## PATRIOTIC MIRROR.

AFTER a tefidence of near forty years in the Metropolis, ftudious at length of eafe and à purer ait, I withdrew to a remote corner of the ifle, where, for thefe two years paft, I have uninterruptedly ehjoyed the fiweets of peace and retirement: But as fuch a ehange of fituation might be expected to opetate ftrongly on the mind of one fo lately involved in all the feveral inquietudés attendant on a public character, it may not be improper to obferve that in my opinion, the former is not to be put in competition with the latter, the one producing but ideal and imaginary happinefs, and the other what is real, folid, and fubftantial. This daily experience reriders indubitable. However, I muft confefs, I have not yet fo much of the reslufe, as to have totally excluded myfelf from the political world, having as it were a natural propenfity for this E my
my once favourite idol. I therefore, as an amufement, take in feveral different newfpapers, pamphlets, and other political materials. But the majority of opinions feem, to deciate in favour of the meafures purfued by the minority. Great and immeafurable encomiums have with profufion been befowed on fome of our late Commanders in Chief, witnefs the cautious, inactive and mercenary General in America. LongIlland and New York, I grant you, were conquered; great was the conqueft! becaufe the enemy made little or no refiftance. King's Bridge being then the enemy's poft, the diftance was so great, and Report Said, that the poft was impregnable; and confidering the great fatigues the few thoufands had fuftained by the ftubborn conquefts juft mentioned, the cautious General, out of pure tendernefs and affection to his Majefty's troops, did not choofe to purfue conqueft, and expofe the ardour of his men to a cruel and unmerciful enemy, who confequently were left to themfelves, and nourifhed with juft ideas, that the Britih troops were afraid to face them!

A very natural conjecture!
evidence would lead me too far, yet I could wifh to recommend the perufal of it to all thore who are diffident of the conduct of the Minifter, and wifh to difcover on whom the blame hould lie, I fatter myfelf the cheat would out, and every impartial man readily allow, that had Sir $\mathrm{W}-\ldots \mathrm{H}$ but properly cultivated the great advantages put into his hands, the voice of oppofition had long fince been humbled to the duft, and funk in oblivion-Ne tanti facinoris immanitas aut extitife, aut non vindicata fuife, videatur.

The General's noble and near relation is acknowledged in France as well as in America, to be a good-natured, peaceable man, and not lefs humane than the General him. felf, who purfued the enemy's fleet, under the command of M. D'Eftaing, two days after they fet fail : but, alas! he too had the mortification to be outrup !

Another popular character, in the marine department, Commander in Chief on the ever to be regretted glorious day of the 27th of July, juftly merits our aftention. The flag of Britain never appeared
peared fince the eftablifhment of the marine, at any period of time, to have fuffered fuch difgrace as on that day. Alas I when I look back, and fearch the annals of Britain; when I zead of the atchievements performed by Englifhmen, and with inferiour force, and compare thefe modern chiefs before me, with thofe of our anceftors, I cannot help blunhing for their conduct, and ftartle at the idea, that men, in my opinion the moft contemptible, where the intereft of their country is concerned, hould be thus extolled and idolized!-and for what?-Becaufe the one was afraid of Wafhington's imagined fuperiority, while the other pleaded the dangers they were expofed to, on a lee fbore-hence the former is ftiled, the faviour of his Majefty's troops, and the latter the faviour not only of bis Majefty's fleet, but of the nation in general ; * though I prefume they were

So called, by our modern phrafeologers, in oppofition and party enthufiafm. Thefe falfe appellations, the inconfiftency of fuch mad wanton applaufe, have, I confefs, been the chief caufe of my venturing forth from my retirement; to give my opinion on fo important a fubject.-Having frequently read in newfpapers and pamphlets, the moft fulfome praife on thefe great but modern chiefsLetters out of number, fufficiently ftuft with the word faviour, and many other fimilar and equally prefumptuous titles, I am not a litule aftonighed that the partizans of this favourite Adminal, fhould fuffer their zeal to mifguide and carry them fo far, as to give him so ummerited an appellation, which cannot poffibly be taken in any other light, than as a forgery and a downright infult on the public-and murt inevitably entail on themfelves the cenfure and ridicule of the fenfible and unprejudiced part of mankind, and juftly, fince they would affume to themfelves the facred name of faviour, where the oppr ite figma had, with much more propriety, emblazoned their names.-If therefore an expreffion of charity may be allowed in an age like this, of diffipation and envy, I muft beg leave to reverfe the allufion,
fion, and correct the almoit unpardanable miftake, by infifting, as is but too plain; that he had an eye to his own fafety, and that of an expiring party, rather than that of either his Majefty's hips, or the inconfiderable foot, commonly and juflly ftiled, Great Britain, by bandfomely * and bumanely poftponing the conflict to the next morning. If he muft be a faviour, let it be of a moft diabolical and unreafonable party! a party, the moft unnatural and outrageous in its proceedings; a party that was infenfibly mouldering away with the mafly load of its own infirmities, until the gloomy and inglorious 27th of July brought forth a trial for neglect of duty. The accufed, beyond doubt, was honourably acquitted; but by whom and in what manner? by an inflamed and partial jury, and the moft prejudiced evidence that ever appeared in the annals of hiftory. However, this acquittal, fuch as it was, added luftre, animated and re-1

vived the drmoping and confumptive party, and gave them a farther opportunity of fabricating falfehoods, and publifhing accounts, that adminiftration fought his blood as a facrifice to their refentment; though the contrary has fince been cleared up in the fulleft manner, to wit, that adminiftration was perfectly innocent of having preferred any charge againft him. The acquital of our modern hero, naturally produced every fpecies of enthufiatic joy to his formidable party, which fo intoxicated them, that it produced the unparalleled procefion at Fortfmouth, where juftice, good fenfe, and decency were banifhed, and folly and riotous diforder warmly embraced in their ftead. Now faction was all alive, and thofe concerned marched triumphant all over the kingdom, fo decorated with ribbands, the enfigns of dilloyalty, that every vagabond they paft, admired their harlequin appearance with aftonihed awe and. admiration. But to bufinefs. The worthies that compoled this extraordinary proceffion, were, as 1 mean to prove, indefatigable in the intereft, peace, and good government of the whole kingdom; and no fooner was this proceffien diffolved, than
they formed themfeives into differefit fquas drons, and by different routs marched with wonderful fpeed to the metropolis, and there without lofs of time, entered into a treaty offenfive and defenfive with the mobility as large.
Thefe fquadrons being ranged under men of various defcriptions and extenfive knowledge in domeftic wars and nightly broils, their extraordinaty caution is not fo mueh to be wondered at, in that they arrived under cover of the night, and very judicioully dividing themfelves, took their refpective commahds accordingly, with a determined refolution to bear down before them, every obftacle that fhould dare impede their progrefs, and in this they were punctual ; they made good and fupported their flations with great vigour, and all that unremitting fury, peculiar: alone to a difaffected party. However, before the different attacks were made, it was neceffary to call a council of war, the refult of which was, that reinforcements were expedient, recruits not joining the ftandard fo falt as had been expected : it was, therefore refolved, that a voluntary fubfcription be made for the better recruiting the fervice, and that during:
this juft and neceflary war; the fupplies being granted, proper officers Chould be appointed and difpatched to every quarter of the town, for the diftribution thereof, and the fupport of their feveral fations, on pain of incurring the difpleafure of their general officers, and other dignified agents in this glorious expedition.

