SUITS FOR THE 24th. Buy Them at Harvey's

The cold, backward weather has kept many from buying their new Spring Suit until now, but now that the warm weather has come the overcoats will have to be dropped and a new suit is a necessity. The 24th is good time to start a new suit. We have the best stock of Ready Tailored Suits that we have ever shown and are selling them at prices that will save you many dollars.

Men's Suits \$5.00, 6.00, 7.50, 8.75, 10.00 \$12, 13.50, 15.00, 16.00, 18.00 to 20.00

ALSO NEW OUTFITTING SHIRTS, TIES, HATS, CAPS, ETC. J. N. HARVEY, Clothing & Tailoring Opera House Block

TWENTIETH ANNIVERSARY OF GREATER ST. JOHN

On May 18th, 1889, St. John and Portland Were United —Many Changes Recalled.

Today marks the twentieth anniversary of the greater St. John joined by the union of Portland and St. John. The union caused many changes, some of which are recalled by the event. Just 20 years ago today the Hon. R. J. Ritchie took his seat on the police court bench for the first time in place of E. Lester Peters, who was removed from office. Portland and St. John were made a united city and Mr. Tapley, the Portland magistrate, vacated his office.

The fire and police departments of both cities were united under the command of the St. John chief, the police appointments were made and the fire alarms of both Portland and St. John were connected.

The last meeting of the old Portland Council was held just 20 years ago last night with his worship Mayor Chesley presiding. There were present Aldermen Elkin, Price, Murphy, Chesley, Wallace, Jones, Vincent, Hayes, Forest, Hainsworth, Morrow, Connor, and McGoldrick.

Before the curtain fell a number of bills were passed, a few minor appointments were made, and the aldermen, one after another, made pretty speeches in reference to Mayor Chesley. In reply the Portland Mayor in a lengthy address spoke of the friendly feeling between him and the aldermen, and on the separation he hoped that the ten members who would go to the new council would deal with public questions in a way which would do honor to the city which was about passing away.

The new city of St. John would handle about \$500,000 annually, a great amount, and nearly as much was disbursed in the whole province. Ald. Murphy called for three cheers for the Queen, and after the minutes had been read and adopted, the last meeting of the Portland City Council adjourned.

About two o'clock in the afternoon just twenty years ago today the St. John Department, met Ex-Mayor Chesley, Ald. Chesley, Ex-Chief Engineer of St. John, with the exception of the Portland chief who vacated office, all the firemen were introduced to the new city. After a brief speech of thanks from Chief Kerr, the party visited the engine house where Chief Kerr was introduced to the men. Chief of Police Marshall appointed Sergeant John Weatherhead and Capt. Sawings as inspectors for the northern and southern divisions of the police respectively.

JAPANESE SEAL POACHERS BROUGHT TO JUNEAU

JUNEAU, May 17.—The United States revenue cutter Rush, arrived today from Sitka with the captain and crew of the Japanese sealing schooner Kelsen, which was seized in Redoubt Bay on May 4 for cruising within the three mile limit. The alleged poachers were taken to the federal jail. The bond for each of the crew has been fixed at \$300 and for the captain at \$1,000. The skins seized on the schooner will be held pending a jury's verdict. All the evidence against the Japanese sealers was introduced by the testimony of a number of Indians that they discovered the Japanese schooner inside the fishing limits.

JEFFRIES GIVES HIS WEIGHT AWAY; TIPS BEAM AT 243

CHICAGO, May 18.—James J. Jeffries has jumped on the scales in public for the first time since he came out of retirement and in the presence of a few interested persons tipped the beam at 243 pounds. Jeffries announced he would weigh again before he left the city and would show whether or not he was reducing his weight. He said his best fighting weight is 220. "I don't see where I am asking much for delay in training," said Jeffries, "I simply want to be in the best possible shape when I enter the ring. When Sullivan and Corbett signed up in 1892 it was in March. They met in September. How long did Fitzsimmons and Corbett have for training? It was a matter of months I know."

THEY OBJECT TO THE FREE GRANDSTAND

Canvas Screens May be Erected to Block the Sports Who Want to Save Ten Cents.

Judging from the interest displayed over last evening's contest, there will be a large attendance on the Shamrock grounds tonight, when the A. O. H. and St. John the Baptist aggregations will meet. The game will start at 6:45 o'clock and both teams will present formidable line-ups. There is a feeling among the players that an effort should be made to obstruct the view of the large numbers who congregate on the nearby hills. Last evening's grandstand men watched the progress of the game in this manner. In all probability canvas will be erected by the management.

S. OF E. CONVENTION OPENED THIS MORNING

At St. George—St. John Delegates Left by N. B. Southern.

The delegates to the semi-annual meeting of the Grand Division, Sons of Temperance, departed for St. George this morning. The sessions will be held today and continue on Wednesday. The reports to be presented will show an increase in the membership roll and a general advance in the temperance work. The grand worthy patriarch, E. S. Henning, will preside at the assembly. Others who will be present are Rev. C. W. Hamilton, Salisbury, grand worthy scribe; Rev. C. W. Fleming, Petticoat, past grand prolator; Joshua Stark, St. John, grand treasurer; Rev. Mr. Stavert and Miss Kirby, grand secretary of the young people's work. A public mass meeting will be held at St. George this morning, when Revs. C. W. Hamilton, C. Fleming, C. Stirling and W. W. Raimie will deliver addresses.

INSPECTING STAFF SEEMS SATISFIED

FREDERICTON, N. B., May 18.—General Drury and Co. White and Wadmore visited the R. C. R. this morning, and after inspecting the company's drill and the barracks were dined at the mess. The officers expressed themselves in the highest terms of their satisfaction with all they viewed. This afternoon the books will be inspected. Mrs. Monahan, mother of Terrance Monahan, proprietor of the Barker House is lying at the point of death at her home, Brunswick street, and can live but a very short time longer. The river dropped about four inches during the night and is still slowly falling.

SOLD FOR \$2,500

FREDERICTON, May 18.—The residence occupied by Dr. Steeves, belonging to the estate of the late G. B. Penney, situated on Brunswick street, was sold at auction this morning and was purchased by Miss Penney for \$2,500. The bidding was quite lively, but the price paid is considered exceedingly small.

HAINS OFF TO SING SING

NEW YORK, May 18.—Capt. Peter Hains, who was sentenced yesterday on conviction of manslaughter for the killing of William E. Annis, left the Queens county jail today for Sing Sing prison to begin serving his term of from eight to sixteen years.

MRS. MICHAEL DAVEY.

FREDERICTON, N. B., May 18.—The death occurred last night of Mrs. Davey, relict of the late Michael Davey, at her residence, George St. The deceased leaves two daughters and one son. The former are Mrs. Logue, wife of Fred Logue, a conductor on the C. P. R., and Mrs. Keenan, wife of Peter Keenan, I. C. R. baggage-master. The latter is Elbridge Davey, of Palmer's factory.

WILL PROBABLY BE SENT UP FOR TRIAL

Case Against Akery and Morrison for Robbing Pidgeon's Store Closed This Morning.

