next month, which would be attended by about 15 mayors of municipalities, and engineers interested.

In view of the possible amalgamation of New Toronto and Mimico, he advocated a building large enough for both villages, so that the number of furnaces might be increased as necessary. The cost of the plant, which would be \$4500 or \$5000 for one furnace and smokestack. With a cheap building \$6000 or \$7000, and with a brick and fireproof building, \$8000 or more. The council will get into communication later with Mr. Sherbinn with regard to inspecting the plant at Berlin.

## SELECT SCHOOL SITE IN MOUNT DENNIS

### Location Approved at Meeting of Ratepayers Last Night.

Altho perhaps the most largely attended meeting yet held in the Bala Avenue School, little friction was evidenced last night at the meeting called by the trustees of school section No. 28, York, and the site on the high ground at the northeast corner of the Rowntree estate, adjoining the Silverthorne property and Kew Gardens, was accepted by a vote of 106 against 22, a majority of 84. The site will be two acres in extent, and the price \$10,000.

Debitures to the amount of \$28,000, to pay for this site and for a six-room school of permanent materials, were passed unanimously. The trustees will, therefore, apply at the next meeting of the York Township Council for the passing of a debenture bylaw.

Postal Delivery.

Albert Craydon of 4741 avenue, and A. E. Ramsden of Lambton avenue, have been appointed postal carriers for the Mount Dennis district, and are now under instruction regarding their duties. It is anticipated that a two-deliveries per day system from station D. West, Toronto, will be inaugurated in a few days.

Plans have been prepared for a new station at Mount Dennis, to be situated between Ray and Locust avenues. The subject of a letter received from N. O. Ramsden of the executive of the ratepayers' association, from W. H. Farrell Toronto, terminal superintendent of the G. T. R.

## "PAY AS YOU GO" IS SLOGAN THIS YEAR

### Mayor Addresses Caledonia Ratepayers on Local Improvements.

"The tax rate this year will be an honest tax rate, and the city's slogan will be 'Pay as you go,'" said Mayor T. L. Church, addressing the members of the Caledonia Ratepayers' Association in Hughes School last evening. "The matter was taken up last night through the Ontario Road Board. The vote was for it and it is needed. We are only waiting for the draft plan, and will have the line completed 60 days after the commencement of the work."

"The time will come when cross-roads, north and south of Dufferin street, will be a comprehensive system of civil lines. We shall spend \$40,000 for hydro repairs."

Express Deliveries.

With regard to express deliveries in the northwest section the mayor stated: "The matter was taken before the railway board and a partial decision given, but we are not satisfied with this, and are going to frame up a new application."

Regarding the park for Earlscourt he said that Earlscourt needed two or three parks north and south of St. Clair avenue. The Miller award he considered a hold up and promised that in three or four weeks negotiations for a larger piece of property would be completed.

"The arbitration board ought to be reorganized," said the mayor; "they have robbed Toronto of thousands of dollars."

With regard to the road thru Prospect Cemetery he said negotiations were under way, and promised that a hook and ladder truck would be supplied for the Earlscourt fire hall.

Unduly Taxed.

Referring in conclusion to the unemployment problem Mayor Church said: "Toronto is the dumping ground for unemployed of the province. The city can look after its own people who do its duty in the rural districts."

Recovering From Fall.

Hugh Fletcher, aged 57, 727 West King street, who fell down a flight of stairs at the residence of his brother-in-law yesterday, is recovering in the Western Hospital.

## EARLSCOURT

## NEWMARKET

### Such excellent progress is being made with the installation of the poles, cross arms and wires on Main street in Newmarket that light will be turned on by Thursday evening.

## STOUFFVILLE

### The auditorium at Stouffville was last night thronged to the doors when a joint meeting of the workers in the Red Cross, Belgian relief and patriotic funds held a social meeting, the first time since the inauguration of the different societies. Representatives from the Red Cross Society of Toronto were present and gave a lot of detailed information regarding the work being carried on. There were other addresses and several musical numbers. The ladies of Stouffville have been unremitting in their efforts to raise funds and are still actively engaged in the work.

## WAR DRAMA BRINGS AN EMPIRE APPEAL

### White Feather at Alexandra Theatre Catches Patriotic Imagination.

White Feather at Alexandra Theatre Catches Patriotic Imagination.

INCISIVE ACTION

Members of Capable Company Co-Operate in Strong Support.

To the Alexandra Theatre this week there has come a play that will catch the imagination and throbb the pulses of any audience gathered indiscriminately from any corner of the Dominion. Across the borderline it might be expected to achieve success because of the excellent manipulation of stage effects, and the distinctly dramatic atmosphere which gathers about it. But in Canada the White Feather has an appeal entirely its own, or rather one which it shares with the empire at large, for it is built from the very circumstances which the world believes existed in the British Isles at the outbreak of war. It visualizes the ramifications of the German espionage system, and is abrim with thrilling moments.

On the whole this play of Lechmere Worral and Harold Terry is slightly reminiscent of the Scarlet Pimpernel. The same gay, dawning plot with monotonous eye and blatant laugh promenades thru all the scenes, judiciously appraising and tabulating beneath the pitiful scorn of his fellows, and making services vital to the state, behind the scenes. Moreover the department of Albert Brown in depicting the character of something of a Martin Harvey touched about the neck and maturity which the sterling little English actor brought to such characteristics, but his work was excellent. His action was inclusive, his modulations and gestures were skilful and at times almost subtle in their expressiveness.

