

Here's One For You

Last week we had a gentleman in looking at our Brown Suits. He had just come from his tailor, who had made him a suit and it did not fit him. Nor could he (the tailor) alter it to fit. He was so well pleased with our showing and the excellent fit of our garments, that he made up his mind to go and get his deposit money back from his tailor and come to us for one of our \$25.00 New Shadow Check Browns. True to his word, he came in yesterday and bought the suit of his choice, and both himself and his wife were the most pleased couple we have seen for some time. We never publish anything but absolute facts, and to any doubting person we will cheerfully give the name and address of this gentleman, who simply proved for himself that "Sovereign Brand" clothes have the average custom tailor down and out when it comes to fit, finish and price.

"COME ON IN" We can give you many other names of just such cases.

LONDON OLD BOYS.

Great Celebration Planned in Forest City.

LONDON, June 26.—(Special.)—The old boys' reunion Aug. 2 to 8 will be a continuous round of entertainment and amusement.

Thousands of dollars are being spent to put on the Mardi Gras in a manner second only to the famous entertainments given in New Orleans. There will be the gorgeous spectacle of the coronation of the queen of the carnival, rivaling in magnificence the coronation of royalty attended by the knights in full regalia of their orders and the ladies in jewel-bedecked gowns. This ceremony will be succeeded by a procession of elaborately decorated floats, representing in their glory, pomp and resplendency all the nations of the world—old boys, veteran firemen, society turnouts, automobiles, and London's famous horses. It is expected that the pageant will be miles in length.

Smallpox in Kent. CHATHAM, June 26.—(Special.)—A slight outbreak of smallpox has occurred in Harwich Township a few miles from the town of Elmhelm. A number of families have been affected for some time, and the fact has at last been drawn to the attention of the authorities.

COMPROMISE REACHED WITH STREET RAILWAY

Will Supply Equal Number Single and Double Truck Cars—A Marriage Denied.

HAMILTON, June 26.—(Special.)—The conference committee to-night fixed up a new street railway deal which will be submitted to the city council next Monday, and, if approved by council, it will be submitted to the ratepayers on July 27. The agreement from the standpoint of the city is not nearly as good as the company promised when negotiations were started. Then the company promised fifty double-truck cars of the most modern type. Later it would give only sixteen double-truck cars, the remainder to be single trucks. A compromise was reached to-night, under which the company supplies twenty-five double-truck and twenty-five single truck, and which are to be supplied as follows: Ten double-truck cars by May 24, 1908; five double and five single-truck, in 1910; two double and eight single-truck cars in the next year, and two double and three single-truck cars in each of the next four succeeding years. After the third year the company has the right to appeal to the city council against supplying double-truck cars. The company promised to have the new system on the Barton and East King-street route finished by May 24 next. A clause providing a penalty in case the company does not carry out its bargain will be drawn up. The alderman wanted cars with seats arranged crosswise, but Manager Hawkins insisted upon seats placed lengthwise. "We want cars we can turn the horse into," he said. A double track will be completed on Ferris-street, from James to Wellington-streets, by Nov. 1, 1908. Ald. Jutes thought the company should operate cars on Sunday mornings before 10 o'clock, and after 10 o'clock at night and after 1 o'clock week days.

The Hamilton Students this afternoon dropped another game, being defeated by St. Thomas by 5 to 5. Scores by innings: R.E.S. 0 1 0 0 2 1 0—9 4 Hamilton 0 0 0 0 2 0 0—11 Batteries—Stirling and Marcin; Muir and O'Mara. Billy Carroll has advanced the \$600 necessary to secure the release of the race horses, Advance Boy, Dorothy Webb and Little Minnie. Fred J. Darsch, chief clerk of the High Court of Ontario, paid an official visit this evening to Court Oronohyeta, I.O.F.

Day's Doings in Suburbs.

NORTH TORONTO, June 26.—(Special.)—One of the most delightful events in the history of the town was the annual lawn social and concert held on the beautiful grounds of William Maguire here to-night. The weather was all that could be desired, while the attendance was such as to bring joy to the hearts of the finance committee, fully 400 sharing in the good things so generously provided by the ladies in charge. The grounds were illuminated with Chinese lanterns, and following the luncheon, in which strawberries and "real" cream formed no small share, an excellent concert was given. Mayor Fisher, as ever, was an ideal chairman, and the evening was largely instrumental in the delightful function, were Mrs. Kyles, Mrs. Wells, Mrs. Parkes, Mrs. Campbell, Mrs. Bialle, Mrs. Tomlinson, Miss Brydson, and Miss Maguire.

NO. 939 A BY-LAW

To provide for the issue of debentures to the amount of \$200,000 to make up deficits which have been occasioned by the sale of debentures of the Corporation of the Township of North Toronto, below par.

Whereas certain debentures of the Township of North Toronto have been sold at less than their par value.

And whereas, pursuant to the provisions of Section 1 of Chapter 92 of the Statutes in force in the Province of Ontario, the said Corporation is, with the assent of the electors qualified to vote on money bylaws, authorized to pass a by-law to borrow on the credit of the said Corporation an amount not exceeding \$200,000, to be applied towards making up the deficits hereof occasioned by the sale of debentures of the said Corporation, and hereinafter specified:

And whereas, in order to carry out the purposes of the said by-law, it will be necessary to issue debentures of the Township of North Toronto for the sum of \$200,000, as hereinafter provided (which is the amount of the debt intended to be created by this bylaw, three-fourths the proceeds of the sale of the debentures to be applied to the said purpose, and no other; and whereas the total amount required by the Municipal Act, 1903, to be raised by special rate for paying said debt and interest, is the sum of \$260,000, for ten years, during the currency of the said debentures:

And whereas the total amount of the whole rateable property of the said Township of North Toronto, according to the last revised Assessment Roll thereof, is the sum of \$1,415,245.00.

And whereas the amount of the existing debenture debt of the said Township of North Toronto is the sum of \$119,083.40, of which no part is in arrear for principal or interest:

Now, therefore, the Municipal Council of the Corporation of the Township of North Toronto do hereby pass the following by-law, to be known as the By-law of the said Township of North Toronto, for the purpose of raising the sum of \$200,000 to be applied by the said Corporation towards making up the deficits hereof occasioned by the sale of debentures of the said Corporation, to-wit:

1. That it shall be lawful for the Mayor of the said Township of North Toronto, for the purposes aforesaid, to borrow money, to be repaid by the said Township of North Toronto, and to issue debentures of the said Corporation to the amount of \$200,000, in sums of not less than \$100 each, payable in annual instalments during ten years after issue, and to bear interest, secured by coupons attached to the said debentures, at the rate of five per cent. per annum, payable half-yearly; the instalments of principal in each year to be of such amount as that the amount payable for principal and interest in each year shall be equal, as nearly as may be, to what is payable for principal and interest during each of the other years of the said period, as shown in Schedule "A" hereto annexed.

