SCOTT 150 MILES FROM POLE ON JAN. 3 WILL WINTER IN ANTARCTIC REGIONS ENGLAND IS BITTERLY DISAPPOINTED

"Terra Nova" Arrives at New Zealand Port With First News of British Explorer—Friends Believe He is Seeking to Conquer Huge Ice Barriers—May Meet German Expedition.

Copyrighted in the United Kingdom by the Central News, Limited, London and in the United States by The New York Times Co., and registered in the Department of Agriculture, Copyright Branch, Dominion of Canada, by the Central News, Limited, London.

AKAROWA, New Zealand, April 1.—The Terra Nova of the British Antarctic expedition, 1910, arrived here at 7.30 this morning, inhaled under the command of Lieut. Pennell.

Lieut. Pennell reported that owing to the bad ice conditions the Terra Nova was obliged to leave the Antarctic without waiting for the return of Capt. Scott and the members of his expedition.

The latest news heard, however, shows that the members of the expedition were making gallant efforts, despite very adverse conditions, to achieve their objective.

CAPT. R. F. SCOTT

Lieut. Pennell expressed the most confidence in their success.

Lieut. Pennell brought back with him Capt. Scott's personal narrative of the first part of the work of the expedition, and reported that scientific work of a most valuable character had been achieved. The health of the members of the expedition was excellent, with the exception of Lieut. Evans, who, he said, was now convalescent from scurvy. No alarm need be felt for the safety of the expedition. The Terra Nova will return south in November next.

The first part of Capt. Scott's personal narrative will appear in The World to-morrow morning. Any alleged information respecting the achievements of the expedition published in the meantime may safely be regarded as conjecture.

WELLINGTON, N.Z., March 31.—(Can. Press) Captain Robert F. Scott's vessel, Terra Nova, which carried the British expedition to the Antarctic, has arrived at Akarowa, a harbor in Banks Peninsula, New Zealand, but has not brought back Captain Scott or the members of his expedition. The commander of the Terra Nova brought instead the following brief message from Scott:

"I am remaining in the Antarctic for another winter in order to continue and complete my work."

The latest news sent back by Captain Scott to his base at McMurdo Sound showed that on Jan. 1 he had reached a point 150 miles from the South Pole and was still advancing.

It was clear that had the explorer delayed sending back notification of his progress until he actually reached the pole, news from him could not have been received by the Terra Nova before she was compelled to leave, owing to the setting in of winter and the freezing of the Ross Sea.

All on board the Terra Nova

A. B. Morine—Former Private Secretary Vindicates the Chairman of Public Service Commission.

NOTE—Mr. R. A. Reid, D.C.L., Barrister, of Toronto, who was private secretary to Mr. Morine for a number of years, and particularly during the stormy times in Newfoundland politics referred to in the house of commons a few days ago, now gives the inside history of the Roman Catholic Archbishop Howley's dislike of A. B. Morine. Mr. Reid is no relation of the Reids who are referred to as contractors with the Newfoundland Government.

Editor World: In view of the publicity given to certain old political controversies in Newfoundland, in which Mr. A. B. Morine, the chairman of the public service commission, figured when residing in that colony, I would like the opportunity of setting forth what I know to be actual facts concerning some of the matters referred to in the house of commons by Mr. Carvell. I think the public will be better able to judge of the merits of the so-called charges after hearing the real inside truth which prompted His Most Gracious Lordship, the Rt. Rev. Dr. Archbishop Howley, the bitter Roman Catholic father in Newfoundland, to make the attack.

For upwards of ten years, from 1895 to 1906, I enjoyed the most intimate confidential relations with Mr. Morine in connection with all his political and legal affairs as private secretary, and know whereof I speak. The defence and explanation already put forward by Mr. Morine are a full and complete answer to all the charges and insinuations made by the peasant mediocrities, unnamed politicians in the house of

commons, illiterate, uneducated, incompetent men who are not fit to occupy the position of office boys for this gentleman and who would be better employed as ditchers or chain gang followers in Kingston.

What are the facts? Howley has been for years a consistent vindictive Roman Catholic persecutor and follower of Mr. A. B. Morine, because he, Morine, would not submit to or carry out the illegal, unconstitutional and nefarious work of aiding Archbishop Howley in making a scandalous raid on the public treasury and finances of Newfoundland in the interests of and for the said Howley and the Roman Catholic Church in Newfoundland. In 1897 the Winter-Morine government was elected to office as the government of Newfoundland. Shortly after this Archbishop Howley came to Mr. Morine, who was minister of finance, and demanded that Morine should make a loan of some thousands upon thousands of dollars to the Roman Catholic corporation from the funds of the New-

Old Man Died of Starvation; Child Died in Mother's Arms

Crust of Bread Was All That John Elliott Had in His Room—Old Lady Found Dead in Room—James Watson Committed Suicide—Woman Collapsed in Hospital—Baby Girl Expired While Being Nursed by Mother.

John Elliott, aged 70 years, was found in a dying condition in his attic room at 9 Caer-Howell-street, on Saturday morning. Two hours later he died in St. Michael's Hospital. Elliott was incapable of working and was penniless. He got a room in the Caer-Howell-street house, occupied by a family of Jews, about a week ago, and had not left it until the ambulance took him to the hospital. Four days before his death he went to bed and could not leave it because of being stricken with paralysis.

Dr. O'Brien of McCaul and St. Patrick-street was called by an old man, a friend of Elliott's on Saturday morning. When the physician saw the man's condition he had him immediately removed to the hospital. There were no signs of food in his room, other than a stale crust on the window-sill, and no signs of attention being paid to the sick man. Enquiries were made of the people occupying the house. They knew nothing about him, they had taken some soup, but he could not consume it on account of paralysis, they had taken him water but he could not drink it. How long the man lay in that condition is unknown.

After he died in the hospital the body was removed to the morgue, drink it. How long the man lay in the undertaking rooms, from where the funeral will take place to St. James' Cemetery on Tuesday. The undertaker said that a son-in-law had identified the remains. It was decided that an inquest was unnecessary.

Committed Suicide. Despondent because of unemployment, James Watson, aged 38 years, of 75 Brock-avenue, committed suicide on Saturday. He retired to his bedroom, lifted a cap from a "blind" gas tube by a monkey wrench and allowed the poison to escape. A few hours later the people with whom he roomed found him dead. Every possible effort for the fumes from the room was plugged up with paper and rags, even to the key-hole in the door, which was locked. Coroner W. J. Wigham was called and decided that an inquest was unnecessary.

Died Without a Home. William Johnston, aged 68 years, died in Toronto jail yesterday. He had been confined to the jail for a long time on account of having no home, relatives or friends. He had been ill for several weeks. Coroner Rowe called an inquest, which will be held this morning at 10 o'clock in the morgue.

The law requires inquests in the case of deaths in public institutions.

Collapsed in Hospital. After an illness of several weeks Mrs. Johanna Murphy, aged 70 years, of 87 Wright-avenue, left her cot in St. Michael's Hospital with the intention of attending early morning mass yesterday, but she had only walked a few steps along the hospital corridor when she collapsed to the floor. She died within a few moments. The body was removed to her home.

Old Lady Found Dead. Mrs. Sarah Taylor, 84 years of age, was found dead in her hall bedroom yesterday morning. Death was due to asphyxiation. The gas jet was turned on full and the fumes had escaped for many hours. The old woman had lived in the house, occupied by a family of Jews, for a long time. She had no friends or relatives, and when P. C. Nesbitt called he found 30 cents on the dresser and a number of empty whiskey bottles strewn on the floor. The woman had worked for a number of years downtown, her latest job being in a jelly factory. She earned just \$3 a week, which meant considerable privation.

Chief Coroner Dr. Johnson decided that an inquest was unnecessary.

Died in Mother's Arms. A baby girl died in her mother's arms in the maternity ward of St. Michael's Hospital yesterday after it had lived for two or three days. Coroner Dr. Crawford decided that an inquest was unnecessary. The young mother had twins, a boy and a girl, in her arms when a nurse passing noticed that the baby girl was dead.

John Vokes. In Guelph Hospital there is a man, whose name is believed to be Vokes, an engineer, aged about 45 years, of Toronto. During the past few days he has been delirious and has been calling for his brother John Vokes of Sunnyside, Toronto. No information other than that there is a brother in Toronto, can be got by the hospital authorities. Dr. Kirby of Guelph telephoned the local police yesterday, asking that John Vokes be located. The police, however, are unable to find him.

FELL FROM A POLE. John Marsden, a lineman for the Toronto Electric Light Company, fell from a pole, a distance of about forty feet, on Front street, opposite the Grand Trunk sheds, yesterday afternoon, and sustained serious injuries.

AN INCORRIGIBLE JOKER

ALLEGED THEFT OF MOTOR CAR

Two Men Arrested in High Park Charged With Taking Auto Left Standing on Street.

A joy ride in High Park yesterday had disastrous results, Henry Graham of 181 George-street, and Henry Kaplin of 70 Chestnut-street, being arrested on a charge of stealing a motor car. John Rennie of 23 Elm-avenue drove his family to Cooke's Church and left his car standing on Mutual-street during the service. Graham and Kaplin came along, climbed into the car and made off with it. About two hours after Mr. Rennie laid the information the two were arrested in High Park by P. C. Anson (mounted). Graham explained that he was a chauffeur and a friend of his told him he could take the car for a spin. Kaplin said that he knew nothing of the theft, but was merely enjoying the hospitality of Graham.

APRIL FOOL.

Beware of bricks, purses, stories, beware of everything, for this is the day the April Fool jester gets in his work. The day of jokes opened at midnight at The World office, when anxious enquirers, constant readers, pro bono publico, citizens and everybody else that goes to make up the circulation of a newspaper, besieged the office by telephons with live information about murders, railroad wrecks, fires and everything else on the calendar of daily events. Between midnight and three a.m. the switchboard operator was never so busy.

"A terrible wreck has occurred out at York station; 12 bodies were removed to the morgue," was the message from some imaginative mind.

"Dr. Beattie Nesbitt is arrested," was another. They came in bunches ceaselessly for three hours. And it must be admitted one or two of the early jesters made good. Confession is good for the soul.

So beware, constant reader, for the jester is abroad, he is everywhere, he pops up from nowhere, and pulls things that even the most wise, astute mind falls for thoughtlessly.

REV. MR. FINDLAY HAS RESIGNED

Rev. Wm. B. Findlay of St. Enoch's Presbyterian Church will enter upon his new duties as superintendent of the new Industrial Farm, on North Yonge-street, on April 15. The congregation of St. Enoch's last evening was notified that Mr. Findlay's resignation had been put in the hands of the Presbytery, which will deal with it to-morrow. The congregation will meet in a few days to elect a call to a successor to Mr. Findlay.