There were some very pleasing features in the work of Miss Darcie Doyle, who has before been seen to advantage on local boards. She was acceptably as a foil for the heavier play of her associate. Every member of the cast was entrusted with roles of responsible responsibility and shared mutually in a capable support.

The recent film, sanctimonious utterances of bloodthirsty demagogues, motherly old German woman, the extreme insular prejudice, but substantiated by the justice of the Englishman, and the working in of all the other features requisite to a stirring war drama, climaxed in the last scene of a third act, with cruisers booming away, and a ship being marked to his death at the quickest.

SEPTEMBER MORN DELIGHTFUL COMEDY

Popular Musical Production Repeats Its Success at the Grand Opera House.

DANCES AND SONGS

Same Great Company of Principals and Chorus Seen in Tuneful Ensemble.

"September Morn" in all its popularity returned to the Grand last night and duplicated its success of January night. The costuming is especially attractive and shone in its richness through the many changes in the three acts. The plot of the comedy is light, sufficient to carry the vehicle thru and make a connection for the many catchy songs and airs, and each song was a well hit indeed.

The first act opens in Prof. L. H. H. studio of art, wherein the prima donna, Miss Maud Potter as Gertrude, the world's greatest tango dancer, is shown her way into the hearts of all, Kathryn Bowen as Louise, the manager daughter, made a great hit, the manager Frank Minor in the part of the Gen. La Rue, took particularly well, and the specialty "A Spare Rib" was a particular artist, as one and all were well adapted to their parts.

The second act opens in the studio of the world's greatest tango dancer, Miss Maud Potter as Gertrude, the world's greatest tango dancer, is shown her way into the hearts of all, Kathryn Bowen as Louise, the manager daughter, made a great hit, the manager Frank Minor in the part of the Gen. La Rue, took particularly well, and the specialty "A Spare Rib" was a particular artist, as one and all were well adapted to their parts.

The old favorite, "The Piano Movers and the Actress," featuring M. C. Devitt, Kelly and Lucey, raised many a laugh, and Dick Clark and Verdi, the Italian comedians.

Frank and Pauline Berry had a bright musical offering, entitled "Do You Like Music?" with Morris Cronin with his merry mon, juggling artists, complete a good bill.

## "LAST HOPE" HEADS LOEW'S WEEK'S BILL

### Maximilian is a Clever Monkey, and George Yeoman Monologues to Please.

"LAST HOPE" HEADS LOEW'S WEEK'S BILL

Maximilian is a Clever Monkey, and George Yeoman Monologues to Please.

Headlining the bill at Loew's Winter Garden this week is the new feature entitled "Last Hope," laid in the warden's office in a penitentiary. The man who is in love with the wife of a man who is to be hanged at midnight, but the clever work of his wife and a young police lieutenant saves him.

What may well be termed a feature in the act of Maximilian. This monologue is wonderfully telling and is capable of doing almost anything.

George Yeoman, monologist, has a new line of talk which seems to please the audience. The Nichols sisters, blackface comedienne, are good. Purcell brothers sing and dance well. Sampson and Douglas, a duo of songs and talking, introduce some new and original sayings. The six Olivers are clever tumblers. The aerial La Valle perform a number of thrilling stunts on the bar. Owing to the recent fire in the office of the Universal Film Company the picture of Jess Willard was not shown.

STRAND THEATRE—"THE SPOILERS"

"The Spoilers," by Rex Beach, which is to be presented all this week at the Strand Theatre, attracted capacity audiences to that theatre all day yesterday. "The Spoilers" is a great picture, and it has nothing of thrilling action and incident to its transition from the book to the screen. It is a story of men who have both read the novel and seen the picture, and the photo-play is, in fact, greater than the book. It is alive; it is real; it is human. It grips the attention from the start and never lets go. The stage effects are extremely fine, the dynamiting of the mines being a tremendous scene. William Farnum is splendid as "Roy Glensister," as is Kathryn Williams in the part of "Cherry Melotte." The times of performances each day are as follows: 10:15 a.m., 12 noon, and 1:45, 2:30, 5:15, 7 and 8:45 p.m.

MORELAND MYSTERY.

Story Running in The World Illustrated at Popular Photodrome

The Moreland Mystery, the moving picture novel now running in The Toronto World, is being shown at the Photodrome, West Queen street, for the first three days of this week. It is a story full of mystery, as can be seen by reading the serial in The World, in which Melrose, the famous detective, is the star.

The film is exceptionally clear, and the scenes are easily recognizable, having been taken in the open air at High Park, on Roncesvalles and other scenic spots of the city.

In addition to the Moreland Mystery there are several comic films and another instalment of the adventures of the Hazards of Helen.

WYCHWOOD RIFLES.

Mr. E. J. Fleming has given the Wychwood Rifle Company the use of his private property on St. Clair avenue, just north of the bridge, for the purpose of outdoor rifle range this year. The site is backed by high and rocky hills, and is well up to the cliff and will be a very safe and satisfactory range for the members of the club, which the company is now armed. It is expected the targets will be placed and practice in full swing on Saturday afternoon. The company will parade for drill as usual tonight (Tuesday) at Hillcrest School.

"LAST HOPE" HEADS LOEW'S WEEK'S BILL

Maximilian is a Clever Monkey, and George Yeoman Monologues to Please.

Headlining the bill at Loew's Winter Garden this week is the new feature entitled "Last Hope," laid in the warden's office in a penitentiary. The man who is in love with the wife of a man who is to be hanged at midnight, but the clever work of his wife and a young police lieutenant saves him.

What may well be termed a feature in the act of Maximilian. This monologue is wonderfully telling and is capable of doing almost anything.