2. That said debentures be made payable at the Eglington Branch of the Bank of Montreal, in the said Township of North Toronto, and shall bear interest at the rate of five per cent. per annum, payable half-yearly.

3. That the said by-law be lawful for the Mayor of the said Township of North Toronto, and he is hereby authorized and instructed to sign and issue the said debentures hereby authorized to be issued, and to cause the seal of the said Corporation to be affixed thereto, and to sign the coupons attached to said debentures, and to cause the said debentures, and the coupons thereon, to be signed by the Treasurer of the said Township of North Toronto.

4. That during ten years the currency of the debentures to be issued under the authority of this by-law, and at all other rates, there shall be raised, levied and collected annually by special rates on all the rateable property in the said Township of North Toronto, the sum of \$260,000 for the purpose of paying the amount due in each of the said years for principal and interest in respect of the said debt, as shown in Schedule "A" hereto annexed, and shall be annually levied in the Collector's Rolls for the Township of North Toronto for the next succeeding ten years, and shall be payable to and collected by him in the same way as other rates on said roll.

5. That the debentures to be issued hereunder shall contain a provision in the following words: "This debenture, or any interest thereon, shall not, after a certificate of ownership has been endorsed thereon by the Treasurer of the Township of North Toronto, be transferable, except by entry by the Treasurer or his deputy in the Debenture Register Book of the said Corporation of the Township of North Toronto."

6. That the debentures of the said Township of North Toronto shall be taken on this bylaw at the following times and places, that is to say: On Saturday, the twenty-fifth day of July, 1908, commencing at the hour of 9 o'clock in the forenoon, and continuing until 5 o'clock in the afternoon on the same day, at the following Deputy Returning Officers, and at the undermentioned places:—Polling Sub-Div. ATHLETIC NEWS AND GOSSIP

The Independent Harrier League of Montreal has notified all of its clubs that the Brockville Harrier Club road race on Dominion Day, being held under the sanction of the A.A.F.C., Independent Harrier League clubs will not be allowed to compete.

The Independent Harrier League were given to understand that Mr. Ward, who was the race was to be run as an absolutely independent race, in the same way as the Harrier road race of last year. Under these circumstances we would have allowed our runners to compete.

We have letters from the Brockville Harrier Club, stating that the race on Dominion Day would be run on absolutely independent lines, and that some of our clubs have had letters to that effect also.

Nothing official has ever been decided upon in connection with a distinguishing feature of some character to be worn by the Canadians at the Olympic games.

The Canadians did some light work at the Stadium yesterday morning. Owing to being unable to secure motors for the trip over the Marathon course was postponed till Saturday, when, on the return journey, the Marathoners will run half the course.

The S.O.E. will run the following open events at the exhibition grounds on July 1 under the sanction of the C.A.A.U.: 200 yards, 400 yards, 800 yards, 1 mile, 1 1/2 miles, 2 miles, 3 miles, 4 miles, 5 miles, 6 miles, 7 miles, 8 miles, 9 miles, 10 miles, 11 miles, 12 miles, 13 miles, 14 miles, 15 miles, 16 miles, 17 miles, 18 miles, 19 miles, 20 miles.

The Young Wellingtons are requested to meet at the corner of Queen and Spadina not later than 2 o'clock for their game with Belleville. Capt. J. Groves, Capt. J. Fisher, Johnston, Phillips, Fenwick, Hurley, Williams, McGowan, White.

Push a Cork in if you can't pull it out. We can't escape the 35 per cent. duty the States impose on Canadian ammunition.

San Brown Put Out of Game

Buffalo and Baltimore Win, also Providence, Who Go up Ahead of Toronto—The Results.

JERSEY CITY, N.Y., June 26.—(Special)—Jersey City bunched their hits in the fifth inning of to-day's game, defeating another victory from Mike San Brown, who bunched his hits in the extra amount of ginger and San Brown put out of game.

The Sketers were secured in the second test by a score of 5 to 3. The Sketers were secured in the second test by a score of 5 to 3. The Sketers were secured in the second test by a score of 5 to 3.

Leaflets Have Trouble With Umpire. There was an exciting ninth inning between the Toronto players and Umpire Murray, which originated when Catcher Brown refused to give his name to the umpire for an announcement, and later stood directly in front of the pitcher, refusing to move when ordered; two strikes were called on him, and when making an insulting remark was put out of the game, but not until he tried to strike the umpire, being restrained by Catcher Fitzgerald.

Nothing official has ever been decided upon in connection with a distinguishing feature of some character to be worn by the Canadians at the Olympic games.

Leaflets Have Trouble With Umpire. There was an exciting ninth inning between the Toronto players and Umpire Murray, which originated when Catcher Brown refused to give his name to the umpire for an announcement, and later stood directly in front of the pitcher, refusing to move when ordered; two strikes were called on him, and when making an insulting remark was put out of the game, but not until he tried to strike the umpire, being restrained by Catcher Fitzgerald.

EVERYTHING AGAINST THE EAST

The people who own property in Toronto east of Yonge-street take no interest apparently in the growth of the city to the east and to the northeast. The source of strength to the west side of Toronto, that is everything lying west of Yonge-street, is the enormous growth and development that is taking place to the west and especially to the northwest; and all this section of the city works its business down towards Yonge-street. The east side, however, is very largely restrained in its growth to the east by reason of a second transfer and a second street-car ticket at the Woodbine and all traffic that seeks the Kingston-road, and the Kingston-road is the only outlet that way that has uninterrupted communication with the city.

There being virtually but one customer—the government. Before resolving to install the instrument it was subjected to stringent practical tests, and its selection has since been amply confirmed by the verdict of experience. That being so it is evident enough that the mere cost of the material and labor used in its construction. An inventor who sets himself to develop out of the first imperfect form a really valuable and original contrivance is fairly entitled to ask a return sufficient to recoup his expenditures and to afford an appropriate reward for his own time, effort and enterprise. Many popular inventions have yielded fortunes to their patentees, but that cannot be looked for in the case of an instrument like the diaphone. On the other hand the national benefit derived from an important aid to navigation, calls for liberal treatment of those who have concerned themselves with its provision.

PUPILS AND BATTLEFIELDS.

Editor World: The other day my little girl brought home from school an envelope inscribed: "The Board of Education has given permission to the pupils of the high and public schools to contribute to the fund of the Quebec Battlefields Association. The governor-general has taken a deep interest in purchasing the battleground where Wolfe established British supremacy in Canada for a national park. Please put in this envelope any amount you may wish to give. W. W. Jordan, W. Wilkinson, Chairman, Secretary, Board of Education."