THE CITIZENS AND THE COUNCIL

The World trusts that the city council to-day will make a record in dealing with the important subjects that are on the order paper.

First and foremost, to our mind, is the request of the mayor and board of control that a traffic expert be retained to advise the city in the complex matter of providing better street car traction for the people of Toronto. This could not be worse than they are today, and an expert can in a very short time frame up a report on the whole situation. The city has now acquired the right to put motor buses on the streets, but we want more than that; we want to have further information as to whether we can compel the steam railroads to help us out by a suburban service, and we think a great deal can be done in this direction. We also want to know the best thing to do with the municipal lines now being built, and whether they can be linked up independent of the street railway, or working in connection with it, or with running rights over the company's system. We also want to know more about the tubes, and we want the information right away. We certainly can get more relief from the Ontario Railway and Municipal Board if we know exactly what we ask for. What has also a direct bearing on the point is that the cost, while it may be somewhat expensive, is one the city can well afford and one that the citizens are entitled to out of the big percentage that the city draws from the street railway earnings. The strapholders are entitled to relief, and they look to the council to give it to them, and the council should, in justice to their constituents, and in the interests of Toronto who are their constituents, do something decisive, and have an expert report. This question is of times the importance of the purchase of Knox College site for a park. All we will get from the purchase of Knox College site is a piece of property; but the other question involves the right and every day convenience of a long-suffering community numbering 600,000 people, or one-fifth of the population of the Province of Ontario. It also involves the question of an entrance for radials, and Toronto wants to make some provision in this respect, if that be at all possible. THE OPONENTS OF THE CITY ARE WORKING DAY AND NIGHT ON THEIR PROPOSITIONS WITH THEIR EXPERTS; WHY SHOULD NOT THE CITY BE BUSY WITH ITS EXPERTS ON THE SAME QUESTIONS? We believe the aldermen, when this is pointed out to them, will make a move in the direction above indicated.

They have also to deal with the question of the Etobicoke and Mimico Radial Railway and its expropriation. They ought to get everything that the city council, Mr. Drayton, recommends in this matter.

The question of a deal with Mr. Home Smith, in regard to the Humber Valley Park and Boulevard, will also be before the city council to-day, and it ought to be settled by an agreement between Mr. Smith and the city.

What The World has been saying all along is that there are so many important questions before the council that there is only one thing to do, and that is to handle them and get rid of them once and for all; otherwise, there will be an accumulation of unsettled business that will paralyze the whole situation. The people of Toronto are behind the council in a progressive policy, even if it is expensive.

TWO BROTHERS FATALLY SHOT IN MONTREAL

Edgar and Herbert Chapman Wounded by Member of "Enchantress" Company in Desperate Battle in Hotel Bedroom—Another Brother Less Seriously Hurt.

MONTREAL, Mar. 31.—(Can. Press.)—Attempting to avenge a fancied insult to a lady acquaintance of their brother, Edgar and Herbert Chapman were shot, probably fatally, in a room in the Savoy Hotel at 4 o'clock this morning, while Harold Chapman, the brother, lies in the hospital with a bullet in his knee.

Carl Hemmans, a player in the orchestra of the Enchantress Co., with Kitty Gordon, which finished its engagement in Montreal last night, is held, charged with the shooting, and will plead self-defence.

Harold Chapman had a room in the Savoy Hotel and early this morning a woman came to see him, saying she heard he was sick. He was in his room asleep. The woman found the lock broken and started to mend it. The noise of her hammering awoke Harry Stanford, a player in the same company as Hemmans, who came out and asked the woman not to make so much noise. She desisted and went into Chapman's room and told him of her conversation with Stanford.

Stanford, in the meantime, went into Hemmans' room for a talk. Chapman came to the door and saw Stanford entering Hemmans' room. He got up and dressed and then sent a message to his brothers, who lived nearby, saying that he was in trouble. The messenger came back with some money, his brothers believing he meant financial difficulty.

Returned With Brothers. Harold Chapman then got a hack, drove up to his brothers' residence where they lived with their mother, and got them out of bed and had them dress, and brought them down to the Savoy Hotel. The three went to Chapman's room and removed their coats. Then they went to Hemmans' room, where Stanford had been seen to enter by Harold Chapman. They broke down the door. Stanford had left the room for his own while Harold Chapman had gone out, and consequently was not in Hemmans' room. Hemmans was seen sitting on the side of the bed, awake. As they entered some object broke the electric light, plunging the room into utter darkness, and they could not see a thing. Shouting out threats, the three brothers rushed at Hemmans, whom Harold Chapman took to be the man who had had the conversation with the woman who was mending his door, and throwing him to the floor, started immediately to beat him up. Hemmans finally managed to struggle to his dress suit case on the top of which he had left a revolver, fully loaded, and opened fire in the darkness. All three brothers were hit by the flying bullets.

When the hotel employees arrived on the scene they found the Chapman brothers helpless and Hemmans badly beaten.

Serious Injuries. The shooting was done with a .22-calibre revolver, with soft-nosed bullets. Edgar Chapman has a bullet in his lungs, while Herbert is wounded in the liver and chest, also by bullets. Neither are expected to recover.

To-day the ante-mortem statements of the wounded men were taken. Edgar Chapman identified Hemmans, who is held by the police in jail, and offered to shake hands with him, saying: "You're not to blame at all, old man."

The woman in the case declares that she did not tell Chapman that Stanford had entered her room, merely saying that he had asked her to cut out the noise.

What story Harold Chapman could have told his brothers, who both have good reputations as steady workers at their trade as painters, to get them out of bed and dress at dead of night to make an assault on a man they had never seen, is a profound mystery as yet.

Harold Chapman will be remembered as one of the usters at the Orpheum, who was present at the fatal car game last November, when Charles Ross shot and killed Bob Fitzsimmons, the ticket taker, during a quarrel over a bet.

A STRONG COMBINATION. Report has it that "Jumping Jupiter," which opens a week's engagement to-night at the Princess, stands at the head of laugh-provoking entertainments, and the music, written by Earl Huchins of "Mañana Show" and "The Three Twins," fame is known to be melodious and charming. Pretty girls, fine costumes and beautiful scenery from a harmonious background.

PASSOVER FEAST STARTS TO-DAY

Solemn Festivities in Jewish Homes and Synagogues Commence at Sunset This Evening.

At sunset this evening the Jewish feast of the Passover will be ushered in the solemn festivities in the Jewish homes of the city and to-night the synagogues will commemorate the delivery of the Israelites from Egyptian bondage, and the passing by of the destroying angel.

The festival has the two-fold character of a religious service and family reunion. All the members of the family will, wherever possible, return to the paternal home for a night, and the father will preside at the feast, both as the patriarch and religious leader.

The recital of the deliverance from Egypt will be recited in the homes at these reunions.

In the Toronto Jewish stores a list is displayed of articles of food which are in the forbidden list during the Passover season.

TORONTO DRYS IN CONVENTION

Gathering To-morrow Will Be Most Representative Temperance Meeting Held Here in Many Years.

What will the Toronto branch of the temperance alliance do to-morrow night under the new condition of affairs? was the question an official member of the provincial and local alliance was asked by The World last night.

"I hope at least," was the answer, "that the meeting will elect a man as president who is primarily a temperance man," was the reply.

"Isn't the retiring president, Hon. A. B. Morine, a good temperance man?" asked The World.

"Unfortunately temperance is only secondary with him," was the answer, "that was why the Toronto branch could not do anything for Mr. Oliver in North Toronto."

GRAVE DIGGERS ON STRIKE

Now it's the turn of the Grave-Diggers' Union to strike for higher pay. Fifteen of the employees of Mount Pleasant Cemetery have given an ultimatum to the burying ground trust. Either their pay must be raised from the present \$20 to \$25 an hour or they will cease operations to-day.

Only the foremen are available and as the work is not unskilled, difficulty may be met in replacing men should they quit.

With the Advent of Spring Comes Also the Question of New Clothes

EASTER is almost here and most every man feels that the season is best ushered in by donning a new suit. We have provided for some thousands of Toronto's men and young men. We start our suits at 8.50 with a near range of patterns, and then 10.00, 12.00, 15.00, 16.50, 18.00, 20.00, 22.00, 25.00, 28.00, 30.00, 35.00 and 38.00. Pretty hard to find a more complete range of suits anywhere. We feature all the best models and have a showing you will be pleased with. Our big show windows have always an interesting story to tell and a moment spent in looking may save you many a dollar, to say nothing of your feelings. Buy your Easter suit to-day from us.

OAK HALL, Clothiers

Cor. YONGE & ADELAIDE STREETS J. C. COOMBS, Manager

MORMONS HERE SEEK CONVERTS TO THEIR FAITH

Six Young Missionaries Spreading Doctrines of Joseph Smith in Toronto Which Will Be Head of New Conference—Polygamy No Longer Practised and Full Publicity is Invited.

There are in Toronto six missionaries of the Mormon Church, come here to seek for converts to their faith. These are daily making a house-to-house canvass, endeavoring by this means and by "cottage meetings" held every evening—seeking to sow the seed of the gospel as they see it among the people of Toronto. At present, two of these "elders" are in Albany, N.Y., seeking to have Toronto made the head of a new "conference" which is to cover all Ontario. They declare that they have made a number of converts, and that there are now fifty Mormons in the city.

These Mormon elders are Elijah Cutler and A. L. Buchanan, 566 Logan-avenue; and I. P. Hinkley, Alva M. Ensey, Marion Martenson and Charles M. Beckstead, 402 Sackville-

See our cluster stick pins with 3-4 karats of blue white diamonds. \$60.00. ONTARIO DIAMOND CO. 99 Yonge Street, Toronto. No connection with any other store.

street. Two of them have been here for nearly a year, while all six have been here for a month, the last two coming from Brampton and Preston, Ontario, where they were also engaged in missionary endeavor.

Court Full Publicity. Elder Elijah Cutler told The Sunday World that he and his brethren were not come upon a secret mission, but courted the fullest publicity, as they wished all to know of their work in order that the merits of their faith might become known in the land. He declared that heretofore Toronto has been included in the New York conference, with headquarters at Albany, N.Y., but that recently this conference had been divided into two, but that an effort was being made to cut away the American territory and return it to the old conference, while a new conference covering Ontario, with headquarters at Toronto, should be formed. He said that Elders Martenson and Ensey were at present at Albany upon this mission.

