Rumor Says Premier May Have Asked His Return

Ottawa, Aug. 25.—Le Droit of Ottawa, carries the following:—The Hon. George Perley is returning to Canada. He may have been recalled in haste by the prime minister, and may be even on his way to a Canadian port. The news has not yet been confirmed officially by the government, but we know from an absolutely trustworthy source that he has taken out during the last few days insurance for \$100,000 in Montreal. This is a fact which tends to confirm the rumor circulating today in Canada. With the departure of "Bob" and the return of Sir George Peley, the Canadian high commissioner in London, we may expect here soon big political news.

RICH BILL IS THE NEW ONE AT THE GEM

A woman's battle against a man who deliberately brings unhappiness into her home, forms the background of the action in William Fox's photoplay, "Love and Hate," in which Bertha Kalich stars. Madame Kalich plays the part of Helen Sterling, whose husband is brought to ruin through the machinations of George Howard (Stuart Holmes), a dishonest broker, and his assistant, Rita Lawson. It is a vivid, gripping telling of a home story. There are also two excellent comedy and musical acts. The Gem this afternoon or tonight has a special call to you.

ALL NEW BILL AT OPERA HOUSE TODAY

The vaudeville programme at the Opera House opening today includes the famous Apollo Trio, known as "The Three Bronze Men," in reproductions of Greek and Roman masterpieces; Claudius and Marion comedy singers and conversationalists; John Zimmer, the "somewhat different" juggler; Bourke and Shay in a singing, dancing and instrumental novelty; Kelley and Morello, comedians; and the thirteenth chapter of Gloria's Romance, with Billie Burke. Two shows this afternoon, at 2 and 8.30—evening at 7.30 and 9. People's little prices for all performances.

MORALE OF GERMAN OFFICERS WEAKENING

Surprisingly Large Number Among Prisoners

Men From Kaiser's Favorite Brandenburg Regiments Among Those Captured by French in Verdun Offensive

On the French front, Aug. 25.—(By the Associated Press.)—Men from the German emperor's favorite units from Brandenburg were captured in the latest French attack at Verdun. The prisoners taken in the preceding days comprise 1,145 men and thirty officers from the thirtieth regiment, 1,089 men and two officers of the twenty-fourth regiment, 856 men and seventeen officers from the thirty-fifth regiment. The number of officers taken was surprisingly high, showing the morale in the higher ranks also is diminishing.

The attack began early in the morning eastward from Avocourt Wood to the west of La Fayette Creek, but the enemy thought the assault would occupy a larger front as the artillery was busy on both sides. When Gen. Saint-Morel's division went over to storm Hill 304 the Germans were taken completely by surprise and lost ground immediately. The Frenchmen had to wade through water waist high. The prisoners rounded up were calculated at 100, while the main body of Frenchmen dashed onward through death ravine and attained the objects set by them after two hours. In some places the advance reached a depth of 2,000 yards.

WAR OF SEXES IS BRITISH BOGY

Clash Between Men and Women When Peace Comes

Campaign to Avoid it—Effort is Made to Get the Feminine Side Affiliated With Unions

London, Aug. 24.—Is there a possibility of an economic war between the sexes after the conclusion of Europe's peace? Will there be a struggle between men and women to retain the positions they have held during the war and men trying to return to jobs they left to enlist? Judging by the serious attention constantly given, these questions are not to be regarded as foolish. Not long ago a serious-minded London newspaper asserted that a conspiracy had been organized against the men in the trenches that the extension of suffrage to the women was part of this conspiracy; that the women thus enfranchised were expected to join with the political forces that have given them the ballot, and that the combination would be strong enough to dominate the country. This combination would force upon the country policies and legislation calculated to sustain the women in those industrial opportunities that the war has unexpectedly given them at the expense of the men who will be returning from the front expecting to resume their old positions in the industrial and commercial organization.

Cause of the Unrest.

The Commission of Industrial Unrest, which was created by the government to find out what was wrong with the nation and what measures should be taken to ease the situation, did not attach much importance to this alleged struggle of the women to retain the places temporarily assigned to them in the industrial structure. On the other hand the commission found the unrest caused chiefly by high prices and the difficulty of living at wartime rates of wages. The government is directing its efforts to improve conditions in this regard, and apparently not worrying much about the allegations of a controversy between the new and the old classes of specialized labor.

Nevertheless, consciously or unconsciously there is undeniably the prospect of a clash of interests between the millions of men who formerly did the nation's work and the other millions who are now doing it.

Somewhat more effectively than any other country in Europe, Great Britain has maintained something like a normal industrial organization and industrial producing capacity during the war. Foreign trade has suffered, but it has not been destroyed as has that of Germany, nor sacrificed to anything like the extent noted in France and Italy.

This has been possible only by training an army of new workers, equipping them with just as much skill as possible and readjusting the methods of production so that more highly specialized workers might perform the tasks under the new conditions. Hundreds of thousands of women have learned to do work that men formerly did and were supposed to have the exclusive capacity to do.

An Unexplained Bomb Outrage

One of Most Sensational Crimes in California

With the acquittal of Rena Mooney on a charge of conspiracy and murder and the granting of a new trial to her husband, Thomas J., one of the most sensational crimes in the history of California enters on a new phase. Since the theory of the prosecution is that it was promoted by pacifists, pro-Germans or haters of Great Britain, in order to protest against the United States entering the war or making any preparations therefor, the Mooney case becomes of international interest. The defendants on the one hand, assert that they have been the victims of a conspiracy, and that the "interests" and that capitalism is the real culprit. The many parts of the world have been kept informed by their trade papers of the progress of the case, and we have seen the excitement of gathering of Russian workmen in front of the American embassy at Petrograd to protest against the acquittal of "an Italian named Mauni."

Ten Killed, Forty Hurt

The crime was committed in the streets of San Francisco a year ago last July 22. A preparedness parade, in which were some 20,000 people, was passing through the principal streets of the city when a bomb exploded, killing ten spectators and wounding forty. It is not known to this day what sort of a bomb it was, whether it was thrown or whether it had been "planted" and timed to explode at a certain time. One reputable marcher on the spot says that he was conscious of some dark shape falling over his shoulder almost at the moment of explosion.

The theory of the prosecution was that the infernal machine was contained in a suitcase stolen by a woman. There were few moments before by Mooney and a man named Billings. Of course, after the explosion not a trace of evidence on this point was available.

Two Convicted

Mooney was suspected primarily because he was a member of an aggressive pacifist organization, and had been a demagogic speaker at a time before the war. That the pacifists or anarchists would attempt some demonstration against the parade, was expected, for newspapers and other promoters of the celebration had received letters warning them that something would happen. Mooney, on the other hand, it was because he had endeavored to cause a strike among the non-union members of a local transportation company, and had been determined to make an example of him. His companion, Billings, was first tried, convicted, and sentenced to life imprisonment. Then came the trial of Mooney, which resulted in his conviction and a sentence to life imprisonment. The evidence against him was practicaly the same as that against the two men, and after a trial marked by tremendous displays of feeling on the part of pacifists and pro-warists, she was acquitted.