From this wonderful Aroke of policy, the fquadrons were foon compleat, as the fubfcription-money had produced fuch torrents of the never-failing balfamics, porter, gin, \&ec. that not a Billingrgate could refift the fervice.

All on a fudden, a profound filence enfued at the lee foore ftandard. to make room for a fenfible and pathetic fpeech, which had the defired effect, in words of this fort : $\qquad$ "Injured Britons! we have called you together to ferve yourfelves and your injured country; you are unreafonably taxed, chained and fettered, by adminiftration, and this is the grand feafon pregnant with your relief, and the means of making you free, that you may hur! thefe damuable chains from you, that you
to their fuperior bravery, and fuch a terrible havock enfued, as is generally allowed to have furpaffed every thing recorded in the annals of mobility. The tallow-chandlersand glaziers, their beft friends, ditinguifhed them.felves, in a particular manner, foldom having fuch extenfive opportunities of extending their commerce, he one party crufhing the windows to atoms, with: Thowers lof a well; directed hot,* while the other commandr ed an immediate exhibition of lights; and every window that did not thew in enfign of applaufe, and comply with this burning Jiame, liecame ai victim to the enemy, and fell a melancholy facrifice to their unrelenting fury,

The majority of the people were forced into thefe enormous abfurdities of illuminations for their perional fecurity, and the fafety of their dwellings; the aged, the infirm, nay, fuch as were breathing their

[^2]laf, even in their expiring moments, and at the eve of eternity, could obiain no refpite, no relaxation, but were hurried away in a whirlwind of diftraction; numberlefs pregnant women frightened to abortion, yielded up themfelves and infant hopes, a miferable facrifice to the boifterous rabble; others of the tender frame were feen to fink down in fell defpair, at the horrid outcries and ill-treatment of thefe modern Reformers; numbers forced from their warm and peaceable beds to obey the fhameful fummons of illumination, falling in their fright over whatever chanced to obftruct their way, either broke their limbs, or were otherwife maimed; or expofed to the cold and chilling ait, contracted diforders of various kinds, the which they never recovered till fnatched away by the rigid unrelenting hands of death.

Cah we point out to view a more friking picture of the meannefs and wickednefs of thofe men, that dare act thus diforderly, in contempt of all good government !men, too, who have a right to affume the firt confequence and refpect, agreeable to their honorary titles, fortunes, and families.

But what avails! when they become mere Hallasbores to the meaneft of human nature, banihing the gentleman for the poltron; when they can demean themfelves fo far as to enter into a league of fenfive and defenfive with the outcafts of mankind, fqueezing, with raptures, the moft filthy hands with overtures of brotherly love, friendfhip and protection; if they would but fupport their Aandard! Hence came it to pals that Jews, Turks, infidels and villains of every defcription, were the leading men in the kingdom at this juncture.

In fuchi: an affociation it was neceffary the porter puncheons and powder barrels hould be dealt out profufely, in order to keep up and nourin the rebellious fire:- - A motly fcene this! when the duke, the lord, the fquire, the link boy, and feavenger of St. Giles's, were all upon equal footing! Hence a coalition of tribes; that on the fubfiding of rebellion, mutually avoid and deteft each other." How difgraceful and contemptible muft fuch outteages appear to the $\mathrm{cool}_{x}$ fenfible, and difpaffionate part of mankind, to require, nay, even force the peaceable, inoffenfive

offenfive inhabitants, to the ridiculous projeet of iliuminations: And, for what? to commemorate a phantom, the mere fhadow of victory. I am of opinion, that thefé public fpirited acknowledgments ferved rather to depreciate than commend, becaufe they were but involuntary and imaginary exultations to the people at large*: : Therefore, the dye became fo much the blacker, and the ftain had penetrated fo deep into the minds of thofe who are capable of diftinguifhing right from wrong, that had it ©o happened the tlaze had continued even twenty nights longer-the rebellious flame could not poffibly have dircharged the foul caft of thame incurred by the inglorious 27 th of July.

Bur ere we quit the commander in chief, it may not be improper to our prefent fubject, to make an obfervation or two, on the vice admiral's conduct. To fay he is not an injured man, and moft cruelly perfecuted, would be down right detraction : The im-

partial and unbiaffed fay to this moment, that had the Vice Admiral not fred a fingle gun on the 27 th, there could have been no excufe, no plea in fupport of the Commander in Cliefs not deftroying the enemy's fleet, as he had one hundred guns more, better manned, and heavier mettle than the French. However, that was not the cafe-Pallifer is allowed to have fought bravely, nay, that his conduct on the 27 th and 28 th , of July, inftead of being rereprehenfible, was, in many parts thereof, exemplarly and bigbly meritorious ; and if

- Mr. K-l had diftinguimed on the day of battle as clearly as he feemed to do on the day of trial, why not put him under an arreft immediately, and give the command to fome other officer? or, why did he not give orders to Mift his flag on board fome other Bip, as the Formidable could then but barely float? But the Vice Admiral, notwithftanding his Chattered fituation, was preparing with all poffible difpatch, to repair the damages received, and take a part in the line a fecond time, had not the fignal for renewing the fight been ordered down in a very fhort time, and in as bandfome a manner.

Much has been urged by oppofition, in favour of the cautious and peaceatle General, touched upon in a preceding page, whofe conduct has re-echoed from every coffee-houre in the kingdom, as well as in the great council of the nation, with encomiums of praife for his care and humanity: but as for his œeconomy of military ftores, there never exifted his equal, for during his reign in America, the favings were great to government in the article of powder, which as a Commander in Chief, does him the higheft honour. But what avails to be concerned for an ungenerous, ungrateful nation I when the people prefume to fay, that his fucceffor has done more for his country, and in half the time, than he chofe to do, though it is proved by experience, that Clinton, by a certain caft of conduct, has fuffered the article of powder to encreafe to the enormous and thameful price of three-' fourths more than when the ceconomift had the management of the affairs in that quar: ter; befides, the expenditure too; of his Majefty's loving fubjects, has been confiderably more. But it is fair, to argue in fupport of the abfentee, that as more of this fiery element has been ufed, and more bufinefs

done fince he had the honour of the chief command, the mere difference as to price is but a cowardly evafion, But enough of oconomy, let us return to that object of terror, King's Bridge, and you hall have my, advice gratis.