The elder declared that he and his brethren were making a house-to-house canvass of the city, and that this was preparatory to the launching of a still stronger movement. He said that there has always been at least a pair of Mormon elders in the city since the founding of the church in 1830. He said that 50 does not represent all the labor of these years, less deaths of departed brethren, but that despite the fact that it is now the policy of the church to have converts migrate to Utah many had gone on to the stronghold of the faith.

Polygamy Not Practised. Speaking of the number of converts made in Toronto the elder said that they could not say just how many had been made, but that there had been a recent baptism at Armstrong Hall, 287 Poplar-avenue, where meetings are held at 7 o'clock every Sunday evening. Elder Cutler strongly affirmed, and was backed in his statement by Elder Buchanan, that polygamy was no longer a practice of his church. He said that up till 1890 it had been, but that there had then been a revelation, declaring that it should no longer be practised, and it had been discontinued. He asked also that it be strongly emphasized that he and his brethren were not seeking to convert young girls to the faith to the end that they be sent on to Utah to become wives of members or officers of the church. He declared that their missionary campaign was exactly similar to that of any other church, which seeks to bring those without the fold to a knowledge of what they believe to be the true faith.

He said that he and his fellow missionaries are reporting, and that he is a photographer who sold out his business so that he might engage in missionary work for two years, and that Elder Buchanan is supported by his father for a like period and purpose. Both elders declared that the mission to Toronto and Ontario, has come to a close, and that they hope to achieve great things for the faith here.

Mrs. John Poucher Dies in Pittsburg

Had Been Visiting Her Daughter in That City When Stricken With Fatal Illness.

The death of Mrs. John Poucher of Sparkhall-avenue, Toronto, occurred Saturday morning in Pittsburg, Pa., whither she had gone about ten days ago in company with her daughter, Mrs. A. E. Major, to visit her daughter, Mrs. Burton C. Myers of that city. Mrs. Poucher had not been in the best of health for some time, but no immediate fatal termination had been expected. On Friday last, however, her illness suddenly assumed a critical form, and she passed away a few hours after her husband and her son, Mr. J. B. Poucher of the National Trust, who had been hurriedly summoned from Toronto, reached her bedside. Mrs. Poucher was a daughter of Mr. Alfred Turner, B.A., and his wife, Lavina Windsor Turner of Toronto, and had spent the major part of her life in this city.

NO RESULT TO SMITH AUCTION

Veterinary College Property on Temperance and Richmond Streets Will Have to Be Sold by Private Treaty.

The Veterinary College and adjoining premises on Temperance and Richmond streets, was offered for sale by auction at Henderson's rooms, Saturday noon.

At the outset, Auctioneer Henderson asked for bids on the property on bloc, and after appealing to several well-known dealers without effect, it was decided to offer the property in two lots.

The Temperance lot, frontage was put up first, but resulted in no sale, after which Mr. Lonsdale, representing the executors of the late Dr. Smith, decided to withdraw and dispose of the property by private treaty.

Chas. Henderson, when seen by a World man, stated that the deal was too big a one to be dealt with without protracted negotiations.

SWAT THE FLY AND DO IT NOW

We Can Be Practically Rid of Them This Summer if We Go at It During House-Cleaning Operations.

Every house fly killed now means one million less by August 1, according to the medical health officer, Dr. Hastings, who recommends that this dangerous little germ carrier be exterminated during the spring house cleaning operations. Dr. Hastings claims that if the proper precautions were taken to destroy all the breeding places for flies, and that if the house which lurk in the kitchen were killed at this time of the year, the house fly would practically be banished from the city.

The doctor points out that there would be less disease, less worry and both in the summer time, and there would be less expense, since there would be a saving on doctor bills and fly paper. If the people of Toronto would wage war on the house fly at once without waiting till they multiply and become a real pest in the summer time. He pointed out that in Baltimore and Washington and in other cities the school children had waged a campaign encouraged by prizes offered for the largest number of dead flies, and excellent results were secured in this way. In Washington, D.C., a newspaper offered cash prizes for the largest number of flies caught by the school children, and the result was a campaign of the keenest rivalry. In less than two weeks seven million flies were killed. The winner was a 12-year-old boy, who submitted no less than 88,400 dead flies. One public spirited citizen undertook to supply all the boxes in which the flies were delivered daily to the offices of the associated charities. From these stations they were collected by a transfer company and conveyed to the medical health department, under whose supervision the campaign was run. Here they were counted and this work was no easy task.

FOR ALEX. MUIR MEMORIAL.

At a private meeting of the board of control it was decided to recommend a grant of \$400 for the proposed monument to the late Alexander Muir, formerly principal of Gladstone Avenue Public School and author of "The Maple Leaf." The city treasurer was authorized to grant the city's contribution when the balance of the money had been raised.

AT THE THEATRES

"Jumping Jupiter." Richard (alias) Dave, Edna Wallace Hopper, Charles Edward Wright, George S. Trimble, Helen Raymond, Isabelle Winlock and others, accompanied by "some girls" will unpack their baggage at the Princess Theatre to-day and present a grand, new, and great, musical success, "Jumping Jupiter." This play is declared to be one of the most entertaining musical shows it has ever been the good fortune of Richard Castle to secure, and to give a proper presentation of the motes enumerated above were specially engaged.

"Ginger Girls." Joe Hurling's enterprising spirit in creating "Ginger Girls" is manifestly shown in the make-up of "The Ginger Girls," which will be seen with Edna Wallace Hopper and a cast of prominent performers at the Princess Theatre during the week commencing this afternoon. Perhaps for the first time in the history of burlesque has it occurred to supply a crew of witty mechanics to attend to the technical part of the show. But this is really the case in the offering with which "The Ginger Girls" are out to win ending thousands of new admirers, in conjunction with "Jaslor," a play that most exciting, stirring and bewildering play, "Fidelity Wins" will be presented. It will not be the mere introduction of the famous vaudeville act, but it will be full play, starting with rollicking fun, animation and characteristic situations as were found in the famous track of "The Head Bay on 'Fidelity Day.'" It is a bit of real life. It is a play that is reached by the introduction of a number of famous vaudeville acts who speed to victory under the whip of well-known jockeys.

"Follies of the Day." Barney Gerard's famous "Follies of the Day" with "The Trimmings" as all star cast and a brand new production from start to finish, will come to the Star this week. An all star cast headed by Gertrude Hayes are kept going at a lively pace during the entire performance. No better comedy or more artistically trained chorus will be seen here this season.

"The Fortune Hunter." "The Fortune Hunter" a bright, crisp comedy of present-day life, by Winchell Smith, with Fred Niblo in the role of the adventurous Nathaniel Duncan, who seeks to acquire a million dollars within a year, will begin an engagement of three nights and Wednesday matinee at the Princess Theatre, beginning Monday evening, April 1.

The various types portrayed in the witty little drama, which has scored one of the most complete successes of the past decade, are etched in bold and brilliant fashion. His passions, his desires, his love story is one of delicate charm. Josephine Coates will appear as the daughter of the inventor, a role which affords her ample opportunity for sad scenes, as well as moments of deep pathos. Frank Bacon will be seen as the mild, grey-haired inventor, who together with the fortune hunter, is lifted from penury to affluence. The musical will include a matinee on Wednesday.

First Time in Toronto. "The attraction" announced for the Royal Alexandra this week for the six nights, with the usual Saturday matinee, is a popular and artistic production on Thursday, and an extra special afternoon performance on Good Friday.

Parlova Playing to Sold Out Houses. Kathleen Parlova, the great violinist, made a tour with the Boston Symphony Orchestra, and in every city the houses were sold out. The tour opened in Boston and then included Philadelphia, Baltimore, Washington, New York (two concerts), and Brooklyn. In all Miss Parlova will have six appearances with the Boston Symphony Orchestra this season. The other orchestras with which she plays, are played in the New York Symphony (Walter Damrosch, conductor), New York Philharmonic (Josef Stransky, conductor), Philadelphia Symphony (Leopold Stokowski conductor), Chicago (Theodore Stook conductor), St. Paul Symphony (Walter Rothwell conductor), Miss Parlova is also recitals in New York, Boston and Philadelphia. Among the works which Miss Parlova has been asked to play at her concerts this year are the Beethoven, Brahms, Tchaikovsky, Saint Saens and both French and modern works in several numbers. Miss Parlova will give a recital at Massey Hall on Friday evening, April 12.

Bargains in Player-Pianos. No player-piano can be a very old piano as it is only within recent years that this class of instruments has been put on the market. The firm of Holstman & Co., Ltd., 192-195-197 Yonge-street, have some four or five player-pianos that have come into their hands in exchange when selling their own instruments. They have been only slightly used, and are guaranteed in first-class condition. This firm are ready to sell them at a large reduction from the first price and on easy terms of payment.

"Hanon's Fantasia." The perennially popular "Hanon's Fantasia" is the attraction of the Grand Opera House, with matinee Wednesday, Good Friday, and Saturday. The piece is a study in the art of touch and illusion, and some wonderful transformation scenes and handsome ballets are given before it. The entertainment is a combination of fun, music, mystery, drama, romance and extravaganza. There are an usually large number of beautiful costumes, and the specialties are of no mean merit. An army of stage mechanics is employed in order to handle the intricate effects of this production. There are three baggage cars of scenery and more than a hundred players. The company like the productions being entirely new. The basis of the story is the story of the same, also the book has been revised for this new production by the author, Pico Bessy by himself. The story is a humorous fashion the story of Leo and Arthur and their servant, the beautiful girl, and the story of the evil spirit, and befriended by the beautiful girl, "Fantasia." These innocents have a score of adventures, and their travels take them not only to the bottom of the sea, but into the mysterious castles and wonderful enchanted palaces of that romantic land over which the fairy queen holds sway. There will be more than a dozen tremendous and gorgeous scenes replete with all the splendor and beauty of fairyland flowers. Beautiful ballets and brilliant transformation scenes abound, and the Honans have provided hundreds of brand new illusions, which are sure to be delightful to the eye. The Honans are the Youngman's Fantasy, Frances Lee as Fantasia, Geo. Hanon as Pico the Clown, Clara Thropp as Kitty, Robert Stevens, Kitty Cowgill, John A. Alexander, and specialties by the "Foot-Herbert" Trio, instrumental musical comedy; the Youngman's Fantasy of six people in a sensational act, and "The Flying Butterflies," a wonderful aerial ballet. The entire production will be staged under the general direction and supervision of William Hanon—their chief assurance of success. The production is a masterpiece of the extraordinary in stage effects. The music is new and catchy.

Man Amour at Shea's To-day. Manager Shea has booked a show at Shea's Theatre this week that is sure to be a success. The show is a grand house. There is always the best at Shea's, and this week there is a bill of specialties.

