TURKS HOLD THE KEY TO THE SITUATION

No Word Yet of Effort to Cross Into Thrace

Trades Union Representatives Question Lloyd George—Tell Them Prompt Action Has Made It Easier to Preserve Peace in Near East.

(Canadian Press Cable) London, Sept. 21.—With progress reported to have been made in Paris yesterday toward solving the differences between France and Great Britain over the Near Eastern crisis, British officials expressed the opinion today that the key to the whole situation now lies with the Turkish Nationalists, from whom nothing has as yet been heard with regard to their intentions toward the neutral zone and crossing into Thrace.

Representatives of the British trades union congress waited on Lloyd George this morning to question him further with regard to the government's Near East policy and the general council of the trades union congress planned to consider this afternoon the report of its representatives.

In replying to the deputation the prime minister is said to have defended the government's action with clearness and spirit. He gave the labor men to understand that he was in perfect accord with them in desiring peace, pointing out that peace had always been the government's objective and that it had no intention of provoking war.

Meanwhile the Daily Herald, the official organ of labor sentiment today is vigorous campaign against war.

British Warning. Constantinople, Sept. 21.—General Harington of the British army as the general officer in chief command of the allied forces, has issued a communique in which he declares that any violation of the neutral zone will fall upon the authors of such violations.

Some People Say. Melbourne, Sept. 21.—The federal labor party of Australia has called the labor party opposing the opposition of the Australian labor organization to war without the consent of the Australian people.

Volunteers in U. S. New York, Sept. 21.—In a cablegram sent to Prime Minister Lloyd George last night, members of the Pan-Asian League, composed of Greek-Americans and Greeks originating from western Asia Minor, offered to join any British expeditionary force which might be formed against the Turks.

South African Opinion. London, Sept. 21.—The Johannesburg Star, in an editorial referring to Great Britain's appeal for troops for the Near East, accuses Premier Lloyd George of "thoughtlessness and tactlessness," according to a Reuter despatch from Johannesburg.

The Hand Mail takes the position that more information is desirable before South Africa commits itself definitely in the matter of the Near East. It questions the wisdom of what it calls the "hastened decision of Australia and New Zealand."

REV. G. F. SCOVILL NOW IS CANON

Honor Conferred on Former St. John Clergyman—Rev. W. P. Dunham Visits Guelph.

Many St. John people, and especially the congregation of St. John's church, West Side, will be glad to hear that Rev. G. F. Scovill, now rector of St. George's church, Guelph, Ont., and formerly rector of St. John's church here, has been honored by being appointed a canon of Christ Church Cathedral, Hamilton. Rev. Canon Scovill was well known in the city for his church work and his generous personality made for himself a large number of friends. The following appeared recently in the Daily Herald of Guelph, Ont.:

Large congregations assembled in St. George's Church at all the services yesterday. The former rector the Ven. Archdeacon Davidson, of Regina, was the celebrant at the early Eucharist, and preached at both the mid-day celebration and at Evensong. The Rev. W. P. Dunham of St. John's, N. B., also assisted the rector, the Rev. G. F. Scovill, a Canon of Christ Church Cathedral, Hamilton.

The annual harvest thanksgiving services will be held in St. George's next Sunday—the Bishop of Athabasca and the Rev. W. P. Dunham will be the preachers.

Peace Conference Soon, Probably In Venice or in Rome

Statesmen Adjourn the Paris Meeting to Sound Out Kemalists

Eight Nations at the Peace Table—British in Chanak Not Regarded as in Danger of Attack—Some Turks for War, Some for Peace.

(Canadian Press) Paris, Sept. 21.—The allied powers agreed upon the quick summoning of a peace conference to settle the Turkish problem, but the delicate question as to the basis of negotiations acceptable to the Ankara government is still to be answered.

It was principally to sound out the Kemalists on this score that the Entente statesmen yesterday adjourned their conversations until Friday, and today efforts were going forward to obtain the Turkish view.

In agreeing to summon around the peace table the eight nations principally interested in the Near East and the status of the Dardanelles and the Bosphorus, Premier Poincaré, Lord Curzon and Count Sforza consider they did a full day's work.

Such rapid progress was made, in fact, that the British foreign secretary's instructions did not cover all the points raised, and today he was consulting his government to prepare for the taking of further decisions.

The peace conference is expected to open within three weeks, probably in Rome or Venice, with delegates representing Great Britain, France, Italy, Japan, Turkey, Greece, Roumania and Yugoslavia.

In Constantinople. Constantinople, Sept. 21.—An important council presided over by the Sultan, was held last night at which the position of the Caliph was discussed in the event of the Nationalists forcibly taking Constantinople. The king, apparent and other principal personages were present, and measures for the protection of the Sultan were decided upon.

It is learned that there is not truth in reports that the Ankara government had decreed the abdication of the Sultan.

In both allied and Turkish circles here there is a growing belief that the next Near East conference will be held in Constantinople. It is understood the French and the Italians have instructions from their governments to endeavor to convoke the meeting at the earliest date possible so as to avoid a hostile move by the Nationalists.

Paris, Sept. 21.—There is no question of the immediate withdrawal of the British troops from Chanak on the Asiatic side of the Dardanelles. It was authoritatively stated in British official circles here today. The latest reports in British quarters from the Near East indicated that the British are not in danger of attack in their present position, and there were indications that the soldiers might remain in Chanak pending the peace conference.

Turks Divided. Mustafa Kemal Pasha is now faced with two distinct parties in his government, the one war-like and demanding the immediate occupation of Thrace, and the other pacific, and willing to remain in the present Turkish National positions in Asia Minor until the conference settles the peace terms. The British quarters, to which this information comes, believes that Kemal is supporting the pacific members of the government and will be able to hold the army in check.

Greece Needs Food. Athens, Sept. 21.—With thousands of refugees arriving daily from Asia Minor and insufficient wheat supply at home, Greece is confronting a food problem so grave that international help, given quickly, may alone save thousands from starvation.

Already some 200,000 refugees are here, having been dumped unceremoniously on the Greek shore or disembarked on the islands of the Aegean where not only food but water is lacking.

Some estimates place the number to be sent Greece at 500,000. The condition of the Greek treasury is unsatisfactory. Already the forced public loan carried out by reducing the value of paper money one half, has been practically exhausted.

Britain and Greece. London, Sept. 21.—An Athens despatch to the Exchange Telegraph says the Greek premier on Tuesday granted a lengthy interview to the British minister, who told him that Great Britain is counted mainly on the Greek army for the security of the Straits of the Dardanelles.

General Polymenakos, the despatch adds, has taken up his headquarters in Adriaopolis, and the government has decided to call to the colors the class of 1923.

Reported French Action. Athens, Sept. 21.—According to information received in official French quarters, the French navy occupied Mudania, on the Sea of Marmora, and insisted upon the surrender of several regiments of Greek troops who were trying to gain the city by embarking on board after their defeat by the Turks. Mudania is within the neutral zone of the Dardanelles.

London, Sept. 21.—The British headquarters at Chanak have advised the Christian, Moslem and Jewish civilians to evacuate the place, as, if the Kemalists advance on the town, it may be shelled, says a despatch from the Dimes Dardanelles correspondent under Tuesday's date.

TO STUDY NURSING. Friends tendered a farewell party last evening to Miss Margaret Lodon at her home in Waterloo street. Miss Lydon will leave soon to take up the study of nursing at Flushing Hospital, New York.

AN OUTSPOKEN CRITIC. Mr. Marshal Sir John Salmond, who severely criticized the Indian government for "starving" the air force on the frontier. The action of the government in declining to pass orders for spares and other necessities, for the force has been responsible, he says, for many fatalities.

Geneva, Sept. 21.—All the British dominions are declared by their representatives in the League of Nations assembly here to be favorable to submission of the Turco-Greek affair to the League of Nations.

The dominion delegations sent a joint telegram to Prime Minister Lloyd George urging submission of the question to the League of Nations. It is declared among these representatives that the dominions will be disposed to retain their complete liberty of action on this question if the British government refuses to listen to their request.

SKIPPER BOUND HERE FORCES "PROHIBITION NAVY" MEN TO QUIT

Points to Flag and Threatens to Shoot First Man to Board "Onward"

U. S. Liquor Seekers Attempt to Seize Yacht, but Captain Shears Sends Them Away—Question of How Far His Vessel was from Land.

(Canadian Press) New York, Sept. 21.—Captain Shears, bound for St. John, N. B., from Nassau, Bahamas, in command of the yacht Onward, said to have owned formerly by Henry and now flying the British flag, hurriedly fled at Uncle Sam's "prohibition navy" while riding at anchor ten or twelve miles off the New Jersey coast, it was learned when the rum chaser Hahn returned to port yesterday.

The U. S. prohibition officials suspected the Onward's cargo, which was listed as "assorted," consisted very largely of liquor, and they attempted to seize the yacht, but were forced to beat a retreat by the belligerent skipper.

Standing on deck with his right hand in his pocket, Captain Shears turned the yacht's searchlights on his pursuers and then asserted that as he was beyond the twelve mile limit he would shoot down the first man who attempted to board his vessel.

He was talking with First Officer Hall of the Hahn, and two customs inspectors, who had gone out to board the alleged rum runner. The government agents insisted that the Onward was only ten miles out, while Captain Shears equally insisted that he was twelve miles from the shore, and that he meant to use his revolver on any man who attempted to come aboard.

Meanwhile the Hahn was standing nearby with her one pound gun trained on the yacht. Beyond the three mile limit the customs agents are in charge of the rum chasers, and when the master of the Onward raised the question of distance from the shore further action had to be taken in accordance with the instructions of the customs men. They decided that it would be advisable to turn back and let the Onward alone for the time being.

Acting Collector of Customs H. C. Stuart sent a telegram report of the matter to officials in Washington. The department then called upon the attorney general for a ruling. Meanwhile another government boat has been sent out to learn the present position of the Onward and also to determine if possible the exact distance the yacht was from the shore on Tuesday night.

The Onward left on August 30 for the Canadian port, according to information received by Zone Chief John D. Appleby, in charge of the "prohibition navy" in this section.

Chief Appleby said last night that he had no doubt that the Onward was loaded with liquor. He said that Captain George V. Tawes of the Hahn reported that the Onward was loaded with the guard rails with the contraband goods.

Start at Home. New York, Sept. 21.—The New York Times this morning prints a pertinent editorial on the controversy over the seizure of British vessels by U. S. revenue officers beyond the three-mile limit. The paper holds that neither the U. S. political departments nor U. S. courts can remake international law, and adds:

"If the U. S. is so eager to seize whiskey-bearing craft beyond the three-mile limit, why doesn't it begin with the U. S. shipping board steam gin mills—Mr. Lasker's floating American islands of rum?"

COASTGUARD NAME MAY BE NO MORE. Committee Report on Admiralty Matters to British Government.

London, Sept. 21.—(Canadian Press)—If the recommendations of a special committee appointed by the government to look into the report upon certain admiralty matters are adopted as just reported by the committee, the name "Coastguard" will disappear and the British exchequer will save £270,000 a year.

In the place of the coastguard the committee recommends three organizations; first, an admiralty force to man the stations necessary to conform to the naval requirements; second, a board of trade force, to be called the coast watching force, to perform duties such as saving life and obtaining salvage from wrecks, and third, a so-called coast preventive force, under the board of customs and excise, to take over the duties in connection with the protection of revenue.

In case of an outbreak of war the first two forces would become a composite body, under admiralty orders.

MOTHER AND CHILD DEAD IN RESTAURANT. Langham, Sask., Sept. 21.—Mrs. Ida Nelson and little daughter, Ella, aged nine, are dead, the one a suicide, the other the victim of a draught of carbolic acid believed to have been administered by the mother. The bodies were found yesterday in a restaurant operated by Mrs. Nelson.

A fit of despondency is believed to have caused the mother to take her own life and cause the death of her daughter.

NEW TARIFF BILL IN EFFECT TONIGHT. Washington, Sept. 21.—President Harding today signed the tariff bill of 1922, making the new rates effective at midnight tonight.

DAVID PRESIDENT IS TO RECEIVE \$2,500 A YEAR

Members of Parliament £80 a Month and Traveling Expenses—Women Ejected from Gallery.

Dublin, Sept. 21.—During its session yesterday the Irish parliament fixed the salaries of the president of the Dail at £2,500 yearly; of the ministers and speaker £7,000; deputy speaker £2,000 and clerk of parliament £1,200.

Members of parliament are to be paid £80 monthly and given their railway expenses to and from Dublin. The salaries of the ministers are retroactive to last January.

Mrs. F. Sheehy-Skeffington, widow of the editor of the Irish Citizen who was executed in Dublin in 1916, interrupted from the gallery on a question about prisoners, and, together with another woman who had joined in her protests, was ejected.

QUEBEC ELECTIONS. Call Voters to the Polls in Next March—Taschereau Says it is Gossip.

(Canadian Press) Quebec, Sept. 21.—General elections in this province will be held in next March, according to information obtained here last night.

With the intimation of dissolution came the information that a redistribution bill adding five new electoral divisions to the eighty-two now existing would be announced in the speech from the throne. Two Montreal constituencies and a Quebec county will be divided while the Abitibi region will be given representation. The dissolution of the house is expected by middle of January.

There have been fifteen provincial general elections held since confederation, five of which took place during the present government, which replaced the Gouin administration in the second year of the present parliament. By-elections for the four vacancies will be delayed until then.

Among the important changes forecast in the cabinet to follow prorogation of the legislature and precede the elections, are the appointment of Hon. J. E. Perreault, minister of the province and Hon. Antonin Galipeau, minister of public works and labor, to the legislative council.

LATER. Quebec, Sept. 21.—Premier Taschereau today described the talk of a provincial general election as "silly gossip."

STONE AGE VILLAGE ON ISLAND IN LAKE SUPERIOR. Reported Archaeological Discovery Made by Expedition on Isle Royale.

Toronto, Sept. 21.—A Detroit special to the Globe says: According to a private despatch received here today from Duluth, Wm. P. Ferguson, a noted archaeologist at the head of the Ferguson Archaeological Expedition, working on Isle Royale in the greatest finds in the history of northwestern research. He has discovered the remains of a large stone age village covering many acres on both sides of the Sibley River, near Graham Falls.

ONE BODY OF THE 47 IS MISSING. That of Miner Who Wrote a World of Light.

Jackson, Cal., Sept. 21.—One body was missing today among those of the forty-seven gold miners who perished from gas nearly a mile down from the Argonaut shaft. By a whim of fate it was the body of Wm. Fessel, who wrote on the rock with the smoke of his miner's lamp a farewell message for all the doomed forty-seven. He wrote: "Gas getting bad. Three o'clock."

They were trapped by the fire above them. It is considered likely that Fessel's body was buried in a cave-in since the work of removal began.

Sacramento, Cal., Sept. 21.—The State Industrial Accident Commission has been instructed to cut away and preserve the portion of stone in the mine drift on which Wm. Fessel burned with his lamp his message from the forty-seven miners in the Argonaut mine.

EXCHANGE TODAY. New York, Sept. 21.—Sterling exchange steady. Great Britain, 48 1/8; France, 66 1/2; Italy, 42 1/2; Germany, 97 1/2; Canadian dollars 1-32 of one per cent discount.

NO MEETING OF THE CANADIAN CABINET TODAY. Not Likely Need of Canadian Troops, Says Rt. Hon. J. W. Wilson, M. P., of London.

Ottawa, Sept. 21.—(By Canadian Press)—Apparently the government is satisfied that the Near East situation is clearing. Following two days of almost continuous sitting, cabinet today is taking a recess. The ministers will not gather in council unless something should arise to necessitate a meeting. All the members of the government remain in the capital, however, and a meeting could be called at very short notice.

Ottawa, Sept. 21.—The seriousness of the situation in the Near East has been greatly exaggerated and that there is not likely to be any need of troops from the dominions for a possible war against Turkey was the opinion expressed by the Rt. Hon. J. W. Wilson, M. P. of London, who is a guest here of Canadian Club.

Ottawa, Sept. 21.—(Canadian Press)—Canada has no intention to present a claim against Turkey. What the total will be cannot yet be stated as the claims are now being scrutinized at Ottawa prior to presentation to the reparations commission, but they may run into several millions. Turkish massacres in Armenia are understood to be responsible for a large portion of the claims. In these instances, claims have been presented by former Armenians, now resident in Canada, for non-permanent membership of the council from four to six. This will make the council membership ten, with the non-permanent members in the majority.

Phelix and Ferdinand WEATHER REPORT. Issued by authority of the Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis—High pressure extends from the Gulf of St. Lawrence across the Great Lakes to the southwest states while the low area which was on the south Atlantic coast yesterday is moving northward and increasing in energy. The weather has been fine throughout the dominion.

Forecasts: Gulf and North Shore—Moderate to fresh northwest and west winds, fair to day and on Friday.

Cloudy and Cool. Maritime—Fresh northeast winds, fair, Friday increasing northeast winds, mostly cloudy and cool.

New England—Cloudy tonight and Friday; probably rain on the southeast coast; moderate temperature; strong northeast winds; gales off the coast.

RAISES QUESTION OF THE FREEDOM OF THE HIGH SEAS

Rum Running Seizures Become International Matter

British Government and Dominion Consider Proposal of U. S. Secretary for Negotiating re Three Mile Limit.

(Canadian Press) Washington, Sept. 21.—Unless the defendants take an appeal from the decision of the federal court in Boston on Tuesday, and permit a higher tribunal to pass upon the claim of the U. S. prohibition navy to jurisdiction over the seas beyond the three mile limit, the British government is expected here to take up the subject diplomatically with the state department.

Up to the present the British embassy has confined itself to requests for information as to the facts connected with the several seizures and searches of vessels under the British flag by prohibition agents and has made no appearance in the resulting legal proceedings. A complete lack of sympathy with the operations of the rum runners on the part of the British officials is said to have caused the assumption of this attitude, but now that cases have begun to emerge from the court dockets, throwing the weight of judicial decisions behind the claim of extended high seas jurisdiction, it is understood that there is to be a change in the course of the London government.

It is the British contention that the issues raised by the court decision on Tuesday in Boston in the case of the British schooner Grace and Ruby, which was held for rum selling beyond the three mile limit, are far more grave and important than any mere question of the punishment of a few smugglers, or the enforcement of domestic custom laws.

In the British view there is involved the greater question of freedom of the high seas. If it is possible for any nation to extend its jurisdiction beyond the three mile limit, it is its own pleasure and without reference to the other maritime powers, it is regarded by the British officials as highly important that some understanding should be reached as to the extent of the powers claimed.

Secretary Hughes initiated negotiations this end, but so far the British government has not responded to his invitation to seek a reciprocal understanding authorizing the search of vessels of the United States within certain zones. The reason for the delay is said to be that it was found necessary to refer the proposal to the governments of the British dominions and colonies that would be the most directly affected by its application. It is regarded as probable that the decision of the Boston court may have the effect of hastening action upon the U. S. proposal, if nothing more.

THE LIQUOR FOR COLLEGE PARTIES. So Say Men Arrested in a Motor Boat Near Ogdensburg.