George Yeoman, monologist, has a new line of talk which seems to please the audience. The Nichols sisters, blackface comedienne, are good. Purcell brothers sing and dance well. Sampson and Douglas, a duo of songs and talking, introduce some new and original sayings. The six Olivers are clever tumblers. The aerial La Valle perform a number of thrilling stunts on the bar. Owing to the recent fire in the office of the Universal Film Company the picture of Jess Willard was not shown.

STRAND THEATRE—"THE SPOILERS"

"The Spoilers," by Rex Beach, which is to be presented all this week at the Strand Theatre, attracted capacity audiences to that theatre all day yesterday. "The Spoilers" is a great picture, and it has nothing of thrilling action and incident to its transition from the book to the screen. It is a story of men who have both read the novel and seen the picture, and the photo-play is, in fact, greater than the book. It is alive; it is real; it is human. It grips the attention from the start and never lets go. The stage effects are extremely fine, the dynamiting of the mines being a tremendous scene. William Farnum is splendid as "Roy Glensister," as is Kathryn Williams in the part of "Cherry Melotte." The times of performances each day are as follows: 10:15 a.m., 12 noon, and 1:45, 2:30, 5:15, 7 and 8:45 p.m.

MORELAND MYSTERY.

Story Running in The World Illustrated at Popular Photodrome

The Moreland Mystery, the moving picture novel now running in The Toronto World, is being shown at the Photodrome, West Queen street, for the first three days of this week. It is a story full of mystery, as can be seen by reading the serial in The World, in which Melrose, the famous detective, is the star.

The film is exceptionally clear, and the scenes are easily recognizable, having been taken in the open air at High Park, on Roncesvalles and other scenic spots of the city.

In addition to the Moreland Mystery there are several comic films and another instalment of the adventures of the Hazards of Helen.

WYCHWOOD RIFLES.

Mr. E. J. Fleming has given the Wychwood Rifle Company the use of his private property on St. Clair avenue, just north of the bridge, for the purpose of outdoor rifle range this year. The site is backed by high and rocky hills, and is well up to the cliff and will be a very safe and satisfactory range for the members of the club, which the company is now armed. It is expected the targets will be placed and practice in full swing on Saturday afternoon. The company will parade for drill as usual tonight (Tuesday) at Hillcrest School.

## WAR DRAMA BRINGS AN EMPIRE APPEAL

INCISIVE ACTION

Members of Capable Company Co-Operate in Strong Support.

To the Alexandra Theatre this week there has come a play that will catch the imagination and throbb the pulses of any audience gathered indiscriminately from any corner of the Dominion. Across the borderline it might be expected to achieve success because of the excellent manipulation of stage effects, and the distinctly dramatic atmosphere which gathers about it. But in Canada the White Feather has an appeal entirely its own, or rather one which it shares with the empire at large, for it is built from the very circumstances which the world believes existed in the British Isles at the outbreak of war. It visualizes the ramifications of the German espionage system, and is abrim with thrilling moments.

On the whole this play of Lechmere Worral and Harold Terry is slightly reminiscent of the Scarlet Pimpernel. The same gay, dawning plot with monotonous eye and blatant laugh promenades thru all the scenes, judiciously appraising and tabulating beneath the pitiful scorn of his fellows, and making services vital to the state, behind the scenes. Moreover the department of Albert Brown in depicting the character of something of a Martin Harvey touched about the neck and maturity which the sterling little English actor brought to such characteristics, but his work was excellent. His action was inclusive, his modulations and gestures were skilful and at times almost subtle in their expressiveness.

There were some very pleasing features in the work of Miss Darcie Doyle, who has before been seen to advantage on local boards. She was acceptably as a foil for the heavier play of her associate. Every member of the cast was entrusted with roles of responsible responsibility and shared mutually in a capable support.

The recent film, sanctimonious utterances of bloodthirsty demagogues, motherly old German woman, the extreme insular prejudice, but substantiated by the justice of the Englishman, and the working in of all the other features requisite to a stirring war drama, climaxed in the last scene of a third act, with cruisers booming away, and a ship being marked to his death at the quickest.

NEWS OF SPECIAL INTEREST TO WOMEN

STYLES OF PAST AGAIN "THE RAGE"

Lovely New Summer Frocks and Hats Display Quaint Feature. VELVET STREAMERS Flowers Worn on Chapeaux Recall Watteau Portraits.

There is a general tendency on the part of fashion "creators" to still delve into the records of the past for inspirations for the summer time garb of femininity.

The sweet, full-skirted, short-waisted frocks now being exploited in light silk and laces for summer dance fetes are duplicates of former "crozes," and the pretty broad, drooping-brimmed hats, which tie demurely beneath the chin of the wearer, are certainly taken from the portraits of Watteau's lovely maidens.

Quaint Old Sunshades. The quaint old-fashioned sunshades may easily be recognized in some of the "latest" models, deeply scalloped and befringed with lace and ribbons, while silk-embroidered gloves and hosiery and lovely patent leather pumps further enhance the wardrobe of the summer girl.

FUNERAL OF LATE JOHN COWAN. Founder of Ontario Malleable Iron Co. Buried in St. James Cemetery.

The remains of the late John Cowan, founder of the Ontario Malleable Iron Company, Oshawa, and president for forty-three years, were laid at rest in St. James Cemetery yesterday afternoon.

Food Principles. The indiscriminate eating of indigestible food is a practice to be condemned. Fried food of any kind is harmful to a child, because the fat with which it is fried is cooked into the food and surrounds the particles of which it is made up so that the digestive juices cannot act upon them.