In the police court this morning two drunks were dealt with in the usual manner. Daniel Morrison and Harry Akery, the two boys charged with robbing the Star Line Steamship warehouse and D. B. Pidgeon's store at Indiantown, were again before the court. The evidence of Deputy Chief Jenkins and Detective Kilen was taken and the case closed. Detective Kilen gave evidence that on Monday, 10th inst., he was informed of the Indiantown robbery, and on Tuesday evening he and Deputy Chief Jenkins located the defendants in a Union street boarding house. On searching them they found a pocket knife and twelve dollars. A pair of pants were found hanging on the bed. Morrison said he got the money, amounting in all to about \$15, from Akery; he also got a knife and a pair of trousers from his companion. In answer to questions by the deputy chief Akery said he went in to Pidgeon's store alone and took the clothes and money. The clothes that at time were on his back he said were also stolen. He said he also got about \$5. They both said that they also went into the Star Line warehouse with Scribner and ate some beans there. At the police station Akery told of his old clothes being in Pidgeon's cellar. Witness searched the cellar and found Akery's old clothes and cap. Morrison said he had a shirt in Mrs. Doyle's, where they stopped one night. Witness got the shirt at Doyle's and took from the defendant a new shirt, collar, necktie, and pair of garters, which he said he got from Akery. Akery also told witness that he left a parcel of stolen goods at Hall's book store. Witness called at the store and got in the parcel some clothing. Deputy Chief Jenkins was called and corroborated the evidence given by witness. He said they were arrested the boys in the Elgin House on Union street. The boys said they both were carrying stolen goods. Akery said they were warned that anything they said would be used against them. Akery at first remarked that he had nothing to say. Then he said he had been into Pidgeon's. When he worked there he learned that the window was not very tight and he had a few new cents he broke in and got the money about 5:30 o'clock on Sunday morning. He said he took the money, the pants and gave them to Morrison. When he broke into Pidgeon's, Morrison was on the street as he (Akery) told him to wait for him. He did not know whether or not he had told Morrison he was going into the store. When he returned to the street he told Morrison he had got some money and gave him some. They then went to Mrs. Doyle's on North street. He counted the money roughly and he thought he had about \$15. Speaking about entering the Star Line warehouse, he told of eating some canned goods. Morrison said he had known Akery about a month and a half. He had no money when he came here on the 10th of May. Saturday night they slept in a barn and after leaving the barn Akery said wait here a minute and I'll be back soon. Morrison said he waited for about an hour and a half when Akery returned carrying a bundle and had on a different suit. They then went to Mrs. Doyle's boarding house, and spent the day walking about in the city. Akery gave him a pair of trousers, a shirt and a collar. Akery then was found a nickel watch, a knife and \$19.25, a tin, two packages of cigarettes, a mouth organ, a cap, suit of clothes, and a pair of suspenders. On Morrison was found twelve dollars and some of the stolen clothing. Akery was arrested last year on August 18th for stealing from the St. Railway Company and sentence was suspended on him. The prisoners were remanded and will probably be sent up for trial.

TORONTO GATHERING SWAYED BY MILITANT IMPERIALISM

DELICATE OPERATION BY UNSKILLED NEIGHBORS

Baby Saved After Mother's Death—Three Deserted Tots in a Pathetic Plight.

WINNIPEG, May 18.—A marvelous story of a delicate surgical operation performed by unskilled persons comes from St. Laurent, Man. What is known as the Canadian operation was performed with a common razor after the death of Mrs. Loust, wife of a resident of the district, by neighbors in the absence of a doctor. The child is still alive. Three little tots were found in a bank on a train at Emerson. When asked their destination they replied they were going to Star City, Sask. Their tickets expired at the boundary and it was further found they had only 30 cents between them. They had come all the way from Kansas, where their parents had deserted them, and they had been sent to Star City, where their grandparents now reside.

LAST P. E. I. ELECTION PETITION WITHDRAWN

Because of Alleged Lack of Evidence—Petty Robberies in Charlottetown.

CHARLOTTETOWN, P. E. I., May 18.—Petty robberies have been occurring in Charlottetown lately. The most recent was in Trousse Bros., Ltd., large dry goods store. The thieves broke in the plate glass window in the rear of the store, helping themselves to clothing, hats, etc. No clue to the perpetrators has yet been found. Today the trial of the election petition against Hon. J. H. Cummsky, Commissioner of Public Works, came up before Chief Justice Sullivan. The petitioner's counsel stated he would not proceed with the case not having sufficient evidence to show according to law that corrupt acts had been committed to influence a sufficient number of votes to affect the election. Cummsky's majority was 27. The case therefore was dismissed with costs.

CITY CELEBRATES LOYALIST DAY

Loyalist Day is being fittingly observed in the city. The amusement sources are the centre of chief attraction. On a number of the public buildings will open with an informal reception. At noon a salute of twenty-one guns was fired from the Dorchester battery by a detachment from No. 2 battery under command of Major S. B. Smith. At Keith's assembly rooms this evening the members of the Canadian Club will unite with the Women's Canadian Club in the observance of a "New Brunswick Evening." The proceedings will open with an informal reception of the guests by Lady Tilley and Mr. B. Allan, the presidents of the two clubs. While this is in progress an orchestra will play selections. Mrs. E. A. Smith, who has many qualifications as a speaker, will then give a short address on New Brunswick's Heroines. A vocal solo by Mrs. W. J. Henning will be followed by a brief address of the story of the Old Port by Archdeacon Raymond. The formal part of the programme will conclude with a song by Sydney Beckley. Refreshments will then be served while the orchestra plays further selections and a pleasant social hour will be spent. On the King Square stand the City Cornet band will render the first programmes of the season tonight.

TRUE BLUES ARE GATHERED AT SYDNEY

SYDNEY, N. S., May 18.—The annual session of the Provincial Grand Lodge of the True Blue Association opened here in the Y. M. C. A. building this morning. There are over 200 delegates in attendance, practically all the lodges in the province being represented. Very little business was transacted this morning, the time being occupied in the examination of credentials of delegates.

EXPRESS COMPANIES TRY TO EVADE SWEEPING CHARGES

ALBANY, N. Y., May 18.—Answers to the complaint made by the Merchants' Association of New York against the U. S. American, National, Wells Fargo and Canadian Express Companies have been received by the Public Commission. In each instance the companies move that the complaints be dismissed claiming that the commission has no jurisdiction in the matters that the complainant is not a person or corporation aggrieved by anything done by the companies and that it cannot make a complaint against the defendants under the public service commissions law. The association in its complaint stated that it has 1,200 resident members and many thousands of non-resident members engaged in business in various parts of the United States and alleged inequality of present rates ob-

TORONTO GATHERING SWAYED BY MILITANT IMPERIALISM

Banquet to Visiting Journalists from Antipodes Occasion for Utterances of Practical Patriotism

TORONTO, May 18.—A note of militant and industrial imperialism swayed the social gathering of Australians, New Zealanders and Canadians in Toronto last night at the banquet tendered to the visiting journalists by the press. "The hour is not now far distant," declared Sir James Whitney, "when the units which compose the British dominions beyond the seas will come together to confer on a magnificent plan of imperial federation. "Germany must be made to understand," observed the Lieut. Governor of Ontario, "that not only Great Britain but the Dominions beyond the seas must be reckoned with in any struggle which affects British supremacy of the seas." "Surely it would be a great thing to have a British cable giving from one end of the empire to the other records of your deeds. Surely a better system under which letters could be sent from New Zealand to London in three weeks would be a great thing and if our statesmen put empire first these could be consummated in a week," declared Grenley Lukin, of New Zealand.

GENERAL STRIKE MAY BE DECLARED IN FRANCE

Committee Declared in Favor of Such Action This Morning.

NEW YORK, May 18.—A Paris special cable to the Tribune says: "After prolonged discussion the federal committee of the general confederation of labor at 1:30 this morning declared in favor of a general strike to aid the postal employes. Another meeting of the committee will be held later in the day for the purpose of taking the measures necessary for immediate action." PARIS, May 18.—The daily meetings of the state postmen are now attended only by dismissed employes. The speakers at these meetings declared today that they had been betrayed by the proletarian organization but they had refrained from raising the white flag in the hope that the general federation of labor would declare a general strike.

PRISONER'S LUNCH WILL HELP TO PAY HIS FINE

Monoton Scott Act Violator Found a Pearl Worth \$100 in an Oyster He Was About to Eat.