Relief on Allis

The chief dependence of the Mooneys was in allis. They produced a wealth of allis. They did not seek to deny, even by inference, that they had, in answer to all allis presented the positive testimony of a rancher named Oxman, who swore that he had seen the Mooneys and Billings deposit their suitcase on the sidewalk, and then jump into a jitney and hurry away.

Star Witness Discredited

After Mooney had been tried and condemned a letter came into the possession of the defence, in which Oxman seemed to be inviting a friend to swear that he had seen him in San Francisco on the fatal day. In the letter the friend was promised \$200 and expenses for this trifling service. The result was that Oxman was indicted for subornation of perjury and a new trial granted Mooney. What explanation Oxman has to offer is not said, but the state has admitted that the force of his testimony has been greatly reduced by the discovery of the letter. So the mystery remains; if the Mooneys did not commit the crime the police have no idea who did, but they are convinced that the bomb was placed or hurled by men having the same views of preparedness as the Mooneys. Of course, they decline to consider seriously the suggestion that the crime was committed by capitalists in order to punish an aggressive and perhaps unscrupulous labor agitator.

RADIUM LOOSENS STIFFENED JOINTS

Results in Treating Six Cases Following Tuberculosis

Details of the Treatment—It Was Given Both Internally and Externally and Had the General Effect of a Tonic

Dr. J. J. Nutt possibly has found a new use for radium, (although time will be required to establish the true value of his results), namely, in loosening joints stiffened by fibrous adhesions resulting from tuberculosis. Commenting on his preliminary report, the Medical Record says:

"Notwithstanding the many and great advantages effected by orthopedic surgery during the past thirty years, even yet the best to be expected in the treatment of tuberculosis arthritis, except when begun in the very earliest stages, is a stiff joint. This, while better than abscess and joint disintegration, is not a result in which the surgeon can take much pride, and various measures have been tried to restore motion.

"Bony ankylosis is, of course, practically hopeless, but fibrous adhesions continually tempt the rheumatologist to renewed efforts to restore mobility. At one time thionamine was regarded hopefully, but the results of its employment did not come up to expectation. Foreboding breaking up of the adhesions may restore motion temporarily, but the risk of lighting up the old trouble or of an even worse outcome is too great to warrant the undertaking in most cases.

"Recently some encouraging experiments have been made with radium in this condition. The good results reported in the use of radium in mobilizing joints stiffened by arthritis deformans suggested to J. J. Nutt the employment of the same remedy in cases of fibrous ankylosis following tuberculous arthritis, and he reports in the American Journal of Orthopedic Surgery, No. 2, Vol. XV, six cases of ankylosis of the joints in which this mode of treatment was essayed.

"In most of the cases a radium pad was worn directly over the knee, radium solution containing two micrograms was given per os (by the mouth) three times a day, and intravenous injections of radium element were given, the amount injected varying from ten micrograms up to fifty or 100 micrograms, or one or more doses of twenty-five micrograms were given as conditions indicated. In the cases receiving the smaller amounts the injections were given about a week apart until the larger doses were reached, when the time was extended to one to two months between injections. When the larger doses were employed but one or two injections about two months apart were given.

"The process toward recovery was apparently definite, but slow, as some of the cases were under treatment for over a year, although in one or two of the milder cases slight movement was obtained within about two weeks after the beginning of treatment.

"The degree of motion obtained varied, of course, according to the amount of deformity and stiffness previously present.

The Silver Lining

"Brown is certainly an optimist. He sees the bright side even of the high cost of things."

"What is it, for goodness sake?"

"He says it doesn't allow him to get enough money ahead to invest in worthless stocks."

Your Partner's Widow

Would you care to be in business with her? Would you like her to have a say in formulating the policy of your concern? Isn't it possible that, in the event of the death of your partner, his share in your joint business might pass into the hands of inexperienced, unfriendly or otherwise objectionable persons?

Why not guard against such a contingency by means of an Imperial Partnership Policy? That's the surest way to provide funds to pay off the heirs of a deceased partner.

Or, suppose your death should occur first— Wouldn't it be much more satisfactory if your interest in the business could be paid to your heirs in cash, so that the money could be placed in some form of investment that would relieve your partner from possible friction with your heirs?

Our booklet, "Personality in Business" tells how to provide for this contingency. Write for a copy to-day.

WILLIAMS INQUEST BEHIND CLOSED DOORS

The coroner's inquest into the death of Harry L. Williams was resumed last night behind closed doors. Mrs. Williams, wife of the victim, gave evidence regarding her husband's financial condition and told of the happiness of their domestic life. The mother testified that she had Williams at tea with her on Tuesday night and that he was in his usual happy mood. Miss Lillian Lingley, who gave evidence. The coroner stated that the mother's evidence and that of Miss Lingley had no bearing on the case.

MORNING NEWS OVER THE WIRES

Dr. H. A. Garfield, president of Williams College, has been appointed fuel administrator for the United States by President Wilson. Prices of anthracite coal have been fixed at from \$4 to \$4.50 at the mines. This is not a great reduction but a substantial saving to the consumer is expected from the elimination of the brokers' charges of several dollars per ton. The United States has arranged to loan Russia another \$100,000,000. Mrs. Allan Renton of Stillsville died yesterday as the result of injuries sustained while driving a hay fork. One

Is the Small Car an Economy When You Have to Sacrifice So Much?

NEXT to buying a home, a car is perhaps the largest purchase you'll ever make. It involves real money. It ought to be correspondingly considered.

The amount involved in the purchase of an automobile is too big a sum to spend just on some friend's recommendation or some salesman's talk. Look at it as an investment. Think of next week, next month, next year.

Think whether you are going to climb out of the new car a week from now, tired and cramped because it is too small for touring—whether you are going to be able to take a few friends on a trip and have them comfortable—whether the car will stand up for years of hard service and ALWAYS be ready for use, and if you should desire to re-sell or trade in, will have the least possible depreciation from its original price.

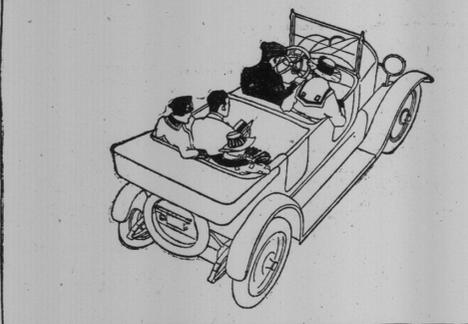

Think of the future—think of the way you would buy your home—how you wouldn't let a few dollars stand between you and perfect satisfaction—then decide whether it is true economy to buy a car that you will soon find lacks the essentials of motoring satisfaction.

When you buy such a car you may save a little money on the original price, but you must make sacrifices.

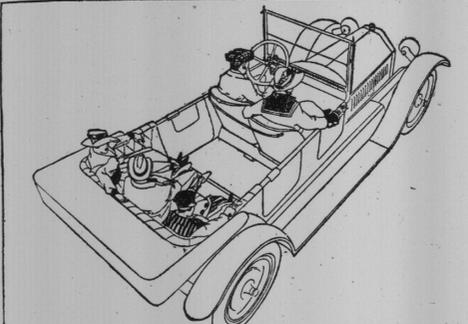

In a Studebaker car you get power enough for any hill, power that will pull you through the deepest mud and sand; comfort at any speed, roominess that small cars do not have; and high quality materials and accurate workmanship combined with the accessibility and adjustability that actually make upkeep and operation charges for a period of three years less than those of any small car.