Headlining the bill is beautiful American and Arranged Kalls. These clever people are presenting their musical romance, "Man Amour," the book presented by Edgar Allan Wolf and the lyrics by Mr. Kallitz. Will M. Cressey and Winchell are presenting "Mr. Cressey's Comedy," entitled "One Night Only," and Frank Fosarty, the Dublin minstrel, will be the author of the special attractions for this week.

Other well-known features to be seen are little Hip No. 2, Robert and Laur-

The Ideal Glasses

Are those that enable one to see the best and clearest without fatiguing the eyes. That is the kind we always supply to our patrons, and that is the only kind that any person—young or old—should wear. Any other kind of glasses will surely result in injury to the sight. We examine eyes, provide the correct lenses, glasses, and charge very reasonably for our service.

HOUSE REJECTS SENATE CLAUSE

Tariff Commission Bill Furnishes Bone of Contention Between Two Branches of Parliament.

OTTAWA, March 30.—(Special).—For the second time this session the House of Commons rejected an amendment of the senate, this time on the tariff commission bill. The operation was performed not without a certain resistance from the opposition, but by their leader, a conference will be held between committees of both houses.

When the house met this morning the amendments proposed by the senate to the tariff commission bill were taken up and Hon. W. T. White, minister of finance, said the government agreed to three of the four amendments, but there was one which they would not accept. That amendment was not intelligible and bore evidence of having been hastily drawn up. It provided application for "increase," but it did not say what the amendment mentioned that the commission should report as to shareholders without specifying in what the shareholders were.

St. Willfrid Laurier said it was satisfactory to know that the differences with the senate were reduced to a minimum. Perhaps the language was not as felicitous as might be wished for. But in the case of the word "increase" everyone knew that it meant an increase of "duty." The amendment was perfectly relevant. The application for increase of duty should come before the commission, and it would be necessary to deal with them.

Right Hon. Mr. Borden stated the senate amendments were made as if the duty of the commission was to fix the tariff. The commission had nothing to do with that. The amendment showed considerable lack of care.

Hon. Dr. Pugsley stated the criticisms of the senate were not well founded. The amendment was made for information which would be of vital importance to the minister in determining whether or not an application for an increase of duty should be acceded to.

Hon. George E. Foster also spoke and the amendment of the senate was rejected by the house.

ZOO LION KILLED

Animal Presented by Senator Cox Put Out of Misery.

Nero, the sick lion at the Riverdale Zoo, was destroyed on Friday by the orders of Parks Commissioner Chamberlain. For three years he had been ailing with an aggravated form of cancer and Dr. Morphy was ordered to put him out of his misery.

Nero arrived at the zoo in 1902, having been contributed by the Hon. Geo. A. Cox. He was always a favorite with the children. There are now five lions left at the zoo.

Gait to Have Armouries. GALT, March 30.—Galt is to have a new \$15,000 armoury and a city regiment. Col. A. L. Oliver of the 29th Regiment received the news from George H. Clare, M.P. for South Waterbury. Col. Sam Hughes, the minister of militia, will come here after the session ends to pick out a site.

How Nerve Cells Are Broken Down

Every man or woman who works with the brain uses up daily an enormous amount of nerve force. Millions of tiny nerve cells are broken down and must be replaced if mental and bodily efficiency is to be maintained.

If brain fog, headaches, sleeplessness or irritability set in, the evidence is plain that nature is not rebuilding as fast as work is breaking down. You cannot allow this depleting process to continue if long nervous prostration or paralysis is to be averted.

Dr. Chase's Nerve Food will help you. It is the balance between the other side of the account, so that each day will add a little to your stock of health and vitality. A man whose work is largely mechanical may keep going with health below par, but the brain worker must have a clear head or will be behind in the race. Restore the wasted nerve cells with Dr. Chase's Nerve Food and know the joys of good health and success.

JAMES BRYCE RETIRES

Vice-President of Canadian Express Company Relinquishes Position.

MONTREAL, March 30.—James Bryce, vice-president and general manager of the Canadian Express Company, announced his retirement to-day after 40 years' connection with express work in Canada.

St. Catharines Man Injured

St. CATHARINES, March 30.—(Special).—John Flynn, an employe of the Klinefith Paper Mill, is in the hospital suffering from a severely injured back. He was holding very heavy hose, which proved too strong for him with force of water and wiggled out of his hand, winding about his body and the back of his neck. The striking him in the small of the back.

Dr. Jory, who was called, had the man conveyed to the hospital, where it is expected he will recover.

What's in this cigarette?

IT'S only right that you should know. A man particular about what he eats is usually particular about what he smokes. Rigid cleanliness in the Tuckett factory and sheer quality in Tuckett tobacco make for the strict purity of the Tuckett cigarette.

Tuckett's Cigarettes

the final qualities essential to the complete enjoyment of a thoroughly luxurious and satisfying smoke.

Three Varieties: Tuckett's Club Virginia, 15c. for 10; Tuckett's Special Turkish, 15c. for 10; Tuckett's T. & B., 10c. for 10.

It is significant of Tuckett quality that these cigarettes are sold by high class dealers, hotels, grills and clubs whose patrons demand a high class cigarette.

TUCKETT LIMITED, HAMILTON, CANADA

Taft Scores "Noisy Reformers" Says People Are Conservative

"Surface Talking and Lecturing Doesn't Represent the Opinion of the People," He Declares—As Near Now to Popular Government As it is Possible to Attain.

PHILADELPHIA, March 30.—(Can. Press).—At the Ohio Society dinner, President Taft spoke of the recall of judges, defended the constitution, said that his administration had been progressive, and pointed out some of the reasons why he thought it was progressive.

"I am here to express my gratitude for the demonstration given by this country that all the surface talking and lecturing does not represent the opinion of the people. We are conservative people, ready for progress on a conservative basis."

The president spoke of "noisy reformers" who make plans for reform without having worked out a scheme that had any basis.

Elected by Eight Per Cent of Adults. The president replied indirectly to the question raised by some of his political opponents, "Shall the people rule?" He said that he himself had been elected president by only eight per cent of the total population of the United States.

In a brief speech before the American Academy of Political and Social Science, Mr. Taft touched on the anti-trust law and spoke of the plan for placing corporations under national supervision.

trust law and spoke of the plan for placing corporations under national supervision. He said he was in favor of enforcing the Sherman law just like any other law.

During the afternoon and evening, the Italian Catholics wore crosses on their hats, made of pieces of the palms presented at the churches.

The matter will come before the town council on Monday night for definite action.

The China Famine Relief Committee of the U. S. have requested that Sunday, April 7, be set apart as "Famine Relief Day," and that funds be raised in the churches.

There has been more distress this year than in any previous one in the sixteen years' history of the mission.

SACRED TOKENS DISTRIBUTED

Thousands of People Attended Roman Catholic Churches in Order to Secure Palms.

Thousands of Toronto residents thronged the Roman Catholic Churches yesterday to receive a holy palm as a sacred token of good fortune for the coming year.

White Makes Effective Reply To Criticisms of A. K. MacLean

Dying Hours of Session at Ottawa Marked by Vigorous Attacks on Alleged Treasury Raids and Lack of Senate Reform—Paying Off Old Administration's Debts, Says Finance Minister.

OTTAWA, March 30.—(Special).—The last afternoon of the twelfth parliament of Canada was taken up with an attack upon the government by Mr. A. K. MacLean, junior member for Halifax, who reviewed the whole work of the session and indulged in a slashing charge, especially upon the financial expenditure of the new government.

Hon. Mr. White made a brilliant response and justified his expenditures by showing that much of it was taken up with meeting the debts of the old government. He stirred the house with brilliant flashes of wit, which enlivened what would ordinarily have been a dry monetary recital.

A. K. MacLean, junior member for Halifax, began by attacking the present government, stating that it had lamed itself by living up to the promises made in opposition. He commented upon the raids made on the treasury since the present government came into power.

Senate Not Reformed Yet. Mr. MacLean stated the government did not live up to its promises of senate reform, for the first thing done was to appoint George Taylor to the senate. Forty persons had been appointed to conduct public enquiries, all Conservatives, and the government had always protested against appointment of party friends, when in opposition.

He stated the government for appointing Sir William Ralph Meredith to enquire into the Farmers' Bank, which was both useless and mischievous. No protest was heard concerning the appointment of judges on commissions.

When in opposition the government had opposed the Zens rifle, but not a word had been heard from them this session. They had been as dumb as the mummies in the tombs of the Pharos.

Taking up the expenditures, he accused the government of having increased them at a very rapid and alarming rate. He complained of the late date, on which supplementaries had been brought down and quoted the remarks of the Hon. Geo. E. Foster in the same regard when in opposition.

Shameful Waste. As far as the contemplated expenditures were concerned, he stated the government was most extravagant, and for next year the total expenditure would be \$200,000,000. Last year it was \$180,000,000, and asked if the increase sounded in the nature of a strong protest against expenditure.

Next year Hon. Mr. White might have to announce a big increase in the public debt. The revenues of Canada also might have to suffer thru the disturbed industrial conditions in England.

Mr. MacLean attacked the government for the increase in the cost of civil government, an increase of over \$200,000 in the last few months for additions to the civil service.

He singled out particularly the department of the postmaster-general, and said that under the administration of the present postmaster-general the country would never again get the same financial results from that department. He also took up one by one the different departments, and accused them of contemplating increased expenditures, and wanted to know how they would square themselves with their former associations.

He roundly condemned the government roads bill, and said it contained no principle or policy, and stated the government should have taken recess to consider it.

He said there may have been some justification for money spent in the provinces of the west. He protested against, as he termed it, the indecent haste with which the government had rushed to help provincial governments friendly to it.

In conclusion, he said the financial record of the government since coming into power was not all of which they might be proud, and its friends should be ashamed to feel the same way.

Finance Minister Replies. Hon. W. T. White, minister of finance, answered. He said he was not an antiquarian, and would not go down into the catacombs. They had heard of a certain legendary person, who had reproved him, but they had the spectacle of the member for Halifax, the trusted lieutenant of the leader of the opposition, preaching economy.

As to the attack that the main estimates of \$140,000,000 were too small, the minister of finance raised great amusement by showing a sheet of requests from Liberal members asking that branch lines on the I. C. R. should be purchased, and complaining that the estimates of \$140,000,000 were too small.

As to the accusation that the increase in expenditure was greater this year than any other year, Mr. White stated that the amount this year of increase was only ten millions, while last year it was twenty-four millions, and the year before twenty-two millions. This showed that the Conservative government was not indulging in reckless and unnecessary expenditures. In fact, he stated that the Conservative party had been in opposition for fifteen years.