General Diet Principles. Too much monotony in the food spoils the relish; the greenness with which a child will devour a different kind of bread is pathetic. Some children seem to be never satisfied. They eat a large quantity of food at meal times, and seem ready for more in an hour. In such cases I think the amount of food should be limited and very strict attention paid to the mastication of the food.

RETRENCHMENT MAY FOLLOW. A decision to retrench in missionary activity for next year may follow the Foreign Mission Board meeting of the Baptist Church, to be held today.

ST. LAMBERT'S NEW MAYOR. MONTREAL, April 12.—Alphonse Venne was elected for St. Lambert by acclamation at the municipal nominations in that town this morning.

LAW FOR CHILDREN COMES BACK AGAIN

Company of Adult Will Now Admit Children to Movies. FIX LICENSE CHARGE Check Made Upon Municipalities Who Would Exact Excessive Fees.

Children under 15 years of age will in future be granted admission to moving picture theatres if accompanied by an adult, the law now being shifted back to the position it held for several years. By a new amendment this year the regulation providing for the sponsorship of a guardian or member from the child's household when admission was sought, has been canceled because of its unworkable nature.

Fix License Charges. Any such trouble as that occurring last year between proprietors in Toronto and the city architect, will be avoided by a new provision appearing in legislation. The tendency of municipalities to charge excessively for their licenses will be checked, and in future the amount chargeable will be fixed by government regulation.

The GARDEN CONDUCTED BY R. TODD

Making the Garden Beds. HOW BEST TO DIG IN THE MULCHING. As we pointed out to you yesterday, there is a proper way to do everything. The careful digging in of the manure mulch is one of the most important points in the making of the bed, whether it be the new bed or an old bed being remade.

These things are absolutely necessary in the making of a good garden bed, and they are easily obtained. Just a little care and thought is needed. Besides this, you want your bed to look neat and tidy throughout the whole summer. You want that bed to be in such a thorough good condition at the start of the season that you worry and have no necessity of reworking it any time during the next six months.

During the evening the massed bands played appropriate music and the male choir of the Canadian Staff Songsters sang hymns.

Joyous scenes were witnessed at Massey Hall last night when 78 Cadets were dedicated to various commissions in the Salvation Army. The new officers will take up duties in various parts of Canada many of them being assigned to districts as far away as Halifax.

MOVING PICTURE SERIAL THE MORELAND MYSTERY

Scenario by Paul Bern, Novelized by Edward H. Robins. (Continued from Yesterday.) CHAPTER II.—THE SCENE OF THE TRAGEDY.

Mollineux called a newsboy from across the street, purchased an extra and glanced carelessly at the top page just as a high power motor-car drew up before him. Without a word he climbed into it, nodded to the chauffeur, and the machine disappeared around a corner toward the police station.

It was a mute testimonial to the efficiency of the Mollineux system for the great detective had merely mentioned "car" to the Jap servant, and the latter by calling a private phone had, in the time it took for Mollineux to reach the street, instructed the chauffeur what to do.

As the motor drew silently to the massive door, Mollineux hastily issued an order to the man at the wheel, beckoned to the men to follow him and hurried up the broad stone steps.

be for such a reason. This is terrible, Mr. Mollineux. I don't understand it at all. The evening had been so full of gaiety and good feeling and now we are all crushed. Young Moreland was like a son to me. He was as devoted to my daughter, and I was so afraid she will not recover from the shock.

Following closely after this nervous, middle-aged man, Mollineux quickly scanned his surroundings. As they went up the winding staircase, passing the sitting room, the many guests were sitting and standing in excited groups, all talking in subdued tones.

As the motor drew silently to the massive door, Mollineux hastily issued an order to the man at the wheel, beckoned to the men to follow him and hurried up the broad stone steps.

Health in Old Age. Old age and low vitality go hand-in-hand. The blood gets thin and watery; the nerves, failing to get proper nourishment, become exhausted. Since nerve force is the power which runs the machinery of the body, when this is lacking the bodily organs lag, and the result is pain, weakness and suffering. Build up the reserve force of nervous energy, and you put new vigor into mind and body. Dr. Chase's Nerve Food will help you to do this as nothing else can.

PATRIOTIC PAGEANT. The pageant of advertising products that has been organized by the Toronto Advertising Club gives promise of being exceedingly successful. PAINTING THE LILY

By Michelson

It is quite probable that you would have said that she required no added touches whatsoever. You would no more think of adding or subtracting anything than you would think of adding or subtracting anything from a lovely lily, ripened to its most ravishing perfection.

To Sarah Bernhardt—from an Unknown Friend

By WINIFRED BLACK

The little book shop was as bright and gay as usual. The window was lined with pretty cards and simple pictures of all sorts, and inside the door the friendly books stood comfortably on their shelves like well-to-do citizens standing on their porches and inviting the casual passerby to step inside and have a quiet chat.

But in the window there was something new, and a little different. A great bunch of white hyacinths and purple violets in a glass bowl. The bowl was low and spready and you could see the little stems of the hyacinths, and the blossoms looked more like chimes of delicate bells than ever.

The man shook his head. "No, no," he said, "I did not want to buy it. I admire her tremendously. She is a great artist. And what courage! Would you mind if I sent in a little bunch of flowers to be set in the window by her picture?"

The young woman, the pretty girl, the great success, the one the world is running after, such as these have plenty of flowers, but when one is ill and no longer young and in deep and dreadful trouble, it is beautiful to be remembered.

ADVICE TO GIRLS

By ANNIE LAURIE

DEAR ANNIE LAURIE: Will you please tell me some way to win a man I love? I am not sure, but I think he loves me. I am of a poor, little, and although I love this man I am afraid to show it. I can't help feeling embarrassed in his presence.