Think it over. Then see the car that is built to give all the necessary essentials at the lowest possible price, the car with a twelve months' guarantee.

Nearly every automobile manufacturer has made an increase in prices, but Studebaker prices still remain the same as they were last Spring. This further increases the value of Studebaker cars in comparison with all others, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

THINK IT OVER.

Who are the saviours of the country and the Empire? Our Conservative friends, of course. Let us proceed to prove it.

Conservative election committees have been at work in this city for the last few weeks. These committees represent the active power of the party which organizes for elections, dispenses patronage, and makes war upon the disloyal Grits.

Ever since the National Service scheme blew up, the government has abandoned recruiting, or rather, has devoted less attention to it than formerly. As a matter of fact, the government never carried out any national recruiting plan, with real national leadership and financial backing.

The government maintains 8,000 officers in London, at a cost, approximately, of \$400,000 a day, although it is known that half of the 8,000 cannot possibly be usefully employed in England at this time.

Suppose the government, instead of devoting its energies to preparation for the coming elections, were spending \$400,000 a day in Canada in an honest effort to make the voluntary system a success.

Suppose the government had abandoned partisanship and patronage committees, and political appointments, eighteen months ago. Suppose that it had cut out proffering, and controlled prices, and dealt resolutely with the big interests.

Suppose, in other words, it had devoted all the brains and energy at its command to the work of unifying Canada for more complete devotion to the work of winning the war.

Suppose the government had abandoned partisanship and patronage committees, and political appointments, eighteen months ago. Suppose that it had cut out proffering, and controlled prices, and dealt resolutely with the big interests.

Suppose, in other words, it had devoted all the brains and energy at its command to the work of unifying Canada for more complete devotion to the work of winning the war.

cast about for Liberal assistance, and under circumstances which he had created and which made it impossible for Sir Wilfrid Laurier to join him.

If Sir Robert Borden now succeeds in patching up his ministry by the addition of a few Liberals and Independents it is quite possible that the so-called union government would be defeated on the first vote in the present House of Commons and that Sir Robert Borden would be forced out of the leadership. Even that would be better than to go on for a time with a patched up ministry which could not command the confidence of Canada.

The Conservatives everywhere, who are talking so much about winning the war are not all dishonest, of course, but the most active among these promoters of union and coalition are obviously men who are interested in winning the elections rather than the war, and who hope to perpetuate the party hold upon the spoils of office.

The Borden government during the last twelve or eighteen months had devoted its energy to recruiting the thought and the energy and the organization that it has devoted to partisan politics, Canada would have got along even better with the voluntary system than Australia has done, and Australia has not gone out of the war, is not going out, and is maintaining five divisions at the front as compared with Canada's four.

A Washington report to the New York Times says that a new situation involving Russia's participation in the war has caused disquiet in official circles there. It concerns military conditions and, while those who are aware of its serious character are extremely reticent, there is said to be reason to believe that the despatches from Berlin with reference to a German drive on the Riga front tell part of the story.

The list of honors conferred by King George, published today, is but a partial one. Probably there are some Canadian names which the complete list will reveal. Many women are included, and a notable feature is the distinction conferred upon workers of both sexes who have rendered special service in manual or other work in the war.

The British Columbia saloons are to be closed on October 1. Canada is now being closed to coast to coast, with the exception of a portion of Quebec. It remains for the Dominion government to add the finishing touch.

How can Halifax people get hard coal at \$18.50 while St. John householders have to pay more?

Following are the distances to strategic bases in Germany and records of some long distance non-stop flights: Grimby, England, to Kiel Canal, 440 miles. Spaulding, England, to Berlin, 860 miles. London to Hamburg, 687 miles; to Berlin, 746 miles. London to Essen, Dusseldorf and Mulheim, 300 miles. Bar le Duc, France, to Essen, Dusseldorf and Mulheim, 236 miles. Ipswich, England, to Zebrugge, Belgium, 91 miles. Lieut. Marchal of France flew over Berlin on June 20, 1916, when flying from Nancy to a point in Russian Poland (more than 800 miles). He dropped proclamations instead of bombs upon Berlin.

As one more week comes to an end it is said at Ottawa, as on many former occasions, that the political crisis is likely to come to an end within a few days. Ottawa expects that the efforts to form a union government will be known to have failed definitely, or to have succeeded in some measure, by the early days of the coming week.

The time for a union government was before Sir Robert Borden announced his resignation policy—about a year or two before that. The sort of union government that was needed was one including the stronger men of both parties who not only with respect to recruiting but with regard to all-round patriotic service in Canada. Had the Prime Minister made union proposals two years ago, or even one year ago, before the National Service fiasco took place, it would have been possible, no doubt, to have secured a government which would have commanded the confidence of the country and which could have carried on voluntary recruiting in such a manner that conscription would never have become a live issue after their blunders and their partisanship, in fact their general inefficiency and disregard for the public interest, had reduced voluntary enlistment from 80,000 men a month to about one-seventh of that number.

Sir Robert Borden never mentioned coalition, or union, or national government, until his party was seen to be facing inevitable defeat. Then he began to

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES"

MR. MARRIOTT, 78 Lees Ave., Ottawa, Ont., August 9, 1915

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives,' I thought I would try them. The result was surprising. During the three and a half years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives,' and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

During an extended drought, down in the land that inspires the ragtime song writers, the "Rev-end" George Washington called a gathering of his colored brethren to supplicate the Lord for rain. Before he opened his sermon, the "Rev-end" surveyed his congregation critically, and with increasing dissatisfaction. At last he lamented: "De lack ob faith ob yo niggers is scandalous! I want de drought dat is burning up our fields, and to bless us with rain in abundance. And not one, no sah, not one ob yo dignitary sinners had faith enough to bring an umbrella to go home with."

ROYAL HOT WATER BOILERS and Imperial Radiators

By all the tests to which a Boiler can be subjected, the Royal Boiler makes a record of almost one hundred per cent. The scientific construction of the water channels; the arrangement of the fire chamber and flues; the quickness with which heat is taken up by the water, lessening the amount of fuel required; the air-tight joints, preventing waste of fuel by ungenerous drafts; the strength of the materials; the convenience of all parts; the ease of shaking and ash disposal; all explained in our Booklet are reasons why you should insist on having a Royal Hot Water Boiler.

The latest improvements in our Radiators have doubled their power of quick and sustained heating. For graceful lines and beauty of proportion, Imperial Radiators are unequalled.

Write for Free Illustrated Booklet containing all particulars. Our Engineering Department is at your service and will cheerfully furnish full information as to the best method of heating your house, store, factory, warehouse or building of any size or description.

Prices In Time Of Civil War Bangor Paid \$18 for Flour in 1864 and Sugar Went up to 34 Cents a Pound—Molasses, \$1.20 Gallon

(Bangor Commercial) To older residents of Bangor who had charge of family purse strings during the Civil war, present high prices of food are not so sensational as they may seem to those who have never known such figures before. In 1864, the best grade of flour sold at \$18 a barrel in Bangor, a mark that has not been excelled at that time, when people are told that the world is facing famine. Latest quotations on flour in Bangor are now \$12.75 to \$18, and there are prospects that Food Dictator Hoover, whose position was unheard and undreamed of in the late unpleasantness, may send the cost still lower.