MONCTON, N. B., May 17.—Albert Grouard was not so unlucky as he thought when last week he was arrested charged with three different violations of Scott Act and sentenced to aggregate fines of a hundred and fifty dollars or nine months in jail. While in the local lockup awaiting transportation to Dorchester, Grouard sent a policeman out to secure him some clams. As he opened one of the bivalves, he discovered a large pearl said to be valued at about one hundred dollars.

NEW YORK, May 18.—Wall Street—Opening dealings in stocks carried prices generally lower. Amongst the few gains were included the Northwestern Grangers. Transactions were in light demand.

Pictures of the \$10,000 Marathon

St. Yves and Evanberg, winner and place man in the \$10,000 Marathon held at the Polo grounds, New York, May 8. St. Yves led by five laps at the finish, and ran the 26 miles 385 yards in 2:44:36. St. Yves is shown with Evanberg running close up his heels, but in reality five laps behind the sturdy Frenchman.

American Anthracite, Scotch Anthracite, Reserve Old Mines Sydney. Delivered in bulk or in bags. Prices Low. R. P. & W. F. STARR, Ltd. 49 BMYTHE ST., 14 CHARLOTTE ST.

LOCAL NEWS

Str. Hampton will run an excursion to Hampton on May 24th. Miss Campbell, Milliper, has removed to No. 8 Sydney street. Bargains, removal sale of millinery at Mrs. Brown's, 75 Gorman St. Hats untrimmed etc. at MacLaughlin's, 107 Charlotte St. Maritime Rug Works clean carpets promptly. Phone us to call M 1981. NEW YORK DRESSMAKERS, reasonable prices. Telephone Main 1824-31. House 161 Mill St. Wm. Gibson, tailor, has moved to 36 Prince Wm. street, opposite Bank of British North America. Curtains done up for full housekeeping with homelike care at Ungara's, Tel. 93. To cure a headache in ten minutes use Kumford Headache Powders, 10 cents. Now is the time to have your clothes cleaned, pressed, repaired at McEartland's, the Tailor, Clifton Block, 72 Princess St. Phone 1618-11. A lecture by Lieut. Col. McLaren, followed by a smoker, will be delivered in the Armory this evening under the auspices of No. 8 Field Ambulance Corps. Dr. Archibald, field secretary of Acadia, gave an interesting lecture before the Y. P. S. of Ludlow street Baptist church last night upon Christian Education. The lecture was illustrated by seventy-five stereoscopic views, showing the buildings interior and exterior of Acadia, as well as places of interest throughout the Annapolis valley. Tea grown at an elevation of 5,000 feet is used in "Salada." It is remarkable for its fine flavor and its absolute purity is guaranteed. Ask your grocer for a packet.

HARRY VAIL AT BALTIMORE

The Ariel Boat Club of Baltimore formally opened its boat house this week. The club is now entering upon its 44th year, has been active in rowing all that time, and has won, first and last, several national and international championships. Harry Vail of this city has been the Ariel's coach for the past 15 years.

SAD HOME COMING FOR RETURNED MISSIONARY

It was a sad home coming for the Rev. Louis M. Duval, who reached the city at noon yesterday from his mission station in Southern Nigeria. Africa, via Liverpool and Quebec. Upon his arrival here, Mr. Duval was greeted by a group of friends, who had never seen, had passed away. Mrs. Duval had been staying in St. John with her son hoping that the little fellow would improve in health. However, he showed a gradual decline and died last week. The interment will be made today.

DR. CHRISTIE'S REPORT ON THE LEAN CASE

Dr. James Christie yesterday made an examination of Mrs. Fred Lean who was reported in destitute circumstances, and says the woman is suffering from a loathsome disease. Three weeks ago, he said, he saw Mrs. Lean, at which time he advised her to go into the hospital. She had grown much worse since and he was doubtful if they would receive her into that institution. In case she was refused admission there, the only thing that could be done would be to take her to the municipal home. Mr. Christie's report would depend what would be done in the case. The woman would have to be put into some institution and in the meantime he had taken measures for the temporary relief of the family.

FRANK J. CHENEY, Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1898.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. P. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

NO. 2 SECTION INSPECTED.

City Engineer Murdoch and Aid Frank chairman of the water and sewerage board, made an inspection tour to Loch Lomond yesterday and visited No. 2 section of the water extension. The leaks in this section of the reinforced concrete work were not found to have made any headway during the winter. There was not visible more than four or five places where water was seeping. Men are now at work digging the ground over the pipe to locate the leaks with a view to making repairs during the summer. The city is now receiving about 5,000,000 gallons a day from Loch Lomond and the remainder of the supply is being provided by Lake Umbagog, which is maintained at a level of two feet below Lake Umbagog. The water has been flowing over the dam for some months and the indications are that, with the heavy freshet, there will be a plentiful supply during the dry season.

EARTHQUAKE FELT AT TORONTO.

TORONTO, May 17.—The seismograph at the observatory here registered a slight earthquake shock Saturday night, believed to be the one that struck the west. The seismograph here also registered a strong earthquake at 2:13 this morning. It lasted one hour and thirty-two minutes. Large waves were at 3:21 and continued for ten minutes. It is estimated that the earthquake was more than 4,800 miles away.

INTEREST IS WANING IN MARATHON RACES

There will be no more professional Marathons at the New York Polo Grounds, in New York, for an indefinite period, as the metropolitan public is beginning to regard this so-called sport rather coldly. In the recent race, which had a number of foreign runners, who were making their first appearance in America, the attendance was only one-third of what was expected. The crowd amounted to 2,000, which is small for any New York enterprise that had as much advance publicity as the Marathon at the Polo Grounds. The result was that the promoters, instead of cleaning up another fortune, barely made expenses, and they announced in disgust that they will hold no similar contests until at least next fall. The professional Marathon race is not the sort of sport that promises to have long duration. It will probably die out just like the go-as-you-please races of olden days. It had a great run of prosperity last winter, due to the theatrical finish of Dorando in the amateur Marathon in the Olympic games at London. A shrewd pair of American promoters induced Dorando and Hayes and a number of other amateurs to turn professional and race here during the winter. Most of these races attracted enormous crowds, but when the book makers became too conspicuous at the contests public interest commenced to wane. There were many stories of collisions between runners and gamblers, and soon the New Yorker was looking askance at the professional Marathon. In the last race at the Polo Grounds one man, who made no attempt to conceal the object of his presence, accepted several thousands of dollars in bets and after the race was finished he was not to be found. When the bettors complained to the management, they were told that they had nothing to do with the wether, and could give them no satisfaction. With this and like incidents in mind, many sporting men believe that the Marathon craze has spent its force in New York, and at the same time will deter other cities from taking it up.

DETROIT WINS ON CRAWFORD'S TRIPLE

BOSTON, May 17.—St. Louis found Dornier easy and won from Boston today, 8 to 1. The weather was in favor of Detroit. One run already had been scored and Crawford got a triple, coming between singles by Hooper and Niles, gave Boston two runs. It was Fitcher King's first appearance this season. McConnell's fielding was a feature. Carigan and Moriarty have been suspended indefinitely because of their altercation of Sunday. Score: Detroit, 10; Boston, 3. Batteries, Killian and Stange; Burdell, Steele and Spencer. Time, 1:40. Umpires, Sheridan and Kern.

WILL PROCEED IN SPIITE OF PROTEST

Despite the protest of the Marsh bridge commissioners recently received at City Hall it is now thought that the work of reconstructing the abutment will shortly be commenced. The contractors, Messrs. Clark and Adams, are only awaiting official notice to proceed and so soon as the legislation recently enacted at Fredericton is approved the work will be started. The members of the Safety Board, it is understood, are not prone to attach any great importance to the protest, which they generally regard as an eleventh hour pronouncement, and even if they did, with the federal and provincial united with the city in the work, the contract signed and the Common Council pledged to the undertaking, there could be but little change effected.