Ogdensburg, N. Y., Sept. 21.—Three young men in a motorboat were arrested by U. S. revenue officers aboard the cutter Chilliard late yesterday on a charge of transporting liquor from Canada to the U. S. in violation of the Volstead law.

The men who said their homes were in New York city, described themselves as W. J. Wilson, W. L. King, Jr., and S. I. Sills.

According to revenue officers who made the arrest, the prisoners said they had planned to take three cases of liquor found aboard the motorboat to college with them next week for use at "parties."

BRIDE, NEVER KISSED, GIVEN A DIVORCE. Toronto, Sept. 21.—A Mail and Empire special from Chicago says: It was a strange story that Mrs. Julia Brightmore, an attractive young wife, told Judge Mangano in a plea for divorce today.

She had been married six months; she said, "and my husband, Walter, has never kissed me."

"This court's question, she said she had never been kissed before marriage and expected a whole lot of kissing after the ceremony. She was given a decree."

NEW TARIFF BILL IN EFFECT TONIGHT. Washington, Sept. 21.—President Harding today signed the tariff bill of 1922, making the new rates effective at midnight tonight.

ALLIES SEEKING PEACE; THE TURKS EAGER TO FIGHT

Will War on Britain if Opposed in Crossing Straits

Foch Thinks Chanak Hard to Hold by the British Force There, but Much is Looked for from the Fleet—Hope in Result of the Conference With Kemal.

(Canadian Press) London, Sept. 21—While the allied powers are feverishly endeavoring to arrange a peace conference to clean the slate between Turkey and Greece and prevent more fighting in the Near East, rumors of impending hostilities continue to come from Constantinople and the Dardanelles.

A relatively small force of British troops is holding Chanak, the key position on the southern shore of the Straits, while the Turkish Nationalists, eager for further conquest after their overwhelming defeat of the Greeks, are concentrated outside the neutral zone at Ismid and Chanak, impatiently awaiting the word from Mustapha Kemal Pasha, to advance.

The Kemalists, official French despatches say, have available for use in such a drive 1,000 modern guns, 5,000 machine guns and enough ammunition for a two year campaign. This they captured from the Greeks.

If their spokesman in Constantinople is to be believed, the Turks are determined that the allies shall not stand in the path of their desire to re-occupy Thrace. An Associated Press despatch quotes this spokesman, Hamid Bey, to the effect that the Kemalist army will certainly declare war on the British if they attempt to interfere with a movement across the straits.

Much hope is based on the result of a conference in Smyrna between Kemal Pasha and General Pelle, French high commissioner, to which Yusuf Kemal Bey, the Nationalist foreign minister, has been hastily summoned from Angora. The calling in of Yusuf Kemal points to the discussion of important and delicate questions, and the consequent delay raises hopes that the Turkish attack, if it takes place at all, will be retarded until the British reinforcements can arrive.

If fighting breaks out before that time the question of the safety of the comparatively small British force at Chanak will become an anxious one here. Marshal Foch is quoted as saying that the position is absolutely untenable, except if held by a very considerable force, while Field Marshal Plumer, who has been inspecting the British defenses, is said to have sent a message which Prime Minister Lloyd George communicated to the cabinet yesterday, to the effect that he has great confidence in the results of the collaboration between Brigadier-General Harington and Rear Admiral Brook.

Opinion here for the moment is banking on the strength of the British naval force in the Dardanelles, which is considered sufficient alone to hold any possible attack by the Turks. No details are available of the burning of Panderma, on the southern shore of the Sea of Marmoura, as announced in

official French circles last night. It is said, however, that the Greeks burned part of the town before leaving.

Russian Hopes. According to the Times the Russian Soviet government sees in the present Near Eastern situation an opportunity to obtain recognition from the powers. Russia proposes, the newspaper says, to act as the mediator between the Turks and Greeks, hoping thereby to establish the popularity of the Soviet republic among the peoples of Mohammedan Asia and compel the Entente powers to revise their attitude toward her.

Foreseeing opposition to this course, she has instructed her representatives abroad to placate hostility by temporary concessions. The newspaper ascribes its information to a secret document which it says the Soviet government addressed to its representative in Berlin, and the text of which it prints.

MAY LOCATE IN CANADA.

New Tariff Hits American Shingle Manufacturers.

Seattle, Wn., Sept. 21—"It is almost impossible to predict our policy relative to the recent reporting out of the Senate and the House of the administration bill putting shingles on the free list. However, it is almost certain we will dismantle our four large shingle mills and transport them to British Columbia. This is a statement by John McMassters of the McMassters Shingle Company, one of the largest manufacturers in Washington and Oregon. "The situation is very serious," he continued. "Output in Washington and Oregon last year was approximately seven billion shingles and that of British Columbia about two billion. But the recent inimical action of the conference committee will undoubtedly reverse these outputs."

Orestial labor, cheaper wages and longer hours of Canada could not be equalled here, he declared.

POSTPONE FAIR.

The St. John Agricultural Society has decided to hold no exhibition this year owing to the lateness of the season and other drawbacks to a probable success. This society was founded many years ago by several merchants of the city, and shows were held in the earlier days in King Square, and later at the society's property on the Marsh Road, Smithfield. This field was also used for ball games by the St. John Athletic Association. Later arrangements were made with the St. John Exhibition Association to buy Moospath, but this proved too large for the society's needs. The financial condition of the Agricultural Society at the present time is excellent and will be further strengthened by a coming government grant. The present officers are as follows: President, Dr. L. A. Donovan; first vice-president, E. J. Young; second vice-

president, J. M. Donovan; third vice-president, A. E. Joselyn; fourth vice-president, F. B. Hamm; secretary-treasurer, R. R. Patchell; corresponding secretary, J. E. Desmond.

C. N. R. NIGHT TRAIN WILL LEAVE 11 P. M.

Will Run on Letter Schedule Up to and Including Sept. 30.

Owing to numerous requests from patrons along the line, C. N. R. will hold No. 10 train, scheduled to leave 10:45 p. m. until 11 p. m. This will continue up to and including September 30. On October 1, No. 10 will leave at 10:45 p. m. as per time table. No. 10 will do suburban work between Saint John and H-supton. 9-25

CALL FOR A SAFETY YEAR.

(From the New York Tribune.) Seven days in which to turn people's thoughts toward better methods of keeping themselves alive seems pitifully inadequate. The best way to observe safety week would be to make provision for a safety year, extendable indefinitely on expiration. As a matter of fact, it is the business of an administration which has direction of the affairs of 5,000,000 people to make a safety week of every week in the year. This is done very ably by the fire department of New York and by the Fire Prevention Bureau, and it is done to a very great extent by the police department—the rank and file of which guards the public interest wherever it is permitted to do so. The various means for reminding people of the dangers to which they are exposed in a great city that are to be taken in safety week ought to be taken all the year round. Judge Gary's admonition, "Don't get hurt!" ought to be posted all over the city and kept posted continually instead of only for seven days.

A WORD ON THE LIVING WAGE

(From the Springfield Union.) The fact is that as a rule there is never a question of a living wage for the faithful and capable worker, for he quickly works toward a higher wage. That is always his opportunity and his reward in the scale of living. High wages must always be paid to command good work, and it often happens that the best paid is the most economical. The man who can command only a living wage, assuming that to be the minimum below which wages should not fall, is seldom profitable.

administrative responsibility are not always to be depended upon to live up to that responsibility, particularly in moments of crisis which test not only the capacity, but also the courage of the individual. If, therefore, Mr. Murdoch's prompt intervention came as something of a surprise to the public, the reason is found in the somewhat unfortunate and discouraging experiences which the public have had at the hands of some ministers, and notably from some ministers of labor.

**LOCAL NEWS**  
The summer home of Mrs. A. C. Jones at Ketepec was the scene of a happy gathering on Tuesday evening when a large number of friends assembled to tender a novelty shower to Miss Jean Strong. The guest of honor was the recipient of a large number of beautiful and useful presents. During the evening dancing was enjoyed and refreshments were served. Miss Hutchinson is to be the principal in a nuptial event to take place in the near future.

The nurses' home in East St. John was the scene of a happy gathering last evening when a number of friends assembled to tender a novelty shower to Miss Eva Hutchison, one of the nursing staff. The guest of honor was the recipient of a large number of beautiful and useful gifts. During the evening dancing was enjoyed and refreshments were served. Miss Hutchinson is to be the principal in a nuptial event to take place in the near future. She will be very much missed both by the members of the nursing staff and the patients of the county hospital.

The fair held by the East St. John Community Club in the club hall was brought to a close last night and had a most successful two-night run. The Community Club can claim the honors for holding the first fair ever organized in East St. John and can also take some pride in having made the undertaking so enjoyable and successful. There was a good attendance last night and the games were well patronized. The prizes were won as follows: Bagatelle, O. C. Withers; devil-among-the-tailors, S. Day; ring toss, M. Sterling; flood-gates, O. C. Withers; nine pins, J. Payne; lot game, H. Tonge; bean board, S. Day.

The committee of the New Brunswick Protestant Orphanage board which has in hand matters concerning the extension of the orphanage and the erection of a large institution on the property in the Manswagawag road which was recently purchased, met in the Orange Hall, Germain street, on Tuesday night and prepared for the launching of a big campaign this fall. W. M. Campbell presided in the absence of the president, D. C. Clark. It is intended to push the project vigorously in the near future and to make a direct appeal for funds for the building. Various sub-committees were appointed at the meeting in order to effect as strong an organization as possible.

**MONCTON TRANSMISSION LINE.**  
It was reported at the New Brunswick Electrical Power Commission's office yesterday that the line to Moncton would be ready to carry the hydro current in December. R. H. Cushing, engineer for the Moncton line, said that there was only about fifteen per cent of the clearing not completed and that

**Soak the Dirt out.**  
THERE is such a simple easy way of washing rompers, school gingham, play clothes, etc., that you won't mind how many there are—thanks to Rinso.  
First, make the wonderful Rinso liquid. Take half a packet of Rinso, thoroughly dissolve it in cool water, and add two quarts of boiling water. Then lay your clothes to soak in the tub of cool or lukewarm water. After one, two or three hours or in the morning give them a thorough rinsing and the dirt just runs away. No need to rub on the wash board so that holes come and colour goes.  
Rinso is a wonderful product, scientifically made to wash clothes by soaking—different from soaps, chips and washing powders, and used differently.  
Do not put Rinso in to the tub from the package, but make the Rinso liquid first.  
IF YOU USE A WASHING MACHINE  
Follow directions as above. After soaking the clothes wring them into machine, add enough fresh Rinso liquid, operate and rinse, and you will have the sweetest, cleanest clothes you ever saw.

RUSSIA AND THE UNITED STATES

The people of the United States may not regard it as flattering to be informed that their foreign policy is so similar to that of Russia that to draw more closely together in political and commercial relations. One of the reasons why many residents of the United States resent their lack of membership in the League of Nations is the company in which they find themselves outside the League.

Whether his fellow countrymen like it or not, that is the feeling which the Moscow correspondent of the New York Times has found in Russia, and that is the interpretation which he places upon the appointment of M. Leo Kamenev as Substitute President during the continuance of President Lenin's illness. The situation, as he describes it, is as follows:

"The events of the last six months have led to a clearer definition of Russia's position than before. What looked like a fair probability of a rapprochement with Europe, or anyway with England, was removed at Genoa and The Hague. The breach has been further widened by the question of Constantinople. But the Russians claim that their Asiatic policy in the Near East or Far, though it may be distasteful to the imperialisms of England, Japan or France, cannot be disapproved by the United States, which, like Russia, has no desire for territorial aggrandisement on the Asiatic continent. It looks, therefore, to the Russians as if a rapprochement with America is not only desirable but they hope, feasible. And it is in the light of this sentiment that Kamenev's appointment is so important."

RYAN STARTS AGAIN IN WALL STREET

New York, Sept. 21—Allan A. Ryan, son of Thomas Fortune Ryan, who filed a petition in voluntary bankruptcy last July with liabilities of \$18,000,000, laid the foundation this week for a fresh start in the business world by filing incorporation papers in Albany for the establishment of a new firm dealing in stocks and bonds, to be known as Allan A. Ryan Company, Inc. The new firm will have a capitalization of 50,000 shares of no par value, 2,500 shares of Class A and 2,500 shares of Class B stock. The active capital of the firm will be \$50,000.

The bankruptcy petition of Mr. Ryan in July was the result of the amount of \$100,000 to \$300,000 that he obtained control of virtually the entire Stutz capital stock and forced the price up from \$100 to \$300 a share on the New York Stock Exchange. The board of governors struck the shares from the trading list, leaving no market for the Ryan holdings. This entangled his affairs to such an extent that it was necessary to appoint a banking committee to take over his estate for the purpose of liquidation.

The banks and trust companies which had made loans to Mr. Ryan sold all his collateral at public auction shortly after the petition in bankruptcy was filed. While Mr. Ryan's affairs are still in the hands of the court under the bankruptcy petition, Mr. Lewis said that he is free to make plans for the future pending adjudication or discharge in the petition proceedings.

COUNTRESS REMARRIES

Divorced Lord Drogheda, Who Thrice Acountress, Countesses of Drogheda and Londonderry, today to Guillermo de Landay Escudon.

Kathleen Lady Drogheda, who is the youngest daughter of Charles Belham, of Prestonfield, Mid Lothian, was married to the tenth Earl of Drogheda in 1919, the year after he had succeeded to the title. She obtained a decree nisi against him last year.

Lord Drogheda married last June Lady Victor Paget (formerly known as the Miss Olive May), who had married Lord Victor Paget's brother and heir-presumptive to the Marquess of Anglesey) in 1913, and divorced him last year.

ASHORE IN HALIFAX HARBOR BUT REFLOATED

Halifax, N. S., Sept. 21—The tern schooner Marine, owned at Louisburg, N. S., which stranded yesterday on the western side of the harbor while tackling out to sea, was refloated and proceeded on her voyage to New Richmond, N. S., to load lumber.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

Lesson No. 10. POINTS TO REMEMBER.

Remember that: The filament of a vacuum tube is much more likely to break if the tube is jarred or knocked while hot. The tube should be handled with care at all times as even a slight jar is often enough to cause the delicate wire to snap.

A vacuum tube of the so-called "gas content" type is the best for detection purposes, although the adjustment is somewhat critical. The more highly exhausted tubes are employed as amplifiers by most amateurs. Operators desiring the most efficient arrangement for long and short wave reception employ two separate sets, one for amateur, broadcasting and ship stations and one for long distance long wave length stations such as the transoceanic stations.

There are now about 300 broadcasting stations operating throughout the United States, most of them on 360 meters. This means that there is probably one in your vicinity which may be heard upon the installation of a small receiving station. Most of these stations broadcast musical numbers by prominent players and singers, baseball scores, election returns and other items of popular interest.

LIGHTER VEIN

Bright Girl. Granny (who doesn't like the modern manner)—You girls are so useless nowadays. Why, I believe you don't know what needles are for!

A Hint to the Hens. Abbie, the little girl of the family, was seated at the breakfast table one morning. As usual eggs were served.

An Affirmative Negative. The irate customer shook his portrait in the photographer's place. "Do I look like this picture? The thing's an outrage. Why, you've given me an awful likeness. Look at the look of a prize fighter. Now, answer me, and no nonsense about it. Do you call that a good likeness?"

Why She Needed Glasses. "I want to look at a pair of eye-glasses," said a young woman with determined air.

WAR SEARS ARE UNCLEL FOR AND ARE liable to have far reaching effects. The influence of rumors of military action can be judged by the fact that when the recent reports were received of the possibility of Great Britain declaring war on the Turk, sugar dropped twenty-five cents and one local wholesale grocer was besieged with orders for groceries, it being evidently anticipated that a war declaration would be followed by advancing prices.

Much satisfaction will be derived from the assurance given at yesterday's Allied meeting in Paris, that there will be no war in the Near East. The decision to call a peace conference to deal with the Turkish problem will be generally approved.

Repair Your Roof Now

Right now is the time to look after your roof, before the stormy weather comes. By repairing your roof now you will prevent damage and repairs, besides the inconvenience. We can supply your roofing needs at the following prices:

**RECENT WEDDINGS**

**Colwell-Desbarres.**  
Sackville, Sept. 20.—(Special)—A nuptial event of much social interest took place at 7 o'clock this evening in the Methodist church, when Miss Nita Fredrica Desbarres, daughter of Professor F. W. and Mrs. Desbarres, was united in marriage to Claude V. Colwell, son of Mr. and Mrs. R. V. Colwell, of Halifax. To the strains of the wedding music, the bride entered the church on the arm of her father, by whom she was given away. Rev. Dr. Phillips officiated at the ceremony, and Mrs. H. H. Woodworth presided at the organ, playing the wedding marches. The church was prettily decorated with flowers and greenery and crowded with interested spectators.

**Baxter-Ratliffe.**

Miss Gladys May Ratliffe, daughter of Mrs. Mary Ratliffe, 48 Esplanade street, and J. Rudolph F. Baxter of Westfield Centre, were married yesterday morning in the Esplanade street Methodist church by Rev. H. E. Thomas. Mr. and Mrs. Baxter will spend their honeymoon at Brown's Falls after which they will reside in Westfield. A beautiful clock was given to the bride by the N. B. Telephone Co. in addition to numerous other gifts received.

**RECENT DEATHS**

**Mrs. E. W. Paterson.**

Mrs. Mildred Paterson, wife of E. W. Paterson and daughter of Captain and Mrs. Hamford Whelpley, Long Beach, died on Sunday at her home in Vancouver (B. C.) after a prolonged illness, the last year of which she was a confined invalid. Mrs. Paterson was forty-three years of age and was the wife of E. W. Paterson, formerly a well-known dry goods merchant of this city. They moved to Vancouver about nine years ago and have lived there since. Mrs. Paterson, before her marriage, was for a time in the dry goods business herself, being associated with her cousin, Frank Whelpley. Besides her husband and parents she is survived by one daughter, Alberta, aged about sixteen, and a large circle of other relatives. She had a great many friends here and along the St. John river and the news of her death will be received with sorrow and regret by all. The body will be brought here for interment in the Long Beach cemetery.

**Mrs. J. Harper.**

Mrs. J. Harper, daughter of Mrs. Bliss Carlisle of Hillsboro, N. B., died recently in Vancouver. Mrs. Harper was thirty-three years of age and leaves besides

DIFFER IN ADVICE TO THE BOY SCOUTS

Parson and Peer Do Not Agree in Counsel Given in Bedford Church.

London, Sept. 4.—(Associated Press, by Mail)—It would appear to be the fate of Boy Scouts the world over to have to listen to good advice from their elders.

In England the boys take it good humoredly and patiently as all in the day's work.

But recently a group of Scouts must have been perplexed, as well as amused, when the good advice from two speakers did not in the least agree.

The Vicar, the Rev. A. O. Cheney, addressed them. He warned them against smoking as "a dirty and disgusting habit."

He told them to remember to keep the Sabbath day holy and not to go about "making a noise and disturbing the villagers." (The boys had marched to church headed by bugles and drums).

Nor, he said, should anything be done on Sunday which entailed extra work for anyone.

(The villagers had agreed to entertain the visiting scouts to tea). The Vicar said he never entertained anyone on Sundays; people should stay at home on Sunday and help along the activities of the church.