Every, man that is bleffed with fenfo enough tr know that 2 and 2 make 4 , muft be convinced, that had the oconomical General purfued the victory the Great Omnipo tent put into his hands, the world would have been juft enough to have attributed more ufeful ceconomy and real humanity to every poor foldier he had thereby been the mears of faving, than to roo barrels of gunpowder. imprudently, or malicioufly fpared. Which faving of men had certainly taken place, if he had cultivated the advantages offered. him in the early dawn of the war; the rebellious flame would long fince have been, extingufhed, and the bleffings of peace refored between the mother and her revolted children. The moment to crufh a rebel is. to attack him vigoroully when in his infant ftate, when green, undifciplin'd, and ignorant of the ufe of arms: but this ratio, nal mode the commercial general did not

But no doubt he acted as much in comptiance to party meafures as in obedience to the dictates of Mammon.

> Accurfed oppoftion I'Inhuman faction! thou bane of fociety, and fole deftruetion of Britain !

Whence come thefe inflammatory and delufive fpeeches, day after day; in the grand council of the nation? Whence this pera petual fating of queftions, and ftatting the moft inconfiftent motions, but from oppofition? Motions that ate pregnant with rebsllion, tumult, and diforder 3 motions as foreign to the buflnefs for which they claim a feat in parliament, and the welfare of the nation, as eaft fiom weft. Such are our flaming patriots, that have the infolence to Atile themfelves the fupporters of the rights of the people, whereas on the contrary they frain every 2:nn: $\mathrm{D}_{2} \ldots$ nerve;
nerve, and that with fuccefs, to render themfelves her moft corroding enemies, under the jefuitical mafque of real patriots. Car there appear a clearer proof, a more, friking evidence of their villainous defigns than their unparalleled exultations on the pretended yictory of the unfortunate 27 th of July. Again, where was their public fpirit and vigour, their enfigns of joy, when the important news of the conqueft of Pondicherry arrived; and that of St . Lucia; Savannah, fort Omoa, Charles Town, the: gallant Rodney's achievements, and the diftinguighed conduct of the heroic * Cornwallis; all thefe actions were confidered as trivial, and of no confequence when con:pared with $\mathrm{Mr}: \mathrm{K}-\mathrm{pp}-\mathrm{l}$ 's bandjome manœuvers and decent retreat:

The ranting contemptible republicans had loft their vigor and public acknowlege--

ments in the lee-fhore flame; and fuch a total relaxation enfued, that they were glad to llink away under covert of the night, and bury themfelves in the gulf of darknefs and oblivion. Gratitude fo poor was grown, the could not fpare a farthing candle, nor a pot of beer, not even a charge of powder, nor a hout of joy was heard to difturb the now filent fupidity of the late clamorous rabble ; a happy circumftance indeed for the peaceful inhabitants, fince rebellion alone can tickle them to mirth. But the honourable commanders they had ferved fo faithfully, had now forfaken them; their purfes were not now to be penetrated as in fupport of the 27 th of July, when fhadows were turned into fubfances, and even the very ladies themfelves were feen to take an active part in fomenting rebellion, by diftributing from their fair hands the deftructive means of riot and diforder.

Alas this was the day that offered the faireft opportunity of revenging an injured country's wrongs! This was the day to have hurl'd a nation's vengeance on the foe! But terrified with the idea of a leeתlore,

Fore, and fome other peculiar fears, he preferred a blind fubmiffion to his party to the commands and favour of his fovereign, and the intereft and welfare of a difteffed nation. This conduct of his has frice appeared a moft fatal ftab to Old England, and will ever entitle him to affume this ignoble motto, England's impofor, which will ever remain unfac d, and handed down to the lateft polterity,

Here we cannot conclude without a natural reflection on the warinefs, or prefumption of human nature; when we conIder that this fame Admiral had the affurance to wait on his Sovereign, with a demand either of his own difmiffion, or of an entire change of the miniftry. What a pretty modef way this of rating his own fet ees? Could his Majefty be fuppofed to do lefs in return for the glorious' 27 th than banifh his prefence all that were deemed faithful to their king and country? However, it goes for current at the weft end of the town, that this was not fo much the effect of prefumption as of forefight and anticipation.

wonted greatnefs, that we fhall convince the numerous foe, that Britannia muft ever be the emprefs of the main; and will not only recover her poffeffions, but even enlarge her territories ; and all this, fooner or later, at their expence.

And that the danger they feem fo apprehenfive of, and the juftice, prudence, and neceffity of the fpirited manifefto, will now at length awaken and roufe up oppo--: fition, and the nation in general, to a fenfe of their duty, if not from motives of regard, at leaft from thofe of felf prefervation. As our prefent fituation, when confidered as the effect of difunion at home, muft melt the moft obdurate, and caufe tears of revenge to flow from every individual that deferves the name of Briton; let therefore unanimity drive forth her hot thunderbolts of vengeance on thefe infulting bloodhounds. It is: fuch a conduct and fpirited exertion alone: that can prove the falvation of Britain. Hence the well-affected highly approve of the fpirited manifefto as the moft likely means of producing this wifhed-for unanimity; but fhould it not, yet it is generally allowed, that the force the Dutch may bring out againft

us, cannot be equally detrimental with the fecret affiftance they have given the enemy ever fince the commencement of this juft, and neceffary war.

As a fecret enomy is by fo much the more dangerous and deftructive than an open one, by how much the mare we are lefs on our guard and liante to make reprifals; by the fame mode of reafoning it is natural to conclude, that fhould the oppofition in future act as they have done heretofore, and openly and publickly declare in favour of the common enemy, it is impoffible that all the efforts of their malice fhould be productive of fuch mifchiefs to this pquntry as this their perfevering indirect obedience to the dictates of fecret affaffination. Hence flow the pumberlefs difficulties we now labour under; hence ruin muft enfue, unlefs fpirited exertion intervene ${ }_{2}$ and dangers like thefe, to bring us to our fenfes.

Good God, that we qannot exif on this tottering theatre without poffefling thefe corroding monfters, envy, jealoufy, and private pique. But there gentlemen hould confider, that by thefe falle fteps they are
blatting and plucking up by the roots, and cutting affunder the very finews that keep together and uphold the netion's profperity, and confequently their own; but alas they are jealous of men that fill thofe places the Sovereign thinks juft and prudent to confer on them. They, at the rifque of annihilation, are determined rather to fubvert all good government than tamely fubmit to be ftiled, out of place; here lies the myttery, the great evil, the fountain head whence party rage and difaffection fpring.