BOARD TO MEET TO SELECT DELEGATES

A special meeting of the Board of Trade will be held this afternoon chiefly for purpose, it has been stated, of electing delegates to attend the seventh congress of the Chamber of Commerce to be held this year in Australia, September 14-17, not known whether or not St. John is to be represented at the gathering. Among the other matters slated for discussion it is understood that the approaching visit of Mr. Hardy will be taken up. On Black's Alley last evening, Jas. Letteney captured the weekly rolloff with a score of 194 in the Commercial League race this evening the Dunlop Rubber Co. and Electric will meet. Harry Donohue has resigned his position as spare driver in the freemasonry and Frank Furlong has been appointed to the position.

EIGHT HUNDRED FANS SEE FIRST GAME OF SEASON

The 800 fans who assembled on the Shamrock grounds last evening were treated to an exciting contest in the opening game of the season, when the St. Joseph's, by a score of 8 to 2, four full acts were performed before Umpire Arthur McHugh called the game on account of darkness. In fact the St. Joseph's had played their fifth inning and tied their rivals, but their scoring did not count. The ascension of the balloon came to both teams during the match, although the game was full of good playing and plenty of good material was evidenced. Arthur Mahoney was the slab artist for the North End aggregation. He pitched steadily half early in the contest, but clearly went to pieces in the latter stages of the game. He has a splendid delivery and with some practice will undoubtedly prove a valuable addition to the North End team. The spectators, who last season graced the Victoria grounds with their appearance, noticed their favorite, Thomas Barrett, in the box for the purple and white team. Barrett had five strike-outs and gave two men free tickets for the initial sack. The St. Peter's pitcher, J. Dever, struck out seven safe hits during the four innings played. The season is young yet and Barrett gives excellent promise. A NEW FIND. As shown by the line-up of the teams the St. Peter's also played McCowan, a new find. The St. Joseph's line-up shows somewhat of a change from last season. Callaghan handled the indicator. He shows a general knowledge of the game and after the season advances will no doubt give general satisfaction. Last evening he was called upon to render some close decisions and his judgment did always agree with that of a number of the rosters. The first game of the season would not be complete without a home run. "Mike" Burke landed upon the leather in the second inning, sending it clean over the left field fence. He made the circuit amid the cheers of the on-lookers. St. Peter's took the field at 7 o'clock and Arthur Mahoney threw the first ball across the plate opening the season. Long hit to short, but E. Mahoney muffed and the runner made safe. Small went down to first, and McCormick brought down the grandstand when he made a feature catch of Simpson's fly. St. Peter's were retired without scoring in their half of the inning. Capt. Britt touched the man as the first St. Joseph man in the second inning. He landed a two-bagger to left field.

WINNING OPENING DAY GAMES EASY FOR BIG HARRY HAMMOND, FT. WAYNE PITCHER

EVANSVILLE, Ind., May 17.—Here's as the most graceful performer in a delectable ballet. He resembles "Cupid" Childs about the time that dumping began to be called "Fatty." But even with his round-house, which frequently leads visitors to mistake him for one of the city fathers, Harry is some pitcher. He has been starred in openers for four years and has yet to lose one. Aside from this, Hammond appears to be "all there." If you doubt it, glance at his picture.

BASEBALL NATIONAL LEAGUE

Table with columns for team names (Brooklyn, Boston, Philadelphia, etc.) and game results.

AMERICAN LEAGUE

Table with columns for team names (Detroit, St. Louis, Cleveland, etc.) and game results.

EASTERN LEAGUE

Table with columns for team names (Buffalo, Toronto, Montreal, etc.) and game results.

SHRUBB SHOULD WIN

Alfred Shrubbs is "the class of the race" against St. Yves at Montreal this week, but don't bet on him. The distance is twenty miles, and while Shrubbs should and can run rings around him even at that distance, the little Englishman has a weak leg. It bothered him in the Longboat race at eleven miles, and at the longer distance it may even stop him or lose him the race. Shrubbs will win sure if he stands up the distance. That is the correct dope on the race.

Take Notice

And look, where you can furnish your home complete, at the lowest cost to yourself, and at the same time get satisfaction for your good dollars. Following are a few articles that will be sold at less than manufacturer's cost: 100 Bed Room Suits, consisting of bureau, commode and enameled bed, only \$11.99. 50 Parlor Suits, ranging from \$18.68 upwards. A full line of Sideboards, Odd pieces, Brass Beds, Carpets and Floor Cloths, etc., at the very lowest prices. It will also pay you to call and examine my high-class line of goods which will be sold 30 p. c. cheaper than you can buy elsewhere. An inspection of my stock and prices will convince you. DON'T FORGET THE PLACE. J. Marcus, 30 Dock St. Phone—Main 1373.

Synopsis of Canadian Northwest Land Regulations

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta.

(By Allan P. Ames)

The landlady regarded the pretty widow with some disfavour. "No," she snapped, "I never had a child in the house before, and I don't know what Mr. Chagrin would say."

"Wh-what?" gasped the amazed bachelor.

"Yes, snow," she almost shrieked. "That, or ice, is the only thing that will do any good."

GREAT TRIUMPH

The vaudeville acts at the Princess last night were the greatest success yet. From the time the doors opened yesterday afternoon till the last performance the house was crowded and hundreds were turned away.

OUT ON THE SIDEWALK SCOOPI-ING HANDFULS OF SNOW.

Chagrin never really understood how he found himself, clad only in pajamas and dressing gown and bath slippers, out on the sidewalk in a temperature near zero, scooping handfuls of snow from the bank in the gutter.

STAR'S NEW SHOW WENT BIG.

The great sea-story of kidnapping and marauding under the name "Shanghai" at the Star Theatre, North End, was watched with rapt attention last evening and will be a strong drawing card again tonight when the orchestra will furnish new up-to-date music.

SENATE REFORM.

There is everywhere a conviction that the Senate could with advantage suffer some radical changes. That conviction has been freely expressed and has met with ready consent from many members of the Senate.

WAITING BLOWS FROM JEFFRIES

Since James J. Jeffries has announced his intention of meeting Jack Johnson, the colored champion, in the square ring, next Tuesday, in New York theatre, "Well, there is no use in my making light of it and saying it is a daily joke because it is not. When we first went into vaudeville we were told that the public just wanted to get a good look at Jeffries and see how he trained. I was supposed to be just a sort of chorus man, a sump. But the very first appearance changed all that.

NECESSITY OF DEEP BREATHING.

"As to the system of training, why, I must work precisely as Jeffries does. When he runs, I run. If he punches the bag, I do my stunt at that. Same with rope-jumping—all the work. Jeffries does on the stage I do to a lesser extent, of course, in our training quarters. A man who spars with a fighter must have plenty of wind and speed, otherwise he is no good as a sparring partner. You must not pace a runner with a wobbly bicycle. Neither will you put an easily winded, slow man up for sparring partner for a fighter. I am a Chicagoan by birth, but I have lived so long in California, land of outdoor life, that perhaps I receive little credit for my fine physical condition, which gave me a chance to spar with Jeffries.

MUST THINK AND WORK.

"From that time on we certainly got busy, and what with trying to suit the audience, which wanted three good stiff rounds, and not displeasing the police department in the various cities, we have a regular whirlwind time of it. "When a man gets to the head of his profession, I don't care whether it be the law, sculpture, street-cleaning, pants-making or lighting, he has to be a man who thinks and works. Jeffries is a thinker. Every blow he hits, even in our stage stunts, is backed by a brain. He never loses his head. He never strikes at me wild. I am safer with him than with a man in a lower fighting class who has half of Jeffries' strength.

AVOIDS DANGEROUS SPECTS.