GOODNESS me, when I began your letter, and even when I was half-way through, I thought you were a poor, little, frightened girl, trembling in the presence of the man you love, and here you are a woman of 29 and a widow. I don't think there is any advice that I can give you that you would follow. You should realize that it is not your place to tell the man you love that you love him. Let him tell you that he loves you. It seems he does not or he would have spoken long before this.

A Bride's Own Story Of Her Household Adventures

Anticipating the Arrival of Mr. Fly and Mr. Moth. DON'T wait for summer time to swat Mr. Fly. Close your doors on him so that he won't ever be even a temporary summer guest. Was the substance of the last talk at our Women's Club.

At the time I lazily dismissed the idea from my mind, it's quite cold now and I thought it would look absurd to put up screens at this time. But this morning when I started to clear the dining room table, there perched on top of the marmalade jar was a happy little fly having the time of his young life. That was enough of a signal for me.

Secrets of Health and Happiness

Why an Infected Joint Takes Time to Grow Stiff

By DR. LEONARD KEENE HIRSHBERG, A. B., M. A., M. D. (Johns Hopkins)

YOU have been in the best of health. Suddenly you fall ill with a "sore throat." Just when you call the doctor to exclude diphtheria the throat "gets well." Doctors have to hurry to their patients often or the patient is well before the Aesculapius arrives.

Stiffness Comes Slowly. In one of their investigations the St. Louis surgeons found that the disorders which fall to the lot of the knee joint or any other joint depends somewhat upon the part of the bone injured. It depends upon whether the end, the core, the edge or margin of the bone was hurt.

When two or more surfaces within any human joint become immovable and bound stiffly together, medical pundits use the term "ankylosis." This is decidedly better than that foolish word of no meaning, "rheumatism," because it designates a definite condition.

There are many possible kinds of "ankylosed" joints, but three of them are well understood. One deforms or stiffens the hinges of the joint with bony rigidity. Another is partly cartilage and partly fibrous scars, while the other is in part fibrous and in part bony.

They discovered as a result of their investigations that stiffness and rigid fixation in a joint never comes on suddenly. It is a slow, insistent process which may be stopped. At the end of six days, soft, fresh scar tissue begins to appear between the injured or infected surfaces. At the end of 15 days after the accident or illness, tissue adheres to both surfaces and thus connects them.

This soft, interlocking tissue does not become hard and noisy until three months or more afterward. Indeed, bone does not manifest its presence until five or six months or more after the infection or accident.

When bacteria or disease germs were injected directly into the joints—after or during any sickness that still stands in the way of lymph or blood—it mattered not whether the microbes were those of tuberculosis or of pneumonia, or sore throat or of boils, the extent of this office.

Three Minute Journeys

WHERE CHESS IS THE CHIEF GLORY OF A CITY. In the heart of Germany, on the wide, fertile plain northwest of the Hartz mountains, and about seven miles from the ancient town of Halberstadt, is the village of Strobeck, which is not only in Germany, but in the world, because of the fact that every person in the town is an expert chess player.

Speaking of narrow escapes and charmed lives, a soldier in the English army, William Clark, not only went through the South African war unscathed, but was serving as a stevedore on board both the Titanic and the Empress of India when those liners went down, and escaped without injury.

Everybody is a Devotee of the Game.

Even the church spire is surrounded by a large iron chess board as a weather-sock, and the house of the president of the chess club has a 24-inch chess board built in its walls.

RUN THE DERBY AT NEWMARKET

Flat Course Superior in Every Respect to That at Epsom for Star Racers.

Recent advices from England convey the news that a determined effort is being made to have the Derby transferred from the Epsom course, where it has been decided since its establishment, in 1750, to Newmarket this year. This rumor follows closely on the heels of the decision of the English Jockey Club at its meeting recently to continue the running of races during the war, although on a smaller scale than had been customary before the beginning of the present conflict.

From a purely competitive standpoint, the course at Epsom Downs, in England, has always been considered unsatisfactory for the great and classic of the British turf, but heretofore the social features of that meeting gave the Derby such prestige that the shortcomings of the course have always been overlooked.

The Jockey Club, however, in its recent announcement that no luncheon would be permitted and that no special trains would be run, eliminated entirely the social atmosphere of Derby Day, so that those who are working for the transfer are of the opinion that, unless there are some who are desirous of maintaining the traditional features of the Epsom course, the last objection to the removal of the Derby from those historic grounds to the more suitable Newmarket course will be removed.

The Newmarket flat course is regarded as a splendid one for track performers, and already many of the owners whose thoroughbreds are eligible for the classic have expressed themselves as in favor of the transfer.

AMATEUR BASEBALL. The Oiler Baseball Club held a very antipast meeting last night in the Royal Templar Hall. It is expected that all of last year's players will sign. A. Lavan was elected manager.

The Dunlop Rubber Company Baseball Club held a reorganization meeting on Saturday, April 10, and the following officers were elected: Honorary president, Mr. J. Westren; honorary vice-president, Mr. J. H. Brown; secretary-treasurer, Mr. B. Woods; president, Mr. D. Huether; manager, Mr. W. Hall; manager, Mr. J. Monaghan. Mr. Woods has a large number of players to choose from, and the Dunlop boys will be heard from this coming season. Practice will start at the new Dunlop athletic field, corner Caroline and Queen streets.

A fast juvenile team wants to enter a league fifteen years or under, and someone to assist in forming a league. Write D. Pulver, 322 D'Arny street.