After the service Lord Amphil got his turn at the boys. He said that smoking had been helpful to some of the greatest men in the world.

One of the wisest philosophers used to smoke like a chimney. But, of course, it wouldn't be right for small boys to smoke.

He always entertained his friends on Sunday, he said. He honored God by going to church Sunday morning.

The idea of Sunday, he told the boys, was that it should be a day of rest which meant abstention from ordinary work.

So long as they did not disturb the peace of their villages, they were no countenance in turning out on Sunday to pay a friendly compliment to a new troop.

One of the groupings suggested that the parson and parson should hold a public discussion on the subject, the proceeds to be divided equally between the church and Scouts.

EINSTEIN IS STUDYING QUANTA LIGHT THEORY Similar to Newtonian Hypothesis As Opposed to the Wave Theory.

The quanta theory and the study of electrons are occupying Dr. Albert Einstein, proponent of the relatively theory, at present, according to Dr. Alexander Sommerfeld, professor of mathematical physics at the University of Munich, who was in New York on his way to the University of Wisconsin, where he will hold the Carl Schurz Memorial professorship this winter.

According to the quanta theory light is not a wave motion in the ether but it consists of flying particles of energy. This is a return to the Newtonian hypothesis, which also held that light consisted of flying particles or corpuscles, which produced the sensation of light when they struck the eye.

Newton was overruled in favor of the wave theory, however.

"The wave theory explains most of the behavior of light, but not all of it," Dr. Sommerfeld said. "Einstein's researches on heat indicated that light did not consist only of waves spreading out uniformly in all directions, but that it consisted partly, at least, of concentrated particles, or quanta, of energy. X-ray and other researches have strengthened this theory. Einstein is doing much work in this field."

SHE IS 104 AND HAS SMOKED PIPE 76 YEARS Sheffield, Eng., Sept. 4.—(A. P. by Mail)—Mrs. Ann Haykins has just celebrated her 103rd birthday by riding in a motor car for the first time.

She attributes her longevity to plain living. She thinks that smoking tobacco also has something to do with it. She has smoked a pipe for seventy-six years.

GIRL SAVED FIVE FROM DROWNING

Automobile was Crowded Over Thirty-foot Embankment Into River.

Saranak Lake, Sept. 21.—Sixteen-year-old Catherine Doty and five other persons, three of them children, were passengers in a closed automobile that was crowded off the Wilmington Road by another car over a thirty-foot embankment into the Ausable River near here.

When the car hit the river the top broke off and the glass sides held the rushing waters from the occupants.

Catherine, an expert swimmer, seized Freda Vidaver, an infant, and carried her to shore. Then she returned and took off Yetta Vidaver, a child. On her third trip through the waters she rescued Helen Doty, her younger sister.

When the children were saved she returned to the wreck to help M. Vidaver, driver, and his wife, both injured, to the shore.

Vidaver told the police he was too excited to notice the driver of the car which claims pushed him off the bank into the river.

"I have the license number," said Catherine quietly, and from her wet dress she pulled a piece of birch bark upon which she had written the number from memory with a pencil borrowed from a motorist who rushed the party to Lake Placid.

The police are communicating with Plattsburg, which is said to be the home of the driver they seek.

Vidaver suffered a broken arm, while his wife was badly cut and bruised. The children with the exception of Freda Vidaver, who was cut about the head, were unharmed.

AUSTRALIA'S IMPRESSION OF AMERICAN HOTEL CHARGES

Sydney, N. S. W., Aug. 25.—(Associated Press by Mail)—Senator Pearce attended the Washington Limitation of Armament Conference as Australian representative.

Upon his return he presented a bill of expenses amounting to approximately \$42,000. Some senators thought this was high, but the commonwealth treasurer, Mr. Bruce, came forward as one with experience of hotel bills in the United States, and declared one could not live in a Washington hotel for \$250 a week unless one had no meals.

CURZON AND JOFFE. Paris, Sept. 3.—(A. P. by Mail)—Lord Curzon, the British foreign secretary, arrived in Paris the other day at the Quai d'Orsay station, and found the passenger elevator out of order.

Complained to the station-master, who, with much diffidence, proposed that the noble lord could reach the street level by means of the freight elevator.

Lord Curzon accepted without enthusiasm, and just as the elevator boy was slamming the gates shut, there came rushing toward the lift a thick-set elderly man breathing heavily.

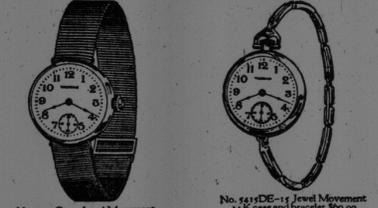

He made as if to enter the elevator, but the attendants waved him off.

"I am just as heavy and as old as your lone passenger," the man declared, "why should you refuse to take me up?"

"Because this is Lord Curzon," responded the railroad man impressively. "Oh, well, that's all right," replied the stranger, making for the stairs, "I'm only Joffe."

He was given a lift.

DRUG SMUGGLING IN BURMA HAS BECOME AN ART

Rangoon, Burma, Aug. 20.—(Associated Press, by Mail)—The drug smugglers of India and Burma, through long years of experience, have developed a finished system of operations which has little resemblance to the more or less crude and hit or miss methods of run runners in the United States.

The men who finance the smuggling of drugs, says R. K. Anderson, superintendent of the Burmese excise department, are to all appearance respectable, well-to-do merchants, with flourishing businesses in piece goods, rice or timber which hide their real occupations as traffickers in opium, cocaine, morphine and hemp drugs.

These men do not handle the drugs, but leave the details to a host of underlings. If an underling is arrested, fined, and sent to jail, his principal pays his fine, gives him his salary, and supports his family while he is in prison.

"That a certain man in a smuggler is well known to the authorities," reports Mr. Anderson. "In fact the suspect will cheerfully admit it. He knows that he cannot be touched unless the contraband is found in his possession."

The chief source of protection to smugglers is the accessibility to bribery of those who are charged with the duty of preventing smuggling. They can make more money by failing to suppress smuggling than by suppressing it.

COMMISSIONER BULLOCK TELLS OF CONVENTION

Commissioner Thomas H. Bullock returned yesterday from Toronto. He said he had no hesitation in saying that the annual convention of American Association of Port Authorities, which he attended last week, was the best in the history of the association.

The papers read were of a high order. The meeting, he said, was of real importance, at which there was an expression of opinion from experts in their respective lines.

The principal ports of the United States and Canada were represented, also that of London, England. The last century showed a marked increase in railway promotion. The present period is showing a marked development in port and harbor improvements—both as to facilities and operation.

What I Have Learned in 47 Years Practice. I HAVE been watching the results of constipation for 47 years, since I began the practice of medicine back in 1875. I am now 83 years old, and though from time to time the medical profession makes some wonderfully interesting experiments and tests, the fundamentals of causes and relief in this particular ailment are unchanged. But the people take greater interest today in their health, in diet, exercise and the drinking of water. Constipation, however, will occur from time to time no matter how one tries to avoid it. Of next importance, then, is how to treat it when it comes. I believe in getting as close to nature as possible, hence my remedy for constipation, known as Dr. Caldwell's Laxative Syrup Pepsin, is a mild vegetable compound. It is made of Egyptian senna and pepsin with agreeable aromatics. Children will not willingly take bitter things. Laxative Syrup Pepsin is pleasant-tasting, and youngsters love it. It does not gripe. Thousands of mothers have written me to that effect. Over 10 million bottles of Dr. Caldwell's Laxative Syrup Pepsin are now sold every year, and it is the most widely bought family laxative in the world. I say family laxative because all in the family can use it with safety. It is mild enough for the infant in arms, effective in the most chronic constipation of an adult. The formula is on every package. M. B. Caldwell M.D. TAKE DR. CALDWELL'S SYRUP PEPSIN LAXATIVE The family remedy

ST. JOHN LADY AGAIN HEADS N. B. NURSES At the annual convention of the Graduate Nurses of New Brunswick in Moncton yesterday the delegates were entertained by the president of the Ladies' Aid of the Moncton hospital, Mrs. R. P. Dickson, at the tea hour. The election of officers resulted as follows: President, Miss M. Murdoch, St. John (re-elected); vice-presidents, Miss Brophy, St. John; Miss Budd, Woodstock; Miss Winslow, Fredericton; Miss Branscombe, St. Stephen; Miss Keyes, Newcastle; Miss MacMasters, Moncton; Slater Carroll, Campbellton; recording secretary, Miss Retailick, St. John; treasurer, Miss Mitchell, St. John; public health convener, Miss Melkjohn, St. John; registrar for province, Miss MacMasters, Moncton. Canadian nurses' representative, Miss Burns, Moncton. In addition, Miss Winslow was appointed convener of a committee to arrange a standard curriculum for the province, the committee to be composed of the superintendents of the province. The association is invited to meet next year in Woodstock. The following comprise the coroner's jury for the inquest into the death of little Francis Barnes—Ernest J. Todd, foreman; Wm H. Sullis, David J. Stockford, Thos. X. Gibbons, Thos. W. Trot, Alex. Irvine, John McCourt. The jury viewed the body at the hospital at noon and adjourned until 8 o'clock this evening, when the inquest will be held in the court room.

Discarded HURLBUTS Given New Life. To take a child's shoe which shows signs of wear, or one that has been outgrown, and actually rebuild it at the factory, adding one-half size to the length—that is a part of the Hurlbut service to parents. It is unique in the shoe industry. Rebuilding is more than ordinary repairing. The worn parts—soles, insoles, tips, vamps or linings—are actually replaced with new material and the shoe made practically as good as new. The cost is moderate; the result more economy on shoes which, even aside from this feature, give the lowest cost per day of wear. Write for "Rebuild Service" price list and we will enclose copy of the "Pussy-Foot Jingle Book" in colors. The youngsters will enjoy it. ROOM TO GROW FOR EVERY TOE. HURLBUT TRADE MARK REGISTERED CUSHION SOLE Shoes for Children Manufactured only by The HURLBUT CO. Limited, Preston, Ont.

WHEN SCOTLAND  
YARD STEPS IN

London Interest in Case of Spanish Duke

He Says One Thing and the Society Lady Says Another—Some Cases of Folk Who Have Been Ordered Out of the Country.

Is love an international offence? Scotland Yard, headquarters of the British police, as good as says it is. Duke Manuel de Lasarraga, of Spain, replies that it is not. And so far the duke seems to have had the better of the deal with the police, says the London correspondent of the New York Tribune. Though he has been a fairly frequent visitor to England for a good many years, the duke only now has come under the limelight of publicity, due to his difference of opinion with Scotland Yard. His interest in England has been entirely of a social character. He has no business relations there and, though he sometimes rented a house at Newmarket, he has no close concern with racing. Until a few days ago, outside of a small social circle, his name was as unknown as that of dozens of other foreigners, more or less distinguished, who frequent London during the season.

The Duke of Lasarraga, who is about fifty years old, broke into the newspapers when it was announced that he had been visited in his hotel in the West-End by a pair of detectives, who politely suggested that he would be advised to quit the country within a couple of days. Such a procedure in England is sufficiently unusual anyway, and applied to a person of the duke's social standing, it seemed rather more than that. The duke appears to have felt that way about it himself. First he announced that he was packing up, and then, on second thoughts, he said that he would see Scotland Yard further before he quit—or the equivalent thereof in the best Castilian.

No reason for their suggestion was assigned by the duke's visitors, but it soon appeared that there was a case of "cherches la femme." A beautiful and distinguished young society lady, whose name was kept out of the newspapers, was learned to be the influence which had set Scotland Yard in motion to secure the withdrawal from the country of the Spanish grandee.

The Lady's Story. As to the exact relations between the duke and the woman there is considerable of a clash of evidence. According to the duke, he was "engaged to a well-known English society lady" before the war, and was to have been married to her, but the war came and he had to return to Spain. "After a time," he added, "the engagement was forgotten, and I heard no more of the lady. When I returned to this country, she had been married. Apparently, I found she had been married in my absence, and I have reason to believe she has been showing my love letters, numbering fifty or more, to many people."

The nameless lady's version of the affair is quite different. She has authorized a London newspaper to give an emphatic denial to the story told by the duke of his friendship with her. "I have never even met this person," she says, "much less less on terms of friendship with him or quarrelled with him. He has written letters to me for the last eight or nine years. I have never replied to any of his letters. I do not know him in any way whatever, except from these letters, which I have never answered. I do not even know his right name."

Whatever the rights and wrongs of the story may be, there is no doubt that Scotland Yard was induced to move in

Phenolax  
Wafers

A dependable laxative is a necessity in every family's medicine cabinet. Phenolax Wafers are safe—and dependable.

The Safe Laxative  
NORMAN S. WRIGHT & CO., LTD.  
Sales Agents Toronto, Ontario

In the matter of the instance of the society lady in question. Police headquarters has refused to make any statement, for the good reason that it tends to focus public attention on a department of its work which it is far from wishing to advertise. On the continent it is a fairly familiar procedure for people against whom it is inconvenient to give forty-eight hours' notice to quit the country, but England, until the war, at least, was very shy of these expulsions by administrative order.

There are on record, of course, some notorious cases where persons of aristocratic birth, but evil life, were offered the alternative of quitting the country or being prosecuted, and they mostly accepted the former; Oscar Wilde was offered this alternative and refused it before he was publicly pilloried by the late Marquis of Queensberry at his club. Mostly, however, expulsions were for political reasons.

Under the Aliens Act the British government had powers to deport certain classes of offenders, but they could be deported only after conviction, and it was not until the war that there came a tremendous extension of the powers of the police in this direction. There were German spies of various nationalities, like the Japanese dancer, Matadi, whom it was not always possible to convict, but who could not be allowed to remain. Though domiciliary visits mostly have ended, Scotland Yard still handles certain delicate situations in line with the methods of the war years. Thus when the Japanese crown prince was in England it was rumored that some Korean refugees planned his assassination, and they were watched that unless they kept indoors on the days of the prince's public progress they would be deported.

Kennedy Undergoes  
Second Operation;

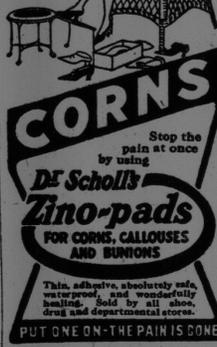

Recovery Expected

Montreal, Sept. 20.—Hon. W. C. Kennedy, federal minister of railways, was operated on for the second time at the Royal Victoria Hospital here today. A consultation of surgeons following the minister's failure to convalesce from his earlier and minor operation, resulted in the second which was performed today. Mr. Kennedy's condition is said to be serious, although every hope is entertained for his recovery.

Arthur VanBuren, a prominent cement dealer of Boston, with his wife and daughter, have been visiting scenes of Mr. VanBuren's boyhood here. He has discovered many old friends of thirty years ago. It is eighteen years since he visited St. John and he finds many signs of progress. Mr. VanBuren motored from Boston, making the trip in two days. He found the traffic conditions good, excepting where roads were being rebuilt.

ONE RED ROSE  
A YEAR FOR A  
CHURCH RENTAL

Novel Leasing Arrangement at Manheim, Pa.—Some Unique Old English Commitments.

Now that romance has entered into the realty field through the series of "Most Interesting Deals" recently undertaken in the columns of the New York Evening Post, it is interesting to note that poetry has also made a bid for recognition in the world of real estate.

In this modern world of costly leases and rents it is hard to realize that often, in the good old days, rent was merely nominal and paid with some curious trifle. In Manheim, Pa., stands a little house of worship known as the Red Rose Church, says a writer in S. W. Straus & Co's Investors' Magazine. It is leased to the community on the annual payment of one "red rose" to the family of William Henry Spiegel by each member of the congregation.

In 1772, when the lease was made, such was the stipulated price. So every year, on June 1, the congregation of the church calls at the Spiegel house and pays its rent. In addition to roses the congregation as a whole must pay five shillings in money. That doesn't mean the equivalent of American money, the contract specified "shillings," and so shillings must be paid.

In England cases of this sort were quite common at one time and some such leases are in operation to this day. On Easter Monday morning, in the parish of Colshill, in Warwickshire, if the young men of the parish catch a rabbit before 10 o'clock and take it to the vicar they receive, or should receive, from him, according to the lease, a calf's head and 100 eggs for breakfast. It is on this condition that he holds his plot of land. Another freakish tenure is that of the tenants at Hamton Bishop, in Hereford county. By their original leases they must get every year six horse loads of stakes from Hay Wood, near by, to make hurdles for penning sheep at Hereford Fair whenever they may be required to do so. One-half penny sterling is to be paid for each load. A plot of ground in London was once let to the British Admiralty on condition that a ship was to be always on the stocks. Failing to do this, the land would revert to its former owner, and in the deed a clause was inserted to this effect.

Bury House in the New Forest, Hampshire, is in the possession of the tenants on condition that they present to the reigning monarch when he or she visits the forest a pair of milk white greyhounds.

A small farm in Scotland until a generation ago was held by its owners on the simple tenure of presenting to the sovereign of Scotland when in the neighborhood one white rose. This rose was last paid on the visit of Queen Victoria and the Prince Consort the Duke of Roxburgh's estate, near by.

WAS NOT AT THE  
MONTREAL MEETING

Angus McDonald, M. P., Had Been Quoted in Despatch About Labor Matters.

Dalhousie Station, Que., Sept. 15, 1922. To the Editor of the Times, St. John, N. B.

Dear Sir,—In your issue of August 23 there appears an article, which I presume is a report of a meeting held in Montreal "of the Quebec section of the Labor Party of Canada."

The said article quotes me as having commented on the conditions in Nova Scotia, and that I was in favor of a workers party.

I wish to state that I was not at said meeting, nor have I ever made use of any such statements. Hoping you will give this the same publicity which you gave to the article of August 23.

I remain respectfully yours, ANGUS McDONALD, M. P., Cobalt, Ont.

ONE DOLLAR WORTH FOUR BILLION ENVER RUBLES  
Constantinople, Aug. 25.—(Associated Press by Mail)—Enver Pasha, before his death in Turkestan, was without money and consequently issued large quantities of paper currency. This was measured in value against the Russian ruble, with the result that it took 1,000 Enver rubles to buy one Russian ruble. With the American dollar bringing 4,000,000 Russian rubles, Enver's money worked out at the ratio of 4,000,000,000 for a dollar.

OMAR ROBERTS IS  
GUILTY OF MURDER

Verdict Against the Slayer of Flora Gray at Tusket Yesterday—Probably Sentenced on Friday.

Tusket, N. S., Sept. 20.—Omar P. Roberts, the sixty-eight-year-old guide and trapper, was found guilty this afternoon of the murder of his nineteen-year-old housekeeper, Flora Gray, at his hunting lodge at North Kemptonville, Yarmouth county, on the night of Aug. 28-29 last, by a jury of his countrymen, sitting under Mr. Justice Chisholm, of the supreme court. The prisoner was remanded for sentence until the last day of the present term, probably Friday.

The trial of Roberts occupied the entire day. The court was opened at 8:30 o'clock, adjourned for lunch at 1 o'clock, and resumed at 2:15. At 5:32 the case was given to the jury, and at 5:55 the verdict was returned and the proceedings closed for the day.