"Conversely, he does not act at those centres in sparring with me. He skillfully avoids them. So I am safe. "Then, you must remember that in sparring with me on the stage, while he must satisfy the audience that he is earnest, there is no money or reputation at stake. He does not have to think of the one big aim—finishing me off. And I don't mind telling you that while I have been sparring partner for a lot of the big men in the pugilistic field, I never met a man with Jeffries' disposition. I've got to keep up my end of the game, too, before the audience, and sometimes I land a good deal harder on Jeffries than he would do on me. Many a fighter would turn a bit ugly, but Jeffries never does—he never crosses up on me. He is, of course, in better shape than I am, and though we both come off winded, he will see if I not the worst of it, and insist upon the measure, or rub me out of me first. And if you've never stood or sat around, waiting for care or attention after a couple of stiff rounds, you can understand what this consideration means. When a man has reached the point in fighting where Jeffries is, he is not only a physical strength, he is also a mental power. His partner is not only safe, but fortunate.

MANY LEPEERS LANDING FROM PORTO RICO

NEW YORK, May 17.—What is said to be alarming laxity on the part of the Porto Rican government in the care and control of persons suffering with leprosy will be brought to the official attention of the United States government by Dr. Edward Ehlers, one of a party of four European experts who have been studying various diseases prevalent in the West Indies. He arrived in New York today on the steamer Caracas from Ponce, Dr. Ehlers said that under present conditions in Porto Rico, it is possible for many lepers to emigrate and carry the disease to the United States.

BYRGE GOING TO MAINE.

PORTLAND, Me., May 17.—Right Hon. James Bryce, the British ambassador, will have a summer residence this year at Northeast Harbor. Advice have been received here that Mr. Bryce expects to move her household goods about June 9.

TRIED TO KILL HIS UNFAITHFUL SWEETHEART

BOSTON, Mass., May 17.—Accusing his sweetheart, Jennie Moldoski, aged 20 years, with being unfaithful to him, Teddy Zalko, aged 23, of Providence, R. I., shot and slightly wounded the girl, and then turning his revolver upon himself, fired twice, inflicting serious, but not necessarily fatal wounds, at the girl's lodging place in this city tonight. Zalko is under arrest at the hospital, charged with assault with a loaded revolver with intent to kill. Miss Moldoski came to this city from Providence about three months ago.

DEATHS

MAHER—At the new Catholic Cemetery on the 16th instant, Hazel E. daughter of John and Sarah Maher, aged 18 years and 2 months, leaving a father and mother, four sisters and two brothers to mourn. Funeral on Wednesday at 2 o'clock.

MARKET NEEDS THOROUGH RENOVATION, SAY LADIES

The local branch of the Women's Council talked pure food yesterday and incidentally handed out a few bouquets to the Safety Board department of the city government concerning the administration of which the council has expressed sundry very decided views on several momentous occasions.

Yesterday's meeting was called for the purpose of hearing read a paper on pure food by Elizabeth R. Scoville of Gagetown. And it was only in the discussion that followed that the Safety Board was made the subject of the proceedings. Several of the ladies declared that the law forbidding smoking and other habits within the city was not being properly enforced and all protested that the institu-

tion stood fairly in the way of a complete renovation as regards maintenance.

The paper read by Miss Scoville was singularly well received. It evidenced careful thought and a wide knowledge of the subject being admirable in every way. Miss Scoville is even better known in the United States than she is in Canada and is generally regarded in the way of an authority on subjects relative to pure food.

Miss Scoville's address will be read by one of the local delegates at the Quintennial of the International Council of Women to be held at Toronto in June. At the conclusion of the address a vote of thanks was tendered Miss Scoville on motion of Mrs. Bullock and Mrs. George F. Smith.

WESTERN FARMERS DELAYED BY RAINS

Welland Canal Again Open—Old Woman Walking From Toronto to Hamilton Struck by a Train.

TORONTO, May 18.—Western Ontario farmers are complaining bitterly of the cold wet weather which makes it impossible to get their seeding done. Much of the country is under water, so incessant have been the rains.

Welland Canal was opened again for business this morning and locking was very lively all day.

Two stout bearded old women who were unable to make a living in Toronto, started to walk to Hamilton, their old home, a distance of forty miles, on Saturday morning. It was Sunday morning when they reached Port Credit, where a train struck Mrs. Sarah Spence, aged fifty-five years, of Jackson street, Hamilton, and broke her arm. Her companion, Mrs. Betty King, escaped unharmed. Mrs. Spence was brought to Toronto Hospital and will be looked after.

NORWEGIANS TO REPLACE STRIKING LAKE SAILORS

CLEVELAND, Ohio, May 17.—Victor C. Olander, general secretary of the International Lake Seamen's Union, said here today that he had received a report that five hundred Norwegian sailors were under contract to come to this country and take the place of striking seamen on the Great Lakes.

Officials of the union have taken the matter up with the immigration authorities and will make an attempt to prevent the sailors from landing. Secretary Olander says hiring the Norwegians is a direct violation of the contract labor law.

LUMBER COMPANY WAS TRESPASSING ON RESERVES

OKLAHOMA CITY, Okla., May 17.—A deputy United States marshal today seized five million feet of lumber, six wagons and other property belonging to the Pine Hill and Walker-Hopkins Lumber Company and other small concerns. The deputy acted in accordance with writs issued by the United States district court after an investigation by J. M. Mueller, a special agent of the Department of the Interior, relating to conditions in the timber reservation of the Choctaw nation.

The investigation was caused by charges of unlawful cutting of timber on the reservation.

WANT \$108,000 FOR Y.M.C.A. IN HALIFAX

HALIFAX, May 17.—A campaign was launched tonight by the Y. M. C. A. to raise \$108,000 for a new building. Eighteen subscriptions of \$1,000 each have been secured, and one of \$2,500. Besides this, the association has a site for the new building, and their old building, under agreement of sale, which together are valued at \$35,000. The total of \$22,500 remains to be raised, and the association will endeavor to secure it in the next few days. C. K. Calhoun, of Montreal, is here to take part in the canvassing.

HALIFAX MAN SUICIDED AT PRINCE ALBERT

TORONTO, May 17.—J. W. Currie, said to be from Halifax, committed suicide at Prince Albert, Sask., by taking strychnine. He was found dead at his hotel by the collector for a local firm, who went to collect \$10 alleged to have been obtained by deceiving on a forged note.

SKIPS WITH ONE TROUSER LEG

ATLANTA, Ga., May 15.—Roy Davis, member of the "Babes in Toyland" company, is the Grady hospital here this morning.

Good, you say. But he took French leave. And you ought to have seen his costume. Nothing he ever wore on the stage could match it.

His trousers were only half trousers. That is, they were all there but one leg. His own clothes were locked up, and he had to pick up the first thing he found. He had been in the hospital on account of an overdose of poison, following his arrest for stealing an auto. In spite of his clothes he made a clean get-away.

KEEP ON HAND.

Keep bay leaves in the house to flavor soups.

Tarragon vinegar for a sharp salad dressing.

Tomato juice instead of milk for an omelet.

Parsley, fresh or dry, for chicken stew.

Onion juice for potato croquet.

STARTLING JEWELLERY IS NOW IN FASHION

Startling Jewellery is now in fashion. At the present time fashionable women are wearing more jewellery than for several decades past. There was a time, and that not so long ago, when fashion decreed only the slightest amount of jewellery for women's wear aside from the opera or fashionable jewels at afternoon affairs, and even in the morning and inside milady's sleeping apartments.

This has resulted in a great mass of new jewellery inventions for women's wearing. In Paris the serpent seems to have fascinated the fashionable woman, and it is to be found in heavy metal coils, or even in entire coils of jewels wrapped around the fashionable woman's neck, where it is usually long enough to twist about three times and thrust its jewelled head upward and outward near the ear, with protruding fangs of gold and silver.