It is kind, indeed, of the board of education to give the pupils permission to give away their own or their parents' money. Might I ask how much Dr. Ogden, Mr. Wilkinson, the other school trustees and officials of "The High and Public Schools" have given to this object in which "the governor-general has taken a deep interest"? "Wolfe established British supremacy in Canada for a national park. Please put in this envelope any amount you may wish to give. W. W. Jordan, W. Wilkinson, Chairman, Secretary, Board of Education."

THEATRICAL SCENERY EXEMPTED FROM DUTY. Canadian Theatre Managers' Association Are Successful After Two Years' Argument.

When the Canadian Theatre Managers' Association was formed two years ago in Ottawa, one of the objects aimed at was a customs regulation whereby travelling companies would not be asked to pay duty on scenery, as their stay in Canada was short and they were always paying considerable into the customs department in duty on printing. A. J. Small was elected president, and has been very active in presenting the claims of the association before the department for the past two years. Under the existing regulations, no matter how many times a travelling company came into Canada, they were obliged to pay 25 per cent. duty on the production at every port of entry.

When completed the show cases, counters and stands in the new building of the Robert Simpson Co. limited, will be the finest and most beautiful of any departmental store on the American continent for the time being. Take, for instance, the fixtures of the jewelry, silverware and cut glass department. These will on a scale more elaborate than any of the same kind in Canada.

Scalp Disease CURED BY ZAM-BUK. Mrs. Albert Goodie of 485 Amherst St., Montreal, says: "My daughter, Anna, suffered intensely since birth from scalp disease, and we could not get rid of this irritating disease. On March 10th, 1908, I procured a box of Zam-Buk and used it as directed. My husband (who is elevator man at the Carsey Co.) to try Zam-Buk and Zam-Buk cured my daughter's scalp disease. I used it for nine days' treatment the child was cured completely. No home should be without Zam-Buk. It is Nature's skin remedy and is equal to any healing agent. All druggists and stores. 50c a box.

Editor World: Will you permit me, thru the medium of your valuable paper, as one who admires the devoted efforts of the officers and soldiers of the Salvation Army in ministering to the needs of the poor in our cities and in the ways bringing joy and comfort to the most distressed and afflicted, to express my surprise at seeing in the Sunday World, May 18, an article under the heading "The Salvation Army, takes upon himself in his superior wisdom, to declare to mankind just what Jesus would, and would not do, under similar conditions, were he to appear on earth."

Five Killed in Wreck. Clonduburgh Caused Washout on the Track. CHADRON, Neb., June 26.—Five wreckers were killed to-day in a wreck on the Chicago and Northwestern Railroad. A double header passenger train, eastbound, struck a washout caused by a clonduburgh forty miles from Chadron.

Canada Leading. Canada has the largest wheat field in the world—300 miles long by 500 wide. The total area of Canada's wheat-growing land is 288,000,000 acres. If only one-tenth of this land were cultivated, it would yield three times the amount of wheat required annually by Great Britain.

Diaphones and Profits. Impelled by the suggestion made during the marine department investigation that the Canadian Fog Signal Company had been charging prices for its diaphones yielding "unconscionable profits," Mr. John P. Northey, its president, has published a long and lucid explanatory letter. There will be general agreement that the first impression gathered from imperfect information was not justified by the facts as presented by Mr. Northey. The diaphone in its latest form is very different and incomparably better instrument than it was in 1903 when he turned his time and attention to its perfecting. Success in that, as in the case of other inventions of its class, necessarily entails large expenditures and laborious and careful experimenting and testing. Only after years of patient endeavor were the various difficulties overcome and the diaphone raised to its present pitch of excellence.

AT OSGOOD HALL

Judge Clute in chambers granted an order for a writ of certiorari directed to Police Magistrate Hopsy of Bowmville, in the matter of a conviction of one William McGill for peddling without a license in that town on May 27 last. McGill was fined \$10 and costs or twenty days in jail.

Proceedings have been begun by Robert Evans to recover \$100.00 on a promissory note made by D. F. Hullert in favor of Edward E. Gledhill and endorsed to Evans.

Emma Weston of Toronto brought an action against Mrs. Perry claiming \$1000.00 for certain paragraphs of a letter written by Mrs. Perry to her husband in 1906, in which she stated that she was having an affair with another man.

Nathan Brenner of Toronto is seeking to recover damages for alleged slanderous statements the latter is said to have made in a letter written to Mrs. L. Morris of Toronto against J. M. Clairoux of the Village of Billard Valley.

An order granting John J. Tilt of Brampton \$100 a month "to keep him alive" was made by Justice Clute, his father, Joseph Tilt, died, leaving \$80,000, of which the son, on retaining his majority, is to receive half. There was no provision made for the maintenance of the son in case of the mother's death, however, and this occurred in February last. The son is in poor health.

A notice of motion to commit John F. Goodfellow, proprietor of The Midland Free Press, to jail, was filed before Mr. Justice Clute by J. E. McKenzie as a result of statements made by him in regard to the unseating proceedings in connection with the Midland elections. Clute, on being asked to bring to the high court the conviction of William Gill at Bowmanville, was granted by Justice Clute, \$25,000, as an agent for T. B. & Co., was fined \$25,000 and costs for violation of the by-law requiring peddlers to take out a license. McKenzie sought to have the order set aside, but was refused.

Fred Kent sued W. H. Davis for \$1200 on a \$1200 mortgage on a building in a hotel. Mr. Davis said he had paid the money some time ago, but Kent repudiated the mortgage, not on present payments due. The court decided that this was illegal.

Serviceable Collar Bags

Owing to their shape they take up very little more room than the collars. Keep the collars clean, in shape and tidy. Hang them up, stand them on the bureau or keep them in the drawer. Bag shape with stiff circular bottom and a band the depth of a collar.

A most extensive assortment is shown at various prices; many different kinds of leather, such as suede, Morocco, seal grain, walrus grain, etc., in colors of tan, black, brown or green.

The better grades have a patent attachment in centre of bottom for holding stud buttons and have silk or moiré lining. They measure 7, 8 and 9 inches across bottom, and all have heavy silk double draw cord. The pictures tell the truth. Include one of these in your vacation trunk. Prices are 50c, 75c, \$1.00 to \$2.50. MAIN FLOOR—CENTRE

SHAH BLAMES PEOPLE. Persia's Ruler Regrets Slaughter in Teheran.

PARIS, June 26.—A special despatch received from Teheran states that in the two days' fighting in that city 154 soldiers and 800 Nationalists were killed and wounded.

In an interview the shah's private secretary stated that the shah regretted the trouble and blamed the population who threw bombs and fired upon the soldiers. He will take special measures to stop the plundering.

A proclamation has been issued arranging for the elections to be held within three months, and urging the people to choose capable deputies. Meanwhile the shah guarantees the safety of the property of all peaceful residents, even those of those persons now under arrest. The anjuman's political clubs are forbidden to meet. The Cossacks continue to hold the city, but the other troops are encamped outside.