A meeting of the Riverside Manufacturers' Baseball League will be held on Wednesday evening, the 14th inst., at 8 o'clock, in the Broadview Y.M.C.A. building, Broadview avenue. The league is open to consider applications for another club, business house preferred. Telephone Main 427.

PITCHER GEYER

Rube Geyer comes highly recommended and Manager Clymer will likely keep him.

A Stirring Tribute To Sport in England

Unemployed support for racing in England during the coming season is recommended in an editorial in The Field, holding the opposite view being expressed heavily for their voice against a continuation of turf competition at Epsom and Ascot, while a stirring tribute is paid to all sport in the belief that the country is deeply indebted, in its hour of crisis, to the benefits which have been derived from the competition of past years. The editorial reads in part:

We only urge that the opposition to racing, as such, has been artificially manufactured out of a crusade which is somewhat new to healthy Englishmen, crusade against the alleged possibility of bad behavior on the part of those who attend race meetings. If that behavior had during the war, the crowd should not be allowed to exhibit during the war. And people who imagine that Englishmen can conduct themselves decently in this year of grace and danger seem to forget that racing continued from the first week of August till the end of the season of 1914; and that the whole world would have found little to complain of anything objectionable at Epsom or Ascot. And why was the ban of the racing at Newbury for example, or Lincoln was to be without stain? Was it because the Derby is a national institution? If so, it would certainly be a pity that it should be abandoned. We pay scant attention to Germany's antics. She darkened the streets of our cities, stopped our getting a drink after 10 p.m., and set a pace for date recruits. But if she eliminated the Derby, she might well score it as a triumph which the whole world would appreciate. Nor can we understand why she should be so solicitous to Germany's antics. She darkened the streets of our cities, stopped our getting a drink after 10 p.m., and set a pace for date recruits. But if she eliminated the Derby, she might well score it as a triumph which the whole world would appreciate. Nor can we understand why she should be so solicitous to Germany's antics.

Clean sport, either in this country or elsewhere, either in 1914 or any other year, is not open to the attacks which have been made upon it; and unless sport should be swept out of the country, whether it be at war or not, it is to race courses can behave themselves just as decently as visitors to music halls. English sport has given us fit, plucky, alert, and honorable soldiers and sailors who are fighting for us now; it has given our army and our navy the nation a consistent balance of common sense and courage which will enable us to face this crisis, and whatever worse may be our lot, better than could any of the alternatives between feverish possibility and ponderous gloom which serve our enemies as background for their rancorous hatreds. Are our best friends offended when we meet the unseen with a cheer? It may be true that the great thousands of our warriors who are so great a welcome that smiles upon the sunshine of our sport; but our friends will be the last to misunderstand a spirit which they have learned to value thru seven months of fighting. We may have had too much pleasure in the past; but that is not the reason for our insisting on too much pain in the present. There is a limit to human endurance which is brought nearer by every trivial public exhibition of over-tragic misery. We have to "stare the course" better than the Germans. We shall do so in the English way, which is not given to parading what it fears most deeply. It is not racing we want abolished at the present time; it is the cant, the hypocrisy, the half-baked reason, and those other harmful elements in the body politic which are alien to sport.

All Thistle players are requested to turn out for training tonight at the club rooms, Lappin avenue.

CHOICE CATTLE SOMEWHAT LOWER

Difference in Quality Influenced Prices Compared With Week Ago. ARE NOT ANY CHEAPER

Light Butchers More Plentiful, But Cows and Bulls in Demand.

Receipts of live stock at the Union Stock Yards were 115 carloads, comprising 2100 cattle, 1522 hogs, 17 sheep and lambs, 236 calves and 24 horses.

The top price for a straight load of choice cattle on Monday's market was \$7.40, which is 40c lower than one week ago.

But the quality of the two loads sold one week ago was 20c to 25c better value, hence heavy cattle were 15c to 20c lower, and bore out The World's prediction regarding that class.

Choice light butchers were more plentiful, but buyers reported them to be no cheaper. Cows and bulls were in demand at steady prices.

Steers and feeders were in good demand at steady values. The run of milkers and springers was not large, which caused values to remain steady to firm.

Veal calves sold at lower values than at any time this year. Sheep and lambs, although scarce, were lower in value, with the exception of light yearling lambs, which were in demand at higher prices.

Hogs were reported to be selling at lower prices. Butchers' cattle, steers and heifers sold at \$7.30 to \$7.60; good steers and heifers, \$7.15 to \$7.35; medium steers and heifers, \$6.90 to \$7.10.

Choice fresh milkers, forward springers sold at \$7.00 to \$8.50, and medium to good at \$6.50 to \$7.50; common at \$6.00 to \$6.50.

Veal calves. The market for veal calves was still weak. Choice calves, \$5.50 to \$6.50; common calves, \$4.50 to \$5.50.

Sheep and lambs. Sheep, light ones, \$7.50 to \$8.50; heavy sheep, \$6.50 to \$7.50; rams, \$6 to \$7; spring lambs, \$5 to \$6; yearling lambs, \$4 to \$5; heavy weight yearlings, \$3 to \$4.

Hogs. Receipts of hogs were light and prices reported lower. Hogs weighed off cars were reported at \$9.

Representative Sales. McDonald & Halligan sold 16 cars of stock Monday as follows: Best butcher cattle, \$7.40 to \$7.55 per cwt.; good butcher cattle, \$6.80 to \$7.10; common butcher cattle, \$6.50 to \$6.75; common cow, \$6.25 to \$6.50; common calf, \$5.50 to \$6.00; common pig, \$5.50 to \$6.00; common lamb, \$5.25 to \$5.50; common sheep, \$4.50 to \$5.00.