A WEDDING IN THE ISLES OF ARAN

The Isles of Aran are among the least known and most interesting corners of Ireland. The people, mostly fisher folk, are poor and ignorant, yet they speak the ancient tongue of their land with such purity and perfection that scholars from the great universities go to learn of them. An illustration of fourteen was recently the quite competent instructor in Gaelic of a three-year-old bridegroom, who was discouraged because he could not buy a ring. He need simply go to the nearest of the happy matrons who were ring wearers and borrow her ring.

Pulled proudly from her work worn finger, it went into his pocket until the ceremony; afterward the new bride wore it until the end of the honeymoon, when she returned it to the owner.

An Aran bride, however, knows little of honeymoons. It is common, the day after the wedding, to see her staggering up the beach under a creel of fish so heavy that a man of a race less hardy might hesitate to lift it.

Negotiations for a marriage are made with a girl's father and a dowry is expected. Business-like as this sounds, Aran lovers can be impetuous. Late one evening it occurred to a certain young man that he would like to marry a certain colleen, and to do so the next day. He hastily gathered a few cousins and at midnight they knocked at her father's door. Every one was abed, but the old man hung on something and opened; the rest of the family, hurriedly dressed, presently joined him.

The matter was arranged and early the next morning the priest was sent for, but there had been a storm and the sea was rough. He was delayed but the festivities were not into the midst of the convivial crowd came a messenger announcing that his reverend's boat was in sight; they decided to wait till he landed. Word came that he had landed; they waited for him to climb the path. He did so, but still they lingered, and only an imperative message that he was actually waiting in the chapel broke up the anticipatory jubilation. Then the groom raced ahead, the bride followed gallantly but a few yards behind, the relatives ran after in a so as you please

LARGE CONGREGATIONS AT THE ANNIVERSARY SERVICES

Large congregations attended the two services held yesterday in connection with the one hundred and twenty-fifth anniversary of the founding of St. Andrew's church. At three-thirty o'clock yesterday afternoon Dr. Johnston prefaced his series of sermons on the Holy Spirit with a short doctrinal discourse. He was listened to by a large audience composed of representatives from all the several Protestant denominations of the city. At the evening service Dr. Johnston preached an eloquent and inspiring sermon on character and the factors which go to make it.

GREAT CRISIS OF LIFE

Establishing the truth that in the great crisis of life the soul takes the path to which it has been accustomed. The preacher pointed out that Lot in being unable to wholly dispense with the memory of Sodom and Gomorrah and in turning back to take a last look at the doomed cities had been turned into a pillar of salt and had reared of himself an eternal monument to a vacillatory spirit. In the supreme hour of her life Lot turned to his old home groping after the things with which she had surrounded her life.

Continuing, Dr. Johnston by way of illustration stated that an experienced man unconsciously does the thing he once found difficult of consummation. Constant practices makes of the clumsy mill hand a skilled artisan. The work of a great musician becomes in time his second nature, and this is no less true in the world of morals.

A successful man after all is only he who possesses the ability to see the opportunity at the critical moment and to seize it. Our captives of commerce when called upon to decide in any momentous matter invariably act by instinct. They do not know why they do it, but only that it is the best course to pursue. The power is not a gift from the gods. It comes only after incessant labor and close application to duty.

Pilate found himself a coward in the greatest crisis of his life only for the reason that in the little things of his life he had taught himself to dodge the issue. Judas was covetous in the great crisis of his life because he had developed a covetous nature in dealing with little things. Men are cowardly or courageous according to the character which they have developed. There is no one of you here who will not arrive at some crisis when there will be no time to accept the issues or to consult the authorities. In that hour we shall tread the pathway we have already mapped out for ourselves in the little daily acts that go to make for character. Are you dwelling in secret sinences of unholly thoughts. In that hour you will trust in unholly things.

Dr. Johnston, proceeding, stated that in death the soul is held good and according to the little things acted upon in life so would the end be. In illustrating this the preacher instanced the cases which had come to his notice at Montreal. Two women were dying. They were both nearing the end and they both clung weakly for something, the anxious look in their faces told what they were most in need of. The one found it in a well worn Bible, the other in a pack of cards. They had died as they had lived.

Do not think that I am railing against cards, declared the speaker. I would not waste two minutes in their reprimand. But there are women in St. John, I have no doubt, who never see the Bible from one Sabbath to another and would yet count the day lost which did not supply the excitement of a rubber at bridge. You are each of you writing day by day your judgment.

Concluding, the preacher offered the gospel of Christ as the only means of effecting a change of character. "But I bid you open your hearts to the Christ of God, who will change the trend of your existence."

At the afternoon service Dr. Johnston sketched the history of the doctrine of the Holy Spirit. A person of the Trinity, which he held was not now being fully realized as a person and one which should become a very real factor in every one's life.

Dr. Johnston noted in opening his address the tendency outside the church towards materialism manifested some years ago. That the effect of this movement was only to be expected and the advances being made by spiritualism in our day followed in natural sequence.

Within the church there had likewise come a tendency to the denial of things spiritual. That this should now evoke a deepening interest in the doctrine of the Holy Spirit was an evidence of the same law.

Men are seeking after a greater power than their own, declared the speaker, in working out the momentous questions of the day.

During the afternoon service prayer was offered by Ven. Archbishop Raymond and at the evening service the same office was performed by Rev. David Hutchison.

Mrs. S. C. McNeil sang two solos very acceptably at last night's gathering. Professor Fox of St. John's (Stone) church presided at the organ. The services will be continued today at 2:30 and at 8 o'clock.

Dr. Johnston noted in opening his address the tendency outside the church towards materialism manifested some years ago. That the effect of this movement was only to be expected and the advances being made by spiritualism in our day followed in natural sequence.

MR. STUBB-HOLL ON MARRIAGE

Mrs. Stubb-Holl, I have some old novels I thought about donating to the home for disabled sailors. Here is one intensely interesting. In the first chapter during a very argument the hero, red hot with anger, rushes at the villain with blazing eyes. Then the heroine with glowing cheeks, Mr. Stubb-Holl on, Maria. "That's not appropriate reading for disabled sailors. You had better send it down to the home for retired.

FUNERAL OF C. A. EVERETT

WAS LARGELY ATTENDED. A large assemblage of citizens from all walks of life attended the funeral of the late Charles A. Everett, and paid their last tribute of respect to the deceased. The funeral took place at 2:00 o'clock from his residence, 11 Orange street. There was a large number of temperance bodies and other societies present at the funeral. The Sons of Temperance had a large representation in attendance at the funeral. The Temple of Honor members attended in a body. They assembled at the home of the deceased at 2:45 o'clock. La Tour Section members met at the Provincial Hospital corner with Fairville street and marched to Orange street to attend the funeral. They were led by C. D. Hanson, P. W. A. The Rev. W. W. McMaster, pastor of the German Street Baptist Church, conducted the burial service and interment was made in Fernhill.

And They Say the English Have No Humor!

The One Who Has Been "Nabbed": Strike me if my luck ain't' dropped out. They think that only this mornin' I had a 'air cut—a sheer waste of time.—London Sketch.