ISLAND BATHS. These celebrated baths at Hanlan's Point are open to the public and are brilliantly lighted at night by electricity.

The bathing suits are all new and are sterilized in lime in use. The accommodation for ladies is especially private and comfortable. Spring boards, barrels and other amusements are provided, and the toboggan slide will be ready July 1st. The water is warm and fine.—J. Atkinson, Lessee. 67123.

Liability Insurance for Motorists. We are now issuing liability insurance policies for motorists or owners of automobiles. For a yearly premium we insure the party, or parties, specified in the policy against the loss which might be entailed by an accident happening to a pedestrian or any vehicular or other traffic on the highway or wherever. In case of injury, we assume all responsibilities for the conduct of litigation or the settlement of the case. We employ our own lawyers and conduct such litigation entirely at our own expense. DRAGOON VICTIM OF DENTAL SHOOTING

Blows Hole in Leg With Blank Cartridge at Niagara—Review is Huge Success.

NIAGARA CAMP, June 26.—(Special.)—A trooper of the 2nd Dragoons shot a hole almost thru his right leg just above the knee with a blank cartridge this morning, and lies in No. 11 field ambulance hospital. Some fear that tetanus may result has been expressed. The whole charge of powder and wads was driven into his limb through the chamber open and gradually clearing.

C. Company of the 12th York Rangers lead the whole camp in active service challenge cup competition for high scores at the butts. This competition extends over the four military districts of Ontario. Last year this company won the trophy.

The next in order of merit at this camp are A. B. and H. Companies of the 36th Regiment.

The 23rd Parry, 9th Regiment, two companies of the 31st Grey and sections of the Field Ambulance Corps, the Army Service Corps and the Royal Canadian Dragoons have already left camp for home.

Big Results Achieved. Things that looked impossible two weeks ago have been accomplished. Niagara during the past week, which was brought to a brilliant conclusion with a review of all corps by General Cotton this afternoon.

The success of this feature was most pronounced, and the officers commanding the different sections were heartily and sincerely complimented by the general at the conclusion of the exercises.

The troops were first lined up in order across the common, with the massed bands behind them. When the general appeared at a point to the west, and in front of the army, was spoken of as great Union Jack, the order was changed to a right-turn and the army moved north, and west and south, cheered along the line by thousands of excited spectators. General Cotton sat his horse like a bronze figure, with his right hand in an attitude of salute as they passed.

Cavalry Were Good. First came the cavalry brigade of four regiments—the G.G.B.G., 1st Hussars, 2nd Dragoons and 9th Milledunna Horse. The alignment was splendid. The 2nd Dragoons and 9th Milledunna Horse. Then came the rattling guns of the artillery brigade—4th, 7th and 9th batteries, followed by No. 2 Field Ambulance Corps, with four companies, the Canadian Engineers, one rank; Army Service Corps, one rank; 3rd Infantry Brigade—12th, 20th and 34th Regiments; 4th Infantry Brigade—23rd, 31st, 35th and 38th Regiments; 5th Infantry Brigade—37th, 39th, 44th and 77th Regiments.

As they reached the southern boundary of the parade grounds the cavalry and artillery were put into a gallop around the River-road and formed in quarter column.

The infantry were halted at the south of the field, while the mounted men and the two yeomanry regiments were "about faced" and marched back in quarter column formation.

As usual, the 87th Highland Rifle (Indians) and the Army Medical Corps elicited the greatest applause, and it was merited. Their lines could not have been improved with a straight-edge.

The 29th Battalion Regiment were praised for their especially good marching and appearance. Their uniforms looked neat and new, and their trappings were immaculate.

As each regiment approached the reviewing officer, it was struck by its regimental air from the centre of the review field, where the musicians were all massed.

At the conclusion the various corps were formed into review order and marched forward.

The general and the staff, and commanding officers to the front and congratulated them upon the success of their efforts.

Queer Performances. George C. Douglas, Englishman, 42 Elizabeth-street, was interrupted last night in an open air performance of Diogenes. He was showing other signs of insanity in breaking up his furniture with an ax.

Stolen Horse Recovered. Detective Moore last night recovered one of the half dozen horses recently stolen from the neighborhood of the Humber. The animal was in possession of an East Queen-street butcher, who had purchased it in good faith. The animal stolen and recovered is the property of David Goddard.

Boy Swallows Hook and Dies. ST. JOHN, N.B., June 26.—The little son of Hugh B. Pike, St. Stephen, swallowed a small metal hook used by his mother in fastening her dress. He died in great agony, the hook having caught in glands at the base of the throat.

POLICE COURT CLERKS AND THE FEES THEY GET

Further Evidence is Given Before Judge Winchester—The Court Costs Tariff.

The disclosure that Curran Morrison, chief police court clerk, whose fixed salary is \$1,400, received last year \$382 in addition for making returns to the Dominion and Ontario governments, was an interesting feature of the investigation by Judge Winchester into police court fees resumed yesterday.

There were other points of interest, also, one being Mr. Morrison's admission that he had charged less than the regular tariff rates for constables' fees, and the statement of his assistant, Arthur Webb, that prisoners were often let out on bail during court sittings without collecting fees, although the judge ordered the constables to take them. The enquiry will go on Monday morning.

Mr. Morrison said that the members of his staff were William Best and Arthur Webb, the salary of each being \$1,200 a year. He also received \$100 a year for making copies of information, but only received about \$5 or \$10 a year for making copies of information. There was a regular tariff, such as \$3 in cases of drunkenness. He said he charged \$1 for constables' fees in cases of drunkenness.

The judge asked by what authority Mr. Morrison had reduced the regular tariff rate of \$150, and Mr. Morrison said he had recalled that \$150 was the rate for constables' fees, but he had not looked up the tariff for years.

His duties, he said, were to keep the books, see that warrants were issued, and to draw up information, occasionally and "look after the important cases."

The judge made up the costs as \$2.50, being \$1.50 for the constable, 25c for warrant and \$1.00 for the magistrate. He remarked that the prisoners escaped more lightly than they should, with which the witness agreed. The judge said that there must be some standard when so much business was handled.

Mr. Morrison said he received \$1,400 a year, and was also paid for returns to the Dominion Government, as follows: 1903, \$165; 1904, \$184; 1905, \$215; 1906, \$231; 1907, \$238. He also received from the Ontario Government, for making records of previous convictions, as follows: 1903, \$496; 1904, \$507; 1905, \$563; 1906, \$580, and 1907, \$760. Mr. Morrison's income last year was \$1,838.

The records, he said, were used as a "sort of voucher." He did not think he would have time to make returns to the city treasurer. It was possible, he said, for a clerk to take home small sums.

Mr. Morrison said that, while appointed by the city he did not consider he was under the control of anyone. He received no orders from the city. Best under the city treasurer, and Mr. Childs under the police commissioners. The books were audited, but the auditors could not tell whether or not a fine had been paid. He and his fellow clerks, he said, had three weeks' vacation last year.