Other prices during 1864, the year of top food figures, are taken from the day book of M. S. Jackson, a Bangor grocer during the war: Sugar, 84 cents a pound; cream of tartar, 60 cents a pound; butter, 50 cents; potatoes, 82 a bushel; eggs, 35 cents a dozen; brown sugar, 29 cents a pound; kerosene, \$1.10 a gallon; tea, \$1.50 a pound; molasses, \$1.20 a gallon; lard, 25 cents a pound.

In the year of war, 1917, butter is selling at 45 to 50 cents a pound; cream of tartar, 65 cents; flour, \$12.75 to \$18; eggs, 48 to 50 cents; lard, 25 cents; sugar, 10 cents; potatoes, \$2; kerosene, 12 cents a gallon; molasses, 17 cents a gallon; brown sugar, 34 cents a pound; tea, 30 to 50 cents a pound; starch, five cents.

So it can be seen from these quotations that in most things, Bangor is better off than in the war price period of the Civil conflict, and in other commodities prices are higher now, although they are few. By a coincidence, potatoes are the same price now that they were in 1864, \$2 a bushel.

In 1861, when normal old-fashioned low prices prevailed, Bangor quotations on some of the commodities were: Butter, 18 cents; eggs, 12 cents; kerosene, 42 cents; sugar, 11 cents; starch, 10 cents; saleratus, 8 cents; best tea, 75 cents; flour, 85.

Five dollar flour! It is a dream of the past and probably never will be known again, to the regret of householders who can remember those good old days.

One reason for the high prices of the Civil war, beyond the loss of production caused by farmers and workmen dropping their implements of peace to take up the sword was the fluctuation in the price of gold. Soon after the war broke out, gold became a commodity, varying in price like steel and copper. It rose steadily during the war. At one time, it took \$2.60 paper money to buy \$1 in gold. The United States did not take paper money for customs, and merchants who imported goods had to pay in gold. If a merchant bought gold at \$2.75 one day and took his goods out of bond, and next day his competitor

was able to buy gold at \$2.40, and too the same kind of goods out of bond, the second merchant could undersell the first. This happened in Bangor more than once and had a direct influence on the cost of living, the violent fluctuation in gold causing similar changes in the prices of many common articles.

When peace was declared, the bottom dropped out of the market at once. J. C. White, a leading Bangor merchant was with A. T. Stewart, New York several pieces of cassimere, paying \$1.6 a yard. Stewart was paying \$2.60 for the same goods, having made a contract the previous year to take all the produce of a certain mill at that price.

These are very painful, and their attacks often sudden, and sometimes fatal. The principal seat is in the stomach and bowels, producing severe twisting cramping pain, and often accompanied by vomiting. If you are troubled in this way, there is only one remedy to cure you, and that one is Dr. Fowler's Extract of Wild Strawberry. It has a record of cures extending over seventy years, and we have yet to hear of a case where it has failed to either relieve or cure.

Beware of imitations and substitutes sold by unscrupulous dealers for the sake of greater profits, as these no-name preparations may prove dangerous to your health. Mrs. H. Miller, 785 Mark street, Port William, Ont., writes: "Last summer my husband came home from work, and could hardly straighten up for cramps. The first thing I gave him was a dose of Dr. Fowler's Extract of Wild Strawberry, and I hadn't repeated it very long until he was all right again. It is the only remedy I give my children in the summer for cholera or cramps in the stomach. I have never been without it in the house for the last two or three years." Price 50c. **MUCH PESSIMISM
PREVAILS IN RUSSIA**

Feel That Base Whereon They
Stand is Insecure

Finland Is Restive—Wants Coun-
try Evacuated, But Russia To
Feed and Defend It

London, Aug. 24.—The Times' long de-
spatches from Petrograd tells of the ex-
traordinary effect of Lloyd George's
speech on the Stockholm developments
and Henderson's resignation. Premier
Kerensky and Aleksiev, minister of
the interior, addressed the executive com-
mittee of the Workmen's and Soldiers'
Delegates. The correspondent notes that
Kerensky for the first time received un-
iversal and Aleksiev slight applause.
The support of all the elements which
count in Russia today, it cannot be dis-
guised that government circles are afflicted
with pessimism due to the feeling that
the base whereon they stand is insecure.
The prospects of an agreement at the
Moscow conference on August 25 are
not bright. It may reasonably be ex-
pected, says the correspondent, that when
the proceedings are ended the mainte-
nance of a coalition government must be-
come impossible. Russia will then be
ruled by individual authority or else
ever that semblance of government. Re-
organization of the armies and full mili-
tary control of the railways are main is-
sues. Exclusion of politics from the
army, without which discipline is impos-
sible, is inconsistent with the electoral
agitation among the troops in the rear.
On the other hand the indefinite post-
ponement of the Constituent Assembly
runs counter to the main plank of the
Socialist platform.
Although the question of the continu-
ance of the war has not been broached
by any serious body of public opinion
there appears confusion regarding the
measures necessary to assure Russia's
fighting efficiency. No such confusion
prevails at the front. Kornilov's report-
ing stern measures, effective control of
railroads, and modification of the powers
of the committee organizations, Stevens,
American expert, urges a special railway
dictatorship for the rest of the war.
The provisional government has taken
a stand on the subject of Finland, where
a general strike is threatened. The ques-
tion is, who shall have supreme author-
ity. The Finns demand that Russia shall
evacuate the country but continue to feed
and defend them. The provisional gov-
ernment has ordered the military to dis-
perse and dissolve the Diet should it
meet. The provisional government de-
clines to abdicate its power pending a
meeting of the constituent assembly.
The provisional government agrees with
the Finnish point of view, but cannot re-
spond to the Finns' demands instantly. A
rather similar situation exists in regard
to the Ukrainians, who also appear to
want the most serious questions all set-
tled in a minute.

Rev. Father Xavier, Now in Saint

Nigeria

(New Freeman)
Rev. Father Xavier, C. S. Sp., a mem-
ber of the great missionary Holy Ghost
Order, residing in Detroit, Mich., preach-
ed in the Cathedral last Sunday. He is
visiting his brother, Father Joseph, who
is sick in St. John's Infirmary where he
has just undergone a serious operation,
performed by Dr. Kelly.
Before the war broke out Father Xav-
ier was a missionary in British Nigeria,
on the West Coast of Africa, where he
spent twenty years, from 1898 to 1918.
During that time he was chosen twice
by his superiors to give lectures in the
United States in aid of the Nigerian mis-
sions.
Father Xavier's mission alone is more
than 80,000 square miles, and includes

**Early Fall Presentation of
Society Brand Suits**

This particular brand of clothes is so well and favorably
known that it needs little or no introduction, and is famous be-
cause of distinctive style, excellence of tailoring and extra
wearing service.