NEW INVENTION

MAY END WAR. Mysterious Powers of "Hertzian Waves." Remarkable Experiments by French Savant—Can Discharge Enemies' Explosives From a Distance. While the nations are building dreadnaughts against each other, the scientists have been busy discovering other weapons for the warfare of the future. Rifles and swords are mere toys compared to the weapons that science is perfecting. Quite recently a French savant made a series of remarkable experiments with what are known as "Hertzian waves" and he has shown that "without going too deeply into the subject it may be sufficient to explain that these waves are so called after Heinrich Hertz, who found by experimenting, about the year 1888, that it was possible to control to a large extent the magnetic currents in the air. The "waves" move along very much like a corker, and although for the moment scientists are not able to control them, or steer them in any given direction, there seems little doubt that this feat will be only a question of a few years. The effect of the "Hertzian waves" and the powder magazines, drenched in a shower of fire which no skill could divert, would be fired, and blow the biggest ship to fragments, in less than a minute. And not only so, but on land they would pass like a storm, and be employed with the most devastating effect. In every fort where powder was stored the danger from a series of shells would be always imminent. The soldiers against whom such a charred means of attack happened to be employed could not lift a hand to save themselves. The unseen "waves" would sweep with a spiral roll through the air, invisible as the finger of death itself, and just as invulnerable. The outposts and sentries would not have time to give the alarm, for as the "waves" passed them they would twist guns and swords into shapeless things, and any soldier remaining conscious would scarcely have realized his position before he heard the explosion and shrieks that would tell of the crumpling up of a mighty army like a piece of useless paper. The first scientists to discover how "Hertzian waves" may be propelled would have the power of the world in his hands. No nation would put an army in the field if it were satisfied that its men would be annihilated by the unseen forces of nature, without the chance of striking a blow in self-defence. No navy would put to sea knowing that the "waves" might scatter its fleet before the wind. Even if man had no nation should make the forthcoming discovery: at the same time, the chances of a warlike contest will be reduced to a minimum, and the announcement of the discovery will be the end of madmen to undertake. The outcome of such a momentous discovery must be peace.

MINTON CHINA

The Favorite of High Class English China. A Complete stock of most dainty decorations to choose from. O. H. WARWICK CO. LTD., 78 TO 82 KING ST.

LOCAL NEWS.

A child's cap was found on Prince William street yesterday and awaits an owner at the police station. A meeting of the officers and non-coms, and boys of the St. Stephen's Scots cadets is called for this evening at 7:45 o'clock. The members of the 2nd band will meet tomorrow evening at 8 o'clock sharp for practice. Court La Tour I. O. Foresters will meet in Foresters' Hall, Charlotte St., this evening. Admission of new members and other important business. Full attendance requested. A concert under the auspices of the J. Y. M. C. B. C. will be held in the Charlotte St. United Baptist Church, West End, tomorrow evening at eight o'clock. An excellent programme has been prepared and an enjoyable evening is assured for all who attend. There has been much interest shown in the concert which will be given in St. Peter's Hall on the evening of June 7. For some time past rehearsals have been in progress under the direction of Mrs. Wilson. The affair promises to be most enjoyable. A case of cruelty to animals was to have been heard in the police court this morning against an old man who had been charged with having caused a dog to be killed and a dog with a broken leg. S. M. Wetmore, secretary of the S. P. C. A., and W. W. Allan were in court, and after a talk with the old man, who decided to have the animal destroyed, the matter was dropped. ANOTHER POSITION. Miss Sabra Vincent, of North End, has been selected by the employment bureau of the Currie Business University to fill the position of stenographer for L. M. Trask & Co.

PEOPLE'S CIGAR STORE

I have the finest stock of Cigarettes and Tobaccos in the City. The undersigned has removed his branch laundry from 113 Union street, to 45 Waterloo street, where he will conduct said business in future. Persons wishing goods called for or delivered can ring phone Main 1718. HAM LEE.

FIRE INSURANCE

Absolute security for the least money. E. L. JARVIS, 81 Prince William Street, St. John, N. B.

REFORMATORY BOY COMES BACK IN HANDGUFFS

Leonard Moore Captured in Boston—Angus Dugay Also Arrested in Campbellton—One Still Missing. About seven weeks ago Leonard Moore, Angus Dugay and Irvine Earle escaped from the Boys' Industrial Home. So far two have been captured and returned to the home to finish out their sentence. Chained and handcuffed was little Leonard Moore as he descended from the Boston train last night in the charge of Mr. McDonald, the superintendent of the reformatory school at Croucheville. It may be remembered that about six weeks ago Leonard Moore escaped from the reformatory and for a time could not be traced. He made his way to Boston, where he soon fell in with some pretty bad characters and was recently arrested in company with others charged with robbing a drunken man. When in the juvenile court at Boston he told who he was and of his escape from the reformatory at Croucheville. The superintendent was communicated with and Mr. McDonald left on Saturday for Boston, returning last night with the wayward youth. The second of the boys, Angus Dugay, was captured yesterday in Campbellton by Chief of Police Crawford. News of his capture was sent here and it is expected that the boys will be brought back to the city in the course of a day or two. Chief Crawford reported that the boy had walked from St. John to within fifty miles of Campbellton mostly on the railroad, living on whatever he could pick up along the way. He was given a lift the rest of the way to Campbellton on a train. The boy's home is in Campbellton and he was helped off into Quebec. When his money gave out he returned to Campbellton where he was arrested by Chief Crawford who had been watching for him. The chief found him at his father's home, locked up in a room. He was taken in charge by the chief and the authorities here communicated with. Dugay was placed in the reformatory for stealing money from the steamer ship Sybil.

LETTERS FROM THE PEOPLE

To the Editor of The Star: Sir—The trout fishing season is upon us, the dawn of summer appears, the days are long, all nature is serene and the warmth of the sun calls all humanity to come and enjoy its soothing, purifying and strengthening brightness, with the added zest of casting a line in magnificent lakes and streams that surround our city. But, and to relate, the many old grey heads who possess wealth will tell you it is not right to dip a line in these waters of the people. It would be sacrilege for youths or working men to trespass in the neighborhood of these wildernesses. Those who have been able to put up buildings near them through their wealth of money to do so, and the poor boy or the poor working man must be imprisoned or fined if seen fishing or picking berries in the neighborhood of such. All legislation so far has been for the sole benefit of the gentlemen of the city who possess ample means to go further afield, and many of them do so, as well as control our best waters and streams, thus showing a very selfish condition of present day humanity. The workman of day today cannot afford to travel afar. Thus, should he have the free right to fish in any or all the lakes in the near proximity to his home as it was the right of his forefathers before him up to twenty years ago. Since that time the lakes have been taken from the people and legislated to be of exclusive private clubs. All who talk of this, which include all outside the clubs, consider it an outrage on public rights for the private citizen to hold these waters from the public use beyond the time (two or three years) they were allowed control to restock them. Our city now controls a great number of waters and streams that might be given freely to the public as their rightful heritage, as their taxes have purchased and acquired them. The waterworks dam, four miles from the city only, contains hundreds of trout. The many streams running into it, and if permitted to be fished on the shores would be a great relief to fathers and mothers, for it would give their boys an opportunity to escape from the many evils of so congested a city as St. John. Lattimore Lake, Robertson's Dam and the Mispic Stream (all city owned) would give a good day's outing with a mess of fish for the home table, to all adults who could walk thereto. If any doubt as to conduct of fishing parties, call on the permit by the mayor's clerk would secure the rightful use of the privilege. Nova Scotia has taken police of our wrong legislation and a petition largely signed has been sent to their government to prevent such action in that province. Up to the present all tourists who desire trout fishing and arrive here have to go to the country for free fishing. Thus we lose and they secure all that class, and they are many hundreds each season. Respectfully, J. B. CLIMO, London Chronicle.

CHICAGO MARKET REPORT.

May 18. Wheat, 123 1/2. Corn, 85 1/2. Soybeans, 11 1/2. Pork, 11 1/2. Lard, 11 1/2. Sugar, 11 1/2. Coffee, 11 1/2. Tea, 11 1/2. Rice, 11 1/2. Cotton, 11 1/2. Wool, 11 1/2. Hides, 11 1/2. Most of these are samples, and are sold at ONE-THIRD less than the regular price.

CHILDREN'S ROMPERS, from 43 cents up.

A SPECIAL SALE OF CHILDREN'S WHITE WEAR. Undershirts and drawers prettily trimmed. Your choice of the lot for 17 cents. These are made from nice, fine, English cotton, and are neatly trimmed.

F. A. DYKEMAN & CO., 59 CHARLOTTE ST.

Good Clothing for All Ages

Not mere "kiddies" of course—we have never carried boys' clothing. But from young men of the "first long trouser" period to men of years and conservative taste, we sell suits that are suitable.