> O fhame to man I devil with devil damn'd Firm concord holds, men only difagree Of creatures rational!

May I ask the nation at large what I deem a pertinent queftion? Do the minifters receive more pay, or enjoy more honours in office than their predeceffors have heretofore done? I may boldly anfwer no, nor more than is peculiar to their refpective employments. "The Noble Lord at prefent, firlt C-t of the $T-y$, and $C \rightarrow r$ of the $E-r$, from his fituation, riaturally prefents himielf the firft to our confideration. It would be detraction not to pronounce him an exemplary character: Few jeople can boaft of a greater thare of that pleafaniry which fets the table in a roar, and ferves to enliven converfation. Tho' certainly, not to be reckoned among forme of our firft wits, he poffeffes an infinite fund of humour, which now, and then, indeed; thews itfelf in impioper places, and during the moft important deliberations. > Let Union lift the fword, direct the blow, And hurl a nation's vengeance on it's foe! One head, one hand, one arm, one people rife; Nor fall, divided, valour's facrifice.

When this bufinefs is performed, I truft your country will not prove ungrateful, and that you may to the fulleft extent of the word, juftly affume the at prefent corrupted name of Patriot:

The longer the war continues, the more muft the taxes you fo bitterly enveigh againft, neceffarily encreafe. How mocking, how aruel it is, to fuffer Britain's fuperior charms, through difunion at home, to be thus fhamefully obfcured by a family compact, and her undaz:iful children. Rouze yourfelves from your lethargic and vicious numbers! fight England's battles with fuccefs, bannifh the contemptible idea of a lee fhore, fight the enemy roughly, wherever you find him, without too mucb deference to ceremony or adjournment to after days, and when this fervice is performed, and your country is in a ftate of fecurity, then attack the minifter, if you have any juft cauf of complaint againft him.

When peace is reftored, make your important difcoveries, nor longer throw away your time in vain malicious endeavours, whilft by your delay, your country lies bleeding at every pore, under the inhuman hands of wanton affaffins, and villanious patriots!

It is confeffedly true; that public affairs have not beenaltogether as fuccefsful in the pre-
preceding part of the war as we had a right to expect ; but fure the reafons why are obvious? Hence it follows, that if the commanders in chief had difcharged that duty and truft repofed in them when the war was in its infancy, the rebellious flame would long fince have been extinguifhed, and the commercial intereft of Britain more flourihing at this hour under the prefent minifter than ever known to have been at any period fince the heptarchy.

No wonder, exclaim the difcerning few, that oppofition is fo crazy and diforderly, when they fee the prefent fmiling profpect of our affairs in America, notwithftanding all our rebuffs,-peace reftored ! the devil! the minifter not removed, nor likely to be! Again, the poor deluded multitude, who have been poffefled of no other will than that of thefe beguiling ferpents, repeatedly affembling together, huzzaing in a tumultuous and diforderly manner, bidding defiance to every fpecies of peace and good order, for the miferable reward of inebriation! the tainted and putred baits of oppofition! their daily occupations laid afide, and their thoughts diverted from honeft and ufeful purfuits, to the moft daring outrages, to catch at a fhadow, and lofe the fubftance, in fupport of they know not what or wherefore: their families left unfurnihed with the common neceffaries of life, and expors ed to all the miferies of want and fhame! How laudable: how effentially neceffary it is to exert all the faculties of the human capacity to form divifions at home at this ro dangerous a crifis! The burning of Newgate was with us in the country for a long time looked upon but as a mere fiction, and the country people in genergl, would as foon have believed the Thames was fet on fire, as that it had been poffible to reduce a Newsate to afhes. However by this time they are, I believe, pretty well convinced as to the poffibility of fuch an undertaking.

Religion it is true has heretofore been productive of the molt bloody outrages, with this only difference, that thofe were the effect of fertiment, this of hypocrify, a down right mockery of religion, which no age, or nation can parallel ; we hardly find infurrections caufed by a religious zeal appeafed in fo thort a sime as this. charming model this! Atruck by our modern puritans, our church fricken patriots !

Another fpecies of reformation was deemed neceffary, which, after notice given, was delivered before the Houfe of $\mathbf{C - m}-\mathrm{s}$, in a very folemn and aweful manner, and allowed to be a moft elegant and brilliant sketch of oratory *. But having fo many branches, and every branch an innumerable quantity of fibres; it was fo complex and tedious, that had every branch and every fibre been fpecially attended to, it was the received opinion, that there was more work dealt out than could have been difpatch'd in two or three feffions, regardlefs of France, Spain, and America, as objects too inconfiderable to difcufs upon, and where øeconomy was not neceffary.

But down with place-men-down with penfioners, or elfe we are a people ruined and undone!- for the influence of the Crown batb encreafed, is encreafing, and ougbt to be diminibhed. - But, what did this magnificent fpeech of œconomy avail! what was it productive of ?-It ferved only as a prelude to expole the moft fecret de-

[^9]figns of this weighty party, and betray their malevolent intentions ; becaufe, on enquiry, it was difcovered that all thofe enormous and unneceffary places and penfions, were chiefly held by the oppofition---thofe reformers that feemed fo fanguine in their pretended abolition : and when the minority, became the majority, as it did in a fage or two of this important bill, they found, on a more mature deliberation, it affected themfelves fo nearly, that in their private cabals, they foon leveled the cannon of refentment at the fabricator of this d-n'd piece of ceonomy-and exclaimed with their ufual vehemence, againf fuch fort of reformation, heartily condemning eyery fentence it contained.

For the deflructive axe, that threatned places and penfions, was not only alarming to the prefent poffeffors, but likewife to thofe who either wifhed, or hoped hereafter to poffers, whenever a change fhould offer, as the refidue in that cafe would be too inconfiderable for the craving wants of the needy multitude. - It was therefore unanimoufly agreed to, that the bill of œconomy was totally erroneous, wide of their real fenti-

Accordingly a bill of cenfure was moved for, and carried nem con-thus, the fabricator of this contemptible bill, as a reward for all his labours paft, found he had ren? dered himfelf, not only extremely unpopular, but exceedingly obnoxious to his colleagues, particularly to thofe who were place-men and penfioners, whom it moft concerned, and who, one and all, publickly avowed their dinlike-and a few of the moft ingenious, held forth in a language fuitable to the tottering verge of their prefent fituation.

Now to a more noble feene of action in the upper regions:

A noble duke lamented the aweful and dangerous crifis, that called him thus early to deliver, and without referve, his weak fentiments on the bill of eeconomy then before the houfe!-be dared any man to fay, he had the intereft and profperity of his country, more at heart than himfelf, or wifhed more for œconomy at this expenfive, dangerous and perilous feafon *. But, he confeffed,

feffed it would be extremely inconvenient to him, and attended with very ferious confequences to his family, were he to part with his little moiety, either by a voluntary or involuntary refignation-nay, farther, the few thoufands he received annually, would be but a vcry inconfiderable addition towards the prefent enormous expenditure of our fe. veral fleets and armies.