Arthur A. Webb, Mr. Morrison's assistant, said he was appointed in 1899, and that his present salary was \$1,200. He received no fees whatever. His duties were to take the evidence both morning and afternoon, and act as a clerk, except as to the taking of fines. He kept the cash he received in his pocket until the court was over, and sometimes he was frequently let out on bail during the court's sitting. It was not the custom to collect fees when the city entitled to its costs.

"I suppose so, but the custom is not to collect them," he said. He did not know whether the police court "receiver," W. H. Best, police court "receiver," said he received \$1,200 a year, having started at \$950. Asked what his title meant, he admitted that he didn't know.

"I have never really known what my position is," he said. It was true that he received cash, but he had not received it from Mr. Morrison. He never used the cash box, and sometimes took money home in his pocket. He did not, however, receive any fees outside of his salary. His hours were 7 to 4. There were enough clerks for work, but would not be without Mr. Childs. The latter testified that he was only a temporary assistant, appointed by the police commissioners and paid by them. He made copies of legal documents, Mr. Morrison getting the money.

KILTIES READY FOR QUEBEC. Highlanders Parade 430 Strong and Are Keen on the Trip.

The 48th Highlanders under Lieut.-Col. D. M. Robertson paraded at the armories last night in preparation for the Quebec tercentenary celebration. The parade was shown a total of 430 of all ranks on parade. This is ten more than required and some will have to be weeded out.

The commanding officer addressed the regiment at the conclusion of the drill and explained the conditions under which the Quebec trip would be performed. Afterwards the captains took the names of those wishing to go, and everyone from the colonel to the last joined rookie expressed delight at the prospect of marching past H.R.H. the Prince of Wales, and showing the remainder of the Canadian militia what the Toronto Highlanders are capable of.

ONE-ARMED MAN SWIMS RAPIDS. NIAGARA FALLS, N.Y., June 26.—With nothing to protect him but a cork life preserver, George Powell, a one-armed Buffalo man, this afternoon swam thru the Devil's Hole Rapids, and on to Lewiston. He covered the two and one-half miles in thirty-five minutes. This is a feat which has been performed only twice before.

Through Pittsburgh Sleeper. 4.05 p.m. Commencing Saturday, June 27, through Pittsburgh sleeper will leave Toronto 4.05 p.m. daily via Grand Trunk and Pennsylvania Railroads. Secure tickets at city office, northwest corner King and Yonge-streets.

Trains Smash in India. BOMBAY, India, June 26.—In a collision between an express and freight train on the Bombay & Baroda Railway, near Baroda, to-day, a number of persons were killed.

A New York Stock Comes to Buffalo and the Great Sale is Now On

The bringing to Buffalo of the well-chosen stock of such a famous old New York house as E. A. Morrison & Son, established since 1826 at 839 Broadway, is the greatest merchandise event which has ever occurred in this city.

The stock was purchased by our New York connection, James McCreery & Co., and we have already received through them the entire stock of Morrison's costumes, silk dresses, wash dresses wraps and coats, waists, negligee, silk petticoats, notions and laces.

In connection with the sale of the Morrison stock we have planned special events in the other sections of our store so that next week every department will sell our kind of merchandise at prices far below the actual value.

Now is the time to come to Buffalo. This is the greatest sale we have ever held and you can't afford to miss it.

It is impossible to quote prices. There is, in nearly every instance, but one garment of a kind. This we can say—the prices are lower than articles of equally high quality were ever sold for in this city. They were purchased for the New York City trade of E. A. Morrison & Son and we have marked them a quarter, a third and a half of Morrison's price.

Dainty Wash Fabrics—Beautiful Silks

There are many notable offerings here in wash fabrics for summer gowns. Our showing of these goods is just what you'd expect in Buffalo's leading store and special sale prices make our display doubly interesting.

**ONE CO-OPERATIVE SUCCESS.**  
During this time of so-called high beef prices, the farmer enjoys cheap meat, thru his successful co-operative scheme for summer beef.

Beef rings are in successful operation in many parts of the country. Twenty farmers, usually, get together and form a co-operative society, one member kills and allows the portions of the beef after recognized plan, and the members come weekly for their shares.

By this plan each house has its twenty pounds weekly of fresh, tender beef, from animals fed by themselves. They know that they are getting good meat, and it matters not what outside prices prevail. No middleman can step in and tax them extortionate profits for their daily meat. Truly the farmer, with wisdom in his co-operations and a greater amount of faith in one another, should be the happiest man of all.

**VALUE OF WOMEN'S INSTITUTES.**  
The lives of our farm women are doubly influenced by the presence of the women's institute movement in Ontario. Firstly, these meetings are educative, lifting people out of the bondage of superstition and blind habit, and secondly, they afford association and cheer to the oftentimes lonely life of the farmer's wife.

These gatherings educate into better things. Knowledge is certainly power. Not all knowledge is applied, but an educated woman will rise far higher than the ignorant one. Lead a people to see the wisdom of doing things the right way, and show them the gain to be attained thereby and unconsciously the human being will draw towards the light.

This drawing is, at times, so slowly done that detractors of the forward movement are prone to condemn the whole machinery of advancement. Consequently there are found those who discount very considerably the wisdom of the movement. But if failure should follow the institution it cannot be attributed to the aims of the Women's Institute.

There is far too much moral chicanery exhibited in the homes of our farm. Old ideas prevail where new one should revolutionize. Waste goes on in many farms that unfortunate people think are saving. Human life is shortened and endangered by the ignorance of diet, temperature, recreation and nature's laws generally.

It is the purpose of the Women's Institute to get the women of our land discussing the manner in which they and their neighbors are living. The home must look higher in the girl's estimation. She must be taught to see that every detail of her life is a duty. Every work becomes, to the interested one, an enjoyment. Routine duties lose their monotony in the search for better ways to do things. Inquire is the parent of progress.

Such, indeed, is the work that the institutes seek to do. And in the development of these ideas, thru the country, all women will find a common interest in humanity and a fine combination to exist between house work and pleasure. It is from the persons who have witnessed the success of the movement, the most that the praise is greatest.

**OUTGROWN FORMER QUARTERS**  
Page Wire Fence Co., Limited, Move to Larger Premises.

Because their present premises on West Wellington street have become too small to accommodate their increasing business, the Page Wire Fence Company, Limited, has moved to the Gowans-Kent Buildings, at the corner of King-street and Atlantic-avenue.

This not only gives them much more commodious premises, but also provides facilities for receiving and shipping freight, as the railroad tracks come right up to their premises.

In their new premises, the company will now be able to carry larger reserve stocks of the famous Page Wire Fences and Lawn Borders, eliminating all delay in the shipping of goods.