The morning session and the greater part of the afternoon session were occupied with taking the evidence of the crown's witnesses. No witnesses were called for the defence, and the address to the jury by J. J. Power, K. C., of Halifax, representing the crown; Owen S. Jones, of Halifax, counsel for the prisoner, and the judge's charge were all brief.

New evidence introduced at the trial included the testimony of Ransom Randall, the fifteen-year-old friend of the murdered girl, as to the prisoner threatening to "cut off his ears," on an occasion several days previous to the tragedy, when he had suggested to Roberts that he permit Flora to remain in his company a half hour longer; the testimony of Avery Gray, that portions of the dying girl's flesh came off in his hands while he was assisting in carrying her from the bed; the evidence of a startling confession made by the prisoner to Allan M. Gates, merchant, and a justice of the peace of Kemptonville, two days following the tragedy.

Roberts was arrested and lodged in jail on the morning of Tuesday, Aug. 29. On the following Thursday, Gates proceeded to Yarmouth and interviewed the prisoner. Roberts blurted out that he had committed the crime with which he was charged, that there was absolutely no hope for him, and that it was his desire that the law should take its course with as little delay as possible. Gates protested, he said, that the prisoner should not talk to him as he was doing, that he (Gates) was an officer of the crown, and that anything he might say might be used in evidence against him. Roberts replied that he did not care what was used in evidence against him. He insisted that he was guilty, and that there was all there was to it.

Gates said he agreed that there was not much hope for the prisoner in this world, and then asked him: "What about the next?" Omar replied he did not know. Gates then reminded Roberts of a good turn he had done a sick friend during the preceding winter, and recalled that the witness accused the dying thief on the cross at Calvary. This seemed to help the old man, Gates said, and they then agreed that the best thing to do was to make a clean breast of the whole affair. This Roberts proceeded to do, only adding to the details of the previously published confession that after he had knocked over the lighted kerosene lamp in the gasoline bed-spread, he had heard Flora scream, had waited until she ceased to scream, and had then proceeded to scrawl the neighborhood.

Roberts then said, Gates testified, that his mind was not very clear and suggested that the witness return to the jail the following Sunday, when he would be in a position, he thought, to tell the whole story. This Gates attempted to do, but was prevented by the sheriff, Harry K. Lewis, who had informed him that the prisoner had made a full confession the day following the interview witness had had with him.

Deinstag took the automatic, giving the revolver his fellow-worker. Both weapons were thought to be empty. Deinstag had withdrawn the magazine but had evidently forgotten that a cartridge was left in the chamber. Vernon, taking the part of a supposed bandit leveled his weapon at Deinstag's head, but the latter threw aside Vernon's arm and, pushing the muzzle of the automatic against Vernon's stomach, pressed the trigger. The movement was followed by an explosion and Vernon fell to the floor.

YOUNG MAN SHOT  
WHILE LEARNING  
TO FIGHT BANDITS

He and Companion Were Rehearsing to Protect Themselves in Case of Hold-up—Is in a Critical Condition.

New York, Sept. 21.—Albert Vernon, 24 years old, single, of 80 Lott street, Brooklyn, was shot in the abdomen by Norman Deinstag, 22 years old, of 52 Livingston street, Brooklyn, at the New Era Piano Company, 2533 Third avenue, the Bronx, where both were employed as collectors.

They were rehearsing to perfect themselves in self-protection against possible holdups. Vernon was taken to Lincoln Hospital by Dr. Kaplan in a serious condition. Deinstag was arrested by Patrolman Miller on a technical charge of felonious assault.

The weapon with which Vernon was shot was a .25 calibre revolver. Deinstag, who owned the automatic and a

38-calibre revolver, had permits for them, issued by County Judge T. D. Sullivan of Hamilton County, N. Y. Both Vernon and Deinstag often carried considerable sums of money in the course of their duties as collectors for the piano concern. Deinstag suggested that they spend a few minutes rehearsing in a supposed holdup so that each could familiarize himself with such an event.

Deinstag took the automatic, giving the revolver his fellow-worker. Both weapons were thought to be empty. Deinstag had withdrawn the magazine but had evidently forgotten that a cartridge was left in the chamber.

Vernon, taking the part of a supposed bandit leveled his weapon at Deinstag's head, but the latter threw aside Vernon's arm and, pushing the muzzle of the automatic against Vernon's stomach, pressed the trigger. The movement was followed by an explosion and Vernon fell to the floor.

Following the singing of Kipling's Recessional the congregation. General Currie mounted the platform to speak of the lessons learned in the world war. "I pray that the God of Hosts will be with us, lest we forget," he said, echoing the words of the hymn. "The lessons of the war are being forgotten while the world listens to much hot air and blarney. We want more of service, of national spirit and of the gospel of hard work. We want more of the Christianity which, stripped of the trappings which obscured it, saw its triumph in the churches."

Holman Gregory, M. P., for South Derbyshire, spoke of England's part in the war and in the work of reconstruction. All in all he will be well with England, he said, if another war would be avoided.

Mr. Birks of Montreal, spoke briefly of the objects of the tour and urged the necessity for unity in the nation, alike in the church and in the market place.

FOUND GUILTY OF  
MANSLAUGHTER IN  
DRUG DEATH CASE

Montreal, Sept. 20.—Willie Fourier, forty-one, was found guilty of manslaughter here this afternoon and was remanded for sentence next Friday.

Fourier was charged with the manslaughter of a woman, whose name was not given, who died of a drug overdose. The case was heard in the court of Judge D. J. O'Connell.

The evidence against Fourier was strong, and he was found guilty by a jury of his peers.

The judge sentenced Fourier to a term of imprisonment, with the possibility of parole.

The case was one of the many instances of drug-related deaths in Montreal.

The court proceedings were held in public, and the case attracted some attention.

The defendant's legal representation was provided by a local law firm.

The case was part of a series of similar incidents in the city.

The judge's remarks on the case were widely reported in the press.

The case highlights the dangers of drug use in urban areas.

The court's decision is expected to have a deterrent effect.

The case is being reviewed by higher courts.

The case is a sad example of the consequences of drug use.

The case is being used as a teaching tool in schools.

The case is being discussed in community meetings.

The case is being covered by the media.

The case is being analyzed by legal experts.

The case is being used in legal textbooks.

The case is being studied by law students.

The case is being discussed in legal journals.

The Pursuit of Sleep  
- and How to Catch it

If you have ever watched a young animal at play, perhaps you have seen him stop, lie down, and the next moment be sound asleep. You marvel at so swift a change. A physician would tell you the change was seen greater than you supposed. Tell you, too, why sometimes it takes you so long to effect the change when you need sleep the most.

Some night as you toss about, wondering why sleep does not come, you realize how many nerves a human being has.

(Recall the pictures in your school physiology of the spinal column, the spinal cord and all the nerves branching from it.)

Realize that building a bed spring to support the spine in a normal manner is by no means a simple matter.

The Simmons Springs are the result of a deep and scientific study of sleep and many years devoted to building equipment for sleep.

Springs that support the spine, relieve the spinal cord and nerves of pressure. Bringing restful and complete relaxation.

Springs built for sleep—with all

### LOCAL NEWS

#### TO REORGANIZE

A meeting will be held at the Army next week to reorganize the sergeants' mess.

#### BANK CLEARINGS

St. John bank clearings this week were \$2,466,910; last week were \$2,466,910; last year \$2,926,684; in 1920 \$3,239,129. Halifax clearings this week were \$2,593,463. The Moncton figures were \$1,189,590.

#### ENGAGEMENT

Mr. and Mrs. C. D. Strong wish to announce the engagement of their daughter, Jean Keith, to Albert Masson Welton, formerly of Shediac, Cape, but now of this city. The wedding is to take place at an early date.

#### GOES TO HARVARD

Nigel B. Tennant, son of Mr. and Mrs. W. B. Tennant, will leave this evening to take up his studies at Harvard Law School for the degree of LL. D. Mr. Tennant received his B. A. degree from Mount Allison University in May, graduating with high honors. In addition to carrying off various prizes he was valedictorian of his class.

#### DISMISSED WITH COSTS

The case of John James McCaskill vs. Horace C. Brown came up for hearing yesterday before His Honor Mr. Justice Crockett. The plaintiff was not present in court and his counsel said that he had had no further instructions. The case arose over an alleged chair of Mr. Brown was holding, illegally furniture belonging to Mr. McCaskill, and was dismissed with costs. W. B. Wallace, K. C., for Mr. Brown and G. H. V. Belyes for the plaintiff.

#### IN GOOD CAUSE

The Willing Workers class of the Point Pleasant Sunday school, with the honorary members of that organization, held a sale of a quilt, fancy goods, home cooking and candy, recently in their little church at Pleasant Point, at which they realized the sum of \$44. Of this amount they have handed \$30 to the Children's Aid Society as a contribution towards their work. Mrs. J. Byler is the teacher of the class. An anonymous contributor has sent through the mail the sum of \$2 to the society to be used for the benefit of the little ones in their care.

#### CADET CORPS

Lieut.-Col. A. B. Snow returned to the city after a tour of the province in which he visited Moncton, Dorchester, Sackville, Blackville and Dalhousie and helped in the reorganization of the cadet corps there. Four corps were organized in Moncton and one in each of the other towns visited. The Aberdeen High School corps, Moncton, is now in the hands of a captain instructor, Harrison H. Trimble, of Hampton, a U. N. B. football and track star, who is a teacher there. He will also take over the matter of physical training for the boys. Frederick is looking forward to a highly successful cadet year. The Fredericton High School corps now number 133, the Charlotte street corps has a roll of 48 and the Provincial Normal School expects a membership of at least 70. There are eighty male students at the last named school this year.

### C. P. R. INSPECTION

#### Mr. Scully Getting a View of the Field Under His Command.

A. D. MacTier, vice-president of the C. P. R., and J. J. Scully, manager, made an inspection this morning of the company's properties and facilities in the city proper, West St. John, Bay Shore and Fairview. Speaking to a representative of the Times, Mr. MacTier said he accompanied Mr. Scully, who was recently appointed successor to A. Price, in order to acquaint him with the New Brunswick district.

Mr. Scully said it was his first visit to this city and expressed himself as very much impressed with the shipping facilities here. He said he was really seeking information and becoming acquainted with the various districts which are now under his supervision.

The officials left this afternoon in their private cars "St. Andrews" and "Laurentine" for Fredericton, where they will continue their inspection.

### HON. MR. VENIOT SPEAKS OF ROADS

Hon. Peter J. Veniot, minister of public works, is registered at the Victoria. Interviewed this morning he said that it was expected that the road work in process of construction would be finished before the frost set in. In spite of adverse weather conditions good progress had been made in road construction this summer. Speaking of the road between Musquash and Lepreau the minister said that automobiles were passing over the main road now instead of the detour and with careful driving there was nothing to fear from it. He said he had been approached with a proposal to spend \$10,000 on the detour but considered this idea extravagant. The road would only be in use as a trunk road for the summer or part of it and it seemed nonsensical to spend such an amount of money on a temporary trunk road. The detour had served its purpose and now the need for it was practically over and the province was \$10,000 to the good. Hon. Mr. Veniot expects to leave for Moncton this evening.

### ECLIPSE TODAY

#### Scientists Take Opportunity to Test Einstein Theory.

New York, Sept. 21.—The Einstein theory of relativity will be on trial today.

The test will be made by expeditions which have gone to Australia to make observations during a five minute eclipse of the sun. British, American, German and Dutch scientists are included in the several parties. The tract of the total eclipse is along the Indian Ocean and through the heart of Australia.

An expedition from the Lick Observatory, California, is on the west coast of Australia. Others are on Christmas Island, west of Australia, and one has penetrated into the heart of Australia.

### COUNCIL REFUSES TO SHARE COST

#### Matter of C.P.R. Bridge Over Chesley Street is Laid on Table

#### Fuel Controller Asks City to Cancel Anthracite Contracts — Repairs to Bridges in Ashburn Road and at Indianatown Recommended — Delegations Heard.

The matter of the city participating in the cost of the re-construction of a bridge used by the C. P. R. across Chesley street was again considered at a committee meeting of the common council this morning. Although a motion made by Commissioner Frink that the city contribute one-third of the cost, or about \$700 on certain conditions, was defeated, the matter was allowed to lie on the table for further consideration.

Dr. Frink said that it was clear that it was the intention of the C. P. R. to re-construct the bridge and had asked the city to contribute one-third of the total expenditure estimated at \$2,000. He pointed out that if in the records of the old Town of Portland there was found a resolution giving the railway right to erect the bridge, the city should enter an agreement to pay a share of the cost, falling this, the C. P. R. should pay the whole amount.

After some discussion, in which it was pointed out that if an agreement was made, the C. P. R. would have a copy of it, Commissioner Frink's resolution was put and lost, he being the only one supporting it. The mayor then suggested that Dr. Frink move that the matter lie on the table.

Dr. Frink replied that the matter was disposed of, his motion having been defeated.

"I move it lie on the table, then" said the mayor.

"But you can't do that," returned Commissioner Frink. "The thing is disposed of. I call you to order, Sir."

This opened up the discussion again which ended by the mayor moving that the original communication from T. L. Simmons, assistant chief engineer of the board of railway commissioners, lie on the table. The motion carried.

The St. John Red Cross applied for permission to erect a sign at right angles to their building in Prince William street, extending six feet over the sidewalk. The matter was referred to the city engineer for report.

#### Bridge Matters.

Commissioner Frink reported that a survey had been made of the Ashburn road off Robesay avenue, as far as the property of Adam Shand, which was within the city limits. A bridge on this road, he said, was in danger of collapse and unsafe for traffic. The road engineer and street superintendent recommended that the bridge be renewed at a cost of \$724. The road is used by two other people besides Mr. Shand.

He moved that the work be carried out, the cost to be paid by balance of a bond issue for a retaining wall in Moore street.

The mayor questioned the legality of applying retaining wall bonds to bridge construction. He suggested a new issue. This was agreed to and the motion carried unanimously.

Commissioner Frink referred to the condition of the Spar Cove bridge, which he said was in bad shape. He said there was heavy traffic there and yesterday a horse went through it. A whole new construction was required.

The road engineer was requested to bring in a report with plan and an estimate of the cost of a new bridge.

W. E. A. Lawton submitted a corrected plan of proposed changes in the Harding building at the corner of Union and Dorchester streets, reducing the present 3-story slope-roof house to a 2-story flat-roof structure.

Commissioner Thornton said that under the plan, the building inspector could not grant a permit for this change.

The matter was laid on the table until Monday. Mr. Lawton left a letter from the board of fire underwriters saying that the change would not affect the fire rate.

#### The Coal Situation.

A letter was read from Geo. S. Cushing, provincial fuel controller, asking the city to cancel contracts for anthracite and to substitute Welsh or bituminous coal wherever possible. Mr. Cushing said the supply of American anthracite for the province between April 1, 1922 and April 1, 1923, would amount to only about fifty per cent of the ordinary supply, and that St. John would get about twenty-five per cent of this amount. Of three classes of users in the city, it was proposed to give domestic users first preference.

The city was also urged to purchase as much as possible of its requirements now to relieve storage space for the winter's supply.

It was decided to leave the matter over until Monday when each commissioner will make a report of the matter as it affects his department.

On motion of Commissioner Bullock it was decided to lease to Leslie Waring Lot No. 634, Suffolk street, Brooks ward, at an annual rental of \$25.

McLeod Warehouse.

Commissioner Bullock reported that the brick cased warehouse at McLeod wharf was much in need of repair, but there was a question as to whether money should be spent on it. This building was leased to McArdy & Sons, who were ordered out more than a year ago with a view to providing room for C. N. R. track extensions. A board of valuers had placed the worth of the building at \$9,000, this price being agreed to by all concerned, but so far no word of the proposed extension had been received. It was decided to ask the city engineer to prepare specifications and an estimate of the cost of repairs.

#### Chicago Grain Market.

Chicago, Sept. 21.—Opening: Wheat—Sept. 106; Dec. 106 3/4; Corn—Sept. 67 7/8; Dec. 59 1/2; Oats—Sept. 39 1/2; Dec. 37 3/4.

## We Invite You to Inspect Our Fall and Winter Ladies Wear

This Store Has Drawn The Curtain on the Autumn of 1922

Upon the stage of woman's apparel you'll find a selection of suits, coats and dresses that are truly the marvel of the designers' art and the tailors' needle.

## FORD PLANTS TO BE RE-OPENED

### Movement of Coal to Detroit Has Started—Work Again Tomorrow.

Detroit, Sept. 21.—The plants of the Ford Motor Co. in the Detroit district, closed last Saturday because of the coal situation, thereby throwing 100,000 Ford workers out of work in different parts of the country, will re-open tomorrow morning, it was officially announced today.

Orders for the re-opening of the plants were telegraphed here today by E. B. Ford, president of the motor company, who is in Cincinnati.

The telegram read as follows:—  
"Cancellation of the interstate commerce commission's service order No. 23 has made it possible again to secure coal."  
"Movement of coal to Detroit has started and we feel justified in starting the plants tomorrow (Friday) morning."  
"Post notices calling the men back to work and notify the newspapers."

## MARCONI WAGES MATTER SETTLED

Ottawa, Sept. 21.—(Canadian Press)—Wages set forth in the Mackinnon award, retroactive to April 1, 1922, and continuing beyond January 15, 1924, are agreed upon between the Marconi Company and its wireless operators, according to an agreement forwarded to the labor department today by the board of conciliation in this wage dispute.

## FERTILIZER CASES

Hon. W. P. Jones, K. C., of Woodstock arrived in the city today. He is here in connection with some cases brought by Gunns, Ltd., to recover the price of fertilizer from farmers in Victoria county. The question as to the mode and place of trial will be argued before Chief Justice McKeown at chambers tomorrow morning at 11 o'clock. The plaintiffs seek to have the trial at St. John before a judge without a jury, and the defendants desire to have the trial at Andover county, who claim that they did not receive the quality of fertilizer arranged for and are therefore resisting payment and also claim damages resulting to their crops.

No one of the cases has been tried out as yet though in some of the smaller ones notes were served and sued for by banks and the defendants did not make any defense, but will sue the company for damages.

It is expected that the judge will decide as to the mode and place of trial. Burnhill, Sanford and Harrison are acting for the plaintiffs and W. P. Jones, K. C., for the defendants.

The 4th Siege Battery will parade for pay tonight at 8 o'clock. All clothing and equipment must be returned. E. M. Slader, Major.

### Clayton Co. UNDERTAKERS

Graduate Embalmer.

### MARRIAGES

**DEAN-SMITH**—Kathleen Lawson Smith of this city to Carlton Handley Dean, September 12, at Shrewsbury, Mass., by Rev. Frederick Thayer.

### DEATHS

**LAWRENCE**—Suddenly, at Manawagonish road, Margaret Jean Morrison, beloved wife of Gifford C. Lawrence, in her fifty-eighth year, leaving her husband and three brothers to mourn.

Funeral at 2 P. M., Saturday, from her late residence, Manawagonish road.

**PATTERSON**—At Vancouver, on September 19, Mildred B. Patterson, beloved wife of E. W. Patterson, leaving her husband, one daughter, mother, father, two brothers and two sisters to mourn.