Another graceful member, arofe with great eagernefs, and, with his ufual wrath and indignation, ran over much the fame ground, in a very tremendous ftilehe wilhed, he prayed, he earneftly entreated the Howfe, to hear him, at this threatning period - œconomy, he faid, wras one of his principal and darling paffions; he defied any man to fay that he was not an economift-he prefumed, there was not a family in the kingdom; that was better regulated, or had more œconomy obferved in it, than his own; as a proof of which, he could refer them to his infpection of the wafh$t u b+$. he faid he fhould not care a flraw fory, according to bis ufual matnor of concluffon.

Another blooming comely figure got up. with a confcious dignity and grateful heart, and in a concire fpeech declared, as the Houre was called together on the grand fcheme of ceconomy, no man felt the confequences that might arife from this object, or more readily obeyed the fummons than himfelf---he acknowledged that he received a finecure of 40001 . per annum under Government, and though he was in the oppofition, he did not think it either prudent, or, grateful to give it up, as he received it not on account of his own merits, but as the price of bis father's fervices.

Three or four were up in a moment, but the Prefident gave the preference to a very brilliant fpeaker, perceiving from the mufcles of his face, and the agitation of his mind that he was ready to burf.- Left therefore he fhould forget his leffon, he fuffered him to proceed to this effect.
cI I am a P—r of the Britih P —t, and the folemnity of the times demand my ap-. pearance as a penfioner on the Britifh lift, recommending œconomy to minifters-and who
who in tears and brcken accents uttered, "Oh! my country l"---He then recovered his vigour, and in a thundering tone of voice -eclared, that he-always had, and uniformly would vote againft minifters; not that he pretended to know which was in the wrong, but he had an undoubted right to oppore minifters, right or wrong, as a meafure of oppofition, having been taught to believe by that fide of the Houfe, that minifters were purfuing deftructive meafures: and as he did not underftand ftate policy, he implicitly relied on, and was determined at all events to ferve his country through that wife and politic Channel-:-and though he had heard great encomiums on-the Bill of Jeconomy, he honeftly declared he did not hear it delivered before the lower Houfe, neither had he read it, having but little tafte that way, but that what he had gathered was from common report, he therefore begged to refer it :o the Committee of intruction-However he thought it very cruel, and highly indecent, that he who had always been a peaceable member, any farther than the extent of his proxy, thould be expunged the litts, for he declared his penfion:to be a juft and neceffary

## ( 58 )

one, and of a peculiar caft; and if he might be allowed an opinion independent of the Committee of Inftruction, it was a dan: gerous Bill, and ought to be withdrawn.

There were feveral other \{peakers upon their legs equally interefted in this important bufinefs, and who with their ufual vigor and fire of argument, declared for the legality of their prefent poffeffiops, and that they only meant to lop off the unneceffary and enormous branches of adminiftration, as the power of the crown kad increafid, was increafing, and ougbt to be diminißhed.-- But as the night was now fo far advanced the bufinefṣ was neceffarily poftponed to the next day.

Soon as the dawn arofe, the unlookedfor fituation of their affairs made it neceffary the mouldering party mould confider of ways and meañs to prevent the impending frorm, and fop up the poyt holes ere the match fhould be put to the deftructive cannon, by laying open the tragic farce, and nipping in the bud all their future expecta-tions---A private Committee of inftruction, at the patriotic junto, was therefore pronounced expedient; whereat, according to their ufual cuftom, the pious and needy patriots were not lefs attentive to private bufinef

Bufinefs than they had been to that of the public-sas it all tended to the grand objeft of deliverang themfelves, and their dearly beloved country from 凡lavery.
The queftion was then put; whether it was the real intereft of the gentlemen prefent to act up to the tenor of the Bill, and refign calmly for example fake, and to thew as it were the road to others..--But the contrafy was agreed to without one diffenting voice, alledging that a bird in the hand is worth two in the bufh.-It was next movedthat the projector of the faid Bill be for ever expelied the cabal, and unanimoufly agreed to.-This precipitate judgment did not a little flartle the original Oeconomint. If he underftood them right, he had drawn up the mal- treated bill, and delivered it to the Houfe with fuch ornamented frokes of oratory, that it could not poffibly prove in-admifible.-But looking around him, and difcovering to his great mortification, the gloomy and imbittered countenances of his colleagues, he recollected himfelf fufficiently to cheer their drooping fipirits with affurances of fuch amendments, as fhould not only cover their retreat on the dreaded day of battle, but even fecure them the laurel-
led honours : of a feeming victory.---This ingenious contrivance had the defired ef-fect---he was immediately reftored to favour, and received with open arms by all who now confoled themfelves with the hopes of a fpeedy and happy deliverance..-Every man now became an orator, and gave his npinion freely and cheerfully ; all agreeing to allow the bill was in itfelf a wonderful production, but ill timed---becaufe it fruck at the vitals of domeftic felicity, by abolihing the fweet comforts arifing from their feveral employments, and blafting the hopes of thofe who felt a juft ambition of being esrolled among the fortun-ate---and with finiles of approbation and glowing wit, they conceived it juft and proper, if revelation might be credited, that facred text---that felf-prefervation thould be nature's law.

After various opinions had been feparately canvaffed, and brotherly love reftored, it was agreed to that in future an appearance only of fupporting the bill thould be the prevailing motive, if fuch unneceffary places were found, and that by artful, low, and regular fteps they fhould retreat in the fame proportion
proportion as they had advanced, but by nower gradations and lefs warm; and that the weightier fubitance of it be fo mifterioufly enveloped, and infenfibly loft, that nothing but the skeleton may remain, which would prove but a tottering pillar of evidence againft them on any future occation.

However, a dilemma of ituation like this, did not a little puzzle a few of the moft enlightened amongft them ; but having recourfe to that exce!lent old proverb, bope for the beft, they were unanimoully of opinion, that as they had for years together bravely and refolutely ftood the teft of fuch frequent difappointments, that but for the great thare they pofleffed of the epicurean philofophy, Bedlam muft have been enlarged, or private dwellings converted into madhoufes, it would be deemed the higheft pitch of pufillanimo:s fear, were they now at length to think of liftening in any degree. to the dicates of fell Defpair.

Perfeverance therefore in the prefent meafures, and vigour in fupport of Congrefs, and in contempt of the rights of Great Britain over their beloved Americans,

## ( 62 )

was the univerfal cry---The ftygian council thus difiolved from grief to joy.