For instance, in this Spring's line we have, mainly styled suits for young men who demand the very extreme of fashion. Prices, \$10 to \$35.

For business men, suits just as correct, but not so radical, at \$15 to \$25.00.

And other suits, including blacks out in Prince Albert, evening dress suits, fancy vests—a combination you desire, and PRICED RIGHT.

We call special attention to the line of washable vests, for men of all tastes and "drameters".

Exceptional values at \$1.00 to \$2.75.

A. Gilmour, 68 King Street

The Wife's Pride

Is a nice set of Silverware for her table. Good Silver always makes a fine impression at a dinner or luncheon. It adds zest to the appetite and indicates refined tastes. We can save you money on Solid Silver or Silver-plated Ware of the best quality. There are novelties in designs and every piece is most artistically finished.

A. POYAS, Watchmaker and Jeweler, 16 Mill St., St. John, N. B. Phone Main 1397.

THE WEATHER

Maritime—Light to moderate variable winds, scattered showers, but partly fair.

LOCAL NEWS

The Pythian male quartet will sing at the anniversary services in St. Andrew's Church tonight.

The most desirable stock of suits for men, young men and boys, is offered by C. B. Pidgeon and the prices on this handsome goods are lower than at any other store in St. John. You can always profit by going to the North End Store for Clothing—There's a reason.

ALLIANCE AROUSED BY SUNDAY TRAINS

Meet Tomorrow Afternoon for Discussion—Claim Law Will be Violated.

A special meeting of the Evangelical Alliance is called to take place in the parlors of St. Andrew's Church tomorrow afternoon at 4.30 o'clock. It is learned that the action of the Canadian Pacific Railway in deciding to operate Sunday trains to St. John is the topic for discussion.

It is contended that this action is an emphatic violation of the Lord's Day Act. The meeting tomorrow will probably pass a resolution opposing the running of the trains.

The C. P. R. authorities contend that the action is a justifiable one. They expected much opposition would be forthcoming in certain directions. It is stated that from Friday evening until Sunday night there is no express from Montreal. In this way the travelling public is much inconvenienced.

Victoria Day will be LOYALLY OBSERVED

An elaborate programme has been prepared for the celebration at the High School of Empire Day on Friday next. The afternoon session of the school will be devoted to appropriate exercises and several addresses will be delivered.

Principal W. J. S. Myles informed a representative of the Star this morning that the preparations for the programme had been completed, although the speakers had not as yet been secured. The programme will begin at 1.45 o'clock and continue till about 3 p. m. Some of the students will read essays fitting to the day, while recitations and school exercises will also be held.

Chairman R. B. Emerson, of the school board, Mayor Bullock and C. B. Allan, president of the Canadian Club, are expected to be in attendance and deliver addresses. It is probable that speeches will also be forthcoming from Rev. E. H. Hooper, chaplain of St. George's Society, and Aid. J. E. M. Hyster.

The High School orchestra under the leadership of Professor Bowden, will render a number of selections during the afternoon. The exercises as usual will be open to the public.

In the other schools in the city the day will be observed by the holding of exercises of a patriotic nature. The various principals have prepared fitting programmes.

On Monday the students will enjoy a holiday, the occasion being Victoria Day, the anniversary of the birthday of the late queen.

PERSONAL

Judge Wedderburn is staying while in this city at the Victoria, having arrived yesterday from Hampton.

A. R. Mowatt and T. Lister, who arrived yesterday from McAdam, are staying at the Victoria.

S. Buxton arrived yesterday from Halifax and entered his name at the Victoria.

J. D. Coffin, M. D., of Plaster Rock, is at the Victoria.

E. B. Maxon, of Fredericton, is a guest at the Royal.

Colonel McLean reached the city at noon today on the C. P. R. express.

Frank Brayley was among the passengers on today's Boston train. Miss Annie Cochrane of St. Martin is in the city for the purpose of taking the stenography course at Ketter's Business College.

LOCAL DOCTORS INSPECTED THE QUARANTINE STATION

Saturday Afternoon Pleasantly Spent on Partridge Island as Guests of Dr. Ruddleick.

Dr. Ruddleick, the genial quarantine officer at Partridge Island, last week invited the medical profession of St. John to pay him a visit. The invitation was accepted on Saturday afternoon and about twenty-two of the medical fraternity wended their way to Reed's Point where they embarked on the tug Neptune, which Dr. Ruddleick had kindly placed at their disposal.

About 3.30 p. m. the tug was loosed from her moorings. The weather man was in his best humor, and had given the hard worked medicos a fine balmy afternoon for a sail down the harbor.

Dr. Ruddleick met his guests near the island in the tug Neptune, and with the Neptune sailed around the island. The doctors enjoyed the sail, and upon landing they inspected the quarantine buildings. Many were surprised to see such modern buildings, in fact nothing was found wanting to make happy the lot of those who may be detained there.

After inspecting the buildings, Dr. Ruddleick invited his guests to his home where a bountiful repast was served by Mrs. James Lowell, Mrs. Dr. Ruddleick, Mrs. Hargrove and Miss N. McGowan.

After supper Dr. Pratt, President of the St. John Medical Society, extended to Dr. Ruddleick a hearty vote of thanks of the society, and Dr. Bentley, vice-president, moved a hearty vote of thanks to the ladies.

Dr. James Christie spoke fluently and feelingly of the many happy times he had enjoyed with the late Dr. Ruddleick, father of the present quarantine officer, and he also spoke of the high esteem that the late Dr. March was held in by his friends and conferees.

Dr. Ruddleick briefly replied on behalf of himself and the ladies. Three cheers were then given for the quarantine officer and the ladies. The medicos then turned their feet homeward, hoping that at some future day they may have the same invitation repeated.

CITY TEACHERS WILL ATTEND VANCOUVER CONVENTION

Two Have Announced Their Intention and Others are Also Hoping to Go.

During the past few weeks there has been considerable activity among the local school teachers on account of the Vancouver convention, which will take place at Victoria in July. It is hoped to have a large representation attend the meeting but as yet there has been no organized efforts to form a party.

There is a feeling that the railroad rates are excessive. It is thought that better rates may be available from the C. P. R. within the near future.

It was stated this morning that Miss J. H. Forbes had decided to attend the convention. They will visit friends on the Pacific Coast. A number of other teachers are also discussing the advisability of making the trip and it is quite probable that a few of the city principals will also attend.

HOPE TO HAVE NEW SCHOOL READY FOR SEPTEMBER

Contracts Will be Awarded in a Few Days for Two Story Building on Erin St. for Catholic Children.

Architect Brodie has received twenty tenders for the erection of a new school building at the corner of Brunswick and Erin streets. The contract has not as yet been awarded. Mr. Brodie stated this morning that a decision would probably be reached within the course of the next few days.

The new building is being erected by His Lordship Bishop Caspary. At present the smaller children in the vicinity of Brunswick street complain of the walk being too long to St. Malachy's and St. Joseph's schools. These buildings are also taxed to their utmost capacity.

The new building will be of two stories of brick and will contain four large and airy school rooms. It is understood that Miss Reid's class of Grade III girls in the Bishop's Terrace will be removed. It is hoped to have the new school completed in September.

WHARVES SUBMERGED BY SPRING FRESHET

Water Reaches a Very High Level at Indiantown.

Despite the fact that the river in various sections has been dropping considerably the freshest at Indiantown is still much in evidence. The spring tide has a tendency to keep the stream high, and it is improbable that there will be a decline before the latter part of the week.

The water at high tide almost reaches the car tracks. The wharves of many of the steamers are completely inundated, but the May Queen wharf has not been as yet submerged.

The freshest is declared by a number of the residents of Indiantown to be far in excess of the early spring overflowing.