**DISEASES IN ORCHARDS.**  
Reasons Given for Apple Trees Dying in Brighton and Colborne District.

Mr. McNeil of the fruit department at Ottawa in writing about his attendance at orchard meetings in Ontario, says:

"I was fortunate enough to be able to attend three meetings last week. I spent the forenoon visiting as many orchards as I could reach, and the afternoon was given up to my meeting in some suitable orchard. I was very much impressed with the fact that it would pay well to have some one who was posted visit these orchards, and point out the mistakes that are being made and the causes for some partial failures. For instance, I found that in the Colborne-Brighton district 10 or 15 per cent. of the old trees were dead or dying, and that the owners were attributing this loss to every cause but the right one. There were three or four diseases and combination of diseases which accounted for most of the defects. First, there was winter killing; second, collar rot and canker; third, the oyster shell bark louse, often, indeed usually, in combination with both these causes; and then there were a variety of insects that were doing more or less damage. The unfortunate thing is that the orchardists themselves have no clear conception of what is the matter with their trees. They apparently have been content just to let them grow and pick the fruit."

**INTERNATIONAL EXTENDED.**  
A significant feature in the development of the International Live Stock Exposition is seen in the extension of times thru which it will hold its doors in the future. At a recent meeting of the directors of the International Live Stock Exposition, it was decided that the show should open on Saturday, Nov. 28, and hold over to the second week, closing on Thursday, Dec. 10. This great world's show was developed as many big features as to make it impossible to handle them competently within the bounds of one week's time. It will be a matter of great interest thruout the live stock world to learn of this extension of time between dates of opening and closing—Independent Farmer.

**GOOD TIME TO SELL HORSES**  
FARMERS MAY TAKE LESS

The Union Horse Exchange and the Repository Advise Farmers to Sell—Remember Hay Experience.

"The farmers who have horses to sell are ill the men who had hay to sell, they will hold off until prices drop, and then they will sell," said Manager Burns of the Repository to The World yesterday. He reports a good demand for horses, but that dealers cannot get the animals at paying prices in the country. "I know that the dealers often do not make their board out of their sales," continued Mr. Burns.

And does seem reasonable to advise the farmers to sell what they have for sale now, as prices are sufficiently high for profit. He will be wise who does not wait till fall for his sales.

Mr. Burns quotes the following prices for the week. One hundred and fifty were offered on Tuesday, while a big consignment of a lumber firm's horses weighing from 1400 to 1600 lbs. will be offered next Tuesday. Mr. Orpen's thoroughbreds will also be sold on that day.

Draughters 1400, 1600 lbs. \$180 to \$225  
Expressers ..... 180 to 200  
Roadsters ..... 150 to 225  
Serviceably sound ..... 75 to 100

The Union Stock Yards at West Toronto still keep their popularity with the horse dealers and farmers. Ninety horses were sold so far this week, and Manager Smith reports a good healthy demand. The same old trouble of the dealers being unable to get horses from the farmers is the complaint. Prices received here are indeed encouraging and parties having animals to dispose of, should seriously consider their present disposal.

The prices are as follows:  
Drivers ..... \$140 to \$175  
General purpose ..... 180 to 200  
Expressers ..... 150 to 200  
Heavy draughts ..... 170 to 225

An especially fine general purpose horse reached the high figure of \$257.50 Tuesday, and established the truth of the oft-repeated assertion that good things will always pay well. But not every one's opinion of what is a good animal is the same.

**Excursions to the Northwest.**  
The well-known "somesekers" excursions are now run by the C. P. R. New Muskoka route, saving hours by the Toronto and Ottawa route. Tuesday's excursion, the first over the new line, was a record-breaker in point of size and the facility with which the trains were handled, and accommodations for tourists sleeping on July 7 and 21 excursions are coming in rapidly, and intending tourists should secure their accommodations thru local C. P. R. agent without delay.

**Government Pensions.**  
LONDON, June 26.—The list of pensions granted by the government in the past year for services to science and literature includes \$1250 yearly to Prof. Edwin Ray Lankester, director of the Natural History Museum, and \$250 yearly to Paul Fountaine, an American traveler and writer, the latter "in consideration of his contributions to literature and his strained circumstances."

**AMERICAN FOREST SERVICE**  
STUDY FARM WINDBREAKS

Federal Tree Planting by Farm Experts to Be Tried in Fourteen Western States.

Uncle Sam's tree-planting experts have just undertaken a practical and scientific study of the use and effect of timber windbreaks and shelterbelts in the agricultural regions of 14 western states, says a despatch from Washington. This is the first time in this country that a study of this much-discussed question has been undertaken over a wide region under one plan, for the purpose of collecting data for the benefit of one agriculturalist who are developing the western plains. At present windbreaks are planted haphazard, one kind here, another there. If one kind is better than another, the government experts think that fact ought to be known, and it is believed that the study about to be undertaken will settle the question once for all. It will at least collect such facts never before brought together.

The work will be done by the United States Forest Service. In some states the agricultural experiment stations will co-operate in the studies, and in these cases the forest service will provide the necessary apparatus, and the other expenses will be shared half and half by the government and experiment stations. The investigations will be taken up in five states this year and extended to the other nine as rapidly as the investigations are completed. Four of the states in which the study will be made this year are Nebraska, Colorado, Oklahoma and Kansas. The fifth will be either Nebraska, Colorado, Dakota or Iowa. Ultimately the investigation will cover Minnesota, North Dakota, South Dakota, Nebraska, Iowa, Kansas, Colorado, Texas, New Mexico, Utah, California, Washington and Idaho.

**Hot Wind.**  
The sudden ruin that hot winds sometimes bring to growing crops in parts of the west is well known. Blowing strongly across the Canadian prairie, these winds may in a few days blast all hope of even a partial harvest. This is particularly the case in the lower portions of the central plains region, and in years of unusually low rainfall. Here the winds most to be feared blow from the northwest and south. In the northern prairie region the former is exposed to the hot "Chinook" wind, which sweeps down from the Canadian mountains. This often dries out growing crops, or, if it prevails before the danger of killing frosts is past, causes loss thru using the wind prematurely. Cold winter winds also do great injury to crops, make the climate more severe in the winter, and interfere with an even covering of snow upon the ground. This is true from Canada almost to the Gulf.

In Southern California winds from the north and northeast sweep down from the Mojave Desert with destructive results. Coming in June, these winds dry out the crops, and yield of unprotected fields to almost nothing. Windbreaks of eucalyptus and Monterey cypress, now in such common use in the south, are planted in orchards, and long ago convinced possessors of highly valuable irrigated land of the value of tree-planting for protection purposes.