McDonald & Halligan sold 15 carloads of live stock: Best butcher cattle, \$7.40 to \$7.55 per cwt.; good butcher cattle, \$6.80 to \$7.10; common butcher cattle, \$6.50 to \$6.75; common cow, \$6.25 to \$6.50; common calf, \$5.50 to \$6.00; common pig, \$5.50 to \$6.00; common lamb, \$5.25 to \$5.50; common sheep, \$4.50 to \$5.00.

# For Men and Their Sons at the Simpson Store All Day Tomorrow Economies That Are Important Too

## Where Standards Are High

OUR DEPARTMENT MANAGERS have assembled, NOT a mere quantity of cheap goods for customers who don't care what they buy, but stocks of excellent things for men that have been bought with discernment and discrimination.

Sometimes a young man is able to buy direct from wholesaler or maker. It is a troublesome privilege, but may save him money.

Here he can be sure of saving on practically everything, yet without that inconvenience.

Our standards of style, material and workmanship are unsurpassed.

## Men's Outer Wear

### Suits, O'Coats, Hats, Footwear

WHERE MEN ARE CONCERNED, there is often an idea that bargains are undignified—something that only women are interested in. This is a mistake. It is a mistake, too, to think people go to department stores only when they want bargains. On this page you will find things that are not marked at reduced prices, but which are, nevertheless, cheaper than you can get them elsewhere. That is because of the enormous volume of business passing through this organization.

You will find, for instance, specially-made suits at high prices in our men's clothing department. But if you need an ordinary business suit, take, for example, these regular \$10, \$12, \$13.50 and \$15 Tweed Suits selling tomorrow at \$7.50. These are in grays and browns, with small checks and stripe designs, single-breasted, three-button saque style.

Men's Guaranteed Waterproof Coats, made from the finest double-texture paramatta, will be on sale Wednesday at \$10. These coats are fawn color, cut in single-breasted style, 50 inches long, with close-fitting collar; all seams storm sewn; sizes 34 to 46.

These changeable spring days, and even in summer, when one goes to the Island or across to Niagara on the boat, a light overcoat is absolutely indispensable. Tomorrow you will find a limited number of these garments in black cheviot, single-breasted, fly-front Chestfield type; sizes 36 to 44.

Extra Tweed Trousers are very useful to most men in summer. Going without a coat at a summer resort, or lounging about the verandah, it is wise to have something besides one's usual suit of clothes. We have 250 pairs, which would ordinarily be sold at a higher price. They are in grays and browns, and have five pockets and belt straps. To clear, tomorrow, \$1.50.

Soft Hats from Italy at \$3.50 are very popular with a certain class of jaunty dresser. At the same time there is sure to be a heavy call for the \$2.50 Soft English Christys—weighing only 2 ounces—in slate color, gray, Oxford

and black; and for the latest American soft shapes, in greens, browns, navy blue and black at \$1.45. These hats are all of the newest design.

Low-cut Shoes are a grateful relief from the heavy upper that kept out the cold all winter. The demand is increasing. To meet it part way, we are putting on a really important bargain—\$4 and \$5 shoes at \$1.99. These will please you. Sizes 5 to 10. Goodyear welts, button and lace styles, in patent colt, tan calf and dull calf. There are only 900 pairs of these, so no mail orders can be accepted.

## HOW IS YOUR BOY SHOD?

A PATIENT-LOOKING MOTHER said to another patient-looking Mother, as the pair sat in a College car going home a few nights ago: "Really—(sigh)—you'd think that boy of mine just cut his boots with a knife or filed the soles off with a file. He's so hard on his clothes."

Is he? Then permit us to suggest trying the "Classic" Boot. It won't wear forever. It is not made of cast-iron. But so far as any boot can be guaranteed against youth and the hard pavements, this boot is, honestly, a sound, tough boot. Well designed, too. We have 450 pairs for the Wednesday morning sale. Send the boy down, or come with him. All styles—tan calf, patent colt, gunmetal calf, solid butt-leather heels, full foot-form toe shapes. Every pair made by Getty & Scott. Sizes 11 to 2.

Classic Boots for littler people are to be had at \$1.50, instead of the usual price, \$2.25, on Wednesday. They come in all styles and leathers. Sizes 5 to 10½. No mail orders taken, as we have only 1000 pairs.

## In Other Departments Tomorrow

SPECIAL HALF-PRICE CHINAWARE will be found in the Basement, together with reduced-price DINNER-SETS. The stock of WAISTS has been added to by new shipments of the latest designs from the best French and American designers.

Unexampled opportunities for saving money will be found in the Women's Cloak and Suit Department. Prices on the product of some of the world's best makers are greatly reduced.

THOROUGHbred Shoes for women are being sold tomorrow at reduced prices, as are also other makes of shoe, and a special consignment of Ladies' Slippers.

Ninons and Crepe-de-Chines have been received in the Silks Department, and will delight all women shoppers who see them. Prices on many lines of these goods are reduced. All the popular colorings are being shown.

## Suits for Youths' and Boys'

THERE ARE PROBABLY MORE BLUE SERGE SUITS on the boys of Toronto than any other kind of clothing. Tomorrow the Boys' Clothing Department offers 150 Suits of this kind at \$3.85 each. These suits have been selling steadily at \$5 and \$5.50. They are the latest in design and perfect in every respect. Some are single-breasted, and others in Norfolk design, with yoke, knife-pleating and sew-in belt. The material is regular spring and summer weight. Sizes 25 to 35. A boy in one of these suits will be as well-dressed as any sensible parent could wish.