To those who follow closely fashion's dictates, we would
say: In the new models for the coming season there is a ten-
dency towards a little longer coats—lapels are a trifle wider,
slightly rolled—shoulders are a little wider and suggest the
"military" influence, altogether giving a graceful, stylish effect.
These and other minor details are brought out with good effect
in our **SOCIETY BRAND SUITS**, which you should see.

THE WORST POSSIBLE
Conditions in Syria and Palestine are
declared to be the "worst possible" by
a refugee who fled from there and by
circuitous routes has just reached New
York and reported to the American
committee of Armenian and Syrian re-
lief.

The committee's informant, whose
name is withheld, said there were 8,000
cases of typhus in Beirut when he left,
owing mainly to a lack of medicine and
scarcity of doctors. The poorer classes
have been wiped out by starvation, he
said. In Lebanon he saw many villages
and towns without a single inhabitant.

**HIGH HEELS PUT
CORNS ON TOES**

Tells Women How To Dry Up a
Corn So It Lifts Out
Without Pain

Modern high-heeled footwear buckles
the toes and produces corns, and many
of the thousands of hospital cases of
infection and lockjaw are the result of
woman's suicidal habit of trying to cut
away these painful pests.

For little cost there can be obtained
at any pharmacy a quarter of an ounce
of a drug called Freestone, which is
sufficient to rid one's feet of every hard
or soft corn or callus without the
slightest danger or inconvenience.

A few drops applied directly upon
the tender, aching corn stops the sore-
ness and shortly the entire corn, root
and all, lifts right out. It is a sticky
substance, which dries the moment it
is applied, and thousands of men and
women use it because the corn shrivels
up and comes out without inflaming or
even irritating the surrounding tissue
or skin. Cut this out and try it if you
corns bother you.

**WHEN YOU HEAR OF
GOOD IN PEOPLE**

When you hear of good in people—tell it.
When you hear a tale of evil—quell it.
Let the goodness have the light.
Pull the evil out of sight.
Make the world we live in bright,
Like the heaven above.

Have you any wrong to right? Right it.
Do you have a sin to fight? Fight it.
God Himself will help you win.
Let His spirit enter in,
Making right the heart within,
Fit for heaven above.

—John Sterling.

**Why Whole Wheat Bread
in War Time?**

That the motherland makes the War Loaf, and
other food products, from Whole Wheat Flour
is due to the fact that in Whole Wheat Bread
there is much more nourishment, pound for
pound, than in white bread, thus effecting econ-
omy, besides which Whole Wheat Flour costs
less.

THE WAY TO SPEND IN TIME OF WAR
We in Canada have long possessed the habit of spending money more generously than do most other peoples. Many who have responded to the appeals for war economy and are saving money regularly feel cramped and hemmed in by their inability to spend.
A way has been provided for the spending of money in wartime. Every person can spend wisely and well any amount up to \$1,000. The thing to do is to buy War Savings Certificates. The advantage of spending in this way is that the spender is assured of his money's value and something more, since he draws more than 5 per cent interest. In three years his \$12.50 comes back to him at \$25, his \$50 at \$90 and his \$88 at \$100.
Money can be spent on War Savings Certificates at any Bank or Money Order Post Office. The man or woman in Canada who has money to spend and feels the desire to spend it should go right down to one of these and get a certificate.

Cowardly And False Attack On St. John Member

Speaker Upholds Hon. Dr. Pugsley in Dispute

Amendment Defeated

All Members of C. E. F., Whether Canadians or Not, May Vote at General Elections—Debate Was Acrimonious

Ottawa, Ont., Aug. 24.—When consideration of the military voters bill was resumed in committee in the commons today, in reply to Hon. Charles Murphy, the minister of justice stated that conscripted men would not be military voters unless their names were actually placed upon the roll. He said also that Hindoo members of the expeditionary force from British Columbia would have a vote. Every person, male or female, being a British subject, whether a minor or an Indian, any person ordinarily resident in Canada, in the expeditionary force would be given the franchise.

A strenuous debate followed the moving of an amendment by Hon. William Pugsley to prevent members of the Canadian forces who were not ordinarily residents in Canada, being given the right to vote. Dr. Pugsley argued that under the phraseology of the clause, a man might be given a vote who had never been in Canada at all and it was not desirable to give men such right to take part in the civil life of Canada. It was worse, he said, when it was realized that a non-Canadian who knew nothing of Canadian affairs, would be given the right to select his constituency. It might turn the election in many constituencies.

W. M. Gorman, of Welland, who seconded the amendment, declared it was an outrage on the civil rights of Canadians and an outrage on the soldier electors of Canada who were fighting the battles in the trenches. The votes of non-Canadians could be placed in constituencies where elections were won or lost by less than 100 votes. Residential manhood franchise was the only franchise in Canada except in the case of Canadian soldiers who had gone to war.

W. S. Middlebrooke stated the attitude of Mr. Pugsley and Mr. Gorman. He said he knew of Canadians living in the United States, who when they broke out, threw over lucrative positions and joined the Canadian forces. These men were more entitled to the franchise than he himself was and he declared that when men who went overseas to take their lives in their hands, they were not thinking of little party politics.

James Arthur, of Parry Sound, remarked that while Mr. Pugsley was talking about preventing soldiers from voting, he was saying nothing about preventing men voting who had come over to Canada to take the places in munition and other factories of the boys who had gone to do the fighting.

Dr. Edwards' Outbreak

Dr. Edwards expressed surprise at the attitude of Dr. Pugsley. He declared that ever since the war started that gentleman had consistently opposed helping the boys at the front.

"He has opposed most consistently any assistance to our boys overseas," said Dr. Edwards, he declared "he has not done his part as a citizen of Canada, apart altogether from his duty as a representative in this house, in trying to get recruits in this country. Let me ask you, Mr. Chairman, which will have the better right to cast his vote in this election, the man who came from the United States, we will say, into Canada, a British subject, who signed up and went overseas and is risking his life in the defence of this country, or a young man who in the fall of 1914 when we none of us knew how long this war was going to last, took out his commission as a lieutenant down in the city of St. John, and when the war showed that things were not going to be ended in a short time and the risk was great, took off his uniform after drawing some pay and preferred to run a garage in the city of St. John rather than go overseas and fight. The name will be found in the Militia Gazette, his name is Pugsley, Lieut. J. A. Pugsley, who took out his commission as a lieutenant in November, 1914."

Mr. Pugsley—"I desire to state that the statements made by my hon. friend are absolutely false. I desire to say too, sir, that it is a cowardly thing to attack a young man behind his back who is not here to speak for himself. It is cowardly."

Mr. Edwards—"I ask your ruling Mr. Chairman on that statement or remark of the honorable friend for St. John and ask that it be withdrawn. He said that a statement which I had made was false."

Mr. Pugsley—"Yes, I repeat it."

Speaker Upholds Dr. Pugsley

The Chairman—"The honorable gentleman from St. John said that statement was false. I think under the rules, he could have said that....that the statement was false...."

Mr. Pugsley—"Hear, hear!"

Mr. Edwards—"Mr. Chairman, may I also ask you in regard to the word 'cowardly' is that also in order?"

The Chairman—"As to the other words complained of, the honorable member for St. John used the expression, a 'cowardly attack.' The word 'coward' was applied to the attack, and not to the honorable member who was speaking."