Americans who have the modefty to affert and maintain a new doctrine, that the mother has no authority over her children! a mother too of all mothers the moft tender, affectionate, and humane-..A mothes whofe conduct and demeanour ever fince her exiftence has been one continued line of juftice, honour, and integrity, and not only to her revolted undutiful children, but her moderation and goodnefs hath even extended itfelf to her natural and moft inveterate enemies, and to the moft diftant and remote corners of the known world. But Britannia's virtue, her mild and gentle government, her wholefome laws, have rendered her an object of envy, and the admiration of all who know her name.

But, that thofe who file themfelves chriftians and proteftants too, fhould difpute the authority of fo tender a parent, is a difgrace to the religion they profefs, and a downright mockery of the facred name of chriftian; fuch are the men, if worthy of the name; who

who not only claim equal advantages with the mother country, but demand fuch a fuperiority as may put it in their power to cruh to atoms their once friendly nurfe and protector ; and who would even now, notwithftanding all their treachery, receive them to mercy, who has ftood armed in the gap, expofed to the moft imminent dangers, and bravely defended them againft the treacherous defigns of gallic perfidy; the very people they now blindly embrace, and that in preference to their mother sountry!-Alas human nature! why so perverfe 1 to what meannefs and perfidy does pride unhappily fubljest us? to trample on, and forfake an indulgent parent. zpd embrace in her ftead a natural and delufive enemy !---An enemy the moft artful and delufive of the race of man! and of the moft abfolute, cruel, and defpotic principles we know of, the wretched Congrefs excepted, which is compofed indeed of men of the moft profigate and abandoned principles, who the longer they continue their tragic fcenes of iniquity, by fo much the more defperate will their fituation become; and in proportion as the diftreffes of their poor deluded plebeians multiply, fo
will their cruelties greatly encreafe, fince none of the baneful herd can be infenfible of their danger if involuntarily taken; and confeque-ty to what difficulties the conviction, remorfe, or impatience of the people might probably expore them.--As the wanton cruelties and barbarities exercifed by their order even on their own people, (as well as on thofe of the royal fandard) and fome of them who were heretdfore ranked as leading men among them, merely becaure they could not but difapprove of theit declaration for independency, and the unnatural alliance with France, hang on theif guilty confciences as fo much in arrears.

The unforianate who could not efcape thefe blood hounds, either fufferen death by the hands of the common hangman, or were expofed to other lingering tortures, mocking and difgraceful to humin nature.

Nay, the greateft part that compofed the rebel army, were forced into the fervice, and dragged away from the embraces of their parents, wives, children, or friends, to embark in a fervice they mortally hated ---and if any of thefe poor creatures attempted

tempted to return to filial duty, the only confolation left, if taken, was mooting or hanging for examples fake. -u-Thus were the feveral poor families expofed, unprovided with even the moft common neceffaties of life, and cruelly plundered of all they could poffibly hold dear either by the feverity of the imprefs, the chance of war, or an ignor minous exit, and all this merely to fatisfy the boundlefs ambition of a few individuals who have artfully intruded themfelves into notice, and now bafely arrogate the arbitrary priviledges of lawlefs fway !--.Thofe they could not force into the congrefs fervice, or who faved themfelves by flight, had their Houfes plundered and reduced to afhes, and their lands laid wafte and defolate! -Nay, even where they deigned to purchafe, the vender could hope for no other returns, than the infamous and invaluable congrefs-currency; which is next to nothing.---Such are the comforts; fuch the advantages, they have to their regret and forrow dearly experienced, for prefuming to advance the child above the mother, and waging war againft an indulgent parent.-Mort daring and impious outrage I and all fuch unnatural crimes, rapines and murder-

- ous practices, will fooner or later bring on the miferable perpetrators, and malicious abettors, the moft dreadful punifhments of divine vengeance.

The purfuit of truth and the neceffity of the times, have imperceptibly drawn me into this digreffion; I hall now refume my former important fcheme of œconomy.

Two or three days being elapfed fince the laborious projector had learnt the true fenfe of his collegues at the junto ${ }^{*}$---he determined to ftep forth in their defence as. far as the force of argument, decent chicanery, and well concerted ftrokes of fophi: ftry could poffibly affift him, this of all others appearing to him the moft alarming, and dangerous crifis, as the private property and public character of fo many worthies depended on this awful trial.

The door of the fenate houfe being opened rather before the ufual time, the galleries were foon filled, and the Gladiators below were uncommonly numerous ;---at length the champion of oppofition made

What has the world faid? what will it Say, to thefe glaring and impious impofters, but that their names ought to be ftruck out of every lift of fociety, as enemies to the real interefts and common fafety of Englifh-men---Nay, thofe among them who receive enormous fums under government, and yet ftrain every netve againft her real intereft, are more contemptibly bafe in the opinion of the honeft part of mankind, than the
$\dagger$ The feeble and trivial excufes that were made by feveral of the patriotic penfioners, for not refigning when the Bill of Oeconomy was firf introduced, entailed on themfelves, and juftly, the general cenfure of the people, and the fteady, firm and difinterefted conduct of the minifter, gained him an increafe of friends. Mr. B-ke being fully convinced of this affertion, thought proper to give his favourite bill another hearing ; and for thefe three capital reafons ; the firft, knowing himfelf in difgrace as well as his numerous and needy acherents, it would be again rejected; and fecondly, it might ferve as a mafque, in order to diminifh the cenfure and contempt they laboured under, and laftly, it would thwart and impede public bufinefs: indeed he may be juftly ftiled a true prophet; all his conjectures are come to pafs, except in the diminution of public cenfure and contempt, which are ftill afloat, and will ever appear in evidence againft their unnatural, wicked and malicious defigns.

poor wretch who plunders his neighbour for a day's fuftenance.

1 confider every man in the oppofition, who receives any emolument from under the crown, to be as much bound to the crown, as ary fervant who covenants to ferve a mafter for a certain fum per annum.

Now, if the latter doth not ferve his mafter with integrity, he is difmiffed,-..would this were always the cofe!---Again, if the fervant dinlikes his fervice, or is otherwife prejudiced againft his mafter, if an honeft man, he entreats his difmiffion, and difdains to eat the bread he cannot approve of.

If therefore, the penfioners in the oppofition, obferved and practifed this virtuous rule, it would reflect upon themelves, and every body of men fo acting, immortal Ho-nor.---But what a bafe ungrateful wretch muft that man appear, who fhould receive by petition, or folicitation, the wifhed for favour, either of a public or private nature, in money or otherwife, and in return contrary to all laws human and divine, fhould enileavour
endeavour to profcribe, or affaffinate his friend and benefactor.