For the young man who is stepping into his first long trousers, the department is offering a \$12.50 suit. Various shades of gray are available in this range, including many suits with quiet check patterns. Sizes 32 to 35.

A special \$10.00 suit for very young men will interest many purchasers. It is smartly tailored from English worsteds or tweeds, in grays and browns. Single-breasted style with long, soft-roll front and long hip-fitting trousers. Sizes 32 to 35.

Boys' Department—Main Floor

## Hosiery and Gloves at Low Prices

Women's Silk Thread Hose, with slight defects, black and white, lisle top, sizes 8½ to 10; would be 45c if perfect. Wednesday 25c. Women's Black and White Lisle Thread Hose, and plain black cotton with white unbleached sole; regular and out-size width; sizes 8½ to 10; extra value. Wednesday, 3 pairs 55c, or, per pair 19c. Children's All-Wool "Little Darling" Purest of Wool Cashmere Hose, tan, sky, pink, cream and black; ages 4 months to 6 years. Wednesday 25c. Boys' and Girls' Black, Tan, Sky, White and Pink Stockings, sizes 7½ to 8½; black and tan, 5½ to 10. Wednesday, 12½c. Men's Artificial Silk Hose, sizes 9½ to 11. Wednesday, 3 pairs 55c, or, per pair, 19c.

## Special Items Selling Today

Women's Suits at almost Quarter Price, consisting of broken lines and samples; sizes 34 to 40; would formerly have sold for from \$16.00 to \$23.50, are being sold this morning at \$4.95 and \$6.95. Crepe Kimono Gowns, in the butterfly design, in Copenhagen, rose, gray and helio; Sizes 34 to 44.

## BRUSSELS RUGS AT LOW PRICES

WE HAVE the following oriental designs, in browns and other soft colors, at these attractive prices: 6 ft. 9 in. x 7 ft. 6 in., \$9.50; 6 ft. 9 in. x 9 ft., \$11.50; 6 ft. 9 in. x 10 ft. 6 in., \$13.50; 9 ft. x 9 ft., \$15.25; 9 ft. x 10 ft. 6 in., \$16.75; 9 ft. x 12 ft., \$19.25; 11 ft. 3 in. x 12 ft., \$25.50.

## For the Fighting Men

Space and weight count heavily in a soldier's equipment. There are articles in the Leather Goods Department that would help make his burdens lighter and his personal equipment more convenient. For instance: Money Belts, made from strong pliable leathers, in tan shade; four compartments, fastened with secure snap fasteners, two small for jewelry and change, and two large for bills and papers, 75c. Stationery Kit, made of seal grain leather; size 8 x 5½ inches; divided into two compartments, containing notepaper and envelopes and pencil, securely fastened with flap and fastener. Price \$1.50. Photo Frames, to be carried in pocket, made of pliable leather, cabinet size. One photo, \$1.00 and \$1.50; two, \$1.50 and \$1.75; three, \$1.75 and \$2.00; four, \$2.50. Flasks, leather covered, with or without cups, 75c to \$3.50.

## Night--- and Underwear at Greatly Reduced Prices

SLEEPING ATTIRE is becoming more and more important. The 280 pairs of Soisette and Silkette Pyjamas which our Men's Furnishing Department secured from a certain big maker recently are very timely. You will sleep coolly and comfortably in pyjamas like these. They come in stripes or plain, and in English cashmerettes or flannelettes, if you prefer these materials. Military cut, of course; frogs and pocket, too. Usually we sell these at \$4.50, \$2, \$2.50, but tomorrow at \$1.29.

In addition to these items will be found the latest shipments of men's shirting and linen accessories. The new collar designs are shown, together with stiff and negligé shirts that are MADE TO FIT. The old-fashioned, ready-made shirt had sleeves too long or too short. Then a man had his troubles getting a comfortably-fitting shirt. This is much less the case now than before, and especially is it less true of the Simpson stock of shirts than some lines.

FOR YOUR OUTFIT OF SUMMER UNDERWEAR, these items will interest you: Combination Suits, of white Lisle and Mercerized Silkettes, in plain, and spring needle weaves, or in English silk, silk and wool, or fine cashmere; all sizes; \$2, \$2.50, \$3.50 and \$4 per Suit.

On the other hand, two balbriggan items are offered: A regular line of Men's Shirts and Drawers, made by Penman, and others by Zimmerkmit. Sizes 34 to 44, at 35c, 50c and 65c, or a special lot of 500 from other good makers; same range of sizes, at 25c per garment. The makers from whom these garments come have made it a point to provide against the special stresses that are put upon this class of garment. Seams have to be specially reinforced so as to prevent the light material from giving way, as it might otherwise do. In wearing quality, in appearance, and in general comfort these goods are unexcelled. Simpson quality stands behind them.

## SAFETY FIRST—FUR STORAGE

The furs that have served you so well in cold weather should not now be neglected. The best of cupboards are unsafe. The depredations of moths are infamous. Don't take any chances with your furs. Our Cold Storage Vaults are not only moth-proof, but damp-proof. They are the last word in this sort of equipment. Your furs are first cleaned, then insured, then hung on racks round where dry, freezing air is kept in circulation. When they come out they will have—instead of the smell of camphor balls—a renewed lustre which only the cold storage vault can impart to them. Telephone to the Fur Cold Storage Department and we will have a driver call at your house for the garments.

If you had the proper tools, couldn't you save your money and gain health by enlarging your back garden?

## The Robert Simpson Company, Limited

You will find every provision for re-papering or re-painting your house among our departments.