Mr. Edwards—"Then Mr. Chairman,

I want to tell you, and to tell this house, that the honorable member for St. John, an old member of this house, stood up in his place and made statements that were absolutely false and were cowardly in the extreme."

Some honorable members: "Hear, hear!"

Mr. Pugsley—"Put that in your pipe and smoke it."

Mr. Edwards—"I am not smoking just at present. I think the fumes are right up to the honorable gentleman from St. John. He is the one who is smoking and he is the one who is uncomfortable just at present."

Mr. Pugsley—"I am perfectly comfortable."

One Remark Withdrawn.

Mr. Chairman—"With reference to the words put that in your pipe and smoke it."

Mr. Pugsley—"I beg respectfully to withdraw that remark."

Mr. Edwards—"I may say that I think the honorable gentleman from St.

John will do a kind of smoking other than his pipe, if he does not mend his ways. At page 674 of the militia list, at the top of the page I find—22nd Regiment, St. John (N. B.), Lieutenant J. A. Pugsley, 17th November, 1914. May I ask the honorable member for St. John his son or not?"

Mr. Pugsley—"After the statement of the honorable gentleman, sir, I would decline to have any intercourse with him. I desire to repeat, that the honorable gentleman did not merely confine his statement to the fact that that young man had a commission. His statement went further. He made statements which I declare to be absolutely false. I repeat it and can prove it at any time."

Mr. Edwards—"I am more than borne out by the attitude of the honorable

member for St. John. He puts himself in the position here this afternoon of absolutely disowning his own son. The only statement I made in reference to the honorable gentleman's son was this. It was in the form of a question of whether or not a man, a British subject, who had resided for some years in the United States and came over here to Canada, put on the uniform and kept the uniform on, and went over and risked his life in the trenches, was not more entitled to a vote than the man who put it on for a brief space of time and had not even a rank, and then took his uniform off and went running a garage in St. John instead of running a machine gun at the front. Why should the honorable gentleman from St. John not answer? It is a simple question. The honorable gentleman is moving

an amendment to cut out men who have gone over to risk their lives for Canada. He has said that they should not be allowed to cast a ballot in the election to say who shall represent this country for the next five years. I take issue with him and I say that they should, that those men are entitled to every consideration."

"I confess if I were one of those men and I was aware of what is going on in this house, and aware of the attitude of the hon. member for St. John or the hon. member for Welland, had had any choice and could say where my ballot could be counted, I would say 'Count it in St. John, and count it against the hon. member for St. John. He has shown he does not want to back us up, and does not want to help the boys in the trenches. Let me get a crack at him as well as at the

Announcing New Series "E" McLaughlin Leaders in All Points of Merit

The New McLaughlin Models Eclipse all Previous Standards of Beauty and Value

EVEN more graceful in design with greater power the new series "E" more than maintains the supremacy accorded "Canada's Standard Car" for eight successive seasons.

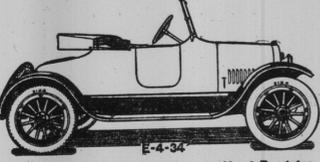

The famous McLaughlin valve-in-head motor develops more power than any other type of motor of the same bore and stroke, and develops this reserve power with the minimum gasoline consumption. Every mechanical feature of McLaughlin cars has been perfected to the same high standard of efficiency as the motor.

McLaughlin designers and engineers have built 12 body styles of rare beauty—worthy masterpieces of our coach builders' art. This complete line of 12 new models built in one group of factories and distributed by 12 branches and over 300 dealers from coast to coast includes a car for every need.

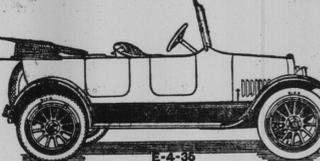

These designs anticipate the coming styles—pleasing, artistic, without a freakish line. See the new series "E" before you buy your car.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the summer than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach disorders come without warning and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the home where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will cure the baby.

Mrs. Chas. Anderson, Minda, Alta, says: "Baby's Own Tablets are the best medicine for little ones who are suffering from a weak stomach. They cured my baby when suffering from stomach complaint and have made her a fine healthy child." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

"It would be an act of retributive justice, if some of those men had an opportunity to cast their ballots in St. John in order to leave in St. John the member who has disgraced the city of St. John by his own attitude in this house.

Mr. Fugaley—"There are some members of this house who so far forget themselves, that no hon. gentleman would demean himself by replying to them. I should say one member, for there is one who has on many occasions, shown himself unworthy of anybody's respect. My hon. friend from Frontenac will know to whom I refer. He says that I have given no support to the boys at the front. I do not know the age of my hon. friend, but I am beyond the age when I could go and fight for my country. All that I can do is to contribute of my means to assist our country in the great struggle that is now going on. I have made no boast of what I have done but I am willing to let my record stand side by side with that of any other man in this or any other country. Those in my own home city know that with respect to those of my relatives who have gone to the front, or those formerly in my employ, I have done all that I could do."

Mr. Edwards—"I also am above military age.

TEXAS GOVERNOR OBJECTS.

Refuses to Tell Legislature Names of Men Who Loaned Him \$150,000

Austin, Aug. 24—Declaring that he would rather lose his office and be plunged into bankruptcy than divulge the names of the men who loaned him \$150,000 some time ago to settle his indebtedness, Governor Ferguson, testifying at a hearing of impeachment charges against him contended the transaction was a private affair and refused to answer questions regarding it.

Representative Bryan, judge of admissibility of testimony at the hearing, which is being held before the House as a committee of the whole on charges preferred by Speaker Fuller, took under advisement the question of whether the governor should answer.

MAKE DRAFT JOKE SERIOUS

Board Refuses to Release Youth Under Age Who Registered

Montclair, N. J., Aug. 24—George Hemmingway, who appeared before the local exemption board when notified to present himself for examination and stated that he had registered as a joke on his friends, finds that his joke has been taken seriously. He said he was under age at the time and later filed a New York birth certificate with the board in support of his contention.

The board was of the opinion that as he had registered voluntarily and was accepted by the examining physicians, they had no other course than to certify his name. He was told that any appeal should be made to the division board.

When the train stopped at an inland Virginia station the northern tourist sauntered out on the platform. Beneath a tall pine stood a lean animal with scrappy bristles. The tourist was interested.

"What do you call that?" he queried of a lanky traveler.

"Razorback hawk."

"Well, what is he doing rubbing against the tree?"

"He's stropping himself, mister; jest stropping himself."—Harper's Magazine.

THE GROCERY MARKET

The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week: New prices on canned peas have been announced by the canners which will mean a price on new pack to the retail trade will be \$1.70 a dozen for standard peas. The pack has been very disappointing as hot weather cut short the pack much sooner than was anticipated as late as two weeks ago. The consequence is that canners say they will be able to fill only forty per cent. of their orders. New prices on canned salmon have not yet been named, but it is anticipated they will be high. Authentic advices from the coast state that the run has not been over 75 per cent. of what it was in 1916, the year of the previous big run. Canners had stocked up with cans in preparation for the run and their stocks of containers will be larger than their needs. Labor difficulties have furthermore added to the

expense of packing. Only about 70 per cent. delivery of orders will be made on canned strawberries. Canned cherries on the other hand have been in good supply and 100 per cent. delivery will be made on these. Outlook for canned tomatoes is yet in doubt. Weather conditions have been favorable within recent weeks, but wet weather of spring gave the plants a big growth and this may militate against heavy production. Sugar has been a commodity of more than usual interest during the week. Two refiners have been unable to make deliveries of granulated for some days past and the demand is keen on the part of wholesalers, indicating a good consumption. Prices have held firm at last week's advances in the face of a continued strong situation in Cuban raw sugars.