In fhort the oppofition thall ac foon perfuade me, a hadow can be converted into a real fubftance, as that they are not meditating the fubverfion of the fate, and the ruin of old England.

A further inftance to corroborate this aflertion, and that of fo flagrant a nature, it would be a crime to be filent. When the fupplies are moved for, the Houfe on the fide of oppofition is generally thin, and when the day arrives to put them to the vote, there is likewife a very thin houfes there naturally follows indeed an oppofition, becaufe its a profeffed occupation, to withftand any point whatfoever that proceeds from that fide of the Houfe ; but their altercations are of no confequence, and the bufinefs is fuffered to pafs in tolerable good humour ; but no fooner do the fupplies meet with the royal affent, than the bufinefs to which the money to be applied, mult be term'd unneceffary, or extravagantly burdenfome, and the wheels of Government impeded with the utmoft fury, by thofe our yood friends in oppofition, and in a language

sather calculated for the meridian of Billingfgate, than fuited to the dignity of the P-.--s and C......-. 6 of Great Britain.

I hall therefore take the liberty of comparing this inconfiftant frantic conduct of theirs, to a certain ceconomical architect that would build a large Houfe, but before it was finihhed He found a paper 200 years old importing, that the fpot of ground on which the houfe ftood, laboured under the dominion of firits and apparitions; and the poor architect's head being full of vapours, from hard and laborious ftudy, he thought proper for the above moft weighty reafon, and out of pure regard to himfelf and family, to take down the building, and remove it elfewhere: this he called oconomy-but before he advanced to the firft fory, he unhappily found he had no refources, no credit, nor even where to put his frantic brainlefs head. Thus fell this great ceconomift, and as he was not yet a parliament man, his creditors fecured his perfon, and a dividend mult have enfued of $6 d$ in the pound. But what makes the fall of this prodigy of genius fo great and amazing to all who knev him, he was perpetually boafting of his cconomy, and recommending it to
athers; and as: he had a fuperior knowledge in all manner of bufinefs where economy was requifite, he never vifited play boufes and fuch idle tromperies, but dedicated his leifure time to public company, at Arthur's, and fuch places, where he never was at a lofs for manly amufements, and fuitable connections.

However, the fudden and unexpected cataftrophe of his affairs, happening near a general election, he procured a fufficient quantity of the golden unction, which foon as applied to the tipftaff's callous heart, diffolved it immediately, and rendered it fufficiently pliable for him to make his efcape.

He next thro' the intereft of his friends, and a feafonable fubfrription, gained a modern qualification, and being propofed for a Borough, was chofe with little or no oppofition, and returned impregnable, and confequently unexpofed to the cruel fangs of greedy mecbanics.

Having made happy the œconomical Architect, hall leave him in full power to ferve his country, at the fag end of oppofi-
tion, and take a tranfient view of a wellknown Fraternity, and a very ufeful one to oppofition. It is known by the name of the Almonian Fraternity, fo called from a great man in the pamphleteering way, who employs a large tribe of incendiaries, having various occupations in the fervice of their country, which I hall faithfully defcribe; and from the bert authority.

The firft upon the lift are the characature fcratchers, men of the utmof importance, and who are clofely aitended by a numerous train of inferio: beings, under the following heads, coint:s of falfe wit, paragraph mongers, tap hou're orators, oppofers of truth, fabicators of bad news from abroad, pamphlet venders, and diftributors of hand billṣ ; thefe and many ihat I cannot at prefent recollect are employed with great fucceefs, and equal induftry, in the feveral departments allotted them. But unfortunately for this yaft body of ufefui members to the community at large, they labour under the worft of grievancies, little wages, and that badly paid; unlefs therefore a very material and advantageous change in their affairs fould take place, they are determined to

## (75)

throw up their refpective commifions and recant, nor longer profefs the jefuit, by endeavouring to convince the world that black is white, and traducing the firft and nobleft characters in the kingdom, merely to oblige a rarty, and all this to fuch little purpofe with refpect to themfelves.

Since therefore their employments are of fuch a dirty and malicious nature, that nothing but hell itfelf could $b$ e fuppofed to take pleafure in them as mere employments; they muft infift on their difmiffion, unlefs their arrears are paid up, their fallaries greatly increafed, and to be paid monthly, as they cannot otherwife go on with any degree of corafort to themfelve, or credit to their employers.

Publick houfes are expenfive, and the more fo as they are frequently under the neceffity of rubbing off the old fcores of forme of the moft fubborn and preverfe, before they can make them yield to conviction. In fhort, there is fo much filth and mire to wade through, that unlefs the above conditions are ftrictly attended to,

## 76)

they will no longer undertake to rave againft the miniitry.

The characature detractors murmer exceedingly, and declare they will lay down their arms, as they cannot fubfin on the fmall pittance allowed them. That the profits arifing from the fale of the fatyrical prints, or, the antiminifterial pamphlets, are merely ideal and inaginary, and will not clear themfelves, as they are now become a mere dreg, though they flattered them. felves they have brought this good natured art to fuch a pitch of perfection as no age or nation can parallel ; as a proof of this affertion it is obvious, that all the windows where they fuffer the exhibition of there bumorous fallies, are fo crouded by all denominations of people, that there is not even a drayman, link boy, or chimney fweeper, that is not attracted by thefe magnets of difloyalty; they gaze at them with aftonihed admiration, and in confequence thereof become the moft ftrenuous poli.cians, and the moft fanguine advocates for liberty; nay fo interefted are they in their country's welfare as to fcruple obdience co authority; and devoid of thought, they cry out with extatic
joy and intoxicated fury, "America for ever !: we her fupporters, the genuine fons of pa-s triotifm, will undergo every difficulty, face, every danger in defence of our worthy and, grateful Yankees.-America for ever! Fors: tunes we have none, therefore what is England to us-no poffeffions, nothing to loofe; but every thing to hope for from juft and laneful plunder: the pulling down, the gutting and burning of Houfes, forcing open prifons, deftroying churches, and burying in ruins the enemies of the American caufe -America and plunder for ever, under the bright and promifing ftandard of modern patriotiom."

Thefe lawlefs and deftructive proceedings may juftly be faid to have originated in oppofition alone, who have not only fown the feeds of rebellion abroad before the commencement of hoftilities in America, but fince that memorable period, cultivated, nourifhed, and cherifhed faction at home, by falle and cruel mifreprefentations, all

- To feek either for friendmip or juftice in oppofition, is but feeking the philofophers ftone.-Friendhip, juftice, or genuine patriotifm are, with refpect to this party, but as an empty name; the terms are grown obfolete——and like the bafelefs fabric of a vifion, bave left not a wreck bebind, unlefs it be that of a diftempered brain, taking down the minifter with a frong pull, a long pull, and a pull altogetber ; yet notwithftandins all the pulling of thefe diabolical machines, firmnefs and integrity fmile on his face and are engraven on his Heart, which will ever buoy him up on the troubled ocean, and Neptune's felf fhall pilot and convey him into port.