And that the Liberal government had been in power for fifteen years, and that the Liberal government had been in power for fifteen years, and that the Liberal government had been in power for fifteen years.

Mr. White turned the tables cleverly upon Mr. MacLean by remarking that the \$160,000,000 were made up of little items increased by the late government. Twenty-five million dollars this year for the G.T.P. was one item. As to the "five millions," another item, it lost in implementing the bonds. It seemed like a baby on the doorstep and it had to be taken in (loud laughter).

Mr. White, touching upon the new expenditures, said \$500,000 was for agriculture and \$1,000,000 for highways. If the opposition did not approve of that, the people did. One million was for departmental buildings in Ottawa, and another million for a building in London. How, asked Mr. White, could anyone disapprove of that?

He said in conclusion that the people would approve of large expenditures, when done economically. The people must have vision, must be statesmen, and make their expenditures in the public interest.

The million-dollar baby would give \$500,000 of it if they'd just let him get his face dirty once!

Men are divided into three classes: Fish, Abraham and bait.

The world owes every man the kind of living he earns.

EATON'S Dressy Patent Leather Boot For Men \$5.00. HINDU ACCUSED OF PERJURY

VANCOUVER, March 30.—(Can. Press).—Housain Rahim, the Hindu real estate agent of Vancouver, charged with perjury in getting his name on the provincial voters' list, was up in the police court to-day. The court fixed bail at \$10,000 and adjourned the case until Monday.

Detectives who made the arrest, also executed a warrant of search of the effects of Rahim. Detective Thompson said he found among Rahim's effects a quantity of Industrial Workers of the World literature, and a petition signed by a number of Hindus for the removal of Mayor Findlay from office.

The maximum penalty for conviction on a charge such as that preferred against Rahim, is 14 years' imprisonment.

MAY RESCIND FISHERIES TREATY

Incensed Because Congress is Making Football of Agreement Signed Four Years Ago, and Because B. C. Fisheries Are Being Depleted, Canada is Likely to Bolt.

OTTAWA, March 31.—(Special.)—Unless the United States Congress at the present session approves of the regulations, which have been drafted by the commissioners appointed by the international fisheries treaty, signed between the republic and the Dominion on April 11, 1908, it is likely that the Canadian Government will withdraw from the treaty.

Although the treaty was signed four years ago, and the commissioners, consisting of Prof. Prince, representing Canada, and Dr. David Starr Jordan, representing the United States, prepared a code of regulations which were agreed to by May 19, 1908, the American congress have never ratified them.

The British Columbia members, who are particularly interested, have been strongly urging that Canada withdraw from the treaty, and officials of the department who have made a report to Hon. J. D. Hazen, minister of marine and fisheries, also recommend consideration of withdrawal unless the United States acts at once.

The treaty was originally entered into with a view of protecting the fisheries along the Great Lakes and international boundaries waters. Unless there is common action by the two countries and similar laws and regulations as to closed seasons, etc., it is almost impossible to protect fisheries in waters common to both nations.

Clash of Authority.

The difficulty in the United States seems to be principally over a clash between federal and state authority in the republic. The different state governments make and administer the fishery regulations, and while it is the province of the federal government to enforce the law, the state governments have the right to make laws and to enforce them.

On Feb. 22, 1910, the president submitted the regulations to congress in order that due legislative action might be taken. However, they waited to pass congress. In 1911 the regulations were submitted to the senate and approved as far as the Atlantic coast was concerned, but rejected in regard to the Pacific coast.

The reform bill which the miners will carry to Cleveland, will take more than two weeks to take the vote, as not all of the local meet every week.

The suspension does not affect all of the mines in the south, as the union is not so strong south of the Ohio River as it is in the northern states.

Two Weeks to Take Vote.

Ballots for the referendum vote by the bituminous miners, it is said, will be sent out from the national miners' headquarters in this city as soon as the national president, John P. White, and the other officials return here from Cleveland.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto, is through train to the West via Chicago and St. Paul.

Personally conducted Grand Trunk special train will leave Toronto 10.30 p.m. Tuesday, April 2nd, for Camrose, Edmonton and points in Manitoba, Saskatchewan and Alberta, stopping at all points on Grand Trunk Pacific Railway west of Winnipeg.

Tourist sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in these cars at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one-way settlers' rates for round trip homeseekers' excursions through the American cities.

No change of cars. Full particulars from any Grand Trunk Agent, Toronto City Ticket Office, northwest corner King and Yonge Streets (Phone Main 4209), or C. N. McCutcheon, Alberta Government Agent, Palmer House Block, Toronto, Ont.

AMATEUR BASEBALL.

The Capital Baseball Club in the North-eastern League held their annual meeting in St. Paul, Minn., last night.

The following officers were elected: Hon. president, M. Morrison; hon. vice-president, Frank Johnson; patrons, C. W. Moxey, Frank Stollery, George Radcliffe, Ross Patterson, A. J. Horley; president, Thomas Hood; vice-president, Joe Verneil; secretary, Alfred Randall; treasurer, J. McCutcheon.

A. B. Morine's Former Private Secretary

Vindicates the Chairman of Public Service Commission

Continued From Page 1.

foundand treasury. Morine asked Howley that security the church could give for saying that "they could not be the church, the convicts, their orphanages and other property."

Morine replied that this was no security at all, that if it ever happened that the bank was not repaid, the government would be unable to sell or realize the security offered, as they could find no purchasers for their securities, and the government would be unable to sell or realize the security offered, as they could find no purchasers for their securities, and the government would be unable to sell or realize the security offered, as they could find no purchasers for their securities.

The apportionment of the crisis has prevented any sympathetic strike. Transport workers and railway men, instead of following the lead of the syndicalists are preparing a schedule of grievances to be submitted to the conciliation board, in which the chairman will be a genuine arbitrator, being armed with more decisive authority than a mere casting vote.

When the British were wondering whether Upon Special was right in declaring that they had found a tremendous weapon and was like a huge giant starting from sleep, there is now a general agreement, even among the trade union leaders, that the coal strike has been a far-seeing and well-considered move against the various bodies of workers and consumers.

Syndicalism, despite the success of the trade unionists in incorporating a minimum wage principle in an emergency, has been killed off as a practical policy for a working world. The government and opposition in Newfoundland concerning the question of policy in putting through the Reid contract in Canada are not concerned any more than we are concerned about the policy of the United States in acquiring foreign possessions.

These are matters concerning the politics and governments of other countries, and not Canada. It suffices to say that the enviable condition of Newfoundland, to-day is due to two things, first the tariff subsidies granted by Mr. Morine when finance minister, and the railway contract referred to placed on the statute book of Newfoundland by the Morine-Winter Government, as a result of which the colony has been put into almost daily contact with the rest of the world.

While up to that time conditions of transportation in Newfoundland were about the worst to be found anywhere, Howley managed to get a bill passed by the legislature at a subsequent general election in Newfoundland, and also a bill to aid him in his endeavor to injure Morine, and notably among this crowd was one man, named Jackman, a Roman Catholic.

The political results of the momentous struggle can only be dimly foreseen. The prime minister's chief source of weakness has been cabinet dissolution, for which Mr. Lloyd-George has been chiefly responsible. He has not been wanting that the chancellor of the exchequer was hoping for a government upset by which the Unionists could be brought into power permanently and hold responsible for the failure of the repeal of the insurance act.

Howley managed to get a bill passed by the legislature at a subsequent general election in Newfoundland, and also a bill to aid him in his endeavor to injure Morine, and notably among this crowd was one man, named Jackman, a Roman Catholic.

Woman's Realm--the Household, Fashions and Society

SOLELY

This being holy week the regular monthly reception at government house will not be held until Thursday, April 11.

Owing to a change of plans their Royal Highnesses the Duke and Duchess of Cornwall will not occupy government house in Toronto during their visit in May, but will be in residence at Benvenuto, Sir William Mackenzie's house.

The marriage takes place to-day in Ottawa of Miss Alice Morton, daughter of the Hon. A. R. Morton, to Mr. Ralph C. Macdonald, Toronto.

Hon. William Beresford has arrived in New York to join his wife, Kitty Gordon.

Miss Florence Smith has left for a visit to St. Louis.

A few of those at the Princess Theatre on Saturday afternoon were: Miss Carell, Miss Sarah Lansing, Miss Winifred Tait, Miss Cottles of Ottawa, Mr. Jack Langmuir, Miss Donahue, Miss Leam Cuddy, Mr. Alan Taylor, Miss McFarland, Mrs. Percy Rutherford, Mr. Gen. Moss, Mr. Paton, Miss Lillian Miles, Mr. Howitt Smith, Miss Mary Walton.

The marriage of Miss Tiny Dickson, daughter of Captain Mrs. Edson, to Mr. Edward J. Swift, son of Mr. and Mrs. Joseph Swift of Kingston, will take place on Saturday, April 27.

Miss Florence Smith has left for a visit to St. Louis.

A few of those at the Princess Theatre on Saturday afternoon were: Miss Carell, Miss Sarah Lansing, Miss Winifred Tait, Miss Cottles of Ottawa, Mr. Jack Langmuir, Miss Donahue, Miss Leam Cuddy, Mr. Alan Taylor, Miss McFarland, Mrs. Percy Rutherford, Mr. Gen. Moss, Mr. Paton, Miss Lillian Miles, Mr. Howitt Smith, Miss Mary Walton.

The Daily Hint From Paris

A Hand-made Dress.
This little dress, seen in a Fifth-avenue shop, was of navy blue pongee and was made with a separate skirt, like a sailor dress. The embroidered design was done in red and red silk is used to make the frills for the neck and sleeves. At each side of the front and back are bands of the blue, corded with the red, and a loose side girde of red velvet ribbon, held by red buttons, is used to finish the overblouse.

WOMEN'S CHOIR NEXT SEASON

Dr. Vogt Will Be in Europe, and Upon His Return Will Reorganize the Choir--Three-Year Arrangement Made With Conductor, Who Will Devote Whole Time to Work.

The annual meeting of the Mendelssohn Choir of Toronto was held at the National Club on Saturday evening, with the president, G. H. Parkes, in the chair. The reports of the various officers were read and testified to the continued progress of the society. Letters were also read by the secretary from the leading American musicians and others, expressing appreciation of the great work done for Toronto and for Canada by the appearance of the choir in such centres as New York and Boston, and creating an interest in and knowledge of this country hitherto unknown. The treasurer reported to the committee that the deficit on the out-of-town concerts was \$100, which was estimated before the trip was undertaken, notwithstanding that the chorus sang to capacity houses.