Advances have been recorded in meats of various kinds, butter, eggs, cornmeal, pickles, soap chips, cattle soap, soups, condensed milk, lobsters, peanut butter. There is a disposition to look for lower prices in corn products, due to a big slump in the price of corn in the United States. Flour held in steady market and the prices on millfeeds settled down somewhat during the week. Business in grocery lines shows some improvement.

AN AGE OF WEAK NERVES

"No heart for anything," is the cry of thousands of men and women who might be made well by the new, red blood Dr. Williams' Pink Pills actually made.

Misery day and night is the lot of hosts of men and women who are today the victims of weak nerves. Their pale, drawn faces and dejected attitude tell a sad tale, for nervous weakness means being tortured by morbid thoughts and unaccountable fits of despondency. These sufferers are painfully sensitive and easily agitated by some chance remark. Sleeplessness robs them of energy and strength; their eyes are sunken, their limbs tremble, appetite is poor and memory often fails. The nervous exhaustion is one of the most serious evils affecting men and women of today. The only way to bring back sound, vigorous health is to feed the starved nerves which are clamoring for new, rich, red blood. This new, good blood can be had through the use of Dr. Williams' Pink Pills, which fact accounts for the thousands of cures of nervous diseases brought about by this powerful blood builder and nerve restorer. Through the fair use of this medicine thousands of dependent people have been made bright, active and strong.

Dr. Williams' Pink Pills are sold by all dealers in medicine or may be had by mail at 60 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

FOLLOWING THE FLAG.

Slang, Cocktails, Ice Cream, and Gum in the Procession.

The talk about the song, "Canning the Kaiser," which puzzled our British cousins, has brought out a number of other things besides our slang that "follow the flag." George Ade once had the cocktail "following the flag," but those were the old days. All that is changed now. Instead of the cocktail, it is the ice cream cone. This American invention appeals strongly to the French taste. It would, perhaps, have made a path for itself in France without the flag, for the French Commissioners, when here, were loud in their praises of the invention, which was then unknown in any section of Gaul. Ice cream they knew well enough, but the idea that it could be tamed and eaten out of the hand in an edible receptacle was to them a new idea. They fell for it with enthusiasm. The Frenchman likes to take his gustatory pleasures at a sidewalk table, where he can watch the world go by. But France has been speeded up since the Prussian attempted to overrun it. The Frenchman will find that he can go about his work and still enjoy the pleasures of the palate by use of the ice cream cone. It is an American idea and a good one. The cone will "follow the flag," too. To be sure, the gum was there before the war, but merely as a curiosity. Had this war been fought in 1880, chewing tobacco would have "followed the flag" abroad. Today it is the gum that relieves the nervous strain of the American under somewhat unfamiliar conditions. These are some of the things that will "follow the flag." And we are hoping that a better state of world affairs will follow it, too.—Minneapolis Journal.

THE UNEXPECTED WILL HAPPEN

(Exchange.)
Midsummer—and the beginning of the fourth year of the world war! It is a time for solemn thought, if the weather were not too warm for thinking and if the fact were not perfectly clear that thinking doesn't do much good anyway. The daily papers have devoted many columns to review and resume of the leading features of the great conflict. They have told how it started, but we all knew that before; nobody can tell

what all of us want to know—how and when it will end.

Thrones have toppled and kings have fled. A little Welsh lawyer has become the hope of Britain. The fate of millions hangs upon a thin, dark man in Russia whom nobody had heard of until day before yesterday. The only prophecy one can venture is this: The unexpected will happen.

USE THE WANT AD. WAY

WHERE ALL MUST WORK

(Bangor Commercial)

The compulsory work law went into effect in Maryland on Monday, and hereafter every male between the ages of 18 and 50, who are not engaged in some form of work, or students preparing for the same, must go to work, unless they are in the very few exempted classes or unless their physical condition does not permit. A system of registration has been conducted and qualified men who do not obey the law will be subjected to imprisonment for six months, a fine of \$500 or both.

The fact that a man has sufficient income to support him does not exempt him from the workings of the law which is for the purpose of increasing production and of helping the labor supply which is very short in Maryland.

The experiment in Maryland will be watched with great interest and if it proves successful will undoubtedly be duplicated in other states. The ill-

who are drafted for labor will receive the same considerations paid to others in similar work. They will receive the same pay and work the same number of hours.

Already the law has had its effects for thousands of men who were non-workers have gone to work performing to select their own vocations than to have them chosen for them by the state. It has also probably had its effect in causing removal from the state of men who are absolutely unwilling to work and therein Maryland is the gainer. While the present law is in vogue it is safe to predict that loafers and tramps will give Maryland a wide berth.

Doctor Says Crying Need of the Woman of Today Is More Iron in Her Blood TO PUT STRENGTH IN HER NERVES AND COLOR IN HER CHEEKS

Any Woman Who Tires Easily, is Nervous or Irritable, or Looks Pale, Haggard and Worn Should Have Her Blood Examined for Iron Deficiency. Administration of Nuxated Iron in Clinical Tests Gives Most Astonishing Youthful Strength and Makes Women Look Years Younger.

"There can be no healthy, beautiful, sex checked woman without iron," says Dr. Ferdinand King, a New York physician and author. "In my recent talks with physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have emphasized the fact that doctors would prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of the anaemic woman is pale, the flesh flabby. The muscles lack tone, the brain and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the sex goes from their cheeks. In the most common foods of America—starches, sugars, table syrups, canned, polished rice, white bread, sodas, crackers, biscuits, macaroni, spaghetti, aploca, sago, farina, degerminated cornmeal, no iron is to be found. Refining processes have removed the iron from Mother Earth from these impoverished foods, and illy methods of home cooking by throwing down the waste pipe the water which our vegetables are cooked in responsible for another grave iron loss.

"Therefore, if you wish to preserve your youthful vim and vigor as you would use salt when your food has not enough salt. "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away habit forming drugs and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their disease was nothing more or less than a weakened condition brought on by lack of iron in the blood. "On account of the peculiar nature of woman, and the great drain placed upon her system at certain periods, she requires iron much more than man to help make up for the loss. "It is also absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much you eat, your food never passes through you without doing you any good. You don't get the strength

out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of Nuxated Iron three times per day after meals for two weeks, then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring to do you any good, otherwise it may prove worse than useless. "I have used Nuxated Iron widely in my own practice in most severe aggravated conditions with unfailing results. I have induced many other physicians to give it a trial, all of whom have given me most surprising reports in regard to its great power as a health and strength builder. "Many an athlete and prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena; while many an other has gone down in ignominious defeat simply for the lack of iron." Dr. Howard James, late of the United States Health Service, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ill-physical weakness, nervous irritability, melancholy indigestion, flabby, sagging muscles, etc., etc.—and in consequence of their weakened, run-down condition they are so liable to contract serious and even fatal diseases, that I deem it my duty to advise all such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy." NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the other inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in nuxated iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 200 per cent. or over in four weeks time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days time. It is dispensed in this city by Wasson's Drug Store, and by all good druggists

CALL TO BANGOR PULPIT
Rev. J. Edward Hand is called to fill the Pulpit of St. John's Episcopal Church.