Notice of funeral later.

### IN MEMORIAM

**MIDDLETON**—In loving memory of Annie M. Middleton, daughter of Mr. and Mrs. Wm. Cummings, who entered into rest Sept. 21, 1921.

We watched her suffer day by day,  
It caused me bitter grief,  
To see her slowly pine away,  
And could not give relief.

In our hearts her memory lingers,  
Sweetly tender, fond and true,  
That is not a day, dear Annie,  
That we do not think of you.

**MOTHER, FATHER, SISTERS, BROTHERS.**

**MAGPHE**—In loving memory of James Percy Magee, who departed this life September 21, 1916.  
Gone, but not forgotten.  
MOTHER AND CHILDREN.

## GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

### A WOMAN'S SPEECH RINGS ROUND WORLD

Here is one woman's speech, the echo of which has been heard around the world. It is the climax of Ibsen's play, "A Doll's House," now at the Imperial, when Torvald Helmer as a last resort pleads with Nora, his wife, to stay with him on the ground that: "Before all else you are a wife and a mother." Nora replies:

"That I no longer believe. I believe that before all else I am a human being, just as much as you are—or at least that I should try and become one."  
"I know that most people agree with you, Torvald, and that they say so in books."  
"But henceforth I can't be satisfied with what most people say, and what is in books. I must think things out for myself, and try to get clear about them."  
Around this speech arose the controversy out of which grew the Feminine Movement. And it might be said that this one scene in "A Doll's House" helped to immortalize Henrik Ibsen.

Nasimova is appearing as Nora in "A Doll's House" at the Imperial.

### CONCERNING ORPHANS' SHOW.

The attendance of the children of the various orphanages at the Imperial Theatre tomorrow (Friday) afternoon at the second show will in no way interfere with the general public's patronage. The little ones will be the guests of the house and J. D. O'Connell, who will supply them with goodies as they leave the theatre. Some extra features, including a movie of the 1920 picnic in Rockwood Park, will be put on. It is expected the show will continue until 6.30.

### HYDRO MATTERS

People residing along the Rothesay road between the city boundary and Riverside are being asked by the New Brunswick Electric Power Commission to signify their willingness to install electric lighting fixtures in their houses. If a sufficient number of agreements are received, the amount used would be credited to the minimum of 10,000,000 k. w. h., as in the proposed contract between the city and the commission. The commission, however, would prefer to have the city serve all the consumers within its limits.

The city commissioners and the members of the New Brunswick Electric Power Commission are meeting this afternoon to discuss the proposed contract for the supply of current from the Musquash development. Premier Foster was to attend. The meeting is open to the public.

### THE LATE STEPHEN NORRIS.

Stephen Norris, son of the late Albert Norris of Barnesville, died in the General Public Hospital at one o'clock on Saturday morning, September 16, aged thirty-eight years. The funeral service was held at P. J. Fitzpatrick's undertaking rooms on Saturday afternoon at five o'clock. Rev. A. Lawrence led off with a prayer. The body was taken to Dipper Harbor on Sunday morning, and there interred in the cemetery by the sea.

This is the third death in the family in the year. The father was killed in Erin street a year ago this month, and one month later a sister's child was laid to rest.

Mr. Norris had been a great sufferer since June, when during a fishing trip alone off Dipper Harbor he was hurt while in his boat, and lay unconscious for about nine hours tossing on the sea, until a friend went in search of him. That night he was rushed to the hospital in St. John, and an operation was performed, seemingly successful. A few weeks later the patient went home. Two days afterwards complications set in and he returned to the hospital for another serious operation, but the conditions were such that the patient could not rally, and after weeks of intense suffering he passed away.

Besides his wife and boy, Earl, he leaves to mourn a widowed mother, residing at Barnesville; four brothers, Samuel and Rufus, Carleton county; Albert of Black River, and four sisters, Mrs. Walle Harrington, Mrs. Roy of St. John, and Miss Lena Norris, at present of Rothesay. These all have the sympathy of a host of friends and neighbors in this sad bereavement.

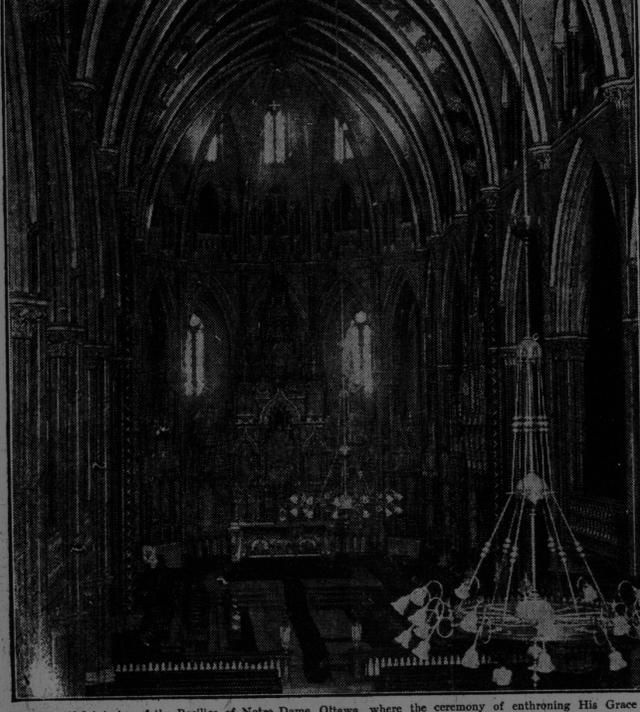

### PREMIER NOT ABLE TO RECEIVE SHOPMEN TODAY

Ottawa, Sept. 21.—(Canadian Press)—Owing to pressure of other business, the prime minister was unable to see President R. J. Fallon, vice-president Frank McKenna and Secretary Charles Dickie, chief officers of the Canadian Shopmen's Union, who came to the capital to discuss certain matters arising out of their conference with the employing railways. The representatives of the union appreciated the pressure of business at the moment, and it is understood, were satisfied to let the conference stand over for the present.

### AUTO COLLISION

A slight accident occurred on noon today at the corner of Sydney street and the north side of King Square, where another automobile ran into the rear of another going in the same direction. The result was a collision in which the fenders of the colliding car were slightly bent. It was driven by a young woman.

## ENTHRONING OF ARCHBISHOP EMARD

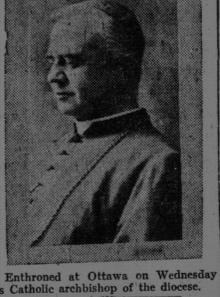

The beautiful interior of the Basilica of Notre Dame, Ottawa, where the ceremony of enthroning His Grace Archbishop Emard took place on Wednesday, September 20.

## SEPTEMBER BRIDES

**Giggey-Pitt.**  
A very pretty wedding took place at Reed's Point, Kings county, on Thursday afternoon at 4.30 o'clock, when Miss Muriel Isabelle Pitt, eldest daughter of Mr. and Mrs. Frank W. Pitt, was united in marriage to Ren Scovill Giggey, eldest son of Mr. and Mrs. W. J. Giggey of Whitehead, Kings county. The ceremony took place at the residence of the bride's parents, beneath the beautiful flowered arch and in the presence of immediate relatives and friends. The bride entered the drawing room with her father, to the strains of the wedding march, played by Mrs. Elmer Megaw. She looked charming in a white duchess satin bridal gown with a wide veil made in jewel cap with orange blossoms and carrying a shower bouquet of white and pink carnations. Little Miss Marion Pitt, sister of the bride, acted as flower girl, and wore a pretty frock of pink organdy, and a gold brooch, the gift of the groom. She carried a basket of pink flowers.

Rev. H. Waterton, rector of Kingston, was the officiating clergyman. After congratulations the guests sat down to a sumptuous wedding supper. The dining room was beautifully decorated for the occasion. The number of valuable and useful gifts received testified to their popularity. Mr. and Mrs. Giggey, left by motor for their home at Whitehead. The bride's going-away suit was of navy blue tulle, with hat to correspond, and a seal scarf, the gift of the groom. Mr. and Mrs. Giggey have the good wishes of a host of friends.

## ARCHBISHOP EMARD.

Enthroned at Ottawa on Wednesday, Catholic archbishop of the diocese.

## TO BE HANGED ON DECEMBER 14

Belleville, Ont., Sept. 21.—Maurice Barrie will be hanged here on December 14, for the murder of G. Wesley Moulton, his employer, at his farm in Tyndendville, Ont., on June 29. The death sentence was imposed last night by Mr. Justice Lacombe, after the jury has reported a verdict finding him guilty.

Another on Nov. 24.

## STILL IN NEED OF FUNDS.

Presbyterian Church Budget Shows Retrenchment.

Toronto, Sept. 21.—It is officially reported by the office of the treasurer of the Presbyterian Church in Canada, Rev. Dr. Robert Laird, that budget receipts up to the end of August, just completed, total \$314,732, which is approximately an advance of \$100,000 on receipts as compared with the first eight months of 1921. The office also announced that church expenditures are substantially less this year than they were a year ago.

Officials of the church point, however, to the "shackles" represented by deficits in budget funds now amounting to \$346,325, mainly in connection with the two great basic enterprises of the church, home missions, \$125,000, and foreign missions, \$166,000. They draw attention to the appeal to the whole Presbyterian churches all over the dominion on November 5.

## BRITISH ADMIRAL LEFT \$22,953 ESTATE

London, Aug. 30.—(By Mail)—Admiral Sir Lewis Anthony Beaumont, G.C.B., K.C.M.G., of St. George's, Hurstpierpoint, Sussex, formerly commander-in-chief in the Pacific, at Davenport, and on the Australian station, and Principal A. D. C. to the king in 1912, when he retired, who died on June 19, aged seventy-five years, left property of the value of £22,953.

Bequeathed on New Province.

Port Arthur, Sept. 21.—F. H. Keefe, ex-M. P., writes to the press, suggesting a plebiscite at the time of the January elections in all municipalities from White River to the Manitoba boundary on the question of forming a new province.

Washington, Sept. 21.—The Capper-Tincher bill, providing for regulation of trading in futures on grain markets, was signed today by President Harding.

## DID MINISTER AND WOMAN MEET THERE?

### Abandoned Farmhouse Near Scene of Murders Found Fully Furnished.

New York, Sept. 21.—An abandoned farmhouse near the orchard where the bodies of the Rev. Edward Wheeler Hall and Mrs. Eleanor Mills were found on last Saturday morning has come into the spotlight of investigation of the donkey murder. It was believed possible that this house, about a mile and a quarter from New Brunswick, N. J., may have been the meeting place of the wealthy clergyman and his choir leader, and that they may have been followed there by the murderer or murderers on last Thursday evening.

Whether the authorities believe that the shooting took place inside or outside the house, which is only about seventy-five feet from where the bodies were left under a tree, in such a composed position that they appeared to have been carried there, could not be learned. The authorities would not discuss the house, but it was learned that they had examined it.

The mysterious feature of the house is that despite its outward appearance of abandonment, a glance through the windows at the interior shows that it is completely furnished, and appears to be without that accumulation of dust that characterizes a house that has not been occupied.

## MEIGHEN ON THE NEAR EAST AND OUR RAILWAYS

Belleville, Ont., Sept. 21.—The question of the Near East is one on which no one should endeavor to embarrass the government, Rt. Hon. Arthur Meighen told a gathering of political friends at the Belleville Club last night. So great was this question of foreign policy, he said, that every citizen should give the government an opportunity to live up to the best traditions of sterling British character.

He urged that no one should be carried away by thoughtless reference to foreign policy, and that the Near East was not a diplomatic adventure in the mind of the British government, which he said, was composed of men of all parties who had stood the test of the last eight years. Men of all parties had subscribed to the message under compulsion of their conscience.

The transportation problem was dealt with at some length. Mr. Meighen related the steps by which the late government took hold of colliding railway enterprises. Caselle reference was made to alleged lack of co-ordination of the Canadian National system and the Grand Trunk, which he said was causing Canada a great many dollars annually through duplication of offices. He said the Grand Trunk was operating, not in harmony, but in competition with the national system. He contended that D. B. Hanna, and the directors of the Canadian National Railways had the confidence of every employe of the system and the public.

Today Mr. Hanna was the "fired boss" handling the greatest enterprise in Canada—a fine state of affairs," remarked Mr. Meighen. "The presidency has been so hawked and peddled and dragged in the dust that no one can be found to take it. I have gone through the country demanding that his railway problem be put a man there who knows the system; get it done and give the road a chance."

## LOCAL NEWS

### WATER MAIN LEAK.

A leak was discovered this morning in the 24-inch main from Spruce Lake near the Wilson Box Co. plants on the Gray Settlement road. A crew of men are at work making repairs.

### A WARNING.

Commissioner Thornton this morning issued a warning to drivers of vehicles to prevent children riding on their wagons, so that the danger of their being injured while getting on or off would be eliminated.

### FUNERAL OF BOY.

The funeral of Francis Barnes was held this afternoon from the residence of his parents, 109 St. James street. Interment was in the new Catholic cemetery. A great many floral and spiritual offerings were received.

### BIRTHDAY OBSERVANCE.

Friends of Miss Jean Pickle gathered at her home, 117 St. Paul street, to celebrate the birthday of herself and little cousin, Master Marvin Bird. After a dainty supper, she was tendered a handkerchief shower, and wished for many more happy birthdays were expressed.

### THE BRIDGE CASE.

It is expected that the case of the provincial government vs. the C. P. R. furthering with the bridge over the reversing falls will be entered before Chief Justice Hazen on the third Tuesday in October. The matter has been delayed from time to time owing to a difficulty in getting engineers to make necessary investigations. The chief justice will probably be asked to fix definitely a time for the trial.

### POLICE COURT.

Herbert Blois was charged in the police court this morning with being in a disorderly crowd, shouting in Paradise row. He pleaded not guilty. Policeman Gibb said that there had been complaints from residents of that street regarding rowdiness in the evenings, and he had found a crowd of about fifteen boys taking charge of the sidewalk about 9.15 o'clock last night and forcing pedestrians to take to the street. He said the boys had wash-bottles, which they were beating with sticks. He had pursued this lad and arrested him. Two men charged with drunkenness were remanded.

### LEAVE FOR WINNIPEG.

Mrs. D. P. Chisholm, diocesan president, and Mrs. Richard O'Brien, president of the St. John sub-division of the Catholic Women's League, will leave on the C. P. R. train this afternoon to attend the annual convention of the Catholic Women's League of Canada, which will be held in Winnipeg from September 28 to September 30.

J. E. Owens, who is third vice-president of the national executive, left yesterday for the meeting and traveled via the North Shore. All the sessions will be held in the Royal Alexandra Hotel, Winnipeg, and will be presided over by Miss Guerin, of Montreal, national president.

### JUDGMENT FOR DEFENDANT.

Before Mr. Justice Crockett yesterday afternoon hearing was completed in the matter of Geo. W. McCready of Hampton vs. the Maritime Pulp & Paper Company. This is an action arising out of the question of a contract for the sale of pulp wood. The amount involved was \$925. The plaintiff moved to continue trial, but the judge refused the motion and judgment was given for the defendant with costs. Hon. W. J. Jones of Woodstock appeared for the defendant, and G. H. V. Beives, K.C., for the plaintiff.

## MISS BEVERLEY OF FREDERICTON ROBBED IN N. Y.

### Her Pocket Picked in Grand Central Station—Fredericton Dekeys to Boston.

(Special to Times.)  
Fredericton, N. B., Sept. 21.—Miss Jeannette Beverley of this city, who is in New York on a visit with relatives, met with a heavy loss on her arrival in that city. While she was in the Grand Central station her pocket was picked of all the money she had with her. The work was that of skilled pickpockets.

Fredericton will send a substantial delegation of Dekeys on the pilgrimage of Adla Temple, No. 157, D. O. K. K., from St. John to Boston. Those in the party will be W. W. O. Fenety and wife, A. F. Belding and wife, Fraser Dunbar, Fred Thompson, Fred Smith, Jack MacKenzie, Horace Niles and Archie Williams. They will leave here on Saturday in time to take the steamer for Boston at St. John.

Before P. J. Hughes, Judge of Probate for York County, in the estate of Patrick Fitzpatrick of Fredericton, letters testamentary have been granted to John Fitzpatrick, a brother, who is executor. The estate is valued at \$175,000, of which \$150,000 is real property and \$25,000 personal. The property was left to the brother.

In the estate of Claud Avery, of Devon, letters of administration have been granted to the widow, May J. Avery. There was no will. The property is valued at \$3,000, all personal estate.

In the appeal division, Supreme Court, this morning, H. A. Powell, K. C., was heard in support of an appeal in the case of the Record Foundry and Machine Company vs. Frank O. Garson, from the judgment of Mr. Justice Chandler and the verdict therein for reduction of damages allowed the plaintiff and for an increased allowance to the defendant.

### PERSONALS

W. P. Jones, K.C., of Woodstock, arrived in the city today from the Boston train.

Mr. and Mrs. William Deyman have returned to Toronto after visiting Mrs. Deyman's sister, Mrs. Fred G. Hall, 246 King street east. During their stay in the east they made an extended motor trip through the province.

Mr. and Mrs. Thomas McComb, of Staten Island, N. Y., who are visiting in the city, returned to their home on the Governor Dingley yesterday. Gregory and Theodore, and their sister, Dorothy, who have been spending their summer vacation with their parents, Mr. and Mrs. Walter Colvin, 21 Cedar street, returned to Halifax yesterday at noon to resume their studies.

### CONTRACT FOR RECONSTRUCTION WORK IN FRANCE

Berlin, Sept. 21.—The Berlin newspapers announced today that a contract was concluded in Paris on Sept. 14 between a French construction syndicate comprising eighty-eight building firms, and the Berlin firm of Lehner Von Siemens Vereinigte Baustoff Industrie, on the lines of the Stimes Lubersack agreement for the purpose of reconstruction work in the devastated areas of France.

It is expected 150,000 workers, of whom 40,000 will be Germans, will be employed on the work. The contract, it is said, already involves 836,000,000 francs.

### OFFICIAL ORGAN FOR THE CANADIAN BAR ASSOCIATION

Ottawa, Sept. 21.—Dr. Charles F. Morse, L.L.D., K. C., registrar of the Exchequer Court, is likely to be named soon as the editor-in-chief of a new publication to be known as the Canadian Bar Review, which will be published in Toronto as the official organ of the Canadian Bar Association. The taking over of the editorship of the publication, it was said, would not interfere with the present duties of Dr. Morse.

### ITALY SAYS THE BALKANS MUST REMAIN AS NOW

Rome, Sept. 21.—Italy officially informed Rumania today that she will not permit any action by Bulgaria which would change the present status quo in the Balkans and is ready, if necessary, to take recourse to military measures.

### NOON REPORT.

New York, Sept. 21.—Trading was largely in the hands of the professional element during the morning, but movements in special stocks providing a cover for profit taking in other directions. Reports of increased operations and higher prices in the steel industry were an incentive to the purchase of those shares for the long account.