Dr. A. E. Vogt announced his intention of leaving Toronto about the end of April, in order to spend a year in England and on the continent. He proceeds directly from New York to Paris, where he attends the great international competition to be held in May under the auspices of the French Government, in which 150 of the best choirs of Europe will participate. It is his intention to spend some time hearing festivals in Holland, Belgium, Austria, France, Germany, Switzerland and Great Britain. In England he is arranging to be present at the Blackpool and Birmingham festivals in October next. The Mendelssohn Choir will therefore give no concert next season, but will be reorganized by Dr. Vogt on his return to Toronto in the spring of 1912. The committee being aware of the substantial inducements which have been made to Dr. Vogt to take up professional work in some of the large American cities, decided to enter into a permanent arrangement with him. It was accordingly proposed, and afterwards accepted by him, that a three-year engagement should be made with him as conductor of the society. From now on Dr. Vogt will practically devote his entire time and energies to the artistic development of the Mendelssohn Choir.

At the close of the meeting a meeting of the executive committee was held, and the following officers elected: President, Mr. G. H. Parkes; vice-presidents, Dr. Harold Clark, Mr. E. C. Kirby, secretary, Mr. E. A. Read; treasurer, Mr. H. Mason; committee, Messrs. F. H. Beatty, A. L. E. Davies, Robert Gorrie, C. J. Hasford, Donald Lindsay, F. R. Macdonald, F. L. Walker, Harold Sampson, J. R. S. Scott, Walter Spinks and Dr. T. A. Dayles.

All the Leap Year Babies

The World herewith presents the complete list of the parents of those babies to whom Leap Year Mugs have been forwarded. Altogether there were 125 mugs given out, an increase of 45 over the last leap year. The award was extremely successful and the lucky parents who received the mugs were much delighted with them. Any letters of acknowledgement received by The World testified to the appreciation with which all the mugs were received and to the interest the award has aroused throughout the province.

Persons in Ontario who received one of The World's Leap Year Birthday Mugs, awarded to babies born on February 29, 1912:

Mr. and Mrs. James Allan, jr., Chesertville, Ont., a daughter.
Mr. and Mrs. Robert Allison, Moffat, a daughter.
Mr. and Mrs. Grover C. Andrews, Bowmanville, a daughter.
Mr. and Mrs. George Anthony, 168 Capri-street, Toronto, a son.
Mr. and Mrs. Wm. J. Armstrong, 108 Preston-street, Ottawa, a daughter.
Mr. and Mrs. Charles Bell, 86 Palm-croft-avenue, Toronto, a daughter.

CEYLON TEA

It is the world's choicest tea, at its best--the finest hill-grown Ceylon--in sealed lead packets.

BLACK, GREEN or MIXED

Hambourg Conservatory of Music

Pupils' Recital

I do not quite understand why the directors of the concert given in the Margaret Eaton Hall last Saturday, supplied the audience with attractive programs and then turned out the lights in the auditorium. I believe I had not previously heard more than half a dozen of the musical items which were given, and it would have been helpful as it would have been interesting to have obtained some idea as to who wrote what. If the management had their programs printed in luminous ink, the "dim religious light" is appropriate for the enjoyment of music, but black darkness is not, and if only because it makes it impossible to get the information one desires from the program, it is a serious and unnecessary inconvenience. The program was, however, very enjoyable. Little too long, but of great musical interest and intelligently rendered by all the students. Mr. George Boyce is a pianist with good technique, and he put some expression into his playing of Schutt's "Carnaval Mignon, Op. 48." Miss Hazel Byram and Mr. Emanuel Rochereau played three movements, the work of Benjamin Godard, as violin duets, perhaps rather too carefully--a trifle too precisely. Both, of course, but one fancied they would get more artistic results by a trifle more of variation of light and shade, both as to volume of sound and tempo. Miss Ada Best sang Schubert's "Wie ich Sylvia" and "Come to the Garden, Love," by Miss Mary Slatyer, gracefully and correctly, but seemed, herself, to lack enthusiasm. Miss Evelyn Chelwe, Miss Ella Daniels and Miss Grace Walker played piano-forte solos commendably, and Mr. Douglas Crowe pleased with a musically rendering of an Andante and Allegro Moderato by Paul Essek. Miss Mary Slatyer sang in Italian and French successfully--but again one felt that the singer suffered from her own lack of interest in her work. It is possible that this may come with the selection of solos, the lyrics of which are in a tongue with which the singer is not sufficiently familiar. Eschewen's trio, Largo, Op. No. 2, was very well played by Miss Eva Galloway, Mr. Brodus Farmer and Mr. Joseph Sheard. Mr. Arthur Windsor, Miss Madge Williamson, Miss Dagmar Prints and Mr. Lloyd Carpenter played piano solos, all showing careful preparation, but with varying sense of expression, and there were four or five items still to be given when this writer left. The program, notwithstanding its general excellence, was too long. To present thirty-five fairly lengthy items, exclusive of vocal encores, is trying to get too much music into one evening.

Following executive committee were elected: Mr. Beverley Holmes, Mrs. A. Peplar, Miss Marjorie Edgar, Miss Helen Warren, Miss Frances Thompson, Miss Campbell, Miss E. Owen. Owing to the absence of Miss B. Ogden in Montreal, the officers will not be elected until next week.

Receptions.
Mrs. and Miss Armstrong, 77 Beatty-ave., not again this season. Mrs. J. J. Kerr, 12 Dundas-ave., Deer Park, not to-day nor again. Mrs. J. F. Adams and her daughter, Mrs. Shorney, 302 Huron-st., Tuesday, and not again. Mrs. Wm. Dusen, 14 Evelyn-ave., not on Tuesday nor again. Mrs. Selby D. Ferry, 171 Evelyn-ave., not Tuesday, nor again. Owing to illness, Mrs. Kelsey, 227 St. John's-road, and Mrs. Kelcher not Tuesday.

Was Taken Heavily Loaded With Silver

Finlander, Who Had Worked in Nipissing Mines, Deported From United States.

NIAGARA FALLS, N.Y., March 31--(Special).--A novel attempt at smuggling was detected by American immigration officials yesterday when Kalla Mitila, a Finlander, was taken from the Grand Trunk train at the north end station. In a belt about his waist he had twenty pounds of almost pure silver.

The discovery was made during an investigation to learn if the foreigner had any concealed weapons about him. The American officials will not prosecute him for smuggling as silver bullion is not dutiable when entered thru the written consent of the owner of the mine from which it is obtained, but the fact that he did not make the entry of silver allows for its seizure.

He was deported in care of the district police, the silver being confiscated, and will be sold at the next public auction of the customs department.

Mitila declared he bought the ore in Toronto for \$50. He had been employed in the Nipissing Mines. He was bound for New York when apprehended.

HAT OR SUSPENDERS

Question is Agitating Minds of Men in Marine Circles

"Will it be a hat or a pair of suspenders this spring?" That is the question agitating the waters in harbor circles and by its telepathic influence upheaving the 30-inch ice in the bay.

According to one of the inner circle lake navigators the captain who won the hat for the first arrival a few seasons ago went to a designatedemporium, but instead of purchasing a silk topper for his Easter lid--it was a late Easter and early spring--he with some Turin for the fall season bought a silk fur cap.

After that it is said the winner got an order on a hat store with a certain stipulated amount. When he saw the limit and victorious navigator is reported to have had the order filled at the gent's furnishings counter with a pair of suspenders.

Last year the hat went to Hamilton thru the first comer, a Toronto man, arriving without a cargo.

CUTTING TEETH CAUSES DEATH.

BOSTON, March 30.--The cutting of her third set of teeth was responsible for the death of Mrs. Margaret Newman, 40 years of age, of Chelsea yesterday. Less than a week ago she was taken with severe pains in the jaws and face. An examination by a doctor revealed the fact that several back-teeth were cutting their way thru the gums.

DISAGREE IN SUGAR CASE

Jury Unable to Reach Verdict after Thirteen Hours of Deliberation.

NEW YORK, March 31--(Can. Press).--The jury in the case of John E. Parsons, Washington E. Thomas, George H. Fraser and Arthur Don-ner, charged with violating the criminal clause of the Sherman anti-trust law while directors of the American Sugar Refining Company, reported a disagreement in the United States district court shortly before 1:30 o'clock this morning. The defendants were charged with conspiracy in restraint of trade in closing the Pennsylvania Sugar Refining Com-pany plant.

The jurors were out from noon yesterday. It was reported that they stood eight to four for acquittal, but one juror, who said he favored acquittal, stated that he was in the minority.

Death of Archie Todd.

WALKERTON, March 30.--Archie Todd, one of Brant's earliest settlers died this morning after several weeks' illness. He was one of the best known Orangemen in Western Ontario, having been county master for some time. He was also prominent in A. O. U. W. and Forester circles.

The Nursery

Some Habits.

Haven't you often seen other people's children "act up" or show off or do things you disapproved of, and you said within yourself: "Well, never let our baby act that way." Well, are you? Perhaps the child you saw was two or three years old, but the particular action you observed did not originate that day. That baby started to find out how far he could have his own way when he was six months old. He reached out for things and in his baby way asked for them. If he was refused he was probably cross and disap-pointed, and didn't hesitate to show it. Rather than hear him cry or have a fuss, his mother gave in, and baby scores his first point. He isn't slow to take advantage of this giving-in prop-ensity on the part of his fond parent, and soon learns how to get his own way in everything. When he is a year or a little older, he kicks and screams until there is no peace unless he is humored.

When mother was a guest in our home last summer, her baby was a beautiful little girl, fifteen months old. She was just learning to walk, and had to be taken by the hand and help-ful sound from room to room. I am sure that mother walked around for hours every day. She was far more tired than her daughter, and would say, "Baby dear, play alone, mother's tired." But baby dear didn't care a snap so she was enjoying herself.

WEST YORK COUNTY
Conservative Association

Attempts to Vindicate Action of
Mimico Superintendent

West York Conserva-
tives Had Big Crowd.