Rev. J. Edward Hand of St. Anne's Episcopal church of Calais has been called to fill the pulpit of St. John's Episcopal church in Bangor made vacant by the death of Rev. Leonard Walter Lott. The action in calling Rev. Mr. Hand was taken by the vestry and was ratified at a meeting of the parish held on last Thursday evening.

Rev. Mr. Hand has been supplying the pulpit during August and the parish has been greatly pleased with his work. During his stay at Calais he has established several missions one of which is at Woodland. Mr. Hand is married and has two daughters. It is understood that he will accept the call and will be ready to take up his new duties at the first of October.

ELEVEN DEATHS
Eleven deaths were reported to the local board of health this week as follows: Heart disease, two; pneumonia, drowned, pneumonia, meningitis, endocarditis, senile gangrene, cancer of brain and pernicious anaemia, one each.

WEST SIDE OFFICER RETURNS
Lieutenant John Belyea of West St. John arrived in the city this morning on his return from England, having reached Halifax yesterday. He went overseas with the 210th battalion and later has been attached to the 17th reserve battalion. He returns to enter a convalescent home for treatment.

H. C. HOCKEN EXPECTED
H. C. Hocken of Toronto, editor of The Sentinel, the weekly organ of the Orange Association, was expected to arrive in the city last evening and a meeting of the district lodges was called to give the members an opportunity to meet him. There was a large attendance but the guest of honor did not arrive, connections from Prince Edward Island making it impossible for him to reach the city last evening. He is expected to arrive in the city today. Mr. Hocken is a former mayor of Toronto.

DEATH OF A. J. STEPHENSON
Many will learn with regret of the death of Adam J. Stephenson, which occurred on Friday evening at his home at Upper Golden Grove after a long illness, in his sixty-second year. Mr. Stephenson was an elder in St. Paul's Presbyterian church, also member of the L. O. Lodge No. 8. He leaves to mourn, besides his wife, one daughter, Isabelle, and one son, John, both at home, also four brothers, William and Robert, of Portland, Oregon; Thomas, of Fredericton, N. B., and Frederick, of this city; also a sister, Mrs. M. A. Irvine, of Weyanwaga, Wisconsin. The funeral will be held from his late residence on Sunday afternoon at 2:30 o'clock.

TODAY AT CHRISTIAN CHURCH CONVENTION

Mr. Flagler's Report—Evangelistic Effort in St. John and Halifax Recommended

At this morning's session of the conference of the Churches of Christ for the provinces of Nova Scotia and New Brunswick, which is being held in Coburg street Christian Church, J. S. Flagler, secretary-treasurer of the Home Mission Board, presented his report. It showed that the total receipts had been \$913.44 and the disbursements \$483.81, leaving a balance of \$429.63 on hand. He also reported that C. F. Assiter of the North street church in Halifax, had consented to act as editor of the Christian.

L. A. Miles presented the ways and means report, which included resolutions as follows:
1. That a general offering be made by the churches on a named Lord's day in November.
2. That each Bible school make an offering on each Review Sunday for the benefit of the society.
3. That agents be appointed in each church to secure pledges and collect them regularly for this society and also act as agents for the Christian.
4. That the Young People's Society of Christian Endeavor in each of our churches be asked to make yearly contributions to this work.
5. That the policy of the society in the past, of keeping an evangelist in the field, be continued.
6. It is the mind of this committee that the executive of the society should arrange for a strong evangelistic effort in the cities of St. John and Halifax.
7. That the society undertake a systematic effort among the churches as to the execution of the above resolution and report progress.
Other reports were received. The conference will be continued this afternoon and evening and will be concluded tomorrow.

DRIED FOODS FOR SOLDIERS

Washington, Aug. 24—Dried foods may take the place in a large measure of canned goods for the American army abroad. The subject was discussed by officers of the quartermaster's department of agriculture officials. Representatives of the department are making arrangements now in the drying of vegetables and the department is having taken a census of concerns which dry foods.

Canadian food experts have been here for several days studying the subject of drying foods with a view to supplying the Canadian soldiers with large quantities.

EIGHT HOUR DAY ON INTERCOLONIAL

Arrangement By Management and Trainmen Made

Matter of Status of Yardmen Still to be Settled—Discussion Also as to Pay Allowance of Some of Men Overseas

The agreement between the management of the Intercolonial Railway and the representatives of the trainmen, under which the eight-hour day will become effective, has been arranged and now awaits only the settlement of some other matters not relevant to this issue, to become effective. Following the course of other railways, the Canadian government system has granted the men the eight-hour day and the new arrangement will be in effect before long. The change will not affect the number of hours which the trainmen work, as this is governed by the running time of their trains, but it will affect the rate of pay, practically adding twelve and a half per cent to the rate.

Representatives of the brotherhood have been in conference with the management for several weeks with regard to details of this and other matters affecting the trainmen and everything has been settled with the exception of one matter. This is the proposal of the management to separate the yardmen from the passenger and freight trainmen, a proposal to which the yardmen have been raising vigorous objections. It is said that the present system, under which a yardman is regarded as entitled to promotion to a position as conductor on freight or passenger trains according to his seniority in the service, has been in effect only a few years, that it is not effective on the transcontinental division of the government road or on any other railway. The management objects to it on the grounds that it has the effect of disorganizing the yard staff without adding to the effectiveness of other branches. One of the difficulties is said to have been the fact that men were quite willing to work in the yards during the summer, when they could make more money there than on the road, but when winter came, many of them sought transfers to the trains, to the constant detriment of the yard service.

The yardmen, on the other hand, object that there is no reasonable opportunity for promotion in the yards and that the only way for them to advance in the service is through the opportunity to transfer to the trains.

Both the management and the men are firm in their attitude, the head officials declaring that the two branches must be separated and the yardmen equally determined to oppose the change. So far there are no signs of agreement, but another conference will be held before long at which the matter will receive further consideration.

GUNNER E. K. BARTON IS KILLED IN ACTION

St. John Soldier Survived by Wife and Two Small Children

A young wife and two small children are mourning the loss of another of St. John's brave soldier lads who have given their lives in the cause for which the empire is at war. The news that Gunner Edward Kellen Barton had been killed in action on Sunday, August 19, is received yesterday by his wife, who is residing at 72 Main street, Fairville. Gunner Barton, who was twenty-eight years of age, resided in West St. John, and carried on a business as teamster until he enlisted. He went overseas almost two years ago with Major L. W. Barker's heavy battery and had seen considerable active service at the front. He is survived by his wife, two daughters, Viola and Pearl, his widowed mother, Mrs. James Barton, of Cumberland Bay, Queens county, and three brothers, Esau of this city and Robert and Herbert of Young's Cove.