## While patriots exclaim,

## O hell! what do our eyes with grief behold !

I am further induced, in order to throw fill more light on the conduct of this great man, to animadvert a little on a very extraordinary monfter now in being, known by various appellations, but more particularly by that of Sir Bullface Double Fee.

This:mirror of Juftice diftinguighed himfelf in a very confpicuous manner, to his immortal honour be it fpoken, and brought forth a charge of fo weighty and ferious a nature againft his friend and protector, the minifter, that in his own opinion nothing but ruin could poffibly enfue, as the plot was laid fo deep, and he had raifed heaven and earth together in fupport of his threatened ftorm.---However, the chat $\because$ eing fully, and with much acrimony, ? $1+$ open and left to the fenfe of the Houfe-They had no fooner inveftigated the affiir, than the minifter was pronounced innocent, even by oppofition itfelf, as knowing nothing of Double Fee's, wicked and malicious charge.——But the defigns of this Bull are obvious and glaring -

## ( 80 )

He thought his friend was going down the hill of adverfity, and as he had been once or twice in the minority, he was determined, if poffible, to keep him there---Honeft creature!--he was refolved to be vicar of Bray, and at the expence of Friendhip and gratitude even fide with the itrongeft-But lo! he found his avaricious calculations very wide of the mark, and not even productive of a fingle fee...-And feeing his friend was fill likely to maintain his ground, and reverberate the poifoned dart he had fo ingenioully levelled againft him, it luckily occurred to his mind, that promotion cometh niitber from the eaft, nor from the weft, nor yit from the fouth..--This forcible little paffage conveyed to his mind fo obvious a conclufion, that the difinterefted gentleman was fain to comfort himfelf with the idea of his friend's continuance at the helm : and wonderful to tell, though he had the rattles in his throat, an alarming crifis to finners, it operated fo powerfully on his whole frame, that his wounds were healed, his health reftored, and his conftitution fo well fortified, as to attempt another campaign..-- But alas! this was but once more expofing his double dealings !---

## ( 81 )

he was detected, trampled on, and a period put to his taking the lead in that theatre of politics, (and by a large majority) wherein he had fo bravely fought the fight, for his king and country---however, notwithftanding the exploits of this excentric, it is to be hoped they never will be imitated under that learned roof by any of his fuccefiors!---

It was the opinion of the Houfe, that a mercenary like him would very improperly fill the chir a third time, nor could all the declamatory and mafterly ftrokes of a young Renard, the chattering difcord of a Tom Tit, nor even the brilliancy of a M-..-by, keep their then bofom friend afloat, from finking into the vortex of difappointment and defpair.

## ( 82 )

This unexpected defeat, however excited the compaffion of fome of the factious in his fupport.---A vote of thanks was moved for---which, though but a flight recompence to the greedy maw of avarice, was not granted him till after an obftinate debate of fome hours.---What makes this debate the more fingular, is, that numbers of his new party faw fo clear into the inconfiftency of the bufinefs, that, through a confcientious delicacy, they were induced to remain neuter.---However, a majority was carried, and a vote of thanks granted ; but of that cool, frigid and icy indifference, that to a man of fentiment muit neceffarily have been the higheft mortification.

Here it may not be improper to obferve, that though a man may have been hurried away into irregularities and mifdemeanours himfelf, he is not apt to admire the fame line of conduct in others. This, I conceive, was the fole reafon there were then fo many filent and ufelefs votes in the oppofition; for who could find in his heart to vote for one who openly avowed, that felf-intereft alone was his darling paffion; and reputation and integrity

Thus the pit that has been fo often and fo long preparing for the minifter, with the uro remitting induftry of a firong pull, a long pull, and a pull altogether, ferves only for a retort, and is, I think, not inapplicable to thofe facred paffages.--Wbile mine enemies are driven back, they /ball fall and perifb at thy prefence--The Heathens, are funk down in the pit that they made; in the fame net which they bide prively is their foot taken---Tbe Lard is known to execute judgment, the ungodly is irapped in the work of bis own kands.

and their feveral political adherents, brought as it's fitting, to public juftice, and dragged headlong to the block of vengeance.*.
. London, 8. September, 1780.
Hon. Sir,
"In two letters which I have written you lately, from this place; I have faid as much as was fitting on political news, I write this at the requeft of Mr. Temple, who means to follow foon to America; who wifhes to be received as a deferving friend to his country. While he expects that weak and wicked men may attempt to iqjure his reputation, I feel myfelf happy in having it in any power, from my fituation, to obviate every infinuaation which may be made to you, and to fay that his re-fidence in this country; fince he laft left Bofton, has been effentially ferviceable to the caufe of Annerica, by giving fuch ideas of her temper, and refources, as have preferved fteady to her interefts, the few noble friends the has in both Houfes of Parliament, had ftaggered her numerous enemies. The Duke of R--.d, Mr. D. H. $\cdot \mathrm{y}$, Dr. P...-e, and names of fimilar dignity and principles are Mr. Temple's acquaintances here; and among fuch names, his own principles or integrity cannot be doubted. His defire is to return to Europe, in fome public charaEier, as he formerly talked to you; I cannot but moft heartily wifh him fuccefs in bis purfuit, and the particuJar favour and attention of my friends to his interefts. With fincere affection to all my friends,

I fubicribe myfelf, honoured Sir, Your moft dutiful Son, JOHN TRUMBULL." Gov. Trumbull.

But from this affection of theirs, we may reafonably conclude, that not only by their public orations, but alfo by fome more active and clandeftine meafires ; they have affifted, and ftill are affiting the diabolical Congrefs, and invigorating the Houfe of Bourbon at the expence of Great Britain ; and that this mutual union and friendly perfeverance of theirs, is but throwing open the deftructive flood-gates that their country may be deluged in her own blood.

Time has been, and I believe, our laws at this hour, are not lefs forcible if put to the proof, when juftice would have demanded of the traitor an immediate payment of that debt the impiety of his life had famefully incurred-------Who Chould dare attempt to plunge and reduce his country to a fate of indigence and poverty, and their miferable confeqrences, rapines and murder---Where, I again repeat it, may they be dragged headlong to the block of vengeance, or otherwife, conveyed on a hurdle to that tree that entails a portion of ignominy and difgrace on the guilty Pendants, there to hang till dead, fufpended under this favourite devick;

And may we fill fuch traitors firm withstand, And from a pet fo fatal purge our land, That free from blats fo baneful and fo dire, Britannia may with joy once more refire ; Confide in fafety, as her friends arife; Laugh at her foes, and tower above the Skies.