WESTON, March 31.—(Special).—The
annual convention of the West York Liberal-
Conservative Association was slightly dis-

rupted at Weston on Saturday afternoon,
when ex-Ald. W. A. Baird, the retiring
member of the legislature of the

province, addressed the assembly in
defence of the superintendent of the
Mimico industrial school. He thought

that the superintendent's action was
justified, and that the superintendent
should not be held responsible for the

action of the superintendent. He thought
that the superintendent's action was
justified, and that the superintendent

should not be held responsible for the
action of the superintendent. He thought
that the superintendent's action was

justified, and that the superintendent
should not be held responsible for the
action of the superintendent. He thought

that the superintendent's action was
justified, and that the superintendent
should not be held responsible for the

action of the superintendent. He thought
that the superintendent's action was
justified, and that the superintendent

should not be held responsible for the
action of the superintendent. He thought
that the superintendent's action was

justified, and that the superintendent
should not be held responsible for the
action of the superintendent. He thought

that the superintendent's action was
justified, and that the superintendent
should not be held responsible for the

action of the superintendent. He thought
that the superintendent's action was
justified, and that the superintendent

should not be held responsible for the
action of the superintendent. He thought
that the superintendent's action was

justified, and that the superintendent
should not be held responsible for the
action of the superintendent. He thought

that the superintendent's action was
justified, and that the superintendent
should not be held responsible for the

action of the superintendent. He thought
that the superintendent's action was
justified, and that the superintendent

should not be held responsible for the
action of the superintendent. He thought
that the superintendent's action was

justified, and that the superintendent

Many Important Questions
Before City Council To-Day

Appointment of Traffic Experts, Humber Valley
Scheme, York Radial Franchise and Many
Other Subjects Must Be Settled.

Among the matters to be dealt with
by the city council at their meeting to-
day is the question of engaging the

services of traffic experts, Lord Bacon &
Davie, to submit a report upon the local
traffic situation. This firm was ap-

pointed by the city and has offered to
compile statistics and secure data and
miscellaneous information with a view

to solving the city's transportation
problems. Their report would contain
suggestions regarding a general traffic

system for the city and suburbs. At the
last meeting of the council the matter
was brought up and was referred

back to the board of control for further
information. To-day it will come up in
the council's report, and the controller

will urge the council to pass the matter,
not only to obtain the information in-
cluded in the report, but to secure data

and statistics which will be of service
when appropriations are made to the
Railway Board.

Humber Valley Scheme.
R. Home Smith's Humber Valley park
and boulevard scheme is another im-

portant matter to be discussed to-day.
For certain concessions a minimum of
four acres of land is required, and the

purpose is to grant 105 acres of park
lands to the city. This offer, however,
has been standing for some time, and

the city council has been notified that
either the agreement must be accepted
today or the offer will be withdrawn.

The York Radial.
The proposal to apply for legislation
to appropriate that portion of the York

time, explained that he had no partic-
ular objection to the passage of the
bill on its merits, and, as in the general

public interest, the need of betterments
on the line of the Grand Trunk being
unquestionable.

Referring to a statement by Mr.
Wainwright that the company was not
in as good a position to pay better

wages as was the Canadian Pacific, be-
cause the Grand Trunk had not re-
ceived the land grants made to the

other company, Mr. Clarke said that
other municipalities in his district were still
smarting under the taxation resulting

from the sale of the land to the building
of the Grand Trunk Railway.
Mr. Morphy (North Perth) said that

never again would a dollar be given
to the Grand Trunk unless it treated its
men fairly.

Graham John Chorus.
Hon. Geo. P. Graham, ex-minister of
railways, told of his troubles with the

Grand Trunk, and condemned the man-
agement for its treatment of the men in
the matter of the strike. He said that

he had not hesitated to tell the Grand
Trunk that he was in con-
ference with them that he was in con-

ference with them that he was in con-
ference with them that he was in con-
ference with them that he was in con-

ference with them that he was in con-
ference with them that he was in con-
ference with them that he was in con-

ference with them that he was in con-

Real Estate and Building--News and Opportunities

MAY ENLARGE YARDS AT DON

Canadian Northern May Use Burned Car Barns and Street Railway Go to Beach.

There is a possibility, according to a man who should know, that the street railway company will not rebuild the barns burned down on East King-street, but will put up a structure down at the end of the King-street line somewhere--may be in the vacant place north of Scarborough Beach Park. This is in line with their policy of having the car sheds at the end, or rather, the beginning of runs.

The story goes that the burned over area belonging to the street railway, which is considerable, will be turned over to the Canadian Northern Railway for yards. The C. N. R. have already a big yard south of Eastern-avenue, but they need more accommodation.

Late last fall a great amount of property south of King-street, east of Sumach-street, and extending south to the C. N. R. yards, was purchased, but how much turned over and how much could not be learned. Railway officials denied any knowledge of the purchases and the occupants, practically all tenants, were never bidden to get out. All these purchases may have been made with the idea of yard extension in view, and possibly the C. N. R. downtown freight shed may go up there. Nothing, however, in any way definite can be gleaned regarding such a move.

R. J. Fleming, who the phone last night, when asked if the street railway intended to build down at the Beach and turn over the burned over part to the C. N. R., said they were not even considering the thing, and did not yet know what they would do about car barns.

Wants To Buy As Much Land As He Likes
The assessment commissioner to-day will ask the city council for authority to go ahead and acquire as much land as he likes in the vicinity of the proposed Coxwell-avenue subway. Portions of this land he will use for approaches and the balance will be sold.

PAID \$5000 AN ACRE
Five thousand dollars an acre was paid Saturday for what is thought to be the last piece of land needed in the big buy at Leaside. This price, which is the high-water figure of the big deal, was paid for five acres belonging to John Johnston. It is situated on Sandan-avenue, a little south of midway of the properties bought.

Bank Has Bought Out St. Charles
The Dominion Bank have bought James J. O'Neill's property at the northwest corner of Yonge and Colborne-sts. Mr. O'Neill said so last night. It appears that he had thirty days to get out of the bank, and when he did not buy, the bank turned around and bought him. The deal, while virtually closed, will not be officially consummated until the end of the week.

It will be some time yet before a new site is found for the St. Charles. Mr. O'Neill is allowed plenty of time to remove.

G.T.R. TO GO OVER COLBORNE

Rumored They Will Build on General Trusts' Former Corner and Canadian Express Office.

"We were offered that corner about two months ago, but we turned it down. No, we have no deal on for it now, nor for any other property," so said G. A. Somerville, general manager of the Manufacturers' Life, regarding a report that his company had purchased the old building of the Toronto General Trusts Company, at Yonge and Colborne-sts., which they vacate at the end of this week.

A. D. Langmuir, assistant manager of the trust company, also denied that they had sold to the Manufacturers' Life, and gave The World to understand that there were no negotiations proceeding for it at the present time.

It has always been quietly maintained by the wise men of the street that the Grand Trunk would secure this Yonge and Colborne corner, if they have not already done so. It adjoins the Canadian Express Company, which has a rather intimate connection with the Grand Trunk Railway. Another feature of the General Trusts property is that it is "L" shaped, and runs right along the rear of the Express building. This property is worth about \$300,000.

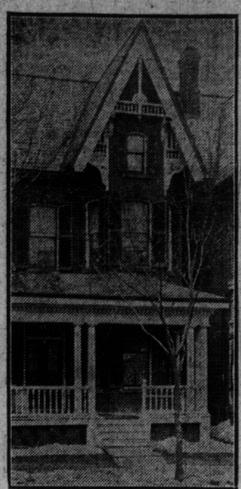

The two pieces together would make a pretty good site for a big railway building, but it would have to be a big one to escape being hidden by the skyscrapers in the King and Yonge patch.

Apartment Bldg Comes Before Council
To-day there will be submitted to the city council a bylaw tending to heighten the general desirability in this city of apartment houses. It follows below. When the bylaw was first suggested to the board of control it was objected to because of the protection of private dwellings and hotels.

The bylaw arises from the weekly visits of delegations protesting against apartment buildings erecting their buildings right up to the street line even in the finest residential districts and thereby injuring the appearance of a street that was primarily intended for privately owned dwellings.

Every dwelling house or other erection to be occupied as a dwelling house, shall be so located and erected on the respective premises as to provide for and preserve a yard area of not less than 50 square feet for each, and every suite of apartments or dwellings situated on any floor of the building containing the greatest number of suites or dwellings, and said yard area to be free from all construction from ground to sky, and be situated so that each and every suite of apartments or dwellings shall be adjacent to the said yard area, which is to be exclusive of any space proposed to be used as a side entrance or any portion of the lot or premises between the extreme front of such erection and the street front, but no part of the said yard area shall be less than ten per cent of the area of the said lot. Dwellings and apartments having frontages on two streets may be excluded from the above restrictions. Buildings on business streets may cover the entire area of a lot for such of the erections, beginning with a lower, as are used for business purposes only."

Bank Has Bought Out St. Charles
The Dominion Bank have bought James J. O'Neill's property at the northwest corner of Yonge and Colborne-sts. Mr. O'Neill said so last night. It appears that he had thirty days to get out of the bank, and when he did not buy, the bank turned around and bought him. The deal, while virtually closed, will not be officially consummated until the end of the week.

O. P. ALVER'S Nerve Tonic--Pure herb, medicinal, cure for Nervous Headache, Distress, Neuritis; builds up the nerves and blood. Office 126 Bay-street, Toronto. ed7

Porcupine Stocks Improve at Week-end --- Trading Restricted

FAVORABLY AFFECTED

Inauguration of Stamp Mill Era Bullish Factor in Market --- Mining Stocks Develop More Buoyant Undertone.

World Office, Saturday Evening, March 30. Sentiment in the mining exchanges to-day was favorably affected by the general feeling that the Porcupine situation would be materially bettered by the visit of so many influential capitalists to the camp at the week-end. It was felt that the big interests could not fail but to express their approval of the many properties, and particularly the Dome mine, and that the very inauguration of the production stage in Porcupine's history would, itself, inspire a more responsible confidence than had hitherto been in evidence.

It was also pointed out that there were present at the celebration in South Porcupine representatives of the press from all over Canada and the United States, and that the favorable impression which the newspapers would receive, and which they would in their turn communicate thru the columns of their various papers, would turn the tide of favor into channels, which should make for a renewed public interest.

Market on Up Grade. In this idea, and in the feeling that a revived public interest could not but benefit the market, sentiment in the mining exchanges to-day adopted a more optimistic frame of mind than it has in some little time. The trend to prices brightened considerably, especially by the fact that so many brokers were in the camp, and that business was in consequence materially restricted, held the buoyancy in check.

The features of the list were Dome Extension and Crown Chartered, which absorbed the bulk of speculative attention, and both of which scored sharp advances. The former issue sold up over a point to 50 1/2, thus duplicating the previous high record for this month, but failed to hold all of its gain. The close was, however, at a sharp advance for the day.

Crown Chartered rose an additional point, moving up a full three points to 28 on the incoming of a big demand, presumably from the short interest, which is understood to be a bulky one. The improved feeling in respect to these shares was plainly manifested by the fact that after the close of the market the stock was being actively bought, selling as high as 29 cents on the street.

Small Advances the Rule. The general list while inactive, followed the example of the leaders, and generally scored small advances. Hollinger closed at a gain of 10 points for the day.

The market throat showed a responsible undertone, and gave a better account of itself than in some days. Sentiment was generally favorable, and on that account a continuation of the upward swing is to be anticipated.