Foreign oils and some of the public utilities were under pressure, Mexican Petroleum and Columbia Gas each dropping two points. Additional new highs were made by Tidewater Oil, Bayuk Brothers, Allis Chambers preferred, Associated Drygoods, Kresge and Industrial Alcohol, the gains by Sloss Sheffield, Bethlehem Steel eight per cent preferred, American Tobacco, American Waterworks six per cent preferred, Owen Bottle, Market Street Railway four per cent preferred and United Railway Investment preferred.

Call money opened at 4 1/2 per cent.

### AT 1.30.

New York, Sept. 21.—(1.30).—Further experiments on the short side of the market, coincident with the marking up of the call money rate to 5 1/2 per cent, caused a flood of selling orders, under which the list gave way one to three points in many cases. The decline cancelled the forenoon rise to a large extent and carried Mexican Petroleum, Studebaker and Republic Steel three points below yesterday's final figures, while United States Rubber, Hook Island and Barnsdall A. lost two to two points. The Standard Oil shares, however, were a tower of strength. Standard Oil of New Jersey climbed 6 1/2 points.

MINING INDUSTRY GAINS IN VOLUME IN THE DOMINION

Statistics For First Half of 1922 Show Increasing Recovery From Decline of Last Year

(Canadian Press Despatch) Ottawa, Sept. 20.—That the recovery in the mining industry which made its appearance in the early months of the year has gained momentum is evidenced by statistics covering production during the first six months of 1922, says the Dominion Bureau of Statistics.

Partially offsetting this was a decline in the output of coal and decreases in the production of copper and nickel.

The iron and steel industry, although much below the 1921 record for the first quarter, had commenced to show improvement towards the end of the period.

But for the stoppage in coal mining in British Columbia and Alberta, and greatly decreased shipments from Nova Scotia, the total value of the mineral production would have been considerably increased.

The total estimated value of the mineral production during the first six months of 1922 was \$57,682,944, of which \$26,475,544 represented the value of the metal production and \$31,207,400 the non-metals.

As compared with the same period in 1921 the value of the metals is seen to have increased about \$2,000,000, or 8.1 per cent.

Standing By Provinces.

The standing of the different provinces in the Dominion, according to the returns for the half year, was as follows: Ontario, \$18,883,577; British Columbia, \$16,153,307; Alberta, \$10,062,318; Nova Scotia, \$8,792,799; Quebec, \$2,054,445; Yukon, \$114,652; New Brunswick, \$890,456; Saskatchewan, \$266,041; Manitoba, \$215,389.

The ten principal products of the mineral industry in Canada during the period, in order of the values assigned, were: Coal, \$24,346,959; gold, \$12,110,242; silver, \$5,990,199; lead, \$2,882,047; natural gas, \$2,448,729; copper, \$2,337,093; asbestos, \$1,664,232; nickel, \$1,401,820; zinc, \$1,370,460; and salt, \$849,133.

Each freshly rolled cigarette has a distinctive fragrance

Rolling your own with ORINOCO means cigarette economy. It also means unusual quality as each cigarette is fresh and delightful in its fragrance.

Here is your opportunity for more and better cigarettes for your money. Roll your own with ORINOCO - It's easy

subjected to control by a rational modification of the physical environment. Manufacturers whose privilege it is to market sanitary products which in their finished form represent the last word in utility, simplicity, and general adaptability to the purpose served, are often staggered by their slight appeal to the average mind.

The average person is content to "muddle along through" with outgrown methods and inadequate or antiquated equipment principally because he does not see the cause and effect relationship between daily habit and individual or community health.

For health is a habit. The functions of the body, both mental and physical, are rhythmic. Whatever mode of action is accepted today tends to be repeated tomorrow. Right practices, oft repeated, in the long run spell normal function. Personal hygiene sufficiently extended becomes community health.

By the same token, rooms that are dark and corners that are musty, personal habits that will not bear repeating and imitation are not mere matters of individual concern. As a small focus of infection soon undermines the whole physical economy, so will an unthinking tolerance of insanitary domestic conditions breed a general indifference to community housekeeping.

J. C. Chesley, local agent for the marine and fisheries department, left last evening for Ottawa, where he will consult with other officials of the department in regard to taking over one of the sheds at West St. John for the use of potato shippers.

HON. J. H. KING SUMMONED BACK TO THE CAPITAL (Canadian Press Despatch) Vancouver, B. C., Sept. 20.—Hon. J. H. King, federal minister of public works, who is in the province on departmental business, was in receipt of a telegram today from Premier King recalling him to Ottawa. He will leave for the east tomorrow morning. Hon. Dr. King had planned to remain in British Columbia until the end of the month.

D. C. Clark, West St. John, accompanied by his daughter, Miss Ella, and Miss Bertha Estabrooks, arrived home yesterday from Fairbanks, Alaska, where he had spent some time. Mr. Clark left St. John on June 28 and saw Alaska at its best. His brother, Frank Clark, well known here, is a prosperous merchant at Fairbanks. He went to the country while the gold rush of '98 was on, and after the greatest activity in mining was past went into the drug business. This was the first meeting of the brothers in twenty-two years.

Use Cuticura and Have Lustrous Hair Regular shampoos with Cuticura Soap will keep your scalp clean and healthy. Before shampooing touch spots of dandruff and itching, if any, with Cuticura Ointment. A healthy scalp means thick, glossy hair.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticester of Salicylic Acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Natural History Women Hold Meeting

The executives of the Ladies' association, Natural History Society, met yesterday afternoon in the society's rooms in Union street and made preparations for the annual meeting which will be held next month. Mrs. W. H. Shaw, the president, was in the chair.

AN AUTOMOBILE SERVICE CLINIC

A service clinic for all the sub-dealers and chief mechanics of the McLaughlin Motor Car Limited in the maritime provinces will be held early next month at the office of the company in Union street and it is expected that between fifty and sixty will be in attendance.

The company first conducted a carriage business in the maritime provinces but for the last twelve years has been handling the automobile business and six years ago the carriage business was sold out. W. J. McAlary, the present manager, who has held that office for fourteen years has been with the company for twenty-four years.

MUST PAY TAXES OR GIVE UP CARS

(Canadian Press Despatch) Sydney, Sept. 20.—Unless their owners pay their arrears in taxes within the next two days, forty-one automobiles owned in Sydney will be seized by Tax Collector Malcolm Mackey. Alderman W. H. Manson, chairman of the finance committee thought it strange that certain citizens were unable to pay their taxes but he held that office for high-powered cars. Then he ordered a survey of the books and today has discovered more than forty cases of this kind. The order to seize the cars followed.

HON. J. H. KING SUMMONED BACK TO THE CAPITAL

(Canadian Press Despatch) Vancouver, B. C., Sept. 20.—Hon. J. H. King, federal minister of public works, who is in the province on departmental business, was in receipt of a telegram today from Premier King recalling him to Ottawa. He will leave for the east tomorrow morning. Hon. Dr. King had planned to remain in British Columbia until the end of the month.

D. C. Clark, West St. John, accompanied by his daughter, Miss Ella, and Miss Bertha Estabrooks, arrived home yesterday from Fairbanks, Alaska, where he had spent some time. Mr. Clark left St. John on June 28 and saw Alaska at its best. His brother, Frank Clark, well known here, is a prosperous merchant at Fairbanks. He went to the country while the gold rush of '98 was on, and after the greatest activity in mining was past went into the drug business. This was the first meeting of the brothers in twenty-two years.

BIG TREAT FOR CHILDREN BY MR. O'CONNELL

The orphans of this city are to be the guests of J. D. O'Connell at the Imperial Theatre on Friday afternoon, and he is preparing the usual treat of candy, peanuts and such like for them.

Yesterday, Mr. O'Connell said, he learned that not all the orphans in the city had been invited to the other picnic, and he at once decided that he would have some kind of a treat for them. He postponed his trip to Bangor, where he intended to give a picnic on Saturday, until the first of the week, and made arrangements with the management of the Imperial Theatre to have all the orphans invited to the second show on Friday afternoon, where, in addition to the regular run of pictures, a 1,000 feet of films showing an O'Connell picnic held in this city two years ago, and another held in Sussex during the same summer, will be displayed to the children.

The time for arranging the affair is so short, Mr. O'Connell said last night, that he would not be able to secure automobiles to carry the children from the various orphanages to the theatre. He declared, however, that the children from all the institutions in the city could easily walk, and he thought that those in charge of the orphanage on the West Side and the one at Silver Falls should be able to procure machines from interested parties to bring the children to those institutions to the theatre.

GOOD HEALTH WEEK OCT. 23

The week of Oct. 23-30 has been set aside by a large merchandising group as a period for national emphasis on health, especially as it may be interpreted as dependent upon ventilation, sanitation and personal hygiene and as it may be

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for Colds, Headache, Rheumatism, Toothache, Neuralgia, Neuritis, Earache, Lumbago, Pain, Pain.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticester of Salicylic Acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

She found again the glow and sparkle of perfect health

Sparkling eyes—vivid coloring—that charm of personality which fairly radiates from a superbly healthy body—

Why do so many women who could possess these natural powers let them slip by? Health and vigor are normal, not exceptional. Thousands lose them because they neglect the body's two most vital needs:

—Building up the worn-down tissues from day to day. —Removing daily the poisonous waste. The fresh, living yeast plant in Fleischmann's Yeast cake contains a natural food—with the very elements which help the body perform these two vital functions.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh. It is not a medicine, it is a natural food. It helps to "tone" up the whole system and assures regular daily elimination. Results cannot be expected unless it is eaten regularly.

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

"And now I never need laxatives"

A business girl writes that the extra work of a busy summer had exhausted her. "I was run down and badly constipated" she says, "and had one boil after another."

For several months she added 2 to 3 cakes of Fleischmann's Yeast to her diet every day, "the boils disappeared after the first week and now I never need laxatives." Eat two or three cakes a day regularly—plain, or spread on crackers, or mixed with water or milk. If you prefer, get six cakes at a time. They will keep in a cool, dry place for two or three days. Begin at once to know what real health means. Be sure you get Fleischmann's Yeast.

MUTT AND JEFF—JEFF OUGHT TO DO HIS CONCENTRATING IN THE LUNCH HOUR

Comic strip by Bud Fisher. Panel 1: 'AS I'M A MEMBER OF THE "NEW THOUGHT" SOCIETY I MIGHT AS WELL BENEFIT BY IT! MY NEW THOUGHT NOW IS A RAISE IN SALARY!' Panel 2: 'THE FIRST RULE IS TO CONCENTRATE YOUR THOUGHTS ON WHAT YOU WANT! NEXT I GOTTA TRANSFER MY THOUGHTS TO MUTT AS HE'S THE BOSS! HERE GOES!' Panel 3: 'JEFF, I'M GONNA SLIP YOU A RAISE' Panel 4: 'JEFF, I'M GONNA SLIP YOU A RAISE' Panel 5: 'JEFF, I'M GONNA SLIP YOU A RAISE' Panel 6: 'WAKE UP! YOU'RE FIRED!'

### REPORTER PIERCES MYSTERY SHROUD OF WEATHER MAN

**Finds He is Bureau, Not  
Weather Man—His Se-  
crets Revealed**

#### HOW SYSTEM WORKS

**Canadian Weather Service as  
Good as Any—Head Office  
in Toronto.**

(Montreal Star.)  
Who or what is the Weather Man?  
Cloaked in mystery, yet known far  
and wide by his cryptic "fair and warm-  
er," which promises us a good day for  
our picnic, or that "cool with showers"  
that makes us postpone it to some more  
favorable occasion, the Weather Man  
has always been an interesting though  
shadowy figure.

A visit to the McGill Observatory and  
a short but illuminating discussion with  
Professor James Weir, its superintendent,  
revealed some of his secrets and robbed  
him of much of his mystery.  
The Weather Man is not really a man  
but a bureau, with headquarters at Tor-  
onto and sub-divisions all over the de-  
limitation. The bureau has at its disposal  
all the most modern and complicated  
appliances of a scientific nature for test-  
ing and recording the various conditions  
upon which the weather probabilities  
depend. With careful mathematical  
reckoning, with the construction of charts  
and curves and maps, the information  
gathered from all sources is sifted and  
systematized and some conclusion is ar-  
rived at as to what the weather during  
the next forty-eight hours will be like.  
And nine times out of ten the conclusion  
is the correct one.

There are forty-five telegraph stations  
in the dominion, stretching from Dawson  
City to Newfoundland, which twice daily  
send in their reports to the bureau at  
Toronto. These reports, which are sent  
in every morning and evening at 8  
o'clock, Eastern Standard time, contain  
information chiefly about the pressure  
of the atmosphere as registered by the  
barometer, the current air temperature,

the maximum and minimum temperature  
during the preceding twelve hours, the  
direction and speed at which the wind  
is traveling, the amount of rain or snow  
fall since the last report, the cloudiness,  
the presence of fog, or thunderstorms,  
and other similar data.

#### Co-operation With U. S.

From this mass of facts, and acting in  
co-operation with the United States  
Weather Bureau at Washington, with  
which it is continually exchanging re-  
ports, the bureau at Toronto attempts  
to discover to which points it should  
send the prediction of "fair and warm-  
er," and for which it must prophesy  
showers.

From this collection charts summar-  
izing the information received are con-  
structed with reference to each impor-  
tant element to be considered. As fast  
as the reports come from the wires they  
are passed to the forecast division,  
where a force of clerks is engaged in  
making the necessary charts. On blank  
maps of Canada each clerk copies that  
part of each station's report needed in  
the construction of his particular chart.

One clerk constructs a chart showing  
the differences in temperature during the  
preceding twelve hours, with broad red  
lines separating the colder from the  
warmer regions, and narrow red lines  
enclosing areas showing changes in tem-  
perature of more than ten degrees.

A second clerk shows on his map the  
change that has occurred in the bar-  
ometer during the same period. Other  
clerks are similarly engaged in record-  
ing the changes in whatever element they  
are working upon.

Still another clerk combines all of  
these into a large synoptic chart, brown  
as the general weather chart, showing  
for each station the air temperature and  
pressure, the velocity and direction of  
the wind, the rain or snowfall since the  
last report, and the amount of cloudi-  
ness. Then lines, called isobars, are  
drawn through places having the same  
pressure. By drawing isobars for each  
difference in pressure, the high and low  
pressure areas are soon enclosed in their  
proper circles. The word "high" is  
written at the centre of the region of  
greatest air pressure and the word  
"low" at the centre of the area of least  
pressure.

The weather in Canada is determined  
largely by a succession of high and low  
pressure areas, which follow one another  
from west to east across the continent.

The low pressure area, also known as  
the cyclonic area (which has nothing to  
do with what is popularly known as a  
cyclone) has certain very well-marked  
characteristics. It has a central region  
of low pressure, around which the air  
is gyrating in a contra-clockwise direc-  
tion. It contains a great cloud area,  
from which there may be precipitated  
rain or snow. It is also marked by shift-  
ing winds and considerable temperature  
changes. Thus these weather character-  
istics will be found in any city included  
on the chart within the "low" pressure  
circle, varying according to its position  
within it.

#### High Pressure Area.

The high pressure of anti-cyclonic area  
has a central region of high pressure  
and clear skies, around which the wind  
circulates in a clockwise direction. The  
temperature is considerably lower than  
in the cyclonic area.

These two types follow one another.  
In Montreal it has often been noticed  
that we have on the average several days  
of cool invigorating weather, with fresh  
bracing winds, followed by a period of  
warmer weather, with increasing cloudi-  
ness, and usually rain.

As the barometer goes down this con-  
veys to us the knowledge that there is  
resulting a gradual transition from the  
"high" to the "low" area, with the  
weather conditions changing correspond-  
ingly. We expect and we prophesy the  
conditions which characterize the "low"  
area. Seamen use this method of fore-  
casting almost exclusively. When the  
barometer rises, the conditions of a  
"high" area may be expected.

The direction in which these areas fol-  
low one another is determined by two  
main factors, first by the fact that owing  
to the gravity the air will flow from a  
region of high pressure to a region of  
lower pressure, and second by the mod-  
ification exerted by the movement of the  
earth itself. The forecaster may also  
judge of the rate at which these areas  
are following each other by the changes  
which have occurred during the preced-  
ing twelve hours, and by the movement  
which took place during that time. He

WOODSTOCK, ONTARIO, 19

can tell pretty well where it will be up  
to forty-eight hours ahead.  
This is of course only part of the story.  
There are many other factors which help  
the Weather Bureau in its prognostica-  
tions. But in general what happens that  
we are successively enclosed in high and  
low pressure areas, that when we are in  
a high pressure area certain things hap-  
pen to our weather, and that when we  
are in a low pressure area, certain  
other things happen. Variations occur  
owing to other conditions which enter.  
Long range weather forecasts are all  
humbugs, according to meteorologists.  
There is no rational method of predict-  
ing what will happen more than forty-  
eight hours ahead.  
The Canadian Weather Bureau has  
been very fortunate in its predictions,  
90 per cent. of its "prophecies" being  
verified. Eastern Europe which gets its  
weather from the Atlantic, is in a much  
more different position on account of the  
lack of knowledge of the weather condi-  
tions prevailing on the ocean. The ex-  
tension of radio and its use in order to  
send in reports from vessels at sea is  
proving of great service to European  
forecasters.  
The chief weakness connected with  
forecasting in Canada is due to unexpect-  
ed and pronounced disturbances which  
move down from the north or far north-  
west. There are no telegraph reporting  
stations in the far north, and mistakes  
are therefore liable to happen as a result  
of the lack of complete information. The  
Canadian service is, however, being ex-  
tended northward rapidly, and radio is  
being utilized to great advantage.  
Professor Weir paid a tribute to those  
in charge of the Weather Bureau at To-  
ronto, and particularly to its director,  
Sir R. F. Stupart. Through their work  
the Canadian Bureau has achieved a re-

### Turn need into Demand

**HUNGER** seeks food; thirst calls for drinks;  
fatigue requires a place to rest; labor must  
be eased by recreation. Human nature and hu-  
man wants create demand. If you can do your  
share in filling it, tell people so. Turn universal  
need into demand for your particular product.

Through the Daily Newspapers give the  
people the news about your goods. Make it part  
of the daily life of Canada.

"Newspaper advertising," says the Ames  
Holden McCready Co., Ltd., "is as necessary to  
the successful distribution of a trade-marked  
piece of merchandise as food, raiment and shel-  
ter are to the well-being of the individual.

"Newspaper advertising nourishes the pro-  
duct; it clothes it with reputation, integrity and  
respectability; and it protects it from the storms  
of competition and the inroads of goods of ques-  
tionable parentage."

The human demand for news has created  
a unit of daily newspaper circulation for every  
family in Canada and has left a million besides  
to provide for casual readers. If you need  
every unit today, it is yours; if only twenty  
thousand, the rest can stand aside without  
adding one useless dollar to your cost of dis-  
tribution.

Prepared by the Canadian Daily Newspapers Association, Toronto.

she was sorry when she saw our*

## Beautiful New Lingerie

*priced at the mere cost of mater-  
ials*

This is the actual experience of a woman who came  
to our store and looked at our new Lingerie. After  
pricing it she found it would cost the same as the actual  
materials which she had just bought that day.

