

UNIVERSITY LYING-IN HOSPITAL

SUBMITTED TO THE MEETING OF SUBSCRIBERS,

October 1st, 1869.

The Committee of Management have much pleasure in reporting to the subscribers the continued prosperity and success of the Hospital. During the year just brought to a close there were 143 patients confined in the wards, all of whom were discharged well, no death having occurred in the institution. For these results the Committee desire to return their earnest and grateful thanks to Divine Providence.

The number of patients admitted during the year just closed was 145. Of these there were:

Natives of Ireland	47
" Canada	73
" Scotland	8
" England	11
" United States	5
" Sweden	1
Total	145

With regard to civil condition, there were:

Married	41
Unmarried	104
Total	145

And with regard to religious persuasion, there were:

Roman Catholics	80
Protestants	65
Total	145

The improvements which have been made in the building, and for which additional rent has been paid to the proprietor, have proved to be of the greatest benefit to the patients. There have been no outbreaks of fever as formerly, and the patients have convalesced more satisfactorily. For the carrying out of these improvements the thanks of this Committee are due to their First Directress, Mrs. Molson, who has manifested in this, as in all other matters relating to the successful working of the Hospital and the well being of the inmates, the kindest interest.

Too much praise cannot be awarded to the matron, Mrs. McBride, for the efficient and

of his kindness and attention to the interests of the Hospital.

A reference to the Treasurer's account, which is herewith subjoined, will exhibit the sources of revenue of the Hospital and the application of its funds in general expenditure.

The balance at present on hand is much less than that of last year, but it is to be observed that, during the year, an investment was made in eleven shares of the Merchants' Bank of this city, which, with broker's fees, amounted to £295 12s 6d. This sum accounts for the principal part of the difference. Your Committee have only to remark that the strictest economy has been observed in their expenditure.

SELINA FRASER.

TWENTY-SIXTH ANNUAL REPORT OF THE UNIVERSITY LYING-IN HOSPITAL

SUBMITTED TO THE MEETING OF SUBSCRIBERS,

October 1st, 1869.

The Committee of Management have much pleasure in reporting to the subscribers the continued prosperity and success of the Hospital. During the year just brought to a close there were 143 patients confined in the wards, all of whom were discharged well, no death having occurred in the institution. For these results the Committee desire to return their earnest and grateful thanks to Divine Providence.

The number of patients admitted during the year just closed was 145. Of these there were :

Natives of Ireland	47
“ Canada	73
“ Scotland	8
“ England	11
“ United States	5
“ Sweden	1
—	145

With regard to civil condition, there were :

Married	41
Unmarried	104
—	145

And with regard to religious persuasion, there were :

Roman Catholics	80
Protestants	65
—	145

The improvements which have been made in the building, and for which additional rent has been paid to the proprietor, have proved to be of the greatest benefit to the patients. There have been no outbreaks of fever as formerly, and the patients have convalesced more satisfactorily. For the carrying out of these improvements the thanks of this Committee are due to their First Directress, Mrs. Molson, who has manifested in this, as in all other matters relating to the successful working of the Hospital and the well being of the inmates, the kindest interest.

Too much praise cannot be awarded to the matron, Mrs. McBride, for the efficient and orderly manner in which the Hospital is conducted. The thanks of the Committee are due to her for her invariable kindness and attention to the patients under her charge, and for the prudence, care and assiduity with which she has always manifested in the discharge of her duties. We have, as in former years, concluded on presenting her with a slight gratuity, as a mark of our appreciation of her services.

To the Reverend gentlemen of the Seminary the grateful thanks of the Committee are due for their generous donation.

The Ladies' Committee feel that it is due to Dr. McCulloch to express their appreciation

of his kindness and attention to the interests of the Hospital.

A reference to the Treasurer's account, which is herewith subjoined, will exhibit the sources of revenue of the Hospital and the application of its funds in general expenditure.

The balance at present on hand is much less than that of last year, but it is to be observed that, during the year, an investment was made in eleven shares of the Merchants' Bank of this city, which, with broker's fees, amounted to £235 12s 6d. This sum accounts for the principal part of the difference. Your Committee have only to remark that the strictest economy has been observed in their expenditure.