PRICE OF SILVER.

Bar silver in New York, 50c. on. Bar silver in London, 25 1/2-26c. on. Mexican dollars, 47c.

Closing Quotations.

Whitney Township Will Expend \$20,000—Board of Trade Better Conditions.

Whitney Township, March 30.—(From Our Man Up North.)—A sufficient number of members have been secured as a temporary organization for a board of trade to be organized in the township at once for the incorporation of the "Porcupine Board of Trade." Physical and financial conditions of the township are known to be such that the board members are representative citizens of that portion of the camp. Altho Golden City comprises the government town site portion of the settlements, the real name of the post-office is not Golden City, but Porcupine, a mistake frequently made by those on the outside in addressing mail to "Golden City." The Pottsville site was originally known as Porcupine City.

The new board expects to inaugurate an era of "big doings" this summer. Reeve Gauthier of Whitney returned this week from Toronto, where he arranged for the negotiation of a \$20,000 loan. This money will be spent in building roads and placing sidewalks in Whitney Township. S. Alfred Jones, K.C., is chairman of the board.

Active Work Planned At Gold Crest Lots

Porcupine, March 30.—(From Our Man Up North.)—Robert Clark of Buffalo, former owner of the Clark claims in Northern Whitney, now turned over to the Gold Crest Mining Co., is in the camp. Mr. Clark will be in charge of the field work on the property.

The Gold Crest had an extraordinary showing in schist and quartz under north the four feet of sand on the main section that comes into the lots from the southwest, the direction in which the Scotch-Ontario and the Mulholland properties lie.

Two quartz domes of fairly good porphyry in each claim have been located thru recent surface developments. Assays of from \$3 to \$5 on an average have been secured from the surface. At the bottom of the 45-foot shaft an average assay of \$14 was returned across the five feet of quartz.

A boiler compressor for five drills, a hoist for 600 feet, pumps, and camp electric lighting plant are being taken into the property. The Trinity-Cobalt court was purchased. The interested holders are New York men.

WINNIPEG COMPANY WILL BRANCH OUT

Concern in Which Sir William Mackenzie is Interested Plans to Enlarge.

WINNIPEG, March 30.—(Special.)—It is understood here that the Stanley Mineral Springs Company, Limited, with which the Mackenzie-Mann interests are identified, has been or will be soon, taken over by the Stanley Mineral Springs and Brewing Company, Limited, which will greatly enlarge the present plant, as well as broaden the market for the product. It is believed from the change in name that the new company will put on the market a new brand of beer and manufacture also ales and porter.

The Carter Halls Adjoining Company has received a contract for the construction of a large addition to the present plant, which is located on property acquired from the Canadian Northern Railway Company. The new buildings and additional machinery will cost in the neighborhood of half a million dollars.

The Stanley Mineral Springs Company has been remarkably successful in fact, so great has been the demand for its products that it has been impossible with the present equipment to fill more than half the orders. This is the company in which H. Sutherland, land has been largely interested, and it is understood that Sir William Mackenzie is also a large shareholder.

Joseph Chartrand, insane prisoner in Kingston "Pen" Found Hiding in Building.

Late Saturday afternoon and the staff of the prison were breathing easier. Large numbers of ticket holders had to be refused admittance to Convocation Hall yesterday morning owing to the widespread desire to hear Dr. Wilfrid Grenfell. The entry comers were not rigidly required all to produce tickets, as they are given out gratuitously and are in the nature of an invitation. Great disappointment was expressed by some representative citizens who had to be refused admittance.

At 11 o'clock a crowd at the front and one at the east side clamored in vain for admittance, while a procession of those turned away reached down to College street.

Dr. Grenfell asked whether human life was worth while. Being a surgeon himself he believed it was of the most supreme value or he would be foolish in spending his time in trying to save it. He visited the General Hospital on Saturday and saw patients there who were succumbing to disease. Some might say that God was not kind in permitting such suffering, but he personally was an optimist, and that was why he was in medical mission work. Human knowledge had become ingrained that which God Himself could only reveal. After 25 years in the medical profession he had become increasingly convinced that human life was the forerunner of life eternal. It was as reasonable for men and women to believe that faith in a future life was divinely implanted in the human breast, as it was to recognize that a power beyond themselves gave and seals the instinct which unfailingly taught them how to go direct route in the spring time, a migration which he had seen for 20 years, without one ever getting out of its course.

A Divine Purpose. The supreme gifts of consciousness, capabilities and opportunities were given to humanity for a divine purpose. It was a mistaken view of life that caused an ice jam to form in the upper river with the result that the American Falls are nearly dry to-night. No very serious damage is anticipated, as the wind went down considerably tonight.

At the twelfth annual meeting of the Ontario Library Association to be held at the Toronto Public Library, Easter Monday and Tuesday, April 8 and 9, "The Work of the Librarian" will be dealt with by Miss B. Mabel Dunham, Berlin; Mr. W. O. Carson, London; Miss J. S. Reid, Chatham; Miss H. Young, University of Toronto; Miss Annie T. O'Meara, London; Dr. G. E. Locke, Miss Poole, Miss Barry, Toronto; Public Library, and Miss L. E. Stearns, Free Library Commission, Madison, Wis. Public library librarians to this library meeting. It is too good to miss.

Term Too Long. MONTREAL, March 30.—"No such term should ever have been given," said Mr. Justice Levesque in making the three-year sentence imposed on Louis Rosenberg, a young boy, for stealing three newspapers valued at six cents.

Sao Paulo at New Record Price --- New York Market Quiet

WALL ST. DRIFTS BACK INTO EXTREME APATHY

Reading Provided the Only Feature in Week-End Session - General List Barely Moved - Market Awaiting Outcome of Labor Difficulties.

NEW YORK, March 30.—Interest in today's two hour session on the stock exchange centered largely around one stock—Reading—which rose suddenly on the report of another conference eleven days hence between the anthracite coal owners and the miners.

Current Gossip of the Street

The month of March just closed has been one of the quietest witnessed in a long time in the Toronto stock market. Public speculation has dwindled away considerably from the vivacious action manifested earlier in the year.

SAO PAULO'S RECORD

Traders with a fancy for the unusual may find ground for reflection in the fact that on the last day of February Sao Paulo sold up to a new record price level.

MONTH-END MONEY

There was no perceptible stiffening in money rates in Toronto at the month-end, and the small amount of marginal trading in the stock exchange having effectively precluded any activity in the call money market.

TRUSTS AND MORE TRUSTS

The public has become accustomed to learn that the trust business is the suit under the Sherman Act against many of the large corporations across the border.

BANK CLEARINGS ACROSS THE BORDER

Bank clearings again make a most gratifying comparison with both preceding years, and in the week ending March 27, 1915, the total amount of clearing was \$1,271,947.

THE COAL STRIKE

The settlement of the British coal strike and the agreement with the soft coal miners in the United States, together with the probability that no strike will be voted by the Anaconda miners, should clear up the international labor situation to considerable extent.

REQUISCAT IN PACE

Two of the Northern Ontario Mining Companies, which have been much beset by the public eye in recent years, the Boyd Gordon and the Dr. Reddick, and which have made a valiant fight against financial exigencies, have voluntarily thrown up the sponge, and will pass out of existence this week.

IMPERIAL BANK OF CANADA DIVIDEND NO. 87

Notice is hereby given that a dividend at the rate of twelve per cent. (12 per cent.) per annum upon the Paid-up Capital Stock of this institution has been declared for the three months ending 30th April, 1915, and that the same will be payable at the Head Office and Branches on and after Wednesday, the first day of May next.

THE STOCK MARKETS

Table with columns for Toronto Stocks and New York Stocks, listing various companies and their prices.

ERICKSON PERKINS & CO. 11 West King Street, report the following fluctuations on the New York Stock Exchange:

Table listing various stocks and their prices, including Am. Asbestos, B. C. Packers, Bell Telephone, etc.

STANDARD OIL AT \$6300

Information from good sources indicates to the effect that the Standard Oil Co. of Indiana will pay dividends at the rate of 30 per cent. a year on the increased capitalization of \$20,000,000.

RAILROAD EARNINGS SHOWING UP BETTER

Railroad earnings continue to make quite a satisfactory comparison with a year ago, the total of all United States roads reporting to date for the first three weeks of March, as compiled by Dun's Review, aggregating \$2,800,000, or an increase of 5.2 per cent. as compared with the earnings of the same roads for the corresponding period last year.

MONTREAL STOCK MARKET

MONTREAL, March 30.—Montreal Power was again the leading issue in the trading here on Saturday, and in the early part of the session aggressive buying sent the price up to a new record of 39 1/2.

BRITISH CONSOLS

Table listing British Consols and their prices, including 2 1/2, 3, 3 1/2, etc.

MONTH OF MARCH CLOSED IN BLAZE OF GLORY

But Sao Paulo Provided All the Fireworks in Toronto Market. —Revival of Rumors.

World Office, Saturday, March 30.—The Toronto Stock Exchange wound up the month of March in splendid style, the market to-day showing more real vitality than has been witnessed in some weeks.

Sao Paulo sold at the highest price it has ever attained, a continuation of yesterday's responsible buying carrying the shares up nearly a point over yesterday to 106 1/4.

Melton Cutting Probable. The movement in Sao Paulo at the present time is only to be explained on the assumption that it is a revival of the recent upward turn.

Navigation Merger Nears Completion

MONTREAL, March 30.—Representatives of the Mc Richelieu and Ontario Navigation merger deal, under the chairmanship of Sir Rodolphe Forget, M.P., were in session here to-day completing details in the merger scheme.

London Market Showed Quiet Tone

LONDON, March 30.—Money was in good demand today but discount rates were easy. The attendance was light and only a small amount of business was done on the stock exchange.

ON WALL STREET

Erickson Perkins & Co. had the following: It was largely a one-stock market to-day, with Reading the star.

COTTON MARKETS

LIVERPOOL, March 30.—Cotton—Futures closed quiet; March, 5.85; April, 5.85; May, 5.85; June, 5.85; July, 5.85; August, 5.85; Sept., 5.85; Oct., 5.85; Nov., 5.85; Dec., 5.85.

THE BANK STATEMENT

NEW YORK, March 30.—The statement of clearing house banks for the week shows that the banks held \$5,000,000 reserve in excess of legal requirements.

FOREIGN EXCHANGE

Glazebrook and Cronyn, James Building (Tel. Main 781), to-day report exchange rates as follows:

SPANISH WAR VETERAN A SUICIDE

HOLLAND LANDING, March 31.—William Sloan, aged 45, committed suicide about 10 o'clock last night in the English Church Cemetery here, by taking prussic acid.