Yes, you can now buy the most beautiful fine Lingerie and Silk Underwear so low that it is a  
positive waste of time to make them. Mark you—we use fabrics of such a high quality seldom seen  
in Underwear at any price. Made with the utmost care, skillfully finished. These lovely undies are  
sold to you away less than you ever bought them before.

**Here are proofs—You cannot make your own Lingerie  
at these low prices!**

<b>COLORED SHANTUNG STEP-IN DRAWERS</b> Our Price \$2.50	<b>LINGETTE PRINCESS SLIPS—</b> Our Price \$2.98

itation for dependability not exceeded  
by any meteorological service of the  
world.  
Illustrating the accuracy of its infor-  
mation, Professor Weir mentioned that  
when the American balloonists were lost  
in the spring of 1920 a request was made  
to Toronto to give some idea of the prob-  
able drift of the balloon. The meteor-  
ological service presented its report indi-  
cating the probable course of the balloon,  
the subsequent discovery of the balloon  
verifying the report as being remarkably  
accurate.

Recent low tides have exposed the  
submerged forest at Holme and Bran-  
caster, on the north coast of England.  
The upper bed is composed of fragments  
of wood, bark, and twig of birch. There  
is also an abundance of beetle remains.  
Teeth of the wild horse and the wild ox,  
the antlers of the deer have also been  
found. Primitive man must have walk-  
ed in the glades of this forest, for flint  
implements, curved knives, arrow heads,  
throwing stones, scrapers may be dis-  
covered below high water marks. It is  
estimated by geologists that there has  
been a subsidence of the land of at least  
ten feet.

SINKING INTO THE MIRE. (Toronto Star.) Here in Canada we have made only a beginning in the erection of war memorials. Even the guns taken from the Germans by Canadian gallantry have been dumped down in out-of-the-way places and are sinking into the mire like unsightly encumbrances. Yet they are the outward indications of victories lives. The growing generation should learn from them to appreciate the sacrifices which preserved their liberties and saved them from the thrall of militarism. The lesson will not be learned that way while the guns are treated with neglect. The least the Canadian people can do is to see that the guns are mounted on concrete blocks, neatly raised off and inscribed with the story of their passing into Canadian hands. German guns captured in France by troops from Canada should not receive less attention than cannon captured in the Armenian war.

YANKEES NOW MOST LIKELY PENNANT TEAM

Only Sensational Upset Can Keep Them Out

Home Runs Proved Particularly Effective in Yesterday's Game - Hornsby Brings His Total Up to 89 and Ties Williams.

(Canadian Press)

New York, Sept. 21—Barring an upset of the most sensational order, the New York Yankees have clinched the 1922 American League pennant. By taking the second game of the series from Detroit, 6 to 3, while Washington blanked the St. Louis Browns, 5 to 0, the Yankees increased their lead to three and a half games. They can split even in their eight games and still finish no worse than in a tie for first place, if St. Louis wins seven of its contests. Victory in five more games will give the title to the Yankees regardless of what the Browns do.

Pittsburg, pursuing what seemingly is a "rainbow chance" for the National League pennant, took the first of a three game series from New York, 4 to 1, but the Giants today were still four and a half game in front. Delving into the mathematics of the situation, Pittsburg can tie for the top by taking all nine of its games, if the Giants obtain only an even break in their twelve games. McGraw can now up the race by winning seven more games, regardless of his rivals' showing.

The Yankees were forced to call on their best to down Detroit in the second struggle. Bob Meusel dealt the decisive blow with a homer in the ninth. "Bullet" Joe Bush tamed the Tigers in the half of the ninth after they had tied the count of Shawkey in the eighth.

Southpaw Cooper of the Pirates and Hugh McQuillan of the Giants tied on even terms until the seventh when Bigbee delivered a homer that clinched the game for the invaders. Cooper displayed his versatility by slashing out another homer of Ryan in the ninth.

Rogers Hornsby's consecutive hitting streak was stopped by Grimes of Brooklyn in the first game of a double-header with the Cardinals after it had reached thirty-three contests, but the St. Louis slugger came back in the second game with a brace of home runs that brought his season's total to 89, tying Ken Williams of the Browns. The Dodgers nearly neared the first, 6-1, and the Cardinals the second, 13-7.

Homers by Williams and Parkinson helped the Philadelphia Nationals take two slugging matches from the Chicago Cubs, 9 to 8, and 11 to 1, while Cincinnati scored a double victory over Boston, 9 to 3, and 6 to 5.

HORSE KILLED ON MAINE RACK

Thrown by Hopples, Strikes Fence at Franklin County Fair Races.

(Special to The Times.) Farmington, Me., Sept. 21.—Stables from all over the state, including Aroostook county, were represented in the races at the Franklin county fair yesterday, twenty-three starters coming out in the three events. Admiral Black, which cleaned up at Bangor, Waterville and Lewiston, took the 2.13 class after dropping two heats to Alfred King, an Aroostook flyer. Billy Nelson had to go four heats with Modotte to take the 2.22 trot. Bob Waite had two heats of 2.22 mixed when it was called off because of darkness. The brown gelding King died from injuries when he struck the fence. Driver Gould was hurt, but not seriously. The summary:—

Table with race results including names like Admiral Black, High Admiral, Alfred King, King Bellini, Dolly Frisco, Malcolm Vaughan, and times for various classes.

ST. JOHN BOY IS CLASS PRESIDENT

Honor for Paul Fraser at U. N. B.—Asten to Coach University Football Team.

Fredericton, Sept. 20.—The Freshman class at the University of New Brunswick today organized for the year. Paul Fraser, of St. John, was elected class president, and William Crocker, of Albert, class treasurer. A football team will be organized in the class. Fraser also was elected captain of the team. The Rugby football season will open here on Saturday next, when the teams of the Provincial Normal school and Fredericton high school will meet at the rotting park in an exhibition contest. Ralph McCready, of Sackville, is captain of the Normal school team, and Eldon Daggett, of Marysville, manager. If possible, the Normal team will play outside matches, Moncton high school

ASTONISHING FACTS IN REGARD TO SUCCESS OF TANLAC ARE REVEALED

No Longer Any Mystery Concerning Enormous Demand for Celebrated Medicine—Big St. John Druggists Enthusiastic.

WHY SALES CONTINUE TO INCREASE YEARLY

True Reasons Are Given For Its Record-Breaking Popularity—Two New Branches Are Necessary and Foreign Field is Entered.

The tremendous sale of Tanlac continues unabated, ever-increasing. Leading drug men throughout the United States, Canada and Mexico express amazement at the phenomenal demand and point out enthusiastically that nothing has ever equaled this unprecedented record.

Many who formerly were puzzled at the astonishing popularity of this medicine, and who were continually asking the reason for it, have now come to realize that Tanlac has gained the lead by merit alone, and maintains it by the unquestioned fulfillment of its claims. Millions of grateful users have rallied to Tanlac's standard unalloyed and have publicly endorsed it.

The large druggists everywhere are still enthusiastic over this sensation of the trade is evidence by the tone of letters received with orders. W. A. Haver & Co., wholesale druggists of Denver (Col.), writing under date of July 17, state: "We are submitting today our order for the fourth carload of your goods since April 1. Taking into consideration local conditions this demand is not only exceptional but alone in the record of sales for proprietary articles in this section."

The National Drug and Chemical Co. of Canada, Ltd., St. John and Montreal, state: "Tanlac continues to lead the parade as our sales of proprietary articles go. We sold 239,640 bottles within the year." Since the first of 1922 Tanlac has been moving at a rate of more than a carload

and the teams of the Interscholastic league being in prospect. The eligibility question already has arisen in regard to Donald Currie, of the Normal school, formerly at Fredericton high school. Currie played a portion of a game with the Fredericton Baseball club several weeks ago. President A. W. Covey, of the maritime branch of the A. A. U. of Canada, was asked to indicate upon the matter. Jack Asten, of this city, has been definitely retained as coach for the University of New Brunswick Rugby team. He has been out with the squad several times, but his services were retained definitely today. Under his instruction U. N. B. defeated Mount Allison and tied Acadia at Wolfville last season. The Red and Black is out to repeat this season.

MATCHES SHOULD DECIDE WHO IS THE LEADING GOLFER

(New York Post.)

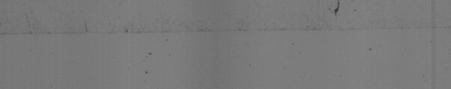

Those two thirty-six-hole matches scheduled to take place between Walter Hagen, British open champion, and Gene Sarazen, national title-holder, should settle for all time the question as to which of these two fighters is the greatest golfer of the age. The first thirty-six holes of this event will be played at the Oakmont Country Club at Pittsburgh on Friday, October 6, with the second match scheduled for the Westchester-Biltmore Country Club at Rye on October 7, the next day. At Oakmont Sarazen undoubtedly will have a slight advantage as a result of his victory in the recent Professional Golfers' Association championship tournament held there, but at Rye the tables will be slightly turned, as there are few blades of grass on the Westchester course that Hagen is not familiar with.

The match will be for \$2,000. As October is late in the golf season and daylight saving will not be in force, the match will start promptly at ten o'clock in the morning and two o'clock in the afternoon. This will permit the players to finish before nightfall and to play a few extra holes in case of a tie.

Colorful Neckwear Fanciful for Fall

\$1.15

THE smartest dressers are demanding striking color in their Cravats for fall—well chosen, too, worn with the darker topcoats and suits of the season. Diagonal stripes are particularly well liked—and we have 'em in Grenadines, and knitted and woven silks.

TELLS DYSPYPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and is the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

WHY ENGLAND GOES "FOOTBALL MAD"

(London Express)

The big ball games into the sports arena this afternoon, and once more Great Britain goes "football mad." About a million people will be watching professional football this afternoon in England, Scotland, Wales and that Freehold undisputed, from the fact that they are allowed to interfere with the entertainments of the public. In millions of British homes tonight and tomorrow the prospects of professional football clubs for the season which has just started will be discussed with all manner of eagerness and enthusiasm.

FORMER CANADIAN WOMAN CHAMPION LOSES AT GOLF

(Canadian Press Despatch)

Lambton Golf Club, Toronto, Sept. 20.—The surprises which featured the first round in the Canadian ladies' closed championship yesterday, were continued in the second round today when the number of survivors was reduced to eight. The Toronto and Royal Ottawa Clubs are the leaders with two representatives each while the other clubs still actively interested are Humber Valley, Hamilton, Lambton and Royal Montreal.

The biggest surprise of the day was the defeat of Miss Ada Mackenzie of the Mississauga Club, Ontario champion, and a former Canadian open title holder, by Mrs. T. F. Ahearn, one of the best players of Ottawa, but who has not before been prominent in Canadian championships.

Mrs. Ahearn started off strongly, winning the first three holes but Miss Mackenzie had evened the count by the time they made the turn. Mrs. Ahearn again took the lead at the tenth and increased it. Miss Mackenzie lost the seventeenth and was one down at the

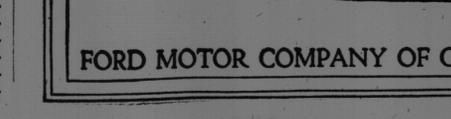

WIMBLEDON AND TENNIS HONORS

(London Times)

Few of those who follow with interest the game of lawn tennis will share the doubts of some of our correspondents as to the lawn tennis championships of the world. These championships, three in number, were instituted at a meeting of international delegates held at Paris on March 1, 1913, when the championship on grass was placed under the control of the Lawn Tennis Association on behalf of the British Isles in perpetuity. That right, we feel, should not be lightly surrendered, for it is conferred on this country only after mature reflection and a due regard to Great Britain as the Motherland of the game perhaps the most universally played in the world.

To every player, from Deauville to Tokyo and from Newport to Los Angeles and Sydney, Wimbledon is the home of lawn tennis, and it is the dream of every young player of merit to take part there in the world's tournament. With a noble history which is almost unrivalled in any other sport, Wimbledon is a true and fitting home for championships. We say this in no narrow, insular or unsporting spirit, and the records of Wimbledon are its own best testimonial, for it has drawn competitors from every corner of the earth.

The defeat of the present world's champion in America, actually need not place him "in a false position." Every champion has his "off days," and the vanquished of today may be the victor of tomorrow. Although it may be that America today is the undisputed home of lawn tennis champions, we cannot see the vanquished of today may be the victor of tomorrow. Although it may be that America today is the undisputed home of lawn tennis champions, we cannot see the vanquished of today may be the victor of tomorrow.

"I Was a Fright!"

"Nothing I Could Take Made Me Any Fatter."

"Up to the time I was seventeen years old, I believe that I was the most miserable and unhappy girl that ever lived. Honestly, I was a sight. I was the most ungainly looking creature you ever saw. I was thin and scrawny—straight up and down. My height was five feet nine inches and I weighed exactly ninety-one and three quarter pounds. No matter what kind of clothes I put on I looked like a fright. I was clumsy and awkward. I used to stand before the glass and study my features. I found I had a good nose, good eyes and a good mouth, but my cheeks were sunken and my face looked like a skull with a piece of parchment stretched over it. But nothing I could do or take made me any fatter. Men rarely even glanced at me. When they did, they merely gave me a casual, amused or pitying look—an expression which I am sure meant, 'why is a being like that allowed to large?' I used to lie awake at night for hours at a time wondering why there were so many beautiful girls in the world and I was so hideous."

For sale by J. BENSON MAHONEY, A. CHIPMAN SMITH CO., E. CLINTON BROWN, W. J. McMILLAN, MOORES DRUG STORE, F. W. MUNRO, WASSONS LIMITED, C. W. WALKER, ROSS DRUG CO., GEO. K. BELL, W. R. DUNLOP, West St. John

WIDER FIELD FOR KING'S TROPHY FOR CADET SHOOTING

(Canadian Press Despatch)

Ottawa, Sept. 20.—The much prized cadet rifle shooting trophy, the King George V. Challenge Cup, will be offered for competition on any government

For Acidity or Bile

When your stomach is upset Take Beecham's Pills

Beecham's Pills act as a splendid tonic to the digestive organs. They remove acidity and fermentation and excess of bile from the stomach and bowels and promote the secretion of the gastric juices. In thus correcting morbid conditions and stimulating the digestive processes Beecham's Pills naturally have an excellent effect upon the general health. If you have lost your appetite or are suffering from nausea, sick headache, constipation, or giddiness

Sold everywhere in boxes 25c-40 pills 50c-90 pills

The Last day of Summer

TODAY—the change in seasons. The wet fall days and the winter months are not far off. Indian Summer will make a break of good weather, but from day to day it is on the mind of every open car owner—"Should I put on my side curtains?"

Buy a Ford Coupe or Sedan. If the weather is fine, lower the windows; if stormy, close them and you have absolute protection and comfort.

The price of the Coupe is \$840 and the Sedan \$930 f.o.b. Ford, Ontario (both models fully equipped with starter and electric lighting.)

Says Boy Threw It.

St. Louis, Me., Sept. 21—A ten-year-old boy threw the pop bottle which struck "Whit" Witt of the New York Americans in the forehead in last Saturday's baseball game with St. Louis, according to Joseph Walsh, deputy United States district court clerk. Mr. Walsh was in the right field crowd and said he saw the boy hunt the bottle and disappear in the crowd.

Indians Get Smith.

Sherrod Smith, veteran left-handed pitcher, has been transferred to the Cleveland club of the American Baseball League, according to an announcement made by Charles L. Ebbets, president of the Brooklyn club. Waivers were asked on Smith and Manager Speaker claimed him, after all National League clubs had granted waivers.

He has been a member of the Brooklyn team since joining the club in 1918. In the world's series in 1916 he lost a fourteen-inning game to the Boston Red Sox and in the world's series of 1920 he defeated the Cleveland Indians in Brooklyn, but was beaten by the Indians in Cleveland. In recent years he has been used by Manager Wilbert Robinson chiefly as relief pitcher for the Robins.

TURF.

Races at Machias.

Good racing was enjoyed at Machias, Me., yesterday. The 219 class was won by Mr. Dell, owned by Charles Cone of Calais, best time 2:17.4. T. J. Devlin, owned by E. G. McDonald of Fredericton was third. The 220 class was won by Louise Todd, owned by Dan Groves of Milltown, best time 2:29.4.

Today's Grand Circuit.

Columbus, Ohio, Sept. 21—Due to yesterday's postponement because of rain, each day's Grand Circuit card has moved back one day and present indications are that the meeting will extend until Friday of next week instead of ending Thursday, as originally planned. Today's card will be featured by

THE NEW GOLF CHAMPION.

Mrs. Gavin of Hunterscombe, England, who won the Canadian women's golf championship at Toronto. The runner-up was Miss Alexa Stirling of New Hampstead, N. Y., who was a former champion of Canada.

The Hotel Southern stake for 211 paces, which it was predicted this morning would prove to be a three-cornered battle between Robert Direct, Laura Forbes and Abbedale. Three other events are on the programme.

FOOTBALL.

St. Peter's Hold Practice.

The first practice of the season for candidates for the St. Peter's team was held last evening on the St. Peter's Park with a turn-out of former stars on hand. Last night's practice was really more of an organization proceeding and real work will not start until this Saturday afternoon when a good work-out will be given to all the candidates for positions on the team. The veterans indulged in a little light work last night but concentrated themselves chiefly with their practice. The prospects are bright for a good team to represent the St. Peter's this fall.

RING.

Lyach in Ring Tonight.

New York, Sept. 21—Joe Lynch of New York, batman champion, will meet Jack Wolfe of Cleveland, a local round contest here tonight. Lynch's title will not be at stake, as conditions for the bout require both to weigh in this afternoon at 122 pounds, four pounds over the bantamweight limit.

Tenderly and Irvine.

William H. Stacey of Bangor, Me., writing to the Sporting Editor of the Times says he understands that James McNulty, manager of Joe Irvine, a local boxer, claims the middleweight championship of the maritime provinces for his charge. Mr. Stacey wishes to dispute this on behalf of Eddie Tremblay, formerly of St. Louis, P. E. I. He says he stands ready to back up his claim by letting Tremblay meet Irvine at any time within the next three weeks and if the latter refuses to do so he should stop claiming the championship, which Stacey says he never won.

BILLIARDS.

Hoppe Is Twice Victor.

Willie Hoppe opened his season of billiard play at the Hoppe-Peterson Club on Broadway by beating Charles Peterson in an afternoon exhibition 300 to 123, and trimming the amateur star, Italian Rice, 300 to 61, in the evening. Hoppe made a high run of 115 and averaged 87½ against Peterson. The latter averaged 17.6. Against Rice the former champion had a high run of 97 and averaged 42.6. Rice had a high run of 27 and averaged 8.7.

GOLF.

Players Nose Broken.

While playing golf at Westchester Hills golf course, New York, Samuel K. Fields of 34 Ridgeway avenue, White Plains, was struck with a golf ball. His nose was broken and his right eye injured. The accident was an odd one. Mr. Fields, with others, was playing when a ball driven with great force from another point on the course struck him in the face. He fell to the ground and his companions carried him to the clubhouse.

MUNICIPAL GOLF.

(Winnipeg Tribune).