**Which is the Best Windbreak?**  
But there are two sides to the windbreak question, and the government experts declare positively that belts of osage orange, for instance, are a "nuisance." Others cite figures showing the positive benefit. Morris Thompson, who lives near Downs, Kansas, gives his yield of corn from a field protected on the south by a row of tall cottonwoods as six bushels per acre more than in places where there is no protection. About 15 acres are benefited in this way. It is highly probable that the windbreak occupies sufficient land to offset this benefit.

An Illinois farmer sums up his observations on this matter thus: "My experience is that now, in cold and stormy winters, wheat protected by timber belts yields more than unprotected wheat only one-third of a crop. Twenty-five or thirty years ago we never had any wheat killed by winter winds, and every year a full crop of peaches, which is now rare. At that time we had plenty of timber around our fields and orchards, now cleared away. The forest service proposes to find out just when and how much windbreaks increase the yield of crops, and to plan the plans, much technical work will be necessary. Instruments will be used to measure heat and cold, moisture and dryness, both above and below ground; to register the force of the wind near the windbreaks and some distance away from the trees; and to keep account of the effect of the windbreak on the snow which covers the ground during winter. Many other measurements and tests will be collected by the experts who will have charge of the study.

**Data to Be Given to Farmers.**  
Many disputed questions will thus be settled, and the data gathered will be placed at the disposal of the farmer who desires it. Doubtless rows of trees between fields will be made, and usually planted for both protection and shelterbelts for both protection and the growing of timber.

Corn will be the crop studied behind the windbreak this year. Trustworthy conclusions cannot be obtained by comparing results from different crops. Each crop makes its own demand upon the soil, so that what would destroy one might do little harm to another. Corn is a particularly good crop to experiment with, because it is easily injured by hot dry winds, will not stand standing and is very sensitive to frost.

**Where cabbages are attached by little white grubs eating into the roots, a little salt sowed around the root of the plant will be successful in preventing further trouble.**

Potatoes yield better where sprayed with paris green to take care of the bugs. It is also best applied in water. Experiments at Guelph, for several years have shown that the water-sprayed plants yielded far larger returns.

Fall wheat in Ontario is a decidedly pretty crop this year. Many good fields may be seen in York, Peel, Ontario and Simcoe counties. Some rye is also grown in the lighter soils, and it also grows very promising. Barley has headed out in many places, while the pea crop is exceptionally good. E. E. Cooper of Oshawa, who handles a large pea business for an American firm, says that he has more crop out this year with a better showing than for many years.

**The Farmstead.**  
Vegetation never was better. Turnip land will be in good shape now. The dry weather prevented mangel germination in many places. No farmer is safe without sufficient insurance on his buildings. Corn planted when the land is well prepared will come on much better than in early sown poorly cultivated land. Strawberries are coming into Toronto in liberal quantities this season. Every farm should have its small patch for home consumption. How the city cousin delights in a country run just now! Don't douse a broody hen in cold water—it won't stop her "clucking" anyway. A better rate, started on the top and suspended from the ceiling will do the trick. The side delivery rake and hay loader may be seen at work in the fields of choice hay. If you want a good wagon read our ads of the Speight Wagon Company. They make the best there is.

The strawberry season demands pickers and boys, girls, women and men are being pressed into service. The women do well and are to be congratulated upon their faithfulness. Farmers who have good clean timothy hay on hand will do well not to sell it off because it is cheap. Better prices for pure timothy will likely follow when the rush is over. Alfred Rogers of Kinsale is putting up his silos for his best making farm. He found one winter after the first to be sufficiently long time without them. A successful Women's Institute was organized recently in Pickering. Their first meeting was held at the president's home on Wednesday, when Mrs. Bedson was elected secretary. A fair, well-encouraging attendance was recorded. **DAIRY STOCK FOR SALE.**  
Four Ayrshire bull calves, three of them six months old and nearly ready for service. One bred by Hillhouse Fitz of St. Armand, a son of Howie's Fitzaway, one of the most successful bulls imported of late years, whose dam was a deep-milking Bluebell 14 of Hillhouse. The other three are bred by Carick Led of Montebello of the famous Glenairn III (Imp.) and Baron of Maple Grove (Imp.), strains.

The dams of these calves are of the highest producing strains in Canada, being from such bulls as Cross of Knockdown, Prince of Barchest and Napoleon of Auchenrain, all imported, and noted for their deep-milking qualities of their offspring. Considering the high quality of their breeding and their own individual merit, these calves are decided bargains, as reasonable prices will be quoted you. Write or see A. Leitch, Mgt., Donlands, P.O. **Chicago Gossip.**

Spader & Perkins to J. G. Beatty: Wheat—Firmness in cables gave a momentary lull at the opening. The market being easy thereafter. With export prices so far out of line, and no indication of a reversal of the European demand, it matters little what Liverpool does until conditions change. Perhaps the feature of the news was the reports of highly satisfactory yields of fine quality, some coming from sections from which the crop is expected to be heavy. Splendid progress is being made with harvesting, and weather is all that could be desired. The export demand, as already stated, is flat, and the domestic trade is a dead weight. The market is in much the same condition, as it has been for some time. The market is in much the same condition, as it has been for some time. The market is in much the same condition, as it has been for some time.

**Wheat—**The market has been a rather tame affair during the short season. The local crowd were free sellers. The usual damage reports came in this morning, but little attention was paid them. There was some improvement reported in flour sales. Weather more favorable for harvesting. We believe in higher prices for wheat, and on these soft spots would buy September or December.

**Corn—**There was rather a sluggish trade in corn; reports continue unfavorable. There is a considerable short interest, and if it continues to grow as fast as it has the past few days, it will go to buy a little corn, for they are to get run in.

**Oats—**Reports are all bullish. Cereal interests and country commission houses the chief buyers. The selling was by the sales at present, as the oat crop has had a serious setback the past few days.

**Provisions—**Trade light; prices a shade lower.

**New York Grain and Produce.**

NEW YORK, June 26.—Flour—Receipts, 10,750 barrels; exports, 463 barrels; sales, 6200 barrels; barely steady, with a little better enquiry. Rye flour dull. Corn—Receipts, 5,000 bushels; exports, 25,888 bushels; sales, 1,900,000 bushels; futures, spot easy; No. 2 red, 96 1/2c, elevator, No. 2 hard winter, 100 1/2c, f.o.b. afloat, 1 northern, Dull, \$1.12 1/2, f.o.b. afloat. While the early wheat market was steady on higher cables and small north-west receipts, it eventually broke under bearish weather and crop news and closed 1/2c to 3/4c net lower. July 94 1/2c to 94 1/2c.

**IN TWO INCHES OF WATER.**

Old Resident Drowned in Lincoln Paper Mill.

ST. CATHARINES, June 26.—(Special.)—A drowning accident occurred at Upper Lincoln Paper Mill, Merriton, at noon, when Darby Dockery, one of the village's oldest men, is supposed to have had a weak spell while at work and to have fallen on his face in about two inches of water, which was on the floor. He was discovered by some employees of the mill who sent for Dr. Vandenburg, but life was extinct.