Dame Fortune seems to smile on Winnipeg's municipal endeavors. The city has succeeded in big things, to wit in its hydro-electric system, in its Shoal Lake water supply and in its housing commission. It has succeeded also in quite other directions. One may without exaggeration describe the Municipal Golf Links, over which some 60,000 players have now passed in less than two years, as a huge success.

If the healthful pleasure, the rejuvenation of mind and body, derived by the citizens from the municipal links could be expressed in kilowatts or horsepower, the resultant figures would surely be amazing. For there is no tonic in the world like a round of golf. Our municipal links are happily circumstanced. They can be reached by a single street car fare. Situated in a beautiful part of old Kildonan they present a delightful combination of greensward, forest and stream. In some of the glades abutting on the river are carpet-like lawns where one could imagine oneself in the oldest corner of old England. A grassy bank runs along the level stretches. And even the Canadian Pacific Railway's freight cut-off has been turned to profit in two exhilarating hazards.

Throughout the season the course has been well kept and constantly improved. The Parks Board has contrived to create an air of good sportsmanship around the links and within and without the club house, the slogan of "The Public Be Pleased" has prevailed. Sympathetic touch with the private clubs of the city has been maintained by the visit to the links of their best players, amateur and professional.

Winnipeg's example has been an inspiration far and wide. This year Killarney, Birtle, Portage la Prairie, Kenora, Dauphin, Matlock, Sandy Hook and many other places, have made arrangements, or are making them, for the establishment of public links. On these links thousands of people are learning to play the ancient game. Golf is one of many directions in

BIG IRISH SINGER SAVES SITUATION.

How Talbot O'Farrell Calmed Fears of an Audience While London was Being Bombed—Another Incident

Montreal, Sept. 21—Talbot O'Farrell, universally known Irish singer and entertainer, is among the passengers returning to London on the Canadian Pacific "Empress of Scotland" this week. He left Liverpool in February of this year and has visited Australia, Java, Singapore, Hong Kong, Shanghai and other places in the Far East.

Mr. O'Farrell, a man of striking personality, is six feet or real mercurial and humor and is a typical, homely Irishman, having been born in County Wicklow.

O'Farrell, like all other "stars" has had his early struggle. He recalls with merit an occasion when in Greenock, Scotland, he was called upon to sing for a local club. "I had no songs with me," said O'Farrell, "so being Irish, went to the music store to buy a budget of Scotch songs, among them being 'Annie Laurie' and 'Kind Is My Mary.' 'Annie Laurie' I knew fairly well so decided to inflict that first, and having done so, was called upon to give spasm number two. 'That's lots it' I said to myself, but there was nothing for it and I found myself in the throes of 'Kind Is My Mary,' getting as far as 'Kind, and gentle is she' when I could not remember another word. In my agony I happened to spot a burly Scotsman up in the gallery laughing, so I took advantage of the opportunity to remark, 'If you think I'm here to be laughed at you're wrong' and immediately walked off the platform."

"What's the matter, what's the matter?" whispered the manager. "Oh! nothing, I only forgot the words." During the war, when London was being bombed by the German air-force, Talbot O'Farrell was booked to appear at the Wood Green Empire, London. It was on this occasion that O'Farrell had a very serious situation. The first house was nearly over, but the audience was taking little interest in the proceedings on account of the close proximity of falling bombs. Those inside were anxious to get out, and those outside wanted to seek shelter from flying fragments inside, and although the musicians had taken flight, O'Farrell walked on to the stage and addressed the audience thus: "Ladies and gentlemen, don't worry, it's here today to walk to Balfour, carrying a letter from Mayor Musgrave to Mayor Curley, of Boston. They will call at Halifax for a letter from the Y. W. C. A. to the Y. W. C. A., Boston, and are walking under Y. M. C. A. colors.

2200 People Witnessed the Showing of "THAT SOMETHING" At the OPERA HOUSE Yesterday Were You There? We hope some of them caught the inspiration that "THAT SOMETHING" conveys, and will profit by it. "THAT SOMETHING" will be shown 3 times Today For the Last Times in St. John At 2.15, 7 and 9. There Are Other Pictures on the Programme. Tomorrow "THE CALL OF HOME" A REAL PICTURE

RACING PREVENTED ON GRAND CIRCUIT BY MUDDY TRACK (Canadian Press Despatch) Columbus, O., Sept. 20—Today's card of grand circuit racing was postponed this afternoon until tomorrow on account of a muddy track. The postponement will extend the meet to Friday of next week.

BETTER WORD TODAY FROM HON. W. C. KENNEDY Montreal, Sept. 21—A report given out by the superintendent of Royal Victoria Hospital this morning was to the effect that Hon. W. C. Kennedy, minister of railways, who is at present a patient in that institution, had spent a good night and was progressing favorably.

Federicton Player Leaves. Bill Dean, who was playing manager of the Fredericton Baseball Club at the end of the season which recently closed, has left for his home at New Bedford, Mass. He was the last of the imported players with the Fredericton team to leave and may come back again in November for a big game hunting trip.

START FOR BOSTON ON WALKING TRIP FROM CAPE BRETON (Canadian Press Despatch) North Sydney, N. S. Sept. 20—Mrs. Alice Woods White, her brother, Ernest Woods, and Joseph Jones started from here today to walk to Balfour, carrying a letter from Mayor Musgrave to Mayor Curley, of Boston. They will call at Halifax for a letter from the Y. W. C. A. to the Y. W. C. A., Boston, and are walking under Y. M. C. A. colors.

### OVERLOOK 30 GIRLS ATOP BURNING LOFT

Firemen, Unaware of Their Presence, Fight a Fierce Blaze on Floors Below—Office Boy is the Hero.

New York, Sept. 21.—Thirty girls, receiving a warning almost too late, were in danger of death on the top floor of a burning building at 50 West Houston street, two blocks west of Broadway, but finally escaped by running down a smoke-filled staircase.

The five lower floors had been cleared and firemen had carried hose lines up to the fourth and fifth floors, which were ablaze, before the alarm was given to the thirty girls in the dress factory of Friedman & Kahn on the sixth floor. Through some misunderstanding, those who had spread the alarm through the building were under the impression that the girls had been warned long before.

Firemen, who had been told that everybody was out of the building, had just opened doors from the staircase into the burning Sabatoga hat factory on the fourth floor, when a cross-eyed office boy wearing spectacles came running down from the top floor, shouting:—

"Help me rescue these girls!"

The office boy was employed by the Regal Doll Factory on the second and third floors and had discovered that the girls on the top floor had not been rescued when he could not find a young girl that he knew among the hundreds who had fled from other floors to the street.

Rushing down the stairs behind the office boy came a crowd of young women, frightened by the smoke, hesitating and crying for help, until the firemen slammed the doors of the burning hat factory to smother the smoke in the hallway. Picking their way past the hose lines and wading down steps from which water was pouring in torrents, the neglected thirty girls reached the street.

In the meantime, responding to three alarms, thirty pieces of apparatus had forced their way through the heavy motor traffic, while their sirens scattered thousands on Broadway and other streets near the fire. The crowd going from office buildings to the subways was at its densest. On the streets west of Broadway pedestrians dodged into doorways as drivers of fire apparatus ran their vehicles upon the sidewalks to pass the jam of motor trucks.

Smoke was pouring out into Houston street and into Greene street from the two fronts of the building, which is "J" shaped, having a front at 153 Greene street, as well as at 50 West Houston street. The two wings of the "J" enclose the corner building, another six-story building, which is occupied wholly by R. H. Conroy & Co., dyers and bleachers. Firemen rushed hose up to the roof of this building.

The burning building is adjoined on the west by the Spring Exchange of the New York Telephone Company, where more than 100 girls were at work. Smoke began to drift in through the windows, causing some alarm among the girls. They were reassured by Mrs. Josephine Harding, chief operator, and those who were on duty remained at their switchboards, as firemen by dozens rushed up the stairs with hose.

The main fire-fighting force poured water into the burning fourth floor from the Green street side. Other firemen worked on the Houston street stairway. The firemen, advancing from both wings, drove fire, smoke and water at each other. Firemen were tumbling over their feet by the battering-rams of water from the firemen on the other side. The shouts of Battalion Chief J. J. Helm and others, endeavoring to straighten out this confusion, could be heard for blocks, above the pumping of the engines.

By the time all the apparatus had arrived, Houston and Greene streets were lousy on which seventy or eighty lines of hose were interwoven. A hose burst in front of the New York Edison Building and knocked down Joseph Cortese of 183 Bleecker street and was hurried to the New York Hospital with a sprained ankle.

Several Firemen Hurt.

Fireman Edwin Foley of Engine Company No. 18 got a blast of flames in his face from a back draught. His face and hands were badly burnt. He was taken to St. Vincent's Hospital. Acting Battalion Chief Edward Quinn's hands were severely lacerated by glass. Several firemen were overcome and were helped to the street by their fellows. These included Firemen J. F. Green, William Theall and John Englert.

When asked to estimate the damage, Battalion Chief Helm said that it would be like shooting at the moon to make a guess, but that he thought it would run to only a few thousand dollars.

Among the nurses attending the New Brunswick Nurses' Association meeting at Moncton this week are Miss Margaret Murdoch, superintendent; Miss Mitchell, matron, and Miss Grace Andrews, head operating room nurse, all of the General Public Hospital staff. The convention opened on Tuesday and finishes today.

GOODS BY AIRPLANE. Cleveland Firm Sends Them That Way To Insure Delivery.

New York, Sept. 21.—What is described as the first attempt to use the airplane for carrying merchandise to a retail store will be undertaken today. At the Mineola, L. I. flying field an airplane loaded with goods consigned to William Taylor, Son & Co., Cleveland, is scheduled to depart. It is expected that the trip to that city will be completed in six hours, the plane reaching there by noon.

This shipment by air is the first of four, the others to take place Thursday, Saturday and next Monday, providing flying conditions are suitable. The merchandise to be shipped is intended for the fall festival week of the store, which begins on Sept. 25. The shipment going forward today comprises imported Japanese kimonos, women's shoes, blouses and infants' coats. Merchandise of like nature will be transported in the other flights.

The shipment is being made by air according to an official of the company, because of the fact that the goods

must be available for the opening of the sales next Monday, and it was felt that there might be delay if the merchandise were forwarded by express of freight, owing to the rail strike.

SAYS NATION SPECIALIZED IN KILLING ITS OWN MEN

Major General Harris Declares That Half the American Army in World War Were Untrained.

Atlantic City, N. J., Sept. 21.—"This country has specialized in killing its own men. By that I mean that over fifty per cent of the men killed in the last war were killed unnecessarily, because they didn't know how to fight."

This was the statement made by Maj. Gen. George H. Harris, commander-in-chief of the Military Order of the World War, holding its convention at the Ambassador Hotel.

"We need adequate national defence," he continued, "and I am opposed to the thoughtless follies and propaganda of those who insist upon destroying and crippling our army and navy. It is a known fact that those persons who were trying so hard to do that crippling have never risked their own lives in battle."

HAD TO SIT ON BARREL. VALPINI COMPLAINS

In Suit Argues Famous-Players Dressing Room Was Too Small.

New York, Sept. 21.—Supreme Court Justice Wasservogel reserved decision on the application by the Famous Players-Lasky Corporation for an injunction restraining Rodolph Valentino from breaking a contract which it is alleged does not expire until Feb. 7, 1924, to go with another motion picture concern for a higher salary. Louis Marshall, arguing for the injunction, said that Valentino was a college man and knew what he was doing when he signed the contract. He was now accused of trying to break it.

Arthur Butler Graham, attorney for Valentino, told the court that misrepresentations were made to the actor as to the contract he signed, and that he was told it was the same contract as had been signed by Thomas Meighan. The attorney said it wasn't, and that Valentino got only \$1250 a week while he worked, while Meighan got a larger salary whether he was working or waiting.

Attorney Graham contended that the Famous Players-Lasky Corporation broke the contract first by featuring two women in "Blood and Sand" as co-stars when they were not stars, which damaged the standing, and that when he was making the film he had to use a dressing room so small that he could hardly turn around in it and when he wanted to sit down he had to use a barrel. He asserted that he had to pay the tendor who instructed him in his role out of his own pocket, and was not permitted to invite his friends to the private showing of "Blood and Sand" as other stars were permitted to do.

Valentino also complained that two days after he was married to Winifred Hudnut she was ordered back to New York and his employers compelled her to travel in an ordinary Pullman berth, where she was subjected to annoyance from reporters throughout her trip, instead of having a compartment. He said that this treatment of his wife so affected him that he could not work.

HAS ARMORED PRISON AUTO Sheriff Nagle Tries Out His Invention For Hauling Convicts.

New York, Sept. 21.—An armored motor car to transfer convicts to and from Sing Sing Prison will be put into operation today by Sheriff Percy E. Nagle, who got several thousands of dollars from the Board of Estimate to build this portable prison according to his own ideas. It is said to be the first machine of this type ever constructed here or abroad.

The auto is bullet proof, including its small windows, which consist of plate glass an inch or more thick. At the front and rear are compartments, each for two armed guards, with apertures for firing from the interior of the car. Each guard is equipped with a rifle and a revolver. The body of the car provides room for twenty prisoners.

It is intended to run the car on a schedule of three round trips weekly to the prison at Ossining at a minimum speed of 38 miles an hour.

The first trial of the machine was made yesterday by Under Sheriff Thomas Burke, with four guards and a chauffeur, by carrying twelve prisoners from police headquarters to Blackwell's Island.

THE TELEGRAM AND HON. M. W. DOHERTY (Toronto Telegram) Hon. Manning Doherty's efforts to break into Journalism via the Farmers' Sun were not crowned with success. But there is still a place open for Hon. Manning Doherty in a higher sphere. Lord Northcliffe's demise opens the way for Hon. Manning Doherty to make

### SUNSHINE FURNACE-- ECONOMICAL

AFTER efficiency of your heating plant in heating your home is the item of economy—only second in importance.

Most any furnace will burn fuel—

But, the test of performance is economy of fuel, as well as proper delivery of the heat.

In the construction of McClary's Sunshine furnace—pipe or one-register (pipeless)—you are absolutely assured of a furnace which will produce maximum results from your fuel.

—Built on principles founded upon seventy-

six years' experience in building heating appliances of every kind.

McClary's Sunshine Furnace is a tested and proven heating plant — tested and proven throughout the length and breadth of Canada, under every climatic condition.

Proven to give highest obtainable heat from fuel.

Proven to deliver the heat to the rooms of your home.

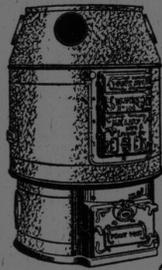

Guaranteed by McClary's to heat every room in your home.

Special for Soft Coal burning districts—McClary's all cast Sunshine Furnace.

Makers of those good enameled cooking utensils—"the clean ware".

Pipe or One-Register (Pipeless)

McClary's

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary, Saskatoon, Edmonton.

permanent that educational service he contributed to the British public with regard to the cattle embargo. Indeed, one of those mysterious Northcliffe wills may even provide that the London Times be turned over to Hon. Manning Doherty, that he may stand on guard for a protracted period between the British people and their government. Ontario will make any incidental sacrifice required, if Premier Doherty will co-operate. Times are out of joint, but the Times will be prepared to put the Empire on an even keel could Hon. Manning Doherty be persuaded to set up his milking stool in Fleet street.

EX-SENATOR COLE 100, CALLS WORRY LIFE'S FOE

Says Pessimism is a Brain Disease—Be Cheerful, He Tells Friends Congratulating Him.

Los Angeles, Sept. 21.—Cornelius Cole, former Congressman and Senator from California, who celebrated at his home the hundredth anniversary of his birth, told the multitude of friends who greeted him at a reception in his garden that "worry kills more people than bludgeons, bullets and disease."

"Keep your mind in order," he advised, "just as you expect your house to be kept in order."

"Hunger is a wholesome sensation, all excesses are dangerous to health and overeating is the commonest form of excess."

"Make your mind behave. Avoid anger. By all means avoid anger."

"Pessimism is a form of brain disease; it may be cured or cultivated by the power of the will."

"I hear much alarmist talk. Sixty years ago men said the country was going to the dogs, but it didn't seem to, some how."

"Years ago I wondered whether I'd ever live to see this century. And here I am twenty-two years into it, and still going. I've come to the conclusion that the climate must have a great deal to do with it."

Mr. Cole has several speaking engagements for this week.

### SUNSHINE GIRLS DRAW FULL HOUSES

Large Audiences at Queen Square Theatre For Second Week—Several Individual Stars—New Bill For Week-end.

The Sunshine Girls, in their second week's engagement at the Queen Square theatre, are drawing capacity houses and the audiences are delighted with the quality of the show put on by them.

The chorus opened their season here with a new set of costumes especially designed to fit their act. Al. Fox, the champion wooden shoe dancer of New England, appears in some unusually fine dancing numbers and executes some difficult steps. Joe Donovan, the leading comedian, was formerly with the Ting-a-Ling Company and his sallies are good for a laugh at any time. His parodies are especially unique. Jack Ryan is good both in his specialties and in his straight acting. Tiny Davis, petite sou-brette, shows a good deal of cleverness in her singing and her dancing is very nearly, if not quite, as good as that of

Mr. Fox. Margaret Haskell needs no introduction to St. John audiences as she has been seen here before with high class companies. Miss Frances Ryer, "the little girl with the big voice," and Miss Ethel Fox give some first-class songs and dances.

A new bill for today, Friday and Saturday, starts today. On Friday night a ballroom dancing night will be held and contestants are asked to leave their names at the box office. The Saturday matinee will be a children's show and prizes will be given to the kiddies. Next week is planned to be surprise week with something surprising every night. The Sunshine Girls will star then also. The whole show is clean and refined.

### GREAT MARKET FOR CANADIAN GOODS SOUTH

A great market for goods manufactured in Canada, as well as for Canadian wheat is offered in Colombia and Venezuela, according to E. C. Austin, who has been representing Canadian interests in a tour of these two countries.

Mr. Austin reached St. John last evening. In conversation with a Telegraph reporter he pointed out that in Colombia and Venezuela there was a combined population of more than 8,000,000 people, who were ready to purchase goods from Canada.

Mr. Austin was sure that Canada could secure a large portion of the trade with Colombia and Venezuela providing the goods were packed so as to reach their destination in good shape and the terms of credit were satisfactory.

PITTSBURGH BISHOP DEAD.

Pittsburg, Sept. 20.—The Rt. Rev. Dr. Cortland Whitehead, Episcopal bishop of Pittsburg, is dead.

Our home folks in these Provinces by the sea naturally ask for RED ROSE TEA when they want the very best.

RED ROSE COFFEE is free of dust—settles clear as a bell—no egg needed.

### Food for thought—

YOUR thoughts are largely the result of what you eat.

Grape-Nuts, the wholesome, healthful cereal made from wheat and malted barley, is a perfect food for constructive thinking.

The delicate, nut-like flavor, and the natural sweetness developed from the grains in the

20-hour baking process, are a joy to the taste.

Rich in the elements required to build and maintain sturdy strength and robust health, Grape-Nuts with cream or milk is a complete food for body and nerves—a delicious breakfast, luncheon or supper treat.

"There's a Reason" for Grape-Nuts

Sold by grocers everywhere!