Coroner Jory was called, but held that an inquest was unnecessary, as the man evidently died of heart failure. Mr. Dockery was an employee of the mill for many years.

**A HOLIDAY FARTHEST NORTH.**

Tell the casual American, visiting Toronto, that he should not overlook Lake Temagami as a place to see; and, more than likely, he pictures visions of a dog-train journey to the Arctic. Perhaps because Temagami has been somewhat exploited as the "farthest north" summer resort. The phrase is not fallacious, for this fascinating lake, teeming with huge and gamey trout-black bass, pickerel, etc.—along its 800 miles of shoreline, is in no sense a Dec. type of lake. In fact it is nearer Toronto than most Canadian lakes, even quite nearer to 9 o'clock at night, on the comfortable trains of the G.T.R., and is paddling forth with rod and reel after the early breakfast next morning. Temagami Lake is a rarity among "places to go" because it is a wilderness with the comforts and conveniences of civilization right at hand, thanks to an efficient hotel, steamboat and outfitting service. Three notable hotels will cater for you at the lake—the Ronoco, at the steamship landing, close by Temagami Station; Temagami Inn, on the beautiful Temagami Island; and the Lady Evelyn, thirty-six miles up the lake. Either of these hotels will satisfy sportsman and rest-seeker alike; and the fishing!—well, are thirty pound lake trout big enough for you? They are plentiful up there. And don't worry about equipment, everything can be had at the hotels.

**Inspect Prince Rupert.**

VANCOUVER, June 26.—(Special.)—Hon. F. J. Fulton and Hon. F. L. Carter-Cotton will leave to-night on the Comoson for Prince Rupert to consider on the ground plans laid before the executive council by the representatives of the Grand Trunk Pacific. They will be back in a week.

**"Hiawatha."**

The Daily and Sunday World is now being delivered at this popular summer resort. By telephoning your order to Main 252 or leaving same at 23 Yonge-street you will receive The World before breakfast.

**SELF CURE NO FICTION! MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR.**

Without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily and economically cure himself without the knowledge of a second party. By the use of THE NEW FRENCH REMEDY THERAPION

A complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who years previously had been merely dragging out a miserable existence.

**THERAPION No. 1—The Sovereign Remedy for Rheumatism, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other diseases.**

**THERAPION No. 2—The Sovereign Remedy for Gonorrhoea, acute and chronic, urethritis, ulcers, pains and swelling of the joints, and all those complaints which mercury and arsenic are so popularly but erroneously supposed to cure. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.**

**THERAPION No. 3—The Sovereign Remedy for Debility, nervousness, impaired vitality, sleeplessness, dizziness and headache, business or pleasure, loss of appetite, blushing, indigestion, pains in the back and head, and all disorders resulting from dissipation, early excesses, etc., which the faculty so persistently ignores, because of its impotence to cure or even relieve.**

**THERAPION** is sold by principal Chemists throughout the world. Price in England, 1/6 per packet. In ordering, state which of the three numbers required, and observe that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of H. McLaughlin, Chemist, Toronto, and without which it is a forgery.

### Betsy Ross a Fake.

The story of Betsy Ross, glorified for having conceived and built with her needle the first flag of the United States, the five-starred flag which the troops of Washington carried during the Revolution, has been officially stamped a fake. The famous Flag House, at 259 Arch-street, Philadelphia, which was bought by popular subscription, will be ignored in the Founders' Day celebration to be held in October. This is the result of a report made by William J. Campbell to the historical sites committee, organized to mark places of historical interest in that city. His report is entitled "Where Betsy Ross Did Not Design the American Flag," and it says: "The story is a fake, and there is positively no evidence in its favor." "There was never the slightest excuse for the Betsy Ross 'fake,'" says Mr. Campbell. "The stories which you find in the school books about this imaginary heroine are all pure rot, and it is to the everlasting disgrace of America that the fiction has been nourished for so many years." "As a matter of fact, Betsy Ross was no more nor less than an ordinary seamstress, who would have been fired with about the same amount of patriotic zeal in sewing Old Glory as she would have found in darning a pair of

### KING'S BIRTHDAY HONORS.

Some of Those Who Receive Royal Recognition of Services.

LONDON, June 26.—The list of honors accorded on the occasion of the official celebration of King Edward's birthday shows that four new peers have been created, and there are new privy council officers, 11 baronets and 25 knights.

The peers include Sir Antony Patrick MacDonell, under secretary to the lord lieutenant of Ireland, whose resignation from this post, coincides with his elevation, and George Whiteley, member of parliament for the west riding of York, who has just resigned the post of Liberal whip. Thomas Wallace Russell, Liberal member of parliament for the south division of Tyne, shares with Sir Charles Fitzpatrick of Ottawa the appointments to the privy council.

Among the baronets are Sir Thos. Brunton, the physician, and Robert William Perks, Liberal member of parliament for the south division of Lincolnshire, who was so closely associated with the late Charles T. Yerkes in his projects for the improvement of the traction system of London. The list of knights includes J. J. Duveen, an art connoisseur, known principally for his gift to the nation of the "Turner gallery," which is now being built at a cost of \$300,000, to hold the works that Turner bequeathed to the nation; James A. H. Murray of dictionary fame; R. A. Hadfield, president of the Iron and Steel Institute, as well as those announced yesterday, W. J. Falconbridge, chief justice of Ontario, and Henri Thomas Taschereau, chief justice of Quebec.

### STEVEDORES MAKE ROW.

New Scale at Owen Sound Causes More Trouble.

OWEN SOUND, June 26.—(Special.)—For the third time in the present season the Northern Navigation Company had trouble this morning while trying to load their vessels at the reduced rate of wages for stevedores. To-day when the Ionic came to load cement a gang was brought from Collingwood to handle freight in case of a strike. Their appearance was the signal for a demonstration from a crowd of 500 men gathered on the wharf. After some hesitation twelve Collingwood men went to work. Local Manager Smith claims that there are plenty of men who will work at the reduced scale of 22 1/2 cents for truckers and 25c for hold men, instead of 25 cents all round, but they fear violence. The Owen Sound people here because of the not permanent residents of the town.

### GOVERNMENT CONTRACTS.

Public Works Department Accept Tenders for Work at Jordan.

Contracts have been let by the public works department to Newman Bros., St. Catharines, for the new administration building and the superintendent's office at the experiment farm, Jordan Harbor. The boiler house and fruit house contract for the Ontario Agricultural College has been awarded to the Clemens Co., Guelph. The minister of public works has also let contracts for the building of bridge superstructures of steel and cement concrete over the Big East River, Arnour's Rapids, and in Oakley Township, Muskoka, and a fourth bridge over Burke's Falls, Parry Sound. The aggregate cost of these bridge contracts is \$15,000. The department is building the substructure.
